Re:

Zoning Spirit and Intent Request - Charlestown Retirement Community

PAI Number 01-225

715 Maiden Choice Lane, Catonsville, MD Election District 1, Councilman District 1

Project No. 82028.RP

Dear Mr. Jablon:

Daft-McCune-Walker, Inc. (DMW) represents the owners of the above, referenced property and we are responsible for the development-processing, engineering, and planning of their project.

DMW, on behalf on the Charlestown Retirement Community, is requesting a "spirit and intent" letter to allow for an adjustment of the approved beds to the assisted living and nursing components. Specifically, we are asking that the adjustment of assisted beds from 100 to 116 and nursing beds from 221 to 207 is within the scope of Zoning Case 2014-0250-SPH. We have enclosed a copy of the Zoning Order for your information. This modification is a 2-bed addition which equals .50 of a density unit increase. The changes are internal to the building only and the .50 density increase is below the approved allowable density (1,436 density units are allowed and 1,378.75 density units are proposed). This modification is also still below the proposed 1,397 density units which accompanied the site plan approved in Zoning Case 2011-0255-SPH.

We feel that this slight modification is within the scope of the last approved zoning case, and we hope that you consider the same. If you concur with our opinion, please sign in the allotted space below.

Thank you for your attention to this matter.

Very truly yours,

Daft-McCune-Walker, Inc.

Mitchell J. Kellman

Director of Zoning Services

W. Carl Richards, Zoning Supervisor

Date

I agree that the slight density change as described in this request is within the spirit and intent of Zoning Case 2014-0250-SPH, PROVIDED THAT HEARING FLAN & CRE PLANS ARE REFLINED

IN RE: PETITION FOR SPECIAL HEARING

NE side Maiden Choice Lane, 770 feet

NW of c/l Wilkens Avenue

1st Election District

1st Councilmanic District

(703 Maiden Choice Lane)

Charlestown Community, Inc.

Beneficial Owner

Maryland Health and Higher Education

Facilities Authority

Owner of Record

BEFORE THE

OFFICE OF ADMINISTRATIVE

HEARINGS FOR

BALTIMORE COUNTY

CASE NO. 2011-0255-SPH

OPINION AND ORDER

This matter comes before the Office of Administrative Hearings for Baltimore County for consideration of a Petition for Special Hearing filed by Patricia A. Malone, Esquire with Venable LLP, on behalf of Charlestown Community, Inc., the beneficial owner of the subject property. Petitioner requests Special Hearing relief to approve proposed campus improvements including an expansion of Building 3 and Charlestown Square and elevator additions to Buildings 8/9, Brookside, Herbert's Run and Park View Terrace, as an amendment to the Special Exception and site plans approved in Case Nos. 91-351-SPHXA (amending prior relief granted Case Nos. 85-152X, 88-120-SPHXA, and 91-85-SPHA) and the site plan subsequently approved in Case 98-71-SPHXA. The subject property and requested relief are more fully depicted on the site plan that was marked and accepted into evidence as Petitioner's Exhibit 4.

Appearing at the public hearing in support of the special hearing request were Garrett Falcone, Executive Director of Charlestown Community, Inc. and Mitchell Kellman with Draft McCune and Walter, Inc., the professional engineer who prepared the site plan, and Patricia A. Malone, Esquire, Kedrick Whitmore, Esquire representing the Petitioners. Peter Max Zimmerman appeared on behalf of the Office of Peoples Counsel of Baltimore County as did a number of

residents of the adjacent Kensington Community, whose names appear on the Citizen's Sign-In Sheet which is made part of the hearing file.

The Zoning Advisory Committee (ZAC) comments were received and are made part of the record of this case. Comments were received from the Fire Marshal's Office dated March 8, 2011, which indicate that the proposed building changes and additions shall comply with the provisions of the Baltimore County Fire Prevention Code, County Bill No. 48-10 dated July 19, 2011.

Magda C. Westerhout, AIA with Marks Thomas Architects, was called to testify by the Petitioner. She was accepted as an expert witness in the field of architecture. She noted that she was the "architect of record" for Charlestown since 1988. She described, through the use of aerial photo exhibits, the general layout of the Charlestown Retirement Community, including the outline of the site, its two looped roads, one entrance and numerous buildings.

She related that she had been asked to assess the current needs of the community from an architectural point of view. She presented the results of her assessment and those additions and improvements that are being requested at this time by the Petitioner. She testified that the population of the community, whose average age is now more than 10 years older than at its inception, utilize the elevators available to them many times per day. Noting that there is only one elevator in many of the buildings, Petitioner is proposing an 8 feet "pull out" to allow a total of four elevators to be added to already existing structures. She described the expansion of the aquatic center and dining facilities in the Charlestown Square building. She explained that the need for exercise in a senior population as well as appropriate dining facilities to keep pace with residents' needs, necessitated the requested improvements. Likewise, a reconfiguration of the entrance of the building, including the construction of a canopy, would also provide better access for ambulances and other emergency related vehicles.

Turning her attention to "building 3" Westerhout explained that this was the only building in Petitioner's request that would actually affect residential units. They propose to add to the building, including the enclosing of porches, while at the same time reconfiguring the apartments themselves. She noted that the requested reconfiguration, including the development of a number of new two bedroom apartments, will actually reduce the number of apartments in the building, with the result that the density of the development as a whole will still be below that authorized in the 1991 Order.

In addition to her summary of the description of the requested additions and improvements, she stated that it was her belief that these alterations would result in a more welcoming, responsive and effective facility for the senior population of Charlestown.

Finally, she addressed the affect, if any of the Petitioner's requests in the larger context of the surrounding community. She believes that the proposed improvements are in the spirit and intent of the zoning regulations as well as the original approval of the development itself. She noted the forestation buffers surrounding Charlestown and observed that they grow thicker as time goes on.

She addressed the inquiries and requirements contained in Section 502.1 of the B.C.Z.R. She did not believe that the limited additions proposed would adversely affect density or be detrimental to the health, safety or general welfare of the locality involved, as all work would be done according to Code requirements; nor would they tend to create congestion in roads, streets, or alleys therein. Moreover, the addition of four more elevators and a better entrance to the Charlestown Square building would not create a potential hazard from fire, panic or other danger. The requests would not tend to overcrowd land and/or cause undue concentration of population as fewer apartments and no additional density would result from Petitioner's request. The internal

improvements to the buildings themselves would not interfere with adequate provisions for schools, parks, water, sewerage, transportation or other public requirements, conveniences or improvements; nor interfere with adequate light and air. She believed that the proposed additions to the services for and the lives of the residents was eminently consistent with the purposes of the property's zoning classification nor was in any other way inconsistent with the spirit and intent of the zoning regulations of Baltimore County; neither would they be inconsistent with the impermeable surface and vegetative retention provisions of these zoning regulations. She concluded by stating that the Petitioner proposes no alteration to the existing forest buffer or other environmental bodies, and that therefore the Petitioner's request would not be detrimental to the environmental and natural resources of the site and vicinity including forests, streams, wetlands, aquifers, and floodplains in an RC 2, RC 4, RC 5 or RC 7 zone. In fact, the property includes none of those aforementioned zones.

On cross examination the witness acknowledged that each new elevator would require a shaft approximately 4 feet higher than the existing roofline and in answer to inquiries as to the square footage of the proposed additions, responded that the "footprint" of the buildings affected would change slightly or not at all, that Building 3 would go from 61 to 55 units, some of which would change from one bedroom to two bedroom apartments, and density would be maintained below the previously approved levels.

Mitchell Kellman was called by the Petitioner and accepted as an expert in land planning and the Baltimore County Zoning Regulations ("B.C.Z.R."). He recounted the zoning history of the Charlestown Retirement property. Although the instant case is a special hearing request to amend the previously granted special exception, he briefly described the property as it related to the now generally supplanted CRG (County Review Group) process. The witness then presented a

chart (Petitioner's Exhibit 11) titled "Summary of Residential Density for Charlestown Retirement Community." He explained how the density of the project was determined in this type of matter. He noted that in prior plans for the site, nursing beds were given a density value. He pointed out that this was usually done but, for the sake of consistency, was still being used. Referring to the summary chart, he testified that 1436 density units were the maximum permitted under Case No. 91-351-SPHXA. At that time, utilizing the appropriate calculations, only 1409 density units were utilized, leaving 27 units available. He compared this result with the same calculations utilized in assessing the density in the instant proposal, in which only 1370.5 density units are utilized. As a result, 65.25 density units now remain available of the 1436 units permitted under 91-351-SPHXA; or an increase in still available density units of 38.25 density units as a result of the present proposal. He also drew attention to the third page of Petitioner's Exhibit 2, in which the density calculations are broken by each building in the development, resulting in the same density numbers.

Turning his attention to the requirements of the special hearing amendment to the already existing special exception, he was also questioned regarding the "conditions determining granting of special exceptions" which is set forth in Section 502.1 of the B.C.Z.R. He testified that the proposed amendments would not:

- A. Be detrimental to the health, safety or general welfare of the locality involved, as the density would remain the same and that all additions would be built up to present Code standards;
- B. Tend to create congestion in roads, streets or alleys therein, as residents would likely be more self-contained and no road changes were contemplated;

- C. Create a potential hazard from fire, panic or other danger, given that all new construction would be completed pursuant to Code;
- D. Tend to overcrowd land and cause undue concentration of population, as no additional buildings or units would be constructed. The number of density units utilized would be actually reduced, and less traffic would be generated;
- E. Interfere with adequate provisions for schools, parks, water, sewage, transportation, or other public improvements, conveniences or improvements, as the decrease in density and units would result in no adverse impact as to these items whatsoever;
- F. Interfere with adequate light and air, as the property is some 95 acres and meets all applicable open space requirements;
- G. Be inconsistent with the purposes of the property's zoning classification, nor in any other way inconsistent with the spirit and intent of these zoning regulations, as no significant change would occur to the already approved and long standing purposes of the site, as well as the already existing special exception;
- H. Be inconsistent with the impermeable surface and vegetative retention provisions of these zoning regulations, as no vegetation would be removed and the site would continue to meet all stormwater management standards of the Department of Environmental Protection and Sustainability (DEPS);
- I. Be detrimental to the environmental and natural resources of the site and vicinity in including forests, streams, wetlands, aquifers and floodplains in an RC 2, RC 4, RC 5 or RC 7 zone as no environmental changes or activities would be affected by the improvements requested by Petitioner and none of the stated RC zones were present on the site.

Jared Barnhart was the final witness called on behalf of the Petitioner and was granted expert witness status in the fields of professional engineering and the Baltimore County Development Regulations. He related that he prepared and sealed the plat to accompany the instant Petition as well as the red line version, Petitioner's Exhibits 1 and 2, respectively. He explained that the only difference in the two versions was the inclusion of the chart on page 3 of Exhibit 2 concerning existing and requested density broken down by building. He stated that both were accurate as to site conditions that all improvements requested appeared on both.

He testified that the proposed plan is compatible with the special exception relief granted in 91-351-SPHXA. Turing his attention to the requirements of subsection of 502.1 of the B.C.Z.R. he concurred with and adopted the testimony of witnesses Westerhout and Kellman. The witness described the forest buffers of the site and discussed a question regarding a so-called "finger road" that apparently extends into the forest buffer between the Charlestown community and the adjacent Kensington community; referred to also during the hearing as an "edge of the forest canopy" and "edge of the forest". It appears to be an unimproved road which adjacent neighbors believe is used to support vehicles and machinery used in landscaping activities for the It extends roughly 650 feet into the forest buffer and ends Charlestown community. approximately 85 feet from Warwick Road, the border of the Kensington community. The road appears slightly different on several aerial photographs which the witness opined probably reflecting the changing seasonal growth of the trees. It does not appear on the 1991 plan and the witness offered that he has never seen trucks or other machinery actually using it, but noted that all use, in any event, stopped as of December 2010 when the new ownership of the Charlestown Retirement Community became aware of the complaint of the citizens in the Kensington community about this use located so deeply in the forest buffer. He noted that, in any event, Petitioner was in the process of reiterating and completing the proper conveyancing of all forest buffers of the Charlestown Community to Baltimore County, and was specifically requesting the County to include the so-called "finger" into the forest buffer.

Gregory Fenlon was the first witness called by Peoples Counsel. A long time resident of Kensington and a previous vice president of the community association, he attends UMBC. He stated that he was familiar with the history of the site as well as the latest proposals of Petitioner and voiced his concern regarding historical doubts that the ownership of Charlestown was "community friendly". He acknowledges the very recent exit of the previous ownership group and the assumption by a new group of owners of the senior community. He offered his hope that, as a result of this change, relations between Charlestown and the Kensington community would improve.

Beverly Sanderson, a resident of Warwick Road, whose backyard borders on the aforesaid forest buffer since 1986, was called to testify. Noting that she has participated in previous proceedings concerning requests by the Charlestown community, she opposes as a principle, any expansion of the footprints of any of the Charlestown buildings. She referred to the ongoing requests as a "creeping process" of expansion and fears the setting of precedent allowing any future expansion. She believes there is a point you must simply say "stop" to any further expansion. She stated that she has visited people residing in the Charlestown community over these many years, but is concerned about traffic issues on the two lane road of the campus. She recognizes the trends as our population gets older, admitted that she had no visceral objective with the proposed items in Petitioner's instant request, and acknowledged that Petitioner could in fact do what was legally permitted.

Edith Robinson, a neighbor who, along with her husband Walton, has lived in the Kensington community for 49 years, was the final witness called by Peoples Counsel. She is concerned that the proposed elevator shafts, which are a slight increase in the height of each building affected, will adversely affect the "view" of the adjacent neighborhood. Although she acknowledges the need to modernize, she believes that the site is as large and high as it should be, and that if granted, construction noise would be burden to the community. Finally, she testified that she had in the past heard noise from trucks and other equipment emanating from the "finger road". She stated that it is wide enough for a truck to turn around and in any event should be done away with and included in the forest buffer.

The Petitioner is faced with the need to upgrade and improve the facilities that are home to their many residents. At the same time, one cannot deny that the population of Baltimore County includes more and more senior citizens. The need by service providers to remain competitive in the provision of senior living environments cannot be ignored if that ever increasing senior population is to enjoy readily available safe and modern living alternatives.

The Charlestown Retirement Community has for years provided quality residential facilities for seniors. Now, under new ownership, it is seeking to modernize its facilities in order to provide a better and more responsive environment for its residents.

Specifically, Petitioner wishes to add four elevators to four already existing buildings, expand its aquatic center and dining facilities, reconfigure the entrance to its Charlestown Square Building and expand and expand and redivide "Building 3", an already existing residential structure.

Witness Westerhout provided a clear picture of the improvements and reasons they were necessary and appropriate. The movement of residents in and out of their building is as much a

matter of providing increased convenience and ease of use for the citizens of Charlestown as it is of safety in emergency situations. Moreover, it is undisputed that in senior communities such as this one, a readily available and accommodating elevator system is essential. The construction needed to add the additional four elevators is minimal, as is the effect that construction will have on the silhouette or view of the building by those outside of the community.

A necessary foundation of any senior community is the ability to provide quality facilities for exercise and the nutrition of its residents. The additions to the aquatic and dining facilities of the Charlestown Square Building, a non-density addition, is well sited and wholly appropriate. Likewise, the proposed new covered entrance to that building will improve access in all weather for individuals, those using wheelchairs and walkers, as well as for emergency vehicles.

The improvements requested for "Building 3" reflect and are responsive to the reality of present day senior living needs. Petitioner plans to enclose and add space, while reconfiguring the apartments within to include more two bedroom units. The number of apartments in the building will decrease, and the number of total density units utilized will be likewise decreased.

The sum total of the requested improvements will, I believe, result in a more useful and effective senior living facility. At the same time, I am satisfied that, as stated in the uncontroverted testimony of witnesses Westerhout, Kellman and Barnhart, the inquiries set forth in subsection 502.1 of the B.C.Z.R. have been clearly met and satisfied. Moreover, I am convinced by their testimony that the proposed additions included in this special hearing request are in agreement with the spirit and intent of the applicable County zoning regulations, as well as with the original approval and subsequent amendments to the Development Plan of Charlestown Village.

Having so stated, I am mindful of the testimony of members of the surrounding Kensington community as regard the need to maintain all existing forest buffers, and particularly to remedy the situation concerning the so-called "finger road" intruding into the forest buffer between the Charlestown and Kensington communities. All necessary steps must be taken immediately by Petitioner to formally convey and insure that the existing forest buffers remain undisturbed. The area encompassing the "finger road" must be returned to its previous state as part of the forest buffer, so as to render it indistinguishable from any other part of the surrounding buffer. It is essential, in my opinion, that while the senior population of the Charlestown community be enabled to benefit from their surroundings and facilities, the residents of the Kensington community and other surrounding neighbors must likewise be allowed to enjoy their privacy and joy of home ownership.

Pursuant to the advertisement, posting of the property, and public hearing on this petition held, and after considering the testimony and evidence offered by Petitioner, I find that Petitioner's request for special hearing should be granted.

THEREFORE, IT IS ORDERED this <u>29</u>th day of April, 2011 by this Administrative Law Judge that Petitioner's Special Hearing request to approve proposed campus improvements including an expansion of Building 3 and Charlestown Square and elevator additions to Buildings 8/9, Brookside, Herbert's Run and Park View Terrace, as an amendment to the Special Exception and site plans approved in Case Nos. 91-351-SPHXA (amending prior relief granted Case Nos. 85-152X, 88-120-SPHXA, and 91-85-SPHA) and the site plan subsequently approved in Case 98-71-SPHXA be and is hereby **GRANTED**.

The relief granted herein shall be subject to the following:

- Petitioner may apply for permits and be granted same upon receipt of this Order; however, Petitioner is hereby made aware that proceeding at this time is at its own risk until such time as the 30-day appellate process from this Order has expired. If, for whatever reason, this Order is reversed, Petitioner would be required to return, and be responsible for returning, said property to its original condition.
- 2. The proposed building changes and additions shall comply with the provisions of the Baltimore County Fire Prevention Code, County Bill No. 48-10 dated July 19, 2011.
- 3. The area encompassing the "finger road" shall be returned by Petitioner to its previous state as part of the forest buffer, so as to render it indistinguishable from any other part of the surrounding buffer. The said replanting and reforestation shall be subject to the approval of Avery Harden, Landscape Architect for Baltimore County.
- 4. That the forest buffers approved by Baltimore County and as set forth in the Plan to Accompany Petition for Special Hearing in this instant case shall be conveyed to Baltimore County by Petitioner in a timely manner with the inclusion of the area of the "finger road."

Any appeal of this decision must be made within thirty (30) days of the date of this Order.

DEPARTMENT OF PERMITS, APPROVALS AND INSPECTIONS ZONING REVIEW

ADVERTISING REQUIREMENTS AND PROCEDURES FOR ZONING HEARINGS

The <u>Baltimore County Zoning Regulations</u> (BCZR) require that notice be given to the general public/neighboring property owners relative to property which is the subject of an upcoming zoning hearing. For those petitions which require a public hearing, this notice is accomplished by posting a sign on the property (responsibility of the petitioner) and placement of a notice in a newspaper of general circulation in the County, both at least fifteen (15) days before the hearing.

Zoning Review will ensure that the legal requirements for advertising are satisfied. However, the petitioner is responsible for the costs associated with these requirements. The newspaper will bill the person listed below for the advertising. This advertising is due upon receipt and should be remitted directly to the newspaper.

OPINIONS MAY NOT BE ISSUED UNTIL ALL ADVERTISING COSTS ARE PAID.

For Newspaper Advertising:

RE: Case Number 2011-0255-SPH, 703 Maiden Choice Lane, Catonsville, MD 21228

Dear Mr. Falcone

The above referenced petition was accepted for processing **ONLY** by the Bureau of Zoning Review, Department of Permits and Development Management (PDM) on February 25, 2011. This letter is not an approval, but only a **NOTIFICATION**.

The Zoning Advisory Committee (ZAC), which consists of representatives from several approval agencies, has reviewed the plans that were submitted with your petition. All comments submitted thus far from the members of the ZAC are attached. These comments are not intended to indicate the appropriateness of the zoning action requested, but to ensure that all parties (zoning commissioner, attorney, petitioner, etc.) are made aware of plans or problems with regard to the proposed improvements that may have a bearing on this case. All comments will be placed in the permanent case file.

If you need further information or have any questions, please do not hesitate to contact the commenting agency.

Very truly yours,

W. Carl Richards, Jr. Supervisor, Zoning Review

Item No 2011-0255-5PH

703 MALDEN CHOICE LY PLANTESTO, WIN FIETEREMENT GO

Dear Ms. Matthews:

Thank you for the opportunity to review your referral request on the subject of the above captioned. We have determined that the subject property does not access a State roadway and is not affected by any State Highway Administration projects. Therefore, based upon available information this office has no objection to Baltimore County Zoning Advisory Committee approval of Item No. 2011- 6255-5PH.

Should you have any questions regarding this matter, please contact Michael Bailey at 410-545-2803 or 1-800-876-4742 extension 5593. Also, you may E-mail him at (mbailey@sha.state.md.us).

Very truly yours,

CREW SPRING CLEANING APRIL 9th MARK YOUR **CALENDARS**

Each spring CREW asks the community to join in cleaning up the greenway on South College Road. Our date this year is Saturday, April 9th.

CREW activities are based on the simple philosophy that ordinary people, acting together, can achieve extraordinary things. This earth will continue to regenerate life sources as long as we do our part to conserve our natural resources.

CREW will be on-site at 8:00 am to direct the roll-off provided by Baltimore City for this event. However, ANY time throughout the day that you are able to donate is appreciated.

Please save the date and join us in preserving this beautiful community greenway. We look forward to seeing you there!

Call to Action

The Kensington community needs YOUR help. Often people say "I want to help my neighborhood but I don't know what I can do." or "I only have a limited amount of time"...OR "No one ever asked me!" Consider yourself being asked!

Today a small group of involved people sustain the activities and interests of this community. These people, through their efforts, make this area a safer, more pleasant and livable environment.

There is a need for more individuals to step up and lend a hand. There are simple, time limited, activities you can do to help sustain the quality of life we

PEOPLE'S COUNSEL EXHIBIT NO.

Kensington has always been vitally interested in the protection of the forest buffer area adjoining our community. We recently noticed on project #82028R1/ site plan that DEPRM had granted variances to the forest buffer. In particular, we are concerned about the "finger" area (7,915 sq) as an access road for internal use by the Charlestown maintenance department.

There was no public hearing in 2010 by DEPRM for this access road.

The original idea behind the creation of the forest buffer was to keep large institutions at a comfortable distance from neighborhoods.

Certainly, the creation of one community should not mean death for its neighbor.

According to Buffer Protection and Management Ordinance of Baltimore County, the forest buffer shall be managed to enhance and maximize the unique value of the resources.

Management includes specific limitations on alteration of the natural conditions of these resources.

I- existing vegetation within the forest buffer shall not be disturbed including disturbance by tree removal, shrub removal, clearing or mowing.

2-no filling or dumping

3- motorized vehicles shall not be operated in area.

4- no materials stored in buffer

We now request that this finger area be placed back in the forest buffer boundary with all the forest buffer use and protection as provided.

RE: Special Hearing to approve proposed campus improvements, including an expansion of building 3 and Charlestown Square and elevator additions to buildings 8/9, Brookside, Herbert's Run and Park View Terrace, as an amendment to special exception and site plans approved in 91-351 SPHXA (amending prior relief granted case 85-152X, 88-120SPHXA, 91-85SPHA) and the site plan subsequently approved in case 98-71SPHXA. Forest buffer easement change as approved by DEPRM in 2010.

To whom it may concern:

My husband and I have lived in the Kensington community for the past 24 years. Kensington is a small, historical community occupied by residents who care deeply about preserving our charming, close-knit neighborhood. We also have a very active community association that works hard to preserve and enrich Kensington.

I am an active Kensington resident who regularly attends community association meetings, is a member of C.R.E.W.—the College Road Environmental Workers whose task is to take care of the four and one-half acre S. College Road greenway that borders our neighborhood, and participates regularly in numerous Kensington events (e.g., block party, Halloween parade, etc.). Furthermore, for the past eight years, I have managed our Kensington Security Patrol. Kensington has one of the most active security patrols in all of Baltimore County and City, with our residents averaging 40 to 50 patrols within our neighborhood each week. Our task is to provide eyes and ears for police in order to minimize crime in Kensington.

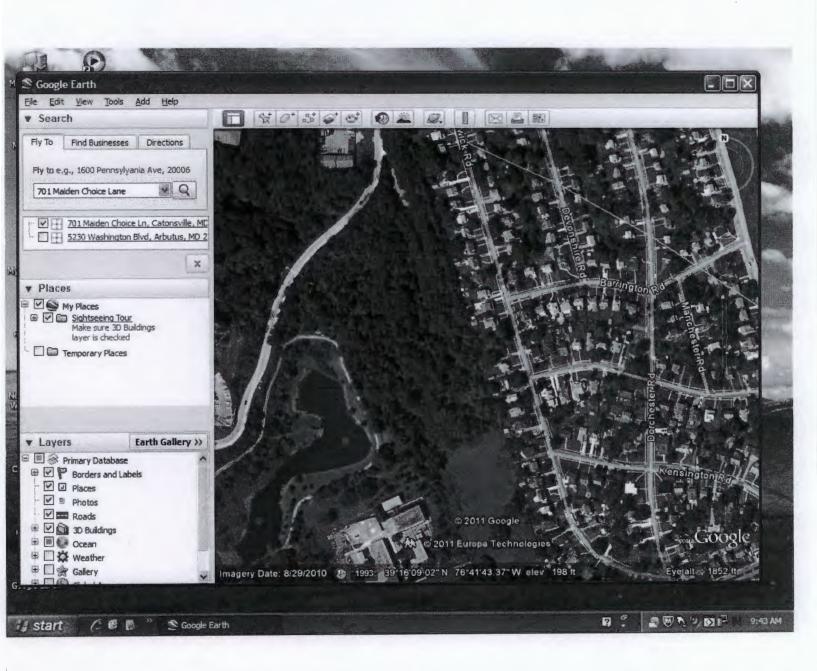

Kensington residents can see Charlestown buildings from our homes as the building portion of Charlestown sits atop of a large hill. Moreover, Charlestown Retirement Community's property borders the backyards of Kensington residents who live along Warwick Road. Forest buffers were established when Charlestown purchased the property; however, these buffers have been challenged and threatened over the years.

Unfortunately, we have had ongoing issues with respect to fast-track encroachment upon the Kensington community by Charlestown Retirement Community. If any of the following proposals had come to fruition, they would have had a <u>devastating</u> impact upon our small community. It is quite clear that we must be forever vigilant.

Re: Notice of Appeal to the County Board of Appeals

Concerning (1) Refinement Approval by Director of Permits and Development Management, based upon recommendation by Development Review Committee: (2) Agreement and Acceptance by Zoning Supervisor, on behalf of DPM Director, of "Spirit and Intent" Letter of Zoning Approval Prepared by Applicant's Attorney

Charlestown Retirement Community 1st Election District, 1st Councilmanic District DRC No.: 102610A PDM No. I-225

Dear Mr. Kotroco:

Please enter an appeal by the People's Counsel for Baltimore County to the County Board of Appeals for Baltimore County from (1) the attached approval dated November 15, 2010 by Director of Permits and Development Management (PDM) of an Application for Refinement and Consolidation of CRG Plans, upon recommendation of the Development Review Committee (DRC) and (2) the attached Zoning Supervisor Carl Richards' October 25, 2010 agreement and acceptance by countersignature of Charlestown's attorney's letter that the refinement is within the spirit and intent of the earlier zoning cases, which agreement is on behalf of the Director of Permits and Development Management and thereby appears to be a decision of the Director.

The reasons for appeal include, but are not limited to, the reasons expressed in the attached correspondence dated October 21, 2010 from our office to PDM Director Timothy Kotroco and DRC Supervisor Colleen Kelly and the October 29, 2010 e-mail from our office to Director Kotroco.

Re:

REQUEST FOR SPIRIT AND INTENT CONFIRMATION (Case No. 91-351-SPHXA and Case No. 98-71-SPHXA)

Charlestown Retirement Community

701 Maiden Choice Lane DRC No. 102610A

Dear Mr. Richards:

The firm represents Charlestown Retirement Community with regard to a request pending before the Development Review Committee for approval of a refinement to the CRG Plans that govern development of the community. In particular, Charlestown is seeking to construct additions to several of its existing buildings, including minor increases in size of elevators in three of its buildings (Brookside, Herbert's Run, and the connection between Buildings #8 and #9), an 8,396± square foot addition to Building #3 to expand the size of its rooms, and an approximately 10,461± square foot expansion of Charlestown Square and the attached Aquatics Center to offer improved amenities and facilities for its residents. In total, these improvements equate to less than 20,000± square feet of additional footprint on this 107 acre property, which contains a total building footprint of 410,905± square feet. I have attached a copy of the DRC application for your review.

The use of the property for purposes of the retirement community is governed by relief granted in Case No. 91-351-SPHXA (as amended by Case No. 98-71-SPHXA, which revised the special exception area) in which a special exception and other zoning relief was granted to allow for an elderly housing facility (under former Baltimore County Zoning Regulation § 432) with a maximum of 1,437 density units. Although this property appears on paper to have an extensive zoning and development history, as indicated on the Plan to Accompany DRC Request, several of the zoning cases referenced were not pursued or were denied.

At this time, I am writing to seek written confirmation from you that the proposed building additions are within the spirit and intent of the prior granted zoning relief. None

VENABLE ...

W. Carl Richards, Zoning Supervisor October 25, 2010 Page 2

of these additions result in an increase in the residential density for the project, nor will they create or allow for additional residential units. These improvements will simply allow for the creation of additional interior space within existing units, the expansion of elevators in certain buildings, and the improvement of the community's amenities and facilities. All of the improvements are interior to the campus and will have no impact on adjacent properties.

Please confirm by countersigning this letter below that the proposed plan refinements are, indeed, within the spirit and intent of the prior approved zoning relief granted for the property and that the proposed changes are permitted without any additional zoning relief being required. If you need any additional information in order to complete your review, please feel free to give me a call.

Very truly yours,

Patricia A. Malone

Re:

Charlestown Retirement Community Application for Refinement

PDM No.: 01-225

Development Review Committee (DRC) Meeting, October 26. 2010

Dear Mr. Kotroco and Ms. Kelly,

Upon inquiry from concerned citizens in Kensington, we reviewed the application for refinement filed October 5, 2010 by DMW on behalf of Charlestown Retirement Community. Their inquiry brought to mind our office's participation in the zoning history of this Maiden Choice Lane community, especially the County Board of Appeals (CBA) proceedings which concluded in 2007. Therefore, our office is particularly interested in this matter.

While the site plan is obscure, there are noted, without detail, a proposed expansion of 13,645 square feet to the aquatics center, expansions of 6530 and 1680 square feet to building 3, and a 271 square feet elevator addition to building 9. Even without detail, the combined expansion of 22,126 square feet plainly does not qualify as a refinement under County policy ("slight, minor, insignificant") or the English language ("a subtle point or distinction."... "a fine or delicate point, distinction or expression, a subtlety." Dictonary.com). Indeed, the expansion is much greater in magnitude than the great majority of zoning petitions. There are also variance and alternatives analysis notes on the site plan that in 2010, DEPRM granted variances to the forest buffer, including an access road. These apparently occurred without a public hearing.

The complicated and extensive zoning history for this site includes a special exception, variances, amendments, and conditions, reflected in many zoning orders. Some are listed on the site plan. Most recently, our office participated in the variance and refinement proceedings in Case Nos. 5-621-A and CBA-05-143. These involved amendments and "refinements" to previous zoning orders. In the enclosed April 6, 2007 opinion, the CBA denied the requested variances and also found on page 12 that the proposed Stone House office/garage expansion and data center construction were not refinements Remarkably, so far as we can tell, the current DRC application omits this important CBA decision from the long list on the site plan.

In the past, when citizens have brought to our attention applications for DRC/PDM "refinements," we have often found they did not qualify. The problems increase where applications amend site plans attached to zoning orders. In such cases, applicants sometimes try to avoid a public hearing by claiming that the amendment is within the "spirit and intent of the zoning order." This often functions as a smokescreen for a significant change.

Another problem is that one refinement follows another. They accumulate over the years in a way that belies to a higher order of magnitude the real intent of the refinement process. Yet, this accumulation seems to escape notice as applicants initiate each refinement piecemeal. The history of the Charlestown plan reflects cumulative and repeated "refinements."

The proposed amendments here are subject to review in the zoning and development processes, with public hearings before the Zoning Commissioner and Hearing Officer. This should be done by proper petitions to amend the special exception, variances, conditions, and other relief approved in previous zoning and development plans. The review should also encompass the 2010 DEPRM forest buffer variance and alternatives analysis modifications.

Among other things, the Kensington citizens have been vitally interested in the forest buffer area adjoining their community. Their concerns also put into perspective the more general concern about proper implementation of the land use legal process.

In conclusion, we trust that the applicant and concerned departments will take this opportunity to recognize that Charlestown Retirement Community must file the appropriate zoning petitions, and go through the public hearing legal process. This accords with the law and is the right thing to do. We also hope that this case highlights the need to safeguard against misuse of the refinement process. Please notify our office of any decision in this case.

Professional Summary

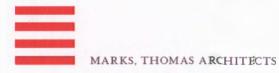

Mr. Kellman has over 11 years of experience working in zoning administration and subdivision regulation for the public sector, 9 of those years were with the Baltimore County Office of Planning and Zoning. His responsibilities included review, approval and signatory powers on behalf of the Director of Final Development Plans and Record Plats. He represented the Zoning Office on the County Development Review Committee, a body reviewing the procedural compliance of all development submissions. Review of petitions and site plans filed for zoning hearing approvals were within his authority. Additionally, he supervised county review staff, met with professionals and public on development project matters, and made determinations regarding developments and their compliance with county regulations. In working for DMW, he has extensive experience in testifying before the Baltimore County Zoning Commissioner, Hearing Officer, and Board of Appeals. He also regularly represents the company at the Baltimore County Development Review Committee meetings.

of the c/l Wilkens Avenue (701 Maiden Choice Lane) 1st Election District 1st Councilmanic District

St. Charles Assoc., Ltd., by Senior Campus Living, LLC * BEFORE THE

DEPUTY ZONING COMMISSIONER

OF BALTIMORE COUNTY

Case No. 98-71-SPHXA

* * * * *

FINDINGS OF FACT AND CONCLUSIONS OF LAW

This matter comes before the Deputy Zoning Commissioner for consideration of Petitions for Special Hearing, Special Exception and Variance filed by the owners of the subject property, St. Charles Associates, LTD, by Brian Froelich, President, Senior Campus Living, LLC, a General Partner, through their attorney, Stephen J. Nolan, Esquire. The Petitioners seek approval of an amendment to the previously approved special exception granted in prior Case No. 91-351-SPHXA to permit the removal of 3.16 acres (Lot 2) from the subject property, and the addition of 3.16 acres to the special exception area, pursuant to Section 432 of the Baltimore County Zoning Regulations (B.C.Z.R.). In addition, variance relief from Section 206.4.C.1 of the B.C.Z.R. is sought to permit a western lot line setback of 38 feet and a northern lot line setback of 62 feet in lieu of the required 80 feet for each for the Administration Building. subject property and relief sought are more particularly described on the site plan submitted which was accepted and marked into evidence as Petitioner's Exhibit 4.

Appearing at the hearing on behalf of the Petitions were Richard A. Baummer, Director of Civil Engineering for Senior Campus Living, Ed Haile and Melanie Moser, representatives of Daft-McCune-Walker, Inc., who prepared the site plan for this property, and Stephen J. Nolan, Esquire,

Re: Case No. 2011-0255-SPH

Dear Judge Stahl,

On behalf of the Charlestown Residents' Association, the elected Officers and Members of the Residents' Council support the efforts of Charlestown to renovate the community with the proposed construction projects. As leaders in the community, we continuously receive feedback on the desire to maintain the benefits that brought our nearly 2000 Residents to Charlestown. It is a well-planned and- managed retirement community that meets the needs of its residents and fosters their involvement with, and their support of, the surrounding Catonsville and Arbutus communities.

We feel that the proposed project will add to the success of Charlestown and will benefit not only the residents but the neighborhood in general.

Sincerely,

Charles I. Denton, President Charlestown Residents' Council PETITIONER'S

Re: Case No. 2011-0255-SPH

Dear Judge Stahl,

We the undersigned residents of Charlestown would like you to know that Charlestown is a vibrant, successful neighborhood in the Catonsville area where many of us have lived for the past two decades. We have enjoyed the benefits of this beautiful 110 acre campus and its lovely atmosphere for successful living. We understand the ongoing need to renovate and upgrade the campus and, therefore, we support the proposed construction projects in order to maintain the quality of life at Charlestown.

Re: Case No. 2011-0255-SPH

Dear Judge Stahl:

I am writing on behalf of Our Lady of Victory Church, Baltimore located directly adjacent to Charlestown Retirement Community in Catonsville. I understand that Charlestown is seeking to expand some of its buildings and has submitted its request to a public hearing, which will be conducted by your office.

As one of the facility's closest neighbors, I would like to express our support for Charlestown's efforts to improve and enhance its campus. Charlestown has been and continues to be a stable force in our neighborhood. The Charlestown campus is an asset to the area; all of Charlestown's neighbors benefit from this beautifully maintained campus. Allowing the facility to make necessary upgrades, so that it remains competitive in today's market, is of critical importance, not only for Charlestown, but the entire community.

Thank you.

Sincerely,

Rev. Timothy B. Klunk Rev. Timothy B. Klunk

Charlestown Retirement Community

Zoning History:

Petition for Variance to permit a maximum building width of 842 ft. in lieu of the permitted width of 300 ft.; to permit a minimum passageway width of O and 7.4 ft. in lieu of the permitted minimum of 10 ft.; to permit a maximum building height of 72 ft. in lieu of the permitted maximum of 50 ft.

Petition was granted by the Deputy Zoning Commissioner on October 18, 1982.

Petition for Variance to permit a building width of 852 ft. in lieu of the maximum permitted 300 ft.

Petition was granted by the Deputy Zoning Commissioner on October 22,1984.

Petition for Special Exception for a 30-unit assisted living facility, a 120-bed nursing home and a 20-unit domiciliary care facility. Petition was granted by the Deputy Zoning Commissioner on January 24,1985.

People's Counsel appealed the ruling, only to submit a Voluntary Dismissal of the appeal to the Board of Appeals on March 19,1985. The Board Issued an Order of Dismissal on March 28, 1985.

Petition for Special Hearing for an amendment to the previously approved Site Plans. Petition for Special Exception for an assisted care facility, reflecting expansion of the site and building area from that previously approved in Case No. 85-152-X. Petition for Variance to permit a maximum building width and length of 1,500 ft. and 1,450 ft., respectively, in lieu of the previously

granted 852 ft., in lieu of the permitted 300 ft. building length. Petitions were granted by the Deputy Zoning Commissioner on May 4,1988, with the following condition:

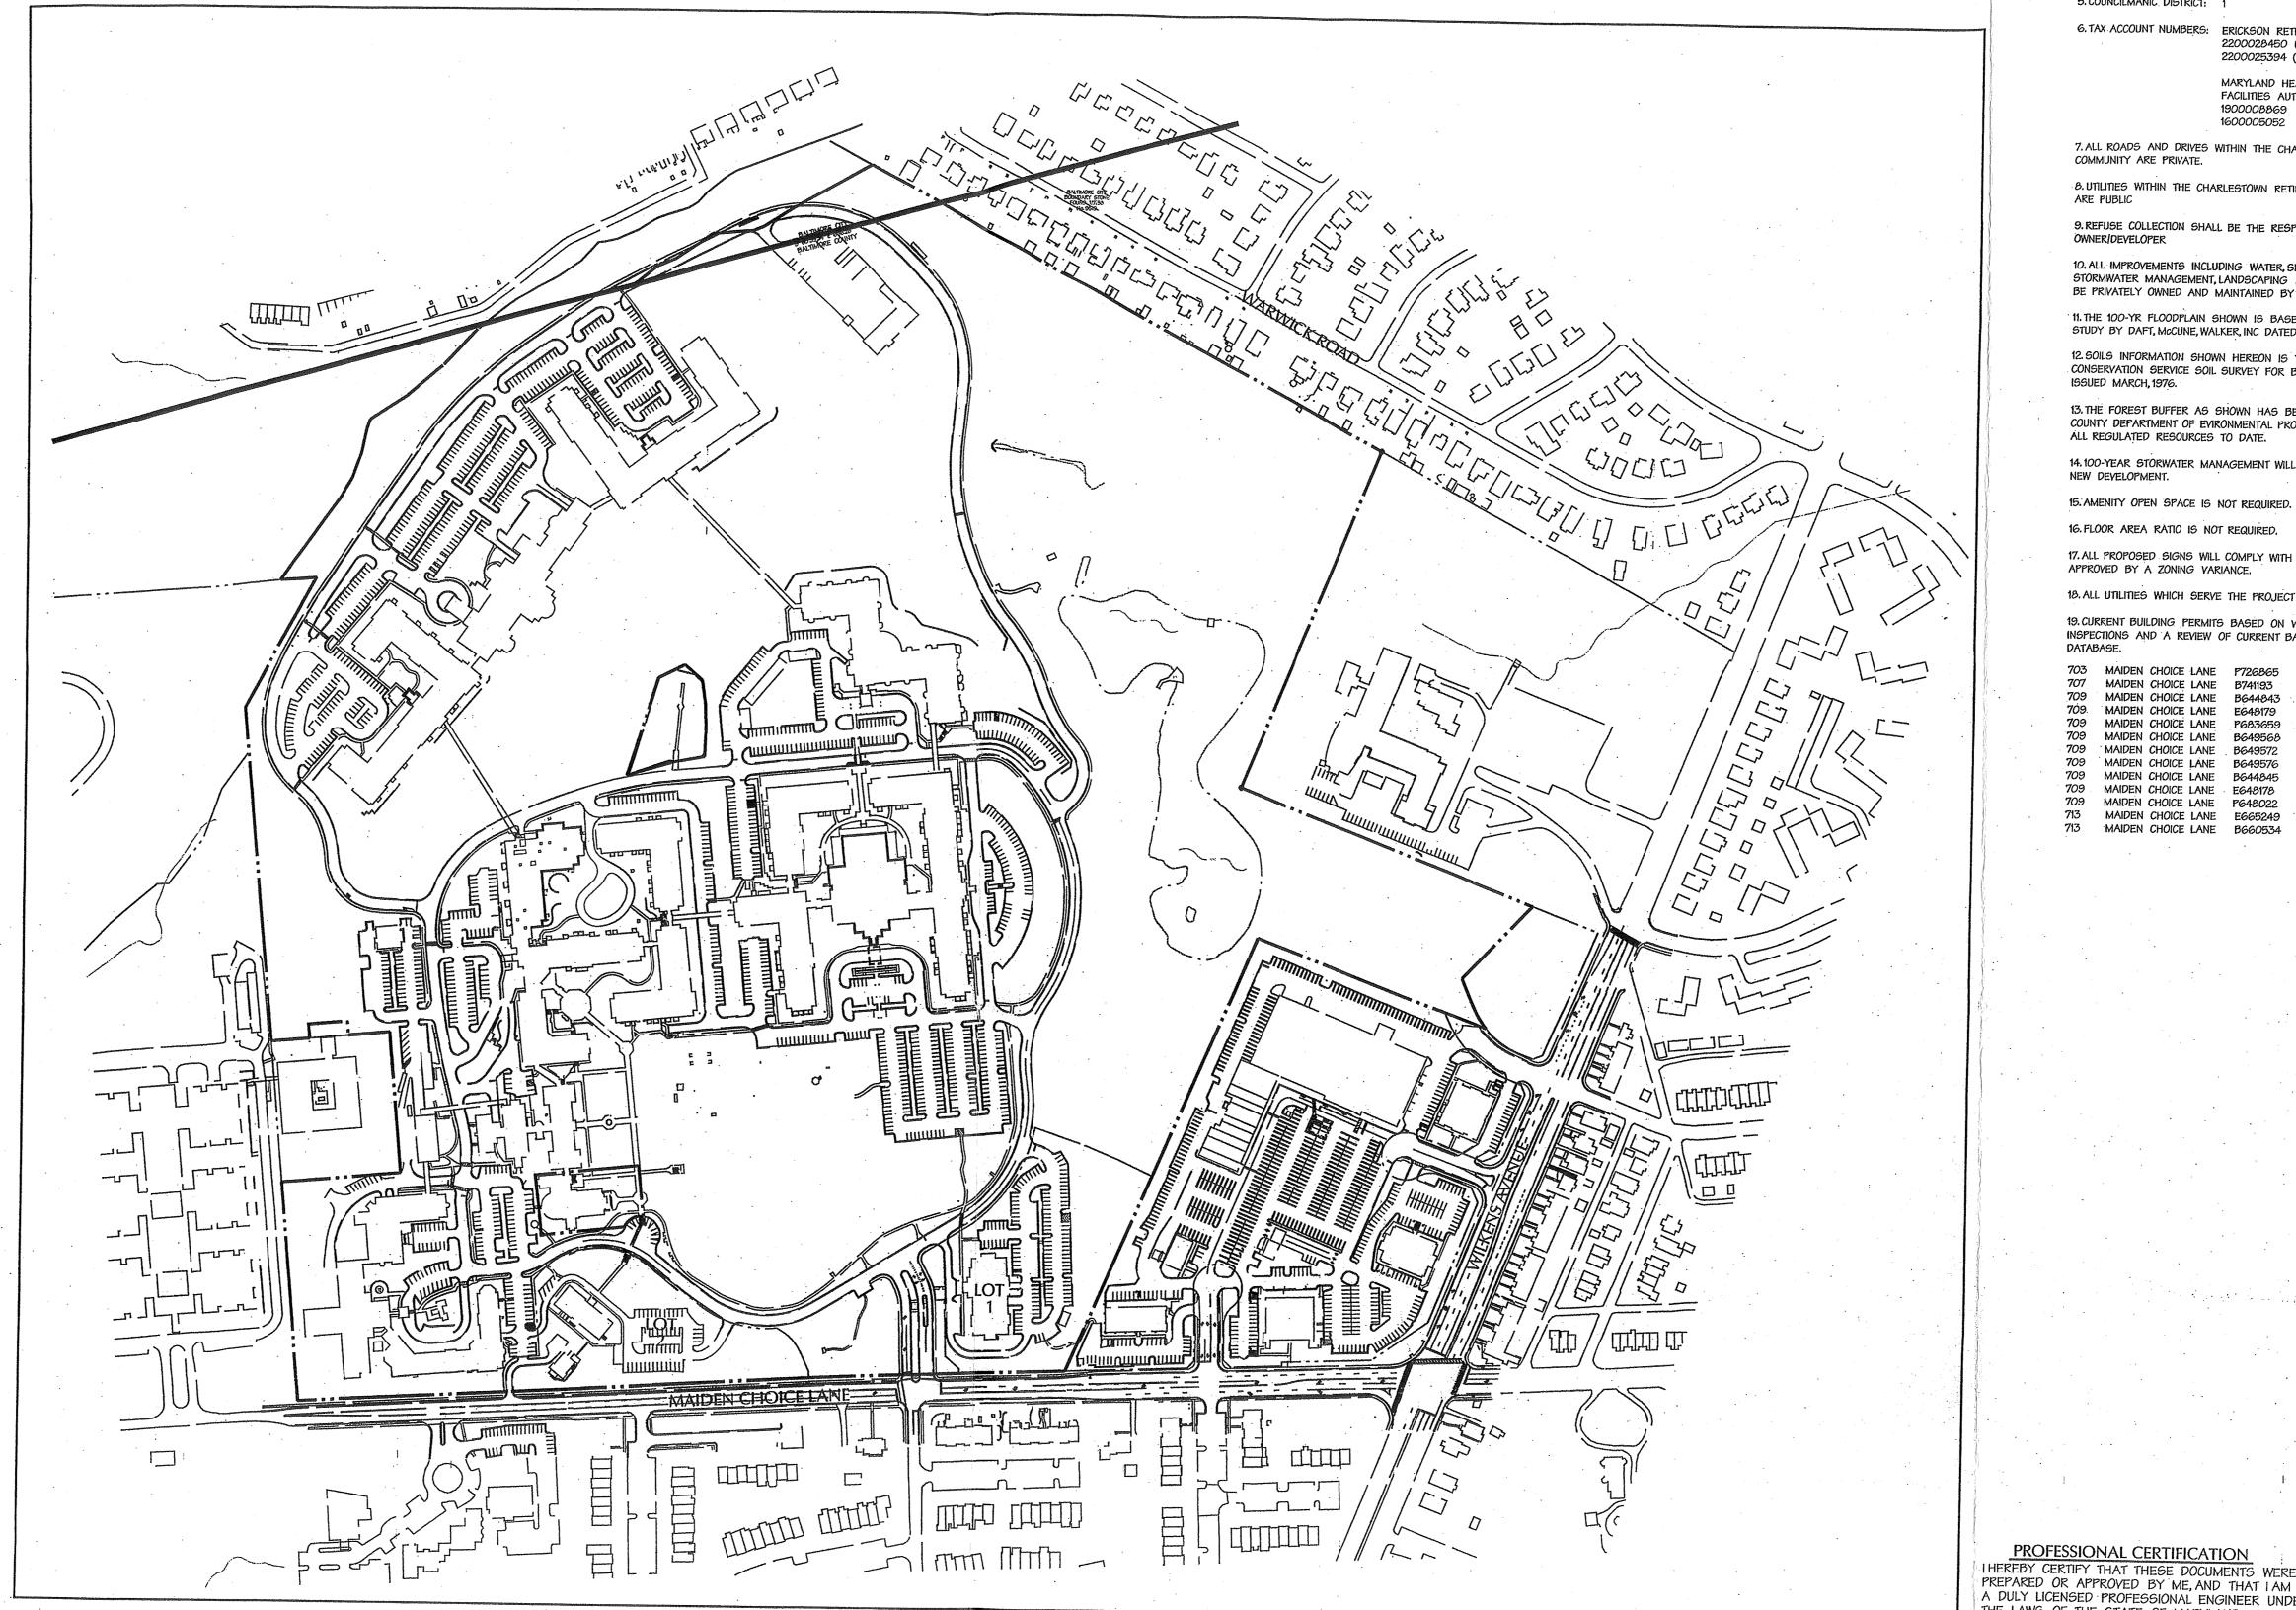

- The petitioner shall screen and landscape the property, as set forth in the Landscape Plan prepared by Daft-McCune-Walker, Inc., revised April 13, 1988. Any landscaping and/or screening of the adjacent property shall take place only if the Petitioner obtains written permission from the Little Sisters of the Poor. If the Petitioner does not obtain authorization from them, the Petitioner shall landscape Its property only. All screening and landscaping shall be in accordance with the Baltimore County Landscaping Manual and approved by the Office of Current Planning and Development and shall be maintained as required.

Case No. 91-85-SPHA Petition for Special Hearing to amend the previously approved Site Plans.

Petition for Variance to permit a maximum building width and length of 1,525 ft. and 1,600 ft., respectively, in lieu of the previously granted 1,500 ft. and 1,450 ft. in Case No. 88-120-9PHXA, in lieu of the maximum permitted 300 ft. building length; to permit a maximum building height of 72 ft. in lieu of 65 ft. and to permit a clocktower of 85 ft.

Petition was granted by the Deputy Zoning Commissioner on November 1, 1990.

CHARLESTOWN RETIREMENT COMMUNITY

LOCATION MAP

A letter, dated July 13, 2006, from Bill Wiseman to Larry Schmidt, Counsel for the Petitioners, advised that he had been informed by DEPRM that the subject Data Center Building had been removed from the Site Plan. In his opinion, the removal of the building left no basis for him to render a decision and the matter had become dormant. He also advised that he would like to dismiss the matter without prejudice, but in order to do so, he must receive a request for withdraw from the Petitioner. No response was ever received from Mr. Schmidt; so, by a memo dated September 26, 2006, the Zoning Commissioner returned the case file to PDM for

Petition for Variance to permit a lot line setback of 39 ft., 65 ft., and 69 ft. in lieu of the minimum required 78 ft.; to permit a front yard setback of 9 ft. in lieu of the minimum required 25 ft., a side yard setback of 8 ft. in lieu of the minimum required 20 ft. and a rear yard setback of 12 ft. in lieu of the minimum required 50 ft.; to permit 153 off-street parking spaces in lieu of the required 183; and, for such further and other zoning relief as the Zoning Commissioner may determine.

Petition was granted by the Zoning Commissioner on August 12, 2005, with the following conditions:

- As more fully set out in the Zoning Advisory Committee comment from the Baltimore County Office of Planning, dated July 15, 2005, the Petitioner's plans for the razing of the Frederick House structure shall be submitted to the Baltimore County Landmarks Preservation Commission for review.

- Prior to the issuance of any building permit, the Petitioner shall submit to the Office of Planning for review the following: a) elevation drawings that show the exterior design, colors and materials of the proposed parking structures and office building b) a plan that shows the location and design of any lights to be used on the top deck of the parking structures and all other outside

lights to be used on the subject property; and, c) a plan showing the proposed landscape screening along Maiden Choice Lane.

People's Counsel submitted a Motion for Reconsideration on September 1, 2005, which called into question the order in which approvals were requested from the Zoning Commissioner and the LPC, due to the fact that historic structures will be impacted by the requested relief. The Petitioner sought zoning relief first, and People's Counsel felt that approval of the LPC should have been received first. It is also questioned why the petitioner was not required to file a Petition for Special Hearing to request a waiver of the requirements relating to preservation of historic structures. Clarification of Condition 3 of the Order was also requested. Condition 3 stated that elevations, drawings and other plans were required to be submitted to the Office of Planning. People's Counsel wanted clarification that the approval of the plans and elevations submitted to Planning was not a requirement and Just a courtesy. Larry Schmidt, in response, sent a letter to the Zoning Commissioner explaining the issue raised by People's Counsel, and requested that

An Order on the Motion for Reconsideration was issued by the Zoning Commissioner on October 3, 2005. In the Order, it is clarified and amended to state that the Petitioner must receive approval of plans and elevations submitted to the Office of Planning, as well as file a Petition for Special Hearing seeking approval of a waiver to construct an addition to the carriage house and demolition of

People's Counsel then appealed the Order on the Motion for Reconsideration on October 17, 2005.

People's Counsel withdraw the Motion for Reconsideration, which did not happen.

The Board of Appeals issued an Opinion on April 6, 2007, which addressed two separate appeals filed by the Office of People's Counsel. The first appeal dealt with the approval by the DRC (No. 08150B) of a refinement to the CRG Plan for Charlestown construct the Data Center Building in a forest easement area. Counsel for the Petitioners also submitted a letter requesting additional Retirement Community. The second appeal relates to the current zoning case. The Board found that the proposed refinement to the CRG Plan did not qualify as a refinement and denied the request, thereby reversing the decision of the Director of Permits and Development Management. The Board also denied the requested variances.

A Spirit and Intent letter, dated November 19, 2008, was signed by W. Carl Richards, Zoning Supervisor on December 5, 2008. That letter confirmed that the addition of a gazebo and portion of a private drive is within the spirit and intent of Zoning Case Nos.

A Spirit and Intent letter, dated October 25, 2010, was approved by W. Carl Richards, Zoning Supervisor. That letter confirmed the Improvements less than 20,000 sq ft were within the spirit and Intent of Zoning Case 91-351-SPHXA and 9\$-71-SPHXA. This additional square footage would not result in additional residential density nor density units

July 29,1992 - CRG Plan approved for Charlestown - Phase 1

December 14, 1983 - CRG Plan approved for Charlestown - Phase II May 24,1984 - CRG Plan approved for Phases 1A, II, III and IV June 17,1987 - CRG Plan approved for Charlestown II - Phase 3

April 28, 1989 - 1st Refined CRG Plan approved for Charlestown II - Phase 3

October 17, 1991 - CRG Plan approved for Cross Creek at Charlestown - Appeals were filed to the approval by Julius Lichter and The Little Sisters of the Poor. This went to the Board of Appeals and was heard in conjunction with the appeal to Zoning Case No.

February 24, 1993 - 1st Amended CRG approved for Cross Creek at Charlestown. June 2,1993 - 2nd Amended CRG approved for Cross Creek at Charlestown (DRC No. 5033E).

October 4,1993 - DRC 10043K - requested refinement to 2nd Amended CRG for Cross Creek at Charlestown to build a three-story

office building at the main entrance and Malden Choice Lane. October 19, 1995 - DRC 10105D - request was to create a parcel of approximately 2 acres around the existing office building, separate from the residential portion.

November 4, 1996 - DRC 11046A - request was to separate on-site administrative uses contained in the carriage house offices from residential uses on rest of campus by way of amending the CRG and a record plat.

July 24, 2003 - 2nd Refined CRG approved for Charlestown II - Phase 3 (DRC No. 070703A). September 28, 2005 - DRC Approval Letter 08150B - requested refinement for addition of accessory use, data center and the expansion of Lot 2.

January, 2007 - DRC 012907A - requested refinement to illustrate smaller expansion of the current office complex on Lot 2. September 15, 2008 - DRC 090208D Approval Letter - Requested 3rd Amended CRG Plan - established the forest buffer easement per approved variance request, illustrated the proposed improvements associated with the covered pavilion and access road, and updated the open space requirements.

November 15, 2010 - DRC 102610A - Refinement granted to consolidate CRG plans and illustrate increase size in elevators, an 8,396 sq ft addition to building #3 and a 10,461 sq ft expansion of Charlestown Square.

Zoning History:

Petition for Variance to permit a maximum building width of 842 ft. in lieu of the permitted width of 300 ft; to permit a minimum passageway width of O and 7.4 ft. in lieu of the permitted minimum of 10 ft.; to permit a maximum building height of 72 ft. in lieu of the permitted maximum of 50 ft.

Petition was granted by the Deputy Zoning Commissioner on October 18, 1982.

Petition for Variance to permit a building width of 852 ft. in lieu of the maximum permitted 300 ft.

Petition was granted by the Deputy Zoning Commissioner on October 22,1984.

Petition for Special Exception for a 30-unit assisted living facility, a 120-bed nursing home and a 20-unit domiciliary care facility.

Petition was granted by the Deputy Zoning Commissioner on January 24,1985. People's Counsel appealed the ruling, only to submit a Voluntary Dismissal of the appeal to the Board of Appeals on March 19, 1985.

The Board Issued an Order of Dismissal on March 28, 1985. Case No. 88-120-SPHXA

Petition for Special Hearing for an amendment to the previously approved Site Plans. Petition for Special Exception for an assisted care facility, reflecting expansion of the site and building area from that previously approved in Case No. 85-152-X. Petition for Variance to permit a maximum building width and length of 1,500 ft. and 1,450 ft., respectively, in lieu of the previously granted 852 ft., in lieu of the permitted 300 ft. building length.

Petitions were granted by the Deputy Zoning Commissioner on May 4,1988, with the following condition:

- The petitioner shall screen and landscape the property, as set forth in the Landscape Plan prepared by Daft-McCune-Walker, Inc., revised April 13, 1988. Any landscaping and/or screening of the adjacent property shall take place only if the Petitioner obtains written permission from the Little Sisters of the Poor. If the Petitioner does not obtain authorization from them, the Petitioner shall landscape its property only. All screening and landscaping shall be in accordance with the Baltimore County Landscaping Manual and approved by the Office of Current Planning and Development and shall be maintained as required.

Petition for Special Hearing to amend the previously approved Site Plans. Petition for Variance to permit a maximum building width and length of 1,525 ft. and 1,600 ft., respectively, in lieu of the previously granted 1,500 ft. and 1,450 ft. in Case No. 88-120-SPHXA, in lieu of the maximum permitted 300 ft. building length; to permit a maximum building height of 72 ft. in lieu of 65 ft. and to permit a clocktower of 85 ft.

Petition was granted by the Deputy Zoning Commissioner on November 1, 1990.

CHARLESTOWN RETIREMENT COMMUNITY

A letter, dated July 13, 2006, from Bill Wiseman to Larry Schmidt, Counsel for the Petitioners, advised that he had been informed by DEPRM that the subject Data Center Building had been removed from the Site Plan. In his opinion, the removal of the building left no basis for him to render a decision and the matter had become dormant. He also advised that he would like to dismiss the matter without prejudice, but in order to do so, he must receive a request for withdraw from the Petitioner. No response was ever received from Mr. Schmidt; so, by a memo dated September 26, 2006, the Zoning Commissioner returned the case file to PDM for

Petition for Variance to permit a lot line setback of 39 ft., 65 ft., and 69 ft. in lieu of the minimum required 78 ft.; to permit a front yard setback of 9 ft. in lieu of the minimum required 25 ft., a side yard setback of 8 ft. in lieu of the minimum required 20 ft. and a rear yard setback of 12 ft. in lieu of the minimum required 50 ft.; to permit 153 off-street parking spaces in lieu of the required 183; and, for such further and other zoning relief as the Zoning Commissioner may determine.

Petition was granted by the Zoning Commissioner on August 12, 2005, with the following conditions:

- As more fully set out in the Zoning Advisory Committee comment from the Baltimore County Office of Planning, dated July 15, 2005, the Petitioner's plans for the razing of the Frederick House structure shall be submitted to the Baltimore County Landmarks Preservation Commission for review.

- Prior to the issuance of any building permit, the Petitioner shall submit to the Office of Planning for review the following: A letter dated April 19, 1996 from Arnold Jablon, Director of PDM, to the attorney for the petitioners, indicates that the case remained a) elevation drawings that show the exterior design, colors and materials of the proposed parking structures and office building b) a plan that shows the location and design of any lights to be used on the top deck of the parking structures and all other outside

lights to be used on the subject property; and, c) a plan showing the proposed landscape screening along Maiden Choice Lane.

People's Counsel submitted a Motion for Reconsideration on September 1, 2005, which called into question the order in which approvals were requested from the Zoning Commissioner and the LPC, due to the fact that historic structures will be impacted by the requested relief. The Petitioner sought zoning relief first, and People's Counsel felt that approval of the LPC should have been received first. It is also questioned why the petitioner was not required to file a Petition for Special Hearing to request a waiver of the requirements relating to preservation of historic structures. Clarification of Condition 3 of the Order was also requested. Condition 3 stated that elevations, drawings and other plans were required to be submitted to the Office of Planning. People's Counsel wanted clarification that the approval of the plans and elevations submitted to Planning was not a requirement and just a courtesy. Larry Schmidt, in response, sent a letter to the Zoning Commissioner explaining the issue raised by People's Counsel, and requested that People's Counsel withdraw the Motion for Reconsideration, which did not happen.

An Order on the Motion for Reconsideration was issued by the Zoning Commissioner on October 3, 2005. In the Order, it is clarified and amended to state that the Petitioner must receive approval of plans and elevations submitted to the Office of Planning, as well as file a Petition for Special Hearing seeking approval of a waiver to construct an addition to the carriage house and demolition of

1BO1.B, permitting relief from Section 1BO1.1(b)(3a) for a building length of 240 ft. in lieu of the maximum permitted 150 ft. and 75 ft., People's Counsel then appealed the Order on the Motion for Reconsideration on October 17, 2005.

The Board of Appeals Issued an Opinion on April 6, 2007, which addressed two separate appeals filed by the Office of People's A Memo to the Case file from Bill Wiseman, Zoning Commissioner, dated September 26, 2005, states that the record of the case was Counsel. The first appeal dealt with the approval by the DRC (No. 08150B) of a refinement to the CRG Plan for Charlestown Retirement Community. The second appeal relates to the current zoning case. The Board found that the proposed refinement to construct the Data Center Bullding in a forest easement area. Counsel for the Petitioners also submitted a letter requesting additional the CRG Plan did not qualify as a refinement and denied the request thereby reversing the decision of the Director of Permits and Development Management. The Board also denied the requested variances.

That letter confirmed that the addition of a gazebo and portion of a private drive is within the spirit and intent of Zoning Case Nos. 91-351-SPHXA and 98-71-SPHXA

A Spirit and Intent letter, dated October 25, 2010, was approved by W. Carl Richards, Zoning Supervisor. That letter confirmed the Improvements less than 20,000 sq ft were within the spirit and intent of Zoning Case 91-351-SPHXA and 98-71-SPHXA. This additional square footage would not result in additional residential density nor density units

December 14,1983 - CRG Plan approved for Charlestown - Phase II

May 24,1984 - CRG Plan approved for Phases 1A, II, III and IV

June 17, 1987 - CRG Plan approved for Charlestown II - Phase 3

April 28, 1989 - 1st Refined CRG Plan approved for Charlestown II - Phase 3

October 17, 1991 - CRG Plan approved for Cross Creek at Charlestown - Appeals were filed to the approval by Julius Lichter and

February 24,1993 - 1st Amended CRG approved for Cross Creek at Charlestown.

June 2,1993 - 2nd Amended CRG approved for Cross Creek at Charlestown (DRC No. 5033E).

October 19, 1995 - DRC 10105D - request was to create a parcel of approximately 2 acres around the existing office building, separate from the residential portion.

November 4,1996 - DRC 11046A - request was to separate on-site administrative uses contained in the carriage house offices from residential uses on rest of campus by way of amending the CRG and a record plat.

July 24, 2003 - 2nd Refined CRG approved for Charlestown II - Phase 3 (DRC No. 070703A).

September 28, 2005 - DRC Approval Letter 08150B - requested refinement for addition of accessory use, data center and the expansion of Lot 2.

January, 2007 - DRC 012907A - requested refinement to Illustrate smaller expansion of the current office complex on Lot 2. September 15, 2008 - DRC 090208D Approval Letter - Requested 3rd Amended CRG Plan - established the forest buffer easement per approved variance request, illustrated the proposed improvements associated with the covered pavillon and access road, and updated the open space requirements.

November 15, 2010 - DRC 102610A - Refinement granted to consolidate CRG plans and illustrate increase size in elevators, an 8,396 sq ft addition to building #3 and a 10,461 sq ft expansion of Charlestown Square.

LICENSE NO. 36725 , EXPIRATION DATE: 02/26/2013 A Spirit and Intent letter, dated November 19, 2008, was signed by W. Carl Richards, Zoning Supervisor on December 5, 2008.

Development History

July 29,1992 - CRG Plan approved for Charlestown - Phase 1

The Little Sisters of the Poor. This went to the Board of Appeals and was heard in conjunction with the appeal to Zoning Case No.

October 4,1993 - DRC 10043K - requested refinement to 2nd Amended CRG for Cross Creek at Charlestown to build a three-story office building at the main entrance and Maiden Choice Lane.
