

IN RE: PETITION FOR ZONING VARIANCE * BEFORE THE
W/S York Rd. 280 ft. N of c/l * ZONING COMMISSIONER
Cross Campus Drive *
7800 York Road * OF BALTIMORE COUNTY
9th Election District *
4th Councilmanic District * Case No. 93-362-A
Legal Owner: David H. Hillman *
Contract Purchaser/Lessee: *
Jonathan Soudry
Petitioner

FINDINGS OF FACT AND CONCLUSIONS OF LAW

This matter comes before the Zoning Commissioner as a Petition for Variance for that property located at 7800 York Road in the Towson community of Baltimore County. The Petition is filed by David H. Hillman, on behalf of Southern Management Corporation, the owner of the subject property. Also participating as co-Petitioner is Jonathan Soudry, on behalf of the proposed Poulet Chicken Restaurant, which has leased space on the subject site.

As originally filed, the Petition sought relief from strict adherence to five specific sections of the Baltimore County Zoning Regulations (B.C.Z.R.). Specifically, the requested relief included:

1. A variance from Section 204.3.A.3 to permit part of an accessory use (proposed patio/deck) to be located outside of the office building in lieu of the requirement that same be located inside of the building;
2. A variance from Section 204.3.C.2 to permit exterior entrances to an accessory commercial use (i.e. approved restaurant) with proposed patio/deck;
3. A variance from Sections 204.4.C.2 and 301.1 to permit setbacks as close as 3 ft. and 6 ft., in lieu of the required 26.25 ft., for a proposed deck;

ORDER RECEIVED FOR FILING
Date 7/9/93
By Dr. Soudry

4. A variance from Section 409.6.A.2 to permit 330 parking spaces in lieu of the required 360 parking spaces for a patio/deck addition to an approved restaurant;

5. A variance from Section 204.3.A.3.C to permit live entertainment with an approved eating establishment.

The case was scheduled for the requisite public hearing which was conducted over the course of 3 hearing days. Appearing at the hearing on behalf of the Petition was Jonathan Soudry, Lessee, the proprietor of the Poulet Chicken Restaurant. Also appearing was Susan Scott on behalf of the property owner. Numerous other individuals appeared in support of the Petition. The Petitioner was represented by Julius W. Lichter, Esquire and Kathryn May, Esquire. Numerous Protestants also participated in the hearing. These included Craig W. Parker, who appeared both individually and on behalf of the Wiltondale Improvement Association. Other residents of the communities which are located near the site also appeared. The Protestants were represented by Michael P. Tanczyn, Esquire.

Although the Petition originally filed sought relief from five different sections of the B.C.Z.R., significant and substantial amendments to the Petition were offered over the course of the hearing. By the conclusion of the hearing, requests for three of the subject variances had been withdrawn. Specifically, the Petitioner eliminated from the proposed site plan, all proposed outdoor seating. This included both a deck which was to be located outside of the building envelope and a terrace which is immediately adjacent to the east side of the building. By eliminating the proposed outdoor seating, the variance from Section 204.3.A.3 was moot and was, therefore, withdrawn. Further, the requested variance from Sections 204.4.C.2 and 301.1 as it related to necessary setback adjustments was

ORDER RECEIVED FOR FILING
Date 7/9/93
By Dr. Soudry

-2-

rendered unnecessary and withdrawn. Further, the Petitioner withdrew its request for relief from Section 204.3.A.3.C and amended its site plan to eliminate the request for live entertainment at the site.

The two other variances remained and are under consideration. Specifically, relief is still sought from Section 204.3.C.2 to permit an exterior entrance to an accessory commercial use. Further, a parking variance is requested; that is, relief is sought from Section 409.6.A.2 of the B.C.Z.R. However, with the deletion of the proposed outdoor seating, the extent of the relief sought has been reduced to request a variance of 318 spaces in lieu of the required 319.

Numerous witnesses appeared at the public hearing and testified. Their testimony is no doubt preserved in the tape recording of the proceedings. Additionally, substantial correspondence, both in support of and in opposition to the request, was received. Rather than recount this specific testimony, a mere summary of what was presented is all that is necessary. It should be noted that a substantial amount of opposition to the project was generated due to the proposed outdoor seating. Although the Protestants continued their opposition to the project when the proposal for outdoor seating was withdrawn, it is to be noted that the proposed outdoor seating was the main source of contention. Further, it should be clear that my Findings of Fact and Order and the resultant Order will address only the variances which remain under consideration. In the event the Petitioner wishes to amend its site plan in the future to provide for outdoor seating, another public hearing will be required.

As noted above, the subject site is known as 7800 York Road and is located in Towson. The property is on the west side of York Road, just north of Cross Campus Drive and south of the Towson State University Cam-

ORDER RECEIVED FOR FILING
Date 7/9/93
By Dr. Soudry

-3-

pus. The site is improved by a four story masonry building which has been in existence for many years. Testimony presented was that the building has been at this location since approximately 1960. In terms of size, the property is 7.94 total net acres and 9.02 total gross acres. It is predominantly zoned 0.1 (7.34 acres). However, a small sliver of the property is zoned D.R.2 and D.R.16. In addition to the office building, four distinct parking lots surround the structure. These include a rather small lot on the east side of the building between the structure and York Road, and another lot of limited size to the front (north) side of the building. To the rear of the structure, away from York Road, are two substantially sized lots. One is best described as a lower lot and is at the bottom of a driveway which is at a lower grade than the first floor of the office building. Immediately behind the office building is another parking lot which apparently gets substantial use.

Particularly on the upper floors of the building, the office space is rented by a variety of tenants. These include doctors, accountants and similar uses. On the first floor (ground floor), there exists a number of accessory retail uses. These include the proposed restaurant, a pharmacy and a hair care salon. As to the history of the use of the building, an eating establishment has existed at this site for some time. Originally, the Oriole Cafeteria was located within the building. Most recently, the property was the site of F. Scott Black Dinner Theatre. Presently, the old dinner theatre space is vacant and undergoing renovation for the proposed Poulet Chicken Restaurant.

As to the proposed use, Mr. Soudry testified that he has been in the restaurant business for many years. Indeed, his credentials in this respect are impressive. He has owned or operated a number of restaurants in

ORDER RECEIVED FOR FILING
Date 7/9/93
By Dr. Soudry

-4-

the Baltimore metropolitan area. Currently, a Poulet Chicken establishment is located in the Pikesville Shopping Center in downtown Pikesville. Mr. Soudry also is involved in several establishments near the Morris Mechanic Theatre in Baltimore City.

As to the proposed operation, significant testimony was offered as to the anticipated clientele. The Petitioner emphasized that the restaurant would be geared towards a family clientele. The menu and layout of the facility supports this contention. Many of the items on the menu are for more than one person and the floor plan shows a number of large tables capable of accommodating families and groups. This testimony was offered in support of the parking variance to establish that many patrons would be arriving together in one automobile.

As noted above, the character of the hearing changed dramatically from its beginning to its conclusion. Many of the surrounding neighbors were particularly concerned about the outdoor seating and live entertainment originally proposed by Mr. Soudry. They felt that these amenities would attract a younger and noisier crowd which might impact the residential communities located near the proposed restaurant. The withdrawal of this request obviously eliminated these fears.

However, as noted above, two variances remain. Further, the Protestants presented a third issue; the placement of an outdoor advertising sign. Thus, the findings and opinions expressed herein should deal only with the issues presently before me.

Regarding the sign, it is to be noted that no sign variances are requested. Thus, any signage must be in compliance with the applicable provisions of the B.C.Z.R. These provisions require that signs cannot exceed certain dimensions, cannot be a danger to the motoring public,

ORDER RECEIVED FOR FILING
Date 7/9/93
By Dr. Soudry

-5-

cannot adversely affect surrounding properties, etc. In the instant case, I have reviewed the site plan which shows the proposed signage and the anticipated location of the signs. Further, I have visited the site and paid particular attention to the location of the sign as it relates to the property and surrounding roadway network. The Protestants are particularly concerned about the proposed sign "B" which is to be illuminated and located on the southeastern side of the property adjacent to York Road. Based on my inspection of the property, as well as the information provided on the site plan, I am persuaded that the proposed sign at the location shown, is appropriate. It is to be particularly noted that York Road, in a southerly direction, in front of the site, widens to provide a right hand turn lane into Cross Campus Drive. The sign is shown to be set back a sufficient distance from the property line. Clearly, the existing sidewalk will separate the curb adjacent to this turn lane and the sign. Based upon my inspection of the site, the proposed dimensions of the sign and its location, I am satisfied that the sign will not be detrimental to the surrounding locale, including either the residential neighborhoods nearby or the traffic proceeding on York Road or Cross Campus Drive. Thus, I will not require modification of the site plan or relocation of the proposed sign. However, it, again, is to be noted that the Petitioner has not requested any sign variances. Thus, the actual installation and location of the sign must be in accordance with the applicable provisions of the B.C.Z.R.

Having resolved this issue, attention is then turned to the variances which are requested. In this respect, the Zoning Commissioner is empowered to grant variances pursuant to Section 26-127 of the Baltimore County Code. The standards to be applied in considering any variance are found

ORDER RECEIVED FOR FILING
Date 7/9/93
By Dr. Soudry

-6-

in Section 307, et seq. of the B.C.Z.R. In essence, variances to parking and area requirements may be granted where strict compliance with the zoning regulations of Baltimore County would result in practical difficulty or unreasonable hardship. Furthermore, a variance can be granted only if in strict harmony with the spirit and intent of the regulations and only in such a manner to grant relief without injury to the public health, safety and general welfare. Further, the appellate courts of this State have often defined the meaning of the practical difficulty standard which the Petitioner must satisfy in order for a variance to be granted. That standard was comprehensively discussed in *McLean v. Soley*, 270 Md. 208 (1973). To prove practical difficulty for an area variance, the Petitioner must meet the following:

- 1) whether strict compliance with requirement would unreasonably prevent the use of the property for a permitted purpose or render conformance unnecessarily burdensome;
- 2) whether the grant would do substantial injustice to applicant as well as other property owners in the district or whether a lesser relaxation than that applied for would give substantial relief; and
- 3) whether relief can be granted in such fashion that the spirit of the ordinance will be observed and public safety and welfare secured.

Anderson v. Bd. of Appeals, Town of Chesapeake Beach, 22 Md. App. (1974).

The first variance for consideration is that for a variance of one space to the numerical requirements for parking for this office building. As noted above, the Petitioner proposes providing 318 parking spaces, in lieu of the required 319. It should be noted at the onset of the discussion of this variance, that the extent of the variance sought is minor. That is, it is less than 1/3 of 1% of the total required. Further, a

ORDER RECEIVED FOR FILING
Date 7/9/93
By Dr. Soudry

-7-

review of the testimony was clear that the parties were largely in agreement. That the 318 spaces provided are sufficient to accommodate the parking needs for this site. I am satisfied that the Poulet restaurant will operate without causing undue parking and traffic congestion in this area. Mr. Soudry's testimony in this respect was particularly persuasive. That is, he anticipates Poulet's busiest hours to be in the early evening dinner time hours. This will be after most of the offices in the building are closed. Thus, there will be a mutually beneficial sharing of the parking spaces by all of the tenants in the building. At the peak times when the offices may be expected to generate most traffic, Poulet will have few customers. When Poulet expects its largest volume of business, the offices will be closed. Mr. Soudry's comments, in this respect, are entirely logical. Further, the prior use of this site has not caused parking congestion or overflow in the past. Even the Protestants who testified noted that they perceive little parking overflow from the businesses on the site. For these reasons, I am persuaded that the variance should be granted. Moreover, clearly the site is limited as to the number of spaces which can be provided. Also, there are a significant amount of spaces available which are not presently utilized. For all of these reasons, I shall grant the parking variance requested.

Further, it is clear that the main source of parking problems, not only for this site but for the surrounding neighborhood, is due to the existence of the Towson State University. It is agreed by all parties that traffic and parking congestion in the area is not due to the tenants of the subject building, but rather due to Towson State students who park off campus. In this respect, the neighborhoods have petitioned for and obtained restrictive parking prohibiting students from parking within their

ORDER RECEIVED FOR FILING
Date 7/9/93
By Dr. Soudry

-8-

residential communities. Further, Ms. Scott testified as to the efforts both presently employed and anticipated, when the restaurant opens, to deal with student parking overflow. These include the use of restricted parking areas on site and supervision by a building employee. I am persuaded that if these practices are maintained and adopted, that the Poulet Chicken will not adversely affect the parking both on the site and in the subject area.

The remaining variance relates to requested relief from Section 204.3.C.2 of the B.C.Z.R.; to permit an exterior entrance to an accessory commercial use. In adjudging this request, a discussion of the building, its footprint and orientation, is appropriate. As noted above, this building has been at this location for approximately 33 years. Interestingly, despite being located immediately adjacent to a major thoroughfare (York Road) the building is oriented northerly, towards the Towson State University Campus. The Protestants, no doubt, fear that an exterior entrance of the east side of the building will reorient the building so as to make same appear to front York Road. In that the affected communities are on the west side of York Road, the Petitioners fear that the impact of the building will, therefore, be heightened on their communities.

Although Mr. Soudry does not wish to impact the residential communities, it is clear that the addition of an entrance on the east side fits in nicely with his marketing plans. Both in correspondence to my office and during testimony, he advised that the viability of the proposed restaurant depends on a strong visual presence from York Road. That is, the restaurant cannot be oriented away from the major roadway on which, no doubt, all of its customers will arrive, but must be presented so as to encourage traffic onto the site. In response to this argument, the Protestants

correctly note that financial considerations should not serve as the basis for variance relief and that, therefore, strict adherence to Section 104.3.C.2 should be required.

Irrespective of the merits of these opposing arguments, I am nonetheless persuaded to grant the variance requested for other reasons. Moreover, my decision is based upon a legally mandated requirement for handicapped access to the site and to promote a smoother, orderly and efficient pedestrian utilization of the property. Testimony and evidence offered was that, at present, the only pedestrian access to the building from the east side facing York Road was through a stairwell. This stairwell provides access to the upper floors of the building as well as into a hall on the first floor. However, the testimony of Ms. Smith, the Building Manager, was that this access is insufficient under the requirements of the Americans with Disabilities Act. Specifically, Ms. Smith maintained that the access on the east side of the building was unsuitable for handicapped and did not meet minimum federal regulations as to size. Further, at the time of my site visit, I had an opportunity to observe use through this access. Specifically, I observed a mother with her young child in a stroller attempt access into the building by use of this eastern stairwell. Although not disabled, the struggle of this unfortunate woman entering the building were convincing that same would not be acceptable for wheelchair bound handicapped individuals.

It is also to be noted that direct access into the restaurant is entirely logical from a pedestrian traffic flow standpoint. There is no doubt that the patrons who visit the Poulet Restaurant will park at the first available parking space. If any of the limited number of spaces on the east side of the property are open, patrons will park there and enter

directly into the restaurant from the east side. This is entirely logical and consistent so as to prevent disruption to other tenants and to promote convenience to the visitors of the site. Patrons who are unable to park on the east side will then either park on the north (front) side or on one of the larger rear lots. In that event, those patrons who park to the rear will no doubt enter the building through the west side and enter the restaurant through the hall entrance in the interior of the building. Patrons who park in the front will either walk around to the east side of the building or walk through the entrance in the building on the north side, next to the pharmacy.

I do not share the Protestants viewpoint that opening the east entrance to Poulet directly will reorient this building so as to cause detriment to the surrounding communities. Particularly with the absence of any outdoor dining facilities, it is difficult to envision a loitering problem or other outdoor activity which could disrupt the tranquility of the neighborhood residences to the east. Therefore, irrespective of the financial viability of the venture, I am persuaded that the Petition for Variance, for these reasons, should be granted. In my view, considerations related to handicapped access, as well as those to promote appropriate pedestrian flow, justify the granting of the variance. Thus, the Petition for Variance, in this respect, will be granted.

Pursuant to the advertisement, posting of the property, and public hearing on this Petition held, and for the reasons given above, the relief requested should be granted.

THEREFORE, IT IS ORDERED by the Zoning Commissioner for Baltimore County this 27th day of July 1993 that a variance from Section 204.3.A.3 to permit part of an accessory use (proposed patio/deck) to be

located outside of the office building in lieu of the requirement that same be located inside of the building, be and is hereby withdrawn and dismissed without prejudice; and,

IT IS FURTHER ORDERED that a variance from Sections 204.4.C.2 and 301.1 to permit setbacks as close as 3 ft. and 6 ft., in lieu of the required 26.25 ft., for a proposed deck, be and is hereby withdrawn and dismissed without prejudice; and,

IT IS FURTHER ORDERED that a variance from Section 204.3.A.3.c to permit live entertainment with an approved eating establishment, be and is hereby withdrawn and dismissed without prejudice; and

IT IS FURTHER ORDERED that a variance from Section 409.6.A.2 to permit 318 parking spaces in lieu of the required 319 parking spaces, be and is hereby GRANTED; and,

IT IS FURTHER ORDERED that a variance from Section 204.3.C.2 to permit exterior entrance to an accessory commercial use (i.e. approved restaurant), in accordance with Petitioner's Exhibit No. 1, be and is hereby GRANTED, subject, however, to the following restriction which are conditions precedent to the relief granted herein:

1. The Petitioner is hereby made aware that proceeding at this time is at his own risk until such time as the 30 day appellate process from this Order has expired. If, for whatever reason, this Order is reversed, the Petitioner would be required to return, and be responsible for returning, said property to its original condition.

RE: Case No. 93-362-A
Petition for Zoning Variance
Legal Owner: David H. Hillman
Contract Purchase/Lessee: Jonathan Soudry, t/a Poulet Chicken Restaurant, Petitioner

Gentlemen:

Enclosed please find the decision rendered in the above captioned case. The Petition for Zoning Variance has been granted, in accordance with the attached Order.

In the event the decision rendered is unfavorable to any party, please be advised that any party may file an appeal within thirty (30) days of the date of the Order to the County Board of Appeals. If you require additional information concerning filing an appeal, please feel free to contact our Appeals Clerk at 887-3391.

Very truly yours,

Lawrence E. Schmidt
Zoning Commissioner

ZONING HEARING ADVERTISING AND POSTING REQUIREMENTS & PROCEDURES

Baltimore County Zoning Regulations require that notice be given to the general public/neighborhood property owners relative to property which is the subject of an upcoming zoning hearing. For those petitions which require a public hearing, this notice is accomplished by posting a sign on the property and placement of a notice in at least one newspaper of general circulation in the County.

This office will ensure that the legal requirements for posting and advertising are satisfied. However, the petitioner is responsible for the costs associated with these requirements.

PAYMENT WILL BE MADE AS FOLLOWS:

1) Posting fees will be assessed and paid to this office at the time of filing.

2) Billing for legal advertising, due upon receipt, will come from and should be remitted directly to the newspaper.
NON-PAYMENT OF ADVERTISING FEES WILL STAY ISSUANCE OF ZONING ORDER.

RE: Case No. 93-362-A, Item No. 373
Petitioner: David H. Hillman
Petition for Variance

Dear Mr. Hillman:

The Zoning Plans Advisory Committee (ZAC) has reviewed the plans submitted with the above referenced petition. The attached comments from each reviewing agency are not intended to indicate the appropriateness of the zoning action requested, but to assure that all parties, i.e., Zoning Commissioner, attorney and/or the petitioner, are made aware of plans or problems with regard to the proposed improvements that may have a bearing on this case.

Enclosed are all comments submitted thus far from the members of ZAC that offer or request information on your petition. If additional comments are received from other members of ZAC, I will forward them to you. Otherwise, any comment that is not informative will be placed in the hearing file. This petition was accepted for filing on April 16, 1993, and a hearing was scheduled accordingly.

The following comments are related only to the filing of future zoning petitions and are aimed at expediting the petition filing process with this office.

1) The Director of Zoning Administration and Development Management has instituted a system whereby seasoned zoning attorneys who feel that they are capable of filing petitions that comply with all aspects of the zoning regulations, and petitions filing requirements can file their petitions with this office without the necessity of a preliminary review by Zoning personnel.

Re: Baltimore County
Item No.: + 373 (JLL)

Dear Ms. Kehring:

This office has reviewed the referenced item and we have no objection to approval as it does not access a State roadway and is not effected by any State Highway Administration projects.

Please contact Bob Small at 410-333-1350 if you have any questions.

Thank you for the opportunity to review this item.

Very truly yours,

BALTIMORE COUNTY, MARYLAND

INTER-OFFICE CORRESPONDENCE

TO: Arnold Jablon, Director
Zoning Administration &
Development Management

FROM: Pat Kellar, Deputy Director
Office of Planning and Zoning

DATE: May 10, 1993

SUBJECT: 7800 York Road

INFORMATION:

Item Number: 373
Petitioner: Poulet USA
Property Size: _____
Zoning: O-1, D.R. 2, and D.R. 16
Requested Action: _____
Hearing Date: 1/1

SUMMARY OF RECOMMENDATIONS:

The petitioner is requesting several Variances to allow the reuse of the F. Scott Black's dinner theater at 7800 York Road for a family oriented restaurant, Poulet, with an outdoor seating area.

The site is located within the Towson Community Plan, in an area designated as Urban Center/Employment area. Towson State University is located to the north, Choice/Citicorp to the south and west, residential communities and a MacKenzie office building, York and Terracedale to the east, in a Community Conservation Area.

The office supports the granting of the Variances with the following comments:

1. The proposed outdoor seating area and accompanying landscaping will greatly enhance the site. The proposal is in keeping with the objectives of the Towson Community Plan.
2. The parking Variance is necessitated by the addition of the outdoor seating area; it should be noted that the office and retail uses in the building will have different business hours from the restaurant, so parking should not be a problem. Also, amendments to parking standards are pending that would reduce the required restaurant parking from 20 parking spaces per 1000 sq. ft. to 16 parking spaces per 1000 sq. ft. reducing the parking required from 166 to 133, in which case the parking Variance would not be required.

3. Proposed outdoor lighting, its height and location should be shown for the outdoor seating area.
4. A landscape plan should be submitted for review and approval by Avery Harden, Department of Public Works.
5. It may be desirable to place restrictions on hours of operation and live entertainment if it occurs in the outdoor seating area. Limitations upon the hours of operation, the type of music, i.e., amplified or acoustic would alleviate community concerns about noise.
6. It may be desirable to restrict the Variances for the use of the Poulet restaurant.

RE: Petition for Variance
 Case No. 93-362-A
 Legal Owner: David H. Hillman
 Contract Purchaser/Lessee: Jonathan Soudry
 Property: 7800 York Road

Dear Mr. Lichter:

This is to confirm the status of the above captioned case and to follow up on the zoning hearing held for this matter on May 27, 1993.

At that time, you appeared on behalf of David H. Hillman, Legal Owner, and Jonathan Soudry, Contract Purchaser/Lessee regarding the above captioned property. The matter scheduled before me at that time was a Petition for Variance for that property located at 7800 York Road in Towson. In addition to your appearance, Michael Tanczyn, Esquire appeared on behalf of Craig Parker and the Wiltondale Improvement Association, as Protestants.

As you no doubt recalled, during opening statement, Mr. Tanczyn expressed his client's position that the Petition for Variance, which had been filed, was deficient. Specifically, he alleged that the Petition was incomplete and that relief from Section 204.3.C.1(a) of the Baltimore County Zoning Regulations was not requested. Thus he argued that, even if the Petition, as filed, was granted, utilization of the property in the manner proposed could not be permitted. Based, in part, on this argument, you requested a continuation of the hearing so that you could evaluate the case and confer with your client. This continuance was granted.

Under the circumstances, I shall hold this file open for a reasonable time to allow you to investigate and conference this case. Obviously, no evidence, nor decision has been made on the relief requested. The continuance is without prejudice to either party.

Kindly contact me after you have had the opportunity to review this matter so that it can be reset for hearing, if appropriate.

Very truly yours,

Lawrence E. Schmidt
 Zoning Commissioner

RE: Poulet USA
 7800 York Road
 Case No. 93-362-A

Dear Mr. Tanczyn:

This is in response to your letter dated July 20, 1993 regarding the above matter. Further, I am in receipt of correspondence from Julius W. Lichter, Esquire dated July 21, 1993, which responds to your letter.

As to your request for a copy of the audio tapes made at the hearing, I have forwarded same to Jun Fernando at the Office of Zoning Administration and Development Management. Mr. Fernando has custody of all tapes and I am certain he will cooperate with you in obtaining the necessary copies.

As to the balance of your letter, I have not gone to the site since my inspection prior to the issuance of my Order and, therefore, cannot comment on the veracity of your allegations. However, in any event, I am not the County official responsible to take any action about your complaints. Obviously, if there is an inconsistency with the permit, any complaints should be voiced to Mr. Zaleski in the Department of Permits and License. He is charged with the responsibility for ensuring that any work is done pursuant to a lawfully issued permit.

As to any possible zoning violations, I direct your attention to Arnold Jablon, the Director of Zoning Administration and Development Management. At one time, the Zoning Commissioner of Baltimore County was empowered with a wide range of responsibilities, including supervision of the Zoning Inspectors and prosecution of any zoning violations. However, by enactment of Bills 1-92 through 4-92, the responsibilities of this office were radically changed. I am now akin to an Administrative Law Judge, solely, charged with the responsibility of independently hearing zoning and development cases. All administrative functions formerly performed by my office, including zoning violations, have been transferred to the Director of Zoning Administration and Development Management. Specifically, I refer you to Section 26-3(b) of the Baltimore County Code for the language enacted within these Bills. Therefore, I have forwarded a copy of your letter and Mr. Lichter's response to Mr. Jablon for any appropriate followup.

Gentlemen:

I am today in receipt of a letter dated June 21, 1993 addressed to you regarding the above matter from Michael P. Tanczyn, Esquire, copy attached.

I am in possession of a copy of the plans approved on April 2, 1993 pursuant to the building permit application for this site, which plans provide for the installation of two sets of exterior doors as have been installed pursuant to the permit application.

My client will be prepared to address the question raised by Mr. Tanczyn at the hearing scheduled for June 24, 1993 before the Zoning Commissioner. In addition, the official of Baltimore County involved in approving the Building Permit will be summoned and they will appear at the hearing and be available to testify should their testimony be required.

I strenuously request that the aforesaid hearing not be postponed as requested by Mr. Tanczyn.

Sincerely,

Julius W. Lichter

RE: 7800 York Road
Case No. 93-362-A

Dear Commissioner Schmidt:

I am in receipt of a copy of a letter dated July 20, 1993 addressed to you from Mr. Tanczyn, P.A.

Without dignifying the contents of Mr. Tanczyn's letter, I can advise you that permits were obtained for the work now being performed (copies enclosed). Plans for this work were shown to the agencies required to authorize the permits. Parking spaces which were replaced by the entrance way will be relocated elsewhere in the parking lot not reducing the number of parking spaces available for use. All parking spaces will meet size requirements.

It is obvious that Mr. Tanczyn's clients intend to continue to harass my client and his desire to operate a fine family style restaurant in the area. We are confident that you will perform your duties in an exemplary manner and not be swayed by the characterizations, insinuations and exaggerations of Mr. Tanczyn or his clients, whoever they may be.

Should you have any questions, please call me. I am sending a copy of this letter to Mr. Tanczyn and the persons identified in Mr. Tanczyn's letter.

Sincerely,

Julius W. Lichter

Re: 7800 York Road
Zoning Case Number 93-362-A
Item 373
Building Permit Number B156611
Control Number C-318-93

Gentlemen:

I represent the Protestants in the zoning case in which the owners and a certain lessee at 7800 York Road seek variances from Zoning Regulations which are pending in the above case, including in pertinent part an exterior entrance to an accessory commercial use.

The reason for this letter is that construction pursuant to the above permit is under way and two exterior entrances have been punched in the building with concrete poured, and frame and glass put in with entrance doors. It is my understanding of the law that this is not permitted without an approved variance, and I am asking you gentlemen to investigate, issue a Stop Work Order, and cease all actions on the request for variances until an investigation can be completed to explain how this activity could have occurred when the hearing for the variances has not yet begun.

I know you both can appreciate the seriousness of this apparent violation of the law, and I would therefore ask that the hearing scheduled to go forward on June 24, 1993 be postponed so that an orderly investigation can occur.

Courthouse, Room 113
400 Washington Avenue
Towson, MD 21204

Re: Poulet USA
7800 York Road
Zoning Case Number 93-362-A

Dear Mr. Commissioner:

I am writing to request copies of the audio tapes for the hearings held on June 24 and July 1, 1993 in the above case.

I am also writing to relay my clients' concerns and their request that you initiate the appropriate enforcement action to address the following which has occurred at the site since your July 9, 1993 Decision:

1. A metal canopy frame connected to the building has been erected over the vestibule which was built without benefit of permit and which extends far into the parking lot.
2. Two parking spaces which were part of a pedestrian access have been eliminated.
3. The area in front of the east wall between the exit and entrance has been cleared and formed up for further construction.
4. As part of the clearing effort, the parking spaces closest to the eastern wall have been shortened.

I would point out that none of the above were on the amended plat considered by you or, if they were, were withdrawn by the Petitioners prior to the close of the hearing on July 1, 1993.

Without citing the pertinent use regulations under 204.3.C.3.G at seg and 204.3.C.3.C and D, it is clear that the one stationary identification sign for the building has been in existence for many years at the entrance or access point to York Road and there is no request thus far for the variance from the pertinent regulations to

The Greater Towson Council of Community Assoc., Inc.
7104 BRISTOL ROAD, BALTIMORE, MARYLAND 21212

June 2, 1993

Lawrence Schmidt, Esq.
Baltimore County Zoning Commissioner
401 Washington Avenue, Room 113
Towson, Maryland 21204

RE: Case No.: 93-362-A
7800 York Road

Dear Commissioner:

I am writing on behalf of the Greater Towson Council of Community Associations (GTCCA), an umbrella group of thirty community associations. Our member associations border the site of the proposed outdoor dining area for the Poulet Restaurant at 7800 York Road. The GTCCA has taken two positions on the recent request of the owners and/or purchasers of 7800 York Road for the required variances to permit an accessory use, outside of the building, without the required setback from York Road and to permit live entertainment.

Our positions are the following:

- (1) We are against live music and entertainment on any outdoor deck that is permitted; and
- (2) We are against any outdoor structure which would require a variance for a four foot or under setback from York Road.

Thank you for considering the GTCCA's position.

Very truly yours,

Richard D. Zeff
RICHARD D. ZEFF

Towson, Maryland 21204

RE: Case No.: 93-362-A
7800 York Road

Dear Commissioner:

This is to amend my letter to you of June 2, 1993 regarding the above-referenced variance requests by the owners of 7800 York Road. The Greater Towson Council of Community Associations supports the position taken by the Wiltondale Improvement Association in opposition to all variances requested. This Association is based on a lack of information and misinformation given to the community associations contiguous to the property regarding the proposed accessory use (patio/deck) and exterior entrances to an accessory commercial use.

Thank you.

Very truly yours,

Richard D. Zeff
RICHARD D. ZEFF

TOWSON
STATE UNIVERSITY
Towson, Maryland 21204-7097

June 30, 1993

Mr. Larry Schmidt
Zoning Commissioner
Baltimore County Zoning Commission
400 Washington Avenue, Room 113
Towson, MD 21204

Dear Mr. Schmidt:

On May 27, 1993, I wrote to you on behalf of Towson State University supporting the request of Poulet restaurant owner Jonathan Souday for three variances to the zoning code. The variances were requested to enable Mr. Souday to construct an outdoor dining area adjacent to the restaurant, to be located at 7800 York Road.

The University continues to believe that a restaurant such as Poulet can be a positive addition to the Towson community.

However, we have heard a number of concerns expressed from members of the local community regarding the use of the outdoor deck, and we share these concerns -- both as a major tenant of 7800 York Road and as a community member.

Some community members are concerned that the outdoor deck will attract large numbers of TSU students. They are concerned that noise from crowds and loud music will disrupt the peace of the community.

When we expressed our support of the zoning variance, we envisioned an outdoor dining area with tables and a "family" atmosphere. We did not envision happy hour drinking crowds and loud music.

As a tenant of the building, we wish to retain an ambience and noise level consistent with our use of the building. As a responsible community member, we wish to discourage a situation that will facilitate student drinking and disruptive behavior.

Mr. & Mrs. Burton E. Greenwood
606 Wilton Road

Re: Case No. 93362 A
Poulet USA Restaurant
7800 York Road

Dear Mr. Schmidt:

Having been a resident (homeowner) of the Wiltondale Community for nearly thirty years; your kind consideration of my concerns would be greatly appreciated.

Our Community Association and the majority of our neighbors vehemently oppose the variances requested with respect to any compromise regarding additional outside structures and/or dining facilities as well as exceptions for parking requirements. We have worked very diligently for many, many years to preserve the integrity of our community as have our adjoining community neighbors. To allow any variance as we mentioned will be the beginning of what you see having taken place on York Road in Timonium and Cockeysville and what has happened to Liberty Road in Randallstown, etc.

I plead with you to allow us to preserve our property values and the character of our community.

Your kind assistance and cooperation is appreciated.

Respectfully yours,

Burton E. Greenwood
Burton E. Greenwood

MR. & MRS. CRAIG W. PARKER
515 YARMOUTH ROAD
TOWSON, MARYLAND 21286

May 27, 1993

Mr. Lawrence Schmidt
Zoning Commissioner
Baltimore County, Maryland
Old Court House
Towson, Maryland 21204

Dear Mr. Schmidt:

My wife and I have been a homeowner in the Wiltondale community for the past ten years. In addition, we both grew up in the community and I am a life time resident of Wiltondale. Obviously, the Wiltondale community is very special to us and we feel very strongly when someone or something threatens the quality of life we have become accustomed to. With this thought in mind, we respectfully request you deny POULET's zoning variance requests in case number 93-362A.

We feel the allowance of outdoor dining and entertainment creates an environment not in keeping with the character of Wiltondale or our neighboring communities. Furthermore, the added burden of more traffic on York Road with additional seating (created by the construction of the proposed deck) would have a negative impact on our community. The combination of these two things would be a detriment to our property value and the continued stability of the Wiltondale community.

With these thoughts in mind, we kindly request you deny any of the requested zoning variances for POULET USA restaurant in the aforesaid case number.

Yours truly,
Craig W. Parker

Re: Case No. 93-362A
Poulet Co.
7800 York Road

Dear Mr. Schmidt:

We are writing to express our concern and disagreement with the proposed variance changes suggested by Mr. Soudry in regards to the proposed restaurant at 7800 York Road. We feel that such changes in the variances afforded 7800 York Road will significantly alter the nature and complexion of our community (i.e. Wiltondale) with an increase in noise and "business" as well as further complicate an already existing intersection at York Road and Cross Campus drive beyond the normal drive time congestion.

Furthermore, we feel that an outdoor cafe and deck would neither increase the aesthetic value of the building nor the surrounding vicinity. Moreover, such changes may not cause increased trade to any restaurant in the area. Generally speaking, it is the quality of the food and the level of service that has made any restaurant successful. We hope that you will consider our recommendation and NOT approve the suggested variance changes as proposed by Mr. Soudry. Thank you for your consideration.

Sincerely,
Hugh A. Mallon
Hugh A. Mallon III

May 26, 1993

Mr. Lawrence Schmidt
Zoning Commissioner of Baltimore County
Old Court House
Towson, Maryland 21204

Dear Mr. Schmidt:

My wife and I are writing to express our concern over the proposed variance changes for the Poulet restaurant located at 7800 York Road, Towson, Maryland 21204. We have been residents of the Wiltondale Community since 1976. During this time, we have supported our community in numerous zoning issues in an effort to preserve it's the residential character. The last thing we want to see is the York Road border of our community turn into an area similar to that north of Ridgely Road.

Furthermore, there is no question in our minds that the granting of the requested variances would only increase traffic along the York Road corridor. The thought of additional traffic certainly does not make this area pedestrian friendly. We also feel that the allowance of a deck for outdoor eating and entertainment would only create a local hangout for college students when one considers the proximity of Towson State University to this restaurant. These factors with out question would have a negative impact on our community.

RE: Case 93-362A

Dear Mr. Schmidt:

We have been long time residents of the Wiltondale community. We are writing to protest the request of a resturanteer to have outside entertainment and an eatery at the site of the former F. Scott Black's Dinner Theater. We object because:

1. At present, we can hear the music from Towson High School so it seems reasonable that we would strenuously object to our tranquility being disturbed by music and noise from the York Road site.
2. At present, our street is compromised by excess parking from the building on the West side of York Road opposite the entrance to Wilton Road. Increased parking resulting from the entertainment will further narrow our streets.

28 May 1993

Bill Howanski
628 Hastings Road
Towson, MD 21286

Dear Mr. Schmidt,

I am a resident of the Wiltondale Community and I am writing this letter to inform you that I am opposed to the zoning variances requested by the Poulet Restaurant at York and Cross Campus Drive. The 01 zoning was put in place to act as a buffer between a dense commercial area such as Towson and surrounding residential communities. It is critical that this buffer remain to insure that the peaceful environment that currently exists in my community is preserved. In addition, the deck concept at this location would ruin the integrity of what is presently a nicely preserved section of York Road.

Sincerely,

Bill Howanski

The Honorable Lawrence E. Schmidt
Zoning Commissioner for Baltimore County
111 West Chesapeake Avenue
Towson, MD 21204

RE: Case # 93-362-A
Poulet, USA

Dear Mr. Schmidt:

On May 12, 1993, the Towson Business Association Board of Directors discussed the issues involved in Case # 93-362-A. At that time, Mr. Jonathan Soudry, the owner of Poulet USA, requested the following variances:

- 1) to permit part of an accessory use (proposed patio/deck) to be located outside of the office building in lieu of inside of the building;
- 2) to permit exterior entrances to an accessory commercial use (approved restaurant with proposed patio/deck);
- 3) to permit setbacks as close as 3 feet and 6 feet in lieu of the required 26.25 feet for a proposed deck;
- 4) to permit 330 parking spaces in lieu of the required 360 parking spaces for a patio/deck addition to an approved restaurant; and
- 5) to permit live entertainment with an approved eating establishment.

Mr. Soudry plans to open Poulet, a family oriented, French country restaurant at 7800 York Road, the former location of the Towson Dinner Theatre. He has committed \$1.5 million dollars to the project which will create approximately 150 jobs. Mr. Soudry has a successful Poulet restaurant in Pikesville and operates the award winning La Provence restaurant in Hopkins Plaza.

April 16, 1993

Mr. Larry Schmidt
The Baltimore County Zoning Commission
401 Washington Avenue
Towson, Maryland 21204

Dear Mr. Schmidt,

Please accept this letter as my formal request for a variance at 7800 York Road. This variance will serve to attach an outdoor seating deck area to Poulet Restaurant presently being constructed in the site formerly occupied by F. Scott Black's Dinner Theatre.

This site has experienced a series of failures due to, in my professional opinion as a restaurateur, the fact that 7800 York Road, as a restaurant site, never blended harmoniously with its surroundings. It is tucked away in the ground floor of an office building with its entrance hidden in the buildings hallway. My concept is to "open up the restaurant" by enclosing the entire front with only windows, and building an outdoor cafe and deck area. This will create a very inviting and pleasant looking dining area.

Due to our serving style, price structure, and hearty cuisine, we are clearly targeting families. Outdoor dining will truly make us part of the neighborhood in our level of York Road area, which is highly residential.

In the past 10 years, I have created and developed eight (8) sites in Baltimore City and Baltimore County, each of which had previously experienced three to five (3-5) bankruptcies. Today, after complete renovation, and the creation of outdoor seating in every site, they are all tremendously successful.

The Baltimore County Zoning Commission
401 Washington Avenue
Towson, Maryland 21204

Dear Mr. Schmidt:

The Downtown Partnership of Baltimore is writing this letter on behalf of Jonathan Soudry who owns La Provence Restaurant in downtown Baltimore and Poulet Restaurant in Pikesville and Towson. The success of La Provence Restaurant and its adjacent outdoor sidewalk cafe area has contributed significantly to the overall quality of life downtown. We have worked with Mr. Soudry to accommodate his outdoor cafe area to bring new excitement and vitality to Hopkins Plaza that was previously inactive. He agreed to address maintenance and public safety issues in advance, and he and the Baltimore Office of Promotion have launched a very successful outdoor concert series in this same area.

Last year, the Downtown Partnership presented Jonathan with an award for the Best Use of Public Space at our Annual Meeting which was attended by Mayor Schmuck, Governor Schaefer, and over 400 members of the business community and government agencies.

We understand that Jonathan is applying for a variance to construct a deck adjacent to a new Poulet Restaurant in Towson. We would suggest that the Honorable Zoning Commission look at Mr. Soudry's downtown record in view of potential public benefits for Towson. Surely, you will agree the addition of outdoor activity in conjunction with Poulet Cafe will be a positive addition to Towson. If you have any questions concerning the success of La Provence or Jonathan Soudry's restaurant operations in downtown, please do not hesitate to contact me at 244-1030.

Sincerely,

Laurie Schwartz

RE: Reference on Jonathan Soudry's Business Ventures

TO WHOM IT MAY CONCERN:

Maryland National Bank recently settled a loan to Poulet Towson, LLC in conjunction with the Maryland Small Business Development Financing Authority to open a Poulet U.S.A. restaurant in Towson. During the underwriting process for this transaction, we looked not only at the viability of this new restaurant, but also at Jonathan Soudry's track record with similar ventures.

Jonathan has been highly successful at developing and maintaining new restaurants. This success has come from responding to changing demands with food products and creative delivery techniques, combined with effective personnel and business management. Examples of his successes include:

1. La Provence - revitalization of a previously unsuccessful restaurant location due to better management, more appropriate menu, and adding an outdoor/enclosed seating area.
2. Baltimore Food Bazaar - developed a series of carryout counters catering to the downtown lunch crowd providing both indoor and outdoor seating.
3. Hopkins Plaza - provided outdoor seating and efficient management to create a festive cafe atmosphere.
4. Poulet - started new restaurant in Pikesville to meet the demand for healthy, low cost food in a carryout.

We feel these examples demonstrate the combination of providing an excellent product, developing an atmosphere which enhances the community served, and managing the business aspects which will allow Jonathan to succeed at the Poulet U.S.A. and future business endeavors.

If I may be of a further assistance, please contact me at (410) 605-8179.

Sincerely,

James H. Peterson

To Whom it May Concern:

The Maryland Small Business Development Financing Authority has been a guarantor of loans for companies owned by Jonathan Soudry's businesses and have always been impressed by his management ability, attention to detail, and his instinct to satisfy customer's desires.

Mr. Soudry has operated outdoor cafe dining for many years and has always maintained an orderly and tasteful operation. We are confident that Mr. Soudry will be able to do the same at York Rd. The State through MBDFA will be involved in this financing of Poulet U.S.A.

We hope you will be able to grant Mr. Soudry his request to operate outdoor seating. We are sure it will be a project that we will all be able to take pride in.

Sincerely,

Land Cronson
Manager, RFP

RE: Petition for Variance - Poulet of Towson
Case # 93-362A, Hearing Date - 5/27/93

DATE: May 26, 1993

For the past several months, representatives from my office have been working with Jonathan Soudry in his attempt to establish a Poulet USA restaurant in Towson at the site of the recently vacated dinner theater on York Road. We are encouraged that the plans for this family-style establishment call for careful attention to both an attractive facade for the restaurant, as well as an internal atmosphere which will complement the "warm and friendly" feeling currently at work in the Towson area.

Mr. Soudry's successful track record as a restaurateur and community leader in both downtown Baltimore and Pikesville serve as testament to his excellent personal and business style. He has suggested that this new restaurant in Towson will be his "signature" location, for what he hopes will be a national franchise of Poulet USA. His restaurant in the Pikesville revitalization district has certainly brought a new heartbeat to the commercial core, attracting an enormous amount of new business. The popular outdoor seating, although limited, has certainly assisted in advertising both the restaurant and the other shops in the area.

We are aware that Mr. Soudry has worked diligently to involve members of the community in his plans for this project, and have attended several meetings in that regard. The consensus appears to be that this is a wonderful re-use of an existing facility with more than adequate parking to meet the need.

It appears that the primary issue for the surrounding communities relates to noise which may be generated by the restaurant. Mr. Soudry's architect and interior designers have been sensitive to issues related to noise from the deck, and have incorporated such details as vinyl canopies, pressure-treated decking, and "bubbling brook" water fixtures to act as a natural sound barrier. Obviously, the nature of his business suggests that he would not allow obnoxious noise or outrageous behavior in his establishment, but rather simply wishes to provide easy listening music to his customers with the occasional "live" music for special functions.

In all, we look forward to a long and successful relationship with Mr. Soudry and Poulet USA.

May 27, 1993

Mr. Larry Schmidt
Zoning Commissioner
Baltimore County Zoning Commission
400 Washington Avenue, Room 113
Towson, MD 21204

Dear Mr. Schmidt:

I am writing this letter on behalf of Towson State University and in support of Jonathan Soudry, who is the owner of the Poulet Restaurant which will be opening in the near future at 7800 York Road.

We have had an opportunity to review Mr. Soudry's plan to construct an outdoor dining area adjacent to his new restaurant. We support the request for three variances to the zoning code which are needed.

In summary, the University feels that as a neighbor and a resident of 7800 that this addition to the restaurant will be a positive addition for the Towson community.

Thank you for your consideration in this matter.

Sincerely,

Donald N. McCulloch
