Gentlemen:

The Zoning Plans Advisory Committee has reviewed the plans submitted with the above referenced petition. The following comments are not intended to indicate the appropriateness of the zoning action requested, but to assure that all parties are made aware of plans or problems with regard to the development plans that may have a bearing on this case. The Director of Planning may file a written report with the Zoning Commissioner with recommendations as to the suitability of the requested zoning.

In view of your proposal to legalize the setback of the existing building along Waterview Road and the setback of the parking spaces along said road and Wise Avenue, this hearing is required. This property was the subject of a violation hearing (No. 83-134-V) which will be continued after the variance has been heard and decided.

The revised plan has been reviewed by the Department of Traffic Engineering and they have no further comments.

Enclosed are all comments submitted from the members of the Committee at this time that offer or request information on your petition. If similar comments from the remaining members are received, I will forward them to you. Otherwise, any comment that is not informative will be placed in the hearing file. This petition was accepted for filing on the date of the enclosed filing certificate and a hearing scheduled accordingly.

Very truly yours,

Re: Item #57 (1981-1982)
 Property Owner: Michael L. & Michael M. Sacilotto
 S/E cor. Wise Ave. and Waterview Rd.
 Acres: 0.22 District: 15th

Dear Mr. Hammond:

The following comments are furnished in regard to the plan submitted to this office for review by the Zoning Advisory Committee in connection with the subject item:

Highways:

Wise Avenue and Waterview Road, existing public roads, are proposed to be further improved in the future as 50-foot and 30-foot closed section roadways on 60-foot and 40-foot rights-of-way, respectively.

The entrance locations are subject to approval by the Department of Traffic Engineering, and shall be constructed in accordance with Baltimore County Design Standards and Specifications.

Sediment Control:

Development of this property through stripping, grading and stabilization could result in a sediment pollution problem, damaging private and public holdings downstream of the property. A grading permit is, therefore, necessary for all grading, including the stripping of top soil.

Storm Drains:

Provisions for accommodating storm water or drainage have not been indicated on the submitted plan.

The Petitioner must provide necessary drainage facilities (temporary or permanent) to prevent creating any nuisances or damages to adjacent properties, especially by the concentration of surface waters. Correction of any problem which may result, due to improper grading or improper installation of drainage facilities, would be the full responsibility of the Petitioner.

Item #57 (1981-1982)
 Property Owner: Michael L. & Michael M. Sacilotto
 Page 2
 October 23, 1981

Water and Sanitary Sewer:

There are 12 and 36-inch water mains, and 18 and 30-inch public sanitary sewerage in Wise Avenue; and, there is a 6-inch public water main and 8-inch public sanitary sewerage in Waterview Road.

Very truly yours,

Pursuant to the advertisement, posting of property, and public hearing on the petition and it appearing that strict compliance with the Baltimore County Zoning Regulations would result in practical difficulty and unreasonable hardship upon the Petitioner(s) and the granting of the variance(s) requested will not adversely affect the health, safety, and general welfare of the community, the variance(s) should be granted.

Therefore, IT IS ORDERED by the Zoning Commissioner of Baltimore County, this 7th day of March, 1981, that the Petitioner(s) be granted a variance to permit parking spaces to be set back a minimum distance of zero feet to street property lines in lieu of the required eight feet and a side yard setback of three feet in lieu of the required ten feet, in accordance with the site plan prepared by Frank S. Lee, revised December 29, 1980, and marked Petitioner's Exhibit 1, is hereby GRANTED, from and after the date of this Order, subject, however, to the following restrictions:

1. Provide wheel stops to prevent encroachment onto public rights of way and to the front of the two parking spaces on the westernmost portion of the lot.
2. Any gasoline or waste oil shall be removed from the underground storage tanks by a licensed hauler and those tanks shall be either removed from the site or properly backfilled.
3. Approval of the aforementioned site plan by the Department of Public Works and the Office of Planning and Zoning.

Location: SE/Corner Wise Avenue and Waterview Road
Existing Zoning: BL
Proposed Zoning: Variance to permit parking spaces with 0' setback to street property lines in lieu of the required 8' and to permit 9 spaces in lieu of the required 11 spaces and to permit a side street setback of 3' in lieu of the required 10'.

Acres: 0.22
District: 15th

Dear Mr. Hammond:

Attached is a sketch showing recommended improvements to the intersection of Wise Avenue and Waterview Avenue and improvements to the site.

The parking area should maintain a 3' setback from Wise Avenue and zero feet from Waterview Avenue. The required number of parking spaces can be provided and we can see no need for a variance. Sidewalk and curbs should be provided along the entire frontage of the site. The curb at the intersection should be cut back to a radius of 15 feet, and the island should be installed to channelize the traffic.

The attached plan does not meet the minimum county standards, but we feel it is the best way to develop the site.
