DEDUSTRIAL OF VALUESCENT

The Zoning Advisory Committee has reviewed the plans submitted with the above referenced position and has said an after field inspection of the property. The following committee are a result of this review and Ampetior.

The subject property is located on the east side of techo Road 3350 ft. morth of Belfast Road. The land in this eres is not level. The ground tapers from this side which can the south and stapes to the north of the subject property. It also appears that the rear portion of this preperty is being built up with some fill material.

BUREAU OF ENGINEERING!

The following communits are furnished in report to the plat sobsitted to this office for review by the Zoning Advisory Countities in connection with the subject item.

General Comments:

It eppears that a subdivision or record plat may be required to connection with the subdivision of the everall property of which this site is a part. There is a residence on each side of this property.

There is indication in this office that a 30-inch patroleum transmission main is in the proximity. It should be responsibility of the Petitioner to according and clerify any rights-of-may within the property.

Hr. Harvin Sherwood Smith Item 76 Page 2 November 19, 1971

0

Highway Comments:

Yeoho Bond, an entiting unblic rund, is proposed to be ultimately improved as a Sof-feet Cloud-type reachey cross section on 370 Foot right-of-may. Highout depresents the state of the time. Moseover, highout for processors with the state of the time. No section of the state of the state of the state of the section with a section with the section with the section with the section of the section with any grading or building public time.

The plan should be ravised to incorporate the requirements of the proposed ultimate highway improvements and to indicate the location of the transmission main.

Sterm Drain Comments:

The Petitioner must provide necessary drelnage facilities (temporary or personner) to prevent creating any nationers or damps to select a repeated to the proposition of surface starts. Correction of any problem which may remove the theory pading or improportation of drelnage facilities, would be the foil re_manbility of the Petitions.

Sediment Control Comments:

Development of this property through stripping, grading and stabilization could result in a sedfrant pollution problem, dranging private and public holdings domestrane of the property. A grading permit is, therefore, necessary for all grading, including the stripping of tee soil,

Mater and Sanitary Sever Comments:

Public rator supply and sanitary sowerage are not available to serve this property which is located bayend the Baltimore County Matropolition District and the Baltimore County Comprehensive Mater and Sowers he Plan for 1970-1909.

FIRE DEPARTMENT:

This office has no comment on the proposed site.
