PETITION FOR SPECIAL HEARING 84-94-SPH
TO THE ZONING COMMISSIONER OF BALTIMORE COUNTY:

The undersigned, legal owner(s) of the property situate in Baltimore County and which is described in the description and plat attached hereto and made a part hereof, hereby petition for a Special Hearing under Section 500.7 of the Baltimore County Zoning Regulations, to determine whether or not the Zoning Commission and/or Deputy Zoning Commissioner should approve amendments to the site plan and Restriction No. 2 in Case No.

83-165-XA to increase the height of the proposed tower, add buildings, and other changes.

Property is to be posted and advertised as prescribed by Zoning Regulations.

I, or we, agree to pay expenses of the above Special Hearing advertising, posting, etc., upon filing of this Petition, and further agree to and are to be bound by the zoning regulations and restrictions of Baltimore County adopted pursuant to the Zoning Law for Baltimore County.

I/We do solemnly declare and affirm, under the penalties of perjury, that I/we are the legal owner(s) of the property which is the subject of this Petition.

Petitioner - Raymond J. Marocco, et ux
Special Hearing Petition

Dear Mr. George:

The Zoning Plans Advisory Committee has reviewed the plans submitted with the above referenced petition. The following comments are not intended to indicate the appropriateness of the zoning action requested, but to assure that all parties are made aware of plans or problems with regard to the development plans that may have a bearing on this case. The Director of Planning may file a written report with the Zoning Commissioner with recommendations as to the suitability of the requested zoning.

In view of your clients' proposal to increase the height of the proposed tower, add buildings and make other proposed changes to the site plan that was submitted with the previous special exception (Case No. 83-165-XA), this hearing is required.

Enclosed are all comments submitted from the members of the Committee at this time that offer or request information on your petition. If similar comments from the remaining members are received, I will forward them to you. Otherwise, any comment that is not informative will be placed in the hearing file. This petition was accepted for filing on the date of the enclosed filing certificate and a hearing scheduled accordingly.

Very truly yours,

Nicholas B. Commodari, Esq.

Dear Mr. Hammond:

The following comments are furnished in regard to the plat submitted to this office for review by the Zoning Advisory Committee in connection with the subject item:

General:

Troyer Road (Md. 138) is a State Road; therefore, all improvements, intersections, entrances and drainage requirements as they affect the road come under the jurisdiction of the Maryland State Highway Administration. Any utility construction within the State Road right-of-way will be subject to the standards, specifications and approval of the State in addition to those of Baltimore County.

The entrance locations are subject to approval by the Department of Traffic Engineering, and shall be constructed in accordance with Baltimore County standards.

Development of this property through stripping, grading and stabilization could result in a sediment pollution problem, damaging private and public holdings downstream of the property. A grading permit is, therefore, necessary for all grading, including the stripping of top soil.

The petitioner must provide necessary drainage facilities (temporary or permanent) to prevent creating any nuisances or damages to adjacent properties, especially by the concentration of surface waters. Correction of any problem which may result, due to improper grading or improper installation of drainage facilities, would be the full responsibility of the petitioner.

Public water supply and sanitary sewerage are not available to serve this property which is beyond the Baltimore County Metropolitan District and the Comprehensive Metropolitan Facilities Planning Area.

Baltimore County Water Supply and Sewerage Plans W and S-11A, as amended through January 1982, respectively indicate "No Planned Service" in the area.

6). The exact location of all temporary shelters has been changed. The equipment shelters will now be located within 3 ft. of the tower base. The generator shelter will remain in the northeast corner of the fenced area and be moved approximately 15 ft. from its original position. The 1000 gal LPG fuel tank has been relocated to the southeast corner of the fenced site and was moved approximately 50 ft. south of its original position.

The above changes were all part of the revised drawings submitted to the county after the original zoning hearing, except for the increase in tower height and the reduction in fenced area. The site layout changes were due to the issuance of site layout standards by MCI in late January of 1982. The surveyor had already submitted site plans to the county with the application for the hearing, so the new standards could not be incorporated into the site plans until after the hearing.

The legal description of the 100' x 100' was also changed. This resulted from the relocation of the access road centerline. The actual 100' x 100' leased area did not change, just the description of the leased boundaries.

Please contact me, if the above information is not sufficient or seems to disagree with your understanding of the project.

Dear Bud:

Thank you for notifying me of the scheduled date for the special zoning hearing for Troyer, Md.

As you requested, I have tried to detail all changes on the revised site plan. The following is a list of the changes.

- 1). The fenced area was reduced from 100 ft. by 100 ft. to 70 ft. by 85 ft. All site fencing will now be located on or inside the 5 ft. setback requirement.
- 2). The centerline of the 12 ft. access road was moved 35 ft. north and is now centered on the eastern side of the 100 ft. x 100 ft. leased area. The site gate was also moved to correspond with the access road relocation.
- 3). The present approved tower height is 260 ft. The requested tower height change will raise the tower to 295 ft. with 275 ft. being installed during initial tower construction and 20 additional feet reserved for future expansions.
- 4). The location of the tower base was changed. The tower will now be centered with respect to the North/South leased lines. This results in the tower center being moved 20 ft. north and 4 ft. east of its original position.
- 5). The original plat showed two temporary shelters on the site; one equipment shelter and one generator shelter. During the original hearing for the site, a second equipment shelter was mentioned. The revised site plans submitted after the hearing show this second equipment shelter. MCI did not finalize its plans for the second equipment shelter until March, 1982. The new plans also show three temporary shelters, two equipment shelters, and one generator shelter.

DATE & TIME: Tuesday, October 11, 1983 at 10:45 A.M.
PUBLIC HEARING: Room 106, County Office Building, 111 W. Chesapeake
Avenue, Towson, Maryland

The Zoning Commissioner of Baltimore County, by authority of the Zoning Act
and Regulations of Baltimore County, will hold a public hearing:

Petition for Special Hearing under Section 500.7 of the Baltimore
County Zoning Regulations, to determine whether or not the Zoning
Commissioner and/or Deputy Zoning Commissioner should approve
amendments to the site plan and Restriction No. 2 in Case No.
83-165-XA to increase the height of the proposed tower, add buildings,
and other changes

All that parcel of land in the Tenth District of Baltimore County

Being the property of Raymond J. Marocco, et al, as shown on plat plan filed
with the Zoning Department.

In the event that this Petition is granted, a building permit may be issued within
the thirty (30) day appeal period. The Zoning Commissioner will, however,
entertain any request for a stay of the issuance of said permit during this period
for good cause shown. Such request must be received in writing by the date of
the hearing set above or made at the hearing.

RE: Petition for Special
Hearing; Item No. 39;
Amendments to Site Plan
filed in Zoning Case No.
83-165 XA

Dear Mr. Jablon:

On February 23, 1983, the Deputy Zoning Commissioner of
Baltimore County granted the Petitions of MCI Telecommuni-
cations Corporation for a special exception and variance,
which Petitions were for the purpose of permitting construc-
tion of a wireless transmitting or receiving facility (tele-
phone relay transmission tower) in a remote section of
northern Baltimore County. Although at the time the Pe-
titions were filed, MCI believed, based upon its preliminary
engineering studies, that a tower of 260 feet would suffice,
subsequent in-depth studies have shown that 15 additional
feet are required in order for the tower to serve the needs
for which it is to be built.

Knowing that a hearing would be required for the addi-
tional 15 feet, MCI decided to make several other (but
superficial) changes in its site plan in order that the one
hearing might accomplish (hopefully) whatever other long-
range plans MCI might have for this facility. Accordingly,
on July 28, 1983, MCI filed the above captioned Petition for
Special Hearing.

Of course, when MCI filed its original Petitions for
Special Exception and Variance, the various agencies of
Baltimore County reviewed those Petitions and submitted
their comments to the Zoning Commissioner's Office. At the
hearing, evidence was presented, and, based upon that evi-
dence (including the comments of various County agencies),
the Deputy Zoning Commissioner determined (favorably to MCI)
the basic question of whether a 260 foot tower should be
constructed on the site.

Arnold Jablon, Esq.
August 18, 1983
Page 2

Since the subject matter of the current Petition for
Special Hearing (Item No. 39) concerns only the question of
whether the previously approved 260 foot tower could be in-
creased by some additional feet (plus other minor changes to
the site plan), it is anticipated that very little addi-
tional time will be required by the County agencies for
review of the revised site plan filed along with the above
captioned Petition.

Unfortunately, although construction contracts have
been signed by MCI, contractors cannot begin to work on the
MCI facility in accordance with the Deputy Zoning Commis-
sioner's grant of February 23, 1983 until a ruling by the
zoning authorities on MCI's amendments, as proposed by the
Petition for Special Hearing.

I have discussed the problem with Mr. Carl Richards of
the Zoning Office, who in turn discussed it with Mr. Comman-
dani. They suggested that, under the circumstances, I write
you a letter requesting an expedited hearing on the limited
questions presented by the above captioned Petition.

I know that the Zoning Commissioner's office is ex-
tremely busy at this time of year, but I respectfully re-
quest that your office schedule an expedited hearing, if at
all possible, in order that construction (which has already
been delayed for so long) may commence as promptly as pos-
sible, thereby avoiding any delays which may be occasioned
by the onset of winter.

Many thanks for your consideration in this matter.

Sincerely,

EVANS, GEORGE & SOLED
