Petitioners

* BEFORE THE
* ZONING COMMISSIONER
* OF BALTIMORE COUNTY
* Cases Nos. 05-483-A & 05-484-A
*

* * * * *

FINDINGS OF FACT AND CONCLUSIONS OF LAW

This matter comes before the Zoning Commissioner for consideration of Petitions for Variance filed by the owners of the subject adjacent properties, 79th Street LLC, by Steve Wolf, Member. Since the properties are owned by the same entity and are located adjacent to one another, the two cases were heard contemporaneously. In both instances, the Petitioners request a variance from Section 1B02.3.C.1 of the Baltimore County Zoning Regulations (B.C.Z.R.) to approve a lot with a width of 61 feet in lieu of the required 70 feet for a proposed single-family dwelling. The subject properties and requested relief are more particularly described on the site plans submitted in each case, which were accepted into evidence and marked respectively as Petitioners' Exhibit 1.

Appearing at the requisite public hearing in support of the request were Steve Wolf and Dan Wooden, Members of the corporation known as 79th Street LLC, property owners. Also appearing were David Billingsley, the consultant who prepared the site plan for this property, and Bob Infussi, who assisted the Petitioners with the application process. Eric Gerber, who resides across the street from the subject property at 811 Frog Mortar Road, appeared as an interested citizen/Protestant. In addition, a letter of opposition was received from Christina V. Nocar, who resides on the adjacent property to the north at 808 Frog Mortar Road. There were no other interested persons present.

ORDER HEY

[Signature]

Testimony and evidence offered revealed that the subject properties are waterfront lots located on the northwest side of Frog Mortar Road, just south of Revolea Beach Avenue in Bowleys Quarters. The two properties are actually comprised of three lots, identified as Lots 8, 9 and 10 of Revolea Beach, an older subdivision that was platted and recorded in the Land Records in 1920, well prior to the adoption of the first set of zoning regulations in Baltimore County. As is often the case with older subdivisions, many of the lots in this community are undersized and do not meet current area and width requirements for development. Lots 8 and 9 have traditionally been used as one parcel, and contain the existing improvements, including a dwelling known as 812 Frog Mortar Road, which actually straddles the lot line, and a detached garage. Lot 10 was apparently used as additional yard space.

The Petitioners purchased the property in November 2004 and propose a redevelopment of the entire parcel. In this regard, the previous owner, Daniel Pasko and the Petitioners, as Contract Purchasers, applied for and obtained approval of a lot line adjustment between Lots 9 and 10 through the D.R.C. in October 2004. The Petitioners now come before me seeking relief as set forth above to allow redevelopment of the property as proposed. Testimony indicated that the existing house, which was built in 1925, suffered significant damage during Hurricane Isabel. The Petitioners originally considered rebuilding the existing structure and providing a panhandle lot to the rear. That scenario would not have required variance relief. However, the Petitioners determined that the house was beyond repair and thus, propose removing all existing structures and redeveloping the site with two new single family dwellings. In this regard, each lot is 61 feet wide and ranges in depth from approximately 205 feet to 215 feet. As shown on Petitioner's Exhibit 1, newly configured Lots 8 and 9 contain a combined gross area of 12,505 sq.ft., more or less, and will be developed with a single-family dwelling, to be known as 812 Frog Mortar Road. Newly formed Lot 10 contains a gross area of 12,810 sq.ft., more or less, and will likewise be developed with a single-family dwelling, to be known as 814 Frog Mortar Road. Both houses will be two-story structures, 36 feet by 40 feet in dimension, and situated on the lots to meet all building and setback requirements, but for the lot width.

ORDER RECEIVED FOR FILING

DATE

As noted above, Eric Gerber appeared as an interested citizen/Protestant. Mr. Gerber resides across the street from the subject property and has lived in the neighborhood for 15 years. He raised issues of traffic congestion and believes that the proposal will cause an overcrowding of the land. He also opined that the Developer's proposal is designed to maximize their profit and will lower the quality of life in the area.

Ms. Nocar also raised issues relative to the height of the structures and their closeness to the road, as well as traffic congestion and water runoff. She also expressed concern over her privacy fence, which she indicated needed to be replaced due to damage caused by overgrown shrubs on the subject property.

After due consideration of the testimony and evidence presented, I am persuaded to grant the requested relief. The fact that this subdivision was platted and recorded many years ago, well prior to the adoption of the B.C.Z.R. is a persuasive factor. Moreover, the proposed dwellings will meet all front, side and rear yard setback requirements, including the required distance from the water as mandated by Chesapeake Bay Critical Areas regulations and Federal Flood Insurance requirements. (See attached comments received from the Department of Environmental Protection and Resource Management and Bureau of Development Plans Review) There were no adverse Zoning Advisory Committee (ZAC) comments submitted by any County reviewing agency; however, the Office of Planning requested that building elevation drawings of the proposed dwellings be submitted for their review and approval prior to the issuance of any permits. The proposed dwellings shall be compatible in size, exterior building materials, color and architectural detail as those existing in the area, and landscaping shall be provided along the public road.

Finally, I am not persuaded by Mr. Gerber's argument that the Petitioners' proposal should be rejected on the basis that it is aimed at maximizing their investment. (See Richard Roeser v. Anne Arundel Co., 368 Md. 294 (2002)). The fact that the Petitioners purchased the subject property for its development potential is in no way fatal to the relief requested. Moreover, Ms. Nocar's concerns relative to height and setback distances from the road have no merit. As noted above, the proposal meets all Baltimore County building code, area and setback

ORDER RECEIVED FOR FILING

Date

By

requirements, but for the lot width. In addition, the proposed construction shall comply with all appropriate Chesapeake Bay Critical Areas regulations and Federal Flood Insurance requirements. Thus, I find that strict compliance with the zoning regulations would result in a practical difficulty and unreasonable hardship for the Petitioners and prevent development of the subject property for a permitted purpose. The relief requested will not result in any detriment to the health, safety and general welfare of the surrounding locale and meets the spirit and intent of Section 307 for relief to be granted.

Pursuant to the advertisement, posting of the properties, and public hearing on these Petitions held, and for the reasons set forth above, the relief requested shall be granted.

THEREFORE, IT IS ORDERED by the Zoning Commissioner for Baltimore County this 24th day of May 2005 that the Petitions for Variance filed in Case No. 05-483-A seeking relief from Section 1B02.3.C.1 of the Baltimore County Zoning Regulations (B.C.Z.R.) to permit a lot width of 61 feet in lieu of the required 70 feet, for a proposed dwelling on Lots 8 and 9, to be known as 812 Frog Mortar Road, in accordance with Petitioner's Exhibit 1, be and is hereby GRANTED; and,

IT IS FURTHER ORDERED that the Petition for Variance filed in Case No. 05-484-A seeking relief from Section 1B02.3.C.1 of the B.C.Z.R. to permit a lot width of 61 feet in lieu of the required 70 feet, for proposed dwelling on Lot 10, to be known as 814 Frog Mortar Road, in accordance with Petitioner's Exhibit 1, be and is hereby GRANTED, subject to the following restrictions:

- 1) The Petitioners may apply for their building permit(s) and be granted same upon receipt of this Order; however, the Petitioners are hereby made aware that proceeding at this time is at their own risk until the 30-day appeal period from the date of this Order has expired. If an appeal is filed and this Order is reversed, the relief granted herein shall be rescinded.
- 2) Compliance with the ZAC comments submitted by DEPRM and the Development Plans Review division of DPDM relative to Chesapeake Bay Critical Areas regulations and all other appropriate environmental, floodplain and B.O.C.A. regulations relative to the protection of water quality, streams, wetlands and floodplains. Copies of those comments,

ORDER RECEIVED FOR FILING
Date 5/24/05
By [Signature]

dated April 28, 2005 and April 20, 2005, respectively, have been attached hereto and made a part hereof.

- 3) The Petitioners shall provide landscaping along the public road for both properties, and submit building elevation drawings of the proposed dwelling to the Office of Planning prior to the issuance of any permits. The proposed dwellings shall be compatible in terms of size, exterior, building materials, color and architectural details with existing dwellings in the area.
- 4) When applying for any permits, the site plan filed must reference this case and set forth and address the restrictions of this Order

Cases Nos. 05-483-A and 05-484-A

Dear Messrs. Wolf & Wooden:

Enclosed please find a copy of the decision rendered in the above-captioned matter. The Petitions for Variance have been granted, in accordance with the attached Order.

In the event any party finds the decision rendered is unfavorable, any party may file an appeal to the County Board of Appeals within thirty (30) days of the date of this Order. For further information on filing an appeal, please contact the Department of Permits and Development Management office at 887-3391.

Very truly yours,

ADVERTISING REQUIREMENTS AND PROCEDURES FOR ZONING HEARINGS

The Baltimore County Zoning Regulations (BCZR) require that notice be given to the general public/neighboring property owners relative to property which is the subject of an upcoming zoning hearing. For those petitions which require a public hearing, this notice is accomplished by posting a sign on the property (responsibility of the petitioner) and placement of a notice in a newspaper of general circulation in the County, both at least fifteen (15) days before the hearing.

Zoning Review will ensure that the legal requirements for advertising are satisfied. However, the petitioner is responsible for the costs associated with these requirements. The newspaper will bill the person listed below for the advertising. This advertising is due upon receipt and should be remitted directly to the newspaper.

OPINIONS MAY NOT BE ISSUED UNTIL ALL ADVERTISING COSTS ARE PAID.

Dear Mr. Wolf:

RE: Case Number: 05-483-A, 812 Frog Mortar Road

The above referenced petition was accepted for processing by the Bureau of Zoning Review, Department of Permits and Development Management (PDM) on March 24, 2005.

The Zoning Advisory Committee (ZAC), which consists of representatives from several approval agencies, has reviewed the plans that were submitted with your petition. All comments submitted thus far from the members of the ZAC are attached. These comments are not intended to indicate the appropriateness of the zoning action requested, but to ensure that all parties (zoning commissioner, attorney, petitioner, etc.) are made aware of plans or problems with regard to the proposed improvements that may have a bearing on this case. All comments will be placed in the permanent case file.

If you need further information or have any questions, please do not hesitate to contact the commenting agency.

Very truly yours,

INTEROFFICE CORRESPONDENCE

TO: Timothy M. Kotroco, Director DATE: April 20, 2005
Department of Permits & Development
Management

FROM: Dennis Kennedy, Acting Supervisor
Bureau of Development Plans Review

SUBJECT: Zoning Advisory Committee Meeting
For April 11, 2005
Item No. 483

The Bureau of Development Plans Review has reviewed the subject zoning item and we have the following comment(s).

The flood protection elevation for this site is 11.2.

In conformance with *Federal Flood insurance* Requirements, the first floor or basement floor must be at least 1-foot above the flood plain elevation in all construction.

The property to be developed is located to tidewater. The developer is advised that the proper sections of the *Baltimore County Building Code* must be followed whereby elevation limitations are placed on the lowest floor (including *basements*) of residential (*commercial*) development.

The building Engineer shall require a permit for this project.

The building shall be designed and adequately anchored to prevent flotation, collapse or lateral movement of structure with materials resistant to flood damage.

Flood resistant construction shall be in accordance with requirement of B.O.C.A. International Building Code adopted by the county.

Director, Office of Planning

APR 1 2005

ZONING COMMISSIONER

SUBJECT: Zoning Advisory Petition(s): Case(s) 5-483 and 5-484

The Office of Planning has reviewed the subject request and has determined that the petitioner owns sufficient adjoining land to conform to the minimum width and area requirements and therefore does not meet the standards stated in Section 304.1.C of the BCZR. However, there appears to be several existing undersized lots along Frog Mortar Road. As such, this office does not oppose the petitioner's request.

If the petitioner's request is granted, the following conditions shall apply to the proposed dwelling:

1. Submit building elevations to this office for review and approval prior to the issuance any building permit. The proposed dwelling shall be compatible in size, exterior building materials, color, and architectural detail as that of the existing dwellings in the area.
2. Provide landscaping along the public road.

For further questions or additional information concerning the matters stated herein, please contact David Pinning in the Office of Planning at 410-887-3480.

Dear Ms. Matthews:

This office has reviewed the referenced item and we have no objection to approval as it does not access a State roadway and is not affected by any State Highway Administration projects.

Should you have any questions regarding this matter, please contact Larry Gredlein at 410-545-5606 or by E-mail at (lgredlein@sha.state.md.us).

Very truly yours,

Steven D. Foster, Chief
Engineering Access Permits Division

PROTESTANT'S

Att: Zoning;

EXHIBIT NO.

1

My concern for two dwellings on this lot is mostly due to the height issue and closeness to the road. The homes would look over-bearing due to the narrow road area and create a decrease in air circulation and lighting.

The lot backs and the 100 foot buffer seem to make the property more suitable for one dwelling rather than squeezing in two.

I would not want any ground filling as to raise

the dirt to drain over onto ②
my property. There is an
already water run off
problem and some ground
flooding being at the end
of the road where there
is no drainage system
in place.

My privacy fence would
need to be replaced and
installed at the correct
property line which had
been obstructed by huge
unkept hedges. It put a
strain on my fence and
made it crooked and unstable.
There is a huge half dead tree
on the fence line whose
roots are lifting up my
ground and fence. I'd
want the tree removed and
the fence reinstalled.

Being a waterfront,

I would not want any new pier to be installed crossing the property line on land or water. It is not to exceed an acceptable length so it's not a hazard to my navigation docking our boat at our pier. I'd want the pier, if one is installed, to be the legal footage off of my property line.

I would like these issues to be taken into consideration when ruling on the zoning appeal.

Sincerely,
Christina V. Nocar
