DEVELOPMENT

The Zoning Advisory Committee has reviewed the plans submitted with the above referenced polition and has made an on sice field inspection of the property. The following comments are a result of .

The subject property is presently improved with a lipstoned with a lipstoned with residential decilings, lot 02 pears of age, traction of the control of the Joppa Road is improved as far as concrete curb and gutter are concerned; however, towson*le Road is a paper street and is not improved with anything.

BUREAU OF ENGINEERING:

The following comments are furnished in regard to the plat submitted to this office for review by the Zoning Advisory Crumittee in connection with the subject item.

Joppa Road is an existing 48' curbed street on a 70-foot right-of-way for which no further improvements are required.

Mr. LeRoy Y. Haile, Jr., Agent 13 W. Chesapeake Avenue Towson, Maryland 21204 Item 224

Towsendale Read is an unimproved road which was established on the plat of "Towsendale", recorded C.W.B. 12, Folio 106. The status of this street is indefinite; however, no highway improvements are contemplated at this time.

The politioner must provide necessary drainage facilities (temporary or permanent) to prevent creating any nuisances or damages to adjacent properties, especially by the concentration of surface waters. Correction of any problem which may result, due to improper grading or improper installation of dualinage facilities, would be the full responsibility of the politioner.

The status of the 5' easement along the rear property line, es' blished by the above mentioned recorded plat, is not known at this time.

Public water and public sanitary sewerage is available to serve the subject property.

This plan has been reviewed and there are no site planning factors

The proposed entrance as shown, does not conform to County stands, A parcel this small should have no major change in trip density. However, should the land in the sourrounding arcas be changed to BA, with special exception for offices, some problems possibly could denote.

Owner shall be required to comply to all applicable :equirements of the 101 Life Safety Code, 1967 edition, and the Fire Prevention Code when construction plans are submitted for approval.

Saving and excepting therefrom that part that has heretofore been zoned M.L.R.

Being the property of the petitioners herein as snown on a plat filed in the office of the Zoning Commissioners.

MEMORANDUM

The zoning re-classification petition for 1426 East Joppa Hoad in our opinion should be granted because:

- 1. R A with Special Exception for Offices would provide a satisfactory buffer between the semi-detached homes fronting on the south side of Joppa Road opposite the subject property and the M L R to the north of the subject property.
- 2. In 1966 the traffic count on Joppa Road was approximately 12.000 cars daily. With the continued widening of Joppa Road in Towson and Baynesville this volume is increasing making the subject property less suited to the present R 6 zoning.
- 3. A gas station is situated on the southeast corner of Jappa and Danway Roads cater-cornered from the subject property. This detracts from the former all residential neighborhood.
- 4. The M L R property to the north is graded and leveled off. There is a lack of grass and trees to create a pleasing view in keeping with the normal scenery found in a residential neighborhood. There is no acreeping between the subject property and the M L R

Petition *70-240-RX. North side of Joppa Road 940 feet East of Mylander Lane. Petition for Reclassification from R-6 to R.A. Feltition for Special Exception (is, Offices Amated C. Thompson - Petitioner

BALTIMORE COUNTY, MARYLAND

INTER-OFFICE CORRESPONDENCE

9th District

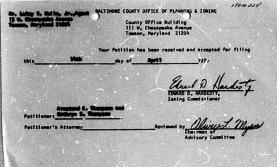

HEARING: Monday, June 29, 1970 (10:00 a.m.)

The staff of the Office of Planning and Zoning has reviewed the subject petition for reclassification from R-6 to R.A. Zoning, together with a special exception for offices. It has the following advisory comments to make relative to pertinent

June 19, 1970

- In making its proposals for comprehensively rezoning this area last Fabru-ary, the Planning Board recommended that the frontage on the northest side of Joppo Road between the Bendis plant and existing operates be completely zoned for R.A. purposes. It was noted that substantial partition of that frontage now are zoned for apast-ments; the Planning Board recommendation simply fills in the gass.
- 2). We offer no objection to the request for offices under the provisions of we other no cojection to the request for offices under the provisions of a special exception. If granted, the granting should be conditioned upor conversion of the existing dwelling only and absolute compliance with a site plan approved by the appropriate County cyencies.
