

IN THE MATTER OF
THE
PETITION OF
PROPERTY INVESTORS, INC.
FOR
SPECIAL HEARING

BEFORE THE
ZONING COMMISSIONER
OF
BALTIMORE COUNTY
No. 5888-SH 63-5

OPINION

The Petitioner seeks clarification of Section 253.1 of the Baltimore County Zoning Code as it relates to the question of need for the securing of a Special Exception for use of a certain portion of the Petitioner's land containing approximately eighteen acres located in the Third Election District, in Owings Mills Industrial Park, near Music Fair Road.

The present zoning classification of the subject property is M.L. (Manufacturing Light), and the use to which the property is intended to be committed is as a privately operated golf driving range, including miniature golf and tennis club.

In the presentation of the questions involved, the Petitioner contends that the language of Section 253.1, of the Zoning Code, establishing use regulations for the M.L. zone, is ambiguous and inconsistent with the Schedule of Special Exceptions shown in Section 270, in that Section 253.1 purports to allow non-residential uses permitted in the B-R zone, in which a golf driving range is a permitted use, while Section 270 purports to prohibit such use under the Schedule of Special Exceptions listed for the M.L. zone. The Petitioner further contends that if such use were intended to require a special exception in a M.L. zone it would have been included in the list of uses requiring Special Exception in the M.L. zone as listed in Section 253.5.

A review of Sections 253.1, 253.5 and 270, of the Baltimore

County Zoning Regulations substantiates the factual allegations of the Petitioner regarding the ambiguities created by the language of the respective sections, as they affect the right of the Petitioner to commit his land to the use he proposes.

The evidence presented requires clarification of the two questions which it raises:

1. What is the controlling language governing the use regulations in the M.L. zone, Section 253 or Section 270?
2. Is a special exception required under the governing language to permit the Petitioner's proposed use of his land?

As to the first question, I believe it is abundantly clear that Section 252, and not Section 270, is the controlling language of the zoning regulations. Section 270 is obviously intended as a handy index reference table of special exceptions. Its deletion or complete removal from the zoning regulations would not substantially affect the existing zoning laws; whereas, deletion or removal of Section 253 would have a profound effect upon the existing zoning laws. Therefore, Section 253 is the controlling language governing use regulations in the M.L. zone.

As to the second question, I believe the Petitioner's argument is well founded. Section 253.5 contains the list of uses requiring special exception and by its language refers to Sections 270 and 502. For the reasons previously stated, Section 270 is not applicable since it is ambiguous. Section 502 sets forth conditions which form the basis for requirement of special exceptions for certain uses. I do not feel that the use of the Petitioner's land as proposed, falls within the types of uses requiring special consideration as contemplated in Section 502. Moreover, it is listed in Section 253.5 among those requiring such consideration in the M.L. zone. It is, therefore, my opinion that the use of the Petitioner's land for a golf driving range, including miniature golf and tennis club, does not require a special exception in the M.L. zone.

ORDER

For the reasons set forth in the foregoing Opinion, it is this 14th day of July, 1963, ordered that the Petitioner is not required to obtain a special exception for the use of the subject land for the purposes set forth in the Petition, and that such use of the subject land may be made in the M.L. zone without special exception.
