* BEFORE THE
* ZONING COMMISSIONER
* OF BALTIMORE COUNTY
* Case No. 04-578-A

* * * * *

FINDINGS OF FACT AND CONCLUSIONS OF LAW

This matter comes before the Zoning Commissioner for consideration of a Petition for Variance filed by the owners of the subject property, Michael L. Snyder, and his wife, Kathy L. Snyder. The Petitioners request a variance, pursuant to Section 307.1 of the Baltimore County Zoning Regulations (B.C.Z.R.), from Section 26-266(4) of the Baltimore County Code to permit a panhandle driveway length in excess of the maximum allowed 1000 feet. The subject property and requested relief are more particularly described on the site plan submitted which was accepted into evidence and marked as Petitioner's Exhibit 1.

Appearing at the requisite public hearing in support of the request were Michael and Kathy Snyder, property owners, Geoffrey C. Schultz, the Professional Land Surveyor who prepared the site plan for this property, and Howard L. Alderman, Jr., Esquire, attorney for the Petitioners. There were no Protestants or other interested persons present.

Testimony and evidence offered revealed that the relief requested relates to a parcel of land located on the north side of Glen Falls Road, near Hanover Pike (Maryland Route 30) in northwestern Baltimore County. The property is an irregular shaped parcel that contains a gross area of 52.13 acres, more or less, zoned R.C.4 and is improved with a single-family dwelling, known as 5930 Glen Falls Road. There are also several outbuildings, including a barn and accessory sheds. The parcel has limited frontage on Glen Falls Road; however, is connected to that road by a long, in-fee strip, approximately 1959 feet in length, and 41.37 feet wide. Presently, that

strip is improved with a stone driveway, which serves to provide vehicular access from Glen Falls Road to the interior of the property.

The Petitioners propose a subdivision of the property so as to create two additional lots, which may ultimately be developed with homes occupied by the Petitioners' children. Proposed Lot 1, identified as the Conservancy Lot, will contain all existing structures and retain 49.28 acres. Lot 2 will contain 1.48 acres, and Lot 3, 1.37 acres. In view of the proposed subdivision, relief is necessary to legitimize the existing means of access to the property. Apparently, the stone driveway has provided access to the property in the current fashion since 1947. The site plan also shows that the strip will ultimately be improved with a durable and permanent surface to a width of 12 feet. Also, it is proposed that there will be several "bump-outs" or turn-off areas for passing motorists and emergency vehicle access.

Section 26-206 of the Baltimore County Code regulates panhandle driveways. This Section has recently been re-codified to Section 32-4-409. That Section requires that in any R.C. zone, a panhandle driveway may not exceed 1,000 feet in length.

Based upon the testimony and evidence offered, I am persuaded to grant the requested relief. It is clear that the proposed subdivision will not overburden the panhandle, notwithstanding its significant length, and there will be no detrimental impacts to the health, safety or general welfare of the surrounding locale. In my judgment, the panhandle strip is the only practical and possible way to access the parcel and with the improvements proposed, is appropriate.

As noted above, no one appeared in opposition to the request and there were no adverse Zoning Advisory Committee (ZAC) comments submitted by any County reviewing agency and Baltimore County is reviewing the proposed subdivision under the Minor Subdivision process. In this regard, a comment from the Fire Department requires that two enlarged areas be provided on the driveway for passing of emergency vehicles. Each area shall be 16' x 75' in dimension. Also, the Office of Planning requested that certain language be added to the plan providing that the driveway be paved within one year of the issuance of the first occupancy permit and prior to the issuance of the occupancy permit for the last lot to be served, whichever comes first. Such

restrictions appear appropriate. The other comments from the Office of Planning relate more to the Minor Subdivision process.

Pursuant to the advertisement, posting of the property and public hearing on this Petition held and for the reasons set forth above, the relief requested shall be granted.

THEREFORE, IT IS ORDERED by the Zoning Commissioner for Baltimore County this 2nd day of September, 2004 that the Petition for Variance, seeking relief pursuant to Section 307.1 of the Baltimore County Zoning Regulations (B.C.Z.R.), from Section 26-266(4) of the Baltimore County Code to permit a panhandle driveway length in excess of the maximum allowed 1000 feet, in accordance with Petitioner's Exhibit 1, be and is hereby GRANTED, subject to the following restrictions:

- 1) The Petitioners may apply for their building permit and be granted same upon receipt of this Order; however, the Petitioners are hereby made aware that proceeding at this time is at their own risk until the 30-day appeal period from the date of this Order has expired. If an appeal is filed and this Order is reversed, the relief granted herein shall be rescinded.
- 2) Two enlarged areas, each 16' x 75' in dimension, shall be provided on the driveway to allow the passage of emergency vehicles.
- 3) The panhandle driveway shall be paved within one year of the issuance of the first occupancy permit and prior to the issuance of the occupancy permit for the last lot to be served, whichever comes first.
- 4) When applying for a building permit, the site plan filed must reference this case and set forth and address the restrictions of this Order.

Dear Commissioner Schmidt:

Thank you for your Order dated September 2, 2004 in the captioned case. Your Order granted our request for a variance to permit a panhandle driveway in excess of the maximum allowed 1,000 feet. My wife and I, however, ask that you provide us with confirmation that this variance is applicable in the event that we must revise our minor subdivision plan because our property has been rezoned in this year's comprehensive rezoning process.

If you recall, at our variance hearing on August 18, we advised you that our property was placed at issue for rezoning by Councilman McIntire, against our wishes. We also advised you that if our property was rezoned, we would be forced to change our plan, which would result in the panhandle driveway being lengthened from 1,959 feet to perhaps as much as 2,400 feet. You advised us that the variance would be applicable to the extended length and the revised plan.

Our property was in fact rezoned to the new RC 8 classification on August 31, 2004. This will require us to revise our plan in order to comply with the requirements of this new

classification. My wife and I respectfully request that you provide us with written confirmation that this variance is not limited to the 1,949 feet length as shown on the plan marked as Exhibit 1, but is also effective for the longer driveway which we are now forced to have in order to meet the requirements of the new RC 8 law. Please also confirm that the granted variance is within the spirit and intent of the RC 8 classification, so that we are not required to file for another variance because of the increase driveway length.

Thank you for your consideration of this request.

Very truly yours,

Michael L. Snyder

*

FINDINGS OF FACT AND CONCLUSIONS OF LAW

This matter comes before the Zoning Commissioner for consideration of a Petition for Special Exception filed by Carville A. Biddison, surviving property owner, through his attorney, David K. Gildea, Esquire, for the property located at 1605 Wilson Point Road in the Bowley's Quarters community of eastern Baltimore County. The Petitioner requests a special exception for an arcade on the subject property, pursuant to Section 423 of the Baltimore County Zoning Regulations (B.C.Z.R.). The subject property and requested relief are more particularly described on the site plan submitted, which was accepted into evidence and marked as Petitioner's Exhibit 1.

Appearing at the requisite public hearing in support of the request were Carville A. Biddison, property owner, and John Vontran, on behalf of Amusement Vending, Inc. The Petitioner was represented by Joseph R. Woolman, III, Esquire of Gildea & Schmidt, LLC. There were no Protestants or other interested persons present.

The property under consideration is a rectangularly shaped, waterfront parcel located immediately adjacent to Stansbury Creek and the northeast side of Wilson Point Road in Middle River. The property contains a gross area of 0.72 acres, more or less, zoned DR 5.5, and is improved with a one-story tavern in the front portion of the site and a single-family dwelling to the rear of the property which faces Stansbury Creek. The tavern, known as the Wilson Point Inn, is a

ORDER RECEIVED FOR FILING

J. R. Woolman, III

small bar/restaurant business, which largely serves the local community and social/private clubs in the area that use this business as a meeting place. The business has existed on the property since at least the 1930s and is therefore nonconforming in nature (See Section 101 and 104 of the BCZR), given the residential zoning classification of the property. Indeed, Mrs. Biddison's parents obtained approval of the nonconforming use of the subject property pursuant to the relief granted in prior zoning Case No. 89-138-SPH on November 30, 1988 by then Deputy Zoning Commissioner Ann M. Nastarowicz. Mr. & Mrs. Biddison apparently acquired the property from her parents and the uses on the property have continued since that time.

The instant case arises as a result of the installation of six (6) video amusement devices within the restaurant/tavern use. A zoning violation notice was issued by Baltimore County as the result of the presence of these devices and the instant Petition was filed in an effort to cure that alleged violation.

As noted above, the Petitioner requests special exception relief to permit an arcade on the subject property. An arcade is defined in Section 101 of the BCZR as "a building or part of a building in which 5 or more pinball machines, video games, or other similar player-operated amusement devices are maintained." Section 423 of the BCZR regulates arcade uses. Section 423.C thereof provides that an arcade is permitted by special exception in the DR zone; however, several conditions must be met in order for special exception relief to be granted. Specifically, Section 423.C provides that the arcade be located on the same lot as the principal use and also that it be located within a building which houses the principal use. These conditions are easily satisfied in this case in that the amusement devices are located within the building that is used as a tavern. The tavern is, obviously, the principle use of this property. Additionally, Section 423.C requires that the arcade be subordinate in area, extent and purpose to the principal use. This condition is

also satisfied in this case. In this regard, it is clear that the arcade is, in essence, an accessory amenity to the primary business use to the property. The space occupied by the machines is minimal (when compared with the tavern business), as is the activity and income associated with the machines. Therefore, the requirements of Section 423.C.1, 423.C.2 and 423.C.3 of the BCZR are satisfied.

Further, Section 423.C.5 of the BCZR requires that the principal use of the property be a private club for the benefit of persons who are bona fide dues-paying members and that the use of the arcade is restricted to such members and their guests. The application of this standard in the instant case, given the nonconforming nature of the underlying use, is questionable. Moreover, the testimony offered was that the operation is small (i.e. there is limited capacity and seating) and that much of the clientele are from private clubs in the area. Overall, it is clear that the arcade, limited to six machines and coupled with the existing use, satisfies the intent of Section 423.C.5 of the BCZR. Obviously, large numbers of the public will not be drawn to this small tavern because of the six amusement devices.

Finally, pursuant to Section 423.C.4, the Zoning Commissioner must specify the number of amusement devices to be maintained. In this regard, testimony and evidence offered was that there are six machines existing and that this number will not be increased. Thus, I will designate that number as the maximum allowed. Moreover, given the accessory nature of the arcade operation, the grant of this relief does not alter the primary nonconforming character of the tavern/restaurant use. Finally, there will be no environmental impacts associated with the proposed use as there is no new construction proposed.

Based upon the undisputed testimony and evidence offered, I am persuaded that the special exception relief should be granted. In my judgment, the proposed use will not be detrimental to

the health, safety or general welfare to the surrounding locale and satisfies the requirements of Section 502.1 of the BCZR. Moreover, pursuant to the requirements contained within the Section 423, there shall be no more than six (6) amusement devices on the property.

Pursuant to the advertisement, posting of the property, and public hearing held thereon, the Petition for Special Exception should therefore be granted.

THEREFORE, IT IS ORDERED by the Zoning Commissioner for Baltimore County this 21ST day of November 2005 that the Petition for Special Exception seeking approval of an arcade on the subject property, pursuant to Section 423 of the Baltimore County Zoning Regulations (B.C.Z.R.), in accordance with Petitioner's Exhibit 1, be and is hereby GRANTED.

Any appeal of this decision must be entered within thirty (30) days of the date hereof.

Dear Mr. Gildea

RE: Case Number: 05-456-SPH, 1605 Wilson Point Road

The above referenced petition was accepted for processing by the Bureau of Zoning Review, Department of Permits and Development Management (PDM) on March 11, 2005

The Zoning Advisory Committee (ZAC), which consists of representatives from several approval agencies, has reviewed the plans that were submitted with your petition. All comments submitted thus far from the members of the ZAC are attached. These comments are not intended to indicate the appropriateness of the zoning action requested, but to ensure that all parties (zoning commissioner, attorney, petitioner, etc.) are made aware of plans or problems with regard to the proposed improvements that may have a bearing on this case. All comments will be placed in the permanent case file.

If you need further information or have any questions, please do not hesitate to contact the commenting agency.

Very truly yours,

A handwritten signature in black ink, reading "W. Carl Richards, Jr.", written in a cursive style.

BALTIMORE COUNTY, MARYLAND

INTEROFFICE CORRESPONDENCE

TO: Timothy M. Kotroco, Director DATE: April 8, 2005
Department of Permits & Development
Management

FROM: Dennis Kennedy *DAK*
Bureau of Development Plans Review

SUBJECT: Zoning Advisory Committee Meeting
For March 28, 2005
Item No. 456

The Bureau of Development Plans Review has reviewed the subject zoning item and we have the following comment(s).

The Flood protection elevation for this site is 11.2.

In conformance with *Federal Flood Insurance* requirements, the first floor or basement floor must be at least 1 foot above the flood plain elevation in all construction.

The property to be developed is located adjacent to tidewater. The developer is advised that the proper sections of the *Baltimore County Building Code* must be followed whereby elevation limitations are placed on the lowest floor (includes basements) of residential (commercial) development.

The building engineer shall require a permit for this project.

Building shall be designed and adequately anchored to prevent floatation, collapse of lateral movement of structure with materials resistant to flood damage.

IN RE: PETITION FOR SPECIAL HEARING
NE/S Wilson Point Road, 125'
SE of Hazel Drive
(1605 Wilson Point Road)
15th Election District
5th Councilmanic District

Frederick Faber, et ux
Petitioners

* BEFORE THE
* DEPUTY ZONING COMMISSIONER
* OF BALTIMORE COUNTY
* Case No. 89-138-SPH
*

* * * * *

FINDINGS OF FACT AND CONCLUSIONS OF LAW

The Petitioners herein request a special hearing to approve the nonconforming use of a restaurant/tavern and parking area in a D.R. 5.5 zone as more particularly described in Petitioner's Exhibit 1.

The Petitioners appeared, testified, and were represented by Justin King, Esquire. Also appearing on behalf of the Petition were Carville A. and Marlene M. Biddison, Daughter and son-in-law of Petitioners, Ruth E. Krach, and Frank S. Lee, registered Property Line Surveyor. There were no Protestants.

Testimony indicated that the subject property, known as 1605 Wilson Point Road, is zoned D.R. 5.5 and is currently improved with a one-story tavern on the front of the property facing Wilson Point Road, and a single family dwelling on the rear of the property fronting Stansbury Creek. Mrs. Faber indicated that she and her husband purchased the property in 1970 but have managed the tavern, known as the Wilson Point Inn, since December 1964. Mrs. Faber testified that she has been familiar with the area since she was a young girl. Her first recollection of the tavern existing on the property is in the late 1930's. To her knowledge, the operation of the tavern has been continuous and without interruption since the late 1930's.

ORDER RECEIVED FOR FILING

Date

By

11/30/89
By [Signature]

Ms. Krach testified she lives approximately two blocks from the subject property. She testified she has lived in the area for 51 years and has personal knowledge of the tavern operating out of the premises continuously and without interruption for the past 51 years.

Petitioners seek relief from Section 104.1, pursuant to Section 500.7 of the Baltimore County Zoning Regulations (B.C.Z.R.).

The uncontradicted evidence submitted by Petitioners' witnesses clearly established that the use of the property at 1605 Wilson Point Road as a restaurant and tavern has been continuous and without interruption since prior to the zoning regulations becoming effecting in 1945.

After due consideration of the testimony and evidence presented, the Petition for Special Hearing should be granted.

Pursuant to the advertisement, posting of the property, and public hearing on this Petition held, and for the reasons given above, the relief requested in the special hearing should be granted.

THEREFORE, IT IS ORDERED by the Deputy Zoning Commissioner for Baltimore County this 30th day of November, 1988 that the Petition for Special Hearing to approve the nonconforming use of a restaurant/tavern and parking area in a D.R. 5.5 zone, in accordance with Petitioner's Exhibit 1, be and is hereby GRANTED, from and after the date of this Order.

ANN M. NASTAROWICZ
Deputy Zoning Commissioner
for Baltimore County

Re: Amusement Vending, Inc. -1605 Wilson Point Road, Baltimore, Maryland OS-456-SP4

Dear Mr. Kotroco:

John Vontran, by and through his attorney, Joseph R Woolman III and Gildea and Schmidt, LLC hereby request that the above referenced matter, scheduled for hearing April 21st, 2005, be pulled at this juncture as there are community issues to be resolved. According to my conversation with Jack Schultz, president of the Middle River Civic Improvement Association, the association will hold a board meeting on Wednesday, April 27th, 2005, at which time, we would like the opportunity to present the proposal to the community and address any concerns that they have.

If it is possible to pull this matter from any agenda, our office will be in communication with you, after the resolution of community concerns, for rescheduling of the hearing. If you have any questions regarding this matter, please contact me. With kind regards, I am
