Dear Ms. Smith

RE: 1200 North Rolling Road. Spirit and Intent Case No. 69-269-RX, 77-122-SPH
1st Election District

Your letters addressed to Mr. Kotroco, dated April 5th and 18th, 2006, have been referred to me for reply. After careful review of the materials included with the letters and the zoning records for this property the following has been determined.

The grant of Special Exception in Zoning Case 77-122-SPH was specific to heights of between 850 feet up to 1099 feet. The proposed extension is located between heights of 664 feet up to 688 feet. Your proposed height has no impact upon what was granted in said Zoning Case 77-122-SPH and therefore will not be considered within the context of that case. The grant of Special Exception in Zoning Case 69-269-RX was specific to heights of between 0 feet up to 850 feet. Your proposed extension of the existing 664 foot tower to a height of 688 feet for the purpose of wireless transmitting and receiving is considered to be **within** the "Spirit and Intent" of the Special Exception granted in Zoning Case 69-269-RX.

You must furnish a copy of this letter when applying for any and all Baltimore County permits. Further, a structural report confirming that the existing tower can safely accommodate the proposed extension must be prepared by a structural engineer registered within the State of Maryland and submitted to Baltimore County at the time of the building permit application.

I trust that the information set forth in this letter is sufficiently detailed and responsive to the request. If you need further information or have any questions, please do not hesitate to contact me at 410-887-3391.

Sincerely,

A handwritten signature in black ink, appearing to be "Lloyd T. Moxley", is written over the typed name and title.

RE: Request for Advisory Opinion
1170/1200 North Rolling Road
600-800 ft. N of Powers Lane
1st Election District
Zoning: D.R.-3.5
Zoning Cases: 69-269-RX, 75-181-X,
77-122-SPH

Dear Mr. Nolan:

Reference is made to your letter of January 18, 1992 to Arnold Jablon, Director of Zoning Administration and Development Management, which has been referred to me for reply. You have requested an investigation on behalf of your client, Scripps Howard Broadcasting Company, regarding an existing tower at the above referenced location including confirmation of zoning requirements, State and Federal requirements for the existing structure and an anticipated addition to the height.

It is my understanding that you have also sent correspondence to the Building Engineer of Baltimore County regarding this matter. Assuming that he will address the structural, Federal and State requirements which are beyond the scope of review of this office, I will defer to him regarding the same.

Stephen J. Nolan, Esquire
February 14, 1992
Page 2

As to your zoning inquiries, please be advised this office confirms three zoning cases on the subject site:

1. 69-269-RX -- Reclass public unzoned land to R.-6 and a Special Exception for a radio and T.V. wireless transmitting and receiving structure (5.6 acres) for Commercial Radio Institute, Inc. Granted 6/12/69 by Zoning Commissioner Rose - 660 foot tower height indicated on plan with an ultimate height of 850 feet shown.
2. 75-181-X -- Special Exception for a 75 foot self-supporting receiving tower on 0.001 acre (25 feet x 25 feet) for Commercial Radio Institute, Inc.; Lessee - Nationwide Communications, Inc. (WPOC-FM). Granted by Zoning Commissioner DiNenna on 2/27/75.
3. 77-122-SPH -- Special Hearing to approve an amendment to the special exception granted in case 69-269-RX to extend the approval height of the tower by 159 feet, from 850 to 1009 feet high (5.6 acres) for Commercial Radio Institution, Inc. Granted on 1/20/77 by Zoning Commissioner DiNenna.

Additionally, you have stated the existing tower was only built to a height of 666 feet and that it is anticipated that an addition might soon be requested to extend the height. This office would confirm and agree with your conclusion that the additional height granted in 1977 has in fact lapsed under Section 502.3 (B.C.Z.R.) provided that the following "reasonable diligence" standard two prong test established by the courts would fail:

1. The commencement of some readily identifiable work and
2. The work begun with the intention then formed to continue said work to its completion.

Obviously, if no work was commenced to extend the height, which appears to be the case, the second prong of the test would not have been met. Further, should the Building Engineer or State or Federal agency confirm the safety hazards of the existing 666 foot tower, this office would not approve any additional height without the benefit of another zoning hearing even though the original plan allowed 850 feet.

Stephen J. Nolan, Esquire
February 14, 1992
Page 3

Although the Development Control section of this office may agree that the full development process, including a community input meeting and hearing officer hearing would be appropriate upon considering an additional height and possible safety hazards, it is suggested that you contact Donald Rascoe in the Development Management section for information regarding any development and/or waiver procedures as reviewed by all agencies.

If I can be of any further assistance at this time or if you are updated with any additional information and need additional zoning clarification, please do not hesitate to contact me in this office at 887-3391.

Very truly yours,

A handwritten signature in dark ink, appearing to read "W. Carl Richards, Jr.", written in a cursive style.

RE: Special Exception Petition
Item 134
Commercial Radio Institute, Inc. -
Petitioner

Dear Mr. Carson:

The Zoning Plans Advisory Committee has reviewed the plans submitted with the above referenced petition and has made an on site field inspection of the property. The following comments are a result of this review and inspection:

These comments are not intended to indicate the appropriateness of the zoning action requested, but to assure that all parties are made aware of plans or problems with regard to the development plans that may have a bearing on this case. The Director of Planning may file a written report with the Zoning Commissioner with recommendations as to the appropriateness of the requested zoning.

The petitioner is requesting a Special Exception for a wireless transmitting and receiving structure for the total height of 75 feet, on property located on the west side of Rolling Road, 837 feet north of Powers Lane. This site was the subject of two previous Special Exceptions for towers in excess of the 50 foot height, and as a result two towers presently exist on the property.

It is apparent from field inspection that the proposed 75 foot tower will necessarily be an accessory use when considered in conjunction with the two existing towers of vastly greater height.
