FINDINGS OF FACT AND CONCLUSIONS OF LAW

This matter comes before this Deputy Zoning Commissioner on September 19, 2006 as a Petition for Variance filed by the legal owners of the subject property, Gerald H. and Barbara C. Kestner. The Petitioners are requesting the following variance relief:

Case No. 07-034-A: This property is located at 13205 Gundale Avenue. The variance request is from Section 1B02.3.C.1 of the Baltimore County Zoning Regulations (B.C.Z.R.) to permit a new single family residential dwelling on a 50.4 foot lot in lieu of the required 55 feet with a contiguous owner.

Case No. 07-035-A: This property is located at 13207 Gundale Avenue. The variance request is from Section 1B02.3.C.1 of the Baltimore County Zoning Regulations

RECEIVED FOR ALANO

PJ

(B.C.Z.R.) to permit an existing house with a side yard setback of 9.6 feet in lieu of the required 10 feet and a lot width of 50.4 feet in lieu of the required 55 feet.

The properties were posted with Notice of Hearing on September 4, 2006, for 15 days prior to the hearing, in order to notify all interested citizens of the requested zoning relief and time and date of the public hearing. In addition, a Notice of Zoning hearing was published in "The Jeffersonian" newspaper on September 5, 2006 to notify any interested persons of the scheduled hearing date and relief requested.

Applicable Law

Section 307 of the B.C.Z.R. – *Variances*.

"The Zoning Commissioner of Baltimore County and the County Board of Appeals, upon appeal, shall have and they are hereby given the power to grant variances from height and area regulations, from off-street parking regulations, and from sign regulations only in cases where special circumstances or conditions exist that are peculiar to the land or structure which is the subject of the variance request and where strict compliance with the Zoning Regulations for Baltimore County would result in practical difficulty or unreasonable hardship. No increase in residential density beyond that otherwise allowable by the Zoning Regulations shall be permitted as a result of any such grant of a variance from height or area regulations. Furthermore, any such variance shall be granted only if in strict harmony with the spirit and intent of said height, area, off-street parking or sign regulations, and only in such manner as to grant relief without injury to the public health, safety and general welfare. They shall have no power to grant any other variances. Before granting any variance, the Zoning Commissioner shall require public notice to be given and shall hold a public hearing upon any application for a variance in the same manner as in the case of a petition for reclassification. Any order by the Zoning Commissioner or the County Board of Appeals granting a variance shall contain a finding of fact setting forth and specifying the reason or reasons for making such variance."

Zoning Advisory Committee Comments

The Zoning Advisory Committee (ZAC) comments are made part of the record of this case and contain the following highlights: ZAC comments were received from the Office of Planning dated August 29, 2006 which contains restrictions. ZAC comments

were received from the Bureau of Development Plans Review dated August 4, 2006 which contains restrictions. Copies are attached hereto and made a part hereof.

Interested Persons

Appearing at the hearing on behalf of the variance request were Gerald H. and Barbara C. Kestner, Petitioners. Sue Zack, an adjacent property owner, appeared at the hearing in support of the requests. People's Counsel, Peter Max Zimmerman, entered the appearance of his office in this case.

Testimony and Evidence

The subject properties are adjacent lots 50.4 foot wide lots zoned DR 5.5. Each lot is composed of two 25.2 foot wide lots which were created in the Twin River, Section A, subdivision which Ms. Zack opined was recorded in the land records in 1938. The lot at 13205 Gundale Road is composed of subdivision lot numbers 250 and 251 and is presently vacant. The lot at 13207 Gundale Road is composed of lot numbers 252 and 253 and is presently improved by the Petitioner's son's house which the Petitioner's believe was built in the 1940's. This house is 9.6 feet from the common property lot line and consequently does not meet the 10 foot setback required by the DR 5.5 regulations. The Petitioner opined that it would be impractical to remove 5 inches of house to meet the regulations. Both lots are 7560 square feet and meet the minimum lot area required by the regulations. See exhibit 1 which has had redline changes to reflect the ZAC comment from the Bureau of Development Plans Review regarding widening of the right of way of Gunvale Road.

The Petitioner's parent bought the subject properties in 1956 and the Petitioner lived in the house while growing up. He purchased the house from his parents as it was

RB

getting difficult for his parents to maintain the properties. The Petitioner proposes to build a house for another son on the vacant lot which would meet all setback regulations. They pointed out the they live close by the subject sites, that a brother owns the house at 13209 and Ms. Zack owns the house and lot directly behind the proposed house. The neighborhood is composed of older homes on 50 foot lots east of 13205 and newer homes sometimes on wider lots to the west of 13205. Ms. Zack mentioned that the newer homes are built on property which was wooded for much of the time the parties lived in this area. The Petitioners presented photographs of the vacant lot, the existing homes and houses in the area as exhibit 2. They also do not object to the conditions for approval prepared by the Planning Office or the Bureau of Development Plans Review.

In regard to zoning merger the Petitioner asserted that 13205 and 13207 are separately assessed and taxed and that the Petitioner's father always considered the lots separate and buildable especially when he got his tax bills in the mail. Other than cutting the grass the only use made of 13205 has been a driveway which the Petitioner constructed to make his father's entry onto Gundale Road easier than coming off 13207 directly. See photograph 2 A.

Ms. Zack, an adjacent property owner, testified in favor of the requests. She lives directly to the south of the property and would be most affected by the new house on this lot. She has lived in the neighborhood for 60 years and welcomed new residents. She noted that houses on the "older" section of the neighborhood are all one house on a 50 foot wide lot while those to the west in the newer section have larger lots at times. She supported the requests and did not think and new house as shown would change the

[signature]

pattern of development of the neighborhood. She indicated that the other neighbors knew of the request to build a new house on the property and had no objections.

Findings of Fact and Conclusions of Law

In regard to zoning merger I find the adjacent lots have not merged. While the Petitioners were unaware that proof of separate tax assessment would be helpful, I believe their testimony that the Petitioner's father always considered them separate especially when confronted with separate tax bills. I think the Petitioner's family's use of the vacant lot is miniscule towards showing that the lots had merged.

Considering all the testimony and evidence presented, I find special circumstances or conditions exist that are peculiar to the land or structure which is the subject of the variance request. This subdivision and the subject lots were created much before the zoning was imposed on the area. The imposition of zoning on this property disproportionably impacts the subject property as compared to others in the zoning district.

I further find that strict compliance with the Zoning Regulations for Baltimore County would result in practical difficulty or unreasonable hardship. There is no other land available to widen the lots and it is impractical to reduce the size of the existing house to meet the side yard setbacks specified.

No increase in residential density beyond that otherwise allowable by the Zoning Regulations will occur as a result of granting this variance as the lot size for both meet the regulations.

Finally, I find this variance can be granted in strict harmony with the spirit and intent of said regulations, and in such manner as to grant relief without injury to the

203

public health, safety and general welfare. The pattern of development shown by the Petitioner is similar to this plan so there will be no change to the character of the neighborhood. Ms. Zack was very supportive of the requests and indicated the neighborhood supported the requests as well.

Pursuant to the advertisement, posting of the property, and public hearing on this petition held, and after considering the testimony and evidence offered by the Petitioners, I find that the Petitioners' variance request should be granted.

THEREFORE, IT IS ORDERED, this 20th day of September, 2006, by this Deputy Zoning Commissioner, that variance relief for properties set forth as follows:

Case No. 07-034-A: This property is located at 13205 Gundale Avenue. The variance request is from Section 1B02.3.C.1 of the Baltimore County Zoning Regulations (B.C.Z.R.) to permit a single family residential dwelling on a 50.4 foot lot in lieu of the required 55 feet, with a contiguous owner is hereby GRANTED; and

Case No. 07-035-A: This property is located at 13207 Gundale Avenue. The variance request is from Section 1B02.3.C.1 of the Baltimore County Zoning Regulations (B.C.Z.R.) to permit a side yard setback of 9.6 feet in lieu of the required 10 feet and a lot width of 50.4 feet in lieu of the required 55 feet is hereby GRANTED; both subject however to the following conditions precedent to the relief granted herein:

1. The Petitioner may apply for his building permit and be granted same upon receipt of this Order; however, Petitioner is hereby made aware that proceeding at this time is at his own risk until such time as the 30 day appellate process from this Order has expired. If, for whatever reason, this Order is reversed, the Petitioner would be required to return, and be responsible for returning, said property to its original condition.
2. Submit building elevations to the Office of Planning for review and approval prior to the issuance of any building permit. The proposed dwelling shall be compatible in size, exterior building materials, color and architectural detail as that of the existing dwellings in the area.

3. Provide landscaping along the public road, if consistent with the existing streetscape.
4. Show a future 40 foot wide right-of-way on the existing 30 foot right-of-way and adjust the setback accordingly.
5. When applying for building permit, the site plan filed must reference this case and set forth and address the restrictions of this Order.

Any appeal of this decision must be made within thirty (30) days of the date of this Order.

ADVERTISING REQUIREMENTS AND PROCEDURES FOR ZONING HEARINGS

The Baltimore County Zoning Regulations (BCZR) require that notice be given to the general public/neighboring property owners relative to property which is the subject of an upcoming zoning hearing. For those petitions which require a public hearing, this notice is accomplished by posting a sign on the property (responsibility of the petitioner) and placement of a notice in a newspaper of general circulation in the County, both at least fifteen (15) days before the hearing.

Zoning Review will ensure that the legal requirements for advertising are satisfied. However, the petitioner is responsible for the costs associated with these requirements. The newspaper will bill the person listed below for the advertising. This advertising is due upon receipt and should be remitted directly to the newspaper.

OPINIONS MAY NOT BE ISSUED UNTIL ALL ADVERTISING COSTS ARE PAID.

Dear Mr. and Mrs. Kestner:

RE: Case Number: 07-035-A, 13207 Gundale Avenue

The above referenced petition was accepted for processing by the Bureau of Zoning Review, Department of Permits and Development Management (PDM) on July 25, 2006.

The Zoning Advisory Committee (ZAC), which consists of representatives from several approval agencies, has reviewed the plans that were submitted with your petition. All comments submitted thus far from the members of the ZAC are attached. These comments are not intended to indicate the appropriateness of the zoning action requested, but to ensure that all parties (zoning commissioner, attorney, petitioner, etc.) are made aware of plans or problems with regard to the proposed improvements that may have a bearing on this case. All comments will be placed in the permanent case file.

If you need further information or have any questions, please do not hesitate to contact the commenting agency.

Bureau of Development Plans Review

SUBJECT: Zoning Advisory Committee Meeting
For August 7, 2006
Item No. 034

DATE: August 4, 2006

The Bureau of Development Plans Review has reviewed the subject zoning item and we have the following comment(s).

The minimum right-of-way width for Gundale Avenue is 40-feet. Show a future 40-foot-wide right-of-way centered on the existing 30-foot right-of-way and adjust the setback accordingly.
