RE: Spirit and Intent
6701 North Charles Street
9th Election District

Dear Mr. Mason:

Upon review of your correspondence dated March 6, 1997 regarding the above referenced matter, please be advised that it is the opinion of this office that your request to upgrade and expand the subject facility with: Six (6) panel antennas measuring 48 inches in height x 6.1 inches in width x 2.8 inches in depth; and, three (3) equipment cabinets measuring approximately 6.0 inches in height x 30 inches in width x 30 inches, is within the spirit and intent of zoning case #95-363-X.

I trust that the information set forth in this letter is sufficiently detailed and responsive to the request. If you need further information or have any questions, please do not hesitate to contact me at 887-3391.

Very truly yours,

FINDINGS OF FACT AND CONCLUSIONS OF LAW

This matter comes before the Zoning Commissioner as a Petition for Special Exception for the property located at 6701 N. Charles Street, near Towson. The property is the site of the Greater Baltimore Medical Center. Special exception relief is requested for approval of a wireless transmitting and receiving facility. Specifically, the Petitioner seeks approval to construct six antenna on the roof of the Physicians Pavillion East building. Although the hospital campus is predominantly zoned D.R.2, the subject building is on land zoned R.O. The Petition is filed by the Greater Baltimore Medical Center, Inc., the corporate property owner, and Margaret C. Ruggieri, Esquire on behalf of American PCS, L.P., (hereinafter known as "APC") Lessee. The subject property and requested relief are more particularly shown on Petitioner's Exhibit No. 1, the plat to accompany the Petition for Special Exception.

Appearing at the public hearing held for this case was Margaret C. Ruggieri, Esquire on behalf of APC. Also present on behalf of that corporation was Gregory Sarro and Debbie Meaney. Also present were consultants retained by APC for this project, namely, Michael Maguire from Daft, McCune and Walker, and Andrew Werchniak. The Petitioner was represented by Christine K. McSherry, Esquire. There were no Protestants or other interested persons present.

This is another in a series of cases which have recently come before this Zoning Commissioner filed by APC. APC is a new entrant in Baltimore

ORDER RECEIVED FOR FILING

County in the fast growing industry of wireless and cellular communication. The company specializes in transmitting not just cellular telephone communication but also wireless fax and information communication. This Commissioner has considered similar Petitions filed by the company for various sites in Baltimore County and is familiar with this business.

As is the case with all cellular providers, the company proposes constructing an interconnected grid of antennas to establish a cellular communication network. These antennas will be strategically placed to cover an established geographic area. A mobile user of the network will then be handed off from one cell grid to another to ensure continuous communication capability.

To cover the general Towson area, the Petitioner proposes placing an antenna on the subject site. As has been the case in similar Petitions, the company wishes to utilize existing structures. This reduces the need for monopoles and new structures to support the antenna.

In the instant case, the Petitioner proposes placing six antennas on the roof of the Physicians' Pavilion East Building on the GBMC campus. The antennas will be placed on the rooftop so as to provide a 360 degree radius of communication capability. Photographs of the site shows that this is one of the higher buildings in the vicinity. The general geographic area is characterized by a dense population and its topography consists of rolling hills and valleys. The Petitioner also submitted an environmental impact study (Petitioner's Exhibit No. 3) and a packet of material (Petitioner's Exhibit No. 2), which describes the characteristics and anticipated impact of the antennas. These reports conclude that there will be no adverse impact on the surrounding locale by the placement of the antennas as proposed.

The Zoning Plans Advisory Committee (ZAC) comments are all neutral on this subject. One comment from the Department of Environmental Protection and Resource Management (DEPRM) opines that the Petitioner must comply with FCC requirements as to the antennas and their use. The Petitioner advised that, indeed, these facilities comply with all FCC standards as to safety and will not detrimentally affect other frequencies or communications.

Based upon the testimony and evidence offered, all of which was uncontradicted, I am persuaded to grant the Petition for Special Exception. It is clear that the Petitioner has satisfied the standards set forth in Sections 502.1 and 502.7 of the BCZR, as well as the particular requirements governing wireless transmitting facilities contained in Section 426 of the BCZR. Thus, the Petition for Special Exception shall be granted.

Pursuant to the advertisement, posting of the property, and public hearing on this Petition held, and for the reasons given above, the relief requested should be granted.

THEREFORE, IT IS ORDERED by the Zoning Commissioner of Baltimore County this 31ST day of May, 1995 that, pursuant to the Petition for Special Exception, approval to allow a wireless transmitting and receiving facility in an R.O. & D.R.2 zone, be and is hereby GRANTED, subject, however, to the following restriction which are conditions precedent to the relief granted:

1. The Petitioner is hereby made aware that proceeding at this time is at its own risk until such time as the 30 day appellate process from this Order has expired. If, for whatever reason, this Order is reversed, the Petitioner would be required to return, and be responsible for returning, said property to its original condition.

Medical Center, Inc.

Dear Mr. Barhight:

The Zoning Advisory Committee (ZAC), which consists of representatives from Baltimore County approving agencies, has reviewed the plans submitted with the above referenced petition. Said petition was accepted for processing by, the Office of Zoning Administration and Development Management (ZADM), Development Control Section on April 13, 1995.

Any comments submitted thus far from the members of ZAC that offer or request information on your petition are attached. These comments are not intended to indicate the appropriateness of the zoning action requested, but to assure that all parties; i.e., zoning commissioner, attorney, petitioner, etc. are made aware of plans or problems with regard to the proposed improvements that may have a bearing on this case. Only those comments that are informative will be forwarded to you; those that are not informative will be placed in the permanent case file.

If you need further information or have any questions regarding these comments, please do not hesitate to contact the commenting agency or Joyce Watson in the zoning office (887-3391).

Sincerely,

FINDINGS OF FACT AND CONCLUSIONS OF LAW

This matter comes before the Zoning Commissioner as a Petition for Special Exception for the property located at 6701 N. Charles Street, near Towson. The property is the site of the Greater Baltimore Medical Center. Special exception relief is requested for approval of a wireless transmitting and receiving facility. Specifically, the Petitioner seeks approval to construct six antenna on the roof of the Physicians Pavilion East building. Although the hospital campus is predominantly zoned D.R.2, the subject building is on land zoned R.O. The Petition is filed by the Greater Baltimore Medical Center, Inc., the corporate property owner, and Margaret C. Ruggieri, Esquire on behalf of American PCS, L.P., (hereinafter known as "APC") Lessee. The subject property and requested relief are more particularly shown on Petitioner's Exhibit No. 1, the plat to accompany the Petition for Special Exception.

Appearing at the public hearing held for this case was Margaret C. Ruggieri, Esquire on behalf of APC. Also present on behalf of that corporation was Gregory Sarro and Debbie Meaney. Also present were consultants retained by APC for this project, namely, Michael Maguire from Daft, McCune and Walker, and Andrew Werchniak. The Petitioner was represented by Christine K. McSherry, Esquire. There were no Protestants or other interested persons present.

This is another in a series of cases which have recently come before this Zoning Commissioner filed by APC. APC is a new entrant in Baltimore

County in the fast growing industry of wireless and cellular communication. The company specializes in transmitting not just cellular telephone communication but also wireless fax and information communication. This Commissioner has considered similar Petitions filed by the company for various sites in Baltimore County and is familiar with this business.

As is the case with all cellular providers, the company proposes constructing an interconnected grid of antennas to establish a cellular communication network. These antennas will be strategically placed to cover an established geographic area. A mobile user of the network will then be handed off from one cell grid to another to ensure continuous communication capability.

To cover the general Towson area, the Petitioner proposes placing an antenna on the subject site. As has been the case in similar Petitions, the company wishes to utilize existing structures. This reduces the need for monopoles and new structures to support the antenna.

In the instant case, the Petitioner proposes placing six antennas on the roof of the Physicians' Pavilion East Building on the GBMC campus. The antennas will be placed on the rooftop so as to provide a 360 degree radius of communication capability. Photographs of the site shows that this is one of the higher buildings in the vicinity. The general geographic area is characterized by a dense population and its topography consists of rolling hills and valleys. The Petitioner also submitted an environmental impact study (Petitioner's Exhibit No. 3) and a packet of material (Petitioner's Exhibit No. 2), which describes the characteristics and anticipated impact of the antennas. These reports conclude that there will be no adverse impact on the surrounding locale by the placement of the antennas as proposed.

- 2 -

The Zoning Plans Advisory Committee (ZAC) comments are all neutral on this subject. One comment from the Department of Environmental Protection and Resource Management (DEPRM) opines that the Petitioner must comply with FCC requirements as to the antennas and their use. The Petitioner advised that, indeed, these facilities comply with all FCC standards as to safety and will not detrimentally affect other frequencies or communications.

Based upon the testimony and evidence offered, all of which was uncontradicted, I am persuaded to grant the Petition for Special Exception. It is clear that the Petitioner has satisfied the standards set forth in Sections 502.1 and 502.7 of the BCZR, as well as the particular requirements governing wireless transmitting facilities contained in Section 426 of the BCZR. Thus, the Petition for Special Exception shall be granted.

Pursuant to the advertisement, posting of the property, and public hearing on this Petition held, and for the reasons given above, the relief requested should be granted.

THEREFORE, IT IS ORDERED by the Zoning Commissioner of Baltimore County this 31st day of May, 1995 that, pursuant to the Petition for Special Exception, approval to allow a wireless transmitting and receiving facility in an R.O. & D.R.2 zone, be and is hereby GRANTED, subject, however, to the following restriction which are conditions precedent to the relief granted:

1. The Petitioner is hereby made aware that proceeding at this time is at its own risk until such time as the 30 day appellate process from this Order has expired. If, for whatever reason, this Order is reversed, the Petitioner would be required to return, and be responsible for returning, said property to its original condition.

Dear Mr. Barhight:
The Zoning Advisory Committee (ZAC), which consists of representatives from Baltimore County approving agencies, has reviewed the plans submitted with the above referenced petition. Said petition was accepted for processing by the Office of Zoning Administration and Development Management (ZADM), Development Control Section on April 13, 1995.
Any comments submitted thus far from the members of ZAC that offer or request information on your petition are attached. These comments are not intended to indicate the appropriateness of the zoning action requested, but to assure that all parties; i.e., zoning commissioner, attorney, petitioner, etc. are made aware of plans or problems with regard to the proposed improvements that may have a bearing on this case. Only those comments that are informative will be forwarded to you; those that are not informative will be placed in the permanent case file.
If you need further information or have any questions regarding these comments, please do not hesitate to contact the commenting agency or Joyce Watson in the zoning office (887-3391).

Inter-Office Memorandum

DATE: April 13, 1995
TO: Hearing Officer
FROM: John L. Lewis
Planner II, ZADM
SUBJECT: Item #358
6701 North Charles Street

Advised applicant that 59+ acre description for special exception should have been reduced to area actually needed for special exception support area.

Also, applicant wished only one sign. I advised that a complaint by a party not seeing the sign along other roads where they normally travel could cause a problem.

Also, advised a special hearing is usually requested to amend prior approved hearing plans.

 - Zoning History:
66-160A Petition for Variance to permit a directional sign of 48 square feet instead of the required 25 square foot sign. Granted January 5, 1966.
66-45 SPHA Special Hearing for a medical arts facility as an accessory use and structure to the principal use of a hospital and variance to permit a maximum width of building elevations of 51' left and 32' right instead of the required 300 feet, a rear yard setback of 10 feet instead of the required 40 feet, a side yard setback of 5 feet instead of the required 30 feet, a front yard setback of 10 feet instead of the required 60 feet, and a distance between buildings of 30 feet instead of the required 40 feet and/or 75 feet. Granted August 1, 1965.
67-448 SPHA Special Hearing to approve an amendment to the Order in Case No. 66-45 SPHA to permit the relocation from the main hospital building to the existing pharmacy and optical facility to the medical arts facility. Granted June 23, 1987, with restrictions:
a. The pharmacy and optical facilities shall be adjunct and accessory to the hospital and together shall occupy no more than 2,000 square feet on the first floor of the medical arts facility.
b. No outside off-campus advertising of the pharmacy and optical facility shall be permitted.
69-174 SPHX Special Exception for a Class B group child care center. Granted December 19, 1988.
92-36-XA Special Exception to permit a maximum building elevation width of 590 feet for a proposed building attached to an existing garage in lieu of the maximum width of 300 feet as provided in Section 1501.29. Variance to permit a building separation between a proposed parking garage and the existing hospital core of 90 feet in lieu of the required 100 feet as set forth in Section 102.2 and CMOP V.B.2 pursuant to Section 504.2, and to permit rear yard of 10 and 20 feet in lieu of the required 40 feet as set forth in CMOP V.B.2 pursuant to Section 504.2.
Case number 95-363-X for Special Exception to allow a wireless transmitting and receiving facility in an R.O. and D.R.2 zone was granted on May 31, 1995 subject to the following restrictions which are conditions precedent to the relief granted:
1. "The Petitioner is hereby made aware that proceeding at this time is at its own risk until such time as the 30 day appellate process from this Order has expired. If, for whatever reason, this Order is reversed, the Petitioner would be required to return, and be responsible for returning, said property to its original condition."
 - There are no signs proposed for this facility.
