* BEFORE THE
* DEPUTY ZONING COMMISSIONER
* OF BALTIMORE COUNTY
* Case No. 92-436-A

FINDINGS OF FACT AND CONCLUSIONS OF LAW

This matter comes before the Deputy Zoning Commissioner as a Petition for Zoning Variance filed by the Legal Owner of the subject property, AutoMasters, Inc., by and through its attorney, Robert D. Sellers, Esquire, in which the Petitioner requests relief from Section 238.2 of the Baltimore County Zoning Regulations (B.C.Z.R.) to permit a side setback of 7 feet and a rear setback of 15 feet, both in lieu of the required 30 feet for each, and from Section 409.4.B to permit parking with access to a driveway in lieu of the required aisle, all as more particularly described on Petitioner's Exhibit 1.

Appearing on behalf of the Petitioner was John M. Schmitz, Sr., President. Also appearing on behalf of the Petition was Calvin K. Koba. There were no Protestants.

Testimony indicated that the subject property, known as 9301 Liberty Road, consists of 23,298 sq.ft., zoned B.R.C.S.-2, and is improved with a two-bay auto repair shop. The Petitioner is desirous of adding a 50' x 29' addition onto the existing structure to provide three additional bays in which to perform automobile repairs. The addition will hold the existing front and rear setbacks required; however, due to the expansion, the requested variances are necessary. Testimony indicated the Petitioner discussed the proposed improvements with adjoining property owners who had

no objections to their plans, as evidenced by Petitioner's Exhibit 3, a letter from the adjacent Cal Bitner's Restaurant. Cal Bitner's Restaurant would be the most affected property owner in the area as it is situated immediately adjacent to the proposed addition.

Pursuant to comments submitted by the Bureau of Traffic Engineering, the Petitioner agreed to eliminate one of two entranceways to Liberty Road which currently exist on the subject site. The Petitioner agreed to close off the entrance to the property which is closest to the intersection of Liberty Road and Chapman Road by installing curb and gutter along this 35-foot wide section of their property. Also, further to the comments submitted by the Bureau of Traffic Engineering, the Petitioner has agreed to reduce the entranceway to Chapman Road to 30 feet as opposed to the existing 40 feet and submitted a revised site plan depicting these modifications. Said revised plan has been incorporated into the case file and marked Revised Petitioner's Exhibit 1.

An area variance may be granted where strict application of the zoning regulations would cause practical difficulty to the Petitioner and his property. McLean v. Soley, 270 Md. 208 (1973). To prove practical difficulty for an area variance, the Petitioner must meet the following:

- 1) whether strict compliance with requirement would unreasonably prevent the use of the property for a permitted purpose or render conformance unnecessarily burdensome;
- 2) whether the grant would do substantial injustice to applicant as well as other property owners in the district or whether a lesser relaxation than that applied for would give substantial relief; and
- 3) whether relief can be granted in such fashion that the spirit of the ordinance will be observed and public safety and welfare secured.

- 2 -

Anderson v. Bd. of Appeals, Town of Chesapeake Beach, 22 Md. App. 28 (1974).

It is clear from the testimony that if the variance is granted, such use, as proposed, will not be contrary to the spirit of the B.C.Z.R. and will not result in any injury to the public good.

After due consideration of the testimony and evidence presented, it is clear that practical difficulty or unreasonable hardship will result if the variance is not granted. It has been established that special circumstances or conditions exist that are peculiar to the land or structure which is the subject of this variance request and that the requirements from which the Petitioner seeks relief will unduly restrict the use of the land due to the special conditions unique to this particular parcel. In addition, the variance requested will not cause any injury to the public health, safety or general welfare. Further, the granting of the Petitioner's request is in strict harmony with the spirit and intent of the B.C.Z.R.

Pursuant to the advertisement, posting of the property, and public hearing on this Petition held, and for the reasons given above, the variance requested should be granted.

THEREFORE, IT IS ORDERED by the Deputy Zoning Commissioner for Baltimore County this 30th day of June, 1992 that the Petition for Zoning Variance requesting relief from Section 238.2 of the Baltimore County Zoning Regulations (B.C.Z.R.) to permit a side setback of 7 feet and a rear setback of 15 feet, both in lieu of the required 30 feet for each, and from Section 409.4.B to permit parking with access to a driveway in lieu of the required aisle, in accordance with Revised Petitioner's Exhibit 1, be and is hereby GRANTED, subject to the following restrictions:

1) The Petitioners may apply for their building permit and be granted same upon receipt of this Order; however, Petitioners are hereby made aware that proceeding at this time is at their own risk until such time as the 30-day appellate process from this Order has expired. If, for whatever reason, this Order is reversed, the Petitioners would be required to return, and be responsible for returning, said property to its original condition.

2) Prior to the issuance of any permits, Petitioner shall close off the Liberty Road entrance to its property which is closest to the intersection of Liberty Road with Chapman Road by installing curb and gutter along this 35-foot wide section to ensure that there will be no access to Liberty Road from this location. The Petitioner shall also install curb and gutter to reduce the entrance on Chapman Road to 30 feet in accordance with Revised Petitioner's Exhibit 1.

3) When applying for any permits, the site plan filed must reference this case and set forth and address the restrictions of this Order.

Petition for Variance
Dear Mr. Sellers:
The Zoning Plans Advisory Committee (ZAC) has reviewed the plans submitted with the above referenced petition. The attached comments from each reviewing agency are not intended to indicate the appropriateness of the zoning action requested, but to assure that all parties, i.e. Zoning Commissioner, attorney and/or the petitioner, are made aware of plans or problems with regard to the proposed improvements that may have a bearing on this case.
Enclosed are all comments submitted thus far from the members of ZAC that offer or request information on your petition. If additional comments are received from other members of ZAC, I will forward them to you. Otherwise, any comment that is not informative will be placed in the hearing file. This petition was accepted for filing on the date of the enclosed filing certificate and a hearing scheduled accordingly.
The following comments are related only to the filing of future zoning petitions and are aimed at expediting the petition filing process with this office.
1) The Director of Zoning Administration and Development Management has instituted a system whereby seasoned zoning attorneys who feel that they are capable of filing petitions that comply with all aspects of the zoning regulations and petitions filing requirements can file their petitions with this office without the necessity of a preliminary review by Zoning personnel.

Item Number: 469
Petitioner: John M. Schmitz, Sr.
Property Size:
Zoning: BR-CS-2
Requested Action: Variance
Hearing Date: / /
SUMMARY OF RECOMMENDATIONS:
The petitioner is requesting a variance to permit side yard variances of 7 feet and 15 feet in lieu of the required 20 feet and 30 feet and to permit parking with access to a driveway in lieu of the aisle.
The Office of Planning and Zoning supports the petitioners request for a variance with the following condition.
Residential development abuts this property on the south side of the "existing evergreen tree line" that is shown on the plan is very sparse. The Office of Planning recommends that a 6 foot high wooden fence be installed along this property line with additional evergreen screening on the residential side of the fence.

Variance
9301 Liberty Road

We are the owners of Cal Bitner's, a restaurant located on Liberty Road in Randallstown directly adjacent to Automaster's Auto Repair. We are aware that Automaster's has requested a variance of rear and side setbacks in order to add several bays to their facility. We have no objection to the granting of the variances or to Automaster's plans to expand.

RE: Zoning Matter 469
Automasters, Inc.

Dear Commissioner Kotroco:

Pursuant to your instructions at the conclusion of the Variance Hearing in the above-referenced matter on June 18, 1992, I have had several discussions with Mr. Famili in Traffic Engineering regarding the entrances on both Liberty Road and Chapman Road. As you may recall, my client had hoped to retain the 40 foot wide entrance along Chapman Road because of his use of that entrance for towed vehicles. Unfortunately, Mr. Famili was adamant that that entrance be shortened to a maximum of 30 feet. That change has now been made on the revised drawing dated 6/23/92, and approved by Mr. Famili on 6/25/92. I have enclosed a copy of the new drawing containing his approval and signature.

Mr. Famili has not made any request that any property be dedicated for future right of ways for either of the roads impacted.

Based on my understanding of the matters we discussed at the zoning hearing, my client has now complied with all conditions imposed. I would greatly appreciate if you would review the revised drawing and issue the appropriate order. If you have any questions or wish any further information, please do not hesitate to contact me.

Yours,
