The staff of the Office of Flanning and Zoning has reviewed the subject potition for soning reclassification and has the following advisory comment to make:

CERTIFICATE OF PUBLICATION

Md., once in each of _____ successive weel- before the

15th day of Warch 19 61 the first publication appearing on the 23rd (a- of

February 19 61.

TOWSON, MD., February 23 19 61 THIS IS TO CLATIFY, That the annexed advertisement was published in The COUNTY Paper, Inc., a weekly newspaper printed and published in Towson, Baltimore County,

The COUNTY Paper, Inc.

Manager. 3 Manager.

1. Examination of the soning maps and land use data indicates that there now exists no coveredal soning in close proximity to the subject property. Ornation of 8-4 soning for the subject with property would create land use potentials on it, which would not be compatible with those of adjacent residentially-access properties. Because of the divergency in development potentials with place toning, mean a reclassification could be characterized as "spot-soning."
