BALTIMORE COUNTY
Case Nos. 2011-0150-A &
2011-0051-A

0151

* * * * *

FINDINGS OF FACT AND CONCLUSIONS OF LAW

These matters come before this Zoning Commissioner for consideration of Petitions for Variance filed by the owners of the subject adjacent properties, Charles and Virginia Sommers and Robert and Deborah Wilson. Since the properties were at one time under common ownership and are adjacent to one another, the two (2) cases were heard contemporaneously. In Case No. 2011-0150-A, the Sommers, in their Petition, request a Variance from Section 1B02.3.C.1 of the Baltimore County Zoning Regulations (B.C.Z.R.) to permit an existing dwelling at 2100 Tred Avon Road with a lot width of 50 feet and individual side yard setbacks of 10 feet minimum with a sum of side yards of 22 feet in lieu of the required 70 feet, 10 feet minimum, and 25 feet respectively. In Case No. 2011-0151-A, the Wilsons request similar relief for a proposed new dwelling. Specifically, relief is requested from Section 1B02.3.C.1 of the B.C.Z.R. to permit a lot width of 50 feet and side yard setbacks of 10 feet minimum with a sum of 20 feet in lieu of the required 70 feet, 10 feet minimum, and 25 feet respectively. The subject properties and requested relief are more particularly described on the redlined site plan submitted

in each case, which were accepted into evidence and respectively marked as Petitioners' Exhibits 1.¹

Appearing at the requisite public hearing in support of the requests were Charles A. Sommers, his wife, Virginia L. Sommers, Robert J. Wilson and Deborah B. Wilson, his wife, and their consultant, David Billingsley, with Central Drafting and Design, Inc., who prepared the site plan and is assisting the Petitioners through the permitting process. There were no Protestants or other interested persons in attendance nor were there any adverse Zoning Advisory Committee (ZAC) comments received from any of the County reviewing agencies. Letters of support were received by the adjacent property owners (Barbara M. Knopp, 2036 Tred Avon Road, and William W. Furst, Jr., 2102 Tred Avon Road) and marked as Petitioners' Exhibit 11.

Testimony indicated that the subject properties, known as 2100 and 2100A Tred Avon Road, are each 50' wide x 200' deep consisting of area(s) of 10,000 square feet, zoned D.R.3.5 and located within the Chesapeake Bay Critical Area (CBCA) with frontage on Hopkins Creek in Middle River. Vehicular access is by way of Tred Avon Road. These two (2) properties are also known as Lots 49 and 50 of the Middleborough subdivision which was recorded in the land records in 1916. Both lots meet or exceed the lot area of the D.R.3.5 zone but do not meet the lot width requirement. Mr. Billingsley discussed the lengthy history of these properties through the Development Review Committee (DRC) process in 2006. That process effectively removed any zoning merger considerations that may have occurred as a result of joining the contiguous properties while under the Wilson's common ownership. See Petitioners' Exhibits 5 through 8.

¹ The Petitioners in Case No. 2011-0151-A amended their site plan in response to the Zoning Advisory Committee (ZAC) comment received from Laurie Hay, on behalf of the Office of Planning, dated November 22, 2010. The redlined amendments clarify that the existing dwelling at 2100A Tred Avon Road will be converted to a storage building and no longer allowed to be used for additional living space purposes. It further identified accessory structures that are to be removed prior to the issuance of a use and occupancy permit.

He then noted that many of the other homes in the neighborhood are built on 50-foot wide lots and that this proposal is compatible with the existing pattern of development.

The Petitioners submitted photographic evidence and plats (Exhibits 4, 9 and 10) noting homes on 50-foot wide lots. The Petitioners' exhibits disclosed that the pattern of development in the immediate neighborhood has taken place on undersized lots, which they say support their request. The properties are served by public water and sewer. The D.R.3.5 zoning classification imposes a number of requirements for the construction of single-family dwellings thereon. First, each lot must be a minimum 10,000 square feet in area; the subject lots are slightly in excess of 10,000 square feet. Secondly, for any single family dwelling on a D.R.3.5 lot the minimum front and rear property line setbacks are 30 feet. Finally, 10-foot side yard setbacks must be maintained on each side with a minimum sum of side yard widths of 25 feet. In this regard, the only deficiency under the current regulations relates to the lot widths and the sum of side yard setbacks. As noted above, these lots were originally laid out as 50-foot wide lots. Although recorded well prior to the adoption of the zoning regulations, the current requirements must be maintained or variance relief acquired before building permits can be approved. Finally, as noted by Mr. Billingsley most of the houses in the immediate vicinity are situated on 50-foot wide lots. This fact was confirmed during a site visit by the Office of Planning. Indeed, this Commission has approved similar variance relief in this area.

Suitable of mention here is the Baltimore County Zoning Commissioner's Policy Manual (ZCPM) which was enacted pursuant to Sections 3-7-203 through 3-7-208 and 32-3-105 of the Baltimore County Code (B.C.C.). The ZCPM was last adopted and approved by the County Council in 1992. The Policy Manual contains policies and other information that assists the reader in interpreting the B.C.Z.R. On Page 3-3 thereof, the requirements of Section 304 of the

B.C.Z.R. are discussed. Therein, it is indicated that the Zoning Commissioner has traditionally applied the "six-year rule" in considering adjacent property ownership. It is important to consider the intent of the owner of contiguous undersized lots that were purchased in good faith and without any intent to avoid the area requirements of Section 304.1.C. I am satisfied, given the laborious history of these two (2) lots, that the requirements set forth in Section 304 have been satisfied and that the construction of a new dwelling by the Wilsons on the subject (Lot 49) is appropriate and should be approved.

After due consideration of the testimony and evidence presented, I am persuaded that relief should be granted. To deny relief would result in a practical difficulty for the Petitioners in that there would be no reasonable use of the property for a permitted purpose, a purpose for which these lots and the neighboring properties have previously been used.² The proposed development is in keeping with other homes in the neighborhood and meets the spirit and intent of Section 307 of the B.C.Z.R. and *Cromwell v. Ward* 102 Md. App. 691 (1995) for variance relief to be granted. This subdivision and the subject lots were created in 1916, much before the zoning was imposed on the area. The imposition of zoning on this property disproportionately impacts the subject property as compared to others in the zoning district. I find that no increase in residential density beyond that otherwise allowable by the Zoning Regulations will result by granting this variance when looking at the overall neighborhood density. I find that the Wilson's, who at one time owned the contiguous lot, purchased the subject property in good faith and that by proceeding through the DRC removed any intent to avoid the area requirements. Mr. and Mrs. Wilson wish to build a new 30' wide x 50' deep two-story home on the property they retain at 2100A Tred Avon Road that will be set back 70 feet from the bulkhead at Hopkins

² See Maryland Department of Assessments and Taxation property records (Petitioners' Exhibit 2) evidencing that a modest 660 square foot dwelling was built on Lot 49 in 1927.

Creek. In doing so, they will also remove and/or improve other accessory structures that have existed on this lot (Lot 49) for many years. Finally, I find this variance can be granted in strict harmony with the spirit and intent of the regulations, and in a manner as to grant relief without injury to the public health, safety and general welfare.

Pursuant to the advertisement, posting of the property and public hearing on these Petitions held, and for the reasons set forth herein, the relief requested shall be granted.

THEREFORE, IT IS ORDERED by the Zoning Commissioner for Baltimore County this 15th day of December 2010 that the Petition for Variance filed in Case No. 2011-0150-A seeking relief from Section 1B02.3.C.1 of the Baltimore County Zoning Regulations (B.C.Z.R.) to permit a lot width of 50 feet and individual side yard setbacks of 10 feet minimum with a sum of side yards of 22 feet in lieu of the required 70 feet, 10 feet minimum and 25 feet, respectively, for an existing dwelling on Lot 50 at 2100 Tred Avon Road, in accordance with Petitioners' Exhibit 1, be and is hereby GRANTED; and

IT IS FURTHER ORDERED that the Petition for Variance in Case No. 2011-0151-A seeking similar relief from Section 1B02.3.C.1 of the B.C.Z.R. to permit a lot width of 50 feet and individual side yard setbacks of 10 feet minimum with a sum of side yards of 20 feet in lieu of the required 70 feet, 10 feet minimum and 25 feet respectively, for a new single-family dwelling on Lot 49 at 2100A Tred Avon Road, in accordance with Petitioners' Exhibit 1, be and is hereby GRANTED, subject to the following restrictions imposed in both cases:

1. The Petitioners are hereby made aware that proceeding at this time is at their own risk until such time as the 30-day appellate process from this Order has expired. If, for whatever reason, this Order is reversed, the relief granted herein shall be rescinded.

2. Petitioners shall comply with the Zoning Advisory Committee (ZAC) comments submitted by the Office of Planning, dated November 22, 2010, and the Department of Environmental Protection and Resource Management (DEPRM), dated December 10, 2010. Copies of these comments have been attached hereto and are made a part hereof.
3. The Petitioners shall permit a representative of the Code Enforcement Division of the Department of Permits and Development Management (DPDM) reasonable access to the subject property to insure compliance with this Order and approved site plan.
4. When applying for any permits, the site plan filed must reference this case and set forth and address the restrictions of this Order.

Any appeal of this decision shall be taken in accordance with the Baltimore County Code Section 32-3-401.

Though both of these sites are along the shore, and the flood plain blank on the agenda is checked as "yes," the building areas are at elevation 18' (well above the flood plain) so we did not provide our standard flood plain comment. We simply had no comment and apparently, our "no comment" was lost.

SUBJECT: Zoning Item # 11-0151-A

DEPRM has reviewed the subject zoning petition for compliance with the goals of the State-mandated Critical Area Law listed in the Baltimore County Zoning Regulations, Section 500.14. Based upon this review, we offer the following comments:

1. This waterfront property is located in a Limited Development Area and a Buffer Management Area within the Chesapeake Bay Critical Area. Development of this property must comply with maximum lot coverage limits, must meet restrictions on development within the 100-foot tidal buffer, and must meet a minimum 15% tree cover requirement. In addition, the proposed lot line adjustment must meet the requirements of Code of Maryland Regulations 27.01.02.08 Lot Consolidation and Reconfiguration. Based on this, DEPRM has determined that adverse impacts on water quality from the pollutants discharged from the proposed development can be minimized with compliance and mitigation pursuant to Critical Area requirements. Mitigation requirements may include removal of lot coverage and the planting of native trees and shrubs.
2. The subject development can meet the requirement to conserve fish, wildlife, and plant habitat by bringing the site into compliance with all Critical Area requirements and through mitigation.
3. The proposed development is permitted under the State-mandated Critical Area regulations provided that development is in compliance with all Critical Area requirements. Lot coverage on the property and within the tidal buffer is limited. Compliance with the Critical Area requirements, and mitigation can allow the subject development to be consistent with established land use policy for development in the Chesapeake Bay Critical Area which accommodate growth and also address the fact that, even if pollution is controlled, the number, movement, and activities of persons in that area can create adverse environmental impacts.

Director, Office of Planning

SUBJECT: Zoning Advisory Petition(s): **Case(s) 11-151- Variance**

The Office of Planning has reviewed the subject request and has determined that the petitioner owns sufficient adjoining land to conform to the minimum width and area requirements and therefore does not meet the standards stated in Section 304.1.C of the BCZR. However, there appears to be several existing undersized lots in the neighborhood. As such, this office does not oppose the petitioner's request.

If the petitioner's request is granted, the following conditions shall apply to the proposed dwelling:

1. Submit building elevations to this office for review and approval prior to the issuance any building permit. The proposed dwelling shall be compatible in size, exterior building materials, color, and architectural detail as that of the existing dwellings in the area.
2. Provide building elevations for any proposed exterior changes to the existing dwelling that is to be converted to a storage building. Include a note on the plan that this structure shall no longer be used/inhabited for residential living purposes.
3. After visiting the site, there is an additional accessory structure not shown on the plan located on the lot that appears to be used as a dwelling. This use must be vacated and the structure removed prior to the granting of the subject variance.
4. There appears to be several zoning and building code violations that currently exist on the subject property that must be addressed prior to the granting of the subject variance.

RECITALS

Declarants are the owners of the property known as 2100 Tred Avon Road by virtue of the Deed dated May 15, 1997, and recorded among the Land Records of Baltimore County in Liber SM No. 12207, folio 732. 2100 Tred Avon Road and 2100A Tred Avon Road are hereinafter sometimes jointly referred to as the "Lots."

The Declarants desire to subject 2100 Tred Avon Road to a perpetual easement for the use and enjoyment by the owner of 2100A Tred Avon Road of that parcel of ground identified as Easement Area "A" more fully described on Exhibit "A" attached hereto, and as more fully described by metes and bounds in Exhibit "B" attached hereto (hereinafter "Easement Area A").

The Declarants desire to subject 2100A Tred Avon Road to a perpetual easement for the use and enjoyment by the owner of 2100 Tred Avon Road of that parcel of ground identified as Easement Area "B" more fully described on Exhibit "A" attached hereto, and as more fully described by metes and bounds in Exhibit "C" attached hereto (hereinafter "Easement Area B").

NOW, THEREFORE, the Declarants hereby declare that the Lots shall be subject to the following covenants and conditions:

1. The word "Owner", when used in this Cross-Easement Declaration, shall mean the record Owner of a Lot that is subject to this Cross-Easement Declaration and, if more than one person, firm, corporation, trustee, or other legal entity, or any combination thereof, holds the record title to any Lot, all of the same, as a unit and not otherwise, shall be deemed a single Owner of a Lot. However, the term "Owner" shall not mean, refer to or include any contract purchaser, nor the Owner of any redeemable ground rent issuing out of any Lot, nor shall it include the holder of any deed of trust or mortgage covering any Lot designed solely for the purpose of securing performance of an obligation or payment of a debt.

2. Easement Area A shall be for the unrestricted exclusive use, benefit and enjoyment of the Owners of 2100A Tred Avon Road, their heirs, personal representatives and successors in title, including, but not limited to, the right to erect a fence thereon that would make it appear that Easement Area A is part of 2100A Tred Avon Road.

3. Easement Area B shall be for the unrestricted exclusive use, benefit and enjoyment of the Owners of 2100 Tred Avon Road, their heirs, personal representatives and successors in title, including, but not limited to, the right to erect a fence thereon that would make it appear that Easement Area B is part of 2100 Tred Avon Road.

4. The height of any fence erected by any Owner on 2100 Tred Avon Road, 2100A Tred Avon Road, or in Easement Area A or in Easement Area B that is within one hundred feet (100') of the water line of Middle River shall not exceed four feet (4') in height. The purpose of this restriction is to preserve the scenic view of Middle River from either of the Lots.

5. The Owner of 2100 Tred Avon Road will maintain the Easement Area B in the same manner and in the same condition as 2100 Tred Avon Road and will indemnify and hold harmless the Owner of 2100A Tred Avon Road, the survivor of them, the personal representatives, heirs and assigns of the survivor, and their successors in title, from all claim or liability emanating or resulting from the Owner of 2100 Tred Avon Road's use and enjoyment of the Easement Area B, pursuant to the easement granted hereunder. The Owner of 2100 Tred Avon Road shall be responsible for all costs of the maintenance of Easement Area B, except that Easement Area B shall be included as part of the real property tax bill for 2100A Tred Avon Road.

6. The Owner of 2100A Tred Avon Road will maintain the Easement Area A in the same manner and in the same condition as 2100A Tred Avon Road and will indemnify and hold harmless the Owner of 2100 Tred Avon Road, the survivor of them, the personal representatives, heirs and assigns of the survivor, and their successors in title, from all claim or liability emanating or resulting from the Owner of 2100A Tred Avon Road's use and enjoyment of the Easement Area A, pursuant to the easement granted hereunder. 8. The easements, benefits and obligations set forth in this Declaration shall create a servitude upon 2100 Tred Avon Road for the benefit of 2100A Tred Avon Road and a servitude upon 2100A Tred Avon Road for the benefit of 2100 Tred Avon Road, which said servitudes shall be perpetual and shall run with the land.

9. These easements, covenants, restrictions and conditions shall run with and bind the land and shall be binding upon all parties having or acquiring any right, title and interest in the described property, or any part hereof, and shall inure to the benefit of each Owner thereof and the respective personal representatives, successors, and assigns of each Owner.
