## FINDINGS OF FACT AND CONCLUSIONS OF LAW

. . . . . . . . . . .

This matter comes before the Zoning Commissioner as a Petition for Variance for that property located at 113 Browns Terrace in the Browns Terrace residential subdivision of Baltimore County. The Petition is filed by the legal owner of the property, Lelia F. Lowe, and the contract purchaser, RRIG Corporation. The Petition seeks relief from Section 1B02.3.C.1 of the Baltimore County Zoning Regulations (B.C.Z.R.) to permit a portion of a dwelling to be located 10 ft. from the rear lot line, in lieu of the required 30 ft., and to permit a single dwelling to be located on two lots of record. The relief is more particularly shown on Petitioner's Exhibit No. 1, the plat to accompany the Petition for Variance.

Appearing at the public hearing for this case was Alexander P. Ratych, a land surveyor. Mr. Ratych represents the contract purchaser/builder, RRIG Corporation. The Petitioner was represented by Julius W. Lichter, Esquire. Appearing as interested parties were several residents of the surrounding locale. These included Evelyn S. Revels, Dorothy V. Briscoe and Helen P. Moore. There were no Protestants present.

Mr. Ratych testified and presented the plan. He indicated that the Browns Terrace subdivision is an older subdivision, having been recorded in the Land Records of Baltimore County in 1944. The subdivision is comprised of 24 lots most of which are improved. The subject Petition references lots Nos. 10 and 11. These two lots are unimproved. When combined,

they are roughly, triangularly shaped and total .2379 acres in area. The property is zoned D.R.5.5. The builder proposes constructing a single family house on the two lots at a precise location, as shown on the site plan. The house will front Browns Terrace, which ends in a cul-de-sac at this location. Due to the configuration of the lot, as well as the culde-sac frontage, the proposed dwelling will be pivoted so as to front the cul-de-sac. The pivoting of the house, as shown on the site plan, necessitates a 10 ft. rear yard setback. Mr. Ratych also stated that the house will not be constructed until a buyer is found and that the rear portion of the property will be maintained as much as practical so as to ensure proper buffering and landscaping from houses located to the rear of the site, which fronts Sulphur Spring Road.

As to the neighbors who attended the hearing, they do not particularly object to the proposed variance. Rather, they appeared at the hearing to have several questions answered relating to the proposed dwelling. It appears that these questions were answered to their satisfaction.

An area variance may be granted where strict application of the zoning regulations would cause practical difficulty to the Petitioner and his property. McLean v. Soley, 270 Md. 208 (1973). To prove practical difficulty for an area variance, the Petitioner must meet the following:

> whether strict compliance with requirement would unreasonably prevent the use of the property for a permitted purpose or render conformance unnecessarily burdensome;

> whether the grant would do substantial injustice to applicant as well as other property owners in the district or whether a lesser relaxation than that applied for would give substantial relief; and

> 3) whether relief can be granted in such fashion that the spirit of the ordinance will be observed and public safety and welfare secured.

Anderson v. Bd. of Appeals, Town of Chesapeake Beach, 22 Md. App. 28 (1974).

It is clear from the testimony that if the variance is granted, such use, as proposed, will not be contrary to the spirit of the B.C.Z.R. and will not result in any injury to the public good.

After due consideration of the testimony and evidence presented, it is clear that a practical difficulty or unreasonable hardship will result if the variance is not granted. It has been established that special circumstances or conditions exist that are peculiar to the land or structure which is the subject of the variance requested, and that the requirements from which the Petitioner seeks relief will unduly restrict the use of the land due to the special conditions unique to this particular parcel. In addition, the variance requested will not cause any injury to the public health, safety and general welfare. Further, granting of the variance will be in strict harmony with the spirit and intent of the B.C.Z.R.

Pursuant to the advertisement, posting of the property, and public hearing on this Petition held, and for the reasons given above, the relief requested should be granted.

THEREFORE, IT IS ORDERED by the Zoning Commissioner for Baltimore County this / day of September, 1993 that a variance from Section 1802.3.C.1 of the Baltimore County Zoning Regulations (B.C.Z.R.) to permit a portion of a dwelling to be located 10 ft. from the rear lot line, in lieu of the required 30 ft., and to permit a single dwelling to be located on two lots of record, be and is hereby GRANTED, subject, however, to the following restriction which are conditions precedent to the relief granted

> 1. The Petitioner may apply for its building permit and be granted same upon receipt of this Order; however, Petitioner is hereby made aware that proceeding at this time is at its own risk

The Zoning Plans Advisory Committee (ZAC) has reviewed the plans submitted with the above referenced petition. The attached comments from each reviewing agency are not intended to indicate the appropriateness of the zoning action requested, but to assure that all parties, i.e., Zoning Commissioner, attorney and/or the petitioner, are made aware of plans or problems with regard to the proposed improvements that may have a bearing on this case.

Enclosed are all comments submitted thus far from the members of ZAC that offer or request information on your petition. If additional comments are received from other members of ZAC, I will forward them to you. Otherwise, any comment that is not informative will be placed in the hearing file. This petition was accepted for filing on July 20, 1993, and a hearing was scheduled accordingly.

The following comments are related only to the filing of future zoning petitions and are aimed at expediting the petition filing process

1. The director of Zoning Administration and Development Management has instituted a system whereby seasoned zoning attorneys who feel that they are capable of filing petitions that comply with all aspects of the zoning regulations and petitions filing requirements can file their petitions with this office without the necessity of a preliminary review by zoning personnel.

Dear Mr. Lichter:

At the request of the attorney/petitioner, the above referenced petition was accepted for filing without a final filing review by the staff. The petition was accepted with the understanding that all zoning issues/filing requirements would be addressed. A subsequent review by the staff has revealed unaddressed zoning issues and/or incomplete information. The following comments are advisory and do not necessarily identify all details and inherent technical zoning requirements necessary for a complete application. As with all petitions filed in this office, it is the final responsibility of the petitioner to make a proper application, address any zoning conflicts and, if necessary, to file revised petition materials. All revisions (including those required by the hearing officer) must be accompanied by a check made out to Baltimore County, Maryland for the \$50.00 revision fee.
