Gentlemen:

A meeting was held in the office of Mr. William Fornoff, this date, with Mr. Elmer Weisheit and the writer attending. The purpose of the meeting was to establish a minimum right of way in support of road improvements existing and sidewalk.

It was determined that since the remaining area of the former Parke-Davis holdings was constricted, leaving the undeveloped frontage on West Road extremely difficult to improve, a lesser right of way width was agreed upon and it was generally agreed that a right of way line established approximately four to five feet north of the existing curb line for the full frontage of the site would be permitted. It was further agreed that Mr. Weisheit would confirm with established plats, the exact amount of taking to satisfy a clearance for road and sidewalk improvement.

If there are any further questions pertaining to the subject matter please do not hesitate to call this Bureau.

Very truly yours,

Dear Mr. Weisheit:

This letter is in reference to your letter of June 29, 1965 (re: Monument Street Development Corporation; West Road). In discussing this matter in my office, you stated that zoning matters were not a problem, and, upon the basis of this information, I reviewed the proposed plan with respect to access and subdivision. When I endorsed your letter of June 29, 1965, I was unaware that the zoning issues had not been resolved. I am, therefore, notifying you herewith that my endorsement of your letter of June 29, 1965, is no longer valid, since the information upon which my decision was made has been contradicted.

Furthermore, plans for the development of this property must be undertaken in full compliance with the procedures set forth in the Baltimore County Zoning Regulations governing property zoned MR. Any transfer of a portion of this property in advance of the fulfillment of these conditions would be in violation of County regulations.

Very truly yours,

RE: Monument Street Development
Corporation
West Road

Dear Mr. Quimby:

Pursuant to our conversation earlier today, Monument Street Development Corporation intends to develop two (2) smaller structures of six thousand one hundred twenty (6,120) and six thousand five hundred (6,500) square feet building areas on its West Road property which will require utilization of the variance of five (5) feet as granted for one larger structure of thirty thousand (30,000) square feet building area before the Zoning Commissioner for Baltimore County, John G. Rose, on July 3, 1963. (Copy of the Order of Mr. Rose is enclosed). We would like approval for this utilization as well as for three (3) driveways, all of which are shown on the attached plat. This plat was originally prepared with four (4) driveways; however, Monument Street Development Corporation has agreed to consolidate the two (2) northwesternmost driveways into one (1) thirty (30) foot entrance. All of these changes are indicated on the plat with red markings.

Would you please indicate your approval by signing the enclosed copy of this letter and returning same for our files.

Very truly yours,

J. Elmer Weisheit, Jr.

INTER-OFFICE CORRESPONDENCE

TO: Mr. John G. Reese, Zoning Commissioner Date: June 21, 1963

FROM: Mr. George E. Carvelis, Deputy Director

SUBJECT: 5889-1963. Petition for a Variance to the Zoning Regulations of Baltimore County to permit a side yard of 5 feet instead of the required 50 feet, and to permit a F.A.S. of 35% (for a 30,000 square foot building) instead of the 25% allowed. Petition for a Special Hearing to approve an application for a building permit to erect a building in an M-1a Zone. Northwest side of West Road, the southwest side of Baltimore County Beltway. Being property of Marmack, Inc.

9th District

HEARING: Wednesday, July 3, 1963 (1:30 P.M.)

The staff of the Office of Planning and Zoning has reviewed the subject for Variance to the area requirements of the M-1a zone together with a Special Hearing for a development plan for a proposed structure in a M-1a zone. It has the following advisory comments to make with respect to pertinent planning factors:

A. The Variances

1. The essence of that part of the subject petition dealing with the variances was reviewed by the Planning Board at its April 23, 1963 meeting. The Planning Board considered the approved development plan for the entire tract wherein the Young and Seldon Company was granted variances to build a larger plant than was permitted by the Zoning Regulations. Young and Seldon only partially built the building. It is the understanding of the Planning staff that the total ground coverage of the existing and proposed structures will be equal to, or less than, the variances originally granted to the Young and Seldon Company.

2. After review of the facts, the Planning Board agreed that the requested variances were appropriate and that the petition should be endorsed by the Planning Board.

B. The Site Development Plan

1. The Planning staff does not have a sufficiently-detailed plan for the proposed pharmaceutical warehouse and office with which to offer definitive comment. Since that portion of the petition dealing with the variances are fundamental to development of the proper plans, the staff assumes that if there is indication that the variances will be granted by the Zoning Commissioner, the required plans will be prepared.

BALTIMORE COUNTY

No. 5889-V
Sp. Hearing

The petitioner in the above entitled matter requested a variance to Section 252.2 and 252.4 of the Baltimore County Zoning Regulations to permit a side yard of 5 feet instead of the required 50 feet; to permit a F.A.S. of 35% (for a 30,000 sq. ft. building) instead of the allowable 25% and petition for a special hearing to approve an application for a building permit to erect a building in an M-1a Zone, for the following reasons:

1. The practical difficulty involved in adapting the land to the legal use intended for same.
2. It will be an unreasonable hardship to deny the granting of the petition for variances, because, without same, the land cannot be adapted to the legal use intended for same.
3. The granting of this petition will in no way violate the spirit and intent of the zoning regulations.
4. The granting of this petition will not cause any injury to the public health, safety and the general welfare.
5. The granting of this petition will result in an improved aesthetic appearance at this location.

It is the opinion of the Zoning Commissioner that the variances requested should be granted which will give relief to the petitioner without substantial injury to the public health, safety and the general welfare of the locality involved; also the application for a building permit should be approved.

It is this 30th day of July, 1963, by the Zoning Commissioner of Baltimore County, ORDERED that the herein petition for the requested variances should be and the same is granted from and after the date of this Order; also the application for a building permit to erect a building in an M-1a Zone is hereby granted, subject, however, to approval of the site plan by the Bureau of Public Services and the Office of Planning and Zoning.

SUBJECT: Stephen Weaver Property
Located at the corner of
West Road and the Beltway

Dear Sir:
A meeting was held on July 15, 1965 to determine the procedure for the development of the above referred property.

Mr. George Carvelis, Director, Office of Planning and Zoning, Mr. John Hosse, Zoning Commissioner, Mr. Oshley and the writer were present at this meeting.

Mr. Carvelis and Mr. Hosse agreed that that portion of the above tract as proposed to be developed by the Monmouth Company could be developed without the necessity of an additional public hearing. They also agreed that the original variance as granted to permit a five foot rear yard would still be valid.

Prior to filing a building permit a plan should be prepared indicating the following items:

- (a) The property size, location, and general character of the building as proposed by the Monmouth Company.
- (b) Proposed use
- (c) Location and size of parking lots and a parking data schedule.
- (d) Proposed screening and land scape planning

The proposed widening as agreed on and outlined in a letter from Mr. George A. Isler, Chief, Bureau of Public Services to Mr. Weisheit should be dedicated to the County for the full length of Mr. Weaver's property prior to the final approval of the building permit.
