RE: Variance Petition Item 129 Henry A. & Anne N. Fischer -

Dear Mr. Almond:

The Zoning Advisory Committee has reviewed the plans submitted with the above referenced petition and has made an on site field inspection of the property. The following comments are a result of this review and inspection.

These comments are not intended to indicate the appropriateness of the zoning action requested, but to assure that all parties are made aware of plans or problems with regard to the development plans that may have a bearing on this case. The Director of Planning may file a written report with the Zoning Commissioner with recommendations as to the appropriateness of the requested zoning.

The subject property is located on the south side of copps Road, approximately two hundred and south side of copps Road, approximately two hundred and south side of the south

To the north as opposite the subject site is the Orchard Inn one theyant. The property to the east is improved will an automotive sorvice station and the property to the west is improved by a Little Tavern restaurant. To the south and opposite the rear of the site is a rowhouse development.

The petitioner is requesting a Variance to permit rear and side yard setbacks of zero (0) feet instead of the required thirty (30) feet. A one-story retail store is proposed with off street

The subject petition is for variances to the rear and side yards. I have reviewed the submitted plan and have the following comments.

Two parallel parking spaces on the west property line are under size and one of them will not work.

No loading should be done from the area in the rear of the site.

setback instance of 30'
No. of Acres: 0.ll District: 9th

Dear Mr. DiNenna:

The following comments are furnished in regard to the plat submitted to this office for review by the Zoning Advisory Committee in connection with the subject item.

The Zoning Advisory Committee reviewed and commented upon this site in connection with Item #79 (1973-1974) regarding a proposed illuminated advertising structure.

Highways:

Joppa Road is a recently improved County road in this vicinity; no further highway improvements are required at this time.

Construction or reconstruction of any sidewalk, ourb and gutter, entrance, apron, etc. in connection with further development of this site will be the full responsibility of the Petitioner.

It is the responsibility of the Petitioner to ascertain and clarify his rights within the existing allay along the rear of this site. On the basis of the existing and/or proposed land uses, the alley apparently should be improved to function for both residential and commercial purposes.

The entrance locations are subject to approval by the Department of Traffic Engineering and shall be constructed in accordance with Baltimore County Standards.

Item #129 (1973-197h) Property Cumer: Henry A. & Anne N. Fischer Page 2 Pebruary 2 , 197h

Sediment Control:

Development of this property through stripping, grading and stabilization could result in a sediment pollution problem, damaging private and public holdings downstream of the property. A grading permit is, therefore, necessary for all grading, including the stripping of top soil.

Storm Drains:

Provisions for accommodating storm water or drainage have not been indicated on the submitted plan.

The Petitioner must provide necessary drainage facilities (temporary or permanent) to prevent wreating any missances or damages to adjacent properties, especially by the concentration of surface waters. Correction of any problem which any result, due to improper grading or improper installation of drainage facilities, would be the full responsibility of the Petitioner.

Water and Sanitary Sewer:

Public water supply and sanitary sewerage are available and had served the former structure on this site.

Sounds Dies SLISWORTH N. DIVER, P.E. Chief, Bureau of Engineering
