FIRE DEPARTMENT:

This office has no comment on the proposed site.

Metropolitan water and private sewers are available to the site, therefore, no health hozards are enticipated.

ZUNING ADMINISTRATION DIVISION:

The existing stable that is located on the front of this property, which was apparently begun without a building parelt and later picked by the Building Engineer's Office referred the patitionar to this office to seek a Variance. There are existing trees that co-pietely sorround the existing stoles and it is quite difficult to see the stable as you traval along forge Road. This office has no further command partialings to this patition.

This politive is accepted for filing on the date of the enclosed filing cartificate. Notice of the hearing date and time, which will be held not less than 30, nor more than 90 days after the date on the filing cartificate, will be forwarded to you in the near future.

Very truly yours,

Chan I Free

RE1 Type of Hearing: Variance Location: IM/S Forge Rd., 215' SW of Winkler Pd., Present Zoning: 0.8. 1 Proposed Zoning: Variance from 1802.38 (205.2) front yard Committee Keuting of Oct. 19, 1971 District: 11th Item 50

The Zoning Advisory Committee has reviewed the plans submitted with the above referenced patition and has made as on site field inspection of the property. The following comments are a result of this review and inspection.

The subject property is located on the north side of Forge Road Just wast of Winkler Road. The property is currently improved with an attractive, the story frame doubling and an existing stable in the front yard of the subject property, which is the subject of this patition. There is endsting residential on of their side of the subject site, as well as to the south of the subject site. There is no current optimizer existing at this location.

BUREAU OF ENGINEERING:

The following commants are furnished in regard to the plat submitted to this office for review by the Zoning Advisory Committee in connection with the subject item.

Forge Back, an existing public rend, is proposed to utilized by the European title 35 feet closed type readors exection on a 60 feet right-of-ray. Highery improvements are not required at this time. Messave, Highery spith-of-ray and widening together with necessary remarkable slope esseents will be required in connected, with any precling or building poral tapplication.

Mr. James R. Gardiner Page 2 Item 60 November 11, 1971

The plan should be revised to incorporate the proposed highway right-of-way widening requirements.

Storm Drains:

Provision for eccommodating storm water or drainage have not been indicated on the abmitted plane

The southwest portion of this site is traversed by a swale, wot weather course downstream of an existing culvert.

The patitionar cust provide nacessary drainage facilities (temporary or parameted) to prount creating any muisaness or demages to adjacent properties to be concentration of surface storar, Correction of any problem which my before the opposite goding or improgram facilities, would be the full responsibility of the patitions.

Sediment Control:

Development of this property through stripping, grading and stabilization could result in a sadismat pollution problem, danging private and public holdings demostrane of the property. A grading parall is, therefore, necessary for all grading, including the stripping of top soil.

Public water supply is available and serving this property.

Sanitary Sever:

Puttic senitary sewerage is not available to serve this property which is utilizing private on site sewerage.

DEPT. OF TRAFFIC ENGINEERING:

The requested variance to a front yard has no bearing on traffic.

PROJECT PLANNING DIVISION:

This plan has been reviewed and there are no site planning factors

BOARD OF EDUCATION:

No bearing on student population.
