Date June 7, 1961

The staff of the Office or Planning and Zoning has reviewed the subject petition for a Shooting Range and has the following advisory comment to make with respect to pertinent planning factors:

It is our understanding that the Shooting Range being sought here is or remeational, rather than industrial or testing the planning staff in not familiar enough with this type of facility, to make finite recommunities or commant in regards to conditions listed in Section 502.1 of the regulations.

If granted, it would appear that the order should make proper provision for regulating the hours of operation in accordance with community made by possible protestants at the hearing.
