

PETITION FOR ZONING VARIANCE FROM AREA AND HEIGHT REGULATIONS

TO THE ZONING COMMISSIONER OF BALTIMORE COUNTY:

I, or we Phillip & Elizabeth Weisenbach, owners of the property situate in Baltimore County and which is described in the description and plat attached hereto and made a part hereof, hereby petition for a Variance from Section 200.10.1.1 of the Zoning Law of Baltimore County of 38.7 feet in lieu of the required 50 feet and to permit minimum diagonal dimension of 173.7 feet instead of the required 250 feet.

of the Zoning Regulations of Baltimore County, to the Zoning Law of Baltimore County, for the following reasons: (indicate hardship or practical difficulty)

- Design of proposed dwelling exceeds existing building envelope and projects into existing 50 foot wide side yard by 11.3 feet.

See attached description

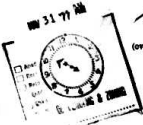

Stamp: MAR 22 1977, RECEIVED, PHILIP & ELIZABETH WEISENBACH, 1717 YORK RD., BALTIMORE, MD. 21204

Re: Item #243 (1976-1977)
 Property Owner: Phillip & Elizabeth Weisenbach
 8/3 Yellowstone Rd. 1318' W Redstone Rd.
 Existing Zoning: R.C. 5
 Proposed Zoning: Variance to permit a side setback of 38.7' in lieu of the required 50'.
 Acres: 3.45 District: 11th

Dear Mr. DiNenna:

The following comments are furnished in regard to the plat submitted to this office for review by the Zoning Advisory Committee in connection with the subject item.

General:
 This property appears as a portion of a large tract of land (29.60 acres), as indicated on Parcel 48 on Tax Maps 55 and 64. It is surrounded on three sides by "Blue Ridge Estates" properties and has been separated into two parcels of land by the conveyance of an in-lieu 50-foot right-of-way to Baltimore County for the extension of Yellowstone Road (Drawing HW 76-195-1, Deed Reference E.N.H. 11, Jr. 5678 Folio 127).

Highways:
 Yellowstone Road, an existing County road east of this site, is proposed to be extended through this property within the aforesaid existing 50-foot right-of-way. Suitable easements for slopes will be required in connection with any grading or building permit application.

Sediment Control:
 Development of this property through striping, grading and stabilization could result in a sediment pollution problem, damaging private and public holdings downstream of the property. A grading permit is, therefore, necessary for all grading, including the striping of top soil.

Storm Drains:
 Provisions for accommodating storm water or drainage have not been indicated on the submitted plan.

Pursuant to the advertisement, posting of property, and public hearing on the above petition and it appearing that by reason of the following finding of facts that strict compliance with the Baltimore County Zoning Regulations would result in practical difficulty and unreasonable hardship upon the Petitioners

the above Variance should be had, and it further appearing that by reason of the location of the Variance requested not adversely affecting the health, safety and general welfare of the community, Variance to permit a side yard of 38.7 feet instead of the required 50 feet, and a minimum diametral dimension of 173.7 feet instead of the required 250 feet should be granted.

IT IS ORDERED by the Zoning Commissioner of Baltimore County this 17th day of July, 1977, that the herein Petition for the aforementioned Variance should be and the same is GRANTED, from and after the date of this Order, subject to the approval of a site plan by the Department of Public Works and the Office of Planning and Zoning.

Pursuant to the advertisement, posting of property and public hearing on the above petition and it appearing that by reason of

the above Variance should NOT BE GRANTED.

IT IS ORDERED by the Zoning Commissioner of Baltimore County, this 17th day of July, 1977, that the above Variance be and the same is hereby DENIED.

Re: Variance Petition
Item No. 243
Petitioners - Philip Walsenbach
Elizabeth Walsenbach

Dear Mr. & Mrs. Walsenbach:

The Zoning Plans Advisory Committee has reviewed the plans submitted with the above referenced petition and has made an on site field inspection of the property. The following comments are a result of this review and inspection.

These comments are not intended to indicate the appropriateness of the zoning action requested, but to assure that all parties are made aware of plans or problems with regard to the development plans that may have a bearing on this case. The Director of Planning may file a written report with the Zoning Commissioner with recommendations as to the appropriateness of the requested zoning.

The subject property, currently zoned R.C. 5 is located at the termination of Yellowstone Road approximately 1,318 Feet southwest of Redstone Road in the 11th Election District. Adjacent properties to the northeast and west are similarly zoned and improved with single family dwellings. This Variance is necessitated by your proposal to reconstruct a dwelling on this site within 38 Feet of the side property line in lieu of the required 50 Feet.

Mr. Philip Walsenbach
Mrs. Elizabeth Walsenbach

Dear Mr. DiNenna:

Comments on Item #243, Zoning Advisory Committee Meeting, May 17, 1977, are as follows:

Property Owner: Philip and Elizabeth Walsenbach
Location: 5/5 Yellowstone Road 1318' W. Redstone Road
Existing Zoning: RC-5
Proposed Zoning: Variance to permit a side setback of 38.7' in lieu of the required 50'.
Acres: 3.45
District: 11th

This office has reviewed the subject petition and offers the following comments. These comments are not intended to indicate the appropriateness of the zoning in question, but are to assure that all parties are made aware of plans or problems with regard to development plans that may have a bearing on this petition.

The developer must comply with the Subdivision Regulation.

Item #243 (1976-1977)
Property Owner: Philip & Elizabeth Walsenbach
Page 2
June 8, 1977

Storm Drains: (Cont'd)

In accordance with the drainage policy, the Petitioner is responsible for the total actual cost of drainage facilities required to carry the storm water run-off through the property to a suitable outfall.

Drainage and utility easements will be required through this property.

Open stream drainage requires a drainage reservation or easement of sufficient width to cover the flood plain of a 100-year design storm. However, a minimum width of 30 feet is required.

The Petitioner must provide necessary drainage facilities (temporary or permanent) to prevent creating any nuisance or damages to adjacent properties, especially by the concentration of surface waters. Correction of any problem which may result due to improper grading or improper installation of drainage facilities, would be the full responsibility of the Petitioner.

Water and Sanitary Sewers:

Public water supply and sanitary sewerage are not available to serve this property. The Baltimore County Comprehensive Water and Sewerage Plan, adopted January 1976, indicates "Planned Service" in the area in 6 to 10 years.
