Housing could circle mansion

The Jeffersonian June 2, 1988

Katherine Drew DeBoalt

The stately Grey Rock mansion in Garrison could soon be ringed by townhouses, condominiums and a retail center if Baltimore County planners and a local developer have their way.

In a plan unveiled before the Baltimore County Planning Board on May 24, Dorment-Carter Enterprises, the owner of Grey Rock, agreed to preserve the 130-year-old mansion and the surrounding grounds in return for rezoning that allows 18 acres of condominiums and 30,000-square-feet of commercial space. Dorment-Carter recently purchased 58 of the 97 acres previously owned by the Trinitarians, a Christian religious group that had lived on the site since the 1950s.

The proposal is the most controversial part of the county's Office of Planning and Zoning study on the future development potential for the section of Reisterstown Road north of the beltway. At least one local community leader says that details of the study are an unwelcomed surprise.

"Frankly, I'm a little astonished. Reisterstown Road wasn't supposed to have any more commercial zoning. There's no need for 30,000 more square feet," said Jeffrey Levin, president of the Pikesville Community Growth Corporation, a local organization composed of business and community groups that had requested the study.

Levin objects to any additional commercial development along the corridor because he claims it directly contradicts one of the primary goals of the planning study. He also warned against any decision based on oral agreements with the owners of the former Trinitarians' property.

"How could (the OPZ staff) recommend anything that's not in writing?" asked Levin.

Because county law bars the planning office from entering into covenents with Dorment-Carter, OPZ Director David Fields said his office is hoping to enlist the Valleys Planning Council, a local citizens' group, or a neighboring landowner as the other party in an agreement with the developer. Fields would like to see the covenent signed before the planning board makes final recommendations to the county council next month.

Lisa Keir, executive director of the Valleys Planning Council, declined to comment on the possibility of a covenent with her group because she had not yet discussed the issue with her board of directors.

As part of the restrictive covenent, senior county planner Jack Dillon said the staff plans to insist that the retail center contain businesses, such as a bridal shop and florist, that are compatible with the catering operation that currently operates out of the mansion.

But Levin contended that the proposed corridor study unfairly curbs development near Pikesville so that other nearby growth areas, like Owings Mills, can expand. He cited a Department of Public Works study stating that unbridled growth in the

Continued on page 4

Housing could circle mansion

Continued from page 1

area would eventually overburden the local sewer system. So, he charged, the planning staff is purposely limiting the amount of residential building on the Grey Rock property and placating the developer with commercial space.

In addition, Levin argued, the proposed retail center will detract from business revitalization efforts in Pikesville.

But area planner Dillon said that Levin is just trying to protect his own vision of the area's future.

"We're not trying to direct the growth any more than he is," Dillon said. "There's a world outside of Owings Mills and Pikesville. We're trying to create a well-monitored, well-defined plan that will fit with the area."

After a brief discussion of the proposed agreement, the planning board decided to delay making any recommendation on the request until next month. But board member John Disney, who chaired the meeting, made it clear that the advisory panel was leaning toward approval of the proposed covenent and subsequent rezoning.

"I think the parties involved here get the feeling of what we're going to do," he said.

Levin also took issue with another part of the Reisterstown Road study when the board tentatively recommended single-family homes and limited office development along the stretch between the beltway and Greenspring Valley Road. The planning staff said it is trying to maintain the flavor of the corridor which is now dominated by country clubs and large historic estates. But Levin said he fears that the low-density residential zoning will be incompatible with the noise and traffic of Reisterstown Road.

"It will only maintain (the flavor) if it works," he said. "Four years from now if it is still undeveloped some aggressive lawyer will come in and say, 'I can't use it with this residential zoning, but I can make a hell of a shopping center.' "

Instead of single-family homes, Levin said he wants high-rise apartments that could absorb population growth in the area, protecting now untouched sites from development.

The planning board will make final recommendations on Reisterstown Road and 1,200 other rezoning requests to the County Council on June 28. After a round of public hearings, the council will vote on the final zoning designations in October.

Grey Rock community will feature villas, flats

By **Edward Gunts**
THE BALTIMORE SUN

JUNE 9, 1991

After four years of planning, a development team headed by John Dorment, Richard Carter and George McCleary has opened a sales center for Village of Grey Rock, a $50 million, 247-unit community on a 52-acre parcel once part of the estate where Revolutionary War hero John Eager Howard was born.

Groundbreaking ceremonies for the initial residences will be held June 17 for the development, which also will include 30,000 square feet of commercial space.

The property, off the 8900 block of Reisterstown Road, is one of the largest parcels still available for development in the Pikesville area. The houses will be next to the historic Grey Rock mansion, which dates from about 1700, was restored around 1890, and now is leased by Valley Caterers.

CDC NO NO-19303

Designed by Columbia Design Collective, the gatehouse community will feature a relatively new design concept for Baltimore County, a mixture of housing units called villas and European flats.

For the 87 villas, the traditional design of the town house was modified to produce a grouping of residences that suggests the appearance of a manor house. For the 160 flats, CDC created a series of connected buildings intended to evoke a European town while reflecting the mansion's scale.

CDC incorporated elements of the Grey Rock mansion in the design of the community, including the use of bow and bay windows, balcony railings, and a stucco-like exterior. Rose-colored brick was used to lend a sense of quality and tradition to the residences.

"We came up with what we felt was the ultimate plan," said Mr. Carter. "Every home, the European flats as well as the villas, will have its own garage with direct access to the house. Every home will have a private entrance. All entrances will front on courtyards to enhance the feeling of privacy. Every flat is designed with a . . . floor plan which is totally unique in this market."

s for flats will start below $150,000. All three models of the villas will have two-car
ll range in size from 1,300 to 1,750 square feet, not counting their garages. The first

residences will be ready for occupancy by the end of the year, and the entire community is expected to take two to three years to construct.

Grey Rock Inc. is the name of the development team, which acquired the land for $5.6 million in 1989. Doug Magill of Long and Foster is the broker for Village of Grey Rock. The Bank of Baltimore is the construction lender. Steve Clark & Associates Inc. has been hired as an urban forestry consultant. The sales center is open daily from noon to 6 p.m.

RE: Grey Rock Phase IV
1st Amended Partial Development Plan
3rd Election District, Revised Response

Dear Ms. Busse,

This is a response to your letter dated April 9, 2004 requesting reconsideration of a zoning spirit and intent determination made in a letter dated February 2, 2004.

Based on the provided information and your meeting with Mr. Kotroco and myself on March 2, 2004, the response of this office has been changed. The changes to the lot lines to reduce panhandle widths and renumbering the lots has been determined to be within the spirit and intent of the order and plan in case # 03-477-SPH.

Please document this response verbatim on 10 revised final development plans and send these plans, attention to Kristen Weis, PDM Room 123, Baltimore County Office Building, for final approval. The $50.00 fee was paid under check # 2372.

I trust that the information set forth in this letter is sufficiently detailed and responsive to the request. If you need further information or have any questions, please do not hesitate to contact me at 410-887-3391.

Very truly yours,

John L. Lewis

Re: First Amended Partial Development Plan
Grey Rock, Phase I

Dear Mr. Jablon:

I am the president of the Grey Rock Flats Condominium Council, Inc. (the "Association"), which is the flats community association in the subdivision known as Grey Rock.

With respect to the proposed villas reflected on the First Amended Partial Development Plan of Grey Rock, Phase I, the Association has no objection to the proposed unit density and width changes reflected on that plan, which changes consist of reduction in the widths of the villas and the addition of 29 villas units in Phase I.

The Association will not request a hearing on these proposed changes.

Very truly yours,

Grey Rock Flats

All spaces will be 8-1/2' x 18'. Garages must remain for storage of cars and cannot be converted for other uses. All driveway spaces will be assigned to the same unit as the garage. All other spaces are unassigned. The Zoning Commissioner has approved this parking plan as it regards Section 409.2 BCZR. Parking for Phase IV is restricted to 210 spaces per a covenant signed October 24, 1991. A portion of said parking may be used to service amenities constructed on residential portions of the Grey Rock development.

Local Open Space (Phase 1 only)

Required = 121 D.U. @ 650 s.f. = 1.81 Ac.±

Proposed = 2.69 Ac.±

Maintenance and ownership of Local Open Space will be determined prior to record plat. Condominium Open Areas (C.O.A.) will be retained and maintained by a condominium association.

Landscape Planting (Phase 1 only)

The final landscape plan has been approved.

Details of 100' promenade along Reisterstown Road will be developed consistent with the RRCS as allowed by DEPRM.

Planting required for RTA will be determined on Final Landscape Plan.

All planting including RTA buffers will be in accordance with the Baltimore County Landscape Manual. A credit may be sought for retention of existing trees within the net buildable area.

3. Setbacks:

Minimum setbacks in plan meet zoning requirements as follows:

0 Feet Building to Lot Line or Property R/W (Public Road)
30 Feet Building to Tract Boundary
50 Feet Building to Existing Street Centerline
25 Feet Building to Existing Street Right-of-Way (Public Road)
22 Feet Garage or Carport to Street Right-of-Way (Public Road)

Where windows are provided, they will meet the following minimum setbacks:

35 Feet Window to Tract Boundary
15 Feet Window to Lot Line
40 Feet Between Opposing Windows
25 Feet Window to Street Right-of-Way (Public Road)

Building will conform to meet height and length requirements as follows:

0-20 Foot Height = 16 Feet Between Buildings
20-25 Foot Height = 25 Feet Between Buildings
25-30 Foot Height = 30 Feet Between Buildings
30-40 Foot Height = 40 Feet Between Buildings
40-50 Foot Height = 50 Feet Between Buildings
300 Foot Maximum Building Length
50 Foot Maximum Building Height

In Transition/Unlike Use/Facing Residential Setbacks will be as follows:

Front - 75 Feet
Side - 75 Feet
Rear - 150 Feet
Parking - 75 Feet
Building Height - 35 Feet Maximum
Building Length - 130 Feet Maximum
Distance between Facing Elevation = 1-1/2 x Height of Highest Building

4. Envelopes shown hereon are for the locations of all principal buildings only.

Accessory structures, fences, and projections into yards may be constructed outside the envelope, but must apply with Sections 400 and 301 of the Baltimore County Zoning Regulations (subject to covenants and applicable building permits).

Accessory structures, fences, and projections into yard cannot be located in flood plain areas or hydric soils.

5. Existing private sewage disposal system shall be pumped and either backfilled or removed prior to record plat. Existing drilled wells shall be backfilled by a licensed well driller prior to record plat and well abandonment reports submitted to the Department of Environmental Protection and Resource Management.

6. Existing vegetation consists primarily of open lawn areas with a few ornamental plantings. Existing trees will be retained wherever possible. Slopes of 25 percent or greater are minimal and are shown.

7. Estimated Average Daily Trips (Phase 1 only):

121 Townhouse/Condominium Units @ 8.5 A.D.T's = 1,029 A.D.T.'s

8. All driveways and parking areas will be paved with a durable and dustless surface of bituminous concrete, portland cement concrete or macadam. A 4-1/2" mountable curb and gutter will be used.

9. Trash and refuse shall be collected privately at curb.

10. This development plan is approved by the Director of ZADM based on his interpretation of the Zoning Regulations that it complies with present policy, density, and bulk controls as they are delineated in the regulations. Any part or parcel of this tract that has been utilized for density to support dwelling shown thereon shall not be further divided, subdivided, or developed for additional dwellings or any purpose other than that indicated presently on said plan. Utilization will have occurred when a building is constructed and transferred for the purpose of occupancy.

11. CRG Plan of Grey Rock was approved by County Review Group on 9/7/89. Revised CRG adding pool in Phase 1 was approved 2/4/91. Amended CRG for Phases 2 and 3 relocated villa flats and was approved 2/14/91. 2nd Revised Amended CRG for Ph. 1 relocated some townhouse building groups and the pool and was approved 3/11/91. 2nd Amended CRG of Ph. 1 which changed the number and size of townhouse units was approved 8/26/93. This Development Plan complies with the CRG plan and all CRG comments.

12. All dwellings and lots of record less than two acres in size off site that create an RTA on site are shown to the best of our knowledge with their respective 300 and 250-foot arcs and required buffer areas.

13. All proposed interior roads excluding Greene Tree Road and Castleton Avenue are private. Unless otherwise indicated, all utilities are private. All 24-foot wide roads shall be posted to prohibit parallel parking.

14. When the right-of-way for Castleton Avenue is acquired by Baltimore County, a franchise agreement will be executed to allow private utilities to remain within the right-of-way.

15. School District: Millbrook
Capacity: 416
1990 Enrollment: 417
1991 Projected: 430
Estimated Pupil Yield (Phase 1): 12

16. A Final Landscape Plan must be approved by the Office of Planning prior to the issuance of grading permits.

17. Provisory Section

The provisory section of this partial development plan is not intended nor should it be utilized as a final development plan from which building applications may be approved or issued. Its purpose is to provide those who purchase homes within 300 feet thereof with a reasonable understanding as to how the developer will improve all adjoining vacant land that lies within 300 feet of their home.

The dimensioned boundaries of the "Provisory Section" as indicated hereon are not intended to separate it from the overall approval of this partial development plan including the "Provisory Section" must be approved in accordance with Section 1B01.3.A.7, Baltimore County Zoning Regulations.

Approval of the "Provisory Section" is not based on final engineered plans; however, it is intended to establish: the final location, height, use, and density of buildings or their envelopes to within 25 feet of their engineered location; the location and type of existing major vegetation that is to be retained; screening, parking areas and drive to the extent possible so as to coincide with their final or permanent improvements, and other pertinent amenities.

At the time of building permit applications, the "Provisory Section" of this development plan must be updated to comply in all respects to the form and content required by Section 1B01.3 of the Zoning Regulations.

18. The limit of the Forest Buffer Easement (F.B.E.) is shown on the plan. There shall be no clearing, grading, construction, or disturbance of vegetation in the F.B.E. except as permitted by the Baltimore County Department of Environmental Protection and Resource Management. Protective covenants governing the use of the F.B.E. shall be recorded with the Land Records of Baltimore County at the time of plat recordation and shall run with the land in perpetuity.

Reason for 1st Amendment - 11/30/93

3. Setbacks:

Minimum setbacks in plan meet zoning requirements as follows:

0 Feet Building to Lot Line or Property R/W (Public Road)
30 Feet Building to Tract Boundary
50 Feet Building to Existing Street Centerline
25 Feet Building to Existing Street Right-of-Way (Public Road)
22 Feet Garage or Carport to Street Right-of-Way (Public Road)

Where windows are provided, they will meet the following minimum setbacks:

35 Feet Window to Tract Boundary
15 Feet Window to Lot Line
40 Feet Between Opposing Windows
25 Feet Window to Street Right-of-Way (Public Road)

Building will conform to meet height and length requirements as follows:

0-20 Foot Height = 16 Feet Between Buildings
20-25 Foot Height = 25 Feet Between Buildings
25-30 Foot Height = 30 Feet Between Buildings
30-40 Foot Height = 40 Feet Between Buildings
40-50 Foot Height = 50 Feet Between Buildings
300 Foot Maximum Building Length
50 Foot Maximum Building Height

In Transition/Unlike Use/Facing Residential Setbacks will be as follows:

Front - 75 Feet
Side - 75 Feet
Rear - 150 Feet
Parking - 75 Feet
Building Height - 35 Feet Maximum
Building Length - 130 Feet Maximum
Distance Between Facing Elevation = 1-1/2 x Height of Highest Building

4. Envelopes shown hereon are for the locations of all principal buildings only.

Accessory structures, fences, and projections into yards may be constructed outside the envelope, but must apply with Sections 400 and 301 of the Baltimore County Zoning Regulations (subject to covenants and applicable building permits).

Accessory structures, fences, and projections into yard cannot be located in flood plain areas or hydric soils.

5. Existing private sewage disposal system shall be pumped and either backfilled or removed prior to record plat. Existing drilled wells shall be backfilled by a licensed well driller prior to record plat and well abandonment reports submitted to the Department of Environmental Protection and Resource Management.

6. Existing vegetation consists primarily of open lawn areas with a few ornamental plantings. Existing trees will be retained wherever possible. Slopes of 25 percent or greater are minimal and are shown.

7. Estimated Average Daily Trips: (Phase 2 only)

154 Condo Units @ 6.1 A.D.T.'s = 939 A.D.T.'s

8. All driveways and parking areas will be paved with a durable and dustless surface of bituminous concrete, portland cement concrete or macadam. A 4-1/2" mountable curb and gutter will be used.

9. Trash and refuse shall be collected privately at curb.

10. This development plan is approved by the Zoning Commissioner based on his interpretation of the Zoning Regulations that it complies with present policy, density, and bulk controls as they are delineated in the regulations. Any part or parcel of this tract that has been utilized for density to support dwelling shown thereon shall not be further divided, subdivided or developed for additional dwellings or any purpose other than that indicated presently on said plan. Utilization will have occurred when a building is constructed and transferred for the purpose of occupancy.

11. Plan of Grey Rock approved by County Review Group on September 7, 1989. An amended CRG was approved February 14, 1991. This development plan complies with the CRG plan and all CRG comments.

12. All dwellings and lots of record less than two acres in size off site that create an RTA on site are shown to the best of our knowledge with their respective 300 and 250-foot arcs and required buffer areas. There are no proposed buildings, accessory structures, or projections within the RTA.

13. All proposed interior roads excluding Greene Tree Road and Castleton Avenue are private. Unless otherwise indicated, all utilities are private. All 24-foot wide roads shall be posted to prohibit parallel parking.

14. When the right-of-way for Castleton Avenue is acquired by Baltimore County, a franchise agreement will be executed to allow private utilities to remain within the right-of-way.

15. School District: Millbrook
Capacity: 416
1990 Enrollment: 417
1991 Projected: 430
Estimated Pupil Yield (Phase 1): 12

16. A Final Landscape Plan must be approved by the Office of Planning prior to the issuance of grading permits.

17. A zoning hearing was held to permit a commercial sign in a residential zone and approved. Should the existing sign be changed, a sign permit will be applied for. Prior to zoning approval of a sign relocation, the owner must request in writing to the zoning commissioner that the new location is within the spirit and intent of the zoning order and plan in Zoning Case No. 87-279A.

18. Provisory Section

The provisory section of this partial development plan is not intended nor should it be utilized as a final development plan from which building applications may be approved or issued. Its purpose is to provide those who purchase homes within 300 feet thereof with a reasonable understanding as to how the developer will improve all adjoining vacant land that lies within 300 feet of their home.

The dimensioned boundaries of the "Provisory Section" as indicated hereon are not intended to separate it from the overall approval of this partial development plan including the "Provisory Section" must be approved in accordance with Section 1B01.3.A.7, Baltimore County Zoning Regulations.

Approval of the "Provisory Section" is not based on final engineered plans; however, it is intended to establish: the final location, height, use, and density of buildings or their envelopes to within 25 feet of their engineered location; the location and type of existing major vegetation that is to be retained; screening, parking areas and drive to the extent possible so as to coincide with their final or permanent improvements, and other pertinent amenities.

At the time of building permit applications, the "Provisory Section" of this development plan must be updated to comply in all respects to the form and content required by Section 1B01.3 of the Zoning Regulations.

19. Walkway Easement and Deck Note

If drainage, utility, and walkway easements are fenced, then at least 5 feet must remain open for pedestrian access.

IN RE: PETITION FOR SPECIAL HEARING S/S Green Tree Road, 254.88 ft. E of Howard Square Drive 3rd Election District 2nd Councilmanic District (Green Tree Road)	*	BEFORE THE
	*	DEPUTY ZONING COMMISSIONER
	*	OF BALTIMORE COUNTY
	*	CASE NO. 03-477-SPH
Distinctive Developers, LLC, *Legal Owner* **and** Prestige Development, Inc., *Contract Purchaser*	*	
Petitioners	*	

* * * * * * * * * * * * * * * * *

FINDINGS OF FACT AND CONCLUSIONS OF LAW

This matter comes before this Deputy Zoning Commissioner as a Petition for Special Hearing filed by the legal owner of the subject property, Distinctive Developers, LLC and the contract purchaser, Prestige Development, Inc. The special hearing request involves property located on the south side of Green Tree Road, which property is known as "Phase IV of the Grey Rock Mansion" Development Plan. The special hearing request before me is to approve an amendment to the Provisory Sections of the Fourth Amended Partial Development Plan for Grey Rock Phase I and the Original Partial Development Plan for Grey Rock Phase II.

Appearing at the hearing on behalf of the special hearing request were Lou Bivona and Rob Skudrna and their attorney, Robert Hoffman, appearing on behalf of the owners of the property. Also appearing was Brent Petersen on behalf of G. W. Stephens, the engineers who prepared the site plan of the property, along with Alan Klatsky, appearing on behalf of the contract purchaser of the site, and Jennifer Busse and G. Scott Barhight, attorneys at law, appeared representing the contract purchaser. Interested citizens were also in attendance, namely, Betsy Frahm, Lucille Rogers and Marty Hylbom. John Lewis appeared on behalf of the Department of Permits & Development Management.

5/14/03 R. Jameson

Petitioner's Exhibit 7A

Testimony and evidence indicated that the property, which is the subject of this special hearing request, is known as "Phase IV of Grey Rock". The property comprises 6.99 acres and is split-zoned D.R.3.5, D.R.10.5 and BR. The property is currently improved with the Grey Rock Mansion as is depicted on the site plan. The remaining portion of Phase IV was previously zoned commercial and was at one time going to be developed with office space. However, as a result of the 2000 Comprehensive Zoning process, the zoning on the property was changed from commercial to D.R.3.5. In accordance with its residential zoning, the developer herein proposes to construct 11 single-family residential dwellings on the property. These 11 new homes will take access from Green Tree Road in the manner depicted on the site plan. There will be no interconnection of the road which services these 11 new homes to the existing Grey Rock Road which services the mansion property. However, in order to proceed with the development of the property with these 11 homes, the special hearing request is necessary.

It should be noted that the proposal has already received CRG approval for these new homes. The citizens who appeared at the hearing, who are residents of the surrounding community, do not object to the construction of these 11 new homes. In fact, they favor this proposal over any former proposals to develop the property in a commercial fashion.

As stated previously, Mr. John Lewis, a representative of the Department of Permits & Development Management, appeared at the hearing over a technical matter that pertained to this application. Mr. Lewis stated that the provisory sections that affect this Phase IV of Grey Rock should not have been imposed upon this section in the first place. He is concerned, however, that Phase I and Phase II of Grey Rock would not necessarily reflect the changes that are proposed pursuant to this request. I find, after considering Mr. Lewis' concerns, that the approval of this special hearing request and the development plan submitted herein is sufficient to update the files

3/14/03 J. Jameson

and development plans for Phase I and Phase II of Grey Rock. Therefore, the developer shall be required to file a copy of this plan in those files so that these changes are accurately reflected therein.

After considering the testimony and evidence offered at the hearing, I find that the special hearing request should be granted. The Petitioners produced testimony and evidence that satisfies the provisions of Section 502.1 as they apply and pertain to this proposal. Furthermore, the approval of the special hearing request shall be contingent upon the developer satisfying the conditions as stated within the comment from the Office of Planning dated May 5, 2003.

THEREFORE, IT IS ORDERED, by the Deputy Zoning Commissioner for Baltimore County, this 14th day of May, 2003, that the Petitioners' Request for Special Hearing, to approve the amendment of the Provisory Sections of the Fourth Amended Partial Development Plan for Grey Rock Phase I and the Original Partial Development Plan for Grey Rock Phase II, be and is hereby APPROVED, subject to the following conditions and restrictions:

1. The developer shall be required to submit a copy of the approved Final Development Plan for Grey Rock Phase IV in the files associated with Phase I of Grey Rock and Phase II of Grey Rock.

2. The developer shall be required to comply with the comment dated May 5, 2003 from the Office of Planning relative to architectural elevation drawings and landscaping treatment as enunciated therein.

IT IS FURTHER ORDERED that any appeal of this decision must be made within thirty (30) days of the date of this Order.

Re: Historic Significance of Grey Rock Mansion, 400 Grey Rock Rd, Pikesville, MD

TO WHOM IT MAY CONCERN:

The National Register of Historic Places recognizes districts, buildings, structures, objects, and sites for their significance in American history, archaeology, architecture, engineering, or culture, and identifies them as worthy of preservation. The National Register is a program of the U. S. Department of the Interior, National Park Service, and is administered at the State level by the Maryland Historical Trust.

At the February 23, 2021 meeting of the Governor's Consulting Committee (GCC), the Maryland state review board for National Register of Historic Places nominations, a nomination for Grey Rock Mansion was considered. The GCC approved the nomination under Criterion C for its architecture (built 1857-1861 and extensively renovated 1923-1931) and Criterion B, for its association with Ethel Epstein Katz and Jacob Epstein. As stated in the Significance Summary from the National Register Nomination:

> Grey Rock Mansion is significant under Criterion C for its architecture. When A. Jay and Ethel Epstein Katz purchased the property in 1923, it was an1857 Italianate Villa with a cupola, broad overhanging eaves, round-arched windows and a commodious porch. Working over a period of several years with Baltimore architect Benjamin Frank, Mrs. Katz transformed N. G. Starkweather's original design into an elaborate Classical pastiche including a comprehensive remodeling of the exterior, addition of a giant portico, creation of a ballroom, and re-trimming the interior with woodwork whose details derived from 18th-century landmarks. The library copied the detailed and elaborate overmantel carvings from Sutton-Scarsdale Hall, Derbyshire England, circa 1724-7, and the drawing or terrace room at Grey Rock copied Wrightington Hall, Lancashire, England, 1748, both as exhibited at the Philadelphia Museum of Art. The ballroom copied Whitehall, Annapolis, Maryland, 1764, for the terrace entryway, and also copied the Mundy House mantel,

Dumfries, Virginia, circa 1756. The dining room was a copy of Mount Pleasant Mansion's "Great Chamber" room in Philadelphia, circa 1762. The exterior of Grey Rock was renovated to resemble George Washington's Mount Vernon, copying the portico columns and balustrade.

The property derives additional significance under Criterion B, for association with Ethel Epstein Katz and her father, Jacob Epstein. Jacob had started Baltimore Bargain House, one of Baltimore's largest businesses. Jacob was one of Baltimore's most prominent philanthropists. He had helped found Federated Jewish Charities and the United Hebrew Charities, and was greatly involved with and a founder and board member of the Baltimore Museum of Art. Its founding art collection was donated by him, and also such works as Rodin's bronze the "Thinker."

MHT expects Grey Rock Mansion to be officially listed on the National Register by early next year.
