FINDINGS OF FACT AND CONCLUSIONS OF LAW

This matter comes before the Zoning Commissioner as a Petition for Variance for the property known as No. 6 Placid Woods Court in the subdivision known as Placid Woods in Carney. The Petition is filed by Placid Woods LLC, property owner. Variance relief is requested from Section 1801.2.C.1.B. of the Baltimore County Zoning Regulations (BCZR) to permit a building to lot line distance (rear setback) of 12 ft. in lieu of the required 30 ft. The subject property and requested relief is more particularly shown on Petitioner's Exhibit No. 1, the plat to accompany the Petition for Variance.

Appearing at the public hearing held for this case was George McCubbin from W. Duvall and Associates, Inc., the engineers who prepared the site plan. The Petitioner was represented by Newton A. Williams, Esquire. There were no Protestants or other interested persons present.

Uncontradicted testimony and evidence presented was that the subject property is known as lot No. 18 (No. 6 Placid Woods Court). The lot is part of the residential subdivision known as Placid Woods, a community of approximately 20 single family houses. The subdivision was recently approved through the development review process of Baltimore County and actual construction has commenced. Several of the lots have been improved and sold and are now occupied. Other lots, including the subject property, remain unimproved.

ORDER RECEIVED FOR FILING

Mr. McCubbin indicated that after approval of the subdivision, it was discovered that a variance was necessary for the subject lot. It was noted that this lot was unique in character. Specifically, the lot is located immediately adjacent to a 90 degree bend in Placid Woods Court. This location and the configuration of the front property line requires that the building envelope be angled so as to face the roadway. In order to maintain the required front yard setback and present an appropriate building envelope, the requested variance is necessary. It was observed that if strict adherence to the rear yard setback requirement was required, an area unsuitable for construction would result.

Based upon the testimony and evidence all of which is uncontradicted, I am persuaded to grant the Petition for Variance. In my judgment, it is clear that the property's configuration and location is unique and that variance relief is, therefore justified. Moreover, owing to the location of the storm water management facility to the rear of the property it is certain that there will be no detrimental impact on adjacent parcels if variance relief were granted. Lastly, the Petitioner would suffer a practical difficulty if variance relief was denied. Specifically, the lot would be unbuildable because of the reduced building envelope. For all of these reasons, the requested variance shall be granted.

Pursuant to the advertisement, posting of the property, and public hearing on this Petition held, and for the reasons given above, the relief requested should be granted.

THEREFORE, IT IS ORDERED by the Zoning Commissioner for Baltimore County this 19th day of December, 1996 that a variance from Section 1B01.2.C.1.B. of the Baltimore County Zoning Regulations (BCZR) to permit a building to lot line distance (rear setback) of 12 ft., in lieu of the

required 30 ft., be and is hereby GRANTED, subject, however, to the following restriction:

1. The Petitioner may apply for its building permit and be granted same upon receipt of this Order; however, Petitioner is hereby made aware that proceeding at this time is at its own risk until such time as the 30 day appellate process from this Order has expired. If, for whatever reason, this Order is reversed, the Petitioner would be required to return, and be responsible for returning, said property to its original condition.

#6 PLACID WOODS COURT

Lot #18 - #6 Placid Woods Court

Variance from Section 1801.2.C.1.b to permit a building to Lot Line distance (rear setback) of 12 feet in lieu of the required 30 feet distance.

Reasons:

Lot is unique in that it is on a curve. Buyer is requesting house to be oriented toward Placid Woods Court. Variance would allow for same style house and continuity with other houses in the subdivision. Orientation of the house as proposed will allow the rear of the house to face the Stormwater Management area and other rear yards in lieu of facing the side of adjacent buildings. Will foster the health, safety and welfare of the surrounding community.

Dear Mr. Williams:

The Zoning Advisory Committee (ZAC), which consists of representatives from Baltimore County approval agencies, has reviewed the plans submitted with the above referenced petition, which was accepted for processing by Permits and Development Management (PDM), Zoning Review, on November 15, 1996.

Any comments submitted thus far from the members of ZAC that offer or request information on your petition are attached. These comments are not intended to indicate the appropriateness of the zoning action requested, but to assure that all parties (zoning commissioner, attorney, petitioner, etc.) are made aware of plans or problems with regard to the proposed improvements that may have a bearing on this case. Only those comments that are informative will be forwarded to you; those that are not informative will be placed in the permanent case file.

If you need further information or have any questions regarding these comments, please do not hesitate to contact the commenting agency or Roslyn Eubanks in the zoning office (887-3391).

Sincerely,
