BALTIMORE COUNTY

Case Nos. 2011-0160-A &
2011-0161-A

* * * * *

FINDINGS OF FACT AND CONCLUSIONS OF LAW

This matter comes before the Zoning Commissioner for consideration of Petitions for Variance filed by the owner of the subject two (2) properties, Richard A. Robinson. Since the properties are owned by the same owner and are located adjacent to one another, the two cases were heard contemporaneously. In Case No. 2011-0160-A (Lot 186 – 13202 Choptank Avenue), the Petitioner requests variance relief from Sections 1B02.3.A.5 and 1B02.3C of the Baltimore County Zoning Regulations (B.C.Z.R.), to permit a minimum lot width of 50 feet in lieu of the required 55 feet for a proposed dwelling. In Case No. 2010-0161-A (Lot 187 – 13200 Choptank Avenue), Petitioner requests similar relief. Specifically, relief is requested from B.C.Z.R. Sections 1B02.3.A.5 and 1B02.3C.1 to allow a lot width of 50 feet in lieu of the minimum required lot width of 55 feet for a replacement dwelling. The subject properties and requested relief are more particularly described on the site plan submitted in each case, which were accepted into evidence and respectively marked as Petitioner's Exhibit 1.

Appearing at the requisite public hearing in support of the requests were Richard A. Robinson, property owner, Robert Infussi with Expedite, LLC, the consultant assisting the Petitioner with the permitting process, and David S. Sofsky, P.E., with DSSPE Engineering, who prepared the site plans. There were no Protestants or other interested persons in attendance nor

were there any adverse Zoning Advisory Committee (ZAC) comments received from any of the County reviewing agencies.

Testimony and evidence offered revealed that the subject lots are located on the southwest side of Choptank Avenue and Gunpowder Road and just south of the Gunpowder River in Oliver Beach. The rectangular lots are identified as Lots 186 and 187 on the plat of subdivision of Oliver Beach, which is an older subdivision that was platted and recorded in the Land Records in 1940, prior to the first set of zoning regulations in Baltimore County. As is often the case with older subdivisions, many of the lots are undersized and do not meet current area and width requirements. In this regard, both lots are 50' wide x 200' deep, contain a gross area of 20,000 square feet, zoned D.R.5.5 and must comply with the Chesapeake Bay Critical Area Regulations.

Both lots meet or exceed the lot area of the D.R.5.5 zone but do not meet the lot width requirement. The proposed dwellings will meet all front, side and rear setback requirements and will be situated on the lot consistent with other houses in the community. The only deficiency in this instance is the lot widths, which are 5 feet shy of the required 55 feet. Again, the fact that this subdivision was platted and recorded many years ago, prior to the adoption of the B.C.Z.R., is a persuasive factor, and the dwelling on Lot 187 has existed on the site where located since 1950. See Public Works Water Drawing No. 65-1028 submitted as Petitioner's Exhibit 3 that denotes the location of improvements on the lot in 1965 and also provides insight as to the pattern of development in this community.

Petitioner desires to redevelop the lots with new single-family dwellings. The existing structure and concrete patio will be removed and rebuilt. The new dwellings will be 30' wide x 40' deep and will meet all setback requirements. Public water and sewer will serve both lots.

Relief is required to approve the properties as undersized lots (width at building lines less than required by the area regulations) to permit the proposed development. Obviously, strict compliance with the regulations would create a hardship as the zoning regulations result in a denial of a reasonable and sufficient use of the property (*See Belvoir Farms v. North 355 Md. 259 [1999]*). Moreover, based on the testimony and evidence presented, the Petitioner is entitled to their variances as they have met the requirements of Section 304 of the B.C.Z.R. (*See Mueller v. People's Counsel for Baltimore County 177 Md. App. 43 [2007]*). In my view, the relief requested will not result in any detriment to the health, safety and general welfare of the surrounding locale and, therefore, would meet the spirit and intent of Section 307 for relief to be granted.

Pursuant to the advertisement, posting of the properties and public hearing on these Petitions held, and for the reasons set forth above, the relief requested shall be granted.

THEREFORE, IT IS ORDERED by the Zoning Commissioner for Baltimore County this 7th day of January 2011, that the Petition for Variance filed in Case No. 2010-0160-A (Lot 186 - 13202 Choptank Road), seeking relief from Sections 1B02.3.A.5 and 1B02.3C.1 of the Baltimore County Zoning Regulations (B.C.Z.R.), to permit a proposed buildable lot with a width of 50 feet in lieu of the required 55 feet, in accordance with Petitioner's Exhibit 1, be and is hereby GRANTED; and

IT IS FURTHER ORDERED that the Petition for Variance filed in Case No. 2010-0161-A (Lot 187 - 13200 Choptank Road), seeking relief from Sections 1B02.3.A.5 and 1B02.3C.1 of the Baltimore County Zoning Regulations (B.C.Z.R.), to permit a replacement dwelling on a lot with a width of 50 feet in lieu of the minimum required 55 feet, in accordance with Petitioner's Exhibit 1, be and is hereby GRANTED subject to the following conditions:

1. The Petitioner may apply for his building permits and be granted same upon receipt of this Order; however, Petitioner is hereby made aware that proceeding at this time is at his own risk until the thirty (30) day appeal period from the date of this Order has expired. If an appeal is filed and this Order is reversed, the relief granted herein shall be rescinded.
2. The Petitioner shall comply with the recommendations made within the Zoning Advisory Committee (ZAC) comments submitted by the Department of Environmental Protection and Resource Management (DEPRM) and the Office of Planning, dated December 22, 2010 and November 30, 2010, respectively, copies of which are attached hereto and made a part hereof.

Any appeal of this decision must be made within thirty (30) days of the date of this Order.

ADVERTISING REQUIREMENTS AND PROCEDURES FOR ZONING HEARINGS

The Baltimore County Zoning Regulations (BCZR) require that notice be given to the general public/neighboring property owners relative to property which is the subject of an upcoming zoning hearing. For those petitions which require a public hearing, this notice is accomplished by posting a sign on the property (responsibility of the petitioner) and placement of a notice in a newspaper of general circulation in the County, both at least fifteen (15) days before the hearing.

Zoning Review will ensure that the legal requirements for advertising are satisfied. However, the petitioner is responsible for the costs associated with these requirements. The newspaper will bill the person listed below for the advertising. This advertising is due upon receipt and should be remitted directly to the newspaper.

RE: 2011-0161-A Case Number, 13200 Chop Tank Ave

The above referenced petition was accepted for processing **ONLY** by the Bureau of Zoning Review, Department of Permits and Development Management (PDM) on November 3, 2010. This letter is not an approval, but only a **NOTIFICATION**.

The Zoning Advisory Committee (ZAC), which consists of representatives from several approval agencies, has reviewed the plans that were submitted with your petition. All comments submitted thus far from the members of the ZAC are attached. These comments are not intended to indicate the appropriateness of the zoning action requested, but to ensure that all parties (zoning commissioner, attorney, petitioner, etc.) are made aware of plans or problems with regard to the proposed improvements that may have a bearing on this case. All comments will be placed in the permanent case file.

If you need further information or have any questions, please do not hesitate to contact the commenting agency.

Zoning Advisory Committee Meeting of November 15, 2010.

DEPRM has reviewed the subject zoning petition for compliance with the goals of the State-mandated Critical Area Law listed in the Baltimore County Zoning Regulations, Section 500.14. Based upon this review, we offer the following comments:

1. This lot is located within a Limited Development Area (LDA) of the Chesapeake Bay Critical Area (CBCA). Granting relief to the 55-foot lot width will not eliminate the CBCA requirements. Lot coverage on each lot is limited to 25%. Lot coverage can go up to a maximum of 31.25% with mitigation for the amount over 25%. Mitigation necessary to address the lot coverage requirements will minimize adverse impacts on water quality that resulting from development activities.
2. The 15% afforestation requirement must be addressed in the LDA. Tree planting may be required. There are no impacts to wetlands or buffers. Therefore, the subject zoning petition will conserve fish, wildlife, and plant habitat.
3. The CBCA regulations apply to development activities within the Critical Area, which accommodate growth and also address the fact that, even if pollution is controlled, the number, movement, and activities of persons in that area can create adverse environmental impacts. Any proposed development activities must meet all CBCA regulations.

DATE: November 30, 2010

FROM: Arnold F. 'Pat' Keller, III
Director, Office of Planning

SUBJECT: Zoning Advisory Petition(s): Case(s) 11-160 and 161

The Office of Planning has reviewed the subject request and has determined that the petitioner owns sufficient adjoining land to conform to the minimum width and area requirements and therefore does not meet the standards stated in Section 304.1.C of the BCZR. However, there appears to be several existing undersized lots in the neighborhood. The arrangement of the proposed dwellings is compatible with the neighborhood patterns. As such, this office does not oppose the petitioner's request.

If the petitioner's request is granted, the following conditions shall apply to the proposed dwelling:

1. Submit building elevations to this office for review and approval prior to the issuance any building permit. The proposed dwelling shall be compatible in size, exterior building materials, color, and architectural detail as that of the existing dwellings in the area.
2. Provide landscaping along the public road, if applicable.
