FINDINGS OF FACT AND CONCLUSIONS OF LAW

This matter comes before the Deputy Zoning Commissioner as combined Petitions for Variance for those properties known as 4112 and 4114 Link Avenue and 4109 and 4111 Silver Spring Road, located in the vicinity of Joppa Road and Belair Road in Perry Hall. The Petitions were filed by Kenneth J. Goeller, Jr., and his wife, Charlene J. Goeller, owners of 4114 Link Avenue and 4111 Silver Spring Road, and Francis D. Kemp, Jr., owner of 4112 Link Avenue and 4109 Silver Spring Road. In all four cases, relief is sought from Section 1B02.3.C.1 of the Baltimore County Zoning Regulations (B.C.Z.R.) to permit a lot width of 50 feet in lieu of the required 55 feet, and a side yard setback of 8 feet in lieu of the required 10 feet for existing and proposed improvements. The subject properties and relief requested are more particularly described on the respective site plans submitted with each Petition filed, which were accepted and marked into evidence as Petitioner's Exhibits 1.

Appearing at the hearing on behalf of the Petitions were Kenneth and Charlene Goeller, Francis Kemp, Jr., and Alexander P. Ratych, Registered Land Surveyor who prepared the site plans for each case. There were no Protestants present.

Testimony and evidence offered revealed that the properties known

as 4112 and 4114 Link Avenue are located adjacent to one another in the subdivision known as Fullerton Farms. The two properties are 50 feet wide and nearly 400 feet deep and abut Link Avenue in the front and Silver Spring Road in the rear. The Goellers and the Kemps have been neighbors for many years. The Petitioners now wish to subdivide their respective properties to create a second building lot which will front on Silver Spring Road. They then propose to develop that lot with a new single family dwelling for their respective families and either rent or sell their current homes. Due to the narrow width of the properties and the location of existing improvements thereon, the requested variances to lot width and setback requirements are necessary to legitimize existing conditions and to proceed with the proposed improvements.

An area variance may be granted where strict application of the zoning regulations would cause practical difficulty to the Petitioner and his property. McLean v. Soley, 270 Md. 208 (1973). To prove practical difficulty for an area variance, the Petitioner must meet the following:

- 1) whether strict compliance with requirement would unreasonably prevent the use of the property for a permitted purpose or render conformance unnecessarily burdensome;
- 2) whether a grant of the variance would do a substantial justice to the applicant as well as other property owners in the district or whether a lesser relaxation than that applied for would give sufficient relief; and,
- 3) whether relief can be granted in such fashion that the spirit of the ordinance will be observed and public safety and welfare secured.

Anderson v. Bd. of Appeals, Town of Chesapeake Beach, 22 Md. App. 28 (1974).

After due consideration of the testimony and evidence presented,

it is clear that practical difficulty or unreasonable hardship will result if the variances are not granted. It has been established that special circumstances or conditions exist that are peculiar to the land and structures which are the subject of these requests and that the requirements from which the Petitioners seek relief will unduly restrict the use of the land due to the special conditions unique to this particular parcel. In addition, the relief requested will not cause any injury to the public health, safety or general welfare and is in strict harmony with the spirit and intent of the B.C.Z.R.

Pursuant to the advertisement, posting of the property, and public hearing on these Petitions held, and for the reasons given above, the relief requested should be granted.

THEREFORE, IT IS ORDERED by the Deputy Zoning Commissioner for Baltimore County this 22nd day of August, 1996 that the Petitions for Variance seeking relief from Section 1B02.3.C.1 of the Baltimore County Zoning Regulations (B.C.Z.R.) to permit a lot width of 50 feet in lieu of the required 55 feet, and a side yard setback of 8 feet in lieu of the required 10 feet for existing and proposed improvements at 4112 and 4114 Link Avenue, and 4109 and 4111 Silver Spring Road, in accordance with Petitioner's Exhibits 1, be and is hereby GRANTED, subject to the following restrictions:

- 1) The Petitioners may apply for their building permit and be granted same upon receipt of this Order; however, Petitioners are hereby made aware that proceeding at this time is at their own risk until such time as the 30-day appellate process from this Order has expired. If, for whatever reason, this Order is reversed, the relief granted herein shall be rescinded.

Kenneth J. Goeller, Jr., et ux
and Francis D. Kemp, Jr. - Petitioners

FINDINGS OF FACT AND CONCLUSIONS OF LAW

This matter comes before the Deputy Zoning Commissioner as combined Petitions for Variance for those properties known as 4112 and 4114 Link Avenue and 4109 and 4111 Silver Spring Road, located in the vicinity of Joppa Road and Belair Road in Perry Hall. The Petitions were filed by Kenneth J. Goeller, Jr., and his wife, Charlene J. Goeller, owners of 4114 Link Avenue and 4111 Silver Spring Road, and Francis D. Kemp, Jr., owner of 4112 Link Avenue and 4109 Silver Spring Road. In all four cases, relief is sought from Section 1802.3.C.1 of the Baltimore County Zoning Regulations (B.C.Z.R.) to permit a lot width of 50 feet in lieu of the required 55 feet, and a side yard setback of 8 feet in lieu of the required 10 feet for existing and proposed improvements. The subject properties and relief requested are more particularly described on the respective site plans submitted with each Petition filed, which were accepted and marked into evidence as Petitioner's Exhibits 1.

Appearing at the hearing on behalf of the Petitions were Kenneth and Charlene Goeller, Francis Kemp, Jr., and Alexander P. Ratych, Registered Land Surveyor who prepared the site plans for each case. There were no Protestants present.

Testimony and evidence offered revealed that the properties known

as 4112 and 4114 Link Avenue are located adjacent to one another in the subdivision known as Fullerton Farms. The two properties are 50 feet wide and nearly 400 feet deep and abut Link Avenue in the front and Silver Spring Road in the rear. The Goellers and the Kemps have been neighbors for many years. The Petitioners now wish to subdivide their respective properties to create a second building lot which will front on Silver Spring Road. They then propose to develop that lot with a new single family dwelling for their respective families and either rent or sell their current homes. Due to the narrow width of the properties and the location of existing improvements thereon, the requested variances to lot width and setback requirements are necessary to legitimize existing conditions and to proceed with the proposed improvements.

An area variance may be granted where strict application of the zoning regulations would cause practical difficulty to the Petitioner and his property. McLean v. Soley, 270 Md. 208 (1973). To prove practical difficulty for an area variance, the Petitioner must meet the following:

- 1) whether strict compliance with requirement would unreasonably prevent the use of the property for a permitted purpose or render conformance unnecessarily burdensome;
- 2) whether a grant of the variance would do a substantial justice to the applicant as well as other property owners in the district or whether a lesser relaxation than that applied for would give sufficient relief; and,
- 3) whether relief can be granted in such fashion that the spirit of the ordinance will be observed and public safety and welfare secured.

Anderson v. Bd. of Appeals, Town of Chesapeake Beach, 22 Md. App. 28 (1974).

After due consideration of the testimony and evidence presented,

- 2 -

it is clear that practical difficulty or unreasonable hardship will result if the variances are not granted. It has been established that special circumstances or conditions exist that are peculiar to the land and structures which are the subject of these requests and that the requirements from which the Petitioners seek relief will unduly restrict the use of the land due to the special conditions unique to this particular parcel. In addition, the relief requested will not cause any injury to the public health, safety or general welfare and is in strict harmony with the spirit and intent of the B.C.Z.R.

Pursuant to the advertisement, posting of the property, and public hearing on these Petitions held, and for the reasons given above, the relief requested should be granted.

THEREFORE, IT IS ORDERED by the Deputy Zoning Commissioner for Baltimore County this 20th day of August, 1996 that the Petitions for Variance seeking relief from Section 1802.3.C.1 of the Baltimore County Zoning Regulations (B.C.Z.R.) to permit a lot width of 50 feet in lieu of the required 55 feet, and a side yard setback of 8 feet in lieu of the required 10 feet for existing and proposed improvements at 4112 and 4114 Link Avenue, and 4109 and 4111 Silver Spring Road, in accordance with Petitioner's Exhibits 1, be and is hereby GRANTED, subject to the following restrictions:

- 1) The Petitioners may apply for their building permit and be granted same upon receipt of this Order; however, Petitioners are hereby made aware that proceeding at this time is at their own risk until such time as the 30-day appellate process from this Order has expired. If, for whatever reason, this Order is reversed, the relief granted herein shall be rescinded.

FINDINGS OF FACT AND CONCLUSIONS OF LAW

This matter comes before the Deputy Zoning Commissioner as combined Petitions for Variance for those properties known as 4112 and 4114 Link Avenue and 4109 and 4111 Silver Spring Road, located in the vicinity of Joppa Road and Belair Road in Perry Hall. The Petitions were filed by Kenneth J. Goeller, Jr., and his wife, Charlene J. Goeller, owners of 4114 Link Avenue and 4111 Silver Spring Road, and Francis D. Kemp, Jr., owner of 4112 Link Avenue and 4109 Silver Spring Road. In all four cases, relief is sought from Section 1802.3.C.1 of the Baltimore County Zoning Regulations (B.C.Z.R.) to permit a lot width of 50 feet in lieu of the required 55 feet, and a side yard setback of 8 feet in lieu of the required 10 feet for existing and proposed improvements. The subject properties and relief requested are more particularly described on the respective site plans submitted with each Petition filed, which were accepted and marked into evidence as Petitioner's Exhibits 1.

Appearing at the hearing on behalf of the Petitions were Kenneth and Charlene Goeller, Francis Kemp, Jr., and Alexander P. Ratych, Registered Land Surveyor who prepared the site plans for each case. There were no Protestants present.

Testimony and evidence offered revealed that the properties known

as 4112 and 4114 Link Avenue are located adjacent to one another in the subdivision known as Fullerton Farms. The two properties are 50 feet wide and nearly 400 feet deep and abut Link Avenue in the front and Silver Spring Road in the rear. The Goellers and the Kamps have been neighbors for many years. The Petitioners now wish to subdivide their respective properties to create a second building lot which will front on Silver Spring Road. They then propose to develop that lot with a new single family dwelling for their respective families and either rent or sell their current homes. Due to the narrow width of the properties and the location of existing improvements thereon, the requested variances to lot width and setback requirements are necessary to legitimize existing conditions and to proceed with the proposed improvements.

An area variance may be granted where strict application of the zoning regulations would cause practical difficulty to the Petitioner and his property. McLean v. Soles, 270 Md. 208 (1973). To prove practical difficulty for an area variance, the Petitioner must meet the following:

- 1) whether strict compliance with requirement would unreasonably prevent the use of the property for a permitted purpose or render conformance unnecessarily burdensome;
- 2) whether a grant of the variance would do a substantial justice to the applicant as well as other property owners in the district or whether a lesser relaxation than that applied for would give sufficient relief; and,
- 3) whether relief can be granted in such fashion that the spirit of the ordinance will be observed and public safety and welfare secured.

Anderson v. Bd. of Appeals, Town of Chesapeake Beach, 22 Md. App. 28 (1974).

After due consideration of the testimony and evidence presented,

- 2 -

it is clear that practical difficulty or unreasonable hardship will result if the variances are not granted. It has been established that special circumstances or conditions exist that are peculiar to the land and structures which are the subject of these requests and that the requirements from which the Petitioners seek relief will unduly restrict the use of the land due to the special conditions unique to this particular parcel. In addition, the relief requested will not cause any injury to the public health, safety or general welfare and is in strict harmony with the spirit and intent of the B.C.Z.R.

Pursuant to the advertisement, posting of the property, and public hearing on these Petitions held, and for the reasons given above, the relief requested should be granted.

THEREFORE, IT IS ORDERED by the Deputy Zoning Commissioner for Baltimore County this 22nd day of August, 1996 that the Petitions for Variance seeking relief from Section 1802.3.C.1 of the Baltimore County Zoning Regulations (B.C.Z.R.) to permit a lot width of 50 feet in lieu of the required 55 feet, and a side yard setback of 8 feet in lieu of the required 10 feet for existing and proposed improvements at 4112 and 4114 Link Avenue, and 4109 and 4111 Silver Spring Road, in accordance with Petitioner's Exhibits 1, be and is hereby GRANTED, subject to the following restrictions:

- 1) The Petitioners may apply for their building permit and be granted same upon receipt of this Order; however, Petitioners are hereby made aware that proceeding at this time is at their own risk until such time as the 30-day appellate process from this Order has expired. If, for whatever reason, this Order is reversed, the relief granted herein shall be rescinded.

Kenneth J. Goeller, Jr., et ux
and Francis D. Kemp, Jr. - Petitioners

FINDINGS OF FACT AND CONCLUSIONS OF LAW

This matter comes before the Deputy Zoning Commissioner as combined Petitions for Variance for those properties known as 4112 and 4114 Link Avenue and 4109 and 4111 Silver Spring Road, located in the vicinity of Joppa Road and Belair Road in Perry Hall. The Petitions were filed by Kenneth J. Goeller, Jr., and his wife, Charlene J. Goeller, owners of 4114 Link Avenue and 4111 Silver Spring Road, and Francis D. Kemp, Jr., owner of 4112 Link Avenue and 4109 Silver Spring Road. In all four cases, relief is sought from Section 1B02.3.C.1 of the Baltimore County Zoning Regulations (B.C.Z.R.) to permit a lot width of 50 feet in lieu of the required 55 feet, and a side yard setback of 8 feet in lieu of the required 10 feet for existing and proposed improvements. The subject properties and relief requested are more particularly described on the respective site plans submitted with each Petition filed, which were accepted and marked into evidence as Petitioner's Exhibits 1.

Appearing at the hearing on behalf of the Petitions were Kenneth and Charlene Goeller, Francis Kemp, Jr., and Alexander P. Ratych, Registered Land Surveyor who prepared the site plans for each case. There were no Protestants present.

Testimony and evidence offered revealed that the properties known

as 4112 and 4114 Link Avenue are located adjacent to one another in the subdivision known as Fullerton Farms. The two properties are 50 feet wide and nearly 400 feet deep and abut Link Avenue in the front and Silver Spring Road in the rear. The Goellers and the Kems have been neighbors for many years. The Petitioners now wish to subdivide their respective properties to create a second building lot which will front on Silver Spring Road. They then propose to develop that lot with a new single family dwelling for their respective families and either rent or sell their current homes. Due to the narrow width of the properties and the location of existing improvements thereon, the requested variances to lot width and setback requirements are necessary to legitimize existing conditions and to proceed with the proposed improvements.

An area variance may be granted where strict application of the zoning regulations would cause practical difficulty to the Petitioner and his property. McLean v. Soley, 270 Md. 208 (1973). To prove practical difficulty for an area variance, the Petitioner must meet the following:

- 1) whether strict compliance with requirement would unreasonably prevent the use of the property for a permitted purpose or render conformance unnecessarily burdensome;
- 2) whether a grant of the variance would do a substantial justice to the applicant as well as other property owners in the district or whether a lesser relaxation than that applied for would give sufficient relief; and,
- 3) whether relief can be granted in such fashion that the spirit of the ordinance will be observed and public safety and welfare secured.

Anderson v. Bd. of Appeals, Town of Chesapeake Beach, 22 Md. App. 28 (1974).

After due consideration of the testimony and evidence presented,

it is clear that practical difficulty or unreasonable hardship will result if the variances are not granted. It has been established that special circumstances or conditions exist that are peculiar to the land and structures which are the subject of these requests and that the requirements from which the Petitioners seek relief will unduly restrict the use of the land due to the special conditions unique to this particular parcel. In addition, the relief requested will not cause any injury to the public health, safety or general welfare and is in strict harmony with the spirit and intent of the B.C.Z.R.

Pursuant to the advertisement, posting of the property, and public hearing on these Petitions held, and for the reasons given above, the relief requested should be granted.

THEREFORE, IT IS ORDERED by the Deputy Zoning Commissioner for Baltimore County this 22nd day of August, 1996 that the Petitions for Variance seeking relief from Section 1B02.3.C.1 of the Baltimore County Zoning Regulations (B.C.Z.R.) to permit a lot width of 50 feet in lieu of the required 55 feet, and a side yard setback of 8 feet in lieu of the required 10 feet for existing and proposed improvements at 4112 and 4114 Link Avenue, and 4109 and 4111 Silver Spring Road, in accordance with Petitioner's Exhibits 1, be and is hereby GRANTED, subject to the following restrictions:

- 1) The Petitioners may apply for their building permit and be granted same upon receipt of this Order; however, Petitioners are hereby made aware that proceeding at this time is at their own risk until such time as the 30-day appellate process from this Order has expired. If, for whatever reason, this Order is reversed, the relief granted herein shall be rescinded.
