RE- PETITION FOR SPECIAL EX-SW/S of North Point Boulevard, 917' NW o: Kirkland Street -15th District 15th District Victor J. Previti - Petitioner

NO. 73-23-X (item No. 163)

227 101 101

BEFORE THE DEPUTY ZONING

COMMISSIONER OF

: BALTIMORE COUNTY

...

This Petition represents a request for a Special Exception for a truck terminal on a tract of ground approximately one hundred feet (100') by two hundred feet (200'), located on the west side of North Point Boulevard nine hundred and thirty-one feet (931'), more or less, north of Kirkland Street.

Mr. Victor J. Freviti, owner of the property, testified in his own behalf. Mr. Previti has operated an electric company on the subject sits for the last twenty (20) years. The operation and improvements on the site consists of an office, a warehouse, and the storage of tractor trailer trucks used in his business. Mr. Previti admitted that North Point Boulevard was congested at certain times during the peak traffic nears. He felt that this was brought about because of the heavy commercial uses that exist along the road, and the fact that it leads to one of the largest steel mills in the world. He also boin I get that North Point Boulevard was a dual lane road constructed on a one hundred and fifty (not (150') right of way canable of carrying a great amount of traffic. The Patapsco Freeway is presently under construction and will, when completed, alleviate many of the problems that exist on this road

If successful in obtaining the Special Exception, Mr. Previti stends to lease the subject truck terminal to the Wilson Freight Company who will operate a truck terminal on the site. He further stated that the site plan submitted with the Petition would be strictly adhered to, and the dustiess durable surface indicated on the plan would, in actuality, be a black top surface

COUNTY COUNCIL OF BALTIMORE COUNTY, MARYLAND Legislative Session 1972, Legislative Day No. 10

Council of Baltimore County, Maryland.

Charter Section 1001 (a) and (b).

County: and

said property: and

Mr. and Mrs. Kenneth L. Dickey, "ho reside at 1704 Burnham Road, were present in protest of the subject truck terminal. Mr. Dickey explained that his property was located just north of Kirkland Street and, mo or less, backed up to North Point Boulevard. His complaint was against the method in which truck terminals in the area are operating. He felt that man of the truck terminals did not have proper zoning and were, therefore, not unde: any controls as to the type of paving, screening, and site plan require ments in general. He indicated that many trucks use the median break opposite Kirkland Street to make a U-turn on North Point Boulevard. He objected to the noise required to change gears, dust and other nuisances caused by heavy trucks on this road. He also complained that some trucks violate the law by using Kirkland Street and other residential streets in his development

As was pointed out in the testimony. North Point Road is heavily traveled by all types of commercial traffic including many trucks. Bethlehem Steel, being one of the largest steel mills in the world, has generated a tremendous need for truck lay over points and/or truck terminals in this area. The end result of this situation is that many fly by night truck terminals and/or illegal truck parking areas exist in this area. Most of the time, these areas have no paving creating a dust problem during dry weather and mud holes and ruts during wet weather. They also have no definite entrance and, therefore, create traffic problems. It also follows that if these areas are in violation and are to be eliminated, areas with the proper zoning and improvements must be provided to serve the large and industrial comple at Sparrows Point.

The site plans submitted by the Petitioner has been revised in accordance with the Zening Advisory Committee comments and, apparently all the County and State requirements for the operation of a truck terminal. Among other things, the plan provides ten (10) parking spaces for automobile and eleven (11) parking spaces for tractor trailer trucks. There is also ampl maneuvering room for the 1 actor trailers using this site. However, the indication on the plan that all parking areas are to be paved with a, "durable dustless surface" is not sufficient. Insofar as this Special Exception is concered, the paving of the sit- must be accomplished with black top paving of substantial quality and quartity to support the trailer trucks. The fence indicated for the residential property line should also be of a stockad type and should be a mimimum of six feet (6') high. An existing building is located on the property and apparently no building permit per se, will be required, therefore, the Special Exception should also be subject to strict com pliance with Section 500, 4 which states

> "in case, is which no building permit is required. other than that for which said land is being used at the time of adoption of this Order and Resolution, shall make application to the Zoning Commissioner for a use permit, upon such form as the Zoning Comfor a use permit, upon such form as the Zoning Com-missioner may prescribe. If such use is permissible the Zoning Commissioner may issue a use permit con-ditioned by other provisions contained in the regulations which shall indicate that it authorizes perticular use applied for."

Therefore, IT IS ORDERED by the Deputy Zoning Commission

er of Baltimore County this 5 TH day of August, 1972, that the request ed Special Exception for a truck terminal should be and the same is GRANTED subject to compliance with the items mentioned in the above Opinion. Said Granting is also subject to approval of the above mentioned site plan by the Department of Public Works, State Highway Administration, and the Office of

Patition #73-23-\(\). Southwest side of North Point Boulevard 917 feet Northwest of Kirkland Street. Patition for Special Exception for a Truck Terminal. Victor J. Previti and Mary C. Previti - Petitioner

15th District

*

HEARING: Monday, July 31, 1972 (11:00 A. M.)

The Office of Planning and Zoning has reviewed the subject petition and has the following

The zoning lines as plotted on the petitioner's plot appears to be 'ncorrect. The B.L. C.S.-1 zone line seems to be at least 200.91 feet from North Point Boulevard right of way line on the southern degle of this property; It that seems to angle away from the road to a point on the northern property line 265 feet from the right of way of North Point, Boulevard. Most of the area identified as proposed defininge area is zoned D.R. 5.5 as well as a very small triangular parts of it the southern edge of the property which is identified on the plans are on to the but off or practing.

We suggest that the screening be required at the rear of the property along the top of the slope to offer some visual portection to homes on Beach Avenue that view the rear of this property.

anditioned to conformance to an approved plan.

SUBJECT Zoning Advisory Agenda Item #163

April 4, 1972 Victor J. Previti 5/W/S North Point Blvd 1348' S/E of Battle Grove Road

The Office of Planning has revised the subject site plan and of ers the following comments:

The plat as submitted appears to be in error in so far as the zone lines. The rear portion of the property is zoned D.R.S.S; therefore, commercial vehicles would not be permitted to park in that area. The petitioner may request a hearing to permit the parking of cars

The plan must be revised to show the required screening adjacent to the residential zone, larger parking spaces for trucks, with a proper turnaround area for circulation of vehicles.

SUBJECT Item 163 (1971-1972)

Property Owner: Yictor J. Previti

AN Roth Point Brid, 1388 S/R of Battle Grove Rd.

Present Zoning: B.R.

Proposed Zoning: Special Exception for a truck terminal

District: 15th

No. Acres: 77,762 sq. ft.

The following comments are furnished in regard to the plat submitted to this office for review by the Zoning Advisory Committee in connection with the subject item.

North Point Boulevard (Md. 20) is a State Road; therefore, all improvements, intersection: and entrances on this road will be subject to State Highway Administration. Trequirements.

Development of this property through stripping, grading and stabilisation could result in a sediment pollution problem, desaging private and public holdings deventream of the property. A grading permit is, therefore, necessary for all grading, including the stripping of top soil.

Drainage studies and sediment control drawings will be necessary to be reviewed and approved prior to the issuance of any grading or building permits.

Provisions for accommodating storm water or drainage have not been indicated on the submitted plan.

North Point Boulevard (Md. 20) is a State Road. Therefore, drainage represents as they affect the road come under the jurisdiction of the Maryland State Highway Administration.

The Fetitioner must provide necessary drainage facilities (temperary or personnel) to prevent creating any muisances or danages to adjacent properties, especially by the concentration of surface waters. Correction of any problem which may result, due to improper grating or improper instal ation of drainage facilities, would be the full responsibility of the Pattimer.

Item #163 (1971-1972) Property Owner: Victor J. Previti Page 2 April 2h, 1972

Storm L.mins: (Cont'd)

A flood plain and drainage reser in must be established within the westernment portion of this site, which is subject to tidal flooding, and will required in connection with any grading or building permit application.

The property to be developed is located adjacent to the water front. The Petitionsv is advised that the proper sections of the Baltimore County building Code must be followed whereby elevation livitations are placed on first floor levels of residential (commercial) development and other special
