IN RE: PETITIONS FOR VARIANCE

W/S Creek Road, across from and 65' S of

Bluebird Lane

(814 & 816 Creek Road) 15th Election District 7th Council District

Mark William Wolinski Petitioner * BEFORE THE

* ZONING COMMISSIONER

* OF BALTIMORE COUNTY

* Case Nos. 03-079-A & 03-080-A

* * * * * * * * *

FINDINGS OF FACT AND CONCLUSIONS OF LAW

This matter comes before the Zoning Commissioner for consideration of Petitions for Variance filed by the owner of the subject adjacent properties, Mark William Wolinski. Since the properties are owned by the same person and are adjacent parcels, the two cases were heard contemporaneously. In Case No. 03-079-A, the Petitioner seeks relief from Section 1B02.3.C.1 (chart) and Section 304 of the Baltimore County Zoning Regulations (B.C.Z.R.) to permit a buildable lot with a width of 48 feet in lieu of the required 55 feet, and to approve an undersized lot with any other variances deemed necessary by the Zoning Commissioner, for redevelopment of the property known as 814 Creek Road, with a new single family dwelling. In Case No. 03-080-A, the Petitioner requests identical relief from Sections 1B02.3.C.1 and 304 of the B.C.Z.R. to permit development of the adjacent property, known as 816 Creek Road, with a single family dwelling. The subject property and requested relief are more particularly described on the respective site plans submitted for each property and marked into evidence as Petitioner's Exhibits 1.

Appearing at the requisite public hearing in support of the request were Mark W. Wolinski, property owner, and Bruce E. Doak, the Registered Property Line Surveyor who prepared the site plans for these properties. There were no Protestants or other interested persons present.

Testimony and evidence offered revealed that the subject properties are waterfront lots, located on Duck Creek, a tributary off of Back River in eastern Baltimore County. The properties

are also known as Lots 13 and 14 of Deep Creek Avenue Park, an older subdivision which was recorded in the Land Records of Baltimore County on July 29, 1921. As noted on the site plans, each lot is 48 feet wide and has frontage on Duck Creek to the west and Creek Road to the east. Lot 13 is improved with a one-story dwelling, known as 814 Creek Road, which is to be razed, and Lot 14 is unimproved but for a metal shed which will be removed. Both lots are sufficiently sized, approximately 11,075 sq.ft., under the D.R.5.5 zoning classification.

Mr. Wolinski acquired the subject lots on March 22, 2002 and proposes to raze the existing dwelling on Lot 13 as noted above, and construct a new single family dwelling on each lot. The site plan shows that the proposed building envelopes on both lots provide a sufficient side yard setback on each side (10 feet) and also meet the required setbacks to the water (100 feet) and the street (80 feet). Testimony indicated the proposed dwellings will be setback from Creek Road a distance consistent with other houses in the neighborhood. Moreover, the proposed construction will comply with the Chesapeake Bay Critical Areas regulations. A schematic drawing of the proposed dwellings was submitted at the hearing as Petitioner's Exhibit 2.

Unlike other residential lots throughout Baltimore County, waterfront lots are deemed unique. In order to take advantage of the view, most dwellings on waterfront lots face the water and thus, that area between the dwelling and the bulkhead is considered the front yard. Thus, the area between the street and the dwelling is determined to be the rear yard. If that practice is applied here, the Petitioner meets the required setbacks for the front and rear of the lots.

Based upon the testimony and evidence presented, the Petitioner is not eligible for relief pursuant to Section 304 of the B.C.Z.R. That Section provides that an owner of an undersized lot or a lot with insufficient width may construct a single family dwelling by right if three conditions are met. One condition required is that the Petitioner does not own adjacent land which might be utilized to meet the lot width requirement. In that these two lots are adjacent to one another, he is not afforded relief under Section 304 of the B.C.Z.R. However, upon due consideration of the testimony and evidence offered, I am persuaded that relief should be granted for each lot under Section 307 of the B.C.Z.R. As noted above, both lots meet all area

requirements, but for the width. Additionally, the fact that the lots were laid out 80 years ago is a compelling factor. The character of the surrounding neighborhood is also of note. Many of the adjacent dwellings are on 50-foot wide lots as is proposed in this case. Moreover, a trailer park is located across Creek Road from the subject properties. For all of these reasons, I find that the Petitioner's proposal represents an improvement to the area and will not be detrimental to the health, safety or general welfare of the surrounding locale. I am persuaded that the Petitioner has met the requirements of Section 307 of the B.C.Z.R. for relief to be granted, subject to compliance with the relevant environmental regulations.

Pursuant to the advertisement posting of the property and public hearing on this Petitions held, and for the reasons set forth herein, the relief requested shall be granted.

THEREFORE, IT IS ORDERED by the Zoning Commissioner for Baltimore County this day of October, 2002 that the Petition for Variance filed in Case No. 03-079-A seeking relief from Section 1B02.3.C.1 (chart) and Section 304 of the Baltimore County Zoning Regulations (B.C.Z.R.) to permit a lot width of 48 feet in lieu of the required 55 feet, and to approve an undersized lot with any other variances deemed necessary by the Zoning Commissioner, for redevelopment of the property known as 814 Creek Road, with a new single family dwelling, in accordance with Petitioner's Exhibits 1 and 2, be and is hereby GRANTED; and,

IT IS FURTHER ORDERED that the Petition for Variance filed in Case No. 03-080-A, seeking identical relief as set forth above to permit development of the adjacent property, known as 816 Creek Road, with a single family dwelling, in accordance with Petitioner's Exhibit 1 and 2, be and is hereby GRANTED, subject to the following restrictions:

1) The Petitioners may apply for their razing/building permits and be granted same upon receipt of this Order; however, Petitioners are hereby made aware that proceeding at this time is at their own risk until the 30-day appeal period from the date of this Order has expired. If an appeal is filed and this Order is reversed, the relief granted herein shall be rescinded.

OR FILING

ORDER KE

Daie

- 2) The proposed development shall comply with the Chesapeake Bay Critical Areas regulations as set forth in the ZAC comment submitted by the Department of Environmental Protection and Resource Management (DEPRM), dated September 11, 2002, a copy of which is attached hereto and made a part hereof.
- 3) The proposed dwellings shall be constructed substantially in accordance with the schematic drawing submitted into evidence as Petitioner's Exhibit 2; however, building elevation drawings of the proposed dwellings shall be submitted for review and approval by the Office of Planning, prior to the issuance of any permits.
- 4) When applying for any permits, the site plan filed must reference this case and set forth and address the restrictions of this Order

Mark William Wolinski - Petitioner Case Nos. 03-079-A and 03-080-A

Dear Mr. Wolinski:

Enclosed please find a copy of the decision rendered in the above-captioned matter. The Petitions for Variance have been granted, in accordance with the attached Order.

In the event any party finds the decision rendered is unfavorable, any party may file an appeal to the County Board of Appeals within thirty (30) days of the date of this Order. For further information on filing an appeal, please contact the Department of Permits and Development Management office at 887-3391.

Very truly yours,

LAWRENCE E. SCHMIDT

Dear Mr. Wolinski:

RE: Case Number: 03-079-A, 814 Creek Road

The above referenced petition was accepted for processing by the Bureau of Zoning Review, Department of Permits and Development Management (PDM) on August 13, 2002.

The Zoning Advisory Committee (ZAC), which consists of representatives from several approval agencies, has reviewed the plans that were submitted with your petition. All comments submitted thus far from the members of the ZAC are attached. These comments are not intended to indicate the appropriateness of the zoning action requested, but to ensure that all parties (zoning commissioner, attorney, petitioner, etc.) are made aware of plans or problems with regard to the proposed improvements that may have a bearing on this case. All comments will be placed in the permanent case file.

If you need further information or have any questions, please do not hesitate to contact the commenting agency.

Very truly yours,

W. Carl Richards, Jr

SUBJECT:

Zoning Advisory Committee Meeting

For August 26, 2002

Item No. 079

The Bureau of Development Plans Review has reviewed the subject-zoning item.

The flood protection elevation for this site is 10.4 feet.

In conformance with *Federal Flood Insurance* requirements, the first floor or basement floor must be at least 1 foot above the floodplain elevation in all construction.

The property to be developed is located adjacent to tidewater. The developer is advised that the proper sections of the Baltimore County Building Code must be followed whereby elevation limitations are placed on the lowest floor (*including basements*) of residential (*commercial*) development.

The building's engineer shall require a permit for this project.

Building shall be designed and adequately anchored to prevent flotation collapse or lateral movement of structure with materials resistant to flood damage.

Flood-resistant construction shall be in accordance with requirement of B.O.C.A. International Building Code adopted by county.
