IN RE: PETITION FOR VARIANCE BEFORE THE SW/S of Chesapeake Road, 165 ft. W centerline of Susquehanna Road DEPUTY ZONING COMMISSIONER 15th Election District 6th Councilmanic District OF BALTIMORE COUNTY (7355 Chesapeake Road) CASE NO. 05-581-A Adele Stenzel, Legal Owner Petitioner and PETITION FOR VARIANCE SW/S of Chesapeake Road, 115 ft. W centerline of Susquehanna Road CASE NO. 05-582-A 15th Election District 6th Councilmanic District (7357 Chesapeake Road) Blue Water Properties, LLC. By: Jimmy Harris, Member Petitioner

FINDINGS OF FACT AND CONCLUSIONS OF LAW

These matters come before this Deputy Zoning Commissioner as Petitions for Variance filed by the legal owners of the subject properties, Adele Stenzel and Blue Water Properties, LLC, by Jimmy Harris.

In the first case (#05-581-A), the Petitioner is requesting variance relief for property located at 7355 Chesapeake Road in the eastern area of Baltimore County. The variance request is from Sections 1B02.3.C.1 of the Baltimore County Zoning Regulations (B.C.Z.R.), to permit an existing single-family dwelling with a minimum lot width of 50 ft. in lieu of the required 55 ft.

In the companion case (#05-582-A), the Petitioner is requesting variance relief for an adjoining vacant lot located at 7357 Chesapeake Road in the eastern area of Baltimore County. The variance request is from Sections 1B02.3.C.1 of the Baltimore County Zoning Regulations (B.C.Z.R.), to permit a minimum lot width at the front building line of 50 ft. in lieu of the required 55 ft.

The properties were posted with Notice of Hearing on June 14, 2005, for 15 days prior to the hearing, in order to notify all interested citizens of the requested zoning relief. In addition, a Notices of Zoning hearing were published in "The Jeffersonian" newspaper on June 14, 2005 to notify any interested persons of the scheduled hearing date.

Applicable Law

Section 307 of the B.C.Z.R. – *Variances*.

"The Zoning Commissioner of Baltimore County and the County Board of Appeals, upon appeal, shall have and they are hereby given the power to grant variances from height and area regulations, from off-street parking regulations, and from sign regulations only in cases where special circumstances or conditions exist that are peculiar to the land or structure which is the subject of the variance request and where strict compliance with the Zoning Regulations for Baltimore County would result in practical difficulty or unreasonable hardship. No increase in residential density beyond that otherwise allowable by the Zoning Regulations shall be permitted as a result of any such grant of a variance from height or area regulations. Furthermore, any such variance shall be granted only if in strict harmony with the spirit and intent of said height, area, offstreet parking or sign regulations, and only in such manner as to grant relief without injury to the public health, safety and general welfare. They shall have no power to grant any other variances. Before granting any variance, the Zoning Commissioner shall require public notice to be given and shall hold a public hearing upon any application for a variance in the same manner as in the case of a petition for reclassification. Any order by the Zoning Commissioner or the County Board of Appeals granting a variance shall contain a finding of fact setting forth and specifying the reason or reasons for making such variance."

Zoning Advisory Committee Comments

The Zoning Advisory Committee (ZAC) comments are made part of the record of this case and contain the following highlights: ZAC comments were received from the Bureau of Development Plans Review dated May 25, 2005, copies of which are attached hereto and made a part hereof. In addition, ZAC comments were received from the Office of Planning dated June 6, 2005 recommending that certain conditions must apply if the requests are granted, copies of which are attached hereto and made a part hereof.

Interested Persons

Appearing at the hearing on behalf of the variance requests was Vince Moskunas, from Site Right Surveying Inc., for the Petitioners. No Protestants or citizens appeared at the hearing. People's Counsel, Peter Max Zimmerman, entered the appearance of his office in this case.

Testimony and Evidence

These are companion cases and all testimony and evidence presented is applicable to both cases. Mr. Moskunas proffered that these cases involve side by side properties in the Oliver Beach area. Case No. 05-581 involves Lot 234 in the Plat of Sections A & B of the "Oliver Beach" subdivision, which was recorded in the Land Records for Baltimore County in 1940. See Exhibit 2. This lot is improved by an existing home which Mr. Moskunas indicated was constructed in 1949.

Case No. 05-582 involves Lot 233 in the same subdivision and is presently vacant save for the storage of a small boat as shown on Exhibit 5E. The Petitioners proposes to build a new single-family dwelling on this lot, which meets all regulations as to size and setbacks. Both lots are 50 ft. wide by 200 ft. long. Each is owned by the Petitioners and zoned DR 5.5 which requires a 55 ft. minimum lot width. Thus the request for variance. Mr. Moskunas opined that both lots meet the minimum lot size of 6000 sq. ft. and thus if the new home was built on the vacant lot there would not be an increase in density of the area more than otherwise allowed. He further indicated that allowing the variances would not violate the spirit and intent of the DR 5.5 regulations, nor would it adversely affect the neighborhood. In support of this contention, he presented photographs of the area (Exhibit 5) and the GIS aerial (Exhibit 7) which he contends shows that the proposed new home would not change the pattern of development of the neighborhood. He agreed to comply with the ZAC comments from the Office of Planning.

Findings of Fact and Conclusions of Law

Zoning Merger Doctrine

Recently the Court of Appeals applied its doctrine of zoning merger to adjacent lots in the case of *Remes v Montgomery County*, 387 Md 52, 874 A2d 470 (2005). This case cites a prior Court of Appeals case, *Friends of the Ridge v Baltimore Gas and Electric Company*, 352 Md 645, 724 A2d 34 (1999) which announced the doctrine of zoning merger in Maryland. By this doctrine, the Court indicated that when adjacent properties are held in common ownership and these

properties were used by the owner as one, then the doctrine of zoning merger requires that the properties be treated as one for zoning purposes. Consequently having become one, no internal variances may be granted on the individual properties and the combined tract must go through the subdivision process if the owner wants to build a structure on one of the lots.

In this case the evidence indicates that these two lots were not used as one by the owner and no zoning merger occurred. Mr. Moskunas presented records from the Department of Assessments and Taxation that indicated lot 233 (the vacant lot) was purchased by the Petitioners in 1973 while the lot with the existing home was purchased in 1985. Each lot has its own tax account number and the Petitioner paid real estate taxes on separate perhaps buildable lots. The only evidence of common use is the fact that the Petitioner parked a boat and trailer on the vacant lot as shown by Petitioner's Exhibit 5. I find this *de minimus* evidence of common use. This is not waterfront property with common bulkhead or other facilities. These were purchased as separate lots and have remained so.

Zoning Issues

I find that special circumstances or conditions exist that are peculiar to the land or structure which is the subject of the variance request. These lots were part of a subdivision that was recorded in the Land Records of Baltimore County in 1940 much before the DR zoning regulations were imposed. As such, I find that the imposition of the zoning regulations impact these lots differently than lots in the area laid out in accord with the DR regulations. I also find that strict compliance with the Zoning Regulations for Baltimore County would result in practical difficulty or unreasonable hardship. Obviously the new home could not be built. I find that no increase in residential density beyond that otherwise allowable by the Zoning Regulations shall be permitted as a result of granting these variances. As Mr. Moskunas points out, the lots are substantially above the minimum size of lots for DR 5.5 zones.

I further find that these variances can be granted in strict harmony with the spirit and intent of the regulations, and in a manner as to grant relief without injury to the public health, safety and general welfare. Thus, a new home at this location will not change the character of the neighborhood. Exhibit 7 shows that two lots located to the east and west are developed as one house for each 50 ft. lot. I will admit that the pattern north of Chesapeake Road is one house on several lots. However, different patterns, even across a road, are not unusual in this neighborhood. On balance, I do not believe that adding a home on the south side of the road will change the privacy and enjoyment of the adjacent homes.

Finally, as noted at the hearing, I see that no request for variance was requested for the side yard setbacks of the existing home. Clearly the existing home does not meet the side yard setback requirements of the DR 5.5 zone. Presumably the Petitioner was content to rely on the nonconforming nature of the existing home, should an issue arise concerning the existing house.

Pursuant to the advertisement, posting of the property, and public hearing on these petitions held, and after considering the testimony and evidence offered by the Petitioners, I find that the Petitioners' variance requests should be granted.

THEREFORE, IT IS ORDERED, this \(\frac{14}{14} \) day of July, 2005, by this Deputy Zoning Commissioner, that the Petitioners' request for variance in Case No. 05-581-A (7355 Chesapeake Road), from Sections 1B02.3.C.1 of the Baltimore County Zoning Regulations (B.C.Z.R.), to permit an existing single-family dwelling with a minimum lot width of 50 ft. in lieu of the required 55 ft., be and is hereby GRANTED.

IT IS FURTHER ORDERED, that the Petitioners' request for variance in Case No. 05-582-A (7357 Chesapeake Road), from Sections 1B02.3.C.1 of the Baltimore County Zoning Regulations (B.C.Z.R.), to permit a minimum lot at the front building line of 50 ft. in lieu of the required 55 ft., be and is hereby GRANTED.

Approval of the above variance requests are subject, however, to the following restrictions which are conditions precedent to the relief granted herein:

- 1. The Petitioners may apply for their building permit and be granted same upon receipt of this Order; however, Petitioners are hereby made aware that proceeding at this time is at their own risk until such time as the 30 day appellate process from this Order has expired. If, for whatever reason, this Order is reversed, the Petitioners would be required to return, and be responsible for returning, said property to its original condition;
- 2. Compliance with the ZAC comments submitted by the Office of Planning dated June 6, 2005, a copy of which is attached hereto and made a part hereof; and
- 3. When applying for a building permit, the site plan filed must reference this case and set forth and address the restrictions of this Order

Any appeal of this decision must be made within thirty (30) days of the date of this Order.

REASONS FOR VARIANCE #7355 CHESAPEAKE ROAD

- 4. Plat of record since January 16, 1940 and all lots on plat are 50 feet wide.
- 5. Lot has been held intact since 1940 and identified as 50' x 200'. The lot area of the existing dwelling is more than sufficient to meet the B.C.Z.R. The existing dwelling is compatible with the existing neighborhood.
- 6. This request is within the spirit and intent of the B.C.Z.R. and will not adversely affect the welfare or safety of the surrounding community.

Dear Ms. Stenzel:

RE: Case Number: 05-581-A, 7355 Chesapeake Road

The above referenced petition was accepted for processing by the Bureau of Zoning Review, Department of Permits and Development Management (PDM) on May 11, 2005.

The Zoning Advisory Committee (ZAC), which consists of representatives from several approval agencies, has reviewed the plans that were submitted with your petition. All comments submitted thus far from the members of the ZAC are attached. These comments are not intended to indicate the appropriateness of the zoning action requested, but to ensure that all parties (zoning commissioner, attorney, petitioner, etc.) are made aware of plans or problems with regard to the proposed improvements that may have a bearing on this case. All comments will be placed in the permanent case file.

If you need further information or have any questions, please do not hesitate to contact the commenting agency.

Very truly yours,
U. Call Rill

Bureau of Development Plans Review

SUBJECT:

Zoning Advisory Committee Meeting

For May 31, 2005 Item No. 581

The Bureau of Development Plans Review has reviewed the subject zoning item and we have the following comment(s).

The minimum right-of-way for all public roads in Baltimore County is 40-feet. Setback shall be modified accordingly.

The flood protection elevation for this site is 11.2.

In conformance with *Federal Flood insurance* Requirements, the first floor or basement floor must be at least 1-foot above the flood plain elevation in all construction.

The property to be developed is located to tidewater. The developer is advised that the proper sections of the *Baltimore County Building Code* must be followed whereby elevation limitations are placed on the lowest floor (including *basements*) of residential (*commercial*) development.

The building engineer shall require a permit for this project.

The building shall be designed and adequately anchored to prevent flotation, collapse or lateral movement of structure with materials resistant to flood damage.

Flood resistant construction shall be in accordance with requirement of B.O.C.A. International Building Code adopted by the county.

FROM:

Arnold F. 'Pat' Keller, III

Director, Office of Planning

SUBJECT:

Zoning Advisory Petition(s): Case(s) 5-581 and 5-582

DATE: June 6, 2005

The Office of Planning has reviewed the subject request and has determined that the petitioner owns sufficient adjoining land to conform to the minimum width and area requirements and therefore does not meet the standards stated in Section 304.1.C of the BCZR. However, there appears to be several existing undersized lots in the neighborhood. As such, this office does not oppose the petitioner's request.

If the petitioner's request is granted, the following conditions shall apply to the proposed dwelling:

- 1. Submit building elevations to this office for review and approval prior to the issuance any building permit. The proposed dwelling shall be compatible in size, exterior building materials, color, and architectural detail as that of the existing dwellings in the area.
- 2. Provide landscaping along the public road.

For further questions or additional information concerning the matters stated herein, please contact David Pinning with the Office of Planning at 410-887-3480.
