RE: Item No. 98
Petitioner - Dorothy W. Fantom
Special Hearing Petition

Dear Mr. Altman:

The Zoning Plans Advisory Committee has reviewed the plans submitted with the above referenced petition. The following comments are not intended to indicate the appropriateness of the zoning action requested, but to assure that all parties are made aware of plans or problems with regard to the development plans that may have a bearing on this case. The Director of Planning may file a written report with the Zoning Commissioner with recommendations as to the suitability of the requested zoning.

Because of your client's proposal to prove that the existing use of the subject property, which is the sale, repair, replacement and testing of fire extinguishers and related fire safety equipment is a legal non-conforming use, this Special Hearing is required. This property was the subject of a previous zoning violation hearing (Case #81-85) which is being held in abeyance pending the outcome of the petition.

As evidenced by the letter dated December 5, 1980 to Mr. Ted Burnham of the Department of Permits and Licenses, it appears that his concerns with the location of the existing tank can be resolved to satisfy the building code. Because of this I proceeded to schedule this petition for a hearing.

Enclosed are all comments submitted to this office from the committee members at this time. The remaining members felt that no comment was warranted. This petition was accepted for filing on the date of the enclosed certificate and a hearing scheduled accordingly.

Very truly yours,

NICHOLAS B. COMMODARI

Pursuant to the advertisement, posting of property, and public hearing on the petition and it appearing that by reason of the following finding of facts:

1. The herein petition was filed to establish the nonconforming use of the property known and designated as 206 Stevens Road for the sale, repair, replacement, and testing of fire extinguishers and related fire safety equipment.

2. The petitioner, widow of Richard B. Fantom, purchased the subject property, known and designated as Lot 4 on the plat entitled property of Mr. & Mrs. Walter T. Stevens, et al, and recorded among the Land Records of Baltimore County in Liber C. W. B., Jr., No. 12, folio 47, with her husband on July 29, 1947, after having made payments thereon since 1941 under an oral land installment contract.

3. The petitioner testified that she and her husband began the business at the subject property in either 1946 or 1947. At that time, the property was zoned "F" Light Industrial, and the business utilized the basement, the first floor, and the lot area existing from the front foundation wall (the front being that portion of the improvement facing Frog Mortar Creek) to the rear lot line bordering Stevens Road. The improvement was used for the filling of fire extinguishers and the storage of materials and equipment. Record keeping and office work were conducted on the first floor. The land area was used for testing of fire extinguishers and other related equipment, including fire hoses, and for vehicle parking. In either 1966 or 1967, the zoning of the subject property changed to residential. A garage was constructed for parking of the owners' motor vehicles in 1980. This testimony was supported by various relatives and neighbors.

4. Petitioner's Exhibit 3 was introduced indicating that Richard B. Fantom was issued a "Fire Extinguisher Service License" by Baltimore County, Maryland, Department of Permits and Licenses, under the trade name R. B. Fantom, Inc., 206 Stevens Road, continuously from 1963 to and including 1976, the year of his death.

5. The petitioner and her two sons and daughter have been operating the business since the death of Richard B. Fantom.

6. No protestants appeared at the hearing to offer any testimony in contradiction to the aforementioned testimony.

7. This petition was filed as the result of an alleged zoning violation (Case No. 81-85-V).

8. The finding of a nonconforming use being conducted on the subject property will not adversely affect the health, safety, and general welfare of the community.

and, therefore,

IT IS ORDERED by the Zoning Commissioner of Baltimore County, this 4th day of March, 1981, that a nonconforming use for the sale, repair, replacement, and testing of fire extinguishers and related fire safety equipment has existed and has been conducted on the property known and designated as 206 Stevens Road (Lot 4 on the aforementioned plat) since 1947 and, as such, should be and the same is hereby GRANTED the right to continue from and after the date of this Order, subject, however, to the following restrictions:

1. Abandonment or discontinuance for a period of one year or more shall terminate the nonconforming use herein granted.
