* CASE NO. 07-169-A

FINDINGS OF FACT AND CONCLUSIONS OF LAW

This matter comes before this Deputy Zoning Commissioner as Petitions for Variances filed by the legal owners of the subject property, Gerald H. and Barbara C. Kestner. The Petitioners are requesting the following variance relief:

<u>Case No. 07-168-A</u>: This property is located at 315 Upperlanding Road, Lot 35. The variance request is from Section 1B02.3.C.1 of the Baltimore County Zoning Regulations (B.C.Z.R.) to permit a lot width of 50 feet in lieu of the minimum 55 feet..

Case No. 07-169-A: This property is located at 315 Upperlanding Road, Lot 36. The variance request is from Section 1B02.3.C.1 of the Baltimore County Zoning Regulations (B.C.Z.R.) to permit a lot width of 50 feet in lieu of the minimum 55 feet.

The properties were posted with Notice of Hearing on December 2, 2006, for 15 days prior to the hearing, in order to notify all interested citizens of the requested zoning relief and time and date of the public hearing. In addition, a Notice of Zoning hearing was published in

May 7-06 The Marie Marie

"The Jeffersonian" newspaper on November 30, 2006 to notify any interested persons of the scheduled hearing date and relief requested.

Applicable Law

Section 307 of the B.C.Z.R. – *Variances*.

"The Zoning Commissioner of Baltimore County and the County Board of Appeals, upon appeal, shall have and they are hereby given the power to grant variances from height and area regulations, from off-street parking regulations, and from sign regulations only in cases where special circumstances or conditions exist that are peculiar to the land or structure which is the subject of the variance request and where strict compliance with the Zoning Regulations for Baltimore County would result in practical difficulty or unreasonable hardship. No increase in residential density beyond that otherwise allowable by the Zoning Regulations shall be permitted as a result of any such grant of a variance from height or area regulations. Furthermore, any such variance shall be granted only if in strict harmony with the spirit and intent of said height, area, off-street parking or sign regulations, and only in such manner as to grant relief without injury to the public health, safety and general welfare. They shall have no power to grant any other variances. Before granting any variance, the Zoning Commissioner shall require public notice to be given and shall hold a public hearing upon any application for a variance in the same manner as in the case of a petition for reclassification. Any order by the Zoning Commissioner or the County Board of Appeals granting a variance shall contain a finding of fact setting forth and specifying the reason or reasons for making such variance."

Zoning Advisory Committee Comments

The Zoning Advisory Committee (ZAC) comments are made part of the record of this case and contain the following highlights: ZAC comments were received from the Office of Planning dated October 30, 2006 which contains restrictions, and a copy of which is incorporated herein and made a part hereof the file.

Interested Persons

Appearing at the hearing on behalf of the variance request were David N. Orr, Petitioner and Ernest Rogers, builder. There were no protestants or citizens at the hearing. People's Counsel, Peter Max Zimmerman, entered the appearance of his office in this case.

Testimony and Evidence

The subject properties are adjacent lots (lot 35 and lot 36) in the Back River Highlands subdivision as shown in Petitioner's exhibit 2 which the Mr. Roger indicated was recorded prior 1919. Mr. Orr indicated that his parents bought the two 50 foot wide lots for \$500 and erected

a house on lot 35 that year. He noted that his father always wanted to build another house on lot 36 as did he but that neither could afford this expense until now.

Mr. Orr described the condition of the existing house as poor and noted that the foundation in particular is deteriorating as the cement is turning to sand. The present house does not cross the boundary between lots but comes within 3 feet of this line. Lot 36 has never been improved. The only use the Petitioner has made of it is to cut the grass. He admitted that both lots have the same real estate tax account number and were transferred in a single deed. He testified that since lot 36 had no address, the same tax account number was assigned by the Department to both.

The Petitioner would like to raze the existing home and erect a house centered on lot 35 unlike the existing house which is somewhat offset. He also would like to erect a 28 x 50 house on lot 36 again centered on the lot. Both new homes would meet all setback requirements in this DR 5.5 zone and would meet the area requirement as well. The only variance required is to allow a lot width of 50 feet in lieu of the required 55 feet.

Regarding pattern of development of the neighborhood, Mr. Orr opined that the majority of homes on Upper Landing Road have one house on each 50 foot wide lot. He indicated that there is one house on the following 50 foot wide lots: 305, 317 and 319. 309 is a 100 foot wide lot, and 321 is on a 75 foot lot.

Findings of Fact and Conclusions of Law

In know of no action taken by either Mr. Orr or his parents to indicate that they wanted to merge lots 35 and 36. While there is a common tax assessment account for both it appears from the testimony this was a decision of SDAT and not the owners of the properties. There have been no improvements built on lot 36. While the house on lot 35 encroaches into the setback now specified for homes in DR 5.5 zones, this house was constructed prior to imposition of zoning in the County and therefore could not have required a variance. Consequently there is no

12-37-06 W

inference that the lots have merged. It is simply a non conforming use. I find that these lots have not merged from a zoning standpoint.

Considering all the testimony and evidence presented, I find special circumstances or conditions exist that are peculiar to the land or structure which is the subject of the variance request. DR 5.5 zoning imposed on these lots after they were created disproportionably impacts the subject properties as compared to others in the zoning district.

Both lots are large enough to comply with the area regulations of this DR 5.5 zone. As such density is not an issue.

I further find that strict compliance with the Zoning Regulations for Baltimore County would result in practical difficulty or unreasonable hardship. The exiting lots were created 50 feet wide.

Finally, I find this variance can be granted in strict harmony with the spirit and intent of said regulations, and in such manner as to grant relief without injury to the public health, safety and general welfare. These are not waterfront properties. The pattern of development of this neighborhood is compatible with two more homes on 50 foot lots.

Pursuant to the advertisement, posting of the property, and public hearing on this petition held, and after considering the testimony and evidence offered by the Petitioners, I find that the Petitioners' variance request should be granted.

THEREFORE, IT IS ORDERED, this 27th day of December, 2006, by this Deputy Zoning Commissioner, that variance relief for properties set forth as follows:

<u>Case No. 07-168-A</u>: This property is located at 315 Upperlanding Road, Lot 35. The variance request is from Section 1B02.3.C.1 of the Baltimore County Zoning Regulations (B.C.Z.R.) to permit a lot width of 50 feet in lieu of the minimum 55 feet is hereby GRANTED; and

<u>Case No. 07-169-A</u>: This property is located at 315 Upperlanding Road, Lot 36. The variance request is from Section 1B02.3.C.1 of the Baltimore County Zoning Regulations (B.C.Z.R.) to

permit a lot width of 50 feet in lieu of the minimum 55 feet is hereby GRANTED; both subject however to the following conditions precedent to the relief granted herein:

- 1. The Petitioner may apply for his building permit and be granted same upon receipt of this Order; however, Petitioner is hereby made aware that proceeding at this time is at his own risk until such time as the 30 day appellate process from this Order has expired. If, for whatever reason, this Order is reversed, the Petitioner would be required to return, and be responsible for returning, said property to its original condition.
- 2. Submit building elevations to the Office of Planning for review and approval prior to the issuance of any building permit. The proposed dwelling shall be compatible in size, exterior building materials, color and architectural detail as that of the existing dwellings in the area.
- 3. Provide landscaping along the public road, if consistent with the existing streetscape.

Any appeal of this decision must be made within thirty (30) days of the date of this Order.

ADVERTISING REQUIREMENTS AND PROCEDURES FOR ZONING HEARINGS

The <u>Baltimore County Zoning Regulations</u> (BCZR) require that notice be given to the general public/neighboring property owners relative to property which is the subject of an upcoming zoning hearing. For those petitions which require a public hearing, this notice is accomplished by posting a sign on the property (responsibility of the petitioner) and placement of a notice in a newspaper of general circulation in the County, both at least fifteen (15) days before the hearing.

Zoning Review will ensure that the legal requirements for advertising are satisfied. However, the petitioner is responsible for the costs associated with these requirements. The newspaper will bill the person listed below for the advertising. This advertising is due upon receipt and should be remitted directly to the newspaper.

OPINIONS MAY NOT BE ISSUED UNTIL ALL ADVERTISING COSTS ARE PAID.

Dear Mr. Orr:

RE: Case Number: 07-168-A, 315 Upperlanding Road

The above referenced petition was accepted for processing by the Bureau of Zoning Review, Department of Permits and Development Management (PDM) on October 12, 2006.

The Zoning Advisory Committee (ZAC), which consists of representatives from several approval agencies, has reviewed the plans that were submitted with your petition. All comments submitted thus far from the members of the ZAC are attached. These comments are not intended to indicate the appropriateness of the zoning action requested, but to ensure that all parties (zoning commissioner, attorney, petitioner, etc.) are made aware of plans or problems with regard to the proposed improvements that may have a bearing on this case. All comments will be placed in the permanent case file.

If you need further information or have any questions, please do not hesitate to contact the commenting agency.

SUBJECT:

Zoning Advisory Petition(s): Case(s) 7-168 and 7-169 Variance

The Office of Planning has reviewed the subject request and has determined that the petitioner owns sufficient adjoining land to conform to the minimum width and area requirements and therefore does not meet the standards stated in Section 304.1.C of the BCZR. However, there appears to be several existing undersized lots in the neighborhood. As such, this office does not oppose the petitioner's request.

If the petitioner's request is granted, the following conditions shall apply to the proposed dwelling:

- 1. Submit building elevations to this office for review and approval prior to the issuance any building permit. The proposed dwelling shall be compatible in size, exterior building materials, color, and architectural detail as that of the existing dwellings in the area.
- 2. Provide landscaping along the public road, if consistent with the existing streetscape.

For further questions or additional information concerning the matters stated herein, please contact Amy Mantay with the Office of Planning at 410-887-3480.
