FINDINGS OF FACT AND CONCLUSIONS OF LAW

This matter comes before the Deputy Zoning Commissioner as combined Petitions for Variance for those properties known as 4112 and 4114 Link Avenue and 4109 and 4111 Silver Spring Road, located in the vicinity of Joppa Road and Belair Road in Perry Hall. The Petitions were filed by Kenneth J. Goeller, Jr., and his wife, Charlene J. Goeller, owners of 4114 Link Avenue and 4111 Silver Spring Road, and Francis D. Kemp, Jr., owner of 4112 Link Avenue and 4109 Silver Spring Road. In all four cases, relief is sought from Section 1B02.3.C.1 of the Baltimore County Zoning Regulations (B.C.Z.R.) to permit a lot width of 50 feet in lieu of the required 55 feet, and a side yard setback of 8 feet in lieu of the required 10 feet for existing and proposed improvements. The subject properties and relief requested are more particularly described on the respective site plans submitted with each Petition filed, which were accepted and marked into evidence as Petitioner's Exhibits 1.

Appearing at the hearing on behalf of the Petitions were Kenneth and Charlene Goeller, Francis Kemp, Jr., and Alexander P. Ratych, Registered Land Surveyor who prepared the site plans for each case. There were no Protestants present.

Testimony and evidence offered revealed that the properties known

as 4112 and 4114 Link Avenue are located adjacent to one another in the subdivision known as Fullerton Farms. The two properties are 50 feet wide and nearly 400 feet deep and abut Link Avenue in the front and Silver Spring Road in the rear. The Goellers and the Kemps have been neighbors for many years. The Petitioners now wish to subdivide their respective properties to create a second building lot which will front on Silver Spring Road. They then propose to develop that lot with a new single family dwelling for their respective families and either rent or sell their current homes. Due to the narrow width of the properties and the location of existing improvements thereon, the requested variances to lot width and setback requirements are necessary to legitimize existing conditions and to proceed with the proposed improvements.

An area variance may be granted where strict application of the zoning regulations would cause practical difficulty to the Petitioner and his property. McLean v. Soley, 270 Md. 208 (1973). To prove practical difficulty for an area variance, the Petitioner must meet the following:

- 1) whether strict compliance with requirement would unreasonably prevent the use of the property for a permitted purpose or render conformance unnecessarily burdensome;
- 2) whether a grant of the variance would do a substantial justice to the applicant as well as other property owners in the district or whether a lesser relaxation than that applied for would give sufficient relief; and,
- 3) whether relief can be granted in such fashion that the spirit of the ordinance will be observed and public safety and welfare secured.

Anderson v. Bd. of Appeals, Town of Chesapeake Beach, 22 Md. App. 28 (1974).

After due consideration of the testimony and evidence presented,

MICROFILMED

ORDER RECEIVED FOR FILING

it is clear that practical difficulty or unreasonable hardship will result if the variances are not granted. It has been established that special circumstances or conditions exist that are peculiar to the land and structures which are the subject of these requests and that the requirements from which the Petitioners seek relief will unduly restrict the use of the land due to the special conditions unique to this particular parcel. In addition, the relief requested will not cause any injury to the public health, safety or general welfare and is in strict harmony with the spirit and intent of the B.C.Z.R.

Pursuant to the advertisement, posting of the property, and public hearing on these Petitions held, and for the reasons given above, the relief requested should be granted.

THEREFORE, IT IS ORDERED by the Deputy Zoning Commissioner for Baltimore County this 22nd day of August, 1996 that the Petitions for Variance seeking relief from Section 1B02.3.C.1 of the Baltimore County Zoning Regulations (B.C.Z.R.) to permit a lot width of 50 feet in lieu of the required 55 feet, and a side yard setback of 8 feet in lieu of the required 10 feet for existing and proposed improvements at 4112 and 4114 Link Avenue, and 4109 and 4111 Silver Spring Road, in accordance with Petitioner's Exhibits 1, be and is hereby GRANTED, subject to the following restrictions:

1) The Petitioners may apply for their building permit and be granted same upon receipt of this Order; however, Petitioners are hereby made aware that proceeding at this time is at their own risk until such time as the 30-day appellate process from this Order has expired. If, for whatever reason, this Order is reversed, the relief granted herein shall be rescinded.

ZONING HEARING ADVERTISING AND POSTING REQUIREMENTS & PROCEDURES

Baltimore County zoning regulations require that notice be given to the general public/neighboring property owners relative to property which is the subject of an upcoming zoning hearing. For those petitions which require a public hearing, this notice is accomplished by posting a sign on the property and placement of a notice in at least one newspaper of general circulation in the County.

This office will ensure that the legal requirements for posting and advertising are satisfied. However, the petitioner is responsible for the costs associated with these requirements.

PAYMENT WILL BE MADE AS FOLLOWS:

- 1) Posting fees will be accessed and paid to this office at the time of filing.
- 2) Billing for legal advertising, due upon receipt, will come from and should be remitted directly to the newspaper.

NON-PAYMENT OF ADVERTISING FEES WILL STAY ISSUANCE OF ZONING ORDER.

Dear Mr. and Mrs. Goeller:

The Zoning Advisory Committee (ZAC), which consists of representatives from Baltimore County approval agencies, has reviewed the plans submitted with the above referenced petition, which was accepted for processing by Permits and Development Management (PDM), Zoning Review, on July 18, 1996.

Any comments submitted thus far from the members of ZAC that offer or request information on your petition are attached. These comments are not intended to indicate the appropriateness of the zoning action requested, but to assure that all parties (zoning commissioner, attorney, petitioner, etc.) are made aware of plans or problems with regard to the proposed improvements that may have a bearing on this case. Only those comments that are informative will be forwarded to you; those that are not informative will be placed in the permanent case file.

If you need further information or have any questions regarding these comments, please do not hesitate to contact the commenting agency or Roslyn Eubanks in the zoning office (887-3391).

FINDINGS OF FACT AND CONCLUSIONS OF LAW

This matter comes before the Deputy Zoning Commissioner as combined Petitions for Variance for those properties known as 4112 and 4114 Link Avenue and 4109 and 4111 Silver Spring Road, located in the vicinity of Joppa Road and Belair Road in Perry Hall. The Petitions were filed by Kenneth J. Goeller, Jr., and his wife, Charlene J. Goeller, owners of 4114 Link Avenue and 4111 Silver Spring Road, and Francis D. Kemp, Jr., owner of 4112 Link Avenue and 4109 Silver Spring Road. In all four cases, relief is sought from Section 1802.3.C.1 of the Baltimore County Zoning Regulations (B.C.Z.R.) to permit a lot width of 50 feet in lieu of the required 55 feet, and a side yard setback of 8 feet in lieu of the required 10 feet for existing and proposed improvements. The subject properties and relief requested are more particularly described on the respective site plans submitted with each Petition filed, which were accepted and marked into evidence as Petitioner's Exhibits 1.

Appearing at the hearing on behalf of the Petitions were Kenneth and Charlene Goeller, Francis Kemp, Jr., and Alexander P. Ratych, Registered Land Surveyor who prepared the site plans for each case. There were no Protestants present.

Testimony and evidence offered revealed that the properties known

as 4112 and 4114 Link Avenue are located adjacent to one another in the subdivision known as Fullerton Farms. The two properties are 50 feet wide and nearly 400 feet deep and abut Link Avenue in the front and Silver Spring Road in the rear. The Goellers and the Kemps have been neighbors for many years. The Petitioners now wish to subdivide their respective properties to create a second building lot which will front on Silver Spring Road. They then propose to develop that lot with a new single family dwelling for their respective families and either rent or sell their current homes. Due to the narrow width of the properties and the location of existing improvements thereon, the requested variances to lot width and setback requirements are necessary to legitimize existing conditions and to proceed with the proposed improvements.

An area variance may be granted where strict application of the zoning regulations would cause practical difficulty to the Petitioner and his property. McLean v. Soley, 270 Md. 208 (1973). To prove practical difficulty for an area variance, the Petitioner must meet the following:

- 1) whether strict compliance with requirement would unreasonably prevent the use of the property for a permitted purpose or render conformance unnecessarily burdensome;
- 2) whether a grant of the variance would do a substantial justice to the applicant as well as other property owners in the district or whether a lesser relaxation than that applied for would give sufficient relief; and,
- 3) whether relief can be granted in such fashion that the spirit of the ordinance will be observed and public safety and welfare secured.

Anderson v. Bd. of Appeals, Town of Chesapeake Beach, 22 Md. App. 28 (1974).

After due consideration of the testimony and evidence presented,

- 2 -

it is clear that practical difficulty or unreasonable hardship will result if the variances are not granted. It has been established that special circumstances or conditions exist that are peculiar to the land and structures which are the subject of these requests and that the requirements from which the Petitioners seek relief will unduly restrict the use of the land due to the special conditions unique to this particular parcel. In addition, the relief requested will not cause any injury to the public health, safety or general welfare and is in strict harmony with the spirit and intent of the B.C.Z.R.

Pursuant to the advertisement, posting of the property, and public hearing on these Petitions held, and for the reasons given above, the relief requested should be granted.

THEREFORE, IT IS ORDERED by the Deputy Zoning Commissioner for Baltimore County this 20th day of August, 1996 that the Petitions for Variance seeking relief from Section 1802.3.C.1 of the Baltimore County Zoning Regulations (B.C.Z.R.) to permit a lot width of 50 feet in lieu of the required 55 feet, and a side yard setback of 8 feet in lieu of the required 10 feet for existing and proposed improvements at 4112 and 4114 Link Avenue, and 4109 and 4111 Silver Spring Road, in accordance with Petitioner's Exhibits 1, be and is hereby GRANTED, subject to the following restrictions:

- 1) The Petitioners may apply for their building permit and be granted same upon receipt of this Order; however, Petitioners are hereby made aware that proceeding at this time is at their own risk until such time as the 30-day appellate process from this Order has expired. If, for whatever reason, this Order is reversed, the relief granted herein shall be rescinded.

Petition for Variance to the Zoning Commissioner of Baltimore County

for the property located at 4114 Link Avenue

which is presently zoned DR-5.5

This Petition shall be filed with the Office of Zoning Administration & Development Management. The undersigned, legal owner(s) of the property situated in Baltimore County and which is described in the description and plat attached hereto and made a part hereof, hereby petition for a Variance from Section 1802.3.C.1

To allow the creation of a smaller 50' wide lot in lieu of the required 55' and an existing 8' side yard in lieu of the required 10'.

of the Zoning Regulations of Baltimore County, to the Zoning Law of Baltimore County, for the following reasons: (Indicate hardship or practical difficulty)

The Lots, 50' feet wide, were created on the Plat of Fullerton Farms, dated May 1922, and cannot meet the present zoning required of 55' feet in width.

Property is to be posted and advertised as prescribed by Zoning Regulations. I, or we, agree to pay expenses of above Variance advertising, posting, etc., upon filing of this petition, and further agree to and are to be bound by the zoning regulations and restrictions of Baltimore County adopted pursuant to the Zoning Law for Baltimore County.

Correct Purchaser/Owner:

I/we do solemnly declare and affirm, under the penalties of perjury, that I/we are the legal owner(s) of the property which is the subject of this Petition.

Kenneth J. Goeller, Jr., et ux
and Francis D. Kemp, Jr. - Petitioners

FINDINGS OF FACT AND CONCLUSIONS OF LAW

This matter comes before the Deputy Zoning Commissioner as combined Petitions for Variance for those properties known as 4112 and 4114 Link Avenue and 4109 and 4111 Silver Spring Road, located in the vicinity of Joppa Road and Belair Road in Perry Hall. The Petitions were filed by Kenneth J. Goeller, Jr., and his wife, Charlene J. Goeller, owners of 4114 Link Avenue and 4111 Silver Spring Road, and Francis D. Kemp, Jr., owner of 4112 Link Avenue and 4109 Silver Spring Road. In all four cases, relief is sought from Section 1802.3.C.1 of the Baltimore County Zoning Regulations (B.C.Z.R.) to permit a lot width of 50 feet in lieu of the required 55 feet, and a side yard setback of 8 feet in lieu of the required 10 feet for existing and proposed improvements. The subject properties and relief requested are more particularly described on the respective site plans submitted with each Petition filed, which were accepted and marked into evidence as Petitioner's Exhibits 1.

Appearing at the hearing on behalf of the Petitions were Kenneth and Charlene Goeller, Francis Kemp, Jr., and Alexander P. Ratych, Registered Land Surveyor who prepared the site plans for each case. There were no Protestants present.

Testimony and evidence offered revealed that the properties known

as 4112 and 4114 Link Avenue are located adjacent to one another in the subdivision known as Fullerton Farms. The two properties are 50 feet wide and nearly 400 feet deep and abut Link Avenue in the front and Silver Spring Road in the rear. The Goellers and the Kemps have been neighbors for many years. The Petitioners now wish to subdivide their respective properties to create a second building lot which will front on Silver Spring Road. They then propose to develop that lot with a new single family dwelling for their respective families and either rent or sell their current homes. Due to the narrow width of the properties and the location of existing improvements thereon, the requested variances to lot width and setback requirements are necessary to legitimize existing conditions and to proceed with the proposed improvements.

An area variance may be granted where strict application of the zoning regulations would cause practical difficulty to the Petitioner and his property. McLean v. Soley, 270 Md. 208 (1973). To prove practical difficulty for an area variance, the Petitioner must meet the following:

- 1) whether strict compliance with requirement would unreasonably prevent the use of the property for a permitted purpose or render conformance unnecessarily burdensome;
- 2) whether a grant of the variance would do a substantial justice to the applicant as well as other property owners in the district or whether a lesser relaxation than that applied for would give sufficient relief; and,
- 3) whether relief can be granted in such fashion that the spirit of the ordinance will be observed and public safety and welfare secured.

Anderson v. Bd. of Appeals, Town of Chesapeake Beach, 22 Md. App. 28 (1974).

After due consideration of the testimony and evidence presented,

- 2 -

it is clear that practical difficulty or unreasonable hardship will result if the variances are not granted. It has been established that special circumstances or conditions exist that are peculiar to the land and structures which are the subject of these requests and that the requirements from which the Petitioners seek relief will unduly restrict the use of the land due to the special conditions unique to this particular parcel. In addition, the relief requested will not cause any injury to the public health, safety or general welfare and is in strict harmony with the spirit and intent of the B.C.Z.R.

Pursuant to the advertisement, posting of the property, and public hearing on these Petitions held, and for the reasons given above, the relief requested should be granted.

THEREFORE, IT IS ORDERED by the Deputy Zoning Commissioner for Baltimore County this 22nd day of August, 1996 that the Petitions for Variance seeking relief from Section 1802.3.C.1 of the Baltimore County Zoning Regulations (B.C.Z.R.) to permit a lot width of 50 feet in lieu of the required 55 feet, and a side yard setback of 8 feet in lieu of the required 10 feet for existing and proposed improvements at 4112 and 4114 Link Avenue, and 4109 and 4111 Silver Spring Road, in accordance with Petitioner's Exhibits 1, be and is hereby GRANTED, subject to the following restrictions:

- 1) The Petitioners may apply for their building permit and be granted same upon receipt of this Order; however, Petitioners are hereby made aware that proceeding at this time is at their own risk until such time as the 30-day appellate process from this Order has expired. If, for whatever reason, this Order is reversed, the relief granted herein shall be rescinded.

Petition for Variance

to the Zoning Commissioner of Baltimore County

for the property located at 4111 Silver Spring Road
which is presently zoned DR 5.5

This Petition shall be filed with the Office of Zoning Administration & Development Management. The undersigned, legal owner(s) of the property, hereby petition for a Variance from Sections 1802.3.C.1 of the Baltimore County Zoning Regulations (B.C.Z.R.) to allow the creation of a 50' lot in lieu of the required 55' and a side yard setback of 8' in lieu of the required 10'.

of the Zoning Regulations of Baltimore County, to the Zoning Law of Baltimore County, for the following reasons (indicate hardship or practical difficulty):

The Lots, 50' feet wide, were created on the Plat of Fullerton Farms, dated May 1972, and cannot meet the present zoning required of 55' feet in width.

Property is to be posted and advertised as prescribed by Zoning Regulations. I, or we, agree to pay expenses of above variance advertising, posting, etc., upon filing of this petition, and further agree to and are to be bound by the zoning regulations and restrictions of Baltimore County adopted pursuant to the Zoning Law for Baltimore County.

Dear Mr. Goeller:

The Zoning Advisory Committee (ZAC), which consists of representatives from Baltimore County approval agencies, has reviewed the plans submitted with the above referenced petition, which was accepted for processing by Permits and Development Management (PDM), Zoning Review, on July 18, 1996.

Any comments submitted thus far from the members of ZAC that offer or request information on your petition are attached. These comments are not intended to indicate the appropriateness of the zoning action requested, but to assure that all parties (zoning commissioner, attorney, petitioner, etc.) are made aware of plans or problems with regard to the proposed improvements that may have a bearing on this case. Only those comments that are informative will be forwarded to you; those that are not informative will be placed in the permanent case file.

If you need further information or have any questions regarding these comments, please do not hesitate to contact the commenting agency or Roslyn Eubanks in the zoning office (887-3391).

Sincerely,

W. Carl Richards, Jr.

RE: Item No.: 22
Case No.: 97-21-A
Petitioner: Kenneth Goeller, et ux

Dear Mr. and Mrs. Goeller:

The Zoning Advisory Committee (ZAC), which consists of representatives from Baltimore County approval agencies, has reviewed the plans submitted with the above referenced petition, which was accepted for processing by Permits and Development Management (PDM), Zoning Review, on July 18, 1996.

Any comments submitted thus far from the members of ZAC that offer or request information on your petition are attached. These comments are not intended to indicate the appropriateness of the zoning action requested, but to assure that all parties (zoning commissioner, attorney, petitioner, etc.) are made aware of plans or problems with regard to the proposed improvements that may have a bearing on this case. Only those comments that are informative will be forwarded to you; those that are not informative will be placed in the permanent case file.

If you need further information or have any questions regarding these comments, please do not hesitate to contact the commenting agency or Roslyn Eubanks in the zoning office (887-3391).

Sincerely,

W. Carl Richards, Jr.

FINDINGS OF FACT AND CONCLUSIONS OF LAW

This matter comes before the Deputy Zoning Commissioner as combined Petitions for Variance for those properties known as 4112 and 4114 Link Avenue and 4109 and 4111 Silver Spring Road, located in the vicinity of Joppa Road and Belair Road in Perry Hall. The Petitions were filed by Kenneth J. Goeller, Jr., and his wife, Charlene J. Goeller, owners of 4114 Link Avenue and 4111 Silver Spring Road, and Francis D. Kemp, Jr., owner of 4112 Link Avenue and 4109 Silver Spring Road. In all four cases, relief is sought from Section 1802.3.C.1 of the Baltimore County Zoning Regulations (B.C.Z.R.) to permit a lot width of 50 feet in lieu of the required 55 feet, and a side yard setback of 8 feet in lieu of the required 10 feet for existing and proposed improvements. The subject properties and relief requested are more particularly described on the respective site plans submitted with each Petition filed, which were accepted and marked into evidence as Petitioner's Exhibits 1.

Appearing at the hearing on behalf of the Petitions were Kenneth and Charlene Goeller, Francis Kemp, Jr., and Alexander P. Ratych, Registered Land Surveyor who prepared the site plans for each case. There were no Protestants present.

Testimony and evidence offered revealed that the properties known

as 4112 and 4114 Link Avenue are located adjacent to one another in the subdivision known as Fullerton Farms. The two properties are 50 feet wide and nearly 400 feet deep and abut Link Avenue in the front and Silver Spring Road in the rear. The Goellers and the Kemps have been neighbors for many years. The Petitioners now wish to subdivide their respective properties to create a second building lot which will front on Silver Spring Road. They then propose to develop that lot with a new single family dwelling for their respective families and either rent or sell their current homes. Due to the narrow width of the properties and the location of existing improvements thereon, the requested variances to lot width and setback requirements are necessary to legitimize existing conditions and to proceed with the proposed improvements.

An area variance may be granted where strict application of the zoning regulations would cause practical difficulty to the Petitioner and his property. McLean v. Soles, 270 Md. 208 (1973). To prove practical difficulty for an area variance, the Petitioner must meet the following:

- 1) whether strict compliance with requirement would unreasonably prevent the use of the property for a permitted purpose or render conformance unnecessarily burdensome;
- 2) whether a grant of the variance would do a substantial justice to the applicant as well as other property owners in the district or whether a lesser relaxation than that applied for would give sufficient relief; and,
- 3) whether relief can be granted in such fashion that the spirit of the ordinance will be observed and public safety and welfare secured.

Anderson v. Bd. of Appeals, Town of Chesapeake Beach, 22 Md. App. 28 (1974).

After due consideration of the testimony and evidence presented,

- 2 -

it is clear that practical difficulty or unreasonable hardship will result if the variances are not granted. It has been established that special circumstances or conditions exist that are peculiar to the land and structures which are the subject of these requests and that the requirements from which the Petitioners seek relief will unduly restrict the use of the land due to the special conditions unique to this particular parcel. In addition, the relief requested will not cause any injury to the public health, safety or general welfare and is in strict harmony with the spirit and intent of the B.C.Z.R.

Pursuant to the advertisement, posting of the property, and public hearing on these Petitions held, and for the reasons given above, the relief requested should be granted.

THEREFORE, IT IS ORDERED by the Deputy Zoning Commissioner for Baltimore County this 22nd day of August, 1996 that the Petitions for Variance seeking relief from Section 1802.3.C.1 of the Baltimore County Zoning Regulations (B.C.Z.R.) to permit a lot width of 50 feet in lieu of the required 55 feet, and a side yard setback of 8 feet in lieu of the required 10 feet for existing and proposed improvements at 4112 and 4114 Link Avenue, and 4109 and 4111 Silver Spring Road, in accordance with Petitioner's Exhibits 1, be and is hereby GRANTED, subject to the following restrictions:

- 1) The Petitioners may apply for their building permit and be granted same upon receipt of this Order; however, Petitioners are hereby made aware that proceeding at this time is at their own risk until such time as the 30-day appellate process from this Order has expired. If, for whatever reason, this Order is reversed, the relief granted herein shall be rescinded.

Petition for Variance

to the Zoning Commissioner of Baltimore County

for the property located at 4112 Link Avenue
which is presently zoned DR-5.5
97-22-A

This Petition shall be filed with the Office of Zoning Administration & Development Management. The undersigned, legal owner(s) of the property situated in Baltimore County, hereby petition for a Variance from Section 1802.3.C.1 of the Baltimore County Zoning Regulations (B.C.Z.R.) to allow the creation of a 50' lot in lieu of the required 55' and a side yard setback of 8' in lieu of the required 10'.

The Lots, 50' feet wide, were created on the Plat of Fullerton Farms, dated May 1922, and cannot meet the present zoning required of 55' feet in width.

Property is to be posted and advertised as prescribed by Zoning Regulations. I, or we, agree to pay expenses of above Variance advertising, posting, etc., upon filing of this petition, and further agree to and are to be bound by the zoning regulations and restrictions of Baltimore County adopted pursuant to the Zoning Law for Baltimore County.

Dear Mr. Kemp:

The Zoning Advisory Committee (ZAC), which consists of representatives from Baltimore County approval agencies, has reviewed the plans submitted with the above referenced petition, which was accepted for processing by Permits and Development Management (PDM), Zoning Review, on July 18, 1996.

Any comments submitted thus far from the members of ZAC that offer or request information on your petition are attached. These comments are not intended to indicate the appropriateness of the zoning action requested, but to assure that all parties (zoning commissioner, attorney, petitioner, etc.) are made aware of plans or problems with regard to the proposed improvements that may have a bearing on this case. Only those comments that are informative will be forwarded to you; those that are not informative will be placed in the permanent case file.

If you need further information or have any questions regarding these comments, please do not hesitate to contact the commenting agency or Roslyn Bubank in the zoning office (887-3391).

Sincerely,

Kenneth J. Goeller, Jr., et ux
and Francis D. Kemp, Jr. - Petitioners

FINDINGS OF FACT AND CONCLUSIONS OF LAW

This matter comes before the Deputy Zoning Commissioner as combined Petitions for Variance for those properties known as 4112 and 4114 Link Avenue and 4109 and 4111 Silver Spring Road, located in the vicinity of Joppa Road and Belair Road in Perry Hall. The Petitions were filed by Kenneth J. Goeller, Jr., and his wife, Charlene J. Goeller, owners of 4114 Link Avenue and 4111 Silver Spring Road, and Francis D. Kemp, Jr., owner of 4112 Link Avenue and 4109 Silver Spring Road. In all four cases, relief is sought from Section 1B02.3.C.1 of the Baltimore County Zoning Regulations (B.C.Z.R.) to permit a lot width of 50 feet in lieu of the required 55 feet, and a side yard setback of 8 feet in lieu of the required 10 feet for existing and proposed improvements. The subject properties and relief requested are more particularly described on the respective site plans submitted with each Petition filed, which were accepted and marked into evidence as Petitioner's Exhibits 1.

Appearing at the hearing on behalf of the Petitions were Kenneth and Charlene Goeller, Francis Kemp, Jr., and Alexander P. Ratych, Registered Land Surveyor who prepared the site plans for each case. There were no Protestants present.

Testimony and evidence offered revealed that the properties known

as 4112 and 4114 Link Avenue are located adjacent to one another in the subdivision known as Fullerton Farms. The two properties are 50 feet wide and nearly 400 feet deep and abut Link Avenue in the front and Silver Spring Road in the rear. The Goellers and the Kems have been neighbors for many years. The Petitioners now wish to subdivide their respective properties to create a second building lot which will front on Silver Spring Road. They then propose to develop that lot with a new single family dwelling for their respective families and either rent or sell their current homes. Due to the narrow width of the properties and the location of existing improvements thereon, the requested variances to lot width and setback requirements are necessary to legitimize existing conditions and to proceed with the proposed improvements.

An area variance may be granted where strict application of the zoning regulations would cause practical difficulty to the Petitioner and his property. McLean v. Soley, 270 Md. 208 (1973). To prove practical difficulty for an area variance, the Petitioner must meet the following:

- 1) whether strict compliance with requirement would unreasonably prevent the use of the property for a permitted purpose or render conformance unnecessarily burdensome;
- 2) whether a grant of the variance would do a substantial justice to the applicant as well as other property owners in the district or whether a lesser relaxation than that applied for would give sufficient relief; and,
- 3) whether relief can be granted in such fashion that the spirit of the ordinance will be observed and public safety and welfare secured.

Anderson v. Bd. of Appeals, Town of Chesapeake Beach, 22 Md. App. 28 (1974).

After due consideration of the testimony and evidence presented,

it is clear that practical difficulty or unreasonable hardship will result if the variances are not granted. It has been established that special circumstances or conditions exist that are peculiar to the land and structures which are the subject of these requests and that the requirements from which the Petitioners seek relief will unduly restrict the use of the land due to the special conditions unique to this particular parcel. In addition, the relief requested will not cause any injury to the public health, safety or general welfare and is in strict harmony with the spirit and intent of the B.C.Z.R.

Pursuant to the advertisement, posting of the property, and public hearing on these Petitions held, and for the reasons given above, the relief requested should be granted.

THEREFORE, IT IS ORDERED by the Deputy Zoning Commissioner for Baltimore County this 22nd day of August, 1996 that the Petitions for Variance seeking relief from Section 1B02.3.C.1 of the Baltimore County Zoning Regulations (B.C.Z.R.) to permit a lot width of 50 feet in lieu of the required 55 feet, and a side yard setback of 8 feet in lieu of the required 10 feet for existing and proposed improvements at 4112 and 4114 Link Avenue, and 4109 and 4111 Silver Spring Road, in accordance with Petitioner's Exhibits 1, be and is hereby GRANTED, subject to the following restrictions:

- 1) The Petitioners may apply for their building permit and be granted same upon receipt of this Order; however, Petitioners are hereby made aware that proceeding at this time is at their own risk until such time as the 30-day appellate process from this Order has expired. If, for whatever reason, this Order is reversed, the relief granted herein shall be rescinded.

Petition for Variance to the Zoning Commissioner of Baltimore County

for the property located at 4109 Silver Spring Road
which is presently zoned DR 5.5

This Petition shall be filed with the Office of Zoning Administration & Development Management.
The undersigned, legal owner(s) of the property situate in Baltimore County and which is described in the description and plat attached hereto and made a part hereof, hereby petition for a Variance from Section 1B02.3.C.1
To allow the creation of a smaller 50' wide lot in lieu of the required 55' and an existing 8' side yard in lieu of the required 10'.

of the Zoning Regulations of Baltimore County, to the Zoning Law of Baltimore County, for the following reasons: (state hardship or practical difficulty)

The Lots, 50' feet wide, were created on the Plat of Fullerton Farms, dated May 1922, and cannot meet the present zoning required of 55' feet in width.

Property is to be posted and advertised as prescribed by Zoning Regulations.
I, or we, agree to pay expenses of above Variance advertising, posting, etc., upon filing of this petition, and further agree to and are to be bound by the zoning regulations and restrictions of Baltimore County adopted pursuant to the Zoning Law for Baltimore County.
