* * * * *

OPINION AND ORDER

This matter comes before the Office of Administrative Hearings (OAH) for Baltimore County as a Petition for Variance on behalf of Vasyl Mytsak, the legal owner of the subject properties ("Petitioner"). The Petitioner is requesting Variance relief from the Baltimore County Zoning Regulations (B.C.Z.R.) § 1B02.3.C.1. to permit the development of a lot with a 50 ft. width in lieu of the required 55 ft. width. As reflected in the caption above, this is a consolidated hearing involving properties at 9624 & 9626 Harford Road. The relief sought is the same in each case. The subject property and requested relief is more fully depicted on the site plan that was marked as Petitioner's Exhibit 1.

Owner Vasyl Mytsak appeared in support of the petition. Ruth Baisden attended the hearing to obtain additional information regarding the request. The Petition was advertised and posted as required by the B.C.Z.R. The file contains letters of opposition from Lissette C. Klaus and Meg O'Hare of the Carney Improvement Association. Substantive Zoning Advisory Committee (ZAC) comments were received from the Bureau of Development Plans Review (DPR) and Department of Public Works (DPW). Conditions will be included in the Order to address these agency comments.

The subject properties are approximately 9,440.33 and 9,398.57 square feet and are zoned

ORDER RECEIVED FOR FILING

Date 10-9-15

By Sen

DR 5.5. The properties are shown as Lots 9 & 10 on the 1912 Plat of Carneyland. Petitioner has since 2008 owned the subject lots along with several other adjoining lots in the subdivision. He has attempted since that time to develop the property, first with a major subdivision and then a three lot minor subdivision. Both of these proposals met with community opposition, and the current request would involve the construction of only two single family dwellings. In addition, and as an inducement for the community's support, Petitioner has offered to deed to Neighbor Space (assuming the zoning request is granted) the remaining lots he owns in the subdivision, which could remain as forested open space.

A variance request involves a two-step process, summarized as follows:

- (1) It must be shown the property is unique in a manner which makes it unlike surrounding properties, and that uniqueness or peculiarity necessitates variance relief; and
- (2) If variance relief is denied, Petitioner will experience a practical difficulty or hardship.

Cromwell v. Ward, 102 Md. App. 691 (1995).

Petitioner has not met this test. There was no testimony or evidence presented to establish that these lots are unique in any way, and their size and shape are very similar to the other lots in this subdivision owned by Petitioner.

Even so, and as discussed at the hearing, I believe Petitioner is entitled to relief under B.C.Z.R. §304, which permits (under certain circumstances) construction of a dwelling on a lot that does not satisfy the width requirement of the zone. Based on a review of the evidence, I find Petitioner satisfies each of the requirements set forth in that regulation. The lots meet the minimum lot size for the DR 5.5 zone and (other than lot width) Petitioner will comply with all height and area requirements.

THEREFORE, IT IS ORDERED, this 9th day of October, 2015, by the Administrative Law Judge for Baltimore County, that the Petition for Variance seeking relief from the Baltimore

County Zoning Regulations ("B.C.Z.R.") §1B02.3.C.1. to permit the development of a lot with a 50 ft. width in lieu of the required 55 ft. width, be and is hereby DENIED.

IT IS FURTHER ORDERED that Petitioner satisfies the requirements set forth in B.C.Z.R. §304 and is entitled to construct a single family dwelling on each of the subject lots; i.e., Lots 9 & 10 as shown on the Plat of Carneyland.

The relief granted herein shall be subject to the following:

1. Petitioner may apply for necessary permits and/or licenses upon receipt of this Order. However, Petitioner is hereby made aware that proceeding at this time is at his own risk until 30 days from the date hereof, during which time an appeal can be filed by any party. If for whatever reason this Order is reversed, Petitioner would be required to return the subject property to its original condition.
2. Petitioner must comply with the ZAC comments of DPR and DPW, which are attached hereto.
3. Prior to issuance of building permits Petitioner must submit for approval by the DOP architectural elevation drawings of the proposed single family dwellings.
4. Prior to issuance of building permits Petitioner must convey or make irrevocable offers of dedication (for no cost) of Lots 19-31 as shown on the Plat of Carneyland to NeighborSpace of Baltimore County, Inc. or Baltimore County. Should either NeighborSpace or Baltimore County be unwilling or unable to accept the dedicated property, Petitioner shall take such other steps as are necessary to relinquish any development rights he might otherwise have in regard to Lots 19-31 as shown on the Plat of Carneyland.

Any appeal of this decision must be made within thirty (30) days of the date of this Order.

To the Baltimore County Administrative Law Judge for Case Numbers 2016-0035-A and 2016-0036 A:

As President of the Carney Improvement Association, I am writing to ask that you deny the requested variances for the properties, also known as Carneyland, located at 9624 Harford Road and 9626 Harford Road.

Attached is a letter on the Carney Improvement Association letterhead detailing the reasons for our request to deny the variances request by Legal Owner, Vasyl Mytsak.

October 2, 2015

Administrative Law Judge
Jefferson Building, Suite 103
Towson, Maryland 21204

To the Administrative Law Judge for
Case Numbers 2016-0035-A and 2016-0036 A:

The community of Carney is an older community that predated zoning regulations and the protections they offer residents. Therefore, it is extremely important to our community that variances are not provided to developers in Carney. These are the only protection that our residents have to protect the quality of life and preserve the environment.

In my role as President of the Carney Improvement Association (CIA), I am writing in opposition to granting the variances requested in Case Numbers 2016-0035-A and 2016-0036 A by the Legal Owner, Vasyl Mytsak.

The properties in question at 9624 Harford Road and 9626 Harford Road are located known in the community as Carneyland. The community objects strongly to the development of these properties for many reasons.

Carneyland is located very close to the northern boundary of the Joppa Road and Harford Road intersection. This intersection is and has been failing for many years with a D grade from Baltimore County and an F grade from the State of Maryland. No additional development should occur near this intersection until there are significant improvements to the intersection.

In my opinion, the most important reason to deny the variances is that the Carneyland property is located at the headwaters of the Jennifer Branch stream in Carney. Jennifer Branch is an endangered stream that has been negatively impacted by overdevelopment. Currently, there are initiatives that seek to correct the Jennifer Run problems including: Baltimore County's capital improvement project, Jennifer Branch Stream Restoration Project; the Gunpowder Valley Conservancy grant projects that have involved residents in clearing debris from the Jennifer Branch, planting trees, and

implementing best management practices at the stream bank of the Jennifer Branch; and the creation of the Jennifer Branch Conservation Association of the Gunpowder Valley Conservancy.

The Carney community is very invested in protecting the Jennifer Branch, a tributary whose waters find their way to the Chesapeake Bay. Any waivers and/or variances to develop the Carneyland property would impact the existing forest buffer area, disturb the wetlands located thereon, or that would allow construction within the stream buffer area would undermine these environmental preservation efforts.

Mr. Mytsak has proposed development of this property as several townhomes and later as single family homes. There has been repeated opposition from the Carney community as well as numerous comments by several County agencies. Mr. Mytsak, the property owner, has been attempting to circumvent the major subdivision process by requesting a minor subdivision to build houses and thereby reducing the County planning requirements and completely eliminating the requirement for Carney community input.

The Carney community is opposed to any development on the Carneyland property. We ask that you deny the requested variances. We also request that the Department of Planning and Zoning deny any requests for any exceptions requested for the Carneyland property by Mr. Mytsak.

Sincerely,

A handwritten signature in cursive script that reads "Meg O'Hare".

Mrs. Mary Margaret (Meg) O'Hare
Carney Improvement Association President

Subject: Zoning Case No. 2016-0035-A and Zoning Case No. 2016-0036-A
Attachments: Vasyl Mytsak Complaint.pdf

Importance: High

October 2, 2015

This email is in connection with Zoning Case No. 2016-0035-A and Zoning Case No. 2016-0036-A which involve requests for zoning variances.

The property owner, Vasyl Mytsak has been trying to develop the Carneyland property and for several years he has requested variances from the Department of Environmental Protection and Sustainability ("EPS"). When he was not successful in obtaining his requested variances, he proceeded to file suit against EPS and Baltimore County. A copy of the complaint is attached.

Now it appears that Mr. Mytsak is requesting 2 zoning variances for a project that is not welcomed by the neighboring community nor has this project received support from the County Council for District 3 and District 5.

As adjoining property owners to the Carneyland property, we vehemently oppose the proposed Carneyland development. There are tremendous environmental constraints (e.g., the Jennifer Branch, a stream that runs from Carney to the Gunpowder traverses the Carneyland property). The location of the Carneyland property cannot withstand any further development and additional traffic (given that it is very close to the currently failing intersection of Harford Road and Joppa Road). Further, there is no community support for this proposed development and given the lack of open space in our community, we believe the property is best left undeveloped. We, along with other neighboring property owners, strongly oppose all requests for environmental and zoning variances and/or waivers since such relief would (a) be detrimental to the surrounding residential community, (b) be inconsistent with efforts to preserve the Jennifer Branch stream, (c) decrease open space in the area, and (d) endanger the natural habitat for the wildlife living in this forested area.

The Carneyland property is located at the headwaters of the Jennifer Branch stream in Carney. For many years the stream has been negatively impacted by the increase of storm water runoff from the increase of development and associated impervious surfaces. As a result, residents living downstream have experienced increased flooding, erosion of stream banks, and a decrease in water quality. Currently there are a number of initiatives that seek to correct this situation such as (i) Baltimore County's capital improvement project: Jennifer Branch Stream Restoration Project, (ii) the Gunpowder Valley Conservancy received grants to involve residents in clearing debris from the Jennifer Branch, planting trees, and implementing best management practices at the stream bank of the Jennifer Branch, so to reduce storm water runoff and improve water quality, and (iii) the creation of the Jennifer Branch Conservation Association of the Gunpowder Valley Conservancy which members and the community team together to clean trash and debris from the Jennifer Branch stream, plant trees in the watershed, and monitor the Jennifer Branch stream and surrounding areas. Any waivers and/or variances to develop the Carneyland property would impact the existing forest buffer area, disturb the wetlands located thereon, or that would allow construction within the stream buffer area would undermine these environmental preservation efforts.

Additionally, several members of the Jennifer Branch Conservation Association of the Gunpowder Valley Conservancy cleaned tremendous amounts of trash, tires, furniture, and what appeared to be a homeless shelter from

the headwaters of the Jennifer Branch that traverses the proposed Carneyland property. This was an amazing task undertaken by the members of the Jennifer Branch Conservation Association of the Gunpowder Valley Conservancy to keep the Jennifer Branch clear of debris and further protect the Jennifer Branch waters, stream bank, wetlands and surrounding area. A portion of the Jennifer Branch traverses our backyard and we continue the effort to keep this stream clear of debris and trash.

It is the desire of the surrounding community that the Carneyland property be preserved in its natural forested condition. Currently there is a large deficiency of open space and neighborhood parkland in the area; the Parkville, Carney, and Cub Hill area is deficit of 460 acres, according to State Standards and as shown in a recent survey by the Baltimore County Office of Planning. In order to increase the open space in the area, the Carney, Cub Hill, Parkville Community Plan included a directive that the County acquire this Carneyland property as parkland. NeighborSpace did contact the Carneyland property owner to acquire the Carneyland property in order to keep it a natural forested open space property; however, the property owner did not accept NeighborSpace's offer to acquire the property.

As it is mostly forested and is traversed by the Jennifer Branch stream, the Carneyland property is a serene and natural habitat for several species of wildlife. At a Community Input Meeting regarding the proposed Carneyland development, several residents requested that EPS investigate whether endangered or potentially endangered species of wildlife were living in the Carneyland property.

Mr. Mytsak has attempted to develop this property first into several townhomes and later into single family homes. Repeated opposition from the surrounding community as well as numerous comments by several County agencies, the property owner has been attempting to circumvent the major subdivision process by requesting a minor subdivision to build houses and thereby reducing the County planning requirements and completely eliminating the requirement for community input. For all of the reasons outlined above, we vehemently oppose any development on the Carneyland property and therefore we strongly oppose any zoning variances and/or waivers for the Carneyland property. We request that the Planning and Zoning deny any requests for zoning waivers and/or variances requested for the Carneyland property. Further, we urge Planning and Zoning to deny these 2 requests for zoning variances related to the proposed Carneyland development.

Thank you in advance for your assistance in this matter.

Deputy Administrative Officer and
Director, Department of Permits, Approvals and Inspections

ATTN: Kristen Matthews
MS 1105

FROM: Edward C. Adams, Director
Department of Public Works 

DATE: August 28, 2015

SUBJECT: Case No: 2016-0035-A
9624 Harford Road, Parkville, Maryland 21234-2104

The subject case is to determine whether or not the Administrative Law Judge should approve a variance to permit the development of an undersized lot with a 50 foot width in lieu of the required 55 feet width.

During the review of this property the Department of Public Works has found that there is a flood plain on the property that may impact the proposed development.

A flood plain study of the property must be submitted for verification of the flood plain boundary. Once the flood plain boundary has been established, the Department of Public Works Design Manual Plate DF-1 must be adhered to.

Bureau of Development Plans Review

SUBJECT: Zoning Advisory Committee Meeting
For August 24, 2015
Item No. 2016-0036

DATE: August 20, 2015

The Bureau of Development Plans Review has reviewed the subject zoning item and we have the following comments.

We have no objection to granting the requested waiver; however, at minimum, the following comments must be addressed before any grading or building permits will be approved.

1. The flood plain study on record used a bridge crossing which is no-longer being proposed, so the study must be revised.
2. After the flood plain study revision, the house must be moved so that it is 20 feet away from the flood plain line. The proposed first floor elevation will be checked for compliance.
3. The water service may not be installed as shown.
4. Filling in the flood plain will not be allowed without a special hearing.

RE: Case Number: 2016-0036 A, Address: 9626 Harford Road

Dear Mr. Mytsak:

The above referenced petition was accepted for processing **ONLY** by the Bureau of Zoning Review, Department of Permits, Approvals, and Inspection (PAI) on August 9, 2015. This letter is not an approval, but only a **NOTIFICATION**.

The Zoning Advisory Committee (ZAC), which consists of representatives from several approval agencies, has reviewed the plans that were submitted with your petition. All comments submitted thus far from the members of the ZAC are attached. These comments are not intended to indicate the appropriateness of the zoning action requested, but to ensure that all parties (zoning commissioner, attorney, petitioner, etc.) are made aware of plans or problems with regard to the proposed improvements that may have a bearing on this case. All comments will be placed in the permanent case file.

If you need further information or have any questions, please do not hesitate to contact the commenting agency.

Very truly yours,

RE: Baltimore County
Item No. 2016-0036-A
Variance
Vasyl Mytsak
9626 Harford Road
MD 147

Dear Ms. Lewis:

We have reviewed the site plan to accompany petition for variance on the subject of the above captioned, which was received on 8/17/15. A field inspection and internal review reveals that an entrance onto MD147 consistent with current State Highway Administration guidelines is required. As a condition of approval for Variance, Case Number 2016-0036-A the applicant must contact the State Highway Administration to obtain an entrance permit.

Should you have any questions regarding this matter feel free to contact Richard Zeller at 410-229-2332 or 1-866-998-0367 (in Maryland only) extension 2332, or by email at (rzeller@sha.state.md.us).

Sincerely,

David W. Peake

OFFICE OF ADMINISTRATIVE HEARINGS

Zoning: DR 5.5

Requested Action: Variance

SUMMARY OF RECOMMENDATIONS:

The Department of Planning has reviewed the Petition for Variance to permit the development of a lot having a width of 50' in lieu of the required 55' width.

The Department has no objection to the granting of the petitioned zoning relief. Be advised the Petitioner proposes to withdraw the application for review of the minor development plan, PAI 12-02-M in the event the Administrative Law Judge grants the requested variance.

For further information concerning the matters stated herein, please contact Laurie Hay at 410-887-3480.

Bureau of Development Plans Review

SUBJECT: Zoning Advisory Committee Meeting
For August 24, 2015
Item No. 2016-0036

DATE: August 20, 2015

The Bureau of Development Plans Review has reviewed the subject zoning item and we have the following comments.

We have no objection to granting the requested waiver; however, at minimum, the following comments must be addressed before any grading or building permits will be approved.

1. The flood plain study on record used a bridge crossing which is no-longer being proposed, so the study must be revised.
2. After the flood plain study revision, the house must be moved so that it is 20 feet away from the flood plain line. The proposed first floor elevation will be checked for compliance.
3. The water service may not be installed as shown.
4. Filling in the flood plain will not be allowed without a special hearing.

DATE: August 28, 2015

SUBJECT: Case No: 2016-0036-A
9626 Harford Road, Parkville, Maryland 21234-2104

The subject case is to determine whether or not the Administrative Law Judge should approve a variance to permit the development of an undersized lot with a 50 foot width in lieu of the required 55 feet width.

During the review of this property the Department of Public Works has found that there is a flood plain on the property that may impact the proposed development.

A flood plain study of the property must be submitted for verification of the flood plain boundary. Once the flood plain boundary has been established, the Department of Public Works Design Manual Plate DF-1 must be adhered to.

Subject: Zoning Case No. 2016-0035-A and Zoning Case No. 2016-0036-A
Attachments: Vasy Mytsak Complaint.pdf
Importance: High

October 2, 2015

This email is in connection with Zoning Case No. 2016-0035-A and Zoning Case No. 2016-0036-A which involve requests for zoning variances.

The property owner, Vasy Mytsak has been trying to develop the Carneyland property and for several years he has requested variances from the Department of Environmental Protection and Sustainability ("EPS"). When he was not successful in obtaining his requested variances, he proceeded to file suit against EPS and Baltimore County. A copy of the complaint is attached.

Now it appears that Mr. Mytsak is requesting 2 zoning variances for a project that is not welcomed by the neighboring community nor has this project received support from the County Council for District 3 and District 5.

As adjoining property owners to the Carneyland property, we vehemently oppose the proposed Carneyland development. There are tremendous environmental constraints (e.g., the Jennifer Branch, a stream that runs from Carney to the Gunpowder traverses the Carneyland property). The location of the Carneyland property cannot withstand any further development and additional traffic (given that it is very close to the currently failing intersection of Harford Road and Joppa Road). Further, there is no community support for this proposed development and given the lack of open space in our community, we believe the property is best left undeveloped. We, along with other neighboring property owners, strongly oppose all requests for environmental and zoning variances and/or waivers since such relief would (a) be detrimental to the surrounding residential community, (b) be inconsistent with efforts to preserve the Jennifer Branch stream, (c) decrease open space in the area, and (d) endanger the natural habitat for the wildlife living in this forested area.

The Carneyland property is located at the headwaters of the Jennifer Branch stream in Carney. For many years the stream has been negatively impacted by the increase of storm water runoff from the increase of development and associated impervious surfaces. As a result, residents living downstream have experienced increased flooding, erosion of stream banks, and a decrease in water quality. Currently there are a number of initiatives that seek to correct this situation such as (i) Baltimore County's capital improvement project: Jennifer Branch Stream Restoration Project, (ii) the Gunpowder Valley Conservancy received grants to involve residents in clearing debris from the Jennifer Branch, planting trees, and implementing best management practices at the stream bank of the Jennifer Branch, so to reduce storm water runoff and improve water quality, and (iii) the creation of the Jennifer Branch Conservation Association of the Gunpowder Valley Conservancy which members and the community team together to clean trash and debris from the Jennifer Branch stream, plant trees in the watershed, and monitor the Jennifer Branch stream and surrounding areas. Any waivers and/or variances to develop the Carneyland property would impact the existing forest buffer area, disturb the wetlands located thereon, or that would allow construction within the stream buffer area would undermine these environmental preservation efforts.

Additionally, several members of the Jennifer Branch Conservation Association of the Gunpowder Valley Conservancy cleaned tremendous amounts of trash, tires, furniture, and what appeared to be a homeless shelter from the headwaters of the Jennifer Branch that traverses the proposed Carneyland property. This was an amazing task undertaken by the members of the Jennifer Branch Conservation Association of the Gunpowder Valley Conservancy to keep the Jennifer Branch clear of debris and further protect the Jennifer Branch waters, stream bank, wetlands and surrounding area. A portion of the Jennifer Branch traverses our backyard and we continue the effort to keep this stream clear of debris and trash.

It is the desire of the surrounding community that the Carneyland property be preserved in its natural forested condition. Currently there is a large deficiency of open space and neighborhood parkland in the area; the Parkville, Carney, and Cub Hill area is deficit of 460 acres, according to State Standards and as shown in a recent survey by the Baltimore County Office of Planning. In order to increase the open space in the area, the Carney, Cub Hill, Parkville Community Plan included a directive that the County acquire this Carneyland property as parkland. NeighborSpace did contact the Carneyland property owner to acquire the Carneyland property in order to keep it a natural forested open space property; however, the property owner did not accept NeighborSpace's offer to acquire the property.

As it is mostly forested and is traversed by the Jennifer Branch stream, the Carneyland property is a serene and natural habitat for several species of wildlife. At a Community Input Meeting regarding the proposed Carneyland development, several residents requested that EPS investigate whether endangered or potentially endangered species of wildlife were living in the Carneyland property.

Mr. Mytsak has attempted to develop this property first into several townhomes and later into single family homes. Repeated opposition from the surrounding community as well as numerous comments by several County agencies, the property owner has been attempting to circumvent the major subdivision process by requesting a minor subdivision to build houses and thereby reducing the County planning requirements and completely eliminating the requirement for community input. For all of the reasons outlined above, we vehemently oppose any development on the Carneyland property and therefore we strongly oppose any zoning variances and/or waivers for the Carneyland property. We request that the Planning and Zoning deny any requests for zoning waivers and/or variances requested for the Carneyland property. Further, we urge Planning and Zoning to deny these 2 requests for zoning variances related to the proposed Carneyland development.

Thank you in advance for your assistance in this matter.

GALLAGHER EVELIUS & JONES LLP
ATTORNEYS AT LAW

PETITION FOR ZONING HEARING(S)

F1001

To be filed with the Department of Permits, Approvals and Inspections
To the Office of Administrative Law of Baltimore County for the property located at:
Address 9626 Harford Road, Parkville, MD 21234-2104 which is presently zoned DR 5.5
Deed References: Liber: 26295, Folio: 118 10 Digit Tax Account # 0918351621
Property Owner(s) Printed Name(s) Vasyl Mytsak

(SELECT THE HEARING(S) BY MARKING ☒ AT THE APPROPRIATE SELECTION AND PRINT OR TYPE THE PETITION REQUEST)

The undersigned legal owner(s) of the property situate in Baltimore County and which is described in the description and plan attached hereto and made a part hereof, hereby petition for:

1. ☐ a Special Hearing under Section 500.7 of the Zoning Regulations of Baltimore County, to determine whether or not

2. ☐ a Special Exception under the Zoning Regulations of Baltimore County to use the herein described property for

3. ☒ a Variance from Section: 1B02.3.C1

To permit the development of an undersized lot with a 50ft width in lieu of the required 55ft width.

of the zoning regulations of Baltimore County, to the zoning law of Baltimore County, for the following reasons:
(Indicate below your hardship or practical difficulty or indicate below "TO BE PRESENTED AT HEARING". If you need additional space, you may add an attachment to this petition)

Zoning Variance is requested to permit a development of the existing lot that is 50' wide instead of required 55'.

If approved, the proposed Minor Subdivision Plan/Application that is currently under review (12-025-M) will be withdrawn.

Property is to be posted and advertised as prescribed by the zoning regulations.

I, or we, agree to pay expenses of above petition(s), advertising, posting, etc. and further agree to and are to be bounded by the zoning regulations and restrictions of Baltimore County adopted pursuant to the zoning law for Baltimore County.

Legal Owner(s) Affirmation: I / we do so solemnly declare and affirm, under the penalties of perjury, that I / We are the legal owner(s) of the property which is the subject of this / these Petition(s).

Re: Carneyland Property
Forest Buffer Variance
Tracking #05-12-1541

Dear Mr. Mytsak:

The Department of Environmental Protection and Sustainability (EPS) has completed a review of your request for a variance and alternatives analysis from Article 33, Title 3, Protection of Water Quality, Streams, Wetlands and Floodplains. The request and proposes to impact a total of approximately 19,300 square feet of forested Forest Buffer, including at least 4,230 square feet of forested non-tidal wetland, for the development of three lot residential lots on 3.56 acres. These impacts include approximately 6,940 square feet of disturbance for dwellings and yards; and approximately 12,360 square feet of disturbance for construction of utilities and storm water management facilities as well as vehicular access across Jennifer Branch. The resultant buffer to the stream and wetlands would be as narrow as 30 feet, and the required 35-foot setback from the Forest Buffer Easement to the dwellings would be reduced to as little as 10 feet.

Section 33-3-112 requires that roads, bridges, trails, storm water management facilities and utilities be permitted in the Forest Buffer only when no physically feasible alternative exists. Additionally, these structures must be located, designed, constructed, and maintained to provide maximum erosion protection, have the least impact on wildlife, aquatic life and their habitats, and maintain hydrologic processes and water quality. The proposed access from Harford Road to the lots would entail a bottomless arch stream crossing which reduces direct impact to the stream and helps maintain hydrologic processes of Jennifer Branch. However, construction of this road would still permanently impact approximately 11,000 square feet of forested buffer, 4,230 square feet of forested non-tidal wetland, and temporarily impact 40 linear feet of stream. The proposed sewer connection for Lot 1 is 18 feet from the stream, and no alternative locations were evaluated for that connection to further minimize water quality impacts.

Proposed mitigation for the Forest Buffer impacts includes planting six small areas onsite totaling 4,157 square feet, fencing the resultant Forest Buffer Easement, and purchasing 27,106 square feet of mitigation are proposed offsite at an EPS-approved mitigation bank. For the most part, these six fragmented mitigation areas are narrow strips

To the Baltimore County Administrative Law Judge for Case Numbers 2016-0035-A and 2016-0036 A:

As President of the Carney Improvement Association, I am writing to ask that you deny the requested variances for the properties, also known as Carneyland, located at 9624 Harford Road and 9626 Harford Road.

Attached is a letter on the Carney Improvement Association letterhead detailing the reasons for our request to deny the variances request by Legal Owner, Vasyl Mytsak.

Meg O'Hare

October 2, 2015

Administrative Law Judge
Jefferson Building, Suite 103
Towson, Maryland 21204

To the Administrative Law Judge for
Case Numbers 2016-0035-A and 2016-0036 A:

The community of Carney is an older community that predated zoning regulations and the protections they offer residents. Therefore, it is extremely important to our community that variances are not provided to developers in Carney. These are the only protection that our residents have to protect the quality of life and preserve the environment.

In my role as President of the Carney Improvement Association (CIA), I am writing in opposition to granting the variances requested in Case Numbers 2016-0035-A and 2016-0036 A by the Legal Owner, Vasyl Mytsak.

The properties in question at 9624 Harford Road and 9626 Harford Road are located known in the community as Carneyland. The community objects strongly to the development of these properties for many reasons.

Carneyland is located very close to the northern boundary of the Joppa Road and Harford Road intersection. This intersection is and has been failing for many years with a D grade from Baltimore County and an F grade from the State of Maryland. No additional development should occur near this intersection until there are significant improvements to the intersection.

In my opinion, the most important reason to deny the variances is that the Carneyland property is located at the headwaters of the Jennifer Branch stream in Carney. Jennifer Branch is an endangered stream that has been negatively impacted by overdevelopment. Currently, there are initiatives that seek to correct the Jennifer Run problems including: Baltimore County's capital improvement project, Jennifer Branch Stream Restoration Project; the Gunpowder Valley Conservancy grant projects that have involved residents in clearing debris from the Jennifer Branch, planting trees, and

implementing best management practices at the stream bank of the Jennifer Branch; and the creation of the Jennifer Branch Conservation Association of the Gunpowder Valley Conservancy.

The Carney community is very invested in protecting the Jennifer Branch, a tributary whose waters find their way to the Chesapeake Bay. Any waivers and/or variances to develop the Carneyland property would impact the existing forest buffer area, disturb the wetlands located thereon, or that would allow construction within the stream buffer area would undermine these environmental preservation efforts.

Mr. Mytsak has proposed development of this property as several townhomes and later as single family homes. There has been repeated opposition from the Carney community as well as numerous comments by several County agencies. Mr. Mytsak, the property owner, has been attempting to circumvent the major subdivision process by requesting a minor subdivision to build houses and thereby reducing the County planning requirements and completely eliminating the requirement for Carney community input.

The Carney community is opposed to any development on the Carneyland property. We ask that you deny the requested variances. We also request that the Department of Planning and Zoning deny any requests for any exceptions requested for the Carneyland property by Mr. Mytsak.

Sincerely,

A handwritten signature in cursive script that reads "Meg O'Hare".

Mrs. Mary Margaret (Meg) O'Hare
Carney Improvement Association President

Subject: Zoning Case No. 2016-0035-A and Zoning Case No. 2016-0036-A
Attachments: Vasyl Mytsak Complaint.pdf
Importance: High

October 2, 2015

This email is in connection with Zoning Case No. 2016-0035-A and Zoning Case No. 2016-0036-A which involve requests for zoning variances.

The property owner, Vasyl Mytsak has been trying to develop the Carneyland property and for several years he has requested variances from the Department of Environmental Protection and Sustainability ("EPS"). When he was not successful in obtaining his requested variances, he proceeded to file suit against EPS and Baltimore County. A copy of the complaint is attached.

Now it appears that Mr. Mytsak is requesting 2 zoning variances for a project that is not welcomed by the neighboring community nor has this project received support from the County Council for District 3 and District 5.

As adjoining property owners to the Carneyland property, we vehemently oppose the proposed Carneyland development. There are tremendous environmental constraints (e.g., the Jennifer Branch, a stream that runs from Carney to the Gunpowder traverses the Carneyland property). The location of the Carneyland property cannot withstand any further development and additional traffic (given that it is very close to the currently failing intersection of Harford Road and Joppa Road). Further, there is no community support for this proposed development and given the lack of open space in our community, we believe the property is best left undeveloped. We, along with other neighboring property owners, strongly oppose all requests for environmental and zoning variances and/or waivers since such relief would (a) be detrimental to the surrounding residential community, (b) be inconsistent with efforts to preserve the Jennifer Branch stream, (c) decrease open space in the area, and (d) endanger the natural habitat for the wildlife living in this forested area.

The Carneyland property is located at the headwaters of the Jennifer Branch stream in Carney. For many years the stream has been negatively impacted by the increase of storm water runoff from the increase of development and associated impervious surfaces. As a result, residents living downstream have experienced increased flooding, erosion of stream banks, and a decrease in water quality. Currently there are a number of initiatives that seek to correct this situation such as (i) Baltimore County's capital improvement project: Jennifer Branch Stream Restoration Project, (ii) the Gunpowder Valley Conservancy received grants to involve residents in clearing debris from the Jennifer Branch, planting trees, and implementing best management practices at the stream bank of the Jennifer Branch, so to reduce storm water runoff and improve water quality, and (iii) the creation of the Jennifer Branch Conservation Association of the Gunpowder Valley Conservancy which members and the community team together to clean trash and debris from the Jennifer Branch stream, plant trees in the watershed, and monitor the Jennifer Branch stream and surrounding areas. Any waivers and/or variances to develop the Carneyland property would impact the existing forest buffer area, disturb the wetlands located thereon, or that would allow construction within the stream buffer area would undermine these environmental preservation efforts.

Additionally, several members of the Jennifer Branch Conservation Association of the Gunpowder Valley Conservancy cleaned tremendous amounts of trash, tires, furniture, and what appeared to be a homeless shelter from

the headwaters of the Jennifer Branch that traverses the proposed Carneyland property. This was an amazing task undertaken by the members of the Jennifer Branch Conservation Association of the Gunpowder Valley Conservancy to keep the Jennifer Branch clear of debris and further protect the Jennifer Branch waters, stream bank, wetlands and surrounding area. A portion of the Jennifer Branch traverses our backyard and we continue the effort to keep this stream clear of debris and trash.

It is the desire of the surrounding community that the Carneyland property be preserved in its natural forested condition. Currently there is a large deficiency of open space and neighborhood parkland in the area; the Parkville, Carney, and Cub Hill area is deficit of 460 acres, according to State Standards and as shown in a recent survey by the Baltimore County Office of Planning. In order to increase the open space in the area, the Carney, Cub Hill, Parkville Community Plan included a directive that the County acquire this Carneyland property as parkland. NeighborSpace did contact the Carneyland property owner to acquire the Carneyland property in order to keep it a natural forested open space property; however, the property owner did not accept NeighborSpace's offer to acquire the property.

As it is mostly forested and is traversed by the Jennifer Branch stream, the Carneyland property is a serene and natural habitat for several species of wildlife. At a Community Input Meeting regarding the proposed Carneyland development, several residents requested that EPS investigate whether endangered or potentially endangered species of wildlife were living in the Carneyland property.

Mr. Mytsak has attempted to develop this property first into several townhomes and later into single family homes. Repeated opposition from the surrounding community as well as numerous comments by several County agencies, the property owner has been attempting to circumvent the major subdivision process by requesting a minor subdivision to build houses and thereby reducing the County planning requirements and completely eliminating the requirement for community input. For all of the reasons outlined above, we vehemently oppose any development on the Carneyland property and therefore we strongly oppose any zoning variances and/or waivers for the Carneyland property. We request that the Planning and Zoning deny any requests for zoning waivers and/or variances requested for the Carneyland property. Further, we urge Planning and Zoning to deny these 2 requests for zoning variances related to the proposed Carneyland development.

Thank you in advance for your assistance in this matter.

BALTIMORE COUNTY, MARYLAND

INTEROFFICE CORRESPONDENCE

TO: Arnold Jablon, Director
Department of Permits, Approvals
And Inspections

FROM: ^{DAK} Dennis A. Kennedy, Supervisor
Bureau of Development Plans Review

SUBJECT: Zoning Advisory Committee Meeting
For August 24, 2015
Item No. 2016-0036

DATE: August 20, 2015

The Bureau of Development Plans Review has reviewed the subject zoning item and we have the following comments.

We have no objection to granting the requested waiver; however, at minimum, the following comments must be addressed before any grading or building permits will be approved.

1. The flood plain study on record used a bridge crossing which is no-longer being proposed, so the study must be revised.
2. After the flood plain study revision, the house must be moved so that it is 20 feet away from the flood plain line. The proposed first floor elevation will be checked for compliance.
3. The water service may not be installed as shown.
4. Filling in the flood plain will not be allowed without a special hearing.
