October 9, 1978

Mr. Nicholas Commodori Zoning Office 111 W. Chesapeake Avenue Towson, Maryland 21204

Re: Reisterstown Substation

Dear Mr. Commodori:

This is to confirm our telephone conversation, Wednesday, October 4, regarding the signature of the Legal Owner on the Petition for Zoning Variance From Area and Height Regulations which was filed with the Zoning Office.

Both Mr. John W. Gore, Jr. and Mr. A. E. Lundvall, Jr. are Vice Presidents of Baltimore Gas and Electric Company, and both are authorized to sign documents on behalf of the Corporation. The Petition was originally prepared for Mr. John W. Gore, Jr. to sign, but at the time it was sent to him for his execution, he was not available. It was then sent to an alternate Vice President to be signed to expedite filing. Instead of changing the form as prepared, Mr. Lundvall merely signed it, and added the word "Vice" to explain the discrepancy between the signature and the typed name.

Very truly yours,

Martha A. Delea

Existing Zoning: R.C. 2, R.C. 3, D.R. 2, D.R. 3.5, D.R. 16, B.L. & B.R.
Proposed Zoning: Special Exception for the construction, operation and maintenance of an overhead 115 KV electric transmission line.
Artist: Gb

Dear Mr. DiNenna:

The following comments are furnished in regard to the plat submitted to this office for review by the Zoning Advisory Committee in connection with the subject item.

General:

Comments were supplied for this property for Project IDCA 78-577.

The Petitioner's proposed project traverses approximately 4 miles. Baltimore County highways and utilities, if directly involved, will be determined at such time as the plans, which will accompany the application for Building Permit, are reviewed by the various Baltimore County Agencies.

The Petitioner's existing electrical transmission right-of-way and proposed additional overhead 115 KV electric transmission line traverses some half-dozen roadways, County, State and others; two branches of the Western Maryland Railroad; and at least seven streams between the Baltimore Gas and Electric Company Northwest Water Station and the Colonial Pipeline Company Substation.

The Petitioner is cautioned that no encroachment by construction of any structure, including footings, is permitted within County rights-of-way or utility easements. During the course of construction of this project protection must be afforded by the contractor for all County utilities encountered. Any damage sustained would be the full responsibility of the Petitioner.

Sediment Control:

Development of this property through stripping, grading and stabilization could result in a sediment pollution problem, damaging private and public holdings downstream of the property. A gradine permit is, therefore, necessary for all grading, including the stripping of top soil.

RE: Baltimore Gas & Electric Co.
Item No. 72
Special Exception Petition

gentleman:

The Zoning Plans Advisory Committee has reviewed the plans submitted with the above referenced petition and has made an on-site field inspection of the property. The following comments are not intended to indicate the appropriateness of the zoning action requested, but to assure that all parties are made aware of plans or problems with regard to the development plans that may have a bearing on this case. The Director of Planning may file a written report with the Zoning Commissioner with recommendations as to the suitability of the requested zoning.

Because of your client's proposal to construct an additional transmission line adjacent to the existing lines traversing this property, this Special Exception is required. Particular attention should be afforded the comments of the State Highway Administration concerning the proposed Northwest Expressway. For more information on this, you may contact Mr. John Meyers at 383-4320.

This petition is accepted for filing on the date of the enclosed filing certificate. Notice of the hearing date and time, which will be

Comments on Item # 72 Zoning Advisory Committee Meeting, October 3, 1978

are as follows:

Property Owner: Baltimore Gas & Electric Co.
Location: NE/S Cockeye Mill Rd. - 3900' NW Reisterstown Rd.
Existing Zoning: R.C. 2, R.C. 3, D.R. 2, D.R. 3.5, D.R. 16, B.L. & B.R.
Proposed Zoning: Special Exception for the construction, operation and maintenance of an overhead 115 KV electric transmission lines.

Address: 4th
District: 4th

The items checked below are applicable:

X A. Structure shall conform to Baltimore County Building Code (B.C.B.C.) 1970 Edition and the 1971 Supplement, and other applicable codes.

X B. A building permit shall be required before construction can begin.

C. Additional permits shall be required.

D. Building shall be upgraded to new use - requires attention permit.

E. Three sets of construction drawings will be required to file an application for a building permit.

X F. Three sets of construction drawings with a registered Maryland Architect or Engineer's original seal will be required to file an application for a building permit.

G. Wood frame walls are not permitted within 3'0" of a property line. Contact Building Department if distance is between 3'0" and 6'0" of property line.

H. Requested setback variance conflicts with the Baltimore County Building Code. See Section _____.
