RECEIVED
MAR 0 6 2023
BALTIMORE COUNTY
BOARD OF APPEALS

MANDATE

On the 17th day of January, 2023, it was ordered and adjudged by the Court of Special Appeals:

Judgment of the Circuit Court for Baltimore County affirmed; costs to be paid by appellants.

STATE OF MARYLAND, Sct.:
I do hereby certify that the foregoing is truly taken from the records and proceedings of the said Appellate Court of Maryland. In testimony whereof, I have hereunto set my hand as Clerk and affixed the seal of the Appellate Court of Maryland, this 17th day of February, 2023.

Case No. C-03-CV-20-003922

UNREPORTED

IN THE APPELLATE COURT

OF MARYLAND*

No. 2025

September Term, 2021

DONNA CARTER, ET AL.

v.

NEPALI AMERICAN CULTURAL CENTER OF BALTIMORE

Kehoe,
Zic,
Wright, Alexander, Jr.,
(Senior Judge, Specially Assigned),
JJ.

Opinion by Wright, J.

Filed: January 17, 2023

*At the November 8, 2022 general election, the voters of Maryland ratified a constitutional amendment changing the name of the Court of Special Appeals of Maryland to the Appellate Court of Maryland. The name change took effect on December 14, 2022.

*This is an unreported opinion, and it may not be cited in any paper, brief, motion, or other document filed in this Court or any other Maryland Court as either precedent within the rule of stare decisis or as persuasive authority. Md. Rule 1-104.

This appeal arises out of a decision by the Circuit Court for Baltimore County affirming a decision of the Baltimore County Board of Appeals that granted a special exception use petition with conditions. The case began when Nepali American Cultural Center ("NACC"), appellee, filed a petition for a special exception pursuant to the Baltimore County Zoning Regulations for the purpose of allowing a church or other building for religious worship on property located at 12331 Harford Road in Baltimore County ("the Property"). Morgan Miner, David Poehler, DeWitt Clark, Patricia Garner, Bruce Morgan, Doug Behr, David Hartman, Joyce Mason, Donna Carter, the Greater Kingsville Civic Association, and the Gunpowder Falls Watershed Preservation Association, opposed the grant of the special exception. All of those individuals and entities, with the exception of DeWitt Clark, are appellants herein.[1]

After a multi-day public hearing on the petition for a special exception, an Administrative Law Judge ("ALJ") in the Baltimore County Office of Administrative Hearings granted the special exception subject to seven conditions. That decision was appealed to the Baltimore County Board of Appeals ("the Board").[2] A hearing was held over the course of 11 days between July 2018 and February 2019. On January 9, 2020, the

[1] DeWitt Clark was included as a party in the petition for judicial review in the circuit court but was not identified as an appellant on the notice of appeal to this Court.

[2] The Board joined the special exception appeal with another case that involved communications with the ALJ wherein the petitioner sought to clarify whether it could hold a fundraiser on the Property. The Board dismissed that case as moot. Appellants do not present any argument here challenging that decision.

Board issued a 62-page Opinion and Order by which it granted the petition for special exception to allow a temple for religious worship on the Property subject to 13 conditions.[3]

[3] The Board granted the petition for special exception subject to the following conditions:

> 1. Petitioner shall confine its hours of operation for non-religious events from 8:00 a.m. to 9:00 p.m.
> 2. The exit from the Property shall be right-turn only. Petitioner shall post and maintain proper signage indicating the exit is right-turn only at all times.
> 3. Prior to the issuance of any permits, Petitioner shall obtain from State Highway Administration (SHA) an access permit authorizing ingress and egress from the Property. Petitioner shall comply with SHA's access permit for the proposed entrance and exit. Petitioner also shall comply with the SHA requirements and recommendations. Petitioner shall also maintain the vegetation around the entrance and exit in strict conformity with required sight and stopping distances.
> 4. Petitioner shall submit all landscaping plans and all lighting plans to Baltimore County for approval.
> 5. Any tree(s) required to be removed for any improvement or construction of an improvement, Petitioner shall replace the removed tree with per-diameter equivalent replacement native species tree and each such replacement tree shall also provide similar or better shade and screening coverage. The replacement trees shall be planted in an area onsite that will increase the buffer density along the Property's border with the Poehler property in order to help screen the Property from the Poehler house and its curtilage.
> 6. Petitioner shall add landscaping to serve as an additional light and sound buffer between Petitioner's property and the Poehler property to increase the buffer density along the Property's border with the Poehler property in order to help screen the Property from the Poehler house and its curtilage. Petitioner shall add additional landscaping particularly at the Harford Road side (western side) of the multipurpose court to serve as an additional light and sound buffer between Petitioner's property and the Clark property and/or others in that area. All landscaping for these purposes is required to be approved by Baltimore County.
> 7. Any and all plantings, whether part of Condition No. 5, No. 6, or otherwise, shall consist of native species only, subject to approval by Baltimore County's landscape architect, with the sole exception for any plantings required for onsite for [sic] religious use.

(continued…)

Appellants filed a timely motion for reconsideration, which the Board denied. Thereafter, appellants filed a timely petition for judicial review in the Circuit Court for Baltimore County. In a written Memorandum Opinion dated January 28, 2022, the circuit court found that there was substantial evidence in the record as a whole to support the agency's findings and conclusions and that the Board did not commit error in granting the petition for special exception use. This timely appeal followed.

ISSUES PRESENTED

Appellants present the following eight issues for our consideration:

> I. Whether the Board erred when it determined that the proposed use will not be detrimental to the health, safety or general welfare of the locality involved;
>
> II. Whether the Board erred when it determined that the proposed use will not tend to create congestion in roads, streets or alleys therein;

8. Prior to the issuance of occupancy permits, Petitioner must demonstrate to DEPS that the well and septic systems will be sufficient to serve the proposed use. Prior to the issuance of permits, Petitioner shall also comply with any and all ZAC comments.
9. The outdoor amplification of sound shall not be permitted.
10. Petitioner shall obtain any and all necessary permits to have the pool and pool house demolished and removed prior to any demolition or removal. Any and all demolition or activity related to the removal of the pool and pool house shall only take place between 8:00 am and dusk.
11. Petitioner shall not organize, host, invite, conduct, or participate in any athletic program, league, or tournament on site. This condition does not preclude Petitioner from using the multipurpose court for athletic games or contests, only athletic programs, leagues, and/or tournaments.
12. Petitioner shall not use the Property as a community center, unless such community center-type activity is in furtherance of the exercise of religion and/or operation of the temple. Cultural activities and/or other activities with a non-religious purpose shall take place offsite.
13. Petitioner otherwise shall comply with the Baltimore County Code and Zoning Regulations at all times.

III. Whether the Board erred when it determined that the proposed use will not create a potential hazard from fire, panic or other danger;

IV. Whether the Board erred when it determined that the proposed use will not tend to overcrowd land and cause undue concentration of population;

V. Whether the Board erred when it determined that the proposed use will not be inconsistent with the purposes of the property's zoning classification nor in any way inconsistent with the spirt [sic] and intent of these Zoning Regulations;

VI. Whether the Board erred when it determined that the proposed use will not be detrimental to the environmental and natural resources of the site and vicinity including forests, streams, wetlands, aquifers and floodplains in R.C.2, R.C.4, R.C.5 or R.C.7 Zone;

VII. Whether the Board erred when it failed to find that appellee did not prove that the proposed use will not be detrimental to the primary agricultural use in its vicinity; and,

VIII. Whether the Board erred when it failed to examine the veracity of the testimony of the appellee with comparison to the evidence provided by appellants.

For the reasons set forth below, we shall affirm.

FACTUAL AND PROCEDURAL BACKGROUND

Kris Ghimire, a founder and member of the Board of Trustees of NACC, testified that NACC's mission was to establish a Hindu temple in Baltimore County. NACC acquired the Property with the intent of using it for that purpose. The Property consists of approximately 30.8 acres in a Resource Conservation-2 zone ("RC-2) located outside Baltimore County's Urban Rural Demarcation Line. It includes a large abandoned dwelling, sometimes referred to in the record as a mansion, and other structures including a caretaker's house, a pool, a pool house, a barn, and a tennis court. NACC planned to renovate the large dwelling building to be a worship space and the caretaker's house to be

used by a priest who would be the only person who might live on the Property. The second floor of the large dwelling building would be used for office space. NACC planned to add a parking lot to provide 38 parking spaces and to retain the existing tennis court to be used as a multi-purpose court for recreational purposes. At the time of the hearing before the Board, the pool was not in usable condition. Mr. Ghimire testified both that NACC would do what was necessary to make the pool safe and that "[t]he pool will not be there." The barn, which was listed as a historical structure, would be preserved. No new buildings were proposed. There were no public water or sewer utilities at the property, but the existing well and septic system would be replaced or upgraded as needed pursuant to Baltimore County's development review and permitting process. NACC sought a special exception pursuant to § 1A01.2C.6 of the Baltimore County Zoning Regulations ("BCZR")[4] to use the Property for the purpose of religious worship.

Mr. Ghimire explained that there was no specified day of the week when individuals would gather to worship at the property. Rather, congregants would utilize the temple to pray on their own schedule. He anticipated that on a typical day, ten to twenty people would worship at the temple, but not all at the same time. The temple would not include permanent pews or seating, but only temporary seating such as folding chairs to be used when needed. Religious celebrations would be held at the Property throughout the year

[4] BCZR § 1A01.2C.6 provided that "[c]hurches or other buildings for religious worship" "may be permitted by special exception in any R.C.2 Zone, provided that in each case the hearing authority empowered to hear the petition finds that the use would not be detrimental to the primary agricultural uses in its vicinity[.]" Certain portions of BCZR § 1A01.2C have been renumbered. The subject provision is currently codified at BCZR § 1A01.2C.7.

including three to four annual festivals. Due to religious prohibitions, neither alcohol nor meat would be permitted on the Property. Mr. Ghimire explained that receptions or celebrations following a religious ceremony would occur off-site. No commercial kitchen, day school, or childcare would be provided on the Property and the temple would not be rented out to third-parties for non-temple activities.

In support of its case, NACC presented testimony from three expert witnesses: John Motsco, a professional engineer with Little and Associates, who prepared a site plan and testified as an expert in Baltimore County zoning regulations; Joseph Caloggero, a traffic engineer and vice president of The Traffic Group, who testified as an expert in traffic issues relating to the project; and, James Powell, a consultant and licensed environmental health specialist who testified as an expert on the feasibility of a septic system to serve the Property.

NACC presented testimony from several lay witnesses in addition to Mr. Ghimire, including: Ida Twining, a resident who lived about a mile and a half south of the Property; Daniel Montague, the pastor at Fork United Methodist and Waugh United Methodist churches, which were each located approximately two miles from the Property; Binod Upreti, a member of NACC; and, Marcia Barton, who lived about eight to ten miles from the Property. All of those witnesses testified in favor of the proposed use of the Property as a temple.

Appellants presented testimony from one expert witness, Christopher Jakubiak, who was accepted as an expert in land planning and zoning. They also called Mr. Ghimire as an adverse witness. In addition, appellants offered testimony from several area residents.

Mary and DeWitt Clark, who lived across the street from the Property, testified in opposition to the proposed special exception. DeWitt Clark also appeared on behalf of another protestant, the Gunpowder Falls Watershed Preservation Association. Joyce Mason, who lived about a mile away from the property, David Poehler, who lived next to the Property, and Bruce Morgan, who lived in Kingsville, testified about the negative impacts of the proposed use of the Property. Because the testimony offered over the 11 days of the hearing in this case was extensive, and as explained, *infra*, our review is limited, we shall not set forth in detail the evidence presented at the hearing before the Board. Instead, we shall discuss specific testimony and other evidence as necessary in addressing the questions presented and determining whether there was substantial evidence to support the Board's findings and conclusions.

STANDARD OF REVIEW

The factors to be considered with respect to a request for a special exception are set forth in BCZR § 502.1.[5] In *Schultz v. Pritts*, 291 Md. 1 (1981), the Court of Appeals[6] established the appropriate standard for approval of a special exception use in the absence of a different legislative standard. The Court explained that a special exception is "a part of [a] comprehensive zoning plan sharing the presumption that, as such, it is in the interest of the general welfare, and therefore, valid." *Id.* at 11. The job of a local zoning board is,

[5] BCZR § 502.1 provides:

> Before any special exception may be granted, it must appear that the use for which the special exception is requested will not:
>
> A. Be detrimental to the health, safety or general welfare of the locality involved;
>
> B. Tend to create congestion in roads, streets or alleys therein;
>
> C. Create a potential hazard from fire, panic or other danger;
>
> D. Tend to overcrowd land and cause undue concentration of population;
>
> E. Interfere with adequate provisions for schools, parks, water, sewerage, transportation or other public requirements, conveniences or improvements;
>
> F. Interfere with adequate light and air;
>
> G. Be inconsistent with the purposes of the property's zoning classification nor in any other way inconsistent with the spirit and intent of these Zoning Regulations;
>
> H. Be inconsistent with the impermeable surface and vegetative retention provisions of these Zoning Regulations; nor
>
> I. Be detrimental to the environmental and natural resources of the site and vicinity including forests, streams, wetlands, aquifers and floodplains in an R.C.2, R.C.4, R.C.5 or R.C.7 Zone, and for consideration of a solar facility use under Article 4F, the inclusion of the R.C.3, R.C.6, and R.C.8 Zones.

[6] On December 14, 2022, the name of the Court of Appeals was changed to the Supreme Court of Maryland.

therefore, "to judge whether the neighboring properties in the general neighborhood would be adversely affected and whether the use in the particular case is in harmony with the general purpose and intent of the plan." *Id.* (emphasis omitted). Acknowledging the presumption that a special exception use is compatible with the general welfare in the zone at issue, the Court held that the appropriate standard for reviewing an application for such an exception is "whether there are facts and circumstances that show that the particular use proposed at the particular location proposed would have any adverse effects above and beyond those inherently associated with such a special exception use irrespective of its location within the zone." *Id.* at 22-23.

When reviewing an agency decision, including a decision to approve a special exception use of land, we look through the circuit court's decision and evaluate the agency's decision. *Clarksville Residents Against Mortuary Def. Fund, Inc. v. Donaldson Props.*, 453 Md. 516, 532 (2017); *Bayly Crossing, LLC v. Consumer Prot. Div.*, 417 Md. 128, 136 (2010); *Brandywine Senior Living at Potomac LLC v. Paul*, 237 Md. App. 195, 210 (2018). Our role "is narrow; it is limited [usually] to determining if there is substantial evidence in the record as a whole to support the agency's findings and conclusions, and to determin[ing] if the administrative decision is premised upon an erroneous conclusion of law." *Montgomery Cnty. v. Butler*, 417 Md. 271, 283 (2010) (quotation marks and citation omitted) (alterations in original); *see also Montgomery v. E. Corr. Inst.*, 377 Md. 615, 625 (2003); *United Parcel Serv., Inc. v. People's Couns. for Baltimore Cnty.*, 336 Md. 569, 577 (1994). Substantial evidence is "such relevant evidence as a reasonable mind might accept as adequate to support a conclusion." *Maryland State Police v. Warwick Supply &*

Equipment Co., Inc., 330 Md. 474, 494 (1993) (quotation marks and citation omitted). The substantial evidence test "requires us to affirm an agency decision, if, after reviewing the evidence in a light most favorable to the agency, we find 'a reasoning mind reasonably could have reached the factual conclusion the agency reached.'" *Montgomery Cnty., v. Rotwein*, 169 Md. App. 716, 727 (2006) (citations omitted). In other words, the relevant inquiry is whether the issue decided by the administrative body is "fairly debatable." *Mills v. Godlove*, 200 Md. App. 213, 223 (2011) (quotation marks and citation omitted). When applying this test, we do "not engage in an independent analysis of the evidence." *Butler*, 417 Md. at 284 (quotation marks and citations omitted). We "proceed from the premise that the agency's decision is *prima facie* correct and presumed valid . . . if reached in accordance with the applicable and valid regulatory scheme." *Id.* We also accord "a degree of deference" to an "administrative agency's interpretation of a statute that the agency administers[.]" *Brandywine Senior Living*, 237 Md. App. at 211 (quotation marks and citation omitted).

DISCUSSION

Appellants maintain that the evidence they presented established that the proposed special exception would "violate a number of conditions set forth in BCZR § 502.1[,]" that NACC's case "was deficient and flawed[,]" and that NACC failed to "demonstrate that the impact of the operation of the proposed temple is no different at the present location than it would be experienced in other parts of the zone." Appellants point to conflicting testimony on the part of NACC's lay witnesses and argue that NACC's "site planner ultimately admitted the plan presented was at best a concept and their traffic expert could

not even accept he was wrong in his knowledge about the speed limit on Harford Road." In addition, appellants take issue with the testimony of NACC's expert witnesses, stating:

> Not one of [NACC's] expert witnesses visited the subject property to observe how it was actually used. Mr. Motsco admitted he knew of large events but refrained from visiting. Yet he asserted he knew enough to testify that his parking plan was sufficient and that the "vegetative buffer" provided adequate sound mitigation. For both Mr. Motsco and Mr. Caloggero, who are Professional Engineers, to not determine how the property was actually used in preparation of their testimony rises to nothing short of "willful ignorance." Both used the defense that they relied on the representations of [NACC] without an effort at independent verification.

It is worth repeating that our role is limited to determining whether there was substantial evidence in the record as a whole to support the agency's findings and conclusions. We do not engage in an independent analysis of the evidence and our job is not to conduct a rehearing or to re-weigh the evidence and determine the credibility of the various witnesses who testified before the Board. *Butler*, 417 Md. at 284 (quoting *Armstrong v. Mayor of Baltimore*, 410 Md. 426, 444 (2009)). With the appropriate standard of review in mind, we turn to the specific issues presented by appellants.

I. BCZR § 502.1A – Detriment to Health, Safety or General Welfare of Locality

Appellants' first argument is that "[t]he Board of Appeals erred in failing to find that [NACC] did not prove 'NO IMPACT' to BCZR § 502.1A: Be detrimental to the health, safety or general welfare of the locality involved." Specifically, appellants challenge the evidence pertaining to noise and sound emanating from the use of the Property as a temple, light intrusion from headlights into a home directly across from the entrance to the

Property, road and parking conditions,[7] the location of the entrance to the Property, water runoff, the lack of "adequate sanitary facilities[,]" and fire hazards. In support of their contentions, appellants take issue with the testimony of NACC's expert witnesses including, but not limited to, the methodology used by Mr. Caloggero and the weight given to Mr. Motsco's testimony, much of which they assert was uncorroborated. Again, the issue for us to resolve is whether there was substantial evidence in the record as a whole to support the agency's conclusion that the use of the Property as a temple would not be detrimental to the health, safety or general welfare of the locality involved. As set forth below, we find that there was substantial evidence to support the Board's conclusion.

1. Noise

The Board interpreted "noise as being included within the 'health, safety or general welfare,' factor." Appellants' evidence with respect to noise, or the preservation of "solitude" as they sometimes referred to it, was presented primarily through the testimony of DeWitt and Mary Clark, Mr. Poehler, Ms. Mason, and affidavits from other individuals in the neighboring area. That evidence included audio and video recordings made by DeWitt Clark. The testimony and evidence referenced specific events that had been held at the Property that involved amplified music, other atypical noises, and recreational noise from volleyball games.

[7] We shall discuss arguments pertaining to road and parking conditions and the entrance to the Property when we discuss Issue II, which involves issues of the tendency to create congestion in roads, streets or alleys. Potential fire hazards will be addressed in our discussion of Issue III and sanitary/septic facilities will be addressed in our discussion of Issue IV.

The Board determined that the noise associated with the operation of the proposed temple "is no different at the present location than it would be experienced in other parts of the zone." In reaching that conclusion, the Board noted that there was a substantial tree and vegetative buffer on the Property, although it was "somewhat less" for the Poehlers than for the Clarks, that activities at the Property were "largely confined to the main building area," which was a distance from neighboring residences, and that there was no evidence to establish "any exacerbation or amplification caused by the Property's elevation compared to the surrounding properties." The Board did not credit audio evidence presented by appellants because it failed to show "overly invasive noise emanating from the Property, which sits higher than the Clarks' property." The Board also noted that the potential for noise to emanate from the Property "exists today without the granting of the" petition for special exception.

The Board's determination was supported by the testimony of Mr. Ghimire, who described the anticipated use of the Property, and NACC's expert, Mr. Motsco, who opined that the proposed use of the Property would not be detrimental to the health, safety, and general welfare of the locale. Mr. Motsco's opinion was based on the size of the Property, the minimal scope of work to be done at the Property, and the low intensity use of the Property as a Hindu temple. With respect to noise, Mr. Motsco noted the general area in which the Property is located and its rural nature. He testified that the Property had a substantial buffer of trees and vegetation. There were woods along Harford Road that, at its narrowest point, were approximately "60 or 50 feet," and on the "westerly side of the property," there was a "patch of thick trees . . . approximately 100-feet wide." The site

plan also showed other wooded areas on portions of the Property. Mr. Motsco stated that although the dwelling that would be converted to a temple is visible at some spots along Harford Road, it is generally screened by trees and "extreme topography" along Harford Road. According to Mr. Motsco, NACC did not anticipate clearing any of the wooded areas on the Property.

The Board recognized "that larger events could generally be more intrusive" with respect to noise. To address that issue, the Board imposed several conditions including "that additional landscaping be planted at the border with the Poehler house and its curtilage, as well as on the west side of the multi-purpose court to increase the buffer density in those areas." In granting the petition for a special exception, the Board also imposed conditions 5 and 6, *supra*, which specifically addressed screening and sound buffers. In addition, the Board ordered that there "be no outdoor amplification of sound" and limited the hours for non-religious events to between 8 a.m. and 9 p.m. Conditions 11 and 12 prohibited NACC from using the Property for athletic programs, leagues, tournaments, and/or as a community center for activities with a non-religious purpose. Lastly, condition 13 required compliance with the Baltimore County Code and Zoning Regulations.

We do not engage in an independent analysis of the evidence. *Butler*, 417 Md. at 284. Our review of the record reveals that the Board's decision with respect to noise was supported by substantial evidence, specifically the testimony of Mr. Ghimire and Mr. Motsco. Moreover, the Board addressed its finding "that larger events could generally be more intrusive" by imposing several conditions on the grant of the special exception.

2. Light Intrusion

Appellants assert that the use of the Property as a Hindu temple will have a direct impact upon the well-being of Ms. Foxworthy, the owner of the property directly across from the entrance to the Property, "due to light intrusion from headlights and noise." They also complain that Mr. Caloggero, NACC's traffic expert, "[f]ailed to analyze the impact of headlight intrusion onto the Poehler . . . and Foxworthy . . . properties." The Board acknowledged that headlights from vehicles turning left when exiting the Property would sweep across Bonaparte Avenue. The Board also acknowledged that Mr. Calogerro did not conduct a study to analyze that issue. The Board recognized, however, that the exact locations for the entrance and exit to the Property had not been determined and that the State Highway Administration would "be providing additional input at the time of the access permit." For those reasons, the Board imposed condition 2, which required all traffic exiting the Property to turn right. The Board explained that imposition of that condition addressed several issues:

> (1) avoiding headlight intrusion upon the Bonaparte Avenue properties; (2) prevent blinding or distracting drivers driving north on Harford Road when coming around the blind curve; and (3) as discussed in greater detail below, improving safety and helping to prevent traffic congestion on Harford Road at or near the Property. Doing so will not cause an undue hardship on the visitors to the Property as the Mount Vista/Glen Arm/Harford Road roundabout is close to the Property.

Appellants do not present any challenge to the conditions imposed by the Board. As the Board agreed that there was an issue with headlights sweeping across Bonaparte Avenue and imposed a condition to address that issue, reversal is not warranted.

3. Water Runoff

In its statement of facts, appellants asserted that their witness, DeWitt Clark, testified that the current Harford Road runoff floods onto the yard of Ms. Foxworthy, who lives across Harford Road from the Property. Appellants contend that Mr. Motsco "[f]ailed to address increased sheet flow with evidence or data onto the Foxworthy Property (E820, *Appellants Exhibit 65)* upon which the SHA has installed a reverse osmosis treatment system to mitigate water quality problems arising from the flow of contaminated water from ACROSS Harford Road." To the extent that this adequately sets forth an issue for our consideration, our review of the record reveals that appellants failed to establish that conditions on the Property were causing runoff to drain onto Ms. Foxworthy's property. Nor did they establish that the proposed use of the Property would exacerbate any existing drainage issue or cause additional runoff.

Nevertheless, Mr. Motsco testified that runoff from the house would flow towards Harford Road, that Harford Road "actually sloped away from Ms. Foxworthy's property and back toward" the Property, and that there was a culvert and storm drain inlet on the Property-side of Harford Road. From that evidence, the Board inferred that runoff from the Property to Harford Road would be "more likely to drain to and run along the culvert on the south side of Harford Road (the Property side) rather than travel over Harford Road to the Foxworthy property." It is also worth noting that the Board recognized that NACC would be required to submit a storm water management plan and would "be required to comply with the applicable regulations and requirements at all times like any other property located in the County." Thus, if there was "a subsequent determination that some

improvement from the Property may cause or exacerbate the runoff issue, mitigating measures will be required by the County." The Board's conclusion was based on substantial evidence.

II. BCZR § 502.1B - Tend to Create Congestion in Roads, Streets or Alleys Therein

Appellants did not present any expert testimony with respect to traffic issues. On appeal, they challenge the factual correctness of the testimony of NACC's traffic expert, Mr. Caloggero, and argue that the traffic study he prepared was inadequate, stating:

> The fact the report did not include weather conditions, vehicle types, (such as farm equipment or 18 wheelers, which lower the range of speeds measured) make it impossible to arrive at a meaningful interpretation of the results reported. The traffic study was conducted in a time of year (October) when this road is not used by bicyclists, motorcycles or "Sunday drivers" out for a ride. The study failed to account for numerous hazards along this rural stretch of road, which may have in fact impacted the data collected during the traffic count study (no observers or cameras were used).

The Board properly stated the relevant questions before it: "(1) will the proposed use cause traffic congestion, and if so (2) how at this location is that congestion worse than other locations in the RC-2 Zone[?]" Ultimately, the Board determined that NACC met its burden of establishing that the special exception requested would not tend to create congestion in roads, streets, or alleys that would be worse than in other locations in the zone. The Board noted that it was "undisputed that there will be an increase in traffic volume caused by the typical use" and that it was "undisputed that the capacity of Harford Road in and around the Property can easily handle the expected increase" in traffic. In reaching those conclusions, the Board acknowledged appellants' concerns about additional traffic volume and congestion on Harford Road and safety due to increased traffic volume,

but also recognized that appellants did not present sufficient evidence to contradict Mr. Caloggero's expert testimony. The Board noted that appellants "relied upon undermining Mr. C[a]l[o]ggero's testimony and supplementing the record via lay witness testimony rather than through the use of an expert to address the studies and opinions by Mr. C[a]l[o]ggero." As a result, Mr. Caloggero's "calculations and opinions are the only evidence in the record on this issue." Mr. Caloggero testified that during the weekdays, the additional trips added to the roadway network would be "di minimus" and that there would be "little-to-no impacts" on the ability of the road system to handle the additional traffic. The Board found Mr. Caloggero's testimony on traffic congestion to be "credible, convincing, and unrebutted."

Again, we point out the limited issue before us, which is whether there was substantial evidence in the record as a whole to support the agency's findings and conclusions. We do not engage in an independent analysis of the evidence. The Board was free to credit Mr. Caloggero's testimony, as it did, and to give little or no weight to the evidence presented by appellants. As the issue was fairly debatable and a reasonable mind reasonably could have reached the factual conclusions reached by the Board, reversal is not warranted.

III. BCZR 502.1(C) - Create Potential Hazard from Fire, Panic or Other Danger

Appellants contend that the Board failed to recognize the potential hazard from the unsafe use of open fire in a tent. They point to testimony by DeWitt Clark that "Appellee" was "swirling fire on 4 plates around in a tent filled with what appears to be 100's of people in flowing gown type clothing[.]" Appellants note that the Property is wooded and "the

neighbor's garage is only approximately 60' from property line." Contrary to appellants' contention, the Board made specific reference to the evidence presented through "video clips of events at the Property of certain fire code violations and the use of fire at an event." The Board determined that none of the video clips or other evidence presented by appellants posed a "sufficient challenge to the presumption afforded to [NACC], let alone causes the Board to conclude the proposed use creates a hazard of fire, panic, or danger." In addition, the Board found that there was "no evidence at all that suggests any risk of fire, panic, or danger is greater with the proposed use at this location."

The Board's findings were supported by the testimony of Mr. Motsco who stated that NACC would be "reusing an existing structure[,]" that the structure was made of concrete, and that it was "located a significant distance from any other structures that could be consumed, if there were to be a fire." Mr. Motsco noted that interior improvements such as new electrical and plumbing systems would have to be built to meet the requirements of the Baltimore County Code and that permits, inspections, and an occupancy permit would be required. For those reasons, we reject appellants' contention that the Board failed to recognize the prior use of fire and we conclude that the Board's finding that there was no greater risk of fire, panic, or danger at the Property as compared to any other location in the zone, was supported by substantial evidence.

IV. BCZR § 502.1(D) - Tend to Overcrowd Land and Cause Undue Concentration of Populations

BCZR § 502.1(D) addresses the tendency to overcrowd land and cause undue concentration of population. In their brief, appellants assert that NACC "held 5 large

attendance events in 2017 and 10 large attendance events in 2018 resulting in cars parked all over the grassy fields and 100's of people at the events and in many cases, multiple days." The Board found that appellants did not present any meaningful evidence with respect to § 502.1(D) to sufficiently challenge the presumption in favor of NACC. The Board recognized, however, that appellants had complained that there was not a functioning septic system to handle large festivals. The Board addressed that complaint, stating that "the use complained of by Protestants has been represented, and accepted, as atypical." Specifically, the Board recognized that overflow parking was associated with special events and was not required on a continuous basis.

In addition, the Board referenced the testimony of Mr. Powell, NACC's licensed environmental specialist, whose "testimony was unrebutted." Mr. Powell testified that there was plenty of room on the property for a septic system and that the septic system would not affect adjacent property. In addition, he testified that depending on the type of septic system installed, cars would be able to park on the grassy area over the septic reserve area. He stated that when NACC applies for a building permit, it will be required to identify where the overflow parking will be located. The Baltimore County Department of the Environment would likely include a comment that parking should be kept out of the septic area if possible. If that could not be done, the septic system could be engineered to accommodate parking over it.

In addition to Mr. Powell's testimony, Mr. Motsco opined that due to the large size of the Property, "the small [size of the] congregation, the relatively small structure[,]" there would be no undue crowding of the land. He also noted that no regular events would

involve large numbers of cars leaving the parking lot at the same time. Thus, the Board's determination that there was no greater tendency to overcrowd land and cause undue concentration of populations as compared to another location in the zone, was supported by substantial evidence.

V. BCZR § 502.1(G) - Inconsistency with Purposes of Property's Zoning Classification or Spirit and Intent of Zoning Regulations

The Board determined that NACC met its burden of showing, under BCZR § 502.1(G), that their proposed use of the Property was not inconsistent with the purposes of the property's zoning classification or the spirit and intent of the zoning regulations. Appellants challenge that determination by directing our attention to the testimony of Mr. Caloggero and Mr. Motsco. Specifically, appellants argue that NACC's traffic engineer, Mr. Caloggero, "provided testimony that was marred by falsified assumptions and failures to adequately address the needs of this Board with accurate data." They maintain that Mr. Caloggero:

> Failed to inform this Board of the historic nature of the roadbed or the presence of a historic monument (E746-747, *Appellants Exhibits 40 and 41*), which will impact Appellee's ability to meet SHA Highway Access Permit requirements.

Appellants also argue that Mr. Motsco, NACC's site engineer, "provided testimony that was flawed by his overreach in testifying on issues outside his credentials" and that "much of his testimony was uncorroborated by data even though [NACC] had ample opportunity to obtain and provide those data." Appellants suggest that the "testimony and opinions he did provide must therefore be viewed with skepticism." They note that they objected to Mr. Motsco's qualification as an expert witness based on his "lack of

experience/training." With respect to Mr. Motsco's testimony, appellants assert that he failed to inform the Board "of the historic significance and presence of historic monuments" and "[a]ttempted to minimize the impact on the National Historic District by testifying [that] the 'mansion' was only visible sparingly from the south on Harford Road[.]" Appellants assert that photographic and video evidence they presented contradicted that testimony and "raise[d] additional questions about [Mr. Motsco's] ability to provide accurate testimony and defensible professional opinions."

Appellants were free to, and did, challenge the testimony of Mr. Caloggero and Mr. Motsco at the hearing. As we have repeatedly noted, our review is limited to determining whether the Board's decision with respect to the BCZR § 502.1(G) factor was based on substantial evidence. The record makes clear that it was. In reaching its determination that the BCZR § 502.1(G) factor had been satisfied, the Board recognized that buildings for religious worship are permitted in the RC-2 Zone as a special exception use and that at least one other religious institution already existed near the Property.[8] Those findings were not in dispute. In addition, the Board found that agricultural land would not be removed or changed as a result of the proposed use of the Property. That finding was supported by the testimony of Ms. Twining, who testified that the Property was "not an appropriate piece

[8] The Board found that "one religious institution is adjacent to the Property." That finding was not supported by the evidence. The evidence established that the Church of the Redeemer and its school were not adjacent to the Property. As discussed *infra* in our analysis of Issue VII, that erroneous finding was harmless. It did not have any effect on the Board's determination with respect to BCZR § 502.1(G) because although the Church of the Redeemer and its school were not adjacent to the Property, there was no dispute that they were located near it.

of land for farming[,]" and that she did not "believe the house and the land has ever been farmed."

We take note that the Board considered appellants' arguments that the proposed use was inconsistent with the Baltimore County Master Plan 2020 because the Property was located in a Scenic Corridor. The Board recognized that the Master Plan 2020 provided, "as a policy action for protecting scenic corridors[,]" that "(9) For properties along scenic routes or within scenic view sheds, variances, amendments, and special exceptions should be granted *sparingly*. (emphasis added)." The Board determined that the "Master Plan 2020 cannot be reasonably interpreted as precluding all special exception uses, and specifically, the proposed use, even if in a RC-2 zone and along a Scenic Corridor." Appellants did not assert that the Master Plan 2020 precluded all special exception uses. Further, Mr. Motsco opined that the proposed use was consistent with the Property's zoning classification and the spirit and intent of the zoning regulations because places of religious worship are permitted by special exception.

We also take note of the Board's determination that the "only proposed change that will be observable along the scenic corridor will occur at the entrance and exit, which is a minimal disruption, and the appearance will be consistent with other driveways or private roads in the nearby area." The Board went on to observe that, "[n]otably, there is already a driveway present, but with this approval and the conditions imposed, the entranceway will be split to address safety concerns, which, of course, is of paramount importance." That determination was supported, in part, by Mr. Caloggero's testimony. He stated that the driveway entrance to the Property was sufficient and safe, but the State Highway

Administration asked him to look at relocating the exit point where the driveway would meet Harford Road. Various photographs, maps, and other exhibits were admitted to show the proposed new exit point. According to Mr. Caloggero, both the original driveway and the proposed relocation would be safe although the relocated exit point would have an increased sight distance. If the sight distance was deemed safe, it would be safe regardless of the number of vehicles exiting the Property. Mr. Caloggero also explained that in terms of access to the Property, NACC would have to work with the Access Management Division of the State Highway Administration to obtain permits and approvals.

Lastly, the Board recognized that the Property was within the borders of the Greater Kingsville Area Community Plan, which was adopted by the Baltimore County Council in 1996 and included in the Master Plan. There was no dispute that the Community Plan provided for special kinds of development including churches and stated that they "should be located in close proximity to major roadways such as Harford and Bel Air Roads, and provide a suitable buffer commensurate with size and usage from neighboring properties." The Board's determination with regard to BCZR § 502.1(G) was based on its review of the zoning classification and regulations, the Master Plan 2020, and the Greater Kingsville Area Community Plan, and was supported by substantial evidence concerning the nature of the land, the existence of other religious institutions in the area, and the proposed change to the existing driveway.

VI. BCZR § 502.1 I - Detriment to the environment and natural resources

Appellants assert that the Board erred in failing to find that NACC "did not prove 'NO IMPACT' to BCZR § 502.1I[,]" which addresses detriment to the environmental and

natural resources of the site and vicinity. In support of that assertion, appellants argue that: (1) Mr. Motsco's testimony must be viewed with skepticism; (2) appellants objected to the "use of Mr. Motsco as an expert due to lack of experience/training[;]" and (3) Mr. Motsco testified that there was not any agricultural uses immediately adjacent to the Property but failed to "do his due diligence to know" that the Property bordered "Leonard Hutschenreuter Farm of 97.07 acres of Agricultural Land on the Southeast side property border for approximately 1770 ft."

Again, we point out that an appellate court does not re-weigh the testimony of expert witnesses. *Moseman v. Cnty. Council*, 99 Md. App. 258, 267 (1994). At the hearing before the Board, appellants objected to Mr. Motsco's qualification as an expert witness. Counsel explained that he wanted to avoid having Mr. Motsco's testimony "exceed his ability as an expert to testify" and "to avoid extension of his testimony into areas that he personally is not qualified for." The Board accepted Mr. Motsco as an expert witness and stated that "the issues raised by [counsel for appellants] go to the weight of the testimony, which is a matter for the merits of the testimony to come."

The Board properly concluded that the objections raised to Mr. Motsco's qualification as an expert witness went to the weight of his testimony. There was ample evidence presented to support the Board's decision to admit Mr. Motsco as an expert witness. As to Mr. Motsco's failure to take note of the Hutschenreuter Farm, we point out that appellants failed to direct us to the page(s) in the transcripts where that particular property was raised during the hearing. Even assuming that issue was raised below, issues regarding the depth of Mr. Motsco's knowledge went to the weight of his testimony, not

the admissibility of his testimony. *In re Adoption of Tatianna B.*, 417 Md. 259, 268 (2010) (citing *Terumo Med. Corp. v. Greenway*, 171 Md. App. 617, 623-24 (2006)). Appellants were free to present testimony from their own expert witnesses and to present other evidence to refute Mr. Motsco's testimony. We shall not reassess the credibility of the expert witness nor the weight given to his testimony by the Board. *Leavy v. Am. Fed. Sav. Bank*, 136 Md. App. 181, 199-200 (2000).

VII. BCZR § 1A01.2(C) - Detriment to the Primary Agricultural Use in Vicinity

Appellants again assert that Mr. Motsco "did not do his due diligence to know that subject property borders the Leonard Hutschenreuter Farm (Property ID: 1119073450) of 97.07 acres of Agricultural Land on the Southeast side property border for approximately 1770 ft. resulting in the Board's error." They further contend that the Board erred in stating that the Property was adjacent to a religious institution.

With respect to Mr. Motsco's testimony, we have already stated that the depth of his knowledge went to the weight of his testimony, not the admissibility of his testimony. *In re Adoption of Tatianna B.*, 417 Md. at 268 (citing *Terumo Med. Corp.*, 171 Md. App. at 623-24). Appellants were free to present testimony from their own expert witnesses and to present other evidence to refute his testimony. We shall not reassess the credibility of this expert witness nor the weight given to his testimony by the Board. *Leavy*, 136 Md. App. at 199-200.

In its written opinion, the Board stated that "[o]ther religious institutions exist in the RC-2 Zone" and that "[i]n fact, one religious institution is adjacent to the Property." The Board's statement that the Property was adjacent to a religious institution, was factually

erroneous, but that error was harmless. Ordinarily in a civil case, an appellant must prove not only that the trial court erred but also that the error was prejudicial. *See Zook v. Pesce*, 438 Md. 232, 252 (2014) ("[I]n a civil case, a petitioner must not only show error but must demonstrate that the error was prejudicial."); *Sumpter v. Sumpter*, 436 Md. 74, 82 (2013) ("'[A]ppellate courts of this State will not reverse a lower court judgment for harmless error: the complaining party must show *prejudice* as well as *error.*'" (quoting *Harris v. David S. Harris, P.A.*, 310 Md. 310, 319 (1987))). It is absolutely clear that whether a religious institution was adjacent to the Property or nearby would have no impact on the Board's ultimate determination. Neither party disputed the fact that there were other religious institutions, such as the Christian Redeemer church and school, located not far from the Property. Further, churches and other buildings for religious worship are permitted by special exception within an RC-2 Zone. BCZR § 1A01.2(C)(6).[9]

Without any citation to the Joint Record Extract, appellants also maintain that "Appellee repeatedly referred to a fictional 'Beachmont/Redeemer Complex'" and "attempted to create an image that these separate entities were acting in concert while in fact one organization is incorporated and permitted to operate as a recreation center and the other is permitted as a school." Appellants point out other differences between the various properties. Even assuming that any of NACC's witnesses repeatedly referred to Beachmont or the Church of the Redeemer in an erroneous or misleading way, appellants were free to raise that issue below and challenge the weight to be given to the witnesses'

[9] The applicable section is currently codified, without amendment, at BCZR § 1A01.2(C)(7).

testimony. We shall not engage in an independent analysis of the evidence. *Butler*, 417 Md. at 284 (quoting *Armstrong v. Mayor of Baltimore*, 410 Md. 426, 444 (2009)). Our job is not to conduct a rehearing or to re-weigh the evidence and determine the credibility of the various witnesses who testified before the Board.

VIII. Examination of Veracity of Certain Testimony

Appellants contend that the Board erred in relying on the testimony of Mr. Ghimire because "in a number of instances" his testimony did not match the documentary and video evidence presented. They argue that the inconsistencies in Mr. Ghimire's testimony point "to a pattern of misrepresentation by" NACC "to the community and to Baltimore County, and to their own Counsel and expert witnesses." In addition, appellants assert that the testimony of NACC's witnesses was "not internally consistent[,]" was "rife with logical fallacy[,]" and that the comparisons to other "religious institutions" was "invalid." They assert that "[p]ast, proposed and future activities" at the Property show that NACC intends to use the Property for "non-religious uses." Appellants also reference the "Kotroco/Beverungen letter of July 2, 2018" which they maintain "clearly shows [NACC] intends to expand their use of the property."

The Board, in its role as factfinder, was responsible for assessing and weighing the evidence presented by the parties. Determining credibility was "exclusively the function of the agency" and we may not substitute our judgment for that of the agency when, as in the instant case, there was substantial evidence supporting the Board's decision. *E. Outdoor Advert. Co. v. Mayor and City Council of Baltimore*, 146 Md. App. 283, 301-02

(2002) ("[T]he tasks of drawing inferences from the evidence and resolving conflicts in the evidence are exclusively the function of the agency.").

JUDGMENT OF THE CIRCUIT COURT FOR BALTIMORE COUNTY AFFIRMED; COSTS TO BE PAID BY APPELLANTS.

IN THE CIRCUIT COURT FOR BALTIMORE COUNTY

PETITION OF:
Donna Carter, et al.

FOR JUDICIAL REVIEW OF THE
OPINION OF The Board of Appeals of
Baltimore County

IN THE MATTER OF:
Nepali American Cultural
Center of Baltimore

BOARD OF APPEALS
CASE NO. 18-122-X and CBA 19-004

* Case No.: C-03-CV-20-003922

* * * * * * * * * * * * *

MEMORANDUM OPINION

This matter is before the court on a Petition for Judicial Review pursuant to MD. RULE 7-202 of a decision of the Board of Appeals of Baltimore County (the "Board"). On January 9, 2020 the Board affirmed the January 22, 2018 decision of the Baltimore County Administrative Law Judge John Beverungen (the "ALJ") approving a building for religious worship in an RC-2 zone with conditions. The court has reviewed and considered the voluminous record generated in connection with this appeal, including the transcripts of testimony before the ALJ and the briefs of the parties as well as the argument of counsel.

BACKGROUND

Respondent, Nepali American Cultural Center of Baltimore ("Nepali") filed a special exception use petition to permit a Hindu Temple at 12231 Harford Road (the "Property"), which is in an area zoned RC-2. BCZR § 1A01.2.C.6 provides that churches and other buildings used for religious worship are permitted in RC-2 zones by special exception. For purposes of simplicity, the court will refer to the petition for which approval is sought as the "Temple." Petitioners, Donna Carter, Morgan Miner, Dave Poehler, DeWitt Clark, Greater Kingsville Civic Association, Patricia Garner, Bruce Morgan, Doug Behr, Gunpowder Falls Watershed Preservation Association, David Hartman, and Joyce Mason (collectively as "Petitioners") opposed the request for approval of the Temple.

The ALJ conducted a hearing on January 17, 2018 on Nepali's request for Baltimore County approval of the Temple in the RC-2 zone. On January 22, 2018, the ALJ issued an Opinion and Order approving the Temple with conditions. Petitioners appealed the ALJ's decision to the

Board of Appeals of Baltimore County. The hearings occurred over the course of 11 days between July 2018 and February 2019. On January 9, 2020, the Board affirmed the ALJ's decision approving the Temple with conditions. On February 6, 2020, Petitioners filed a Motion for Reconsideration. The Board denied the Motion for Reconsideration on October 6, 2020 and issued a written Order and Opinion. Petitioners filed a Petition for Judicial Review of the Board's decision on October 29, 2020.

ISSUES PRESENTED

Pursuant to MD. RULE 7-207, Petitioners were required to "file a memorandum setting forth a concise statement of the questions presented for review." Petitioners' Memorandum does not state questions presented for review. As such, the Court will address the questions that were rephrased and presented in Nepali's Memorandum:

1. Whether the Board erred when it determined that the proposed use will not be detrimental to the health, safety or general welfare of the locality involved (BCZR § 502.1.A)?
2. Whether the Board erred when it determined that the proposed use will not tend to create congestion in roads, streets or alleys therein (BCZR § 502.1.B)?
3. Whether the Board erred when it determined that the proposed use will not create a potential hazard from fire, panic or other danger (BCZR § 502.1.C)?
4. Whether the Board erred when it determined that the proposed use will not tend to overcrowd land and cause undue concentration of population (BCZR § 502.1.D)
5. Whether the Board erred when it determined that the proposed use will not be inconsistent with the purposes of the property's zoning classification nor in any other way inconsistent with the spirit and intent of these Zoning Regulations (BCZR § 502.1.G.)?
6. Whether the Board erred when it determined that the proposed use will not be detrimental to the environmental and natural resources of the site and vicinity including forests, streams, wetlands, aquifers and floodplains in an R.C.2, R.C.4, R.C.5 or R.C.7 Zone (BCZR § 502.1.I)?

See Nepali's Response in Opposition at 3-4.

STANDARD OF REVIEW

It is well established that a court's role in reviewing an administrative agency decision is narrow and "limited to determining if there is substantial evidence in the record as a whole to support the agency's findings and conclusions, and to determine if the administrative decision is

premised upon an erroneous conclusion of law." *Maryland Aviation Administration v. Noland,* 386 Md. 556, 571 (2005) (quoting *Board of Physician Quality Assurance v. Banks,* 354 Md. 59, 67–69, (1999)). However, agency decisions receive no special deference on questions of law, which we review de novo. *Employees' Ret. Sys. of Baltimore Cty. v. Bradford*, 227 Md. App. 75, 82 (2016) (citing *Talbot County v. Miles Point Property, LLC,* 415 Md. 372, 384 (2010)).

An agency decision based on regulatory and statutory interpretation is a conclusion of law. *Carven v. State Ret. & Pension Sys. of Maryland*, 416 Md. 389, 406 (2010). Keeping in mind the deference owed to administrative decisions, the Court shall conduct an independent review of the regulations and statutory provisions upon which the Board rests its decision to determine whether the Board's decision is "plainly erroneous or inconsistent with the regulation." *Id.* (citing *Crofton Convalescent Ctr. v. Dep't of Health & Mental Hygiene,* 413 Md. 201, 215 (2010)).

A decision of an administrative agency must be upheld on judicial review if it is not based upon an erroneous determination of law and if the agency's conclusions reasonably may be based upon the facts proven. *Montgomery County v. Buckman*, 333 Md. 516 (1994). A reviewing court may, and should, examine facts found by the agency, to see if there was substantial evidence to support each fact found. *Commissioner, Baltimore City Police Dep't v. Cason*, 34 Md. App. 487, cert. denied, 280 Md. 728 (1977).

DISCUSSION

For the reasons that follow, the court finds that there is substantial evidence in the record as a whole to support the agency's findings and conclusions in accordance with the special exemption factors outlined in BCZR § 502.1 and that the Board did not commit error in granting Nepali's Petition for its proposed special exception use.

Special exception cases are governed by *Schultz v. Pritts*, 291 Md. 1, 22-23 (1981), where the Court of Appeals established that:

> We now hold that the appropriate standard to be used in determining whether a requested special exception use would have an adverse effect and, therefore, should be denied is whether there are facts and circumstances that show that the particular use proposed at the particular location proposed would have any adverse effects above and beyond those inherently associated with such a special exception use irrespective of its location within the zone.

Thus, if an applicant shows that the proposed use at the proposed location would be conducted without detriment to the neighborhood, beyond that inherent in the use itself, the special exception should be approved. In evaluating Nepali's application, the Board considered the testimony of a number of witnesses offered in support of the special exception. They include:

- Kris Ghimire, Founding Member of Nepali American Cultural Center
- Binod Upreti, Life Member of Nepali
- John Motsco, Professional Engineer at D.S. Thaler and Associates
- James Powell, Licensed Environmental Specialist
- Joseph Colaggero, Professional Engineer at the Traffic Group Inc.
- Ida Twinning, Daniel Montague, and Marcia Barton, as local neighbors

Following a public hearing, the Board issued a detailed 62-page opinion meticulously analyzing the evidence presented. The Board identified its reasoning on pgs. 37-52 of its Opinion and cited to the testimony supporting each special exception factor that Petitioners contested.

The Board addressed noise concerns under the "health, safety or general welfare" factor § 502.1(A). After hearing testimony from local neighbors, the Board concluded that the noise associated with the proposed Temple would be no different at the present location than at other parts in the RC-2 zone. However, recognizing that larger events could result in sound amplification, the Board issued a condition for Nepali to plant additional landscaping in certain areas to increase the buffer density and for there to be no outdoor amplification of sound. (Board Opinion, pgs. 39-40). The Board also considered Mr. Mostco's expert testimony concerning drainage and runoff issues as part of the proposed use's "health, safety or general welfare." The Board found that Nepali met its burden under § 502.1(A) because Petitioners did not present sufficient evidence to establish the proposed use would exacerbate any existing drainage issue or cause additional runoff. (Board Opinion, pg. 40).

The Board considered the testimony of individual residents and Nepali's traffic expert, Joseph Colagerro, to determine whether the proposed use would create traffic congestion (§ 502.1(B)). The Court notes that Petitioners were free to introduce expert traffic testimony of their own but declined to do so. The Board concluded that Mr. Colagerro's testimony was credible, convincing, and unrebutted and found that the proposed use did not create the potential for traffic congestion on the site. To address concerns about possible headlight intrusion on

Bonaparte Avenue and blinding drivers driving north on Harford Road, the Board imposed a condition that all traffic exiting the Property must turn right. (Board Opinion pgs. 40-43).

Petitioners presented evidence through video clips of events at the Property depicting certain fire code violations and the use of fire at an event to support their contention that the proposed use would create a potential hazard from fire, panic, or other danger (§ 502.1(C)). None of those clips or the testimony from Petitioners caused the Board to conclude the *proposed use* would create a hazard of fire, panic, or danger. (Board Opinion, pg. 49). The Board concluded that Nepali satisfied factor § 502.1.C and reiterated that Nepali would be required to comply with all fire and building codes.

Petitioners' sole argument that the proposed use would tend to overcrowd land or cause undue concentration of population was that, at present, there is not a functioning septic system that can handle large festivals. First, the Board noted that large festivals would be atypical from the proposed use. Second, Mr. Powell, Nepali's licensed environmental specialist, provided testimony concerning the septic needs based on the proposed use and testified that the site was sufficient for the intended use. He also noted that for special events, port-o-potties would be used. This testimony was unrebutted. As such, the Board concluded that Nepali met its burden under factor § 502.1(D).

In determining whether the proposed use was consistent with the spirit and intent of the zoning regulations, the Board noted that other religious institutions exist in the RC-2 zone. In fact, one religious institution is adjacent to the Property. Further, the Board restated that the Community Plan recognizes that for development of religious institutions in the area, the development 'should be located in close proximity to major roadways such as Harford and Belair Roads...' The Board concluded that Nepali met its burden under factor § 502.1(G). (Board Opinion, pgs. 49-50) (emphasis added).

The Board considered testimony from both parties' witnesses as to whether the proposed use would be detrimental to the environmental and natural resources of the site and vicinity (§ 502.1(I)). Petitioners offered testimony from Dr. Dewey Clark, a resident in the neighborhood, who completed training and volunteer work as a master naturalist. Dr. Clark was not offered or received as an expert witness on environmental and natural resource matters. (Board Opinion, pg. 47). Nepali offered expert testimony from James Powell, an expert environmental health specialist. The Board was able to evaluate the testimony of the witnesses and found there was substantial evidence to conclude that Nepali met its burden under factor § 502.1(I). (Board Opinion, pg. 51).

The Board relied on the testimony of record, both expert and lay opinion, in reaching their decision. The Board properly considered the test for special exception use pursuant to BCZR § 502.1, and under Schultz. Petitioners failed to demonstrate that the proposed use would have an adverse effect at the subject location beyond any effects inherent in a religious use. The record amply supports the Board's decision to grant the special exception.

CONCLUSION

For the reasons stated, the decision of the Board comports with the applicable law and is supported by substantial evidence. Therefore, the decision of the Board of Appeals of Baltimore County granting Nepali's Special Exception Use Petition, with conditions, is AFFIRMED.

RULING ON MOTION FOR RECONSIDERATION

This case comes to the County Board of Appeals ("CBA") on a Motion for Reconsideration ("Motion") which was timely filed by DeWitt and Mary Clark, David Hartman, Dave Poehler, Morgan Miner, Carol Shaw, Greater Kingsville Civic Association, Inc. and the Gunpowder Falls Watershed Preservation Association (collectively "Protestants") by their attorney J. Carroll Holzer, Esquire, proposing that the CBA re-open and reconvene a hearing on the merits of newly submitted plans and evidence. The original Petitioner and property owner, Nepali American Cultural Center of Baltimore ("Nepali"), by it attorneys, Timothy M. Kotroco, Lawrence E. Schmidt and Smith, Gildea & Schmidt, LLC, submitted a Response to the Protestants' Motion for Reconsideration.

This matter initially came before the CBA on a Petition for Special Exception to permit a temple for religious worship at the above captioned property. The hearing on this case occurred over the course of 11 days between July 2018 and February 2019. On January 9, 2020, the CBA issued an Opinion and Order granting the requested relief.

The Board held its deliberation on the Motion to Reconsider on June 24, 2020. The Board, for the reasons that follow, concluded that no hearing was warranted and denied the Motion.

The Motion for Case No. 18-122-X raised a number of concerns about (i) the contradictory and confusing language within the conditions of the Order, (ii) the failure to define "Religious Use," (iii) the failure to provide precise specifications of the conditions and, (iv) requested additional conditions be added to the Order. The Protestants' Motion for Case No. 19-004 raised concerns about the "*ex parte*" letter signed by the Administrative Law Judge Beverungen.

The Board members agreed with the legal points raised by Petitioner's counsel in its Response to Protestants' Motion for Reconsideration including, but not limited to, that there was no new or different facts introduced by the Protestant' memo and that there was no new law, ordinance or other regulation since the CBA's decision that would provide the Protestants with the relief it seeks. Moreover, the CBA noted that some of the objections to the conditions were conditions that that Protestants requested during the underlying case.

Similarly, the CBA noted that the CBA's revisory power is limited by its Rule 11, which states "the board shall have revisory power and control over the order in the event of fraud, mistake or irregularity". The Motion for Reconsideration did not allege any fraud, mistake or irregularity.

Conclusion

After reviewing the Motion and the case record, the Board unanimously finds none of the issues raised warrant a hearing on the Motion or relief on part of Protestants and agrees the Motion should be denied.

ORDER

THEREFORE, IT IS THIS 6th day of October, 2020, by the Board of Appeals of Baltimore County,

ORDERED, that the Motion to Reconsider is hereby **DENIED** for the reasons set forth herein.

Any petition for judicial review from this decision must be made in accordance with Rule 7-201 through Rule 7-210 of the *Maryland Rules*.

RE: In the Matter of: *Nepali American Cultural Center of Baltimore*
Case Nos.: 18-122-X and CBA-19-004

Dear Counsel:

Enclosed please find a copy of the Ruling on Motion for Reconsideration issued this date by the Board of Appeals of Baltimore County in the above subject matter.

Any petition for judicial review from this decision must be made in accordance with Rule 7-201 through Rule 7-210 of the *Maryland Rules*, **WITH A PHOTOCOPY PROVIDED TO THIS OFFICE CONCURRENT WITH FILING IN CIRCUIT COURT. Please note that all Petitions for Judicial Review filed from this decision should be noted under the same civil action number.** If no such petition is filed within 30 days from the date of the enclosed Order, the subject file will be closed.

Very truly yours,

Sunny Cannington Hay

	*	Case No.: 18-122-X and CBA-19-004

* * * * * * * * * * * * *

OPINION AND ORDER

This matter comes before the Board of Appeals, on appeal from the Administrative Law Judge Opinion and Order, dated January 22, 2018, granting a Petition for Special Exception to allow a building for religious worship on the subject property ("Property"), which is within a Resource Conservation-2 (RC-2) zone, pursuant to Baltimore County Zoning Regulations §1A01.2(C)(6). Lawrence E. Schmidt, Esquire and Timothy M. Kotroco, Esquire represent Petitioner, Nepali American Cultural Center of Baltimore, Inc. J. Carroll Holzer, Esquire, represents Protestants, Dewitt and Mary Clark, David Hartman, David Poehler, Morgan Miner, Carol Shaw, Greater Kingsville Civic Association, Inc., and the Gunpowder Falls Watershed Preservation Association.

Case No. CBA-19-004 was joined with the special exception appeal. In that case, Protestants appeal the effect of a letter and response between Mr. Kotroco, on behalf of Petitioner, and Administrative Law Judge Beverungen, wherein Petitioner was seeking to clarify whether Petitioner could hold a fundraiser on the Property from July 29, 2018 to August 3, 2018. Judge Beverungen, in his response dated July 3, 2018, stated, *inter alia*, "the owners are free to gather on their Property so long as no religious activities within the subject building and all other permit requirements, if any, are satisfied...."

The hearing on this case occurred over the course of 11 days between July 2018 and February 2019. On November 1, 2018, Protestants identified four CDs of video and audio files, as well as related photographs, it sought to introduce into evidence. Given the volume of files, counsel for Petitioner was not in a position to review all audio and video files in court and therefore, the Board gave counsel for Petitioner the opportunity to review and file written objections, which counsel did. The Board then permitted counsel for Protestants to file a written response in advance of the next scheduled date, November 29, 2018. That hearing day was used as an evidentiary hearing to resolve the objections and determine the admissibility of photographs and video and audio files Protestants had compiled and wished to introduce into evidence.

Over the course of hearing dates, Petitioners presented testimony from: (1) Kris Ghimire, as a trustee for Petitioner; (2) Binod Upreti, a life member of Petitioner; (3) John Motsco, P.E., as an engineering expert and as the engineer of record for the proposed project; (4) Joseph Colaggero, a traffic engineer expert; and (5) James Powell, a Licensed Environmental Specialist. Individuals Ida Twining, Pastor Daniel Montague, and Marcia Barton, also testified in favor of the petition.

Protestants presented testimony from the following witnesses: (1) adjacent neighbors, Dr. Mary Clark and Dr. Dewitt Clark, who live across the street from the Property; (2) Dr. Dewitt Clark also appeared on behalf of the Gunpowder Falls Watershed Preservation Association; (3) Dave Poehler, who lives next door to the subject Property; (4) Joyce Mason, who lives just over a mile from the Property; (5) the aforementioned Mr. Ghimire (trustee for Petitioner) as an adverse witness; (6) Bruce Morgan, a Kingsville resident; and (7) Protestants' land planning and zoning expert, Christopher Jakubiak. The Greater Kingsville Civic Association, Inc. also joined the opposition to the proposal.

The Board conducted its public deliberation on March 13, 2019.

I. Summary of Testimony

A. Petitioner's Witnesses

As noted above, Petitioner had two witnesses from its organization testify on its behalf, Kris Ghimire and Binod Upreti.

* Kris Ghimire --- Mr. Ghimire testified that he was born in Nepal, came to this country in 1998, and became an American citizen. Mr. Ghimire is a real estate broker in the area. Mr. Ghimire is a founding member of Petitioner's organization and serves on its Board of Trustees, with all of his work for the organization being voluntary. Mr. Ghimire testified that the organization's "single mission" is to establish a Hindu Temple in Baltimore County. Mr. Ghimire estimated that there are 5,000-10,000 people of Nepali heritage in the Greater Baltimore Area.

Mr. Ghimire provided evidence regarding how the Property is to be used. Mr. Ghimire also provided the details regarding some of the religious practices to be observed at the Property, including holidays and special events. Much of Mr. Ghimire's testimony on these points is specifically identified and reviewed in Section IV, Petition and Use Evidence, *infra*, and need not be addressed here. Mr. Ghimire was also called as an adverse witness by Protestants. The issues brought up during that testimony merit separate discussion at the end.

* Binod Upreti --- Mr. Upreti is a life member of Petitioner. Like Mr. Ghimire, Mr. Upreti is originally from Nepal and came here in 1998. Mr. Upreti testified that to go to temple now he must travel to Westminster and Finksburg, Maryland, and on occasion to Queens, New York. Mr. Upreti agreed with Mr. Ghimire's description of the proposed operations of the temple at the Property. Mr. Upreti's motivation for testifying was to communicate to those who oppose the Petition that Petitioner is there for peace and harmony, and is willing to address concerns.

Neighbors from the general area also appeared to provide vocal support for the Petition:

* Ida Twining --- Ms. Twining lives one and a half miles from the Property at 11511 Harford Road, in Glen Arm. Ms. Twining has lived at her present address for 35 years and her husband's family had been there for over 200 years. When Ms. Twining learned of and attended the post-sale open house at the Property. She described the Property as having long been in disrepair, defaced by graffiti. She saw "mountains of plastic bags filled with beer cans and all sorts of trash." She does not believe the Property is appropriate for farming and does not believe it has ever been farmed in the time she lived in the area. She feels the Property is "uniquely suited" to serve as a worship center. Ms. Twining expressed her happiness to welcome Petitioner to the community. Ms. Twining also provided testimony about the growth of the area and traffic, as outlined in more detail in Section III, Residential/Commuter Growth and Area Traffic Conditions, below.

* Daniel Montague --- Mr. Montague is a pastor with the United Methodist Church, leading the Fork United Methodist Church and the Waugh United Methodist Church. The Property is in between the two churches, about two miles from each. Like Ms. Twining, Mr. Montague visited the site after the sale. Mr. Montague supports the Petition.

* Marcia Barton --- Ms. Barton grew up in Kingsville and presently lives approximately 8-10 miles from the Property at 11909 Woodberry Place in Kingsville. Ms. Barton decided to attend and testify as she felt some of the objections and concerns raised by others at one or more meetings were unfair to Petitioner. She felt some were misinformed and some failed to take into account existing uses already accepted by the community. In particular, she identified St. Stephen's Church on Bradshaw Road. The church hosts festivals and carnivals and has a school. She believes that the temple will cause less traffic and noise than St. Stephen's Church even if the proposed temple has larger events. In sum, Ms. Barton supports the Petition.

Petitioner also called three expert witnesses, Mr. John Motsco, an engineering expert, James Powell, a Licensed Environmental Specialist and Mr. Joseph Colaggero, a traffic engineering expert.

* John Motsco, P.E. --- Mr. Motsco, of Little & Associates, was accepted as an expert in civil engineering. Mr. Motsco worked on the plans for the Property and is the engineer that sealed them. Mr. Motsco visited the Property on two occasions and relied on Baltimore County GIS for other information. He provided the physical description of the Property, identifying it as 30.8 acres, zoned RC-2, and identified the structures and other site improvements.

Mr. Motsco described the plan, which, as he testified, had limited building improvements, all currently existing. Petitioner will use the existing driveway leading to the house (to be converted to a temple). A fire department turnaround will be installed, as will the required parking spaces. After acknowledging "cosmetic improvements", Mr. Motsco testified that there would be no new structures. Mr. Motsco understands that the pool and the structures that serve the pool are to be removed. He described the Property as being surrounded by woods, with the narrowest swath along Harford Road (close to the entranceway) 50-60 feet in width, and the area along the western edge being approximately 100 feet in width. There is a stream at the southeastern and southern property lines, weaving on and off the Property. No proposed construction is near the stream. The proposed parking area will be 500-700 feet away from the stream. Mr. Motsco testified that Petitioner does not anticipate any clearing of the wooded area.

Mr. Motsco also provided testimony about the general area, noting wooded vegetation and trees to the east and south, with some farmland and scattered houses beyond the wooded areas. Also to the east are Christian Redeemer church and school and the Beachmont Camp, by Beachmont Christian Ministries. Both include recreational and athletic facilities. On the northern

and western borders along Harford Road, there are single-family houses. There are no farms or agricultural uses near the Property, let alone adjacent. Mr. Motsco testified that the present-day house (proposed temple) can be visible at certain points while traveling on Harford Road, but otherwise is generally screened by the trees and "extreme topography" along Harford Road.

Mr. Motsco presented numerous photographs of the Property and the surrounding area. Mr. Motsco testified that the Maryland Historic Trust designates the Property grounds and the existing barn as historic. As is noted below, the Property ("Bella Vista") was originally developed by Charles Bonaparte, a nephew of Napoleon Bonaparte, who was also the former Attorney General of the United States and Secretary of the Navy in President Theodore Roosevelt's administration. The original house burned down in the 1930s. The Property is served by well and septic systems, though the existing systems are considered non-functional at this time. Mr. Motsco is aware of efforts to locate new well and septic facilities and believes the Property is large enough for those systems to accommodate the proposed use. Mr. Motsco's plan calls for 38 parking spaces in a lot, with some additional spaces closer to the proposed temple. If overflow parking is needed, vehicles could use the nearby grass areas.

Mr. Motsco was asked about certain special exception factors. First, he gave his opinion on the boundaries of the neighborhood, defining it as the Harford County border to the north, Bel Air Road to the East, Long Green Pike Road to the west, and "a river" to the south. He noted that the general area is rural and the best way to define the neighborhood are the physical boundaries. He testified that the proposed use would not be detrimental to the health, safety and general welfare of the locale, contending the minimal scope of work, the size of the Property, and low intensity of use support that opinion. Mr. Motsco did not believe the proposed use posed any potential hazard of fire, panic, or danger greater than at any other location in the zone. He also believed the

permitting process and conversion from residence to a temple would address issues arising from the building being in disrepair.

Mr. Motsco did not believe that the proposed use would cause any undue concentration of population given the size of the Property, the anticipated small congregation, and relatively small structure. Public water or sewer does not serve the Property. The distance of the building from other properties prevents it from interfering with adequate light and air. Mr. Motsco was not aware of any clearing necessary for any part of the proposal and for that reason, he believed the use would be consistent with the County's provisions regarding impermeable surfaces and vegetation. As for any environmental impacts, he testified that any concern could only arise from the parking, but again, no clearing was required. As such, Mr. Motsco's opined that there are no detrimental impacts beyond the inherent effects that will be caused by the proposed use. No variances are needed for this Petition.

On cross-examination, Mr. Motsco testified that runoff from the main building would drain to the south (toward the barn). Runoff from the proposed parking area would flow to the north (toward Harford Road). The number of parking spaces was generally determined by the County based on the representation of the number of expected regular attendees. The zoning regulations require one space per four seats, but this proposed temple does not have pews or seats. Mr. Motsco recalled telling the County that they would have a maximum normal attendance of 150 attendees. Mr. Motsco did not estimate or analyze the number of vehicles the adjacent grassy area could accommodate. Mr. Motsco acknowledged that his testimony on direct is based on the anticipated day-to-day use of the facility and not on special events. When asked, Mr. Motsco also estimated the distance from the tennis court to the Clark residence (12150 Harford Road) to the west of the Property as between 300-350 feet.

Protestants' counsel asked Mr. Motsco about plans to mitigate sheet flow from the Property, across Harford Road, toward the Foxworthy property at the northwest corner of the Harford Road/Bonaparte Avenue intersection (at the northern border of the Property). Mr. Motsco testified that no analysis had been done by the time of his testimony, but added that, at present, there is a roadside ditch and a storm drain inlet on the Property side of Harford Road. Looking at photographs, Mr. Motsco noted that Harford Road is sloped away from the Foxworthy property and toward the Property. On redirect examination, Mr. Motsco testified the County will require a grading plan and will determine if any additional measures are required. In addition, Mr. Motsco testified that the existing woods aid the current drainage and the expectation is they will aid the anticipated drainage from the parking area.

* James Powell --- Mr. Powell worked for the Baltimore County Department of the Environment, now the Department of Environmental Protection and Sustainability (DEPS), for 37 years and four months, rising to the level of Field Supervisor for the Soil Evaluation Section. During his time with the County, Mr. Powell conducted soil tests and supervised others doing the same for new construction or repair of failing septic systems. He also reviewed septic plans, estimating the number of plans as "thousands." Mr. Powell has been a Licensed Environmental Specialist for 33-35 years. Mr. Powell was offered, and received, as an expert to opine on the feasibility of a septic system for the proposed use.

Mr. Powell visited the Property two times. He did not conduct a soil evaluation test. Rather, he used the USDA Soil Survey Manual. Mr. Powell identified the soils in the cleared area as manor soils, which are derived from weathered schist. The soils are not alluvial or colluvial. Though the Property sits on a knoll and ridgeline (heading south/southwest), he did not consider the Property unique because of its height relative to other properties in the area.

Mr. Powell prepared a Water Usage Summary based on numerous factors, including anticipated number of visitors, whether food is served, whether food is prepared on or off site, and whether portable facilities are available for outside functions. He was provided information by the Petitioner for these factors. He understood that the temple would not have a commercial kitchen. To do so would require all-new appliances and a hood with a fire suppression system. Mr. Powell testified that he received County approval for his water usage report.

He testified that the next step to gain approval for the septic system is to file for a soil percolation test application. The tests to be conducted are done by personnel from the DEPS. Either the location would be approved or DEPS would require additional tests at an additional area. Mr. Powell testified that, given the size of the Property, he felt confident that there will be sufficient septic area to meet the intended usage and the septic system would not affect any adjacent properties.

On cross-examination, Mr. Powell was asked about whether vehicles could park on top of the septic field. Mr. Powell stated that it depended on the physical construction characteristics and system components. The County now uses deep trench systems, which he described. However, another system design is a shallow pressure dosing system. He testified if there was to be parking on top of the septic field, a system can be engineered to accommodate the parking, but it needs to be known ahead of time. Nevertheless, Mr. Powell opined, with "99% probability," a pre-engineered system will not be required here because he expects a deep trench system. Even still, when Petitioner files for a building permit, they will have to identify the overflow parking area and DEPS will issue its "standard...comments" to keep parking out of the septic area. If that cannot be avoided, the system will need to be engineered accordingly.

With respect to the anticipated well, Mr. Powell testified about that process, noting that DEPS requires a minimum yield and minimum storage capacity. For festivals, Mr. Powell did not see a concern as no food will be prepared on site, the kitchen would not be available for use, and there will be portable facilities outside. Mr. Powell understood that the well would serve the main building only. Mr. Powell anticipates that the new well location, which he marked, was between 355-400 feet from any well on an adjoining property.

Mr. Powell testified that first, the well site location is selected, and then a completion report is prepared. Once the County receives the completion report, the County assesses the well capacity to serve the intended use as identified. The determination of what storage capacity and what size storage tank is needed, and ultimately approval, occurs after the well is built. The County will require the older well and septic system to be disconnected and backfilled.

* Joseph Colaggero --- The testimony of Mr. Colaggero is discussed in substantial detail in the traffic discussions below and need not be addressed to the same level of detail as the other witnesses here. Nevertheless, Mr. Colaggero, Vice President of The Traffic Group, Inc., provided testimony regarding the proposed redesign of the Property entranceway, improving sight distances, the existing road conditions, traffic accident history, and the need for an access permit from State Highway Administration (SHA), as Harford Road is a state road (Md. Rt. 147). Mr. Colaggero also conducted several analyses of the particular stretch of Harford Road around the Property, and in particular, near Bonaparte Avenue. More specifically, Mr. Colaggero examined the road capacity and operations, performed a sight distance analysis (and a revised analysis), and a speed study between September 26, 2018-October 9, 2018.

Because of his analyses and examinations, Mr. Colaggero concluded that the stretch of Harford Road relevant to this case had sufficient capacity and the proposed use of the Property,

based on the representations made as to the use, will not cause traffic congestion beyond what exists today. Mr. Colaggero also opined that, with the requirements from SHA for the entranceway and exit from the Property, the proposed use will not detrimentally impact safety and may, in fact, improve it over existing conditions. Again, Mr. Colaggero's testimony is discussed in much greater detail below in Section III, Residential/Commuter Growth and Area Traffic Conditions and Section VI(C) Application of the BCZR §502.1 Special Exception Factors, (2) Congestion in Roads, Streets and Alleys.

B. Protestants' Witnesses

* Dr. Mary Clark --- Dr. Mary Clark lives with Dr. Dewitt ("Dewey") Clark, her husband, at 12150 Harford Road. She has lived there for 33 years. The Clark property sits across Harford Road from the Property, though it is behind trees and other vegetation and sits at a lower elevation than the Property. The combination of these features obscures the Clark property from Harford Road. She estimates her house is about 100 feet from Harford Road.

Dr. Mary Clark also identified her community as the "Long Green-Haystack Valley Community," further defining it as those living within a mile and half of the Property. However, she provided clarification on cross-examination as to her criteria as to what properties are within her neighborhood (discussed below). She contends that where she lives is "one of the last rural valleys in Baltimore County." Dr. Mary Clark raised concerns regarding her "right to solitude and quiet enjoyment of [her] property in a rural RC-2 zone," as well as "personal safety and the increased traffic on Harford Road."

Dr. Mary Clark identified several multi-day events that produced, what she considered to be, "very loud, amplified sound and music." She added that even with her windows closed, the noise was "highly disturbing." So much so that midway through a fundraising event held at the

subject Property from July 28th to August 3rd, the Clarks decided to go out of town for the tail-end of the event. Dr. Mary Clark also takes issue with the noise emanating from the multi-purpose court, identifying "constant percussive screaming and yelling," which was "destroying [her] peace and solitude." She has heard noise from the court starting as early as 8:15 am on Sunday mornings and going until dark. She likened the experience to living next door to a "recreation field, ball field, or a playground."

With respect to traffic, she described Harford Road as a "narrow, two-lane road with blind curves and no shoulder." She referred to the Property as being located "right in the middle of one of the most treacherous sections of road in Baltimore County." She and her husband have heard, witnessed, and assisted with traffic accidents occurring along the curves. In fact, she and her daughter had an accident at a blind curve close to the Property when a vehicle crossed the centerline. She felt that large, multi-day events at the Property would endanger the area residents and imperil attendees of those events. Dr. Clark stated that a range of vehicles use Harford Road, including commuter traffic, tractor-trailers, bicycles, and farm equipment. She also noted the regular presence of deer, which poses an additional hazard.

Much of Dr. Mary Clark's testimony concerned her experiences observing and witnessing the larger events already held at the Property. It is fair to say that Dr. Mary Clark does not trust the representations made by Petitioner with respect to operations at the Property, the number of regular attendees, the number of attendees for larger events, sound amplification, and other relevant issues. Dr. Mary Clark believes that the proposed use will cause detrimental impacts to the surrounding area. She provided her opinion as to whether the proposed use can satisfy the Baltimore County Zoning Regulations §502.1 criteria, identifying certain factors for which she contends there is sufficient evidence to show the detrimental impacts.

On cross-examination, Dr. Mary Clark found Mr. Colaggero's testimony as to the number of vehicle trips (over 2 million) on the relevant section of Harford Road per year not surprising. Dr. Mary Clark testified the existing traffic "very seldomly" has an impact on her tranquility and solitude, describing the noise as "a gentle swish," like "hear[ing] the ocean at night." Dr. Mary Clark clarified the noise from additional vehicles was not her concern; rather, it was that increased traffic may lead to more accidents. To that end, she alluded to witnessing "dangerous behavior" at the entrance and exit of the Property that nearly resulted in accidents. Dr. Mary Clark testified that she does not hear from her house the activities at the Christian Redeemer and Beachmont Camp properties.

When asked about the properties in her neighborhood, Dr. Mary Clark testified she does not consider the adjacent Christian Redeemer church and school or the Beachmont Camp to be part of the neighborhood because it has different zoning (though recognizing, she is not a land use expert). Dr. Mary Clark also stated that she was part of a group of local residents recently who opposed a request to support what she described as an expansion for either the Christian Redeemer property or the Beachmont Camp property.[1]

* Dr. Dewitt ("Dewey") Clark --- Dr. Dewey Clark appeared individually and as the authorized representative for the Gunpowder Falls Watershed Preservation Association. Dr. Dewey Clark presented testimony over several days, including November 1, 2018, January 29, 2019 and January 30, 2019. What was made clear from Dr. Dewey Clark's testimony is that Dr. Dewey Clark has spent substantial amount of his time tracking the comings and goings at and from the Property, whether by audio and video recordings, drone footage, social media postings

[1] The testimony concerned the "corn maze" but the location referenced conflated Beachmont Camp with Christian Redeemer ("Beachmont Christian camp"). Printouts from the Beachmont Camp website appear to establish that it has the corn maze, not the Christian Redeemer property.

from the Petitioner's members, attendees, and/or supporters, and other similar research. In addition, Dr. Dewey Clark has undertaken substantial effort to contact County officials to alert them to potential Code violations and site difficulties for development of the proposed use. During the course of the hearing, Protestants' frustration generally, and Dr. Dewey Clark's frustration specifically, with the County's failure to address the matters brought to their attention by Dr. Dewey Clark in a manner satisfactory to Protestants was readily apparent.

Dr. Dewey Clark testified that he believed the locale to be confined to Gunpowder Park to the Mount Vista/Glen Arm and Harford Road circle. He testified that that there were a lot of farms in the area, which results in farm vehicle traffic on Harford Road. He noted pedestrians and people on bicycles also use the relevant stretch of Harford Road.

Dr. Dewey Clark presented a library of audio and video clips of sounds, events at the Property, as well as photographs of vehicles on Harford Road and other nearby roads. The photographs of the vehicles leaving the Property taken by Dr. Dewey Clark (or others) showed vehicles on the wrong side of the road, the darkness of the surrounding area, and other issues intended to underscore the testimony on the dangers presented by visitors presumably unfamiliar with the particular section of Harford Road. Dr. Dewey Clark also presented dash cam videos of traffic generally on Harford Road near the Property to show vehicles crossing lines and other issues, again, to speak to the existing dangerous nature of the roadway system even without the introduction of increased traffic from the proposed use. He also provided his critique of Mr. Colaggero's testimony, though Dr. Dewey Clark is not a traffic engineer.

Like his wife, Dr. Dewey Clark identified numerous concerns, including: excessive noise; the loss of solitude; traffic congestion; traffic dangers; environmental impacts on area forests and streams; invasion of non-native species; drainage from the site; unsafe use of fire; fire code issues;

inconsistency with the zoning classification; and others. Dr. Dewey Clark also proposed numerous conditions in the event the Board granted the Petition.

By way of example, Dr. Dewey Clark testified that the noise emanating from the Property, whether due to special events or to volleyball games, disrupts the solitude and tranquility he has enjoyed while the Property was used only as a single-family residence (or was vacant). He cited to the 1964 Wilderness Act to identify prior recognition of the value of solitude. The audio and video clips he provided were intended to serve as a snapshot in time of the disruption being caused at the Property to illustrate what may occur if the Petition was granted overlooking in his testimony that the same could occur if the Petition is not granted. Even recognizing the Clarks' sensitivity to a change, Dr. Dewey Clark played a clip intended to show excessive noise from the volleyball court, but instead the predominant noise heard by the Board was from birds chirping.

With respect to the fire code issues, Dr. Dewey Clark identified foreseeable problems with an occupancy permit unless the main building became Code-compliant. In particular, he identified the lack of panic bars on the doors. He also identified video clips taken from social media posts or otherwise uploaded to the internet where there was an open fire at a festival, noting the lack of fire extinguishers and no water source to draw water. Similarly, he expressed concerns over the use of extension cords from the main building to an accessory tent and the lack of emergency lighting inside the main building.

It is abundantly clear that Dr. Dewey Clark opposes a change from the Property's historic use as a residence. However, based on his testimony and evidence focusing on alleged Code issues and the County's failure to adequately respond to complaints regarding the same, as well as Petitioner's use of the site prior to the conclusion of the special exception case, Dr. Dewey Clark's staunch opposition largely arises from his belief that the Property will be used in a manner far

more intense than what has been represented, magnifying the impacts he, his wife, and his neighbors believe they will experience, compounded by his skepticism that the County will remedy any issues arising from the Property once the Petition is approved.

* Joyce Mason --- Ms. Mason lives at 11813 Harford Road and has done so for 30 years. Her property lies south of Hutschenreuter Road, approximately 1.3 miles from the Property. Ms. Mason also used to live closer to the Property, at 11939 Harford Road, three houses north of her present house.

Ms. Mason presented testimony regarding her concerns, identified as the increased traffic burden and her personal, as well as her neighbors, safety on Harford Road. Ms. Mason described Harford Road as a "rural two-lane road with no shoulder and many blind curves." The Property is located within that section, which she considered a "hazardous area." She too provided anecdotal evidence of traffic accidents on Harford Road, naming the intersection of Harford Road and Hartley Mill Road, as a location with multiple accidents, some of which were fatal. She also identified an accident she was involved in that occurred one month prior to her testimony.

Ms. Mason testified that "[o]ver the years, the traffic on Harford Road has increased dramatically." Like Dr. Mary Clark, Ms. Mason identified farm equipment, including tractors, combines, bailers, and hay wagons, as using Harford Road. Ms. Mason, again like Dr. Mary Clark, testified that, in the middle of the summer in 2017, she could hear "very loud talking over the amplification system" that spooked one of her horses. She stated she could hear the loud talking also in the summer of 2018, again, unsettling her horses. She also believes that the proposed use has a greater impact on the community due to the "unique terrain of the area," with "many peaks and valleys, blind curves, and agricultural activities."

* Dave Poehler --- Mr. Poehler lives with his family at 12241 Harford Road, situated to the north, east, and next door to the Property. Mr. Poehler testified he could see the main building and driveway from various points on his property. Mr. Poehler said after the sale of the Property, he reached out to his new neighbors, by going over to the Nepali property to introduce himself and offered to help take down a tree. He testified he did not hear anything from his neighbors since that visit.

Like Protestants' other witnesses before him, Mr. Poehler identified traffic and noise as his concerns. Mr. Poehler associates the traffic and noise issues with a likelihood that his property value will be reduced.

Mr. Poehler, echoing the others, believes Harford Road along the subject Property boundary through the circle at Mount Vista and Glen Arm Roads is "a dangerous stretch." Mr. Poehler estimated his driveway to be approximately 200 feet from the existing entrance to the Nepali property. He understands that Petitioner is proposing to move it closer by about 70 feet. Mr. Poehler shared that, even without the move, he has already had some of Petitioner's attendees accidentally enter his driveway and/or use it to turn around.

He identified an occasion in 2017 where amplified music emanating from the Property was being played as late as 1:00 a.m. He also identified large gatherings where he and his family were subjected to noise he considered extreme. On cross-examination, Mr. Poehler was questioned about a different property to the south of the Nepali property located on Hutschenreuter Road that hosts an outdoor rock concert. He did not have any familiarity with it, but agreed it was possible that the music was coming from that location, though noting the music he heard did not sound like a rock and roll band. Mr. Poehler also testified he lives about 1000 feet, as the crow flies, from

the Beachmont and Redeemer properties. On occasion, he hears soccer games, with the accompanying cheering and yelling.

Unlike the other witnesses presented by Protestants, Mr. Poehler also identified the potential impact to his well and septic systems as an issue. Mr. Poehler testified, at present, he considers his well as "not a very strong well at all," and referenced a gathering of about 40 people at his house where he ran out of water. His well is about 200-250 feet from the Property. As such, he was concerned that the potential large gatherings of hundreds of people at the Property will exacerbate the limited volume of his well. Moreover, he has concerns over pollution that may result from runoff from the grassy areas used for overflow parking.

* Bruce Morgan --- Mr. Morgan lives at 3 Longknoll Way in Kingsville, about 3 miles away, as the crow flies, from the Property. Mr. Morgan expressed his concerns over traffic and noise. He stated his concern was that if "that type of activity" was permitted on rural, agricultural property, it could happen anywhere in Baltimore County. He testified that the relevant stretch of roadway is one of the most dangerous sections he has encountered.

* Christopher Jakubiak --- Mr. Jakubiak, of Jakubiak & Associates, was offered and received as an expert in land planning and zoning. Whereas Petitioner's experts opined that special events like festivals evidence atypical use, and therefore, were not the focus of their opinions, Mr. Jakubiak testified festivals are "particularly relevant to his testimony."

Mr. Jakubiak described the relevant section of Harford Road as "very rural," also noting the hills and winding nature of the road on the way to the circle at Mount Vista and Glen Arm Roads. He expressed his opinion that the relevant neighborhood for the special exception analysis ran from Hartley Mill Road to Mount Vista Road.

Mr. Jakubiak opined that the cultural landscape of the area was unique. He relied on the Master Plan 2020 in concluding that the County seeks to preserve cultural landscapes, and in particular here, the agricultural history of the area. The Master Plan also expressed a preference of low-density development in rural areas, further contending the Master Plan serves as guidance and cannot be dismissed in the consideration of the special exception petition. He noted that Harford Road in the relevant area is a Baltimore County Scenic Route, which the Master Plan states is to be protected and that development by way of special exception petitions should be granted "sparingly."

In describing the Property, Mr. Jakubiak testified that the site is constrained by sloping terrain, particularly steep to the west. Outside of the multi-purpose court, the land drops significantly. The main building sits at the highest point, about 400 feet above sea level, which is about 200 feet above the valley floor. He believed the landscaping presently is an ineffective buffer for sound, though it was noted that Mr. Jakubiak is not an expert in sound. He also opined that the impact from noise would be worse than other locations in the zone.

Mr. Jakubiak believes 38 parking spaces are insufficient due to the need to use the grassy areas for overflow parking. While the limited number of spaces helps with permeability, the number does not match the needs. As such, when vehicles park on the grassy areas, they will cause ground compaction. The compaction and steep slopes may cause runoff to have a detrimental impact to the site and neighboring properties.

While Mr. Jakubiak is not an expert on traffic engineering and related issues, as a planner, he had concerns about the road system, identifying an increased risk in accidents caused by greater usage arising from the proposed use of the Property. He also believes that the proposed use detrimentally impacts the health and general welfare of neighboring properties, particularly the

loss of tranquility and increase in noise. He also opined that the proposed use is inconsistent with the zoning classification and spirit and intent of the zoning regulations in light of the preference expressed in the zoning regulations and Master Plan to preserve rural areas from intense development. Mr. Jakubiak also felt it important to note the site's proximity to the Long Green Rural Legacy Area, though the subject Property does not fall within its borders.

On cross-examination, Mr. Jakubiak admitted he does not know when the Property was last used in an agricultural manner. He also did not know the location of the closest property presently used for an agricultural purpose. Harkening back to his testimony regarding the Master Plan, Mr. Jakubiak acknowledged community plans are adopted as part of the Master Plan and, as relevant here, the Greater Kingsville Area Community Plan was adopted by the County Council in 1996 into the Master Plan.

Mr. Jakubiak testified that visual impact and noise are important considerations under BCZR §502.1. Mr. Jakubiak, however, did not know if the main building was visible from surrounding properties, including the Clark property. Similarly, he did not know if the grassy area that may be used for overflow parking was visible from other properties. With respect to noise, Mr. Jakubiak suggested that to reduce noise, a buffer be as close as possible to the source of the noise to limit the impact upon nearby properties.

II. Subject Property and Surrounding Area

The Property consists of 30.8 acres, with 12231 Harford Road, in Glen Arm, as its address. It is located, generally, in between Hutschenreuter Road (to the south) and Glen Arm/Mount Vista Road (to the north). The Property is outside the Urban-Rural Demarcation Line. The Property, called "Bella Vista," was originally developed by Charles J. Bonaparte (for this reason, the Property is also referred to as the "Bonaparte property"). The site and the barn are historic and

listed on the Maryland Inventory of Historic Properties. In addition, a historic mile marker visible from Harford Road is located on the Property. The Property is zoned RC-2 and is surrounded by other properties zoned RC-2, with the exception of the northeast corner of the Property, starting at Bonaparte Avenue, which is zoned RC-5.

The concrete house that exists today replaced the original house that was burned down in 1933. The house sits prominently up on a hill and is visible at certain points along Harford Road. In addition to the historic barn and main house, the Property has a caretaker's house, a barn, a swimming pool, a bathhouse, and a tennis/multi-purpose court. There is an existing, active driveway on Harford Road across, but offset, from Bonaparte Avenue, and an abandoned driveway to Harford Road further to the south.

More recently, the Property had been owned by an area attorney, but fell into disrepair. The house had been abandoned in excess of ten years and the Property was subject to foreclosure or a tax sale. Mr. Ghimire stated that he first visited the site when it was for sale. During that visit, he saw graffiti inside and outside the main house, as well as beer bottles and needles littered throughout the Property. He also noted the trees and grass were overgrown and considered the Property to be "in really, really bad shape." Various photographs show graffiti, overgrown bushes and weeds, broken or missing windows, and other damage or disrepair. (See, e.g., Pet.'s Ex. 12(a)-(e)). Mr. Ghimire testified that some of the structures and features are in poor condition and need to be removed or repaired.

Ms. Twining, when visiting the Property after its sale, described the Property at that time as "torn up" and "ramshackle looking." Mr. Poehler, who lives next door to the Property, echoed her testimony about the general state of disrepair referenced in the section above. He described the house as a "little distressed," with vandalism and graffiti. Mr. Ghimire identified the efforts to

clean up the Property and restore it, though by the last day of the hearing, there still was no running water or functioning sewer facilities or septic system.

The Property has historically been used as a residence. Ms. Twining testified that she and her extended family have lived on their collective adjacent properties for over two hundred years. She believes that the Property has never been used for farming. The presence of the barn and its historic designation of "Bella Vista Farm" suggests the Property had an agricultural use in the past, but the record is silent as to what agricultural activity may have occurred or when so used. Based on Ms. Twining's testimony, the Property has not been used as a farm or used for agricultural purposes for at least 35+ years.

The general area has a significant farming history and has been considered rural. For example, Dr. Mary Clark, who resides across the street from the Property, testified about her concerns, including the identification of the area as "one of the last rural valleys in Baltimore County." Dr. Mary Clark noted the presence of not only farm equipment on Harford Road, but also commuter traffic, tractor-trailers, and bicycles. Ms. Mason, who resides on Harford Road approximately 1.3 miles south of the Property, used the same language as Dr. Mary Clark when describing the general area ("one of the last rural valleys in Baltimore County"), adding "the residents have worked hard to maintain the RC-2 rural nature of [the] valley."

Petitioner's expert, Mr. Motsco, also considered the general surrounding area as a "rural area." Mr. Motsco described the surrounding area as consisting of "some farmland with some scattered houses." Though there are farm operations in the general area, Mr. Motsco testified that there are no farms immediately adjacent to the Property. He identified single-family houses on the western and northern sides of Harford Road, across from the Property. To the east of the

Property are a church and a school (Christian Redeemer). In addition, the Beachmont Camp is also located to the east and is adjacent to the Christian Redeemer property.

III. Residential/Commuter Growth and Area Traffic Conditions

Testimony on both sides revealed that the general area is growing in residential and commuter use. For example, Ms. Twining testified that there "are a lot more people living out [in the area] than just the farmers we have always had." Dr. Mary Clark, in expressing her concerns about the possible impact upon traffic from the proposed used, noted an increase of commuter traffic on Harford Road independent of the proposed use, noting "the traffic situation is getting worse every day." Ms. Mason observed that "[o]ver the years, the traffic on Harford Road has increased dramatically." When asked on cross-examination about the volume of traffic, she testified, "all I know is a lot."

Mr. Colaggero, in connection with his traffic count analysis (Pet. Ex. 29), determined that the highest volume of traffic on Harford Road between Glen Arm Road/Mount Vista Road and Hartley Mill Road (*i.e.* inclusive of the Property) occurred on weekdays between 7:00 am-8:00 am for the southbound traffic. He testified national statistics reveal that Harford Road can carry a capacity of 1,700 vehicles an hour. (Id. p. 1). According to Mr. Colaggero, the national statistics from which that number was derived take into account the size of the road, the terrain, the lack of shoulders, the number of lanes, a speed of 45 MPH, and other criteria. Mr. Colaggero testified and showed that the peak times on Saturday and Sunday resulted in a peak usage rate of 16% and 21% respectively.

Mr. Colaggero also studied the specific intersection of Bonaparte Avenue and the entranceway of the Property with Harford Road. Using the critical lane volume methodology utilized by the Maryland State Highway Administration ("SHA") for its intersection studies, Mr.

Colaggero determined that there was "plenty of available capacity at this turning location during the evening peak hour to accommodate more turning maneuvers and more through volume." The calculations that prompt his opinions were based on assumptions as to the number of vehicles that may turn into the Property. Mr. Colaggero took the peak hour on Saturday (12:00 pm-1:00 pm) to identify actual volume on the road and applied the number of turns (based on assumptions). He testified that even if 400 additional vehicles (that is beyond what he had assumed) were added at the peak hour, there would still be more than ample capacity to accommodate the influx of vehicles.[2]

Mr. Colaggero also applied the Unsignalized Intersection Methodology used by SHA to look at operations, that is, how long may it take a vehicle to enter the roadway from Bonaparte Avenue or the Property. He determined that during the weekday evening peak hour, it would take approximately 14 seconds for a vehicle to make its turn northbound and 8 seconds to turn southbound.[3] As such, he considered the northbound site access approach to have a "B" level of service, but the southbound side to have an "A" level of service, concluding it to be a "very good intersection," operationally as well as by capacity.

Mr. Colaggero next examined traffic accident data from 2015-2018 (2018 was partial), with Hutschenreuter Road and Vista View Court as, respectively, the southern and northern boundaries for the data analysis. That stretch comprises 1.1 miles of Harford Road and is inclusive

[2] The representation of the usage was first identified by Mr. Colaggero in his testimony on Sept. 6, 2018, as, on weekdays, "approximately 20 people coming to the temple on a weekday...20 trips in, 20 trips out..." and on weekends as "less than 100 people would visit during [...] the entire day." SHA required a trip generation analysis based on the Institute of Transportation Engineer's (ITE) Trip Generation Manual methodology, which yielded a lower volume of trips to and from the site if and once used as a temple. Mr. Colaggero used different methodology that resulted in a greater volume than the ITE methodology. Notably, Mr. Colaggero's doing so also inures to the benefit of Protestants.

[3] Mr. Colaggero incorrectly, but understandably so, identified the southbound turn as "Westbound" in Petitioner's Exhibit 29 based on the map appearance of Harford Road at the Property, which appears east-west, though still designated north-south.

of the Property. Mr. Colaggero highlighted the number of crashes 500 feet in both directions of Bonaparte Avenue (and therefore, more or less, the Property's entranceway). So, for example, of the 12 accidents that occurred within that 1.1 miles, only two occurred within 500 feet of either direction of Bonaparte Avenue in 2015, with two more occurring in 2016, four in 2017, and two in the first quarter of 2018.

As such, he testified he did not consider the Bonaparte Avenue intersection to be "an accident-prone intersection." Rather, he noted that the accidents appeared to be ones where vehicles were traveling too fast for conditions. Police reports would likely reveal more details as to how and why the accidents occurred, but few were made part of the record.

On cross-examination, Mr. Colaggero admitted all his analyses rely upon conditions in the past and at present, but he factored in presumed growth from the proposed use. The information he relied upon for the presumed growth came from his understanding as to the operations based on representations made to him of the expected regular use --- less than 20 people during each weekday and less than 100 people on weekends. He admitted he did not account for conditions that may exist during festivals or other larger events, but testified that typically a traffic engineer would not focus on the aberrational usage.

Mr. Colaggero also contrasted the accident data identified in Protestant's Exhibit No. 10 with Petitioner's Exhibit No. 30. In short, the exhibits use different data sets and the data was obtained from different sources.

Protestants' Exhibit No. 10, identified reported traffic crashes on Harford Road between Hartley Mill and Glen Arm Roads occurring between January 1, 2016 and April 1, 2018. Protestants' Exhibit No. 10 reveals a significant number of motor vehicle accidents within that stretch, including ones with personal injury. Petitioner's Exhibit 30 reported the traffic crashes on

Harford Road between Hutschenreuter Road and Vista View Court (identified as a 1.1-mile stretch of road) between January 1, 2015 and April 1, 2015. Petitioner's Exhibit 30 also has a further breakdown of crashes "in Bonaparte Ave. area, 1000 feet," which Mr. Colaggero testified meant 500 feet north and south of Bonaparte Avenue. Looking at the data supporting that conclusion, it is apparent that the crashes highlighted as being within 500 feet in both directions of Bonaparte Avenue are actually crashes within 250 feet of each direction from Bonaparte Avenue.

Rather than use an expert to address the studies by Mr. Colaggero or otherwise present evidence regarding traffic congestion, Protestants relied upon the testimony of Mr. Poehler, Ms. Mason, the Clarks, and others to identify the potential hazards caused by the existing road conditions, which they believe will be exacerbated by the additional volume of traffic to and from the Property. Protestants' land use expert, Mr. Jakubiak, though not a traffic engineer, provided his opinions from a planning perspective about the hazards presented within the relevant stretch of Harford Road. He opined planners account for the road system and conditions (*e.g.* speed) as part of project consideration. As such, he took the road features and conditions (echoing the testimony of others, *e.g.* testifying "The road is winding, with sharp, hairpin turns…") into account and concluded that leaving and entering the Property presents a significant risk for accidents due to the greater "scale use" in comparison to the prior use as a single-family residence.

Indisputably, Harford Road around the Property presents additional challenges and requires greater attention and care in that area. Harford Road, designated as Maryland Route 147, in the general area of the Property runs north-south, leaning northeast-southwest. However, Harford Road, proceeding northbound along the Property, takes a sudden almost 90 degree turn east just before Bonaparte Avenue.

The witnesses who reside in the area expressed opinions that Harford Road in and around the Property is dangerous. By way of example, Ms. Twining has "always felt" that "Harford Road is not a very safe road." Dr. Mary Clark described Harford Road around her and Petitioner's properties as "a narrow, two-lane road, with blind curves and no shoulder...one of the most treacherous sections of road in Baltimore County." Ms. Mason testified that the area of Harford Road along the Property has blind curves, which she believes makes it a "hazardous area." Mr. Poehler, the next-door neighbor to the Property, believes that, irrespective of the location of the entranceway to the Property, the area at issue is "a dangerous stretch of Harford Road period."

The neighboring residents also provided anecdotal testimony of familiarity of accidents on Harford Road that they have seen, were aware of, and/or even in which they were involved. Some of the accidents identified occurred several miles away from the Property. Some were closer. Though none of the ones identified occurred in the immediate vicinity of the entranceway of the Property, the anecdotal evidence provided by these residents suggests that there have been problems north and south of the Property. Mr. Poehler, in fact, summarized it as "just living at the property and living along Harford Road, you're going to experience accidents and high traffic...it's almost a way of life there." The anecdotal evidence does not rise to the level of that from an expert or rebut the studies performed, but is illustrative and offers some measure of support of the witnesses' beliefs that the road conditions in the area of the Property presents certain challenges that, generally, are not experienced elsewhere.

IV. Petition and Use Evidence

Petitioner requests special exception relief to allow a temple for religious worship on property zoned RC-2. To that end, Petitioner called Mr. Ghimire to identify how Petitioner intends to use the Property. Mr. Ghimire testified that the existing main house will be used as the temple.

The temple is intended to attract Nepalese Hindu practitioners, but can also serve those that observe Buddhism, as there are commonalities between the religions that make a temple accessible to both.

In addition to the main house, Mr. Ghimire identified other buildings and features, as well as conditions, on site, including a caretaker's house which requires renovations, a historic barn in "kind of bad shape," a swimming pool "that needs to be removed" as it is not in a usable condition, a former tennis court that can serve as a multi-purpose court for children, and a bathhouse that is "also in bad shape and that will be removed as well." There is an entranceway, depicted across from Bonaparte Avenue. Mr. Ghimire identified another driveway off Harford Road toward the south of the Property that has not been used in years and "is not in good condition."

The main building has a main hall with high ceilings and can hold 80-100 people for services. There are two big rooms on the ground floor that can serve as office space. The caretaker house may be used as the residence of a "guru," who will lead prayers. Petitioner intends to preserve and maintain the historic barn. Mr. Ghimire later clarified that the main level of the house would be used for actual religious ceremony and services, but "[t]he upstairs would be more like a back office."

The Hindu religion is a contemplative religion and is unlike western religions with a dedicated day for prayer. Hindus may come to engage in individual prayer at any time or on special days that are personal, for example, to commemorate death of loved ones, celebrate anniversaries and birthdays. Hindus may come to participate in religious rice-feeding ceremonies, which celebrates when babies first take a bite of rice, analogizing the ceremony (*Bratabanda*) to a baptism. Receptions for these rice-feeding ceremonies would follow at a restaurant or other off-site venue.

This temple will install statues of major deities. The temple will be open throughout the week to those that choose to worship particular deities. There are three-to-five major festivals, including *Dashain,* which runs for 15 days and has two major days within that festival.

As for expected daily use, Mr. Ghimire first testified that on a typical, non-festival day practitioners will visit the site at various times throughout the day, amounting to 10-20 people in total. Subsequent to that testimony, he said there could be up to 15-20 at one time, maybe less, on non-festival days. Petitioner's expert witnesses testified that Petitioner represented the typical use as 10-20 people at the site on any given day. To reconcile, the testimony reveals that, on average, the expectation as to usage is up to 10-20 visitors per day, and perhaps even up to 15-20 at one time. In contrast, the testimony about attendance on festival days was clear --- festivals could bring in 150-200 people at one time. For the two major days, Mr. Ghimire expects even more people may come to the site beyond the number that attends on other festival days. On festival days, prayer would take place inside the temple, but festivities can be outside.

Mr. Ghimire stated that attendees on festival days and attendees for routine visits or on a weekly basis would be present on average between 15 minutes and an hour per visit. Mr. Ghimire testified that while there is no set time for prayer or worship, people will not appear at "5:00 in the morning," just between "9:00 and 8:00 pm, or whatever time they prefer, so during the daytime they will, at their convenience, they come and go." He subsequently testified that the hours of worship would be from "8:00 am onward to like 8:00 or 9:00 pm," seven days a week. When asked whether the hours would run from 8:00 am until 10:00 pm, Mr. Ghimire stated "Practically, I think 8:00 am to 8:00 pm," noting he would look at the hours of operation.

As and when a *bhajan* [hymn] is requested as part of services or as part of a special ceremony, at those times, the music will be in indoors. In any event, no amplification equipment is required.

Mr. Ghimire testified that they will not be building any new buildings on the Property. They will not operate a day care or school. Mr. Ghimire testified that Petitioner will not have any camps. Petitioner does not plan to use the old road and driveway at the south of the Property.

Petitioner intends to keep the existing tennis court, and as noted above, make it a multi-sport court, but will not significantly enlarge it. Mr. Ghimire clarified that the court is "not really part of essential…temple operation." There are no athletic fields being proposed. Mr. Ghimire testified "[t]he pool will not be there…the pool will be removed," and the bathhouse as well. Mr. Ghimire stated that the religious activity would take place in the main building, and therefore, the religious activity "has nothing to do with the swimming pool and bathhouse." As for the barn, they "have no use for it right now…[they] don't have any plans for it." They will restore, but not enlarge, the caretaker's house.

Petitioner proposes to have 38 parking spaces, though this number is not based on seats, as there are no actual seats. There will be temporary chairs for special events. Mr. Motsco testified that the number of spaces was derived from the estimated maximum number of people expected to attend a regular event and County input regarding that estimate. When an event calls for more visitors, such as a festival, adjacent grassy areas can handle overflow parking.

The cultural activities and/or other activities with a non-religious purpose, such as those that may be found at a community center, will not take place on the Property. Rather, Mr. Ghimire testified Petitioner intends to have such non-religious, community center-type activities occur

offsite at another building on Taylor Avenue in Parkville, leaving the temple as a place of religious services.

Protestants, however, spent much of their time addressing the alleged Code violations arising from special events held, and to be held on the Property, as well speculating about the future possibility of the Property serving as a community center or a much larger facility for uses beyond religious services.

The judicial powers and functions bestowed upon this Board by the Express Powers Act via the County Charter, County Code and Zoning Regulations are not the same as the judicial powers and functions embodied in the courts created by the Maryland Constitution. Dep't of Natural Resources v. Linchester Sand & Gravel Corp., 274 Md. 211, 222; 334 A.2d 514, 522 (1975). This Board is not empowered to *sua sponte* find Petitioner in violation of a code provision in the absence of the issue arising through the regular code enforcement process and being properly appealed to and in front of the Board. No code enforcement case was part of this hearing. Nevertheless, Protestants did not alter the presentation of their evidence or testimony.

Some of Protestants' evidence identified certain conditions that presently exist without the proposed use (traffic issues, noise runoff issues, etc.), supplemented by a belief the proposed use could, or in more of a conclusory manner, will, make these existing conditions worse. Protestants elected to not present expert testimony to support their arguments that certain issues will be exacerbated by the proposed use or otherwise to directly rebut Petitioner's experts in their specific fields of expertise, relying instead upon Mr. Jakubiak and at times, Dr. Dewey Clark's critiques of Petitioner's experts.

The Board does not trivialize or minimize the importance of the issues to the Protestants. To the contrary, it was more than evident to this Board that Dr. Dewey Clark in particular

undertook exhaustive efforts, underscoring their importance to him and Dr. Mary Clark. Mr. Poehler shared his wife's struggle with dealing with the issues presented by this case, testifying that she could not attend the hearing due to the stress it causes her.

However, the Express Powers Act, County Charter, County Code, and County Zoning Regulations specify the powers and authority of this Board and, as relevant here, the evidence and factors for the Board to evaluate and decide in connection with a special exception petition. Much of the evidence presented did not aid the Board in its analysis of the special exception factors. Similarly, much of the relief Protestants sought was simply beyond the power of the Board for this hearing. The Board cannot order the County to undertake a code enforcement investigation or to issue citations; nor can the Board render advisory opinions on alleged or potential code enforcement issues. The Board similarly cannot deny a special exception petition on the basis of a future code violation that may or may not ever occur.

V. Applicable Baltimore County Zoning Regulations

As noted above, the subject Property is zoned RC-2. The County Council, in creating resource conservation zones, made several findings and identified several purposes for the designation:

§ 1A00.1. - Findings.

It is found:

A. That development in the rural areas of Baltimore County has in recent years been taking place at an increasing rate;

B. That this development has occurred without the framework of a land use plan or other planning components;

C. That due to this and other factors, this development has formed very undesirable land use patterns;

D. That in general, these patterns are, or can be described as, urban sprawl;

E. That a significant amount of urban sprawl development is occurring as linear development along the various highways of the rural areas of the county as tracts of land immediately fronting along highways are "lotted off"; the utility of the road system is being impaired and future improvements will be frustrated if this process continues;

F. That it has been established that this development carries with it an extremely high cost to the county in a number of respects including:

1. The cost of servicing this pattern of development;
2. The cost with respect to its consumption and use of prime agricultural land, critical watershed areas, mineral extractive sites, as well as of other important natural resource areas;
3. The cost of future development opportunities due to the fact that viable, rational alternatives will be lost totally or compromised significantly by the present form of development;

G. That the aspect of the comprehensive plan that is applicable and which is being considered for rural Baltimore County embodies solutions to the various problems;

H. That the effective implementation of this plan requires additional zoning classifications; and

I. That effective implementation of the resource conservation area requirements in the Chesapeake Bay Critical Area criteria requires additional resource conservation zoning classifications to accommodate strictly controlled growth while conserving habitat and water quality within the Critical Area.

§ 1A00.2. - Purposes.

Pursuant to the above findings, it is the purpose of the Resource Conservation Zones to:

A. Discourage present land use patterns of development and to create a framework for planned or orderly development;

B. Provide sufficient and adequate areas for rural-suburban and related development in selected and suitable areas;

C. Protect both natural and man-made resources from compromising effects of specific forms and densities of development;

D. Protect areas desirable for more intensive future development by regulating undesirable forms of development within these areas until such time as intensive development commences.

E. Help achieve the goals of the Chesapeake Bay Critical Area Protection Law by enacting land use policies to control development within the Critical Area by

conserving the land and water resource base for agriculture, forestry and other natural resource uses; minimizing adverse effects on water quality; and conserving fish, wildlife and plant habitat.

The use sought by Petitioner is that of a religious institution and BCZR §1A01.2(C)(6) permits by special exception churches or other buildings for religious worship within a RC-2 zone. Baltimore County Zoning Regulation §502.1 establishes that before any special exception may be granted, it must appear that the use for which the special exception is requested will not:

A. Be detrimental to the health, safety or general welfare of the locality involved;
B. Tend to create congestion in roads, streets or alleys therein;
C. Create a potential hazard from fire, panic or other danger;
D. Tend to overcrowd land and cause undue concentration of population;
E. Interfere with adequate provisions for schools, parks, water, sewerage, transportation or other public requirements, conveniences or improvements;
F. Interfere with adequate light and air;
G. Be inconsistent with the purposes of the property's zoning classification nor in any other way inconsistent with the spirit and intent of these Zoning Regulations;
H. Be inconsistent with the impermeable surface and vegetative retention provisions of these Zoning Regulations; nor
I. Be detrimental to the environmental and natural resources of the site and vicinity including forests, streams, wetlands, aquifers and floodplains in an R.C.2, R.C.4, R.C.5 or R.C.7 Zone, and for consideration of a solar facility use under Article 4F, the inclusion of the R.C. 3, R.C. 6, and R.C. 8 Zones

In addition to the special exception factors in §502.1, BCZR requires the Board to find, in RC-2 cases, that the use would not be detrimental to the primary agricultural uses in its vicinity. BCZR §1A01.2(C).

VI. Special Exception Law and Discussion

A. Burden of Proof and Presumptions

Maryland courts historically have considered special exception uses as ones conditionally compatible with uses permitted as of right in the same zone. See, *e.g.,* Creswell v. Baltimore Aviation Serv., Inc., 257 Md. 712, 719; 264 A.2d 838, 842 (1970). The Court of Appeals revisited the law on special exception in 1979 with the seminal case of Schultz v. Pritts, 291 Md. 1; 432

A.2d 1319 (1979). In Schultz, the Court of Appeals held that a special exception is presumed to be in the interest of the general welfare, and therefore a special exception enjoys a presumption of validity. 291 Md. at 11; 432 A.2d at 1325.

In 2016, the Court of Appeals in Attar v. DMS Tollgate provided additional guidance on the presumption that accompanies a proposed special exception use. 451 Md. 272; 152 A.3d 765 (2016). First, the Court reiterated that the special exception petitioner has both, the burden of production and the burden of persuasion. Attar, 451 Md. at 287; 152 A.3d at 773, *quoting* People's Counsel for Balt. Cty. V. Loyola Coll. In Md., 406 Md. 54, 109; 956 A.2d 166, 199 (2008); *see also*, Board of Appeals Rule 7(d), "the proponent of an action to be taken by the Board has the burden of proof." Second, the Court clarified that the concurrent presumption in favor of the special exception petitioner is not a mutually exclusive evidentiary burden. Attar, 451 Md. at 286; 152 A.3d at 773.

Referencing Maryland Rule 5-301(a),[4] the presumption identified by Schultz v. Pritts satisfies the burden of going forward on a fact presumed (in this case, the special exception is in the interest of the general welfare, and therefore has a presumption of validity) and "*may* satisfy the burden of persuasion if no rebuttal evidence is introduced by the other side." Attar, 451 Md. at 286-287; 152 A.3d at 773; *quoting* Anderson v. Litzenberg, 115 Md. App. 549, 564; 694 A.2d 150, 157 (1997) (emphasis in original).

---

[4] Md. Rule 5-301 sets forth:
(a) Effect. Unless otherwise provided by statute or by these rules, in all civil actions a presumption imposes on the party against whom it is directed the burden of producing evidence to rebut the presumption. If that party introduces evidence tending to disprove the presumed fact, the presumption will retain the effect of creating a question to be decided by the trier of fact unless the court concludes that such evidence is legally insufficient or is so conclusive that it rebuts the presumption as a matter of law.
(b) Inconsistent presumptions. If two presumptions arise which conflict with each other, the court shall apply the one that is founded upon weightier considerations of policy and logic. If the underlying considerations are of equal weight, the presumptions shall be disregarded.

The presumption is that a special exception use is valid, that is, one that *can* conform to the zoning plan depending on the location, zoning classification, and impacts on the surrounding area. The presumption that inures to a special exception petitioner's benefit requires a special exception protestant to present probative evidence of any harms or other detrimental impacts, as identified in BCZR §502.1, to the surrounding neighborhood that are above and beyond the impacts that may be experienced elsewhere in the zone from this proposed use (Schultz, 291 Md. at 22-23; 432 A.2d at 1331) and/or other noncompliance with applicable zoning regulations to warrant a denial. In other words, a special exception protestant must show "non-inherent adverse effects," or "unique adverse effects" to overcome the presumption that the proposed use is in the interest of the general welfare and compatibility. *See*, Clarksville Residents Against Mortuary Defense Fund, Inc. v. Donaldson Properties, 453 Md. 516, 543; 162 A.3d 929 (2017); Attar, 451 Md. at 287; 152 A.3d at 774.

If a special exception protestant presents sufficient evidence to create a genuine dispute of material fact as to a particular special exception factor or other zoning requirement, the evidentiary record must be sufficient to persuade the Board of Appeals that the proposed use will conform to the applicable zoning plan and satisfy the specified factors. Attar, 451 Md. at 286-287; 152 A.3d at 773; *quoting* Anderson, 115 Md. App. at 564; 694 A.2d at 157. Even still, the Board can grant the special exception petition along with certain conditions or restrictions to better protect the surrounding and neighboring properties. BCZR §502.2. If the burden of persuasion is not met, the Board will deny the petition.

B. Defining the Neighborhood/Surrounding Properties

At the start, the Board must determine what the locality or neighborhood is in order to determine what if any impact the proposed use has above and beyond effects inherently associated

with a special exception use. Attar, 451 Md. at 278-284, 289; 152 A.3d at 769-772, 775. As stated by the Court of Appeals: "the Board's task is to determine if there is or likely will be a detriment to the surrounding properties" (Id., 451 Md. at 280; 152 A.3d at 769-770); the Board must assess "whether there are facts and circumstances that show that the particular use proposed at the particular location proposed would have any adverse effects above and beyond those inherently associated with such a special exception use irrespective of its location within the zone." Schultz v. Pritts, 291 Md. 1, 22-23; 432 A.2d 1319, 1331 (1979). Therefore, the question is whether the expected effects from the proposed use are somehow exacerbated by the location at issue, to the detriment of those to experience such effects. For a special exception, the description of the neighborhood to be impacted by the proposed use "must be precise enough to enable a party or appellate court to comprehend the area that the Board considered." Attar, 451 Md. at 282; 152 A.3d at 771.

For this case, the Board finds the neighborhood at issue includes that area bordered by Hutschenreuter Road to the south, Glen Arm Road/Mount Vista Road to the north, the properties along Harford Road, including the Poehler and Clark residences specifically, the other residences on the former Marc Lane at Harford Road, those properties on Bonaparte Avenue, and all other bordering properties. As will be discussed in more detail below, the relatively nearby agricultural uses are excluded from this definition. There is nothing in the record that suggests an expansion beyond the corridor and surrounding properties adjacent to the Property is warranted. As such, the neighborhood at issue is the residential corridor along Harford Road between Hutschenreuter Road and Glen Arm/Mount Vista Roads to the north and the other properties that share a border with the Property.

C. Application of the BCZR §502.1 Special Exception Factors

Protestants focused their opposition on certain factors under BCZR §502.1 and did not address, and therefore, did not attempt to rebut, other factors. The Board finds that Protestants have not presented any meaningful evidence on certain factors to sufficiently challenge the presumption in favor of Petitioner, namely, §§502.1(D), (E), (F), and (H).[5] Moreover, Petitioner has presented sufficient evidence to satisfy those factors.

The factors contested by Protestants include: (A) the health, safety or general welfare of the locality; (B) congestion in roads, streets or alleys; (C) the potential hazard from fire, panic or danger; (G) inconsistency with zoning classification and spirit and intent of the zoning regulations; and (I) the detrimental effect to the environmental and natural resources of the site and vicinity including forests, streams, wetlands, aquifers and floodplains in an RC-2, RC-4, RC-5 or RC-7 Zone. As noted above, because this Property is within the RC-2 Zone, the Board must also find that the proposed use is not detrimental to the primary agricultural uses in its vicinity. BCZR §1A01.2(C).

1. §502.1(A) Health, Safety, or General Welfare of the Locality

Noise is not expressly identified in the BCZR §502.1 factors. However, given the purpose for the factors, namely addressing harms and detrimental impacts to be experienced by the surrounding community, the Board interprets noise as being included within the "health, safety or general welfare," factor and, as such, ripe for consideration.

[5] By way of explanation, Protestants' closing memorandum does not address §§502.1(E), (F), or (H). As for §502.1(D), Protestants argue that, at present, there is not a functioning septic system that can handle large festivals. First, the use complained of by Protestants has been represented, and accepted, as atypical. Nevertheless, Mr. Powell, Petitioner's Licensed Environmental Specialist who provided testimony concerning the septic needs based on the proposed use, testified he believed that the site was sufficient for the intended use. This testimony was unrebutted. He also identified that, for the special events, port-o-potties would be used, which, for this special exception hearing, is not a sufficient basis for the Board to conclude that there will be an undue concentration or overcrowding.

Protestants, primarily through the Clarks and Mr. Poehler, identified noise as a significant concern. Dr. Dewey Clark specified two aspects, a general noise concern, but also what he referred to (and others impliedly so) as preservation of "solitude." To that point, Dr. Dewey Clark provided audio and video recordings with audio of the ambient noise he experiences at his property. The Clarks analogized the cars passing on Harford Road to the sound of breaking waves. To be sure, the evidence establishes a more serene, peaceful environment than other parts of the County. That is easily observed in the audio and video clips, as well as photographs. The Clarks and Mr. Poehler identified specific events with amplified music and atypical noise, whether by time or volume, as well as volleyball games.

The noise associated with operation of the proposed temple is no different at the present location than it would be experienced in other parts of the zone. Moreover, without trivializing the importance of this to the Clarks and Poehlers, they can neither expect, nor can this Board order, a particularized, subjective limitation on the level of noise that is permitted to come from the Property in furtherance of their individualized interests, especially where that subjective level of noise has the potential to intrude upon Petitioner's ability to use the Property in a lawfully valid manner and such noise potential from the Property exists today without the granting of a Petition.

Aiding in reducing the Protestants' concern, the Property has a substantial tree and vegetative buffer between the Property and the Clark house, though somewhat less so for the Poehlers. The activities to take place on the Property are largely confined to the main building area, a significant, even if imperfect, distance from the Poehler and Clark residences. The evidentiary record does not establish any exacerbation or amplification caused by the Property's elevation compared to the surrounding properties. To the contrary, as noted above, Protestants played several clips of audio from the Clarks' property ostensibly to illustrate overly invasive noise

emanating from the Property, which sits higher than the Clarks' property. Those clips, however, failed to do so. The Board does recognize that larger events could generally be more intrusive in this manner. As such, the Board will order as a condition that additional landscaping be planted at the border with the Poehler house and its curtilage, as well as on the west side of the multi-purpose court to increase the buffer density in those areas. In addition, the Board will also order that there is to be no outdoor amplification of sound.

It has been argued that the Foxworthy house located on the corner of Bonaparte Avenue at Harford Road will suffer adverse impacts, particularly as to headlight intrusion and runoff, as a result of the proposed use. First, as to runoff, Protestants failed to present sufficient evidence to determine whether the existing conditions on the Property are causing runoff to drain onto the Foxworthy property, let alone evidence to establish the proposed use will exacerbate any existing drainage issue or cause additional runoff.

Mr. Motsco's testimony established that runoff from Harford Road generally falls toward the Property, which has a culvert and a storm drain inlet. As such, the evidence presented shows that whatever runoff from the Property that makes it out to Harford Road (which is assumed for this discussion) is more likely to drain to and run along the culvert on the south side of Harford Road (the Property side) rather than travel over Harford Road to the Foxworthy property. Even still, Petitioner will be required to submit for approval a storm water management plan and will be required to comply with the applicable regulations and requirements at all times like any other property located in the County. Therefore, if there is a subsequent determination that some improvement from the Property may cause or exacerbate the runoff issue, mitigating measures will be required by the County.

As to headlight intrusion, based on Petitioner's Exhibit No. 26, headlights from vehicles turning left while exiting the Property will sweep across Bonaparte Avenue. Mr. Colaggero testified he did not conduct a study to analyze this aspect, but also did not know where the exact exit location would be. SHA will be providing additional input at the time of the access permit.

The final locations of the entrance and exit obviously are significant factors, as there could be a detrimental impact upon residents on Bonaparte Avenue, and in particular, the Foxworthy property. Due to the uncertainty caused by not having an exact exit location at this time, the Board is ordering as a condition of this approval that all traffic exiting the Property must turn right. Imposing this condition addresses several issues: (1) avoiding headlight intrusion upon the Bonaparte Avenue properties; (2) prevent blinding or distracting drivers driving north on Harford Road when coming around the blind curve; and (3) as discussed in greater detail below, improving safety and helping to prevent traffic congestion on Harford Road at or near the Property. Doing so will not cause an undue hardship on the visitors to the Property as the Mount Vista/Glen Arm/Harford Road roundabout is close to the Property.

While traffic issues identified contemplate the health, safety and general welfare of the locality, all traffic issues will be addressed within the discussion of §502.1(B).

2. §502.1(B) Congestion in Roads, Streets, or Alleys

Protestants have raised concerns regarding additional volume, *i.e.* congestion, on Harford Road as well as safety along Harford Road due to the increased volume. With respect to the congestion argument, nearly every witness acknowledged that they have observed a noticeable increase in traffic volume throughout Harford Road, including in the vicinity of the Property, in recent years. Protestants' witnesses expressed a concern that the additional volume will detrimentally impact travel along Harford Road (in the vicinity of the Property) by increasing the

probability of accidents, which presents a danger to nearby residents who use that stretch of road more frequently. Clearly, use of the Property as proposed will cause more drivers to use Harford Road for access to the Property. The relevant questions are: (1) will the proposed use cause traffic congestion, and if so (2) how at this location is that congestion worse than other locations in the RC-2 Zone. Those questions will be addressed separately.

a) Congestion

As noted above, Mr. Colaggero, Petitioner's traffic engineer, conducted several examinations, particularly, traffic counts as to capacity and as to operations, sight distance analysis and a speed study between September 26, 2018-October 9, 2018. That evidence is summarized above. Protestants relied upon undermining Mr. Colaggero's testimony and supplementing the record via lay witness testimony rather than through the use of an expert to address the studies and opinions by Mr. Colaggero.[6] The lay witness testimony relevant to traffic congestion was similarly summarized above.

Mr. Colaggero's testimony on the traffic congestion issue was credible, convincing, and unrebutted. Mr. Colaggero's opinions and supporting calculations rely upon the representations of typical operations made by Petitioner to Mr. Colaggero. While Protestants question those representations, the typical usage data provided is information required for his expert evaluation and information necessary for Mr. Colaggero's calculations and it was the only data provided to him.

It is undisputed that there will be an increase in traffic volume caused by the typical use. However, it is similarly undisputed that the capacity of Harford Road in and around the Property

[6] Dr. Dewitt Clark testified he thought they were better off by relying on cross-examination of Mr. Colaggero instead of retaining a traffic expert with whom Protestants consulted for this hearing.

can easily handle the expected increase. Protestants did not offer evidence of possible specific effects upon traffic flow, congestion, and/or turning delays if the representations/assumptions as to typical usage are underestimated or otherwise incorrect. As Protestants did not have a traffic engineer to provide evidence to contradict Mr. Colaggero or Petitioner otherwise, Mr. Colaggero's calculations and opinions are the only evidence in the record on this issue.

In fact, Mr. Colaggero testified that if another, *e.g.,* 400 vehicles at the Saturday peak hour were added to his assumptions, the intersection would still be considered within the level of service for an "A" rating (*i.e.,* the highest rating) under the CLV methodology. There is more than sufficient capacity, whether based on the assumed/represented usage or a significantly greater volume, and it cannot be concluded that the projected increase in operational delay creates any significant congestion. Petitioner has met its burden on this aspect of this factor.

b) Safety Issues Presented By Increase Traffic Volume (§502.1(A),(B),(C))

As referenced above, it seems to be the one point in this case on which there appears to be consensus among the parties --- Harford Road along the Property's northwestern, northern, and northeastern edges presents certain challenges, and that stretch may be considered hazardous with existing conditions. To be more specific, the particular stretch of Harford Road at issue is that which, heading north, sweeps around a bend, described as a "blind curve" by several witnesses, proceeding in easterly, then southeastern direction, before entering another curve just prior to Bonaparte Avenue and the Property's entranceway, proceeding east, before sweeping out of the curve and headed northeast just past the Poehler house (approximately 1,000 feet in roadway length). (*See*, e.g., Pet. Ex. 26).

From the start of that stretch until the house on the northwest corner of Bonaparte Avenue and at the Property entrance, Harford Road is surrounded by a substantial number of tall deciduous

trees and other vegetative growth that may obscure sight lines around the curves as well as light. (*See, e.g.,* Pet. Ex. 19 (No. 2-4) and 26 (No. 4-5)). The embankment boxing in Harford Road sits at a significantly higher elevation on the eastern, and therefore, Property side, of Harford Road. From Bonaparte Avenue and the Property entrance heading north, there are, again, a significant number of tall deciduous trees and also vegetative growth that may obscure sight lines around the curves. There are no shoulders along Harford Road in this stretch. At various points, there are guardrails (*See, e.g.,* Pet. Ex. 26, photo 4), road signage warning of sharp curves/turns (*e.g.* Pet. Ex. 26, photos No. 3 and 5; Pet. Ex. 19, photos No. 2-3), and a recommended reduced speed limit sign. (Id.)

Mr. Colaggero provided testimony about the signage, explaining their use by SHA and what the signs are communicating to drivers. He identified several traffic signs along Harford Road, and understood from the signs, SHA considers the course of the road as "reverse turn area," which reflects "a more severe turn, not a curve." He understood the speed sign of 30 mph as a "SHA recommend[ation]" that applies to that stretch of Harford Road at issue, for both the northbound and southbound traffic. The chevron signs act as "additional warning signs on the turns themselves." Otherwise, Harford Road northbound has a speed limit of 50 mph, while southbound is 45 mph.

Based on the presence of the guardrails, road signage, and recommended reduced speed limit sign, it is reasonable to conclude that this stretch of Harford Road has had a higher volume of accidents and/or near-accidents and SHA determined remedial measures were required. Yet, it appears that the relevant stretch of Harford Road still may present a greater risk of accidents than other nearby stretches of Harford Road. Video clips presented by Dr. Dewey Clark and the

testimony of witnesses on both sides support such a finding. This finding, however, is not dispositive of this factor.

Mr. Colaggero's sight distance analysis helps with the safety aspect for this factor. To start, he superimposed the contour lines provided to him by Mr. Motsco on the roadway network. (*See*, Pet. Ex. 26). Petitioner, however, seeks to split the entranceway into an entrance lane and a separate exit lane, which requires shifting the location of the entrance and exit. Following SHA granting conditional approval of the concept plan depicting a split entrance and exit (as reflected in Pet. Ex. 27) during the pendency of this hearing, Mr. Colaggero conducted his sight distance analysis anew (*See*, Pet. Ex. 26).

As reflected in Petitioner's Exhibit 26, at the proposed new exit at the Property, SHA requested Mr. Colaggero provide a minimum of 390 feet looking south (*i.e.* left), based on northbound traffic proceeding at 35 mph coming out of the first curve/turn. Looking north (to the right) from the proposed exit lane, SHA requested an intersection sight distance of 500 feet based on a speed of 45 mph for those southbound vehicles on approach to the Property. SHA also wanted a minimum intersection sight distance for the southbound traffic left-hand turn into the Property of 285 feet, based again on a speed of 35 mph of northbound traffic coming out of the first curve/turn. Lastly, SHA requested a stopping sight distance of 360 feet based on southbound traffic at 45 mph.

For this 500 feet intersection sight distance and 360 feet of stopping distance to be achieved, vegetation growth on the north side of Harford Road, starting at Bonaparte Avenue and around the curve at the Poehler driveway, must be cleared and maintained. SHA acquired a right-of-way at this location to clear and maintain the vegetation growth on the north side (southbound traffic side) of Harford Road. As for the south side (the northbound side of traffic), SHA will

make a determination of what is required and if clearing and maintenance on the Property is necessary. SHA, as part of the access permit process, may either acquire a right-of-way from Petitioner or condition its approval and require Petitioner to clear and maintain this area.

As noted above, accident data was also presented by both sides. (Prot. Ex. 10, Pet. Ex. 30). Protestants' Exhibit 10 concerns accidents that occurred from 2016-first quarter of 2018, on Harford Road, between Hartley Mill Road (south of the Property) and Glen Arm Road (to the north), but there are no further details about the accidents, the specific locations, or causative or contributing factors. Petitioner's Exhibit 30, assembled by Mr. Colaggero and/or his office after cross-examination on Protestants' accident data, identifies accidents that occurred from 2015 through first quarter 2018, on Harford Road, in between Hutschenreuter Road (to the south of the Property) and Vista View Court (to the north). The data identifies a report number, date, surface conditions, time, mile marker location, road name, distance, direction, and a code briefly describing mechanism for the occurrence of an accident (*e.g.* "Making Left Turn"). Petitioner's exhibit has much more information than Protestants, but because the exhibits use different data by time as well as location, and also sourcing, there is little value in attempting to compare or reconcile the two.

The area of particular relevance for evaluation would be that section between Hutschenreuter Road, to the south, and Glen Arm/Mount Vista to the north. Even still, some of the information may not be applicable or otherwise be relevant to this case as, in 2016-2017, SHA reconstructed the previously non-aligned intersection at Glen Arm Road, Mount Vista Rd. and Harford Road as a roundabout. As identified by the lay witnesses, there had been numerous accidents at that intersection prior to reconstruction. Mr. Colaggero testified that he understood SHA began studying the Glen Arm/Mount Vista/ Harford Road intersection in 2009. Accident

data inclusive of pre-roundabout accidents at that location lessen the importance of the data unless those accidents (as well as other outside of area considered relevant) can be identified. Whatever intersection and road conditions caused or contributed to the occurrence of the accidents at the Glen Arm/Mount Vista location no longer exist and, obviously, will not exist going forward.

Excluding data of accidents that occurred at or near the intersection of Glen Arm, Mount Vista, and Harford Roads, Petitioner's Exhibit 30 provides some evidence that a higher number of accidents occurs within the relevant stretch of road at a higher rate than the remainder of the studied area (primarily, the area along the western edge of the Property to Hutschenreuter Road, and Harford Road north of the roundabout to Vista View Court). Out of the 20 accidents, 10 occurred within the surrounding neighborhood defined above. Notably, the accidents that occurred within 250 feet of the intersection of Bonaparte Avenue and Harford Road, and therefore the proposed entrance and exit to the Property, are also within the improved intersection sight distance and improved stopping distance required by SHA.

SHA has provided its preliminary input to Petitioner as to how to make the Property entranceway safer, which requires relocating and splitting it (as well as maintaining vegetation that may obscure sight lines). The only information in the record regarding an assessment as to the safety risk presented by the proposed use comes from Mr. Colaggero. Mr. Colaggero has opined that his understanding of the proposed use of the Property in combination with the SHA-requested sight distances makes the relevant stretch of Harford Road safe. SHA, as part of the access permit process, may have more input as to further improvements.

Given the inherent heightened level of danger this stretch of road presents, the representations identified by Mr. Colaggero and confirmed by Mr. Ghimire as to expected typical use take on greater importance. In other words, because the Board's decision is premised upon

the unrebutted representations as to the expected typical use, any use that leads to more vehicles than those used in Mr. Colaggero's studies may create a greater risk, especially considering that this stretch of roadway is particularly complicated and more dangerous than found elsewhere. Greater usage will foreseeably lead to more stacking and/or queuing outside of the Property's entranceway, potentially causing a greater risk for accidents given the visual obstructions and sight distance issues, particularly for traffic going northbound around the "blind curve."

SHA has proposed changes to help alleviate these concerns based on the representations. The Board notes that if vehicle usage well exceeds the models, SHA's remedies may not adequately abate or alleviate the dangers presented by this stretch of road. The Board, however, can only base its decision upon the evidence presented, which reveals that, as proposed, certain measures have been or will be required by SHA to address safety issues. The only evidence in the record is that the entranceway and exit can be made safer than existing conditions, even with the increased vehicle traffic accessing the Property.

Based on this evidentiary record, the Board finds that Petitioner has met its burden on this issue and factors. There is no competing evidence regarding sight distances or other evidence upon which the Board can rely to conclude otherwise. Nevertheless, as set forth above, the Board's imposition of a right-turn only for any vehicles exiting the Property will provide additional relief to minimize traffic from queuing on Harford Road outside of the Property's entrance, helping to address the safety concern. The Board will also impose as a condition on Petitioner that Petitioner complies with SHA's requirements and recommendations, and also that Petitioner maintain the vegetation on its Property in order to maintain sight lines along Harford Road at all times.

3. §502.1(C) Potential Hazard from Fire, Panic, or Danger

Protestants presented evidence through video clips of events at the Property of certain fire code violations and the use of fire at an event. None of those clips or the testimony from Protestants poses any sufficient challenge to the presumption afforded to Petitioner, let alone causes the Board to conclude the proposed use creates a hazard of fire, panic, or danger. In any event, there is no evidence at all that suggests any risk of fire, panic, or danger is greater with the proposed use at this location. Moreover, Petitioner will not be exempt from compliance with the fire and building codes. Petitioner has satisfied this factor.

4. §502.1(G) Consistency with Zoning Classification/Spirit and Intent of Zoning Regulations

While this factor has been contested, the Board finds Petitioner has met its burden on this factor. The RC-2 Zone permits buildings for religious worship as special exception use. Other religious institutions exist in the RC-2 Zone. In fact, one religious institution is adjacent to the Property. Agricultural land is not being removed or changed as a result of this Petition. Ms. Twining testified she did not think the Property had ever been used as a farm while she has been in the area. Moreover, the evidentiary record established that, though there may have been a significant history of agricultural use in the general, broader area, the immediate subject area is now primarily residential, with other non-agricultural uses in the vicinity.

There is nothing in the record that establishes the residential and other non-agricultural uses within the immediate area affect the agricultural uses outside of it and therefore, there is no basis to conclude that the proposed use will have such an effect simply by its location. Similarly, there is nothing in the record to support a finding that the proposed use somehow detrimentally impacts the surrounding area to a greater extent than if located elsewhere to render the proposed use inconsistent with the spirit and intent of the zoning regulations. As such, the Board finds that

the proposed use is consistent with the RC-2 Zone general provisions under §1A01.1 or otherwise consistent with the spirit and intent of other applicable RC-2 regulations of the BCZR.

Protestants further argue that the propose use is inconsistent with the Baltimore County Master Plan 2020, particularly because the Property is zoned RC-2 and is located on a designated Scenic Corridor. The Board, having already found no inconsistency with the RC-2 aspect of this argument, also finds no inconsistency with the Property being located in a designated Scenic Corridor. The Master Plan 2020 states as a policy action for protecting scenic corridors: "(9) For properties along scenic routes or within scenic view sheds, variances, amendments, and special exceptions should be granted *sparingly*." (emphasis added).

The only proposed change that will be observable along the scenic corridor will occur at the entrance and exit, which is a minimal disruption, and the appearance will be consistent with other driveways or private roads in the nearby area. Notably, there is already a driveway present, but with this approval and the conditions imposed, the entranceway will be split to address safety concerns, which, of course, is of paramount importance.

The Master Plan 2020 expressly contemplates granting of special exceptions for properties along scenic routes, just that granting such petitions should be done carefully. The Master Plan 2020 cannot be reasonably interpreted as precluding all special exception uses, and specifically, the proposed use, even if in a RC-2 zone and along a Scenic Corridor.

The Greater Kingsville Area Community Plan, adopted by the County Council in 1996 into the Master Plan, includes the Property within its borders. The Community Plan recognizes that for development of religious institutions in the area, the development "should be located in close proximity to major roadways such as Harford and Belair Roads, and provide a suitable buffer commensurate with size and usage from neighboring properties." (Pet. Ex. 46, at p. 27).

As such, the Board finds that the proposed use is consistent with the zoning classification, zoning regulations, or the Master Plan 2020, including the Greater Kingsville Area Community Plan.

5. Detrimental Effect to the Environmental and Natural Resources of the Site and Vicinity

The Board finds that Petitioner has met its burden on this factor as well.[7]

It is noted Dr. Dewey Clark has some experience in environmental matters (training and volunteer work as a master naturalist) and his testimony on these points has been taken into consideration; however, Dr. Dewey Clark was not offered or received as an expert witness on environmental and natural resource matters.

While Dr. Dewey Clark expressed concerns about site drainage having impacts on the Gunpowder River and trout in nearby streams, no evidence was presented that identified the particular impacts, causation, proximity of sensitive areas to activities on the Property, or other such evidence required to find that Protestants successfully rebutted this factor.

Another issue raised by Dr. Dewey Clark concerned the possible use of non-native and invasive plantings. More accurately, he wishes for, if approved, a requirement that native plantings be used as part of any landscaping. The Board understands how requiring native plantings will help the site and vicinity and help prevent detrimental impacts from non-native species, and finds the suggested condition reasonable. Therefore, a condition requiring the same shall be imposed,

[7] It is noted that Petitioner addressed the septic and well issues under this factor in its post-hearing memorandum, while Protestants discussed it under §502.1(D). Protestants identified the issues of soil compaction and permeability caused by overflow parking. As stated above, the overflow parking is associated with the special events, not typical use. If the overflow parking was required on a continuous basis with a greater volume of regular attendees, the Board may have reached a different conclusion on this factor (but Petitioner would also have presented different evidence). The Board confines its decision to the proposed use, which does not require regular use of overflow parking on to the surrounding grass. Moreover, the evidence presented by Protestants can only be considered speculative and as such, insufficient as evidence.

to the extent that such a condition does not infringe upon the free exercise of religion, as is expressed in more detail below.

6. Detrimental to the primary agricultural uses in its vicinity. BCZR §1A01.2(C)

The Board finds that the proposed use will not be detrimental to the primary agricultural uses in its vicinity. In fact, as the Board has described the surrounding area and defined the neighborhood, there are no, agricultural uses along the relevant stretch of Harford Road or that are immediately adjacent to the subject Property. More specifically, the general area has properties with agricultural uses, but there are no farms immediately adjacent to the Property. While there may be farm equipment using Harford Road at various points, those points are not within the vicinity of the Property. The immediate vicinity is primarily residential in nature, along with the presence of the adjacent Christian Redeemer property and Beachmont Camp. There are no primary agricultural uses near the Property, therefore, the proposed use cannot be a detriment.

VII. Case No. CBA-19-004

On July 2, 2018, Mr. Kotroco, on behalf of Petitioner, wrote a letter to Judge Beverungen seeking clarification of his January 22, 2018 Opinion and Order regarding whether Petitioner could hold a fundraiser on the Property. (Pet. Ex. 34). Judge Beverungen responded the following day by writing on the letter, that the January 22, 2018 decision related solely to the operations of a building for religious worship, and that the owners are free to gather on their property so long as no religious activities are occurring within the subject building and all other permit requirements, if any, are satisfied. (Id).

Protestants filed a "Motion to Strike Tim Kotroco Letter Dated July 2, 2018 As Ex Parte And Not In The ALJ Jurisdiction To Opine." (Prot. Ex. 1, CBA-19-004). Protestants have argued that the letter was read into the record in an effort to "influence the judgment of this Board." (Prot.

Response to Case No. CBA-19-004). Protestants also contend that the letter was never served upon them, whether before or after Judge Beverungen's response.

Protestants subsequently clarified their position to note that they do not request that the letter be stricken, "only that the effect of the letter be ruled inappropriate and unduly presented and relied upon." (Id). It should be noted that Protestants did not object at the time that the Petitioner sought to move it for admission into evidence, but did note they would have a motion regarding it for the next hearing date after it was moved into evidence. In fact, counsel for Protestants, at one point, consented to its admission.

Simply, the Board finds that Judge Beverungen had no jurisdiction over the matter, irrespective of whether it constituted impermissible *ex parte* contact and without the need to untangle the lack of an objection followed by a motion and the request to strike, but only the effect, not the letter itself. The July 3, 2018 response had no effect upon the January 22, 2018 Opinion and Order, or the proceedings in front of the Board. Case No. 18-122-X had been properly appealed, divesting the court below with jurisdiction. The clarification had no effect on the Opinion and Order issued by the ALJ in Case No. 18-122-X or these proceedings. While it should not have occurred in the manner it did, no one should interpret the July 3, 2018 response has having any legal effect. As such, the Board dismisses the appeal of Case No. CBA-19-004 as there is nothing to remand, grant, or deny.

VIII. Exhaustion of Administrative Remedies

As noted above, Protestants sought to introduce documents and testimony regarding alleged code enforcement violations and what they have represented as a lack of adequate response and/or inaction in enforcement on part of the County. As noted above, no code enforcement matter was pending in front of the Board. Therefore, the Board did not admit the evidence relating to the

alleged code enforcement matters or the attempts at contacting County officials about them. Rather, Protestants requested that the Board find that Protestants have exhausted all administrative remedies on this issue.

Typically, administrative remedies must be exhausted prior to seeking judicial remedies, depending on whether the administrative remedies, relative to judicial remedies, is categorized as exclusive, primary and concurrent. Falls Rd. Cmty Ass'n v. Balt. County, Md., 437 Md. 115, 136; 85 A.3d 185, 197 (2014). For an appeal to this Board by a party "aggrieved by a decision of a local zoning official," the remedy at issue is at least primary, and may be exclusive. Id *quoting*, Maryland Reclamation Associates, Inc. v. Harford County, 382 Md. 348, 364-65; 855 A.2d 351 & n.6 (2004).

The Board finds that the remedies sought by Protestants on the alleged code enforcement issues are beyond the jurisdiction of the Board and/or those issues are otherwise not properly in front of the Board, precluding Protestants from any administrative remedies on the alleged code violation and enforcement issues and/or the County's actions or inactions concerning the same. Simply, the relief sought by Protestants on this issue, as understood by the Board, is beyond the authority and jurisdiction of this Board and Protestants will have to seek those remedies in another court.

IX. Evidentiary Issues Concerning Protestants' Exhibits 22 and 23

As stated above, Protestants called Mr. Ghimire as an adverse witness in their case. During the course of that examination, Protestants attempted to question Mr. Ghimire about two fights (to be clear, neither fight involved or concerned Mr. Ghimire in any way) that occurred on January 28-29, 2018, one at an event held at St. Joseph's Catholic Church called "Nepal Idol" modeled after "American Idol" and one at a restaurant after the first incident. The police were called to

respond to both fights. Protestants intended to introduce police reports (Protestants Exhibits 22 and 23) in support.

When first raised, it was unclear what the evidence was, what its purpose was, and the connection to Mr. Ghimire. Early on in that testimony, Mr. Ghimire was asked whether he sponsored or hosted an event at St. Joseph's Catholic Church. As that question caused some confusion to Mr. Ghimire, counsel for Protestants was asked to clarify. Subsequent questioning revealed neither Mr. Ghimire individually, nor the Petitioner, was the host or sponsor for that event. As the questioning developed, it became clear that Protestants wanted to establish that Petitioner was a sponsor for the Nepal Idol event to illustrate that Petitioner was, somehow, responsible for the fights. Objections raised by Petitioner to the police reports and questions to Mr. Ghimire were sustained as there was no connection between the incidents and Petitioner.[8]

Following Mr. Ghimire's examination on October 23, 2018, Protestants' engaged in subsequent, multiple efforts to have the police reports be part of the evidentiary and/or case record. The purpose for the questions and intent to introduce the police report, as well as the complete disregard for the Board's rulings, prompts the Board's atypical discussion in this Opinion of its evidentiary rulings.

On November 27, 2018, Protestants filed its "Motion to Admit Protestants Exhibits 23 and 24" which included additional documents beyond the police reports identified on October 23, 2018.[9] Within the Motion, Protestants stated that the additional documents evidence a link between the Nepal Idol event (and therefore, fights) to Petitioner. Protestants describe the two

[8] It needs to be noted that when the Board sustains objections to documents and items offered into evidence, the evidence is classified as "identification only." The Board is required to keep the rejected evidence as part of the case file in the event a party appeals a decision by the Board, but the "identification-only" evidence is not considered as part of the evidentiary record for the Board's deliberations.
[9] The Motion erroneously identified the exhibits as "Protestants Exhibits 23 and 24" instead of Exhibits 22 and 23.

fights, noting the first one occurred in the parking lot of St. Joseph's Church, and the second occurred around 1:00 a.m. at the Mount Everest Restaurant, identified as the after-party location hosted by the restaurant. One of the sponsors was identified as Ghimire Homes and one of the event organizers was identified as an attendee of several hearing dates in this case. Protestants looked at the names on the hearing sign-in sheets and, in conclusory form, referred to them as being "directly involved" with the Nepal Idol event because these individuals were thanked by the event organizers on a Facebook post.

In arguing its relevance as to why it should be admitted, Protestants' Motion raised the following question:

> If this type of behavior demonstrated in the police reports is indicative of the [Petitioner] behavior on a property they ***rented*** (St. Joseph's Catholic Church Hall), what can the local community expect regarding their behavior on a property they ***own*** (12231 Harford Road)? (emphasis in original).

The Motion goes on to state:

> Given that between 10,000 and 20,000 individuals of Nepalese descent reside in the greater Baltimore area, neighbors of 12231 Harford Road located in a rural agricultural R.C. 2 Zone are entirely justified in their concerns regarding health, safety, and **danger from the behavior of those attending NAACB events**, as evidenced by the January 28 and 29 police reports. (emphasis added).

On January 29, 2019, the Board denied the Motion for multiple reasons, which will be identified and addressed below as, due to the multiple attempts, the reasons to reject the evidence are applicable throughout the multiple attempts to use it.

On February 4, 2019, Protestants next filed their "Motion to Reconsider the Board's Decision to Readmit Protestants Exhibits # 22 and # 23" on the basis that the police reports were not admitted because Protestants had not adequately linked Ghimire Homes to Kris Ghimire. The Board asked counsel for Protestants at one point directly, "Are you offering this evidence for any

other purpose?" to which counsel for Protestants indicated there was no other purpose. The Board, once again, denied the Motion and rejected the evidence.

Despite the three prior rulings, Protestants, in their closing Memorandum, once again included the thrice-rejected police reports. Protestants did so under the guise of needing to, preemptively, address an argument they assumed Petitioner would make. The Board finds the proffered excuse wanting. Nevertheless, for clarity's sake, because the disputed exhibits are not part of the evidentiary record, the Board did not consider them.

The multiple attempts at getting the disputed exhibits into evidence or for the Board's consideration compels the Board to explain the reasons why the Board denied Protestants' use of these documents.

First, the purported evidence had no relevance or materiality to the issues in front of the Board. In particular, the Board was far from persuaded that Petitioner could be considered the sponsor of the Nepal Idol event and the Board was certain that Petitioner was not responsible for the actions identified in the police reports. The most elemental concept of corporate law is that a corporation is regarded as a separate legal entity. In other words, acts taken by an individual on behalf of a corporation are corporate acts; whereas, acts taken in a personal capacity do not bind the corporation. Turner v. Turner, 147 Md. App. 350, 425; 809 A.2d 18, 61 (2002). Petitioner is a corporation. Mr. Ghimire is a trustee for Petitioner. Mr. Ghimire, as identified in Protestants' Motion, is President of Ghimire Homes, LLC. Ghimire Homes, LLC was a sponsor of the Nepal Idol event. Mr. Ghimire may be authorized to act on behalf of each, but an act by Mr. Ghimire for one is not tantamount to an act by the other. Even if it is assumed Mr. Ghimire, individually,

played some role in putting on the event, actions by Mr. Ghimire individually are not attributable to Petitioner, nor are individual acts at events sponsored by corporations.[10]

Second, if probative value is assumed, and to be clear, the Board found and continues to find a complete absence of probative value, that any minimal probative value is substantially outweighed by the danger of unfair prejudice. Clark v. State, 774 A.2d 1136; 364 Md. 611 (2001); Maryland Rule of Evidence 5-403. Even if any probative value is assumed, the manifest, substantial weight of the unfair prejudice wholly eclipses the (assumed) probative value.

Third, for this hearing, as noted above, the Board must assess "whether there are facts and circumstances that show that the particular use proposed at the particular location proposed would have any adverse effects above and beyond those inherently associated with such a special exception use irrespective of its location within the zone." Schultz v. Pritts, 291 Md. 1, 22-23; 432 A.2d 1319, 1331 (1979). Evidence is only "material" if it tends to establish a proposition that has legal significance to the litigation. Bryant v. State, 881 A.2d 669; 163 Md. App. 451 (2005). For this purported evidence to be material to these issues, Protestants would be required to show how the particular use at this particular location would have adverse impacts above and beyond impacts experienced elsewhere. However, Protestants do not attempt to do so.

The mere fact that evidence rules are relaxed in administrative proceedings provides no relief to Protestants. Under the Board's Rules on evidence, any evidence which would be admissible under the general rules of evidence applicable in judicial proceedings in the State of

[10] In Protestants' Closing Memorandum, much like their Motion to Admit, Protestants argue Mr. Ghimire "misrepresented the facts regarding his involvement" in the Nepal Idol event. The Board did not and does not conclude Mr. Ghimire "misrepresented the facts regarding his involvement." First, the questions presented to Mr. Ghimire appeared to cause confusion, failing to distinguish between Mr. Ghimire's acts as an individual, on behalf of his corporation and/or Petitioner. The Board initially left room open for Protestants to show the evidence's relevance to Mr. Ghimire individually, but after receipt of Protestants' Motion, it became clear Protestants were conflating Mr. Ghimire's roles, which, as noted above, contravenes Maryland law, in addition to its other evidentiary frailties.

Maryland shall be admissible in hearings before the county board of appeals. Rule 7(a). The questions concerning the January 28-29, 2018 incidents and the documents regarding them present numerous evidentiary problems that would render them inadmissible in any courtroom and it requires their rejection here. Moreover, the Board's Rules require the evidence to be needful and proper and this evidence was neither needed, nor proper.

By attempting to use these exhibits, Protestants urge this Board to find that the fight is representative of what is likely to occur once the Property starts operations as a temple. In the best light to Protestants, this evidence is untethered to the facts, the special exception factors, and common sense. As noted above, there was never any reasonable or legitimate basis to argue Petitioner sponsored the Nepal Idol event, or controlled the premises of either incident location, or otherwise had any responsibility for the incidents that one night in January 2018. The Board, in fact, rejects any such assertion out of hand. Assuming *arguendo* Petitioner had some role in the event or location(s), the logical leap still fails to reach the other side of the evidentiary gorge, as it does not and cannot make it more likely fights will occur at the temple and/or that surrounding area is endangered as a result.

The Board sustained the objections regarding these exhibits and the questions asked and denied the motions as the case progressed. Though the exhibits were not part of the evidentiary record, Protestants nevertheless attached them to their Closing Memorandum.

The use of this evidence and the manner in which it was communicated during the hearing and in Protestants' closing memoranda reasonably may be interpreted in a far more egregious and odious manner. There are several examples in the record individually, but the cumulative effect casts its own shadow as well. Any suggestion, whether intended or not, that common heritage or ancestry may serve as a material factor to tie the two incidents to the temple use and operations

requires this Board to make it abundantly clear that evidence for that purpose, or anything within the orbit of its event horizon, cannot and will not be accepted or considered.

The Board, in fact, excluded that evidence from consideration as part of this decision. Instead, the Board focused only upon the testimony and evidence admitted into the evidentiary record.

X. CONCLUSION

For the foregoing reasons, the Petition is granted by the Board. Baltimore County Zoning Regulations § 502.2 empowers the ALJ and the Board of Appeals, in connection with granting any special exception petition, to impose conditions, restrictions or regulations as may be deemed necessary or advisable for the protection of surrounding and neighboring properties. As noted to varying degree above, the Board, pursuant to BCZR §502.2, will impose conditions as outlined in more detail below.

ORDER

THEREFORE, IT IS THIS 9th day of January, 2020, by the Board of Appeals of Baltimore County,

ORDERED that the Petition for Special Exception to allow a temple for religious worship on property zoned RC-2 is hereby **GRANTED**, subject to the following conditions under the Board's authority in §502.2:

1. Petitioner shall confine its hours of operation for non-religious events from 8:00 a.m. to 9:00 p.m.
2. The exit from the Property shall be right-turn only. Petitioner shall post and maintain proper signage indicating the exit is right-turn only at all times.

3. Prior to the issuance of any permits, Petitioner shall obtain from State Highway Administration (SHA) an access permit authorizing ingress and egress from the Property. Petitioner shall comply with SHA's access permit for the proposed entrance and exit. Petitioner also shall comply with the SHA requirements and recommendations. Petitioner shall also maintain the vegetation around the entrance and exit in strict conformity with required sight and stopping distances.
4. Petitioner shall submit all landscaping plans and all lighting plans to Baltimore County for approval.
5. Any tree(s) required to be removed for any improvement or construction of an improvement, Petitioner shall replace the removed tree with per-diameter equivalent replacement native species tree and each such replacement tree shall also provide similar or better shade and screening coverage. The replacement trees shall be planted in an area onsite that will increase the buffer density along the Property's border with the Poehler property in order to help screen the Property from the Poehler house and its curtilage.
6. Petitioner shall add landscaping to serve as an additional light and sound buffer between Petitioner's property and the Poehler property to increase the buffer density along the Property's border with the Poehler property in order to help screen the Property from the Poehler house and its curtilage. Petitioner shall add additional landscaping particularly at the Harford Road side (western side) of the multipurpose court to serve as an additional light and sound buffer between Petitioner's property and the Clark property and/or others in that area. All landscaping for these purposes is required to be approved by Baltimore County.
7. Any and all plantings, whether part of Condition No. 5, No. 6, or otherwise, shall consist of native species only, subject to approval by Baltimore County's landscape architect, with the sole exception for any plantings required for onsite for religious use.
8. Prior to the issuance of occupancy permits, Petitioner must demonstrate to DEPS that the well and septic systems will be sufficient to serve the proposed use. Prior to the issuance of permits, Petitioner shall also comply with any and all ZAC comments.
9. The outdoor amplification of sound shall not be permitted.
10. Petitioner shall obtain any and all necessary permits to have the pool and pool house demolished and removed prior to any demolition or removal. Any and all demolition or activity related to the removal of the pool and pool house shall only take place between 8:00 am and dusk.
11. Petitioner shall not organize, host, invite, conduct, or participate in any athletic program, league, or tournament on site. This condition does not preclude Petitioner from using the multipurpose court for athletic games or contests, only athletic programs, leagues, and/or tournaments.

12. Petitioner shall not use the Property as a community center, unless such community center-type activity is in furtherance of the exercise of religion and/or operation of the temple. Cultural activities and/or other activities with a non-religious purpose shall take place offsite.
13. Petitioner otherwise shall comply with the Baltimore County Code and Zoning Regulations at all times.

It is further,

ORDERED that the appeal in Case No. CBA-19-004 is dismissed as moot, as the court below had no jurisdiction over the matter at the time the letter was signed and sent, and the Order in Case No. 18-122-X otherwise resolves the subject matter of Case No. CBA-19-004.

Any petition for judicial review from this decision must be made in accordance with Rule 7-201 through Rule 7-210 of the *Maryland Rules*.

PROCEEDINGS BEFORE THE ADMINISTRATIVE LAW JUDGE AND THE BOARD OF APPEALS OF BALTIMORE COUNTY

TO THE HONORABLE, THE JUDGE OF SAID COURT:

And now comes the Board of Appeals of Baltimore County and, in answer to the Petition for Judicial Review directed against it in this case, herewith transmits the record of proceedings had in the above-entitled matter, consisting of the original papers on file in the Department of Permits, Approvals and Inspections and the Board of Appeals of Baltimore County:

ENTRIES FROM THE DOCKET OF THE BOARD OF APPEALS AND DEPARTMENT OF PERMITS, APPROVALS AND INSPECTIONS OF BALTIMORE COUNTY

Case No.: 18-122-X

October 31, 2017	Petition for Special Exception filed by Timothy M. Kotroco, Esquire on behalf of Nepali American Cultural Center pursuant to Section 1A01.2.C.6 of the Baltimore County Zoning Regulations to allow a Church or other building for religious worship on property zoned RC2.
November 7, 2017	Entry of Appearance filed by People's Counsel for Baltimore County.
November 22, 2017	Notice of Zoning Hearing
December 18, 2017	Certificate of Posting
December 28, 2017	Certificate of Publication in newspaper
January 11, 2018	ZAC Comments
January 17, 2018	Administrative Law Judge convened for a hearing. Hearing Sign-in sheets
January 22, 2018	Opinion and Order issued by the Administrative Law Judge wherein the Petition for Special Exception to allow a church or other building for religious worship on property zoned RC-2 was GRANTED, with conditions.
February 16, 2018	Notice of Appeal filed by J. Carroll Holzer, Esquire on behalf of DeWitt and Mary Clark, David Hartman, Dave Poehler, Morgan Miner, and Carol Shaw, Protestants.
February 22, 2018	Appeal received by the Board.
March 6, 2018	Notice of Assignment issued by the Board.
April 17, 2018	Letter to Board from Lawrence E. Schmidt, Esquire advising he has been hired to serve as co-counsel with Mr. Kotroco, requesting a postponement, and asking for a larger hearing room, perhaps the County Council.
April 26, 2018	Board convened for a Hearing on Preliminary Matters
April 2018 – June 2018	Miscellaneous scheduling e-mails
June 11, 2018	Notice of Assignment issued by the Board.
June 29, 2018	Stipulation by Parties for Record of Hearing.

July 19, 2018	Board convened for a Hearing, Day 1. Hearing sign-in sheets
July 30, 2018	E-mail to Board from Lawrence E. Schmidt, Esquire regarding number of people anticipated at next Board hearing.
July 31, 2018	E-mail to counsel and Baltimore County staff from Gunpowder Falls Watershed Preservation Association responding to Mr. Kotroco's e-mail to Mr. Holzer, as Mr. Holzer is out of town.

Case No.: CBA-19-004

July 2, 2018	Letter to ALJ Beverungen from Timothy M. Kotroco, Esquire requesting an interpretation of his Order, specifically the restrictions contained and whether or not a gathering on the grounds of the property will violate the restrictions.
July 3, 2018	Clarification statement signed by ALJ Beverungen.
July 30, 2018	Notice of Appeal to the County Board of Appeals from the Administrative Law Judge's *Ex Parte* Opinion dated July 3, 2018 filed by J. Carroll Holzer, Esquire on behalf of DeWitt and Mary Clark, David Hartman, Dave Poehler, Morgan Miner and Carol Shaw, Appellant/Protestants.
July 30, 2018	Appeal received by the Board.
August 8, 2018	Letter to J. Carroll Holzer, Esquire from Lawrence E. Schmidt, Esquire regarding appeal.
March 5, 2019	Response to Case No.: CBA-19-004 filed by J. Carroll Holzer, Esquire on behalf of Protestants.
March 5, 2019	Written Memorandum in Lieu of Closing Argument filed by Lawrence E. Schmidt, Esquire on behalf of Nepali American Cultural Center of Baltimore, Petitioner.

Case Nos.: 18-122-X and CBA-19-004

August 8, 2018	Letter to J. Carroll Holzer, Esquire from Lawrence E. Schmidt, Esquire regarding appeal of letter drafted by Mr. Kotroco.
August 10, 2018	Amended Notice of Assignment (Amended as to time only) issued by the Board.

September 5, 2018	Subpoena issued by the Board to Douglas Burgess, Esquire, and John Motsco, P.E., at the request of J. Carroll Holzer, Esquire
September 6, 2018	Board convened for a Hearing, Day 2. Hearing sign-in sheets
September 10, 2018	Letter to Board from Lawrence E. Schmidt, Esquire confirming future hearings will be held in the Board's hearing room.
September 10, 2018	Amended Notice of Assignment (Amended as to location only) issued by the Board.
September 12, 2018	Board convened for a Hearing, Day 3. Hearing sign-in sheets
September 12, 2018	Subpoena issued by the Board to Dewitt Clark at the request of Lawrence E. Schmidt, Esquire
October 3, 2018	Subpoena issued by the Board to Joseph Colaggero, P.E., and John Motsco, P.E., at the request of J. Carroll Holzer, Esquire
October 9, 2018	Objection to and Motion to Quash Subpoena filed by Douglas W. Biser, Esquire on behalf of Dewitt Clark.
October 11, 2018	Board convened for a Hearing, Day 4. Hearing sign-in sheets
October 23, 2018	Board convened for a Hearing, Day 5. Hearing sign-in sheets
November 1, 2018	Board convened for a Hearing, Day 6. Hearing sign-in sheets
November 16-19, 2018	Miscellaneous scheduling e-mails
November 19, 2018	Letter to Board from Lawrence E. Schmidt, Esquire regarding video discs offered into evidence by Mr. Holzer.
November 26, 2018	Letter to Board from J. Carroll Holzer, Esquire in response to Mr. Schmidt's letter regarding admissibility of video evidence.
November 26, 2018	E-mail to counsel from Board regarding November 29, 2018 hearing.
November 27, 2018	Motion to Admit Protestants Exhibits 23 and 24 filed by J. Carroll Holzer, Esquire
November 29, 2018	Board convened for a Hearing, Day 7.

December 13, 2018	Notice of Assignment, Additional Days, issued by the Board.
December 14, 2018	Petitioner's Response to Motion to Admit Protestants' Exhibits 23 and 24 filed by J. Carroll Holzer, Esquire
December 21, 2018	Protestants Reply Memo to Petitioners Response to Motion to Admit Protestants Exhibits #22 and #23 filed by J. Carroll Holzer, Esquire
January 17, 2019	Protestants Motion to Strike Petitioners Exhibit #34 as *Ex Parte* filed by J. Carroll Holzer, Esquire
January 29, 2019	Board convened for a Hearing, Day 8.
January 30, 2019	Board convened for a Hearing, Day 9.

RE: Petition for Judicial Review
Circuit Court Civil Action No.: C-03-CV-20-003922
In the Matter of: Nepali American Cultural Center of Baltimore
Board of Appeals Case Nos.: 18-122-X and CBA-19-004

Dear Counsel:

Notice is hereby given, in accordance with the Maryland Rules, that a Petition for Judicial Review was filed by J. Carroll Holzer, Esquire on behalf of Donna Carter, *et al.*, in the Circuit Court for Baltimore County from the decision of the County Board of Appeals rendered in the above matter. The County Board of Appeals received written notification of acceptance from the Circuit Court for Baltimore County on November 9, 2020. Any party wishing to oppose the petition must file a response with the Circuit Court for Baltimore County within 30 days after the date of this letter, pursuant to the Maryland Rules.

In accordance with the Maryland Rules, the Board of Appeals is required to submit the record of proceedings of the Petition for Judicial Review within 60 days. Mr. Holzer, having taken the appeal on behalf of his clients, is responsible for the cost of the transcript of the record and the transcript must be paid for in time to transmit the same to the Circuit Court within the 60 day timeframe as stated in the Maryland Rules.

Courtsmart was the official record of the hearings before the Board. The disk(s) will be copied by this office and provided to you for transcription. The transcriptionist must meet the requirements set forth in Maryland Rules which states: "*a stenographer, court reporter, or transcription service designated by the court for the purpose of preparing an official transcript from the recording.*" The Board of Appeals can assist in obtaining a qualified transcriptionist upon request.

Please be advised that the ORIGINAL transcript must be provided to the Board of Appeals no later than DECEMBER 31, 2020 so that it may be transmitted to the Circuit Court with the record of proceedings, pursuant to the Maryland Rules.

A copy of the Certificate of Compliance has been enclosed for your convenience.

Very truly yours,

Tammy A. Zahner
Legal Secretary

RULING ON MOTION FOR RECONSIDERATION

This case comes to the County Board of Appeals ("CBA") on a Motion for Reconsideration ("Motion") which was timely filed by DeWitt and Mary Clark, David Hartman, Dave Poehler, Morgan Miner, Carol Shaw, Greater Kingsville Civic Association, Inc. and the Gunpowder Falls Watershed Preservation Association (collectively "Protestants") by their attorney J. Carroll Holzer, Esquire, proposing that the CBA re-open and reconvene a hearing on the merits of newly submitted plans and evidence. The original Petitioner and property owner, Nepali American Cultural Center of Baltimore ("Nepali"), by it attorneys, Timothy M. Kotroco, Lawrence E. Schmidt and Smith, Gildea & Schmidt, LLC, submitted a Response to the Protestants' Motion for Reconsideration.

This matter initially came before the CBA on a Petition for Special Exception to permit a temple for religious worship at the above captioned property. The hearing on this case occurred over the course of 11 days between July 2018 and February 2019. On January 9, 2020, the CBA issued an Opinion and Order granting the requested relief.

The Board held its deliberation on the Motion to Reconsider on June 24, 2020. The Board, for the reasons that follow, concluded that no hearing was warranted and denied the Motion.

The Motion for Case No. 18-122-X raised a number of concerns about (i) the contradictory and confusing language within the conditions of the Order, (ii) the failure to define "Religious Use," (iii) the failure to provide precise specifications of the conditions and, (iv) requested additional conditions be added to the Order. The Protestants' Motion for Case No. 19-004 raised concerns about the "*ex parte*" letter signed by the Administrative Law Judge Beverungen.

The Board members agreed with the legal points raised by Petitioner's counsel in its Response to Protestants' Motion for Reconsideration including, but not limited to, that there was no new or different facts introduced by the Protestant' memo and that there was no new law, ordinance or other regulation since the CBA's decision that would provide the Protestants with the relief it seeks. Moreover, the CBA noted that some of the objections to the conditions were conditions that that Protestants requested during the underlying case.

Similarly, the CBA noted that the CBA's revisory power is limited by its Rule 11, which states "the board shall have revisory power and control over the order in the event of fraud, mistake or irregularity". The Motion for Reconsideration did not allege any fraud, mistake or irregularity.

Conclusion

After reviewing the Motion and the case record, the Board unanimously finds none of the issues raised warrant a hearing on the Motion or relief on part of Protestants and agrees the Motion should be denied.

ORDER

THEREFORE, IT IS THIS 16th day of October, 2020, by the Board of Appeals of Baltimore County,

ORDERED, that the Motion to Reconsider is hereby **DENIED** for the reasons set forth herein.

Any petition for judicial review from this decision must be made in accordance with Rule 7-201 through Rule 7-210 of the *Maryland Rules*.

BOARD OF APPEALS OF BALTIMORE COUNTY
MINUTES OF DELIBERATION

IN THE MATTER OF: Nepali American Cultural Center 18-122-X and CBA-19-004

DATE: June 24, 2020

BOARD/PANEL: William A. McComas, Chair
Deborah C. Dopkin
Adam T. Sampson

RECORDED BY: Tammy A. Zahner, Legal Secretary

PURPOSE: To deliberate the following:

Motion to Reconsider and Request for Hearing, and Response thereto.

PANEL MEMBERS DISCUSSED THE FOLLOWING:

DISCUSSION

- The Board noted that the standard to grant a Motion to Reconsider must show new developments, situations, facts, or change in law.
- The Board discussed the Motion to Reconsider which requests the Board to clarify the alleged ambiguity of certain conditions contained in the Board's Opinion and Order. The Board noted that the Motion does not contain any new facts, situations or changes in law but is a request to clarify certain conditions.
- The Board found no substantial material changes or facts or new law to cause the Board to reopen the case. The Board noted that when they issued the Opinion and Order much thought was given to the conditions, some of which were at the Protestants' suggestion.
- The Board found that the movants have failed to meet the burden for the granting of a Motion to Reconsider.

CONCLUSION: After thorough review of the facts, testimony, and law in the matter, the Board unanimously agreed to DENY the Motion to Reconsider.

NOTE: These minutes, which will become part of the case file, are intended to indicate for the record that a public deliberation took place on the above date regarding this matter. The Board's final decision and the facts and findings thereto will be set out in the written Opinion and Order to be issued by the Board.

Respectfully Submitted,

Tammy A. Zahner

NOTICE OF DELIBERATION ON MOTION FOR RECONSIDERATION

IN THE MATTER OF: Nepali American Cultural Center
12231 Harford Road
18-122-X 11th Election District; 5th Councilmanic District
And CBA-19-004

Re: Motion to Reconsider and Request for Hearing filed by J. Carroll Holzer, Esquire on behalf of Protestants, on February 6, 2020.

Pursuant to Rule 10 of the Board of Appeals' Rules of Practice and Procedure, a public deliberation on the Motion for Reconsideration and any response thereto is

ASSIGNED FOR: JUNE 24, 2020 AT 9:00 A.M.

The above scheduled public deliberation will be held remotely using WebEx for audio and video participation. **Call-in information and a link to the public deliberation will be posted on our web calendar the night before at** www.baltimorecountymd.gov/Agencies/appeals/index.html.

NOTE: PUBLIC DELIBERATIONS ARE OPEN WORK SESSIONS WHICH ALLOW THE PUBLIC TO WITNESS THE DECISION-MAKING PROCESS. A WRITTEN OPINION AND ORDER WILL BE ISSUED BY THE BOARD WITHIN A REASONABLE TIMEFRAME AFTER DELIBERATION AND A COPY SENT TO ALL PARTIES.

If you do not have access to a computing device, please contact our office for the call-in information the day before the scheduled deliberation.

PETITIONER'S RESPONSE TO MOTION FOR RECONSIDERATION

The property owner/petitioner, Nepali American Cultural Center of Baltimore (hereinafter "Petitioner" or "Nepali"), by and through their attorneys, Timothy M. Kotroco, Lawrence E. Schmidt and Smith, Gildea & Schmidt, LLC, files this response to the Motion for Reconsider and Request for Hearing filed herein by Dewitt and Mary Clark, David Hartman, Dave Poehler, Morgan Miner, Carol Shaw, Greater Kingsville Civic Association, Inc. and the Gunpowder Falls Watershed Preservation Association (hereinafter referred to collectively as the "Protestants") and states as follows[1]:

THE PROTESTANTS' MOTION IS IMPROPER AS A MATTER OF LAW

Protestants' Motion for Reconsider and Request for Hearing ("Protestants' Motion") must be denied for multiple reasons. First (and fundamentally), as has been previously articulated by this Board in considering like motions, a motion for reconsideration is properly considered only when "some new or different factual

[1] David Poehler, the immediate next door neighbor to the property and arguably most impacted person by the proposed temple use has since withdrawn as a Protestant.

situation exists that justifies a different conclusion." *Calvert County v. Howlin Realty, Inc.*, 364 Md. 301, 325 (2001). In this case, the Protestants have not identified "some new or different factual situation." The Protestants were present at the hearing, fully participated thereat and offered substantial testimony, evidence and argument. The Protestants have not met the standard necessary and have failed to allege any new or different facts that justify a reconsideration. Indeed, Protestants' Motion simply restates their objections and repackages the same arguments previously advanced at the hearing before this Board. Likewise, there has been no intervening change in the law that would justify a different result. (*See e.g.* Brown v. Hovatter, 525 F. Supp. 2d 754 (D. Md. Dec. 11, 2007) If the Protestants take exception to the January 9, 2020 Opinion and Order issued by this Board ("Opinion"), they are not without recourse. Protestants can always pursue judicial review of the Opinion. Motions for Reconsideration should be granted sparingly and this one is not justified in this case. (*Pacific Ins. Co. v. Am. Nat'l Fire Ins. Co.*, 148 F.3d 396, 403 (4th Cir. 1998)

As to the specific requests made in the Motion, Petitioner responds as follows:

I. Case No.: 18-122-X

The request for reconsideration under this section of the Protestants' Motion seems to ask that the Board's decision to grant the special exception be reversed and that the petition be denied. This request for denial is disguised as a request that this Board define what constitutes "religious use" of the property and also that the Board limit the size of the special exception area. However, these issues were raised by the Protestants at the hearing, and thus, they have been considered and addressed by the Board. Having failed

to convince the Board at the hearing, Protestants ask for another chance, but have provided no viable reason why the Board should alter its decision.

BCZR § 1A01.2.C(6) identifies "churches or other buildings used for religious worship on property zoned RC 2" as a special exception. The underlying zoning petition filed in this case asked for relief/approval as stated verbatim in that section. Protestants suggest that requesting relief based upon the precise language in the regulation is confusing. It is not. During the hearing on this matter, there was substantial evidence offered about Petitioner's proposed use and how it will be conducted There is no reason to revisit this issue and explain it again. Like most every religious denomination, Nepali will routinely utilize the building for religious purposes/services and will periodically conduct religious services/activities (i.e. festivals) outside of the four walls of the building and on the grounds. Just as a Christian church might have a sunrise Easter service or a Christmas tree lighting out of doors, Nepali will conduct activities outside of the building. The Board has restricted these activities by, for example, prohibiting the amplification of sound (Restriction 9). It would be both inappropriate and illegal for the Board to unduly limit the Church's religious services and activities.[2] The Board cannot limit or chill the exercise of their religion by Nepali's congregants and dictate how Nepali can worship.. The Church's religious activities and practices are simply what they are and the Board cannot dictate the type/scope of activity that Nepali determines

[2] Such a limitation would undoubtedly constitute a violation of the Religious Land Use and Institutionalized Persons Act, 42 U.S.C. 2000cc et seq. ("RLUIPA").

constitutes the exercise of their religion. The Board received substantial evidence about Nepali's festivals and has made its decision to approve the special exception and impose certain restrictions. No further restriction or explanation is justified or proper. No new evidence is offered.

Insofar as the area of the special exception, the Opinion approved the accompanying site plan to allow the use of the Property for a church or other building used for religious worship. The site plan included the entirely of the Property, which is approximately 30.8 acres in area, meaning the pertinent area of the special exception was approved for the entire Property. As noted above and discussed at the hearing, the outdoor use of the Property is an important aspect of the Petitioner's faith.

Further, Protestants' Motion is inappropriate as it asks this Board to inquiry into specifics regarding "what constitutes a religious function...how are the deceased interred...cemetery, cremation, or other method...what plants are required for onsite religious use..." Protestants' Motion asks the Board to "list all the community center-type activity that is used in furtherance in the exercise of religion and/or operation of the temple. Each activity needs to be listed... All religious purposes and uses need to be clearly defined in detail." Such inquiry by the Board would be illegal and this request is reprehensible. There are no plans to use the property as a cemetery. Any activity which constitutes the exercise of religion is permitted. If it does not relate to the exercise of religion, then the Board has restricted its hours of operation (i.e. Restriction 1). Respectfully, what constitutes the exercise of their religion by Nepali's congregants is a decision by Nepali and not a County inspector, neighbor or other third party who knows

nothing of the faith. What constitutes non-religious activities are clearly plain enough and do not need to be "defined" by the Board. Through their Motion, the Protestants continue to prove one thing, that they are motivated in their opposition by prejudice towards individuals of Nepali heritage and their faith.

II. Condition No.1

The Protestants complain of an inconsistency between Conditions 1 and 12. However, they do not read those conditions in context. Condition No. 1 limits non-religious activities to certain hours. Condition number 12, to the contrary, prohibits a different use on the Property (i.e. a community building). Obviously, a church or other building used for religious worship is permitted on the property by special exception. A community building (other than one used by a non-profit civic or improvement association) is not permitted in the RC 2 zone. A community building is permitted in the DR zone and is defined to mean a building used for civic, social recreational or educational purposes. (See BCZR § 1B01.1.C.4) The Board's restriction states the obvious, non-religious activities are restricted to certain hours, a community building cannot exist on the property. There is no inconsistency.

III. Condition No. 6

The Protestants' Motion requests that the Board revise Condition 6 and "specify a professional standard to be met or arbitrarily define the measurements of this buffer." The Protestants argue that the intent of the buffer and standard is unclear and should be specifically defined by the Board. However, Protestants fail to quote the entirety of Condition 6 in the Opinion. The last sentence of Condition 6 provides "All landscaping

for these purposes is required to be approved by Baltimore County." Condition 7 then provides "Any and all plantings, whether part of Condition No. 5, *No. 6*, or otherwise, shall consist of native species only, subject to approval by ***Baltimore County's landscape architect...***"(emphasis added). The Board has unambiguously imposed a condition that requires a landscaping plan to be approved by Baltimore County's Landscape Architect. Such condition is not without precedent. The Board has previously imposed similar landscaping requirements in other special exception cases. For example, the Board has conditioned the approval of solar facilities by requiring any proposed landscaping be approved by Baltimore County (See e.g., Cases No. 18-194-X, Atkinson/owner; 18-030-X, HHK Farms/owner; and 17-108-X, Matthews/owner). The Petitioner will work with the County Landscape Architect in formulating an appropriate landscape buffer, consistent with County standards. In such previous cases, the Board does not specify a professional standard to be met nor does it define the measurements of the buffer. Any such standard/measurements are determined by the requirements of the Comprehensive Manual of Development Policies (CMDP) and the County's Landscape Manual. Ultimately, the plan is approved by the Baltimore County Landscape Architect. The Baltimore County Landscape Architect is the professional tasked with specifying the proper standard/landscaping detail and defining appropriate measurements of a landscape buffer.

IV. Condition No. 9

The Protestant's Motion requests that the Board amend Condition 9 and add specific sound decibel (50/60 dba) limitations along with hours of limitation relating to

such sound controls. The Petitioner finds it difficult to respond to such an arbitrary and absurd request. The request is impractical and unenforceable. Perhaps sounds and voices generated from Protestants' properties should also be measured and restricted. As previously articulated by Petitioner during the hearing, the special exception relief relates to religious worship on the Property. Such religious worship may include individual prayer or group worship. Nepali's religious worship may include also musical instruments. Finally, such religious worship may include holiday celebrations (festivals). The relationship between Nepali's spiritual tenants and worship practices is essential to Nepali's exercise of religion. As the Supreme Court has repeatedly counseled, the plain text of the First Amendment guarantees the freedom to "exercise" religion, not just the freedom to "believe" in religion. See *Employment Div., Dept. of Human Resources of Oregon v. Smith*, 494 U.S. 872, 877 (1990); see also *Thomas v. Review Bd. Of Indiana Employment Sec. Division*, 450 U.S. 707, 716 (1981). As such, the Board's condition prohibiting outdoor amplification of sound is appropriate and was in response to testimonies provided by both Petitioner and Protestants. But any further limitations relating to sound would run afoul of religious protections. Should Nepali's congregants not be allowed to pray aloud together? May they not sing hymns of joy and praise to their gods? Protestants have failed to demonstrate some new or different factual situation exists that justifies further restriction which would chill the reasonable exercise of religious worship.

V. Condition No. 11

The Protestants' Motion requests that the Board relitigate the purported issues regarding the tennis/volleyball court. As had previously been discussed, the Property is

zoned R.C. 2. Pursuant to Baltimore County Zoning Regulations (BCZR) § 1A01.2.B.9.h., "Swimming pools, tennis courts, garages, utility sheds, satellite receiving dishes or other accessory structures or uses..." are permitted as of right in the R.C. 2 zone as an "accessory use or structure." There is no dispute that the Petitioner is permitted to have a tennis/volleyball court on the Property. Children (and adult) members of the congregation may use this amenity. Moreover, athletic activity may be part of this congregation's mission and outreach. The well-known "Fellowship of Christian Athletes" is a national organization that teaches the Christian gospel through an athletic program. Nepali may likewise utilize its small athletic facility (the volleyball/tennis court) in a like manner. As provided in Condition 11, Petitioner is agreeable to "not organize, host, invite, conduct, or participate in any athletic program, league, or tournament on site." Nepali is not going to sponsor or conduct independent sports leagues on the property or permit public use of its tennis/volleyball court. Any use will be by congregants and invited guests and will be in furtherance of Nepali's ministry. Any further limitations regarding a permitted accessory use would be in violation of BCZR § 1A01.2.B.9.h. and an infringement upon religious exercise. Further, Protestants have failed to demonstrate some new or different factual situation exists that justifies a different conclusion.

VI. Building Code issues

The Protestants' Motion requests that the Board include an additional condition that requires Petitioner to obtain a Change of Use Permit. Petitioner continues to reiterate that the present subject matter involves a zoning issue rather than a development issue.

If Protestants are alleging a code violation, then a code enforcement complaint must be filed. As of today and during the pendency of the special exception case before the Board, no code enforcement matter was pending in front of the Board. As is well settled, administrative remedies must be exhausted prior to seeking judicial remedies. *Falls Rd. Cmty Ass'n v. Balt. County, Md.*, 437 Md. 115, 136; 85 A.3d 185, 197 (2014). As such, the condition sought by the Protestants on the alleged code enforcement issues are beyond the jurisdiction of the Board and/or those issues are otherwise not properly before the Board, precluding Protestants from any remedies on the alleged building permit code violation and/or the Board's actions or inactions concerning the same. Simply, the condition sought by Protestants is beyond the authority and jurisdiction of this Board and is not rightfully an issue in this case.

VII. Case No. 19-004

The Protestants' Motion yet again asks the Board to revisit and revise its previously rulings regarding the July 2, 2018 Mr. Kotroco letter and the July 3, 2018 Beverungen letter. Protestants have failed to demonstrate some new or different factual situation exists that justifies a different conclusion. As the Board correctly held, "Judge Beverungen had no jurisdiction over the matter...and there is nothing to remand, grant, or deny." The issue presented by Protestants regarding Case No. 19-004 is moot and there is no justiciable controversy between the parties to which this Board could grant an effective remedy. Petitioner respectfully maintains that the question presented is moot because even if this Board were to decide for the Protestants, the rights and positions of the parties would remain unchanged. As well settled by the Maryland Court of Appeals, "a question

is moot if, at the time it is before the court, there is no longer an existing controversy between the parties, so that there is no longer any effective remedy which the court can provide." *Attorney Gen. v. Anne Arundel County Sch. Bus Contractors Ass'n.*, 286 Md. 324, 407 A. 2d. 749 (1979). There is no controversy for this Board to decide and the issue presented is moot.

CONCLUSION

In summary, a Motion for Reconsideration serves a limited function in quasi-judicial hearings. While the Motion certainly elaborates upon the argument Protestants made at the hearing, it does not present any new or additional facts. In *Calvert County v. Howlin Realty, Inc.*, the court held that an agency (like the Board) "may reconsider an action previously taken and come to a different conclusion upon a showing that ... some new or different factual situation exists that justifies the different conclusion." In this case, the Protestants have not identified "some new or different factual situation."

The Protestants' Motion requests that this Board inquire into specific functions and activities of Nepali's faith beyond those which had already been discussed at the hearing. In addition, the Protestants also ask for the opposite, requesting the Board define what constitutes a non-religious event or purpose. Any such further inquiry is not proper nor appropriate and provides no basis for a reconsideration of the decision made. Religious liberty is a foundational principle of enduring importance in America, enshrined in our Constitution and other sources of federal law. To avoid the very sort of religious persecution and intolerance that led to the founding of the United States, the Free Exercise Clause of the Constitution protects and ensures the principle of denominational

neutrality. Any further inquiry by this Board would run afoul of statutory protections provided under law. The Board's Opinion need not be further clarified or explained.

For these reasons, the Board should deny Protestants' Motion to Reconsider and Request for Hearing.

MOTION TO RECONSIDER
AND REQUEST FOR HEARING

J. Carroll Holzer, Esquire on behalf of the Protestants, DeWitt and Mary Clark, David Hartman, Dave Poehler, Morgan Miner, Carol Shaw, Greater Kingsville Civic Association, Inc. and the Gunpowder Falls Watershed Preservation Association, hereby files this Motion for Reconsideration and Request for Hearing pursuant to Rule 10 of the Board of Appeals Practices and Procedures for Baltimore County and says:

I. Case No.: 18-122-X.

This order is contradictory and confusing. It includes contradictory conditions and even contradictions **within** conditions. Further confusion arises from the Board's Decision that focuses on the "Temple" when in fact the Applicant specifically applied for

LAW OFFICE
HOLZER AND LEE

BALTIMORE COUNTY
BOARD OF APPEALS

a Special Exception that encompassed the entire 30.8 acre property. These contradictions and confusion must be clarified for the benefit of the Applicant, Protestant and County officials who must enforce this decision. As written, this Decision is a recipe for conflict. Protestants ask this Board to define the general term "Religious Use" of property. Protestants are unfamiliar with the religious practices and sacraments of the Applicant. Since this decision becomes an approval with conditions, the terms of those conditions should be well specified. For example, what are the defined dates and periods of observance of the religious holidays that will require gatherings greater than the 150 congregants? What constitutes a religious function? How are the deceased interred? Cemetery, cremation, or other method?

Protestants are asking for this Reconsideration and Hearing to clarify and define what activities are acceptable under this Order to assure no misunderstandings in the compliance with this Board's Order.

This Order is granting a petition for Special Exception that is confusing as to its application to the subject site. The first paragraph states in part that it is "to allow a **building** for religious worship on the subject property, which is within an R.C. 2 zone." Other areas of this order reference the subject property as containing 30.8 acres as requested by the Applicant but does not specifically state whether the Special Exception applies to 30.8 acres or a portion thereof and other facilities/buildings located on the property. Protestants ask that the board clearly state in the Order exactly what part of the property is included within the Special Exception.

This Motion addresses the ambiguity and/or conflicts of several of the conditions contained in the order dated the 9th of January, 2020 issued by the Board of Appeals. Those are as follows:

1. **Condition #1** states, "Petitioner shall confine its hours of operation for non-religious events from 8:00 am to 9:00 pm." While Condition #12 states in part, "Cultural activities and/or other activities with a non-religious purpose shall take place offsite." These two (2) conditions conflict with each other. Protestants ask the Board to clarify these 2 conditions and resolve the conflict. Protestants request that the board address specifically what constitutes a non-religious event or purpose, what non-religious events or purpose are permitted, where they are to take place and when they are to take place.

2. **Condition #6** states, "Petitioner shall add landscaping to serve as an additional light and sound buffer between Petitioner's border with the Poehler property to increase the buffer density along the Property's border with the Poehler property in order to help screen the Property from the Poehler house and its curtilage. Petitioner shall add additional landscaping particularly at the Harford Road side (western side) of the multi-purpose court to serve as an additional light and sound buffer between Petitioner's property and the Clark property and/or others in that area."

The Board must specify a professional standard to be met or arbitrarily define the measurements of this buffer. The intent of the buffer is unclear and standard should be defined with respect to the objective sound and visual mitigation in tended by this Board.

3. **Condition #7** states in part, "with sole exception for any plantings required for onsite for religious use." Protestants ask the Board to provide a complete list of what plants are required for onsite religious use. Invasive species can be detrimental to the ecology of this area of our County. The spread of invasive species is difficult, if not impossible, to contain. Also address what "***non-native plants***" are required for use for religious purposes on the property. What is the Applicant's responsibility for acquiring the federal permits needed to import nonnative plants and animals into the United States?

4. **Condition #9** states, "The outdoor amplification of sound shall not be permitted." Protestants ask the Board to address all sound since voices and percussion and other musical instruments can generate excessive noise (sound waves) without being amplified. We suggest including the following: No sound greater than 60 dba during daytime hours between 7:00 a.m. and 10:00 p.m., or 50 dba during nighttime hours between 10:00 p.m. and 7:00 a.m. shall emanate from the property except that associated with grounds maintenance.

5. **Condition #11** states, "Petitioner shall not organize, host, invite, conduct, or participate in any athletic program, league, or tournament on site. This condition does not preclude Petitioner from using the multipurpose court for athletic games or contests, only athletic programs, leagues, and or tournaments." Protestants ask the Board to provide a clear and complete definition of:

1. What is meant by athletic games and/or athletic contests, and
2. What is the difference between a contest and tournament?

6. **Condition #12** states, "Petitioner shall not use the Property as a community center, unless such community center-type activity is in furtherance of the exercise of religious and/or operation of the temple. Cultural activities and/or other activities with a non-religious purpose shall take place offsite." Protestants ask the Board to address the following:

1. List all the community center-type activity that is used in furtherance in the exercise of religion and/or operation of the temple. Each activity needs to be listed.

2. All religious purposes and uses need to be clearly defined in detail.

It is to the advantage of the Applicant as well as the Protestants to clearly understand what constitutes "***religious use***" of the property. These understandings should be clearly spelled out in this Board's Decision to avoid future conflict.

7. Protestants are ***requesting that this Motion to Reconsider include an additional condition*** to address Baltimore County building code requirement "Change of Use". Baltimore County Chief Building Inspector in Permits, Approvals and Inspections identified that the subject property dwelling is currently identified as a "Single Family Dwelling (SFD)" as a Change of Use Permit has not been obtained. Petitioner shall obtain from Baltimore County Permits, Approvals and Inspections a Change of Use Permit.

II. Case No.: 19-004.

First, the Protestants ask this Board to *reconsider its decision considering the "ex parte" letter* signed by Administrative Law Judge Beverungen on July 2, 2018. (See Appendix A) and introduced as evidence by the Applicant on July 19, 2018. The Applicant verbally introduced this letter as a reason to overrule Protestants' very first motion. Despite a promise to provide a copy of this order, the Applicant never entered it as evidence.

Subsequent rulings of the Board regarding the legal merits of this order contradict this first finding.

Contrary to the Board's extensive discussion, this *"ex parte"* agreement between ALJ Beverungen and the Applicant (which was withheld from the Protestant until a request was made to the senior ALJ Stahl) had an extensive impact on the case, (which was prejudicial to the case of the Applicant).

The attempt to withhold the July 2, 2018 letter is documented in the letter to ALJ Beverungen memorializing a conversation with his office on July 24, 2018. (See Appendix B). There was no response to this certified letter.

As noted, it was used by the Applicant to convince the Board to overrule valid motions entered by the Protestants. This was despite the fact that the Board later recognized this Order was improper and had no legal effect as ALJ Beverungen lost jurisdiction upon the appeal of his decision. This should have been obvious to all involved.

The distribution of this *"ex parte"* order (which was withheld from Protestants, including no notification to Protestants' Counsel of record) which had no legal effect, was a ruse to enable County Zoning officials to ignore violations of current County and State regulations.

As an example, the July 25, 2018 gathering at which over 500 attended in violation of the original (and only valid) ALJ Decision and requirement of Maryland State Highway Administration. This is documented in the letter to County Executive Mohler from Kotroco on July 25, 2018. (See Appendix C).

Second, (Appendix D) contains an email copy of the prior Cease And Desist from Van Dommelen dated July 10, 2018 which the above *"ex parte"* and illegal order of ALJ Beverungen was used to override.

Upon Protestants' reports of this violation, the Protestants were told this *"ex parte"* order forbade the County from action. In fact, Mr. Ghimire himself testified how an elected official confronted a County Inspector who made the mistake of responding to the reports of the Protestant.

Central to this Board's Decision was the discussion that the Protestants had little trust for the Applicant but could provide no history of code violations. As documented by Appendix C and Appendix D, **Mr. Beverungen's *"ex parte"* order is the reason there is no record of code violations.**

Thirdly, the Board found there is no intent to use the property for purposes other than a place of worship.

Yet when Applicant applied to ALJ Beverungen for the *"ex parte"* Order of July 2018, they requested the order be amended to restrict the Special Exception request to the main building and for the remaining 28 or so acres to be excluded from the Special Exception.

Yet, this Board heard Mr. Ghimire testify that that Applicant **NEEDED** the Special Exception to apply to the entire property. This contradiction between testimony and the act of asking for the contents of the *"ex parte"* letter in itself makes this *"ex parte"* letter relevant to the Protestants' case.

In light of these facts, the Protestants request this Board to reexamine the record and reconsider:

a. The Board's ruling on Protestants' Motion Number 1.
b. The prejudicial impact of this *"ex parte"* order on the enforcement history of this case.
c. The veracity of Applicant representations and the weight to be given to testimony provided by the Applicant.

CONCLUSION

Despite the effort and the length of time the Board spent in deciding this case, this final Order and Decision fails to clarify how the Applicant may use the property. In fact, it virtually ensures conflict between the Applicant and Protestants and confusion of those

in the County required to enforce this Decision and Order. The inclusion of conflicting requirements within a Condition for Use (Condition 11), failure to define Religious Use (Conditions 12 and 7) and the overarching contradiction between the Applicant's use of the property for religious purposes (Condition 1 versus Condition 12), will clearly cause additional litigation between the parties and the County. The Protestants request the Board to resolve these contradictions and conflicts.

The Protestants respectfully request a Hearing to clarify and resolve these issues before the need to file a Petition for Judicial Review.

Respectfully submitted,

July 2, 2018

The Honorable John E. Beverungen
Administrative Law Judge for Baltimore County
105 West Chesapeake Avenue, Suite 103
Towson, Maryland 21204

Re: Case No. 2018-0122-X, Petition for Special Exception
Request for Clarification of Your Order Dated January 22, 2018

Dear Judge Beverungen:

I write to you on behalf of my clients, the Nepali American Cultural Center and the zoning Order that you wrote approving the use of a building on their property for religious worship. The decision you wrote was dated the 22nd day of January, 2018 and a copy of that decision is attached hereto.

As you may know, some of the protestants who appeared at the hearing before you filed an appeal to the Board of Appeals and the case is currently pending before that agency. In the meantime, my clients have continued to repair the damage that has been done to the property by the local residents and continue to maintain the grounds, as they should.

At issue at this time is the language contained within your Order, specifically the seven restrictions located at the end of your approval. My clients have scheduled a fundraising event which is proposed to occur on the grounds of the subject property. These fundraising events are very important to the owners of the property as the repairs to fix the damage done to the property over the years has been extensive. This fundraising event is scheduled for July 29th to August 3rd, 2018.

I have attached to this letter a post that was taken from Facebook which advertises this event. As you are aware, social media, such as Facebook is an effective way to inform people of an event such as this fundraiser. Baltimore County Code Enforcement was provided a copy of that Facebook post by one of the protestants. Code Enforcement is attempting to assert that we cannot gather on our property because of the language of your restrictions contained within your Order. The fundraiser will be held outside on the property and not within the building. In fact, the building is not occupiable at this time as it still is not connected to water or sewer. It is however, anticipated that my clients will provide walking tours of the building to show the extensive improvements they have made to the property, of which they are very proud.

APP. "A"

Based upon this letter and the attachments hereto, I respectfully request your interpretation of your Order, specifically the restrictions contained therein as to whether it is appropriate for my clients to host this gathering event on the grounds of their property or whether such actions would violate the restriction you imposed upon them.

I have included a simple statement at the bottom of this letter for you to sign, should you deem it appropriate. Thank you for your time and consideration of this matter.

Very truly yours,

Timothy M. Kotroco

Timothy M. Kotroco

I understand the owners are proposing to host a gathering on the property July 29th through August 3rd, 2018. I also understand the Code Enforcement Bureau contends that the gathering would violate the terms and conditions of my January 22, 2018 Order granting special exception relief. I respectfully disagree and would note those conditions (as envisioned by BCZR section 502.2) related solely to the operations of a building for religious worship, which was the relief granted in the special exception case.

The owners are free to gather on their property so long as no religious activities are occurring within the subject building and all other permit requirements, if any, are satisfied. If this is the case, there is no violation of my Order. This owner should be treated no differently than any other citizen who wishes to host a party, a picnic or any other social event on their property.

July 24, 2018

Honorable John E. Beverungen
Administrative Law Judge for
Baltimore County
Office of Administrative Hearings
105 West Chesapeake Avenue, Suite 103
Towson, MD 21204

Judge Beverungen,

I just finished a conversation with Sherry of your Office. Earlier today I dropped off a complete copy of the preliminary motion Carroll Holzer, Esq. entered into the record during the proceedings on 19 July 2018.

As I explained in the note I left with her earlier, Larry read what is purported to be a letter from you into the record sans evidentiary copies. This meant we could not test the veracity of his interpretation. However, he interpreted it to mean you approved of the 1,000 person fundraiser scheduled for 28 July to 3 August at the property located at 12231 Harford Rd. This is in spite of the record of NACCB Inc.'s open defiance of the seven conditions set forth in your 22 Jan. 2018 decision granting a Special Exception to NACCB, Inc. (see copy of Protestant's Exhibit No. 1 left with Sherry).

I was informed by Sherry that you kept no file copy and that we will have to wait on Mr. Kotroco's leisure to get our copy and even that will not be provided to me, the primary protestant of standing or as President of the Association represented by Mr. Carroll Holzer, Esq.

I was further informed that Mr. Kotroco in fact prepared that letter for your signature and that upon review you signed it as some kind of letter of intent. I am very unclear about what that means or in fact how you intended for your letter to be used.

If I any of my understandings are imperfect, please correct them. Thank you for your time.

Respectfully,

DeWitt S. Clark, Ph.D.
President
Gunpowder Falls Watershed Preservation Association

July 25, 2018

The Honorable Donald I. Mohler, III
County Executive for Baltimore County
400 Washington Avenue, Mezzanine Level
Towson, Maryland 21204

Re: Nepali American Cultural Center
Request for Police Protection

Dear County Executive Mohler,

I write to you out of great concern for the safety and welfare of a group of Baltimore County citizens. I have been working with the Nepali American community for over the past year. These families have become an integral part of Baltimore County having established themselves as successful business owners, doctors, engineers and otherwise productive members of our Baltimore County community.

Not long ago, these families gathered together and purchased an abandoned 30 acre estate formerly owned by Towson attorney, Robert DiCicco. The property is located at 12231 Harford Road in Glen Arm, Maryland. This estate property was abandoned and was severely vandalized by local residents. It was foreclosed upon by the bank who held the mortgage and was heading to auction. The Nepali community pooled together their resources and purchased the subject property.

Over the past year, these Baltimore County families have been investing their money, time and energy repairing the damage that the neighbors did to this property and today, the property is once again a showpiece. I have witnessed this transformation myself and this property now stands as one of the nicest estates in Baltimore County.

The goal of our Nepalese community is to utilize the subject property as a Temple for the purpose of exercising their religious freedoms. I represented the Nepali community at a hearing before the Honorable John E. Beverungen who approved the use of the property for that purpose. This will be the very first Buddhist Temple in Baltimore County. At the present time, these Baltimore County residents must travel to Finksburg, Carroll County to practice their religion.

The case is now on appeal before the Board of Appeals and I am confident that we will prevail at that level. We have not yet begun to occupy the building for religious worship as our building is not yet served by well and septic. The new owners have decided to abandon the old

Protestant Exhibit 10

well and septic systems and install brand new state of the art systems, which will be designed and approved by Baltimore County. That effort should be completed in the very near future.

A great deal of misinformation has been spread and I wanted to share some factual information with you before I got to the purpose of this letter. The reason for writing to you is to request police protection for an event that we have scheduled to occur this Saturday, July 28 at 10 am. (Set-up will begin at 9 am) The event is an open house picnic-fundraiser which will occur on the grounds of our 30 acre estate. Our gathering will occur within a tent that is being provided by Loane Brothers and portable toilets will be used for the convenience of our guests and families. Tours will be given of our newly renovated building. Our picnic will continue throughout the day on Saturday until 8pm and will continue each day until concluding on Friday, August 3rd. We hope to have as many as 200 people visit over the course of a 10 hour day. My wife Laura and I will be attending. The amount of visitors will dwindle over the ensuing days.

It is of paramount importance that our Nepali residents have police protection at this event on Saturday and Sunday and maybe over the week depending on how the picnic progresses. I make this request because of statements that were made at our hearing before Judge Beverungen and recent social media posts that cause me great concern. There are examples of events that have occurred across our country where tragedies have occurred that could have been avoided, had local government taken proper precautions. On behalf of the Nepalese community in Baltimore County, I ask that of your administration.

State Senator James Brochin and Councilman David Marks have been actively involved with our Baltimore County Nepalese community. Senator Brochin has spoken with Captain Lamont Martin of our Police Department, Precinct 8. Captain Martin indicated that he would have police protection available for our picnic.

Lastly, there have been allegations that our scheduled picnic violates the conditions of Judge Beverungen's decision. Judge Beverungen recently issued a written statement indicating that the picnic-fundraiser scheduled for this upcoming week in no way violates the terms and conditions of his Order and that the Nepali community is free to have a picnic gathering on their property just like any other Baltimore County citizen could do. I am sure Judge Beverungen would share that opinion with you were you to give him a call.

I am available and would welcome an opportunity to meet with you to discuss this matter in more detail. Thank you for your consideration of this request.

Very truly yours,

Timothy M. Kotroco

This is the correct letter.

Mr, Kris Ghimire, Resident Agent

Nepali American Cultural Center of Baltimore, Inc.

8030 Belair Rd., Nottingham, MD 21236

July 1, 2018

Re: 12231 Harford Road

Mr. Ghimire,

APP. D Protestant Exhibit #10

It has come to our attention that there have been advertisements for an event at your property

located at 12231 Harford Rd. to be held from July 29 to August 3. There have also been allegations of health code violations, including photos, submitted to us by concerned neighbors.

I am aware of the hearing before the Administrative Law Judge, and notwithstanding the approval Judge Beverungen granted, there has been no compliance with the terms and conditions as set out in that decision. Because these terms have not been met, any event such as that which is being advertised will constitute a violation of that order and a violation of the zoning regulations, as well as possible violations of the health code. If your organization holds this scheduled event, an immediate citation will be issued.

Sincerely,

Lionel van Dommelen, Chief

Bureau of Code Inspections and Enforcement

CC;

Mr. Timothy Kotroco, Esquire

Towson Commons, Suite 300

One West Pennsylvania Avenue

Towson, MD 21204

IN THE MATTER OF:	*	BEFORE THE
NEPALI AMERICAN CULTRUAL CENTER OF BALTIMORE 12231 Harford Road 11th Election District 5th Councilmanic District	*	BOARD OF APPEALS OF BALTIMORE COUNTY
	*	Case No.: 18-122-X and CBA-19-004

* * * * * * * * * * * * *

OPINION AND ORDER

This matter comes before the Board of Appeals, on appeal from the Administrative Law Judge Opinion and Order, dated January 22, 2018, granting a Petition for Special Exception to allow a building for religious worship on the subject property ("Property"), which is within a Resource Conservation-2 (RC-2) zone, pursuant to Baltimore County Zoning Regulations §1A01.2(C)(6). Lawrence E. Schmidt, Esquire and Timothy M. Kotroco, Esquire represent Petitioner, Nepali American Cultural Center of Baltimore, Inc. J. Carroll Holzer, Esquire, represents Protestants, Dewitt and Mary Clark, David Hartman, David Poehler, Morgan Miner, Carol Shaw, Greater Kingsville Civic Association, Inc., and the Gunpowder Falls Watershed Preservation Association.

Case No. CBA-19-004 was joined with the special exception appeal. In that case, Protestants appeal the effect of a letter and response between Mr. Kotroco, on behalf of Petitioner, and Administrative Law Judge Beverungen, wherein Petitioner was seeking to clarify whether Petitioner could hold a fundraiser on the Property from July 29, 2018 to August 3, 2018. Judge Beverungen, in his response dated July 3, 2018, stated, *inter alia*, "the owners are free to gather on their Property so long as no religious activities within the subject building and all other permit requirements, if any, are satisfied...."

The hearing on this case occurred over the course of 11 days between July 2018 and February 2019. On November 1, 2018, Protestants identified four CDs of video and audio files, as well as related photographs, it sought to introduce into evidence. Given the volume of files, counsel for Petitioner was not in a position to review all audio and video files in court and therefore, the Board gave counsel for Petitioner the opportunity to review and file written objections, which counsel did. The Board then permitted counsel for Protestants to file a written response in advance of the next scheduled date, November 29, 2018. That hearing day was used as an evidentiary hearing to resolve the objections and determine the admissibility of photographs and video and audio files Protestants had compiled and wished to introduce into evidence.

Over the course of hearing dates, Petitioners presented testimony from: (1) Kris Ghimire, as a trustee for Petitioner; (2) Binod Upreti, a life member of Petitioner; (3) John Motsco, P.E., as an engineering expert and as the engineer of record for the proposed project; (4) Joseph Colaggero, a traffic engineer expert; and (5) James Powell, a Licensed Environmental Specialist. Individuals Ida Twining, Pastor Daniel Montague, and Marcia Barton, also testified in favor of the petition.

Protestants presented testimony from the following witnesses: (1) adjacent neighbors, Dr. Mary Clark and Dr. Dewitt Clark, who live across the street from the Property; (2) Dr. Dewitt Clark also appeared on behalf of the Gunpowder Falls Watershed Preservation Association; (3) Dave Poehler, who lives next door to the subject Property; (4) Joyce Mason, who lives just over a mile from the Property; (5) the aforementioned Mr. Ghimire (trustee for Petitioner) as an adverse witness; (6) Bruce Morgan, a Kingsville resident; and (7) Protestants' land planning and zoning expert, Christopher Jakubiak. The Greater Kingsville Civic Association, Inc. also joined the opposition to the proposal.

The Board conducted its public deliberation on March 13, 2019.

I. Summary of Testimony

A. Petitioner's Witnesses

As noted above, Petitioner had two witnesses from its organization testify on its behalf, Kris Ghimire and Binod Upreti.

* Kris Ghimire --- Mr. Ghimire testified that he was born in Nepal, came to this country in 1998, and became an American citizen. Mr. Ghimire is a real estate broker in the area. Mr. Ghimire is a founding member of Petitioner's organization and serves on its Board of Trustees, with all of his work for the organization being voluntary. Mr. Ghimire testified that the organization's "single mission" is to establish a Hindu Temple in Baltimore County. Mr. Ghimire estimated that there are 5,000-10,000 people of Nepali heritage in the Greater Baltimore Area.

Mr. Ghimire provided evidence regarding how the Property is to be used. Mr. Ghimire also provided the details regarding some of the religious practices to be observed at the Property, including holidays and special events. Much of Mr. Ghimire's testimony on these points is specifically identified and reviewed in Section IV, Petition and Use Evidence, *infra*, and need not be addressed here. Mr. Ghimire was also called as an adverse witness by Protestants. The issues brought up during that testimony merit separate discussion at the end.

* Binod Upreti --- Mr. Upreti is a life member of Petitioner. Like Mr. Ghimire, Mr. Upreti is originally from Nepal and came here in 1998. Mr. Upreti testified that to go to temple now he must travel to Westminster and Finksburg, Maryland, and on occasion to Queens, New York. Mr. Upreti agreed with Mr. Ghimire's description of the proposed operations of the temple at the Property. Mr. Upreti's motivation for testifying was to communicate to those who oppose the Petition that Petitioner is there for peace and harmony, and is willing to address concerns.

Neighbors from the general area also appeared to provide vocal support for the Petition:

* Ida Twining --- Ms. Twining lives one and a half miles from the Property at 11511 Harford Road, in Glen Arm. Ms. Twining has lived at her present address for 35 years and her husband's family had been there for over 200 years. When Ms. Twining learned of and attended the post-sale open house at the Property. She described the Property as having long been in disrepair, defaced by graffiti. She saw "mountains of plastic bags filled with beer cans and all sorts of trash." She does not believe the Property is appropriate for farming and does not believe it has ever been farmed in the time she lived in the area. She feels the Property is "uniquely suited" to serve as a worship center. Ms. Twining expressed her happiness to welcome Petitioner to the community. Ms. Twining also provided testimony about the growth of the area and traffic, as outlined in more detail in Section III, Residential/Commuter Growth and Area Traffic Conditions, below.

* Daniel Montague --- Mr. Montague is a pastor with the United Methodist Church, leading the Fork United Methodist Church and the Waugh United Methodist Church. The Property is in between the two churches, about two miles from each. Like Ms. Twining, Mr. Montague visited the site after the sale. Mr. Montague supports the Petition.

* Marcia Barton --- Ms. Barton grew up in Kingsville and presently lives approximately 8-10 miles from the Property at 11909 Woodberry Place in Kingsville. Ms. Barton decided to attend and testify as she felt some of the objections and concerns raised by others at one or more meetings were unfair to Petitioner. She felt some were misinformed and some failed to take into account existing uses already accepted by the community. In particular, she identified St. Stephen's Church on Bradshaw Road. The church hosts festivals and carnivals and has a school. She believes that the temple will cause less traffic and noise than St. Stephen's Church even if the proposed temple has larger events. In sum, Ms. Barton supports the Petition.

Petitioner also called three expert witnesses, Mr. John Motsco, an engineering expert, James Powell, a Licensed Environmental Specialist and Mr. Joseph Colaggero, a traffic engineering expert.

* John Motsco, P.E. --- Mr. Motsco, of Little & Associates, was accepted as an expert in civil engineering. Mr. Motsco worked on the plans for the Property and is the engineer that sealed them. Mr. Motsco visited the Property on two occasions and relied on Baltimore County GIS for other information. He provided the physical description of the Property, identifying it as 30.8 acres, zoned RC-2, and identified the structures and other site improvements.

Mr. Motsco described the plan, which, as he testified, had limited building improvements, all currently existing. Petitioner will use the existing driveway leading to the house (to be converted to a temple). A fire department turnaround will be installed, as will the required parking spaces. After acknowledging "cosmetic improvements", Mr. Motsco testified that there would be no new structures. Mr. Motsco understands that the pool and the structures that serve the pool are to be removed. He described the Property as being surrounded by woods, with the narrowest swath along Harford Road (close to the entranceway) 50-60 feet in width, and the area along the western edge being approximately 100 feet in width. There is a stream at the southeastern and southern property lines, weaving on and off the Property. No proposed construction is near the stream. The proposed parking area will be 500-700 feet away from the stream. Mr. Motsco testified that Petitioner does not anticipate any clearing of the wooded area.

Mr. Motsco also provided testimony about the general area, noting wooded vegetation and trees to the east and south, with some farmland and scattered houses beyond the wooded areas. Also to the east are Christian Redeemer church and school and the Beachmont Camp, by Beachmont Christian Ministries. Both include recreational and athletic facilities. On the northern

and western borders along Harford Road, there are single-family houses. There are no farms or agricultural uses near the Property, let alone adjacent. Mr. Motsco testified that the present-day house (proposed temple) can be visible at certain points while traveling on Harford Road, but otherwise is generally screened by the trees and "extreme topography" along Harford Road.

Mr. Motsco presented numerous photographs of the Property and the surrounding area. Mr. Motsco testified that the Maryland Historic Trust designates the Property grounds and the existing barn as historic. As is noted below, the Property ("Bella Vista") was originally developed by Charles Bonaparte, a nephew of Napoleon Bonaparte, who was also the former Attorney General of the United States and Secretary of the Navy in President Theodore Roosevelt's administration. The original house burned down in the 1930s. The Property is served by well and septic systems, though the existing systems are considered non-functional at this time. Mr. Motsco is aware of efforts to locate new well and septic facilities and believes the Property is large enough for those systems to accommodate the proposed use. Mr. Motsco's plan calls for 38 parking spaces in a lot, with some additional spaces closer to the proposed temple. If overflow parking is needed, vehicles could use the nearby grass areas.

Mr. Motsco was asked about certain special exception factors. First, he gave his opinion on the boundaries of the neighborhood, defining it as the Harford County border to the north, Bel Air Road to the East, Long Green Pike Road to the west, and "a river" to the south. He noted that the general area is rural and the best way to define the neighborhood are the physical boundaries. He testified that the proposed use would not be detrimental to the health, safety and general welfare of the locale, contending the minimal scope of work, the size of the Property, and low intensity of use support that opinion. Mr. Motsco did not believe the proposed use posed any potential hazard of fire, panic, or danger greater than at any other location in the zone. He also believed the

permitting process and conversion from residence to a temple would address issues arising from the building being in disrepair.

Mr. Motsco did not believe that the proposed use would cause any undue concentration of population given the size of the Property, the anticipated small congregation, and relatively small structure. Public water or sewer does not serve the Property. The distance of the building from other properties prevents it from interfering with adequate light and air. Mr. Motsco was not aware of any clearing necessary for any part of the proposal and for that reason, he believed the use would be consistent with the County's provisions regarding impermeable surfaces and vegetation. As for any environmental impacts, he testified that any concern could only arise from the parking, but again, no clearing was required. As such, Mr. Motsco's opined that there are no detrimental impacts beyond the inherent effects that will be caused by the proposed use. No variances are needed for this Petition.

On cross-examination, Mr. Motsco testified that runoff from the main building would drain to the south (toward the barn). Runoff from the proposed parking area would flow to the north (toward Harford Road). The number of parking spaces was generally determined by the County based on the representation of the number of expected regular attendees. The zoning regulations require one space per four seats, but this proposed temple does not have pews or seats. Mr. Motsco recalled telling the County that they would have a maximum normal attendance of 150 attendees. Mr. Motsco did not estimate or analyze the number of vehicles the adjacent grassy area could accommodate. Mr. Motsco acknowledged that his testimony on direct is based on the anticipated day-to-day use of the facility and not on special events. When asked, Mr. Motsco also estimated the distance from the tennis court to the Clark residence (12150 Harford Road) to the west of the Property as between 300-350 feet.

Protestants' counsel asked Mr. Motsco about plans to mitigate sheet flow from the Property, across Harford Road, toward the Foxworthy property at the northwest corner of the Harford Road/Bonaparte Avenue intersection (at the northern border of the Property). Mr. Motsco testified that no analysis had been done by the time of his testimony, but added that, at present, there is a roadside ditch and a storm drain inlet on the Property side of Harford Road. Looking at photographs, Mr. Motsco noted that Harford Road is sloped away from the Foxworthy property and toward the Property. On redirect examination, Mr. Motsco testified the County will require a grading plan and will determine if any additional measures are required. In addition, Mr. Motsco testified that the existing woods aid the current drainage and the expectation is they will aid the anticipated drainage from the parking area.

* James Powell --- Mr. Powell worked for the Baltimore County Department of the Environment, now the Department of Environmental Protection and Sustainability (DEPS), for 37 years and four months, rising to the level of Field Supervisor for the Soil Evaluation Section. During his time with the County, Mr. Powell conducted soil tests and supervised others doing the same for new construction or repair of failing septic systems. He also reviewed septic plans, estimating the number of plans as "thousands." Mr. Powell has been a Licensed Environmental Specialist for 33-35 years. Mr. Powell was offered, and received, as an expert to opine on the feasibility of a septic system for the proposed use.

Mr. Powell visited the Property two times. He did not conduct a soil evaluation test. Rather, he used the USDA Soil Survey Manual. Mr. Powell identified the soils in the cleared area as manor soils, which are derived from weathered schist. The soils are not alluvial or colluvial. Though the Property sits on a knoll and ridgeline (heading south/southwest), he did not consider the Property unique because of its height relative to other properties in the area.

Mr. Powell prepared a Water Usage Summary based on numerous factors, including anticipated number of visitors, whether food is served, whether food is prepared on or off site, and whether portable facilities are available for outside functions. He was provided information by the Petitioner for these factors. He understood that the temple would not have a commercial kitchen. To do so would require all-new appliances and a hood with a fire suppression system. Mr. Powell testified that he received County approval for his water usage report.

He testified that the next step to gain approval for the septic system is to file for a soil percolation test application. The tests to be conducted are done by personnel from the DEPS. Either the location would be approved or DEPS would require additional tests at an additional area. Mr. Powell testified that, given the size of the Property, he felt confident that there will be sufficient septic area to meet the intended usage and the septic system would not affect any adjacent properties.

On cross-examination, Mr. Powell was asked about whether vehicles could park on top of the septic field. Mr. Powell stated that it depended on the physical construction characteristics and system components. The County now uses deep trench systems, which he described. However, another system design is a shallow pressure dosing system. He testified if there was to be parking on top of the septic field, a system can be engineered to accommodate the parking, but it needs to be known ahead of time. Nevertheless, Mr. Powell opined, with "99% probability," a pre-engineered system will not be required here because he expects a deep trench system. Even still, when Petitioner files for a building permit, they will have to identify the overflow parking area and DEPS will issue its "standard...comments" to keep parking out of the septic area. If that cannot be avoided, the system will need to be engineered accordingly.

With respect to the anticipated well, Mr. Powell testified about that process, noting that DEPS requires a minimum yield and minimum storage capacity. For festivals, Mr. Powell did not see a concern as no food will be prepared on site, the kitchen would not be available for use, and there will be portable facilities outside. Mr. Powell understood that the well would serve the main building only. Mr. Powell anticipates that the new well location, which he marked, was between 355-400 feet from any well on an adjoining property.

Mr. Powell testified that first, the well site location is selected, and then a completion report is prepared. Once the County receives the completion report, the County assesses the well capacity to serve the intended use as identified. The determination of what storage capacity and what size storage tank is needed, and ultimately approval, occurs after the well is built. The County will require the older well and septic system to be disconnected and backfilled.

* Joseph Colaggero --- The testimony of Mr. Colaggero is discussed in substantial detail in the traffic discussions below and need not be addressed to the same level of detail as the other witnesses here. Nevertheless, Mr. Colaggero, Vice President of The Traffic Group, Inc., provided testimony regarding the proposed redesign of the Property entranceway, improving sight distances, the existing road conditions, traffic accident history, and the need for an access permit from State Highway Administration (SHA), as Harford Road is a state road (Md. Rt. 147). Mr. Colaggero also conducted several analyses of the particular stretch of Harford Road around the Property, and in particular, near Bonaparte Avenue. More specifically, Mr. Colaggero examined the road capacity and operations, performed a sight distance analysis (and a revised analysis), and a speed study between September 26, 2018-October 9, 2018.

Because of his analyses and examinations, Mr. Colaggero concluded that the stretch of Harford Road relevant to this case had sufficient capacity and the proposed use of the Property,

based on the representations made as to the use, will not cause traffic congestion beyond what exists today. Mr. Colaggero also opined that, with the requirements from SHA for the entranceway and exit from the Property, the proposed use will not detrimentally impact safety and may, in fact, improve it over existing conditions. Again, Mr. Colaggero's testimony is discussed in much greater detail below in Section III, Residential/Commuter Growth and Area Traffic Conditions and Section VI(C) Application of the BCZR §502.1 Special Exception Factors, (2) Congestion in Roads, Streets and Alleys.

B. Protestants' Witnesses

* Dr. Mary Clark --- Dr. Mary Clark lives with Dr. Dewitt ("Dewey") Clark, her husband, at 12150 Harford Road. She has lived there for 33 years. The Clark property sits across Harford Road from the Property, though it is behind trees and other vegetation and sits at a lower elevation than the Property. The combination of these features obscures the Clark property from Harford Road. She estimates her house is about 100 feet from Harford Road.

Dr. Mary Clark also identified her community as the "Long Green-Haystack Valley Community," further defining it as those living within a mile and half of the Property. However, she provided clarification on cross-examination as to her criteria as to what properties are within her neighborhood (discussed below). She contends that where she lives is "one of the last rural valleys in Baltimore County." Dr. Mary Clark raised concerns regarding her "right to solitude and quiet enjoyment of [her] property in a rural RC-2 zone," as well as "personal safety and the increased traffic on Harford Road."

Dr. Mary Clark identified several multi-day events that produced, what she considered to be, "very loud, amplified sound and music." She added that even with her windows closed, the noise was "highly disturbing." So much so that midway through a fundraising event held at the

subject Property from July 28th to August 3rd, the Clarks decided to go out of town for the tail-end of the event. Dr. Mary Clark also takes issue with the noise emanating from the multi-purpose court, identifying "constant percussive screaming and yelling," which was "destroying [her] peace and solitude." She has heard noise from the court starting as early as 8:15 am on Sunday mornings and going until dark. She likened the experience to living next door to a "recreation field, ball field, or a playground."

With respect to traffic, she described Harford Road as a "narrow, two-lane road with blind curves and no shoulder." She referred to the Property as being located "right in the middle of one of the most treacherous sections of road in Baltimore County." She and her husband have heard, witnessed, and assisted with traffic accidents occurring along the curves. In fact, she and her daughter had an accident at a blind curve close to the Property when a vehicle crossed the centerline. She felt that large, multi-day events at the Property would endanger the area residents and imperil attendees of those events. Dr. Clark stated that a range of vehicles use Harford Road, including commuter traffic, tractor-trailers, bicycles, and farm equipment. She also noted the regular presence of deer, which poses an additional hazard.

Much of Dr. Mary Clark's testimony concerned her experiences observing and witnessing the larger events already held at the Property. It is fair to say that Dr. Mary Clark does not trust the representations made by Petitioner with respect to operations at the Property, the number of regular attendees, the number of attendees for larger events, sound amplification, and other relevant issues. Dr. Mary Clark believes that the proposed use will cause detrimental impacts to the surrounding area. She provided her opinion as to whether the proposed use can satisfy the Baltimore County Zoning Regulations §502.1 criteria, identifying certain factors for which she contends there is sufficient evidence to show the detrimental impacts.

On cross-examination, Dr. Mary Clark found Mr. Colaggero's testimony as to the number of vehicle trips (over 2 million) on the relevant section of Harford Road per year not surprising. Dr. Mary Clark testified the existing traffic "very seldomly" has an impact on her tranquility and solitude, describing the noise as "a gentle swish," like "hear[ing] the ocean at night." Dr. Mary Clark clarified the noise from additional vehicles was not her concern; rather, it was that increased traffic may lead to more accidents. To that end, she alluded to witnessing "dangerous behavior" at the entrance and exit of the Property that nearly resulted in accidents. Dr. Mary Clark testified that she does not hear from her house the activities at the Christian Redeemer and Beachmont Camp properties.

When asked about the properties in her neighborhood, Dr. Mary Clark testified she does not consider the adjacent Christian Redeemer church and school or the Beachmont Camp to be part of the neighborhood because it has different zoning (though recognizing, she is not a land use expert). Dr. Mary Clark also stated that she was part of a group of local residents recently who opposed a request to support what she described as an expansion for either the Christian Redeemer property or the Beachmont Camp property.[1]

* Dr. Dewitt ("Dewey") Clark --- Dr. Dewey Clark appeared individually and as the authorized representative for the Gunpowder Falls Watershed Preservation Association. Dr. Dewey Clark presented testimony over several days, including November 1, 2018, January 29, 2019 and January 30, 2019. What was made clear from Dr. Dewey Clark's testimony is that Dr. Dewey Clark has spent substantial amount of his time tracking the comings and goings at and from the Property, whether by audio and video recordings, drone footage, social media postings

[1] The testimony concerned the "corn maze" but the location referenced conflated Beachmont Camp with Christian Redeemer ("Beachmont Christian camp"). Printouts from the Beachmont Camp website appear to establish that it has the corn maze, not the Christian Redeemer property.

from the Petitioner's members, attendees, and/or supporters, and other similar research. In addition, Dr. Dewey Clark has undertaken substantial effort to contact County officials to alert them to potential Code violations and site difficulties for development of the proposed use. During the course of the hearing, Protestants' frustration generally, and Dr. Dewey Clark's frustration specifically, with the County's failure to address the matters brought to their attention by Dr. Dewey Clark in a manner satisfactory to Protestants was readily apparent.

Dr. Dewey Clark testified that he believed the locale to be confined to Gunpowder Park to the Mount Vista/Glen Arm and Harford Road circle. He testified that that there were a lot of farms in the area, which results in farm vehicle traffic on Harford Road. He noted pedestrians and people on bicycles also use the relevant stretch of Harford Road.

Dr. Dewey Clark presented a library of audio and video clips of sounds, events at the Property, as well as photographs of vehicles on Harford Road and other nearby roads. The photographs of the vehicles leaving the Property taken by Dr. Dewey Clark (or others) showed vehicles on the wrong side of the road, the darkness of the surrounding area, and other issues intended to underscore the testimony on the dangers presented by visitors presumably unfamiliar with the particular section of Harford Road. Dr. Dewey Clark also presented dash cam videos of traffic generally on Harford Road near the Property to show vehicles crossing lines and other issues, again, to speak to the existing dangerous nature of the roadway system even without the introduction of increased traffic from the proposed use. He also provided his critique of Mr. Colaggero's testimony, though Dr. Dewey Clark is not a traffic engineer.

Like his wife, Dr. Dewey Clark identified numerous concerns, including: excessive noise; the loss of solitude; traffic congestion; traffic dangers; environmental impacts on area forests and streams; invasion of non-native species; drainage from the site; unsafe use of fire; fire code issues;

inconsistency with the zoning classification; and others. Dr. Dewey Clark also proposed numerous conditions in the event the Board granted the Petition.

By way of example, Dr. Dewey Clark testified that the noise emanating from the Property, whether due to special events or to volleyball games, disrupts the solitude and tranquility he has enjoyed while the Property was used only as a single-family residence (or was vacant). He cited to the 1964 Wilderness Act to identify prior recognition of the value of solitude. The audio and video clips he provided were intended to serve as a snapshot in time of the disruption being caused at the Property to illustrate what may occur if the Petition was granted overlooking in his testimony that the same could occur if the Petition is not granted. Even recognizing the Clarks' sensitivity to a change, Dr. Dewey Clark played a clip intended to show excessive noise from the volleyball court, but instead the predominant noise heard by the Board was from birds chirping.

With respect to the fire code issues, Dr. Dewey Clark identified foreseeable problems with an occupancy permit unless the main building became Code-compliant. In particular, he identified the lack of panic bars on the doors. He also identified video clips taken from social media posts or otherwise uploaded to the internet where there was an open fire at a festival, noting the lack of fire extinguishers and no water source to draw water. Similarly, he expressed concerns over the use of extension cords from the main building to an accessory tent and the lack of emergency lighting inside the main building.

It is abundantly clear that Dr. Dewey Clark opposes a change from the Property's historic use as a residence. However, based on his testimony and evidence focusing on alleged Code issues and the County's failure to adequately respond to complaints regarding the same, as well as Petitioner's use of the site prior to the conclusion of the special exception case, Dr. Dewey Clark's staunch opposition largely arises from his belief that the Property will be used in a manner far

more intense than what has been represented, magnifying the impacts he, his wife, and his neighbors believe they will experience, compounded by his skepticism that the County will remedy any issues arising from the Property once the Petition is approved.

* Joyce Mason --- Ms. Mason lives at 11813 Harford Road and has done so for 30 years. Her property lies south of Hutschenreuter Road, approximately 1.3 miles from the Property. Ms. Mason also used to live closer to the Property, at 11939 Harford Road, three houses north of her present house.

Ms. Mason presented testimony regarding her concerns, identified as the increased traffic burden and her personal, as well as her neighbors, safety on Harford Road. Ms. Mason described Harford Road as a "rural two-lane road with no shoulder and many blind curves." The Property is located within that section, which she considered a "hazardous area." She too provided anecdotal evidence of traffic accidents on Harford Road, naming the intersection of Harford Road and Hartley Mill Road, as a location with multiple accidents, some of which were fatal. She also identified an accident she was involved in that occurred one month prior to her testimony.

Ms. Mason testified that "[o]ver the years, the traffic on Harford Road has increased dramatically." Like Dr. Mary Clark, Ms. Mason identified farm equipment, including tractors, combines, bailers, and hay wagons, as using Harford Road. Ms. Mason, again like Dr. Mary Clark, testified that, in the middle of the summer in 2017, she could hear "very loud talking over the amplification system" that spooked one of her horses. She stated she could hear the loud talking also in the summer of 2018, again, unsettling her horses. She also believes that the proposed use has a greater impact on the community due to the "unique terrain of the area," with "many peaks and valleys, blind curves, and agricultural activities."

* Dave Poehler --- Mr. Poehler lives with his family at 12241 Harford Road, situated to the north, east, and next door to the Property. Mr. Poehler testified he could see the main building and driveway from various points on his property. Mr. Poehler said after the sale of the Property, he reached out to his new neighbors, by going over to the Nepali property to introduce himself and offered to help take down a tree. He testified he did not hear anything from his neighbors since that visit.

Like Protestants' other witnesses before him, Mr. Poehler identified traffic and noise as his concerns. Mr. Poehler associates the traffic and noise issues with a likelihood that his property value will be reduced.

Mr. Poehler, echoing the others, believes Harford Road along the subject Property boundary through the circle at Mount Vista and Glen Arm Roads is "a dangerous stretch." Mr. Poehler estimated his driveway to be approximately 200 feet from the existing entrance to the Nepali property. He understands that Petitioner is proposing to move it closer by about 70 feet. Mr. Poehler shared that, even without the move, he has already had some of Petitioner's attendees accidentally enter his driveway and/or use it to turn around.

He identified an occasion in 2017 where amplified music emanating from the Property was being played as late as 1:00 a.m. He also identified large gatherings where he and his family were subjected to noise he considered extreme. On cross-examination, Mr. Poehler was questioned about a different property to the south of the Nepali property located on Hutschenreuter Road that hosts an outdoor rock concert. He did not have any familiarity with it, but agreed it was possible that the music was coming from that location, though noting the music he heard did not sound like a rock and roll band. Mr. Poehler also testified he lives about 1000 feet, as the crow flies, from

the Beachmont and Redeemer properties. On occasion, he hears soccer games, with the accompanying cheering and yelling.

Unlike the other witnesses presented by Protestants, Mr. Poehler also identified the potential impact to his well and septic systems as an issue. Mr. Poehler testified, at present, he considers his well as "not a very strong well at all," and referenced a gathering of about 40 people at his house where he ran out of water. His well is about 200-250 feet from the Property. As such, he was concerned that the potential large gatherings of hundreds of people at the Property will exacerbate the limited volume of his well. Moreover, he has concerns over pollution that may result from runoff from the grassy areas used for overflow parking.

* Bruce Morgan --- Mr. Morgan lives at 3 Longknoll Way in Kingsville, about 3 miles away, as the crow flies, from the Property. Mr. Morgan expressed his concerns over traffic and noise. He stated his concern was that if "that type of activity" was permitted on rural, agricultural property, it could happen anywhere in Baltimore County. He testified that the relevant stretch of roadway is one of the most dangerous sections he has encountered.

* Christopher Jakubiak --- Mr. Jakubiak, of Jakubiak & Associates, was offered and received as an expert in land planning and zoning. Whereas Petitioner's experts opined that special events like festivals evidence atypical use, and therefore, were not the focus of their opinions, Mr. Jakubiak testified festivals are "particularly relevant to his testimony."

Mr. Jakubiak described the relevant section of Harford Road as "very rural," also noting the hills and winding nature of the road on the way to the circle at Mount Vista and Glen Arm Roads. He expressed his opinion that the relevant neighborhood for the special exception analysis ran from Hartley Mill Road to Mount Vista Road.

Mr. Jakubiak opined that the cultural landscape of the area was unique. He relied on the Master Plan 2020 in concluding that the County seeks to preserve cultural landscapes, and in particular here, the agricultural history of the area. The Master Plan also expressed a preference of low-density development in rural areas, further contending the Master Plan serves as guidance and cannot be dismissed in the consideration of the special exception petition. He noted that Harford Road in the relevant area is a Baltimore County Scenic Route, which the Master Plan states is to be protected and that development by way of special exception petitions should be granted "sparingly."

In describing the Property, Mr. Jakubiak testified that the site is constrained by sloping terrain, particularly steep to the west. Outside of the multi-purpose court, the land drops significantly. The main building sits at the highest point, about 400 feet above sea level, which is about 200 feet above the valley floor. He believed the landscaping presently is an ineffective buffer for sound, though it was noted that Mr. Jakubiak is not an expert in sound. He also opined that the impact from noise would be worse than other locations in the zone.

Mr. Jakubiak believes 38 parking spaces are insufficient due to the need to use the grassy areas for overflow parking. While the limited number of spaces helps with permeability, the number does not match the needs. As such, when vehicles park on the grassy areas, they will cause ground compaction. The compaction and steep slopes may cause runoff to have a detrimental impact to the site and neighboring properties.

While Mr. Jakubiak is not an expert on traffic engineering and related issues, as a planner, he had concerns about the road system, identifying an increased risk in accidents caused by greater usage arising from the proposed use of the Property. He also believes that the proposed use detrimentally impacts the health and general welfare of neighboring properties, particularly the

loss of tranquility and increase in noise. He also opined that the proposed use is inconsistent with the zoning classification and spirit and intent of the zoning regulations in light of the preference expressed in the zoning regulations and Master Plan to preserve rural areas from intense development. Mr. Jakubiak also felt it important to note the site's proximity to the Long Green Rural Legacy Area, though the subject Property does not fall within its borders.

On cross-examination, Mr. Jakubiak admitted he does not know when the Property was last used in an agricultural manner. He also did not know the location of the closest property presently used for an agricultural purpose. Harkening back to his testimony regarding the Master Plan, Mr. Jakubiak acknowledged community plans are adopted as part of the Master Plan and, as relevant here, the Greater Kingsville Area Community Plan was adopted by the County Council in 1996 into the Master Plan.

Mr. Jakubiak testified that visual impact and noise are important considerations under BCZR §502.1. Mr. Jakubiak, however, did not know if the main building was visible from surrounding properties, including the Clark property. Similarly, he did not know if the grassy area that may be used for overflow parking was visible from other properties. With respect to noise, Mr. Jakubiak suggested that to reduce noise, a buffer be as close as possible to the source of the noise to limit the impact upon nearby properties.

II. Subject Property and Surrounding Area

The Property consists of 30.8 acres, with 12231 Harford Road, in Glen Arm, as its address. It is located, generally, in between Hutschenreuter Road (to the south) and Glen Arm/Mount Vista Road (to the north). The Property is outside the Urban-Rural Demarcation Line. The Property, called "Bella Vista," was originally developed by Charles J. Bonaparte (for this reason, the Property is also referred to as the "Bonaparte property"). The site and the barn are historic and

listed on the Maryland Inventory of Historic Properties. In addition, a historic mile marker visible from Harford Road is located on the Property. The Property is zoned RC-2 and is surrounded by other properties zoned RC-2, with the exception of the northeast corner of the Property, starting at Bonaparte Avenue, which is zoned RC-5.

The concrete house that exists today replaced the original house that was burned down in 1933. The house sits prominently up on a hill and is visible at certain points along Harford Road. In addition to the historic barn and main house, the Property has a caretaker's house, a barn, a swimming pool, a bathhouse, and a tennis/multi-purpose court. There is an existing, active driveway on Harford Road across, but offset, from Bonaparte Avenue, and an abandoned driveway to Harford Road further to the south.

More recently, the Property had been owned by an area attorney, but fell into disrepair. The house had been abandoned in excess of ten years and the Property was subject to foreclosure or a tax sale. Mr. Ghimire stated that he first visited the site when it was for sale. During that visit, he saw graffiti inside and outside the main house, as well as beer bottles and needles littered throughout the Property. He also noted the trees and grass were overgrown and considered the Property to be "in really, really bad shape." Various photographs show graffiti, overgrown bushes and weeds, broken or missing windows, and other damage or disrepair. (See, e.g., Pet.'s Ex. 12(a)-(e)). Mr. Ghimire testified that some of the structures and features are in poor condition and need to be removed or repaired.

Ms. Twining, when visiting the Property after its sale, described the Property at that time as "torn up" and "ramshackle looking." Mr. Poehler, who lives next door to the Property, echoed her testimony about the general state of disrepair referenced in the section above. He described the house as a "little distressed," with vandalism and graffiti. Mr. Ghimire identified the efforts to

clean up the Property and restore it, though by the last day of the hearing, there still was no running water or functioning sewer facilities or septic system.

The Property has historically been used as a residence. Ms. Twining testified that she and her extended family have lived on their collective adjacent properties for over two hundred years. She believes that the Property has never been used for farming. The presence of the barn and its historic designation of "Bella Vista Farm" suggests the Property had an agricultural use in the past, but the record is silent as to what agricultural activity may have occurred or when so used. Based on Ms. Twining's testimony, the Property has not been used as a farm or used for agricultural purposes for at least 35+ years.

The general area has a significant farming history and has been considered rural. For example, Dr. Mary Clark, who resides across the street from the Property, testified about her concerns, including the identification of the area as "one of the last rural valleys in Baltimore County." Dr. Mary Clark noted the presence of not only farm equipment on Harford Road, but also commuter traffic, tractor-trailers, and bicycles. Ms. Mason, who resides on Harford Road approximately 1.3 miles south of the Property, used the same language as Dr. Mary Clark when describing the general area ("one of the last rural valleys in Baltimore County"), adding "the residents have worked hard to maintain the RC-2 rural nature of [the] valley."

Petitioner's expert, Mr. Motsco, also considered the general surrounding area as a "rural area." Mr. Motsco described the surrounding area as consisting of "some farmland with some scattered houses." Though there are farm operations in the general area, Mr. Motsco testified that there are no farms immediately adjacent to the Property. He identified single-family houses on the western and northern sides of Harford Road, across from the Property. To the east of the

Property are a church and a school (Christian Redeemer). In addition, the Beachmont Camp is also located to the east and is adjacent to the Christian Redeemer property.

III. Residential/Commuter Growth and Area Traffic Conditions

Testimony on both sides revealed that the general area is growing in residential and commuter use. For example, Ms. Twining testified that there "are a lot more people living out [in the area] than just the farmers we have always had." Dr. Mary Clark, in expressing her concerns about the possible impact upon traffic from the proposed used, noted an increase of commuter traffic on Harford Road independent of the proposed use, noting "the traffic situation is getting worse every day." Ms. Mason observed that "[o]ver the years, the traffic on Harford Road has increased dramatically." When asked on cross-examination about the volume of traffic, she testified, "all I know is a lot."

Mr. Colaggero, in connection with his traffic count analysis (Pet. Ex. 29), determined that the highest volume of traffic on Harford Road between Glen Arm Road/Mount Vista Road and Hartley Mill Road (*i.e.* inclusive of the Property) occurred on weekdays between 7:00 am-8:00 am for the southbound traffic. He testified national statistics reveal that Harford Road can carry a capacity of 1,700 vehicles an hour. (Id. p. 1). According to Mr. Colaggero, the national statistics from which that number was derived take into account the size of the road, the terrain, the lack of shoulders, the number of lanes, a speed of 45 MPH, and other criteria. Mr. Colaggero testified and showed that the peak times on Saturday and Sunday resulted in a peak usage rate of 16% and 21% respectively.

Mr. Colaggero also studied the specific intersection of Bonaparte Avenue and the entranceway of the Property with Harford Road. Using the critical lane volume methodology utilized by the Maryland State Highway Administration ("SHA") for its intersection studies, Mr.

Colaggero determined that there was "plenty of available capacity at this turning location during the evening peak hour to accommodate more turning maneuvers and more through volume." The calculations that prompt his opinions were based on assumptions as to the number of vehicles that may turn into the Property. Mr. Colaggero took the peak hour on Saturday (12:00 pm-1:00 pm) to identify actual volume on the road and applied the number of turns (based on assumptions). He testified that even if 400 additional vehicles (that is beyond what he had assumed) were added at the peak hour, there would still be more than ample capacity to accommodate the influx of vehicles.[2]

Mr. Colaggero also applied the Unsignalized Intersection Methodology used by SHA to look at operations, that is, how long may it take a vehicle to enter the roadway from Bonaparte Avenue or the Property. He determined that during the weekday evening peak hour, it would take approximately 14 seconds for a vehicle to make its turn northbound and 8 seconds to turn southbound.[3] As such, he considered the northbound site access approach to have a "B" level of service, but the southbound side to have an "A" level of service, concluding it to be a "very good intersection," operationally as well as by capacity.

Mr. Colaggero next examined traffic accident data from 2015-2018 (2018 was partial), with Hutschenreuter Road and Vista View Court as, respectively, the southern and northern boundaries for the data analysis. That stretch comprises 1.1 miles of Harford Road and is inclusive

[2] The representation of the usage was first identified by Mr. Colaggero in his testimony on Sept. 6, 2018, as, on weekdays, "approximately 20 people coming to the temple on a weekday...20 trips in, 20 trips out..." and on weekends as "less than 100 people would visit during [...] the entire day." SHA required a trip generation analysis based on the Institute of Transportation Engineer's (ITE) Trip Generation Manual methodology, which yielded a lower volume of trips to and from the site if and once used as a temple. Mr. Colaggero used different methodology that resulted in a greater volume than the ITE methodology. Notably, Mr. Colaggero's doing so also inures to the benefit of Protestants.

[3] Mr. Colaggero incorrectly, but understandably so, identified the southbound turn as "Westbound" in Petitioner's Exhibit 29 based on the map appearance of Harford Road at the Property, which appears east-west, though still designated north-south.

of the Property. Mr. Colaggero highlighted the number of crashes 500 feet in both directions of Bonaparte Avenue (and therefore, more or less, the Property's entranceway). So, for example, of the 12 accidents that occurred within that 1.1 miles, only two occurred within 500 feet of either direction of Bonaparte Avenue in 2015, with two more occurring in 2016, four in 2017, and two in the first quarter of 2018.

As such, he testified he did not consider the Bonaparte Avenue intersection to be "an accident-prone intersection." Rather, he noted that the accidents appeared to be ones where vehicles were traveling too fast for conditions. Police reports would likely reveal more details as to how and why the accidents occurred, but few were made part of the record.

On cross-examination, Mr. Colaggero admitted all his analyses rely upon conditions in the past and at present, but he factored in presumed growth from the proposed use. The information he relied upon for the presumed growth came from his understanding as to the operations based on representations made to him of the expected regular use --- less than 20 people during each weekday and less than 100 people on weekends. He admitted he did not account for conditions that may exist during festivals or other larger events, but testified that typically a traffic engineer would not focus on the aberrational usage.

Mr. Colaggero also contrasted the accident data identified in Protestant's Exhibit No. 10 with Petitioner's Exhibit No. 30. In short, the exhibits use different data sets and the data was obtained from different sources.

Protestants' Exhibit No. 10, identified reported traffic crashes on Harford Road between Hartley Mill and Glen Arm Roads occurring between January 1, 2016 and April 1, 2018. Protestants' Exhibit No. 10 reveals a significant number of motor vehicle accidents within that stretch, including ones with personal injury. Petitioner's Exhibit 30 reported the traffic crashes on

Harford Road between Hutschenreuter Road and Vista View Court (identified as a 1.1-mile stretch of road) between January 1, 2015 and April 1, 2015. Petitioner's Exhibit 30 also has a further breakdown of crashes "in Bonaparte Ave. area, 1000 feet," which Mr. Colaggero testified meant 500 feet north and south of Bonaparte Avenue. Looking at the data supporting that conclusion, it is apparent that the crashes highlighted as being within 500 feet in both directions of Bonaparte Avenue are actually crashes within 250 feet of each direction from Bonaparte Avenue.

Rather than use an expert to address the studies by Mr. Colaggero or otherwise present evidence regarding traffic congestion, Protestants relied upon the testimony of Mr. Poehler, Ms. Mason, the Clarks, and others to identify the potential hazards caused by the existing road conditions, which they believe will be exacerbated by the additional volume of traffic to and from the Property. Protestants' land use expert, Mr. Jakubiak, though not a traffic engineer, provided his opinions from a planning perspective about the hazards presented within the relevant stretch of Harford Road. He opined planners account for the road system and conditions (*e.g.* speed) as part of project consideration. As such, he took the road features and conditions (echoing the testimony of others, *e.g.* testifying "The road is winding, with sharp, hairpin turns…") into account and concluded that leaving and entering the Property presents a significant risk for accidents due to the greater "scale use" in comparison to the prior use as a single-family residence.

Indisputably, Harford Road around the Property presents additional challenges and requires greater attention and care in that area. Harford Road, designated as Maryland Route 147, in the general area of the Property runs north-south, leaning northeast-southwest. However, Harford Road, proceeding northbound along the Property, takes a sudden almost 90 degree turn east just before Bonaparte Avenue.

The witnesses who reside in the area expressed opinions that Harford Road in and around the Property is dangerous. By way of example, Ms. Twining has "always felt" that "Harford Road is not a very safe road." Dr. Mary Clark described Harford Road around her and Petitioner's properties as "a narrow, two-lane road, with blind curves and no shoulder...one of the most treacherous sections of road in Baltimore County." Ms. Mason testified that the area of Harford Road along the Property has blind curves, which she believes makes it a "hazardous area." Mr. Poehler, the next-door neighbor to the Property, believes that, irrespective of the location of the entranceway to the Property, the area at issue is "a dangerous stretch of Harford Road period."

The neighboring residents also provided anecdotal testimony of familiarity of accidents on Harford Road that they have seen, were aware of, and/or even in which they were involved. Some of the accidents identified occurred several miles away from the Property. Some were closer. Though none of the ones identified occurred in the immediate vicinity of the entranceway of the Property, the anecdotal evidence provided by these residents suggests that there have been problems north and south of the Property. Mr. Poehler, in fact, summarized it as "just living at the property and living along Harford Road, you're going to experience accidents and high traffic...it's almost a way of life there." The anecdotal evidence does not rise to the level of that from an expert or rebut the studies performed, but is illustrative and offers some measure of support of the witnesses' beliefs that the road conditions in the area of the Property presents certain challenges that, generally, are not experienced elsewhere.

IV. Petition and Use Evidence

Petitioner requests special exception relief to allow a temple for religious worship on property zoned RC-2. To that end, Petitioner called Mr. Ghimire to identify how Petitioner intends to use the Property. Mr. Ghimire testified that the existing main house will be used as the temple.

The temple is intended to attract Nepalese Hindu practitioners, but can also serve those that observe Buddhism, as there are commonalities between the religions that make a temple accessible to both.

In addition to the main house, Mr. Ghimire identified other buildings and features, as well as conditions, on site, including a caretaker's house which requires renovations, a historic barn in "kind of bad shape," a swimming pool "that needs to be removed" as it is not in a usable condition, a former tennis court that can serve as a multi-purpose court for children, and a bathhouse that is "also in bad shape and that will be removed as well." There is an entranceway, depicted across from Bonaparte Avenue. Mr. Ghimire identified another driveway off Harford Road toward the south of the Property that has not been used in years and "is not in good condition."

The main building has a main hall with high ceilings and can hold 80-100 people for services. There are two big rooms on the ground floor that can serve as office space. The caretaker house may be used as the residence of a "guru," who will lead prayers. Petitioner intends to preserve and maintain the historic barn. Mr. Ghimire later clarified that the main level of the house would be used for actual religious ceremony and services, but "[t]he upstairs would be more like a back office."

The Hindu religion is a contemplative religion and is unlike western religions with a dedicated day for prayer. Hindus may come to engage in individual prayer at any time or on special days that are personal, for example, to commemorate death of loved ones, celebrate anniversaries and birthdays. Hindus may come to participate in religious rice-feeding ceremonies, which celebrates when babies first take a bite of rice, analogizing the ceremony (*Bratabanda*) to a baptism. Receptions for these rice-feeding ceremonies would follow at a restaurant or other off-site venue.

This temple will install statues of major deities. The temple will be open throughout the week to those that choose to worship particular deities. There are three-to-five major festivals, including *Dashain,* which runs for 15 days and has two major days within that festival.

As for expected daily use, Mr. Ghimire first testified that on a typical, non-festival day practitioners will visit the site at various times throughout the day, amounting to 10-20 people in total. Subsequent to that testimony, he said there could be up to 15-20 at one time, maybe less, on non-festival days. Petitioner's expert witnesses testified that Petitioner represented the typical use as 10-20 people at the site on any given day. To reconcile, the testimony reveals that, on average, the expectation as to usage is up to 10-20 visitors per day, and perhaps even up to 15-20 at one time. In contrast, the testimony about attendance on festival days was clear --- festivals could bring in 150-200 people at one time. For the two major days, Mr. Ghimire expects even more people may come to the site beyond the number that attends on other festival days. On festival days, prayer would take place inside the temple, but festivities can be outside.

Mr. Ghimire stated that attendees on festival days and attendees for routine visits or on a weekly basis would be present on average between 15 minutes and an hour per visit. Mr. Ghimire testified that while there is no set time for prayer or worship, people will not appear at "5:00 in the morning," just between "9:00 and 8:00 pm, or whatever time they prefer, so during the daytime they will, at their convenience, they come and go." He subsequently testified that the hours of worship would be from "8:00 am onward to like 8:00 or 9:00 pm," seven days a week. When asked whether the hours would run from 8:00 am until 10:00 pm, Mr. Ghimire stated "Practically, I think 8:00 am to 8:00 pm," noting he would look at the hours of operation.

As and when a *bhajan* [hymn] is requested as part of services or as part of a special ceremony, at those times, the music will be in indoors. In any event, no amplification equipment is required.

Mr. Ghimire testified that they will not be building any new buildings on the Property. They will not operate a day care or school. Mr. Ghimire testified that Petitioner will not have any camps. Petitioner does not plan to use the old road and driveway at the south of the Property.

Petitioner intends to keep the existing tennis court, and as noted above, make it a multi-sport court, but will not significantly enlarge it. Mr. Ghimire clarified that the court is "not really part of essential…temple operation." There are no athletic fields being proposed. Mr. Ghimire testified "[t]he pool will not be there…the pool will be removed," and the bathhouse as well. Mr. Ghimire stated that the religious activity would take place in the main building, and therefore, the religious activity "has nothing to do with the swimming pool and bathhouse." As for the barn, they "have no use for it right now…[they] don't have any plans for it." They will restore, but not enlarge, the caretaker's house.

Petitioner proposes to have 38 parking spaces, though this number is not based on seats, as there are no actual seats. There will be temporary chairs for special events. Mr. Motsco testified that the number of spaces was derived from the estimated maximum number of people expected to attend a regular event and County input regarding that estimate. When an event calls for more visitors, such as a festival, adjacent grassy areas can handle overflow parking.

The cultural activities and/or other activities with a non-religious purpose, such as those that may be found at a community center, will not take place on the Property. Rather, Mr. Ghimire testified Petitioner intends to have such non-religious, community center-type activities occur

offsite at another building on Taylor Avenue in Parkville, leaving the temple as a place of religious services.

Protestants, however, spent much of their time addressing the alleged Code violations arising from special events held, and to be held on the Property, as well speculating about the future possibility of the Property serving as a community center or a much larger facility for uses beyond religious services.

The judicial powers and functions bestowed upon this Board by the Express Powers Act via the County Charter, County Code and Zoning Regulations are not the same as the judicial powers and functions embodied in the courts created by the Maryland Constitution. Dep't of Natural Resources v. Linchester Sand & Gravel Corp., 274 Md. 211, 222; 334 A.2d 514, 522 (1975). This Board is not empowered to *sua sponte* find Petitioner in violation of a code provision in the absence of the issue arising through the regular code enforcement process and being properly appealed to and in front of the Board. No code enforcement case was part of this hearing. Nevertheless, Protestants did not alter the presentation of their evidence or testimony.

Some of Protestants' evidence identified certain conditions that presently exist without the proposed use (traffic issues, noise runoff issues, etc.), supplemented by a belief the proposed use could, or in more of a conclusory manner, will, make these existing conditions worse. Protestants elected to not present expert testimony to support their arguments that certain issues will be exacerbated by the proposed use or otherwise to directly rebut Petitioner's experts in their specific fields of expertise, relying instead upon Mr. Jakubiak and at times, Dr. Dewey Clark's critiques of Petitioner's experts.

The Board does not trivialize or minimize the importance of the issues to the Protestants. To the contrary, it was more than evident to this Board that Dr. Dewey Clark in particular

undertook exhaustive efforts, underscoring their importance to him and Dr. Mary Clark. Mr. Poehler shared his wife's struggle with dealing with the issues presented by this case, testifying that she could not attend the hearing due to the stress it causes her.

However, the Express Powers Act, County Charter, County Code, and County Zoning Regulations specify the powers and authority of this Board and, as relevant here, the evidence and factors for the Board to evaluate and decide in connection with a special exception petition. Much of the evidence presented did not aid the Board in its analysis of the special exception factors. Similarly, much of the relief Protestants sought was simply beyond the power of the Board for this hearing. The Board cannot order the County to undertake a code enforcement investigation or to issue citations; nor can the Board render advisory opinions on alleged or potential code enforcement issues. The Board similarly cannot deny a special exception petition on the basis of a future code violation that may or may not ever occur.

V. Applicable Baltimore County Zoning Regulations

As noted above, the subject Property is zoned RC-2. The County Council, in creating resource conservation zones, made several findings and identified several purposes for the designation:

§ 1A00.1. - Findings.

It is found:

A. That development in the rural areas of Baltimore County has in recent years been taking place at an increasing rate;

B. That this development has occurred without the framework of a land use plan or other planning components;

C. That due to this and other factors, this development has formed very undesirable land use patterns;

D. That in general, these patterns are, or can be described as, urban sprawl;

E. That a significant amount of urban sprawl development is occurring as linear development along the various highways of the rural areas of the county as tracts of land immediately fronting along highways are "lotted off"; the utility of the road system is being impaired and future improvements will be frustrated if this process continues;

F. That it has been established that this development carries with it an extremely high cost to the county in a number of respects including:

1. The cost of servicing this pattern of development;
2. The cost with respect to its consumption and use of prime agricultural land, critical watershed areas, mineral extractive sites, as well as of other important natural resource areas;
3. The cost of future development opportunities due to the fact that viable, rational alternatives will be lost totally or compromised significantly by the present form of development;

G. That the aspect of the comprehensive plan that is applicable and which is being considered for rural Baltimore County embodies solutions to the various problems;

H. That the effective implementation of this plan requires additional zoning classifications; and

I. That effective implementation of the resource conservation area requirements in the Chesapeake Bay Critical Area criteria requires additional resource conservation zoning classifications to accommodate strictly controlled growth while conserving habitat and water quality within the Critical Area.

§ 1A00.2. - Purposes.

Pursuant to the above findings, it is the purpose of the Resource Conservation Zones to:

A. Discourage present land use patterns of development and to create a framework for planned or orderly development;

B. Provide sufficient and adequate areas for rural-suburban and related development in selected and suitable areas;

C. Protect both natural and man-made resources from compromising effects of specific forms and densities of development;

D. Protect areas desirable for more intensive future development by regulating undesirable forms of development within these areas until such time as intensive development commences.

E. Help achieve the goals of the Chesapeake Bay Critical Area Protection Law by enacting land use policies to control development within the Critical Area by

conserving the land and water resource base for agriculture, forestry and other natural resource uses; minimizing adverse effects on water quality; and conserving fish, wildlife and plant habitat.

The use sought by Petitioner is that of a religious institution and BCZR §1A01.2(C)(6) permits by special exception churches or other buildings for religious worship within a RC-2 zone. Baltimore County Zoning Regulation §502.1 establishes that before any special exception may be granted, it must appear that the use for which the special exception is requested will not:

A. Be detrimental to the health, safety or general welfare of the locality involved;
B. Tend to create congestion in roads, streets or alleys therein;
C. Create a potential hazard from fire, panic or other danger;
D. Tend to overcrowd land and cause undue concentration of population;
E. Interfere with adequate provisions for schools, parks, water, sewerage, transportation or other public requirements, conveniences or improvements;
F. Interfere with adequate light and air;
G. Be inconsistent with the purposes of the property's zoning classification nor in any other way inconsistent with the spirit and intent of these Zoning Regulations;
H. Be inconsistent with the impermeable surface and vegetative retention provisions of these Zoning Regulations; nor
I. Be detrimental to the environmental and natural resources of the site and vicinity including forests, streams, wetlands, aquifers and floodplains in an R.C.2, R.C.4, R.C.5 or R.C.7 Zone, and for consideration of a solar facility use under Article 4F, the inclusion of the R.C. 3, R.C. 6, and R.C. 8 Zones

In addition to the special exception factors in §502.1, BCZR requires the Board to find, in RC-2 cases, that the use would not be detrimental to the primary agricultural uses in its vicinity. BCZR §1A01.2(C).

VI. Special Exception Law and Discussion

A. Burden of Proof and Presumptions

Maryland courts historically have considered special exception uses as ones conditionally compatible with uses permitted as of right in the same zone. See, *e.g.,* Creswell v. Baltimore Aviation Serv., Inc., 257 Md. 712, 719; 264 A.2d 838, 842 (1970). The Court of Appeals revisited the law on special exception in 1979 with the seminal case of Schultz v. Pritts, 291 Md. 1; 432

A.2d 1319 (1979). In Schultz, the Court of Appeals held that a special exception is presumed to be in the interest of the general welfare, and therefore a special exception enjoys a presumption of validity. 291 Md. at 11; 432 A.2d at 1325.

In 2016, the Court of Appeals in Attar v. DMS Tollgate provided additional guidance on the presumption that accompanies a proposed special exception use. 451 Md. 272; 152 A.3d 765 (2016). First, the Court reiterated that the special exception petitioner has both, the burden of production and the burden of persuasion. Attar, 451 Md. at 287; 152 A.3d at 773, *quoting* People's Counsel for Balt. Cty. V. Loyola Coll. In Md., 406 Md. 54, 109; 956 A.2d 166, 199 (2008); *see also*, Board of Appeals Rule 7(d), "the proponent of an action to be taken by the Board has the burden of proof." Second, the Court clarified that the concurrent presumption in favor of the special exception petitioner is not a mutually exclusive evidentiary burden. Attar, 451 Md. at 286; 152 A.3d at 773.

Referencing Maryland Rule 5-301(a),[4] the presumption identified by Schultz v. Pritts satisfies the burden of going forward on a fact presumed (in this case, the special exception is in the interest of the general welfare, and therefore has a presumption of validity) and "*may* satisfy the burden of persuasion if no rebuttal evidence is introduced by the other side." Attar, 451 Md. at 286-287; 152 A.3d at 773; *quoting* Anderson v. Litzenberg, 115 Md. App. 549, 564; 694 A.2d 150, 157 (1997) (emphasis in original).

---

[4] Md. Rule 5-301 sets forth:
(a) Effect. Unless otherwise provided by statute or by these rules, in all civil actions a presumption imposes on the party against whom it is directed the burden of producing evidence to rebut the presumption. If that party introduces evidence tending to disprove the presumed fact, the presumption will retain the effect of creating a question to be decided by the trier of fact unless the court concludes that such evidence is legally insufficient or is so conclusive that it rebuts the presumption as a matter of law.
(b) Inconsistent presumptions. If two presumptions arise which conflict with each other, the court shall apply the one that is founded upon weightier considerations of policy and logic. If the underlying considerations are of equal weight, the presumptions shall be disregarded.

The presumption is that a special exception use is valid, that is, one that *can* conform to the zoning plan depending on the location, zoning classification, and impacts on the surrounding area. The presumption that inures to a special exception petitioner's benefit requires a special exception protestant to present probative evidence of any harms or other detrimental impacts, as identified in BCZR §502.1, to the surrounding neighborhood that are above and beyond the impacts that may be experienced elsewhere in the zone from this proposed use (Schultz, 291 Md. at 22-23; 432 A.2d at 1331) and/or other noncompliance with applicable zoning regulations to warrant a denial. In other words, a special exception protestant must show "non-inherent adverse effects," or "unique adverse effects" to overcome the presumption that the proposed use is in the interest of the general welfare and compatibility. *See*, Clarksville Residents Against Mortuary Defense Fund, Inc. v. Donaldson Properties, 453 Md. 516, 543; 162 A.3d 929 (2017); Attar, 451 Md. at 287; 152 A.3d at 774.

If a special exception protestant presents sufficient evidence to create a genuine dispute of material fact as to a particular special exception factor or other zoning requirement, the evidentiary record must be sufficient to persuade the Board of Appeals that the proposed use will conform to the applicable zoning plan and satisfy the specified factors. Attar, 451 Md. at 286-287; 152 A.3d at 773; *quoting* Anderson, 115 Md. App. at 564; 694 A.2d at 157. Even still, the Board can grant the special exception petition along with certain conditions or restrictions to better protect the surrounding and neighboring properties. BCZR §502.2. If the burden of persuasion is not met, the Board will deny the petition.

B. Defining the Neighborhood/Surrounding Properties

At the start, the Board must determine what the locality or neighborhood is in order to determine what if any impact the proposed use has above and beyond effects inherently associated

with a special exception use. Attar, 451 Md. at 278-284, 289; 152 A.3d at 769-772, 775. As stated by the Court of Appeals: "the Board's task is to determine if there is or likely will be a detriment to the surrounding properties" (Id., 451 Md. at 280; 152 A.3d at 769-770); the Board must assess "whether there are facts and circumstances that show that the particular use proposed at the particular location proposed would have any adverse effects above and beyond those inherently associated with such a special exception use irrespective of its location within the zone." Schultz v. Pritts, 291 Md. 1, 22-23; 432 A.2d 1319, 1331 (1979). Therefore, the question is whether the expected effects from the proposed use are somehow exacerbated by the location at issue, to the detriment of those to experience such effects. For a special exception, the description of the neighborhood to be impacted by the proposed use "must be precise enough to enable a party or appellate court to comprehend the area that the Board considered." Attar, 451 Md. at 282; 152 A.3d at 771.

For this case, the Board finds the neighborhood at issue includes that area bordered by Hutschenreuter Road to the south, Glen Arm Road/Mount Vista Road to the north, the properties along Harford Road, including the Poehler and Clark residences specifically, the other residences on the former Marc Lane at Harford Road, those properties on Bonaparte Avenue, and all other bordering properties. As will be discussed in more detail below, the relatively nearby agricultural uses are excluded from this definition. There is nothing in the record that suggests an expansion beyond the corridor and surrounding properties adjacent to the Property is warranted. As such, the neighborhood at issue is the residential corridor along Harford Road between Hutschenreuter Road and Glen Arm/Mount Vista Roads to the north and the other properties that share a border with the Property.

C. Application of the BCZR §502.1 Special Exception Factors

Protestants focused their opposition on certain factors under BCZR §502.1 and did not address, and therefore, did not attempt to rebut, other factors. The Board finds that Protestants have not presented any meaningful evidence on certain factors to sufficiently challenge the presumption in favor of Petitioner, namely, §§502.1(D), (E), (F), and (H).[5] Moreover, Petitioner has presented sufficient evidence to satisfy those factors.

The factors contested by Protestants include: (A) the health, safety or general welfare of the locality; (B) congestion in roads, streets or alleys; (C) the potential hazard from fire, panic or danger; (G) inconsistency with zoning classification and spirit and intent of the zoning regulations; and (I) the detrimental effect to the environmental and natural resources of the site and vicinity including forests, streams, wetlands, aquifers and floodplains in an RC-2, RC-4, RC-5 or RC-7 Zone. As noted above, because this Property is within the RC-2 Zone, the Board must also find that the proposed use is not detrimental to the primary agricultural uses in its vicinity. BCZR §1A01.2(C).

1. §502.1(A) Health, Safety, or General Welfare of the Locality

Noise is not expressly identified in the BCZR §502.1 factors. However, given the purpose for the factors, namely addressing harms and detrimental impacts to be experienced by the surrounding community, the Board interprets noise as being included within the "health, safety or general welfare," factor and, as such, ripe for consideration.

[5] By way of explanation, Protestants' closing memorandum does not address §§502.1(E), (F), or (H). As for §502.1(D), Protestants argue that, at present, there is not a functioning septic system that can handle large festivals. First, the use complained of by Protestants has been represented, and accepted, as atypical. Nevertheless, Mr. Powell, Petitioner's Licensed Environmental Specialist who provided testimony concerning the septic needs based on the proposed use, testified he believed that the site was sufficient for the intended use. This testimony was unrebutted. He also identified that, for the special events, port-o-potties would be used, which, for this special exception hearing, is not a sufficient basis for the Board to conclude that there will be an undue concentration or overcrowding.

Protestants, primarily through the Clarks and Mr. Poehler, identified noise as a significant concern. Dr. Dewey Clark specified two aspects, a general noise concern, but also what he referred to (and others impliedly so) as preservation of "solitude." To that point, Dr. Dewey Clark provided audio and video recordings with audio of the ambient noise he experiences at his property. The Clarks analogized the cars passing on Harford Road to the sound of breaking waves. To be sure, the evidence establishes a more serene, peaceful environment than other parts of the County. That is easily observed in the audio and video clips, as well as photographs. The Clarks and Mr. Poehler identified specific events with amplified music and atypical noise, whether by time or volume, as well as volleyball games.

The noise associated with operation of the proposed temple is no different at the present location than it would be experienced in other parts of the zone. Moreover, without trivializing the importance of this to the Clarks and Poehlers, they can neither expect, nor can this Board order, a particularized, subjective limitation on the level of noise that is permitted to come from the Property in furtherance of their individualized interests, especially where that subjective level of noise has the potential to intrude upon Petitioner's ability to use the Property in a lawfully valid manner and such noise potential from the Property exists today without the granting of a Petition.

Aiding in reducing the Protestants' concern, the Property has a substantial tree and vegetative buffer between the Property and the Clark house, though somewhat less so for the Poehlers. The activities to take place on the Property are largely confined to the main building area, a significant, even if imperfect, distance from the Poehler and Clark residences. The evidentiary record does not establish any exacerbation or amplification caused by the Property's elevation compared to the surrounding properties. To the contrary, as noted above, Protestants played several clips of audio from the Clarks' property ostensibly to illustrate overly invasive noise

emanating from the Property, which sits higher than the Clarks' property. Those clips, however, failed to do so. The Board does recognize that larger events could generally be more intrusive in this manner. As such, the Board will order as a condition that additional landscaping be planted at the border with the Poehler house and its curtilage, as well as on the west side of the multi-purpose court to increase the buffer density in those areas. In addition, the Board will also order that there is to be no outdoor amplification of sound.

It has been argued that the Foxworthy house located on the corner of Bonaparte Avenue at Harford Road will suffer adverse impacts, particularly as to headlight intrusion and runoff, as a result of the proposed use. First, as to runoff, Protestants failed to present sufficient evidence to determine whether the existing conditions on the Property are causing runoff to drain onto the Foxworthy property, let alone evidence to establish the proposed use will exacerbate any existing drainage issue or cause additional runoff.

Mr. Motsco's testimony established that runoff from Harford Road generally falls toward the Property, which has a culvert and a storm drain inlet. As such, the evidence presented shows that whatever runoff from the Property that makes it out to Harford Road (which is assumed for this discussion) is more likely to drain to and run along the culvert on the south side of Harford Road (the Property side) rather than travel over Harford Road to the Foxworthy property. Even still, Petitioner will be required to submit for approval a storm water management plan and will be required to comply with the applicable regulations and requirements at all times like any other property located in the County. Therefore, if there is a subsequent determination that some improvement from the Property may cause or exacerbate the runoff issue, mitigating measures will be required by the County.

As to headlight intrusion, based on Petitioner's Exhibit No. 26, headlights from vehicles turning left while exiting the Property will sweep across Bonaparte Avenue. Mr. Colaggero testified he did not conduct a study to analyze this aspect, but also did not know where the exact exit location would be. SHA will be providing additional input at the time of the access permit.

The final locations of the entrance and exit obviously are significant factors, as there could be a detrimental impact upon residents on Bonaparte Avenue, and in particular, the Foxworthy property. Due to the uncertainty caused by not having an exact exit location at this time, the Board is ordering as a condition of this approval that all traffic exiting the Property must turn right. Imposing this condition addresses several issues: (1) avoiding headlight intrusion upon the Bonaparte Avenue properties; (2) prevent blinding or distracting drivers driving north on Harford Road when coming around the blind curve; and (3) as discussed in greater detail below, improving safety and helping to prevent traffic congestion on Harford Road at or near the Property. Doing so will not cause an undue hardship on the visitors to the Property as the Mount Vista/Glen Arm/Harford Road roundabout is close to the Property.

While traffic issues identified contemplate the health, safety and general welfare of the locality, all traffic issues will be addressed within the discussion of §502.1(B).

2. §502.1(B) Congestion in Roads, Streets, or Alleys

Protestants have raised concerns regarding additional volume, *i.e.* congestion, on Harford Road as well as safety along Harford Road due to the increased volume. With respect to the congestion argument, nearly every witness acknowledged that they have observed a noticeable increase in traffic volume throughout Harford Road, including in the vicinity of the Property, in recent years. Protestants' witnesses expressed a concern that the additional volume will detrimentally impact travel along Harford Road (in the vicinity of the Property) by increasing the

probability of accidents, which presents a danger to nearby residents who use that stretch of road more frequently. Clearly, use of the Property as proposed will cause more drivers to use Harford Road for access to the Property. The relevant questions are: (1) will the proposed use cause traffic congestion, and if so (2) how at this location is that congestion worse than other locations in the RC-2 Zone. Those questions will be addressed separately.

a) Congestion

As noted above, Mr. Colaggero, Petitioner's traffic engineer, conducted several examinations, particularly, traffic counts as to capacity and as to operations, sight distance analysis and a speed study between September 26, 2018-October 9, 2018. That evidence is summarized above. Protestants relied upon undermining Mr. Colaggero's testimony and supplementing the record via lay witness testimony rather than through the use of an expert to address the studies and opinions by Mr. Colaggero.[6] The lay witness testimony relevant to traffic congestion was similarly summarized above.

Mr. Colaggero's testimony on the traffic congestion issue was credible, convincing, and unrebutted. Mr. Colaggero's opinions and supporting calculations rely upon the representations of typical operations made by Petitioner to Mr. Colaggero. While Protestants question those representations, the typical usage data provided is information required for his expert evaluation and information necessary for Mr. Colaggero's calculations and it was the only data provided to him.

It is undisputed that there will be an increase in traffic volume caused by the typical use. However, it is similarly undisputed that the capacity of Harford Road in and around the Property

[6] Dr. Dewitt Clark testified he thought they were better off by relying on cross-examination of Mr. Colaggero instead of retaining a traffic expert with whom Protestants consulted for this hearing.

can easily handle the expected increase. Protestants did not offer evidence of possible specific effects upon traffic flow, congestion, and/or turning delays if the representations/assumptions as to typical usage are underestimated or otherwise incorrect. As Protestants did not have a traffic engineer to provide evidence to contradict Mr. Colaggero or Petitioner otherwise, Mr. Colaggero's calculations and opinions are the only evidence in the record on this issue.

In fact, Mr. Colaggero testified that if another, *e.g.,* 400 vehicles at the Saturday peak hour were added to his assumptions, the intersection would still be considered within the level of service for an "A" rating (*i.e.,* the highest rating) under the CLV methodology. There is more than sufficient capacity, whether based on the assumed/represented usage or a significantly greater volume, and it cannot be concluded that the projected increase in operational delay creates any significant congestion. Petitioner has met its burden on this aspect of this factor.

b) Safety Issues Presented By Increase Traffic Volume (§502.1(A),(B),(C))

As referenced above, it seems to be the one point in this case on which there appears to be consensus among the parties --- Harford Road along the Property's northwestern, northern, and northeastern edges presents certain challenges, and that stretch may be considered hazardous with existing conditions. To be more specific, the particular stretch of Harford Road at issue is that which, heading north, sweeps around a bend, described as a "blind curve" by several witnesses, proceeding in easterly, then southeastern direction, before entering another curve just prior to Bonaparte Avenue and the Property's entranceway, proceeding east, before sweeping out of the curve and headed northeast just past the Poehler house (approximately 1,000 feet in roadway length). (*See*, e.g., Pet. Ex. 26).

From the start of that stretch until the house on the northwest corner of Bonaparte Avenue and at the Property entrance, Harford Road is surrounded by a substantial number of tall deciduous

trees and other vegetative growth that may obscure sight lines around the curves as well as light. (*See, e.g.,* Pet. Ex. 19 (No. 2-4) and 26 (No. 4-5)). The embankment boxing in Harford Road sits at a significantly higher elevation on the eastern, and therefore, Property side, of Harford Road. From Bonaparte Avenue and the Property entrance heading north, there are, again, a significant number of tall deciduous trees and also vegetative growth that may obscure sight lines around the curves. There are no shoulders along Harford Road in this stretch. At various points, there are guardrails (*See, e.g.,* Pet. Ex. 26, photo 4), road signage warning of sharp curves/turns (*e.g.* Pet. Ex. 26, photos No. 3 and 5; Pet. Ex. 19, photos No. 2-3), and a recommended reduced speed limit sign. (Id.)

Mr. Colaggero provided testimony about the signage, explaining their use by SHA and what the signs are communicating to drivers. He identified several traffic signs along Harford Road, and understood from the signs, SHA considers the course of the road as "reverse turn area," which reflects "a more severe turn, not a curve." He understood the speed sign of 30 mph as a "SHA recommend[ation]" that applies to that stretch of Harford Road at issue, for both the northbound and southbound traffic. The chevron signs act as "additional warning signs on the turns themselves." Otherwise, Harford Road northbound has a speed limit of 50 mph, while southbound is 45 mph.

Based on the presence of the guardrails, road signage, and recommended reduced speed limit sign, it is reasonable to conclude that this stretch of Harford Road has had a higher volume of accidents and/or near-accidents and SHA determined remedial measures were required. Yet, it appears that the relevant stretch of Harford Road still may present a greater risk of accidents than other nearby stretches of Harford Road. Video clips presented by Dr. Dewey Clark and the

testimony of witnesses on both sides support such a finding. This finding, however, is not dispositive of this factor.

Mr. Colaggero's sight distance analysis helps with the safety aspect for this factor. To start, he superimposed the contour lines provided to him by Mr. Motsco on the roadway network. (*See*, Pet. Ex. 26). Petitioner, however, seeks to split the entranceway into an entrance lane and a separate exit lane, which requires shifting the location of the entrance and exit. Following SHA granting conditional approval of the concept plan depicting a split entrance and exit (as reflected in Pet. Ex. 27) during the pendency of this hearing, Mr. Colaggero conducted his sight distance analysis anew (*See*, Pet. Ex. 26).

As reflected in Petitioner's Exhibit 26, at the proposed new exit at the Property, SHA requested Mr. Colaggero provide a minimum of 390 feet looking south (*i.e.* left), based on northbound traffic proceeding at 35 mph coming out of the first curve/turn. Looking north (to the right) from the proposed exit lane, SHA requested an intersection sight distance of 500 feet based on a speed of 45 mph for those southbound vehicles on approach to the Property. SHA also wanted a minimum intersection sight distance for the southbound traffic left-hand turn into the Property of 285 feet, based again on a speed of 35 mph of northbound traffic coming out of the first curve/turn. Lastly, SHA requested a stopping sight distance of 360 feet based on southbound traffic at 45 mph.

For this 500 feet intersection sight distance and 360 feet of stopping distance to be achieved, vegetation growth on the north side of Harford Road, starting at Bonaparte Avenue and around the curve at the Poehler driveway, must be cleared and maintained. SHA acquired a right-of-way at this location to clear and maintain the vegetation growth on the north side (southbound traffic side) of Harford Road. As for the south side (the northbound side of traffic), SHA will

make a determination of what is required and if clearing and maintenance on the Property is necessary. SHA, as part of the access permit process, may either acquire a right-of-way from Petitioner or condition its approval and require Petitioner to clear and maintain this area.

As noted above, accident data was also presented by both sides. (Prot. Ex. 10, Pet. Ex. 30). Protestants' Exhibit 10 concerns accidents that occurred from 2016-first quarter of 2018, on Harford Road, between Hartley Mill Road (south of the Property) and Glen Arm Road (to the north), but there are no further details about the accidents, the specific locations, or causative or contributing factors. Petitioner's Exhibit 30, assembled by Mr. Colaggero and/or his office after cross-examination on Protestants' accident data, identifies accidents that occurred from 2015 through first quarter 2018, on Harford Road, in between Hutschenreuter Road (to the south of the Property) and Vista View Court (to the north). The data identifies a report number, date, surface conditions, time, mile marker location, road name, distance, direction, and a code briefly describing mechanism for the occurrence of an accident (*e.g.* "Making Left Turn"). Petitioner's exhibit has much more information than Protestants, but because the exhibits use different data by time as well as location, and also sourcing, there is little value in attempting to compare or reconcile the two.

The area of particular relevance for evaluation would be that section between Hutschenreuter Road, to the south, and Glen Arm/Mount Vista to the north. Even still, some of the information may not be applicable or otherwise be relevant to this case as, in 2016-2017, SHA reconstructed the previously non-aligned intersection at Glen Arm Road, Mount Vista Rd. and Harford Road as a roundabout. As identified by the lay witnesses, there had been numerous accidents at that intersection prior to reconstruction. Mr. Colaggero testified that he understood SHA began studying the Glen Arm/Mount Vista/ Harford Road intersection in 2009. Accident

data inclusive of pre-roundabout accidents at that location lessen the importance of the data unless those accidents (as well as other outside of area considered relevant) can be identified. Whatever intersection and road conditions caused or contributed to the occurrence of the accidents at the Glen Arm/Mount Vista location no longer exist and, obviously, will not exist going forward.

Excluding data of accidents that occurred at or near the intersection of Glen Arm, Mount Vista, and Harford Roads, Petitioner's Exhibit 30 provides some evidence that a higher number of accidents occurs within the relevant stretch of road at a higher rate than the remainder of the studied area (primarily, the area along the western edge of the Property to Hutschenreuter Road, and Harford Road north of the roundabout to Vista View Court). Out of the 20 accidents, 10 occurred within the surrounding neighborhood defined above. Notably, the accidents that occurred within 250 feet of the intersection of Bonaparte Avenue and Harford Road, and therefore the proposed entrance and exit to the Property, are also within the improved intersection sight distance and improved stopping distance required by SHA.

SHA has provided its preliminary input to Petitioner as to how to make the Property entranceway safer, which requires relocating and splitting it (as well as maintaining vegetation that may obscure sight lines). The only information in the record regarding an assessment as to the safety risk presented by the proposed use comes from Mr. Colaggero. Mr. Colaggero has opined that his understanding of the proposed use of the Property in combination with the SHA-requested sight distances makes the relevant stretch of Harford Road safe. SHA, as part of the access permit process, may have more input as to further improvements.

Given the inherent heightened level of danger this stretch of road presents, the representations identified by Mr. Colaggero and confirmed by Mr. Ghimire as to expected typical use take on greater importance. In other words, because the Board's decision is premised upon

the unrebutted representations as to the expected typical use, any use that leads to more vehicles than those used in Mr. Colaggero's studies may create a greater risk, especially considering that this stretch of roadway is particularly complicated and more dangerous than found elsewhere. Greater usage will foreseeably lead to more stacking and/or queuing outside of the Property's entranceway, potentially causing a greater risk for accidents given the visual obstructions and sight distance issues, particularly for traffic going northbound around the "blind curve."

SHA has proposed changes to help alleviate these concerns based on the representations. The Board notes that if vehicle usage well exceeds the models, SHA's remedies may not adequately abate or alleviate the dangers presented by this stretch of road. The Board, however, can only base its decision upon the evidence presented, which reveals that, as proposed, certain measures have been or will be required by SHA to address safety issues. The only evidence in the record is that the entranceway and exit can be made safer than existing conditions, even with the increased vehicle traffic accessing the Property.

Based on this evidentiary record, the Board finds that Petitioner has met its burden on this issue and factors. There is no competing evidence regarding sight distances or other evidence upon which the Board can rely to conclude otherwise. Nevertheless, as set forth above, the Board's imposition of a right-turn only for any vehicles exiting the Property will provide additional relief to minimize traffic from queuing on Harford Road outside of the Property's entrance, helping to address the safety concern. The Board will also impose as a condition on Petitioner that Petitioner complies with SHA's requirements and recommendations, and also that Petitioner maintain the vegetation on its Property in order to maintain sight lines along Harford Road at all times.

3. §502.1(C) Potential Hazard from Fire, Panic, or Danger

Protestants presented evidence through video clips of events at the Property of certain fire code violations and the use of fire at an event. None of those clips or the testimony from Protestants poses any sufficient challenge to the presumption afforded to Petitioner, let alone causes the Board to conclude the proposed use creates a hazard of fire, panic, or danger. In any event, there is no evidence at all that suggests any risk of fire, panic, or danger is greater with the proposed use at this location. Moreover, Petitioner will not be exempt from compliance with the fire and building codes. Petitioner has satisfied this factor.

4. §502.1(G) Consistency with Zoning Classification/Spirit and Intent of Zoning Regulations

While this factor has been contested, the Board finds Petitioner has met its burden on this factor. The RC-2 Zone permits buildings for religious worship as special exception use. Other religious institutions exist in the RC-2 Zone. In fact, one religious institution is adjacent to the Property. Agricultural land is not being removed or changed as a result of this Petition. Ms. Twining testified she did not think the Property had ever been used as a farm while she has been in the area. Moreover, the evidentiary record established that, though there may have been a significant history of agricultural use in the general, broader area, the immediate subject area is now primarily residential, with other non-agricultural uses in the vicinity.

There is nothing in the record that establishes the residential and other non-agricultural uses within the immediate area affect the agricultural uses outside of it and therefore, there is no basis to conclude that the proposed use will have such an effect simply by its location. Similarly, there is nothing in the record to support a finding that the proposed use somehow detrimentally impacts the surrounding area to a greater extent than if located elsewhere to render the proposed use inconsistent with the spirit and intent of the zoning regulations. As such, the Board finds that

the proposed use is consistent with the RC-2 Zone general provisions under §1A01.1 or otherwise consistent with the spirit and intent of other applicable RC-2 regulations of the BCZR.

Protestants further argue that the propose use is inconsistent with the Baltimore County Master Plan 2020, particularly because the Property is zoned RC-2 and is located on a designated Scenic Corridor. The Board, having already found no inconsistency with the RC-2 aspect of this argument, also finds no inconsistency with the Property being located in a designated Scenic Corridor. The Master Plan 2020 states as a policy action for protecting scenic corridors: "(9) For properties along scenic routes or within scenic view sheds, variances, amendments, and special exceptions should be granted *sparingly*." (emphasis added).

The only proposed change that will be observable along the scenic corridor will occur at the entrance and exit, which is a minimal disruption, and the appearance will be consistent with other driveways or private roads in the nearby area. Notably, there is already a driveway present, but with this approval and the conditions imposed, the entranceway will be split to address safety concerns, which, of course, is of paramount importance.

The Master Plan 2020 expressly contemplates granting of special exceptions for properties along scenic routes, just that granting such petitions should be done carefully. The Master Plan 2020 cannot be reasonably interpreted as precluding all special exception uses, and specifically, the proposed use, even if in a RC-2 zone and along a Scenic Corridor.

The Greater Kingsville Area Community Plan, adopted by the County Council in 1996 into the Master Plan, includes the Property within its borders. The Community Plan recognizes that for development of religious institutions in the area, the development "should be located in close proximity to major roadways such as Harford and Belair Roads, and provide a suitable buffer commensurate with size and usage from neighboring properties." (Pet. Ex. 46, at p. 27).

As such, the Board finds that the proposed use is consistent with the zoning classification, zoning regulations, or the Master Plan 2020, including the Greater Kingsville Area Community Plan.

5. Detrimental Effect to the Environmental and Natural Resources of the Site and Vicinity

The Board finds that Petitioner has met its burden on this factor as well.[7]

It is noted Dr. Dewey Clark has some experience in environmental matters (training and volunteer work as a master naturalist) and his testimony on these points has been taken into consideration; however, Dr. Dewey Clark was not offered or received as an expert witness on environmental and natural resource matters.

While Dr. Dewey Clark expressed concerns about site drainage having impacts on the Gunpowder River and trout in nearby streams, no evidence was presented that identified the particular impacts, causation, proximity of sensitive areas to activities on the Property, or other such evidence required to find that Protestants successfully rebutted this factor.

Another issue raised by Dr. Dewey Clark concerned the possible use of non-native and invasive plantings. More accurately, he wishes for, if approved, a requirement that native plantings be used as part of any landscaping. The Board understands how requiring native plantings will help the site and vicinity and help prevent detrimental impacts from non-native species, and finds the suggested condition reasonable. Therefore, a condition requiring the same shall be imposed,

[7] It is noted that Petitioner addressed the septic and well issues under this factor in its post-hearing memorandum, while Protestants discussed it under §502.1(D). Protestants identified the issues of soil compaction and permeability caused by overflow parking. As stated above, the overflow parking is associated with the special events, not typical use. If the overflow parking was required on a continuous basis with a greater volume of regular attendees, the Board may have reached a different conclusion on this factor (but Petitioner would also have presented different evidence). The Board confines its decision to the proposed use, which does not require regular use of overflow parking on to the surrounding grass. Moreover, the evidence presented by Protestants can only be considered speculative and as such, insufficient as evidence.

to the extent that such a condition does not infringe upon the free exercise of religion, as is expressed in more detail below.

6. Detrimental to the primary agricultural uses in its vicinity. BCZR §1A01.2(C)

The Board finds that the proposed use will not be detrimental to the primary agricultural uses in its vicinity. In fact, as the Board has described the surrounding area and defined the neighborhood, there are no, agricultural uses along the relevant stretch of Harford Road or that are immediately adjacent to the subject Property. More specifically, the general area has properties with agricultural uses, but there are no farms immediately adjacent to the Property. While there may be farm equipment using Harford Road at various points, those points are not within the vicinity of the Property. The immediate vicinity is primarily residential in nature, along with the presence of the adjacent Christian Redeemer property and Beachmont Camp. There are no primary agricultural uses near the Property, therefore, the proposed use cannot be a detriment.

VII. Case No. CBA-19-004

On July 2, 2018, Mr. Kotroco, on behalf of Petitioner, wrote a letter to Judge Beverungen seeking clarification of his January 22, 2018 Opinion and Order regarding whether Petitioner could hold a fundraiser on the Property. (Pet. Ex. 34). Judge Beverungen responded the following day by writing on the letter, that the January 22, 2018 decision related solely to the operations of a building for religious worship, and that the owners are free to gather on their property so long as no religious activities are occurring within the subject building and all other permit requirements, if any, are satisfied. (Id).

Protestants filed a "Motion to Strike Tim Kotroco Letter Dated July 2, 2018 As Ex Parte And Not In The ALJ Jurisdiction To Opine." (Prot. Ex. 1, CBA-19-004). Protestants have argued that the letter was read into the record in an effort to "influence the judgment of this Board." (Prot.

Response to Case No. CBA-19-004). Protestants also contend that the letter was never served upon them, whether before or after Judge Beverungen's response.

Protestants subsequently clarified their position to note that they do not request that the letter be stricken, "only that the effect of the letter be ruled inappropriate and unduly presented and relied upon." (Id). It should be noted that Protestants did not object at the time that the Petitioner sought to move it for admission into evidence, but did note they would have a motion regarding it for the next hearing date after it was moved into evidence. In fact, counsel for Protestants, at one point, consented to its admission.

Simply, the Board finds that Judge Beverungen had no jurisdiction over the matter, irrespective of whether it constituted impermissible *ex parte* contact and without the need to untangle the lack of an objection followed by a motion and the request to strike, but only the effect, not the letter itself. The July 3, 2018 response had no effect upon the January 22, 2018 Opinion and Order, or the proceedings in front of the Board. Case No. 18-122-X had been properly appealed, divesting the court below with jurisdiction. The clarification had no effect on the Opinion and Order issued by the ALJ in Case No. 18-122-X or these proceedings. While it should not have occurred in the manner it did, no one should interpret the July 3, 2018 response has having any legal effect. As such, the Board dismisses the appeal of Case No. CBA-19-004 as there is nothing to remand, grant, or deny.

VIII. Exhaustion of Administrative Remedies

As noted above, Protestants sought to introduce documents and testimony regarding alleged code enforcement violations and what they have represented as a lack of adequate response and/or inaction in enforcement on part of the County. As noted above, no code enforcement matter was pending in front of the Board. Therefore, the Board did not admit the evidence relating to the

alleged code enforcement matters or the attempts at contacting County officials about them. Rather, Protestants requested that the Board find that Protestants have exhausted all administrative remedies on this issue.

Typically, administrative remedies must be exhausted prior to seeking judicial remedies, depending on whether the administrative remedies, relative to judicial remedies, is categorized as exclusive, primary and concurrent. Falls Rd. Cmty Ass'n v. Balt. County, Md., 437 Md. 115, 136; 85 A.3d 185, 197 (2014). For an appeal to this Board by a party "aggrieved by a decision of a local zoning official," the remedy at issue is at least primary, and may be exclusive. Id *quoting*, Maryland Reclamation Associates, Inc. v. Harford County, 382 Md. 348, 364-65; 855 A.2d 351 & n.6 (2004).

The Board finds that the remedies sought by Protestants on the alleged code enforcement issues are beyond the jurisdiction of the Board and/or those issues are otherwise not properly in front of the Board, precluding Protestants from any administrative remedies on the alleged code violation and enforcement issues and/or the County's actions or inactions concerning the same. Simply, the relief sought by Protestants on this issue, as understood by the Board, is beyond the authority and jurisdiction of this Board and Protestants will have to seek those remedies in another court.

IX. Evidentiary Issues Concerning Protestants' Exhibits 22 and 23

As stated above, Protestants called Mr. Ghimire as an adverse witness in their case. During the course of that examination, Protestants attempted to question Mr. Ghimire about two fights (to be clear, neither fight involved or concerned Mr. Ghimire in any way) that occurred on January 28-29, 2018, one at an event held at St. Joseph's Catholic Church called "Nepal Idol" modeled after "American Idol" and one at a restaurant after the first incident. The police were called to

respond to both fights. Protestants intended to introduce police reports (Protestants Exhibits 22 and 23) in support.

When first raised, it was unclear what the evidence was, what its purpose was, and the connection to Mr. Ghimire. Early on in that testimony, Mr. Ghimire was asked whether he sponsored or hosted an event at St. Joseph's Catholic Church. As that question caused some confusion to Mr. Ghimire, counsel for Protestants was asked to clarify. Subsequent questioning revealed neither Mr. Ghimire individually, nor the Petitioner, was the host or sponsor for that event. As the questioning developed, it became clear that Protestants wanted to establish that Petitioner was a sponsor for the Nepal Idol event to illustrate that Petitioner was, somehow, responsible for the fights. Objections raised by Petitioner to the police reports and questions to Mr. Ghimire were sustained as there was no connection between the incidents and Petitioner.[8]

Following Mr. Ghimire's examination on October 23, 2018, Protestants' engaged in subsequent, multiple efforts to have the police reports be part of the evidentiary and/or case record. The purpose for the questions and intent to introduce the police report, as well as the complete disregard for the Board's rulings, prompts the Board's atypical discussion in this Opinion of its evidentiary rulings.

On November 27, 2018, Protestants filed its "Motion to Admit Protestants Exhibits 23 and 24" which included additional documents beyond the police reports identified on October 23, 2018.[9] Within the Motion, Protestants stated that the additional documents evidence a link between the Nepal Idol event (and therefore, fights) to Petitioner. Protestants describe the two

[8] It needs to be noted that when the Board sustains objections to documents and items offered into evidence, the evidence is classified as "identification only." The Board is required to keep the rejected evidence as part of the case file in the event a party appeals a decision by the Board, but the "identification-only" evidence is not considered as part of the evidentiary record for the Board's deliberations.
[9] The Motion erroneously identified the exhibits as "Protestants Exhibits 23 and 24" instead of Exhibits 22 and 23.

fights, noting the first one occurred in the parking lot of St. Joseph's Church, and the second occurred around 1:00 a.m. at the Mount Everest Restaurant, identified as the after-party location hosted by the restaurant. One of the sponsors was identified as Ghimire Homes and one of the event organizers was identified as an attendee of several hearing dates in this case. Protestants looked at the names on the hearing sign-in sheets and, in conclusory form, referred to them as being "directly involved" with the Nepal Idol event because these individuals were thanked by the event organizers on a Facebook post.

In arguing its relevance as to why it should be admitted, Protestants' Motion raised the following question:

> If this type of behavior demonstrated in the police reports is indicative of the [Petitioner] behavior on a property they ***rented*** (St. Joseph's Catholic Church Hall), what can the local community expect regarding their behavior on a property they ***own*** (12231 Harford Road)? (emphasis in original).

The Motion goes on to state:

> Given that between 10,000 and 20,000 individuals of Nepalese descent reside in the greater Baltimore area, neighbors of 12231 Harford Road located in a rural agricultural R.C. 2 Zone are entirely justified in their concerns regarding health, safety, and **danger from the behavior of those attending NAACB events**, as evidenced by the January 28 and 29 police reports. (emphasis added).

On January 29, 2019, the Board denied the Motion for multiple reasons, which will be identified and addressed below as, due to the multiple attempts, the reasons to reject the evidence are applicable throughout the multiple attempts to use it.

On February 4, 2019, Protestants next filed their "Motion to Reconsider the Board's Decision to Readmit Protestants Exhibits # 22 and # 23" on the basis that the police reports were not admitted because Protestants had not adequately linked Ghimire Homes to Kris Ghimire. The Board asked counsel for Protestants at one point directly, "Are you offering this evidence for any

other purpose?" to which counsel for Protestants indicated there was no other purpose. The Board, once again, denied the Motion and rejected the evidence.

Despite the three prior rulings, Protestants, in their closing Memorandum, once again included the thrice-rejected police reports. Protestants did so under the guise of needing to, preemptively, address an argument they assumed Petitioner would make. The Board finds the proffered excuse wanting. Nevertheless, for clarity's sake, because the disputed exhibits are not part of the evidentiary record, the Board did not consider them.

The multiple attempts at getting the disputed exhibits into evidence or for the Board's consideration compels the Board to explain the reasons why the Board denied Protestants' use of these documents.

First, the purported evidence had no relevance or materiality to the issues in front of the Board. In particular, the Board was far from persuaded that Petitioner could be considered the sponsor of the Nepal Idol event and the Board was certain that Petitioner was not responsible for the actions identified in the police reports. The most elemental concept of corporate law is that a corporation is regarded as a separate legal entity. In other words, acts taken by an individual on behalf of a corporation are corporate acts; whereas, acts taken in a personal capacity do not bind the corporation. Turner v. Turner, 147 Md. App. 350, 425; 809 A.2d 18, 61 (2002). Petitioner is a corporation. Mr. Ghimire is a trustee for Petitioner. Mr. Ghimire, as identified in Protestants' Motion, is President of Ghimire Homes, LLC. Ghimire Homes, LLC was a sponsor of the Nepal Idol event. Mr. Ghimire may be authorized to act on behalf of each, but an act by Mr. Ghimire for one is not tantamount to an act by the other. Even if it is assumed Mr. Ghimire, individually,

played some role in putting on the event, actions by Mr. Ghimire individually are not attributable to Petitioner, nor are individual acts at events sponsored by corporations.[10]

Second, if probative value is assumed, and to be clear, the Board found and continues to find a complete absence of probative value, that any minimal probative value is substantially outweighed by the danger of unfair prejudice. Clark v. State, 774 A.2d 1136; 364 Md. 611 (2001); Maryland Rule of Evidence 5-403. Even if any probative value is assumed, the manifest, substantial weight of the unfair prejudice wholly eclipses the (assumed) probative value.

Third, for this hearing, as noted above, the Board must assess "whether there are facts and circumstances that show that the particular use proposed at the particular location proposed would have any adverse effects above and beyond those inherently associated with such a special exception use irrespective of its location within the zone." Schultz v. Pritts, 291 Md. 1, 22-23; 432 A.2d 1319, 1331 (1979). Evidence is only "material" if it tends to establish a proposition that has legal significance to the litigation. Bryant v. State, 881 A.2d 669; 163 Md. App. 451 (2005). For this purported evidence to be material to these issues, Protestants would be required to show how the particular use at this particular location would have adverse impacts above and beyond impacts experienced elsewhere. However, Protestants do not attempt to do so.

The mere fact that evidence rules are relaxed in administrative proceedings provides no relief to Protestants. Under the Board's Rules on evidence, any evidence which would be admissible under the general rules of evidence applicable in judicial proceedings in the State of

[10] In Protestants' Closing Memorandum, much like their Motion to Admit, Protestants argue Mr. Ghimire "misrepresented the facts regarding his involvement" in the Nepal Idol event. The Board did not and does not conclude Mr. Ghimire "misrepresented the facts regarding his involvement." First, the questions presented to Mr. Ghimire appeared to cause confusion, failing to distinguish between Mr. Ghimire's acts as an individual, on behalf of his corporation and/or Petitioner. The Board initially left room open for Protestants to show the evidence's relevance to Mr. Ghimire individually, but after receipt of Protestants' Motion, it became clear Protestants were conflating Mr. Ghimire's roles, which, as noted above, contravenes Maryland law, in addition to its other evidentiary frailties.

Maryland shall be admissible in hearings before the county board of appeals. Rule 7(a). The questions concerning the January 28-29, 2018 incidents and the documents regarding them present numerous evidentiary problems that would render them inadmissible in any courtroom and it requires their rejection here. Moreover, the Board's Rules require the evidence to be needful and proper and this evidence was neither needed, nor proper.

By attempting to use these exhibits, Protestants urge this Board to find that the fight is representative of what is likely to occur once the Property starts operations as a temple. In the best light to Protestants, this evidence is untethered to the facts, the special exception factors, and common sense. As noted above, there was never any reasonable or legitimate basis to argue Petitioner sponsored the Nepal Idol event, or controlled the premises of either incident location, or otherwise had any responsibility for the incidents that one night in January 2018. The Board, in fact, rejects any such assertion out of hand. Assuming *arguendo* Petitioner had some role in the event or location(s), the logical leap still fails to reach the other side of the evidentiary gorge, as it does not and cannot make it more likely fights will occur at the temple and/or that surrounding area is endangered as a result.

The Board sustained the objections regarding these exhibits and the questions asked and denied the motions as the case progressed. Though the exhibits were not part of the evidentiary record, Protestants nevertheless attached them to their Closing Memorandum.

The use of this evidence and the manner in which it was communicated during the hearing and in Protestants' closing memoranda reasonably may be interpreted in a far more egregious and odious manner. There are several examples in the record individually, but the cumulative effect casts its own shadow as well. Any suggestion, whether intended or not, that common heritage or ancestry may serve as a material factor to tie the two incidents to the temple use and operations

requires this Board to make it abundantly clear that evidence for that purpose, or anything within the orbit of its event horizon, cannot and will not be accepted or considered.

The Board, in fact, excluded that evidence from consideration as part of this decision. Instead, the Board focused only upon the testimony and evidence admitted into the evidentiary record.

X. CONCLUSION

For the foregoing reasons, the Petition is granted by the Board. Baltimore County Zoning Regulations § 502.2 empowers the ALJ and the Board of Appeals, in connection with granting any special exception petition, to impose conditions, restrictions or regulations as may be deemed necessary or advisable for the protection of surrounding and neighboring properties. As noted to varying degree above, the Board, pursuant to BCZR §502.2, will impose conditions as outlined in more detail below.

ORDER

THEREFORE, IT IS THIS 9th day of January, 2020, by the Board of Appeals of Baltimore County,

ORDERED that the Petition for Special Exception to allow a temple for religious worship on property zoned RC-2 is hereby **GRANTED**, subject to the following conditions under the Board's authority in §502.2:

1. Petitioner shall confine its hours of operation for non-religious events from 8:00 a.m. to 9:00 p.m.
2. The exit from the Property shall be right-turn only. Petitioner shall post and maintain proper signage indicating the exit is right-turn only at all times.

3. Prior to the issuance of any permits, Petitioner shall obtain from State Highway Administration (SHA) an access permit authorizing ingress and egress from the Property. Petitioner shall comply with SHA's access permit for the proposed entrance and exit. Petitioner also shall comply with the SHA requirements and recommendations. Petitioner shall also maintain the vegetation around the entrance and exit in strict conformity with required sight and stopping distances.
4. Petitioner shall submit all landscaping plans and all lighting plans to Baltimore County for approval.
5. Any tree(s) required to be removed for any improvement or construction of an improvement, Petitioner shall replace the removed tree with per-diameter equivalent replacement native species tree and each such replacement tree shall also provide similar or better shade and screening coverage. The replacement trees shall be planted in an area onsite that will increase the buffer density along the Property's border with the Poehler property in order to help screen the Property from the Poehler house and its curtilage.
6. Petitioner shall add landscaping to serve as an additional light and sound buffer between Petitioner's property and the Poehler property to increase the buffer density along the Property's border with the Poehler property in order to help screen the Property from the Poehler house and its curtilage. Petitioner shall add additional landscaping particularly at the Harford Road side (western side) of the multipurpose court to serve as an additional light and sound buffer between Petitioner's property and the Clark property and/or others in that area. All landscaping for these purposes is required to be approved by Baltimore County.
7. Any and all plantings, whether part of Condition No. 5, No. 6, or otherwise, shall consist of native species only, subject to approval by Baltimore County's landscape architect, with the sole exception for any plantings required for onsite for religious use.
8. Prior to the issuance of occupancy permits, Petitioner must demonstrate to DEPS that the well and septic systems will be sufficient to serve the proposed use. Prior to the issuance of permits, Petitioner shall also comply with any and all ZAC comments.
9. The outdoor amplification of sound shall not be permitted.
10. Petitioner shall obtain any and all necessary permits to have the pool and pool house demolished and removed prior to any demolition or removal. Any and all demolition or activity related to the removal of the pool and pool house shall only take place between 8:00 am and dusk.
11. Petitioner shall not organize, host, invite, conduct, or participate in any athletic program, league, or tournament on site. This condition does not preclude Petitioner from using the multipurpose court for athletic games or contests, only athletic programs, leagues, and/or tournaments.

12. Petitioner shall not use the Property as a community center, unless such community center-type activity is in furtherance of the exercise of religion and/or operation of the temple. Cultural activities and/or other activities with a non-religious purpose shall take place offsite.
13. Petitioner otherwise shall comply with the Baltimore County Code and Zoning Regulations at all times.

It is further,

ORDERED that the appeal in Case No. CBA-19-004 is dismissed as moot, as the court below had no jurisdiction over the matter at the time the letter was signed and sent, and the Order in Case No. 18-122-X otherwise resolves the subject matter of Case No. CBA-19-004.

Any petition for judicial review from this decision must be made in accordance with Rule 7-201 through Rule 7-210 of the *Maryland Rules*.

Re: In the matter of: Nepali American Cultural Center
Case No: 18-122-X

Dear Councilman Marks:

We are in receipt of your letter dated September 30, 2019 inquiring as to the status of the Board's Opinion in the above referenced matter. As you may know, the Board held the public deliberation on March 13, 2019 after eleven days of hearing.

At this time, I do not know when the written opinion will issued. The Board is working on the written decision, which will be issued upon completion and signature of the panel.

Thank you for your inquiry.

Very truly yours,

Sunny Cannington

Towson, Maryland 21204

Dear Chairman Garber:

At the most recent meeting of the Greater Kingsville Civic Association, I was asked to write to the Board of Appeals to inquire about the status of the Bonaparte Mansion decision.

While the county charter precludes me from involvement in issues before the Board of Appeals, with the deliberations over it is appropriate to make this inquiry and convey the community's desire for an expedious opinion on this issue.

Thank you very much for your service.

Respectfully:

David Marks
Baltimore County Councilman

Re: The Nepali American Cultural Center
Case No: 18-122-X

Dear Mr. Holzer:

Please be advised that we are in receipt of your client's letter dated August 7, 2019.

As you are aware, the Board concluded eleven days of hearings on February 13, 2019. Closing Memoranda were received from Counsel on March 5, 2019, at which time the record was closed. The Board publically deliberated this matter on March 13, 2019. An order has not been issued by the Board of Appeals to date.

As you know, because the record is closed and because the Board has conducted its public deliberation in this case, the Board cannot consider any matter raised within your client's letter. Moreover, the letter fails to identify counsel for Petitioner as an addressee or one to whom a copy of the letter was provided. Recognizing that you did not send this letter, obviously any attempt at communicating with the Board concerning a matter in front of the Board requires inclusion of the parties and/or their counsel on the communications. Lastly, the Board cannot provide advice on the subject matter raised within your client's letter or otherwise respond to the subject matter identified.

A copy of this correspondence and the underlying letter will be kept within the Board's file in order to avoid any confusion and to provide a record of the same; but, to summarize the issues identified above, the letter is not being used for any other purpose or consideration.

Please do not hesitate to contact me with any questions.

Very truly yours,

Sunny Cannington

Re: Case No: 18-122-X

Dear Mr. Garber:

It has come to our attention, through the Facebook posting of the NACCB, Inc. (Enclosures A and B), that they have every intention of holding a large event on September 2, 2019 in direct violation of Mr. Jablon's Cease and Desist order of July 2018. As you will recall, this Cease and Desist action was the subject of the "secret" Beverungen/Kotroco letter used to overrule that order. Further, you had ruled from the bench that letter to be improper, irrelevant, and to have no legal effect.

We presume that the applicant is not relying on yet another private agreement with Baltimore County of which Mr. Holzer or the Gunpowder Falls Watershed Preservation Association is unaware.

As you know, and as the applicant's own traffic expert testified and this Board concluded, the entrance to that property is located on an extremely dangerous stretch of Harford Road (MD 147) and its use by this corporation requires a State Highway Access permit. This permit has not been approved and in fact, the applicant has taken NO action to apply for that permit. Nothing has changed since the first letter to the applicant from SHA in November 2017.

It is particularly disturbing that the applicant would engage in this behavior WHILE your body deliberates its decision on the request for a Special Exception. This behavior is precisely what we described in our testimony before you. That this corporation has no regard for the rule of law.

It has fallen to me to inform you, County Executive Olszewski, Mr. Mallinoff, Captain Trivett, and Mr. Zeller of this behavior. Our Attorney, Mr. Carroll Holzer, is out of town and cannot be reached.

During the case presentation, you accepted evidence presented by GFWPA that County elected and unelected officials violated the community's right to due process by failing to respond to our written complaints. You observed from the bench that the lack of an enforcement action record was in fact a

problem for our case. When I presented the 20 plus unanswered certified letters, you suggested that we may have a separate action against the County for failing to respond to our concerns.

The Gunpowder Falls Watershed Preservation Association has done a remarkable job of helping the community remain patient while we let the judicial process play out. This has occurred in the face of continuous provocation, legal and personal, from representatives of the NACCB, Inc.

These latest actions represent an escalation of that provocation. It is imperative that you act to require the County to enforce the laws and regulations regarding permitted uses of an RC-2 zoned property (agricultural, **NOT** event venue) and to protect the rights of the community.

The use of the entrance to the property for a large event without the benefit of a Maryland State Highway Access Permit (and the safety elements it would require) presents a clear and present danger to all who will be using MD 147. We request that you instruct the County to enforce that requirement as Mr. Zeller stated in his email of 7/5/2018 (Enclosure C).

I will close by adding that the community, being citizens who respect the rule of law and the property rights of others, have not interfered with NACCB, Inc.'s use of the property in any way. In fact, despite their initial claims of vandalism targeted at them because of race/religion, as far as I know there have been no such incidents despite the greatly reduced occupancy of the property this summer.

If this behavior goes unchecked, the NACCB, Inc. and Baltimore County will be solely responsible for the consequences. The GFWPA has done all it can do.

Respectfully,

DeWitt S. Clark, PhD
President
Gunpowder Falls Watershed Preservation Association

arvati, the daughter of Himalayan daughter of Lord Shiva, made the first vow that no obstruction should be made in the health and body of Lord Shiva.

is customary to call Mati (father and mother) brothers and sisters at home once a year, to feed their sweet and sweet delicacies and to share their feelings and pleasures in one place.

Religious_ backgroundMin : -
ccording to Hindu religious texts, King Himalaya did not like Parvati's promise to give her daughter Parvati to Lord Vishnu, and after going to the forest, she started doing penance for Shiva. ne hundred years after Parvati's penance was completed, she did not get the fruits of her penance. One day she set up a Shiva linga and stayed on a fast without drinking water.

hus, Shiva Parvati's marriage took place after Shivaji appeared on the basis of Parvati's harsh vows and blessed him with 'blessings so that he could get something done.' That day was the f Bhadra Shukla Tritiya. From that date, Hindu women started celebrating this day as a celebration, and it is believed that the tradition of Tej has been going on since ancient times.

samajikaprsthabhumaQ : - In
ıodern society, the significance of Tej is explained in any way, it is a fundamental tradition that has existed since ancient times. For the sake of creation and society, women have to live with usbands for the rest of their lives after marriage, according to Eastern belief. Thus, the Feast of Teej is of great importance as an opportunity to reduce the memory of the family, mothers, ıthers, siblings, friends and friends who are born in their immediate family while living in the family. Women are fed fresh sweet treats, new clothes are given to them.

he festival plays a major role in reducing women's burdens of responsibility, stress, and the memory gap. In those days, married women want to enjoy the long life of their husbands while erforming strict nourishment fast and dance and entertain each other while the unmarried people fast with hope of a suitable bride. During fasting, women listen to the tiktat and perform puj rahman Brahma.It is customary to give donations to them. The vow of Tej is taken differently than other vowels. The first day is to be sacrificed with special significance.

Mr. Clark,

It is my understanding that the county has not approved this site for the proposed use (Temple). The SHA has not approved the existing entrance for this use. From the SHA perspective this site should not be operating at all. Will the county be shutting them down?

Subject: Follow up
M . Zeller

This is in reference to the matter about which I wrote on June 21 2018. This concerns the use of a single property residence at 12231 Harford Rd. Glen Arm, MD as a commercial without a State Highway Access Permit and their internet advertising for a major fund raiser July 29-Aug 30, 2018.
It is important to note that our concerns are about community health (disposal of human waste), degradation of the watershed and major traffic problems they **testified** they created at last year's even.
In order to relieve alleviate any doubt about the situation regarding 12231 Harford Rd, Glen Arm MD, 21057, I have include the direct testimony of the NACCB,Inc. at the hearing January 17, 2018.
Included are the statements about traffic and infrastructure made under oath by the property owners and their expert witnesses. As you will see, the owners testified there is no water onsite (fire sprinklers for commercial venue) and they testify about the problems they caused on Harford Road at the fund raiser last year. **The one to be held on July 29-Aug 3 2018 is advertised as even larger.**
I included the pages that identify the hearing, date and the speakers. Mr. Kotroco represented the owners of 12231 Harford Rd, I am the representative for those opposed to this use of the property, Mr. Ghimire (misspelled Gimory) is the resident agent for the owner and Mr. Motsco is the Civil Engineer acting as the expert witness for the owner.
Pages 31-33 are the testimony about projected use
Pages 35-55 are the testimony of existing infrastructure
Pages 68 -70 are Mr. Ghimire's description of the fundraiser of July 2017 which resulted in the Cease and Desist order
Pages 71-73 are Mr. Ghimire's direct testimony about the lack of any sanitation facilities; no well and unusable septic.
For your convenience, I highlighted the relevant portions of testimony.
Please feel free to call me at 410.592.9998 if there is anything else you need.
This will be followed by a letter with a paper copy of the attached transcript.

Protestant Exhibit 43

BOARD OF APPEALS OF BALTIMORE COUNTY
MINUTES OF DELIBERATION

IN THE MATTER OF: Nepali American Cultural Center, Inc. 18-122-X and CBA-19-004

DATE: March 13, 2019

BOARD/PANEL: Jason S. Garber, Chairman
Deborah C. Dopkin
William A. McComas

RECORDED BY: Sunny Cannington/Administrator

PURPOSE: To deliberate the following:

1. Petition for Special Exception to allow a church or other building for religious worship on property zoned RC2.

2. The letter dated July 8, 2018 signed by ALJ Beverungen regarding a clarification of a condition in the Order.

PANEL MEMBERS DISCUSSED THE FOLLOWING:

STANDING

- The Board deliberated the matter of CBA-19-004 first.
  - The Board reviewed that the appeal had already been filed in the matter of 18-122-X when the letter request was sent to the ALJ.
  - The letter request for clarification was not procedurally appropriate because the Protestants to this matter were not copied or made aware of the request.
  - The Board finds that the ALJ did not have jurisdiction to make any decisions after the appeal in 18-122-X was filed.
  - The Board unanimously decided to dismiss this matter based on lack of jurisdiction.
- The Board deliberated the matter of 18-122-X.
  - The Board reviewed that this is a Petition for Special Exception to allow a church or other building for religious worship on property zoned RC2.
  - The Board discussed the evidence and testimony heard over 12 days.
    - The Board discussed that the evidence and testimony heard from the Petitioners caused some questions from the Protestants regarding whether the subject property would be used as a temple or a community center or a hybrid of those.
    - The Board discussed that the evidence and testimony was sufficient to determine that the intended use is indeed religious in nature.
    - The Board discussed that the evidence and testimony submitted by the Petitioner indicated there are accessories existing on the property that are not necessary to the religious use, such as the pool, pool house and multi-sport court.
- The Board reviewed the Special Exception standards located in BCZR 502.1.
  - The Board discussed and determined the "neighborhood" boundaries first.
  - The Board discussed that case law on special exceptions indicates there is a presumption of validity to special exceptions.
  - With regard to 502.1.A., the Board discussed that the primary impact to health, safety or general welfare of the locality would be with regard to traffic, to be discussed with item B.

The Board also discussed the Protestants concerns about noise. While noise is not expressly addressed in 502.1, the Board determined that noise can be included in 502.1.A. The Board discussed the videos and audio recordings presented by the Protestants. The members noted that in at least one recording, the sound of the crickets was louder than the noise from the subject property. The Board also noted that the sounds from the subject property are not exceeding a typical noisy neighbor. The Board also discussed that there are noise ordinances at the state and county levels and enforcement procedures which can be pursued if necessary. There was no evidence that Protestants pursued any of these. Lastly, the Board noted that no experts were provided that could present a quantitative measurement of the noise from the site.

- With regard to 502.1.B., the Board determined that there are existing concerns about the conditions and capacities of the roads in this locality. The Board broke traffic concerns into two parts: Capacity and Safety.
    - Capacity
        - The Board discussed the various studies conducted by the traffic expert(s). Generally, the increase in traffic generated by the religious use of this property will not be overly burdensome on the roads or community.
    - Safety
        - The Board discussed the Protestants concerns regarding headlight intrusion into the Foxworthy's or Poehler's property. The Protestants provided evidence that left turns from the property could cause the headlights to sweep across the neighboring properties. The Board noted that there was no headlight study. The Board also noted that it is difficult to conduct a study when there has not been a final determination as to the location of the driveway. While a headlight study may address the issue, it would be additional cost to the Petitioners and there was uncertainty as to the final location of the driveway, which may or may not be across from the Foxworthy property. The Board determined that it was more reasonable to require right turns only when exiting the property, which eliminates the possible need for the headlight study.
        - The Board discussed the roads themselves. Specifically, the stretch of Harford Road adjacent to the subject property, which at the north end of the property, has blind curves and other conditions that create potential for hazard.
        - The Board discussed the accident data presented by both parties.
        - The Board discussed that these have been farm roads but the area is no longer agricultural in nature. There are no sidewalks or shoulders on these roads. There is no room for driver error. However, these conditions are existing and would not change whether the property were being used residentially or religiously.
        - The Board discussed the traffic expert's testimony and evidence that SHA has suggested moving the driveway but no determination has been made as to where the driveway will be located. In its currently location, the traffic circle at Harford and Mount Vista is less than a quarter of a mile away. The Board discussed that it would not be unduly burdensome to require anyone exiting the subject property to make a right turn only and if they needed to go south on Harford Road, they could go around the traffic circle.
        - The specifically found that the stretch of Harford Road at this location is dangerous, however, Petitioner provided sufficient evidence to show how it could be made safer for the represented increase in usage.

- With regard to 502.1.C., the Board determined that the religious use of the subject property will not overcrowd the land.
- With regard to 502.1.D., the Board determined that Petitioner met its burden.
- With regard to 502.1.E, the Board determined that the religious use of the subject property will not interfere with schools, parks, water, etc.
- With regard to 502.1.F., the Board determined that the Petitioner met its burden.
- With regard to 502.1.G., the Board determined that the religious use of the subject property will not be inconsistent with the R.C.2 zone or in the spirit and intent of the zoning regulations.
- With regard to 502.1.H., the Board discussed that during this process SHA recommended moving the driveway to make ingress and egress to the property more manageable but that should have very little impact on the impermeable surface. The Board is aware that a landscaping plan will be submitted for approval at a later date and determined that a landscape buffer should be maintained. Additionally, as there is no construction presently proposed, the impact to impermeable surface and vegetation should be minimal.
- With regard to 502.1.I., while the Board appreciates Dr. Clark's experience as a naturalist, the Board determined that the religious use of the subject property would not be detrimental to the environment or natural resources of the site and vicinity. The Board noted that there is a run off issue currently in existence on Harford Road but there was not sufficient evidence to attribute those problems to the subject property as used at present, let alone after improvements. The project will be reviewed by the County for environmental, stormwater management and other such issues. If any environmental issues are found, they may be resolved during the permitting and approvals process.

- The Board unanimously agreed to grant the Petition for Special Exception to allow the use of the subject property for religious worship with conditions.
- The Board discussed the conditions proposed by the Petitioners and Doctors Clark. The Board determined that some of the conditions proposed by Doctors Clark cannot be entertained by the Board in any way.
    - The Board determined that conditions will be placed on the approval to include (but not limited to) lighting, restrictions on amplification of sound, right turn only from exit, non-native plantings, and other conditions with specific details to follow in the opinion and order.

CONCLUSION: After thorough review of the facts, testimony, and law in the matter, the Board unanimously agreed to GRANT the Petition for Special Exception to allow a church of other building for religious worship on property zoned RC2 with conditions. The Board also unanimously agreed to DISMISS the appeal in CBA-19-004.

NOTE: These minutes, which will become part of the case file, are intended to indicate for the record that a public deliberation took place on the above date regarding this matter. The Board's final decision and the facts and findings thereto will be set out in the written Opinion and Order to be issued by the Board.

Respectfully Submitted,

Sunny Cannington

I.

PREAMBLE

The Petitioner, Nepali American Cultural Center of Baltimore, Inc., has failed to meet the requirements to be granted a Special Exception of a Baltimore County R.C. 2 zoned property located at 12231 Harford Road, Glen Arm, Maryland 21057. As written, Baltimore County code section 502.1 and case law requires the Petitioner to **prove** their use will **not** impinge upon any of the listed criteria. *Schultz v. Pritts*, 291 MD 1, 1325 (1981). This is a high burden to meet and the County Council had clear intent when this section was promulgated. The Protestants have proved this Special Exception will impinge upon the 502.1 conditions. Petitioner failed to provide any proof the Special Exception would NOT impact any of the stated criteria, while Protestants provided ample testimony and documentation to prove that Petitioner's proposed use **will** impinge on a number of those criteria.

The Petitioner's expert witnesses regarding traffic and site planning proved unreliable and by their own admissions produced inadequate plans that fail to address the criteria for a Special Exception in an R.C. 2 zone, leaving this Board with no plans upon which to pass judgment. Worse, the Petitioner's primary witness for the Corporation proved an unreliable witness whose testimony was at odds with documented facts and even his own testimony.

Protestants have provided an extraordinary amount of documentation that revealed Petitioner's (Nepali American Cultural Center of Baltimore, Inc.) intention for primary use of this property as a Community Building and Recreation Center with gatherings of hundreds up to a thousand people per day for weeks at a time. Protestants' evidence includes 70 hours of video, more than 100 documents, and testimony of both Protestants' and Petitioner's witnesses to show the overuse of the land, and violations of County and State laws and regulations. Most of the video and documentary evidence supporting a Cultural Center and not a house of worship was provided by the Petitioner.

In testing Petitioner's expert witnesses, Protestants revealed the inadequacy of the analyses performed by the site planner and the traffic engineer. Their opinions regarding 502.1 impacts are not supported by fact.

II.

SPECIAL EXCEPTION – PROTESTANTS' CASE

While it is not their burden to prove, Protestants have shown that Petitioner's proposed Special Exception would in fact violate a number of conditions set forth in 502.1. Protestants also have shown the sites offered for comparison by Petitioner are invalid both topographically and in terms of infrastructure support.

Protestants' interests in this case solely involve land use in a rural, agricultural R.C. 2 zone. Petitioner's attempts to portray the case otherwise are unfounded and inappropriate.

Many of the Protestants have resided in the community surrounding the subject property for more than 30 years. Testimony was presented that many residents remain here because they are "healed" by the peace, tranquility and predictable natural rhythms of this rural valley. The unpredictable disruptions to those rhythms that will (and have) accompany Petitioner's use of the property, as entered into evidence, unnecessarily and heedlessly interferes with the community's quiet enjoyment of their properties and the surrounding locale.

A. 502.1 A - Be detrimental to the health, safety or general welfare of the locality involved.

1. Sound and disturbance

    a. Protestants provided testimony through exert witness Chris Jakubiak that:

        1. An individual assessment of the volume and frequency of noise emanating from the use of a property for a house of worship is required.

2. The topography funnels the noise from the site down the narrow valley and that sound flows downhill across the Clark property, and adjacent properties, like any other wave. A simple understanding of high school physics is enough to discount Mr. Motsco's testimony that sound is directed toward the sky. This was corroborated by Protestants Video "Solitude."

3. The geological and topographical uniqueness of the locality is important in this case. The subject site at 12231 Harford Road sits atop the highest crest at the head of a narrow valley extending to the south, with land that rises steeply on each side of this narrow valley. These conditions make for a long site distance of an iconic view of the mansion of over a mile away seen clearly as one travels on Harford Road from Sharon Drive to the subject property. Hence, neighbors on surrounding hills can see clearly into 12231 Harford Road and the sloping grass areas on the property.

4. The "vegetative buffer" may offer visual screening, but it is not wide enough or dense enough to provide effective sound mitigation. This was corroborated by Protestants Video "Solitude" among other evidence. The "vegetative buffer" is non-existent for a substantial region of the locale.

5. Conversion of subject property from a single residential use to an institutional use will have direct impact upon the well-being of the owner of the property directly across from the entrance (Ms. Foxworthy) due to light intrusion from headlights and noise.

6. The rural state highway used for access to the subject property is inadequate for the use proposed.

7. As proposed, given the outdoor festivals, the use would be adverse to the general welfare of the locale due to road conditions, overflow parking issues, and grade differences of 122 feet.

b. Mr. David Poehler testified about the negative impacts on his family's well-being caused by the noise emanating from subject property and heedless disturbance to his quiet enjoyment of the locale.

c. Dr. Mary Clark testified of her distress resulting from the noise emanating from the site from use of the hard surface volleyball court 400 feet uphill from her property ("loud, percussive screaming and yelling") frequently in the late afternoon and early evening, and Sundays before 8:15 am, and the noise generated at gatherings on the subject property from amplified music and speeches.

d. Ms. Joyce Mason testified that she is over one mile away from the **unscreened** (no "vegetative buffer") southward facing slope of the property and that noise emanating from the subject property was loud enough to spook her horses, which required Ms. Mason's intervention.

e. Videos of numerous, almost monthly, and heedless non-religious gatherings on subject property (See Appendix B.2).

f. Ms. Joanne Foxworthy provided an affidavit describing the effects of the heedless disturbance created by Petitioner upon her personal health (Protestants Exhibit 67).

g. Ms. Joanne Foxworthy's affidavit regarding noise emanating from subject site (Protestants Exhibit 68a).

h. Mr. Robert Shifflett's affidavit regarding noise emanating from subject site (Protestants Exhibit 68b).

i. Mr. David Poehler's sound affidavit regarding noise emanating from subject site (Protestants Exhibit 68c).

j. Dr. Dewey Clark introduced the recognition of solitude as a human need through the introduction of the U.S. Wilderness Act of 1964. The Wilderness Act was created to set aside millions of acres specifically so people would have an opportunity to experience solitude. This Act set aside millions of acres of wilderness for the express purpose of providing individuals with the opportunity to experience **solitude** in an environment "**untrammeled** by human beings."

k. Petitioner's letter of January 2018 (Protestants Exhibit 49) states that the subject site is very similar to the Swyambhu Hills of Kathmandu, Nepal. Like that area in Nepal, the subject site is away from the crowd and noise. Petitioners have testified they want solitude for their use, but are willing to deny local residents that same solitude when amplified noise and screaming from volleyball games disrupts the neighbors' solitude as far as a mile from the subject site.

l. The current case is very similar to Howard County Board of Appeals Case #15-024 C&V decided in 2017 where the Board **DENIED** a (much smaller use) Hindu Temple because the "Petitioner has not met his burden of production and persuasion that the proposed ingress/egress driveway/intersection will provide safe access with adequate sight distance, based on *actual conditions*." (emphasis added). As with this case, the Howard County Board of Appeals talked about inadequate sight distance at the proposed driveway that would generate conflicts, undue delay and safety issues between the vehicles negotiating the intersection (the proposed driveway) and other vehicles.

2. Lack of concern for sanitary conditions
   a. In the case below, Petitioner testified that all plumbing had been removed from the building, they could not locate the septic system and there was no running water. These assertions were repeated before this Board. Yet they hosted numerous large (over 200 attendees) gatherings without adequate sanitary facilities.

   b. Affidavits regarding lack of sanitary facilities at gatherings were provided by:
      1. Mr. Tom Kneeshaw (Protestants Exhibit 71a).
      2. Mr. David Poehler (Protestants Exhibit 71b)
      3. Ms. Morgan Miner (Protestants Exhibit 71c).
      4. Ms. Judith Beard (Protestants Exhibit 71d).
      5. Mr. Ron Standiford and Ms. Darby Standiford (Protestants Exhibit 71e).

   c. Affidavits that only three port-a-pots were available during the July 28 - August 3, 2018 festival, as stated by Petitioner, despite an average daily crowd of more than 300 people (Protestants Exhibit 72).

   d. Petitioner's Sanitarian offered testimony that the existing septic system was inadequate and had failed. It is abandoned.

3. Protestants provided documentation of Petitioners' use of open fire during a non-religious event (a "picnic" as characterized by Petitioner in Letters of July 2 and July 25, 2018) in a crowded tent, handled by people with flowing, flammable clothing without the presence of any fire suppressant equipment (Protestants Video 7045 of fire in the tent from July 28 – August 3, 2018 festival and Protestants Exhibit 74). Petitioner's stated that flying embers from a burning tent on the subject site could not ignite nearby trees and homes. Any U.S. Certified Wildland Firefighter knows from training and experience that this statement is absurd.

4. Added hazard: Protestants provided documentation of the hazards introduced to the locale by large numbers of individuals unfamiliar with the area.

   a. Out-of-region drivers unfamiliar with local traffic patterns, including a Baltimore County Police Report (Protestants Exhibits 75 and Blue Iris Videos).

   b. Photo of car at night southbound exiting the property on the wrong side of the road (Protestants Exhibit 35a).

B. <u>502.1.B - Tend to create congestion in roads, streets or alleys therein.</u>

Petitioner attempted to obscure the impacts of the increased traffic created by the actual and proposed use of the subject property. They attempted to use a report based on annualized road use data rather than percentage increase of traffic that results on the DAY OF gatherings at the subject site.

Protestants provided real-time footage of the effects on traffic on the days of such gatherings (Protestants Exhibit Blue Iris Videos).

An increase of even 100 cars on a section of road that normally serves 400 cars is a 25% increase over the DAILY use. This is obscured by Petitioner's use of annualized traffic data.

1. Protestants provided testimony regarding negative impacts from drivers unfamiliar with the area, including a hairpin turn with limited sight distance, just south of the subject site:

   a. Mr. David Poehler
   b. Ms. Joyce Mason
   c. Mr. Bruce Morgan

2. Protestants provided testimony and documentation about the concerns of the community caused by a large number of drivers unfamiliar with hazards on rural roads:

   a. Urban drivers are not aware of the hazards created by livestock and wildlife on rural roads

   b. Rural uses

      1. Road walker (Protestants Exhibit 58).
      2. Cyclist (Protestants Exhibit 59).
      3. Farm vehicles (Ms. Joyce Mason's testimony)

   c. Protestants provided testimony and documentation about the inadequacy of this rural historic highway for an uncontrolled increase of traffic.

      1. Pulled over car with police and dump truck passing across the double yellow line (Protestants Exhibit 17).
      2. Double line crossing by trucks (Protestants Exhibits 60 and 61).

3. Protestants provided documentation from the SHA that **the entrance to the subject property is inadequate and the entrance should not be in use.** This was corroborated by Petitioner's own expert witness on traffic in his testimony regarding sight distances.

C. 502.1 C - Create a potential hazard from fire, panic or other danger.

1. No provisions for firefighting equipment
   a. No emergency equipment access/turnaround
   b. Lack of water access to aid fire fighters

2. Protestants provided documentation that Petitioner provides inadequate fire protection measures for those using the building for the proposed house of worship. It should be noted Petitioner has made public statements the building "is completed." In fact, Petitioner made precisely that claim in cross examining Dr. Dewey Clark.

   a. Exterior doors open inward instead of outward (Protestants Video 4992)
   b. No panic bar on front door (Protestants Video 4992)
   c. No emergency lighting (Protestants Video 4992)
   d. Use of extension cords (Protestants Video 7016)

      1. Multiple cords chained together
      2. Running out front windows to tent 50+ ft. away
      3. Running over driveway where cars drive

3. In addition to the example of use of fire during a non-religious event (picnic as characterized by Petitioner in Letters of July 2 and July 25, 2018), Protestants provided documentation of unattended fire during a gathering (Protestants Video 7040C).

D. 502.1 D – Tend to overcrowd land.

Protestants' expert witness Chris Jakubiak provided testimony regarding the cumulative effects of the Baltimore County Master Plan 2020, the Urban Rural Demarcation Line (URDL), R.C. 2 zoning, and the extensive use of R.C. 2 zoning in the area that includes the subject property. This degree of protection is intended to minimize the opportunity for regular, large

gatherings in the rural, agricultural areas of the County. Protestants provided voluminous documentation that Petitioner, in fact, engages in such overcrowding of the subject property on a regular basis (See Appendix B.2).

Petitioner's own expert witness Robert Powell testified that of the whole 30 acres, only 1.5 acres was suitable for a septic reserve area which was sized to meet the need of 300 persons. A problem will occur when more than 300 people will continue to come to the property for the seven festivals per year. Currently there is no working septic on the site, and the location of any system has not been discovered. **It is notable that Mr. Powell declined to express a professional opinion on this 502.1 factor.**

E. <u>502.1 G - Be inconsistent with the purposes of the property's zoning classification.</u>

While Petitioner claims the primary use for the Special Exception is to be for a house of worship, their actual use, (Kotroco/Beverungen letter of July 2, 2018) and public statements make it clear that the **primary** use is to be for a recreational/cultural center. This is corroborated through their Articles of Incorporation and the following:

a. Beachmont decision (Protestants Exhibit 79)
b. R.C. 5
c. Volleyball videos (Protestants Rec. Center Videos)
d. Event videos (See Appendix B.2)

The location of the subject site is on a unique topographical pinnacle. This is important in this case because:

a. Sound impact to neighbors and livestock a mile away from the subject site destroys the ability to quiet enjoyment of one's property. The area was admitted by both parties to attract residents because of that feature.

b. Scenic vista with this iconic view seen from over a mile away.

c. "Bella Vista" (historic name of the site) was recognized by the local civic association in the "Greater Kingsville Area Community Plan" adopted to the Master Plan in 1996, to be the most important site to preserve in their "Scenic Vistas and Significant Structures" (Petitioner Exhibit 46).

d. This site does not lend itself to institutional use with steep, cliff-like hills and multiple sharp curves on hills (Protestants Exhibits 100-102).

e. This site has historical archaeological significance with known Native American use and remaining artifacts in this locality according to Mr. Jakubiak's testimony.

f. The pinnacle with its steep slopes presents problems for any kind of buffering of sound impact from the subject site.

A switchback, hairpin curve on Harford Road at this site, is the worst curve in this locale and perhaps ANY road in this area. The property has a very limited sight distance, dangerous entrance and exit for the proposed higher usage as a commercial use rather than a private residential use. Changes to the entrance and curves would damage the historic, rural character of the road, the historic marker in this site's hill (Protestants Exhibits 40 and 41), and be inconsistent with the regulations, spirit and intent for this R.C. zone.

Additionally, the proposed use of the property is inconsistent with the purposes of the zoning classification because the subject site:

a. Is located on a Baltimore County Scenic Corridor, as designated in the Baltimore County Master Plan 2020.

b. Is located within the "Rural Legacy Area" as designated by the State of Maryland. The proposed use of the subject site is in direct conflict with that plan.

c. Is adjacent to the National Register of the Long Green Valley Historic District, which bounds on Harford Road.

F. <u>502.1 I - Be detrimental to the environmental and natural resources of the site and vicinity including forests, streams, wetlands</u>

Protestants introduced testimony through expert witness Jakubiak that ecological damage resulted from the intended use of the previously farmed land for "over flow" parking. The compaction from the weight of hundreds of cars and the damage done to the watershed from the runoff contaminated by automobile fluids can be predicted. **Petitioner provided no analyses** to refute the effects of compaction on root development and soil permeability. **Petitioner offered no analysis** on the effects of runoff from the past and proposed use of the meadow for "over flow" parking.

1. It is remarkable and significant that Petitioner's most credible witness refrained from offering an opinion on this 502.1 factor in particular, and offered no opinion on any 502.1 factor.

2. Protestants expressed concerns about the use of non-native plants on such an extensive property within the Gunpowder Falls Watershed. **Protestants provided documentation and evidence about the ongoing efforts to mitigate the impacts of such plants and animals by Federal, State and County governments.**

3. Protestants provided testimony about the impact upon the local habitat and neighboring properties that accompany the change of land management of subject property from an old field/meadow to lawn. There is less filtration and faster runoff as depicted in Ms. Foxworthy's photo of Petitioner's property runoff onto her septic field, despite Petitioner testimony that no such runoff can be possible (Protestants Exhibit 65).

4. This Board commented that a requirement for native landscaping may be appropriate in this case. (See resources at *https://www.fws.gov/chesapeakebay/pdf/NativePlantsforWildlifeHabitatandConservationLandscaping.pdf and https://www.invasive.org/alien/pubs/midatlantic/midatlantic.pdf)*

5. Petitioner did not challenge any of Dr. Dewey Clark's testimony. In fact, Petitioner offered for rebuttal a discussion about the use of a storm water management plan as a result of this testimony.

Protestants have shown the characteristics of the subject property are unique and the impacts of the proposed Special Exception would be disproportionately deleterious than would occur in any other locale.

For example, a 110dB point source of sound (emergency vehicle siren) in a rural environment is a dramatic disturbance, which often goes unnoticed in an urban setting. In the subject locale, these sirens attract attention over a distance of 1.5 miles. In an urban setting, emergency vehicle drivers are fortunate if their siren attracts the attention of drivers a block away.

Expert witness Jakubiak provided testimony about the extent of the region protected by R.C. 2 zoning, the presence of large tracts put into conservation easement, and the importance of the historical designations bestowed upon the property and locale. Mr. Jakubiak drew the Board's attention to the importance of the Baltimore County Master Plan 2020 in considering this request for a Special Exception.

These concerns were echoed in Mr. Morgan's testimony about his concerns how this would impact development in the region served by the Greater Kingsville Civic Association.

Expert witness Jakubiak informed this Board that Petitioner's assertions notwithstanding, the Baltimore County 2010 Master Plan is in fact a recognized and controlling instrument in decisions such as the Langenfelder case, *HNS Development LLC v. People's Counsel for Baltimore County*, 200 Md. App. 1 (2011).

III.

FLAWS AND DEFICIENCIES OF PETITIONER'S CASE

The case for a Special Exception presented by Petitioner was deficient and flawed. Their lay witnesses presented conflicting testimony, Petitioner's site planner ultimately admitted the plan presented was at best a concept and their traffic expert could not even accept he was wrong in his assumptions about speed limits.

Not one of Petitioner's expert witnesses visited the subject property to observe how it was actually used. Mr. Motsco admitted he knew of large events but refrained from visiting. Yet he asserted he knew enough to testify that his parking plan was sufficient and that the "vegetative buffer" provided adequate sound mitigation. For both Mr. Motsco and Mr. Caloggero, who are Professional Engineers, to not determine how the property was actually used in preparation of their testimony rises to nothing short of "willful ignorance." Both used the defense that they relied on the representations of the Petitioner without an effort at independent verification.

A. <u>Deficiency in Traffic Engineer Testimony</u>.

Petitioner's traffic engineer, Mr. Caloggero, provided testimony that was marred by falsified assumptions and failures to adequately address the needs of this Board for accurate data. Petitioner was even required to recall Mr. Caloggero to revise his testimony.

- Failed to witness traffic generated by any large event held at the subject property; no traffic counts done at large events or evidence on how vehicles enter/leave the property. **Testified without benefit of data that traffic generated by such events had no 502.1 impact.**

- Failed to report the increase in DAILY traffic load at the entrance of the subject property by the 100 to 300 cars that can be seen on Protestants Blue Iris Videos. Petitioner tried to obscure this important aspect by attempting to annualize the traffic and discuss traffic load increase on an annual basis. **The use of annualized data is not only irrelevant, but misleading.**

- Did not gather data from any comparison sites, yet testified there was no greater impact of 502.1 criteria on the subject site vs. elsewhere. **His statements are not supported by data.**

- Failed to analyze the impact of headlight intrusion onto the Poehler (12241 Harford Road) and Foxworthy (6229 Bonaparte Avenue) properties.

- Assumed a speed limit lower than the posted 50 mph northbound speed limit on Harford Road in initial analysis and plans; adamantly rejected that his assumption was incorrect even when presented with photographic evidence (Protestants Exhibit 7). He stated that "his investigation" showed 45 mph. **This brings into question the validity of any of his opinions as a professional or even lay witness.**

- Discounted the need for traffic counts at the entrance until this Board stated it was absolutely needed for their consideration.

- The traffic "study" Petitioner did offer was inadequate. The fact the report did not include weather conditions, vehicle types, (such as farm equipment or 18 wheelers, which lower the range of speeds measured) **make it impossible to arrive at a meaningful interpretation of the results reported.** The traffic study was conducted in a time of year (October) when this road is not used by bicyclists, motorcycles or "Sunday drivers" out for a ride. The study failed to account for numerous hazards along this rural stretch of road, which may have in fact impacted the data collected during the traffic count study (no observers or cameras were used).

- **Failed to conduct a traffic study during any of the large events held on subject property.** The only data regarding such impact are represented by Protestants Blue Iris Videos recorded on July 29-30, 2018.

- Failed to adequately address the issues of reported accidents raised by Protestants on the section of MD 147 within ½ mile of the subject property entrance. In his revised testimony, he used a secondary source of data (not the actual Baltimore County Police reports) and he failed to provide an analysis of those reports. Further, he attempted to bias his analysis by including a stretch of MD 147 that is irrelevant to this case. **This raises questions of the validity of his testimony.**

- Stated that the SHA "shark fin" (a triangular parcel of land owned by SHA on the west side of Harford Road at the intersection with Bonaparte Avenue) must be kept mowed to provide required increased sight distance for vehicles southbound on Harford Road entering the property. This is a tenuous "agreement" at best.

- Offered conflicting opinions on the safety of the existing entrance. The SHA letter of November 2017, signed by District Engineer Wolcott, clearly states that the sight distances are inadequate.

- The sight distance methodology used by Mr. Caloggero was flawed. According to the *AASHTO Geometric Design of Highways and Streets*, pages 653 and 657, sight distance calculations are taken from a height of 3.5 feet at a distance 14.5 feet from the edge of the major-road traveled way (see Appendix A). Yet Mr. Caloggero's sight distances were taken near the road edge. **The required methodology would have placed Mr. Caloggero behind the stone landscape planter. This severely restricts all sight distances and invalidates his entire testimony**.

- Did not address growth in NACCB, Inc. membership/congregation over time on traffic.

- Testified volume of traffic did not matter in safety of entrance.

- Admitted the revised property access does not meet minimum SHA requirements for intersection sight distance and decision stopping distance.

- During his revised testimony, Mr. Caloggero offered into evidence a letter putatively signed FOR the District 8 Engineer of the State Highway Administration. Mr. Caloggero characterized this as conceptual approval for a new entrance plan concept. Close reading of this letter reveals it is no different than the November 2017 letter sent to Petitioner by SHA over the District Engineer's signature. **This November 2017 letter required Petitioner to submit an actual plan for SHA approval. The November 2017 letter remains unanswered and as of March 1, 2019, no response has been received by SHA from Petitioner.**

- Failed to inform this Board of the historic nature of the roadbed or the presence of a historic monument (Protestants Exhibits 40 and 41), which will impact Petitioner's ability to meet SHA Highway Access Permit requirements.

B. <u>Deficiency in Site Engineer Testimony</u>.

Petitioner's site engineer, Mr. Motsco, provided testimony that was flawed by his over reach in testifying on issues outside his credentials. Additionally, much of his testimony was uncorroborated by data even though Petitioner had ample opportunity to obtain and provide those data. The testimony and opinions he did provide must therefore be viewed with skepticism.

- Failed to attend any large events to observe and assess 502.1 impacts. He testified he was invited to large events but refrained from attending; testified he was aware of other uses of the property. **His professional opinion on 502.1 impacts was offered without the benefit of data.**

- Failed to identify other sites for comparison of impacts as needed for 502.1 opinion. **His opinion of "no impact" was not supported by data.**

- Testified 502.1 impact on neighbors was low. **Again, his failure to observe any of the large events held on subject property renders such an opinion meaningless.**

- Offered testimony in areas in which he was not qualified either as an expert or through personal experience (sound propagation; effectiveness of vegetation on sound mitigation).

- Despite having no credentials in sound propagation, without the benefit of data, a professional sound study, or personal observation, Mr. Motsco testified the sound leaving the property would not generate undue impacts on the community, let alone the adjoining neighbors.

- Testified that the high elevation of the subject site was not a factor in sound propagation (again, without credentials). The views (Protestants Exhibit 19; Mr. Motsco offered a very similar photograph into evidence) introduced into evidence show the subject property from MD 147 and Sharon Drive. This exhibit clearly reveals the direct exposure of the valley to noise generated on the subject property. There is no "vegetative buffer" to protect a substantial region of the impacted locale.

- **Offered no evidence to counter the testimony or documentation provided by Protestants regarding sound impacts--just data free opinion.**

- Despite having no credentials in landscaping or forestry, Mr. Mostco testified extensively on the sound mitigation effects of the existing "vegetative buffer." **Petitioner offered no witness who could provide any guidance on such, and again, offered no sound study to support such testimony.**

- The storm water management plan discussion on Day 11 was ill informed; he admitted it was not a careful analysis, but was a plan in concept. Failed to address increased sheet flow onto the Foxworthy Property upon which the SHA has installed a reverse osmosis treatment system to mitigate water quality problems arising from the flow of contaminated water from ACROSS Harford Road. Failed to address the issues that will be raised as a result of the Baltimore County Small Watershed Plan for Gunpowder Falls Watershed which includes the Haystack Branch into which Mr. Motsco proposed dumping storm water (eastward) from the subject site.

- Failed to inform this Board of the historic significance and presence of historic monuments related to the subject property. **This raises additional questions about his ability to provide accurate testimony and defensible professional opinions.**

- Protestants' Counsel objected to use of Mr. Motsco as an expert due to lack of experience/training.

- Attempted to minimize the impact on the National Historic District by testifying the "mansion" was only visible sparingly from the south on Harford Road (MD 147). This is contradicted by Protestants' videos and photograph (Protestants Exhibit 19) that clearly reveal the "mansion" contributes significantly to the Historic District and is visible almost continuously from almost 2 miles away. This is especially true from October until May. **This raises additional questions about his ability to provide accurate testimony and defensible professional opinions.**

- Provided wrong information on when the subject site was last used for agriculture **This raises additional questions about his ability to provide accurate testimony and defensible professional opinions.**

- Failed to inform this Board that subject property is within the 2017 Baltimore County Small Watershed Management plan for the Gunpowder Falls Watershed.

- Failed to report there is no vegetative buffer to the south that would "mitigate" sound propagation.

- The submitted plans failed to address a storm water management plan. Petitioner was required to recall Mr. Motsco to address this plan only after it became clear to this Board that Petitioner's use of the subject property regularly exceeded the parking proposed in the submitted site plan. **This raises questions about Mr. Motsco's site planning skills and his ability to provide accurate testimony.**

C. **Misrepresentation by Petitioner.**

The key witness for NACCB, Inc., Kris Ghimire, testified at the Board of Appeals hearings on Day 1 and Day 5, as well as at the Administrative Law Judge hearing. An examination of the transcripts from Mr. Ghimire's testimony shows that his statements in a number of instances do not match the documentary and video evidence in this case. Much of that evidence was provided by Petitioners themselves.

Mr. Ghimire's testimony conflicts with the evidence regarding use of the building, events at the subject site, use of the property as a temple vs. a cultural center, recreational use of the property, the July 28 – August 3, 2018 event, use of the kitchen at the subject site, permits/improvements to the property, and future use of the building.

The extensive record of Mr. Ghimire's testimony that is at odds with the evidence is disturbing and calls into question the veracity of this key NACCB witness. In some cases, he even contradicted himself from one hearing to another. See Appendix B.1 for a detailed analysis of Mr. Ghimire's testimony compared to evidence and exhibits that indicate he misrepresented the facts.

Appendix B.1 includes more than 45 instances in which Mr. Ghimire's testimony conflicts with other testimony and documentation.

Several salient examples include:

- On Day 5 of the Board of Appeals hearing, Chairman Garber asked Mr. Ghimire, "Were you the sponsor of this event" (Nepal Idol Concert in Baltimore, 1/28/18) to which Mr. Ghimire replied "No." Chairman Garber then asked Mr. Ghimire, "Did you have any type of role in leadership, management whatever of this event?" to which Mr. Ghimire replied "No". Mr. Ghimire's replies to Chairman Garber are not aligned with the evidence from Protestants Videos 7010 and 7057 showing a large banner on the concert stage with Mr. Ghimire's name, photo, phone number, and business name. Appendices proffered as Protestants Exhibits 22 and 23 show Mr. Ghimire was a platinum sponsor of the Nepal Idol concert.

- In the affidavit supporting the application for Petitioner's Incorporation, the Resident Agent (Mr. Ghimire) signed a sworn statement that the congregation was previously meeting at the office of his business. This is in direct conflict with his testimony before this Board that the address was "only a mail drop". On the other hand, if Mr. Ghimire's statement to SDAT is correct, that his office met all spiritual needs of the congregation; then it follows that restrictions on the size of gatherings, time of use, noise and recreational facilities will cause no undue difficulty to Petitioner.

- When questioned by Petitioner's Counsel on whether NACCB has used the building for purposes of having religious services, Mr. Ghimire said no. However, multiple videos posted online by NACCB members show activities in the building that were in fact related to religious worship.

- When asked by Protestant's Counsel how many events they have hosted on site, Mr. Ghimire responded they had three or four fund raisers. Multiple Protestants Exhibits and Videos, along with the timeline of events in Appendix B.2 indicate more than a dozen large-scale events in 2017 and 2018.

- At the ALJ hearing, Mr. Ghimire said NACCB has a congregation of 150 members. But on Day 5 of the Board of Appeals hearing he stated they had no congregation.

- On Day 5 of the Board of Appeals hearing, Mr. Ghimire denied having drums on the property at the July 28 – August 3, 2018 event. He also stated there was one microphone for the speaker. In contrast, photo and video evidence posted online by NACCB members for that event shows two types of drums and at least six microphones.

- Mr. Ghimire testified that no new electrical work was being done, and that they were only fixing up what was already there at the main building. However Petitioner's photo evidence before NACCB began making improvements to the building shows no exterior lighting on the front columns. In contrast, there are numerous videos posted by NACCB members from events in the summer of 2018 showing exterior spotlights added to the building where there were none at the time NACCB purchased the property. This is significant because there are no electrical permits for the subject site on file with Baltimore County.

In addition to misrepresentation of facts by NACCB's key witness, there were frequent attempts by Petitioner to dismiss the testimony of Protestants' witnesses regarding amplified drumming and noise, volleyball frequency and noise, and water flow ("water doesn't run over the crown of Harford Road onto the Foxworthy property").

All of this evidence points to a pattern of misrepresentation by NACCB to the community and to Baltimore County, and to their own Counsel and expert witnesses. (e.g., the first installed sign did not match their sign permit; Petitioner told their expert witnesses they would have a maximum of 150 people per day, when they have had over 500 people per day at large events).

Finally, a number of Facebook posts and videos posted by NACCB members were taken down (deleted) after being used as evidence by Protestants. Documentation of these deletions was provided to the Board and Petitioner's Counsel so that the Protestants' exhibits could be admitted into the record.

D. Confusion in Special Exception Application.

Petitioner has misrepresented themselves, their intentions and actual use of the subject site to this Board, Baltimore County, and the community. Their testimony is not internally consistent and is rife with logical fallacy. It appears individual statements were made to assuage concerns with no consideration to how those statements "hang together."

The purposes stated on Petitioner's Site Plan dated September 15, 2017, which was submitted to Baltimore County in March 2018, is "to allow a community building owned by a nonprofit civic or improvement association, and use by its members and guests for recreational, social, educational, or cultural activities in a R.C. 2 zone; and for a church or other building for religious worship. And for such other further relief as the nature of this case may require." (Protestants Exhibit 38).

- **Petitioner's Articles of Incorporation clearly state the three purposes of the Corporation. These are cultural in nature and make no mention of forming a congregation as required to Incorporate as a religious institution.**

- In the affidavit supporting the application for Petitioner's Incorporation, the Resident Agent (Mr. Ghimire) signed a sworn statement that the **congregation** was previously meeting at the office of his business. **This is in direct conflict with his testimony before this Board that the address was "only a mail drop."**

- On the other hand, if Mr. Ghimire's statement to SDAT is correct, that his office met all spiritual needs of the congregation; then it follows that restrictions on the size of gatherings, time of use, noise and recreational facilities will cause no undue difficulty to Petitioner.

- September 2017 first site plan (used in support of the Acharya sign permit application to Baltimore County) lists the **primary** use as a cultural and recreation center; the house of worship is secondary.

- Past, proposed and future activities are non-religious uses. These activities establish the **PRIMARY** uses of the subject property. They are clearly not **accessory** to a house of worship.

- Mr. Ghimire testified that all cultural activities are being held at 2906 Taylor Avenue. The imagination is strained to grasp how a building with nine parking spaces and 2,200 square feet of interior space is going to accommodate 150 congregants for gatherings Petitioner asserts will be held off site.

- On Day 8 this Board asked for clarification of the **primary** use of the subject site. Petitioner responded that it would be religious. This is in direct conflict with their current use and public representation on social media, promotional materials, and letters to the community.

- Petitioner has proposed converting the existing, decrepit barn into a venue for 1,000 people.

- The Kotroco/Beverungen letter of July 2, 2018 clearly shows Petitioner intends to expand their use of the property. Their attempt to have the ALJ order amended to exclude the property outside the building from their own request for a Special Exception that applies to the entire 30 acres clearly shows their intent.

The conclusion that must be reached by the use of this letter is that Petitioner is confused about their own intentions for the Special Exception for which they applied. They themselves are uncertain whether the Special Exception should apply to the entire property or only to the building proposed for the house of worship.

E. **Invalid Comparisons to Religious Institutions.**

Petitioner repeatedly referred to a fictional "Beachmont/Redeemer Complex". They attempted to create an image that these separate entities were acting in concert while in fact one organization is incorporated and permitted to operate as a recreation center and the other is permitted as a school. This conflation of the facts would seem to be in furtherance of an effort to make a case that "if this entity (Beachmont/Redeemer) can get away with this, why object to our development?"

- **Petitioner's Counsel was the Deputy Zoning Commissioner who presided over the cases involving these two separate entities and was fully aware of how these properties came into use.** Petitioner's mischaracterization of these properties is disturbing.

- The sites Petitioner used for comparison purposes (Beachmont and Redeemer) are in an R.C. 5 zone and they are on a County road that has excellent sight distances. The subject property is R.C. 2, is on a State rural highway with no shoulders and as Petitioner proved, very challenging sight distances.

- Petitioner asserted **most** churches in the locality have recreational facilities and tried to get Protestants' witnesses to agree. Protestants were able to directly falsify this assumption when asked by Petitioner. We do not know the proportion of houses of worship that include recreational facilities. It may well be that those religious facilities with recreational facilities are incorporated as a recreational facility (e.g., Beachmont), or have an accredited private school of instruction (e.g., Redeemer).

- Protestants provided evidence of the significant topographical differences between the subject property and the properties offered for comparison by Petitioner. The recreational facilities on both comparison properties (Beachmont and Redeemer) are located to minimize (eliminate) interference with the community's quiet enjoyment of their property. The subject site is located on the pinnacle at the end of the narrow Haystack Valley, from which all noise propagates down the valley and along the hills that define the valley.

Petitioner's expert witnesses testified that 502.1 conditions were no more adverse at the subject site than at a similar site. However, Petitioner's expert witnesses stated their assertions on the 502.1 conditions in the absence of <u>any data</u> derived from comparing the subject site to similar sites. This is particularly concerning since Petitioner's expert witnesses failed to observe the many adverse 502.1 conditions during large-scale events held by Petitioner on the subject site during 2017 and 2018.

IV.

<u>CONCLUSIONS</u>

A. The Petitioner failed to fulfill the filing requirements for a Special Exception. They filed for a Special Exception as a house of worship as the primary use of the property. Their Articles of Incorporation (NACCB, Inc.) make no claim as a house of worship and in fact the

purposes of the Corporation clearly show that NACCB, Inc. is a cultural and community organization. The record reveals that the property has been used extensively as a cultural and community activity venue. The record also shows they have promoted the use of the property as such to their donors and to the world at large.

Further, Petitioner's attempt to have the decision below amended to apply ONLY to the building proposed for use as a house of worship (communication Kotroco/Beverungen July 2, 2018) reveals they themselves are confused about their needs and intentions for the proposed Special Exception.

The application is defective and should be denied.

B. The primary witness for Petitioner has been shown to be unreliable. Mr. Ghimire's testimony was not consistent across his testimony at this hearing or even with that testimony given at the hearing below. Further, his testimony did not comport with video documentation published by Petitioner and offered into evidence by Protestants. (See Appendix B.1).

The weight of Mr. Ghimire's testimony is compromised.

C. The testimony provided by Petitioner's expert witness and site engineer was inadequate. By his own testimony, Mr. Motsco admitted the site plan offered to this Board in support of Petitioner's application was not a real plan; it was in flux. Further, he admitted he had no basis for any of his testimony or opinion on the impacts of sound emanating from the site on the locale. He has no qualification as a sound engineer and admitted he refrained from visiting the subject property during any event in which noise would be produced. His lay opinion about the effectiveness of vegetative buffers on sound mitigation is therefore unsupported by any data or personal experience.

On the other hand, Protestants provided five witnesses from as far as a mile from the subject site, who testified about the impact of the noise produced by Petitioner's use of the property. Further, Protestants introduced documentary evidence of the noise that corroborates the testimony of those five witnesses. It should be noted this evidence was created by Petitioner as well as the Protestants.

Mr. Motsco's testimony and the plans failed to prove that the proposed use of this property would not impinge upon the 502.1 conditions. The application should be denied.

D. The testimony provided by Petitioner's expert witness on traffic was inadequate and incorrect. Mr. Caloggero denied the actual speed limit on MD. 147 at the entrance of the subject property. He failed to analyze the accidents that occurred on the relevant portion of MD 147. He offered a letter of "conceptual approval" for a State Highway Access Permit that on inspection states exactly what was stated in the SHA letter of November 2017 to which Petitioner has yet to respond.

Petitioner misled this Board by the use of annualized traffic data. Annualized data are irrelevant when the issue is traffic load on individual days. Petitioner appears to propose approximately 20 days of such loads. The relevant traffic data is the percentage increase over the daily traffic load generated by the traffic created by Petitioner's gatherings. A 100-car increase in traffic load on this section of Harford Road results in approximately a 25 percent increase in daily road use. This is a significant increase in traffic on **any days of** gatherings on the subject site. The effects are clearly shown in Protestants Blue Iris Videos taken at the subject property entrance during two consecutive days of a "picnic" held on subject property on July 28 – 29, 2018.

Petitioner offered no comment on the validity of the impacts portrayed in these videos.

Most critical is Mr. Caloggero's failure to follow the methodology for determining all sight distance data as reflected on pages 653-657 of *AASHTO Geometric Design of Highways and Streets* (See Appendix A).

This Board was provided no basis on which to judge the Petitioner's application for Special Exception.

Mr. Caloggero's testimony failed to prove that the proposed use of the subject property would not impinge upon the 502.1 conditions. The application should be denied.

E. The conditions for approval of a Special Exception in an R.C. 2 zone (502.1) are not met. Protestants have provided testimony and documentation that the use of the subject property **violates 502.1. conditions A, B, C, D, G, and I.**

The application must be denied.

F. RLUIPA Concerns. Despite assertions made by Petitioner, there is no basis in fact or evidence that religious intolerance has been a factor in this case. Petitioner offered a witness (Mr. Upretty) who testified he knew of no instance of any form of animus from the surrounding community. Further, since there has been no enforcement of County code violations or State Highway Administration policy, there can be no claim the county or state government acted with ill intent. Petitioner made the outlandish assertion that vandalism on the property was directed specifically at Petitioner. Such an assertion is absurd given said vandalism occurred before the property came for sale and before Petitioner's interest in the property was known to the community. Finally, despite such claims and assertions there have been no reports of vandalism or trespass on the unguarded property or even to the sign at the entrance. Two witnesses for the Protestants offered testimony that they in fact had protected the property against trespassers.

RLUIPA is NOT a factor in this hearing.

V.

CONDITIONS

Given:

Protestants have shown Petitioner has a pattern of blatant disregard for legally rendered decisions;

Petitioner has engaged an Administrative Law Judge (ALJ) to amend a decision with no regard to the due process rights of the Protestants, and that this Board itself noted that such an interference was improper;

Petitioner used the letter by the ALJ to confuse County Officials about the status of the subject site in order to "get their way" with no regard to the consequences to those officials or Baltimore County;

Petitioner has shown through their repeated behavior and writings that they have no intention to adhere to any restrictions imposed on the use of subject property;

Petitioner unabashedly engaged in attempts at character assassination of Protestants with no, and even with contrary evidence held by them, to support their claims;

Petitioner freely testified and provided documents to acts that put elected officials in jeopardy when it seemed expedient to do so.

Protestants conclude there is no sound basis for a "partnership." The good faith required to ensure adherence to any conditions or restrictions on the use of the subject property is absent. There can be no expectation Petitioner will comply with such Board imposed conditions, restrictions or orders without active, swift and meaningful enforcement.

Protestants are mindful that enforcement of any Board imposed orders, restrictions, and conditions imposed is beyond the reach of this Board. This Board MUST rely on the County Executive for enforcement, and the record on this is inconsistent.

THEREFORE, Protestants conclude this application for a Special Exception must fall into the unusual and strictly confined category of Special Exception applications that are denied.

VI.

PROTESTANTS' RESPONSE TO ISSUES EXPECTED TO BE RAISED BY PETITIONER

The following assertions are likely to be raised by the Petitioner. Protestants offer the following rebuttals below, based on the facts and evidence in the case.

Gunpowder Falls Watershed Preservation Association Has No Standing

Petitioner assertions: The Gunpowder Falls Watershed Preservation Association (GFWPA) has no standing as a community association. It is not incorporated and is comprised of only a few neighbors. The GFWPA was formed only to oppose the NACCB's proposed use of the property.

Facts: The GFWPA is a group of 115 area landowners formed to "preserve and protect the rural nature in Baltimore County of the area bounded by Belair Road, Long Green Pike, Little Gunpowder Falls and Big Gunpowder Falls." The organization filed Rule 8 paperwork with Baltimore County (Protestants Exhibit 28). The Greater Kingsville Civic Association (GKCA) joined Protestants in this case (Protestants Exhibits 6 and 48) and represents 216 households in this rural area.

Petitioner's Expert Witnesses and 502.1

Petitioner assertions: The Board should grant the Special Exception to NACCB because their three expert witnesses said there was no impact of 502.1 criteria on the locale. In addition, the expert witnesses said this site would not be more adversely impacted than another similar site.

Facts: None of the three Petitioner's expert witnesses collected data on the use of the property during large-scale events to determine adverse effects on the locale from traffic, noise, fire, health, safety, and environmental concerns. Despite more than 12 large events held by NACCB on the subject site in 2017 and 2018, not one expert witness was present for any large multi-day event, some of which had in excess of 500 people on site. The expert witnesses only took

Petitioner's word for how many people would be using the site at a given time. In the absence of data, the expert witnesses testified there would be no violation of 502.1 criteria. Moreover, Petitioner's expert witnesses did not collect any comparative data on other sites, yet each expert witness testified the impact at the subject site would not be more adverse than at a similar site.

Environmental Concerns are Exaggerated

***Petitioner assertions*:** Protestants' environmental concerns regarding NACCB's proposed use of the subject site are exaggerated. Environmental concerns will be addressed through the normal county permitting processes.

***Facts*:** Throughout 2017 and 2018, NACCB has held large, multi-day events on the subject site without proper sanitation, parking hundreds of cars on grass slopes, and adversely impacting the environment. Petitioner's land use expert provided hastily developed testimony regarding his ideas for a storm water management plan, which fail to acknowledge major impediments for eastward and westward routing of outflow from the property. These concerns are reflected in the Baltimore County, Department of Environmental Protection and Sustainability Gunpowder Falls Small Watershed Management Plan.

Only One Protestants' Expert Witness

***Petitioner assertions*:** Protestants had only one expert witness, and mostly lay neighborhood witnesses, which diminished the value of their case.

***Facts*:** NACCB expert witnesses Caloggero and Motsco provided deficient and poorly researched testimony and provided ample evidence, both in direct and cross, which actually supported Protestants' case, thereby obviating the need for additional Protestants' expert witnesses.

Protestants' Bias

Petitioner assertions: Protestants are biased against the NACCB members and their case is about denial of religious freedom. Protestants showed evidence of bias in attempting to have the Nepal Idol Police Reports entered into evidence twice.

Facts: This case is solely about land use in an R.C. 2 zone. Despite numerous attempts by Petitioner to portray Protestants as biased, Petitioner's witness Mr. Upprety testified on Day 1 that their group had not been subjected to any racial or cultural animus. No one has vandalized the NACCB sign in front of their property. The Nepal Idol police reports clearly indicate their witness, Mr. Ghimire, misrepresented the facts regarding his involvement with the concert. There are multiple social media postings by NACCB members that accuse neighbors of prejudice toward NACCB, but there is no evidence to support such statements. Finally, no members of the local community trespassed on NACCB property, despite NACCB members' social media posts to the contrary.

Comparison to Other Religious Institutions

Petitioner assertions: Beachmont camp and Redeemer school have large events, over 250 students at Redeemer school, and create traffic in the area. NACCB should be allowed to practice their religion and have large events on their property.

Facts: Beachmont Christian Camp and Redeemer School are separate entities, but both are located in an R.C. 5 zone, as opposed to the R.C. 2 zoning of the subject site. The topography difference is important to note. The subject site is located on a pinnacle at the head of a long, narrow valley and amplified sound travels from the site down the valley. Beachmont is located in a bowl, which mitigates the sound. In addition, the GFWPA filed a zoning complaint against Beachmont last year for their corn maze attendance, which violated guidelines signed by Deputy Zoning Commissioner Kotroco.

Use of the Subject Site

Petitioner assertions: NACCB can use their property for worship, recreation, fund raisers and other purposes. They have a right to enjoy their property.

Facts: Numerous large, multi-day events with hundreds of cars and over 500 people per day are not aligned with the rural zoning of the subject site. Such events create traffic hazards and amplified sound, and destroy the surrounding community's quiet enjoyment of their property. Many religious institutions operate under either voluntary or imposed restrictions that respect the rights of the community.

Noise is Not a Criterion in 502.1

Petitioner assertions: 502.1 does not include noise as a factor in determining whether a Special Exception should be granted.

Facts: There are several legal cases where noise was considered as part of 502.1. These cases include: *Lucas v. People's Counsel for Baltimore County*, 147 Md. App. 209 (2001) and *People's Counsel for Baltimore County v. Mangione*, 85 Md. App. 738 (1991).

Petitioner's Social Media and Video Postings are Not Relevant

Petitioner assertions: These postings do not reflect the official position of NACCB on property uses, number of people at events, etc.

Facts: These postings are from NACCB Trustees, a major NACCB donor, and the Resident Agent. The social media and video postings all include date and source authentication, either within the document itself or in the file properties embedded in every electronic file. Note that some postings were removed during the course of the hearings after Protestants used the postings as evidence of violations of 502.1 criteria.

Protestants' Lay Witnesses were Unreliable

Petitioner assertions: The lay witnesses did not hear loud, amplified drumming or volleyball players. Several witnesses live too far away to be affected by activity on the subject site.

Facts: Lay witnesses provided documentary evidence to support their testimony. This evidence was provided by Petitioner. Witnesses who are not adjacent neighbors are affected by excessive traffic and noise from the subject site.

There is No Solitude

Petitioner assertions: There is heavy traffic on Harford Road with over two million cars per year. The area around the subject site does not have solitude.

Facts: Protestants' audio/video recordings (Protestants Video "Solitude") provided evidence of solitude, which was frequently disrupted by loud screaming from the Petitioner's volleyball court (Protestants Rec. Center Videos). This screaming can be heard well above the sound of cars passing by. Annualizing the number of cars on Harford Road belies the fact of concentrated traffic and congestion on the day of large, multi-day festivals at the subject site. Petitioner's claim there is no solitude, yet their own expert witness testimony that "vegetative buffers" are effective at sound control contradicts their "no solitude" assertion.

Vegetative Buffers are Effective

Petitioner assertions: The subject site is a 30-acre property with vegetative buffers. There is no disturbance from noise for nearby property owners. Many of NACCB's large events are held during a time of year when there are leaves on the trees, to act as a vegetative buffer.

Facts: Petitioner's Land Planner expert witness, Chris Jakubiak, stated that the vegetative buffer was ineffective in preventing amplified noise from reaching adjacent properties, as well as properties located along the narrow valley. There is no vegetative buffer to the south. Property owners reporting hearing amplified noise as far away as a mile from the subject site

during the summer, when trees are leafed out. The most disturbing amplified noise was in July and August of 2018. This July-August event also produced amplified noise that spooked a neighbor's horses a mile away.

Respectfully submitted,

the traffic control devices and not by the presence or absence of vehicles on the intersecting approaches.

Departure Sight Triangles

A second type of clear sight triangle provides sight distance sufficient for a stopped driver on a minor-road approach to depart from the intersection and enter or cross the major road. Exhibit 9-50B shows typical departure sight triangles to the left and to the right of the location of a stopped vehicle on the minor road. Departure sight triangles should be provided in each quadrant of each intersection approach controlled by stop or yield signs. Departure sight triangles should also be provided for some signalized intersection approaches (see Case D in the section on "Intersection Control").

The recommended dimensions of the clear sight triangle for desirable traffic operations where stopped vehicles enter or cross a major road are based on assumptions derived from field observations of driver gap-acceptance behavior (10). The provision of clear sight triangles like those shown in Exhibit 9-50B also allows the drivers of vehicles on the major road to see any vehicles stopped on the minor-road approach and to be prepared to slow or stop, if necessary.

Identification of Sight Obstructions within Sight Triangles

The profiles of the intersecting roadways should be designed to provide the recommended sight distances for drivers on the intersection approaches. Within a sight triangle, any object at a height above the elevation of the adjacent roadways that would obstruct the driver's view should be removed or lowered, if practical. Such objects may include buildings, parked vehicles, highway structures, roadside hardware, hedges, trees, bushes, unmowed grass, tall crops, walls, fences, and the terrain itself. Particular attention should be given to the evaluation of clear sight triangles at interchange ramp/crossroad intersections where features such as bridge railings, piers, and abutments are potential sight obstructions.

The determination of whether an object constitutes a sight obstruction should consider both the horizontal and vertical alignment of both intersecting roadways, as well as the height and position of the object. In making this determination, it should be assumed that the driver's eye is 1 080 mm [3.5 ft] above the roadway surface and that the object to be seen is 1 080 mm [3.5 ft] above the surface of the intersecting road.

This object height is based on a vehicle height of 1 330 mm [4.35 ft], which represents the 15th percentile of vehicle heights in the current passenger car population less an allowance of 250 mm [10 in]. This allowance represents a near-maximum value for the portion of a passenger car height that needs to be visible for another driver to recognize it as the object. The use of an object height equal to the driver eye height makes intersection sight distances reciprocal (i.e., if one driver can see another vehicle, then the driver of that vehicle can also see the first vehicle).

Where the sight-distance value used in design is based on a single-unit or combination truck as the design vehicle, it is also appropriate to use the eye height of a truck driver in checking sight obstructions. The recommended value of a truck driver's eye height is 2 330 mm [7.6 ft] above the roadway surface.

Intersection Control

The recommended dimensions of the sight triangles vary with the type of traffic control used at an intersection because different types of control impose different legal constraints on drivers and, therefore, result in different driver behavior. Procedures to determine sight distances at intersections are presented below according to different types of traffic control, as follows:

Case A—Intersections with no control
Case B—Intersections with stop control on the minor road
  Case B1—Left turn from the minor road
  Case B2—Right turn from the minor road
  Case B3—Crossing maneuver from the minor road
Case C—Intersections with yield control on the minor road
  Case C1—Crossing maneuver from the minor road
  Case C2—Left or right turn from the minor road
Case D—Intersections with traffic signal control
Case E—Intersections with all-way stop control
Case F—Left turns from the major road

Case A—Intersections with No Control

For intersections not controlled by yield signs, stop signs, or traffic signals, the driver of a vehicle approaching an intersection should be able to see potentially conflicting vehicles in sufficient time to stop before reaching the intersection. The location of the decision point (driver's eye) of the sight triangles on each approach is determined from a model that is analogous to the stopping sight distance model, with slightly different assumptions.

While some perceptual tasks at intersections may need substantially less time, the detection and recognition of a vehicle that is a substantial distance away on an intersecting approach, and is near the limits of the driver's peripheral vision, may take up to 2.5 s. The distance to brake to a stop can be determined from the same braking coefficients used to determine stopping sight distance in Exhibit 3-1.

Field observations indicate that vehicles approaching uncontrolled intersections typically slow to approximately 50 percent of their midblock running speed. This occurs even when no potentially conflicting vehicles are present (10). This initial slowing typically occurs at deceleration rates up to 1.5 m/s^2 [5 ft/s^2]. Deceleration at this gradual rate has been observed to begin even before a potentially conflicting vehicle comes into view. Braking at greater deceleration rates, which can approach those assumed in stopping sight distance, can begin up to 2.5 s after a vehicle on the intersecting approach comes into view. Thus, approaching vehicles

may be traveling at less than their midblock running speed during all or part of the perception-reaction time and can, therefore, where necessary, brake to a stop from a speed less than the midblock running speed.

Exhibit 9-51 shows the distance traveled by an approaching vehicle during perception-reaction and braking time as a function of the design speed of the roadway on which the intersection approach is located. These distances should be used as the legs of the sight triangles shown in Exhibit 9-50A. Referring to Exhibit 9-50A, highway A with an assumed design speed of 80 km/h [50 mph] and highway B with an assumed design speed of 50 km/h [30 mph] require a clear sight triangle with legs extending at least 75 m and 45 m [245 and 140 ft] along highways A and B, respectively. Exhibit 9-52 indicates the length of the legs of the sight triangle from Exhibit 9-51.

Metric		US Customary	
Design speed (km/h)	Length of leg (m)	Design speed (mph)	Length of leg (ft)
20	20	15	70
30	25	20	90
40	35	25	115
50	45	30	140
60	55	35	165
70	65	40	195
80	75	45	220
90	90	50	245
100	105	55	285
110	120	60	325
120	135	65	365
130	150	70	405
		75	445
		80	485

Note: For approach grades greater than 3%, multiply the sight distance values in this exhibit by the appropriate adjustment factor from Exhibit 9-53.

Exhibit 9-51. Length of Sight Triangle Leg—Case A—No Traffic Control

This clear triangular area will permit the vehicles on either road to stop, if necessary, before reaching the intersection. If the design speed of any approach is not known, it can be estimated by using the 85th percentile of the midblock running speeds for that approach.

The distances shown in Exhibit 9-51 are generally less than the corresponding values of stopping sight distance for the same design speed. This relationship is illustrated in Exhibit 9-52. Where a clear sight triangle has legs that correspond to the stopping sight distances on their respective approaches, an even greater margin of efficient operation is provided. However, since field observations show that motorists slow down to some extent on approaches to uncontrolled intersections, the provision of a clear sight triangle with legs equal to the full stopping sight distance is not essential.

Where the grade along an intersection approach exceeds 3 percent, the leg of the clear sight triangle along that approach should be adjusted by multiplying the appropriate sight distance from Exhibit 9-51 by the appropriate adjustment factor from Exhibit 9-53.

If the sight distances given in Exhibit 9-51, as adjusted for grades, cannot be provided, consideration should be given to installing regulatory speed signing to reduce speeds or installing stop signs on one or more approaches.

No departure sight triangle like that shown in Exhibit 9-50B is needed at an uncontrolled intersection because such intersections typically have very low traffic volumes. If a motorist finds it necessary to stop at an uncontrolled intersection because of the presence of a conflicting vehicle on an intersecting approach, it is very unlikely another potentially conflicting vehicle will be encountered as the first vehicle departs the intersection.

Case B—Intersections with Stop Control on the Minor Road

Departure sight triangles for intersections with stop control on the minor road should be considered for three situations:

Case B1—Left turns from the minor road;
Case B2—Right turns from the minor road; and
Case B3—Crossing the major road from a minor-road approach.

Intersection sight distance criteria for stop-controlled intersections are longer than stopping sight distance to ensure that the intersection operates smoothly. Minor-road vehicle operators can wait until they can proceed safely without forcing a major-road vehicle to stop.

Case B1—Left Turn from the Minor Road

Departure sight triangles for traffic approaching from either the right or the left, like those shown in Exhibit 9-50B, should be provided for left turns from the minor road onto the major road for all stop-controlled approaches. The length of the leg of the departure sight triangle along the major road in both directions is the recommended intersection sight distance for Case B1.

The vertex (decision point) of the departure sight triangle on the minor road should be 4.4 m [14.5 ft] from the edge of the major-road traveled way. This represents the typical position of the minor-road driver's eye when a vehicle is stopped relatively close to the major road. Field observations of vehicle stopping positions found that, where necessary, drivers will stop with the front of their vehicle 2.0 m [6.5 ft] or less from the edge of the major-road traveled way. Measurements of passenger cars indicate that the distance from the front of the vehicle to the driver's eye for the current U.S. passenger car population is nearly always 2.4 m [8 ft] or less (10). Where practical, it is desirable to increase the distance from the edge of the major-road traveled way to the vertex of the clear sight triangle from 4.4 m to 5.4 m [14.5 to 18 ft]. This

Appendix B.1

Misrepresentation of Facts by NACCB Key Witness

Appendix B.1

Misrepresentation of Facts by NACCB Key Witness

Appendix A provides numerous quotes from the testimony of key NACCB witness, Kris Ghimire, at the Administrative Law Judge Hearing (1/17/18), Board of Appeals Hearing Day 1 (7/19/18) and Board of Appeals Hearing Day 5 (10/23/18) – see column 1. Evidence and exhibits that show misrepresentation of facts for specific testimony are listed in column 2. Most of the evidence and exhibits in column 2 was provided by the Petitioners themselves.

The source of Kris Ghimire's testimony in column 1 is shown for each hearing, with reference to specific pages in the following transcripts:

- Administrative Law Judge (ALJ) Hearing of January 17, 2018 [Protestants Exhibit 96 – Complete ALJ Transcript]
- Board of Appeals Hearing Day 1 on July 19, 2018 [Board of Appeals transcript]
- Board of Appeals Hearing Day 5 on October 23, 2018 [Board of Appeals transcript]

KEY
G: Kris Ghimire CH: Carroll Holzer LS: Larry Schmidt
Garber: Chairman Garber
Murphy: Board member Ms. Murphy

Testimony/Quotes	Evidence/Exhibits Showing Misrepresentation
Use of the Building CH: When you were at the ALJ Level and he said you were not supposed to use the building, is that correct? G: Not supposed to use the building as a place of worship (Day 5, p. 188) LS: And you have not operated a temple out there to this point in time, correct? G: No LS: The building has not been open since you've owned it for the purposes of having religious services there, is that correct? G: That's correct LS: So the property has not been used to this point as a building for religious worship, correct? G: That's correct (Day, 5, pp. 221)	Protestants Videos 5006 and 7061 of more than 100 people going inside the building and participating in a ceremony inside the building; see also Protestants Video 6990 from October 6, 2018 event; see also Protestants Videos 4992, 5005, 6986, 6989, 6978, 7016, 7040, 7040A, 7040B, 7040C, 7042 showing people using the building; see also photo of 7 women working in kitchen with over 100 urns on 7/28/18, Protestants Exhibit 90

Testimony/Quotes	Evidence/Exhibits Showing Misrepresentation
CH: So there was no religious activity taking place? G: Was more of a person of religious stature coming and asking for donations to build a temple (Day 5, p. 123) G: Not using the property for any religious purpose, except maintenance and working (ALJ, p. 61)	See evidence listed on page A-1
Events at the Subject Site G: 3 to 5 festivals depending on who you ask, major festivals that are religious (Day 1, p. 66) G: 3 or 4 major festivals; at any given time 150-200 people (Day 1, pp. 70-71) G: It is not the temple that you have 200 people come at the same time (Day 1, p. 59) CH: How many events have you hosted on site? G: Could be 3 or 4 fundraisers (Day 5, p. 123) G: We had one festival last year and we had at one given time...close to 200 [people] (Day 1, p. 99) G: We have a couple festivals. One mainly being September. And we have a few other minor festival, right around the summertime and the spring. Three major ones, yes. (ALJ, p. 53)	Ghimire Facebook 7/30/17: over 1,000 people in two days; first annual Family Fun Day, Protestant Exhibits 82 and 85 See above and Protestants Exhibits 14, 82, 85 Protestant Exhibits 24, 82 and 85 for large events held in 2017 and audio file "From Deck Sept. 10, 2018" Protestants Exhibits 27, 74, 80, 81, 84, 84, 86, 87, 88 for large events held in 2018 and Protestants videos on Discs A1, A2, A3, A4, New Disc (Exhibit 73), and Exhibit 34 (Videos in Preliminary Motion)

Testimony/Quotes	Evidence/Exhibits Showing Misrepresentation
G: Not having anybody in close proximity (ALJ, p. 46)	Testimony and affidavits of numerous Protestant witnesses about loud, disturbing amplified noise during the day and late evening hours, headlights at night shining into a neighbor's home, uplighting of the mansion at night, and traffic issues from adjacent property owners as well as from property owners up to a mile from the subject site.
Temple/Cultural Center G: There's a little debate in our community. We decided we wanted it to be temple. People who wanted to have a community center, they opened a community center right on Taylor Avenue. (Day 5, p. 163)	Real estate listing (Zillow) for Taylor Ave. building: 2,200 square feet of interior space and 9 parking spaces; How can Taylor Ave. property handle the multi-day, 200+ person per day events?
G: Temple would be place of prayer; receptions at cultural center. If you wanted to invite a county official or a politician or have some kind of talk, so would go to community center, not at the temple. (Day 5, p. 163)	Protestants Video 6990 – gathering of county officials, political figures on October 6, 2018
G: We don't have a temple yet, we don't have a functioning operational temple; that's what we are trying to build (Day 5, p. 121)	Protestants Videos 6978, 6986, 6990 – use as a community center and recreational center; see also Rec. Center videos 1-14
G: The single mission of our center is to establish a Hindu Temple in Baltimore (Day 1, p. 49)	Petitioners Exhibit 5, NACCB Corporate Charter with multiple purposes; also see multiple purposes stated in Sept. 2017 site plan submitted to Baltimore County, Protestants Exhibit 38
G: We have a congregation of about 150. On a special event we might have 100 or 150 people. (ALJ, p. 106)	G: We don't have a temple yet, so we don't have a congregation. (Day 5, p. 121)

Testimony/Quotes	Evidence/Exhibits Showing Misrepresentation
CH: You have been functioning as a temple at your business address at 8030 Belair Road? G: That is not correct; get mails over there; people come to visit me there and meet me there; sometimes when we have a meeting, there could be an occasion when we pray before we meet (Day 1, pp. 91-92)	Petitioners Exhibit 5: NACCB, Inc. Corporate Charter: "The principal place of worship is 8030 Belair Road, Suite 200, Nottingham, MD 21236"
Recreational Center G: There used to be a tennis court...kids go there to maintain the property and sometimes play volleyball and basketball (Day 1, p. 55)	Video/audio evidence of more than 20 days between 4/22/18 and 6/20/18 of volleyball; this represents only a small portion of all volleyball tournaments and games that occurred throughout 2017 and 2018 Volleyball tournament in July 2017 involved teams from multiple states, Protestants Exhibit 24; Ghimire 7/30/17 Facebook post stating 1,000 people over two days, teams from multiple states, Protestants Exhibit 85 Volleyball games took place frequently during the BOA hearing dates, as late as Sunday Nov. 18, 2018 before 9 am and Sunday Nov. 25, 2018 See also Protestants Rec. Center Videos 1-14 For ALL volleyball events: percussive screaming and yelling heard up to ½ mile away
CH: Would there be volleyball tournaments there? G: Not regular athletic sporting events, tournaments, none of those (Day 5, p. 169)	Photo of volleyball tournament, Protestants Exhibit 84; see also Protestants Video of Belmont Volleyball Group; see also Protestants Exhibit 24 volleyball flier; see also Ghimire 7/30/17 Facebook post stating 1,000 people at subject site over two days, teams from multiple states, Protestants Exhibit 85

Testimony/Quotes	Evidence/Exhibits Showing Misrepresentation
CH: There was no volleyball tournament held in 2018? G: Correct (Day 5, p. 159)	Photo of 2018 volleyball tournament with team members in matching shirts and trophy presentation, Protestants Exhibit 84
Ms. Murphy: Do you know whether you would agree to have it [volleyball court] removed? G: It wouldn't matter to me either way. It's not really part of essential, the temple operation. Murphy: Is it part of the religious service at all? G: It was there, we used it Garber: It's not any part, you're not going to use it for any religious purpose? G: That's correct (Day 5, p. 243)	At Board of Appeals hearings after Day 5, Petitioner denied the witness testified that the volleyball court could be removed and that it was not essential to the temple operation.
July 28 - August 3, 2018 Event G: A fund raiser (Day 1, p. 122)	Multiple Facebook posts on extensive, detailed agenda of religious activities and stating it was a "mass spiritual festival" during July 28-Aug. 3, 2018; see Protestants Exhibit 45
G: The ultimate goal was fundraising (Day 5, p. 123)	Protestants Exhibit 14 – photo of 77 cars parked on the grass 7/28/18 (over 300 people); by 8/3/18 the number of cars was over 150 (over 600 people)
CH: Did you have an amplification system? G: We had a little microphone for the speaker inside the tent (Day 5, p. 123)	Video of at least 6 microphones including amplification of drums and other instruments, Protestants Videos 7040, 7040A, 7040B, 7042, 7045, 7047

Testimony/Quotes	Evidence/Exhibits Showing Misrepresentation
LS: Have you ever had any drums on the property? G: No (Day 5, p. 233) Murphy: But they were playing this drum instrument and the flute? G: Yeah (Day 5, p. 239)	July-Aug. 2018 event videos of two types of drums, Protestants Videos 7040, 7040A, 7040B, 7045, 7047 Petitioner compares tabala to bongos – <u>which is a drum</u> (Day 5, p. 233) Petitioner's response to Protestants Video Motion mentions drums in the videos
G: Clearly they are talking about the gate and not the door [of the mansion being open]. Fundraiser was held outside. The temple didn't have to be open. (Day 5, p. 189-190) CH: Would any services or any outdoor events have speakers and loud speakers and microphones for amplification? G: The priest could speak with a small microphone LS: The witness said he believes they cannot have outdoor music (Day 1, pp. 133-135) G: We wanted to get this big tent that has cover all around it (Day 5, p. 239) G: If the building is ready to be used and we start using the main hall inside, then there's no reason to be outside. (Day 5, p. 175) G: And once it's all done...the microphone will be stationed inside the building. (ALJ, p. 54)	Protestants Videos 7016 and 7040C showing door to mansion open and people frequently going in and coming out during July 28-Aug. 3, 2018 event Photo of 7 women working in kitchen with over 100 urns on 7/28/18, Protestants Exhibit 90 Protestants Videos 7016, 7040, 7040A, 7040B, 7040C, 7042, 7045, 7047 of July28-Aug.3, 2018: loud, amplified music heard outside the tent; at least 6 microphones and many loud speakers in use, including dedicated microphones for the drums Protestants Videos 7016, 7040, 7040A, 7040B, 7040C, 7042, 7045, 7047 showing large openings in tent sides, all around the tent See Mr. Powell's testimony (sanitarian) on Day 3; Petitioners told him there would be a tent outside for four major festivals per year.

Testimony/Quotes	Evidence/Exhibits Showing Misrepresentation
Kitchen LS: Is this facility going to have any type of kitchen facility? G: It is not needed LS: There will not be a kitchen? G: No (Day 1, p. 63) G: We have no plan on using it [kitchen] (Day 5, p. 216) G: The kitchen is not even usable (ALJ, p. 104)	Karki Facebook post – planned use of property for soup kitchen, Protestants Exhibit 25 Photo of 7 women working in kitchen with over 100 urns on 7/28/18, Protestants Exhibit 90
Permits/Improvements to the Property G: I'm sure we can abide by every code and laws out there on the books (ALJ, p. 76) G: Not new electrical, but what's been fixed up was already there (Day 5, p. 215) G: We had a little spot light outside (Day 5, p. 217) LS: You don't really intend to add any outdoor lighting onto the property? You're not proposing to light up the property? G: No (Day 5, p. 230)	No permits filed with Baltimore County for electrical or plumbing as of February 12, 2019 Facebook photo of July 4th lighting with many large colored spotlights on mansion exterior, Protestants Exhibit 86; see also Protestants Video 6985 Protestants Video 5006 – February 25 Open House with many large colored spotlights on mansion exterior, see also Exhibit 87 Protestants Video 7016 of July 28 – Aug. 3, 2018 event: close-up of spotlight on column (one of many spotlights), compared to Petitioners Exhibit 12A photo of property showing no spotlights before NACCB started improvements to the property Youtube Feb. 17, 2017 NACC Property Virtual Tour shows no uplights on mansion exterior; those uplights are seen in Protestants Videos 5006 and 6985

Testimony/Quotes	Evidence/Exhibits Showing Misrepresentation
CH: As a result of their [SHA] reviewing the plan, they felt that it was not safe for the purpose that you intended to use the entrance and exit and that it should be relocated, correct? G: I don't think they said it is unsafe (Day 5, p. 199)	Zeller emails in Protestants Exhibits 43 and 53
CH: You ended up putting up two signs, a two-faced sign. They [County Code enforcement] ended up coming out and citing you for a code violation and required you to change that to one sign. Is that correct? G: That's not correct. What they said was the height from the ground to the sign has to be less than 6 foot. That was the issue with that, not having two signs (Day 5, p. 208-209)	County Code Enforcement Correction Notice of 8/27/18 and NACCB sign permit application, Protestants Exhibit 37. Inspector's Comments: "The sign has a permit but it is not built and installed according to the permit. You're only allowed to have one sign less than 25 feet square and it can be no taller than 6 feet from ground level."
Future Use of the Building G: If building is ready to be used, no reason to be outside CH: Will you still need tents on the site once building is fixed up? G: No (Day 5, p. 175-177)	Mr. Powell (sanitarian) testified on Day 3, based on information from Petitioners, that there would be 4 major festivals per year to be held outside in a tent
G: Once the building gets occupied all the activity will take place inside the building (ALJ, p. 101)	
G: Community and cultural activities at Taylor Ave. (Day 5, p. 163)	Only 2,200 square feet of interior space and 9 parking spaces at Taylor Ave.
Nepal Idol Concert Garber: Were you the sponsor of this event? G: No Garber: Did you have any type of role in leadership, management or whatever of this event? G: No (Day 5, p. 136)	Protestants Videos 7010 and 7057 (time stamp starting at 3:00 minutes) with large banner on Nepal Idol concert stage with Kris Ghimire's name, photo, phone number and business name; appendices to proffered Protestant Exhibits 22 and 23 show Ghimire was a platinum sponsor of the Nepal Idol concert

Appendix B.2

Timeline of NACCB Large Events, 2017 - 2018

Appendix B.2

Timeline of NACCB Large Events
2017 - 2018

The following large-scale events occurred on the subject site during 2017 and 2018. Much of this evidence is not consistent with testimony of the key NACCB witness, Kris Ghimire. See also testimony and evidence pertaining to events in Appendix B.1.

2017

April 9	Large event with loud, amplified music and sound
July 29-30	1st Summer Family Fun Festival. Large two-day event with over 1,000 people. Loud, amplified music and sound, large number of cars, sporting events, food. Volleyball tournament with teams from across the mid-Atlantic. See Protestants Exhibits 24, 82, 85
August 24	Large event with volleyball
September 10	Large event, loud amplified music and sound, 8:30 pm. See Protestants Audio, From Deck Sept. 10, 2017
November 12	Large event with many cars parked on grass slopes

2018

February 25	Large open house event, large number of cars, more than 200 people, no sanitary facilities. See Protestants Videos 5005, 5006, 7061
April 19 – 22	Large event advertised on social media, but later canceled. See Protestants Exhibit 89
June 19	Large group of people gathering outside and then going inside for a ceremony with statues on tables. More than 100 people inside the building. See Protestants Video 4992
June 21	Large event with amplified music and sound, many cars

2018 (continued)

July 4	July 4th large event, exterior lights on building lighting it up with colored lights. See Protestants Video 6985
July 11	Large event, many people outside and inside the building. Many cars parked on grass slopes. See Protestants Exhibit 88
July 23	Large volleyball tournament and trophy presentation. See Protestants Exhibit 84
July 28-August 3	Large, week-long event petitioner called a fund raiser. Multiple social media postings labeled the event as a "mass spiritual festival" with a detailed agenda of religious activities. Loud, amplified music and sound, especially amplified drumming. Hundreds of cars parked on grass slopes with traffic issues at the entrance. Many people in a tent and also inside the building. See Protestants Videos 6988, 6989, 7016, 7040, 7040A, 7040B, 7040C, 7042, 7045, 7047
October 6	Large event with panel of politicians and other officials. Video evidence shows event outside and many people going inside the building. See Protestants Video 6990
November 4	Belmont Volleyball Group at subject site with loud screaming and yelling. See Protestants Video "Nov. 4"

Narrative Information

On 1/28/18 at 2239 hours, I responded to St. Joseph's Church at 8420 Belair Rd. for a call of a fight. The caller advised several persons were fighting at the location. Upon my arrival at 2240 hours (in a marked Baltimore County Police car with activated emergency lights and siren and wearing a Baltimore County Police uniform), several persons pointed me towards the north side of the parking lot. I made my way towards where they were pointing. I observed a male on top of another Asian male (who was lying on his back). The male on top was striking the grounded male with closed fists. The male on top was later identified by a VA driver's license as

Suspect Shree Man Sarki. I ran to the two fighting subjects. I yelled for them to stop. Suspect Sarki continued to strike the grounded male with closed fists. I attempted to pull Suspect Sarki off. This did not work, and I began to punch Suspect Sarki in his sides in an attempt to gain compliance. This was not working. I had my flashlight with me. I struck Suspect Sarki in his right side with the flashlight in an attempt to gain compliance. He continued to roll on top of the grounded male. I yelled several times for him to stop. I was able to pull him away from the grounded male after several strikes. As I pulled him away, Suspect Sarki swung elbows back towards me striking me at least twice in my torso. I did not sustain any injury. As we rolled to my left, I was briefly on my back with Suspect Sarki above me. Suspect Sarki cocked his right arm back as if to strike me, but I was able to strike his left side. I was able to stand myself and stand Suspect Sarki up in an attempt to arrest him for the witnessed assault on the grounded male. Prior to that scuffle, several persons' attention was directed to the fight and they gathered around at the yelling and fighting between the male and the grounded male. Some even began recording with cell phones. After standing up with the male I observed striking the grounded male (who had since fled the area), I was confronted by a crowd closing in on me. I ordered them back, and removed my OC spray container from my belt. No OC spray was deployed. As I was attempting to move the crowd back, Suspect Sarki began to pull away from me in an attempt to flee. I grabbed his collar and was able to hold him. He continued to pull away from my grasp. I pushed him to the ground. I ordered him several times to put his arms behind his back. After several commands, he did so. He was arrested. Again, members of a crowd surrounded me and I ordered them back. Several persons' attention was drawn to Suspect Sarki and me, and again were recording with cell phones. Backup officers from PC8 and PC9 arrived to my location on the parking lot. Suspect Sarki was then taken to a waiting Police car by Cpl. R. Pabon #4550 (BCOPD/PC8). While attempting to disperse the crowd which remained at the parking lot, several Corona beer bottles and liquor bottles were littered across the parking lot. Several persons there laughed when ordered by myself and several other officers to disperse.

Suspect Sarki was transported to PC8 for processing.

The male that I saw being assaulted by Suspect Sarki left the area. This male was not identified. I could only observe that he was an Asian male wearing dark clothing.

Form 253 completed.

BWC footage obtained.

OFC T. Benson #4245 (Forensic Services) responded to PC8 and photographed Suspect Sarki. While talking to Suspect Sarki, He stated that abrasions around his eyes and face were caused by a guy that he tried to get off of his friend. I never struck Suspect Sarki in the head with either a fist or my flashlight. Any blows landed were on his torso. Suspect Sarki was asked if he had pain anywhere in his sides. He said he did not.

Sgt. S. Moroz #4628 (Crash Team) responded to the scene.

Narrative Information

On 1/29/18 at 0059 hours, I was dispatched to the area around 7927 Belair Rd in reference to a possible fight. Upon arrival, a large crowd was present, but no one was advising what had happened. It should be noted that this group of people were of Indian decent and there was a strong language barrier.

We were able to find victim, Budha Tamang, sitting in the parking lot. He was bleeding from his mouth and head. While trying to speak with victim Budha Tamang, he did not know who attacked him and did not want to provide us with any information. Medics arrived and after observing the injuries, they believed that the victim had a broken jaw. The victim and his friends did not want the Police help or the medics help and wanted to drive home to Philadelphia. The medics were able to convince the victim to go to the hospital for his injuries. Victim Budha Tamang still continued to not have any information for us about who attacked him and with what.

Some of the victim's friends advised that they saw the suspect but could not provide any further. They did not want to give us any information about themselves. They advised that they just wanted to go home to Philadelphia.

IN THE MATTER OF:	*	BEFORE THE:
NEPALI AMERICAN CULTURAL CENTER	*	BOARD OF APPEALS
12231 Harford Road	*	FOR
11th Election District	*	BALTIMORE COUNTY
5th Councilmanic District	*	

RECEIVED
NOV 27 2018
BALTIMORE COUNTY
BOARD OF APPEALS

RE: PETITION FOR SPECIAL EXCEPTION * Case No.: 18-122-X

* * * * * * * * * * * * *

MOTION TO ADMIT PROTESTANTS EXHIBITS 23 AND 24

Protestants request that the Board admit Exhibits 23 and 24 as evidence in this case, along with this motion and attached Appendices A – F. Protestants Exhibits 23 and 24 were entered for identification purposes only at the Board of Appeals hearing on October 23, 2018 as Baltimore County Police Report of 1/28/18 (Exhibit 23) and Baltimore County Police Report of 1/29/18 (Exhibit 24). Members of the Board and opposing counsel were provided copies of Exhibits 23 and 24 at the hearing on October 23, 2018.

As requested by Chairman Garber at the October 23, 2018 hearing, protestants are hereby submitting evidence to link members of the Nepali American Cultural Center, Inc. (NACCB) to the January 28 and 29, 2018 Police Reports. This Motion and the attached Appendices A – F document why Protestant's Exhibits 23 and 24 are relevant to the case and provide the rationale for admitting the Exhibits, Motion, and Appendices as evidence.

FACTS

Appendix A shows the locations of the incidents described in the January 28, 2018 Police Report (Incident #1) and in the January 29, 2018 Police Report (Incident #2) on a Google Map, along with key details of each incident as described in Exhibits 23 and 24.

Incident #1 - January 28, 2018 at St. Joseph's Church Parking Lot

On January 28, 2018 there was a Nepal Idol Concert taking place at St. Joseph's Church Hall, located at 8420 Belair Road, from 5:30 p.m. - 11:00 p.m. At 22:39 hours (10:39 p.m.) a Baltimore County Police Officer responded to a call of a fight at St. Joseph's Catholic Church parking lot.

According to the police report, two (2) males were fighting and the officer tried to stop the fight. One individual involved in the fight attacked the officer and the subject was arrested and charged with Assault 2nd Degree on Police. Additional offenses cited in the police report include Disturbance of the Peace and Resisting Arrest. The other individual involved in the fight fled the scene. The officer reported that "I was confronted by a crowd closing in on me." It was reported that the large crowd numbered over one hundred (100) people. The report also states that inside the church hall, people were fighting and throwing bottles.

During the incident, back-up police units were called to the scene. The reports states "all drinking" and provided evidence for the statement. The report also states that "Several persons there laughed when ordered by myself and several other officers to disperse."

The report shows that twelve (12) police units responded to the incident at St. Joseph's Church parking lot.

Incident #2 - January 29, 2018 at Mount Everest Restaurant

On January 28 - 29, 2018 a Nepal Idol Concert After Party was held at Mount Everest Restaurant, located at 7927 Belair Road, from 11:30 p.m. to 1:45 a.m. Mount Everest Restaurant, a Nepalese restaurant, is located 1.4 miles south of St. Joseph's Catholic Church, the location of the Nepal Idol Concert. At 0059 hours (12:59 p.m.) a Baltimore County police unit was dispatched to the area around 7927 Belair Road for a possible fight.

The police report states that a large crowd was present and that a victim was found in the parking lot bleeding from his mouth and head. Additional back-up police units were called to the scene as well as a medic unit and fire engine. The victim did not want to provide the officer with information on who attacked him (the victim). The medic unit responding to the scene examined the victim and stated he had a broken jaw. The victim was transported to University of Maryland Shock Trauma in serious condition. The report also indicates a large knife was involved.

The report shows that eleven (11) police units, one medic unit, and one fire engine responded to the incident around Mount Everest Restaurant.

CONNECTION WITH THE APPLICANT NACCB

Appendix B provides a table titled **Hearing Attendees Directly Involved with Nepal Idol Concert in Baltimore on January 28, 2018.** Appendix B summarizes the connection between the Nepal Idol Concert and members of NACCB, based on the sign-in sheets from the January 17, 2018 Administrative Law Judge Hearing and from Days 1 – 6 of the Board of Appeals Hearings (July – November 2018).

Appendix C provides Facebook postings from January 2018 (see dates on attached postings):

- Facebook posting of the Nepal Idol concert advertising poster lists the event sponsors, including the only Platinum Sponsor--Ghimire Homes (see lower left corner)
- Facebook posting thanks a group of individuals associated with the Nepal Idol Concert, Baltimore
- Facebook posting acknowledges support and contributions received from Ghimire Homes Kris Ghimire and media partner Namlo Events

Appendix D provides the Eventbrite listing for ticket information for the Nepal Idol in Baltimore Concert and the Nepal Idol After Party. The dates, times, and locations of the Concert and After Party are listed in the Eventbrite announcement.

Appendix E provides the names of members of a Nepal Idol media partner, Namlo Events, from their website.

Appendix F provides photos from a YouTube video, "Nepal idol winner's program in baltimore usa," published on January 29, 2018. Note that this YouTube video was provided to the Board in the video library (See Disc A3, file DSC_7010). Also included in Appendix F are photos downloaded from the Nepal Idol Concert, Baltimore from the Namlo Events website.

Examination of the list of sponsors, media partners and individuals involved in the Nepal Idol Concert on January 28, 2018 shows that 11 members of NACCB matched the names listed in Appendices C, E, and F when compared to the following documents:

- Petitioner's sign-in sheet from January 17, 2018 Administrative Law Judge Hearing and list of witnesses
- Sign-in sheets from Board of Appeals Hearings, Days 1-6 for Petitioner's attendees, and list of witnesses (July - November, 2018)
- NACCB, Inc. Corporate Charter list of trustees, January 4, 2017
- One Application for NACCB Sign Use Permit submitted to Baltimore County on March 13, 2018 (NACCB member who signed permit form)

In conclusion, the above Appendices B, C, D, E, and F conclusively tie the hearing attendees in the hearing before this Board with the events held on January 28-29, 2018. Obviously therefore, Exhibits 23 and 24 should be entered into evidence by this Board.

RELEVANCE RELATED TO THE BOARD'S REQUIRED FINDINGS UNDER B.C.Z.R. §502.1

Introduction of the two police reports (Protestants Exhibits 23 and 24) as evidence in this case strongly relates to §502.1 criteria A (health, safety or general welfare) and C (hazard from fire, panic or other danger). The Exhibits, Motion, and Appendices clearly linking the police reports, Nepal Idol Concert and After Party to members of NACCB are not conjecture, but rather evidence that they have provided, or found on Facebook postings and websites of event organizers.

If this type of behavior demonstrated in the police reports is indicative of the NACCB behavior on a property they ***rented*** (St. Joseph's Catholic Church Hall), what can the local community expect regarding their behavior on a property they ***own*** (12231 Harford Road)?

The evidence clearly shows, as documented in the police reports, that NACCB is unable to control individuals attending events in which their members participated and helped organize. The disturbance did not happen just once, it occurred twice in connection with the Nepal Idol Concert and After Party.

Given that between 10,000 and 20,000 individuals of Nepalese descent reside in the greater Baltimore area, neighbors of 12231 Harford Road located in a rural agricultural R.C. 2 Zone are entirely justified in their concerns regarding health, safety and danger from the behavior of those attending NACCB events, as evidenced by the January 28 and 29, 2018 police reports.

CONCLUSION

In conclusion, the two police reports submitted as Petitioners Exhibits 23 and 24 should be admitted and relevant for consideration by this Board under §502.1, along with this Motion and Appendices A - F. The Board must weigh the evidence presented in these documents related to any Special Exception and any accompanying restrictions granted to NACCB regarding the subject property, and NACCB's willingness and ability to abide by the Board's decisions.

Furthermore, the evidence provided in these documents clearly indicates that Mr. Ghimire misrepresented the true facts of these incidents during his October 23, 2018 testimony and his testimony should be stricken.

We would like to express our sincere appreciation to all the friends, sponsors and media partners who made it to nepal idol concert taking out time from their hectic schedule . This event shouldn't have been such a success without your tremendous support.
We are with the people who believes that this event could have been better. We learned from our mistake and we will come back with better program in the future..
Last but not the least, shoutout to the centerpiece nishan bhattrai, pratap das and buddha lama who gave there hearts to make this event an indelible impression on everyone's memory.

At the end,
Special thanks to...

DESCRIPTION

Nepal Idol 2017 is the first installment of a Nepalese reality television singing competition that is part of the Idols franchise created by Simon Fuller. Auditions for the show were held in seven Nepali cities, with contestants aged 16 to 30 participating. Nepal Idol is here with its first season in Nepal with three exceptional prodigies as our judges. The judges are Kali Prasad Baskota, Nhyoo Bajracharya and Indira Joshi.

After 5-month hunt for a singing sensation, fair and clear track of the talent and widest audience support, the Nepal's edition of Pop Idol franchise have officially announced Buddha Lama as first ever Nepal Idol from the grand finale that took place at Asian Two Amphitheatre, Grand Mall, Sanaya in Doha, Qatar.

Similarly, Nishan Bhattarai of Morang became First Runner Up while Pratap Das of Lalitpur got the tile of Second Runner Up.

DMV Events and Everest Entertainment Presents..

The Top 3 talents from Nepal Idol will be performing their first US TOUR concert in Baltimore on January 28th. Get ready to see your favorite idols.
1. Buddha Lama
2. Nishan Bhattarai
3. Pratap Das.
With the Best Nepali Idol Host, Sushil Nepal.

IN THE MATTER OF:	*	BEFORE THE:
NEPALI AMERICAN CULTURAL CENTER 12231 Harford Road	*	BOARD OF APPEALS FOR
11th Election District 5th Councilmanic District	*	BALTIMORE COUNTY
RE: PETITION FOR SPECIAL EXCEPTION	*	Case No.: 18-122-X

* * * * * * * * * * * * *

MOTION TO RECONSIDER THE BOARD'S DECISION
AND READMIT PROTESTANTS EXHIBITS #22 AND #23

On November 27, 2018 Protestants submitted a Motion to Admit Protestants Exhibits #23 and #24. (Note that the Exhibits should have been titled #22 and #23.) The Motion of November 27, 2018 requested that the Board admit Exhibits #22 and #23 as evidence in this case, along with the motion and attached Appendices A – F. Protestants Exhibits #22 and #23 were entered for identification purposes only at the Board of Appeals hearing on October 23, 2018 as Baltimore County Police Report of 1/28/18 (Exhibit #22) and Baltimore County Police Report of 1/29/18 (Exhibit #23). Members of the Board and opposing Counsel were provided copies of Exhibits #22 and #23 at the hearing on October 23, 2018.

LAW OFFICE
HOLZER AND LEE
THE 508 BUILDING
508 FAIRMOUNT AVENUE
TOWSON, MARYLAND
21286

(410) 825-6961
FAX: (410) 825-4923

On January 29, 2019 the Board verbally denied the motion on the basis that the Protestants had not adequately linked Ghimire Homes to Kris Ghimire.

This is a motion to reconsider the Board's decision of January 29, 2019.

The attached evidence is the SDAT for Ghimire Homes and banner photos with Mr. Ghimire's photo on stage at the event with which he denied involvement to this Board. The photos, previously submitted as Appendices in the November 27, 2018 Motion, clearly show Mr. Ghimire on the poster with Ghimire Homes. The attached documents provided from SDAT clearly show that Mr. Kris Ghimire is in fact the President and a principal in Ghimire Homes, LLC. This is affirmed in his sworn statement to the Maryland State Department of Assessments and Taxation.

CONCLUSION

In conclusion, the two police reports submitted as Petitioners Exhibits #22 and #23 should be admitted and relevant for consideration by this Board under 502.1, along with the November 27, 2018 Motion and Appendices A - F. The affidavits on documents Mr. Ghimire provided to SDAT clearly show he is directly involved in the operation of Ghimire Homes.

The evidence provided in these documents clearly indicates that Mr. Ghimire misrepresented the true facts of his involvement with this event during his October 23, 2018 testimony and his testimony should be stricken, and the Exhibit #22 and #23 should be admitted.

The referenced materials are attached hereto.

Respectfully submitted,

J. CARROLL HOLZER, Esquire

RECEIVED
MAR 05 2019
BALTIMORE COUNTY
BOARD OF APPEALS

* *

WRITTEN MEMORANDUM IN LIEU OF CLOSING ARGUMENT

The property owner, Nepali American Cultural Center of Baltimore (hereinafter "Petitioner" or "Nepali"), by and through their attorneys, Lawrence E. Schmidt and Smith, Gildea & Schmidt, LLC, submit this Written Memorandum in Lieu of Closing Argument in support of the Petition for Special Exception for the above referenced matter and respectfully state:

STATEMENT OF THE CASE

This matter comes before the County Board of Appeals (the "Board") as a *de novo* appeal of Administrative Law Judge ("ALJ") John Beverungen's final decision dated January 22, 2018 granting a Petition for Special Exception for a church or other building used for religious worship.[1] The Petition pertains to the property located at 12231 Harford Road (the "Property") and was filed pursuant to Baltimore County Zoning

[1] The BCZR, in describing such a proposed use, states "a church or building used for religious worship." By definition, a "church" is a structure used by any denomination of the Christian religion. The temple proposed here is of the Hindu faith and is thus not a church as that religion does not consider Jesus as the son of God. The use herein of that word (i.e. church) is thus in the vernacular.

Regulation (hereinafter "BCZR") § 1A01.2.C.6, which permits churches and other buildings used for religious worship in the RC-2 zone by special exception.

A public hearing on the petition was held before the ALJ on January 17, 2018. By written Opinion and Order dated January 22, 2018, ALJ Beverungen granted the petition. On February 16, 2018, an appeal of the ALJ's decision to the Board was filed by DeWitt and Mary Clark, David Hartman, Dave Poehler, Morgan Miner, and Carol Shaw (collectively, hereinafter referred to as the "Protestants"). They are represented by J. Carroll Holzer, Esquire. The public hearing before the Board consumed eleven non-consecutive days lasting from July 19, 2018 to February 13, 2019. The relevant testimony will be recounted as appropriate herein. Additionally, the parties submitted a significant volume of documentary evidence, including photographs, plans and plats, video recordings, etc.

STATEMENT OF THE FACTS

The collective evidence offered in this case established the following essential facts. The Petitioner, Nepali American Cultural Center of Baltimore, is a non-profit organization dedicated to establishing a Nepalese (Hindu) place of worship in Baltimore County. Members of Nepali generally are immigrants to the United States from Nepal and practice the Hindu faith. In furtherance of this mission, the Petitioner has purchased the subject property known as 12231 Harford Road in the Glen Arm community of northeastern Baltimore County.

The Property is approximately 30.8 acres in area, zoned RC-2, and the buildings thereon are currently not served by public water and sewer. Previously, there was a

private well and septic system serving the improvements on site, but those facilities no longer are functional and will be replaced.[2] The Property is an irregularly shaped parcel with frontage on Harford Road. It is outside of the County's Urban Rural Demarcation Line ("URDL"). There is a single existing access driveway serving the Property from Harford Road. This driveway is located on the northeast side of the Property, near the intersection of Harford Road and Bonaparte Avenue. Harford Road (Maryland Route 147) is a state highway and is under the control and jurisdiction of the State Highway Administration ("SHA"). The nearest major intersection is a traffic circle approximately one quarter mile to the east; where Harford Road intersects with Mt. Vista Lane (to the north) and Glen Arm Road (to the south).

The main building on the Property is an existing structure that was most recently used as a dwelling. It is a large and imposing mansion like structure. The structure was constructed of poured concrete and was built in 1933 after the original house on the Property was destroyed by fire. There are several other structures on the Property including a pool and pool house, a barn, an outbuilding/tenant house and a tennis court (which is also used for volleyball.) Many of these structures will be removed; however, the barn will be retained due to its historic designation. The volleyball court will be retained, primarily to be used by the youth of the congregation. When the Property was acquired by Nepali, the mansion was in a state of disrepair and the Petitioner has made significant effort and investment to rehabilitate it. It remains

[2] Subsequent to Mr. Powell's testimony, the Petitioner has moved forward to obtain permits and drill a well. A new septic system is also under construction pursuant to County permits.

uninhabitable at the present time, primarily due to the lack of a functioning well and septic system. But many cosmetic repairs have been made to clean up and restore the mansion and the Property, which have been abandoned for many years.

Although zoned with a Resource Conservation ("RC") 2 classification (agricultural), the Property is in a locale which features predominately residential and institutional uses. To the north and east, much of the locale is zoned RC-5 (Rural Residential) and contains dwellings and institutional uses. Unlike other RC-2 zoned areas of Baltimore County, the immediate area around the Property is not dominated by farms and undeveloped open spaces. In fact there are no farms or properties used for agricultural purposes adjacent to the Property. Even the RC-2 zoned properties on the opposite side of the Harford Road (to the south and west) are not agriculturally used but are improved with single-family dwellings. There is an existing church (Redeemer Presbyterian Church) and school (Redeemer Classical Christian School) located .4 miles east of the Property, on Mount Vista Road. Additionally, Beachmont Christian Ministries is located .4 miles southeast of the Property. The property owned by Beachmont Christian Ministries is also used as a camp and is improved with several athletic fields, a swimming pool, and a basketball/multi-purpose macadam court. Given these adjacent institutional and residential land uses, it is clear that the Property is not nestled in a pristine agricultural area that is devoid of development, as might be expected in the RC-2 zone. Thus, the impacts of the proposed use on agricultural operations in the general area are minimal, if existent at all.

As a matter of curious historical interest, the Property was once owned by Napoleon Bonaparte's nephew (hence the name of the residential road immediately across the entrance to the site as Bonaparte Ave.) The Property (known as Bella Vista or "beautiful view") is listed as a Baltimore County historic site, however, the dwelling itself is not specifically landmarked. An old barn on the Property is designated as historic by the County as it is one of the original structures. Although the federally designated Long Green Valley Historic District is nearby, the Property is not within that district.

The details of the proposed church use by the Nepali American Cultural Center of Baltimore were described largely through the testimony of Kris Ghimire. Mr. Ghimire is a founding member and a Trustee of the Nepali American Cultural Center of Baltimore. The Nepali American Cultural Center of Baltimore became an established legal entity in 2017 with the single mission of founding a Hindu Temple in Baltimore County. Mr. Ghimire described the rituals of the Hindu religion and the anticipated typical weekly schedule. The church is a traditional Hindu temple in terms of its services and schedule. Unlike Western religions (e.g. Sunday is considered the Sabbath for Christians); there is no one regular day for worship during the week. Thus, unlike Christian churches, there will not be a sizable group of individuals who will come to the Property on a set date and time every week. This, obviously, significantly lessens the impact of the use on the locale as visits by the members are spread out. Congregates attend the temple and pray on their own schedule to any one of the religion's 33 million Gods. Mr. Ghimire described the typical routine of worshipers who may come to the

temple on a particular day to celebrate a god which carries significance for that particular day. The Congregate might attend that day to honor that god through prayer or meditation and leave a gift in the god's honor. Other special events that might occur include weddings and the celebration of an infant taking his/her first solid food (rice) in a ceremony similar to a Christian baptism. However, alcohol and meat are not allowed on the property, thus the events conducted on the Property are religious ceremonies and customs only and there are not "receptions" or similar social gatherings that are often associated with Judeo Christian religions (weddings, bar mitzvah's, etc.). Such gatherings would occur off site following the religious ceremony. Moreover, there is no day school or child care operation proposed.

Nepali proposes to renovate the mansion building in order to provide indoor space for religious worship. No new buildings or building additions are proposed. The mansion contains a large first floor room/hall that can accommodate approximately 100 people which will serve as the primary room for prayer/services. Distinct from Western religions, there will be no permanent seats or pews provided in the main room. Temporary seating for approximately 80-90 people will be provided by folding chairs for significant events at the temple. At other times, these chairs may be removed. It is significant that the religious services conducted are not in the nature of a Christian/Jewish service whereat individuals would be seated for an extended time. The congregants will arrive, enter the building and pray/meditate and then leave. While the timing and identity of the individual is not yet determined, a priest may live in the tenant house (if/when it is rehabilitated) and would be the only person living on

the Property. On a typical day, 10-20 people are expected to attend the temple. Insofar as the use of the balance of the building, other rooms will be used for temple offices, meeting spaces and similar activities. There is no commercial scale kitchen proposed and the building will not be rented for outside (not temple) activities.

The proposed activity that generates much of the Protestants' concerns and objections are the religious festivals that will occur on the site. Since Nepali's acquisition of the Property, the owners have conducted several fundraisers and similar gatherings on the site. These fundraisers were to raise money to cover the acquisition costs and to pay for the repairs to the buildings and upkeep to the Property. As the Board recognized, adjudging the propriety of these past events is not a relevant consideration for the Board in consideration of the special exception, in that whether the events were "legal" is in the manner of a Code Enforcement issue. More importantly, in that the events have already occurred, whether they were "permissible" is now a moot issue. However, moving forward, the Petitioner hopes to hold periodic religious festivals on the Property. These are expected to generate a larger crowd than the number of typical weekly attendees, much the same as Christian churches are more crowded on Christmas and Easter and Jewish synagogues might have higher attendance on Rosh Hashanah or Yom Kippur. The Nepali festivals occur at different times throughout the year. They celebrate important "holidays" or "high holy days" of the Hindu religion. Depending on the festival, activities may span several days or up to approximately one week, with approximately 150 people in attendance at any one time. But, again, as the festivals last multiple days, the total attendance will be spread out. Obviously, given the

capacity of the main hall, individuals may be outside the building during the festivals. It is important to note that these festivals are a significant aspect of the practice of the Hindu religion. They are as much as part of the religious tradition/ritual of the Hindu faith as the weekly visits of the individuals who come to temple to pray or meditate. As such, they are constitutionally protected under the First Amendment of the Bill of Rights (as well as other protections under law, e.g. the Religious Land Use and Institutionalized Persons Act ("RLUIPA")) which guarantees all citizens the right to practice their religion without undo intrusion or control by the government. The practice of the Hindu faith cannot be molded into the routine of a Christian Church or Jewish synagogue. Similarly, like other churches, the outdoor activities (including the volleyball court) are a part of the temple's ministry and mission. Just as many Christian churches may have gymnasiums and fellowship halls for congregates to gather and participate in missions and rituals of the faith, the outdoor use of the property is an important aspect of the Hindu religious program. Obviously, such outdoor events are limited by the practical consideration of weather and daylight. Such activities are limited to daylight (as there are no plans for lighting, other than security lighting on the building) and such events will not be held during inclement/cold weather.

In support of the requested special exception, Nepali offered three expert witnesses. The first was the Petitioner's civil engineer, John Motsco, who presented the site plan (Petitioner's Exhibit No. 1) , discussed the layout and offered expert opinion that the use satisfied the criteria for Special Exception approval in BCZR § 502.1. He described the neighborhood and Property, including the current improvements on the

Property (i.e. the two-story mansion, the above referenced historic barn, a tennis/volleyball court, as well as several outbuildings). As noted above, the mansion will be converted to house the temple and many of the existing dilapidated buildings will be razed. There are no new proposed buildings.

Mr. Motsco offered opinions that the proposed church use is appropriate for the Property and locale in accordance with the Master Plan 2020 and relevant community plan. Harford Road is classified as a scenic route under the Baltimore County Master Plan 2020.[3] The County Council adopted the Greater Kingsville Area Community Plan (the "GKA Community Plan") in 1996 which identifies particular goals and recommends specific actions. As acknowledged by both the Petitioner and Protestants, the Property is within the jurisdiction of the GKA Community Plan. The GKA Community Plan specifically recommends that:

> "That special forms of development such as *churches* and recreational facilities, while beneficial to the residents, should be located in *close proximity to major roadways such as Harford and Belair Roads*, and provide a suitable buffer commensurate with size and usage from neighboring properties." (GKA Community pg. 27) (emphasis added)

Petitioner's proposed church use satisfies these recommendations. Most notably, the church is located on Harford Road, a State highway (and not a small County maintained residential road). The Property is within proximity to other institutional uses, namely, the Redeemer Presbyterian Church and Beachmont Christian Ministries, thus it "fits" the character and pattern of the neighborhood. The Property itself is large

[3] As noted by Mr. Motsco, the classification of Harford Road as a scenic route triggers considerations contained in the Comprehensive Manual of Development Policies ("CMDP") and the Baltimore County Landscape Manual. As indicated by Development Plans Review's November 17, 2017 comment, if the Special Exception is granted, a landscape and lighting plan will be required.

and can easily accommodate the proposed use. There are significant natural buffers on the Property, including substantial wooded areas which provide visual screening and provide noise mitigation to adjacent properties.

Mr. Motsco further addressed the important issues regarding the location of the dwelling on the Property, the required parking, the environmental features, etc. As he noted, the existing dwelling is located in the center of the Property, set back a significant distance from the Property's perimeter and adjacent land uses. Given the expected regular attendance of the temple and the requirements in the Baltimore County Zoning Regulations ("BCZR"), there are 38 proposed paved parking spaces. BCZR 409.6 requires that a church is required to have 1 parking space per 4 seats in the place of worship. Obviously, this requirement was contemplated for a Judeo/Christian house of worship. Its application here is complicated by the fact that the temple will not provide permanent seats or pews. Thus, Mr. Motsco, in consultation with the County Zoning Office, calculated the required parking by considering the estimated maximum number of attendees and capacity of the main room. As noted above, that room can accommodate approximately 100 individuals and perhaps 80-90 temporary chairs. Despite the fact that the expected average number of attendees on any one day is 10-20 people, the parking calculation is inclusive of potential festival attendees. Under the County parking space to seats ratio, the proposed parking can accommodate 152 people. There is existing paving that will be utilized for parking in combination with proposed new paved areas for angled parking. In addition, there are several flat grassy areas on the Property which are suitable for temporary parking if more cars are on site

than paved parking spaces. As a professional engineer, Mr. Motsco testified that utilization of these open grassy areas for overflow parking is appropriate. He indicated that additional paving is not needed or warranted and would only detract from the bucolic nature of the property. The size of the Property and location of these open areas significantly far from any adjacent property further supports the appropriateness of the proposed parking layout. There is virtually no scenario under which parking would "spill over" onto adjacent properties in the neighborhood. Indeed, parking is not allowed on Harford Road as the narrow shoulders do not permit it. Thus, from a parking standpoint, there will be no impact on the locale.

He also indicated that, like every other "development" in Baltimore County, the proposed use would be subject to the "development regulations" in Articles 32 and 33 of the Baltimore County Code. These regulations cover such items such as fire and building code considerations, the installation of wells and septic, stormwater management, environmental issues, etc. As Mr. Motsco opined, a property owners satisfaction of these requirements typically occurs after the underlying zoning (use) approval is in hand. This approach makes practical sense to the extent that a property owner would not incur the substantial costs associated with meeting the development regulations, if that owner did not have the prerequisite approval of the contemplated use. During the development review phase of the proposal, specific storm water management plans will be required by the County and given the size, grades and buffers of the Property, Mr. Motsco anticipates that storm water management will be

easily accomplished. He similarly opined that all applicable environmental regulations (i.e. forest buffer, forest conservation, etc.) will be met.

Mr. Motsco testified that there is an existing stream that runs along the southeastern and southern property line. The stream wanders on and off the Property and onto adjacent properties. There is no proposed construction in the vicinity of the stream and thus no impact thereto. There is a swath of woods along Harford Road that at its narrowest is approximately 50-60 feet. Along the western side of the Property, the patch of tress is approximately 100 feet wide. These wooded areas continue into the southern portion of the Property around the barn which is obscured by the dense forest. The woods then continue on the eastern property line. There is no proposed clearing of these wooded areas. These large wooded areas provide a substantial and natural buffer, far exceeding the natural buffers that typically exist in the RC-2 zone. This is not the case of open and cleared farm fields being converted to an institutional use, rather this is a largely wooded area that will be retained in its current condition. In sum, there will be no environmental impact caused by the use; due to the fact that little construction is proposed (no new buildings), the large area of the Property, and that most of the site will remain undisturbed.

The second expert witness was Joseph Caloggero, a traffic engineer, who discussed the traffic issues. He first offered expert opinion testimony regarding the capacity of Harford Road, indicating that he took traffic counts to ascertain the existing volumes. He concluded that the relatively minimal volume of traffic generated by the proposed use (based on the proposed use and the source material provided in the

Institute of Traffic Engineering Manual) will not impact the capacity or functionality of Harford road. Although a rural road in terms of location and character, Harford Road is a major commuter roadway in northwestern Baltimore County and presently carries significant traffic volumes (particularly during the morning and evening rush hours). The volumes anticipated here will not in any manner overwhelm Harford Road from a capacity standpoint. He also discussed the recently completed roundabout on Mount Vista Road/Glen Arm/Harford Road approximately one quarter mile from the subject Property's entrance, and opined that (particularly given its' schedule) the church will not cause any congestion to the area's roadways and traffic conditions. The roundabout has alleviated the previous difficult movements at that intersection.

Significant testimony was offered about the character of Harford Road in this locale and the speeds of traffic thereon. The road features numerous curves and some elevation changes which necessitate traffic slowing well below the fifty (50) miles per hour posted limit at and near the Property's entrance. Recognition of the reduced speed required to travel safely is also shown through the placement of numerous signs (containing both "chevrons" and words) by SHA in this area warning of turns in the roadway. Mr. Caloggero presented the results of a speed study that his office produced, that proved (without rebuttal) that traffic actually travels at a speed well below the posted limit.

Utilizing this data, Mr. Caloggero then determined the appropriate sight distance (both in a north and south direction) required from the existing access point. Mr. Caloggero testified on two occasions over the lengthy hearing held by the Board.

During his original testimony, he opined that the existing access point provided a safe and appropriate location for vehicles to enter and exit the Property. However, later Mr. Caloggero returned to testify to present additional data and conclusions based upon further input from SHA and further studies conducted by him. During his later testimony, he presented a revised site plan (Pet. Ex. 26) showing a modification to the access point which slightly relocated the same to provide additional sight distance. This new access will have a split design, so that entering and exiting traffic will each have its own dedicated lane. He confirmed that Nepali was agreeable to making these improvements, and that SHA personnel had reviewed and approved the revised access as meeting their governing standards and was appropriate from a traffic safety and engineering standpoint.

The Protestants offered no expert testimony to contradict Mr. Caloggero's opinions, notwithstanding the fact that they engaged a traffic expert to analyze this issue. This lack of evidence speaks for itself and it can clearly be surmised that the Protestants' expert did not rebut or dispute Mr. Caloggero's findings and conclusions. Certainly, the expert would have been presented to rebut those conclusions if a contrary opinion was formulated.

Finally, Nepali produced the testimony of James Powell, an environmental health specialist, who offered expert opinion testimony about the feasibility of a septic system and well to serve the proposed church use on the Property. Mr. Powell served for many years as Baltimore County's chief of the Groundwater Division in the Department of Environmental Protection and Sustainability. He is, quite candidly, **the**

expert in this field in Baltimore County based upon his extensive background and knowledge of the subject and subterranean conditions in Baltimore County. According to Mr. Powell, Maryland Department of Environment ("MDE") regulations require that the design of a septic system be based on peak sewage flow. He opined that the Property has sufficient area and appropriate soils to meet all of the applicable design criteria for a septic system for the proposed use. Ultimately, as the proposal is evaluated during the development review phase of the process and necessary permits are applied for and issued, the details of the well/septic system will be finalized. However, based upon his vast experience and knowledge, Mr. Powell opined without contradiction that a well and septic system could be placed on the Property so as to satisfy all County criteria and without any impact on adjacent wells and septic systems on nearby properties.

STANDARD OF REVIEW

The BCZR specifically states that churches and other buildings for religious worship are permitted in the RC-2 zone as special exceptions. BCZR § 1A01.2.C.6. As with any special exception, the subject request must be adjudged in accordance with the provisions of BCZR § 502.1 entitled "Special Exceptions." BCZR § 502.1 states:

> "Before any special exception may be granted, it must appear that the use for which the special exception is requested will not:
>
> A. Be detrimental to the health, safety or general welfare of the locality involved;
> B. Tend to create congestion in roads, streets or alleys therein;
> C. Create a potential hazard from fire, panic or other danger;
> D. Tend to overcrowd land and cause undue concentration of population;
> E. Interfere with adequate provisions for schools, parks, water, sewage, transportation or other public requirements, conveniences or improvements;

F. Interfere with adequate light and air;
G. Be inconsistent with the purposes of the property's zoning classification nor in any other way inconsistent with the spirit and intent of the Zoning Regulations;
H. Be inconsistent with the impermeable surface and vegetative retention provisions of these Zoning Regulations; nor
I. Be detrimental to the environmental and natural resources of the site and vicinity including forests, wetlands, aquifers and floodplains in an R.C.2, R.C.4, R.C.5 or R.C.7 Zone.["]

The law of special exceptions in Maryland has been comprehensively addressed by the appellate courts of this state. As is well settled, the criteria stated in BCZR § 502.1 is to be applied to each petition in the manner as outlined in the seminal case of *Schultz v. Pritts,* 291 Md. 1 (1981).

In *Schultz,* the court discussed the role of special exceptions in the comprehensive zoning scheme enacted by the local jurisdiction and opined, "[t]he special exception use is a part of the comprehensive zoning plan sharing the presumption that, as such, it is in the interest of the general welfare, and therefore, valid." *Id.* at 11. Thus, a special exception use is not an exception to the zoning ordinance at all, rather, it is a conditional use that shares the legal presumption of validity, absent a showing that it should be denied because of particular egregious impacts at the locale considered. As stated by the Court in *Schultz,* "[t]he appropriate standard to be used in determining whether a requested special exception use would have an adverse effect and, therefore, should be denied is whether there are facts and circumstances that show that a particular use proposed at the particular location proposed would have an adverse effect above and beyond those inherently associated with such special exception use irrespective of its location within the zone." *Id.* at 15.

In *Mossburg v. Montgomery Co.*, 107 Md. App. 1 (1995), the Court of Special Appeals further clarified this standard and stated that impacts from special exception uses are not, in and of themselves, a basis by which the special exception can be denied. *Id.* at 8-9. As held by the Court, it is the existence of these impacts in the first instance that justify the use being a special exception use (rather than allowed by right). *Id.*

The holding that detrimental impacts from a proposed special exception must be greater than those normally associated with impacts in similarly zoned areas is premised upon the concept that special exceptions are part of the contemplated zoning process established by the County Council. As such, all special exceptions are presumptively permissible and, therefore, in the interest of the general welfare of the public. See *Schultz,* 291 Md. at 11.

As such, the *Schultz* Court found:

> "The special exception use is a valid zoning mechanism that delegates to an administrative body a limited authority to allow enumerated uses which the legislature has determined to be permissible absent any fact or circumstance negating the presumption." *Id.*

Therefore, the Board of Appeals is guided by the special exception factors listed in § 502 of the BCZR with special attention placed upon whether detrimental effects would be any greater at the subject location, compared with other locations generally in the zone. The test is not whether the proposed use provides a benefit to the community. Likewise, the question here is not to compare one permitted use to another. Whether the community is better served if the Property remains in residential use or is farmed is not the issue. Additionally, the *Schultz* standard shoulders no evidentiary burden on the

petitioner (nor analysis by the zoning decision maker) to consider other sites in the zone for comparison. See *People's Counsel v. Loyola College,* 406 Md. 54, 103-104 (2008).

Although not subject to current proceedings, the fact that there are two religious based uses immediately adjacent to the Property is a significant factor for the Board's consideration. Petitioner has a reasonable expectation that it would be permitted to use the Property as a place of worship. Simply stated, upon what basis can the Board deny the instant request when similar uses are in close proximity?[4]

ARGUMENT

A. The Proposed Church Satisfied BCZR § 502.1

As noted above, BCZR § 502.1 contains the criteria which must be specifically applied to any requested special exception. Moreover, as previously noted, it is not the existence of impacts in these subject areas that is relevant, rather, it is whether the effects of those impacts are more egregious here than elsewhere in the zone. Significantly, the inherent impact of the proposed Nepali temple here is minimal, particularly when considered with the busy institutional uses (churches, camps, schools, etc.) nearby. More importantly, the impacts (to whatever degree they even exist) are no worse here than elsewhere in the zone. In fact, the impacts here are quite clearly less than they would be elsewhere in RC-2 zoned areas in the locale.

The application of the special exception criteria set forth in BCZR § 502.1 is particularly relevant in this case given the theme of the Protestants testimony. Many of

[4] A denial of the requested special exception relief would substantially burden the Petitioner's religious exercise without being the least restrictive means of achieving a compelling governmental interest, in violation of RLUIPA, 42 U.S.C. § 2000cc(a), and Free Exercise Clause of the First Amendment to the U.S. Constitution.

the Protestants wore t-shirts to the hearings stating "Preserve Our Valley." In response, "whose valley is it?" is a legitimate first question, in that Nepali owns acreage far greater than most of the Protestants. As such, Nepali has as much of a claim to "our valley" than, for example, Mr. and Dr. Clark, who own land approximately 1/15th of the size of the Nepali property. Moreover, Nepali has every right to use its property in any legal way permitted. Just as the residents may live there and can use their properties generally as they see fit, Nepali (assuming it meets the special exception criteria) may locate its place of worship in this valley. As noted above, a special exception is a presumptively permitted land use. As has been stated, special exception uses are neither "special" nor "exceptional" and are presumptively permitted. Simply stated, the basis of the Protestants clearly expressed objections (although not outwardly spoken) are that they don't want these "new comers" (who culturally and racially differ from them) in "their neighborhood." Such a contention is both legally wrong and morally reprehensible.

As importantly, the Protestants fundamental objections to the proposal are not legally relevant to the standard that the Board must apply. Through the oral testimony, photos, videos, etc. presented by the Protestants, it is clear that they object to *any* impact of the proposed temple. For example, they do not want to hear it (even the slightest noise is objectionable, as is evident from the "solitude" video wherein Dr. Clark objected to the faint sound of voices allegedly emanating from the Property while she embraces the louder "comforting" noise of traffic passing on Harford Road). Such an objection demonstrates the Protestants misunderstanding of the legal analysis required;

to wit, the church need not be a silent neighbor, only that any noise generated cannot create an impact more egregious here than elsewhere in the zone. Given the size of the Property, the extensive setbacks, the wooded perimeter and the topography, the noise is clearly of lesser impact then would be the case on other RC-2 zoned land. Other complaints were also legally illegitimate. The Protestants want no traffic impact and no cars visiting the site. The numerous videos/photos submitted of traffic provide no evidence upon which the petition could be denied. The evidence demonstrates what would be entirely expected for a rural roadway and showed no condition that would cause Nepali's traffic impacts to be more egregious at this location. Tellingly, lead opponent Dewitt Clark, in direct to a question on cross examination stated that Harford Road in this location is identical in physical appearance, configuration, character and volume to similar roadways throughout the locale. Thus, as required under the *Schultz* test, the impacts of the proposed temple are not more egregious than would be expected elsewhere in the zone. This is not the case (as contemplated by *Schultz)* where the Property under consideration is located on a roadway that is substandard in condition when compared to other rural roads. In fact, the location of the temple on a state highway (as opposed to a small County road) results in the inherent impacts of the anticipated traffic less than anticipated.

a. § 502.1 (a) The Proposed Church Will Not Be Detrimental To The Health, Safety Or General Welfare Of The Locality Involved.

BCZR § 502.1 (a) is broadly written and is a general catch all provision. Petitioners presented ample evidence and testimony that the grant of a special

exception for the requested church will not be detrimental to the health, safety or general welfare of the locale.

The dwelling is located in the middle of the 30+/- site and the surrounding edges of the Property are preserved and buffered with mature trees. There are no proposed buildings and no proposed clearing of any wooded areas. The adjacent institutional uses in the immediate area are far more "dense" and create significantly more impact that the proposed temple. These uses generate larger crowds, produce more traffic and generate more noise and activity than the Nepali proposal. Even the Protestants conceded that the nearby Redeemer Christian School and the Beachmont Christian Ministries properties nearby are in the "neighborhood" and thus their impacts and land uses are relevant in determining the character of the area at large and the impact of Nepali. As testified to by Mr. Motsco, the proposed use is compatible with such uses. Moreover, the dwelling is setback from property lines significantly and will be screened by landscaping. Unlike the neighboring Christian churches, with their primary activities clustered during the traditional Sunday morning worship hours, the proposed temple's daily schedule, averaging 10-20 congregates per day; poses no real impact to the locale.

Even Protestants contention that the temple use would adversely affect the residential uses in the surrounding area is misplaced. The Protestants' misrepresentation of the legal standard when adjudging special exceptions was obvious throughout the proceedings. With respect to special exceptions, the adverse effects that disqualify an exception must be more than mere annoyance because special exception uses, as opposed to permitted uses, assumes that those uses will include some adverse

impacts. One can scarcely imagine a use that causes less detriment than what is proposed. Individuals who reside in the area can host outdoor parties, have visitors (who arrive by car) and use their properties as we all do. Contrary to the assertion of the Protestants, this part of the Long Green Valley is not a designated "quiet zone" or an area where outdoor human activity is somehow outlawed. The institutional use proposed here will simply cause no unreasonable impact on the residential neighbors.

Contrary to Mr. Jakubiak's testimony, the Board should not consider other RC-2 zones throughout Baltimore County. As established by the standard set forth in *Schultz,* Petitioner need not show that there are other locations within the RC-2 zone in Baltimore County where the proposed use would have less of an adverse effect than on the local neighborhood of the Property. The standard is very clear that only the vicinity of the subject property is to be taken into account. See *Loyola* supra. The Board must determine whether the impacts in the subject location are above and beyond those inherent to the use—in this case, a church—itself. There is simply no factual basis in the record of this case which would support a finding that the proposed church will cause adverse impacts to the health, safety and general welfare of the local in a manner more egregious than elsewhere in the RC-2 zone.

b. § 502.1 (b) - The Proposed Church Will Not Tend To Create Congestion In The Roads, Streets Or Alleys Therein.

The proposed Church use on the Property will not tend to create congestion in the relevant roads, streets or alleys. The testimony of Mr. Ghimire, Mr. Motsco, and Mr. Caloggero is persuasive on this issue. Mr. Ghimire described the operation of the

Church, including the peak usage and typical weekly schedule. Unlike the more traditional Christian churches and Jewish synagogues, there is no single day or time in which congregates gather. In other words, people don't attend the temple on a Sunday morning as you might expect in a Christian church. Instead, attendance is spread out over the week because of the individual worship. As a result, from a traffic standpoint, there is no single weekly occasion which produces a spike in the volume of people. It is also of note that the GKA Community Plan recommends that churches be located either on Harford Road or Belair Road, the two State Highways in greater Kingsville.

As noted herein above, Mr. Caloggero, the Petitioner's traffic expert, conducted extensive studies and met with SHA in re-designing the access point to produce a safe, appropriate and lawful entrance/exit. The Board can impose reasonable conditions and restrictions to ensure that the proposed use's impacts are minimized and do not unduly detrimentally impact the neighborhood. In this case, Nepali is agreeable to providing those access improvements shown on Petitioner's Exhibit 26. Additionally, SHA will require that the Petitioner obtain an access permit from that agency, given the new use and improvements proposed. Petitioner is agreeable to the imposition of a restriction requiring the obtaining of an access permit and making the improvement required thereby.

Certainly the impact of the Church at this location will be no more than elsewhere in the zone. Particularly with the imposition of the conditions described herein, Petitioner easily satisfies the standards required under BCZR § 502.1(b).

c. § 502.1(c) – The Proposed Church Will Not Create A Potential Hazard From Fire, Panic Or Other Danger.

The Church will not generate any adverse condition as it relates to these factors. The building is situated on a large lot and is set back a significant distance from any property line, much less any neighboring building. The building satisfies all building setbacks. Additionally, due to the fact that the original Bella Vista mansion burned down, this building, when it was built, was constructed of concrete as the then owner at that time had a justified fear of fire and apparently constructed the home in a fire-resistant manner. Moreover, the significant rehabilitation of the building will be in accordance with all applicable codes and building standards. The activity on the Property is such that it will not create a panic or public nuisance. The inherent nature of the Church use is such that there is no reasonable expectation of a public hazard.

d. § 502.1 (d) – The Proposed Church Will Not Tend To Overcrowd Land And Cause Undue Concentration Of Population.

The Church will not inappropriately concentrate population. As noted above, the site will be occupied by attendees evenly throughout the week. The expected congregation size is appropriate for a Property that contains 30+/- acres. No new building or "mega" structure is proposed. For all of these reasons, the proposed Church does not "tend to overcrowd land and cause an undue concentration of population."

e. § 502.1 (e) – The Proposed Church Will Not Interfere With Adequate Provisions For Schools, Parks, Water, Sewage, Transportation And Other Public Requirements, Conveniences Or Improvements.

Surely the church will not impact schools or parks. The use does not increase the enrollment in local schools or generate use of public parks and open space. There are no

public utilities (water and sewer) at the Property, so public infrastructure will not be impacted. Public transportation, requirements, conveniences or improvements are not impacted.

f. § 502.1 (f) – The Proposed Church Will Not Interfere With Adequate Light And Air.

The proposed Church will not interfere with adequate light and air. The building will not cast a shadow on adjacent properties. There are no proposed new buildings or building additions. The view of the building from the adjacent roadways will be the same as has existed since this structure was built in the 1930's to replace the original mansion. There are no smells to be generated. As noted above, the Property is large and the dwelling is well setback from any lot lines. Simply stated, the proposed Church use will not cause any adverse impact in this regard.

g. § 502.1 (g) – The Proposed Church Is Consistent With The Purpose Of The Property's Zoning Classification And Is Consistent With The Spirit And Intent Of These Zoning Regulations.

As noted above, the RC-2 zoning regulations specifically identify churches as a permitted special exception use. Notwithstanding the Protestants' apparent desire that "their neighborhood" contain only houses and Christian institutions, the BCZR allows churches by special exception. As such, this use is part of the zoning scheme legislatively adopted by Baltimore County and is thus presumptively valid. (See *Schultz* supra).

The RC-2 zoning classification is an "agricultural" classification and is traditionally applied to properties that are near or adjacent to farms. This Property does

not abut any farms. There is no credible claim that the church use will, in any manner, adversely impact farms. Rather, unlike many RC-2 zoned properties, which are typically located in farmland and open space, this Property is located within the immediate vicinity of several other churches and institutions.

Insofar as the scenic view issue, Harford Road at this location is a scenic route and is designated as such in the Master Plan. This designation is not part of the BCZR or the special exception criteria in Section 502.1. The mere fact that Harford Road is a scenic route does not impose any additional limitations on the granting of a special exception. Scenic Views are addressed in the CMDP. Therein, scenic views are defined as either enclosed views, expansive views or focused views. The CMDP sets out a number of "guidelines" which "pertain to the ***development*** of any area within or adjacent to a designated scenic route." (emphasis added). To the extent that there are no new buildings, there is no new "development". The mere fact that there will be a church use on this lot does not mean that the scenic view will be compromised. The building will remain as is, whether a church or residence. In addition, it is to be noted that, the CMDP identifies the approval process for plans impacting a scenic view. Such plans may be modified by the Director of the Department of Planning and Director of the Department of Public Works. Given the absence of "impact on a scenic route" as a criteria in BCZR § 502.1 and that modifications are entrusted to the Directors of Planning and Public Works, arguably this is not an issue for the Board at all, but would rather be addressed during the development review phase of the review process.

However, if so, the collective weight of the evidence presented is that the proposed church use will not compromise the scenic view.

As such, the proposed church is consistent with the purpose of the RC-2 zoning scheme and is consistent with the BCZR.

h. § 502.1 (h) – The Proposed Church Is Consistent With The Impermeable Surface And Vegetative Retention Provisions Of These Zoning Regulations.

The proposed Church is consistent with these requirements and standards. Unlike other zones (e.g. RC-4) there are no regulations governing the RC-2 zone that limits or restricts impervious surface. The Protestants offered the testimony of lay witness DeWitt Clark regarding the suitability of the proposed paving parking lot and the stormwater management for the Property. His objections (in most instances offered as speculation) were rebutted by the Petitioner's civil engineer expert, Mr. Motsco. Mr. Motsco testified that the Property's stormwater would properly infiltrate and be in accordance with County and State standards. He also described the outfall of the proposed stormwater management plan, opining that the location and rate of discharge will not detrimentally impact the adjacent streams. Because additional paving will be required for a portion of the parking lot, the Petitioner will be required to meet the requirements of a grading permit and obtain approval for stormwater management. A restriction requiring compliance with the standards administered by the Department of Environmental Protection and Sustainability insofar as grading (ground disturbance) and stormwater management is appropriate. Mr. Motsco explained that the proposed

use will not result in clearly of any trees on the Property. Moreover, additional planting is proposed.

i. **§ 502.1 (i) – The Proposed Church Will Not Be Detrimental To The Environmental And Natural Resources Of The Site And The Vicinity, Including Forests, Streams, Wetlands, Aquifers And Floodplains In An RC-2, RC-4, RC-5 And RC-7 Zones.**

In this case, the flood plain, forest buffer and forest conservation areas have all been determined. Testimony was received from James Powell, an expert "environmental health specialist." Mr. Powell was previously employed by Baltimore County at the Department of Environmental Protection and Sustainability, and was an accepted expert related to on site sewage disposal and ground water issues. He testified about the proposed design and functionality of an on site sewage disposal system. He indicated that he had designed, tested and installed similar systems in the past. Mr. Powell opined that on site sewage disposal and well usage for the proposed church use could all be accomplished without detrimental impacts to the locale and environmental resources in the area.

B. The Proposed Use Does Not Produce Inappropriate Levels Of Noise.

There is nothing in all of the specific criteria listed in BCZR § 502.1 that relates to noise. Moreover, as Mr. Motsco testified, the County has no specific "noise standards" (other than those related to residential construction adjacent to an inter-state highway). Thus, the Protestants can point to no standard or criteria that Nepali will violate if its temple is permitted at this location. Although it is arguable that "noise" is not a

threshold issue in considering a special exception use; the impact of a noisy use could certainly impact a surrounding neighborhood.

On behalf of the Petitioner, the following reasonable context is offered. The proposed temple (as any church) will produce some noise. Whether it is a Christian Christmas tree lighting ceremony (complete with Christmas Carols) or a Nepalese Festival, there will be some noise generated by religious uses. Such is an inherent use of any building or property used for religious purposes. There are, however, already mitigating factors at this location. First, the site is large (30+ acres). This is not the case of a large building on a small lot. Second, the building and usable outside flat area of the Property are well setback from any property lines. Third, there are extensive mature trees along the perimeter of the Property. These will serve as a natural buffer. Finally, as Board member Dopkin pointed out, the location of the building on the top of a hill will help disperse any generated sound upwards and away from the neighbors.

Off site conditions are also relevant. All of the Protestants live across Harford Road from the Property. Thus, any noise on the Nepali site will be drowned out (as demonstrated in Protestants' videos) by traffic on Harford Road. Harford Road is a State highway and major commercial corridor in this neighborhood. Dr. Clark's rather ridiculous assertion notwithstanding, that traffic on Harford Road is soothing and preferable to the sound of children playing volleyball, the fact of the matter is that most noise on the Nepali site will be whited out by traffic on Harford Road.

Finally, and perhaps most persuasively, notwithstanding the alleged tranquility of the area, this is not a "sound proofed room" or library designated "quiet area." The

Protestants assertion that they are somehow entitled to a neighbor that produces not a sound is simply erroneous. People live in houses. They enjoy their yards. They cut grass (with power lawn mowers). Their children play out of doors. They play games and sports and they make noise. In agricultural zones (RC-2), there are farms. They often use tractors and other heavy equipment. There can be animals. They too make noise. The point to be made is that human activity generates noise and that the special exception criteria do not mandate that the Nepali temple be silent and that no sound may emanate therefrom. Certainly, as will be suggested below, the Board may impose a reasonable condition to prevent any noise from being improperly intrusive; however, the Protestants' fundamental position is without merit.

C. The Proposed Church Satisfies BCZR § 409.6.A.4.

Pursuant to BCZR 409.6, a church is required to have 1 parking space per 4 seats in the place of worship. This regulation was no doubt enacted in contemplation of a Judeo-Christian church, as these religions typically have seats for religious services. However, Hindu temples do not typically provide seats within the worship building. Nonetheless, evidence presented was that the maximum number of temporary seats that might be provided in the building would certainly not exceed 100, and thus the number of parking spaces arguably required would be 25. The plan shows a number of spaces (38) that exceeds that amount. Further, the plan provides for overflow areas to accommodate greater attendance during festivals. In summary, the plan meets the requirements insofar as the number of spaces required. Moreover, from a practical application, there is sufficient room on flat grassy areas of the Property to provide

extensive overflow without unnecessarily paving the property. Finally, even the Protestants concede that during the Fundraising events when attendance was highest, there was no off site parking that disrupted the neighborhood. Thus, the parking requirements in the BCZR are satisfied.

D. The Special Exception complies with the requirements of BCZR § 1A01.2.C.

BCZR § 1A01.2.C provides a finding that any proposed special exception in the RC-2 zone will not be detrimental to the primary agricultural uses in the vicinity. The proposal easily meets this test. As noted above, the Property is not now farmed and has not been farmed in many years. Thus, even though it is not a relevant objection, there can be no claim that a productive farm is being taken out of operation.

Moreover there are few (if any) active farms in the vicinity. The only impact on agriculture suggested by Protestants was a claim that traffic produced by the temple would interfere with "farm traffic" on Harford Road. But that assertion is entirely speculative and without any factual basis. As importantly, any farm traffic that uses Harford Road in this area is already subject to the substantial traffic volumes that this State roadway already bears.

E. Conditions and Limitations.

BCZR § 502.2 empowers the Board to "impose such conditions, restrictions or regulations as may be deemed necessary or advisable for the protection of surrounding or neighboring properties." In determining what conditions shall be imposed, the Board must obviously take into account a number of factors. First, the conditions must be for the purpose of providing protection to surrounding properties. That is, the conditions

cannot be punitive or arbitrary and must relate to the purpose of safeguarding the surrounding locale. This is consistent with Federal law (i.e. RLUIPA) which requires that a locale government, in applying its zoning regulations, must use the "least restrictive" means necessary to avoid improper interference with the practice of religion. Second, the restrictions must be practical and enforceable. They must be reasonable. The restrictions cannot be akin to death by one thousand cuts; whereby they are so intrusive and limiting so as to make the use of the property for a church untenable.

The Protestants submitted a list of proposed conditions; most of which are so ridiculous so as to not warrant comment. For example, the neighbors want to be able to enter the property twice a year "for inspection and verification." This is an interesting proposition given that the Protestants refused to meet with Nepali on the Property when offered the opportunity. Is this condition is imposed, can representatives of Nepali likewise enter Mr. Clark's house twice a year to make sure that his business is being properly conducted as a "home occupation", as restricted by the use regulations for the RC-2 zone? Of course not.

The conditions imposed by ALJ Beverungen are much more realistic and should be the guideline that the Board follows. In order to minimize the impact on the neighborhood, Nepali would agree to the following conditions:

1. The Nepali shall realign and improve the access point into the Property in accordance with Petitioner's Exhibit No. 26, under the auspices and at the direction of the State Highway Administration. The Petitioners shall obtain an

"access permit" from SHA and will implement all improvements as required thereunder.

2. Upon the obtaining of final special exception approval, the Petitioner shall submit an application to the Baltimore County Development Review Committee (DRC) to establish that process to be followed insofar as the application of the development review regulations in Article 32 of the Baltimore County Code to this project. Thereafter, the Petitioner shall obtain such approvals and permits as determined by Baltimore County for the improvement and conversion of the Property and main dwelling for use as a temple.
3. The Petitioner shall obtain all approvals as may be required by the Department of Environmental Protection and Sustainability insofar as Baltimore County's stormwater management, well and septic, forest conservation and forest buffer regulations.
4. All signage shall comply with BCZR § 450.
5. Petitioner shall submit for approval by Baltimore County a landscape and lighting plan. There shall be no outdoor lighting other than accessory and security lighting for the building.
6. Special Events (including festivals and similar activities) shall be limited to the hours of 10:00 a.m. to 10:00 p.m. and outdoor amplification of music or sound shall not be permitted.

CONCLUSION

Notwithstanding the lengthy hearing on this matter and the residents' objections, the granting of the requested approval is warranted. There is a history of bitterly contested special exception cases in Baltimore County about churches, particularly in the County's rural areas. But there is no evidence in the record here to warrant a denial of the Petition.

Generally speaking, the opponents' objections can be generally characterized as falling within four areas of complaint; traffic, environmental effects, noise, and a vague notion that the church is inconsistent with their vision of the area. As to traffic, environmental effects, and noise, the conclusions of Mr. Caloggero, Mr. Motsco, and Mr. Powell were not effectively rebutted by any expert testimony and are supported by substantial evidence. As to noise, Protestants could not establish any evidence to support their claims. Finally, insofar as the character of the neighborhood argument, the objections simply miss the mark, both legally and pragmatically. This Property is not nestled in the middle of an unspoiled agricultural region of Baltimore County. There are adjacent church uses to the east and southeast. Moreover, a negative perception of the Nepalese people (which the Protestants clearly have) is both unjustified and legally insufficient to support a denial of a special exception; factual evidence of injury to the neighborhood or other detriment to the public welfare has to be presented. Finally, the overriding tenor and theme of the Protestants presentation; to wit, that this is "our valley" and that they can therefore impose their desires on others' properties is simply wrong. Such a position is contrary to the bedrock principles of individual property

rights and the constitutionally protected right of freedom to practice one's religion without inappropriate governmental interference.

For the foregoing reasons and based upon the record of evidence offered in this case, the Petitioner requests that the BOA grant the relief requested within its Petition for Special Exception.

Respectfully Submitted,

NOTICE OF DELIBERATION

IN THE MATTER OF: Nepali American Cultural Center
12231 Harford Road
18-122-X 11th Election District; 5th Councilmanic District

Re: Petition for Special Exception pursuant to BCZR Section 1A01.2.C.6 to allow a Church or other building for religious worship on property zoned RC-2.

1/22/18 Opinion and Order of the Administrative Law Judge wherein the Petition for Special Exception was GRANTED, subject to conditions.

----- SET WITH ----

IN THE MATTER OF: Nepali American Cultural Center
12231 Harford Road
CBA-19-004 11th Election District; 5th Councilmanic District

Re: Letter to Administrative Law Judge Beverungen requesting a clarification to the January 22, 2018 Order in Case No: 18-122-X to determine whether the Petitioners can host a fundraiser on the property from July 29, 2018 to August 3, 2018.

7/3/18 Administrative Law Judge Beverungen signed the prepared statement at the bottom of Mr. Kotroco's letter which provides that the gathering would not violate the conditions of the January 22, 2018 Administrative Law Judge Order that the Petitioners "…are free to gather on their property so long as no religious activities are occurring within the subject building and all other permit requirements, if any, are satisfied…"

This matter having concluded after 11 days of hearing, a public deliberation has been scheduled for the following:

DATE AND TIME: MARCH 13, 2019 at 9:00 a.m.

LOCATION: Jefferson Building - Second Floor
Hearing Room #2 - Suite 206
105 W. Chesapeake Avenue

NOTE: Closing briefs are due on **March 5, 2019 before 3:00 p.m.**
(Original and three [3] copies)

NOTE: PUBLIC DELIBERATIONS ARE OPEN WORK SESSIONS WHICH ALLOW THE PUBLIC TO WITNESS THE DECISION-MAKING PROCESS. ATTENDANCE IS NOT REQUIRED AND PARTICIPATION IS NOT ALLOWED. A WRITTEN OPINION AND ORDER WILL BE ISSUED BY THE BOARD WITHIN A REASONABLE TIMEFRAME AFTER THE CONCLUSION OF THE DELIBERATION. A COPY OF THAT OPINION AND ORDER WILL BE SENT TO ALL PARTIES.

Subject: Nepali American Cultural Center

Hi Alyssa,

Sunny has forwarded your request for copies of the transcripts for Days 5, 6 and 7 of the Nepali American Cultural Center hearings, and your request for CD's for the January and February hearings.

The cost for copies of the transcripts total $288.50 and the breakdown is as follows:

- October 23, 2018 (258 pages at $0.50 per page) = $129.00
- November 1, 2018 (213 pages at $0.50 per page) = $106.50
- November 29, 2018 (106 pages at $0.50 per page) = $53.00

I was able to get the hearings for Days 8-11 on 3 CD's for a cost of $150.00.

Accordingly, the total amount due for the transcript copies and hearing CD's is $438.50

Please let us know if you have any questions.

Sunny,

Larry has asked me to request the written transcripts which were obtained when Mr. McComas was appointed as a board member mid-hearing (Days 5-8), as well as CDs for the January and February hearing dates (Days 8-11). I understand the Board charges $0.50 per page and $50 per cd (effective 11/26/18).

I have reached out to Mr. Holzer separately asking whether he would like to split the cost of this request. If he agrees, SGS would pay the fee up front to the Board and then provide Mr. Holzer with the copies obtained.

Please let me know what the cost would be and I can provide a check for that amount. Thank you!

Sunny,

Please accept this email as a formal request to push tomorrow's hearing from 9am to 11am. Despite the delayed start time, we still anticipate concluding the matter by 4pm tomorrow. I have confirmed with Mr. Holzer that he is not opposed to this request and Mr. Kotroco is unavailable to attend the hearing tomorrow on behalf of the Petitioners.

Mr. Schmidt would like to extend his appreciation for everyone's understanding and cooperation with these unforeseen travel delays.

Please let me know if you have any questions.

Sunny,

This is to acknowledge receipt of the Amended Notice of Assignment. Please advise the Board members that I may have a scheduling conflict in the morning of the 13th. This is a personal matter that I need to attend to. I appreciate that the Board is time sensitive in so far as keeping this matter on schedule and concluding the case by the close of business on February 13th. Therefore, although I might normally request that the hearing start later in the day, I am not making that request here so that the matter is not delayed and in view of the Board's comments made in open hearing. If I am late, either my associate, Zack Wilkins, or Tim Kotroco, will appear on behalf of the Petitioner. Please advise the Board members that my absence is not to be construed as any sign of disrespect to the panel but based upon certain circumstances that can not be avoided.

Thank you.

PROTESTANTS REPLY TO PET*ITIONERS RESPONSE*
TO EXHIBIT #34 AS *EX PARTE*

DeWitt and Mary Clark, 12150 Harford Road, Glen Arm, Maryland 21057, ***David Hartman***, 12513 Regwood Road, Hydes, Maryland 21082, ***Dave Poehler***, 12241 Harford Road, Glen Arm, Maryland 21057, ***Morgan Miner***, 11946 Harford Road, Glen Arm, Maryland 21057, and ***Carol Shaw***, 7 Country Hill Court, Kingsville, Maryland 21087, Protestants by ***J. Carroll Holzer, Esquire***, in the above-captioned matter herewith file their Reply to Petitioners Response and say as follows:

1. Petitioners admit that Administrative Law Judge Beverungen lost jurisdiction over this case when it was appealed on February 16, 2018 to this Board. Thus, Petitioners Exhibit #34, the letter written by Petitioners Counsel and modified and signed by the Administrative Law Judge should be stricken as not only is it an *ex parte* action, but the Administrative Law Judge letter was without jurisdiction as argued by Petitioners to render such opinion and/or clarification.

2. This Honorable Board should reject Petitioners Exhibit #34 and strike it. Petitioners reliance thereon should be denied the opportunity to further present rebuttal.

LAW OFFICE
HOLZER AND LEE
THE 508 BUILDING
508 FAIRMOUNT AVENUE
TOWSON, MARYLAND
21286

(410) 825-6961
FAX: (410) 825-4923

3. Petitioners never denied that Counsel for the Protestants was never provided a copy of the letter, nor the Administrative Law Judge's response until it was mentioned on the first day of this Board's hearing.

4. The Administrative Law Judge obviously knew at the time of his receipt of the letter and his comments on July 3, 2018, that he no longer had jurisdiction over this case and that Counsel for Protestants had filed an appeal to this Board.

For the foregoing reasons, Protestants Motion to Strike Petitioners Exhibit #34 as *ex parte* should be granted.

Respectfully submitted,

FEB 04 2019
BALTIMORE COUNTY
BOARD OF APPEALS

* * * * * * * * * * * * *

MOTION TO RECONSIDER THE BOARD'S DECISION AND READMIT PROTESTANTS EXHIBITS #22 AND #23

On November 27, 2018 Protestants submitted a Motion to Admit Protestants Exhibits #23 and #24. (Note that the Exhibits should have been titled #22 and #23.) The Motion of November 27, 2018 requested that the Board admit Exhibits #22 and #23 as evidence in this case, along with the motion and attached Appendices A – F. Protestants Exhibits #22 and #23 were entered for identification purposes only at the Board of Appeals hearing on October 23, 2018 as Baltimore County Police Report of 1/28/18 (Exhibit #22) and Baltimore County Police Report of 1/29/18 (Exhibit #23). Members of the Board and opposing Counsel were provided copies of Exhibits #22 and #23 at the hearing on October 23, 2018.

LAW OFFICE
HOLZER AND LEE
THE 508 BUILDING
508 FAIRMOUNT AVENUE
TOWSON, MARYLAND
21286

(410) 825-6961
FAX: (410) 825-4923

On January 29, 2019 the Board verbally denied the motion on the basis that the Protestants had not adequately linked Ghimire Homes to Kris Ghimire.

This is a motion to reconsider the Board's decision of January 29, 2019.

The attached evidence is the SDAT for Ghimire Homes and banner photos with Mr. Ghimire's photo on stage at the event with which he denied involvement to this Board. The photos, previously submitted as Appendices in the November 27, 2018 Motion, clearly show Mr. Ghimire on the poster with Ghimire Homes. The attached documents provided from SDAT clearly show that Mr. Kris Ghimire is in fact the President and a principal in Ghimire Homes, LLC. This is affirmed in his sworn statement to the Maryland State Department of Assessments and Taxation.

CONCLUSION

In conclusion, the two police reports submitted as Petitioners Exhibits #22 and #23 should be admitted and relevant for consideration by this Board under 502.1, along with the November 27, 2018 Motion and Appendices A - F. The affidavits on documents Mr. Ghimire provided to SDAT clearly show he is directly involved in the operation of Ghimire Homes.

The evidence provided in these documents clearly indicates that Mr. Ghimire misrepresented the true facts of his involvement with this event during his October 23, 2018 testimony and his testimony should be stricken, and the Exhibit #22 and #23 should be admitted.

The referenced materials are attached hereto.

July 11, 2018
Gunpowder Falls Watershed Preservation Association
12150 Harford Rd.
Glen Arm, MD. 21057

County Executive Don Mohler
400 Washington Avenue, Mailstop 2M01A
Historic Courthouse, Mezzanine
Towson, Maryland 21204

Dear Mr. Mohler:

As you may know, on July 1, 2018 Mr. Arnold Jablon issued an enforcement order prohibiting the owner of 12231 Harford Rd., Glen Arm MD, 21057 (NACCB ,Inc.) from continuing to hold group events. They have failed to comply with any of the requirements specified in the Special Exception granted by ALJ Beverungen in January 2018. Subsequent to Mr. Jablon's order, on the evening of July 10 the owner accessed the property to hold a volleyball tournament in open defiance of that enforcement order.

The GFWPA has always had two concerns about the use of that property. The first is the threat to community health and watershed degradation presented by the apparent lack of sanitation facilities to handle human waste.

The second issue is that the entrance used to gain access to the property is inadequate for such use. The sight distances and narrowness of the road preclude the owner's ability to acquire the needed Highway Access Permit from the State Highway Administration. Mr. Zeller of District 4 SHA has written that this use of the property given the dangerous location of the entrance should not be permitted.

We are deeply grateful that Mr. Jablon, Mr. Gardina and Mr. Zeller have stood up to correct this situation.

However, NACCB, Inc. has heavily promoted via internet and social media an event to be held during the period July 28-August 3, 2018. They hoped to attract the more than 500-1000 (their estimates) participants at a similar event held last year. That event resulted in the initial Cease and Desist order issued in 2017 by Mr. Jablon.

It is highly likely that the NACCB, Inc. will be unable to communicate their change in plans to all the guests they invited. Further, Mr. Jablon and Mr. Gardina are well aware of the lack of impact enforcement orders have had with the NACCB, Inc. in the past.

I am writing to you as the community leader representing over 100 landowners in the immediate area. I have two concerns to express about July28-August 3 and a request.

The first concern is about uncontrolled traffic. In his testimony before Judge Beverungen, Mr. Ghimire, the Resident Agent for the Corporation, testified that the many out of state visitors had difficulty navigating Harford Road, caused backups and trespassed on private driveways when they tried to find the property. Given the extent of the promotion for this year's event, we can expect even more disruption on this rural road which is already heavily used as a commuter route to I-695.

Protestant Exhibit _____

The second issue is the reasonable anticipation of possible civil conflict. Those out of state visitors who come to the closed property will be understandably disappointed and frustrated. It is even understandable that members of NACCB, Inc. may be frustrated and perhaps angry at what they consider to be a denial of an absolute right. Then we can have members of the community who have been patient and trusting in both the GFWPA and the County authorities who get annoyed by the disturbance of unpermitted traffic and perhaps even use of the property at 12231 Harford Road.

My request is that the County plan a response to any disturbance in Glen Arm during the period of July 28 to August 3. This plan could be communicated to all parties so they know the expectations and the response to violations of those expectations.

As President of GFWPA, I will work with the Baltimore County Police and the County Fire Marshall to inform the community of what is expected of them and what we can expect from the County.

Mr. Mohler, I will point out with pride that despite the community's feelings about the improper use of land by NACCB, Inc., not one person has taken it upon themselves to vandalize the unpermitted sign erected at the property entrance.

The community has respected the rights of all and values that the competing rights will be decided in the judicial process.

All they are asking is to know the County plan for avoiding disturbance in our rural community.

Respectfully,

Dewey Clark, President
Gunpowder Falls Watershed Preservation Association

Mr. Arnold Jablon, Director
Baltimore County Permits, Approvals and Inspections
County Office Building
111 West Chesapeake Avenue, Suite 105
Towson, MD 21204

RE: 12231 Harford Road

Dear Mr. Jablon:

The community desires to inform you that on the evening of July 10, 2018 the NACCB, Inc., in defiance of your order dated July 1, 2018, and in disregard of requirements of the State Highway Administration and Maryland Department of the Environment, and concerns of the community, once again accessed the property and held a volleyball tournament on the subject site.

It is apparent that the NACCB, Inc. has no regard for your order, and the various County and State departments who have registered concern about the use of this property for the coming event of July 28 to August 3, 2018.

As such, it appears to the community that the County, the State, and the County Executive must exercise greater attention to this problem, which is quickly escalating to a potentially bad situation.

Within the confines of the County and State requirements, the Long Green Valley community and the 100+ landowners belonging to the Gunpowder Falls Watershed Preservation Association would request that you take immediate and prompt action to avoid any threats to public health and safety arising from activities of the NACCB, Inc.

Thank you for your prompt attention to this matter.

Sincerely,

Dewey Clark
President, Gunpowder Falls Watershed Preservation Association

Mr, Kris Ghimire, Resident Agent

Nepali American Cultural Center of Baltimore, Inc.

8030 Belair Rd., Nottingham, MD 21236

July 1, 2018

Re: 12231 Harford Road

Mr. Ghimire,

Protestant Exhibit 2

It has come to our attention that there have been advertisements for an event at your property

located at 12231 Harford Rd. to be held from July 29 to August 3. There have also been allegations of health code violations, including photos, submitted to us by concerned neighbors.

I am aware of the hearing before the Administrative Law Judge, and notwithstanding the approval Judge Beverungen granted, there has been no compliance with the terms and conditions as set out in that decision. Because these terms have not been met, any event such as that which is being advertised will constitute a violation of that order and a violation of the zoning regulations, as well as possible violations of the health code. If your organization holds this scheduled event, an immediate citation will be issued.

Sincerely,

Lionel van Dommelen, Chief

Bureau of Code Inspections and Enforcement

CC;

Mr. Timothy Kotroco, Esquire

Towson Commons, Suite 300

Towson, MD 21204

Email to Jablon (cc Gardina, Bcc Weis and Zeller)

Mr. Jablon,

Today is now July 10. On the Evening of July 9th, the day I first crafted the email below, the NACC,Inc. once again used the property as a recreation center. I have the recordings of their volley ball tournament.

Mr. Kotroco's client apparently views your enforcement orders with mockery and contempt. I am now even more convinced than indicated below that we need to be prepared for their open defiance of your order concerning the event July 28 to Aug 3. Please not that somewhere along the way the event was change to be July 29 to July 28. You may want to revise your order to reflect this.

Text of original email.

On July 9, 2018 I received an email from Mr. Gardina to the effect that you had transmitted an order to the NACCB, Inc., owner of the property located at 12231 Harford Road, prohibiting them from hosting group events since they have not complied with the conditions of the Special Exception granted by ALJ Beverungen.

Thank you. Can you please provide a copy of that order to me and to our attorney, Carroll Holzer, Esq.

We can then apprise the community of the action.

As you know, the NACCB, Inc. heavily promoted an event to be held on July 28-Aug 3, 2018. They apparently hoped to attract a large crowd from the Eastern Seaboard. This event last year (which resulted in your Cease and Desist order) attracted between 500 and 1,000 people (their statements vary) from at least 4 states.

It is very likely that not all intending to attend that event will receive NACCB, Inc.'s notification of their change in plans. The time for them to get the word out is very short.

We know that controlling the possible disturbance in the community requires County resources beyond your control.

We hope you will support our request to County Executive Mohler for coordinated plan to respond to any disturbance that may arise.

A copy of the order can be sent to Mr. Holzer and myself via email.

Once again, thank you for your assistance in this matter.

Respectfully,

Dewey Clark, President
Gunpowder Falls Watershed Preservation Association

12150 Harford Road
Glen Arm, MD 21057
July 24, 2018

Honorable John E. Beverungen
Administrative Law Judge for
Baltimore County
Office of Administrative Hearings
105 West Chesapeake Avenue, Suite 103
Towson, MD 21204

Judge Beverungen,

I just finished a conversation with Sherry of your Office. Earlier today I dropped off a complete copy of the preliminary motion Carroll Holzer, Esq. entered into the record during the proceedings on 19 July 2018.

As I explained in the note I left with her earlier, Larry read what is purported to be a letter from you into the record sans evidentiary copies. This meant we could not test the veracity of his interpretation. However, he interpreted it to mean you approved of the 1,000 person fundraiser scheduled for 28 July to 3 August at the property located at 12231 Harford Rd. This is in spite of the record of NACCB Inc.'s open defiance of the seven conditions set forth in your 22 Jan. 2018 decision granting a Special Exception to NACCB, Inc. (see copy of Protestant's Exhibit No. 1 left with Sherry).

I was informed by Sherry that you kept no file copy and that we will have to wait on Mr. Kotroco's leisure to get our copy and even that will not be provided to me, the primary protestant of standing or as President of the Association represented by Mr. Carroll Holzer, Esq.

I was further informed that Mr. Kotroco in fact prepared that letter for your signature and that upon review you signed it as some kind of letter of intent. I am very unclear about what that means or in fact how you intended for your letter to be used.

If I any of my understandings are imperfect, please correct them. Thank you for your time.

Respectfully,

DeWitt S. Clark, Ph.D.
President
Gunpowder Falls Watershed Preservation Association

June 18, 2018
12150 Harford Rd.
Glen Arm, MD 21057

Mr. Richard Zeller, Chief
Highway Access Permits
Maryland State Highway Administration
District 4
320 West Warren Road
Hunt Valley, MD 21030

Mr. Arnold Jablon, Director
Baltimore County Permits, Approvals and Inspections
County Office Building
111 West Chesapeake Avenue, Suite 105
Towson, MD 21204

Sirs

I am writing to inform you that the Corporate owner of the single residence property located at 12231 Harford Rd. Glen Arm, MD 21057 has publicized a very large fundraiser to take place July 29 to August 3, 2018. According to their own estimates, last year this fundraising event drew about 1,000 participants from several states. It resulted in the issuance of a Baltimore County Cease and Desist Order that, according to Arnold Jablon, is still in effect.

They have no sanitation facilities on site, no parking facilities for this event, and no SHA Highway Access permit. In addition, their own publicity photographs and videos reveal they have completed electrical installations without the benefit of a permit as verified by phone calls to Baltimore County Permits office on June 18, 2018. A licensed contractor observed what is in his opinion to be friable asbestos.

Mr. Jablon was adamant that we should notify the responsible officials if we were to become aware of just such a large event or if we became aware of violations of County Permit regulations.

The health, safety and ecological threats are obvious. Harford Road is a State road with no modern shoulders; at many points only 2 feet wide with guard rails directly on the shoulder on the other side. A traffic circle intended to control traffic in the immediate area was also recently installed. The entrance in question has very short sight distances due to blind curves in both directions. The property access is on the most dangerous 190 turn. This narrow rural road has become overburdened as a result of commuters driving to I-695 from Baltimore and Harford counties.

The July 29-Aug 3 fundraising event will create an unwarranted and unnecessary hazard not only for commuters. Out-of-area event participants unfamiliar with the nature of this rural road and the dangers it presents will also be trying to find an obscure address, stopping quickly, getting lost and causing backups on this route which, because this road traverses a valley, has no effective alternatives between Mt. Vista Rd. and Long Green Valley Rd., a distance of some 4 miles.

Protestant Exhibit ____

The owner of 12231 Harford Road is, as you know, well aware of the requirements for an SHA Access permit and that the current situation does not meet the criteria for that permit. In fact, there is no documentation that the owner has even started the SHA permitting process.

The owner and the attorneys handling this matter have been fully informed by you of the requirements to be met to change this property from its current single family use into a commercial venue.

The lack of sanitation facilities (they have a history of not seeking the required special events permits that would ensure health and safety factors are resolved) is a major threat to the community and the surrounding Gunpowder Falls watershed.

For your convenience I have included below the contact information for their attorney, Timothy Kotroco, and the Resident agent for the corporation, Kris Ghimire, who has an established real estate business in Baltimore County over the last 20 years.

Mr. Kris Ghimire, Resident Agent
Napali American Cultural Center of Baltimore, Inc.

I affirm that these photos are unmanipulated and were taken by me on the night of 10 September 2017 between the times of 8:30 PM and 8:45 PM as indicated by the EXIF data contained within the photo files. I was positioned in front of the power pole at the corner of Bonaparte Ave and Harford Rd.

I apologize for the quality, I was having problems with my flash. But it is easily seen that a number of different vehicles were observed leaving the Bonaparte property.

At the same time, my wife made the included sound recording from our porch using her cell phone. We are approximately 150 feet west of Harford Rd. across from the Bonaparte property.

I have included on the USB drive the photos, sound recording, a screen shot of Mr. Ghimire's Real Estate web site and a copy of the signage we propose to install on properties adjacent to the Bonaparte property.

From the Facebook pictures posted by this group, they appear to be respectful, kind, educated and affluent people. We find it hard to believe they would knowingly step on the rights of their neighbors and flout county laws, regulations and orders.

It is unfortunate the leaders/developers of this property have chosen the path they are taking. They certainly lost the goodwill of virtually every affected property owner.

Thanks you for all you are doing.

Regards,

Dewey Clark

Towson, Maryland 21204
410-299-2943
Tkotroco@gmail.com

July 25, 2018

The Honorable Donald I. Mohler, III
County Executive for Baltimore County
400 Washington Avenue, Mezzanine Level
Towson, Maryland 21204

Re: Nepali American Cultural Center
Request for Police Protection

Dear County Executive Mohler,

I write to you out of great concern for the safety and welfare of a group of Baltimore County citizens. I have been working with the Nepali American community for over the past year. These families have become an integral part of Baltimore County having established themselves as successful business owners, doctors, engineers and otherwise productive members of our Baltimore County community.

Not long ago, these families gathered together and purchased an abandoned 30 acre estate formerly owned by Towson attorney, Robert DiCicco. The property is located at 12231 Harford Road in Glen Arm, Maryland. This estate property was abandoned and was severely vandalized by local residents. It was foreclosed upon by the bank who held the mortgage and was heading to auction. The Nepali community pooled together their resources and purchased the subject property.

Over the past year, these Baltimore County families have been investing their money, time and energy repairing the damage that the neighbors did to this property and today, the property is once again a showpiece. I have witnessed this transformation myself and this property now stands as one of the nicest estates in Baltimore County.

The goal of our Nepalese community is to utilize the subject property as a Temple for the purpose of exercising their religious freedoms. I represented the Nepali community at a hearing before the Honorable John E. Beverungen who approved the use of the property for that purpose. This will be the very first Buddhist Temple in Baltimore County. At the present time, these Baltimore County residents must travel to Finksburg, Carroll County to practice their religion.

The case is now on appeal before the Board of Appeals and I am confident that we will prevail at that level. We have not yet begun to occupy the building for religious worship as our building is not yet served by well and septic. The new owners have decided to abandon the old

Protestant Exhibit ____

well and septic systems and install brand new state of the art systems, which will be designed and approved by Baltimore County. That effort should be completed in the very near future.

A great deal of misinformation has been spread and I wanted to share some factual information with you before I got to the purpose of this letter. The reason for writing to you is to request police protection for an event that we have scheduled to occur this Saturday, July 28 at 10 am. (Set-up will begin at 9 am). The event is an open house picnic-fundraiser which will occur on the grounds of our 30 acre estate. Our gathering will occur within a tent that is being provided by Loane Brothers and portable toilets will be used for the convenience of our guests and families. Tours will be given of our newly renovated building. Our picnic will continue throughout the day on Saturday until 8pm and will continue each day until concluding on Friday, August 3rd. We hope to have as many as 200 people visit over the course of a 10 hour day. My wife Laura and I will be attending. The amount of visitors will dwindle over the ensuing days.

It is of paramount importance that our Nepali residents have police protection at this event on Saturday and Sunday and maybe over the week depending on how the picnic progresses. I make this request because of statements that were made at our hearing before Judge Beverungen and recent social media posts that cause me great concern. There are examples of events that have occurred across our country where tragedies have occurred that could have been avoided, had local government taken proper precautions. On behalf of the Nepalese community in Baltimore County, I ask that of your administration.

State Senator James Brochin and Councilman David Marks have been actively involved with our Baltimore County Nepalese community. Senator Brochin has spoken with Captain Lamont Martin of our Police Department, Precinct 8. Captain Martin indicated that he would have police protection available for our picnic.

Lastly, there have been allegations that our scheduled picnic violates the conditions of Judge Beverungen's decision. Judge Beverungen recently issued a written statement indicating that the picnic-fundraiser scheduled for this upcoming week in no way violates the terms and conditions of his Order and that the Nepali community is free to have a picnic gathering on their property just like any other Baltimore County citizen could do. I am sure Judge Beverungen would share that opinion with you were you to give him a call.

I am available and would welcome an opportunity to meet with you to discuss this matter in more detail. Thank you for your consideration of this request.

Very truly yours,

Timothy M. Kotroco

The Honorable Donald I. Mohler, III
County Executive for Baltimore County
400 Washington Avenue, Mezzanine Level
Towson, MD 21024

RE: Letter for Timothy Kotroco Dated July 25 2018

Mr. Mohler,

I am in receipt of Mr. Kotroco's request for "police protection" for a "picinic" on a 31 acre tract located at 12231 Harford Rd. Glen Arm, Md 21057 that is subject to the conditions set forth in Judge Beverungen's January 22, 2018 decision. Please note, this decision and the attending conditions are imposed on the ENTIRE 31 acres of the property. I have attached a copy of that decision for your convenience.

It seems Mr. Kotroco finds himself in the surprising position of supporting my request of June 16 to you and your cabinet for a proactive plan to manage this event. I welcome his support to that request.

There are some facts which Mr. Kotroco fails to mention.

On July 23 I met for 30 minutes with Lt. Franzoni of the Parkville Precinct to discuss this very matter. This was the first the Precinct had heard of this. I could only approach the precinct AFTER NACCB,Inc. publicly announced this event which has been promoted regionally and internationally for the last 4 months at least.

I talked with Capt. Martin the following day.

The Nepali American **Cultural** Center of Baltimore, Inc.'s (NACCB, Inc.) public disclosure of this long planned July 28 event came **only** after intense community requests for information. This outcry was the result of public disclosure of documentary evidence including videos published by NACCB, Inc. These videos and our letters to you and other officials asking for proactive planning are located on a public folder on Google Drive (USB of contents enclosed).

The letter from Judge Beverungen to which Mr. Kotroco refers is of some interest to us. It was read into the record at the July 19th Hearing but no copies were made available. As a result, Mr. Holzer (opposing Counsel) was unable to test the veracity of what was read or the interpretation of the letter as explained by Mr. Schmidt.

I was instructed by Mr. Holzer to get a copy of that letter. When I contacted Judge Beverungen's Office, it was explained to me that that letter was prepared to go out over the Judge's signature by Mr. Kotroco himself. More disturbing was that I was informed I could not be provided a copy since Judge Beverungen did not keep a file copy.

Protestant Exhibit _____

I have included a copy of an email (followed by certified letter) to the Judge relating my understandings and asking him to correct me if I misunderstood anything. To date, there has been no response.

This "picnic" would appear to be an understatement of what is to take place. Mr. Holzer introduced into evidence some 50 pages of documentation (videos, social media and record of unapproved/uninspected improvements) including the NAACB, Inc. testimony before Judge Beverungen that there was no well or septic on the property and that the plumbing had even been removed from the main building.

Mr. Kotroco is absolutely correct. 110 landowners have joined the Gunpowder Falls Watershed Association (GFWPA) in action to oppose the overuse of this land. You are aware that SHA has gone on record saying that this property **should NOT** be used to for the purpose to which it has been put since January 2018. It DOES NOT have the required State Highway Access Permit because it does not meet the safety requirements. This was a very specific condition of Judge Beverungen's decision.

You are also aware that Mr. Kevin Weis, Chief, Baltimore Compliance Division, MDE is watching how the County acts to fulfill its statutory requirements to protect the watershed resources within the County.

Mr. Jablon, Judge Beverungen and Mr. Gardina have complete copies of the evidence introduced at the July 19 Hearing. The appellant did not contest this evidence. I am sure you can get those data from one of them.

The videos alone of the NACCB, Inc.'s defiance of County orders and disregard for the required permits for approved and **inspected** improvements such as well, septic, plumbing, asbestos abatement, wiring, etc. should cause any and all County officials concern. Further, upon last conversation, there is no record the building itself has been approve for public use by the Baltimore County Fire Marshall.

As for Mr. Kotroco's concerns about safety and public order. Seems a little late, but I concur. That was the focus of my conversations with the Commanders at the Parkville Precinct.

As for my community, I have attached a copy of the notice I sent to them about how to behave this weekend. I also gave Capt. Martin my cell phone number to help if any conflicts arise.

Mr. Kotroco should advise his clients that the community will be taking photographs and videos from public or private places, as is their right. Any interference with that right will be treated as an assault.

He should also advise his clients that any trespass on adjoining properties will be treated as such.

If they insist on violating Judge Beverungen's conditions for the ENTIRE property (and Mr. Ghimire made it clear in the ALJ Hearing that it was an intentional act to include the entire 31 acre property in the Special Exception), then they MUST remain on that property.

On multiple documented occasions, Mr. Holzer and the GFWPA have offered to sit down with Mr. Kotroco, the NACCB, Inc. Mr. Marks, Mr. Kach, Sen. Brochin and someone by the name of Bhandari (STILL no idea who he is and why he is involved) only to have met a lack of interest or even failure to meet appointments with excuses sent at later time.

As always, I am available to speak with County Officials about our concerns.

Respectfully,

DeWitt S. Clark, Ph.D.
President
Gunpowder Falls Watershed Preservation Association

IN THE MATTER OF: Nepali American Cultural Center of Baltimore 12231 Harford Road	*	BEFORE THE
	*	BOARD OF APPEALS
	*	OF
11th Election District 5th Councilmanic District	*	BALTIMORE COUNTY
RE: PETITION FOR SPECIAL EXCEPTION	*	**Case No.: 2018-0122-X**
	*	
	*	

RECEIVED
FEB 1 2019
BALTIMORE COUNTY
BOARD OF APPEALS

* *

PETITIONER'S RESPONSE TO PROTESTANTS' MOTION TO STRIKE PETITIONER'S EXHIBIT #34 AS *EX PARTE*

Nepali American Cultural Center of Baltimore (hereinafter "Petitioner"), by and through their attorneys, Lawrence E. Schmidt and Smith, Gildea & Schmidt, LLC, hereby responds to the Protestants' Motion to Strike Petitioner's Exhibit #34 As *Ex Parte* and respectfully state:

1. On January 22, 2018, John E. Beverungen, the Administrative Law Judge ("ALJ") for the within case then before the Office of Administrative Hearings, granted the Petition for Special Exception filed by Petitioner, to allow a church or other building for religious worship on property zoned RC-2, subject to certain proscribed conditions.
2. On February 16, 2018, Protestants filed an appeal of ALJ Beverungen's January 22, 2018 Order to the Board of Appeals ("Board"). Jurisdiction for this matter was thusly transferred to the Board.

3. On July 2, 2018, Timothy Kotroco, counsel for Petitioner, wrote to ALJ Beverungen to request clarification of his January 22, 2018 Order, specifically the restrictions contained therein as to whether it is appropriate to host a gathering event on the grounds of the subject property. This communication was necessitated by the ongoing efforts of the Protestants to prohibit any reasonable use of the property and any gathering thereon. Judge Beverungen replied to the letter, essentially stating that gatherings on the property were not prohibited by his Order.
4. On the fifth (5th) day of hearings before the Board in its de novo hearing regarding the appeal, Petitioner introduced the July 2, 2018 letter as Petitioner's Exhibit 34.
5. Petitioner introduced Exhibit 34 to rebut the allegation of Protestants that Petitioner conducted illegal activity on the subject property in violation of the January 22, 2018 Order.
6. The Board allowed, over Petitioner's objection, extensive evidence about the alleged illegal gatherings/use of the property. Although Petitioner respectfully believes that the Board erred in allowing evidence on this issue, in order to address/rebut the same, the Petitioner avers that the use of the property was not "illegal" and offered ALJ Beverungen' s response to the Kotroco letter as evidence thereof. Thus, in view of the Board's ruling, such letter is admissible and relevant evidence.

7. Any allegation of illegal conduct falls within the jurisdiction of the Baltimore County Code Enforcement Department rather than the Baltimore County Board of Appeals. Therefore, the issue presented by Protestants is improper.
8. The July 2, 2018 letter does not constitute an ex parte communication as that term is legally defined and applied.
9. Pursuant to MD Rules Judges, Rule 18-102.9(a), "A judge shall not initiate, permit, or consider ex parte communications, or consider other communications made to the judge out of the presence of the parties or their attorneys, concerning a *pending or impending matter*..." (emphasis added).
10. As defined by Black Law's Dictionary (9th Ed. 2009) "pending" is: "Remaining undecided; awaiting decision."
11. Black Law's Dictionary does not define impending. As defined by Merriam Webster "impending" is: "to be about to occur." (downloaded January 29, 2019; https://www.merriam-webster.com/dictionary/impending).
12. ALJ Beverungen lost jurisdiction over the above referenced case upon Protestants' February 16, 2018 appeal. Thus, there was no matter before him when the letter was delivered.
13. Protestants' February 16, 2018 appeal vested the Board "with the exclusive power and jurisdiction over the subject matter of the proceedings, and the authority and control of the lower court with reference thereto is suspended." *Litty v. Becker*, 104 Md. App. 370, 374-75, (1995).

14. The July 2, 2018 letter does not constitute an ex parte communication because the communication did not concern a pending or impending matter as ALJ Beverungen lost jurisdiction over the above referenced case upon Protestants' appeal of ALJ Beverungen' s January 22, 2018 Order. Further, as noted above, having allowed Protestants' evidence alleging the illegal use of the property, the Board must allow rebuttal evidence to this allegation.

WHEREFORE, Petitioner respectfully requests that this Honorable Court deny Protestants' Motion to Strike Petitioner's Exhibit #34 As *Ex Parte*.

Respectfully Submitted,

Lawrence E. Schmidt
Smith, Gildea & Schmidt, LLC

Subject: Proposed List of Conditions
Attachments: Bonaparte conditions_2019_02_01_01_52_28_963.pdf

Mr. Garber
Attached is the list of Conditions you requested yesterday at our hearing.
If you have any questions, please let me know.
Very truly yours,

J. Carroll Holzer

Proposed List of Conditions
for the Operation of a House of Worship at 12231 Harford Road

Include language similar to the following regarding continuation of monitoring the conditions: The Gunpowder Falls Watershed Preservation Association (GFWPA), its successors and assigns, to hand off to another community group if necessary in the future, as well as the Nepali American Cultural Center, Inc. (NACCB) or any reincorporations or successors to NACCB, Inc. for the property at 12231 Harford Road.

- A place where 10-15 people a day can come to worship. Maximum 20 visitors per day with controlled entrance and verifiable count.
- No outdoor events, services, festivals, receptions, or fund raisers of any kind; no outdoor concerts or carnivals permitted on the grounds covered by this request. There shall be no outdoor loudspeakers, outdoor microphones, or outdoor pavilions (permanent or temporary, i.e. tents).
- No amplified sound from inside any building that can be heard from outside any building. No sound greater than 55 dB shall emanate from any boundary of the property except that associated with grounds maintenance.
- Use of the property for worship limited from dawn to dusk (or 8AM to 8PM).
- No food kitchen for use by visitors or for providing community assistance.
- No daycare or educational facility for yoga, language, cultural or other classes.

- Well/septic for a maximum of 50 people.
- Petitioner agrees to take corrective action up to and including the drilling of a new well on the Poehler property [12241 Harford Road] who (a) has a well meeting current well standards and (b) prior to construction of the development of 12231 Harford Road [NACCB, Inc. project] undertakes to establish a baseline of well usage and recharge through independent analysis and (c) gives NACCB, Inc. a copy of same and (d) can demonstrate a measurable degradation of that well due to the usage of the NACCB, Inc. well.

- Restrict all improvements to the existing footprint and purpose. Reclaimed buildings to be used only for their original purpose, other than the mansion. No other structures to be converted to a new use. Main building shall house only offices and areas required for worship; no classrooms or kitchen.
- No changes allowed to the exterior of the building such as erecting spires or towers. No changes to existing roof line, columns, or other exterior structures. Exterior features of the building must be maintained as is, except for code requirements and maintenance.

- No recreational facilities. Remove pool and remove volleyball/tennis/basketball court.
- Petitioner agrees to install an on-site water storage tank located underground or inside the building for on-site fire protection, as may be required by Baltimore County as part of its permit review.

- No architectural or landscape outdoor lighting. All lighting required by code to be approved will be limited to light standards limited to 20 feet in height, utilizing cut-off vs. flood lighting. Lighting will be turned off no later than 8 PM.
- Existing stone planter in existing entrance driveway to be retained as part of historic nature of the property and locale.
- Signage consistent with rural and historic nature of the property and locale (e.g. carved wood).
- No structure added to the property (e.g. windmills, cellphone towers, antennas, etc.) that will degrade the historic contribution of the property to the National Historic District.

- No LEFT EXIT out of the property; right turns ONLY. Vehicles shall travel northbound on Harford Road to the traffic circle to access MD 147 south. The driveway will consist of two lanes: one entrance lane; one exit lane directing traffic northbound ONLY.
- Headlight screening for Poehler property [12241 Harford Road] and Foxworthy property [6229 Bonaparte Avenue].
- No improvement to or use of the long-abandoned second entrance to the property, which is located south of the entrance on Harford Road. No additional entrances to be constructed anywhere on the property.
- Parking for 10 vehicles. No vehicle parking on grassy areas.
- All driveway/parking to be constructed as PERMEABLE surfaces.

- All new landscaping to be comprised of native plants as recommended by the Maryland Department of Natural Resources/Wildlife Heritage Services. This proscribes any use of non-native species (plants or animals).
- Regrading to control runoff onto Foxworthy Property [6229 Bonaparte Avenue].

- SHA Access Permit prior to any use of the property.

- Prior to allowing individuals into the building for any reason, Fire Department inspection, and remediation of all identified defects.

- Certificate of Occupancy prior to any use of the property.

- Protestants and their representatives can enter the property for inspection and verification purposes twice per year accompanied by the Resident Agent.
- Petitioners to place money in escrow or obtain a performance bond to execute equitable relief by Protestants.

- Provide a Certificate of Liability Insurance of $1 million per injury to protect members and guests.

PROTESTANTS MOTION TO STRIKE
PETITIONERS EXHIBIT #34 AS *EX PARTE*

DeWitt and Mary Clark, 12150 Harford Road, Glen Arm, Maryland 21057, ***David Hartman***, 12513 Regwood Road, Hydes, Maryland 21082, ***Dave Poehler***, 12241 Harford Road, Glen Arm, Maryland 21057, ***Morgan Miner***, 11946 Harford Road, Glen Arm, Maryland 21057, and ***Carol Shaw***, 7 Country Hill Court, Kingsville, Maryland 21087, Protestants by ***J. Carroll Holzer, Esquire***, in the above-captioned matter herewith file their Motion to Strike Petitioners Exhibit #34 as *ex parte* and say as follows:

1. Appellant/Protestants filed their first appeal to the Board by ***J. Carroll Holzer*** on February 16, 2018, and was given Case No.: 2018-0122-X.

2. The Board of Appeals held their first day of hearings on July 17, 2018.

LAW OFFICE
HOLZER AND LEE
THE 508 BUILDING
508 FAIRMOUNT AVENUE
TOWSON, MARYLAND
21286

(410) 825-6961
FAX: (410) 825-4923

RECEIVED
JAN 17 2019
BALTIMORE COUNTY
BOARD OF APPEALS

3. At that hearing, the Nepali American Cultural Center read to the Board on the record, a portion of a letter from Mr. Kotroco to Administrative Law Judge Beverungen dated July 2, 2018 in which a Request for Clarification was rendered by the Administrative Law Judge relating to his previous Opinion in Case No.: 2018-0122-X.

4. Both the Kotroco letter and the Administrative Law Judge Opinion dated July 3, 2018 were *ex parte* communications by Counsel and the Administrative Law Judge. No copies to ***J. Carroll Holzer*** were shown on the letter and Opinion. I never received a copy of the letter as indicated by Counsel.

4.a. Petitioners knew or should have known that such an *ex parte* revision to a previous decision had no legal standing.

4.b. This *ex parte* revision changed the scope of the Administrative Law Judge's decision that resulted from the Hearing below.

1. It changed the Petitioner's Special Exception request from including the entire thirty (30) acre property to include only the existing main building.

2. It voided all conditions that applied to the entire property.
   a. Sound.
   b. Parking.
   c. Group size.

5. At this Board's first (1st) day of hearing, the letter was read by Counsel but ***not*** introduced as an exhibit. The letter was used to Deny Protestants Motion to Postpone the Board's hearing. The Protestants were required to obtain a copy of the

ex parte letter and Opinion by going to the Administrative Law Judge's office. That Office alleged they did not have a copy, but subsequently, provided it to the Protestants. Within thirty (30) days from July 3, 2018, a separate appeal to the *ex parte* Opinion of the Administrative Law Judge was taken to this Board.

6. On the fifth (5th) day of hearing before the Board, it was introduced by Petitioners as Petitioner's Exhibit 34, attached hereto.

7. Protestants believe the July 2nd and July 3rd Opinion of the Administrative Law Judge should be stricken from this Hearing record as a violation of *ex parte* procedure. Had Protestants received notice of the letter and subsequent Opinion, they could have requested an opportunity to participate before the Administrative Law Judge and answered the Request for Clarification. Protestants have been prejudiced by this *ex parte* failure.

8. Protestants are entitled relief from all actions and activities of the Petitioner that occurred as a result of this *ex parte* revision to the original Administrative Law Judge decision.

Respectfully submitted,

J. CARROLL HOLZER, Esquire

Administrative Law Judge for Baltimore County
105 West Chesapeake Avenue, Suite 103
Towson, Maryland 21204

Re: Case No. 2018-0122-X, Petition for Special Exception
Request for Clarification of Your Order Dated January 22, 2018

Dear Judge Beverungen:

I write to you on behalf of my clients, the Nepali American Cultural Center and the zoning Order that you wrote approving the use of a building on their property for religious worship. The decision you wrote was dated the 22nd day of January, 2018 and a copy of that decision is attached hereto.

As you may know, some of the protestants who appeared at the hearing before you filed an appeal to the Board of Appeals and the case is currently pending before that agency. In the meantime, my clients have continued to repair the damage that has been done to the property by the local residents and continue to maintain the grounds, as they should.

At issue at this time is the language contained within your Order, specifically the seven restrictions located at the end of your approval. My clients have scheduled a fundraising event which is proposed to occur on the grounds of the subject property. These fundraising events are very important to the owners of the property as the repairs to fix the damage done to the property over the years has been extensive. This fundraising event is scheduled for July 29th to August 3rd, 2018.

I have attached to this letter a post that was taken from Facebook which advertises this event. As you are aware, social media, such as Facebook is an effective way to inform people of an event such as this fundraiser. Baltimore County Code Enforcement was provided a copy of that Facebook post by one of the protestants. Code Enforcement is attempting to assert that we cannot gather on our property because of the language of your restrictions contained within your Order. The fundraiser will be held outside on the property and not within the building. In fact, the building is not occupiable at this time as it still is not connected to water or sewer. It is however, anticipated that my clients will provide walking tours of the building to show the extensive improvements they have made to the property, of which they are very proud.

Petitioner's Exh. #34

Based upon this letter and the attachments hereto, I respectfully request your interpretation of your Order, specifically the restrictions contained therein as to whether it is appropriate for my clients to host this gathering event on the grounds of their property or whether such actions would violate the restriction you imposed upon them.

I have included a simple statement at the bottom of this letter for you to sign, should you deem it appropriate. Thank you for your time and consideration of this matter.

Very truly yours,

Timothy Kotroco

Timothy M. Kotroco

I understand the owners are proposing to host a gathering on the property July 29th through August 3rd, 2018. I also understand the Code Enforcement Bureau contends that the gathering would violate the terms and conditions of my January 22, 2018 Order granting special exception relief. I respectfully disagree and would note those conditions (as envisioned by BCZR section 502.2) related solely to the operations of a building for religious worship, which was the relief granted in the special exception case.

The owners are free to gather on their property so long as no religious activities are occurring within the subject building and all other permit requirements, if any, are satisfied. If this is the case, there is no violation of my Order. This owner should be treated no differently than any other citizen who wishes to host a party, a picnic or any other social event on their property.

IN RE: PETITION FOR SPECIAL EXCEPTION (12231 Harford Road) 11th Election District 5th Council District Nepali American Cultural Center *Legal Owner*	*	BEFORE THE OFFICE OF ADMINISTRATIVE HEARINGS
	*	FOR BALTIMORE COUNTY
Petitioner	*	Case No. 2018-0122-X

* * * * * * * * * * *

OPINION AND ORDER

This matter comes before the Office of Administrative Hearings (OAH) for consideration of a Petition for Special Exception filed on behalf of Nepali American Cultural Center, legal owner ("Petitioner"). The Special Exception was filed pursuant to the Baltimore County Zoning Regulations ("B.C.Z.R.") to allow a church or other building for religious worship on property zoned RC-2.

Professional engineers John Motsco and Joe Caloggeri appeared in support of the petition. Timothy M. Kotroco, Esq. represented the Petitioner. Numerous citizens attended the hearing and objected to the request. Substantive Zoning Advisory Committee (ZAC) comments were received from the Department of Planning (DOP), the Bureau of Development Plans Review (DPR), State Highway Administration (SHA) and the Department of Environmental Protection and Sustainability (DEPS). None of the reviewing agencies objected to the request.

The subject property is approximately 30.8 acres and is zoned RC-2. The property is improved with an historic single-family dwelling and several outbuildings. Petitioner purchased the property last year, at which time it was rundown and abandoned. Photographs submitted at the hearing reveal extensive vandalism to the property which occurred both before and after Petitioner purchased the property. Petitioner is in the process of renovating the property, and estimates that

at least 4-5 months of additional restoration work needs to be done before the property can be used by the congregation.

Special Exception

Doug Burgess, an attorney with a law office in the area, testified a special exception use enjoys a presumption that it is in the interest of the general welfare, and therefore, valid. *Schultz v. Pritts*, 291 Md. 1 (1981). The *Schultz* standard was revisited in *Attar v. DMS Tollgate, LLC*, 451 Md. 272 (2017), wherein Maryland's highest court discussed the nature of the evidentiary presumption in special exception cases. The court again emphasized a special exception is properly denied only when there are facts and circumstances showing that the adverse impacts of the use at the particular location in question would be above and beyond those inherently associated with the special exception use.

Mr. Motsco, a professional engineer accepted as an expert, explained the site plan in detail and said he has visited the property on several occasions. He testified the property is approximately 30.8 acres in size and is zoned RC-2. The witness noted the site has mature wooded buffers along all road frontages, and he testified Petitioner is not at this time proposing any new construction on the site. In conclusion, Mr. Motsco opined Petitioner satisfied each of the requirements set forth at B.C.Z.R. §502.1.

Several citizens testified in opposition to the proposal. Though each witness expressed concern with how the project may impact them individually, there were common themes in the testimony. Traffic conditions and roadway safety, and a concern for water wells and private sewage disposal, were the most frequently cited concerns. Many neighbors also complained about several events or gatherings at the site which generated a significant amount of noise. With the exception of the complaints about noise (which will be addressed in a condition included in the

final order), these concerns are inherent in the operation of a church or building for worship located in a rural area. In other words, most uses for which a special exception is required are regarded as "potentially troublesome because of noise, traffic, congestion...." *Montgomery County v. Butler*, 417 Md. 271, 297 (2010).

In rural zones especially roadways are often antiquated and overburdened, and water/sewer services are not provided by the County. Harford Road will be used to access the site, and as a state highway it is under the control and jurisdiction of the State Highway Administration (SHA). As Mr. Caloggeri (a professional engineer accepted as an expert) testified, the SHA, not Baltimore County, will examine the proposed access and determine whether improvements or other measures are necessary to ensure safe ingress/egress from the site.

As noted in the conditions below, Petitioner must obtain approval from Baltimore County for installation of well and septic systems for this property. Ronald Standiford, pastor of the adjacent Redeemer church, noted that the Christian school affiliated with the church has approximately 220 students and the well and septic system are sufficient. According to witnesses in Petitioner's case, far fewer people will visit this site on a daily basis, and thus there is no reason to believe the water supply and sewerage system would not be adequate.

THEREFORE, IT IS ORDERED this **22nd** day of **January, 2018,** by this Administrative Law Judge, that the Petition for Special Exception to allow a church or other building for religious worship on property zoned RC-2, be and is hereby GRANTED.

The relief granted herein shall be subject to the following:

1. Petitioner may apply for necessary permits and/or licenses upon receipt of this Order. However, Petitioner is hereby made aware that proceeding at this time is at its own risk until 30 days from the date hereof, during which time an appeal can be filed by any party. If for whatever reason this Order is reversed, Petitioner would be required to return the subject property to its original condition.

2. Petitioner must submit for approval by Baltimore County landscape and lighting plans for the site.
3. Prior to operating a religious facility at the site Petitioner must install a sign at the Harford Road access point (in compliance with the B.C.Z.R. §450) containing the name of the facility and street address.
4. Prior to issuance of occupancy permits, Petitioner must demonstrate to DEPS that the well and septic system proposed will be sufficient to serve the facility.
5. Prior to issuance of permits Petitioner must comply with the ZAC comment of DEPS, a copy of which is attached hereto and incorporated herein.
6. Prior to issuance of permits Petitioner must obtain from SHA an access permit authorizing ingress and egress from the site via Harford Road.
7. Special events held at the site shall be limited to the hours of 10 a.m. to 10 p.m., and outdoor amplification of music or sound shall not be permitted.

Any appeal of this decision must be made within thirty (30) days of the date of this Order.

PROTESTANTS REPLY MEMO TO PETITIONERS RESPONSE TO MOTION TO ADMIT PROTESTANTS EXHIBITS #22 and #23

Protestants by ***J. Carroll Holzer, Esquire***, hereby replies to Petitioners response and says:

The only conclusion that can be drawn from Petitioners response is that it is entirely inadequate to the task and flawed throughout.

A. In its most basic purpose, the Petitioners response failed to counter the question posed by Chairman Garber: Does our Motion to introduce the police reports (Exhibits 22 and 23) fail to connect principal leaders, including the Resident Agent of NACCB, Inc. and members of the Community Center sponsored by this Corporation to the riots of January 28 and 29, 2018?

1. In fact, the Petitioners concede that these individuals ***were*** directly involved in the sponsorship and management of the Nepal Idol Concert and After Party that ended with said riots.

LAW OFFICE
HOLZER AND LEE
THE 508 BUILDING
508 FAIRMOUNT AVENUE
TOWSON, MARYLAND
21286
(410) 825-6961
FAX: (410) 825-4923

This is despite Petitioners witness Ghimire's attempt to mislead the Board on this issue while under oath! Mr. Ghimire did so because he was aware this had serious 502.1 implications for this case.

2. Petitioners did not contest the overlap with those individuals found to be connected to the Nepal Idol Concert and After Party and those found on the sign-in sheets from these hearings as set forth in our Motion.

3. Petitioners did not contest that they were the same individuals.

4. The evidence establishes the fact that NACCB, Inc. has used and plans to use the subject property as a community center and recreation center.

B. Failing to mount an argument as discussed in section A. above, Petitioners suggest connections that are simply fantasy.

1. Petitioners paint Mr. Kneeshaw, the putative author of the police report that documented the January 28 and 29, 2018 riots, as a racist police officer.

a. Mr. Kneeshaw is ***not*** and never has served as a police officer in any jurisdiction.

b. Mr. Kneeshaw is ***not*** the author of the police reports.

c. Mr. Kneeshaw is ***not*** known to have any history of racist/ cultural/religious bias, is not known to have made any such statements in speech or written word, nor to have held membership in or support any organization that promotes such hatred and intolerance.

2. Petitioners create a fantasy that Mr. Kneeshaw made this report in an attempt to discredit the Nepali community of Baltimore.

a. All subsequent statements offered are rendered suspect by the mere fact that Petitioners never even bothered to confirm their assumption about Mr. Kneeshaw's status.

b. Petitioners provide absolutely no foundation for their alleged statements.

C. Petitioners introduce the specter of racial/ cultural/religious intolerance without foundation or any attempt to establish relevance.

1. Petitioners circular reasoning is obvious on its face ("no one would object to such a peaceful corporation;" "This is a putative religious organization;" "Therefore those objecting are intolerant").

2. Petitioners submit an argument that is a desperate attempt to introduce non-relevant factors into the case for some future legal attempt.

3. Protestants submit that this Board should reject those racial and religious arguments.

CONCLUSION

Protestants Exhibits #22 and #23 should be admitted into evidence by the Board.

Respectfully submitted,

J. CARROLL HOLZER, Esquire

* *

Petitioner's Response to Motion to Admit Protestants' Exhibits 23 and 24

Nepali American Cultural Center of Baltimore, Petitioner, by Lawrence E. Schmidt and Smith, Gildea & Schmidt, LLC, hereby responds to the Protestants' Motion to Admit Protestants' Exhibits 23 and 24 and respectfully states:

As understood by the Petitioner, Protestants wish the Board to consider (as relevant evidence) two Police Reports published by the Baltimore County Police Department, involving incidents that occurred on January 28, 2018 (Prot. Ex. No. 22) and January 29, 2018 (Prot. Ex. No. 23), respectively.[1] According to Protestants' Exhibit 22, the Baltimore County Police Department (Officer Thomas A. Kneeshaw) responded to a disturbance at 8420 Belair Road (Baltimore County, Maryland) at 10:39 p.m. on January 28, 2018. The disturbance had occurred following a concert at that location. The nature of the disturbance was a fist fight between two adult males at the parking lot of St. Joseph's Church. One male involved (identified as Shree Man Sarki) was arrested. The other involved individual (unidentified) fled the scene when the police arrived.

[1] The Protestants' Motion incorrectly identifies the exhibits as numbered 23 and 24. According to the Board's log of exhibits, the exhibit numbers are actually 22 and 23.

Mr. Sarki was charged with several offenses associated with the skirmish, including assault, disturbance of the peace, etc. There is no indication in the police report (or in any subsequent exhibit offered by the Protestants) as to whether Mr. Sarki was tried and/or convicted of the chargers identified, or whether the charges were dropped or prosecuted. Thus, there is no indication in the information offered as to whether Mr. Sarki was guilty of any criminal offense and if he was ever so adjudged. As is well settled, the mere fact of an arrest is not evidence of criminal culpability.

The second exhibit (No. 23) relates to an event that occurred a couple of hours later (January 29, 2018 at 12:59 a.m.). At that time, the Baltimore County Police Department responded to a restaurant location (7927 Belair Road) to investigate a fight. Upon their arrival, the investigating officer states in his report that he encountered an individual of "Indian decent(sic)" identified as Budha Singh Tamang. Mr. Tamang was bleeding from his mouth and head. He had apparently been involved in a physical altercation. Mr. Tamang did not identify the individual with whom he had been fighting. Others present in the area also offered no identification. Mr. Tamang and his friends indicated that they "did not want Police help" and "wanted to drive home to Philadelphia." The Protestants offer these exhibits allegedly as relevant evidence of whether a church or other building used for religious worship should be approved via a special exception at 12231 Harford Road.

The concept of relevant evidence is codified in Maryland law and has also been addressed in numerous appellate decisions of the Maryland Courts. As stated in Maryland Rule 5-401, "'Relevant evidence means evidence having any tendency to

make the existence of any fact ***that is of consequence to the determination of the action*** more probable or less probable than it would be without the evidence." (emphasis added). Evidence is only admissible "...if it is relevant to the issues in the case and tends to either establish or disprove them." *Parker v. State*, 156 Md. App. 252 (2004). Evidence that is not relevant is inadmissible. Md. Rule 5-402. Further, Maryland Rule 5-403 provides: "Although relevant, evidence may be excluded if its probative value is substantially outweighed by the danger of ***unfair prejudice, confusion of the issues***, or misleading the jury, or by considerations of undue delay, waste of time, or needless presentation of cumulative evidence." (emphasis added).

That the Protestants offer this evidence in this land use case before the Board of Appeals is simply reprehensible. The "evidence" is prejudicial and has no probative value to resolving the issues in this case. It is irrelevant, immaterial and (by the application of any standard governing the admissibility of evidence) inappropriate. The "evidence" proves one thing and one thing only; that the Protestants who offer this evidence are motivated in their opposition by prejudice towards individuals of Nepali heritage and the Buddhist/Hindu faith.

The evidence is irrelevant for a number of reasons, including but not limited to the following:

1. The individuals named in the police reports (Shree Man Sarki and Budha Singh Tamang) are not parties to this case. The Petitioner is the Nepali American Cultural Center of Baltimore. Thus, these reports are not appropriate as evidence

of prior bad acts of the Petitioner and simply have nothing to do with the Petitioner.

2. There is no indication of any link between Messrs. Sarki and Tamang and the Petitioner. They are not officers, members, directors and/or employees of the Petitioner.

3. There is no indication that Messrs. Sarki and Tamang are even members of the congregation that would worship at 12231 Harford Road. To the contrary, Mr. Tamang apparently resides out of state, in Philadelphia, Pennsylvania.

4. The alleged involvement of Messrs. Sarki and Tamang in a fist fight has nothing to do with the issues presented in the instant matter and ultimate question to be decided; to wit, whether the proposed operation of a building to be used for religious worship at the subject property will be "detrimental to the health, safety and general welfare of the locale". (i.e. does the proposed special exception meet the requirements of BCZR § 502.1, the case law and other applicable requirements).

5. Apparently, there is some inference to be gathered that certain members of the Nepali American Cultural Center of Baltimore had "links" to a concert at St. Joseph's Church on the evening of the events described in the police reports. The simple response to this allegation is "so what?". That certain individuals associated with the Petitioner sponsored, attended, organized, etc. a concert at an off site location has nothing to do with the special exception request. Moreover there is no nexus between the individuals who sponsored and/or organized a

concert event at the church and a fight that occurred thereafter on the grounds or at a nearby restaurant.

6. As noted above, Exhibit 23 indicates that the individuals "involved" in the fracas outside the restaurant were of "Indian decent (sic)." India and Nepal are different countries. They share the common characteristic that both are located within the continent of Asia. Nonetheless, Protestants apparently infer that all "Asians" are lawless people who will do harm to their neighborhood. Protestants position is reminiscent of the days of Jim Crow in the Deep South; to wit, that all African Americans are criminals, lazy and thieves; who can't be trusted and certainly do not belong in certain areas of the County. Such is the position of the Protestants, that the Nepalese do not belong in (as stated on the tee shirts worn by many of the opponents at the Board's hearing) in "Our Valley."

7. Protestants assert, "(i)f this type of behavior in the police reports is indicative of the NACCB behavior on a property they *rented* (St. Joseph's Catholic Church Hall) what can the local community expect regarding their behavior on a property they *own* (12231 Harford Road?)" As noted above, the "behavior" was not by NACCB or anyone associated with it. Moreover, do the Protestants actually assert that behavior exhibited by young men attending a concert where alcohol is available will be the same behavior exhibited by individuals during worship? Apparently the Protestants contend that individuals who attend a

concert will act in the same manner as when they attend religious services. This attempted link is simply farcical.

In conclusion, the exhibits offered should not be accepted. This is not proper or appropriate evidence and provides no assistance to the Board (as the finders of fact) insofar as the actual issues presented in this case. That the evidence is even offered is unfortunate. It does nothing but to deepen the divide between the parties and perpetuate the Protestants' closed minded false stereotype of the Nepalese people. The Petitioner's urge the Board not alter its initial ruling sustaining Petitioner's objections to these exhibits. Such ruling would be consistent with the Board's other rulings in this case that evidence of unrelated activities by people of Nepalese descent is not proper evidence in this matter.

NOTICE OF ASSIGNMENT
Additional Days

IN THE MATTER OF: Nepali American Cultural Center
12231 Harford Road
18-122-X 11th Election District; 5th Councilmanic District

Re: Petition for Special Exception pursuant to BCZR Section 1A01.2.C.6 to allow a Church or other building for religious worship on property zoned RC-2.

1/22/18 Opinion and Order of the Administrative Law Judge wherein the Petition for Special Exception was GRANTED, subject to conditions.

Counsel has asked for three (3) additional hearing dates in the above referenced matter. We have scheduled an additional date to be used only in the event of inclement weather.

ASSIGNED FOR: **JANUARY 29, 2019, AT 9:00 A.M. – Day 8**
JANUARY 30, 2019, AT 9:00 A.M. – Day 9
FEBRUARY 5, 2019, AT 10:00 A.M. – Day 10
FEBURARY 13, 2019, AT 10:00 A.M. – Day 11

LOCATION: Hearing Room #2, Second Floor, Suite 206
Jefferson Building, 105 W. Chesapeake Avenue, Towson

NOTICE:

- This appeal is an evidentiary hearing. Parties should consider the advisability of retaining an attorney.
- Please refer to the Board's Rules of Practice & Procedure, Appendix B, Baltimore County Code.
- No postponements will be granted without sufficient reasons; said requests must be in writing and in compliance with Rule 2(b) of the Board's Rules. No postponements will be granted within 15 days of scheduled hearing date unless in full compliance with Rule 2(c).
- If you have a disability requiring special accommodations, please contact this office at least one week prior to hearing date.
- Parties must file one (1) original and three (3) copies of all Motions, Memoranda, and exhibits (including video and PowerPoint) with the Board unless otherwise requested.

- Projection equipment for digital exhibits is available by request. A minimum of forty-eight (48) hours-notice is required. Supply is limited and not guaranteed.

For further information, including our inclement weather policy, please visit our website www.baltimorecountymd.gov/Agencies/appeals/index.html

MOTION TO ADMIT PROTESTANTS EXHIBITS 23 AND 24

Protestants request that the Board admit Exhibits 23 and 24 as evidence in this case, along with this motion and attached Appendices A – F. Protestants Exhibits 23 and 24 were entered for identification purposes only at the Board of Appeals hearing on October 23, 2018 as Baltimore County Police Report of 1/28/18 (Exhibit 23) and Baltimore County Police Report of 1/29/18 (Exhibit 24). Members of the Board and opposing counsel were provided copies of Exhibits 23 and 24 at the hearing on October 23, 2018.

As requested by Chairman Garber at the October 23, 2018 hearing, protestants are hereby submitting evidence to link members of the Nepali American Cultural Center, Inc. (NACCB) to the January 28 and 29, 2018 Police Reports. This Motion and the attached Appendices A – F document why Protestant's Exhibits 23 and 24 are relevant to the case and provide the rationale for admitting the Exhibits, Motion, and Appendices as evidence.

FACTS

Appendix A shows the locations of the incidents described in the January 28, 2018 Police Report (Incident #1) and in the January 29, 2018 Police Report (Incident #2) on a Google Map, along with key details of each incident as described in Exhibits 23 and 24.

Incident #1 - January 28, 2018 at St. Joseph's Church Parking Lot

On January 28, 2018 there was a Nepal Idol Concert taking place at St. Joseph's Church Hall, located at 8420 Belair Road, from 5:30 p.m. - 11:00 p.m. At 22:39 hours (10:39 p.m.) a Baltimore County Police Officer responded to a call of a fight at St. Joseph's Catholic Church parking lot.

According to the police report, two (2) males were fighting and the officer tried to stop the fight. One individual involved in the fight attacked the officer and the subject was arrested and charged with Assault 2nd Degree on Police. Additional offenses cited in the police report include Disturbance of the Peace and Resisting Arrest. The other individual involved in the fight fled the scene. The officer reported that "I was confronted by a crowd closing in on me." It was reported that the large crowd numbered over one hundred (100) people. The report also states that inside the church hall, people were fighting and throwing bottles.

During the incident, back-up police units were called to the scene. The reports states "all drinking" and provided evidence for the statement. The report also states that "Several persons there laughed when ordered by myself and several other officers to disperse."

The report shows that twelve (12) police units responded to the incident at St. Joseph's Church parking lot.

Incident #2 - January 29, 2018 at Mount Everest Restaurant

On January 28 - 29, 2018 a Nepal Idol Concert After Party was held at Mount Everest Restaurant, located at 7927 Belair Road, from 11:30 p.m. to 1:45 a.m. Mount Everest Restaurant, a Nepalese restaurant, is located 1.4 miles south of St. Joseph's Catholic Church, the location of the Nepal Idol Concert. At 0059 hours (12:59 p.m.) a Baltimore County police unit was dispatched to the area around 7927 Belair Road for a possible fight.

The police report states that a large crowd was present and that a victim was found in the parking lot bleeding from his mouth and head. Additional back-up police units were called to the scene as well as a medic unit and fire engine. The victim did not want to provide the officer with information on who attacked him (the victim). The medic unit responding to the scene examined the victim and stated he had a broken jaw. The victim was transported to University of Maryland Shock Trauma in serious condition. The report also indicates a large knife was involved.

The report shows that eleven (11) police units, one medic unit, and one fire engine responded to the incident around Mount Everest Restaurant.

CONNECTION WITH THE APPLICANT NACCB

Appendix B provides a table titled **Hearing Attendees Directly Involved with Nepal Idol Concert in Baltimore on January 28, 2018.** Appendix B summarizes the connection between the Nepal Idol Concert and members of NACCB, based on the sign-in sheets from the January 17, 2018 Administrative Law Judge Hearing and from Days 1 – 6 of the Board of Appeals Hearings (July – November 2018).

Appendix C provides Facebook postings from January 2018 (see dates on attached postings):

- Facebook posting of the Nepal Idol concert advertising poster lists the event sponsors, including the only Platinum Sponsor--Ghimire Homes (see lower left corner)
- Facebook posting thanks a group of individuals associated with the Nepal Idol Concert, Baltimore
- Facebook posting acknowledges support and contributions received from Ghimire Homes Kris Ghimire and media partner Namlo Events

Appendix D provides the Eventbrite listing for ticket information for the Nepal Idol in Baltimore Concert and the Nepal Idol After Party. The dates, times, and locations of the Concert and After Party are listed in the Eventbrite announcement.

Appendix E provides the names of members of a Nepal Idol media partner, Namlo Events, from their website.

Appendix F provides photos from a YouTube video, "Nepal idol winner's program in baltimore usa," published on January 29, 2018. Note that this YouTube video was provided to the Board in the video library (See Disc A3, file DSC_7010). Also included in Appendix F are photos downloaded from the Nepal Idol Concert, Baltimore from the Namlo Events website.

Examination of the list of sponsors, media partners and individuals involved in the Nepal Idol Concert on January 28, 2018 shows that 11 members of NACCB matched the names listed in Appendices C, E, and F when compared to the following documents:

- Petitioner's sign-in sheet from January 17, 2018 Administrative Law Judge Hearing and list of witnesses
- Sign-in sheets from Board of Appeals Hearings, Days 1-6 for Petitioner's attendees, and list of witnesses (July - November, 2018)
- NACCB, Inc. Corporate Charter list of trustees, January 4, 2017
- One Application for NACCB Sign Use Permit submitted to Baltimore County on March 13, 2018 (NACCB member who signed permit form)

In conclusion, the above Appendices B, C, D, E, and F conclusively tie the hearing attendees in the hearing before this Board with the events held on January 28-29, 2018. Obviously therefore, Exhibits 23 and 24 should be entered into evidence by this Board.

RELEVANCE RELATED TO THE BOARD'S REQUIRED FINDINGS UNDER B.C.Z.R. §502.1

Introduction of the two police reports (Protestants Exhibits 23 and 24) as evidence in this case strongly relates to §502.1 criteria A (health, safety or general welfare) and C (hazard from fire, panic or other danger). The Exhibits, Motion, and Appendices clearly linking the police reports, Nepal Idol Concert and After Party to members of NACCB are not conjecture, but rather evidence that they have provided, or found on Facebook postings and websites of event organizers.

If this type of behavior demonstrated in the police reports is indicative of the NACCB behavior on a property they ***rented*** (St. Joseph's Catholic Church Hall), what can the local community expect regarding their behavior on a property they ***own*** (12231 Harford Road)?

The evidence clearly shows, as documented in the police reports, that NACCB is unable to control individuals attending events in which their members participated and helped organize. The disturbance did not happen just once, it occurred twice in connection with the Nepal Idol Concert and After Party.

Given that between 10,000 and 20,000 individuals of Nepalese descent reside in the greater Baltimore area, neighbors of 12231 Harford Road located in a rural agricultural R.C. 2 Zone are entirely justified in their concerns regarding health, safety and danger from the behavior of those attending NACCB events, as evidenced by the January 28 and 29, 2018 police reports.

CONCLUSION

In conclusion, the two police reports submitted as Petitioners Exhibits 23 and 24 should be admitted and relevant for consideration by this Board under §502.1, along with this Motion and Appendices A - F. The Board must weigh the evidence presented in these documents related to any Special Exception and any accompanying restrictions granted to NACCB regarding the subject property, and NACCB's willingness and ability to abide by the Board's decisions.

Furthermore, the evidence provided in these documents clearly indicates that Mr. Ghimire misrepresented the true facts of these incidents during his October 23, 2018 testimony and his testimony should be stricken.

Respectfully submitted,

We would like to express our sincere appreciation to all the friends, sponsors and media partners who made it to nepal idol concert taking out time from their hectic schedule . This event shouldn't have been such a success without your tremendous support.
We are with the people who believes that this event could have been better. We learned from our mistake and we will come back with better program in the future .
Last but not the least, shoutout to the centerpiece nishan bhattrai, pratap das and buddha lama who gave there hearts to make this event an indelible impression on everyone's memory.

At the end,
Special thanks to...

DESCRIPTION

Nepal Idol 2017 is the first installment of a Nepalese reality television singing competition that is part of the Idols franchise created by Simon Fuller. Auditions for the show were held in seven Nepali cities, with contestants aged 16 to 30 participating. Nepal Idol is here with its first season in Nepal with three exceptional prodigies as our judges. The judges are Kali Prasad Baskota, Nhyoo Bajracharya and Indira Joshi.

After 5-month hunt for a singing sensation, fair and clear track of the talent and widest audience support, the Nepal's edition of Pop Idol franchise have officially announced Buddha Lama as first ever Nepal Idol from the grand finale that took place at Asian Two Amphitheatre, Grand Mall, Sanaya in Doha, Qatar.

Similarly, Nishan Bhattarai of Morang became First Runner Up while Pratap Das of Lalitpur got the tile of Second Runner Up.

DMV Events and Everest Entertainment Presents..

The Top 3 talents from Nepal Idol will be performing their first US TOUR concert in Baltimore on January 28th. Get ready to see your favorite idols.
1. Buddha Lama
2. Nishan Bhattarai
3. Pratap Das.
With the Best Nepali Idol Host, Sushil Nepal.

Subject: Nepali American Cultural Center 18-122-X

Good afternoon Counsel,

As you are aware, we have a hearing scheduled in the matter of the Nepali American Cultural Center, Case No: 18-122-X on Thursday, November 29, 2018 at 9:00 a.m. Please be advised the Board will be meeting to discuss procedural matters including the scheduling of additional dates, and the objections recently filed. The **Board will NOT be hearing any testimony or taking any evidence on Thursday**. Please advise your clients and witnesses as appropriate.

We kindly ask that you reserve your questions until Thursday and bring your calendars.

Thank you for your attention to this matter,

Sunny

BALTIMORE COUNTY
BOARD OF APPEALS

RE: *In the Matter of:* *Nepali American Cultural Center*
Property: *12231 Harford Road*
Case No.: *2018-122-X*

Dear Chairman Garber and Panel Members Murphy and Dopkin:

I have reviewed the correspondence from Mr. Schmidt dated November 19, 2018 regarding the admissibility of video evidence submitted to the Board on November 1, 2018 on behalf of my client, the Gunpowder Falls Watershed Preservation Association.

My response to the Board is provided in the order of the videos listed in Mr. Schmidt's November 19 letter. Note that Mr. Schmidt's reference to Discs does not match the evidence as submitted. I have referred to the Disc and file names (e.g., DSC_4992) correctly, below.

Note: Apparently Mr. Schmidt did not comprehend the explanation of the video library. All snippets are from the library and the first video of the folder in that library has the identifying information for all videos from that particular Facebook post.

There are several reasons why the video evidence should be admitted in this case:

1. The evidence relates to specific §502.1 criteria.

2. The evidence contradicts testimony provided by NACCB witnesses in the Board of Appeals hearings.

3. The evidence shows use of the property as a community center and/or recreation center, instead of a house of worship.

GOLD DISCS (snippets from library discs)

Disc A1

(These are the same videos on the USB submitted as Appendix 3 of the Preliminary Motion.)

The Preliminary Motion Appendices were already admitted for purposes associated with the Preliminary Motion. However, the three videos on Disc A1 also address the merits of the case as it relates to 502.1 criteria as well as contradiction of Petitioner witness testimony.

a. DSC_4992: This video of a large event at the subject property is relevant because it contradicts testimony provided by a NACCB witness in the Board of Appeals hearings (Mr. Ghimire). Note that the videos that follow the video at 12231 Harford Road were not meant to be submitted. The relevant video ends at 8:29.

b. DSC_5005: This video of a large event at the subject property contradicts testimony provided by a NACCB witness in the Board of Appeals hearings (Mr. Ghimire).

c. DSC_5006: This video is a continuation of the video in DSC_5005. The same rationale applies for the relevance of this video.

Disc A2 – Dash cams video footage--there was no objection

Disc A3

c. DSC_5006: See Disc A1, DSC_5005 above

d. DSC_6978: This promotional video about the subject property was not submitted for what was said in the video. The relevance of this video relates to use of the property as a community center and recreational center, and

contradicts testimony provided by a NACCB witness in the Board of Appeals hearings (Mr. Ghimire). It also provides evidence of marketing reach far from a regional audience and relates to 502.1 criteria A and B. Also, Mr. Schmidt admits this video has probative value.

e. DSC_6985: This video shows activities during a July 4th event at the subject property and is relevant because this video relates to use of the property as a community center, and contradicts testimony provided by a NACCB witness in the Board of Appeals hearings (Mr. Ghimire).

f. DSC_6986: This promotional video about the subject property was not submitted for what was said in the video. The relevance of this video relates to use of the property as a community center and recreational center, and contradicts testimony provided by a NACCB witness in the Board of Appeals hearings (Mr. Ghimire). It also provides evidence of marketing reach far from a regional audience and relates to 502.1 criteria A and B.

g. DSC_6988: This video of events during the July-August 2018 large event is relevant because it accompanies photo evidence to be presented, which contradicts testimony provided by a NACCB witness in the Board of Appeals hearings (Mr. Ghimire).

h. DSC_6989: This video of events during the July-August 2018 large event is relevant because it contradicts testimony provided by a NACCB witness in the Board of Appeals hearings (Mr. Ghimire).

i. DSC_6990: This video of a panel discussion by local officials and others is relevant because it shows use of the property as a community center.

j. DSC_6994: This promotional video about the subject property is relevant because it provides evidence of marketing reach far from a regional audience and relates to 502.1 criteria A and B.

k. DSC_7010: This video from the Nepal Idol concert in Baltimore on Januay 28, 2018 is relevant because it provides a link to the January 28 and January 29, 2018 police reports. This video also contradicts testimony provided by a NACCB witness in the Board of Appeals hearings (Mr. Ghimire). Further, this video relates to 502.1 criteria A and C.

l. DSC_7016: This video from the July-August, 2018 large event contradicts testimony provided by a NACCB witness in the Board of Appeals hearings (Mr. Ghimire). Further, this video relates to 502.1 criterion C.

Disc A4

a. DSC_7040A: This video from the July-August, 2018 large event contradicts testimony provided by a NACCB witness in the Board of Appeals hearings (Mr. Ghimire). Further, this video relates to 502.1 criteria A and G.

b. DSC_7040B: Continuation from video DSC_7040A; same rationale

c. DSC_7040C: Continuation from videos DSC_7040A and DSC_7040B. The footage in this video segment relates to 502.1 criteria A and C.

d. DSC_7040: This video from the July-August, 2018 large event contradicts testimony provided by a NACCB witness in the Board of Appeals hearings (Mr. Ghimire). Further, this video relates to 502.1 criteria A and G.

e. DSC_7042: This video from the July-August, 2018 large event contradicts testimony provided by a NACCB witness in the Board of Appeals hearings (Mr. Ghimire). Further, this video relates to 502.1 criterion G.

f. DSC_7045: This video from the July-August, 2018 large event contradicts testimony provided by a NACCB witness in the Board of Appeals hearings (Mr. Ghimire). Further, this video relates to 502.1 criteria C and G.

g. DSC_7047: This video from the July-August, 2018 large event contradicts testimony provided by a NACCB witness in the Board of Appeals hearings (Mr. Ghimire). Further, this video relates to 502.1 criterion G.

h. DSC_7057: Same video and rationale as Disc A3, file DSC_7010

k. MD Rt. 94 Dash cam: This video shows dash cam footage of a typical rural road on Baltimore County, compared to the winding road with blind curves around the subject property. The video relates to 502.1 criteria B and C. Further, the video footage contradicts testimony provided by a NACCB witness in the Board of Appeals hearings (Mr. Caloggero).

White Discs

REC CENTER 1-14: The videos are relevant because they provide evidence of use of the property as a community center and recreation center and relate to 502.1 criteria A and G.

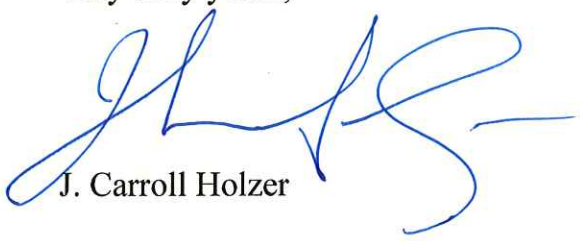
FB VIDS 1-15: These have the complete videos from which the snippets were taken, including the authentication information. See documentation provided above for the relevance of the video snippets included on Discs A1, A3, and A4.

CONCLUSION

The evidence provided on these video discs is *pri*marily evidence provided by NACCB, with the exception of the dash cam footage. This primary evidence shows that NACCB members and their actions have exceeded what they are stating under oath at the Board of Appeals hearings. Much of the video evidence is relevant to a cultural center or recreational center and not a house of worship.

Finally, the evidence impeaches the testimony of the NACCB witnesses. This is relevant to the Board as they determine whether to believe all of the NACCB testimony in this case.

Very truly yours,



J. Carroll Holzer

Re: In the Matter of: Nepali American Cultural Center
Property: 12231 Harford Road
Case No. 2018-122-X

Dear Chairman Garber and Panel Members Murphy and Dopkin:

I have had the opportunity to review the video discs offered into evidence by Mr. Holzer on behalf of his clients in the above matter. Pursuant to your instructions, I am submitting this correspondence to set out my view (on behalf of the Petitioner, Nepali Cultural Community of Baltimore), regarding this evidence and its admissibility in these proceedings. In the interest of brevity and to make my position as clear and simple as possible, I am setting out my position in the form of this letter with a copy to Mr. Holzer, counsel for the Protestants.

The discs submitted are offered in two sets. One such set is four gold colored discs, which I understand are essentially the "highlights" of the presentation. I will address those first.

1. Disc A1 contains three folders. They are :
   a. Disc 4992 contains what appears to be one of the fundraising events on the subject property. It appears to have been taken from a Facebook post. As is the case with many of these videos, it is a film of a computer screen. I technically object to its admission as to relevance, lack of foundation and authenticity. The events depicted are indicted not authenticated. However, I do appreciate that it shows the property and building and from that standpoint may have some value to the Board. Just as any property owner may host a gathering on their property (family picnic, Christmas party, political fundraiser, etc.) my clients may do so at this site for so long as they are compliant with all applicable laws. If there is a question as to an event's propriety, it is a matter for the Code Enforcement Office in Baltimore County. But

videos of these events are not germane to the ultimate issue in this case. After minutes of the Facebook posts of the fundraising event, there are then series of speeches of what appear to be priests or other Nepalese religious leaders. These interviews were not conducted on the property. The individuals are speaking the Nepalese language. I object to the relevance of these interviews and therefore object to this portion of the video. The final portion of the video is of a little girl talking to her parents. It appears that they are teaching her the Nepalese language. That the Protestants even offer this as evidence is simply outrageous. That they present this family video to express opposition to the proposal is entirely inappropriate. I object to this.

b. Disc 5005 contains a lengthy video (apparently taken from Facebook posts) of one of the Fundraisers at the property. Again, the date is unknown. There are numerous interviews of individuals at the event. They are all speaking Nepalese. I do not know what they are saying. If these remarks are to be used as evidence, then I think it required (as would be the case in a court) that the Protestants provide a translation of what is being said. To the extent that the video shows the property, it might have some probative value to the Board. Beyond that, I do not know its relevance. I incorporate my comments hereinabove.

c. Disc 5006 is more of the same. There is a video of one of the Fundraisers. There are interviews of attendees. They are speaking Nepalese. I would have the same position as expressed above. At the end of this Disc there is a 30 second clip of a mother and father cat "hugging" a kitten with the subtitle, "one of the most adorable scenes on the internet." I frankly have no idea of why this is included or what this is intended to show. To the best of my knowledge, the Hindu and Buddhist religions do not use cats as part of their religious worship.

2. Disc A2 contains eleven different scenes of Dash CAM video footage. To the extent that it depicts the relevant neighborhood, then I do not object. It is not clear as to where these videos were taken. Some of the areas (e.g. the entrance to the property, the traffic circle to the north) are readily identifiable, speak for themselves and are not objectable. Other scenes are simply rural type roads. I am assuming they are all nearby and in the vicinity, but it is not clear.

3. Disc A3
   a. There are two entries, both labeled CAM 10.20180728_111501. They appear to video taken in July 2018 from a stationary camera across from the entrance to the property. I have no objection to these.

b. Disc 4933. This is video from Mr. Clarke's front yard, date not shown. It is similar (or the same) as the video shown in the hearing. I do not object.

c. Disc 5006. This is more Facebook video of one of the Fundraising events. I think this is a duplicate of the same Disc number (5006) shown on Disc A2 because it has the same video of the event and the hugging cats at the end. I have the same objections.

d. Disc 6978. This is another video from a fundraiser on the property. There are women dressed in the traditional Nepalese garb. There are interviews with numerous attendees. Everyone is speaking Nepalese. If these remarks are to be used as evidence, then I think it required (as would be the case in a court) that the Protestants provide a translation of what is being said. I have the same objections as above.

e. Disc 6985. This appears to be a gathering of a hand full of people on the property, most likely on July 4th (undetermined year). There is a caption on the video stating "GOD BLESS THE USA." There are some sparklers seen and the building has red, white and blue lights directed onto one of the outside walls. I do not object to this and will stipulate that the Nepalese immigrants who comprise the Nepalese community in Baltimore feel very fortunate to have immigrated to the United States and have strong patriotic sentiment to their new homeland.

f. Disc 6986. More Facebook posts from one of the fundraisers. Everyone is speaking Nepalese and there are many interviews. If these remarks are to be used as evidence, then I think it required (as would be the case in a court) that the Protestants provide a translation of what is being said. I have the same objections as above.

g. Disc 6888. More of the same as shown on Disc 6986 immediately above. I have the same objections.

h. Disc 6989. More of the same. More Nepalese women in traditional garb. More interviews with people speaking Nepalese. I have the same objections as above.

i. Disc 6990. This appears to be a panel discussion of six individuals sitting at a table at the property. It is moderated by Mr. Ghimire. The caption on the video indicates that the event was to welcome the Deputy Secretary of State who had come to the property on behalf of Gov. Hogan. The discussion is in English although the sound quality is poor. The gist of the discussion is to urge members of the Nepalese community to vote and participate in the political process and support political leaders who have been helpful to the Nepalese community. I do not know the relevance of this and object. I would proffer that (as noted in "e" above) the

Nepalese immigrants are thankful to be in the United States and appreciative of the opportunities that our democratic system provides them.

j. Disc 6994. An interview with someone speaking Nepalese. I do not know what he is saying. If these remarks are to be used as evidence, then I think it required (as would be the case in a court) that the Protestants provide a translation of what is being said.

k. Disc 7010. This footage appears to be a concert of some type. The date and location are not shown. It does not appear to be at the property. Perhaps at the Nepalese Community center or some other location? I object to the relevance.

l. Disc 7016. More Facebook interviews in Nepalese at one of the Fundraisers. I object to the relevance.

4. Disc A4
   a. Disc 7040. This is a video inside the tent at one of the fundraisers. There are people speaking (all in Nepalese). Some of the instruments that have been testified about (the hand drums that look like bongos and a tambourine) are shown. It appears that everyone is enjoying themselves. I object to the relevance.

   b. Disc 7040 More people having a good time inside the tent at one of the fundraisers. The attendees appear to be "passing the plate" as there is a plate with dollar bills in it. I assume this was a fundraiser. There is a small child dresses in traditional garb. I object to the relevance.

   c. Disc 7040 This is an interview of Mr. Ghimire at the property. He is speaking Nepalese and I do not know what he is saying. If these remarks are to be used as evidence, then I think it required (as would be the case in a court) that the Protestants provide a translation of what is being said.

   d. Disc. 7040. More of an interview of Mr. Ghimire. I object to the relevance.

   e. Disc 7042. More activity in the tent. I object to the relevance.

   f. Disc 7045. More activity in the tent. I object to the relevance.

   g. Disc 7047. More activity in the tent. I object to the relevance.

   h. Disc 7057. This appears to be the same concert that was on Disc A4 (item k above. The video has been taken down from Facebook. There is a caption that says "Nepal

Idol winner's program." I would surmise that this was a Nepalese event based off of the television program "American Idol." It indicates this was in Baltimore. It was not at the property. I object to this footage as irrelevant.

i. "Front Deck". This is 1.54 minutes of audio sound from Mr. Clarke's house. There is no video. Depending on how loud one turns up the sound, one can hear different things. The loudest is the constant chirping of a cricket. There are sounds of several cars passing. There are also some voices in the background but I cannot make out where they are coming from, what they are saying and whether they are speaking in English. I have no objection.

j. Dash cam video of "Gunpowder Park to Circle". No objection.

k. Md. Rte 94 dashcam. This shows it shows conditions on 4/14/2020. Obviously, this is wrong as the date is 18 months from now. To the best of my knowledge, Md. Rte. 94 is in western Baltimore County no where near the property. I object as irrelevant.

l. "Rural road walker". This is a 13 second video of someone walking on the side of the road near Hutshcenrecter road. One can tell that location from a road sign that is visible. I am not sure what the point of this is. No objection.

m. "Solitude". This is video from Mr. Clarke's front yard. I recall this being shown in the hearing. More crickets, cars and faint voices. No objection.

White discs:

1. BI VIDS 1, 2, 3, 4, and 5. These are all videos from what appear to be a stationary camera positioned across the street from the entrance. I do not object.

2. Rec Center 1 through 14. These videos are much the same as in the gold "highlight" videos. Scenes from the fundraisers on Facebook, interviews (all spoken in Nepalese), miscellaneous videos of priests and other off site activities. I object to all of these for similar reasons set forth above.

3. FB VIDS 1-15. These videos are much the same as in the gold "highlight" videos. Scenes from the fundraisers on Facebook, interviews (all spoken in Nepalese), miscellaneous videos of priests and other off site activities. I object to all of these for similar reasons set forth above.

4. Dash Cam 1 (2 videos) the first from the deck and the second a dash cam (No objection)

In summary, I do not object to videos showing traffic conditions on nearby roads, traffic conditions at the entrance to the site, and conditions at or near the property (i.e. Mr. Clark's yard). My client acknowledges that it has had two events for fundraising at the property in the nearly two years that it has owned the site. I object to the relevance of the videos of those, except those that depict the physical condition of the property. The official activities related to the practice of Hinduism and Buddhism, the interviews with priests, the interviews in foreign language and events not on the property are all objectable.

Very truly yours,

Lawrence E. Schmidt

BOARD OF APPEALS

Re: In the Matter of: Nepali American Cultural Center
Property: 12231 Harford Road
Case No. 2018-122-X

Dear Chairman Garber and Panel Members Murphy and Dopkin:

I have had the opportunity to review the video discs offered into evidence by Mr. Holzer on behalf of his clients in the above matter. Pursuant to your instructions, I am submitting this correspondence to set out my view (on behalf of the Petitioner, Nepali Cultural Community of Baltimore), regarding this evidence and its admissibility in these proceedings. In the interest of brevity and to make my position as clear and simple as possible, I am setting out my position in the form of this letter with a copy to Mr. Holzer, counsel for the Protestants.

The discs submitted are offered in two sets. One such set is four gold colored discs, which I understand are essentially the "highlights" of the presentation. I will address those first.

1. Disc A1 contains three folders. They are :
   a. Disc 4992 contains what appears to be one of the fundraising events on the subject property. It appears to have been taken from a Facebook post. As is the case with many of these videos, it is a film of a computer screen. I technically object to its admission as to relevance, lack of foundation and authenticity. The events depicted are indicted not authenticated. However, I do appreciate that it shows the property and building and from that standpoint may have some value to the Board. Just as any property owner may host a gathering on their property (family picnic, Christmas party, political fundraiser, etc.) my clients may do so at this site for so long as they are compliant with all applicable laws. If there is a question as to an event's propriety, it is a matter for the Code Enforcement Office in Baltimore County. But

videos of these events are not germane to the ultimate issue in this case. After minutes of the Facebook posts of the fundraising event, there are then series of speeches of what appear to be priests or other Nepalese religious leaders. These interviews were not conducted on the property. The individuals are speaking the Nepalese language. I object to the relevance of these interviews and therefore object to this portion of the video. The final portion of the video is of a little girl talking to her parents. It appears that they are teaching her the Nepalese language. That the Protestants even offer this as evidence is simply outrageous. That they present this family video to express opposition to the proposal is entirely inappropriate. I object to this.

b. Disc 5005 contains a lengthy video (apparently taken from Facebook posts) of one of the Fundraisers at the property. Again, the date is unknown. There are numerous interviews of individuals at the event. They are all speaking Nepalese. I do not know what they are saying. If these remarks are to be used as evidence, then I think it required (as would be the case in a court) that the Protestants provide a translation of what is being said. To the extent that the video shows the property, it might have some probative value to the Board. Beyond that, I do not know its relevance. I incorporate my comments hereinabove.

c. Disc 5006 is more of the same. There is a video of one of the Fundraisers. There are interviews of attendees. They are speaking Nepalese. I would have the same position as expressed above. At the end of this Disc there is a 30 second clip of a mother and father cat "hugging" a kitten with the subtitle, "one of the most adorable scenes on the internet." I frankly have no idea of why this is included or what this is intended to show. To the best of my knowledge, the Hindu and Buddhist religions do not use cats as part of their religious worship.

2. Disc A2 contains eleven different scenes of Dash CAM video footage. To the extent that it depicts the relevant neighborhood, then I do not object. It is not clear as to where these videos were taken. Some of the areas (e.g. the entrance to the property, the traffic circle to the north) are readily identifiable, speak for themselves and are not objectable. Other scenes are simply rural type roads. I am assuming they are all nearby and in the vicinity, but it is not clear.

3. Disc A3
   a. There are two entries, both labeled CAM 10.20180728_111501. They appear to video taken in July 2018 from a stationary camera across from the entrance to the property. I have no objection to these.

b. Disc 4933. This is video from Mr. Clarke's front yard, date not shown. It is similar (or the same) as the video shown in the hearing. I do not object.

c. Disc 5006. This is more Facebook video of one of the Fundraising events. I think this is a duplicate of the same Disc number (5006) shown on Disc A2 because it has the same video of the event and the hugging cats at the end. I have the same objections.

d. Disc 6978. This is another video from a fundraiser on the property. There are women dressed in the traditional Nepalese garb. There are interviews with numerous attendees. Everyone is speaking Nepalese. If these remarks are to be used as evidence, then I think it required (as would be the case in a court) that the Protestants provide a translation of what is being said. I have the same objections as above.

e. Disc 6985. This appears to be a gathering of a hand full of people on the property, most likely on July 4th (undetermined year). There is a caption on the video stating "GOD BLESS THE USA." There are some sparklers seen and the building has red, white and blue lights directed onto one of the outside walls. I do not object to this and will stipulate that the Nepalese immigrants who comprise the Nepalese community in Baltimore feel very fortunate to have immigrated to the United States and have strong patriotic sentiment to their new homeland.

f. Disc 6986. More Facebook posts from one of the fundraisers. Everyone is speaking Nepalese and there are many interviews. If these remarks are to be used as evidence, then I think it required (as would be the case in a court) that the Protestants provide a translation of what is being said. I have the same objections as above.

g. Disc 6888. More of the same as shown on Disc 6986 immediately above. I have the same objections.

h. Disc 6989. More of the same. More Nepalese women in traditional garb. More interviews with people speaking Nepalese. I have the same objections as above.

i. Disc 6990. This appears to be a panel discussion of six individuals sitting at a table at the property. It is moderated by Mr. Ghimire. The caption on the video indicates that the event was to welcome the Deputy Secretary of State who had come to the property on behalf of Gov. Hogan. The discussion is in English although the sound quality is poor. The gist of the discussion is to urge members of the Nepalese community to vote and participate in the political process and support political leaders who have been helpful to the Nepalese community. I do not know the relevance of this and object. I would proffer that (as noted in "e" above) the

Nepalese immigrants are thankful to be in the United States and appreciative of the opportunities that our democratic system provides them.

j. Disc 6994. An interview with someone speaking Nepalese. I do not know what he is saying. If these remarks are to be used as evidence, then I think it required (as would be the case in a court) that the Protestants provide a translation of what is being said.

k. Disc 7010. This footage appears to be a concert of some type. The date and location are not shown. It does not appear to be at the property. Perhaps at the Nepalese Community center or some other location? I object to the relevance.

l. Disc 7016. More Facebook interviews in Nepalese at one of the Fundraisers. I object to the relevance.

4. Disc A4
   a. Disc 7040. This is a video inside the tent at one of the fundraisers. There are people speaking (all in Nepalese). Some of the instruments that have been testified about (the hand drums that look like bongos and a tambourine) are shown. It appears that everyone is enjoying themselves. I object to the relevance.

   b. Disc 7040 More people having a good time inside the tent at one of the fundraisers. The attendees appear to be "passing the plate" as there is a plate with dollar bills in it. I assume this was a fundraiser. There is a small child dresses in traditional garb. I object to the relevance.

   c. Disc 7040 This is an interview of Mr. Ghimire at the property. He is speaking Nepalese and I do not know what he is saying. If these remarks are to be used as evidence, then I think it required (as would be the case in a court) that the Protestants provide a translation of what is being said.

   d. Disc. 7040. More of an interview of Mr. Ghimire. I object to the relevance.

   e. Disc 7042. More activity in the tent. I object to the relevance.

   f. Disc 7045. More activity in the tent. I object to the relevance.

   g. Disc 7047. More activity in the tent. I object to the relevance.

   h. Disc 7057. This appears to be the same concert that was on Disc A4 (item k above. The video has been taken down from Facebook. There is a caption that says "Nepal

Idol winner's program." I would surmise that this was a Nepalese event based off of the television program "American Idol." It indicates this was in Baltimore. It was not at the property. I object to this footage as irrelevant.

i. "Front Deck". This is 1.54 minutes of audio sound from Mr. Clarke's house. There is no video. Depending on how loud one turns up the sound, one can hear different things. The loudest is the constant chirping of a cricket. There are sounds of several cars passing. There are also some voices in the background but I cannot make out where they are coming from, what they are saying and whether they are speaking in English. I have no objection.

j. Dash cam video of "Gunpowder Park to Circle". No objection.

k. Md. Rte 94 dashcam. This shows it shows conditions on 4/14/2020. Obviously, this is wrong as the date is 18 months from now. To the best of my knowledge, Md. Rte. 94 is in western Baltimore County no where near the property. I object as irrelevant.

l. "Rural road walker". This is a 13 second video of someone walking on the side of the road near Hutshcenrecter road. One can tell that location from a road sign that is visible. I am not sure what the point of this is. No objection.

m. "Solitude". This is video from Mr. Clarke's front yard. I recall this being shown in the hearing. More crickets, cars and faint voices. No objection.

White discs:

1. BI VIDS 1, 2, 3, 4, and 5. These are all videos from what appear to be a stationary camera positioned across the street from the entrance. I do not object.

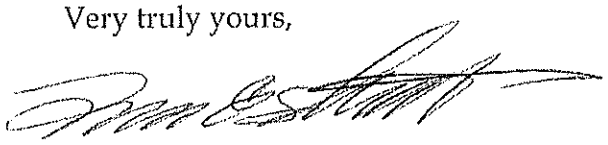
2. Rec Center 1 through 14. These videos are much the same as in the gold "highlight" videos. Scenes from the fundraisers on Facebook, interviews (all spoken in Nepalese), miscellaneous videos of priests and other off site activities. I object to all of these for similar reasons set forth above.

3. FB VIDS 1-15. These videos are much the same as in the gold "highlight" videos. Scenes from the fundraisers on Facebook, interviews (all spoken in Nepalese), miscellaneous videos of priests and other off site activities. I object to all of these for similar reasons set forth above.

4. Dash Cam 1 (2 videos) the first from the deck and the second a dash cam (No objection)

In summary, I do not object to videos showing traffic conditions on nearby roads, traffic conditions at the entrance to the site, and conditions at or near the property (i.e. Mr. Clark's yard). My client acknowledges that it has had two events for fundraising at the property in the nearly two years that it has owned the site. I object to the relevance of the videos of those, except those that depict the physical condition of the property. The official activities related to the practice of Hinduism and Buddhism, the interviews with priests, the interviews in foreign language and events not on the property are all objectable.

Very truly yours,



Lawrence E. Schmidt

Tammy,
Would you be able to email me the updated list of Exhibits for this case?
Thanks,
Mary

5th Councilman District	*	CASE NO.: 18-122-X

* * * * * * * * * * * *

OBJECTION TO AND MOTION TO QUASH SUBPOENA

Dewitt Clark by his attorney, Douglas W. Biser, in response to the Subpoena previously issued and served on him objects to the Subpoena and moves to have the Subpoena quashed and for reasons states as follows:

1. A Subpoena recently was served on Dewitt Clark, a copy of which is attached hereto.

2. Dewitt Clark is the President of the Gunpowder Falls Watershed Preservation Association (GFWP). The GFWP is a protestant in the pending case. The Subpoena is directed to Dewitt Clark. It is unclear whether the Subpoena is asking for documents from Dewitt Clark individually or Dewitt Clark as the President of GFWP. As such the Subpoena is confusing, nonspecific and therefore compliance is impossible.

3. The Subpoena requires Dewitt Clark to produce the following: "Your entire file, including but not limited to each and every email, photograph, Facebook post, text message and the like, either sent or received relating to this case."

4. The description of the documents and things in the Subpoena is overbroad and the production of same would be highly burdensome. The Subpoena as currently

constituted, asking for literally everything that is "relating to this case", would require Dewitt Clark to produce thousands of pages of documents, photographs, plans, plats, emails and other correspondence which include hundreds of privileged communications with counsel and items prepared in anticipation of litigation. These items are privileged and not subject to a subpoena.

5. The "entire file", as requested, is ambiguous as there is no "entire file." Much, if not all, of the information Dewitt Clark has kept on his personal computer and hard drive and is not kept in a "file."

6. Even with a more specific and detailed request, the Subpoena constitutes a fishing expedition and is virtually impossible to comply with in its present form.

7. Under Rule 5 of the Rules Of Practice And Procedure of the Board of Appeals for Baltimore County, a subpoena is improper if it fails to set forth a general statement as to the purpose of documents and things subpoenaed. The Subpoena issued to Dewitt Clark fails to set forth the purpose and therefore is improper under Rule 5.

8. The expansive and overbroad scope of the Subpoena, even if broken down into specific categories of documents, would take hundreds of hours to comply with by way of a review of Mr. Clark's computer to access the contents therein and separate the contents into categories including those privileged and non-privileged. Such an undertaking would cost thousands of dollars in time plus attorneys fees. The request for Dewitt Clark's "entire file" would require a review of virtually every document he has in his computer, personal and otherwise, and would include a review of many items unrelated

to the present case. Even after such a review it would be impossible to determine which of the information constituted his "file."

9. The cost and expense of compliance with the Subpoena, if possible, is overly burdensome. If such cost is to be incurred it should be shifted to the party issuing the Subpoena and requesting the documents and things.

10. The Maryland Rules, which can be used by reference, provide in Rule 2-510(h), that: "...a party or an attorney responsible for the issuance and service of a Subpoena should take reasonable steps to avoid imposing undue burden or cost from the person subject to this Subpoena." The issuing party in this case did not take any reasonable steps to narrow the scope of the Subpoena or to avoid such undue burden or cost.

11. In conclusion, the Subpoena issued to Dewitt Clark is overly broad, burdensome, impossible to comply with, does not comply with applicable rules, and requests information and documents that are protected by the attorney-client privilege, including attorney-work-product and matters prepared in anticipation of litigation. As such, the Subpoena should be quashed.

WHEREFORE, Dewey Clark by his attorney Douglas W. Biser, prays that the Board of Appeals quash the Subpoena.

Subject: Nepali American Cultural Center October 11 hearing

Good morning Counsel,

It is my understanding Mr. Garber mentioned during a previous hearing that he may have a schedule conflict with the October 11, 2018 hearing date in the above referenced matter. I have recently been informed that Mr. Garber no longer has a conflict for that date. Therefore, the hearing will proceed as scheduled on October 11, 2018.

Please contact me with any questions.

Thank you,

Sunny

Dear Mrs. Clark:

Attached is a copy of the Board sign-in sheet for the September 12, 2018 hearing.

I have spoken with our Administrator, and as a Court Reporter was present for the September 12th hearing, her transcript is the official record.
We will not be providing a copy of the recording, if any, for the September 12th hearing.

Please let us know if you have any questions.

Tammy A. Zahner, Legal Secretary
Board of Appeals of Baltimore County
Second Floor, Suite 203
105 West Chesapeake Avenue
Towson, Maryland 21204

AMENDED NOTICE OF ASSIGNMENT
(Amended as to location only)

IN THE MATTER OF: Nepali American Cultural Center
12231 Harford Road
18-122-X 11th Election District; 5th Councilmanic District

Re: Petition for Special Exception pursuant to BCZR Section 1A01.2.C.6 to allow a Church or other building for religious worship on property zoned RC-2.

1/22/18 Opinion and Order of the Administrative Law Judge wherein the Petition for Special Exception was GRANTED, subject to conditions.

This matter has been specially set by agreement of Counsel. No postponements will be granted without sufficient reasons and documentation in accordance with Rules 2(b) and (c) of the Board's Rules of Practice and Procedure.

ASSIGNED TO:

SEPTEMBER 12, 2018 AT 9:00 A.M. – Day 3
OCTOBER 11, 2018 AT 9:00 A.M. – Day 4
OCTOBER 23, 2018 AT 9:00 A.M. – Day 5
NOVEMBER 1, 2018 AT 9:00 A.M. – Day 6
NOVEMBER 29, 2018 AT 9:00 A.M. – Day 7

LOCATION:

Hearing Room #2, Second Floor
The Jefferson Building, Suite 206
105 W. Chesapeake Avenue
Towson, Maryland 21204

NOTICE:

- This appeal is an evidentiary hearing. Parties should consider the advisability of retaining an attorney.
- Please refer to the Board's Rules of Practice & Procedure, Appendix B, Baltimore County Code.
- No postponements will be granted without sufficient reasons; said requests must be in writing and in compliance with Rule 2(b) of the Board's Rules. No postponements will be granted within 15 days of scheduled hearing date unless in full compliance with Rule 2(c).
- If you have a disability requiring special accommodations, please contact this office at least one week prior to hearing date.
- Parties must file one (1) original and three (3) copies of all Motions, Memoranda, and exhibits (including video and PowerPoint) with the Board unless otherwise requested.
- Projection equipment for digital exhibits is available by request. A minimum of forty-eight (48) hours-notice is required. Supply is limited and not guaranteed.

Re: In the Matter of: Nepali American Cultural Center
Property: 12231 Harford Road
Case No. 2018-122-X

Dear Sunny,

This is to confirm that the hearing scheduled for September 12th will begin at 9:00 a.m. and be held in the Board's hearing room located in the Jefferson Building, 105 W. Chesapeake Avenue, Towson in Hearing Room #2, Second Floor, Suite 206. The October 11th, October 23rd, November 1st and November 29th hearing dates will also begin at 9:00 a.m. and be held in the Board's hearing room. Mr. Kotroco, Mr. Holzer and I support this request to hold future hearings at the Board's hearing room.

The court reporter will appear as scheduled on September 12th since Petitioner's case is intended to conclude that day. Accordingly, the Petitioner's case will be transcribed by the court reporter and made part of the Board's file.

As always, we appreciate the Board's willingness to accommodate our requests for both the larger hearing room and moving back to the Board's hearing room in the Jefferson Building.

Very truly yours,

Lawrence E. Schmidt

RESPONSE TO CASE NO.: CBA-19-0004

Protestants, ***DeWitt and Mary Clark***, 12150 Harford Road, Glen Arm, Maryland 21057; ***David and Bernadette Poehler***, 12241 Harford Road, Glen Arm, Maryland 21057; ***Joanne Foxworthy***, 6229 Bonaparte Avenue, Glen Arm, Maryland 21057; ***Carol Shaw***, 7 Country Hill Court, Kingsville, Maryland 21087; ***Tom and Morgan Miner***, 11946 Harford Road, Glen Arm, Maryland 20157 and ***David Hartman***, 12513 Regwood Road, Hydes, Maryland 21082, by their attorney, ***J. Carroll Holzer, Esquire***, hereby submits this Memorandum in Lieu of Final Argument to the Board this 5th day of March 2019, as requested by the Board.

I. I hereby adopt all of Protestants' Memorandum of Law related to Case No.: 18-122-X.

II. The consequences of the Kotroco/Beverugen letter of July 2, 2018 and its use in this matter are improper and unduly prejudicial to the Protestant.

A. Portions of this *ex-parte* letter were **READ** into the record by Petitioner to influence this Board's decision on Protestant Motion 1. Petitioner represented that this letter was valid and that they were accurate in its representation. Protestant was **refused** a copy of this letter and was unable to contest its use until well after it was used by Petitioner to influence the judgment of this Board.

B. The "presence" of this letter unduly influenced subsequent Board rulings which hampered Protestants presentation of their case.

C. This *ex parte* letter amended the decision of the court below in a manner that materially impacted the Protestant.

1. It was used to influence the County Executive's enforcement of existing county zoning codes that were in effect.

    a. This created undue harm and disturbance to Protestants.

    b. It precluded the development of a record of official complaint records regarding Petitioner's use of subject property that violated the property rights of the adjoining neighbors, community and locale.

2. It allowed use of subject property that was proscribed by the official decision handed down by the court below.

D. This letter was used to mischaracterize a week-long fundraising event attended by over 300 participants per day as a "picnic."

E. This letter mischaracterized and misrepresented the Protestants as motivated by hate without the benefit of evidence.

Therefore, Protestants request this Board to rule on the judicial validity of the Beverungen letter dated July 2, 2018. We do NOT ask that the presence of this letter in the record of Case No.: 18-122-X be stricken; only that the **effect** of this letter be ruled inappropriate and unduly presented and relied upon.

Respectfully submitted,

WRITTEN MEMORANDUM IN LIEU OF CLOSING ARGUMENT

The proper owner, Nepali American Cultural Center of Baltimore (hereinafter "Petitioner" or "Nepali"), by and through their attorneys, Lawrence E. Schmidt and Smith, Gildea & Schmidt, LLC, submit this Written Memorandum in Lieu of Closing Argument in opposition of the appeal filed for the above reference matter and respectfully state:

STATEMENT OF THE CASE AND FACTS

This matter comes before the County Board of Appeals (the "Board") on "appeal" of a letter, dated July 2, 2018, which requested clarification of the Administrative Law Judge ("ALJ") John Beverungen's final decision dated January 22, 2018 granting a Petition for Special Exception for a church or other building used for religious worship. The Petition pertains to the property located at 12231 Harford Road (the "Property") and was filed pursuant to Baltimore County Zoning Regulation (hereinafter "BCZR") § 1A01.2.C.6, which permits churches and other buildings used

for religious worship in the RC-2 zone by special exception. The Petition was assigned Case No.: 2018-0122-X.

A public hearing was held before the ALJ on January 17, 2018. By written Opinion and Order dated January 22, 2018, ALJ Beverungen granted the zoning petition in Case No.: 2018-0122-X. On February 16, 2018, an appeal of the ALJ's decision to the Board was filed by DeWitt and Mary Clark, David Hartman, Dave Poehler, Morgan Miner, and Carol Shaw (collectively, hereinafter referred to as the "Protestants"). They are represented by J. Carroll Holzer, Esquire. The public hearing before the Board consumed eleven non-consecutive days lasting from July 19, 2018 to February 13, 2019.

While the litany of litigation related to the special exception was in process, another related aspect of the matter was on going. On July 2, 2018, Timothy Kotroco, counsel for Petitioner, wrote to ALJ Beverungen to request clarification of his January 22, 2018 Order, specifically the restrictions contained therein as to whether it would be appropriate to host a fundraiser event on the grounds of the Property. On July 3, 2018, ALJ Beverungen replied to the July 2, 2018 letter, acknowledging that the July 29 through August 3, 2018 gathering would not violate the terms and conditions of his January 22, 2018 Order because the conditions related solely to the operations of a building for religious worship. Petitioner then held the fundraiser event on the Property from July 29 through August 3, 2018.

On July 30, 2018, an "appeal" of the July 3, 2018 ALJ Beverungen letter to the Board was filed by Protestants. During the lengthy litigation concerning the review of the special exception in Case No.: 2018-0122-X, the Protestants' appeal of ALJ

Beverungen's letter remained dormant at the Board. On the 11th day of hearings before this Board in the special exception case, the appeal of the letter at the Board was resuscitated at the request of the Protestants. It is the appeal of this letter that is the matter now before this Board. For the reasons that follow, the "appeal" of the July 3, 2018 ALJ Beverungen letter should be dismissed as an improper appeal.

ARGUMENT

The appeal of the July 3, 2018 ALJ Beverungen letter should be dismissed because the subject matter of the appeal is improper. Under the Baltimore County Charter, the Board may exercise functions and powers over appeals from executive, administrative and adjudicatory orders. See Baltimore County Charter § 602(d). The appeal purports to challenge a letter authored by ALJ Beverungen on July 3, 2018. That letter is neither a final judgment nor an order and the issue presented from the letter is moot.

1. The Issue Presented is Moot

The issue presented on appeal is moot and there is no justiciable controversy between the parties to which this Board could grant an effective remedy. Petitioner respectfully maintains that the question presented is moot because even if this Board were to decide for the Protestants, the rights and positions of the parties would remain unchanged. After ALJ Beverungen issued the July 3, 2018 letter, Petitioner held the fundraiser event on the Property from July 29 through August 3, 2018. As such, any dispute relating to the July 3, 2018 letter is rendered moot after the fundraiser event occurred.

As well settled by the Maryland Court of Appeals, "a question is moot if, at the time it is before the court, there is no longer an existing controversy between the parties, so that there is no longer any effective remedy which the court can provide." *Attorney Gen v. Anne Arundel County Sch. Bus Contractors Ass'n.* 286 Md. 324, 407 A 2d 749 (1979). A moot case is generally dismissed without the Appellate court deciding the merits of the controversy. *Coburn v. Coburn,* 342 Md. 244, 250(1996). The Court in rare instances may address the merits of a moot case if the case presents unresolved issues in matters of important public concern that, if decided, will establish a rule for future conduct. *Id.* The dates of the event referenced in the July 3, 2018 letter have come and gone and the event has already occurred. This matter does not present an important public concern.

Appellate courts do not sit to decide abstract propositions or moot questions of law. *Potts v. Governor,* 255 Md. 445, 258 A.2d 180 (1969). The practice of rendering "advisory opinions" is "long forbidden" in Maryland. Application of *Worthington,* 336 Md. 555, 557 (1994). Even assuming arguendo that the Board was to reverse the "opinion" of ALJ Beverungen, the event has already occurred and there would be no effective remedy. A case is moot if an appellate court cannot grant effective relief. *Surland v. State,* 392 Md. 17, 31 (2006).

Timothy Kotroco's July 2, 2018 letter was specific as to the dates of the fundraiser event. The parties agree that the referenced fundraiser event in the July 3, 2018 ALJ Beverungen letter has already occurred. There is no controversy for this Board to decide and the issue presented is moot.

2. This Appeal Should be Dismissed as an Improper Interlocutory Appeal

ALJ Beverungen's July 3, 2018 letter did not constitute a final order or contain an operative event from which an appeal could be taken. On February 16, 2018, Protestants filed an appeal of ALJ Beverungen's January 22, 2018 Order to the Board. Protestants' February 16, 2018 appeal vested the Board "with the exclusive power and jurisdiction over the subject matter of the proceedings, and the authority and control of the [ALJ] with reference thereto is suspended." *Litty v. Becker,* 104 Md. App. 370, 374-75 (1995). ALJ Beverungen did not have authority or jurisdiction to issue the July 3, 2018 letter.

The Maryland Code defines a final judgment as "a judgment, decree, sentence, order, determination, decision, or other action by a court... from which an appeal... may be taken." §12-101(f). In *Rohrbeck v. Rohrbeck,* the Court of Appeals of Maryland described three attributes that all final judgments must have: (1) It must be intended by the court as an unqualified, final disposition of the matter in controversy, (2) unless the court properly acts pursuant to Md. Rule 2-602(b), it must adjudicate or complete the adjudication of all claims against all parties, and (3) the clerk must make a proper record of it in accordance with Md. Rule 2-601. The requirement of "'finality,' arises from [t]he fundamental objective ... [which] is 'to prevent piecemeal appeals and to prevent the interruptions of ongoing judicial proceedings."' *WSSC v. Bowen,* 410 Md. 287, 294-95 (2009). ALJ Beverungen did not issue, renew, deny, revoke, suspend, annul or modify the January 22, 2018 Order. By allowing Protestants to appeal the July 3, 2018 letter, it effectively allows the Protestants to split a controversy into multiple cases which is inefficient and wastes both the Board's and the Parties' resources. It is certain

to result in piecemeal appeals and interruptions of ongoing judicial proceedings, precisely why we have a final judgment rule in the first place. *Hams v. State,* 420 Md. 300, 312 (2010).

The July 3, 2018 letter is not an order. It contains no appealable "decision". There is nothing contain therein that is appealable. Upon Protestants' February 16, 2018 appeal, jurisdiction for this matter was thusly transferred to the Board. Any allegation of illegal conduct falls within the jurisdiction of the Baltimore County Code Enforcement Department rather than the Board.

CONCLUSION

For the reasons set forth above, Nepali requests this Board to dismiss the appeal as improper and grant such other and further relief as the nature of the cause may require.

Re: Appeal to Board of Appeals
Decision of ALJ dated July 3, 2018
Case No. 2018-0122-X
Property: 12231 Harford Road

Dear Carroll:

I am in receipt of your Notice of Appeal in reference to the letter drafted by Tim Kotroco dated July 2, 2018 and the sign off of the same by ALJ John Beverungen on July 3, 2018. Your Notice purports to appeal ALJ Beverungen's "opinion" to the Board of Appeals.

Respectfully, this appeal is improper. For a number of reasons, I'd ask that it be voluntarily withdrawn. First, Mr. Kotroco's letter (by its own terms) relates to an event that has already occurred, from July 29, 2018 to August 3, 2018. The letter clearly states (paragraph three), "(m)y clients have scheduled a fund raising event . . . for July 29th through August 3rd, 2018." Further, the letter asks, "I respectfully request your interpretation of your order . . . as to whether it is appropriate for my clients to host *this* gathering event . . ." (emphasis added). Since the dates of the event have come and gone and the event has already occurred, it seems apparent that the appeal is invalid as the issue presented is moot. Even if the Board were to reverse the "opinion" of the ALJ, the event has already occurred and the matter is no longer at issue.

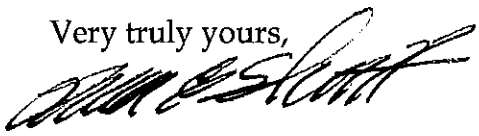
Moreover, even if the issue was not moot, I do not believe that ALJ Beverungen's "opinion" is an appealable event. It is his statement of the intent of his previously issued order. It is an interlocutory decision. I draw your attention to the recently issued decision by the Court of Special Appeals in the matter of Galloway Creek, in which you were counsel for the Protestants. In that case, your client's "appeal" was similarly of a letter written by ALJ Beverungen. In that matter, the

appeal was dismissed by the Board of Appeals as improper. Many of the reasons cited by the Circuit Court and the Court of Special Appeals affirming that dismissal exist here.

It seems to me that the parties are already spending significant dollars and expanding considerable efforts on the underlying petition for special exception. Why are we litigating and spending money on a matter that is clearly not proper for litigation? If this matter were in Court, I would respectfully suggest that it would be proper for the Court to impose costs and expenses per Md. Rule 1-341.

Let's fight about something legitimate. Let me know.

Very truly yours,



Lawrence E. Schmidt

(Decision of ALJ dated July 3, 2018)
Case No. 2018-0122-X
Property: 12231 Harford Road

Dear Mr. Kotroco:

Please be advised that an appeal of the above-referenced case was filed in this Office on July 30, 2018. All materials relative to the case have been forwarded to the Baltimore County Board of Appeals ("Board").

If you are the person or party taking the appeal, you should notify other similarly interested parties or persons known to you of the appeal. If you are an attorney of record, it is your responsibility to notify your client.

If you have any questions concerning this matter, please do not hesitate to contact the Board at 410-887-3180.

Sincerely,

LAWRENCE M. STAHL

Re: Case No. 2018-0122-X, Petition for Special Exception
Request for Clarification of Your Order Dated January 22, 2018

Dear Judge Beverungen:

I write to you on behalf of my clients, the Nepali American Cultural Center and the zoning Order that you wrote approving the use of a building on their property for religious worship. The decision you wrote was dated the 22nd day of January, 2018 and a copy of that decision is attached hereto.

As you may know, some of the protestants who appeared at the hearing before you filed an appeal to the Board of Appeals and the case is currently pending before that agency. In the meantime, my clients have continued to repair the damage that has been done to the property by the local residents and continue to maintain the grounds, as they should.

At issue at this time is the language contained within your Order, specifically the seven restrictions located at the end of your approval. My clients have scheduled a fundraising event which is proposed to occur on the grounds of the subject property. These fundraising events are very important to the owners of the property as the repairs to fix the damage done to the property over the years has been extensive. This fundraising event is scheduled for July 29th to August 3rd, 2018.

I have attached to this letter a post that was taken from Facebook which advertises this event. As you are aware, social media, such as Facebook is an effective way to inform people of an event such as this fundraiser. Baltimore County Code Enforcement was provided a copy of that Facebook post by one of the protestants. Code Enforcement is attempting to assert that we cannot gather on our property because of the language of your restrictions contained within your Order. The fundraiser will be held outside on the property and not within the building. In fact, the building is not occupiable at this time as it still is not connected to water or sewer. It is however, anticipated that my clients will provide walking tours of the building to show the extensive improvements they have made to the property, of which they are very proud.

Based upon this letter and the attachments hereto, I respectfully request your interpretation of your Order, specifically the restrictions contained therein as to whether it is appropriate for my clients to host this gathering event on the grounds of their property or whether such actions would violate the restriction you imposed upon them.

I have included a simple statement at the bottom of this letter for you to sign, should you deem it appropriate. Thank you for your time and consideration of this matter.

Very truly yours,

Timothy M. Kotroco

I understand the owners are proposing to host a gathering on the property July 29th through August 3rd, 2018. I also understand the Code Enforcement Bureau contends that the gathering would violate the terms and conditions of my January 22, 2018 Order granting special exception relief. I respectfully disagree and would note those conditions (as envisioned by BCZR section 502.2) related solely to the operations of a building for religious worship, which was the relief granted in the special exception case.

The owners are free to gather on their property so long as no religious activities are occurring within the subject building and all other permit requirements, if any, are satisfied. If this is the case, there is no violation of my Order. This owner should be treated no differently than any other citizen who wishes to host a party, a picnic or any other social event on their property.

IN RE: PETITION FOR SPECIAL EXCEPTION (12231 Harford Road) 11th Election District 5th Council District Nepali American Cultural Center *Legal Owner*	*	BEFORE THE OFFICE OF ADMINISTRATIVE HEARINGS
	*	FOR BALTIMORE COUNTY
Petitioner	*	Case No. 2018-0122-X

* * * * * * * * * * *

OPINION AND ORDER

This matter comes before the Office of Administrative Hearings (OAH) for consideration of a Petition for Special Exception filed on behalf of Nepali American Cultural Center, legal owner ("Petitioner"). The Special Exception was filed pursuant to the Baltimore County Zoning Regulations ("B.C.Z.R.") to allow a church or other building for religious worship on property zoned RC-2.

Professional engineers John Motsco and Joe Caloggeri appeared in support of the petition. Timothy M. Kotroco, Esq. represented the Petitioner. Numerous citizens attended the hearing and objected to the request. Substantive Zoning Advisory Committee (ZAC) comments were received from the Department of Planning (DOP), the Bureau of Development Plans Review (DPR), State Highway Administration (SHA) and the Department of Environmental Protection and Sustainability (DEPS). None of the reviewing agencies objected to the request.

The subject property is approximately 30.8 acres and is zoned RC-2. The property is improved with an historic single-family dwelling and several outbuildings. Petitioner purchased the property last year, at which time it was rundown and abandoned. Photographs submitted at the hearing reveal extensive vandalism to the property which occurred both before and after Petitioner purchased the property. Petitioner is in the process of renovating the property, and estimates that

at least 4-5 months of additional restoration work needs to be done before the property can be used by the congregation.

Special Exception

Doug Burgess, an attorney with a law office in the area, testified a special exception use enjoys a presumption that it is in the interest of the general welfare, and therefore, valid. *Schultz v. Pritts*, 291 Md. 1 (1981). The *Schultz* standard was revisited in *Attar v. DMS Tollgate, LLC*, 451 Md. 272 (2017), wherein Maryland's highest court discussed the nature of the evidentiary presumption in special exception cases. The court again emphasized a special exception is properly denied only when there are facts and circumstances showing that the adverse impacts of the use at the particular location in question would be above and beyond those inherently associated with the special exception use.

Mr. Motsco, a professional engineer accepted as an expert, explained the site plan in detail and said he has visited the property on several occasions. He testified the property is approximately 30.8 acres in size and is zoned RC-2. The witness noted the site has mature wooded buffers along all road frontages, and he testified Petitioner is not at this time proposing any new construction on the site. In conclusion, Mr. Motsco opined Petitioner satisfied each of the requirements set forth at B.C.Z.R. §502.1.

Several citizens testified in opposition to the proposal. Though each witness expressed concern with how the project may impact them individually, there were common themes in the testimony. Traffic conditions and roadway safety, and a concern for water wells and private sewage disposal, were the most frequently cited concerns. Many neighbors also complained about several events or gatherings at the site which generated a significant amount of noise. With the exception of the complaints about noise (which will be addressed in a condition included in the

final order), these concerns are inherent in the operation of a church or building for worship located in a rural area. In other words, most uses for which a special exception is required are regarded as "potentially troublesome because of noise, traffic, congestion...." *Montgomery County v. Butler*, 417 Md. 271, 297 (2010).

In rural zones especially roadways are often antiquated and overburdened, and water/sewer services are not provided by the County. Harford Road will be used to access the site, and as a state highway it is under the control and jurisdiction of the State Highway Administration (SHA). As Mr. Caloggeri (a professional engineer accepted as an expert) testified, the SHA, not Baltimore County, will examine the proposed access and determine whether improvements or other measures are necessary to ensure safe ingress/egress from the site.

As noted in the conditions below, Petitioner must obtain approval from Baltimore County for installation of well and septic systems for this property. Ronald Standiford, pastor of the adjacent Redeemer church, noted that the Christian school affiliated with the church has approximately 220 students and the well and septic system are sufficient. According to witnesses in Petitioner's case, far fewer people will visit this site on a daily basis, and thus there is no reason to believe the water supply and sewerage system would not be adequate.

THEREFORE, IT IS ORDERED this 22nd day of **January, 2018**, by this Administrative Law Judge, that the Petition for Special Exception to allow a church or other building for religious worship on property zoned RC-2, be and is hereby GRANTED.

The relief granted herein shall be subject to the following:

1. Petitioner may apply for necessary permits and/or licenses upon receipt of this Order. However, Petitioner is hereby made aware that proceeding at this time is at its own risk until 30 days from the date hereof, during which time an appeal can be filed by any party. If for whatever reason this Order is reversed, Petitioner would be required to return the subject property to its original condition.

2. Petitioner must submit for approval by Baltimore County landscape and lighting plans for the site.
3. Prior to operating a religious facility at the site Petitioner must install a sign at the Harford Road access point (in compliance with the B.C.Z.R. §450) containing the name of the facility and street address.
4. Prior to issuance of occupancy permits, Petitioner must demonstrate to DEPS that the well and septic system proposed will be sufficient to serve the facility.
5. Prior to issuance of permits Petitioner must comply with the ZAC comment of DEPS, a copy of which is attached hereto and incorporated herein.
6. Prior to issuance of permits Petitioner must obtain from SHA an access permit authorizing ingress and egress from the site via Harford Road.
7. Special events held at the site shall be limited to the hours of 10 a.m. to 10 p.m., and outdoor amplification of music or sound shall not be permitted.

Any appeal of this decision must be made within thirty (30) days of the date of this Order.

Cc: County Executive Don Mohler; Lawrence Stahl; Appeals Board
Subject: RE: 18-122-X (Kotroco offer)

Mr. Kotroco

I am in receipt of your email to Carroll Holzer dated 30 July 2018. Carroll is at a house with no cell service and communication with him is very spotty. I wanted to get back to you quickly.

I understand that your clients are now willing to accept an offer made by GFWPA to discuss this issue back in January 2018, shortly after the ALJ hearing of 19 January 2018.

The GFWPA is willing to meet with you and your client with only one condition.

That is that you and your clients stipulate to Mr. Garber and the Zoning Board of Appeals; Judge Stahl, the Managing Judge of the Administrative Law Judge Offices; Mr. Jablon and County Executive Mohler that to this date there is no cause of action for a lawsuit based on religious, cultural or racial intolerance. This stipulation should include language that justifiable and typical zoning enforcement actions do not constitute acts of intolerance on the part of the County.

This simple statement of fact will enable both parties to begin to sort this out with a fresh start.

Upon his return, Carroll may well advise us to take a different position. But you and your clients should be prepared for the above eventuality.

I do not want to put you into an unethical position by responding to me, so I will ask Carroll to contact you upon his return next week.

Regards,

DeWitt S. Clark, Ph.D.
President

Subject: RE: Nepali American Cultural Center 18-122-X Scheduling

Sunny: I know that you wanted to send out a reminder notice for the next hearing date on the above matter (Nepali American Cultural Center). According to my calendar, that date is September 6, 2018. I believe that the Board wanted to start at 9:00 a.m. and that is fine with me. I'll assume that to be the time unless I hear differently from you.

I also understand that at the first hearing date that we had 103 people sign the sign in sheets. That was both sides. I have spoken to my client and they have advised that there will be appreciably less people this next date. They pointed out to me that this was the first week that public schools are back in session and that it is anticipated that many members of their group will be unable to attend because of that.

Obviously, there were a number of neighbors also appearing so I'll leave it to Mr. Holzer's judgment as to whether his side will produce a large number of attendees in September. If not, then I think we can safely conduct the hearing in the Board's room. I am cure that is preferable if possible. And if we have significantly fewer, all can probably fit.

Please let me know what the final decision is on the rook and time. If we are at the Board, Alyssa can contact the court reporter and cancel her (as we will have the Board's recording equipment). And I'll make sure we're present and ready to go at 9:00 a.m.

As always, thanks for your help and efforts with the logistics.

Larry

- 9am start times

→ Kotroco to discuss with Schmidt & their client re: move to Bd Hearing Rooms

7/2/18 10:58 am

Alyssa called re: Nepali and the concerns you expressed about the Council Chambers.

Larry will be bringing an easle to display the Plans and will have extra copies for the Board members.

Larry is reaching out to Holzer about having to share the table. Larry is ok with it.

There will be a spot/area for the witness to testify.

Larry is doing all that he can to address your concerns.

J

STIPULATION BY PARTIES FOR RECORD OF HEARING

Petitioners (Nepali American Cultural Center), by their attorneys, Timothy Kotroco, Lawrence E. Schmidt, Esquire and Smith, Gildea & Schmidt, LLC and Appellants/Protestants, by their attorneys, J. Carroll Holzer and Holzer & Lee, hereby stipulate and agree to the following:

1. The Board of Appeals ("Board") has scheduled seven (7) days for the requisite public hearing on this matter.

2. At the request of the parties, the Board has secured the Baltimore County Council's Chambers in the Historic Courthouse for each of the seven days hearings due to the expected large number of attendees that could not be accommodated in the Board's hearing room.

3. The parties hereby agree that Petitioner will secure a Court Reporter to attend each of the seven hearings at the Council's Chambers, or as many hearing dates as are needed, and a written transcript of each day will be prepared and submitted as part of the Board's file.

4. Parties further agree that the cost of a Court Reporter's attendance and preparation of an original transcript for the Board will be paid by the Petitioners, and any copy of the transcript requested by a party or interested person will be paid for by the party/interested person.

5. In the event that the number of attendees is less than anticipated and the Board conducts any of the hearing dates in its' own hearing room and not the Council's Chambers, then the Board shall utilize the existing recording equipment in the hearing room and the attendance of a court reporter will not be required; unless requested, arranged for and paid by the party who desires that a court reporter be present.

Tim/Carroll: Attached is a stipulation that I have put together regarding the Nepali Cultural Center hearing at the Board of Appeals. As you know, the Board has graciously obtained the Council Chambers for the hearing in anticipation of the crowd. The attached makes provision for creating the record of the case in the manner we've discussed. If the hearings are not attended as expected and the Board decides to move to its own hearing room, we can adjust as indicated. Please let me know if you are all comfortable with the attached and, if so, I'll circulate for signature.
I've also copied Sunny at the Board on this to make sure that the Board is likewise agreeable to proceeding in this fashion. Of course, let me know about any changes or corrections that are requested. Thanks

Parties agreed to submit a written agreement regarding how the record before the Board will be created. The deadline for submitting that written agreement is 3:00 p.m. on June 25, 2018

NOTICE:

- This appeal is an evidentiary hearing. Parties should consider the advisability of retaining an attorney.
- Please refer to the Board's Rules of Practice & Procedure, Appendix B, Baltimore County Code.
- No postponements will be granted without sufficient reasons; said requests must be in writing and in compliance with Rule 2(b) of the Board's Rules. No postponements will be granted within 15 days of scheduled hearing date unless in full compliance with Rule 2(c).
- If you have a disability requiring special accommodations, please contact this office at least one week prior to hearing date.
- Parties must file one (1) original and three (3) copies of all Motions, Memoranda, and exhibits (including video and PowerPoint) with the Board unless otherwise requested.
- Projection equipment for digital exhibits is available by request. A minimum of forty-eight (48) hours-notice is required. Supply is limited and not guaranteed.

Subject: Nepali American Cultural Center 18-122-X Scheduling

Good morning Counsel,

As you are aware, in trying to schedule a total of seven hearing dates, we have offered every available date in July, August, and September. After checking with the Board and County Council, we will be scheduling July 19, September 6, and September 12, 2018.

In an effort to find at least four more hearing dates, we are hereby offering October, November, and December. Please review the following dates with your clients and witnesses, and let me know as many dates as possible that you are available.

October 3, 4, 11, 17, 18, 23, 24, 25,
November 1, 8, 15, 29
December 5, 6, 13, 19, 20

Additionally, the Board is still awaiting the agreement regarding the record.

Thank you for your attention and cooperation in this matter.

Sunny

Subject: Nepali American Cultural Center 18-122-X Scheduling

Good morning Counsel,

I am following up regarding my email of Thursday, May 10, 2018. I asked you to double check the dates previously offered (July 17, 18, 24, 25, 26, August 1, 2, 8, 15, and 16) as well as review new dates (August 21, 22, 23, 29, 30, September 5, 6, 11, 12, 13, 18, 19, 20, 25, 26, and 27) for the scheduling of 7 total hearing dates in this matter. Presently I am holding July 19, August 9 and August 14.

As you know, we have been trying to schedule this matter for the last 3 weeks. I have other cases that I cannot schedule while waiting to hear back from you. Therefore, I kindly request that you respond regarding the above dates no later than the close of business on Friday, May 18, 2018. Otherwise, I will assume all dates listed above are available and we will schedule the dates that work best for the Board and County Council.

Lastly, the written agreement regarding the record and transcripts is still outstanding.

Thank you,

Sunny

Subject: Nepali American Cultural Center

Good afternoon Counsel,

Thank you for your emails.

As explained by phone, I am grateful you have agreed on three dates, however, I have not reviewed any of the dates offered with the Board or County Council.

It is my understanding that Mr. Schmidt and Mr. Kotroco anticipate needing 3 days for Petitioner's case. Mr. Holzer indicated to me, by phone, that he anticipates needing 3 or 4 days for Protestant's case. Therefore, I am trying to schedule 7 days of hearing.

In an effort to do so, I asked that parties double check the dates previously offered for more availability. I will check the July 19, August 9, and August 14 dates with the Board and Council. I am now asking that you check the following dates as well: August 21, 22, 23, 29, 30, September 5, 6, 11, 12, 13, 18, 19, 20, 25, 26, and 27.

As for the part regarding the Court Reporter and transcript, the Board has asked for an agreement of the parties in writing.

Thank you for your time and consideration in this matter.

Sunny,

I thought it was easiest to summarize the dates that Applicant/Developer are available. As I understand your initial email, the dates offered are not yet confirmed with the panel's calendars nor the availability of the counsel room. As such, for scheduling purposes, Applicant/Developer are available the following dates: July 17, 18, 19, 24, 25 and August 1, 2, and 14.

Thanks.

Sunny,

I assume that the Court reporter will only be needed for the dates that we are having our hearing at the County Council hearing room. For all of the other dates where we are meeting at the Board of Appeal's hearing room, we will utilize the Board's recording system. Mr. Holzer indicated that after a few days of hearings have passed the crowd will be manageable enough to use the Board's hearing room and suggested that we only use the County Council Chambers for the first three or four days. I agree with his assessment.

My client has agreed to pay for the court reporter for the days when we meet at the County Council hearing room.

Thank you.

Subject: Nepali American Cultural Center 18-122-X Scheduling

Good afternoon Counsel,

Concern was expressed over the County Council working directly with you regarding scheduling. Therefore, I will be working with you, the County Council, and the Board, to schedule this matter. Currently, the following dates are available on my calendar: July 17, 18, 19, 24, 25, 26, August 1, 2, 8, 9, 14, 15, and 16, 2018.

As usual, any hearing scheduled would commence at 10:00 a.m. As always, we will schedule the dates as consecutively as possible.

Please be advised, I will be out of the office next week, returning on Tuesday, May 8th. I kindly request that you take this time to coordinate with your witnesses and clients and email me your availability. Upon my return, I will review your emails and coordinate the dates that work for you with the Board members and County Council.

It is my understanding that you are to provide me with an email which details the agreement of the parties with regard to a Court Reporter and transcript. Please include this information with your email about your available dates.

Thank you,

Sunny

Sunny
Because scheduling cases before the CBA will be difficult during the summer, I prepared the following list of dates that I will be away on vacation, or conflicts with previously scheduled cases:
June 1, Court of Special Appeals
June 5, Balto. Co. Circuit Court
July 21 thru Aug. 4, Vacation

Hope this helps,
Carroll Holzer

Good afternoon Counsel,

Concern was expressed over the County Council working directly with you regarding scheduling. Therefore, I will be working with you, the County Council, and the Board, to schedule this matter. Currently, the following dates are available on my calendar: July 17, 18, 19, 24, 25, 26, August 1, 2, 8, 9, 14, 15, and 16, 2018.

As usual, any hearing scheduled would commence at 10:00 a.m. As always, we will schedule the dates as consecutively as possible.

Please be advised, I will be out of the office next week, returning on Tuesday, May 8th. I kindly request that you take this time to coordinate with your witnesses and clients and email me your availability. Upon my return, I will review your emails and coordinate the dates that work for you with the Board members and County Council.

It is my understanding that you are to provide me with an email which details the agreement of the parties with regard to a Court Reporter and transcript. Please include this information with your email about your available dates.

Thank you,

Sunny

Subject: RE: Hearing Room

Larry,

I spoke with Sunny this morning and she did speak with Chris Belcastro, our Administrator here, last week and did get some dates from Chris as to when the Chamber would not be available for use (since that's a much smaller block of dates because we don't use it nearly as much in the summer). So she has some dates and indicated she will coordinate with the lawyers in the case to get some dates of when you and the others, and your witnesses, are available and then check the Board's schedule, then circle back to make sure those dates still jibe with when the room is available. So she's aware of it and will be working on it with the lawyers, Chris here at the Council, and the Board.

Thanks. Tom.

Subject: RE: Hearing Room

Hi Tom: We had our scheduling conference at the Board today. Sunny was aware of my contact to you but indicated that she had not talked to anyone. So I don't know what is going on there. Tim Kotroco said he was going to call you and perhaps he's already done that. Let us know.

Sunny said that she is already scheduling cases into July. SO I would think we would want to have hearing dates from mid July through mid August. Perhaps 304 days during that time frame. Obviously subject to when the Council is using the room or someone else has "first dibs" on it. From the website, it looks like the Council has work sessions or legislative sessions July 2, 2018, July 31, 2018 and August 6, 2018. That works for us as there are few conflicts in that summer is pretty light. Let Tim or I know.
Thanks again.

Larry

Larry,

From what I understand, Sunny at the Board of Appeals also reached out to Chris Belcastro, the Administrator here, last week and broached the question as well (assuming it's the same case – can't imagine it isn't) of whether they could potentially utilize the Chamber for a hearing due to the anticipated large number of persons attending. It appears that Chris and Sunny are working on the scheduling details, so I think it is likely a go. You may want to follow up with Sunny.

Thanks. Tom.

Okay Larry. It sounds reasonable but I frankly just don't know what the protocols are for using our room.

I am away today and tomorrow but I'll be back in the office on Monday.

Is this something I can discuss with Chris and Tom on Monday rather than just forwarding our emails?

Tom.

> That's fine. I think the hearing that I had was probably in the 1990's (as you know, I was Commissioner from 1991 to 2004) so it has been a long time ago. I just recall that it took some heavy lifting, but I recall we had the hearing at the Council Chambers.
>
> Tim Kotroco handled the instant case before Beverungen and I've seen the sign in sheets. He brought me in as co-counsel for the appeal. Tim said he thinks there were about 80 people there at the ALJ hearing from the Church and another 40

from the neighborhood. It was apparently a mob scene. People were standing in the aisles and in the hall. It was somewhat disruptive from what I am told.

We can get around the requirement of recording the proceedings by bringing in a court reporter in lieu of the recording equipment that is installed in the Board's hearing room. So creating a record is not an obstacle to moving the hearing. The Board's hearing room is no bigger than Beverungen's (if that big) and typically appeals' hearings generate crowds larger than the ALJ hearings.

If nothing can be done than so be it; I was just trying to get in front of the issue and offer the Board an option. I am supposed to meet at the Board on April 26 as sort of a preliminary logistics conference and wanted to reach out to you before hand.

If you have any thoughts (or Tom or Chris do), let me know.

Thanks for the response.

Larry,

That issue never came up when I was in the zoning commissioner's office,

We had a few hearings that generated quite a bit of interest, however, we used to hold our hearings in room 106 which was fairly large and the planning board room in the Jefferson building. That also could accommodate quite a few people. Certainly not as big as the council chamber.

If it's OK with you, I will forward your email to Tom Peddicord and Chris Belcastro and see what they think.

Tom.

> Tom: I have a question and perhaps you can provide some direction. When I was Zoning Commissioner, I recall having a hearing that generated a lot of public interest so that the hearing room could not accommodate all of the individuals who appeared. I recall asking the County Council if we could use the Council chambers on a date that did not conflict with any of their events and I seem to recall that they consented. I think the Council chambers is the biggest meeting type space of that nature in Towson. I can't think of anything comparable in the New Courts Building or Courthouse.
>
> Anyway, I am getting involved in a case involving a Church and expect a lot of folks attending, both from the Church and the neighborhood. I was wondering if any such arrangement could be made? I expect that the hearing may not be held under the summer (after May 31) so that might help in that the schedule might be lighter then (summer). I don't know if you have any thoughts or if this ever came up when you were DZC.

Cc: Timothy M. Kotroco (tkotroco@gmail.com); Alyssa Moyers
Subject: RE: 12231 Harford Road/2018-122-X

Sunny: I'd think we'd want to discuss/settle:

1. The number of days required for the hearing. (I'd say three, but defer to Tim and Carroll as I am new to the case).
2. Get those dates scheduled and make them consecutive (or nearly so, i.e. 2 one week and the third the following; but not so we have months go by between hearing dates).
3. Where the hearing will be held. I appreciate that the Board has the room it has and it is what it is. But I also anticipate a large crowd. On the Church side, people could argue that the County is improperly not "accommodating" their desire to be present and participate in the exercise of their advocacy for their religion if they can't get in the room. The opponents may also object. In other words, at least the issue should be discussed. Whether there is any resolution remains to be seen.
4. Identify any preliminary motions (if any) that either side has. (I can't think of any off hand)
5. If mutually agreeable, the parties could identify experts (no requirement that this be done but it could be discussed.)
6. Identify when experts will be testifying (i.e. "my traffic expert will testify on the second day so your traffic expert can be present to hear that testimony").
7. Any pre-trial briefing ? (none that I know of)

I am not sure we need to be together to discuss all of this. But I'm willing to appear as needed and/or conference call or work through you (Sunny) or whatever is the Board's preference.

Subject: RE: 12231 Harford Road/2018-122-X

I have no problem "opening the case" on April 26 to take care of "preliminary matters." I would think mainly scheduling and logistics. I don't think starting with any witnesses makes sense as we'll not get in for a second day in months and I don't think it makes sense starting presentation of witnesses. But if you want us all in one place to map out the future proceedings, ok with me.

Larry

Ladies and Counselors
Mr. Holzer is in Florida until Saturday. I have seen the letter of postponement and the the joining of Larry Schmidt to the team representing Nepali American Cultural Center. I was away Monday & Tuesday and am only now getting into the postponement request. I do not know our position. I will talk to our clients and Mr. Holzer about the postponement.

Alternatively, is it possible for the case to be opened on April 26 to take care of some preliminary matters, witnesses, experts, etc. at that time and then discuss dates, duration and location so everyone is on the same page on the 26th? I think I have seen that in the past from the other side.
Best regards,
Sterling Leese

Re: In the Matter of: Nepali American Cultural Center
Property: 12231 Harford Road
Case No. 2018-122-X

Dear Sunny,

Please accept this letter as notice that I have been hired to serve as co-counsel with Timothy M. Kotroco for the Petitioners, Nepali American Cultural Center, in the above referenced matter. Please copy me on all future correspondence, notices and orders related to this matter.

I understand that this matter has been scheduled for a hearing before the Board on April 26, 2018 beginning at 10:00 a.m. Unfortunately, I believe that the anticipated opposition in this matter will require a minimum of three (3) days of hearing before the Board. Accordingly, I respectfully request that this matter be postponed to a week that the Board can schedule three consecutive days. I would also request that, based on the attendance at the Administrative Law Judge hearing, this matter could be set for a hearing in a larger room available at the County. Perhaps the County Council would allow their space.

Mr. Kotroco and I have both reached out to Mr. Holzer to obtain his concurrence with these requests, however, we were advised that he will be out of the office until next week.

Thank you for your courtesy. I look forward to hearing from you.

Very truly yours,

Lawrence E. Schmidt

Re: Nepali American Cultural Center
18-122-X

Larry Schmidt has been retained to be Co-Counsel with Jim Kotroco to represent Nepali American Cultural Center.

Larry will be sending a letter requesting a postponement of the April 26th hearing and requesting that 3 days of hearings be scheduled.

- Also they anticipate a large amount of people attending the hearing. Would it be possible to see if hearings could be held at the Council hearing room? (Larry did that once as Zoning Commissioner).
I indicated we need a recording - Courtsmart there?
Alyssa said they will most likely have a Court Reporter at the hearings as she is sure it will be appealed.
I said our budget does not allow/accommodate a Court Reporter.

IN RE: PETITION FOR SPECIAL EXCEPTION (12231 Harford Road) 11th Election District 5th Council District Nepali American Cultural Center *Legal Owner*	*	BEFORE THE OFFICE OF ADMINISTRATIVE HEARINGS
	*	FOR BALTIMORE COUNTY
Petitioner	*	Case No. 2018-0122-X

* * * * * * * * * * *

OPINION AND ORDER

This matter comes before the Office of Administrative Hearings (OAH) for consideration of a Petition for Special Exception filed on behalf of Nepali American Cultural Center, legal owner ("Petitioner"). The Special Exception was filed pursuant to the Baltimore County Zoning Regulations ("B.C.Z.R.") to allow a church or other building for religious worship on property zoned RC-2.

Professional engineers John Motsco and Joe Caloggeri appeared in support of the petition. Timothy M. Kotroco, Esq. represented the Petitioner. Numerous citizens attended the hearing and objected to the request. Substantive Zoning Advisory Committee (ZAC) comments were received from the Department of Planning (DOP), the Bureau of Development Plans Review (DPR), State Highway Administration (SHA) and the Department of Environmental Protection and Sustainability (DEPS). None of the reviewing agencies objected to the request.

The subject property is approximately 30.8 acres and is zoned RC-2. The property is improved with an historic single-family dwelling and several outbuildings. Petitioner purchased the property last year, at which time it was rundown and abandoned. Photographs submitted at the hearing reveal extensive vandalism to the property which occurred both before and after Petitioner purchased the property. Petitioner is in the process of renovating the property, and estimates that

final order), these concerns are inherent in the operation of a church or building for worship located in a rural area. In other words, most uses for which a special exception is required are regarded as "potentially troublesome because of noise, traffic, congestion…." *Montgomery County v. Butler*, 417 Md. 271, 297 (2010).

In rural zones especially roadways are often antiquated and overburdened, and water/sewer services are not provided by the County. Harford Road will be used to access the site, and as a state highway it is under the control and jurisdiction of the State Highway Administration (SHA). As Mr. Caloggeri (a professional engineer accepted as an expert) testified, the SHA, not Baltimore County, will examine the proposed access and determine whether improvements or other measures are necessary to ensure safe ingress/egress from the site.

As noted in the conditions below, Petitioner must obtain approval from Baltimore County for installation of well and septic systems for this property. Ronald Standiford, pastor of the adjacent Redeemer church, noted that the Christian school affiliated with the church has approximately 220 students and the well and septic system are sufficient. According to witnesses in Petitioner's case, far fewer people will visit this site on a daily basis, and thus there is no reason to believe the water supply and sewerage system would not be adequate.

THEREFORE, IT IS ORDERED this **22nd** day of **January, 2018,** by this Administrative Law Judge, that the Petition for Special Exception to allow a church or other building for religious worship on property zoned RC-2, be and is hereby GRANTED.

The relief granted herein shall be subject to the following:

1. Petitioner may apply for necessary permits and/or licenses upon receipt of this Order. However, Petitioner is hereby made aware that proceeding at this time is at its own risk until 30 days from the date hereof, during which time an appeal can be filed by any party. If for whatever reason this Order is reversed, Petitioner would be required to return the subject property to its original condition.

Petitioner purchased the property last year, at which time it was rundown and abandoned. Photographs submitted at the hearing reveal extensive vandalism to the property which occurred both before and after Petitioner purchased the property. Petitioner is in the process of renovating the property, and estimates that

final order), these concerns are inherent in the operation of a church or building for worship located in a rural area. In other words, most uses for which a special exception is required are regarded as "potentially troublesome because of noise, traffic, congestion...." *Montgomery County v. Butler*, 417 Md. 271, 297 (2010).

In rural zones especially roadways are often antiquated and overburdened, and water/sewer services are not provided by the County. Harford Road will be used to access the site, and as a state highway it is under the control and jurisdiction of the State Highway Administration (SHA). As Mr. Caloggeri (a professional engineer accepted as an expert) testified, the SHA, not Baltimore County, will examine the proposed access and determine whether improvements or other measures are necessary to ensure safe ingress/egress from the site.

As noted in the conditions below, Petitioner must obtain approval from Baltimore County for installation of well and septic systems for this property. Ronald Standiford, pastor of the adjacent Redeemer church, noted that the Christian school affiliated with the church has approximately 220 students and the well and septic system are sufficient. According to witnesses in Petitioner's case, far fewer people will visit this site on a daily basis, and thus there is no reason to believe the water supply and sewerage system would not be adequate.

THEREFORE, IT IS ORDERED this **22nd** day of **January, 2018,** by this Administrative Law Judge, that the Petition for Special Exception to allow a church or other building for religious worship on property zoned RC-2, be and is hereby GRANTED.

The relief granted herein shall be subject to the following:

1. Petitioner may apply for necessary permits and/or licenses upon receipt of this Order. However, Petitioner is hereby made aware that proceeding at this time is at its own risk until 30 days from the date hereof, during which time an appeal can be filed by any party. If for whatever reason this Order is reversed, Petitioner would be required to return the subject property to its original condition.

IN RE: PETITION FOR SPECIAL EXCEPTION (12231 Harford Road) 11th Election District 5th Council District Nepali American Cultural Center *Legal Owner*	*	BEFORE THE OFFICE OF ADMINISTRATIVE HEARINGS FOR BALTIMORE COUNTY
Petitioner	*	Case No. 2018-0122-X

* * * * * * * * * * *

OPINION AND ORDER

This matter comes before the Office of Administrative Hearings (OAH) for consideration of a Petition for Special Exception filed on behalf of Nepali American Cultural Center, legal owner ("Petitioner"). The Special Exception was filed pursuant to the Baltimore County Zoning Regulations ("B.C.Z.R.") to allow a church or other building for religious worship on property zoned RC-2.

Professional engineers John Motsco and Joe Caloggeri appeared in support of the petition. Timothy M. Kotroco, Esq. represented the Petitioner. Numerous citizens attended the hearing and objected to the request. Substantive Zoning Advisory Committee (ZAC) comments were received from the Department of Planning (DOP), the Bureau of Development Plans Review (DPR), State Highway Administration (SHA) and the Department of Environmental Protection and Sustainability (DEPS). None of the reviewing agencies objected to the request.

The subject property is approximately 30.8 acres and is zoned RC-2. The property is improved with an historic single-family dwelling and several outbuildings. Petitioner purchased the property last year, at which time it was rundown and abandoned. Photographs submitted at the hearing reveal extensive vandalism to the property which occurred both before and after Petitioner purchased the property. Petitioner is in the process of renovating the property, and estimates that

ORDER RECEIVED FOR FILING
Date 11/22/18
By

at least 4-5 months of additional restoration work needs to be done before the property can be used by the congregation.

Special Exception

Doug Burgess, an attorney with a law office in the area, testified a special exception use enjoys a presumption that it is in the interest of the general welfare, and therefore, valid. *Schultz v. Pritts*, 291 Md. 1 (1981). The *Schultz* standard was revisited in *Attar v. DMS Tollgate, LLC*, 451 Md. 272 (2017), wherein Maryland's highest court discussed the nature of the evidentiary presumption in special exception cases. The court again emphasized a special exception is properly denied only when there are facts and circumstances showing that the adverse impacts of the use at the particular location in question would be above and beyond those inherently associated with the special exception use.

Mr. Motsco, a professional engineer accepted as an expert, explained the site plan in detail and said he has visited the property on several occasions. He testified the property is approximately 30.8 acres in size and is zoned RC-2. The witness noted the site has mature wooded buffers along all road frontages, and he testified Petitioner is not at this time proposing any new construction on the site. In conclusion, Mr. Motsco opined Petitioner satisfied each of the requirements set forth at B.C.Z.R. §502.1.

Several citizens testified in opposition to the proposal. Though each witness expressed concern with how the project may impact them individually, there were common themes in the testimony. Traffic conditions and roadway safety, and a concern for water wells and private sewage disposal, were the most frequently cited concerns. Many neighbors also complained about several events or gatherings at the site which generated a significant amount of noise. With the exception of the complaints about noise (which will be addressed in a condition included in the

ORDER RECEIVED FOR FILING
Date 1/22/18
By lsln

final order), these concerns are inherent in the operation of a church or building for worship located in a rural area. In other words, most uses for which a special exception is required are regarded as "potentially troublesome because of noise, traffic, congestion...." *Montgomery County v. Butler*, 417 Md. 271, 297 (2010).

In rural zones especially roadways are often antiquated and overburdened, and water/sewer services are not provided by the County. Harford Road will be used to access the site, and as a state highway it is under the control and jurisdiction of the State Highway Administration (SHA). As Mr. Caloggeri (a professional engineer accepted as an expert) testified, the SHA, not Baltimore County, will examine the proposed access and determine whether improvements or other measures are necessary to ensure safe ingress/egress from the site.

As noted in the conditions below, Petitioner must obtain approval from Baltimore County for installation of well and septic systems for this property. Ronald Standiford, pastor of the adjacent Redeemer church, noted that the Christian school affiliated with the church has approximately 220 students and the well and septic system are sufficient. According to witnesses in Petitioner's case, far fewer people will visit this site on a daily basis, and thus there is no reason to believe the water supply and sewerage system would not be adequate.

THEREFORE, IT IS ORDERED this **22nd** day of **January, 2018,** by this Administrative Law Judge, that the Petition for Special Exception to allow a church or other building for religious worship on property zoned RC-2, be and is hereby GRANTED.

The relief granted herein shall be subject to the following:

1. Petitioner may apply for necessary permits and/or licenses upon receipt of this Order. However, Petitioner is hereby made aware that proceeding at this time is at its own risk until 30 days from the date hereof, during which time an appeal can be filed by any party. If for whatever reason this Order is reversed, Petitioner would be required to return the subject property to its original condition.

ORDER RECEIVED FOR FILING
Date 1/22/18
By ASH

2. Petitioner must submit for approval by Baltimore County landscape and lighting plans for the site.
3. Prior to operating a religious facility at the site Petitioner must install a sign at the Harford Road access point (in compliance with the B.C.Z.R. §450) containing the name of the facility and street address.
4. Prior to issuance of occupancy permits, Petitioner must demonstrate to DEPS that the well and septic system proposed will be sufficient to serve the facility.
5. Prior to issuance of permits Petitioner must comply with the ZAC comment of DEPS, a copy of which is attached hereto and incorporated herein.
6. Prior to issuance of permits Petitioner must obtain from SHA an access permit authorizing ingress and egress from the site via Harford Road.
7. Special events held at the site shall be limited to the hours of 10 a.m. to 10 p.m., and outdoor amplification of music or sound shall not be permitted.

Any appeal of this decision must be made within thirty (30) days of the date of this Order.

RE: Case Number: 2018-0122 X, Address: 12231 Harford Road

To Whom It May Concern:

The above referenced petition was accepted for processing **ONLY** by the Bureau of Zoning Review, Department of Permits, Approvals, and Inspection (PAI) on October 31, 2017. This letter is not an approval, but only a **NOTIFICATION.**

The Zoning Advisory Committee (ZAC), which consists of representatives from several approval agencies, has reviewed the plans that were submitted with your petition. All comments submitted thus far from the members of the ZAC are attached. These comments are not intended to indicate the appropriateness of the zoning action requested, but to ensure that all parties (zoning commissioner, attorney, petitioner, etc.) are made aware of plans or problems with regard to the proposed improvements that may have a bearing on this case. All comments will be placed in the permanent case file.

If you need further information or have any questions, please do not hesitate to contact the commenting agency.

Very truly yours,

W. Carl Richards, Jr.
Supervisor, Zoning Review

Inter-Office Correspondence

TO: Hon. Lawrence M. Stahl; Managing Administrative Law Judge
Office of Administrative Hearings

FROM: Jeff Livingston, Department of Environmental Protection and Sustainability (EPS) - Development Coordination

DATE: November 21, 2017

SUBJECT: DEPS Comment for Zoning Item # 2018-0122-X
Address 12231 Harford Road
(Nepali American Cultural Center Property)

Zoning Advisory Committee Meeting of **November 13, 2017**.

__X__ The Department of Environmental Protection and Sustainability offers the following comments on the above-referenced zoning item:

__X__ Any development of the property must comply with the Regulations for the Protection of Water Quality, Streams, Wetlands and Floodplains (Sections 33-3-101 through 33-3-120 of the Baltimore County Code).

__X__ Any development of this property must comply with the Forest Conservation Regulations (Sections 33-6-101 through 33-6-122 of the Baltimore County Code).

Ms. Kristen Lewis
Baltimore County Department of
Permits, Approvals and Inspections
County Office Building, Room 109
Towson, Maryland 21204

Dear Ms. Lewis:

Thank you for the opportunity to review the site plan to accompany the petition for special exception, for a proposed church on the property at 12231 Harford Road (MD 147) located on the east side of MD 147 south of Mt. Vista Road in Baltimore County. The Maryland Department of Transportation State Highway Administration (MDOT SHA) has reviewed the submittal listed below and is pleased to respond.

12231 Harford Road
Site Plan Review for Special Exception
Case No. 2018-0122-X
SHA Tracking No. 17APBA030XX
MD 147 (east side) 1000' south of Mt. Vista Road
Mile Post 8.10
Baltimore County

The MDOT SHA requests the opportunity to review a trip generation analysis for this proposed development to determine the extent of road improvements needed to mitigate the traffic impact. This analysis should be sent to the District 4 Office, Ms. Wendy Wolcott, 320 West Warren Road, Hunt Valley, MD 21030 to the attention of Richard Zeller. Please utilize the above SHA tracking number when making this submission.

The MDOT SHA notes that the sight distance at the existing entrance on MD 147 when looking south is inadequate, and therefore recommends that the developer investigate the possibility of constructing a new access along the property frontage on MD 147 to accommodate this new development, where adequate sight distance could be achieved.

Whether a new access will be constructed, or safety improvements to the existing entrance (acceleration/deceleration lanes), an access permit will be required from the Access Management Office to construct the improvements.

If there are any questions, please contact Mr. Richard Zeller at 410-229-2332 or toll free (in Maryland only), 1-866-998-0367 (x2332) or by email at (rzeller@sha.state.md.us).

Sincerely,

Wendy Wolcott, P.L.A.

DEPARTMENT OF PERMITS, APPROVALS AND INSPECTIONS
ZONING REVIEW OFFICE

ADVERTISING REQUIREMENTS AND PROCEDURES FOR ZONING HEARINGS

The Baltimore County Zoning Regulations (BCZR) require that notice be given to the general public/neighboring property owners relative to property which is the subject of an upcoming zoning hearing. For those petitions which require a public hearing, this notice is accomplished by posting a sign on the property (responsibility of the legal owner/petitioner) and placement of a notice in a newspaper of general circulation in the County, both at least twenty (20) days before the hearing.

Zoning Review will ensure that the legal requirements for advertising are satisfied. However, the legal owner/petitioner is responsible for the costs associated with these requirements. The newspaper will bill the person listed below for the advertising. This advertising is due upon receipt and should be remitted directly to the newspaper.

OPINIONS MAY NOT BE ISSUED UNTIL ALL ADVERTISING COSTS ARE PAID.

Mr. Kotroco,

It has been brought to my attention that the ZAC comment from DEPS referred to on page 4 (condition #5) was not attached to ALJ Beverungen's Opinion and Order; please find attached now. In the event that you have not received the Order, I have attached that as well.

Let me know if you require anything further.

Thanks.

OFFICE OF
ADMINISTRATIVE HEARINGS

January 16, 2018

Administrative Law Judge,
Jefferson Building,
105 W. Chesapeake Ave
Towson, MD 21204

To the administrative law judge for hearing 2018-0122-X, on the property at 12231 Harford Rd, Hydes, MD.

We regret that we were not able to attend the hearing in person. We are the owners and residents of 12402 Harford Rd, approximately half a mile north of the location for which a zoning exemption is being requested.

We were deeply concerned that the property owners of 12231 Harford Rd. hosted several events during the summer of 2017 without proper permitting and with no prior notification of the residents of the area. We're further concerned about the potential impacts resulting from increasing demand placed on the water and septic systems by a greatly enlarged level of activity at the property. Additionally, the property entrance is located on a dangerous curve on Harford Rd. With that said, we also recognize the importance of allowing people the opportunity to worship as an important part of life. It is therefore our position to ask that any zoning exemption be allowed for a church only, with conditions limiting the number and size of special events, including fairs and festivals, which would be allowed to take place on the property. We further ask that a cultural center or other commercial entity not be permitted under any zoning exemption. If it is not possible for a zoning exemption to allow for a church only, with limitations on event size and frequency, than we would ask that the zoning exemption request be rejected completely. Finally, in the event that a zoning exemption is granted, we would ask that the zoning revert to its current type should a transfer of ownership occur.

Thank you for taking the time to consider our input.

Very sincerely,

Alexander and Linda McLean

Subject: Nepali American Cultural Center of Baltimore

Hi Wade,

I learned via facebook about the Nepali American Cultural Center of Baltimore planning on taking over the mansion just up the road from my home. This was the first we have heard about this and are not real happy about it moving forward.

I have lots of questions:

1. How is it that only a zoning exception will be required and not a zoning change on a RC2 zoned property?
2. Is the state of Maryland OK with the increased traffic on Harford Road and the driveway entrance/exit for increased vehicle traffic?
3. What are the exact plans/activities of the Cultural Center.... Religious services, daycare, schools, community events/festivals? Cultural Center is a very broad term and does not give specific activities for the property use. Current use type specified on tax records is "Agricultural".
4. Why was the community not informed of this project until now?
5. How many members will be attracted to the facility?

Can you provide more details of the exact use of this property and to my questions above?

I also would like to speak to you via telephone when you have a moment.

Thank you,
Tim Theodoropoulos

ADMINISTRATIVE VARIANCE INFORMATION SHEET AND DATES

Case Number 2014- 0135 -A Address 12241 Hartford Rd.

Contact Person: LEONARD WASILEWSKI Phone Number: 410-887-3391
Planner, Please Print Your Name

Filing Date: 12/12/13 **Posting Date:** 12/22/13 **Closing Date:** 1/6/14

Any contact made with this office regarding the status of the administrative variance should be through the contact person (planner) using the case number.

1. **POSTING/COST:** The petitioner must use one of the sign posters on the approved list (on the reverse side of this form) and the petitioner is responsible for all printing/posting costs. Any reposting must be done only by one of the sign posters on the approved list and the petitioner is again responsible for all associated costs. The zoning notice sign must be visible on the property on or before the posting date noted above. It should remain there through the closing date.

2. **DEADLINE:** The closing date is the deadline for an occupant or owner within 1,000 feet to file a formal request for a public hearing. Please understand that even if there is no formal request for a public hearing, the process is not complete on the closing date.

3. **ORDER:** After the closing date, the file will be reviewed by the zoning or deputy zoning commissioner. He may: (a) grant the requested relief; (b) deny the requested relief; or (c) order that the matter be set in for a public hearing. You will receive written notification, usually within 10 days of the closing date if all County agencies' comments are received, as to whether the petition has been granted, denied, or will go to public hearing. The order will be mailed to you by First Class mail.

4. **POSSIBLE PUBLIC HEARING AND REPOSTING:** In cases that must go to a public hearing (whether due to a neighbor's formal request or by order of the zoning or deputy zoning commissioner), notification will be forwarded to you. The sign on the property must be changed giving notice of the hearing date, time and location. As when the sign was originally posted, certification of this change and a photograph of the altered sign must be forwarded to this office.

(Detach Along Dotted Line)

Petitioner: This Part of the Form is for the Sign Poster Only

USE THE ADMINISTRATIVE VARIANCE SIGN FORMAT

Case Number 2014- 0135 -A Address 12241 Hartford Rd.

RE: Case Number: 2014-0135 A, Address: 12241 Harford Road

Dear Mr. & Ms. Poehler:

The above referenced petition was accepted for processing **ONLY** by the Bureau of Zoning Review, Department of Permits, Approvals, and Inspection (PAI) on December 12, 2013. This letter is not an approval, but only a **NOTIFICATION.**

The Zoning Advisory Committee (ZAC), which consists of representatives from several approval agencies, has reviewed the plans that were submitted with your petition. All comments submitted thus far from the members of the ZAC are attached. These comments are not intended to indicate the appropriateness of the zoning action requested, but to ensure that all parties (zoning commissioner, attorney, petitioner, etc.) are made aware of plans or problems with regard to the proposed improvements that may have a bearing on this case. All comments will be placed in the permanent case file.

If you need further information or have any questions, please do not hesitate to contact the commenting agency.

Very truly yours,

W. Carl Richards, Jr.
Supervisor, Zoning Review

RE: Baltimore County
Item No. 2014-0135-A.
Administrative Variance
Bernadette T. & Clarence Poehler
12241 Harford Road
MD147

Dear Ms. Lewis:

We have reviewed the site plan to accompany petition for variance on the subject of the above captioned, which was received on 12/16/13. A field inspection and internal review reveals that an entrance onto MD147 consistent with current State Highway Administration guidelines is not required. Therefore, SHA has no objection to approval for Variance, Case Number 2014-0135-A.

Should you have any questions regarding this matter feel free to contact Richard Zeller at 410-545-5598 or 1-800-876-4742 extension 5598. Also, you may email him at (rzeller@sha.state.md.us). Thank you for your attention.

Sincerely,

Steven D. Foster, Chief/
Development Manager
Access Management Division

SDF/raz

2. Petitioner must submit for approval by Baltimore County landscape and lighting plans for the site.
3. Prior to operating a religious facility at the site Petitioner must install a sign at the Harford Road access point (in compliance with the B.C.Z.R. §450) containing the name of the facility and street address.
4. Prior to issuance of occupancy permits, Petitioner must demonstrate to DEPS that the well and septic system proposed will be sufficient to serve the facility.
5. Prior to issuance of permits Petitioner must comply with the ZAC comment of DEPS, a copy of which is attached hereto and incorporated herein.
6. Prior to issuance of permits Petitioner must obtain from SHA an access permit authorizing ingress and egress from the site via Harford Road.
7. Special events held at the site shall be limited to the hours of 10 a.m. to 10 p.m., and outdoor amplification of music or sound shall not be permitted.

Any appeal of this decision must be made within thirty (30) days of the date of this Order.

Signed
JOHN E. BEVERUNGEN
Administrative Law Judge
for Baltimore County

JEB/sln

final order), these concerns are inherent in the operation of a church or building for worship located in a rural area. In other words, most uses for which a special exception is required are regarded as "potentially troublesome because of noise, traffic, congestion...." *Montgomery County v. Butler*, 417 Md. 271, 297 (2010).

In rural zones especially roadways are often antiquated and overburdened, and water/sewer services are not provided by the County. Harford Road will be used to access the site, and as a state highway it is under the control and jurisdiction of the State Highway Administration (SHA). As Mr. Caloggeri (a professional engineer accepted as an expert) testified, the SHA, not Baltimore County, will examine the proposed access and determine whether improvements or other measures are necessary to ensure safe ingress/egress from the site.

As noted in the conditions below, Petitioner must obtain approval from Baltimore County for installation of well and septic systems for this property. Ronald Standiford, pastor of the adjacent Redeemer church, noted that the Christian school affiliated with the church has approximately 220 students and the well and septic system are sufficient. According to witnesses in Petitioner's case, far fewer people will visit this site on a daily basis, and thus there is no reason to believe the water supply and sewerage system would not be adequate.

THEREFORE, IT IS ORDERED this **22nd** day of **January, 2018,** by this Administrative Law Judge, that the Petition for Special Exception to allow a church or other building for religious worship on property zoned RC-2, be and is hereby GRANTED.

The relief granted herein shall be subject to the following:

1. Petitioner may apply for necessary permits and/or licenses upon receipt of this Order. However, Petitioner is hereby made aware that proceeding at this time is at its own risk until 30 days from the date hereof, during which time an appeal can be filed by any party. If for whatever reason this Order is reversed, Petitioner would be required to return the subject property to its original condition.

at least 4-5 months of additional restoration work needs to be done before the property can be used by the congregation.

Special Exception

Doug Burgess, an attorney with a law office in the area, testified a special exception use enjoys a presumption that it is in the interest of the general welfare, and therefore, valid. *Schultz v. Pritts*, 291 Md. 1 (1981). The *Schultz* standard was revisited in *Attar v. DMS Tollgate, LLC*, 451 Md. 272 (2017), wherein Maryland's highest court discussed the nature of the evidentiary presumption in special exception cases. The court again emphasized a special exception is properly denied only when there are facts and circumstances showing that the adverse impacts of the use at the particular location in question would be above and beyond those inherently associated with the special exception use.

Mr. Motsco, a professional engineer accepted as an expert, explained the site plan in detail and said he has visited the property on several occasions. He testified the property is approximately 30.8 acres in size and is zoned RC-2. The witness noted the site has mature wooded buffers along all road frontages, and he testified Petitioner is not at this time proposing any new construction on the site. In conclusion, Mr. Motsco opined Petitioner satisfied each of the requirements set forth at B.C.Z.R. §502.1.

Several citizens testified in opposition to the proposal. Though each witness expressed concern with how the project may impact them individually, there were common themes in the testimony. Traffic conditions and roadway safety, and a concern for water wells and private sewage disposal, were the most frequently cited concerns. Many neighbors also complained about several events or gatherings at the site which generated a significant amount of noise. With the exception of the complaints about noise (which will be addressed in a condition included in the

OPINION AND ORDER

This matter comes before the Office of Administrative Hearings (OAH) for consideration of a Petition for Special Exception filed on behalf of Nepali American Cultural Center, legal owner ("Petitioner"). The Special Exception was filed pursuant to the Baltimore County Zoning Regulations ("B.C.Z.R.") to allow a church or other building for religious worship on property zoned RC-2.

Professional engineers John Motsco and Joe Caloggeri appeared in support of the petition. Timothy M. Kotroco, Esq. represented the Petitioner. Numerous citizens attended the hearing and objected to the request. Substantive Zoning Advisory Committee (ZAC) comments were received from the Department of Planning (DOP), the Bureau of Development Plans Review (DPR), State Highway Administration (SHA) and the Department of Environmental Protection and Sustainability (DEPS). None of the reviewing agencies objected to the request.

The subject property is approximately 30.8 acres and is zoned RC-2. The property is improved with an historic single-family dwelling and several outbuildings. Petitioner purchased the property last year, at which time it was rundown and abandoned. Photographs submitted at the hearing reveal extensive vandalism to the property which occurred both before and after Petitioner purchased the property. Petitioner is in the process of renovating the property, and estimates that

POEHLER PROPERTY 12241 HARFORD RD GLEN ARM MD 21057
ADMINISTRATIVE ZONING PETITION
BERNADETTE T POEHLER CLARENCE D POEHLER

Based upon personal knowledge, the following are the facts which we base the request for an Administrative Variance

(1) Variance request to allow accessory structure to be located within the side yard in lieu of the required rear yard per section 400.1 of the BCZR.

The building placement in the rear would be unnecessarily burdensome due to the extremely steep grade of the property behind the home in the rear yard. Placement of the structure within the side yard reduces the need for grading the property and increases the distance between the structure and the tree line of the uniquely shaped property (please see photographs attached to application)

Permitting structure area to be along side the existing structure would give substantial relief to the property owners and the unique topography of the land which slopes toward the tree line behind the existing structure

Granting the relief of the area ordinance would not impact public safety or the welfare of the community and based on the curvature of the street, the area placement of the structure will not be noticeable to the community

(2) Variance request to allow the height of the accessory structure (garage) to be 25 feet in lieu of the required 15 feet per section 400.3 of the BCZR.

The allowance of the variance would provide for the peak to allow clearance of an RV and truck/plow to gain access to garage for storage and maintenance of vehicles

The property we are petitioning for a height variance is for a detached garage at our home and we desire to store our RV and personal vehicles on our property

The property currently has an attached garage that does not allow clearance of storage of an RV or our truck with snow plow attached.

Petitioners		
	*	BALTIMORE COUNTY
	*	**CASE NO. 2014-0135-A**

* * * * * * * * * *

OPINION AND ORDER

This matter comes before the Office of Administrative Hearings (OAH) for Baltimore County for consideration of a Petition for Administrative Variance filed by the legal owners of the property, Bernadette T. and Clarence D. Poehler. The Petitioners are requesting Variance relief pursuant to Sections 400.1 and 400.3 of the Baltimore County Zoning Regulations ("B.C.Z.R) to permit a proposed accessory structure/pole barn in the side yard with a height of 25 ft. in lieu of the permitted rear yard and maximum height of 15 ft. The subject property and requested relief is more fully depicted on the site plan that was marked and accepted into evidence as Petitioners' Exhibit 1.

The Zoning Advisory Committee (ZAC) comments were received and are made part of the record of this case. There were no adverse ZAC comments received from any of the County reviewing agencies.

The Petitioners having filed a Petition for Administrative Variance and the subject property having been posted on December 22, 2013, and there being no request for a public hearing, a decision shall be rendered based upon the documentation presented.

The Petitioners have filed the supporting affidavits as required by Section 32-3-303 of the Baltimore County Code (B.C.C.). Based upon the information available, there is no evidence in

ORDER RECEIVED FOR FILING

Date 1-28-14

By

the file to indicate that the requested variance would adversely affect the health, safety or general welfare of the public and should therefore be granted. In the opinion of the Administrative Law Judge, the information, photographs, and affidavits submitted provide sufficient facts that comply with the requirements of Section 307.1 of the B.C.Z.R. Furthermore, strict compliance with the B.C.Z.R. would result in practical difficulty and/or unreasonable hardship upon the Petitioners.

Although the Department of Planning did not make any recommendations related to the accessory structure height and usage, I will impose conditions that the barn shall not be converted into a dwelling unit or apartment, not contain any sleeping quarters, living area, kitchen or bathroom facilities, and not be used for commercial purposes.

Pursuant to the posting of the property and the provisions of both the Baltimore County Code and the Baltimore County Zoning Regulations, and for the reasons given above, the requested variance should be granted.

THEREFORE, IT IS ORDERED, this 28th day of January, 2014 by the Administrative Law Judge for Baltimore County, that the Petition for Variance seeking relief from Sections 400.1 and 400.3 of the Baltimore County Zoning Regulations ("B.C.Z.R) to permit a proposed accessory structure/pole barn in the side yard with a height of 25 ft. in lieu of the permitted rear yard and maximum height of 15 ft., be and is hereby GRANTED.

The relief granted herein shall be subject to the following:

1. Petitioners may apply for any appropriate permits and be granted same upon receipt of this Order; however, Petitioners are hereby made aware that proceeding at this time is at their own risk until such time as the 30-day appellate process from this Order has expired. If, for whatever reason, this Order is reversed, Petitioners would be required to return, and be responsible for returning, said property to its original condition.

BALTIMORE COUNTY, MARYLAND

Inter-Office Memorandum

DATE: January 9, 2014

TO: Kristen Lewis, Office of Zoning Review
Department of Permits, Approvals & Inspections (PAI)

FROM: John Beverungen, Administrative Law Judge
Office of Administrative Hearings

RE: Petition for Administrative Variance – 01/06/14 Closing Date
Case No. 2014-0135-A – 12241 Harford Road, 21057 (Formal Demand)

After receipt and a review of the above-captioned case file, I am requesting that this case be set in for a public hearing. Baltimore County Code (B.C.C.) § 32-3-303(a)(1), states in pertinent part:

> " ... the Zoning Commissioner may grant variances from area and height regulations **without a public hearing if the variance petition involves an owner-occupied lot** zoned residential ... ." (Emphasis Added)

Our office is returning the file to you for further processing such as notifying the Petitioners, posting and advertising of the hearing notices.

Thank you for your attention and cooperation in this matter.

JEB:dlw

c: Office of People's Counsel
W. Carl Richards, Jr., Supervisor, Zoning Review Office, PAI

PROTESTANTS MOTION TO STRIKE TIM KOTROCO LETTER DATED JULY 2, 2018 AS *EX PARTE* AND NOT IN THE ALJ JURISDICTION TO OPINE

DeWitt and Mary Clark, 12150 Harford Road, Glen Arm, Maryland 21057, ***David Hartman***, 12513 Regwood Road, Hydes, Maryland 21082, ***Dave Poehler***, 12241 Harford Road, Glen Arm, Maryland 21057, ***Morgan Miner***, 11946 Harford Road, Glen Arm, Maryland 21057, and ***Carol Shaw***, 7 Country Hill Court, Kingsville, Maryland 21087, Protestants by ***J. Carroll Holzer, Esquire***, in the above-captioned matter herewith file their Motion to Strike Kotroco letter and ALJ Opinion as *ex parte* and not within ALJ jurisdiction to opine and say as follows:

1. Appellant/Protestants filed their first appeal to the Board by ***J. Carroll Holzer*** on February 16, 2018, and was given Case No.: 2018-0122-X.

2. The Board of Appeals held their first day of hearings on July 17, 2018.

LAW OFFICE
HOLZER AND LEE
THE 508 BUILDING
508 FAIRMOUNT AVENUE
TOWSON, MARYLAND
21286

(410) 825-6961
FAX: (410) 825-4923

Protestant
CBA Exhibit
1

3. At that hearing, the Nepali American Cultural Center read to the Board on the record, a portion of a letter from Mr. Kotroco to Administrative Law Judge Beverungen dated July 2, 2018 in which a Request for Clarification was rendered by the Administrative Law Judge relating to his previous Opinion in Case No.: 2018-0122-X.

4. Both the Kotroco letter and the Administrative Law Judge Opinion dated July 3, 2018 were *ex parte* communications by Counsel and the Administrative Law Judge. No copies to ***J. Carroll Holzer*** were shown on the letter and Opinion. I never received a copy of the letter as indicated by Counsel.

4.a. Petitioners knew or should have known that such an *ex parte* revision to a previous decision had no legal standing and the ALJ was without jurisdiction to opine.

4.b. This *ex parte* revision changed the scope of the decision that resulted from the Hearing below.

1. It changed the Appellant's Special Exception request from including the entire thirty (30) acre property to include only the existing main building.

2. It voided all conditions that applied to the entire property.

   a. Sound.

   b. Parking.

   c. Group size.

5. At this Board's first (1st) day of hearing in Case No.: 2018-0122X, the letter was read by Counsel but ***not*** introduced as an exhibit. The letter was used to Deny Protestants Motion to Postpone the Board's hearing. The Protestants were required to obtain a copy of the *ex parte* letter and Opinion by going to the Administrative Law Judge's office. They were at first denied by the Office by alleging they did not have a copy but subsequently, it was provided to the Protestants. Within thirty (30) days from July 3, 2018, a separate appeal to the *ex parte* Opinion was taken to this Board.

6. On the fifth (5th) day of hearing before the Board in Case No.: 2018-0122X, it was introduced by Petitioners as Petitioner's Exhibit 34, attached hereto.

7. Protestants believe the July 2nd and July 3rd Opinion should be stricken as a violation of *ex parte* procedure. Had Protestants received notice of the letter and subsequent Opinion, they could have requested an opportunity to participate before the Administrative Law Judge and answered the Request for Clarification. Protestants have been prejudiced by this *ex parte* failure by Counsel and the Administrative Law Judge.

8. The ALJ had no authority to Opine to the Kotroco July 2, 2018 letter because the case had been appealed and the Administrative Law Judge no longer had jurisdiction.

9. Protestants are entitled to injunctive and equitable relief from all actions and activities of the Petitioner that occurred as a result of this *ex parte* revision to the original decision.

Respectfully submitted,

J. CARROLL HOLZER, Esquire

The Honorable John E. Beverungen
Administrative Law Judge for Baltimore County
105 West Chesapeake Avenue, Suite 103
Towson, Maryland 21204

Re: Case No. 2018-0122-X, Petition for Special Exception
Request for Clarification of Your Order Dated January 22, 2018

Dear Judge Beverungen:

I write to you on behalf of my clients, the Nepali American Cultural Center and the zoning Order that you wrote approving the use of a building on their property for religious worship. The decision you wrote was dated the 22nd day of January, 2018 and a copy of that decision is attached hereto.

As you may know, some of the protestants who appeared at the hearing before you filed an appeal to the Board of Appeals and the case is currently pending before that agency. In the meantime, my clients have continued to repair the damage that has been done to the property by the local residents and continue to maintain the grounds, as they should.

At issue at this time is the language contained within your Order, specifically the seven restrictions located at the end of your approval. My clients have scheduled a fundraising event which is proposed to occur on the grounds of the subject property. These fundraising events are very important to the owners of the property as the repairs to fix the damage done to the property over the years has been extensive. This fundraising event is scheduled for July 29th to August 3rd, 2018.

I have attached to this letter a post that was taken from Facebook which advertises this event. As you are aware, social media, such as Facebook is an effective way to inform people of an event such as this fundraiser. Baltimore County Code Enforcement was provided a copy of that Facebook post by one of the protestants. Code Enforcement is attempting to assert that we cannot gather on our property because of the language of your restrictions contained within your Order. The fundraiser will be held outside on the property and not within the building. In fact, the building is not occupiable at this time as it still is not connected to water or sewer. It is however, anticipated that my clients will provide walking tours of the building to show the extensive improvements they have made to the property, of which they are very proud.

Petitioner's Exh. #34

Based upon this letter and the attachments hereto, I respectfully request your interpretation of your Order, specifically the restrictions contained therein as to whether it is appropriate for my clients to host this gathering event on the grounds of their property or whether such actions would violate the restriction you imposed upon them.

I have included a simple statement at the bottom of this letter for you to sign, should you deem it appropriate. Thank you for your time and consideration of this matter.

Very truly yours,

Timothy M. Kotroco

I understand the owners are proposing to host a gathering on the property July 29th through August 3rd, 2018. I also understand the Code Enforcement Bureau contends that the gathering would violate the terms and conditions of my January 22, 2018 Order granting special exception relief. I respectfully disagree and would note those conditions (as envisioned by BCZR section 502.2) related solely to the operations of a building for religious worship, which was the relief granted in the special exception case.

The owners are free to gather on their property so long as no religious activities are occurring within the subject building and all other permit requirements, if any, are satisfied. If this is the case, there is no violation of my Order. This owner should be treated no differently than any other citizen who wishes to host a party, a picnic or any other social event on their property.

IN RE: PETITION FOR SPECIAL EXCEPTION (12231 Harford Road) 11th Election District 5th Council District Nepali American Cultural Center *Legal Owner*	*	BEFORE THE OFFICE OF ADMINISTRATIVE HEARINGS
	*	FOR BALTIMORE COUNTY
Petitioner	*	Case No. 2018-0122-X

* * * * * * * * * * *

OPINION AND ORDER

This matter comes before the Office of Administrative Hearings (OAH) for consideration of a Petition for Special Exception filed on behalf of Nepali American Cultural Center, legal owner ("Petitioner"). The Special Exception was filed pursuant to the Baltimore County Zoning Regulations ("B.C.Z.R.") to allow a church or other building for religious worship on property zoned RC-2.

Professional engineers John Motsco and Joe Caloggeri appeared in support of the petition. Timothy M. Kotroco, Esq. represented the Petitioner. Numerous citizens attended the hearing and objected to the request. Substantive Zoning Advisory Committee (ZAC) comments were received from the Department of Planning (DOP), the Bureau of Development Plans Review (DPR), State Highway Administration (SHA) and the Department of Environmental Protection and Sustainability (DEPS). None of the reviewing agencies objected to the request.

The subject property is approximately 30.8 acres and is zoned RC-2. The property is improved with an historic single-family dwelling and several outbuildings. Petitioner purchased the property last year, at which time it was rundown and abandoned. Photographs submitted at the hearing reveal extensive vandalism to the property which occurred both before and after Petitioner purchased the property. Petitioner is in the process of renovating the property, and estimates that

at least 4-5 months of additional restoration work needs to be done before the property can be used by the congregation.

Special Exception

Doug Burgess, an attorney with a law office in the area, testified a special exception use enjoys a presumption that it is in the interest of the general welfare, and therefore, valid. *Schultz v. Pritts*, 291 Md. 1 (1981). The *Schultz* standard was revisited in *Attar v. DMS Tollgate, LLC*, 451 Md. 272 (2017), wherein Maryland's highest court discussed the nature of the evidentiary presumption in special exception cases. The court again emphasized a special exception is properly denied only when there are facts and circumstances showing that the adverse impacts of the use at the particular location in question would be above and beyond those inherently associated with the special exception use.

Mr. Motsco, a professional engineer accepted as an expert, explained the site plan in detail and said he has visited the property on several occasions. He testified the property is approximately 30.8 acres in size and is zoned RC-2. The witness noted the site has mature wooded buffers along all road frontages, and he testified Petitioner is not at this time proposing any new construction on the site. In conclusion, Mr. Motsco opined Petitioner satisfied each of the requirements set forth at B.C.Z.R. §502.1.

Several citizens testified in opposition to the proposal. Though each witness expressed concern with how the project may impact them individually, there were common themes in the testimony. Traffic conditions and roadway safety, and a concern for water wells and private sewage disposal, were the most frequently cited concerns. Many neighbors also complained about several events or gatherings at the site which generated a significant amount of noise. With the exception of the complaints about noise (which will be addressed in a condition included in the

final order), these concerns are inherent in the operation of a church or building for worship located in a rural area. In other words, most uses for which a special exception is required are regarded as "potentially troublesome because of noise, traffic, congestion...." *Montgomery County v. Butler*, 417 Md. 271, 297 (2010).

In rural zones especially roadways are often antiquated and overburdened, and water/sewer services are not provided by the County. Harford Road will be used to access the site, and as a state highway it is under the control and jurisdiction of the State Highway Administration (SHA). As Mr. Caloggeri (a professional engineer accepted as an expert) testified, the SHA, not Baltimore County, will examine the proposed access and determine whether improvements or other measures are necessary to ensure safe ingress/egress from the site.

As noted in the conditions below, Petitioner must obtain approval from Baltimore County for installation of well and septic systems for this property. Ronald Standiford, pastor of the adjacent Redeemer church, noted that the Christian school affiliated with the church has approximately 220 students and the well and septic system are sufficient. According to witnesses in Petitioner's case, far fewer people will visit this site on a daily basis, and thus there is no reason to believe the water supply and sewerage system would not be adequate.

THEREFORE, IT IS ORDERED this **22nd** day of **January, 2018,** by this Administrative Law Judge, that the Petition for Special Exception to allow a church or other building for religious worship on property zoned RC-2, be and is hereby GRANTED.

The relief granted herein shall be subject to the following:

1. Petitioner may apply for necessary permits and/or licenses upon receipt of this Order. However, Petitioner is hereby made aware that proceeding at this time is at its own risk until 30 days from the date hereof, during which time an appeal can be filed by any party. If for whatever reason this Order is reversed, Petitioner would be required to return the subject property to its original condition.

2. Petitioner must submit for approval by Baltimore County landscape and lighting plans for the site.
3. Prior to operating a religious facility at the site Petitioner must install a sign at the Harford Road access point (in compliance with the B.C.Z.R. §450) containing the name of the facility and street address.
4. Prior to issuance of occupancy permits, Petitioner must demonstrate to DEPS that the well and septic system proposed will be sufficient to serve the facility.
5. Prior to issuance of permits Petitioner must comply with the ZAC comment of DEPS, a copy of which is attached hereto and incorporated herein.
6. Prior to issuance of permits Petitioner must obtain from SHA an access permit authorizing ingress and egress from the site via Harford Road.
7. Special events held at the site shall be limited to the hours of 10 a.m. to 10 p.m., and outdoor amplification of music or sound shall not be permitted.

Any appeal of this decision must be made within thirty (30) days of the date of this Order.

PROTESTANTS REPLY TO MOTION TO STRIKE TIM KOTROCO LETTER DATED JULY 2, 2018 AS EX PARTE AND NOT IN THE ALJ JURISDICTION TO OPINE

DeWitt and Mary Clark, 12150 Harford Road, Glen Arm, Maryland 21057, ***David Hartman***, 12513 Regwood Road, Hydes, Maryland 21082, ***Dave Poehler***, 12241 Harford Road, Glen Arm, Maryland 21057, ***Morgan Miner***, 11946 Harford Road, Glen Arm, Maryland 21057, and ***Carol Shaw***, 7 Country Hill Court, Kingsville, Maryland 21087, Protestants by ***J. Carroll Holzer, Esquire***, in the above-captioned matter herewith file their Reply to Petitioners Response and say as follows:

1. Petitioners admit that Administrative Law Judge Beverungen lost jurisdiction over this case when it was appealed on February 16, 2018 to this Board. Thus, Petitioners Kotroco letter written by Petitioners Counsel and modified and signed by the Administrative Law Judge should be stricken as not only is it an *ex parte* action, but the Administrative Law Judge Opinion was without jurisdiction, to render such opinion and/or clarification.

2. This Honorable Board should reject Petitioners Kotroco letter and ALJ Opinion and strike it.

LAW OFFICE
HOLZER AND LEE
THE 508 BUILDING
508 FAIRMOUNT AVENUE
TOWSON, MARYLAND
21286

(410) 825-6961
FAX: (410) 825-4923

Protestant
CBA Exhibit
2

3. Petitioners never denied that Counsel for the Protestants was never provided a copy of the letter, nor the Administrative Law Judge's response until it was mentioned on the first day of this Board's hearing.

4. The Administrative Law Judge obviously knew at the time of his receipt of the letter and his comments on July 3, 2018, that he no longer had jurisdiction over this case and that Counsel for Protestants had filed an appeal to this Board.

For the foregoing reasons, Protestants Motion to Strike Petitioners Exhibit #34 as *ex parte* should be granted.

Respectfully submitted,

J. CARROLL HOLZER, Esquire

The Honorable John E. Beverungen
Administrative Law Judge for Baltimore County
105 West Chesapeake Avenue, Suite 103
Towson, Maryland 21204

Re: Case No. 2018-0122-X, Petition for Special Exception
Request for Clarification of Your Order Dated January 22, 2018

Dear Judge Beverungen:

I write to you on behalf of my clients, the Nepali American Cultural Center and the zoning Order that you wrote approving the use of a building on their property for religious worship. The decision you wrote was dated the 22nd day of January, 2018 and a copy of that decision is attached hereto.

As you may know, some of the protestants who appeared at the hearing before you filed an appeal to the Board of Appeals and the case is currently pending before that agency. In the meantime, my clients have continued to repair the damage that has been done to the property by the local residents and continue to maintain the grounds, as they should.

At issue at this time is the language contained within your Order, specifically the seven restrictions located at the end of your approval. My clients have scheduled a fundraising event which is proposed to occur on the grounds of the subject property. These fundraising events are very important to the owners of the property as the repairs to fix the damage done to the property over the years has been extensive. This fundraising event is scheduled for July 29th to August 3rd, 2018.

I have attached to this letter a post that was taken from Facebook which advertises this event. As you are aware, social media, such as Facebook is an effective way to inform people of an event such as this fundraiser. Baltimore County Code Enforcement was provided a copy of that Facebook post by one of the protestants. Code Enforcement is attempting to assert that we cannot gather on our property because of the language of your restrictions contained within your Order. The fundraiser will be held outside on the property and not within the building. In fact, the building is not occupiable at this time as it still is not connected to water or sewer. It is however, anticipated that my clients will provide walking tours of the building to show the extensive improvements they have made to the property, of which they are very proud.

Petitioner's Exh. #34

Based upon this letter and the attachments hereto, I respectfully request your interpretation of your Order, specifically the restrictions contained therein as to whether it is appropriate for my clients to host this gathering event on the grounds of their property or whether such actions would violate the restriction you imposed upon them.

I have included a simple statement at the bottom of this letter for you to sign, should you deem it appropriate. Thank you for your time and consideration of this matter.

Very truly yours,

Timothy Kotroco

Timothy M. Kotroco

I understand the owners are proposing to host a gathering on the property July 29th through August 3rd, 2018. I also understand the Code Enforcement Bureau contends that the gathering would violate the terms and conditions of my January 22, 2018 Order granting special exception relief. I respectfully disagree and would note those conditions (as envisioned by BCZR section 502.2) related solely to the operations of a building for religious worship, which was the relief granted in the special exception case.

The owners are free to gather on their property so long as no religious activities are occurring within the subject building and all other permit requirements, if any, are satisfied. If this is the case, there is no violation of my Order. This owner should be treated no differently than any other citizen who wishes to host a party, a picnic or any other social event on their property.

7/3/2018

RE: Petitions for Special Exception
Case No. 2018-0122-X
Property: 12231 Harford Road

Dear Mr. Kotroco:

Enclosed please find a copy of the decision rendered in the above-captioned matter.

In the event any party finds the decision rendered is unfavorable, any party may file an appeal to the County Board of Appeals within thirty (30) days of the date of this Order. For further information on filing an appeal, please contact the Office of Administrative Hearings at 410-887-3868.

Sincerely,

JOHN E. BEVERUNGEN
Administrative Law Judge

IN RE: PETITION FOR SPECIAL EXCEPTION (12231 Harford Road) 11th Election District 5th Council District Nepali American Cultural Center *Legal Owner*	*	BEFORE THE OFFICE OF ADMINISTRATIVE HEARINGS FOR BALTIMORE COUNTY
Petitioner	*	Case No. 2018-0122-X

* * * * * * * * * * *

OPINION AND ORDER

This matter comes before the Office of Administrative Hearings (OAH) for consideration of a Petition for Special Exception filed on behalf of Nepali American Cultural Center, legal owner ("Petitioner"). The Special Exception was filed pursuant to the Baltimore County Zoning Regulations ("B.C.Z.R.") to allow a church or other building for religious worship on property zoned RC-2.

Professional engineers John Motsco and Joe Caloggeri appeared in support of the petition. Timothy M. Kotroco, Esq. represented the Petitioner. Numerous citizens attended the hearing and objected to the request. Substantive Zoning Advisory Committee (ZAC) comments were received from the Department of Planning (DOP), the Bureau of Development Plans Review (DPR), State Highway Administration (SHA) and the Department of Environmental Protection and Sustainability (DEPS). None of the reviewing agencies objected to the request.

The subject property is approximately 30.8 acres and is zoned RC-2. The property is improved with an historic single-family dwelling and several outbuildings. Petitioner purchased the property last year, at which time it was rundown and abandoned. Photographs submitted at the hearing reveal extensive vandalism to the property which occurred both before and after Petitioner purchased the property. Petitioner is in the process of renovating the property, and estimates that

at least 4-5 months of additional restoration work needs to be done before the property can be used by the congregation.

Special Exception

Doug Burgess, an attorney with a law office in the area, testified a special exception use enjoys a presumption that it is in the interest of the general welfare, and therefore, valid. *Schultz v. Pritts*, 291 Md. 1 (1981). The *Schultz* standard was revisited in *Attar v. DMS Tollgate, LLC*, 451 Md. 272 (2017), wherein Maryland's highest court discussed the nature of the evidentiary presumption in special exception cases. The court again emphasized a special exception is properly denied only when there are facts and circumstances showing that the adverse impacts of the use at the particular location in question would be above and beyond those inherently associated with the special exception use.

Mr. Motsco, a professional engineer accepted as an expert, explained the site plan in detail and said he has visited the property on several occasions. He testified the property is approximately 30.8 acres in size and is zoned RC-2. The witness noted the site has mature wooded buffers along all road frontages, and he testified Petitioner is not at this time proposing any new construction on the site. In conclusion, Mr. Motsco opined Petitioner satisfied each of the requirements set forth at B.C.Z.R. §502.1.

Several citizens testified in opposition to the proposal. Though each witness expressed concern with how the project may impact them individually, there were common themes in the testimony. Traffic conditions and roadway safety, and a concern for water wells and private sewage disposal, were the most frequently cited concerns. Many neighbors also complained about several events or gatherings at the site which generated a significant amount of noise. With the exception of the complaints about noise (which will be addressed in a condition included in the

final order), these concerns are inherent in the operation of a church or building for worship located in a rural area. In other words, most uses for which a special exception is required are regarded as "potentially troublesome because of noise, traffic, congestion...." *Montgomery County v. Butler*, 417 Md. 271, 297 (2010).

In rural zones especially roadways are often antiquated and overburdened, and water/sewer services are not provided by the County. Harford Road will be used to access the site, and as a state highway it is under the control and jurisdiction of the State Highway Administration (SHA). As Mr. Caloggeri (a professional engineer accepted as an expert) testified, the SHA, not Baltimore County, will examine the proposed access and determine whether improvements or other measures are necessary to ensure safe ingress/egress from the site.

As noted in the conditions below, Petitioner must obtain approval from Baltimore County for installation of well and septic systems for this property. Ronald Standiford, pastor of the adjacent Redeemer church, noted that the Christian school affiliated with the church has approximately 220 students and the well and septic system are sufficient. According to witnesses in Petitioner's case, far fewer people will visit this site on a daily basis, and thus there is no reason to believe the water supply and sewerage system would not be adequate.

THEREFORE, IT IS ORDERED this **22nd** day of **January, 2018,** by this Administrative Law Judge, that the Petition for Special Exception to allow a church or other building for religious worship on property zoned RC-2, be and is hereby GRANTED.

The relief granted herein shall be subject to the following:

1. Petitioner may apply for necessary permits and/or licenses upon receipt of this Order. However, Petitioner is hereby made aware that proceeding at this time is at its own risk until 30 days from the date hereof, during which time an appeal can be filed by any party. If for whatever reason this Order is reversed, Petitioner would be required to return the subject property to its original condition.

2. Petitioner must submit for approval by Baltimore County landscape and lighting plans for the site.
3. Prior to operating a religious facility at the site Petitioner must install a sign at the Harford Road access point (in compliance with the B.C.Z.R. §450) containing the name of the facility and street address.
4. Prior to issuance of occupancy permits, Petitioner must demonstrate to DEPS that the well and septic system proposed will be sufficient to serve the facility.
5. Prior to issuance of permits Petitioner must comply with the ZAC comment of DEPS, a copy of which is attached hereto and incorporated herein.
6. Prior to issuance of permits Petitioner must obtain from SHA an access permit authorizing ingress and egress from the site via Harford Road.
7. Special events held at the site shall be limited to the hours of 10 a.m. to 10 p.m., and outdoor amplification of music or sound shall not be permitted.

Any appeal of this decision must be made within thirty (30) days of the date of this Order.

JOHN E. BEVERUNGEN

Re: Deed of Trust securing 12231 Harford Road, Glen Arm, MD 21157

Dear Mr. Ghimire:

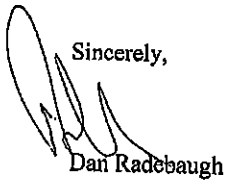
I understand that a question has arisen regarding the "Occupancy" section of the Deed of Trust which secures the loan from Mario Smoot to Nepali American Cultural Center of Baltimore, a Maryland Religious Corporation, and encumbers the property located at 12231 Harford Road, Glen Arm, MD 21157. Below I will discuss the reasoning for the language in said Deed of Trust.

Most Deeds of Trust are securing loans made to borrowers on their principal residence. These loans are insured by Fannie Mae, Freddie Mac, Federal Housing Administration or the Veterans Administration. The language in this type of Deed of Trust does not change and the "Occupancy" section states "Borrower shall occupy and use the Property as Borrower's principal residence within 60 days after the execution of this Security Instrument and shall continue to occupy the Property as Borrower's principal residence for at least one year after the date of occupancy..." This type of Borrower has received financing that is only available to borrowers who will occupy the property securing the loan.

In all other situations, the Deed of Trust will simply state that the Borrower has received a commercial loan and does not intend to occupy the property. Implied in this language is that it will not be Borrower's principal residence. With the subject property, the borrower is a religious corporation. As a corporation, it cannot have a principal residence. It still has all rights to use the property as it sees fit.

Furthermore, the Deed of Trust is a contract between lender and borrower. No third party has standing to challenge the use and/or occupancy of the owner of the property based on the owner's contract with its lender.

I have attached pages from the subject deed of trust and a sample deed of trust for residential properties for your reference. If you need any additional information, please don't hesitate to ask. Thank you.



Sincerely,

Dan Radebaugh

or lesser coverage than was previously in effect. Borrower acknowledges that the cost of the insurance coverage so obtained might significantly exceed the cost of insurance that Borrower could have obtained. Any amounts disbursed by Lender under this Section 5 shall become additional debt of Borrower secured by this Security Instrument. These amounts shall bear interest at the Note rate from the date of disbursement and shall be payable, with such interest, upon notice from Lender to Borrower requesting payment.

All insurance policies required by Lender and renewals of such policies shall be subject to Lender's right to disapprove such policies, shall include a standard mortgage clause, and shall name Lender as mortgagee and/or as an additional loss payee. Lender shall have the right to hold the policies and renewal certificates. If Lender requires, Borrower shall promptly give to Lender all receipts of paid premiums and renewal notices. If Borrower obtains any form of insurance coverage, not otherwise required by Lender, for damage to, or destruction of, the Property, such policy shall include a standard mortgage clause and shall name Lender as mortgagee and/or as an additional loss payee.

In the event of loss, Borrower shall give prompt notice to the insurance carrier and Lender. Lender may make proof of loss if not made promptly by Borrower. Unless Lender and Borrower otherwise agree in writing, any insurance proceeds, whether or not the underlying insurance was required by Lender, shall be applied to restoration or repair of the Property, if the restoration or repair is economically feasible and Lender's security is not lessened. During such repair and restoration period, Lender shall have the right to hold such insurance proceeds until Lender has had an opportunity to inspect such Property to ensure the work has been completed to Lender's satisfaction, provided that such inspection shall be undertaken promptly. Lender may disburse proceeds for the repairs and restoration in a single payment or in a series of progress payments as the work is completed. Unless an agreement is made in writing or Applicable Law requires interest to be paid on such insurance proceeds, Lender shall not be required to pay Borrower any interest or earnings on such proceeds. Fees for public adjusters, or other third parties, retained by Borrower shall not be paid out of the insurance proceeds and shall be the sole obligation of Borrower. If the restoration or repair is not economically feasible or Lender's security would be lessened, the insurance proceeds shall be applied to the sums secured by this Security Instrument, whether or not then due, with the excess, if any, paid to Borrower. Such insurance proceeds shall be applied in the order provided for in Section 2.

If Borrower abandons the Property, Lender may file, negotiate and settle any available insurance claim and related matters. If Borrower does not respond within 30 days to a notice from Lender that the insurance carrier has offered to settle a claim, then Lender may negotiate and settle the claim. The 30-day period will begin when the notice is given. In either event, or if Lender acquires the Property under Section 22 or otherwise, Borrower hereby assigns to Lender (a) Borrower's rights to any insurance proceeds in an amount not to exceed the amounts unpaid under the Note or this Security Instrument, and (b) any other of Borrower's rights (other than the right to any refund of unearned premiums paid by Borrower) under all insurance policies covering the Property, insofar as such rights are applicable to the coverage of the Property. Lender may use the insurance proceeds either to repair or restore the Property or to pay amounts unpaid under the Note or this Security Instrument, whether or not then due.

6. **Occupancy.** Borrower shall occupy, establish, and use the Property as Borrower's principal residence within 60 days after the execution of this Security Instrument and shall continue to occupy the Property as Borrower's principal residence for at least one year after the date of occupancy, unless Lender otherwise agrees in writing, which consent shall not be unreasonably withheld, or unless extenuating circumstances exist which are beyond Borrower's control.

7. **Preservation, Maintenance and Protection of the Property; Inspections.** Borrower shall not destroy, damage or impair the Property, allow the Property to deteriorate or commit waste on the Property. Whether or not Borrower is residing in the Property, Borrower shall maintain the Property in order to prevent the Property from deteriorating or decreasing in value due to its condition. Unless it is determined pursuant to Section 5 that repair or restoration is not economically feasible, Borrower shall promptly repair the Property if damaged to avoid further deterioration or damage. If insurance or condemnation proceeds are paid in connection with damage to, or the taking of, the Property, Borrower shall be responsible for repairing or restoring the Property only if Lender has released proceeds for such purposes. Lender may disburse proceeds for the repairs and restoration in a single payment or in a series of progress payments as the work is completed. If the insurance or condemnation proceeds are not sufficient to repair or restore the Property, Borrower is not relieved of Borrower's obligation for the completion of such repair or restoration.

Lender's right to disapprove such policies, shall include a standard mortgage clause, and shall name Lender as mortgagee and/or as an additional loss payee. Lender shall have the right to hold the policies and renewal certificates. If Lender requires, Borrower shall promptly give to Lender all receipts of paid premiums and renewal notices. If Borrower obtains any form of insurance coverage, not otherwise required by Lender, for damage to, or destruction of, the Property, such policy shall include a standard mortgage clause and shall name Lender as mortgagee and/or as an additional loss payee.

In the event of loss, Borrower shall give prompt notice to the insurance carrier and Lender. Lender may make proof of loss if not made promptly by Borrower. Unless Lender and Borrower otherwise agree in writing, any insurance proceeds, whether or not the underlying insurance was required by Lender, shall be applied to restoration or repair of the Property, if the restoration or repair is economically feasible and Lender's security is not lessened. During such repair and restoration period, Lender shall have the right to hold such insurance proceeds until Lender has had an opportunity to inspect such Property to ensure the work has been completed to Lender's satisfaction, provided that such inspection shall be undertaken promptly. Lender may disburse proceeds for the repairs and restoration in a single payment or in a series of progress payments as the work is completed. Unless an agreement is made in writing or Applicable Law requires interest to be paid on such insurance proceeds, Lender shall not be required to pay Borrower any interest or earnings on such proceeds. Fees for public adjusters, or other third parties, retained by Borrower shall not be paid out of the insurance proceeds and shall be the sole obligation of Borrower. If the restoration or repair is not economically feasible or Lender's security would be lessened, the insurance proceeds shall be applied to the sums secured by this Security Instrument, whether or not then due, with the excess, if any, paid to Borrower

If Borrower abandons the Property, Lender may file, negotiate and settle any available insurance claim and related matters. If Borrower does not respond within 30 days to a notice from Lender that the insurance carrier has offered to settle a claim, then Lender may negotiate and settle the claim. The 30-day period will begin when the notice is given. Borrower hereby assigns to Lender (a) Borrower's rights to any insurance proceeds in an amount not to exceed the amounts unpaid under the Note or this Security Instrument, and (b) any other of Borrower's rights (other than the right to any refund of unearned premiums paid by Borrower) under all insurance policies covering the Property, insofar as such rights are applicable to the coverage of the Property. Lender may use the insurance proceeds either to repair or restore the Property or to pay amounts unpaid under the Note or this Security Instrument, whether or not then due.

4. **Occupancy.** This is a commercial loan. Borrower agrees that Borrower and/or Guarantor will not occupy Property.

5. **Preservation, Maintenance and Protection of the Property; Inspections.** Borrower shall not destroy, damage or impair the Property, allow the Property to deteriorate or commit waste on the Property. Whether or not Borrower is residing in the Property, Borrower shall maintain the Property in order to prevent the Property from deteriorating or decreasing in value due to its condition. Borrower shall promptly repair the Property if damaged to avoid further deterioration or damage. If insurance or condemnation proceeds are paid in connection with damage to, or the taking of, the Property, Borrower shall be responsible for repairing or restoring the Property only if Lender has released proceeds for such purposes. Lender may disburse proceeds for the repairs and restoration in a single payment or in a series of progress payments as the work is completed. If the insurance or condemnation proceeds are not sufficient

DEED OF TRUST

DEFINITIONS

Words used in multiple sections of this document are defined below and other words are defined in Sections 3, 11, 13, 18, 20 and 21. Certain rules regarding the usage of words used in this document are also provided in Section 16.

(A) "Security Instrument" means this document, which is dated March 24, 2017, together with all Riders to this document.
(B) "Borrower" is Nepali American Cultural Center of Baltimore, a Maryland Religious Corporation. Borrower is the trustor under this Security Instrument.
(C) "Lender" is Mario Smoot. Lender's address is 114 Forge Haven Drive, Perry Hall, MD 21128. Lender is the beneficiary under this Security Instrument.
(D) "Trustee" is Daniel M. Radebaugh, 1407 York Road, Suite 201, Lutherville, MD 21093.
(E) "Note" means the Promissory Note signed by Borrower and dated March 24, 2017. The Note states that Borrower owes Lender Four Hundred Fifty Thousand Dollars (U.S. $450,000.00). Borrower has promised to pay this debt pursuant to the Promissory Note and Agreement signed March 24, 2017.
(F) "Property" means the property that is described below under the heading "Transfer of Rights in the Property."
(G) "Loan" means the debt evidenced by the Note and all sums due under this Security Instrument.

BALTIMORE COUNTY CIRCUIT COURT (Land Records) JLE 38898, p. 0073, MSA_CE62_38755. Date available 05/04/2017. Printed 09/05/2018.

(I) "Applicable Law" means all controlling applicable federal, state and local statutes, regulations, ordinances and administrative rules and orders (that have the effect of law) as well as all applicable final, non-appealable judicial opinions.

(J) "Community Association Dues, Fees, and Assessments" means all dues, fees, assessments and other charges that are imposed on Borrower or the Property by a condominium association, homeowners association or similar organization.

(L) "Escrow Items" means those items that are described in Section 3.

(M) "Miscellaneous Proceeds" means any compensation, settlement, award of damages, or proceeds paid by any third party (other than insurance proceeds paid under the coverages described in Section 5) for: (i) damage to, or destruction of, the Property; (ii) condemnation or other taking of all or any part of the Property; (iii) conveyance in lieu of condemnation; or (iv) misrepresentations of, or omissions as to, the value and/or condition of the Property.

(Q) "Successor in Interest of Borrower" means any party that has taken title to the Property, whether or not that party has assumed Borrower's obligations under the Note and/or this Security Instrument.

TRANSFER OF RIGHTS IN THE PROPERTY

This Security Instrument secures to Lender: (i) the repayment of the Loan, and all renewals, extensions and modifications of the Note; and (ii) the performance of Borrower's covenants and agreements under this Security Instrument and the Note. For this purpose, Borrower irrevocably grants and conveys to Trustee, in trust, with power of sale, the following described property located in the County of Baltimore:

12231 Harford Road, Glen Arm, MD 21157 ("Property Address").

TOGETHER WITH all the improvements now or hereafter erected on the property, and all easements, appurtenances, and fixtures now or hereafter a part of the property. All replacements and additions shall also be covered by this Security Instrument. All of the foregoing is referred to in this Security Instrument as the "Property."

BORROWER COVENANTS that Borrower is lawfully seised of the estate hereby conveyed and has the right to grant and convey the Property and that the Property is unencumbered, except for encumbrances of record. Borrower warrants and will defend generally the title to the Property against all claims and demands, subject to any encumbrances of record.

THIS SECURITY INSTRUMENT combines uniform covenants for national use and non-uniform covenants with limited variations by jurisdiction to constitute a uniform security instrument covering real property.

UNIFORM COVENANTS. Borrower and Lender covenant and agree as follows:

1. Payment of Principal, Interest, Escrow Items, Prepayment Charges, and Late Charges. Borrower shall pay principal and interest in accordance with the Note. Borrower shall

BALTIMORE COUNTY CIRCUIT COURT (Land Records) JLE 38898, p. 0074, MSA_CE62_38755. Date available 05/04/2017. Printed 09/05/2018.

be responsible for the payment of real estate taxes, homeowner's insurance and homeowner's association dues, if applicable. These items will not be escrowed by Lender.

2. Charges; Liens. Borrower shall pay all taxes, assessments, charges, fines, and impositions attributable to the Property which can attain priority over this Security Instrument, leasehold payments or ground rents on the Property, if any, and Community Association Dues, Fees, and Assessments, if any. To the extent that these items are Escrow Items, Borrower shall pay them in the manner provided in Section 3.

Borrower shall promptly discharge any lien which has priority over this Security Instrument unless Borrower: (a) agrees in writing to the payment of the obligation secured by the lien in a manner acceptable to Lender, but only so long as Borrower is performing such agreement; (b) contests the lien in good faith by, or defends against enforcement of the lien in, legal proceedings which in Lender's opinion operate to prevent the enforcement of the lien while those proceedings are pending, but only until such proceedings are concluded; or (c) secures from the holder of the lien an agreement satisfactory to Lender subordinating the lien to this Security Instrument. If Lender determines that any part of the Property is subject to a lien which can attain priority over this Security Instrument, Lender may give Borrower a notice identifying the lien. Within 10 days of the date on which that notice is given, Borrower shall satisfy the lien or take one or more of the actions set forth above in this Section 2.

3. Property Insurance. Borrower shall keep the improvements now existing or hereafter erected on the Property insured against loss by fire, hazards included within the term "extended coverage," and any other hazards including, but not limited to, earthquakes and floods, for which Lender requires insurance. This insurance shall be maintained in the amounts (including deductible levels) and for the periods that Lender requires. What Lender requires pursuant to the preceding sentences can change during the term of the Loan. The insurance carrier providing the insurance shall be chosen by Borrower subject to Lender's right to disapprove Borrower's choice, which right shall not be exercised unreasonably. Lender may require Borrower to pay, in connection with this Loan, either: (a) a one-time charge for flood zone determination, certification and tracking services; or (b) a one-time charge for flood zone determination and certification services and subsequent charges each time remappings or similar changes occur which reasonably might affect such determination or certification. Borrower shall also be responsible for the payment of any fees imposed by the Federal Emergency Management Agency in connection with the review of any flood zone determination resulting from an objection by Borrower.

If Borrower fails to maintain any of the coverages described above, Lender may obtain insurance coverage, at Lender's option and Borrower's expense. Lender is under no obligation to purchase any particular type or amount of coverage. Therefore, such coverage shall cover Lender, but might or might not protect Borrower, Borrower's equity in the Property, or the contents of the Property, against any risk, hazard or liability and might provide greater or lesser coverage than was previously in effect. Borrower acknowledges that the cost of the insurance coverage so obtained might significantly exceed the cost of insurance that Borrower could have obtained. Any amounts disbursed by Lender under this Section 3 shall become additional debt of Borrower secured by this Security Instrument. These amounts shall bear interest at the Note rate from the date of disbursement and shall be payable, with such interest, upon notice from Lender to Borrower requesting payment.

All insurance policies required by Lender and renewals of such policies shall be subject to

BALTIMORE COUNTY CIRCUIT COURT (Land Records) JLE 38898, p. 0075, MSA_CE62_38755. Date available 05/04/2017. Printed 09/05/2018.

Lender's right to disapprove such policies, shall include a standard mortgage clause, and shall name Lender as mortgagee and/or as an additional loss payee. Lender shall have the right to hold the policies and renewal certificates. If Lender requires, Borrower shall promptly give to Lender all receipts of paid premiums and renewal notices. If Borrower obtains any form of insurance coverage, not otherwise required by Lender, for damage to, or destruction of, the Property, such policy shall include a standard mortgage clause and shall name Lender as mortgagee and/or as an additional loss payee.

In the event of loss, Borrower shall give prompt notice to the insurance carrier and Lender. Lender may make proof of loss if not made promptly by Borrower. Unless Lender and Borrower otherwise agree in writing, any insurance proceeds, whether or not the underlying insurance was required by Lender, shall be applied to restoration or repair of the Property, if the restoration or repair is economically feasible and Lender's security is not lessened. During such repair and restoration period, Lender shall have the right to hold such insurance proceeds until Lender has had an opportunity to inspect such Property to ensure the work has been completed to Lender's satisfaction, provided that such inspection shall be undertaken promptly. Lender may disburse proceeds for the repairs and restoration in a single payment or in a series of progress payments as the work is completed. Unless an agreement is made in writing or Applicable Law requires interest to be paid on such insurance proceeds, Lender shall not be required to pay Borrower any interest or earnings on such proceeds. Fees for public adjusters, or other third parties, retained by Borrower shall not be paid out of the insurance proceeds and shall be the sole obligation of Borrower. If the restoration or repair is not economically feasible or Lender's security would be lessened, the insurance proceeds shall be applied to the sums secured by this Security Instrument, whether or not then due, with the excess, if any, paid to Borrower

If Borrower abandons the Property, Lender may file, negotiate and settle any available insurance claim and related matters. If Borrower does not respond within 30 days to a notice from Lender that the insurance carrier has offered to settle a claim, then Lender may negotiate and settle the claim. The 30-day period will begin when the notice is given. Borrower hereby assigns to Lender (a) Borrower's rights to any insurance proceeds in an amount not to exceed the amounts unpaid under the Note or this Security Instrument, and (b) any other of Borrower's rights (other than the right to any refund of unearned premiums paid by Borrower) under all insurance policies covering the Property, insofar as such rights are applicable to the coverage of the Property. Lender may use the insurance proceeds either to repair or restore the Property or to pay amounts unpaid under the Note or this Security Instrument, whether or not then due.

4. Occupancy. This is a commercial loan. Borrower agrees that Borrower and/or Guarantor will not occupy Property.

5. Preservation, Maintenance and Protection of the Property; Inspections. Borrower shall not destroy, damage or impair the Property, allow the Property to deteriorate or commit waste on the Property. Whether or not Borrower is residing in the Property, Borrower shall maintain the Property in order to prevent the Property from deteriorating or decreasing in value due to its condition. Borrower shall promptly repair the Property if damaged to avoid further deterioration or damage. If insurance or condemnation proceeds are paid in connection with damage to, or the taking of, the Property, Borrower shall be responsible for repairing or restoring the Property only if Lender has released proceeds for such purposes. Lender may disburse proceeds for the repairs and restoration in a single payment or in a series of progress payments as the work is completed. If the insurance or condemnation proceeds are not sufficient

to repair or restore the Property, Borrower is not relieved of Borrower's obligation for the completion of such repair or restoration.

Lender or its agent may make reasonable entries upon and inspections of the Property. If it has reasonable cause, Lender may inspect the interior of the improvements on the Property. Lender shall give Borrower notice at the time of or prior to such an interior inspection specifying such reasonable cause.

6. Protection of Lender's Interest in the Property and Rights Under this Security Instrument. If (a) Borrower fails to perform the covenants and agreements contained in this Security Instrument, (b) there is a legal proceeding that might significantly affect Lender's interest in the Property and/or rights under this Security Instrument (such as a proceeding in bankruptcy, probate, for condemnation or forfeiture, for enforcement of a lien which may attain priority over this Security Instrument or to enforce laws or regulations), or (c) Borrower has abandoned the Property, then Lender may do and pay for whatever is reasonable or appropriate to protect Lender's interest in the Property and rights under this Security Instrument, including protecting and/or assessing the value of the Property, and securing and/or repairing the Property. Lender's actions can include, but are not limited to: (a) paying any sums secured by a lien which has priority over this Security Instrument; (b) appearing in court; and (c) paying reasonable attorneys' fees to protect its interest in the Property and/or rights under this Security Instrument, including its secured position in a bankruptcy proceeding. Securing the Property includes, but is not limited to, entering the Property to make repairs, change locks, replace or board up doors and windows, drain water from pipes, eliminate building or other code violations or dangerous conditions, and have utilities turned on or off. Although Lender may take action under this Section 9, Lender does not have to do so and is not under any duty or obligation to do so. It is agreed that Lender incurs no liability for not taking any or all actions.

Any amounts disbursed by Lender under this Section 6 shall become additional debt of Borrower secured by this Security Instrument. These amounts shall bear interest at the Note rate from the date of disbursement and shall be payable, with such interest, upon notice from Lender to Borrower requesting payment.

7. Assignment of Miscellaneous Proceeds; Forfeiture. All Miscellaneous Proceeds are hereby assigned to and shall be paid to Lender.

If the Property is damaged, such Miscellaneous Proceeds shall be applied to restoration or repair of the Property, if the restoration or repair is economically feasible and Lender's security is not lessened. During such repair and restoration period, Lender shall have the right to hold such Miscellaneous Proceeds until Lender has had an opportunity to inspect such Property to ensure the work has been completed to Lender's satisfaction, provided that such inspection shall be undertaken promptly. Lender may pay for the repairs and restoration in a single disbursement or in a series of progress payments as the work is completed. Unless an agreement is made in writing or Applicable Law requires interest to be paid on such Miscellaneous Proceeds, Lender shall not be required to pay Borrower any interest or earnings on such Miscellaneous Proceeds. If the restoration or repair is not economically feasible or Lender's security would be lessened, the Miscellaneous Proceeds shall be applied to the sums secured by this Security Instrument, whether or not then due, with the excess, if any, paid to Borrower.

In the event of a total taking, destruction, or loss in value of the Property, the Miscellaneous Proceeds shall be applied to the sums secured by this Security Instrument, whether or not then due, with the excess, if any, paid to Borrower.

BALTIMORE COUNTY CIRCUIT COURT (Land Records) JLE 38898, p. 0076, MSA_CE62_38755. Date available 05/04/2017. Printed 09/05/2018.

BALTIMORE COUNTY CIRCUIT COURT (Land Records) JLE 38898, p. 0077, MSA_CE62_38755. Date available 05/04/2017. Printed 09/05/2018.

In the event of a partial taking, destruction, or loss in value of the Property in which the fair market value of the Property immediately before the partial taking, destruction, or loss in value is equal to or greater than the amount of the sums secured by this Security Instrument immediately before the partial taking, destruction, or loss in value, unless Borrower and Lender otherwise agree in writing, the sums secured by this Security Instrument shall be reduced by the amount of the Miscellaneous Proceeds multiplied by the following fraction: (a) the total amount of the sums secured immediately before the partial taking, destruction, or loss in value divided by (b) the fair market value of the Property immediately before the partial taking, destruction, or loss in value. Any balance shall be paid to Borrower.

In the event of a partial taking, destruction, or loss in value of the Property in which the fair market value of the Property immediately before the partial taking, destruction, or loss in value is less than the amount of the sums secured immediately before the partial taking, destruction, or loss in value, unless Borrower and Lender otherwise agree in writing, the Miscellaneous Proceeds shall be applied to the sums secured by this Security Instrument whether or not the sums are then due.

If the Property is abandoned by Borrower, or if, after notice by Lender to Borrower that the Opposing Party (as defined in the next sentence) offers to make an award to settle a claim for damages, Borrower fails to respond to Lender within 30 days after the date the notice is given, Lender is authorized to collect and apply the Miscellaneous Proceeds either to restoration or repair of the Property or to the sums secured by this Security Instrument, whether or not then due. "Opposing Party" means the third party that owes Borrower Miscellaneous Proceeds or the party against whom Borrower has a right of action in regard to Miscellaneous Proceeds.

Borrower shall be in default if any action or proceeding, whether civil or criminal, is begun that, in Lender's judgment, could result in forfeiture of the Property or other material impairment of Lender's interest in the Property or rights under this Security Instrument. Borrower can cure such a default and, if acceleration has occurred, reinstate as provided in Section 19, by causing the action or proceeding to be dismissed with a ruling that, in Lender's judgment, precludes forfeiture of the Property or other material impairment of Lender's interest in the Property or rights under this Security Instrument. The proceeds of any award or claim for damages that are attributable to the impairment of Lender's interest in the Property are hereby assigned and shall be paid to Lender.

8. Joint and Several Liability; Co-signers; Successors and Assigns Bound. Borrower covenants and agrees that Borrower's obligations and liability shall be joint and several. However, any Borrower who co-signs this Security Instrument but does not execute the Note (a "co-signer"): (a) is co-signing this Security Instrument only to mortgage, grant and convey the co-signer's interest in the Property under the terms of this Security Instrument; (b) is not personally obligated to pay the sums secured by this Security Instrument; and (c) agrees that Lender and any other Borrower can agree to extend, modify, forbear or make any accommodations with regard to the terms of this Security Instrument or the Note without the co-signer's consent.

Any Successor in Interest of Borrower who assumes Borrower's obligations under this Security Instrument in writing, and is approved by Lender, shall obtain all of Borrower's rights and benefits under this Security Instrument. Borrower shall not be released from Borrower's obligations and liability under this Security Instrument unless Lender agrees to such release in writing. The covenants and agreements of this Security Instrument shall bind and benefit the

successors and assigns of Lender.

9. Loan Charges. Lender may charge Borrower fees for services performed in connection with Borrower's default, for the purpose of protecting Lender's interest in the Property and rights under this Security Instrument, including, but not limited to, attorneys' fees, property inspection and valuation fees. In regard to any other fees, the absence of express authority in this Security Instrument to charge a specific fee to Borrower shall not be construed as a prohibition on the charging of such fee. Lender may not charge fees that are expressly prohibited by this Security Instrument or by Applicable Law.

If the Loan is subject to a law which sets maximum loan charges, and that law is finally interpreted so that the interest or other loan charges collected or to be collected in connection with the Loan exceed the permitted limits, then: (a) any such loan charge shall be reduced by the amount necessary to reduce the charge to the permitted limit; and (b) any sums already collected from Borrower which exceeded permitted limits will be refunded to Borrower. Lender may choose to make this refund by reducing the principal owed under the Note or by making a direct payment to Borrower. If a refund reduces principal, the reduction will be treated as a partial prepayment without any prepayment charge (whether or not a prepayment charge is provided for under the Note). Borrower's acceptance of any such refund made by direct payment to Borrower will constitute a waiver of any right of action Borrower might have arising out of such overcharge.

10. Notices. All notices given by Borrower or Lender in connection with this Security Instrument must be in writing. Any notice to Borrower in connection with this Security Instrument shall be deemed to have been given to Borrower when mailed by first class mail or when actually delivered to Borrower's notice address if sent by other means. Notice to any one Borrower shall constitute notice to all Borrowers unless Applicable Law expressly requires otherwise. The notice address shall be the Property Address unless Borrower has designated a substitute notice address by notice to Lender. Borrower shall promptly notify Lender of Borrower's change of address. If Lender specifies a procedure for reporting Borrower's change of address, then Borrower shall only report a change of address through that specified procedure. There may be only one designated notice address under this Security Instrument at any one time. Any notice to Lender shall be given by delivering it or by mailing it by first class mail to Lender's address stated herein unless Lender has designated another address by notice to Borrower. Any notice in connection with this Security Instrument shall not be deemed to have been given to Lender until actually received by Lender. If any notice required by this Security Instrument is also required under Applicable Law, the Applicable Law requirement will satisfy the corresponding requirement under this Security Instrument.

11. Governing Law; Severability; Rules of Construction. This Security Instrument shall be governed by federal law and the law of the jurisdiction in which the Property is located. All rights and obligations contained in this Security Instrument are subject to any requirements and limitations of Applicable Law. Applicable Law might explicitly or implicitly allow the parties to agree by contract or it might be silent, but such silence shall not be construed as a prohibition against agreement by contract. In the event that any provision or clause of this Security Instrument or the Note conflicts with Applicable Law, such conflict shall not affect other provisions of this Security Instrument or the Note which can be given effect without the conflicting provision.

As used in this Security Instrument: (a) words of the masculine gender shall mean and

BALTIMORE COUNTY CIRCUIT COURT (Land Records) JLE 38898, p. 0078, MSA_CE62_38755. Date available 05/04/2017. Printed 09/05/2018.

include corresponding neuter words or words of the feminine gender; (b) words in the singular shall mean and include the plural and vice versa; and (c) the word "may" gives sole discretion without any obligation to take any action.

12. Borrower's Copy. Borrower shall be given one copy of the Note and of this Security Instrument.

13. Transfer of the Property or a Beneficial Interest in Borrower. As used in this Section 13, "Interest in the Property" means any legal or beneficial interest in the Property, including, but not limited to, those beneficial interests transferred in a bond for deed, contract for deed, installment sales contract or escrow agreement, the intent of which is the transfer of title by Borrower at a future date to a purchaser.

If all or any part of the Property or any Interest in the Property is sold or transferred (or if Borrower is not a natural person and a beneficial interest in Borrower is sold or transferred) without Lender's prior written consent, Lender may require immediate payment in full of all sums secured by this Security Instrument. However, this option shall not be exercised by Lender if such exercise is prohibited by Applicable Law.

If Lender exercises this option, Lender shall give Borrower notice of acceleration. The notice shall provide a period of not less than 30 days from the date the notice is given within which Borrower must pay all sums secured by this Security Instrument. If Borrower fails to pay these sums prior to the expiration of this period, Lender may invoke any remedies permitted by this Security Instrument without further notice or demand on Borrower.

14. Borrower's Right to Reinstate After Acceleration. If Borrower meets certain conditions, Borrower shall have the right to have enforcement of this Security Instrument discontinued at any time prior to the earliest of: (a) five days before sale of the Property pursuant to any power of sale contained in this Security Instrument; (b) such other period as Applicable Law might specify for the termination of Borrower's right to reinstate; or (c) entry of a judgment enforcing this Security Instrument. Those conditions are that Borrower: (a) pays Lender all sums which then would be due under this Security Instrument and the Note as if no acceleration had occurred; (b) cures any default of any other covenants or agreements; (c) pays all expenses incurred in enforcing this Security Instrument, including, but not limited to, reasonable attorneys' fees, property inspection and valuation fees, and other fees incurred for the purpose of protecting Lender's interest in the Property and rights under this Security Instrument; and (d) takes such action as Lender may reasonably require to assure that Lender's interest in the Property and rights under this Security Instrument, and Borrower's obligation to pay the sums secured by this Security Instrument, shall continue unchanged. Lender may require that Borrower pay such reinstatement sums and expenses in one or more of the following forms, as selected by Lender: (a) cash; (b) money order; (c) certified check, bank check, treasurer's check or cashier's check, provided any such check is drawn upon an institution whose deposits are insured by a federal agency, instrumentality or entity; or (d) Electronic Funds Transfer. Upon reinstatement by Borrower, this Security Instrument and obligations secured hereby shall remain fully effective as if no acceleration had occurred. However, this right to reinstate shall not apply in the case of acceleration under Section 18.

15. Sale of Note; Change of Loan Servicer; Notice of Grievance. The Note or a partial interest in the Note (together with this Security Instrument) can be sold one or more times without prior notice to Borrower. A sale might result in a change in the entity (known as the "Loan Servicer") that collects Periodic Payments due under the Note and this Security Instrument

BALTIMORE COUNTY CIRCUIT COURT (Land Records) JLE 38898, p. 0079, MSA_CE62_38755. Date available 05/04/2017. Printed 09/05/2018.

BALTIMORE COUNTY CIRCUIT COURT (Land Records) JLE 38898, p. 0080, MSA_CE62_38755. Date available 05/04/2017. Printed 09/05/2018.

and performs other mortgage loan servicing obligations under the Note, this Security Instrument, and Applicable Law. There also might be one or more changes of the Loan Servicer unrelated to a sale of the Note. If there is a change of the Loan Servicer, Borrower will be given written notice of the change which will state the name and address of the new Loan Servicer, the address to which payments should be made and any other information RESPA requires in connection with a notice of transfer of servicing. If the Note is sold and thereafter the Loan is serviced by a Loan Servicer other than the purchaser of the Note, the mortgage loan servicing obligations to Borrower will remain with the Loan Servicer or be transferred to a successor Loan Servicer and are not assumed by the Note purchaser unless otherwise provided by the Note purchaser.

Neither Borrower nor Lender may commence, join, or be joined to any judicial action (as either an individual litigant or the member of a class) that arises from the other party's actions pursuant to this Security Instrument or that alleges that the other party has breached any provision of, or any duty owed by reason of, this Security Instrument, until such Borrower or Lender has notified the other party (with such notice given in compliance with the requirements of Section 15) of such alleged breach and afforded the other party hereto a reasonable period after the giving of such notice to take corrective action. If Applicable Law provides a time period which must elapse before certain action can be taken, that time period will be deemed to be reasonable for purposes of this paragraph. The notice of acceleration and opportunity to cure given to Borrower and the notice of acceleration given to Borrower shall be deemed to satisfy the notice and opportunity to take corrective action provisions of this Section.

16. Hazardous Substances. As used in this Section 16: (a) "Hazardous Substances" are those substances defined as toxic or hazardous substances, pollutants, or wastes by Environmental Law and the following substances: gasoline, kerosene, other flammable or toxic petroleum products, toxic pesticides and herbicides, volatile solvents, materials containing asbestos or formaldehyde, and radioactive materials; (b) "Environmental Law" means federal laws and laws of the jurisdiction where the Property is located that relate to health, safety or environmental protection; (c) "Environmental Cleanup" includes any response action, remedial action, or removal action, as defined in Environmental Law; and (d) an "Environmental Condition" means a condition that can cause, contribute to, or otherwise trigger an Environmental Cleanup.

Borrower shall not cause or permit the presence, use, disposal, storage, or release of any Hazardous Substances, or threaten to release any Hazardous Substances, on or in the Property. Borrower shall not do, nor allow anyone else to do, anything affecting the Property (a) that is in violation of any Environmental Law, (b) which creates an Environmental Condition, or (c) which, due to the presence, use, or release of a Hazardous Substance, creates a condition that adversely affects the value of the Property. The preceding two sentences shall not apply to the presence, use, or storage on the Property of small quantities of Hazardous Substances that are generally recognized to be appropriate to normal residential uses and to maintenance of the Property (including, but not limited to, hazardous substances in consumer products).

Borrower shall promptly give Lender written notice of (a) any investigation, claim, demand, lawsuit or other action by any governmental or regulatory agency or private party involving the Property and any Hazardous Substance or Environmental Law of which Borrower has actual knowledge, (b) any Environmental Condition, including but not limited to, any spilling, leaking, discharge, release or threat of release of any Hazardous Substance, and (c) any condition caused by the presence, use or release of a Hazardous Substance which adversely

BALTIMORE COUNTY CIRCUIT COURT (Land Records) JLE 38898, p. 0081, MSA_CE62_38755. Date available 05/04/2017. Printed 09/05/2018.

affects the value of the Property. If Borrower learns, or is notified by any governmental or regulatory authority, or any private party, that any removal or other remediation of any Hazardous Substance affecting the Property is necessary, Borrower shall promptly take all necessary remedial actions in accordance with Environmental Law. Nothing herein shall create any obligation on Lender for an Environmental Cleanup.

NON-UNIFORM COVENANTS. Borrower and Lender further covenant and agree as follows:

17. Acceleration; Remedies. Lender shall give notice to Borrower prior to acceleration following Borrower's breach of any covenant or agreement in this Security Instrument (but not prior to acceleration under Section 18 unless Applicable Law provides otherwise). The notice shall specify: (a) the default; (b) the action required to cure the default; (c) a date, not less than 30 days from the date the notice is given to Borrower, by which the default must be cured; and (d) that failure to cure the default on or before the date specified in the notice may result in acceleration of the sums secured by this Security Instrument and sale of the Property. The notice shall further inform Borrower of the right to reinstate after acceleration and the right to assert in the foreclosure proceeding the non-existence of a default or any other defense of Borrower to acceleration and sale. If the default is not cured on or before the date specified in the notice, Lender at its option may require immediate payment in full of all sums secured by this Security Instrument without further demand and may invoke the power of sale, assent to decree, and/or any other remedies permitted by Applicable Law. Lender shall be entitled to collect all expenses incurred in pursuing the remedies provided in this Section 17, including, but not limited to, reasonable attorneys' fees and costs of title evidence.

If Lender invokes the power of sale, Lender shall mail or cause Trustee to mail a notice of sale to Borrower in the manner prescribed by Applicable Law. Trustee shall give notice of sale by public advertisement and by such other means as required by Applicable Law. Trustee, without demand on Borrower, shall sell the Property at public auction to the highest bidder at the time and place and under the terms designated in the notice of sale in one or more parcels and in any order Trustee determines. Trustee may postpone sale of all or any parcel of the Property by public announcement at the time and place of any previously scheduled sale and by notice to any other persons as required by Applicable Law. Lender or its designee may purchase the Property at any sale.

Trustee shall deliver to the purchaser Trustee's deed conveying the Property without any covenant or warranty, expressed or implied. The recitals in the Trustee's deed shall be prima facie evidence of the truth of the statements made therein. Trustee shall apply the proceeds of the sale in the following order: (a) to all expenses of the sale, including, but not limited to, Trustee's fees of 6% of the gross sale price and reasonable attorneys' fees; (b) to all sums secured by this Security Instrument; and (c) any excess to the person or persons legally entitled to it.

Borrower, in accordance with Title 14, Chapter 200 of the Maryland Rules of Procedure, does hereby declare and assent to the passage of a decree to sell the Property in one or more parcels by the equity court having jurisdiction for the sale of the Property, and consents to the granting to any trustee appointed by the assent to decree of all the rights, powers and remedies granted to the Trustee in this Security Instrument together with any

BALTIMORE COUNTY CIRCUIT COURT (Land Records) JLE 38898, p. 0082, MSA_CE62_38755. Date available 05/04/2017. Printed 09/05/2018.

and all rights, powers and remedies granted by the decree. Neither the assent to decree nor the power of sale granted in this Section 17 shall be exhausted in the event the proceeding is dismissed before the payment in full of all sums secured by this Security Instrument.

18. Release. Upon payment of all sums secured by this Security Instrument, Lender or Trustee, shall release this Security Instrument and mark the Note "paid" and return the Note to Borrower. Borrower shall pay any recordation costs. Lender may charge Borrower a fee for releasing this Security Instrument, but only if the fee is paid to a third party for services rendered and the charging of the fee is permitted under Applicable Law.

19. Substitute Trustee. Lender, at its option, may from time to time remove Trustee and appoint a successor trustee to any Trustee appointed hereunder by an instrument recorded in the city or county in which this Security Instrument is recorded. Without conveyance of the Property, the successor trustee shall succeed to all the title, power and duties conferred upon Trustee herein and by Applicable Law.

20. Possession of the Property. Borrower shall have possession of the Property until Lender has given Borrower notice of default pursuant to this Security Instrument.

BY SIGNING BELOW, Borrower accepts and agrees to the terms and covenants contained in this Security Instrument and in any Rider executed by Borrower and recorded with it.

WAIVER OF ESCROW
Exhibit

Lender: Mario Smoot
Property Address: 12231 Harford Rd, Glen Arm, MD 21057

The Lender hereby agrees to waive the requirement for the monthly deposit of escrow finds for the mortgage loan.

The undersigned applicant(s) agree(s) to be solely responsible for the timely payment of any and all property taxes, assessments, leasehold payments, ground rents and hazard or property insurance premiums (including flood insurance premiums, if applicable), collectively referred to as the "Escrow Items," affecting the property. Further, the applicant(s) agree(s) to provide the Lender with written evidence of the payment of all property taxes and assessments on or before September 30th of each and every year and all other Escrow Items within two (2) weeks following the date that they are due for payment.

In the event that applicant(s) fails to provide written evidence of the payment of property taxes and assessments on or before September 30th of each and every year or in the event that the Lender receives a cancellation notice from the hazard or property insurance company or in the event applicant(s) fails to pay the water bill or fails to provide written evidence of the payment of all other Escrow Items within two (2) weeks following the date that they are due for payment, Lender shall have the right to collect a $250.00 penalty from applicant(s) for each and every occurrence.

Lender shall have the right to establish or reestablish an escrow for the payment of the Escrow Items in accordance with the terms of your loan documents in the event that during the term of the mortgage loan:

1. Applicant(s) fail(s) to pay any of the Escrow Items in a prompt and timely manner.
2. Applicant(s) fail(s) to provide Lender with evidence of payment of the Escrow Items within two (2) weeks following receipt of a written request from Lender.
3. Applicant(s) is(are) otherwise in default under the terms of the mortgage loan documents; or
4. It becomes necessary for Lender to advance funds to pay all or any portion of the Escrow Items.

MARYLAND INVENTORY OF HISTORIC PROPERTIES

BA-539 **BELLA VISTA (SITE)** - 1895 - East side of Harford Road, 0.5 mile south of Mt. Vista Road. After finding the former Homestead of the Gittings family unsuitable as a country home, Charles J. Bonaparte, then a Baltimore attorney and political reformer, built a very large stick and shingle or Queen Anne style, gable-roofed house on a hilltop to the east. The contractor was John Cowen. During his residence there, he served as Secretary of the Navy and Attorney General in the Theodore Roosevelt cabinet. He died in 1921. During the ownership of the Obrecht family, the house burned on January 20, 1933. Bella Vista was replaced by a contemporary house in poured concrete which still stands.

BA-539A **BELLA VISTA BARN** - 1895 - Barn built in brick with gambrel roof to a design by Charles J. Bonaparte. Contractor was John Cowen. Elaborately timbered roof support system (wood truss). Down the slope from former Obrecht house.

JOSEPH J. CALOGGERO, P.E., PTOE, PTP

Vice President

The Traffic Group
Merging Innovation and Excellence

"A Leader in Sustainable Transportation Solutions"

Joe Caloggero is a professional Traffic Engineer who brings almost 30 years of both technical and academic experience to The Traffic Group, Inc. His responsibilities include, but are not limited to, various traffic engineering and managerial tasks in the areas of traffic impact analysis, traffic safety studies, and transportation planning. He has managed over 500 Land Development Projects and has testified as an expert witness for various projects in many different jurisdictions.

Previously, Mr. Caloggero served as a Traffic Engineer for Parsons Brinckerhoff Quade & Douglas, Inc. and the Maryland State Highway Administration. During his career, he has performed various traffic engineering tasks, including traffic signal design, highway and intersection capacity analysis, maintenance and protection of traffic design, and transportation planning.

Job History

2000 - Present
Vice President - The Traffic Group, Inc.

1998 – 2000
Traffic Engineer
Parsons, Brinckerhoff, Quade & Douglas, Inc.

1993 - 1998
Traffic Engineer
Maryland State Highway Administration

Educational Background

- **Bachelor of Science in Civil Engineering**
  West Virginia University, Dec. 1991

Affiliations

- Certified Professional Transportation Planner (PTP)
- Certified Professional Traffic Operations Engineer (PTOE)
- Registered Professional Engineer (P.E.) – Florida, Hawaii, Maryland, New Jersey, South Carolina, Virginia, and West Virginia
- Institute of Transportation Engineers (I.T.E.)
- The Maryland Association of Engineers
- County Engineers' Association of Maryland (CEAM)

Publications

- Co-author, "*Positive Guidance in Maryland—Guidelines and Case Studies*," Maryland State Highway Administration Document, July 1997.
- Co-author, "*Highway Agency Tort Liability and Risk Management Relative to Pedestrian Facilities*," Proceedings of Conference on Risk Management and Tort Liability, Pennsylvania State University, April 1993.

Email – kris@mounteverestconstruction.com

Operator Name: - There is no operator for the site – it will be used exclusively for members of the congregation and there will be no tenants or leases on or for the property.

Name of Person Completing this Form: Rob Powell,
Phone Number 443-900-3169,
Email address "robpowell781@verizon.net"

Affiliation with Property: Consultant for Owner

By signing below, I certify that the information submitted below is accurate and true to the best of my knowledge.

Signature:

Date:

1. Provide a detailed description of the type of facility to be served by private well and/or OSDS. Include the hours of operation, number of employees (part-time and full time). If

a food service facility, include the number of seats, and an interior floor plan of the facility. For churches and banquet halls, include the frequently and number of services or special events. For existing facilities, explain proposed changes as they affect capacity.

THE FACILITY is sited on a 30.8-acre tract of land on the east side of Harford Road, south of Mount Vista Road intersection. The Bonaparte Mansion is located on this property along with several other out buildings and a three-bedroom dwelling. This property is listed in the Maryland Inventory of Historic Properties (BA-539) and is known as the "Bella Vista" site. None of the buildings are currently occupied and have been vacant for a period of at least 4-5 years according to the current owner's representative. The structure has 5 bedrooms upstairs (second level) and 2 ½ baths. The lower level (first floor) has the hall, two bedrooms, 1 ½ baths and a kitchen (residential)

THE MANSION structure will be used solely for religious worship and related activities. The congregation currently has 800 – 900 members with the membership coming from the general tri-state area. The first floor will be used for worship activities that will take place in the hall and the two former bedrooms (one in the front and one in the rear of the structure). A floor plan is provided for further clarification. The "Hall" (as it is noted on the floor plan) will be used as a Prayer Room and will have multiple Deity's in the room for those worshiping. An attached photo is provided depicting examples. Similar Deity's or prayer stations will be provided in the other two rooms on the first floor. The temple will be open during the week and weekends from approximately 9am to 5 pm. Members of the congregation coming to pray or worship will normally be there for anywhere from 10 – 30 minutes. It is anticipated that during the week days, approximately 10-15 people will visit the site for worship, meditation and prayer. During the weekend, the number of those worshipping would increase to approximately 30 members.

The second floor of the structure will be used as an office for the Priest and one office for a secretary/administrator. Another of the rooms upstairs will be used for meetings for the Board of Trustees, who generally meet once/month. The kitchen has residential equipment in it (double oven, stove top in an island and a refrigerator. The kitchen will be used sporadically by the staff member and the Priest. No food or alcohol will be served in the Mansion as it is to be used as a place of worship only. The Hall/Prayer Room will be used exclusively for worship only. No part of the Mansion will be rented out for parties/social events; either for members or non-members. Members may use the Prayer Room for a wedding ceremony and blessing by the Priest (which may take up to 2-3 hours) but the celebration afterwards will take place at another venue off site. There

will be no seating in the prayer room, even for weddings. The wedding is usually attended by the Priest, bride, groom and a small group of close family. Others will be at the wedding but will not be in the building all of the time. Maximum number of those on the property for the wedding will not exceed 100 persons.

TENANT DWELLING has three-bedrooms and is currently vacant. This structure will be used for housing the Priest and his wife. It will not be rented out to others.

OUT BUILDINGS AND OTHER ANCILLARY STRUCTURES – There is a barn located on the lower portion of the property. No use is currently planned for this structure. There is also an in-ground swimming pool and a pool house; both of which are in poor condition. Neither of these structures are to be used.

THE OUTSIDE GROUNDS/PROPERTY – It is anticipated there will be 3-4 outside festivals during any given year; such festivals to be held outside, generally in the front of the Mansion. Those attending the festivals will not be permitted to use the restrooms in the Mansion, hence portable facilities will be rented for the occasions. Food will be served during those events; provided by members bringing their own prepared dishes from home and possibly some vendors providing food. There will be no food preparation, warming or cleaning of dishes in the kitchen inside the Mansion. All utensils and cookware will be taken from the site at the conclusion of the event. It is anticipated that plates, cups and eating utensils will be single service items. The outside festivals that will be held during the year are as follows:

- **HOLI** – is generally held on the day after the full moon in early March. It is called the "Festival of Color" and is held outside. Food will be served (preparation and cleaning as noted above) and it is anticipated the attendance would be between 100-200 people. Portable outside restroom facilities will be provided for the guests
- **SUMMER FESTIVAL** – is just what it says. It will be held sometime during the summer months, during a weekend and food will be served. It is expected that 100-200 people would be in attendance. Portable outside bathroom facilities will be provided and there will be no kitchen use as previously noted.
- **DASHINI** – is the biggest event of the year. It occurs mid-October and is a 10-day festival. The last 3 days of the festival will see increased usage of the Mansion with as many as 50 members coming for prayer or worship. The last day of the festival will bring approximately 200 people to the event. Snacks and drinks (no alcohol) will be served with some snacks

being provided by members; however, there will be no vendors providing food nor will there be cooked food provided onsite. As before, portable outside restroom facilities will be provided.

- **DIWALI** – is a "Festival of Lights" that is observed for 5 days, culminating if an evening gathering onsite. It is expected that 100-200 people would be in attendance; with no food being served and as before, outside portable restroom facilities being provided.

2. Provide an estimate of the projected peak daily water usage that will discharge to the OSDS. Sewage flows must be justified through actual water meter information or based on MDE and/or US EPA wastewater flow estimates. Water meter information must include daily readings collected over a 2-month consecutive period inclusive of the months of maximum water usage. If cooling water from ice machines is directed to OSDS, estimate the volume from this source separately. Attach documentation as needed.
    a. **TENANT DWELLING** – is a three-bedroom dwelling and although only the Priest and his wife will be residing there, the peak anticipated sewage flow in accordance with MDE regulations would be 150 gal./bedroom/day for a total peak daily design flow of 450 gpd. The existing septic system serving the structure is a metal septic tank (collapsed) and an unknown field component. A new sewage disposal system is planned to be installed for the dwelling and at that time, the existing septic system component will be located and properly abandoned and backfilled.
    b. **MANSION** – All of the outdoor festivals will not entail usage of either the kitchen for food preparation or cleanup nor will the bathroom facilities (1 ½ baths for the first floor) be used by those attending the outside festivals. Consequently, the highest usage would entail the following scenario:
        i. A wedding would be held in the prayer room – 2-3 hours max with no food or drinks served. Anticipated maximum number of people attending would be 100 persons although as stated before, not all will be in the prayer room during the service. MDE Guidelines for Waste Water Flows for Use in Designing On-Site Systems specifies 3 gal./seat/day for a church/assembly hall with no food service. This would provide for a flow of 300 gpd.
        ii. Staff present during the day – Priest and secretary/administrator. MDE Guidelines noted previously specifies 15 gal./person/day for workplaces; thus, providing for a flow of 30 gpd.

iii. Meeting of the Board of Trustees – assume 10 people with an assigned flow of 3 gal./person/day = 30 gpd.
iv. The maximum total flow to be generated by the facility would then be calculated as follows: 300 gpd (wedding) + 30 gpd (staff) + 30 gpd (meeting) = 360 gpd.
v. MDE regulations COMAR 26.04.02.05J stipulates a minimum flow from a non-residential usage of 400 gpd.
vi. In consideration of the unforeseen possibility of additional meetings and/or staffing arising in the future, the congregation is proposing/requesting that the design flow of the sewage disposal system be 700 gpd.

The exact location of the septic system for the Mansion is unknown at this time however, given the age of the system, the congregation desires to install a new sewage disposal system and to abandon and backfill the existing one.

3. Provide the number of wells and construction of each well serving the property. Include well tag numbers, total depth, casing depth and well yield information. Show the location of each well on a site plan along with the location of water lines outside of the building.

   To the best of our knowledge, there is one well, drilled and located in a pit adjacent to the swimming pool. This well is to be abandoned, backfilled and a new well drilled.

4. Provide a description of the water treatment devices that are installed on the water supply (e.g., neutralizer, softener, reverse osmosis, ultraviolet light, etc.). Include documentation for the most recent water quality tests for bacteria, nitrates and any other water monitoring results that may be viable.

   When the proposed replacement water well is drilled, it will be sampled as noted above. Results of the tests will dictate the need for additional water treatment.

DEED

TO
THE STATE OF MARYLAND
TO THE USE OF
STATE HIGHWAY ADMINISTRATION
OF THE
MARYLAND DEPARTMENT OF
TRANSPORTATION

Right of Way Item No. 105130

SHA Contract No. BA465A31

THIS DEED made this 11th day of August in the year 2015

From **KEVIN J. MCFALLS** and **JENNIFER L. MCFALLS,** his wife, Grantors, unto the STATE OF MARYLAND to the use of the STATE HIGHWAY ADMINISTRATION OF THE MARYLAND DEPARTMENT OF TRANSPORTATION, Grantee.

WHEREAS, the State Highway Administration of the Department of Transportation, acting for and on behalf of the State of Maryland, finds it necessary to acquire certain land, easements, rights and/or controls, in order to lay out, open, establish, construct, extend, widen, straighten, grade and improve as a part of the State Roads System of Maryland, a highway and/or bridge, together with the appurtenances thereto belonging, under its Contract Number BA4655187 and known as MD 147 (Harford Road) at Glen Arm Road/Mt. Vista Road Roundabout and to thereafter use, maintain and/or further improve said highway and/or bridge, as a part of the Maryland State Roads System; and

WHEREAS, the total payment per §10-912(b) of the Tax-General Article of the Annotated Code of Maryland is Five Hundred Fifty Thousand and 00/100 Dollars ($550,000.00); and

WHEREAS, the undersigned certify under the penalties of perjury that the following is true to the best of their knowledge, information and belief, that in accordance with §10-912(d)(1)(i) of the Tax-General Article of the Annotated Code of Maryland, they are residents of the State of Maryland.

WITNESSETH: That for and in consideration of the sum of One Dollar ($1.00) and other good and valuable consideration paid by Grantee unto Grantors, the receipt whereof is hereby acknowledged, said Grantors do hereby give, grant, bargain and sell, release, convey and confirm unto the STATE OF MARYLAND TO THE USE OF THE STATE HIGHWAY ADMINISTRATION OF THE MARYLAND DEPARTMENT OF TRANSPORTATION, its successors and assigns, forever in fee simple,

ALL that lot or parcel of land, situate, lying and being in Baltimore County, Maryland, and being more particularly described as follows:

BEGINNING FOR THE SAME at the center of Glen Arm Road with the northern right-of-way line of Maryland Route 147 (Harford Road - RW Plat No. 00-019-2); thence binding on said Right-of-way line (1) South 75 degrees 04 minutes 35 seconds West 76.87 feet and (2) South 68 degrees 49 minutes 32 seconds West 265.82 feet; thence binding on lot one of Bonaparte Acres (Baltimore County Minor Subdivision Project No. 97047M) (3) North 47 degrees 01 minutes 06 seconds West 282.70 feet to the right-of-way for Bonaparte Avenue (RW Plat No. 00-0190-3); thence binding on the right-of-way line of said Bonaparte Avenue the following four courses, viz: (4) North 44 degrees 02 minutes 30 seconds East, 34.30 feet (5) North 30 degrees 39 minutes 10 seconds East 65.91 feet; (6) South 64 degrees 04 minutes 12 seconds East 52.92 feet and (7) North 25 degrees 55 minutes 48 seconds East 50.00 feet; thence binding on lot three of said Bonaparte Acres (8)

REVIEWED SDAT BY N. Greisher DATE 9/24/15

Petitioner
CBA Exhibit
23

BALTIMORE COUNTY CIRCUIT COURT (Land Records) JLE 36568, p. 0390, MSA_CE62_36424. Date available 08/28/2015. Printed 09/12/2018.

South 67 degrees 23 minutes 00 seconds East 433.97 feet to the center of aforesaid Glen Arm Road; thence binding on said Glen Arm Road (9) South 06 degrees 17 minutes 29 seconds East 13.30 feet to the place of beginning, containing 1.772 acres of land, more or less. ALSO BEING KNOWN AND DESIGNATED as Lot No. 2, as shown on a Minor Subdivision Plat entitled, "MINOR SUBDIVISION PLAT, BONAPARTE ACRES," which said Minor Subdivision Plat is recorded with a Deed dated May 18, 2001 and recorded among the Land Records of Baltimore County, Maryland in Liber S.M. No. 0015311, folio 211. The improvements thereon being known as 6226 Bonaparte Avenue.

BEING ALL of the same property conveyed by a deed dated January 13, 2004 and recorded among the Land Records of Baltimore County, Maryland, in Liber No. 19792, folio 468, from Glen Arm Homes, L.L.C. unto Kevin J. McFalls and Jennifer L. McFalls.

TOGETHER with the buildings and improvements thereupon erected, made or being and all and every right, roads, alleys, ways, waters, privileges, appurtenances and advantages, to the same belonging, or anywise appertaining.

TO HAVE AND TO HOLD the land and premises above described and mentioned, and hereby intended to be conveyed, unto the proper use and benefit of the STATE OF MARYLAND TO THE USE OF THE STATE HIGHWAY ADMINISTRATION OF THE MARYLAND DEPARTMENT OF TRANSPORTATION, its successors and assigns, forever in fee simple.

AND Grantors covenant that they have neither done, nor suffered to be done, anything to encumber the property hereby conveyed and that they will execute such and further assurances of the same as may be requisite and will specially warrant the herein conveyed property.

The actual consideration paid by the Grantee unto Grantors is Five Hundred Fifty Thousand and 00/100 Dollars ($550,000.00).

IN WITNESS WHEREOF Grantors have hereunto set their hands and seals.

Return Recorded Deed to:
Chief, Records and Research
State Highway Administration
707 North Calvert Street
Baltimore, Maryland 21202

I HEREBY CERTIFY that this instrument was prepared under my supervision, an attorney admitted to practice by the Court of Appeals of Maryland.

Felicia Jackson Taylor
Assistant Attorney General

As a transfer of property to an agency of the State of Maryland, this instrument is not subject to recordation tax (pursuant to §12-108(a) of the Tax-Property Article of the Annotated Code of Maryland) and transfer tax (pursuant to §13-207(a)(1) of the Tax-Property Article of the Annotated Code of Maryland).

This instrument is being presented for recording by, or on behalf of, an agency of the State of Maryland, which is a party to this instrument. Therefore, for the reasons described in a letter from the Office of the Attorney General dated December 21, 2001, this instrument is to be recorded without charge for the recording fee and Real Property Records Improvement Fund surcharge which would otherwise be due pursuant to §3-601 of the Real Property Article and §13-604 of the Courts and Judicial Proceedings Article, respectively, of the Annotated Code of Maryland.

Petition No 25

DONALD I. MOHLER III
County Executive

VINCENT J. GARDINA, *Director*
Department of Environmental Protection and Sustainability

October 3, 2018

Mr. Craig Rodgers
CRAIG CONSULTANTS LLC
7024 GREENBANK RD
BALTIMORE MD 21220

RE: Bonaparte Estates, 12231 Harford Road, Election District - 11

Dear Mr. Rodgers,

A representative of this office, Mia L. L. Lowery, L.E.H.S., conducted soil evaluations on 09/18/2018 regarding the above-referenced lot(s).

Based on the soil evaluations and the designated Master Plan dated 09/18/2018, **APPROVAL** will be granted for the installation of a private onsite sewage disposal system (OSDS) for the lot(s) specified above. Soil percolation tests will be ***valid for a period of five (5) years from the date of this letter, approval letter or record plat, whichever is most recent.*** At the expiration of this period of time, the results will become **VOID** and revalidation of this approval must be obtained in writing from the Approving Authority.

It should be noted, that septic reserve area(s) are depicted on the Master Plan for the installation of an initial OSDS and future repairs. Under no circumstance shall any easements, rights-of-way, buildings, any other permanent or physical structures above or below ground, be permitted within this area and it may not be disturbed by earth moving, compaction, tree removal or grading. Also, no underground electric lines, water pipes, gas lines, etc., shall be permitted in the septic reserve area.

Petitioner
CBA Exhibit
25

The following are comments that concern persons developing property:

- Where water wells are to be used as a source of water supply, the Baltimore County Code, (Title 35, Article 2, Sec. 35-41), requires that a well meeting the minimum recovery rate of one gallon per minute be drilled prior to issuance of a building permit.

- Water well yield test reports shall be valid for a period of three years from the date of the yield test. At the expiration of that period of time, a retest must be performed and the report submitted to this office prior to issuance of a building permit.

- In order to subdivide this property, the owner or developer will be required to comply with the subdivision regulations of the State of Maryland and Baltimore County. **PLEASE NOTE**: For subdivisions of 11 or more lots a Water Appropriation Permit application must be submitted for review. This permit must then be issued by the Maryland Department of the Environment, Water Management Administration before final approval of the subdivision. Questions regarding the subdivision process should be directed to the Development Coordination Section of DEPS at 410-887-5859.

Attached is a copy of the soil evaluation data for the above-referenced lots. If you have any questions regarding this matter, please contact me at 410-887-2762, or via email at mlowery@baltimorecountymd.gov.

Sincerely,

Mia Lowery

Mr. Joseph J. Caloggero, P.E., PTOE, PTP
The Traffic Group, Inc.
9900 Franklin Square Drive
Suite H
Baltimore, MD 21236

Dear Mr. Caloggero:

Thank you for the opportunity to review the trip description and concept plan for a new access to the proposed Nepali Temple on the property at 12231 Harford Road (MD 147) located on the east side of MD 147 south of Mt. Vista Road in Baltimore County. The Maryland Department of Transportation State Highway Administration (MDOT SHA) has reviewed the submittal listed below and is pleased to respond.

Nepali Temple - 12231 Harford Road
Trip Description & Concept Plan for new access
SHA Tracking No. 17APBA030XX
MD 147 (east side) 1000' south of Mt. Vista Road
Mile Post 8.10
Baltimore County

Based on the information mentioned above, and the field meeting that occurred on September 20, 2018, the MDOT SHA grants conceptual approval of the proposed access as depicted on the concept plan. An access permit will be required to construct this re-located entrance and all access related improvements taking place within the MDOT SHA right-of-way on MD 147.

To initiate the plan review cycle toward the issuance of the access permit the design engineer must submit nine (9) sets of plans reflecting the re-located entrance and related road improvements on MD 147. The plan submittal should include 1 set of hydraulic computations, and a CD containing plans and all supporting documentation to Wendy Wolcott at 320 West Warren Road, Hunt Valley, MD 21030 to the attention of Mr. Richard Zeller. Please utilize the SHA tracking number when making this submission.

All SHA Policies, Standards and Specifications must be followed when preparing the above plan submittal including but not limited to the following documents:

MDOT SHA Access Manual
MDOT SHA Business Standards and Specifications
MDOT SHA Bicycle Policy and Design Guidelines
MDOT SHA Accessibility Policy and Guidelines for Pedestrian Facilities

Petitioner
CBA Exhibit
27

The Access Management Plan Review Checklist must be utilized in drafting the SHA Improvement Plans. Please include a copy of the completed checklist when making this submittal. All of these documents along with additional guidance can be found on our web site at www.roads.maryland.gov under Business Center.

If there are any questions, please contact Mr. Richard Zeller at 410-229-2332 or toll free (in Maryland only), 1-866-998-0367 (x2332) or by email at (rzeller@sha.state.md.us).

Sincerely,

Wendy Wolcott, P.L.A.

Importance:	High

Hi Erin,

I wanted to share with you the results of our speed study that we conducted from 9/26 to 10/2/2018 and 10/3/2018... We captured over 16,000 cars in each direction during this time (about 1 week)... See attached for the results of the study. Attached are pictures of the location of the tubes. NB was captured toward the end of the turn before the existing access and SB was captured in the middle of the turn north of the access. Basically, the results are in line with the criteria for us to meet on the location of the Nepali Access...

- Minimum Intersection Sight Distance (ISD) for SB left turn to oncoming traffic of 285 feet, based on a speed of 35 mph
  - 85th Percentile Speed of 31 MPH
  - 95th Percentile Speed of 34 MPH

- Minimum Stopping Sight Distance (SSD) along SB MD 147 to stopped left turner of 360 feet, based on a speed of 45 mph
  - 85th Percentile Speed of 38 MPH
  - 95th Percentile Speed of 39 MPH

- Minimum ISD exiting driveway of 390 feet looking south, based on a speed of 35 mph
  - 85th Percentile Speed of 31 MPH
  - 95th Percentile Speed of 34 MPH

- Minimum ISD exiting driveway of 500 feet looking north, based on a speed of 45 mph
  - 85th Percentile Speed of 38 MPH
  - 95th Percentile Speed of 39 MPH

We hope you find this information helpful... let me know if you have any questions... Thanks!

Joe

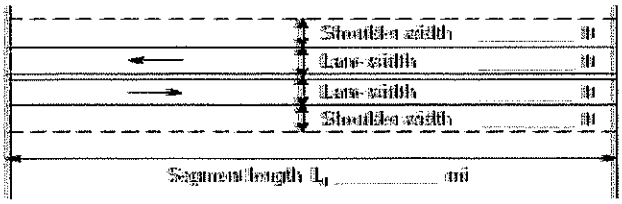
DIRECTIONAL TWO-LANE HIGHWAY SEGMENT WORKSHEET

General Information		Site Information	
Analyst	QT	Highway / Direction of Travel	MD 147
Agency or Company	TTG, Inc.	From/To	Glen Arm Rd
Date Performed	10/9/2018	Jurisdiction	Hartley Mill Rd
Analysis Time Period	Weekday AM Peak Hour	Analysis Year	2018

Project Description: Nepali Temple

Input Data



☐ Class I highway ☑ Class II highway ☐ Class III highway

Terrain ☐ Level ☑ Rolling

Grade Length mi Up/down

Peak-hour factor, PHF 0.88

No-passing zone 100%

% Trucks and Buses , P_T 6 %

% Recreational vehicles, P_R 4%

Access points mi 8/mi

Analysis direction vol., V_d	468veh/h
Opposing direction vol., V_o	135veh/h
Shoulder width ft	0.0
Lane Width ft	9.0
Segment Length mi	1.3

Average Travel Speed

	Analysis Direction (d)	Opposing Direction (o)
Passenger-car equivalents for trucks, E_T (Exhibit 15-11 or 15-12)	1.8	2.5
Passenger-car equivalents for RVs, E_R (Exhibit 15-11 or 15-13)	1.1	1.1
Heavy-vehicle adjustment factor, $f_{HV,ATS}=1/(1+P_T(E_T-1)+P_R(E_R-1))$	0.951	0.914
Grade adjustment factor[1], $f_{g,ATS}$ (Exhibit 15-9)	0.96	0.71
Demand flow rate[2], v_i (pc/h) $v_i=V_i/(PHF*f_{g,ATS}*f_{HV,ATS})$	583	236

Free-Flow Speed from Field Measurement		Estimated Free-Flow Speed	
Mean speed of sample[3], S_{FM}		Base free-flow speed[4], BFFS	45.0 mi/h
Total demand flow rate, both directions, v		Adj. for lane and shoulder width,[4] f_{LS}(Exhibit 15-7)	6.4 mi/h
Free-flow speed, $FFS=S_{FM}+0.00776(v/f_{HV,ATS})$		Adj. for access points[4], f_A (Exhibit 15-8)	2.0 mi/h
Adj. for no-passing zones, $f_{np,ATS}$ (Exhibit 15-15)	3.8 mi/h	Free-flow speed, FFS (FSS=BFFS-f_{LS}-f_A)	36.6 mi/h
		Average travel speed, $ATS_d=FFS-0.00776(v_{d,ATS}+v_{o,ATS})-f_{np,ATS}$	26.5 mi/h
		Percent free flow speed, PFFS	72.3 %

Percent Time-Spent-Following

	Analysis Direction (d)	Opposing Direction (o)
Passenger-car equivalents for trucks, E_T(Exhibit 15-18 or 15-19)	1.2	1.8
Passenger-car equivalents for RVs, E_R (Exhibit 15-18 or 15-19)	1.0	1.0
Heavy-vehicle adjustment factor, $f_{HV}=1/(1+P_T(E_T-1)+P_R(E_R-1))$	0.988	0.954
Grade adjustment factor[1], $f_{g,PTSF}$ (Exhibit 15-16 or Ex 15-17)	0.96	0.77
Directional flow rate[2], v_i(pc/h) $v_i=V_i/(PHF*f_{HV,PTSF}*f_{g,PTSF})$	561	209
Base percent time-spent-following[4], $BPTSF_d(\%)=100(1-e^{av_d^b})$	48.0	
Adj. for no-passing zone, $f_{np,PTSF}$ (Exhibit 15-21)	32.8	
Percent time-spent-following, $PTSF_d(\%)=BPTSF_d+f_{np,PTSF}*(v_{d,PTSF}/v_{d,PTSF}+v_{o,PTSF})$	71.9	

Level of Service and Other Performance Measures

Level of service, LOS (Exhibit 15-3)	D
Volume to capacity ratio, v/c	0.31
Capacity, $C_{d,ATS}$ (Equation 15-12) veh/h	1663
Capacity, $C_{d,PTSF}$ (Equation 15-13) veh/h	1700

Percent Free-Flow Speed $PFFS_d$(Equation 15-11 - Class III only)	*72.3*
Bicycle Level of Service	
Directional demand flow rate in outside lane, v_{OL} (Eq. 15-24) veh/h	*531.8*
Effective width, Wv (Eq. 15-29) ft	*9.00*
Effective speed factor, S_t (Eq. 15-30)	*4.79*
Bicycle level of service score, BLOS (Eq. 15-31)	*6.84*
Bicycle level of service (Exhibit 15-4)	*F*
Notes	
1. Note that the adjustment factor for level terrain is 1.00,as level terrain is one of the base conditions. For the purpose of grade adjustment, specific downgrade segments are treated as level terrain. 2. If v_i(v_d or v_o) >=1,700 pc/h, terminate analysis--the LOS is F. 3. For the analysis direction only and for v>200 veh/h. 4. For the analysis direction only 5. Exhibit 15-20 provides coefficients a and b for Equation 15-10. 6. Use alternative Exhibit 15-14 if some trucks operate at crawl speeds on a specific downgrade.

The third class addresses two-lane highways in *developed areas*. The analysis approach for these highways is a modification of the rural highway method and was developed by the Florida Department of Transportation (3). This modification has not been subjected to a national calibration study. It is presented here as an alternative procedure, since it is based entirely on Florida data. For clarity, the material is integrated into the overall method and is not discussed separately as an alternative procedure.

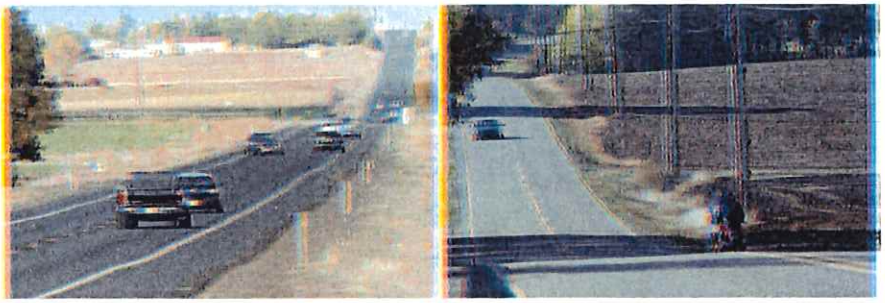
There are three classes of two-lane highways:

- *Class I, where motorists expect to travel at relatively high speeds;*
- *Class II, where motorists do not necessarily expect to travel at high speeds; and*
- *Class III, which are highways passing through moderately developed areas.*

The three classes of two-lane highways are defined as follows and illustrated in Exhibit 15-1:

- *Class I two-lane highways* are highways where motorists expect to travel at relatively high speeds. Two-lane highways that are major intercity routes, primary connectors of major traffic generators, daily commuter routes, or major links in state or national highway networks are generally assigned to Class I. These facilities serve mostly long-distance trips or provide the connections between facilities that serve long-distance trips.
- *Class II two-lane highways* are highways where motorists do not necessarily expect to travel at high speeds. Two-lane highways that are access routes to Class I facilities, that serve as scenic or recreational routes (and not as primary arterials), or that pass through rugged terrain (where high-speed operation would be impossible) are assigned to Class II. These facilities most often serve relatively short trips, the beginning or ending portions of longer trips, or trips for which sightseeing plays a significant role.
- *Class III two-lane highways* serve moderately developed areas. They may be portions of a Class I or Class II highway that pass through small towns or developed recreational areas. Local traffic often mixes with through traffic on these segments, and the number of unsignalized driveways and cross-streets is noticeably higher than in a purely rural area. Class III highways can include longer roadway segments passing through more spread-out recreational areas, also with increased roadside densities. Such segments are often accompanied by reduced speed limits that reflect the higher activity level.

The two-lane highway classes are defined on the basis of their function. Most rural two-lane arterials and trunk roads would be considered to be Class I highways, while most two-lane collectors and local roads would be considered to be Class II or Class III highways. However, the primary determinant of a facility's classification is the motorist's expectation, which might not agree with the route's overall functional category. For example, a major intercity route passing through a rugged mountainous area might be described as Class II if drivers recognize that high-speed operation is not feasible due to the terrain, but the route could still be considered to be in Class I.



(a) Examples of Class I Two-Lane Highways

(b) Examples of Class II Two-Lane Highways

(c) Examples of Class III Two-Lane Highways

Exhibit 15-1
Two-Lane Highway Classifications Illustrated

Base Conditions

The base conditions for two-lane highways are the absence of restrictive geometric, traffic, or environmental factors. Base conditions are not the same as typical or default conditions, both of which may reflect common restrictions. Base conditions are closer to what may be considered as ideal conditions (i.e., the best conditions that can be expected given normal design and operational practice). This chapter's methodology accounts for the effects of geometric, traffic, and environmental factors that are more restrictive than the base conditions. The base conditions for two-lane highways are as follows:

- Lane widths greater than or equal to 12 ft,
- Clear shoulders wider than or equal to 6 ft,
- No no-passing zones,
- All passenger cars (i.e., no trucks) in the traffic stream,

2. *PTSF* represents the freedom to maneuver and the comfort and convenience of travel. It is the average percentage of time that vehicles must travel in platoons behind slower vehicles due to the inability to pass. Because this characteristic is difficult to measure in the field, a surrogate measure is the percentage of vehicles traveling at headways of less than 3.0 s at a representative location within the highway segment. PTSF also represents the approximate percentage of vehicles traveling in platoons.
3. *Percent of free-flow speed* (*PFFS*) represents the ability of vehicles to travel at or near the posted speed limit. It is the ratio of ATS to FFS. The exact relationship between FFS and speed limit depends heavily on local policies on setting such limits and on enforcement practices.

On Class I two-lane highways, both average speed and delay experienced while waiting to pass are important to motorists. Therefore, LOS is defined in terms of both ATS and PTSF for these highways. On Class II highways, travel speed is not a significant issue to drivers; therefore, LOS is defined in terms of PTSF only. On Class III highways, high speeds are not expected, and passing restrictions are not a major concern due to the relatively short lengths of Class III segments. Instead, motorists would like to make steady progress at or near the speed limit. Therefore, PFFS is used to define LOS on Class III highways. Exhibit 15-3 presents the motorized vehicle LOS criteria for two-lane highways.

Exhibit 15-3
Motorized Vehicle LOS for Two-Lane Highways

LOS	Class I Highways		Class II Highways	Class III Highways
	ATS (mi/h)	PTSF (%)	PTSF (%)	PFFS (%)
A	>55	≤35	≤40	>91.7
B	>50–55	>35–50	>40–55	>83.3–91.7
C	>45–50	>50–65	>55–70	>75.0–83.3
D	>40–45	>65–80	>70–85	>66.7–75.0
E	≤40	>80	>85	≤66.7
F	Demand exceeds capacity			

Note: For Class I highways, LOS is determined by the worse of ATS-based LOS and PTSF-based LOS.

Because driver expectations and operating characteristics on the three classes of two-lane highways are different, a single definition of operating conditions at each LOS is difficult to provide.

Two characteristics, however, have a significant impact on actual operations and driver perceptions of service:

- *Passing capacity*: Since passing maneuvers on two-lane highways are made in the opposing direction of flow, the ability to pass is limited by the opposing flow rate and by the distribution of gaps in the opposing flow.
- *Passing demand*: As platooning and PTSF increase in a given direction, the demand for passing maneuvers increases. As more drivers are caught in a platoon behind a slow-moving vehicle, they will desire to make more passing maneuvers.

Both passing capacity and passing demand are related to flow rates. As flow in the travel direction increases, passing demand in the travel direction also increases. As flow in the opposing direction increases, passing capacity in the travel direction decreases.

POEHLER PROPERTY 12241 HARFORD RD GLEN ARM MD 21057
ADMINISTRATIVE ZONING PETITION
BERNADETTE T POEHLER CLARENCE D POEHLER

Based upon personal knowledge, the following are the facts which we base the request for an Administrative Variance

(1) Variance request to allow accessory structure to be located within the side yard in lieu of the required rear yard per section 400.1 of the BCZR.

The building placement in the rear would be unnecessarily burdensome due to the extremely steep grade of the property behind the home in the rear yard. Placement of the structure within the side yard reduces the need for grading the property and increases the distance between the structure and the tree line of the uniquely shaped property (please see photographs attached to application)

Permitting structure area to be along side the existing structure would give substantial relief to the property owners and the unique topography of the land which slopes toward the tree line behind the existing structure

Granting the relief of the area ordinance would not impact public safety or the welfare of the community and based on the curvature of the street, the area placement of the structure will not be noticeable to the community

(2) Variance request to allow the height of the accessory structure (garage) to be 25 feet in lieu of the required 15 feet per section 400.3 of the BCZR.

The allowance of the variance would provide for the peak to allow clearance of an RV and truck/plow to gain access to garage for storage and maintenance of vehicles

The property we are petitioning for a height variance is for a detached garage at our home and we desire to store our RV and personal vehicles on our property

The property currently has an attached garage that does not allow clearance of storage of an RV or our truck with snow plow attached.

July 2, 2018

The Honorable John E. Beverungen
Administrative Law Judge for Baltimore County
105 West Chesapeake Avenue, Suite 103
Towson, Maryland 21204

Re: Case No. 2018-0122-X, Petition for Special Exception
Request for Clarification of Your Order Dated January 22, 2018

Dear Judge Beverungen:

I write to you on behalf of my clients, the Nepali American Cultural Center and the zoning Order that you wrote approving the use of a building on their property for religious worship. The decision you wrote was dated the 22nd day of January, 2018 and a copy of that decision is attached hereto.

As you may know, some of the protestants who appeared at the hearing before you filed an appeal to the Board of Appeals and the case is currently pending before that agency. In the meantime, my clients have continued to repair the damage that has been done to the property by the local residents and continue to maintain the grounds, as they should.

At issue at this time is the language contained within your Order, specifically the seven restrictions located at the end of your approval. My clients have scheduled a fundraising event which is proposed to occur on the grounds of the subject property. These fundraising events are very important to the owners of the property as the repairs to fix the damage done to the property over the years has been extensive. This fundraising event is scheduled for July 29th to August 3rd, 2018.

I have attached to this letter a post that was taken from Facebook which advertises this event. As you are aware, social media, such as Facebook is an effective way to inform people of an event such as this fundraiser. Baltimore County Code Enforcement was provided a copy of that Facebook post by one of the protestants. Code Enforcement is attempting to assert that we cannot gather on our property because of the language of your restrictions contained within your Order. The fundraiser will be held outside on the property and not within the building. In fact, the building is not occupiable at this time as it still is not connected to water or sewer. It is however, anticipated that my clients will provide walking tours of the building to show the extensive improvements they have made to the property, of which they are very proud.

Petitioner
CBA Exhibit
34

Based upon this letter and the attachments hereto, I respectfully request your interpretation of your Order, specifically the restrictions contained therein as to whether it is appropriate for my clients to host this gathering event on the grounds of their property or whether such actions would violate the restriction you imposed upon them.

I have included a simple statement at the bottom of this letter for you to sign, should you deem it appropriate. Thank you for your time and consideration of this matter.

Very truly yours,

Timothy Kotroco

Timothy M. Kotroco

I understand the owners are proposing to host a gathering on the property July 29th through August 3rd, 2018. I also understand the Code Enforcement Bureau contends that the gathering would violate the terms and conditions of my January 22, 2018 Order granting special exception relief. I respectfully disagree and would note those conditions (as envisioned by BCZR section 502.2) related solely to the operations of a building for religious worship, which was the relief granted in the special exception case.

The owners are free to gather on their property so long as no religious activities are occurring within the subject building and all other permit requirements, if any, are satisfied. If this is the case, there is no violation of my Order. This owner should be treated no differently than any other citizen who wishes to host a party, a picnic or any other social event on their property.

IN RE: PETITION FOR SPECIAL EXCEPTION (12231 Harford Road) 11th Election District 5th Council District Nepali American Cultural Center *Legal Owner*	*	BEFORE THE OFFICE OF ADMINISTRATIVE HEARINGS
	*	FOR BALTIMORE COUNTY
Petitioner	*	Case No. 2018-0122-X

* * * * * * * * * * *

OPINION AND ORDER

This matter comes before the Office of Administrative Hearings (OAH) for consideration of a Petition for Special Exception filed on behalf of Nepali American Cultural Center, legal owner ("Petitioner"). The Special Exception was filed pursuant to the Baltimore County Zoning Regulations ("B.C.Z.R.") to allow a church or other building for religious worship on property zoned RC-2.

Professional engineers John Motsco and Joe Caloggeri appeared in support of the petition. Timothy M. Kotroco, Esq. represented the Petitioner. Numerous citizens attended the hearing and objected to the request. Substantive Zoning Advisory Committee (ZAC) comments were received from the Department of Planning (DOP), the Bureau of Development Plans Review (DPR), State Highway Administration (SHA) and the Department of Environmental Protection and Sustainability (DEPS). None of the reviewing agencies objected to the request.

The subject property is approximately 30.8 acres and is zoned RC-2. The property is improved with an historic single-family dwelling and several outbuildings. Petitioner purchased the property last year, at which time it was rundown and abandoned. Photographs submitted at the hearing reveal extensive vandalism to the property which occurred both before and after Petitioner purchased the property. Petitioner is in the process of renovating the property, and estimates that

at least 4-5 months of additional restoration work needs to be done before the property can be used by the congregation.

Special Exception

Doug Burgess, an attorney with a law office in the area, testified a special exception use enjoys a presumption that it is in the interest of the general welfare, and therefore, valid. *Schultz v. Pritts*, 291 Md. 1 (1981). The *Schultz* standard was revisited in *Attar v. DMS Tollgate, LLC*, 451 Md. 272 (2017), wherein Maryland's highest court discussed the nature of the evidentiary presumption in special exception cases. The court again emphasized a special exception is properly denied only when there are facts and circumstances showing that the adverse impacts of the use at the particular location in question would be above and beyond those inherently associated with the special exception use.

Mr. Motsco, a professional engineer accepted as an expert, explained the site plan in detail and said he has visited the property on several occasions. He testified the property is approximately 30.8 acres in size and is zoned RC-2. The witness noted the site has mature wooded buffers along all road frontages, and he testified Petitioner is not at this time proposing any new construction on the site. In conclusion, Mr. Motsco opined Petitioner satisfied each of the requirements set forth at B.C.Z.R. §502.1.

Several citizens testified in opposition to the proposal. Though each witness expressed concern with how the project may impact them individually, there were common themes in the testimony. Traffic conditions and roadway safety, and a concern for water wells and private sewage disposal, were the most frequently cited concerns. Many neighbors also complained about several events or gatherings at the site which generated a significant amount of noise. With the exception of the complaints about noise (which will be addressed in a condition included in the

final order), these concerns are inherent in the operation of a church or building for worship located in a rural area. In other words, most uses for which a special exception is required are regarded as "potentially troublesome because of noise, traffic, congestion...." *Montgomery County v. Butler*, 417 Md. 271, 297 (2010).

In rural zones especially roadways are often antiquated and overburdened, and water/sewer services are not provided by the County. Harford Road will be used to access the site, and as a state highway it is under the control and jurisdiction of the State Highway Administration (SHA). As Mr. Caloggeri (a professional engineer accepted as an expert) testified, the SHA, not Baltimore County, will examine the proposed access and determine whether improvements or other measures are necessary to ensure safe ingress/egress from the site.

As noted in the conditions below, Petitioner must obtain approval from Baltimore County for installation of well and septic systems for this property. Ronald Standiford, pastor of the adjacent Redeemer church, noted that the Christian school affiliated with the church has approximately 220 students and the well and septic system are sufficient. According to witnesses in Petitioner's case, far fewer people will visit this site on a daily basis, and thus there is no reason to believe the water supply and sewerage system would not be adequate.

THEREFORE, IT IS ORDERED this **22nd** day of **January, 2018,** by this Administrative Law Judge, that the Petition for Special Exception to allow a church or other building for religious worship on property zoned RC-2, be and is hereby GRANTED.

The relief granted herein shall be subject to the following:

1. Petitioner may apply for necessary permits and/or licenses upon receipt of this Order. However, Petitioner is hereby made aware that proceeding at this time is at its own risk until 30 days from the date hereof, during which time an appeal can be filed by any party. If for whatever reason this Order is reversed, Petitioner would be required to return the subject property to its original condition.

2. Petitioner must submit for approval by Baltimore County landscape and lighting plans for the site.
3. Prior to operating a religious facility at the site Petitioner must install a sign at the Harford Road access point (in compliance with the B.C.Z.R. §450) containing the name of the facility and street address.
4. Prior to issuance of occupancy permits, Petitioner must demonstrate to DEPS that the well and septic system proposed will be sufficient to serve the facility.
5. Prior to issuance of permits Petitioner must comply with the ZAC comment of DEPS, a copy of which is attached hereto and incorporated herein.
6. Prior to issuance of permits Petitioner must obtain from SHA an access permit authorizing ingress and egress from the site via Harford Road.
7. Special events held at the site shall be limited to the hours of 10 a.m. to 10 p.m., and outdoor amplification of music or sound shall not be permitted.

Any appeal of this decision must be made within thirty (30) days of the date of this Order.

Watchmaker Microscopes for Sale

HTI Main Page
Up

Below is selection of high resolution stereoscopic microscopes useful for watchmakers. You can see how I use microscopes in my business here. These all have good working distances for use at the WW lathe, Sherline mill and watchmaker drill presses. They are also extremely useful for checking jewels for defects, oiling escapements and checking the oil ring in capped jewels. You can extend the working distance (while reducing the total magnification) by acquiring an auxiliary objective (.7x or .5x). This will make it extremely practical at the bench for routine assembly and disassembly.

Popular Highlights

These microscopes were top of the line in the late 1990s and ran $1000 to $1500. They were used in universities and in quality control labs. These are now obsolete for those purposes since institutions are all using digital imaging systems instead of microscopes.

Equipment for Sale

None of the scopes here were used in production where fumes could coat the optics. All have been checked by me for correct operation: they stay in focus when zoomed, the image stays centered when zoomed and the zoom is smooth. I relubed the zoom mechanisms with MolyKote. These mechanisms are very robust and easy to care for. Personally, I follow the general recommendations to not "clean" the internal optics; they are well sealed and there is the risk of throwing them out of alignment. Use Isopropol Alcohol (lab grade) to clean the external optics with a cotton swab.

Most of the microscopes come with a lighting source (not usually needed at the bench or lathe) and 2 sets of matched eyepieces (10X and 15X). These will provide magnification from 8x to over 60x depending on the scope. The American Optical and Reichert scopes have a zoom range from .7 to 4.2 and Nikon and Olympus scopes zoom from .8 to 4.0. Multiply that by the eyepiece magnification to get the total magnification.

I tend to work at about 20x which is real joy. You can really see and have your nose getting in the way! And at the lathe you can see what is happening at the graver! I even turn the lathe 90 degrees and use the microscope to cut female centers and drill small holes (20/100mm to 70/100mm).

All have been cleaned and lubricated with their optics checked to ensure that the image remains centered and focused when zoomed (if applicable). There is a procedure for balancing the eyepieces to your eyes, but once done it is done. Parfocal zooming is ensured by focusing at the highest magnification.

Compare these to prices on auctions sites. These are tested, cleaned and lubed. I make my name on service so if you are unhappy you send it back. I only picked up scopes (mainly from labs and quality control departments) that I knew were useable. Bad ones go to auctions.

Bausch and Lomb StereoZoom 7 in Desk Stand with E-Arm for your boom

This is one of the finest optical stereo microscopes made. It is fully capable of delivering high resolution images at over 150 with an optional (hard to find) 2X auxiliary lens. This is this scope I use for inspection with my 15X B&L Ultras and a 2x lens.

This scope comes as shown: 10X B&L wide field eyepiece, desk stand and a ROTATING E-arm for mounting on your own boom. As you can see, both of these scopes came from biology labs and

were used as dissection scopes. They have been well cared for. You will see this scope is mounted on a boom. Not just any boom, it has the Bausch rotating holder made specifically for this scope. This is also very hard to find. The package also includes a desk stand with a non rotating holder.

Unlike the "normal" e-arm, this allows you to rotate the microscope 360 degrees in its mount. Extremely useful. You can use this with your existing micrcoscope boom and base.

One thing to note is that the Bausch system locks the scope pod in place so it cannot fall out accidentally.

As you can see, both of these scopes came from biology labs and were used as dissection scopes. They have been well cared for.

This mounting system allows you to adjust the scope to any possible working position. You can use the e arm in your boom over your lathe and the desk stand for inspection and lubrication work. Just undo two clips and put the pod into the other mount. It is that simple.

Like all the scopes I have sold, the focuser and zoom are lubricated and smooth, optics are unblemished, target remains centered across zoom range and the object remains focused (parfocal) when the eyepieces are properly adjusted.

Price: $475 plus shipping

AMERICAN OPTICAL 570 on Base with direct and reflected lighting

No matter what scope you buy or from where, I highly recommend buying a light source that transmits light FROM UNDER the piece. This is essential when inspecting hole jewels and oiled pallets. There are LED light plates made just for this purpose.

This AO 570 is mounted on a lab base that allows the included lamp to be used above the work or under the work. As presented here, it is useful for assembly, inspection and oiling. Once you buy a boom you have a very versatile system.

The AO 570 was AO's top of the line high resolution scope and should not be confused with the 569 (lower resolution) or the 571 (fixed magnification). They only ended production when industry shifted to digital imaging.

This is a great setup if you are a serious watchmaker but are not yet heavy into lathe work.

Since it IS an AO 570, you have a zoom factor of .7 to 4.2X. Comes with original AO 10X and 15X eyepieces which provide a max. magnification of over 60X.

PRICE: $285 shipped in USA

Archive of Sold Equipment

Bausch and Lomb StereoZoom 7 on Boom and with Desk stand

This is one of the finest optical stereo microscopes made. It is fully capable of delivering high resolution images at over 150 with an optional (hard to find) 2X auxiliary lens. I do have an extra pair of Bausch & Lomb 15X ultrawides that can be sold along with either of the the two StereoZoom 7s for an additional $375. These lenses sold for around $3K in the 1990s and I know for fact this was the combo used for photo analysis by government agencies. This is about as good as as it gets. This is this scope I use for inspection with my 15X B&L Ultras and a 2x lens.

These lenses are not available for separate sale. SOLD

This scope comes as shown: 10X Olympus wide field eyepieces, boom, rotating E-arm and the desk stand. As you can see, both of these scopes came from biology labs and were used as dissection scopes. They have been well cared for. You will see this scope is mounted on a boom with an articulating arm. Not just any boom, it has the Bausch rotating holder made specifically for this scope. This is also very hard to find. The package also includes a desk stand with a non rotating holder.

One thing to note is that the Bausch system locks the scope pod in place so it cannot fall out accidentally.

This mounting system allows you to adjust the scope to any possible working position. You can use the boom over your lathe and the desk stand for inspection and lubrication work. Just undo two clips and put the pod into the other mount. It is that simple.

Like all the scopes I have sold, the focuser and zoom are lubricated and smooth, optics are unblemished, target remains centered across zoom range and the object remains focused (parfocal) when the eyepieces are properly adjusted.

For the desk mount, I highly recommend one of the Chinese LED light plates. This makes lubrication and jewel inspection extremely simple.

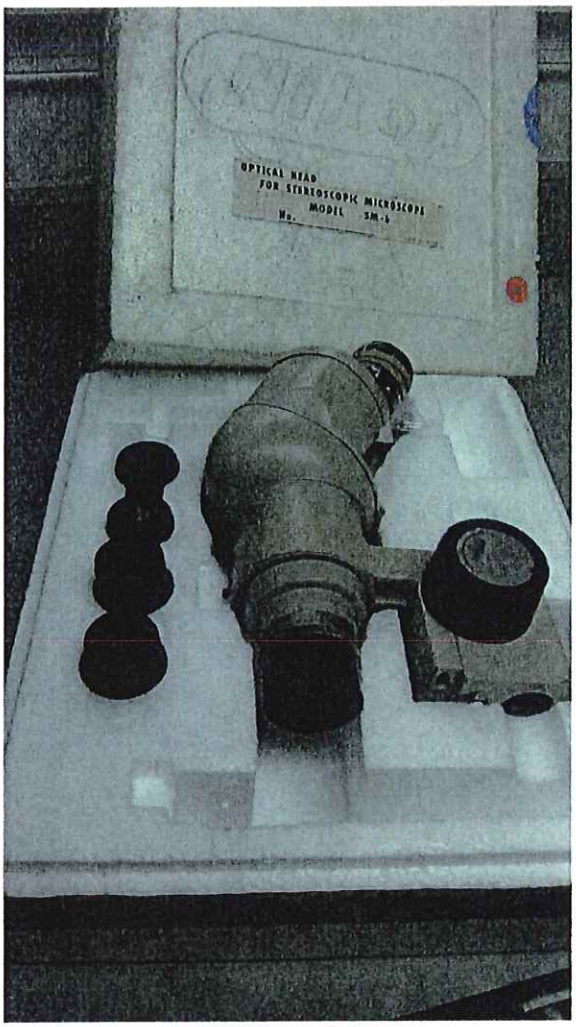
NIKON SM-6

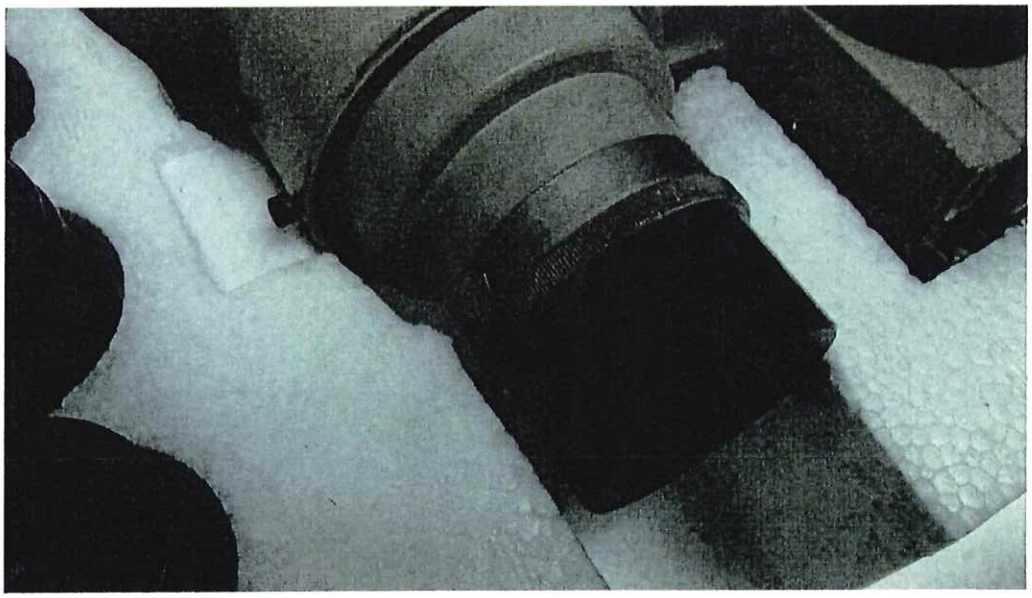
This is a FIXED magnification microscope that has a 2X objective. With the two pairs of Nikon eyepieces (10X and 15X) it provides magnifications of 20 and 30 powers. This is great for most applications and especially for working at the lathe. I have a provided a Nikon .7X auxiliary lens to increase working distance and decrease magnification.

This scope is about the least expensive option. While it lacks zoom, it is theoretically optically superior since there are fewer optical elements in the light path.

The focus block is included and you can either mount it on your own post and aluminum/hardboard base for inspection, assembly and oiling. This is also a great setup for adjusting escapements.

The microscope body rotates in its mount and has a capture screw to keep it from falling out of the mount.

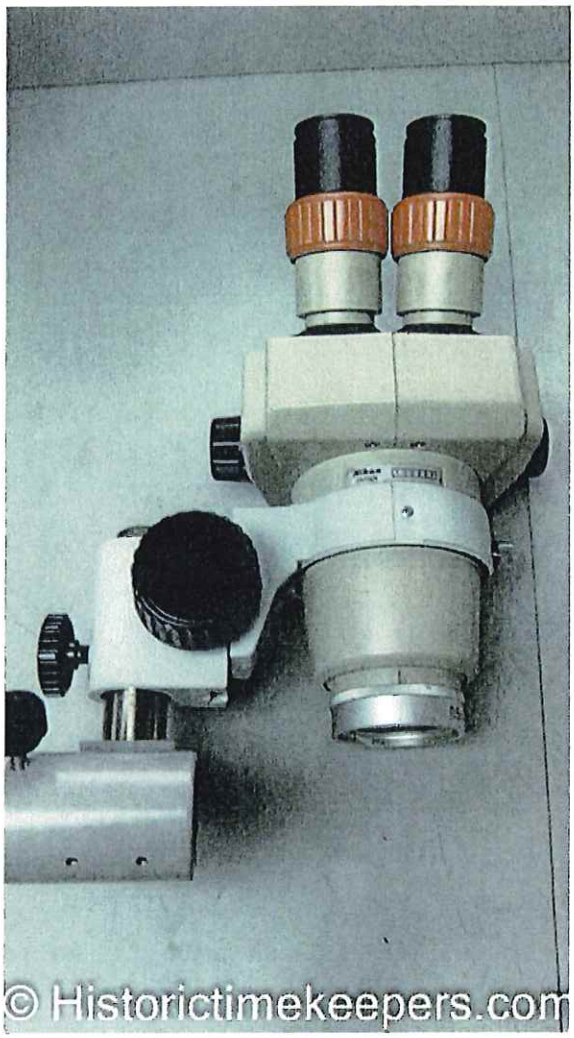




PRICE: $285 Shipped in USA SOLD!!!

Nikon SMZ 1 with Focuser Excellent zoom (7 to 40X with included Nikon 10 X 21 eyepieces). Excellent optical mechanical and cosmetic condition,

With a VERY adaptable Olympus focuser. Includes Nikon .5 X barlow to increase working distance.



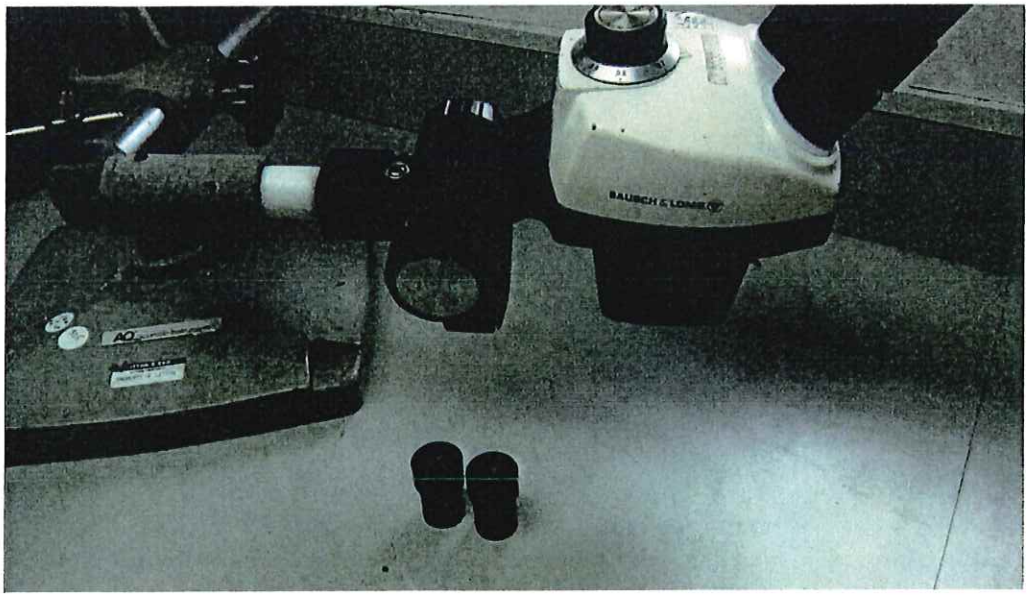
Price: $385 plus shipping SOLD!!!

BAUSCH AND LOMB STEREO ZOOM 4

This scope is excellent for all around utility work in the watchmaker shop. Its maximum zoom factor gives a max zoom of 45 power with the included unbranded 15X eyepieces. It comes with a pair of highly sought after Olympus 10X eyepieces. Again, it is great for working over a lathe, inspection, lubrication and assembly. It has the B&L high resolution optics, but a more limited zoom range (3X).

Comes with the American Optical boom stand as pictured and I left the focus mount post exposed so you can see I turned an adapter to fit it to the AO articulating arm (which does make things simpler in some setups).

FWIW, Leica purchased B&L and sold this same scope under their name.



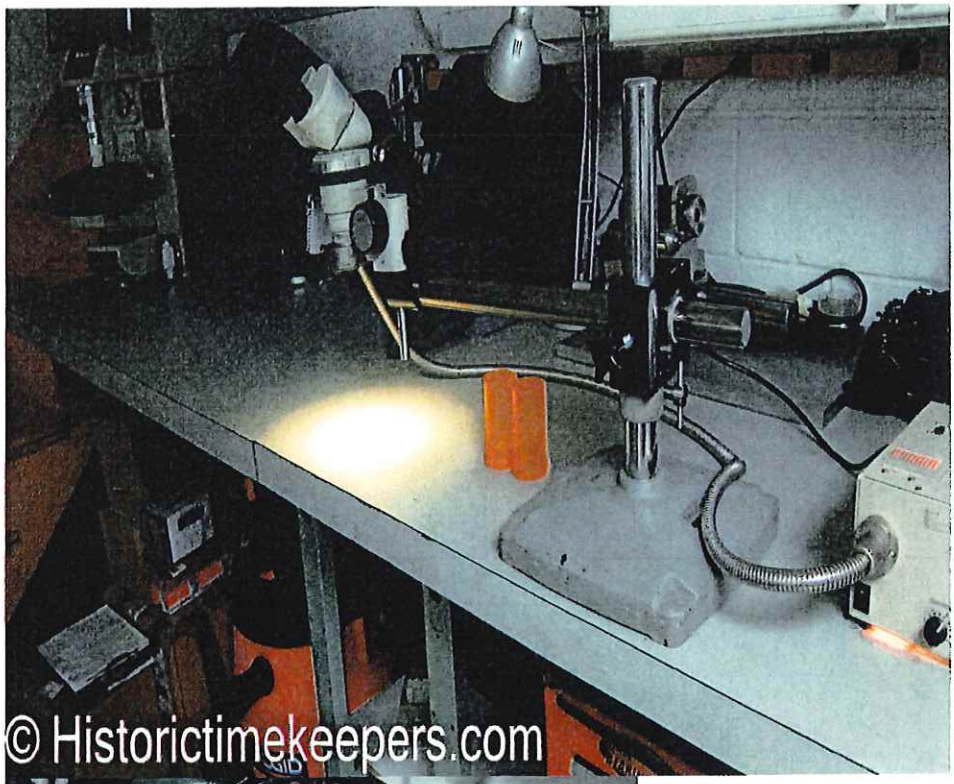
Price: $325 plus shipping SOLD!!

NIKON SM-2B With Fiber Optic Ring Light

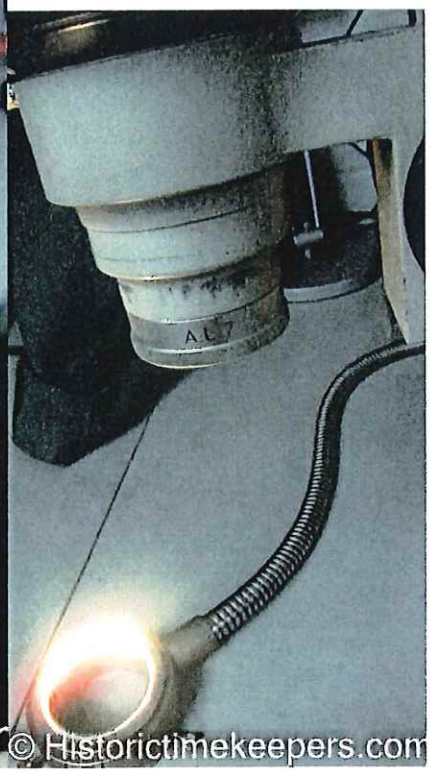
This is a highly adaptable scope and set up. The Zoom is .8X to 4X giving a magnification of 8 to 40 power with the included Nikon 10X23 eyepieces which are the top of their line and deliver the brightest images. Included is a Nikon .7X barlow (magnification reducer) to increase working distance and field of view. Put a standard 10mm reticule in one eyepiece and measure your work while it is on the lathe. The included Fiber Optic ringlight provides ample illumination. The AO boom stand is readily configurable for the bench or at small machine tools (lathe, Sherline mill, drill press).

The .7 X barlow can be useful at the bench for larger pieces such as aircraft clocks while delivering mags of 5X to 28X. The boom on this is the longest one I have seen and makes use at any bench or machine tool very easy. At the machine tool, I use no barlows.

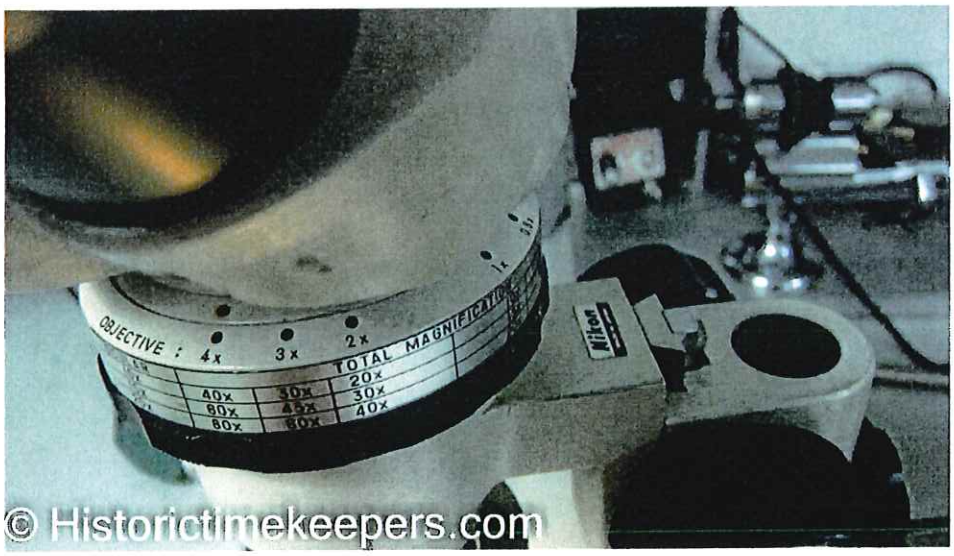
The microscope body rotates in its mount and has a capture screw to keep it from falling out of the mount.



© Historictimekeepers.com



© Historictimekeepers.com



© Historictimekeepers.com

SOLD: $435 Shipped in USA

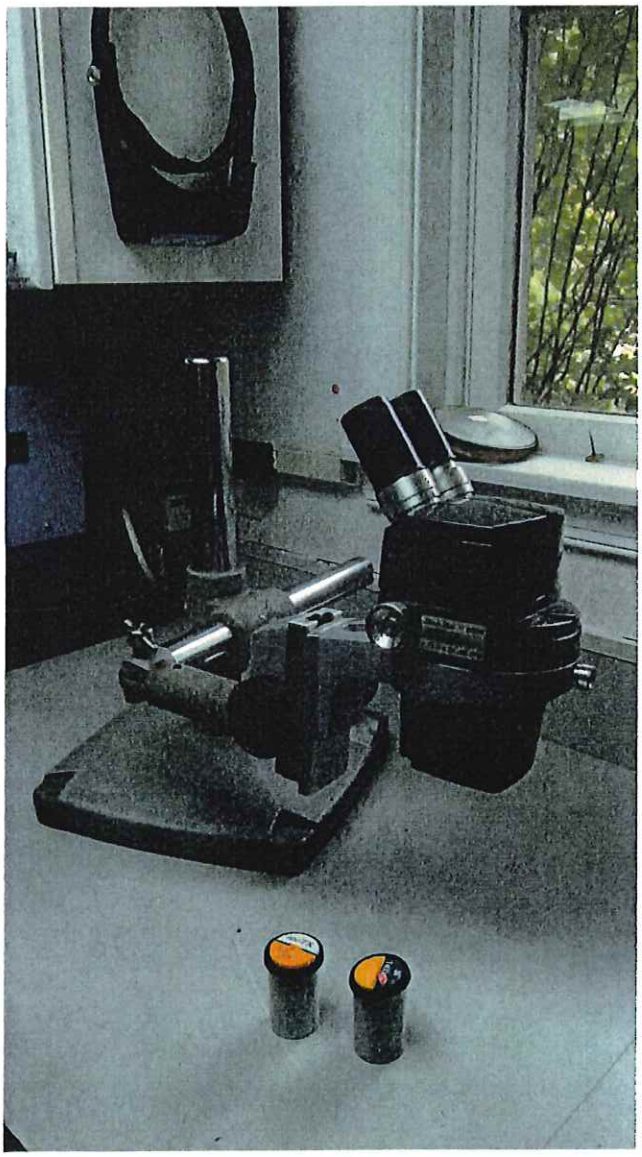
AMERICAN OPTICAL 570

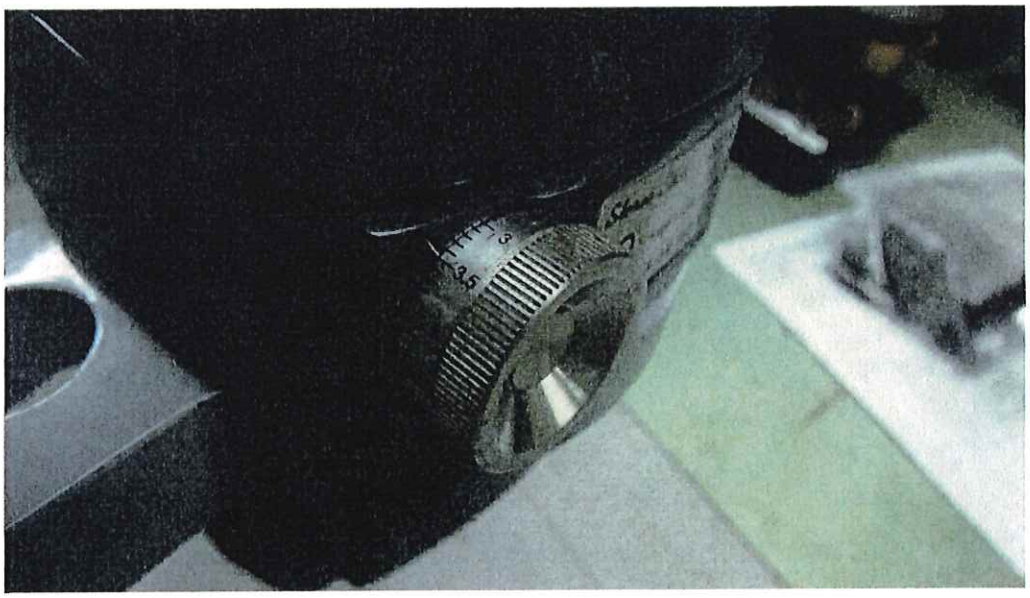
This scope is also highly adaptable for the bench or lathe. It comes with two American Optical Eyepieces (10X and 15X) and has a zoom range of .7X to 4.2X. Thus it gets you to over 60X

magnification if you need it. Again, auxiliary lenses are readily available. This works as is fantastically at the WW lathe or turns as you can see in other pics on my website. I use a .5X auxiliary on the Nikon used at my bench. But I use the 570 as is at the lathe.

The AO 570 was AO's top of the line high resolution scope and should not be confused with the 569 (lower resolution) or the 571 (fixed magnification). They only ended production when industry shifted to digital imaging.

The microscope body rotates in its mount and has a capture screw to keep it from falling out of the mount. AO articulating arm (which does make things simpler in some setups).





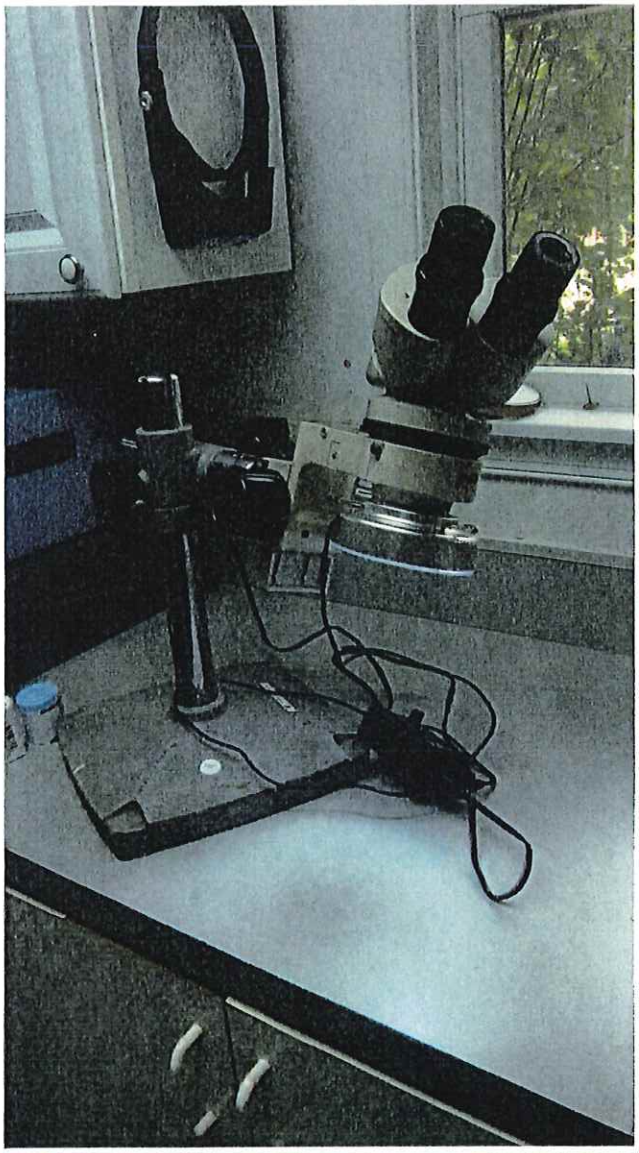
SOLD: $365 plus Shipping

NIKON SMZ-2B

This is a highly adaptable scope and set up. The Zoom is .8X to 4X giving a magnification of 8 to 40 power with the included Nikon 10X eyepieces. It is easy to locate auxiliary objectives for changing the working distance and total magnification. Put a standard 10mm reticule in one eyepiece and measure your work while it is on the lathe. The included LED ringlight provides ample illumination. The AO boom stand is readily configurable for the bench or at small machine tools (lathe, Sherline mill, drill press).

I use a .5X auxiliary lens for my Nikon at the bench, but this will work just like the AO 570 w/o the extra lens at the lathe.

The microscope body rotates in its mount and has a capture screw to keep it from falling out of the mount.



PRICE: $395 plus Shipping SOLD!!

Equipment for Sale

This is equipment that I have acquired over the years or that I am selling for other watchmakers. It is in good useable condition and they are generally things that will not be found on ebay. Feel free to make offers but understand if I decline to accept your price. Scroll down to view timers, Levin attachments, WW collets cleaning machines and other important pieces for sale.

You can view the pictures full screen using a right click menu.

Link to items for the collector

Link to: Measurement Instruments for Machinists and Mechanics

MICROSCOPES

I have several microscopes that are well suited to the watchmaker's work, whether at the bench or the lathe. These include Nikon, American Optical and Bausch and Lomb. All have been verified for proper optical function and lubed by me. They often include both 10x and 15x eyepieces and a light source.

The scopes I have in stock can be found on my Microscopes for SALE Page

To see how I use microscopes in my work, go to my Microscopes in Watchmaking Page.

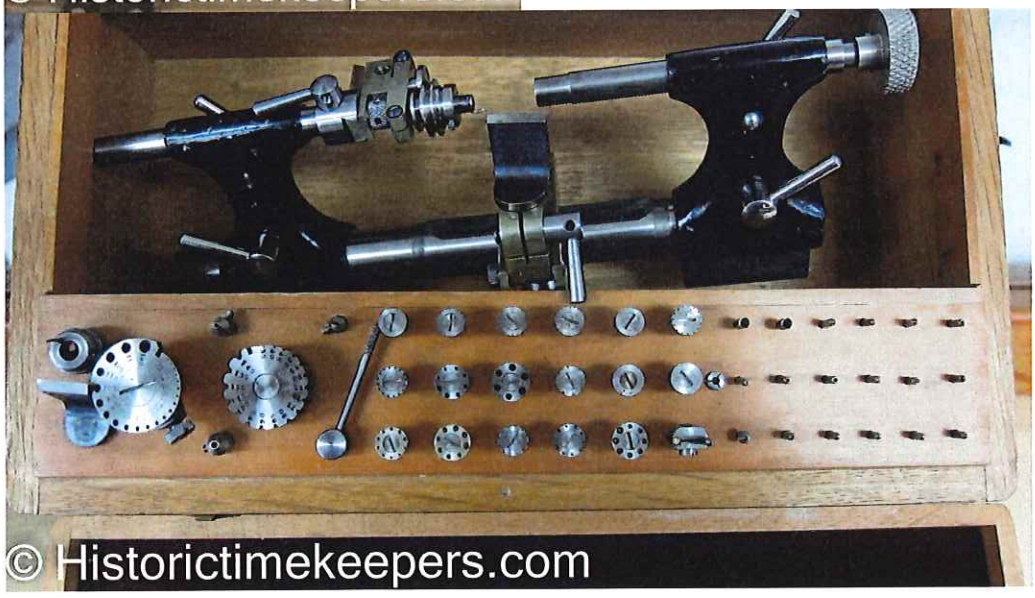
Steiner / Horia Dead Center Lathe AND Horia Jacot Tool Package (use "view image" to see full size)



This is packaged as the boxed sets of the Steiner turns and Horia Jacot tool, but can be sold separately. Package price is $3500 USD. Less than 1/2 the cost new. Cheaper as a set because I want to avoid it sitting on a shelf. If you want to come to Baltimore, I will help you become familiar with how to use the turns. The use of both the turns and jacot

are essential units of instruction at WOSTEP Neuchatel. These tools are a pleasure to use and put you in the mood to do good work.

First is a complete Steiner (before M. Theobault sold to Horia) Dead Center Turns. It is COMPLETE.

- **All pivoting chucks (5mm) from .05mm to .50 mm,**
- **all five hollow cone on 5mm chucks (lantern chucks) for holding arbors by a shoulder (2 nickel silver, 3 steel) (hole range .22mm to 1.00mm)**
- **all 18 pivoting points for the eccentric headstock,**
- **2 centering points**
- **the 6mm eccentric point holder for the tailstock**
- **repivoting attachment with 3 drill holders on 5mm chuck**
- **jacot drum on 5mm chuck**
- **2 female cone centers for larger size male centers on the work piece**
- **2 sizes of T-rests**
- **2 driving pulleys**
- **2 chucks for holding the pivoting points**
- **two blank 5mm tailstock pivoting chucks to be finished to your needs. Or you can buy and replace the drums for about $41USD.**

This can driven by motor, but it is best used with a hand wheel. Slower speed and more control. You get used to it fairly quickly.

There are several features of this lathe that were dropped on the new ones. First and foremost, the castings are made correctly. The newer turns (mine) use a spring clamp at the bore for the runners. IF the clamp closes and the runner is not there, it WILL break. I have seen it done in class. In this version, there is no danger of that.

The second feature excluded on the Horia models is the rack and pinion operation of the driving pulley. On the Horia models you must change driving pins to reposition the driving dog. On THIS model, there is a rack and pinion system to adjust the driving pulley without removing the work piece.

I thought long and hard about keeping this set and selling mine. But mine came complete with all sorts of attachments that are no longer sold and I cannot break that set up.

As readers know, I rely on the Dead Center Turns. You can see how I use it for making balance staffs here.

As with all Steiner and Horia Jacots and Dead center lathes, you can order accessories from Horia.CH that will be perfect fits.

The reason I prefer to sell these two units as a set is because the Horia Jacot tool runners fit in the tailstocks of the Dead Center lathes. This means you can properly burnish the pivots of chronometer and clock wheels, especially balance staffs. The standard Jacot will not accommodate those parts!

If you go to www.horia.ch you will see the cost of a new set of turns is $4400 USD. The cost for a new Jacot is $2700 USD. Then there are shipping and customs duties to be paid!

The Horia Jacot is in excellent condition, with 4 runners. All notches and lanterns (including the two spares) are in perfect condition. This is an excellent tool for a WOSTEP graduate or a worker who wants to do precision timing. There is a waiting list at Horia for brand new sets at $3000.

The lantern runners on the Jacot are very useful on the turns.

Rack and Pinion *Solid clamp construction*

Price for the set of Steiner Dead Center turns AND the Horia Jacot: $3500 USD

Watch Analysis Center: Vibrograf MU 700 Watch Analyzer; Elma TM 6000 Quartz Analyzer.

This is a complete center for servicing everything but the Omega Co-Axial. The Elma TM-6000 qualifies for all accounts that require a complete quartz watch analyzer. Even if you are kiosk owner, this will speed up your diagnosis and repairs allowing you to improve profits. Consumption, working voltage limit tests, acoustic, capacitive and inductive tests, coil tests, etc. Everything with easy to use push button operation. I got this while in Europe. It is 22ovAC but I have a power converter that comes with it. Full instructions (German) with my notes for how to set the unit for all the tests. Less than the cost of a Chinese clone of the Witschi Q Test!

The Vibrograf MU-700. I love these units! I sold my first one when I needed to by my Witschi for Omega. I gave up my account a couple years ago because of the increasing costs for casing equipment. I HATED the whole idea of changing having to scroll through screens just to get the settings I wanted. So I was quite happy when I found one of these to go back to.

The Vibrograf MU-700 is a very simple, accurate service center level machine. One lever changes from beat, amplitude and 3 different time scales. The lift angle is easily dialed in on the thumbwheels. It automatically determines beat count and does the high beat watches as well as 18,000 bph. While this machine reports timing of quartz watches, it does not report all the tests required to verify a quartz watch is serviced correctly.

This was a service center level instrument for 3 decades, it was really only superseded by the requirements needed to service Omega Co-Axial escapements. It reports rate (4 scales from plus/minus six minutes to plus or minus 2 sec/day), beat error and amplitude. At the time, it was the only instrument that accurately reported the amplitude of cased watches making it possible to verify the final performance of cased automatic watches.

Far more useful than the old paper based machines that require special paper and ink. Plus, it uses very easy to read selectable LED scasle without having to push buttons. Unlike the paper based machines, this also reports amplitude. It does not have the microphone for timing quartz watches, but then the Elma does that and more.

I prefer this instrument and I use one at my bench. The LED displays are much simpler to read than the Witschi Watch Expert. Plus it reports a wider range of beat error than the Watch Expert so you can more easily track changes as you move the balance spring collet. All functions work, microphones are original to this instrument and comes with a copy of the operating instructions. I have the original sales VibrografUSA sales contract for my MU-700 which show these units cost $2500 when new; that is about $4000 in today's dollars.

This is a service center level machine for not much more than the Chinese clones of the Witschi and these highly sought after by independent watchmakers.. No paper, no ink and no buttons or screens to scroll though! And less than the cost of every other seller!

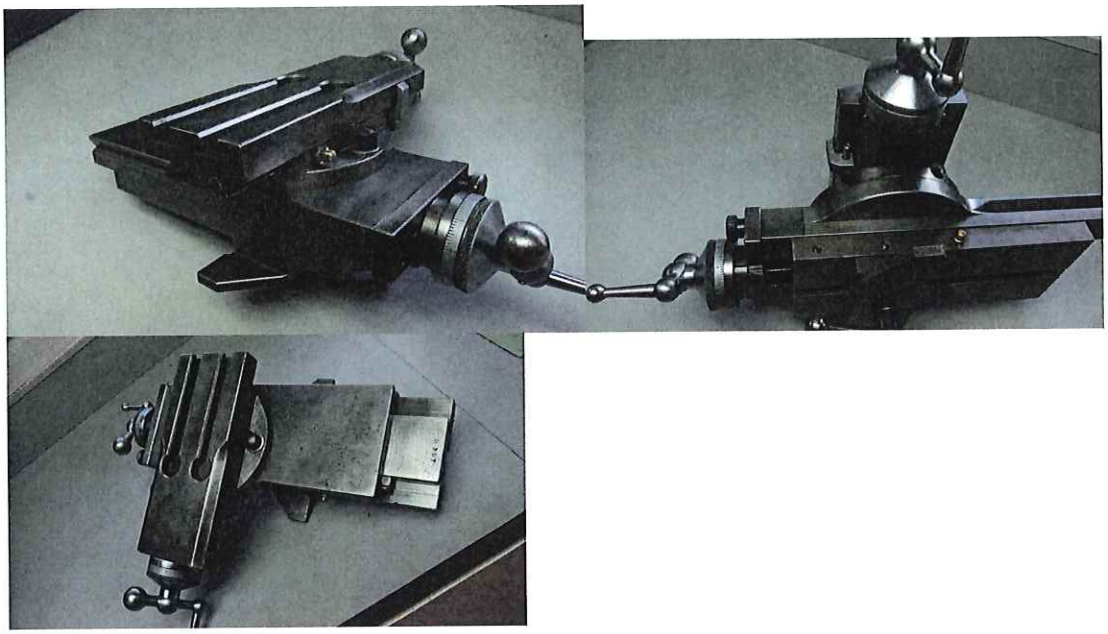
Price: $675 for the MU-700

$475 for the Elma TM-6000

$950 for Both instruments

Schaublin Slide Rest (102). **I have used this slide rest for over 15 years. It cuts reliably and accurately; I routinely turn to within .001 inches. I recently decided to keep a Double Slide Rest I had purchased for milling permanently on the lathe. This rare piece enables me to keep the milling attachment mounted on the back top slide while I use the front top slide for turning. I am very diligent about cleaning and oiling my equipment. The top slide has maybe 1/32 turn of backlash and the bottom slide has 1/8 turn backlash. One nice feature about this slide rest is that it is direct reading: the bottom slide scale indicates OUTSIDE DIAMETER removed; not radius. It is calibrated .01 inches. So 1/2 of .01 inches OD removed is .005 inches of slide rest movement. Very fine turning. This is why I used it for so long. Check out the pictures and ask questions.**

Price: $625 plus shipping

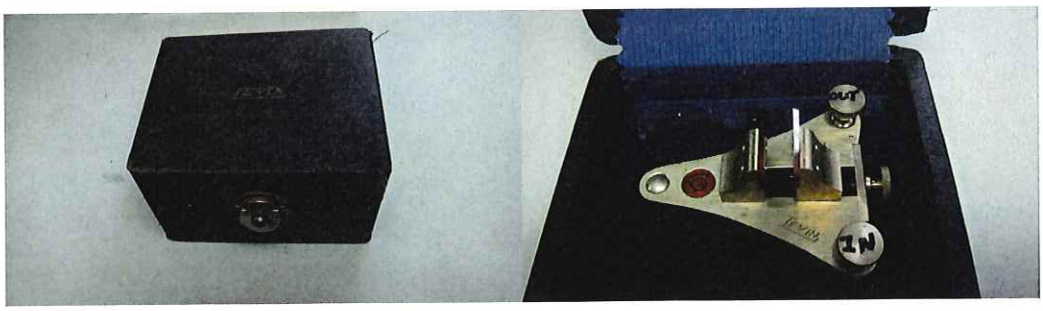


Boxed Set of WW 8mm collets. This came with a Horia dead center turns set I acquire years ago. These collets are not marked so they are not Starret (soft) or Schaublin (good hard collet). They are somewhere in between. No. 43 is missing but otherwise a ful run. Also the extras shown in another picture.

Price: $375 plus shipping

Levin Boxed Poising Tool. This is in perfect condition.

Price: $35 plus shipping



Bergeon Automatic Watch Tester. (Retired watchmaker) This is required for any Omega or Rolex account. It is used to test the autowind function of watches by running them on it for a specified period and then checking the amplitude (see MU 700 below). The labels indicates it is a Final Test (1rpm) but it is in fact 4 RPM

Cyclotest which is preferred for Omega accounts. Boxed and complete. (But Bergeon packing is like putting worms back into the can).

Price: $435

ARCHIVE of SOLD EQUIPMENT

Witschi Watch Expert II Watch Analyzer. (Retired watchmaker) This is the minimum instrument now required for ANY watch account. It is capable of reporting the performance of the Omega Co-Axial watches. Rate, beat amplitude all displayed at one time. Instructions and original shipping box included. In original box. Oh, and it works perfectly of course.

Price: $1650 **SOLD!!**

Vibrograf MU 700 Watch Analyzer. (Retired Watchmaker) This was a service center level instrument for 3 decades, it was really only superseded by the requirements needed to service Omega Co-Axial escapements. It reports rate (scales to plus or minus 2 sec/day), beat error and amplitude. At the time, it was the only instrument that accurately reported the amplitude of cased watches making it possible to verify the final performance of cased automatic watches. It also reports the rates of quartz and tuning fork watches.

Far more useful than the old paper based machines that require special paper and ink. Plus, it uses very easy to read selectable LED scasle without having to push buttons. Unlike the paper based machines, this also reports amplitude, And it does Accutron and Quartz timing!

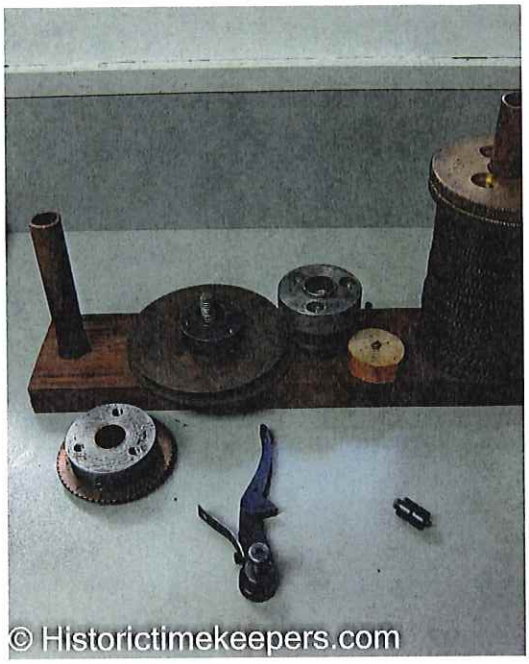
I prefer this instrument and I use one at my bench. The LED displays are much simpler to read than the Witschi Watch Expert. Plus it reports a wider range of beat error than the Watch Expert so you can more easily track changes as you move the balance spring collet. All functions work, microphones are original to this instrument and comes with a copy of the operating instructions. I have the original sales VibrografUSA sales contract for my MU-700 which show these units cost $2500 when new; that is about $4000 in today's dollars.

Price: $675 SOLD

Complete Set of Levin Index Plates (w/ Latch) for Cutting Gears and Pinions. **This includes several shop made latch plates to make some non standard parts. Hubs are bored for the Levin 10mm lathe spindle; but I do know they fit my Levin 8mm Ball Bearing headstock.; but you can sleeve them or make new ones for an 8mm lathe. Every original no. plus some I made: 300,240,200,158,156 100, 98, 96,92,90, (2),88,86,84,82,80,78,77,76,75,74,73,72,71,70,69,68,67,66,65,64,63,62,61,60,59-51. Levin spring latch and latch spring stop. This will fit ont ot the 10mm lathe with no modifications. May need to make a mount for other lathes.**

I used this set for years before I got the indexing attachment for my 102. Now I cut everything on that lathe. Used this on a Levin 10mm headstock mounted on the milling machine listed below.

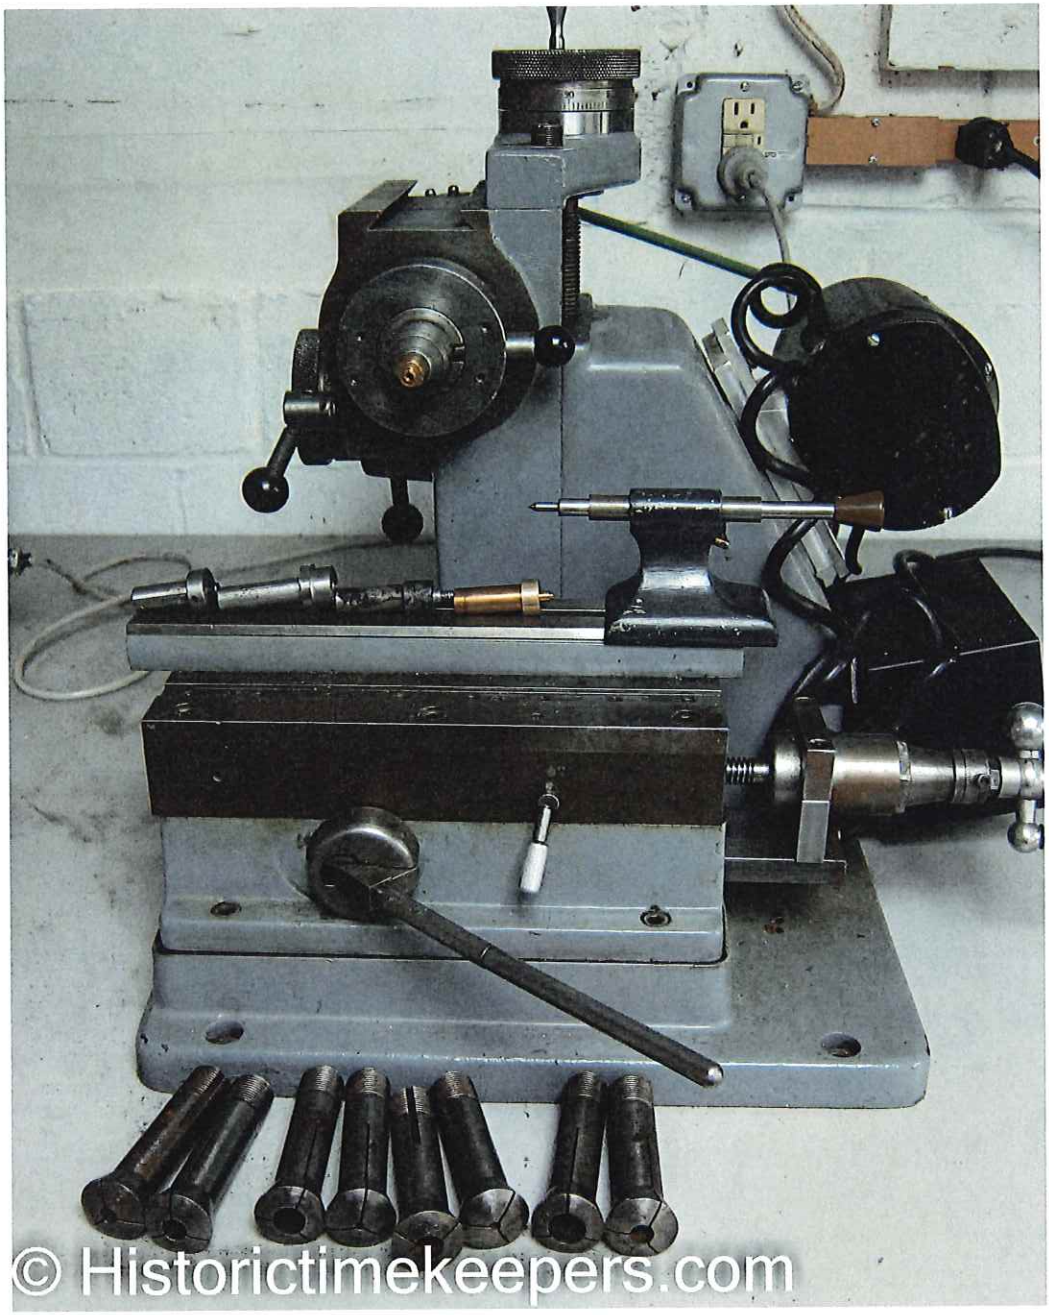
Price: $1100 **SOLD!**



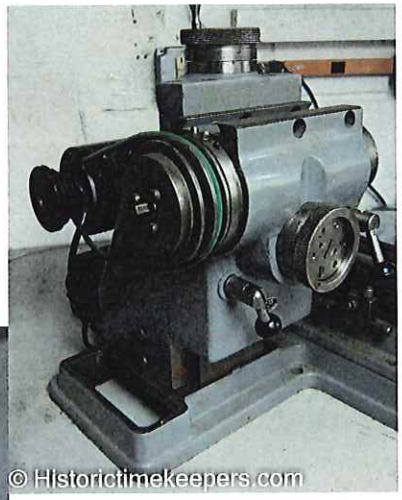
Horizontal Mill for Gear and Pinion Cutting. **This was my gear cutting machine for years until I got everything I needed to do it conveniently on my 102. I have been hesitant to sell it because it is such a good machine; but that is silly. It is made in Germany by RJS. That is all I know. As you can see it has very substantial slides and the largest ball bearing headstock I have seen on any benchtop machine. Convenient oiling points. Set of collets and shop made cutter arbor adapter. No idea what series collets, they even stumped Dave Sobel who really liked this machine when he saw it. They are marked "Star" (I think this is the Japanese machine tool maker). Included is the PWM controller and DC motor. Lever table (for gear cutting) which can be converted to screw feed (old atlas lead screw) for pinion cutting. WW bed mounted on table for your WW headstock. It is very nice because you can move around on the bench to check your alignments. Footprint is 18 in X 18 in. Very small for what it is; The belt slot in the back indicates it was orignally pedestal mounted but it works great on a well built shop bench (I think it weighs around 200 pounds). I would prefer we meet within two hours drive of Baltimore to avoid shipping; this is very heavy and I would hate for it to be damaged in shipment. If desired, I will make a package deal of this and the Levin Indexing setup as long as the indexing setup is not sold.**

I never used the collets because of the arbor adapter; but: 1/8,5/32,9/32,11/32,38,7/16,1/2,9/16.

Price: $2200 SOLD!!

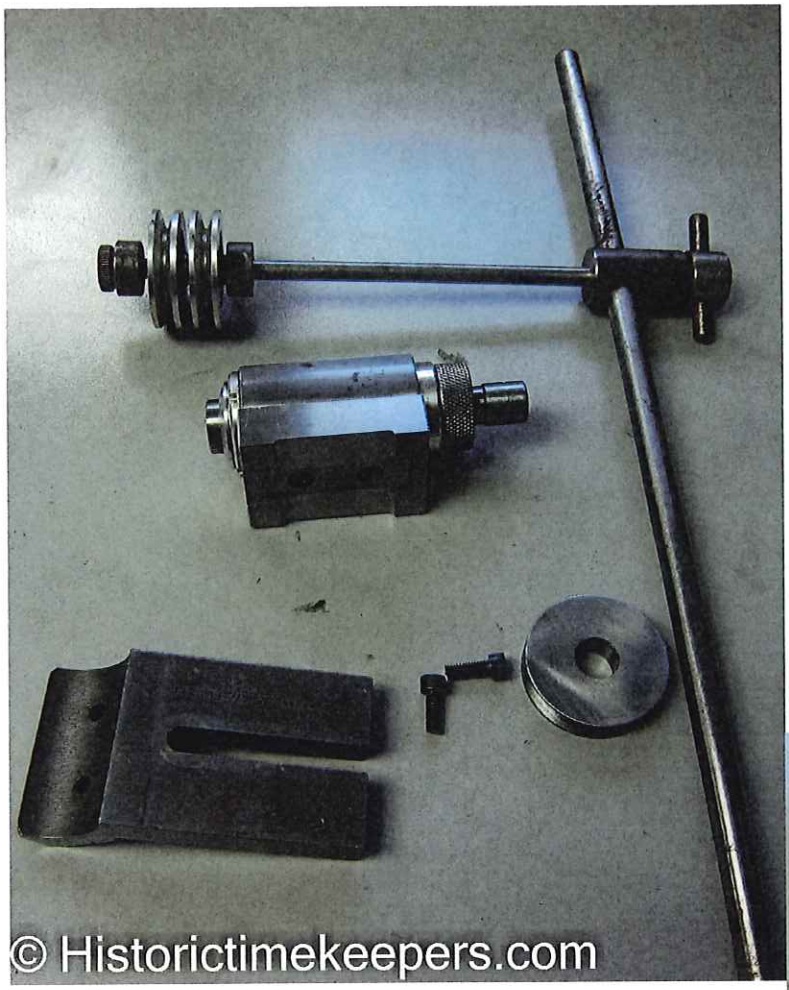


© Historictimekeepers.com



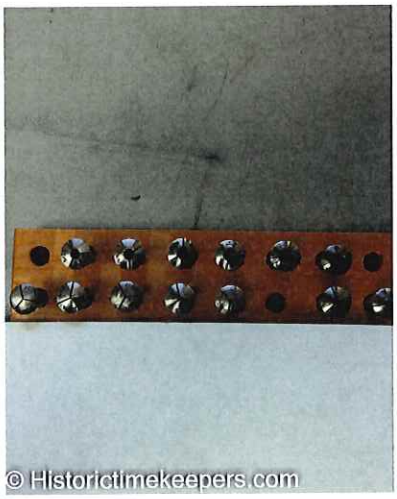
Levin WW 8mm Grinding/Milling Spindle. **(Retired Watchmaker) This spindle is in excellent condition. Ball bearings are smooth with no crunchiness. This has two bases; one is the original Levin grinding attachment base for mounting on the sliderest. The other base is a very nicely shop made base to use the spindle for precision grinding dowels and pins on a surface grinder (a poor man's centerless grinder). Comes with the pulley for setup as a grinding attachment and knurled knob for use as a spin fixture on its base. The base for spin grinding is a VERY nice piece of work.**

Price: $475 **SOLD**



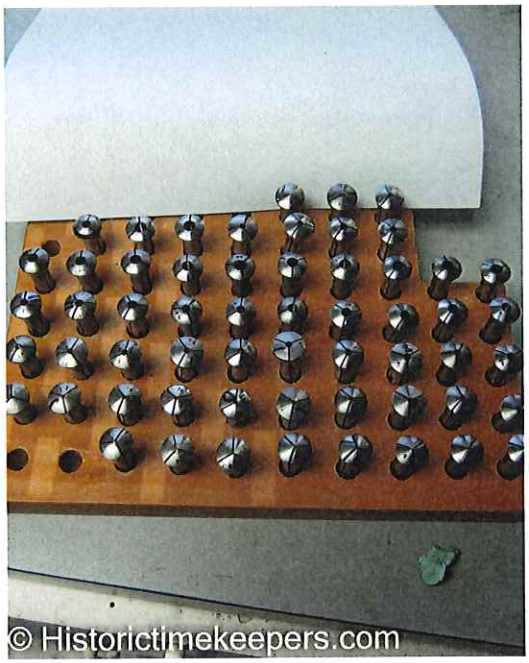
Levin WW 8mm Lathe Collets (Fractional). **Set of 13 Levin Fractional collets, incomplete but hard to find. 1/64 through 15/64 missing 9/64 and 3/8. The bores are all in excellent shape. These can be a lifesaver when stock will not fit a metric collet.**

Price: $140 SOLD!



Full Set of WW 8mm lathe collets. (Retired Watchmaker) Set of 48 metric collets from .3mm to 5.0 mm. All but two are hardened; the two soft collets (31 & 32) are Starret (two lines) Four are unmarked but hardened (single line), two are Schaublin (S), one is Deryshire (D) and the rest of the set is Peerless. These collets are used but not abused. The nice thing about Peerless collets is that their keyway is one of the deepest enabling them to fit most headstocks without modification. Collet tray included. The picture includes the fractional collets listed above; but there are NOT included; just the set in the bottom 7 rows (there are 3 extra collets).

Price: $525 SOLD!!



L&R Varimatic Ultrasonic Watch Cleaning Machine. This machine is perfectly good for all but final cleaning (for those with Swiss service accounts). It was the workhorse of the industry for 45 years. No leaks, synchronized with extra ultrasonic base and tubes. I used this for at lest 12 years and I no linger use it since I needed a 4 jar machine for my account. I would prefer to meet within 2 hours drive of Baltimore so we avoid the hassles of shipping. Jars, instructions and a basket included. I have an extra base and tube I kept for spares as well which are included.

Price: $325 SOLD!!!

Alina 90 mm 6 Jaw Scroll Chuck with Machinable jaws 10MM mount. Excellent Alina scroll chuck; used for holding round work (plates, wheels, bezels) for machining. Once you cut inside or outside jaws absolute truth on your lathe is ensured. Smooth scroll. This takes a standard mount and can be used on a Levin, Schaublin 70,

Schaublin 102 or even a machine that takes 5C collets. It is mounted on a 10mm arbor suitable for a Levin, Derbyshire or Pultra 10mm lathe.

Price: $475 plus shipping SOLD

Schaublin Pump Oiler. **This is essential for oiling most Swiss Machines and are very hard to find. The nipples on Swiss machines and accessories are often confused as grease nipples; but they are for the pump oiler, Unscrew the top, fill with oil. place on the nipple and pump. The fitting seals against the nipple and forces open the ball which keeps dirt out of the machine's oil port.**

Price: $75 SOLD

Levin 10mm Lathe and Accessories. This is a setup I have not used in years. Time to sell it. I had new bearings installed about 8 years ago. If there are 200 hours on them I would be surprised. There is a complete set of collets that were in the individual tubes when I purchased them. Several chucks and all sorts of specialty collets. This is the lathe I used for for making pinions and wheels in conjunction with the Levin Index plates and RJS Horizontal mill listed below. Because of the number of pieces, I am giving this setup its own page: Levin 10mm Watchmaker Lathe for Sale

Schaublin Sensitive Drill Press Complete with Collets, Motor and Drills. In absolutely perfect condition. The drill presses are hard enough to find, but without the F collets (F7 for this model) they are useless. As you can see, I was able to buy the collets I needed when these were still "easy" to find. I have owned this for about 20 years and used it extensively. This is why it is mounted on an aluminum plate with variable speed AC motor footswitch and the collet rack. Might as well work like a gentleman. There is roughly a 5 inch maximum clearance between the collet nut and the table. Table has a micrometric screw for adjusting the depth of hole and the table rises smoothly with no discernable play. Includes drill in roughly .05mm increments form .30mm to 2.0mm. The drill shanks are standard sizes to which the collets are matched. **NO, this will not be broken up.**

Levin 72 MM (JF Swiss) Self centering 3 jaw chuck with hardened, reversible jaws **Excellent condition; mounted on a 10mm chuck collet for use in a Levin, Derbyshire or Pultra 10 mm lathe. Can be remounted for use on other machines. Smooth scroll.**

Price: SOLD

Solid Carbide Twist Drills **These are REAL twist drills, not circuit board drills!! Circuit board drill are really made for use in CNC machines on plastics and phenolic (circuit board material). They have a fast twist which reduces their strength and rigidity. These solid carbide twist drills have the slow twist which increases the material in the drill web and makes them strong and rigid. Available from 50/100 mm to 2.00 mm by 10/100mm steps.**

Price: No Longer Available

Steiner Jacot Tool (Current Pattern) **This is a complete Steiner Jacot (tour de pivot) made by Mr. Thiebault in the late 1970s early 1980s before he sold the business to become Horia. Horia kept the castings and specifications of Mr. Thiebault and they will provide new runners, and accessories. This set also includes the spare lanterns (for finishing pivot ends) should either of the original lantern heads get damaged. Every runner and lantern is in perfect condition; this tool came from a watchmaker how to use it! Two pivot and lantern runners that cover 4/100mm to 36/100, a double ended runner for 35/100 mm to 1.20 mm, and the seconds pivot arbor from 15/100 mm to 35/100 mm. Two stationary runners (4 sizes) and a pivot gauge.**

These sets are getting very hard to find since the resurgence of classically trained watchmakers from schools run by Wostep, Patek Phillipe and Richemont. Much of the current production is now going to new schools, high end manufacturers such as Gruebel Forsey and recent graduates who are able to pay price for new sets (about $2300 USD).

Price: **SOLD**

Horia Jacot Tool **This is a complete Horia Jacot tool used to burnish (polish) pivots. It is complete and all runners and lanterns are in excellent condition. It also includes a burnisher. These are now over $2300 new from Horia and there is a waiting list.**

Price: **SOLD**

Schaublin 102 W20 Milling attachment complete with vertical slide **Mounts on a Schaublin or Habegger 102 lathe and is used for cutting gears and pinion as well as general milling tasks. The spindle is absolutely free and true. The collet bore is immaculate. This setup came from a job shop and the vertical slide has been drilled and tapped to take a fixture used to manufacture something. Two tapped holes and two dowel pin holes. These have NO impact on function and they are hidden when the spindle mounting plate is installed. The mounting plate has a tapped hole in the bottom that is not original. Again, does not impact function. There are two advantages to this. First, you can mount a vise on the slide and use an endmill in the lathe headstock. Second, since the vertical slide was used for a single operation, there is very little (none?) wear on the leadscrew and nut. Two pulleys, the round belt pulley and the a cogged belt pulley are included.**

Price: **SOLD**

© Historictimekeepers.com

© Historictimekeepers.com

Swiss Mainspring Winders **Boxed set of 17 mainspring winders made in Switzerland for wristwatch to pocket watch mainsprings. Some extra barrels and arbors. Excellent condition.**

Price: SOLD

L & R Parts Dryer **At $400 new these are overpriced. But at $100 they are very useful. Large enough for clock parts to be dried after they have been cleaned and rinsed, it is small enough to be near the bench so that you can warm pallets and escape wheels to avoid rust from the rapid evaporation of the solvent when you apply epilame.**

Price: SOLD

Barkus Diamond Wheel and Barkus Gravers **Plenty of life left, the wheel fits your WW collet. Absolutely the best carbide for for hand turning. Lots of carbide left; various shapes and the slotting/parting cutter.**

Price: SOLD

OMEGA RECOGNIZED SERVICE PROVIDER **WOSTEP CERTIFIED**

Redeemer is a private Classical Christian School located in Baltimore County, celebrating our 21st year of ministry in Classical Christian Education.

Redeemer Classical Christian School (RCCS) is located in a rural setting in Baltimore County approximately 10 miles northeast of Baltimore City. The school offers a Pre-K through 12th grade college preparatory program utilizing the classical approach to education. The foundation of all instruction at RCCS is the truth as found in the Scriptures (see our Statement of Faith). The school, founded in 1996, currently has over 250 students.

Redeemer Classical Christian School is **accredited with the Middle States Association of Colleges and Schools**, and is a **member of both The Association of Classical and Christian Schools (ACCS) and the Association of Christian Schools International (ACSI).**

Our small class sizes guarantee personal attention for the students and an optimal learning experience. All RCCS students study Latin, Logic, Rhetoric and Economics. Students also receive Bible instruction in every grade. These courses, in addition to the advanced courses in language, math, science, etc., make for a very demanding and rigorous program. As a result, RCCS students perform approximately 3 years above their grade level on the standardized tests. Redeemer students' SAT scores also rank well above the national average, and 100% of our graduates pursue further education.

But RCCS is not all work and no play. An extensive extra-curricular program is part of the educational experience. These activities include: Band (2 bands), Choirs (2 choirs), Drama productions, Sports (soccer, volleyball, basketball), 19th Century Ball, annual Luau with Talent Show, school dances, homecoming games and events, grade-level field trips, Junior Ring Event, Upper School European Tour, Senior Formal, and more! In addition to these activities, students can take part in the annual Science Fair, Geography Bee, Spelling Bee, and numerous other opportunities through enrichment classes and clubs.

Calendar

Even with its reputation for academic excellence, it's not all work and no play at Redeemer. The academic calendar is highlighted by social events, which draw students together and allow them to enjoy being part of the RCCS community. Here is a sampling of the major events:

- **Spirit Week**- a week of themes and fun designed to build community
- **Homecoming**- a celebration of Alumni and present students in sports, socials, and family friendly fun
- **19th Century Ball; Junior Ring Cruise; Senior Formal**- a time for students to dress up, get out there and have fun building friendships
- **Luau**- a very special festive night to welcome the incoming 7th Grade class to the Upper School.
- **Annual Christmas concert** presented by the RCCS choirs at a local mall, where the praises of our students ring in the Holiday for local shoppers
- Spring **Mission Trips and outreaches** like Rice for the World, designed to teach students to think past themselves
- **Senior Trip to Europe**- all of the history that our students have learned comes to life as they walk the streets of what they have studied!

Redeemer students also have the opportunity to participate in many additional social activities including: a casual **winter dance, ice and roller skating events, Field Day, Race for Education, Capture the Present** and other fun events.

Things are happening at Redeemer!

Athletics

Athletics Calendar

1 Corinthians 12:12

Just as a body, though one, has many parts, but all its many parts form one body, so it is with Christ.

Redeemer Classical Christian School in Kingsville, MD is a member of the Maryland Independent Athletic Conference (MIAC). RCCS considers athletic teams to be an integral part in the development of the whole person. Christ calls us to develop the mind, body and soul. While sports are typically thought of as developing the body, they also assist in the development of character. Participation in sports teaches accountability

Petitioner
CBA Exhibit
43

and responsibility to the student. In addition, it teaches reliance on one another much as Paul describes in I Corinthians 12–we are many parts, but one body. We each have differing gifts which are to be used for the good of the body. RCCS strives to provide a balance between athletics and academics. At Redeemer, we seek to run a professional athletic program with qualified coaches. Coaches are selected based on their character and ability to lead in a competitive environment. Our coaches are invested in the lives of our students, and all of our sports run off season programs to increase the skill level of our student athletes. Our Campus, conveniently located near the Baltimore and Harford County lines, and adjoining Beachmont grounds is host to multiple FCA sports. Our students are afforded the wonderful privilege of participating in these teams as part of their Redeemer sports experience. For more information about our partnership with this organization please visit their website http://www.nmdfca.org/registration or email us at info@rccs.org.

DESCRIPTION SUMMARY

The Long Green Valley Historic District is an approximately 6,066 acre rural agricultural area to the northeast of the city of Baltimore. The valley has a distinct physical unity created by gently rolling fields dotted with cross-roads villages such as Glen Arm and Baldwin and farm complexes. Its architecture covers the eighteenth, nineteenth, and early twentieth centuries and is generally conservative with most of the major architectural styles of these periods evident. In some examples, more than one style is found in the same building because of renovations. The majority of the structures are domestic or farm related such as barns and utility buildings. Commercial structures stand in the village areas. The older structures are generally of stone or brick construction with frame dominating the mid-nineteenth century to present era. The houses vary in scale, design, and craftsmanship depending on the history of the structure. Approximately 125 individual buildings, complexes, and objects stand in the district with the majority contributing to the significance of the district. The major intrusions or non-contributive elements are industrial complexes around Glen Arm and groupings of past 1930s houses.

GENERAL DESCRIPTION

The Long Green Valley is formed by Long Green Creek, a tributary of the Gunpowder Falls, and Haystack Branch which joins Long Green Creek just before the latter joins the Gunpowder. These streams flow in a southerly direction. The valleys are largely cleared, relatively broad farmlands and they are flanked by gentle but pronounced ridges. The Long Green Pike extends north through the length of the valley, an important old artery to the nearby city of Baltimore. A single milestone (mile 13) remains of a series once placed on this turnpike, as on most turnpikes, to guide travelers to their destination. Harford and Manor Roads, other old arteries into the City, flank the valley, and several roads cross it, including Glen Arm Road at the southerly end of the district, Long Green Road, Williams Road, Hydes Road, Patterson Road and finally Baldwin Mill Road at the northerly end of the district. The Maryland and Pennsylvania Railroad formerly extended north through the valley to link Baltimore and York, Pennsylvania; once an important commercial artery it remains but a memory today with a few stations adapted to other uses and a few cuts and fills.

No road is over two lanes in width, with minimal or no shoulders. They are curvey and hilly, far below the ideal late twentieth-century standard of road construction, but they are wholly compatible with the district and in their present state they are not adverse intrusions.

There are no bridges on public roads which pre-date the mid-twentieth century.

SEE CONTINUATION SHEET #1

GENERAL DESCRIPTION (Continued)

Approximately one hundred and twelve properties have been identified by their age as historic, contributing positively to the character of this district. Many are farm dwellings while the others are associated with rural villages, the dwellings of rural merchants, tradesmen, artisans and professionals. Almost all of these properties retain one or more of the outbuildings which were once required to support rural and village life. These structures date from the late eighteenth century to the early twentieth. The vast majority are conservative in their design but some contain details of great significance.

Villages developed at crossroads and mill sites. All mills are gone and with them the villages, but a few dwellings preserve some sense of a village at the site of Hartley Mill. Baldwin retains a few early structures as well as a few small unobtrusive modern commercial buildings to serve the community. Glen Arm has developed as the sole contemporary industrial center, the major intrusion, and a very small one it is by late twentieth-century standards. The early railroad station remains as well as several nineteenth-century commercial structures.

Intrusions

Three industries in Glen Arm are today's greatest intrusions in the historic scene but their concentration, low profile and non-air-polluting nature make their negative intrusion less of a threat than the spectre of massive residential development which might be expected so close to the City. Major developments, be they residential, commercial or industrial, will create the need for massive road building and utility projects which will destroy the existing ambience of the area.

Rural development (i.e. individually designed single family residences on lots exceeding one-half acre) has occurred, principally along Manor Road and in two areas on the floor of the valley. The Manor Road development, one lot in depth along the road, and along two roads leading into the district from Manor Road, is excluded from the proposed historic district but its presence at the very boundary is an intrusion. The developments within the district are on lots of about two acres or larger; the houses are individually designed, and landscaping helps alleviate their negative impact. There are, scattered throughout the district, individual non-historic houses on small lots. They are not concentrated, they are modest in size and scale and they are well maintained; their negative impact is minimal. Likewise, with the few small commercial structures at Baldwin and Glen Arm.

Another intrusion is a single set of power transmission lines extending in a northerly direction through the valley, a facility which has existed for over thirty years.

SEE CONTINUATION SHEET #2

GENERAL DESCRIPTION (Continued)

Architecture

With a few exceptions the architecture of the Long Green Valley is conservative. Traditional, utterly simple design persisted well into the late nineteenth century. Small architectural details, as well as technological details, relate these traditional structures to their period. The architecture of the Long Green Valley is closely related to that of other nearby areas of Baltimore and Harford Counties. Most of the earliest settlers migrated from tidewater Maryland, but there was a minor migration down from Pennsylvania and both influences may be seen. Nature and available building materials were stronger influences on design than the identifiable characteristics of either particular regional tradition. Stone and timber were abundant and free. Clay was scarce, and with few exceptions brick construction was limited to the thin walls of chimneys.

Abundant water power, one of the major early attractions, made sawmills an early industry, witnessed by the early use of mill-sawn timber and lumber, typical of all upland Maryland. The machine-cut nail replaced the wrought one beginning in the late eighteenth century. Trade routes were well developed by this time, and such major technological advances were not long in reaching this region.

The next major technological advance, in the mid-nineteenth century, was the use of the closed stove for heating and cooking rather than the open fireplace. This caused a radical change in the design of chimneys: a single small flue could serve several rooms in more than one story; no longer would chimneys have to be massive to enclose a separate flue for each room's fireplace.

Two home improvements which became commonplace in the twentieth century are central heating systems and the gas or electric cooking range. The absence of these features determined two basic features of the rural Maryland house: unless an overwhelmingly strong reason dictated otherwise, the dwelling was oriented with its longest and principal facade to the south; and the kitchen was a separately structured construction, generally attached to the dwelling, however, in this upland region. The southerly orientation was a basic passive solar consideration; aesthetically it is the most pleasant fron for a dwelling. The separately structured kitchen was a matter of basic fire protection; quite often the kitchen was of stone or log even if the dwelling was of frame. Seldom was the reverse true. Masonry and log are highly resistant to fire and rodents. Separate structuring was also cleaner; early cooking, especially before the advent of the closed kitchen range, was extremely dirty and smelly. A strong tradition persists at many dwellings that the kitchen predates the main dwelling, but the tradition probably stems from the kitchen's lower status and its correspondingly simpler and seemingly earlier detailing, lower ceiling

SEE CONTINUATION SHEET #3

GENERAL DESCRIPTION (Continued)

heights, smaller windows, etc. Kitchen wings are contemporary with the main dwellings as frequently as they predate or postdate them. Often, when the kitchen postdates the dwelling, the difference in construction sequence seems to have been related to the presence of an earlier dwelling which served as the kitchen for the newer and present dwelling until a more up-to-date replacement kitchen could be erected. In other cases smaller dwellings served as combined kitchens and dwellings; later a kitchen would be added and the earlier structure would be updated with added detailing and finishes.

The Eighteenth Century

The earliest houses which have survived to our day are the substantial ones, those whose owners have, through the years, considered worthy to retain. The 1798 Federal Direct Tax records indicate that the vast majority of houses then standing were small, one story in height, most of log or frame construction. As owners could afford better, these earliest dwellings were replaced by more substantial ones.

Four houses standing today have been identified in the 1798 Federal Direct Tax records; all date from the late eighteenth century. They are PROSPECT HILL, the HOMESTEAD, GLEN MEADOWS and the GITTINGS-BALDWIN HOUSE. PROSPECT HILL is of brick, originally stuccoed, and it is unquestionably the most sophisticated of the earliest dwellings, its porches and its interior detailing among the finest late eighteenth-century details in America. The other three of this earliest group are of stone. Stone was - and is - an abundant material in the region; it was permanent, fireproof, rodent-proof, highly weather-resistant, and no one had to be paid for its manufacture. These stone houses are conservative in their designs. The HOMESTEAD retains interior detailing from the English pattern books of the day, equal to any in tidewater Maryland. GLEN MEADOWS and the GITTINGS-BALDWIN HOUSE are less elaborate but no less interesting in their detailing and each has important features. The HOMESTEAD and GLEN MEADOWS received important additions early in the nineteenth century and GLEN MEADOWS retains most of its ancillary structures which were necessary to support rural life in past centuries.

HAYSTACK FARM may, in part, be a fifth house identified in the 1798 Federal Direct Tax records. Also of stone, with unique (in this district) vaulted cellar, it received additions in the early neneteenth century and alterations in the early twentieth.

AVONDELL has not been identified in the 1798 Federal Direct Tax records but it was described carefully in an earlier record, a description fitting the present west wing, a structure retaining the form and technological details of eighteenth-century construction. It is the unique frame survivor from the eighteenth century and its log kitchen may be contemporary with the dwelling house.

SEE CONTINUATION SHEET #4

GENERAL DESCRIPTION (Continued)

1800 - 1820

The surviving dwellings dating from the first two decades of the nineteenth century are conservative in design, closely related, architecturally, to their counterparts on the earlier side of that turn-of-the-centuries. Only their machine-cut nails, their smallest details - and their absence from that most important of all documents in architectural research of this period, the 1798 Federal Tax records - indicate their nineteenth century construction. Most of the surviving dwellings dating from the first two dedades of the nineteenth century are stone: SERENDIPITY, LIMESPRING, the YODER house, the NORMAN house, MERRYLAND and important additions to GLEN MEADOWS. While conservative externally, these houses received elegant detailing in such principal features as staircases and mantels. SERENDIPITY, with its several early nineteenth-century additions, is one of the most picturesque masses of early America.

The CARTER house, of frame and log, may be the only wooden survivor identified as of this period. At first a very samll, plain house, it received modest additions later in the century.

1820 - 1840

The second quarter of the nineteenth century was the period of the Greek Revival, but its impact in the Long Green Valley is barely seen. Stucco was the preferred exterior finish in that period, simulating cut stone. HOMESTEAD received a west wing of traditional design, and the two-story gallery across the principal front of the newly stuccoed eighteenth-century house is the sole known outward reference to the Greek Revival in this district, other than small details such as an entrance portico or mantel. Though conservative externally, the LONG GREEN FARM (GITTINGS' CHOICE) is a house of major importance and it retains a wealth of interior plaster and wood detailing of the early Greek Revival period. The LANG-DIETZ house is a large but conservative example of the period. Traditional in design, of stone construction, are the JOHN FOARD house and the small oversears' houses of MERRYLAND and HAYSTACK farms.

Several log houses survive from this period - though with log construction one cannot be precise about dating - including the SMITHWICK house, the HERSHFIELD house, the HAILE house, the DAWSON house and DUBLIN. Log construction was once a most commonplace building material but survivors are rare today. In the past log construction was not considered especially permanent and most log houses are small; hence most were replaced as something bigger and more stylish was affordable.

SEE CONTINUATION SHEET #5

GENERAL DESCRIPTION (Continued)

1840 - 1860

During the middle two decades of the nineteenth century the Greek Revival continued to flourish and other architectural revivals developed including the Italianate and the Gothic. Traditional construction continued in popularity, particularly in this district. The west wing of LIMESPRING provided stylish double parlors for the earlier dwelling; externally it was an extension of the original stone construction, all newly stuccoed, deliberately conservative, seemingly deliberately compatible with the original. A small portico at the original entrance provided a subtle reference to the Greek Revival. The CHURCH of ST. JOHN THE EVANGELIST is one of the state's earlier and more academic examples of Early English Gothic Revival. With its spectacular tower and other details MONTROSE is one of the state's most important but least known examples of the Italianate-villa style.

WINNAFORD is a large brick house of this period, very traditional in design, conservative in detail, with some mid-twentieth-century alterations to disguise its mid-nineteenth-century origins. Earlier AVONDELL received a modest addition in this period to provide a stylish stairhall and parlor. OVERLAND and the KOLK farm are unusual in their brick construction; their traditionalism is related to the Mennonite religion of their builders. The CARTER and MORRISON houses belong to the same tradition and they may, at least in part, be earlier. The MANOR HILL FARM and the DENISCH house probably date from this same period, though the latter was much altered in the twentieth century.

Developing villages at such corssroads as Glen Arm, and at such industrial sites as Hartley Mill, saw the construction of modest houses for workers and tradesmen. The MILLER'S HOUSE and the RANDALL house at Hartley Mill are such structures.

GOD'S GRACE, the HERTZGAARD house and BRINTON WOODS have small wings which may be their earlier sections, probably of log construction and probably dating from the first half of the nineteenth century. The westerly CURRENS house and the DALTON house, both of log, probably date from this period as does the FRANCE house.

1860 - 1880

The revivals of antiquity continued: this period saw, nationally, the end of the Greek Revival; the Italianate flourished early in this period, and the Gothic Revival continued, especially in ecclesiastical architecture, and in the late nineteenth century it led to other picturesque styles largely based on medieval forms.

INGLEWOOD and PLEASANT VIEW are dwellings of traditional form having modest touches of the Italianate style. They date from the opening years of this period, or at the very end of the previous one.

SEE CONTINUATION SHEET #6

GENERAL DESCRIPTION (Continued)

The OVERSEER'S HOUSE on Long Green Farm, and SUNNY KNOLL, a former tenant house of the same farm, have Gothic details seldom used on residential structures, including label lintels over the windows of the former (as well as a steep gable above its principal facade) and an enclosed entrance porch on the latter. With its pair of gables and jig-sawn verge boards, ELLENDALE is in the manner of a Downing picturesque villa. The AMBROSE and PRIGEL houses are of one and one-half stories, nearly square, with important gables in all facades. The AMBROSE house formerly had jig-sawn verge boards furthering its Gothic Revival statement.

RIDGEVIEW, MANOR HILL, the ST. JOHN'S RECTORY and the LEONARD FOARD houses are dwellings of traditional form but with pronounced gables above their principal facades linking them with the Gothic Revival tradition. The RECTORY has a projecting central bay and jig-sawn verge boards as well. The central gable is a feature which became almost inevitable on country and village houses in the late nineteenth century, in this district and elsewhere throughout Maryland. The earlier NORMAN house received such an addition in this period.

The LONG GREEN SCHOOL/I.O.O.F. LODGE is a structure of utter simplicity, purely functional, indicative of those built for and by the newly-freed Black communities following the Civil War. This building burned to the ground in the spring of 1981 as the research for this project progressed.

1880 - 1900

The pronounced center gable above the principal facade gave that facade greater importance, it emphasized symmetry, it provided increased light and headroom in the upper story. It first appeared in America in the most sophisticated of eighteenth-century houses, the classical pediment of renaissance design. It became a favorite element of the Gothic Revival and its use continued throughout the late nineteenth century and into the early twentieth. It is often the single detail of an otherwise traditional house which links it to a particular style: the GUNNARSSON house (and several others in its immediate vicinity), BRINTON WOODS, ADY TAVERN, DIMMIT'S DELIGHT, EHRHARDT house and the SOLTER house, among others, are in this category. The KNOEBEL house, the DAY house and the MOORE house are totally traditional in form, lacking this gable. Gables were added to earlier GLEN MEADOWS and the JOHN FOARD house in this period, updating style and providing the practical advantages as well.

The extra bays in the length of ADY TAVERN bespeak its original function as a combined dwelling-commercial structure. This same feature at the KNOEBEL house indicates a similar origin.

GREENLEA had a gable, originally, but its roof was altered later in the Colonial Revival period. GREENLEA was built as the dwelling of a rural doctor and the adjacent DOCTOR'S OFFICE is an important document in understanding the practice of medicine in early rural America. With its characteristic mansard roof the GREENLEA WINDPUMP TOWER is an excellent example (and in this district

SEE CONTINUATION SHEET #7

GENERAL DESCRIPTION (Continued)

a unique example) of the Second Empire style, applied to a utilitarian ancillary structure.

The Maryland and Pennsylvania Railroad (as it has been known since 1901) was extended through the Long Green Valley in this period. Never more than a single track and known for its winding and picturesque right-of-way, this line is now defunct. Engineering structures related to it have all but vanished like the railroad itself; only a few cuts and fills remain. Four stations remain: GLEN ARM, HYDES, LONG GREEN and the OLD LONG GREEN STATION. The GLEN ARM and both LONG GREEN stations are in the mainstream of American railroad station design, being of the picturesque school; but the HYDES STATION is more in the tradition of the early nineteenth-century inn with its two stories of galleries. Adjacent to it is the TOOL HOUSE. At the Long Green Station is an early WAREHOUSE associated with the railroad and the TOOL HOUSE is relocated to an adjacent property.

The UNFRIED house and the MACALUSO house are modest ventures in the Queen Anne style, as are the HINDER house, the easterly CURRENS house and the slightly later GLEN ARM SCHOOL. Several features most notably the low arched dormers, place an enlarged GOD'S GRACE in this style.

1900 - 1920

The opening years of the twentieth century saw a continuation of the picturesque late nineteenth-century styles. SHANKLIN'S STORE has the central gable in the picturesque tradition above an otherwise simple structure. The pointed entrance door and gable window of the CHURCH of the BRETHERN place this very simple structure in the Gothic Revival tradition.

The Colonial Revival, which started with the Centennial period of 1876, emerged as the dominant style of the early twentieth century. An early twentieth-century form is a very simple two-story cube or short rectangle with a pyramidal or short-ridged hipped roof such as the WEDGE and the KEMPSKE house. The PAGE house is the same form made slightly more picturesque and given a medieval flavor with vertical elements to simulate half timering. REMEMBRANCE is a highly developed example of the Colonial Revival, complete with orders and a wealth of other eighteenth-century details. The gambrel roofs of largish New England houses were popular with the Colonial-revivalists and older GREENLEA received one in this period. AVONDELL received something in almost every period; its Colonial Revival details include a pair of large dormers, each with a Palladian window. WESTON, built between the two World Wars, continues the Colonial Revival tradition well into the twentieth century.

SEE CONTINUATION SHEET #8

GENERAL DESCRIPTION (Continued)

Not all structures can be placed in a particular "style" of course and the ROBERT'S STORE, the GLEN ARM I.O.O.F. LODGE and the CHARLES HOTEL are all utilitarian structures to serve their intended purpose with pure contemporary functionalism. The display bay window of ROBERT'S STORE is a rare surviving detail of its original function.

1920 - 1940

The bungalow and cottage styles of suburban and village America are the historic styles of these decades. Two good examples of cottages are the BOTZLER house and the FRANK FOARD house; an excellent bungalow is the FISCHER house.

Outbuildings

Outbuildings were required at every property, before the advent of modern utilities and machinery, to support rural and village life. The Long Green Valley retains many original outbuildings: barns, corn houses; those smaller structures associated with the preservation of food: smoke or meat houses, spring or dairy houses, ice houses and root cellars; and the smallest of outbuildings associated with civilized life, be it urban or rural, the necessary or privy house. Outbuildings are a rapidly-vanishing class, especially the larger ones which require expensive maintenance in the late twentieth century - barns and corn houses. Among the smaller structures those which are the least adaptable to twentieth-century needs are the rarest - ice houses and privies.

Several farms retain a remarkable number of their outbuildings including LONG GREEN FARM, LIMESPRING, GLEN MEADOWS, AVONDELL, GITTINGS-BALDWIN and ELLENDALE. Outbuildings in the Long Green Valley generally had no ornamental features to place them in a particular "style" but those of LONG GREEN FARM and ELLENDALE are exceptions where ornamental cupolas and gables place them in the Gothic Revival tradition.

Great barns are associated with rural upland Maryland. Functionally obsolete today their high maintenance costs and high susceptibility to fire are causing their rapid disappearance. The barns recorded in the 1798 Federal Direct Tax are generally small and none have survived in this area. The small stone barn or carriage house at LONG GREEN FARM, now adapted as a dwelling, may be the oldest barn in the district. The oldest of the great bank barns date from the first half of the nineteenth century. Hewn timber braced framing persisted well into the second half of the nineteenth century and braced framing techniques with circular-sawn timber and lumber persisted into

SEE CONTINUATION SHEET #9

GENERAL DESCRIPTION (Continued)

the twentieth century for barn construction. Four early barns are of stone construction: GLEN MEADOWS, HAYSTACK, LONG GREEN FARM and LIMESPRING with its unique (in this district) hipped roof. The pent roof across the gable end sheltering the lower story wall is a characteristic feature of barns in this district, including some of these stone barns, and of the early frame HAILE and MANOR HILL barns as well. Other notable frame barns include HOMESTEAD, GITTINGS-BALDWIN, SMITHWICK, GITTINGS MILL, MORRISON, YODER, SERENDIPITY, McCOMAS, INGLEWOOD, PLEASANT VIEW, ELLENDALE, MONTROSE, DIMMIT'S DELIGHT, two at WINNAFORD and the octagonal barn made from older timbers at HOMESTEAD. Another small barn at LONG GREEN has Gothic Revival gables and cupola.

The typical corn house of this region - Harford and Baltimore Counties - was a two story braced-frame structure having corn cribs on one or both sides of a driveway with a loft above. Now functionally obsolete and highly susceptible to decay these structures are rare. Excellent examples of this type survive at HAYSTACK, HOMESTEAD, ELLENDALE, YODER, MANOR HILL, KOLK, GITTINGS-BALDWIN and GLEN MEADOWS. Early corn houses also survive at LIMESPRING and LONG GREEN FARM, the latter with Gothic Revival gable and cupola.

Early shops and sheds survive at GLEN MEADOWS, LONG GREEN FARM, GITTINGS-BALDWIN and the YODER farm. Early carriage houses survive at ELLENDALE, YODER and the NORMAN house.

Smoke or meat houses are the most adaptable of the smaller outbuildings. By their very nature they were usually made fireproof - masonry or log - and their enclosed design has made them resistant to the elements. Stone smoke houses survive at LIMESPRING, HOMESTEAD, GLEN MEADOWS, AVONDELL, the NORMAN house, DUBLIN and at the CARTER house, the last being octogonal in shape. MERRYLAND'S stone smoke house has a unique stone floor supported on log jousts above a cellar. The JOHN FOARD house retains a brick smoke house and the smoke houses of HAYSTACK, KOLK, MONTROSE and the HAILE farms are of frame.

Spring or dairy houses, by their location, had to be highly resistant to decay and they were generally of stone. Remaining examples of stone include LIMESPRING, GLEN MEADOWS, AVONDELL, WINNAFORD, SMITHWICK, LEONARD FOARD house, REMEMBRANCE and MANOR HILL. HOMESTEAD has a round spring house (rapidly falling into ruins) with a very interesting roof structure and Gothic Revival pointed-arched windows and doors. The spring house of the LONG GREEN FARM is exceptionally large with several rooms and a utilitarian fireplace for convenience. ELLENDALE has a frame spring house of unusually large size.

The underground stone-vaulted root cellars, seen with some frequency in northern Baltimore County, are not found in tidewater Maryland. Four remain in this district including the HAILE farm, AVONDELL, YODER and DENISCH farms. AVONDELL'S root cellar is interesting in that it shares an entrance with the adjacent spring house. HAYSTACK has a vaulted cellar beneath the dwelling.

SEE CONTINUATION SHEET #10

GENERAL DESCRIPTION (Continued)

Ice houses were deeply excavated structures and they, too, had to be resistant to decay as well as heat-proof. The deep pit renders them unadaptable to contemporary use and they are quite rare. Two remain: LIMESPRING and LONG GREEN FARM.

Privies could be of any material but by their unadaptable small size and all-too-prosaic nature they were razed in most cases as soon as plumbing was installed. Rare two-compartment (for ladies and gentlemen) privies remain at LONG GREEN FARM and ST. JOHN'S CHURCH. The HAILE farm retains its privy while the privy at ELLENDALE is moved to an adjacent property where it serves as a tool house. The outline of a stone privy remains on the back wall of the stone smoke house at GLEN MEADOWS.

Separate kitchens were not the rule in this northerly climate but two, often known in this region as summer kitchens, remain: a log example at AVONDELL and a stone one at the YODER farm, the latter with decorative sponge painting on its palstered interior walls.

Slave quarters have vanished, like slavery itself, but some may remain which were adapted to other uses following the Civil War. At REMEMBRANCE is a stone structure with a cellar, said to have been a quarter. At LONG GREEN FARM is a stone structure which may have been a quarter. An early frame quarter remains at the PRIGEL FARM.

Canning was an important industry in late nineteenth and early twentieth-century rural Maryland and small canning houses once were prolific. Generally of simple, often almost hasty construction, only one remains, relocated and adapted as a shop, at the HAILE farm.

At LONG GREEN FARM is a frame chicken house with ornamental Gothic Revival verge boards.

ELLENDALE has the distinction of having the only historic engineering structure, a bridge, a single arch of stone masonry carrying a farm lane over a small spring branch.

The garage was a new outbuilding which made its appearance with the advent of the automobile. Earlier, barns and carriage houses were adaptable for this purpose, but early automobile garages of significance include those at WESTON and at DIMMIT'S DELIGHT.

Not to be overlooked in recording early twentieth-century history are two early gasoline pumps, one at LONG GREEN FARM and one at the HOMESTEAD.

SEE CONTINUATION SHEET #11

GENERAL DESCRIPTION (Continued)

Private cemeteries on farms were commonplace in early Maryland when the distance to the church was often great. The GITTINGS CEMETERY at the LONG GREEN FARM (GITTINGS' CHOICE) contains eighteenth and early nineteenth-century graves including a group of table tombstones seldom found in small private cemeteries. The WILSON CEMETERY remotely located between MANOR HILL and the YODER farm is but a ruined stone wall, all graves, presumably, having been moved.

Church cemeteries are at ST. JOHN'S and the LONG GREEN CHURCH of the BRETHERN. The stone-walled MENNONITE CEMETERY is not associated with a standing church and the graves from the original site of ST JOHN'S CHURCH have, presumably, been moved to the present location.

Statement of Significance (in one paragraph) Applicable Criteria: A and C

SIGNIFICANCE SUMMARY

The significance of the Long Green Valley Historic District derives from the collection of eighteenth, nineteenth and early twentieth century buildings that are situated in a rural agricultural setting. The buildings, primarily houses and farm structures, embody the distinctive design characteristics of the major architectural styles popular in the United States from the Neoclassical of the 1700s to the Georgian Revival of the pre 1935 period. The buildings range from modest to elaborate in size and exhibit varying degrees of craftsmanship as well as a record of changes in construction techniques in Baltimore County. The buildings also are evidence of the productive agricultural nature of the valley since it was settled in the 1720s thus recording ways of life that have disappeared in other regions surrounding metropolitan Baltimore.

HISTORY AND SUPPORT

Long Green Valley is a product of geological upheavals and millenia of erosion. The valley floor is underlain by marble, and the hills surrounding the valley are composed of mica schist. Geologists call the valley floor "Cockeysville Marble," and the hills "Wissahickon Formation." The marble underlies several other valleys in Baltimore County – Green Spring, Worthington and Dulaney, to name a few. Marble makes good building stone, and, when burned in a limekiln, makes agricultural lime and whitewash.

Valleys, being relatively flat, make prime agricultural land. The first settlers in Long Green Valley prospered by raising tobacco. Most of the settlers had formerly farmed the shores of Chesapeake Bay, and, moving inland, they were glad to find virgin soil that had not been exhausted by tobacco culture.

Today, most of Long Green Valley is still farmed intensively, but corn, small grains, and hay are produced instead of tobacco. Some farmers grow vegetables for market, and some grow grapes for wine. Considerable pasture land has been reserved for grazing horses, cattle and sheep. Steep slopes are generally wooded.

The origin of the name "Long Green" is something of a mystery. The stream that runs through the valley was called "Long Green" in court records as early as 1736, so it is not surprising that the valley is given the same name. Later, a farm, a post office, a railroad station, a village, two roads, churches and schools were named Long Green. There are four hamlets in England named Long Green, according to a gazetteer of the British Isles. James Gittings

SEE CONTINUATION SHEET #16

HISTORY AND SUPPORT (Continued)

named his plantation "Long Green Farm", so it is plausible that the Gittings family has roots in one of these English hamlets.

Long Green Creek is a tributary of Big Gunpowder Falls between Loch Raven and tidewater. As noted above, this creek drains Long Green Valley. Its headwaters are near Carroll Manor School. Descending into the marble valley, it passes near Hyde Station and Long Green Station. Next, it cuts through a low ridge of mica schist, and then it crosses a smaller marble valley before emptying into the gorge occupied by Hartley Mill Road. The smaller marble valley is a separate part of Long Green Valley. The eastern end of this smaller valley is drained by Haystack Branch, a tributary of Long Green Creek, so sometimes that area is called Haystack Valley, although it is called Long Green in old documents.

To introduce the history of Long Green Valley, it should be noted that Indians hunted in the area for some ten thousand years before the coming of the white man. Arrowheads or points and other evidences of Indians have been found and are still being found throughout the area. No indications of permanent camps or settlements have been discovered. Schoolboys of half a century ago delighted in exploring the overhanging rocks called "Indian Caves" along Hartley Mill Road.

It may be presumed that the first white men to set foot in the valley were game hunters in the 1600s. However, the recorded history begins with the first surveys made in 1683, about 300 years ago. "Cullens Lot," 300 acres, was surveyed for James Cullen of St. Mary's County on June 17, 1683. "His Lordship's Manor," 7031 acres adjoining Cullens Lot was surveyed for Charles Calvert, the third Lord Baltimore, on June 28, 1683. "Land of Promises," 2000 acres adjoining the manor, was surveyed for Henry Darnall, one of Lord Baltimore's high-ranking officials, in the year 1683. Cullens Lot, and an addition called "Cullens Addition", 500 acres, include most of the smaller Long Green Valley. The manor, and a small part of Land of Promise, include the main part of Long Green Valley.

Lord Baltimore had a number of manors in the province, two of which were in Baltimore County. He gave one of these to his fourth wife, Lady Margaret, called My Lady's Manor." He retained the other one for his own use. In official documents, it is called "His Lordship's Manor in the Forks of the Gunpowder," or just "His Lordship's Manor." The latter name is still used in legal description of property adjoining the manor boundary line. A short name for the manor is "Gunpowder Manor."

Neither Lord Baltimore nor Lady Baltimore intended to live on their manors in Baltimore County. Their main interest was to produce income. Immigrants to Maryland seldom had capital to purchase land, so they were glad to rent it. Some landlords accepted produce, especially tobacco, in lieu of hard currency, which was very scarce in the colony.

SEE CONTINUATION SHEET #17

HISTORY AND SUPPORT (Continued)

James Cullen and his heirs may have rented Cullens Lot and Addition, but records are lacking. Thomas Tolley bought this land in 1725 and named it "Tolley's Purchase." He had an overseer and 6 taxable slaves working on the farm in 1737. After Thomas died, part of the land escheated to the Lord Proprietary. Walter Tolley bought it back and renamed it "Tolley's Double Purchase." (The old-timers had a sense of humor.)

In 1757, the surveyor recorded that Tolley had one rotten clapboard dwelling house 16 feet by 15 feet, of no value except to burn for nails., 4 tobacco houses described as quite rotten, 2 corn houses 25 X 12 feet made of round logs, and 5 small negro quarters made of round logs.

In 1773, the tax assessor reported that Walter Tolley had an overseer and 4 taxable slaves, and Walter Tolley, Jr. had 4 servants and 3 slaves. In 1783, Walter Tolley willed his land, after the death of his wife, to his daughter Ann, who was the wife of Aquila Hall, a prominent attorney and landholder in Harford County. Aquila bought some adjoining property at Fork Church, at Glen Arm, and at Hartley's Mill, so that in the 1798 assessment, he was charged with 1421 acres, 39 slaves, a stone mansion, 2 tenant houses, 5 log negro quarters, 15 farm buildings, and a stone grist mill (later called Hartley's mill.)

This, then, is the description of the development of farmland in the smaller section of Long Green Valley in the eighteenth century.

In the main part of Long Green Valley, in the manor, it appears that Thomas Gittings, John Fuller and William Demmitt were living there in 1721, which is the year in which a surveyor marked off the boundaries fo their farms. In 1737, the tax assessor listed the following names:

John fuller, 2 sons (3 taxables)
Thomas Giddens (sic), 2 servants, 8 slaves (11 taxables)
John Fuller, Jr., 2 servants (3 taxables)
William Demmitt, 1 servant (2 taxables)
William Demmitt, Jr., 1 slave (2 taxables)
James Demmitt, (1 taxable)
George Elliott, 3 servants, 13 slaves (17 taxables)

George's lease is dated September 30, 1736, but he may have been there earlier, and 1736 may be the date of a new lease.

Thomas Gittings acquired more land during his lifetime, both inside and outside the manor. The Fuller family moved to Carolina, and MichaelJenkins became the tenant. The Demmitt family stayed. George Elliott died and John Chamberlain (son-in-law of Thomas Gittings) became the tenant. By 1767, the principal lease-holders in the valley within the manor were James Gittings, John Chamberlain, James Demmitt, Michael Jenkins, and Benjamin Kidd Wilson.

SEE CONTINUATION SHEET #18

HISTORY AND SUPPORT (Continued)

The last-named leaseholder had inherited his farm from his father, William, whose lease was dated 1746. As of 1767, most houses in the manor were log houses, some were frame, none was brick or stone.

In 1773, the tax assessor listed the following names:

James Gittings, 9 servants, 14 slaves (24 taxables)
John Chamberlain, 2 sons, 1 servant, 7 slaves (11 taxables)
Samuel Chamberlain, 2 servants (3 taxables)
James Dimmett (sic), 2 servants (3 taxables)
Michael Jenkins, 5 slaves (6 taxables)
Jonathan Jenkins, 2 servants, 2 slaves (5 taxables)
Benkid Wilson, 8 slaves (9 taxables)

John Chamberlain died, and his lands were acquired by James Gittings. The Demmitt property was sold. Gittings, Jenkins and Wilson increased their holdings, so that in 1798, we find that James Gittings had 2005 acres, 50 slaves, a stone mansion, a stone mill, a log house for negroes, and 6 farm buildings. His son Thomas had 731 acres, 14 slaves, a stone mansion, 3 smaller houses, and 8 farm buildings. James Gittings, Jr. had 5 slaves, an old frame house, and a new stone house under construction. Michael Jenkins had 489 acres, 13 slaves, a frame house, 3 small houses, and 5 farm buildings. Benjamin Wilson had 198 acres, 11 slaves, and 1 house. His brother Henry had 481 acres, 22 slaves, a frame house, a log quarter house, and 6 farm buildings.

This completes the description of the principal landowners in Long Green Valley at the close of the eighteenth century. The statistics contain some approximations - for example, part of James Gittings' land was east of the Harford Road and therefore outside of Long Green Valley. Some smaller landowners have been omitted, but the statistics give a broad picture of the expansion of agricultural activity in the area from the early 1700s when Maryland was a colony of Great Britain, to 1798 when Maryland was struggling as a state in the newly formed republic.

A majority of the valley buildings standing today date from the nineteenth century. Descendants of Gittings, Jenkins, Wilson, and other families continued as valley residents in houses of their own (see notes on houses below). A new influence was an influx of Mennonites from Lancaster County, Pennsylvania, beginning around 1849. They settled in a broad arc from Carroll Manor School to the village of Long Green, thence to Hartley's Mill, Haystack Valley and almost to Fork Church. Christian Hertzler bought 90 acres on Manor Road in 1853. His brother-in-law, John Smoker (Schumucker) bought 90 acres adjoining on the same date. Justice Eicholtz bought 33 acres adjoining between 1858 and 1867. Jacob Hertzler bought 125 acres on Manor Road adjoining Christian in 1853. Daniel Nafzinger bought 100 acres on Manor Road adjoining Jacob Hertzler in 1850. Moses Miller bought Prospect Hill 263 acres on Kanes Road

SEE CONTINUATION SHEET #19

HISTORY AND SUPPORT (Continued)

adjoining Nafzinger in 1850. Moses was born in Germany, but his wife and children were born in Pennsylvania. In 1863, he sold the mansion with 135 acres to James Kane (born in Ireland). In 1864, he sold back acreage, 61 acres to Andrew Miller and 58 acres to David Warfel, with right-of-way through Prospect Hill to Kanes Road (Hydes Road was non-existent at that time). John Neuhauser bought 114 acres adjoining Prospect Hill in 1859. Andrew Miller bought 40 acres containing Gittings' mill and miller's house in 1862. Isaac Hertzler bought 309 acres (former Wilson estate). He sold 36 acres to Samuel Kennel in 1868 (BA521), and 111 acres to Solomon Yoder in 1854. He retained the balance. South of Hertzler is 166 acres (former Wilson estate) bought by Peter Nafzinger in 1851. The Wilson cemetery at the end of Briedenbaugh Lane was excluded in the sale to Nafzinger. The Mennonite cemetery on Kanes Road was excluded in the sale of Prospect Hill to James Kane in 1863. A lot for the Mennonite church on Kanes Road was bought in 1894. After the church burned, the lot was sold and a dwelling stands on the foundation. John and Christian Kennel bought 33 acres in 1851 (later called Hartley's mill, now razed). John Mast bought Haystack Farm 435 acres in 1850. Benjamin Foard and his descendants have farmed in Haystack Valley for several generations since the Mast family departed.

Limespring was built by Robert Hall circa 1820. This house has had many owners and has been the subject of many court-ordered sales. The War Between the States was the direct cause of one foreclosure. Joshua Price sold his farm in Virginia and bought Limespring just before the outbreak of hostilities. The purchaser of the Virginia farm had deposited the money in a Virginia bank, and the funds were frozen. At the close of the war, the Confederate dollars in the Virginia bank were unacceptable to the mortgage-holder of Limespring, so the property had to be sold.

There was great excitement in the valley at one point during the war. Harry Gilmor's raiders passed through enroute to burn the railroad bridge on the Baltimore and Philadelphia line. One of Joshua Price's sons was in Gilmor's party, so he invited Gilmor to spend the night at Limespring, which he did. It was the following morning that Gilmor lost one of his scouts who was shot by Ishmael Day when he attempted to take down Day's flag on Sunshine Avenue.

Adjoining Limespring on the east is the Judson Duckett farm (BA-1920) purchased from the widow of Aquila Hall in 1824. The house was probably built in the 1820s.

Serendipity is on Land of Promise, originally patented by Henry Darnall. Francis Darnall sold 140 acres (including the site of Serendipity) to Benjamin Wilson in 1796. The tax assessment of 1798 does not reflect the existence of the house, so it is assumed that Benjamin or Benjamin's son, Benjamin, built the house, which has been enlarged later. H. C. Forman described the house as an old Wilson house of the eighteenth and nineteenth centuries. A picture of the house is in Forman's Tidewater Maryland: Architecture and Gardens.

SEE CONTINUATION SHEET #20

HISTORY AND SUPPORT (Continued)

The main house on the Long Green Farm is on the tract called Gittings Choice, surveyed in 1721 for Thomas Gittings. As of 1767, the main house was a frame building 40 feet by 35 feet with brick chimneys. According to family tradition; this house burned and was replaced by a stone house as recorded in the 1798 tax list. The present house is also constructed of stone, apparently built in the 1820s. James Gittings (1735-1823) was quite a gentleman. Besides being the owner of 2000 acres and 50 slaves, he served as Justice, Baltimore County Court, for seven years, and as a Lieut. Col., Gunpowder Battalion, Baltimore County melitia during the Revolution. He advertised his stud horse in the Baltimore American in 1792. A large painting of his family by Charles Willson Peale was executed in 1791. Peale recorded in his diary that the "seat of Mr. Gittings is situated in a rich valley where he has all the blessings that a country life can afford." Richard Parkinson, who visited the farm in 1798, wrote that Mr. Gittings had the finest timothy meadows in America.

The Jenkins homestead was on the tract called Fullers Forest, surveyed in 1721 for John Fuller. As of 1767, the house was frame 16 feet by 24 feet. By 1798, dormers had been added and the house lengthened to 38 feet. William Armour Jenkins replaced this house with a new one in 1906.

The Demmitt homestead was on the tract called Demmitt's Delight, surveyed in 1721 for William Demmitt. As of 1767, the house was frame 20 feet by 24 feet. In 1798, it was described as frame 18 feet by 28 feet (2 stories) with log kitchen 18 by 14 feet. An advertisement in 1880 listed the house part frame, part stone 20 feet by 60 feet, part 3 stories. The present house is still larger and may be on a new site.

Transportation was the very life-blood of the early farmer. His cash crop was tobacco, and to get it to tidewater for export, it was necessary to build rolling roads for rolling hogsheads of tobacco to a landing. One such road was called the Manor to Joppa Road, from My Lady's Manor to Sweet Air, thence to Baldwin via Patterson Road, and on to Fork and Joppa.

Another important road was the Great Road. From Bel Air, it entered Baltimore County via Pleasantville Road, through Baldwin and Glen Arm to Cromwell's Bridge, Cub Hill Road and Old Harford Road.

A third important road was the Old York Road which followed Manor Road from My Lady's Manor through Sweet Air to Knoebel's Tavern and thence to Towson.

The Joppa Road lost its importance with the decline of Joppa and abandonment of tobacco culture just before the Revolution. The Great Road and the Old York Road were overshadowed by the construction of the Baltimore and Harford Turnpike, respectively.

SEE CONTINUATION SHEET #21

HISTORY AND SUPPORT (Continued)

The turnpikes in turn were outmoded by the railroads. In 1883, the Maryland Central (later Maryland and Pennsylvania) was built through the valley, connecting Baltimore with Bel Air, and eventually with York, Pennsylvania. Four stations were established in the valley: Baldwin, Hyde, Long Green, and Glen Arm. The last-named three stationhouses are still standing (BA-861 and 863). Although it was only a single-track line, the Maryland and Pennsylvania did a booming business in the early 1900s. For example, in 1914 there were 15 regularly scheduled passenger trains plus freight trains every weekday serving the valley. There were ten trains on Sunday. Transportation of milk and cream was important for the farmers in the valley. The milk train carried the milk to Baltimore every morning, and an evening train brought back the empty cans. Four trains were designated mail trains. Before the advent of school buses, children rode the train to and from high school and college. During the summer, some Baltimoreans "beat the heat" by moving their families to the country. If they did not have a country home, they boarded at one of the farmhouses in the valley. The first commuters to Baltimore were these summer residents who worked in the city and slept in the country. The Maryland and Pennsylvania never operated with automatic signals, but employed train orders. However, a former station agent, Charles Adler, Jr. is credited with installing what is considered to be the first automatic crossing signal in the United States. It was a stop sign that turned at right angles to the road 20 seconds before the arrival of a train. It was used to replace the watchman at the blind crossing on "watchbox hill" just north of Glen Arm.

Unfortunately for the railroad, its glory years came to an end with the advent of the motor age and hard-surfaced roads. Passenger service ended in 1954 and freight service died out four years later. Public roads in the valley were paved with concrete or asphalt, but they remained narrow (two lanes with little or no shoulders to accomodate disabled vehicles). There are no interstate or state highways crossing the valley. The nearest state highway is Harford Road which borders the valley on the east. Nearly all bridges have been replaced with modern structures in recent years. One notable exception is the Long Green Pike bridge over Long Green Creek, which is dangerously narrow, and is subject to flooding when Long Green Creek is high. It may be stated that, although some roads are winding and narrow, all are passable for school buses, fire trucks and commercial vehicles.

Before the Revolution, the principal occupation was farming. Supporting occupations included the innkeeper, the blacksmith, the miller, and the tanner. Jeremiah Chance opened an inn on the Old York Road in 1762. The 1767 inventory listed Mr. Gittings with a blacksmith shop built of logs 18 X 16 feet, and it listed George Hunter with a tan house 45 X 18 feet of logs. There were two mills in operation in 1867. Long Green Creek furnished the water power. Lucas' Mill (later Hartley's) was on the left bank between Glen Arm and Harford Road. Gittings' mill (later Miller's) was on the right bank just north of Long Green Road. Both mills are gone.

SEE CONTINUATION SHEET #22

HISTORY AND SUPPORT (Continued)

After the Revolution, many taverns existed along the main arteries to Baltimore. In the 1800s, there was Watkins Hotel, Ady's Tavern and Greenwood Hotel on Long Green Pike, formerly the West Branch of the Baltimore and Harford Turnpike. Also, there was Webb's Tavern and Knoebel's, formerly Patterson's Tavern on Manor Road, formerly the Old York Road.

The development of educational facilities is an interesting story. Before the creation of the county system, a group of neighbors would band together and elect trustees to build a schoolhouse, hire a teacher, and charge tuition. One such school is mentioned in a deed dated 1812 as the "old" schoolhouse near the intersection of Williams Road and Glen Arm Road.

In the 1840s Wilson Carey operated a school for young ladies. He employed two teachers who taught French, Italian, German and music (piano, guitar, and voice). The advertisement located the school on Haystack Farm.

St. John's Roman Catholic Church opened a school in about 1858. There were no county schools until 1887, when the county built Hydes School. This school was sold in 1920, and the building has been razed. The county built Glen Arm school in 1900. It is now a residence. The school was closed in 1935 when Carroll Manor School was opened and school buses carried the children to the consolidated school.

Baltimore County operated separate schools for colored children, usually in facilities furnished by the neighborhood. One such school was on Kanes Road, Long Green. It occupied the first floor of an I.O.O.F. Hall built by the lodge. This building was used as a school from 1873 to 1927, when the county built a new school nearby. The latter school was converted to a dwelling after the races were integrated in 1951. The lodge hall, vacant for many years, was burned in 1981.

The first church in the valley was St. John's Catholic Church built in 1855, successor to St. John's on the Ridge which burned earlier that same year. As already noted, the Mennonites built a church on Kanes Road circa 1895. The church was not rebuilt after a fire in 1914. The Church of the Brethern built a church on Long Green Road in 1908.

The construction of the railroad through the valley in 1883 resulted in the development of two large commercial enterprises. The Hyde cannery on Hydes Road was a major private enterprise between 1882 and 1906. Its "Sweet Egyptian Corn" was marketed in the United States and Europe. Mr. Samuel Hyde was a shrewd promoter. It is recorded that he served hot corn to members of the Baltimore City Council and a party of 100 persons in 1883 when the railroad was opened. He escorted the party on a tour of his cannery. Today, the cannery is gone and the land has been returned to farming. The other enterprise was the F. X. Hooper Company on Glen Arm Road. Mr. Hooper came from Baltimore and built a plant for making containers and printing labels. Today the plant

SEE CONTINUATION SHEET #23

HISTORY AND SUPPORT (Continued)

is part of the Koppers Company, and is famous for the manufacture of container machinery.

Some other enterprises spawned by the railroad were stores, post offices, a coal yard, and a steam laundry. They have since disappeared or the buildings converted to other uses.

Today, the population of Long Green Valley is more heterogeneous than in the past. There are some working farms of several hundred acres in size, and there are small residential lots scattered throughout the valley. Residents include farmers, lawyers, doctors, teachers, businessmen, artisans, and tradesmen. There are two black communities, each of which had a one-room school in the past. One community is on Kanes Road, and the other is near Hartley Mill. There are two small food markets and an auto shop at Baldwin. Glen Arm is a major village, where there is a florist shop, a feed and grain supply, a hardware store, and two small contracting establishments. The major employers of non-local labor are located at Glen Arm: Koppers Company (container machinery), Grumman Aerospace Corporation (airplane parts), and the smaller Prosser Company (consulting engineers, fiberglass). All three are low profile in terms of noise, traffic, roof-line, and pollution. Koppers has an interesting history, having taken over the F. X. Hooper Company as already mentioned. Mr. Hooper purchased the site of his Glen Arm plant in 1893. Grumman is relatively new, having come to Glen Arm in 1967. Originally on the west side of Long Green Pike, it has recently expanded to the east side of the road where it has taken over agricultural land. The Long Green Valley Association has entered into a covenant with Grumman to prevent furtner expansion into agricultural land.

Other intrusions are minimal, although residential development along Manor, Sweet Air and Harford Roads threatens to drop down into the valley. It is to minimize these threats and to preserve the farmland with its many significant buildings that the establishment of the Long Green Valley Historic District is proposed.

BOUNDARY DESCRIPTION

The proposed Long Green Valley Historic District is a succinct geographical and historical unit. Boundaries have been drawn largely on a visual and topographical basis. The broad floor of the limestone valley extends east and west from the notth-south course of Long Green Creek. Ridges rise on the west toward Manor and Sweet Air Roads, and on the east toward Harford Road. An irregular transverse ridge in the south divides Long Green Valley from Haystack Valley, and central Long Green from the southern or Glen Arm section. Ribbon residential developments along Manor Road and Harford Road have been excluded. Scattered new residences within the boundaries are mostly traditional in design and are not considered offensive. The only serious intrusion is industry (Koppers, Prosser, Grumman) in Glen Arm, near the intersection of Glen Arm Road and Long Green Pike. It is impossible to exclude these industries from the district as they abut on several important houses, as well as on Glen Arm village which contains some twenty worthy vernacular structures. The farms included along the boundary edges all look into the valley and are considered an integral part of it.

RESOLUTION
Adopting and Recommending
the
GREATER KINGSVILLE AREA COMMUNITY PLAN

WHEREAS the Baltimore County Master Plan 1989-2000 recognized the need for a plan for the Greater Kingsville community; and

WHEREAS the Master Plan also specifies that plans prepared by community associations should be evaluated for possible adoption by the Planning Board and County Council; and

WHEREAS a committee of residents in the Greater Kingsville area, working under the auspices of the Greater Kingsville Community Association, and with the assistance of County staff, has prepared a Greater Kingsville Area Community Plan; and

WHEREAS the draft Plan thoroughly documents existing conditions and issues in the Greater Kingsville community, which is a logical unit for planning within Baltimore County, and proposes reasonable actions for protecting and improving the community in accord with the principles adopted in the Master Plan; and

WHEREAS the draft of the community plan, as submitted on October 5, 1995, was the subject of a public hearing on November 2, 1995, and was discussed in the committee meeting of October 5, 1995 and the Board meeting of January 18, 1996;

NOW, THEREFORE, BE IT RESOLVED, pursuant to Section 26-81 of the Baltimore County Code, 1988, that the Baltimore County Planning Board hereby adopts the Greater Kingsville Area Community Plan, December 1994, as modified by the January 3, 1996 revisions, to constitute a part of and an amendment to the Baltimore County Master Plan 1989-2000, and

BE IT FURTHER RESOLVED, that the Greater Kingsville Area Community Plan shall be transmitted to the Baltimore County Council for adoption in accordance with Section 523(a) of the Baltimore County Charter.

DULY ADOPTED by vote of the Planning Board this 18th day of January, 1996

COUNTY COUNCIL OF BALTIMORE COUNTY, MARYLAND
Legislative Session 1996, Legislative Day No. 14

Resolution No. 48-96

Mr. Vincent J. Gardina, Councilman

By the County Council, July 1, 1996

A RESOLUTION of the Baltimore County Council to adopt the Greater Kingsville Area Community Plan as part of the Baltimore County Master Plan 1989-2000.

WHEREAS, the Baltimore County Council adopted the Baltimore County Master Plan 1989-2000 on February 5, 1990; and

WHEREAS, the Master Plan advocates the implementation of actions and policies for the conservation and enhancement of the County's older established communities, including the preparation of detailed local plans for certain designated areas; and

WHEREAS, an advisory group composed of local citizens, working under the auspices of the Greater Kingsville Community Association, with the assistance of County staff, prepared the Greater Kingsville Area Community Plan; and

WHEREAS, the Plan identifies particular goals concerning the preservation, enhancement and development of the Greater Kingsville Area and recommends actions for achieving those goals; and

WHEREAS, by Resolution adopted January 18, 1996, the Baltimore County Planning Board adopted the Greater Kingsville Area Community Plan to constitute part of and an amendment to the Master Plan; and

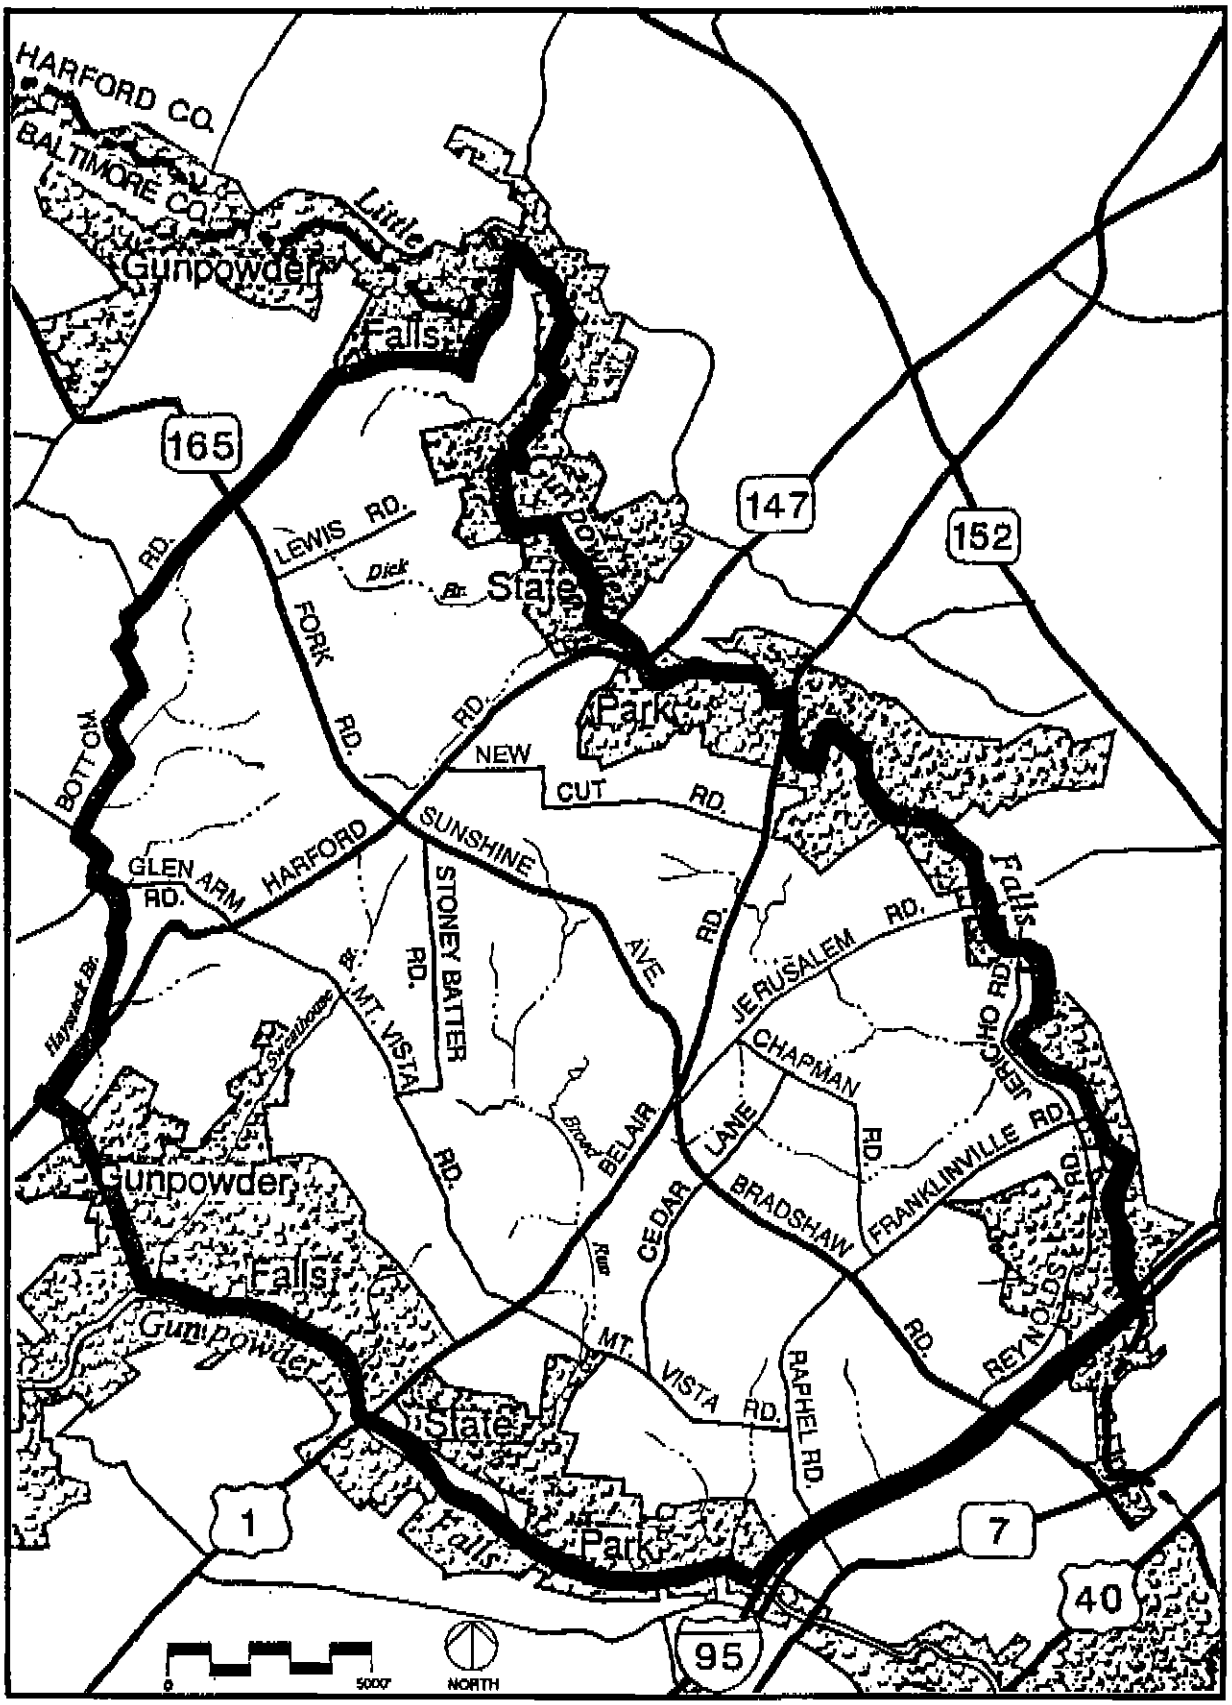
WHEREAS, the County Council held a public hearing on the recommended Greater Kingsville Area Community Plan on May 20, 1996.

NOW, THEREFORE, BE IT RESOLVED BY THE COUNTY COUNCIL OF BALTIMORE COUNTY, MARYLAND, that the Greater Kingsville Community Plan, a copy of which is attached hereto and made a part hereof, be and it is hereby adopted and incorporated into the Baltimore County Master Plan 1989-2000 to be a guide for development of the Greater Kingsville Area, subject to such further modifications as deemed advisable by the County Council.

R04896

The Greater Kingsville Area Community Plan

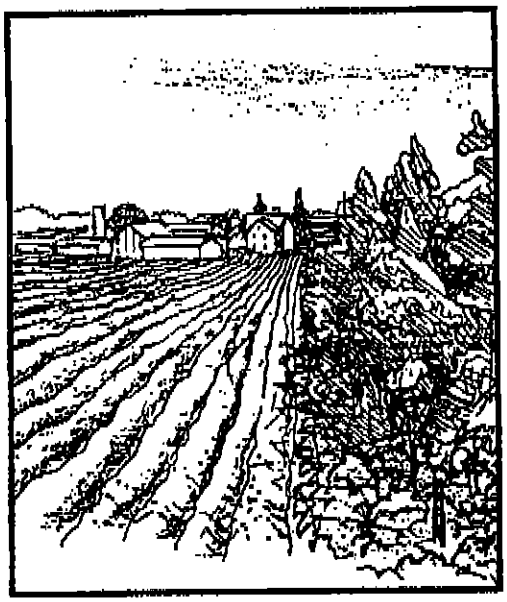
As adopted by
the Baltimore County Council
July 1, 1996



Study Area Boundaries
Greater Kingsville Area

Map 1

INTRODUCTION



In January, 1991 an advisory group was formed in response to the designation in the 1989 - 2000 Master Plan for Baltimore County of the Kingsville area as a priority planning area. The group of citizens was intended to be representative of the Community and of various religious, social and economic constituencies within the Community.

The group was divided into sub-committees augmented by individuals with special knowledge of the subject matter. The sub-committees formed were as follows: Infrastructure, Agriculture, Historic Preservation, Commercial, Design, and Conservation and Development. The group itself met in monthly meetings with presentations from various State and County departments.

The study area for the Plan is based around the village communities of Kingsville, Fork, Upper Falls and part of the Bradshaw community. The study area is bounded by the Little Gunpowder River on the north, Interstate 95 on the east, the Big Gunpowder River on the south, and by courses following Bottom Road, Williams Road, Haystack Branch, Harford Road and Long Green Creek on the west (See Map 1). The study area was chosen in part because of the close intertwining of the villages historically, geographically and socially.

The subject area frequently has been likened to an island surrounded by a sea of development. The Community is unique in Baltimore County in that its borders are comprised in major part by the largest state park system in a United States metropolitan area. Just on the other side of the park, both to the North and to the South, are large, rapidly growing, residential communities (See Map 2). While these communities are not part of the study area, their impact on the Kingsville - Fork - Upper Falls area can not be over-estimated.

Goals

The goals of the group were as follows:

1. To develop a plan that delineates limits of growth and serves the basic needs of the community;
2. To maintain the rural character of the area by encouraging agriculture, afforestation/reforestation and wildlife management;
3. To maintain and enhance the commercial centers in the study area for the rural residential and commercial community;
4. To concentrate geographically any future business growth, and to minimize strip commercial

growth and spot commercial zoning;
5.To preserve and protect the historic resources of the communities in the design area;
6.To utilize design standards so that future development or redevelopment minimizes intrusion into open space areas, preserves scenic vistas and is integrated into the rural concept of the community;
7.To seek sensitive development and enhancement of the existing Kingsville core

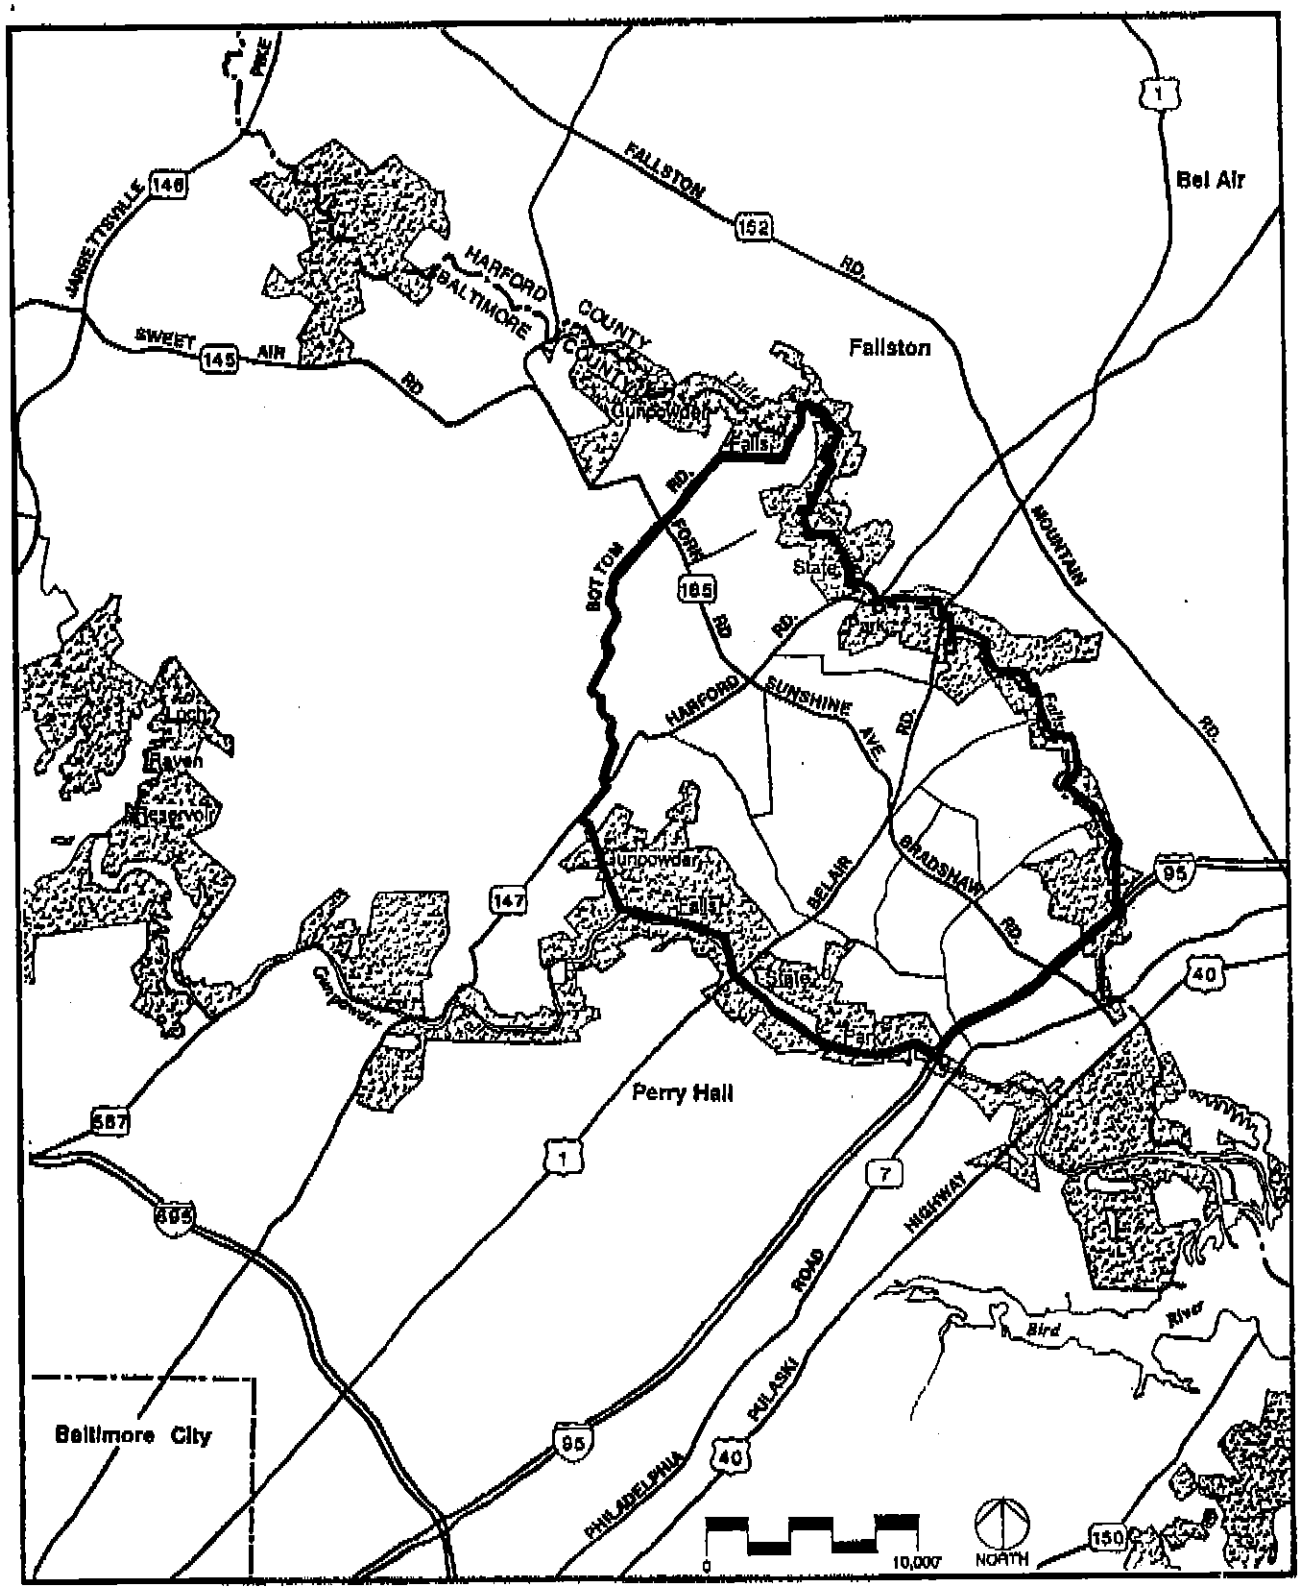
ENVIRONMENTAL CONSIDERATIONS

The Greater Kingsville area is dependent upon private wells and septic systems, and its way of life is built around its forests and streams. These varying systems must all work in harmony, yet the fragility of each of the systems often bring them into conflict with development in the Community.

Baltimore County has strict standards for septic systems. Unfortunately, these standards are comparatively recent. When much of the construction in the area occurred, much less stringent regulation was in place. Consequently, in the center of Kingsville as well as in other areas of the Community there may be septic systems failing into groundwater and local streams. These problems could worsen, for the land is not always available on individual lots to accommodate replacement systems. Baltimore County should take an active role in seeking possible solutions to address any failing systems with the active participation of local residents.

Soil conditions currently are the major factor in the location of development. The soils maps indicate that much of Kingsville has a clay-based soil structure, which is not conducive to adequate percolation. Percolation improves markedly going from East to West, and the maximum yield for development usually will be found only toward the Harford Road area. This land also has been designated as being the most productive for agriculture.

Well capacity and recharge are major Community concerns. Studies by the Department of Environmental Protection and Resource Management have indicated that generally there are sufficient water supplies in the Community. Because of the characteristics of well recharging, most new residential communities withdraw less water from underground storage area than is replenished by rainfall. As long as undue stress, such as the filling of swimming pools and heavy water use during drought, does not occur, current development regulations requiring deep wells, low impervious area for adequate drainage, and larger lots should protect against well failure. Golf courses and farm irrigation can place the most strain on well systems.



Study Area Location
Greater Kingsville Area

Map 2

Well failure also occurs most often in the older areas of the Community, where hand-dug wells and shallow wells are still prevalent. The dwellings and businesses typically are close together, and there is a higher ratio of impervious area than in newly developed areas. These factors, combined with rock and soil structure, create many of the well problems in the area. Baltimore County's well yield law on the resale of houses impacts most on these older homes.

The local schools are probably the heaviest users of water in the area. The St. Stephen school has had numerous well replacements, and Kingsville Elementary has had water storage facilities installed. Geology studies indicate that the Harford Road area and the land west of it have the most promising rock formations for large quantities of water and recharge capacity.

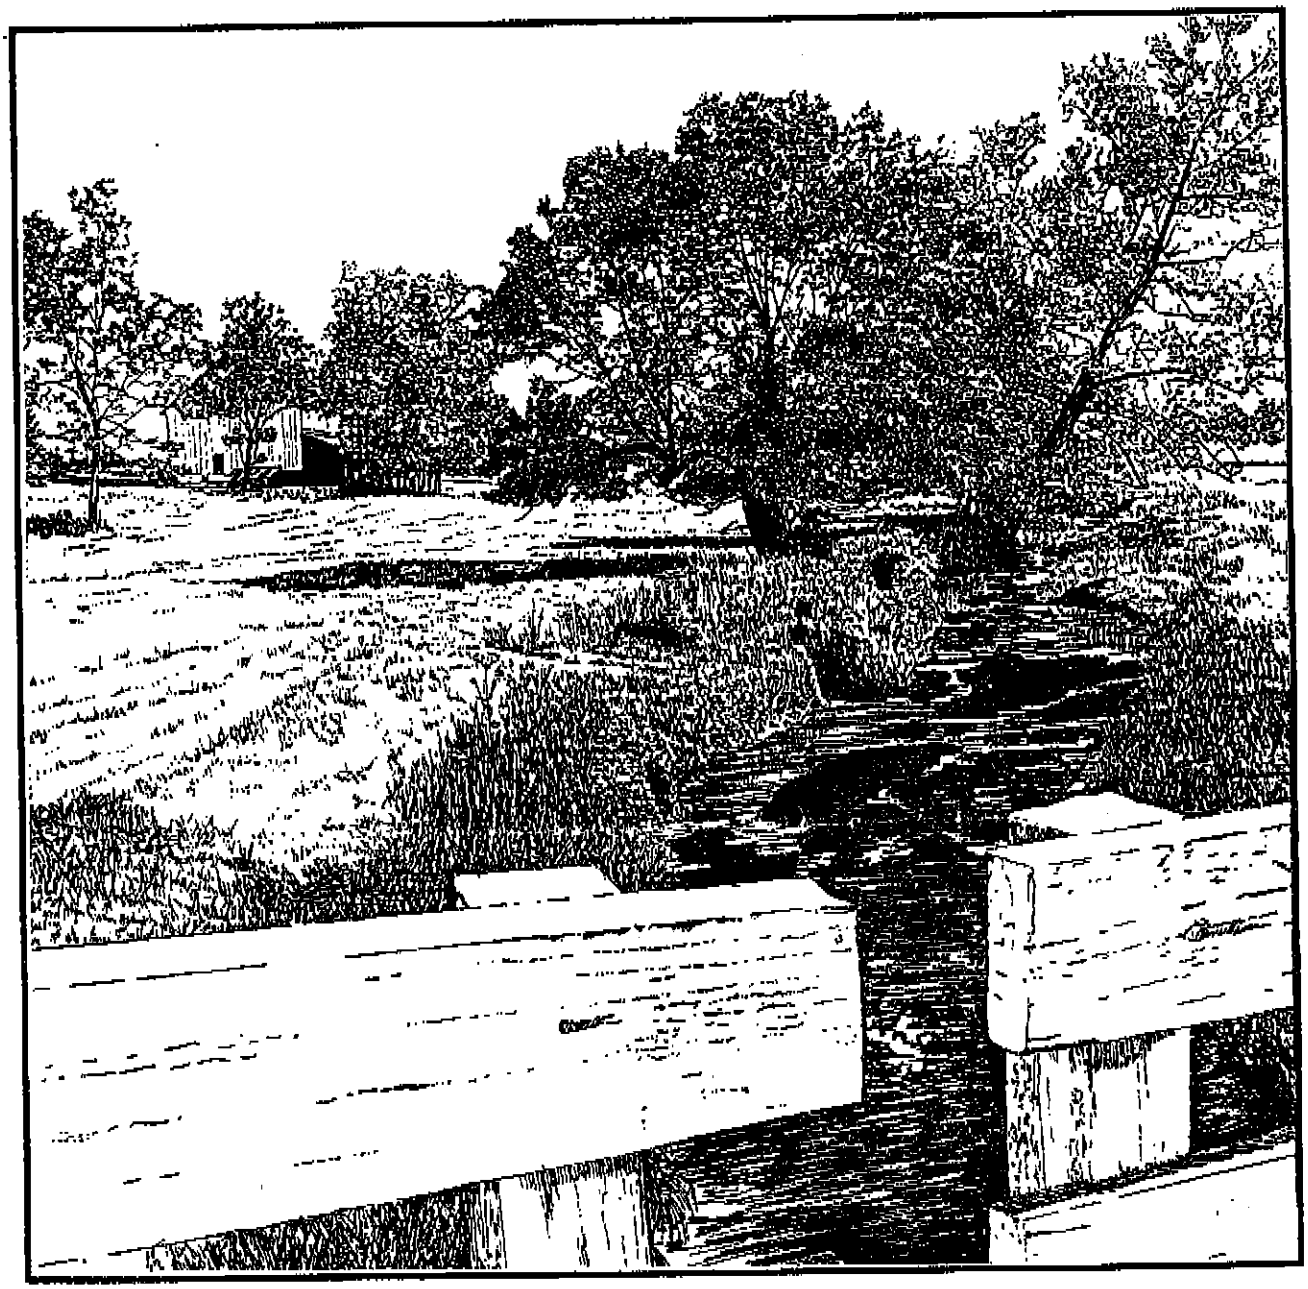
Because the community is totally dependent upon well water, the large number of underground fuel oil and gasoline tanks is a matter of concern. The County Department of Environmental Protection and Resource Management has identified the leakage from underground storage tanks as the number one environmental problem of the next decade. Many of the rural homes and businesses are served by fuel oil. The presence of many underground fuel tanks in the area creates the possibility of tank failure and of contamination of the soil and ground water. Both central Kingsville and Fork have problems with ground water contamination from leaking gasoline tanks at old, now closed, service stations. Identification of existing tanks by fuel companies, and private, residential reporting is necessary as well as education of the general public of the hazards of leaking, privately owned tanks.

The local network of streams and wetland areas is vital to the Community. There are numerous tributaries to the Gunpowder River throughout the Plan Area. The stream valleys and adjacent areas provide habitat and connecting trails between the Park systems for a varied wildlife. Today, buffer areas protect streams and wetlands from encroachment, but such buffers did not exist when much of the Community was built. Central Kingsville is built around a stream and floodplain. There are no buffers. A few homes in the Community still draw their water from springs. Farm animals generally have open access to streams and ponds, which causes erosion, siltation, and higher water temperatures. This access also creates problems for aquatic life necessary to the maintenance of water quality. In addition, the widespread use of chemicals in the treatment of lawns and farm crops also has caused problems in local streams.

Enforcement of buffer regulations on new construction only addresses a small portion of the problem. The quantity and quality of storm water runoff from uncontrolled and unmanaged agricultural use also contribute to the problem. Existing farms should be encouraged, if not required over time, to join soil conservation programs, and incentives for joining these programs should be given.

An educational program of the benefits of buffer areas in protecting water quality and in providing habitat for wildlife should involve both the residential and agricultural communities.

The Greening of Kingsville Committee should address the needs of the Community in this area. Stewardship programs from the Resource Conservation Service of the Maryland Department of Natural Resources and other incentive programs for the planting of buffers should be presented the Community to emphasize the need and the advantages of suitable buffers.



"The local network of streams and wetlands are vital to the Community."

RECOMMENDATIONS:

1. THAT BALTIMORE COUNTY UNDERTAKE A STUDY TO DETERMINE THE SCOPE AND NATURE OF FAILING SEPTIC SYSTEMS AND RECOMMEND POSSIBLE SOLUTIONS.

Both residential and commercial septic systems may be failing into streams and ground water in the center of Kingsville, along Mount Vista Road south of Belair Road, and in Franklinville. The solutions to particular situations may vary depending on the nature and scope of the problems detected, but doing nothing presents a losing situation for all concerned.

2. THAT BALTIMORE COUNTY INSTITUTE A PROGRAM REQUIRING NOTIFICATION AND IDENTIFICATION OF THE EXISTENCE OF UNDERGROUND FUEL STORAGE TANKS AND REGULAR, PERIODIC TESTING OF TANKS IN RURAL AREAS.

The County should require reporting of underground fuel tanks from all fuel suppliers in the County. A notification also should be sent to all homeowners in the County through the tax bills seeking notification of underground tanks. The County should require periodic testing of underground tanks to identify hazardous conditions, particularly in the rural, well-dependent areas. The County might be able to recommend a range of solutions to any discovered problems. Cooperative efforts between local government and property owners may be needed to avoid undue hardship connected with replacement or repair.

3. THAT FARMERS FILE SOIL CONSERVATION PLANS.

The County now requires farmers in the Chesapeake Bay Critical Area to file soil conservation plans. Such a requirement now should be considered for all farmers in Baltimore County. Incentives should be given farmers in local tax credits to implement the program.

4. THAT INFORMATION BE PROVIDED THE COMMUNITY ABOUT THE BENEFITS OF BUFFER SYSTEMS TO THE ENVIRONMENT AND THE INCENTIVE PROGRAMS NOW AVAILABLE FOR COMMUNITY INVOLVEMENT.

Numerous incentive programs now exist offering skilled assistance by State foresters and seedlings and trees for planting. A local stewardship committee, the Greening of Kingsville

Committee, should take the lead in disseminating information about the programs to the Community, formulating a Community plan, and coordinating its implementation.

RECREATION AND PARKS

The Community is fortunate in the park land surrounding it. The Gunpowder Falls State Park is undeveloped in the Plan Area except for hiking and riding trails. Recreation such as hiking, fishing, and canoeing are provided along both the Little and the Big Gunpowder Falls. The name for the falls, in fact, derives from the fall-off from the Piedmont area to the tidal area, which occurs in the Community boundary. Some of the best trout fishing in the State is in the Little Gunpowder east and west of Harford Road. The Big Gunpowder is nationally recognized for its canoeing and kayaking, especially in spring. The Smithsonian museum has selected a portion of the woodland along the Big Gunpowder east of Harford Road as the finest example of upland hardwood trees in the mid-Atlantic. The Natural Heritage Program has documented several sites of rare and endangered plant species within the Park. The Park truly is a unique resource.

A Master Plan was adopted for the Park in the early 1980's and called for several improvements in the area. A nature study center is planned for the Park east of Harford Road and south of Mount Vista Road. This area also is being considered for a National Wildlife Area, which would preclude any such use. This designation, if adopted, should cause an amendment to the Master Plan. Parking lots also are planned along some of the major arterial roadways for access into the Park.

Since the adoption of the Master Plan a major change has occurred in Park planning affecting the community. The Park headquarters has been moved to the Jerusalem Mill site on Jerusalem Road across the Little Gunpowder in Harford County. Primary access to the facility is from Belair Road through Kingsville. The location of the facility includes the restoration of the Mill, a historic structure, and a centerpiece of the Community. The location of the headquarters in Kingsville will provide the area with additional personnel and supervision as well as provide the Community with an important historical and educational resource.

In addition to the State Park, Kingsville also has substantial recreational facilities such as tennis courts and ball fields located at the Kingsville Athletic Fields off of Franklinville Road in Upper Falls. Although the location of the facility is off of local roads, it provides a major resource to the youth leagues as well as picnic facilities for families. Additional recreational facilities are located at the Kingsville Elementary School Recreation Center. A soccer field also is provided at St. Stephen's Church near Upper Falls. Merryland Farm Park, located at 12901 Bottom road, is a 159 acre county park acquired via donation. It is dedicated primarily to equestrian activities.

RECOMMENDATION:

5. THAT THE COUNTY WORK IN CONJUNCTION WITH THE STATE DEPARTMENT OF NATURAL RESOURCES AND THE COMMUNITY IN THE IMPLEMENTATION OF THE GUNPOWDER STATE PARK MASTER PLAN.

The State, the County and the Community should work together to prevent duplication of service in recreation and parks. Baltimore County should also plan for adequate facilities in areas where Park projects are planned. Since the local residents are the ones most affected by park plans, it would be appropriate for the State and the County to seek input from the affected community, including the Gunpowder Valley Conservancy and the Greater Kingsville Civic Association.

"...hiking, fishing and canoeing are provided along both the Little and the Big Gunpowder Falls."

GREENWAY AREAS

Baltimore County's Master Plan proposes three (3) greenways in the plan area (See Map 3). Greenways are corridors of open space that link parks, stream valleys, historic sites and natural areas for a variety of uses from protected wildlife corridors to hiking, bicycling and horseback trails. Greenways which are open to the general public frequently are close to major roadways and parking areas.

One proposed greenway parallels Harford Road south along an unnamed tributary of the Little Gunpowder south from the Little Gunpowder until it crosses Sunshine Avenue. The path system would connect with a tributary of the Big Gunpowder, called Sweathouse Branch, and follow it to the Big Gunpowder.

Another proposed Greenway already has been acquired in part by the County. It will follow Broad Run north from the Big Gunpowder, cross Belair Road and proceed to Sunshine Avenue. The greenway then utilizes the right-of-way of Sunshine Avenue as a connector to Harford Road. At that point, the greenway will follow the same unnamed tributary mentioned in the preceding paragraph and continue to the Little Gunpowder.

The Master Plan identifies a third greenway located between Jerusalem Road and the Little Gunpowder river. Following the course of two unnamed tributaries of the Little Gunpowder, the proposed greenway would establish a trail circuit by using Jerusalem road as a connector on the west and Jericho road on the east. Based on a more detailed review of this proposal, the Kingsville Plan amends the route of this Master Plan greenway. The amendment removes the northern tributary from the trail circuit and recommends instead, that the trail stay within the Gunpowder State park to its junction with Jerusalem Road. The trail then utilizes the right-of-way of Jerusalem Road to its junction with the stream valley trail immediately south of Chapman Road (See Map 3).

The primary means of acquiring greenways is through the development process. As properties seek development approval, open space regulations require in-fee greenway dedications to Baltimore County. An alternative to in-fee greenway dedications would be the granting of a greenway easement.

Allowing the development process to serve as an acquisition strategy is a reactive approach. A proactive approach is the purchase of greenway easements along priority segments of designated greenways. This approach would be useful when development projects are not imminent. The Baltimore County Department of Recreation and Parks has established a Capital Budget Category for this purpose.

Greenways open to the public must be of sufficient width to permit people, with no degradation to the environment including resident wildlife and stream valley buffers. The Community greenways follow the courses of several streams, and consideration must be given to the impact of the public on the areas. The three proposed greenways would be low impact systems. Greenways operate as shared systems for wildlife habitat as well as human relaxation. Greenways for the purpose of providing wildlife corridors with little or no public access may be more attractive to property owners from whom easements are sought. In a very real sense the greenways already exist. The need is to protect the areas and to foster a community sense of appreciation for the resources and their contributions to our quality of life.

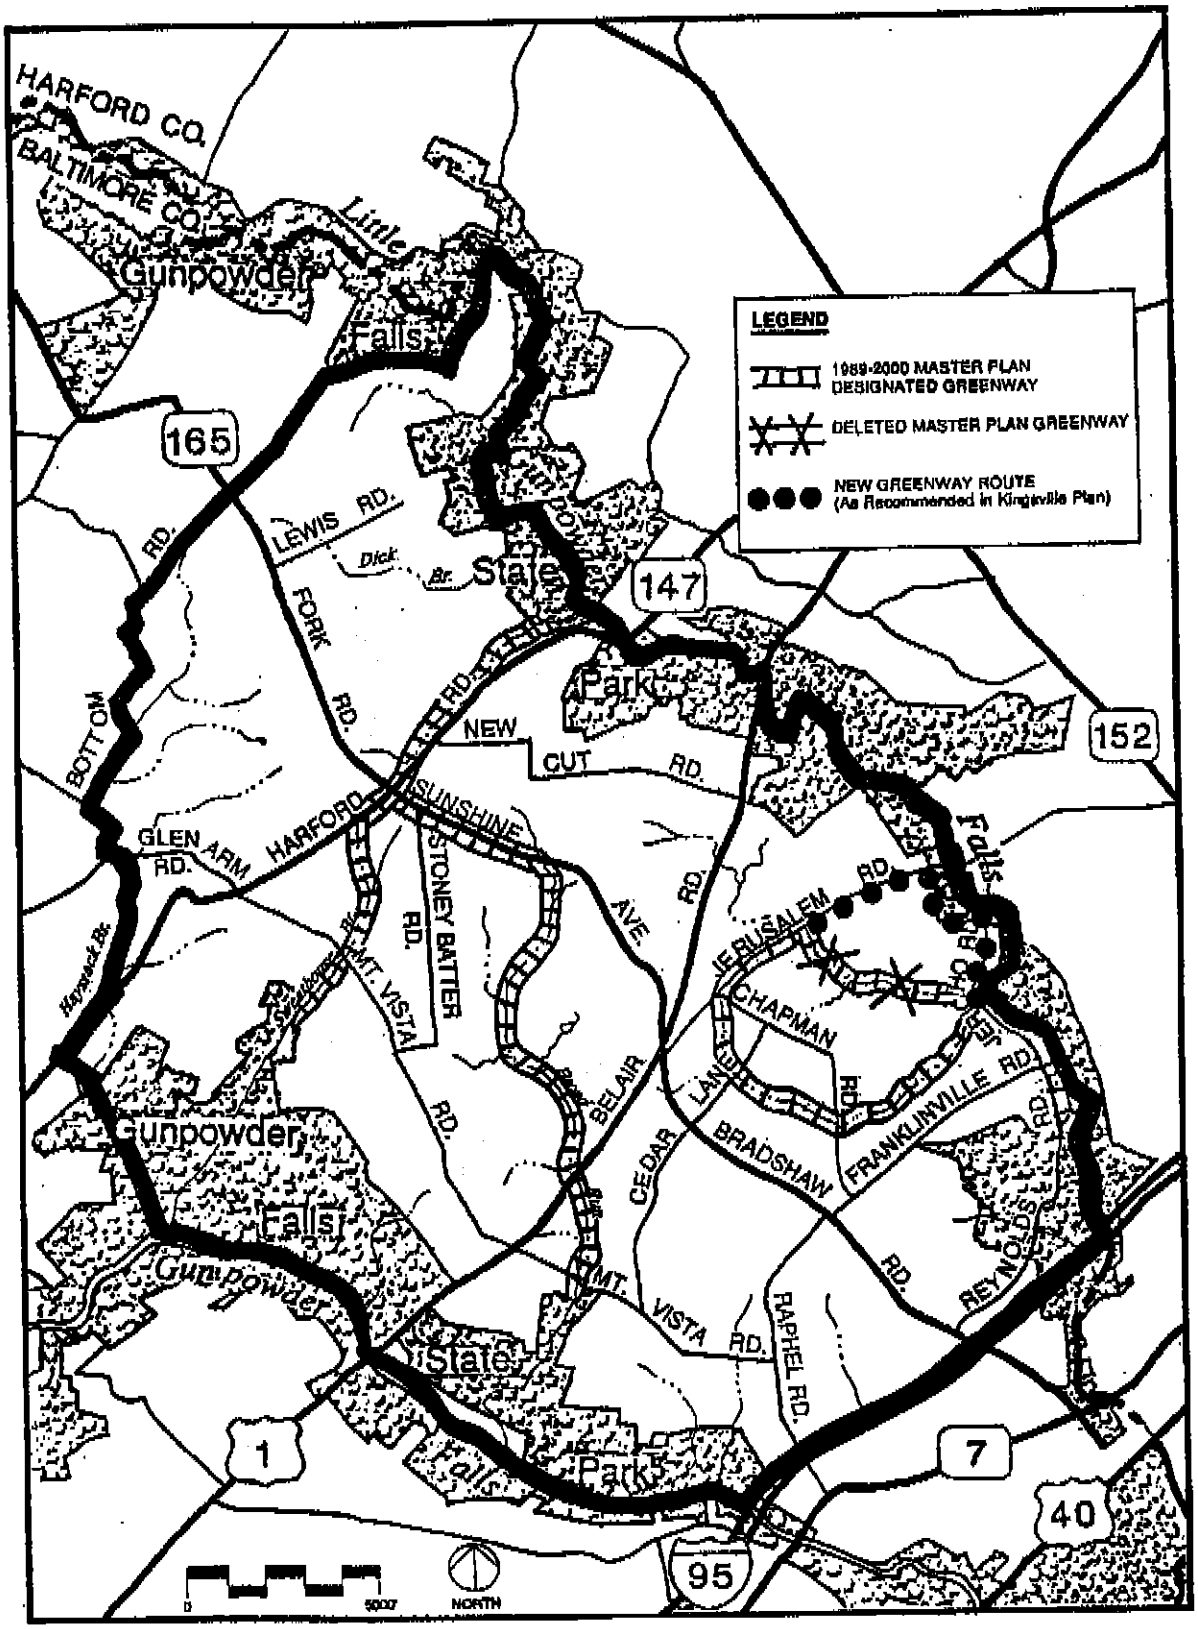
Maintenance of the greenway system is a major issue. Greenways are public easements acting as right of ways. Public resources to maintain the greenway system, however, are very limited. Failure to properly maintain the system could cause harm to the fragile stream valley environment as well as cause hardship on adjacent property owners. Adoption of segments of the Greenway system by local groups assisted by County personnel may be one alternative. In the study area many of the streams are part of the "Adopt a Stream" program and are maintained by individuals or by groups. Local churches and scouting groups as well as the Gunpowder Valley Conservancy membership are ready sources of volunteers.

The interests of the adjacent property owners also must not be ignored. Permitting the general public access for recreational use to areas adjacent to residences and farms may cause problems. The concept of unlimited public access may hinder acquisition of easements for the greenways as will the structuring of the right-of-ways to be required. Rather than stating that areas of specified width be acquired, a preferable alternative may be to acquire property with individual segment width based on that segment's characteristics.

RECOMMENDATIONS:

6. THAT THE COUNTY PROCEED WITH THE RESERVATION OF THE GREENWAY AREAS LOCATED WITHIN THE COMMUNITY AS DESIGNATED IN THE 1989-2000 BALTIMORE COUNTY MASTER PLAN AND AS AMENDED BY THE KINGSVILLE PLAN.

Greenways will serve to enhance the natural resources of forests and stream valleys not just for local residents, but for all County residents.



Greenways
Greater Kingsville Area

Map 3

7. THAT THE COUNTY PARTICIPATE IN PROGRAMS WITH COMMUNITY GROUPS FOR THE MAINTENANCE OF GREENWAY AREAS.

The County should work with local Community groups and school organizations to provide for volunteer maintenance of the greenway system. A greenway system without proper maintenance could lead to a far worse impact on the environment and neighborhood than the lack of greenways altogether

"The proposed greenways would be low impact systems".

ROADS AND TRAFFIC

Three (3) major arterial roadways consisting of Harford Road, Belair Road and Interstate 95 cross the study area bringing an immense flow of traffic through the Community. Interstate 95 is an eight (8) lane roadway from Emmorton Road (Route 24) in Harford County to the Baltimore Beltway interchange. Belair Road is the subject of a State Highway Administration project calling for road widening. In the Kingsville area a project as shown on Appendix A is proposed. The project will not only change the most heavily used intersection in the Community, but also will have the effect of radically changing the character of that portion of the Community along Belair Road in Kingsville.

One impact of road improvements in the Kingsville community is the isolation of the triangular area bounded by Bradshaw, Belair and Jerusalem Roads. The site formerly was occupied by a drug store, hair stylist and service station. Landscaping and planting has occurred as part of a cooperative effort between the community and the State Highway Administration. Its continued environmental and aesthetic improvement is one of the most necessary items on the Community's agenda.

The increased use of the major Community arteries has put stress on the small, rural County roads. These roads are characterized by their narrow, winding ways. There is no desire on the part of the Community to change their essential character. A priority list of stressed bridges is attached as Appendix B. Concern over possible bridge improvements needs to be further researched, but no decisions should be made without community involvement. A number of solutions such as diversion of through truck traffic away from the rural roads and improvement to existing east-west roads in communities to the north and to the south may divert east-west commuter traffic off the local, rural roads in the Community.

A design study should be undertaken by Baltimore County to determine what solutions, if any, can be found to safety concerns. The issue is one of balancing safety concerns with a preservation of rural character. Curb and gutter or galvanized barriers are not appropriate treatments. Creative solutions from other rural communities nationwide should be studied for resolution to the situation. The County should be flexible in its rural design requirements and accepting of solutions that are sensitive to the rural quality of the area as well as concerned with public safety.

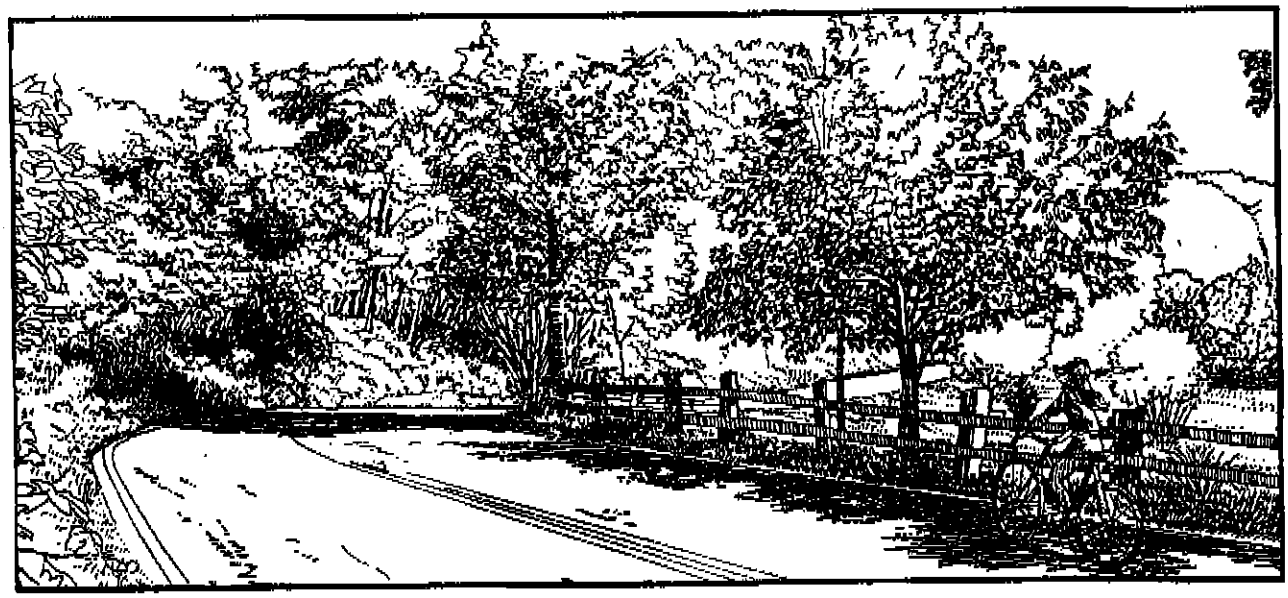
It has been suggested that the Community might seek to create bike and walking paths along some of the more heavily traveled roads. A primary concern is the destruction of the character of the area. Such paths might necessitate removal of existing trees and other rural features such as stone walls. In the event that pathways are ever considered, they should not be constructed of concrete or asphalt, but simply should be mulched.

Maintenance work on bridges in the Community also is necessary to accommodate current traffic needs, especially on Mount Vista at Broad Run and at Sweathouse Branch and on the iron truss bridge at Vinegar Hill Road. These bridges have been classified in need of repair to carry fire trucks and other heavy vehicles. Work performed on these bridges should serve as a model of the creative approach necessary in balancing safety needs with maintaining rural character of the structures. Natural materials or natural appearing materials should be used when possible to blend the bridges into the rural environment. Before doing such work community input should be sought.

RECOMMENDATIONS:

8. THAT THE COUNTY WORK IN CONJUNCTION WITH THE STATE TO EXPEDITE REMEDIATION OF THE UNDERGROUND STORAGE TANK CONTAMINATION AT THE KINGSVILLE TRIANGLE AND IMPROVEMENT GENERALLY TO THE ROAD NETWORK

Although the State has the primary responsibility for improvement of the triangle, the County through its Department of Environmental Protection and Resource Management should monitor the progress of the remediation of the underground tank leakage and expedite any local reviews necessary as well as coordinate with the State any eventual improvements to the road network at the triangle.



Rural roads are important to the scenic character of the area.

9. THAT THE COUNTY CONTINUE WITH CAPITAL IMPROVEMENT PROGRAMS FOR THE RECONSTRUCTION OF SUBSTANDARD BRIDGES IN THE COMMUNITY.

The County has identified several bridges of narrow and hazardous width (See Appendix B). Although some of the bridges have been improved, other sites remain to be repaired.

10. THAT A STUDY BE UNDERTAKEN BY BALTIMORE COUNTY TO ADDRESS SAFETY ISSUES ON THE RURAL ROADS DUE TO INCREASED TRAFFIC AS WELL AS CYCLING AND HIKING USE.

The County should study the roadways to determine methods of diverting commuter traffic from the rural roads and of enhancing their safe use.

SCHOOLS

There is one public school in the area, Kingsville Elementary School. There are two (2) parochial elementary schools, St. Paul's Lutheran School and St. Stephen's Roman Catholic School. There are no secondary schools. The Board of Education initially projected that Kingsville Elementary would not be at capacity for the next several years. That projection has proven to be falsely optimistic, and the Kingsville Elementary school has been operating over capacity since the fall of 1991. In the fall of 1993, the school was nine percent (9%) over capacity.

The Community is justly proud of the local schools. Kingsville Elementary consistently is ranked as one of the best elementary schools in the County. Portable classrooms clearly are not an appropriate alternative to expand capacity.

RECOMMENDATIONS:

11.THAT THE PARENTS AND SCHOOL ADMINISTRATION SHOULD BEGIN A LONG RANGE PLAN FOR NEEDED IMPROVEMENTS TO THE SCHOOL OVER THE NEXT TEN (10) YEARS SO THAT EFFORTS CAN BEGIN WITHIN THE SYSTEM TO SEE THAT THE NEEDS OF THE SCHOOL ARE MET AS THEY ARISE.

AGRICULTURE

Agriculture historically has been the foundation of the Plan area. The extensive farmland in the Community enhances the area's rural character and quality of life, preserves valuable open space, and furnishes the community with local produce. Moreover, it provides a way of life for generation after generation of area residents.

Truck farming was the primary means of agriculture up through the turn of the century. As markets for truck farming declined, the agricultural base grew more diversified. Today, horse farms exist next to nurseries. Small orchards and truck farms serve the local community. A few large grain and cattle farms still exist in the area. Numerous agricultural operations exist as part-time businesses for their owners, who are active in other enterprises.

Agriculture in the area suffers from several problems brought on by its proximity to urban areas and the increased population within the community. In many instances the farms have become obscured by the developments to a point that their individual existence has become unappreciated, while at the same time the generic concept of rural farmland is the single, most attractive feature of the Community.

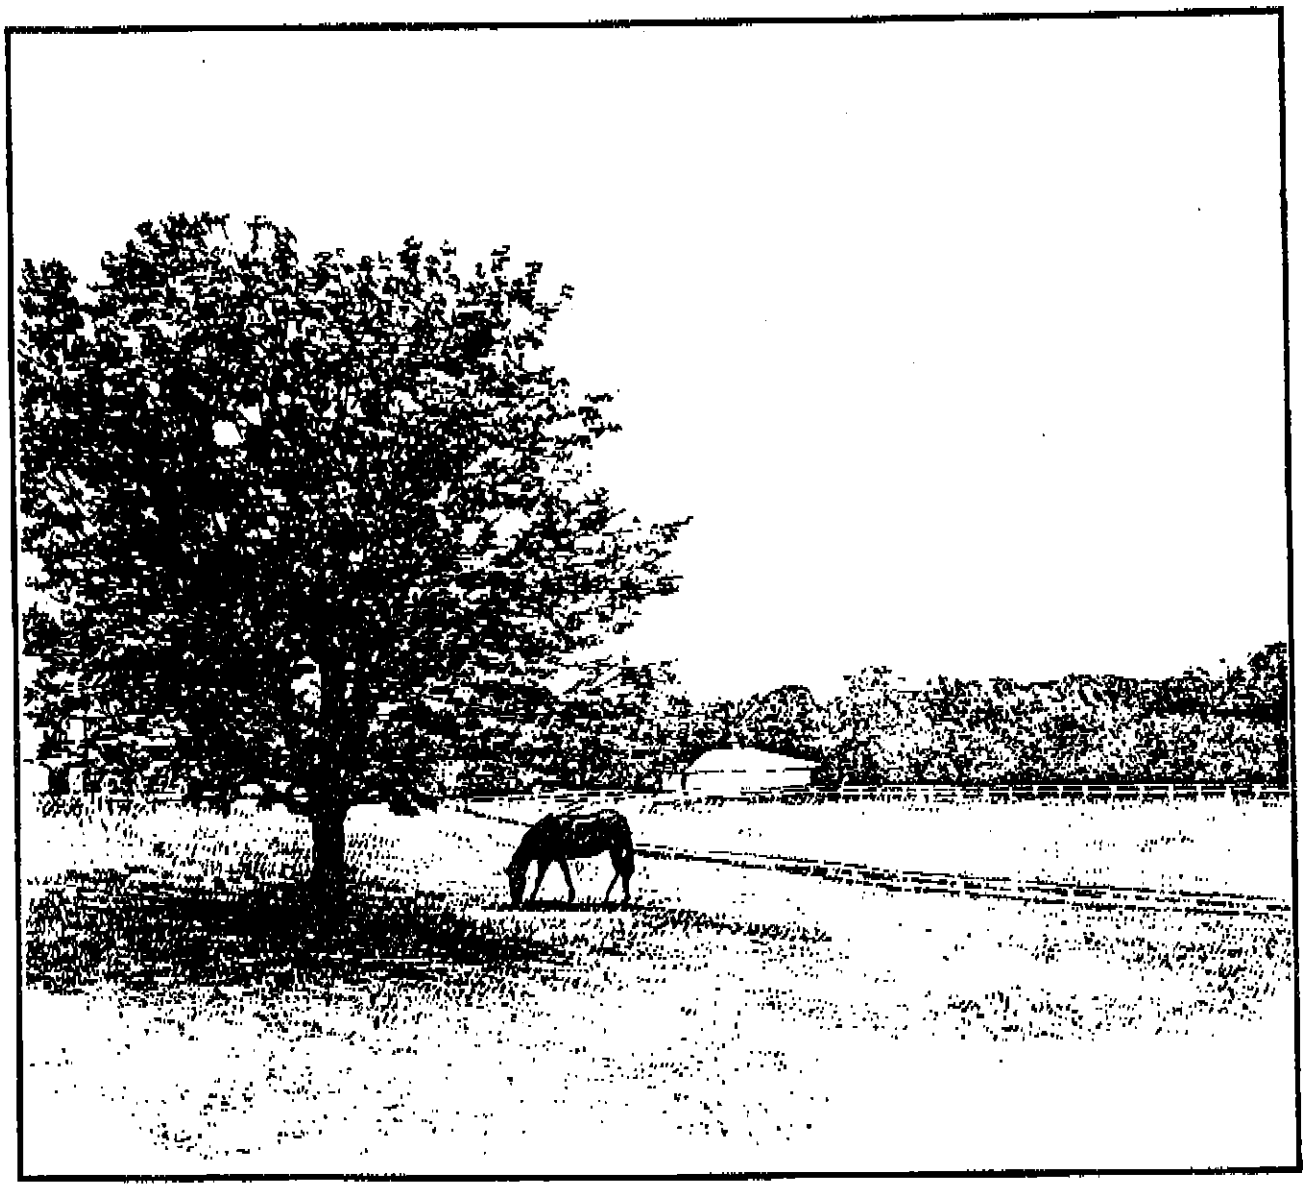
The lifestyles of non-farming residents and farmers are incompatible in many cases. This incompatibility is usually due to ignorance rather than malice. Commuting residents have little patience for the noise, smell or operations of a farm. Many people moving into the community have little idea of the true nature of farming; many are not aware of how prevalent farming is within the community.

As farms gave way to development over the last thirty (30) years, the base of support of farming as a primary occupation also eroded. Because land is expensive to purchase for farming and profit margins are low, in order to be profitable it is necessary to have large farm operations.

As the population of farmers in the area ages, farms as land use entities become more difficult to sustain. The governments tax farms in estates at market value irrespective of actual use, and as the older generations pass on, the farms are sold. The market value of land for development in the subject area is high, but the land is the farmer's savings. Smaller acreage farms have become the rule rather than the exception.

It must be recognized that for farming to continue in the community, its basic foundation must be seen as changed. The concept of the farm as providing the primary source of income can no longer exist except in rare situations. Farming can, however, be maintained in the small orchards, in the nurseries, and in the livestock farms.

It is critical that the residential community be educated about the importance of working farms to the total community environment. The rights of farmers to peaceably work their land should be emphasized. New residents, especially, should be made aware of the demands of rural life as well as its benefits through educational programs.



"...rural farmland is the single, most attractive feature of the Community".

RECOMMENDATIONS:

12. THAT RECOGNITION OF EXISTING FARMS BE IMPROVED.

A symbol, designating a Community farm, should be designed, and a sign with the name of the farm and the symbol placed on the adjacent roadways. Signs could be purchased by the Community through various service organizations and donated to farmers.

13. THAT THE RESIDENTIAL COMMUNITY SHOULD BE EDUCATED ABOUT THE CHARACTERISTICS OF AGRICULTURE IN THE AREA.

A videotape tour of Community farms should be produced, copied and made widely available. It should include different types of farming in the area: truck, nursery, livestock, tree. stewardship, etc. The film could demonstrate the mechanics of farming and stress the need for mutual respect between the farming and residential communities. Money to produce the tape would be sought through grants. It also is recommended that agriculture basics be provided in the curricula of area schools.

14. BALTIMORE COUNTY SHOULD ADOPT AND ENFORCE A RIGHT TO FARM LAW.

New residents, especially, should be encouraged to understand that one of the most attractive incentives for moving into the area must not be impeded from functioning smoothly and profitably.

15. THAT ANIMAL CONTROL LAWS BE STRICTLY ENFORCED.

There are laws already enacted to protect farmers and their livestock from the depredations of loose pets, but many residents and enforcement personnel in the increasing urban environment are unaware of the strictures of the laws.

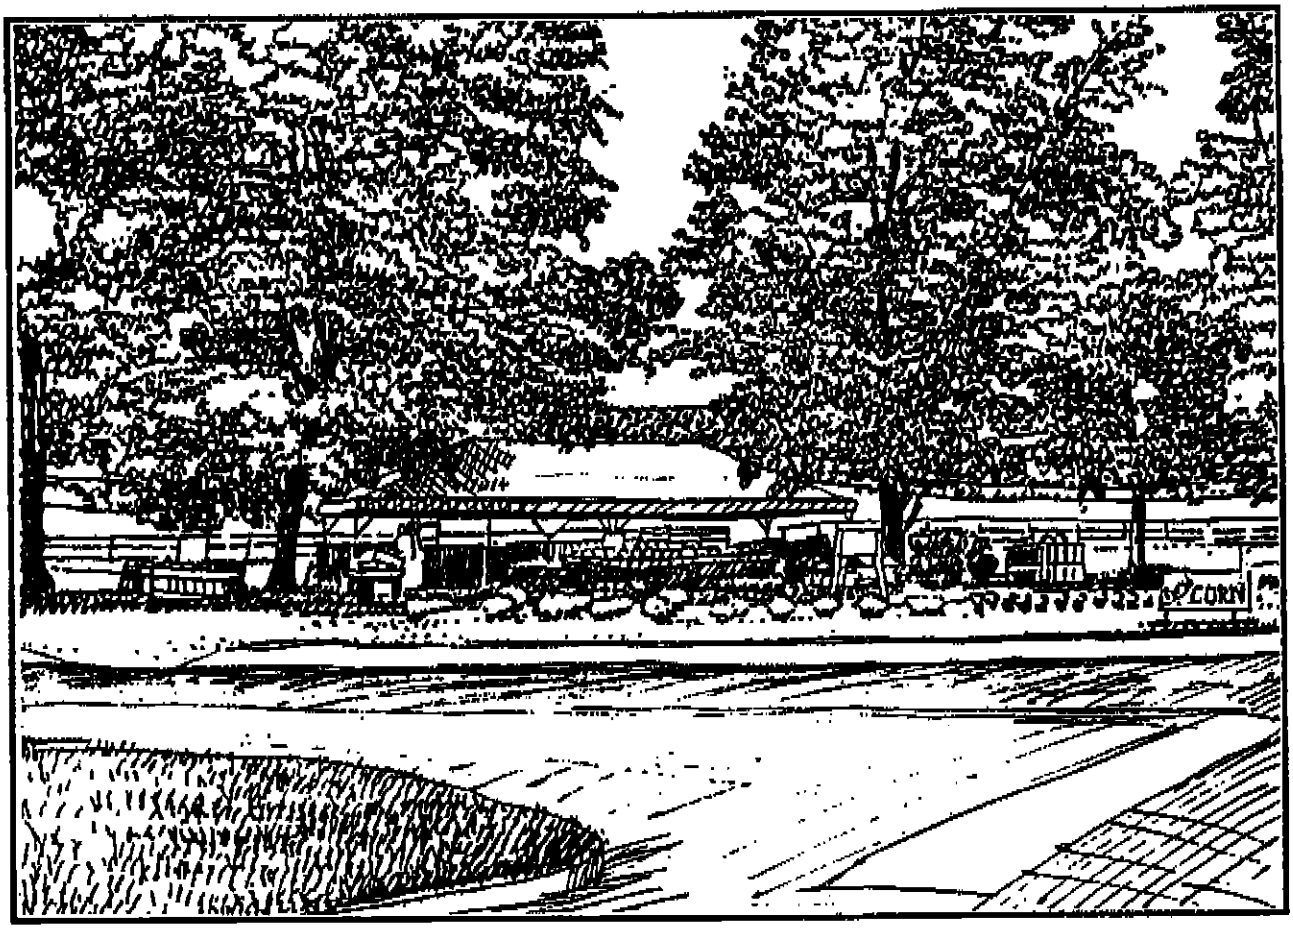
16. THAT A FARMER'S MARKET FOR AREA FARMERS BE ESTABLISHED.

An area market does not now exist in the Community. Such a market would enable the small, local farmers to display and market their produce in an economic fashion and would aid in bringing attention to this important part of the community. Criteria for a market site would include zoning to permit the sale of produce, baked goods, flowers and crafts, access to primary

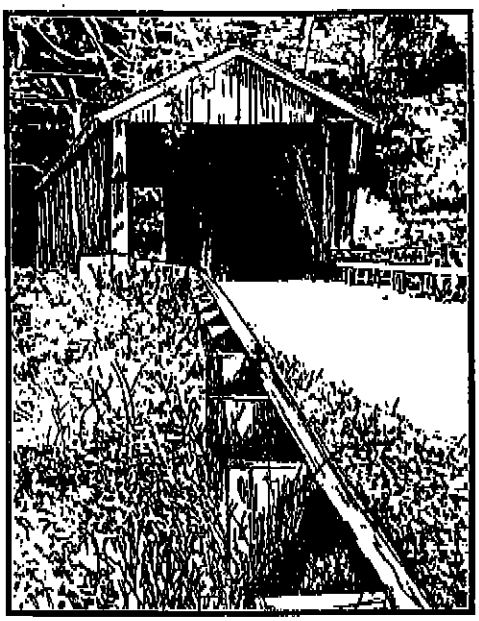
roads, size to permit necessary on-site parking and buffers from neighboring tracts in order not to interfere with established residential communities. A possible site is the commercially zoned lot at the southeast corner of Harford and Sunshine roads in Fork. The site has several development constraints but has good access, and little or no demand would be placed on water or septic service.

17. THAT LOCAL FOOD MARKETS BE ENCOURAGED TO DISPLAY AND SELL LOCAL PRODUCE.

A label could be authorized to be available to all local farmers indicating the produce as local in origin. Such marketing would be introduced to local grocers again to emphasize the importance the Community gives farming in its structure.



Farm Stands display and sell local produce.



HISTORIC PRESERVATION

The Community is well-recognized for its historic resources. The major north-south roads for the East Coast have long passed through Kingsville. Its farms and industry have supported local towns, troops and government since prior to the Revolutionary War. Several of the homes in the area are still owned by families who trace their ownership back to original land grants from the English Crown. Efforts are continuing to heighten awareness of historic structures in the Community and to seek their preservation.

The Community can be viewed as comprised of small villages linked by roadways and farmland. Historically, these villages were vital commercial centers serving the surrounding agricultural community as well as travelers through the area and the larger outside community. The preservation of the historic villages and structures within the Community is essential to preservation of the character of the area.

Franklinville and Upper Falls

The historic sites of the Villages of Franklinville and Upper Falls have been studied and mapped as possible historic districts to consider establishing these villages as local historic districts and National Register Historic Districts. Franklinville was accepted as an historic district by the County Council on July 3, 1995 (see Appendix G). Also, that part of the Little Gunpowder Falls from Franklinville Village to the covered bridge on Jericho Road has been submitted as a scenic area.

The Mill Race Ruins north of the Belco Corporation property have been declared an archaeological site by the State Archaeologist. The steel bridge at Vinegar Hill in Franklinville is one of seven (7) such structures in the County planned for refurbishment. Dotted throughout the area are several other historic resources, which are being researched for individual listing. Also being researched are such structures as the old Upper Falls Academy, Round Robin Barn, Casino Hall and the Franklinville Presbyterian Church.

Adaptive reuse and restoration of older buildings is being encouraged by the Community. The existence of these structures within the setting of the villages enhances the quality of life for the residents of the entire County.

The villages need protection from modern rural development. Development both within the villages and adjacent to them should occur only in harmony with the preservation of the rural, historic character of the villages. Open space or tree/forested areas should border the villages as much as possible to preserve their rural character. New structures within the villages should be respectful of the architecture of existing buildings to preserve the historic integrity of the setting.

The Belco Corporation property in Franklinville is an 1883 cotton factory and presents a unique situation of a long-standing manufacturing business within a rural, historic community. There is a need for greater involvement by the business within the community so that contact is not strictly made on a complaint basis. Recently, the company agreed to fund a village historic sign. There obviously is the potential for conflict over the needs of the business and the community, but there also should be the opportunity for active involvement of the Corporation within the life of the community to their mutual benefit. At some point, perhaps within the period covered by the Plan, adaptive reuse of the Belco property will become an issue. That issue should be addressed now among the representatives of the owners, the Community and the County.

RECOMMENDATIONS:

18. THAT THE VILLAGE OF UPPER FALLS BE ESTABLISHED AS A BALTIMORE COUNTY HISTORIC DISTRICT.

The application for the designation already has been prepared, and extensive volunteer work has occurred to document the significant, historic structures within the area.

19. THAT FUTURE DEVELOPMENT ADJACENT TO THE HISTORIC VILLAGES OR STRUCTURES BE GRANTED ONLY WITH APPROPRIATE OPEN SPACE BUFFERS TO PRESERVE THE INTEGRITY OF THE VILLAGE UNITS.

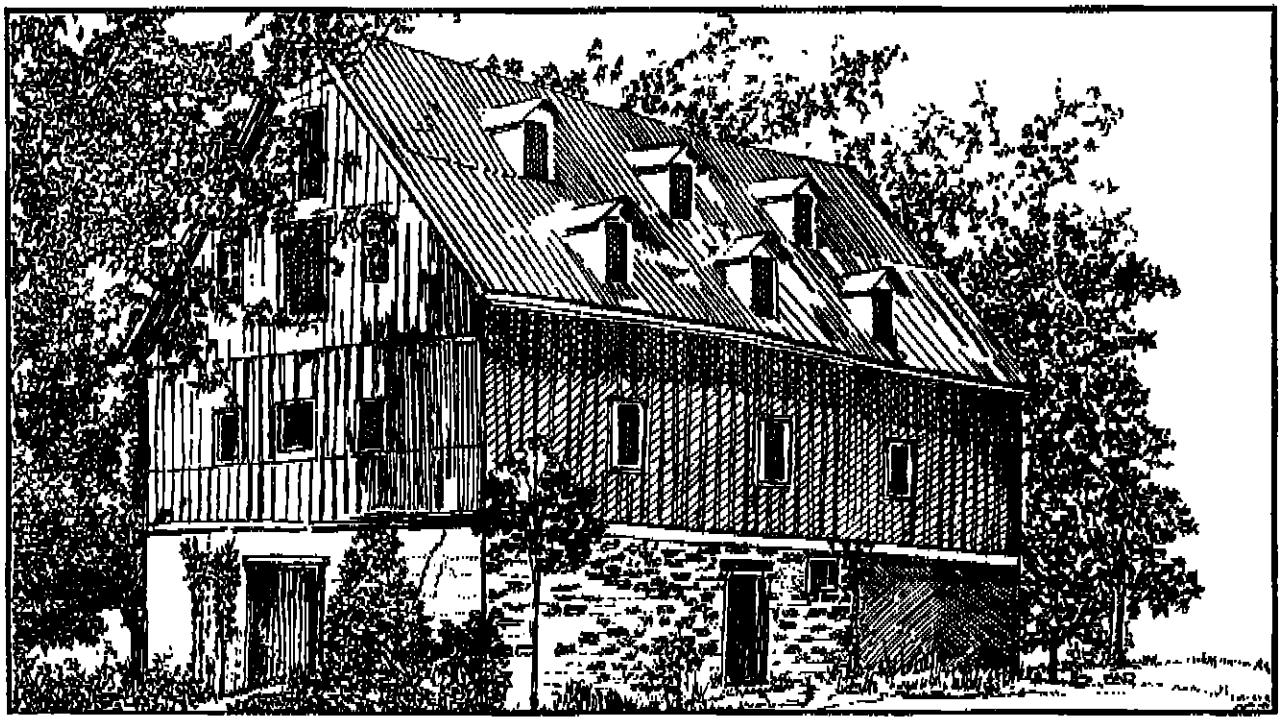
Modern residential development adjacent to historic communities and structures should be buffered to preserve the character of the village or structure. These buffers could be in the form of fields, meadows or woodland, to the extent practicable. New construction should conform to the Historic Design Guidelines published by the Landmarks Preservation Commission.

20. THAT THE COUNTY IDENTIFY BY APPROPRIATE SIGNAGE THE HISTORIC COMMUNITIES.

The County has taken extensive measures to identify for visitors scenic and historic areas. The identification of historic villages will heighten awareness of these valuable resources within the County. Traditional State of Maryland historic roadside markers are recommended, such as the one planned for Franklinville or small wooden markers such as used in Glyndon.

Historic Places

The County has officially noted numerous historic structures and locations within the Community. A list of those sites is attached as Appendix C. Volunteer organizations within the Community have sought to make the residents more aware of their heritage through publications describing some of the sites. A video tape has been produced and has been well received. A tour of historic homes has been undertaken as a fund-raising venture for local community organizations. A folklore project is underway to compile both oral and documentary history. These measures all serve the need of raising the awareness of residents of the value of the local heritage and enhance the feeling of community among the residents.



Numerous structures, however, have deteriorated through neglect or have disappeared altogether due to a lack of awareness of their value to the Community. Residents of the area should become aware of the advantages and incentives offered to owners of historic structures who seek their preservation. Further incentives should be given property owners who seek to preserve the historic character of valuable structures. Suitable reuse should be encouraged including appropriate commercial uses such as bed and breakfast establishments.

RECOMMENDATIONS:

21. THAT THE ZONING AND DEVELOPMENT REGULATIONS BE REVIEWED TO PERMIT APPROPRIATE REUSE OF HISTORIC STRUCTURES EITHER COMMERCIALLY OR AS RESIDENCES.

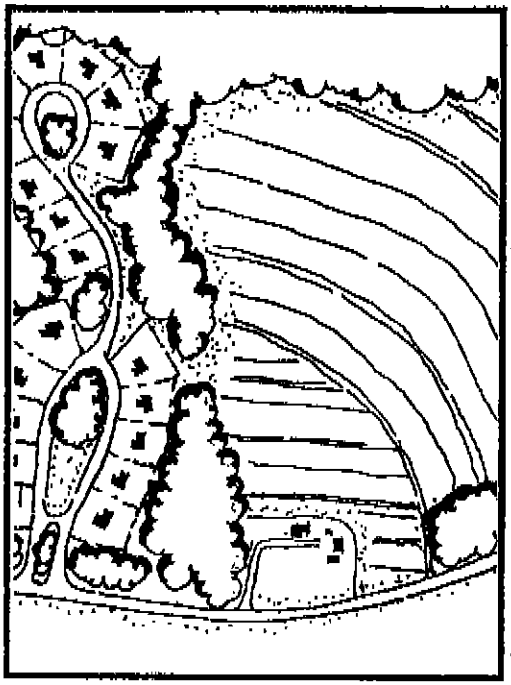
The zoning regulations to some extent permit adaptive reuse. Through a special exception process and an overlay district pertaining exclusively to historic structures both the Community and the property owners could benefit by reuse compatible with the village characteristics. Reuse should conform to the Historic Design Guidelines of the Landmarks Preservation Commission.

22. THAT SCENIC ROUTES AND VIEWS BE ENHANCED AND PROTECTED.

Scenic and historic roads such as Jericho Road and the Vinegar Hill iron truss bridge need special attention for the preservation of their character and contribution to the Community. The County should work with the Community to adopt and effectuate a plan for the preservation and enhancement of these areas.

23. THAT A RURAL HERITAGE SOCIETY BE ESTABLISHED TO WORK WITH OWNERS OF HISTORIC PROPERTIES FOR THEIR PRESERVATION AND RESTORATION.

An advisory board comprised of members of the Community should be formed to work with local property owners and with both the Landmarks Preservation Commission and the Baltimore County Historical Trust on means to aid property owners in the restoration of historic properties and on finding additional historic resources. The Board would assist in providing information about restoration programs to property owners, and it would assist Community groups, property owners and the County with projects that require review.



LAND USE ANALYSIS

Historic Growth

Kingsville, Fork and Upper Falls each have somewhat distinct historic antecedents and development patterns. All of the villages are rural in character and are primarily based in a rural and agricultural setting, yet their growth patterns reflect their proximity to travelways and rivers. Fork and Kingsville reflect the impact of the major state roadways through their centers. Upper Falls reflects to some extent its proximity to mills along the Little Gunpowder and proximity to the once busy port of Joppa. Bradshaw is even more impacted by its location along Old Philadelphia Road, Pulaski Highway and especially the CSX railroad along the northeast corridor.

Historically, the center of Fork was more developed than it is at present. Fork had its own public school, a hotel, the first phone exchange in the area, a funeral home, feed store and bowling alley in addition to some of the development that is present today. All of the commercial development centered around the intersection and Sunshine and Fork Roads with Harford Road. The community surrounding the intersection was almost exclusively devoted to agriculture in large parcels. There were several fine estates of prominent County citizens. Fork was mentioned in the Baltimore American as early as May 6, 1807. The Fork Meeting House Post Office was established in 1839.

Kingsville grew along the Belair Road both north and south of the intersection of Bradshaw Road and Sunshine Avenue with Belair Road. The King's Tavern Post Office was established in 1828 and renamed Kingsville in 1830. Part of the building occupied by the Lassahn Funeral Home was built in the early 18th century as the home of Nicholas Day, Jr. and became a restaurant only in 1920, continuing until 1969 when the Lassahns began their service. Many of the current businesses in Kingsville have been established for decades, but such uses as a tannery, hardware store, and more recently a pharmacy have all disappeared. No large scale residential development occurred until the middle of this century. At first, homes were clustered around the center of the village while large farms and estates surrounded the cluster of dwellings. The first subdivision development really did not occur until the 1950's.

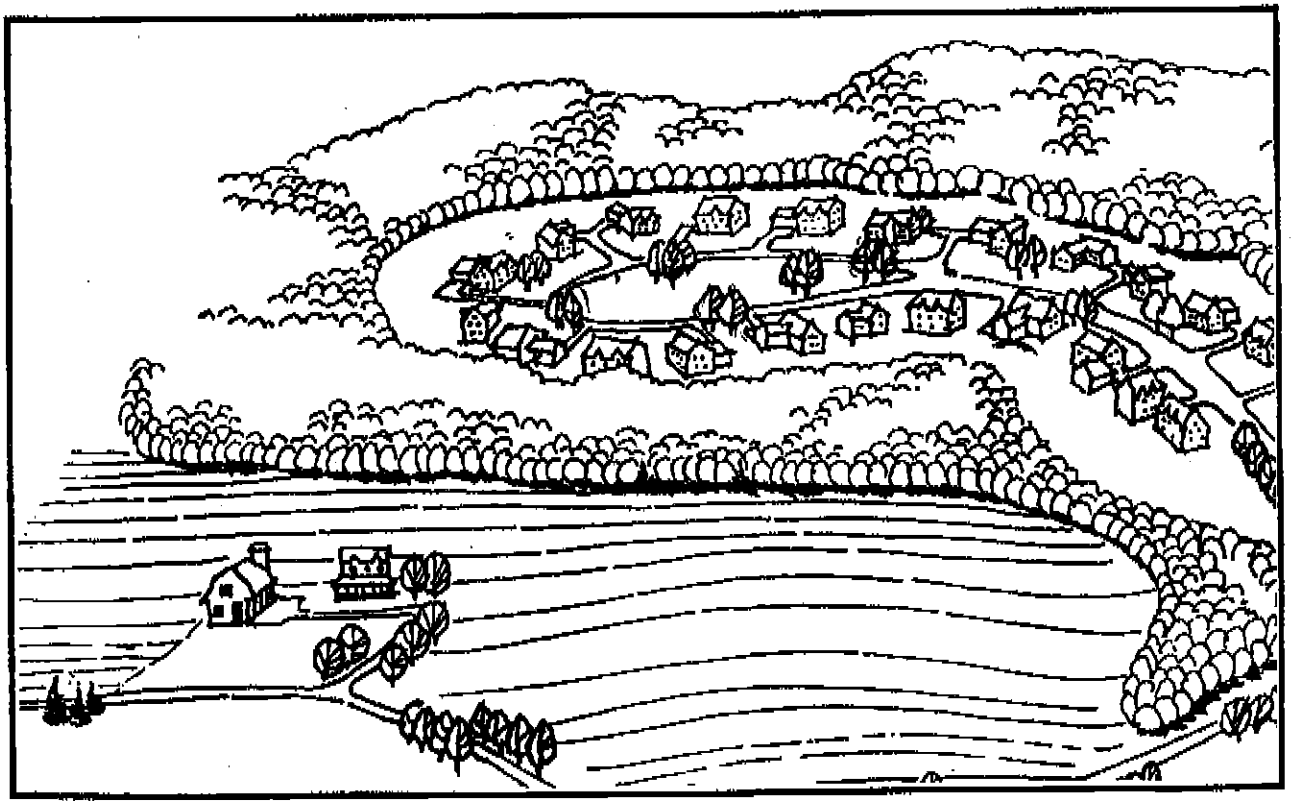
Upper Falls, the smallest of the villages, was built at a cross-road near a small store, not far from the mills along the Little Gunpowder and large farms along Bradshaw and Raphael Roads. Some families in the area trace their roots back centuries on the same land. The place had been called McCubbinsville about 1800 and also was called Starr's Corner. The community is

oriented in many ways historically to the development along the Old Philadelphia Road, Maryland Route 7, to the East. In that area are homes dating back to the earliest settlement of the County.

Most of the residential growth within the Community occurred in the 1960's and 1970's. United States Census data indicate that between 1980 and 1990 there was an increase of 533 housing units and that in 1990 the population in the plan area was approximately 5,284.

The impact of growth is magnified by increased traffic and population increases to the north and to the south. Both the Perry Hall and Fallston communities have been among the most rapidly growing areas in the State. By means of comparison an area in Perry Hall, census tract 4113.04, less than half the size of the plan area, has 5,220 residents and grew by more than forty-five percent (45%) in the last decade.

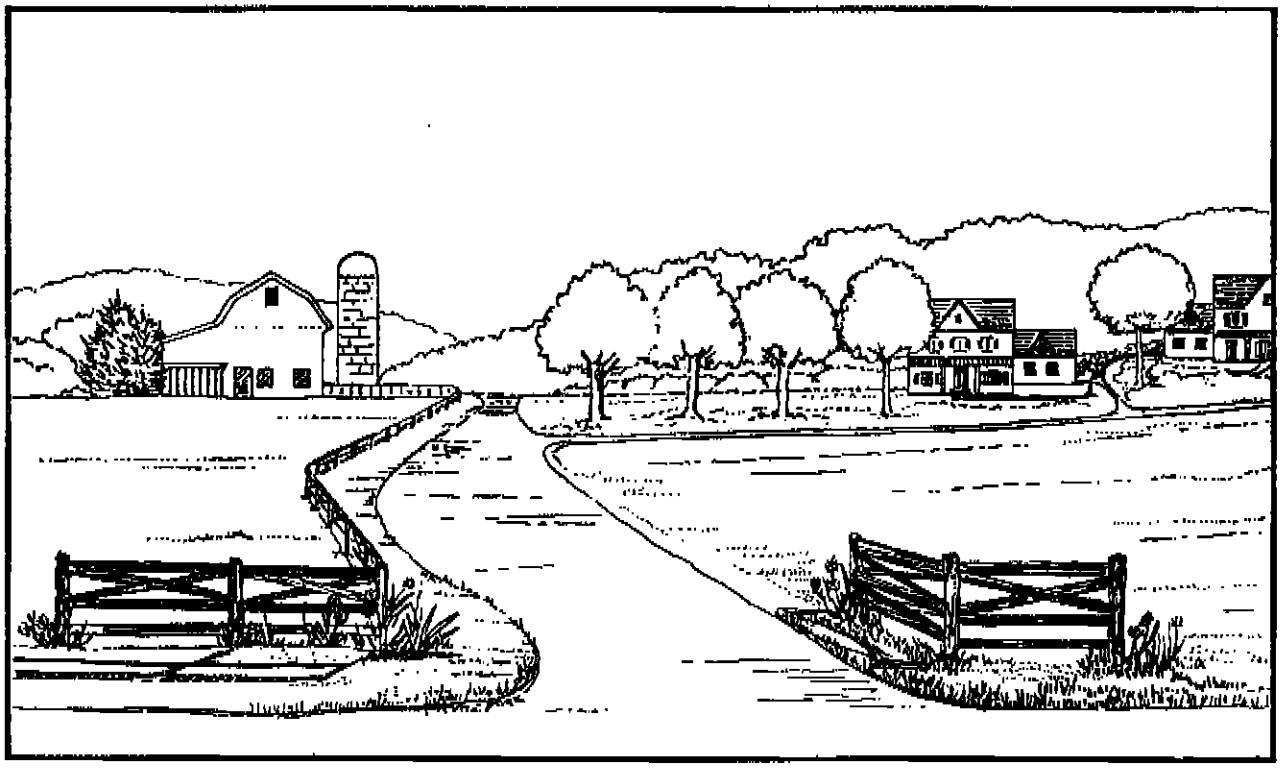
The character of the Community has been further impacted by the sprawl which has occurred. Not until the mid-1980's did Baltimore County adopt comprehensive development regulations which mandated consideration of numerous planning and development factors in a public forum. Mismanaged growth in the past has created suburbanization. Tighter development controls and requirements of compatibility should lead to improved development patterns. Concerns over new growth due to the character of the previous patterns nonetheless are justified.



There has been little additional commercial zoning in the Community in the last decade. There has been little commercial development in any of the villages. The demand for many services now is met outside the community in the commercial centers to the north and south. The commercial center of Kingsville has declined in use and in appearance as environmental and economic constraints have precluded improvement of existing structures. Commercial development in Fork consisted mainly of the replacement and enlargement of a local hardware store and incorporating it into a strip shopping center. The addition of a single bed and breakfast and conversion of a grocery store to a cleaners has been the new development in Upper Falls.

Almost all of the existing housing is in the form of individual, single family dwellings. Approximately sixty percent (60%) of the population is over the age of 35. The increasing age of the population is reflected in the small growth in the elementary school age population. Only about twenty percent (20%) of the population is under twenty (20) years of age.

Although older existing houses sell for approximately $135,000 - $150,000, newer homes on lots are much more costly. Building lot prices escalated in the 1980's from $30,000 to $90,000 over the course of the decade. New homes on lots have similarly escalated in cost. The increasing cost of lots and houses in the Community also is consistent with the aging of the population and their ability to afford the more expensive housing.



No recent development has achieved the maximum density permitted under the R.C. 5 zoning. This is due in large part to the failure of the soils to percolate. Wetland buffers, forest buffers, and zoning, well and septic area setbacks also contribute to the lack of zoning density. Much of the area in the Harford Road area is zoned R.C. 2, which precludes substantial, residential development. Although there are numerous houses along the roadsides and several subdivisions in the R.C. 2 area, this construction and development predated the imposition of the more restrictive zoning in the 1976 zoning maps.

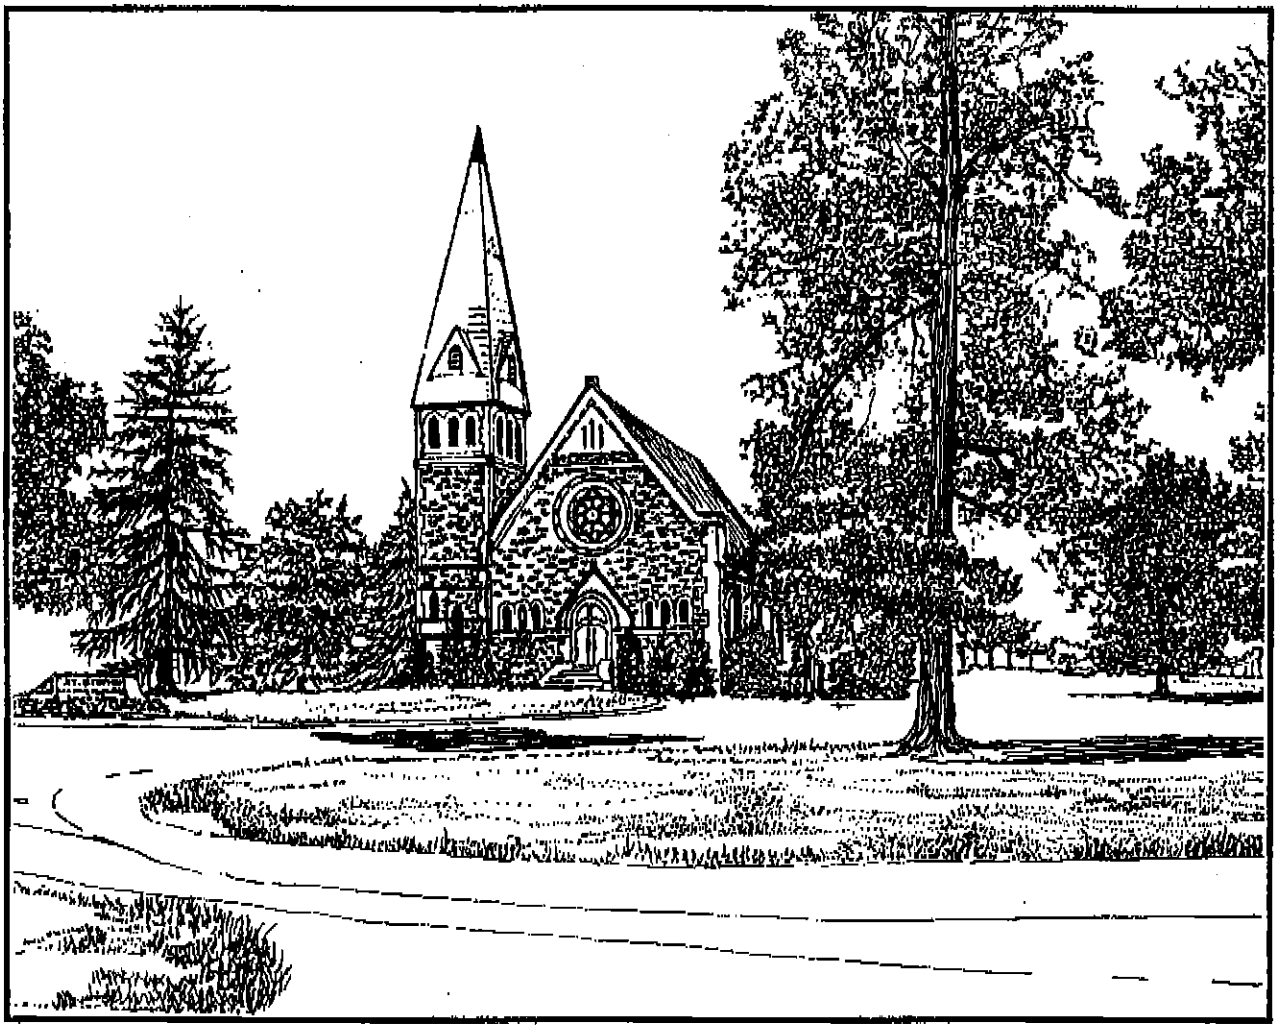
Special Development

With the growth of the Community in the last several decades, there has been a demand for special kinds of development such as churches, community centers and recreational facilities. These developments have significant impact on traffic, septic use and water use. New construction of these special forms of development should be directed to areas served by adequate roads and be located on tracts of land sufficient to yield adequate water without endangering the wells of neighboring residents. Because of the more intense usage of the land compared to dwellings, special restrictions should be imposed to protect sensitive environmental features such as streams, forests and wetlands. Design standards for the construction of new facilities should require blending of the new facilities into the adjacent area as much as possible.

RECOMMENDATIONS:

24. THAT SPECIAL FORMS OF DEVELOPMENT SUCH AS CHURCHES AND RECREATIONAL FACILITIES, WHILE BENEFICIAL TO THE RESIDENTS, SHOULD BE LOCATED IN CLOSE PROXIMITY TO MAJOR ROADWAYS SUCH AS HARFORD AND BELAIR ROADS, AND PROVIDE A SUITABLE BUFFER COMMENSURATE WITH SIZE AND USAGE FROM NEIGHBORING PROPERTIES.

> *Special forms of development such as churches, day camps and recreational facilities are permitted by right or by special exception in some rural conservation areas. The demands of these developments on the infrastructure may be more extensive than most commercial enterprises. Due to the fragility of the rural environment and to the characteristics of the rural community special consideration should be given to the access to the development and to the protection of adjacent environmental features and of neighboring properties.*



" Structures supporting the special forms of development should be architecturally designed to be compatible with neighboring uses ".

25. THAT DESIGN REQUIREMENTS FOR SPECIAL FORMS OF DEVELOPMENT SHOULD CONSIDER THE UNIQUE PURPOSE OF THE SITE AND ANY STRUCTURES AND REQUIRE COMPATIBILITY WITH THE SURROUNDING NEIGHBORHOOD.

> *Structures supporting the special forms of development should be architecturally designed to be compatible with neighboring uses. This requirement of compatibility should extend to fencing and significant landscaping including reforestation/afforestation.*

Commercial Development

Some commercial enterprises in Kingsville and Fork suffer from the inability to expand or improve due to physical constraints, and from the inability to attract new or replacement uses to the few appropriately zoned parcels of land with development potential. The fact that expanded commercial centers now exist in adjacent communities must also be considered. It is apparent that the environmental constraints imposed by the lack of public water and sewer have diminished the desirability of commercial development both from business and community standpoints. The need for certain basic services within the local community, however, is apparent.

Two separate commercial concepts need to be addressed. The first is the redevelopment and expansion of existing business. The second concept is the provision for new business. There currently is little demand for new business. Environmental constraints and projected traffic access indicate that in the future new business, if any, should be directed toward the area between the two divided portions of Belair Road north of Kingsville. Strip zoning is unacceptable. A survey should be undertaken by the County in conjunction with the local business and residential organizations to determine what is the actual usage of commercial land in the Community, and to determine whether there is a need for additional commercial zoning to replace the parcels of land zoned commercial but unusable due to physical constraints.

The need for existing business to improve and expand requires a creative approach. The existing businesses are vital to the Community. Their vitality not only serves the needs of the local residents, but they are as much of a component of the Community environment as the houses and farms. The deterioration of appearance of existing buildings, the lack of conformity of newer structures to older structures all detract from the overall Community.

The Baltimore County zoning regulations contain various tools for dealing with a rural community's ability to promote expansion of existing businesses and to enhance the ability of needed services to locate within the community. In the Community more extensive use of the Resource Conservation Commercial (RCC) zone and of the Commercial - Rural (CR) district must be encouraged. These zoning tools when coupled with the County's development requirements should serve both the commercial and residential communities. The commercial uses permitted by the rural zone and district were designed to be compatible with the rural nature of communities such as Kingsville - Fork - Upper Falls. The requirement of compatibility will raise important issues even on expansion of existing businesses.

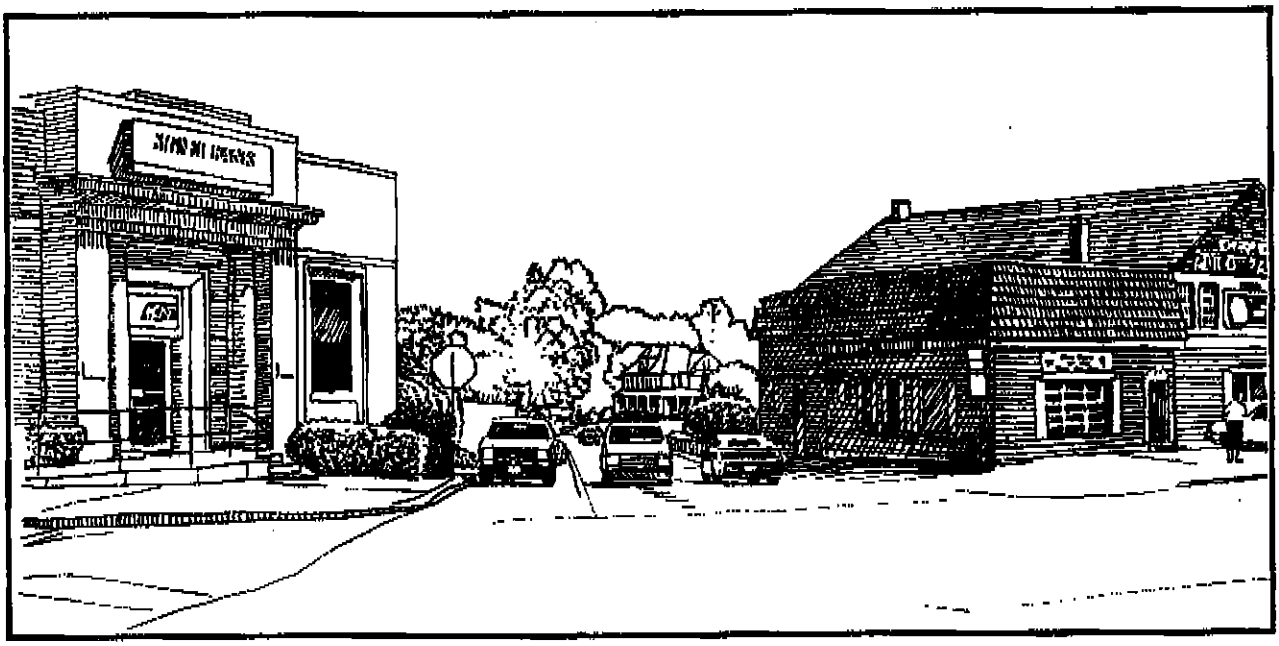
Techniques to permit community-based commercial development and yet maintain the open areas are paramount to good planning. Studies by the Department of Environmental Protection and Resource Management of failing septic systems in the Community will be important in determining what options are available to local businesses to improve and possibly to expand.

RECOMMENDATIONS:

26. THAT AN EXTENSIVE INVENTORY OF EXISTING COMMERCIAL PROPERTY, BOTH OCCUPIED AND VACANT, BE CONDUCTED TO DETERMINE THE EXISTING AREA ZONED AND AVAILABLE FOR COMMERCIAL DEVELOPMENT BASED ON PHYSICAL CONSTRAINTS.

> *Until a detailed inventory of commercially available property is taken, it is impossible to determine whether there is sufficient commercial inventory or too much or too little. The zoning lines do not indicate whether adjacent rural conservation property is included in existing commercial businesses or whether environmental constraints preclude additional or any development. These determinations should be made with the cooperation of local business and property owners to determine the actual, usable inventory as well as the demand for expansion before substantial commercial rezoning is granted.*

27. THAT THE CR DISTRICT OVERLAY OR THE RCC ZONE BE MAINTAINED ON COMMERCIAL PROPERTIES AND BE PLACED ON PROPERTIES WHICH MAY OBTAIN COMMERCIAL ZONING IN THE FUTURE AND THAT COMMERCIAL ENTERPRISES WORK CLOSELY WITH THE COMMUNITY, ADDRESSING ITS



"The need for existing business to improve and expand requires a creative approach."

Residential Land Use

It is anticipated that future residential growth will occur at approximately the same pace as in the past decade. The rate of growth is due in part to the high cost of land and of land development. Furthermore, much of the land currently zoned for residential development has physical constraints precluding the desirability of development.

The key issues with future residential development in the Community concern the design of the development. Current development requirements spread lots and houses over large tracts of land. The usual lot sizes are from one (1) to ten (10) acres. There is no provision for open space in current regulations nor for the acquisition of land for buffer areas, Greenways, etc. While there are concerns over the density of development, physical constraints historically have precluded density of the amount permitted by law. Actual densities are usually fifty percent (50%) of that permitted by current regulations. The fact that the density is spread out over a tract, however, gives a suburbanized image of the property incompatible with the rural character. Suburban sprawl also has been shown to have a negative impact on the environment.

Future residential subdivision design should above all be sensitive to environmental features. Stream buffers and woodland areas should not just be protected but conserved. Conservation includes not only preservation of the asset but management, enhancement and improvement under approved management plans.

Forests cover a large part of the Plan area. They provide habitat for wildlife, protect endangered species, improve water quality and account for much of the rural charm of the Community. Management of forest resources should be encouraged. Preservation of existing vegetation is not enough. Maintenance or enhancement by shrub or tree planting and control of noxious weeds or aggressive, non-native species may be required. Forest harvesting is a technique encouraged by the State Department of Natural Resources for the conserving and renewal of forest resources. A draft Forests and Wildlife plan for the Community is attached in Appendix D.

On forested properties subject to development, an overall plan, based on the State Forest Conservation Act of 1991 should be developed to guide afforestation, reforestation and forest management. This concept plan adopted with the development of the property should identify problems and propose solutions.

Stream buffer areas similarly should be conserved by property owners. Although the County has stringent stream buffer regulations, enhancement of stream buffers by developers is a concept which should be examined with the active involvement of the Gunpowder Valley Conservancy and the Greater Kingsville Civic Association. Stream buffers left unmanaged may

actually deteriorate through the invasion of pest vegetation prevalent, although not native, in the area. New plantings should be encouraged through an incentive program.

The protection of open space is a primary Community concern. The Community is characterized by open fields, woodlands, and the mixture of residences and farmland. The provision for open space can be accomplished through legislation and through design techniques. For the purposes of this Master Plan the term "open space" means areas unimproved by non-agricultural structures containing five (5) contiguous acres or more. Clustering of homes, that is a grouping of single family homes on one portion of a property to allow for preservation of substantial open space on the remainder of the property, would permit larger parcels to maintain farmland or woodland and would counter the tendency toward suburban sprawl over the countryside. Clustering would not permit more homes than now permitted, nor is it intended to result in any more housing than currently permitted or available on a tract of land by current development techniques or by percolation, but it would permit large fields and forests to remain and would promote agricultural use.

Clustering of houses also would be more compatible with the older residential community than more modern development. Many of the houses in the Community are built on small lots of less than an acre in size. Houses in the immediate vicinity of Kingsville's center are built on half acre lots. The Community has retained its rural character because those clustered homes are surrounded by open fields and farmlands.

If clustering is adopted, open space availability is much improved, but all development of significant scope should have an area set aside either on individual lots or in single ownership where additional non-agricultural construction is not permitted. The location of the open space would depend on environmental sensitivity, protection of neighboring agriculture, visual impact, and compatibility of the proposed development with neighboring properties. The quantity of open space would depend on the acreage involved, the maintenance of the rural character of the area, and the sensitivity of the property. Open space use would be passive in nature, except that some non-intensive, agricultural uses would be permitted. Construction in open space would be limited to barns, livestock sheds and fencing to be approved on an individual basis based on design and location. Open space areas should be protected and maintained by covenants and/or by easements placed on the land.

Not all open space, however, is of equal quality. Provision should be made for development to fund the acquisition of open space and of Greenways and buffer easements. This acquisition can be accomplished if payments from developers are sought in lieu of open space requirements on individual developments. Much of the acreage in the Plan Area is in tracts of less than fifty (50) acres. Many of the parcels are less than ten (10) acres. Open space requirements applied uniformly to such parcels may not yield the visual, environmental and compatibility enhancement sought in the requirement. The County in working with the residents and

developer should have the flexibility to require funding contributions in lieu of open space requirements so that buffer areas can be provided in sensitive areas or so that Greenway easements can be acquired. By appropriate application of various development options both the developer, the proposed residents and the existing residents should benefit from the results of well-planned and designed development.

Because of the need to preserve the farming area of the Community, it is important that the R.C. 2 zoned property not be reclassified to R.C. 5 to permit the development of additional residential housing. The primary purpose of the R.C. 2 zone indicated in the zoning regulations is "to foster conditions favorable to a continued agricultural use of the productive agricultural areas of Baltimore County." This purpose is no less important to the Plan Area. Although several residential developments have been grandfathered in the R.C. 2 zoned area, thereby indicating a larger agricultural area than actually exists, this diminution of acreage actually devoted to agriculture makes the remaining acreage so zoned all the more valuable to the Community.

RECOMMENDATIONS:

28. THAT FOREST CONSERVATION PLANS BE REQUIRED AS PART OF ANY PLAN OF RESIDENTIAL DEVELOPMENT OF THREE LOTS OR MORE.

The Forest Conservation Act of 1991 requires new development to comply with certain criteria, concerning management of existing woodland, afforestation/reforestation. The County should enact criteria, which require developers to file as part of their submittal, plans pertaining to woodlands on the site and their conservation.

29. THAT REPLANTING OF VEGETATION BE ENCOURAGED AS PART OF STREAM BUFFER AND FOREST BUFFER EASEMENT PROGRAMS.

Currently, stream buffer requirements only prohibit intrusion. They do not address remediation of conditions occurring prior to development such as the intrusion of unwanted, foreign species of vegetation, which do nothing to enhance water quality. Developers should be given incentives to improve water quality by planting within the buffer and providing for maintenance of selected species of vegetation.

30. THAT PLANS FOR DEVELOPMENT SHOULD MAKE PROVISION FOR OPEN SPACE OR FOR PAYMENT INTO OPEN SPACE ACQUISITION FUNDS ADMINISTERED BY THE COUNTY.

Rural open space would serve a different purpose than local open space programs in the urbanized areas of the County. While passive recreation may be a component of open space, the real purpose of the open space would be to provide buffers and to protect environmental areas and Community character.

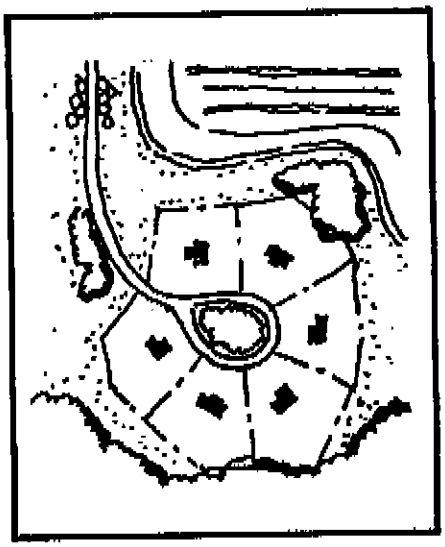
31. THAT THE COUNTY ADOPT A COMPREHENSIVE SCHEME OF REGULATIONS PERMITTING THE CLUSTERING OF HOMES IN RESIDENTIAL SUBDIVISIONS.

Clustering is considered to be the location of single family, detached houses in a designated area or areas within a site in order to provide areas of open space. Clustering of houses is not unanimously favored, but from the standpoint of protecting open areas and preserving vistas, meadows and forests, it is far superior to the sprawl encouraged by current zoning and development regulations. Issues pertaining to overall density need to be addressed, but if clustering were adopted in conjunction with open space requirements and an overall density formula, then the potential for improvement in new rural development would outweigh potential problems. The regulations also will need to address significant concerns over the long term management and protection of the open space.

32. THAT THE EXISTING R.C. 2 ZONED LAND WITHIN THE COMMUNITY NOT BE REZONED TO R.C. 5 TO PERMIT THE DEVELOPMENT OF ADDITIONAL RESIDENTIAL HOUSING.

It is important that the farming land within the Community be preserved, and accordingly, the R.C. 2 zoned land should not be reclassified to permit additional housing to intrude on the prime farming areas within the Community.

DEVELOPMENT DESIGN

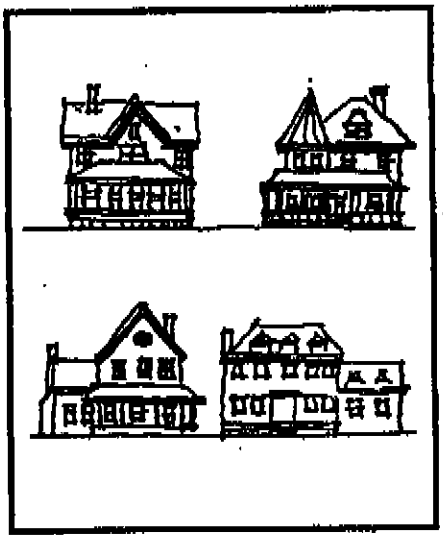


Site Design

Site design for future development is extremely important in preserving the character of the neighboring area. Techniques discussed under Land Use Analysis are important in preserving vistas of open meadows and dense woodland. The development itself, however, must be sensitive to the land on which it is built. In particular, landscaping, afforestation/reforestation, should be required to meld the development into the surrounding community. Scenic vistas and views of significance to the Community should be protected. The Community should be encouraged to work with developers to review designs and offer suggestions on appropriate landscaping, reforestation, and architectural design.

Landscape buffers soften the visual impact of new houses. Houses should not back up to existing roads, and where physical constraints require the configuration, appropriate landscaping should be used as a buffer. Landscaping too should meld into the natural environment and provide wildlife corridors and habitat. Scenic vistas and views should be enhanced by landscaping and not be blocked by development.

There are numerous properties, which contain views of buildings or of fields and hillsides, which really are definitive of the character of the Community. Care should be taken in future development to preserve and enhance those views to the extent practicable. A list of suggested properties is attached as Appendix E, but the community in conjunction with property owners and representatives of the Landmarks Preservation Commission should put together a list for use by the County in its review of proposed development so that issues pertaining to the character of these properties may be addressed.



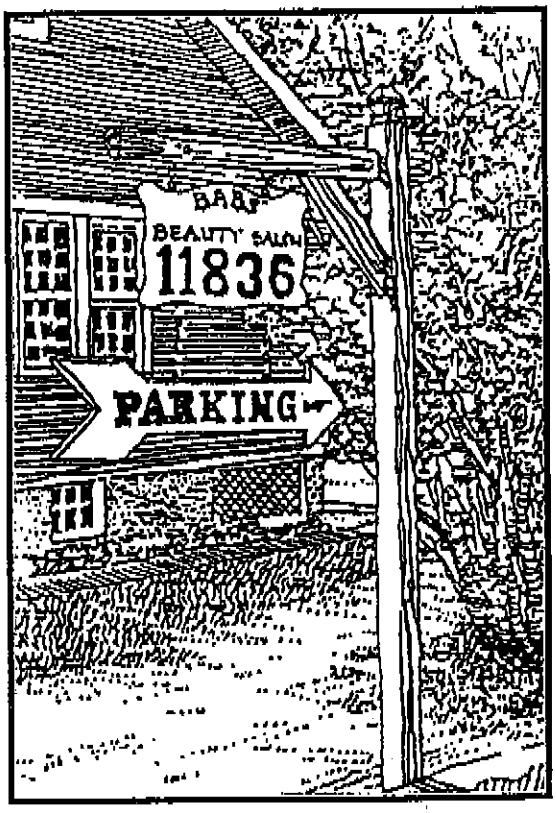
Architecture

Some architectural styles, particularly for commercial buildings, simply are not sensitive to a rural character. Inappropriate architecture increases the perception of change in character of the area and of the extent of the construction. Buildings which have details which echo Victorian, farm, or colonial styles should be encouraged. New construction

should follow the spirit of the Historic Design Guidelines published by the Landmarks Preservation Commission. Shopping center construction as exists in the suburban areas of the County or even in the rural town centers is not appropriate for the small villages comprising the Community. The restoration guidelines contained in the Hereford Master Plan are excellent guidelines equally applicable to similar development in the Community.

Signage

Signs can be a major source of visual pollution. There is no consistent style of signage in the Plan area. Signs usually must be adapted for the particular use and location of the facility. A sign that might be appropriate for Belair Road in size and configuration might be wholly inappropriate in Upper Falls. As with architectural styling, however, suburban and urbanized characteristics do not fit in with the character of the Plan area. Plastic and back lit signs as occur in Perry Hall are not indicative of a rural character. The CR zoning district contains appropriate signage guidelines which should be supported throughout the Community.



Permanent signage in residential developments is not appropriate. The object of new development should be to blend in with the adjacent neighborhood, not to stand out apart from the Community. The quality of the development should speak for itself, and signs advertising particular developments should be discouraged as not in keeping with the established Community.

RECOMMENDATIONS

33. THAT A DESIGN REVIEW COMMITTEE BE ESTABLISHED TO WORK WITH THE COUNTY AND WITH DEVELOPERS TO ENCOURAGE COMPATIBLE DEVELOPMENT DESIGN.

> *Each development has its own particular needs and configuration, and each development project will meld in a unique way with adjacent properties. Developers have to be made aware of concerns with respect to compatibility and should be assisted in configuring the proposed development, large or small, in such a way as it enhances the rural character of the Community.*

34. LANDSCAPING SHOULD BE USED TO COINCIDE WITH THE NATURAL ENVIRONMENT.

Landscaping should be a required component of development in the Community. Buffers and landscaping which emulate naturally occurring landscaping will enhance a development and lessen the environmental impact and improve and maintain the rural environment.

35. SCENIC VISTAS AND VIEWS OF SIGNIFICANT STRUCTURES IN THE COMMUNITY SHOULD BE A CONSIDERATION IN THE REVIEW OF ANY DEVELOPMENT PROJECT.

The 1989-2000 Master Plan for Baltimore County indicated the importance of scenic vistas. The concept of the importance of visual impact extends to far more, however, than natural hillsides or flowing streams. History is a part of the Community's fabric, and significant structures, emblematic of the Community's history and character, need to have their visual relationship to the Community conserved. A proposed chart of historic and important properties and structures is attached (see Appendix E). The chart breaks the properties down into categories of significance for guidance purposes only. It does not attempt to rank historic significance or importance but only impact from a visual and community sense of impact of the site.

36.COMMERCIAL ARCHITECTURE AND SIGNAGE IN THE PLAN AREA SHOULD BE REFLECTIVE OF THE COMMUNITY'S CHARACTER.

Guidelines for design of commercial structures in rural villages should be adopted. Community groups should work together with developers to encourage design compatible with the rural character. New sign guidelines for rural areas should be adopted, and planners should be able to demonstrate to developers the advantages of blending signage and architectural design in ways which enhance the proposed project.

37. THAT THE DESIGN REVIEW COMMITTEE REFERENCED IN RECOMMENDATION 33 PREPARE DESIGN GUIDELINES TO PROMOTE COMPATIBLE DEVELOPMENT DESIGN.

The design guidelines should be submitted to the County and officially adopted into the Greater Kingsville Area Community Plan by the Planning Board and by the County Council.

Appendix D

FORESTS AND WILDLIFE

A. GOALS

1. Manage and enhance forest land.
2. Improve wildlife habitat.
3. Protect water and air quality.
4. Enhance scenic rural character of the area.

B. STRATEGY

1. Adopt an plan to guide voluntary actions of private land owners, including developers, in directions that improve the environmental quality with the passing of time.
2. Build the plan around a local concept for implementing the Maryland Forest Conservation Act of 1991, which achieves the four GOALS.
3. Keep the plan at the concept level identifying types of problems to be remedied and opportunities for building on our environmental strengths. Do NOT plan for any specific actions on any specific properties; leave that to the initiative of individual property owners.
4. The plan should identify resources available to help property owners in implementing this plan. Also, having an officially approved plan will be useful to community and conservation groups in drawing financial support from foundations and government agencies to assist land owners.

C. FORESTS AND WILDLIFE

1. These are major environmental assets of our community which account for much of our "rural charm". See the Forest Cover Map. This plan calls for improving the forest cover and create high quality habitat for birds, animals, and fish.
2. Vegetate all stream sides as buffers to provide shade, promote infiltration, and stabilize against erosion. Sediment and water overheated by summer sun are dangerous to fish and other aquatic life. By selecting desirable habitat species, these improvements in vegetated stream buffers will enhance forest and habitat quality providing corridors for wildlife movement. The buffers should be widened into forest corridors wherever possible. The soils map shows that much land in the vicinity of streams is poorly suited for development due to severe drainage limitations or steep slopes.
3. This land has high value for habitat and forest cover and may support productive forests providing multiple benefits to its owner.
4. Vegetated corridors are needed to provide escape and nesting cover.

5. Similarly, islands of woods need to be connected to the forest network by vegetated corridors to reduce excessive predation. Such islands may be seen on the forest cover map; the committee has more detailed data in aerial photographs of the plan area.
6. Gunpowder Falls State Park anchors the habitat and forest cover of the plan area. When possible, forest corridors along streams and connection between them over land should strive to create continuous forest corridors between the two wings of the Park which lie along the Big Gunpowder Falls and the Little Gunpowder Falls.
7. Diversity of species:
   a. Too many of the same tree promotes spread of diseases.
   b. Identify species once abundant in our area which have declined and deserve replanting (hickory was suggested as a possible example).
   c. Encourage species diversity by planting a species mix appropriate to localities and soil types.
8. A living plan:
   a. Preserved forests decline in health and stagnate. Proper management of these forests would improve forest health, productivity, and groundwater infiltration capacity.
   b. The forest cover can be managed by its owner, however, habitat maintenance should be part of the plan.
   c. Meadows are an important part of the forest cover plan. There is an important natural progression of meadows which is defeated by grazing or mowing, however, some maintenance is needed to control pest plants. Where desirable, new meadows suitable for wildlife habitat may be created.
   d. Owners of all properties in the plan area which are of at least one acre, are encouraged to seek advice on afforestation design, sources of assistance, and financial incentives at 665-5820 which provides a clearing house and referral service to County and State advisors.

D. SUMMARY OF RECOMMENDED ACTIONS

1. Seek advice on afforestation design for your property, sources of assistance, and financial incentives from 665-5820 which provides a clearing house to County and State advisors. Form a Greening Committee to coordinate community efforts.
2. Plant trees and useful habitat shrubs along streams to form wildlife corridors and promote water quality for aquatic species.
3. Plant corridors to "forest islands" to include them in the connected habitat network.
4. Seek to establish continuous forested corridors connecting the two wings of Gunpowder Falls State Park.

APPENDIX F

ADDENDUM CONCERNING OFF SITE WELL AND SEPTIC

"Off site well and septic is not a desirable solution for commercial properties that have problems, or will have, with their current systems. However; in an effort to support those commercial enterprises that have become an important part of the community we would suggest the following policy:

"An existing commercial enterprise, that has been actively doing business on site during the previous year, and that has a failing septic system or well may petition the County to use an off site system. However, it should be made clear that this is allowable only if the following conditions are met:

1. The existing parcel of commercial land will not support additional septic or well requirements.
2. The property that is to contain the system is owned by the petitioner and is immediately adjacent to the existing business.
3. The current system can no longer support the needs of the business and is jeopardizing the continued operation of the business.
4. The petitioner files for a Resource Allocation. (This process is intended to mirror the Chesapeake Bay Growth Allocation process. Guidelines would have to be developed for this process that would provide for a review of the request by the following: Office of Planning, DEPRM, Planning Board and finally County Council. It is our intent to satisfy the need for community input with a level of accountability within the County. At the same time this would hopefully avoid having to use the Comprehensive Zoning Map Process which would only increase the commercial inventory of undevelopable properties-those used solely for off site well and septic.)
5. A more intense use of transfer of density if prohibited.
6. Improvements may not take place until appropriate approval is granted for the proposed site.
7. Sufficient storm water management facilities exist on current business site.

This is in no way intended to provide for the opportunity for expansion or renovation of an existing business with sufficient well and septic facilities to meet their current needs. Rather it is intended to provide relief for those businesses that are in jeopardy due to failing systems with no on site solution. The County should be diligent in their monitoring of petitioners of off site systems so that the relief given will not be abused.

In regards to a commercially zoned parcel that is currently undeveloped - well and septic must be provided for on the existing lot. Off site systems will not be allowed in order to make a currently undevelopable site viable."

A great deal of concern was also expressed about the ramifications this policy may have on residential properties. While this issue was not discussed in as much depth it is still a concern. Off site well and septic cannot be supported by the community for undeveloped properties that do not perk. However, we would ask that the County and DEPRM continue to work with the community and seek ways to solve current and potential problems without involving an off site solution.

2. No record of disposal of human waste.
3. No approval of water quality by health department for public place.

F. ***Asbestos exposure.***

G. ***Noise.***

H. ***Failure to satisfy RTA Requirements.***

II.

FACTS TO SUPPORT THE MOTION

Issue A: ***Improvements Without Building Permits.***

In Special Exception hearing on January 17, 2018 before Judge Beverungen, Page 55 of Mr. Ghimire testimony:

Appendix 1: In March of 2017, when property purchased, copper pipes were gone, there was no water, and the water piping had not been installed as of Special Exception hearing.

In conversation with Permits Department where Dewey Clark and Carol Shaw were told no permits had been issued for that address since acquired by the Petitioner in the last eighteen (18) months.

Appendix 2: County has not issued any construction related permits including plumbing to 12231 Harford Road in the last eighteen (18) months per affidavits attached.

Printed Permits Report July 16 2018.

Functioning electric without permit in video taken from Facebook for an event held on June 24, 2018:

Appendix 3: ***Video (DSC 5006 - 8:50-8:58)*** there is functioning electric in this changed building use. Yet the County per Affidavit in Appendix b above states no permit was issued by the County to approve any electric for this changed use.

NOTE: USB Drive contains Appendix #3, 20 and 22.

Appendix 4: Photograph of signage, which installed on May 15, 2018 without any permit per Affidavit 2 above.

Appendix 5: Statement of Dr. Karki posted on Next Door, acknowledging, well, sewage, road access and sign need to be done, and that their organization are "following the order of the court, playing by the book. We have respect for the rules of the County and the Country and are going to abide by them."

Ghimire Invitation to Feb 25 Open House; attached comments from Karki.

Issue B: ***Public Safety.***

The road at 12231 Harford Road is noted as a safety concern due to the present police reports, because of the curves and slope.

Appendix 6: ***Police accident reports from Hartley Mill to Mt. Vista in the last three (3) years.***

Appendix 7: Pictures of the most recent accident in June 2018.

Appendix 8: Aerial map of Harford Road from Hartley Mill Road to Mount Vista Road showing the sharp curves.

Issue C: ***Improvements without application to and approval from Fire Marshal.***

Fire Marshal, nor his representative, has not been present to see if proper fire codes have been met for this changed use, including any fire rated doors and construction, and emergency and exit interior signage and lighting.

Appendix 9: Affidavit of Dewey Clark and Carol Shaw in conversation with the Baltimore County Fire Department, where they were told there was no contact with the Fire Marshall.

Issue D: ***Events held without required approvals or permits.***

No gathering permit was sought nor granted for previous events over two hundred (200) persons.

Appendix 10: Affidavit of Dewey Clark and Carol Shaw in conversation with the Permits and Licenses Dept.

The State Highway Administration will not approve the entrance as it is.

Appendix 11: E-mail from Richard Zeller, Regional Engineer for District 4 of the State Highway Administration to Dewey Clark dated July 5, 2018 stating that the SHA has not approved the existing entrance for this use, and this site should not be operating at all.

Events in spite of Cease and Desist order.

Appendix 12: Compliance order dated 7-30-2017 from Code Enforcement of Baltimore County for operating a church or building for religious worship, and holding public entertainment or gathering without obtaining a gathering permit. Warning Order – 11/15/17.

Appendix 13: Dr. Karki noted that their New Year Celebration would be moved to Mount Everest Restaurant on Bel Air Road.

Appendix 14: Affidavit from Dewey Clark, Tom and Carol of conversation with Arnold Jablon, Head of Code Enforcement that the Cease and Desist order "vacates" the special exception granted with conditions to be met.

Appendix 14A: A. Jablon's subsequent Order reversed his decision and affirmed that the conditions imposed by the ALJ were binding.

Appendix 15: Publicity from Facebook for Event held on July 4 2018.

Appendix 16: Meeting the Neighbors Event on February 25, 2018 at 3:00 p.m. invitation posted on Next Door February 18, 2018.

Appendix 17: Photo of crowd at the Meet the Neighbors event which had over 200 in attendance.

Appendix 18: Invitation posted by Mr. Kris Ghimire to see the Bonaparte mansion lit up in red, white and blue at 8:30 p.m. on July 4, 2018.

Appendix 19: Shayam Karki and others announcing multistate event for fundraising posted on Facebook June 8, 2018.

Various postings including from Nepal!!!

Appendix 20: Video showing event for a religious ceremony at and in the mansion, with over 200 in attendance. (See USB Drive, App. 3).

Appendix 21: Dr. Karki announcing the multistate multiday event for July 28-August 3, 2018 for fundraising posted on June 8, 2018.

Appendix 19.

Appendix 22: Prayer gathering partially videoed (need date). (See CD, App. #3).

Issue E: ***Events held without new well and septic systems installed.***

1. No record of proper handling of human waste.
2. No record of potable water.
3. No approval of water quality by Health Dept. for the public.
4. No record of indoor plumbing.

Mr. John Motsco, a project engineer with Little & Associates, representing the Petitioner, stated that there is no record of where the septic system is, and they do not know where it is, and that it must be replaced.

Appendix 23: ***ALJ Testimony of Mr. Motsco pages 36 and 37.***

Appendix 24: Affidavit of Protestants for no spot a pots present at the event to meet the neighbors on February 25, 2018, where 200 people were in attendance.

Affidavits no sanitation facility.

Appendix 25: Affidavit of Joanne Foxworthy observing a workman relieving himself on the property while the sign was being installed at the entrance.

Appendix 26: Testimony of Mr. Ghimire and Motsco that no plumbing, no well and no septic are on site.

Appendix 27: *Affidavit of Dewey Clark and Carol Shaw in conversation with DEPS* that no well and no septic have been dug.

No record of water being tested for the safe consumption by the public

Appendix 28: No certification or report of water quality tested for safe consumption.

Appendix 29: No permits pulled since that time by Dewey Clark and Carol Shaw.

Affidavits Dewey Carol and July 16, 2018 permit report.

ISSUE F: ***Exposure to asbestos.***

At the meet and greet held on February 25, 2018, asbestos was noted in the area of the boiler with no warning given to attendees.

Appendix 30: ***Affidavit of Dave Poehler.***

Appendix 31: ***Affidavit of David Hartman.***

Appendix 31A: ***Affidavit Ellen Hubbard.***

Issue G: Events held without consideration of noise to neighbors.

Amplified singing and speaking during events.

Appendix 32: ***Mr. Ghimire's testimony at ALJ, page 54*** and ALJ decision, page 4, item 7.

Appendix 33: ***Affidavits Joanne, David and Bernadette Poehler.***

Issue H: **Failure to satisfy RTA Requirements**

Appendix 34: ***Mr. Ghimire's ALJ Testimony, Page 46, "not having anybody in or near proximity."***

Appendix 35: ***Map showing proximity of houses across Harford Road within six hundred feet (600').***

III.

FAILED TO MEET THE ALJ'S REQUIREMENTS TO USE THE PROPERTY

The NACCB, Inc. has failed to comply with the requirements specified in the ALJ Decision by Judge Beverungen on January 19, 2018 for any use of the property located at 12231 Harford Road, Glen Arm, Maryland 20157. They failed to comply with six (6) of the seven (7) conditions of the Special Exception granted by Judge Beverungen in his Decision of the ALJ Hearing Case No.: 2018-0122-X on January 22, 2018.

Specifically, the NACCB, Inc.:

- Failed to apply for necessary permits and licenses to operate the property as specified in Condition 1 in the ALJ decision.
- Failed to install a sign in COMPLIANCE with Baltimore County Zoning regulations and the SHA signage requirements as specified in Condition 3 in the ALJ decision.

- Failed to demonstrate to the Baltimore County Department of Environmental Protection and Sustainability that they proposed a well and septic system sufficient to serve the property as specified in Condition 4 in the ALJ decision.
- Failed to comply with ZAC and DEPS comments as specified in Condition 5 in the ALJ decision.
- Failed to obtain an SHA Highway Access Permit authorizing ingress and egress from the site via Harford Road as specified by Condition 6 in the ALJ decision.
- Failed to comply with the requirement of Condition 7 of the ALJ decision which prohibits the use of outdoor amplification of music or sound.

IV.
CONCLUSION

For all of the above reasons based upon protecting the safety, health and welfare of the neighboring community ***and that of the visiting members of the Applicant***, the Hearing should be postponed and continued until all health and safety requirements are satisfied.

Respectfully submitted,

J. CARROLL HOLZER, Esquire

AFFIDAVIT OF Dewey Clark

I, Dewey Clark do hereby make oath in due form of law and state as follows:

1. I am over 18 years of age and competent to testify in this matter.

2. On June 22, 2018 I observed the following:

   Carol Shaw and I visited the Baltimore County Inspection Department located at 111 West Chesapeake Avenue, Towson, MD 21204.

   The purpose of this visit was to determine the status of permits issued to NACCB, Inc. for the property located at 12231 Harford Road, Glen Arm, MD--specifically, electrical permits, since we had just obtained photos of the exterior and interior lighting of the above property.

   We spoke with Mr. Edward Riesner, Chief Inspector, Electrical and Mr. Matt Gawel, Acting Chief, Building Inspections. Upon reviewing the record of permits issued to the property in the last 18 months, both Mr. Riesner and Mr. Gawel confirmed that no permits had been issued for the property located at 12231 Harford Road, Glen Arm, MD.

I HEREBY SWEAR AND AFFIRM UNDER THE PENALTIES OF PERJURY THAT THE AFOREGOING IS TRUE AND CORRECT UPON MY PERSONAL KNOWLEDGE.

Dewey Clark 7/17/2018

AFFIDAVIT OF Carol N. Shaw

I, Carol N. Shaw do hereby make oath in due form of law and state as follows:

1. I am over 18 years of age and competent to testify in this matter.

2. On June 22, 2018, I observed the following:

   Dewey Clark and I met with Matt Gawel, Acting Chief Building Inspector for Baltimore County Department of Permits, Applications and Inspections and Ed Riesner, Electrical Inspections Supervisor for Baltimore County Department of Permits, Applications and Inspections to check whether any permits had been issued to the Nepali American Cultural Center for 12231 Harford Road, Glen Arm, MD 21057.

   Mr. Riesner said that there had not been any electrical permits issued. Mr. Gawel, the Building Inspector had pulled up the address of 12231 Harford Road on his PC to show any permits issued. In response to my question of "So there have been no permits issued?", he replied "Not in the past 18 months" to which I replied "They haven't even owned it that long".

I HEREBY SWEAR AN AFFIRM UNDER THE PENALTIES OF PERJURY THAT THE AFOREGOING IS TRUE AND CORRECT UPON MY PERSONAL KNOWLEDGE.

Carol N. Shaw 7/12/18

MR. KOTROCO: Well, let me clear one thing up. You haven't had any religious services whatsoever at this property, is that right?

MR. GIMORY: None.

MR. KOTROCO: Nothing?

MR. GIMORY: No.

MR. KOTROCO: The buildings not even occupiable at this point? It was freezing cold the other day when I was in there. You don't have heat?

MR. GIMORY: No.

MR. KOTROCO: Because you don't have water?

MR. GIMORY: No water.

MR. KOTROCO: And, and it's a hot water boiler system. So, if you don't have water you don't have heat?

MR. GIMORY: That's correct.

MR. KOTROCO: The water hasn't been connected up yet?

MR. GIMORY: No.

MR. KOTROCO: When you bought the property the neighbors or vandals or somebody went in and they cut all the copper pipes out and stole them all?

MR. GIMORY: (Inaudible)--

MR. KOTROCO: So, you don't have any water?

MR. GIMORY: Yeah. It was in bad shape. Yes.

MR. KOTROCO: In bad shape. I'm going to get to

MR. MOTSCO: No.

MR. CLARK: So, they are currently operating a house of worship without the benefit of, of proper permission?

MR. KOTROCO: Objection Your Honor. He's assuming facts not in evidence. As a matter of fact, there's no heat, no water, nobody using that building at this time.

MR. CLARK: Your Honor, he testified that he saw the, he saw the house of worship.

MR. KOTROCO: The area, what's going to be the area that they worship--

JUDGE BEVERUNGEN: Hold on a second. I, I, people aren't going to be yelling back and forth.

MR. CLARK: Right.

JUDGE BEVERUNGEN: We're not going to do that. The witness said, he observed an open two story space that would be used for worship I thought is, is what he said. You now want to ask him if worship is taking place?

MR. CLARK: No. He, I, if it is zoned for worship? If it is currently zoned for worship?

JUDGE BEVERUNGEN: Well, we know that it's because we're here today (inaudible)--

MR. CLARK: That's right. That's, that's my point Your Honor.

JUDGE BEVERUNGEN: (Inaudible)--

MR. CLARK: Yes sir. Yes sir.

JUDGE BEVERUNGEN: Okay.

MR. CLARK: Now, you, you were in the building, right?

MR. MOTSCO: Yes sir.

MR. CLARK: You, you examined the building head to toe?

MR. MOTSCO: I examined the majority of the rooms (inaudible)--

MR. CLARK: Okay. Do they have adequate toilet facilities for 150 people?

MR. MOTSCO: I do not know. That was not (inaudible)--

MR. CLARK: You do not know that? Okay. Fine.

UNIDENTIFIED SPEAKER: He wouldn't be able to to know that.

MR. CLARK: When you visited the property, and on your site plan I don't see the location of the septic system. Do you know where the septic system is?

MR. MOTSCO: It will be--

MR. CLARK: No. Do you know where the septic system is now?

MR. MOTSCO: No.

MR. CLARK: No. For all we know the, the prop.- now, I do know, behind the house Your Honor is a wetland. So, I know the septic systems not back there. For all we

know, the proposed parking is right over the septic system, okay.

JUDGE BEVERUNGEN: Is that a question?

MR. CLARK: That's a statement, you know.

JUDGE BEVERUNGEN: Okay. Well, you need to just ask him a question.

MR. CLARK: Okay. What, is it possible-- thank you Your Honor. Is it possible that that parking spaces are over the existing septic system?

MR. MOTSCO: There--

MR. CLARK: Is it possible?

MR. MOTSCO: There's no record of where the septic--

MR. CLARK: Is it possible?

MR. MOTSCO: Can I finish the statement?

JUDGE BEVERUNGEN: Yeah. Go ahead.

MR. MOTSCO: There's no record of the septic system. And if this Special Exception is granted the Petitioners intend to replace the septic system with a current system and to install a new (inaudible).

MR. CLARK: So, why is that not on the, on the site plan?

MR. MOTSCO: Because that work has not been initiated (inaudible).

MR. CLARK: So, so, in fact, there are other plans

for this site other than the parking lot?

MR. MOTSCO: There's a replacement of a well and septic.

MR. CLARK: There are other, there are other plans for development other than this parking lot?

MR. MOTSCO: Replacing the well and septic for an existing structure (inaudible).

MR. CLARK: Okay. Another question. You testified that there are, there are no ecological or habitat disturbance. Are you qualified to answer that question? Do you have a degree in Forestry?

MR. MOTSCO: I'm qualified to observe (inaudible). (Inaudible) is the area that will be disturbed.

MR. CLARK: Do you, do you, do you, no, but you testified that the, the forest and the other areas will not, will not be impacted. Do you have a degree in Forestry?

MR. MOTSCO: I can (inaudible) the limits of the disturbance (inaudible).

MR. CLARK: That is not what you testified to.

MR. MOTSCO: (Inaudible)--

MR. CLARK: That is not what you testified to.

MR. MOTSCO: We have no proposed impacts (inaudible)--

MR. CLARK: That is not what you testified to. You testified that there was no impact to the forest. Do you

Bonaparte Property

The last correspondance on the Bonaparte Property that I received was on 4/23 which pertained to the postponement of the Board of Appeals hearing that was scheduled for 4/26. Some time last week a large wedge shape Hindu Buddha Temple, Nepali American Cultural Center sign was erected at the entrance of the property (17731 Harford Rd , Glen Arm) There is also a new metal chained gate and a wooden fence under construction

Can Dewey Clark or one of the Gunpower Falls Watershed Preservation Association officers update us on the status of the hearing,keeping us informed?

3d ago Long Green Valley in General

Thank Reply 5 3

Morgan Mater, Long Green Valley · 3d ago
William, we are currently waiting for updates on what the new scheduled dates will be. We'll let everyone know when we have that information to share.
As far as the sign or gate, I don't have any information in regards to that.

4 Thanks

John Kelcher, Long Green Valley · 4d ago
We are having a graduation party for my son's girlfriend his weekend at our house in Hydes. She has a Nepali background and is a graduate of Towson High and University of Baltimore and I consider her my daughter. I'm still waiting for anyone who dislikes this group to show me they fought Redeemer on the expansion. America is great because it's a melting pot. There's children getting murdered in schools, officers being killed in the line of duty, pick a fight worth fighting and let a peaceful community who has always been a friend to the US resurrect a property that had fallen into disrepair by a coke head embezzler.

17 Thanks

Richard Liddick, Long Green Valley · 4d ago
How about you get over it and get a life

3 Thanks

Richard Liddick, Long Green Valley · 4d ago
Some people can't live and let live. My post was reported. So much for freedom of speech. Nextdoor Nazi.

3 Thanks

Kathy McInerny, Long Green Valley · Edited 4d ago
I wish that you people could stop focusing on this property in a negative way and focus on what's important in life. We have children bringing guns to school, police officers being shot and children being bullied and all you care about is someone trying to fix up a run down property and make it useful again.

6 Thanks

Tess Thomas, Silvergate-Perrydale Woods · 4d ago

1 Thank

Bruce Metzger, Kingsville · 4d ago
Kathy,
If you had heard the stories from the negatively impacted neighbors you wouldn't be asking that question. Also we shouldn't be ignoring one problem simply because there are other problems to address as well.

The posting of the sign at the entrance is yet another miscalculation on the part of the buyers / organizers of this group. They still fail to recognize that the neighbors have legitimate concerns that have yet to be weighed in a legal forum. The erection of the sign is just instigating further concern and is simply another "poke at the bees nest".
What folks seem to continue to misunderstand about the situation is that residents who live adjacent to the property all settled there with the Bonaparte property being single family, agriculturally zoned. The exception creates a publicly accessed "cultural center" with all the associated issues of traffic, noise, stress on water tables, sewage handling etc. These are legitimate concerns that the neighbors want satisfactory addressed.

5 Thanks

Mike Hatcensek, Long Green Valley · 4d ago
Does the sign of this size and nature require a permit?

1 Thank

Glynn Blair, Kingsville · 4d ago
Regarding the sign and the door at what was known formerly as the Bonaparte Property, the sign was posted and the iron door was installed after obtaining permits. Let me remind that the decision after the Hearing was in favor of approving exception to start a place of worsh n after
a A well is dug to take care of water needs
b Sewage disposal is taken care of properly
c Access to road is obtained from State Highway department.
d Opening times were specified

So we are following the decision of the Hearing Court and have posted the sign and installed the door after obtaining the permits. We have started work on renovation of the building. We are finalizing the contract with the Engineering firms for the well and sewage. We have approached the State Highway Department for access to the road. In other words, we are following the order of the court, we are playing by the book. We have respect for the rules and regulation of the county and the country and we are going to abide by them.
In the mean time, we had invited our neighbors, given them a tour and told them our plans. We are very open to any legitimate concerns of our neighbors and ready to accommodate them.
But we are not going to drop our plans just because some of the neighbors don't like us and don't want us to use the place as our place of worship on flimsy reasons. We are very aware of how many new houses were built and how many expansions of other religious institutions were made in the last three years within a mile of our property. Right now, there are lots for new buildings for sale. Won't the people who live in those homes use water and roads? Won't the expanded church facility mean more cars and more use of water? We just want the same standards to be used for us as were used in other cases. This is fairness and to demand it is our right and we aren't going to walk away from this no matter how much pro reactions are made and how many challenges we have to go through. This is what our team of attorneys has told us and being lawful, peaceful citizens, we will take their advice. We strongly believe that it is our constitutional right to demand the same treatment as accorded to others and if needed, we will fight for our right to be treated equally and fairly, and every legal means to achieve it.

11 Thanks

Invitation to the Bonaparte Mansion Open House

Dear neighbors and friends,

We have not had an opportunity to meet all of you in person. We are your new neighbors. We met some of you at our property last year. The Greater Kingsville Civic Association helped us with two of these meetings last fall. This is the only civic organization we knew in the area at that time. We also came to find out about the Gunpowder Falls Watershed Preservation Association led by Mr. Dewey Clark at the hearing. We have then spoken with Mr. Clark a few times via e-mail and phone calls. We were also scheduled to meet with Mr. Clark on Feb 21st at our property but later received an email from Mr. Clark cancelling the meeting with no reason provided.

We think it is only appropriate to speak with our neighbors directly as some of the misinformation about of our temple, Nepali American Cultural Center (NACC) and our future plans are spreading on social media and other community forums. We have been respectful of people's comments and opinions however some of the comments here are very disheartening and not factual. We have always welcomed an opportunity to discuss some of the concerns raised in this discussion forum and we like to do more so, preferably in person to person. Some of you, we have not met have reached out to us with your love and support, we can't thank you enough. It means the world to us, specially knowing that we're welcome in your neighborhood. We will be a great neighbor and will preserve and protect the area as you would.

The vast majority of our members live only 5 to 10 miles away, right here in Perry Hall. Some of our children go to the same schools and many of us in the area know each other either through a church,

Originals to Board
+ 6 Copies

local businesses or from workplaces, so we are not strangers. Our temple will be open not only to Hindus and Buddhists but also to people from all faiths or even to people with no religious affiliations to join us in some of our community activities like meditation and yoga. Once we get a chance to speak with you and share our future plans for this site, we are quite sure, you will appreciate our plans for what once a vacant/abandoned mansion soon to become a place of worship.

Knowing this home with a historic importance to our nation, former residence of the US Attorney General and Secretary of the Navy, will be used for a religious purpose instead of other possible commercial usages or even potential developments, the neighbors, we hope, will take comfort in it.

We would like to invite you to our "Meeting the Neighbors" event on **Sunday, February 25th, at 3pm, right at our property (12231 Harford Road).** We have done quite a bit of cleaning up and maintenance of the property and would love to give you a tour. Please come and visit us next Sunday. We look forward to your love and support in the coming days.

Thank you,

Kris Ghimire, On Behalf of Nepali American Cultural Center (NACC)

Note: For more information on us and our project, I have enclosed our previous postings on Next door Kingsville by our board member Dr. Shyam Karki

STATEMENT FROM DR. SHYAM KARKI

Dear Friends,

I am Dr. Shyam Karki, an active member of the Nepali American Cultural Center (NACC) that has purchased the Bonaparte property and intends to initiate a Hindu Buddha Temple. I have lived in the USA for more than forty years. I currently live in the Longfield Estates neighborhood in Kinville. I have lived in Kingsville since 2004. My daughter lives in nearby Belair. The primary attraction of where we live is that it's a rural community with promise of little or no further development. We enjoy it because of its tranquil nature. I enjoy seeing deer and geese from my deck. I have great fun taking my grandson to the pond to feed the geese. It's like a nature resort, away from the noise and crowd of the city.

Bonaparte property is located within 5 miles of my house and I may be the Nepali living nearest to it. I will also be very much concerned about what is happening to the property. None of us wanted to see this beautiful mansion torn down and a developer rezoning the property to allow many houses to be built in its place. We believe the neighborhood is better served by keeping the property the way it always has been.

At the same time, let us remember what the condition of the property was before we purchased it. It was an abandoned property needing major repairs. The bank had taken it back and it was being auctioned off. Since it was in a very private location, it was used by the local youth to have wild parties with plenty of alcohol and drugs. We experienced this as the building was vandalized repeatedly and some of our property was stolen. Local residents routinely rode motorcycles and ATV's on the property, broke out most of the windows of the mansion, cut out and stole the copper water pipes, painted graffiti and racist words on the interior walls and generally ransacked the property. We had to warn strangers coming onto the property in pick-up trucks that we were the new owners and that we did not want any intruders coming on our property and that we would take action to prosecute them.

We installed locks at the gates and motion detector cameras around the building. We started renovating the building, which is almost now complete. Work is already under way for installing a new sewage system and a new well for drinking water. We have also hired a traffic consultant to study the traffic patterns so that safety for our visitors and neighbors would not be compromised. Our goal is to change this property from a community blight to a community showpiece that everyone can be proud of. We have started doing this and won't rest until we accomplish our goal.

One thing we know for sure is this. The Bonaparte Mansion and its 30 acres are way too much house and property for any single family to take care of. The cost to heat it in these winter months and to cool it in the summer months is too expensive for any one family. The cost of upkeep to the property and grounds is overwhelming for one family. Many of us have been working for many months and we still have not made the property habitable. This beautiful Mansion and property was falling into ruin. No one seemed to care! It requires a group of families such as ours to take the property over and restore it to its former glory. We were the only ones willing to put up our own money to restore this property.

Second, it's natural to be curious about who are the people buying the property and what do they want to do with it.

We are Nepalis who have moved to this country and live in and around the northern suburbs of Baltimore. We live in Kingsville, Belair, Towson, Perry Hall, White Marsh and the Parkville areas. We are no different from any of your other neighbors; we are nurses, doctors, teachers, engineers, army soldiers, police men, government employees, small business owners and employees working for others. We go to the same stores, malls, schools, restaurant places and gyms. We want better schools, safer roads, and all the things everyone else wants. Our children go to local schools, colleges and universities. They play sports in their schools and colleges. They are friends with your children and have adapted very well to this country. In other words, we are not different at all from the families next door. We are your neighbors.

Lastly, what do we want to do at the property?

We are mostly from Nepal. Nepal is a unique country where two major religions (Hinduism and Buddhism) have coexisted for centuries. You will find Hindu and Buddhist temples side by side and followers of both faiths go to each of these places to worship the same deities. There are different temples dedicated to different gods at different places. People also go to the temples during certain festivals. Nepali American (we like to call our community) is a new

communit / and we don't have our [1]own place of worship. We have realized that it's time for us to have our own place of worship v here we can celebrate our religious festivals and pass our cultura[2]l heritage to our children. It's happening in many ma jor cities in the US, (New York, Boston, Dallas, Los Angeles, Raleigh etc.) where there is a large Nepali American community. It's very similar to the movement seen by the such Korean and Chinese communities and other immigrant communities who have built their places of worship in Baltimore County.

Now it's important to note some major differences between Nepali temples and churches. Churches have their own parishioners and all of them go to the same church at the very same time. Christian Churches also have a leader or lecturer such as a priest or a pastor who will deliver a message during services. Nepalis do not have a priest or lecturer. Nepalis go to temple on major religious festivals at different times so that there is not a large gathering of people at any one time.

Churches have their parishioners and they go to the same church every Sunday. Nepalis don't have their own temple. We go to different temples for different festivals at different times. So, based on our experience in other Hindu temples (Indian temples), there will be less than 20 people coming to the temple on weekdays and less than 100 people coming on weekends. There are seven major religious festivals each year when 300-500 people may come to the temple, but they will visit at different times during the festival so that the number of people will not pose a problem. They will arrive at different times in the morning, daytime and evening. There is no set time as such.

We are familiar with Christian services as most of us have at least one member of our family who is married to a Christian and we have celebrated Christian religious holidays with them. We are very familiar with the church operations. Thus, park ing and traffic are not major issues with our Temples as compared to what we see with Christian churches. The oper: tions are very different from one another.

The mor ent we saw the Bonaparte property, we were mesmerized by it. The hills and the serpentine roads remind us of our homeland back in Kathmandu. Kathmandu is a valley surrounded by the hills and most of the temples are in the hills. The Bonaparte property is a very large property (30 acres). It is peaceful, away from the crowd and noise. Furthermore, it commands a wonderful view of the surrounding area just like the famous Swyambhu Hills of Kathmandu where temples are typically found. It is hard for us to believe that people would allow this house and property to fall into ruin.

We just fell in love with this place and we plan to use it as a place of worship and a place where we can teach our children about our religious heritage. We will provide language classes where people from our area of the world can learn to speak English. We will like to collaborate with the other religious organizations in the area, mobilize our resources to improve the quality of life in the community. We will like to work with them for organizing free meal programs during the Thanksgiving and Christmas Holidays and to provide for families who are not as fortunate as ours. We will welcome all of our neighbors who would like to learn more about us.

All summer we have worked very hard in bringing the grounds to shape, renovating the building and trying to bring this place to its old glory. We fully realize that it will take us years to accomplish our goal as we are limited by financial resources. However, we are very encouraged by the support we have received from Nepalis far away in different cities and other countries.

We want to work closely with our neighbors and have met with the neighborhood associations multiple times. We have welcomed our neighbors into our programs that we have organized in showing off the property to our community members. We want to work with them so that all of us will be happy. We have every intention of fulfilling all of the requirem :nts of Baltimore County. We have retained the services of an attorney, an engineer, a traffic expert and a water and sew : company to ensure that we have covered all aspects of our use and to comply with all County requirements. We are confident that we will be a very good neighbor to all and pledge to take care of this property and keep it properly maintained and to make this a place of community pride.

AFFIDAVIT OF Carol N. Shaw

I, Carol N. Shaw do hereby make oath in due form of law and state as follows:

1. I am over 18 years of age and competent to testify in this matter.

2. On June 22, 2018 , I observed the following:

   Dewey Clark and I met with Lieutenant Gretchen Yingling, Director of Recruitment for the Baltimore County Fire Department in the lobby of the Public Safety Building at 700 E. Joppa Road, Towson, MD 21204. We had asked to speak with a fire marshall and were under the impression that she was with the Fire Marshall's Office. At some point in the conversation, she said all of the fire marshalls were out of the building so she was asked to come down and speak with us. We took that to mean that she was a lieutenant in the Fire Marshall's Office.

   Since we were under the impression that we were talking to someone with the Fire Marshall's Office, we gave her our information regarding the public safety and fire hazard problems that exist at the house owned by the Nepali American Cultural Center at 12231 Harford Road, Glen Arm, 21057. We brought this up in connection with the very large festival/fundraiser that was advertised to be held at the Center the end of July 2018. She took notes and said she would follow up.

I HEREBY SWEAR AN AFFIRM UNDER THE PENALTIES OF PERJURY THAT THE AFOREGOING IS TRUE AND CORRECT UPON MY PERSONAL KNOWLEDGE.

AFFIDAVIT OF Dewey Clark

I, Dewey Clark do hereby make oath in due form of law and state as follows:

1. I am over 18 years of age and competent to testify in this matter.

2. On June 22, 2018 I observed the following:

   Carol Shaw and I met with Lt. Gretchen Yingling at the Public Safety Building at the Public Safety building located at 700 East Joppa Road in Towson, MD 21204. The purpose of our visit was to file a complaint with the Fire Marshall's Office about the use of the single-family residence located at 12231 Harford Road, Glen Arm, MD as a commercial venue without proper inspection and approval of the structure for life safety requirements by the Fire Marshall's Office.

   We filed our complaint in the lobby of the Public Safety Building with Lt. Gretchen Yingling. We understood (apparently mistakenly) that Lt. Yingling represented the Baltimore County Fire Marshall' Office. She took our complaint and told us she would forward it to the appropriate Fire Marshall, and that we would be contacted within several days.

   I was never contacted by anyone at the County Fire Marshall's Office about this matter.

I HEREBY SWEAR AND AFFIRM UNDER THE PENALTIES OF PERJURY THAT THE AFOREGOING IS TRUE AND CORRECT UPON MY PERSONAL KNOWLEDGE.

AFFIDAVIT OF Dewey Clark

I, Dewey Clark do hereby make oath in due form of law and state as follows:

1. I am over 18 years of age and competent to testify in this matter.

2. On June 22, 2018 I observed the following:

I met with Philbert Christian and Ms. Donna Kilduff at the office of Baltimore County Health and Human Services, Department of Health, Environmental Health Services, located at 6401 York Road, Baltimore, MD 21212.

The purpose of the meeting was to discuss concerns about the use of the single-residence property located at 12231 Harford Road, Glen Arm, MD as a commercial venue for large groups, without adequate sanitary facilities.

Ms. Kilduff informed me that her office enforces sanitary requirements for the handling of food. She was surprised to learn and seemed dismayed as a professional by the evidence of large crowds at the above property, without any apparent means to handle human waste.

I asked Ms. Kilduff about the record of gathering permits issued for this property and she could recall none. I asked her and subsequently repeated my request in writing, for a record of all gathering permits issued to the owners of the property located at 12231 Harford Road, Glen Arm, MD.

I HEREBY SWEAR AND AFFIRM UNDER THE PENALTIES OF PERJURY THAT THE AFOREGOING IS TRUE AND CORRECT UPON MY PERSONAL KNOWLEDGE.

I, Dewey Clark do hereby make oath in due form of law and state as follows:

1. I am over 18 years of age and competent to testify in this matter.

2. On June 22, 2018 I observed the following:

Carol Shaw and I visited the Baltimore County Inspection Department located at 111 West Chesapeake Avenue, Towson, MD 21204.

The purpose of this visit was to determine the status of permits issued to NACCB, Inc. for the property located at 12231 Harford Road, Glen Arm, MD--specifically, electrical permits, since we had just obtained photos of the exterior and interior lighting of the above property.

We spoke with Mr. Edward Riesner, Chief Inspector, Electrical and Mr. Matt Gawel, Acting Chief, Building Inspections. Upon reviewing the record of permits issued to the property in the last 18 months, both Mr. Riesner and Mr. Gawel confirmed that no permits had been issued for the property located at 12231 Harford Road, Glen Arm, MD.

I HEREBY SWEAR AND AFFIRM UNDER THE PENALTIES OF PERJURY THAT THE AFOREGOING IS TRUE AND CORRECT UPON MY PERSONAL KNOWLEDGE.

1. I am over 18 years of age and competent to testify in this matter.

2. On June 22, 2018, I observed the following:

   Dewey Clark and I met with Matt Gawel, Acting Chief Building Inspector for Baltimore County Department of Permits, Applications and Inspections and Ed Riesner, Electrical Inspections Supervisor for Baltimore County Department of Permits, Applications and Inspections to check whether any permits had been issued to the Nepali American Cultural Center for 12231 Harford Road, Glen Arm, MD 21057.

   Mr. Riesner said that there had not been any electrical permits issued. Mr. Gawel, the Building Inspector had pulled up the address of 12231 Harford Road on his PC to show any permits issued. In response to my question of "So there have been no permits issued?", he replied "Not in the past 18 months" to which I replied "They haven't even owned it that long".

I HEREBY SWEAR AN AFFIRM UNDER THE PENALTIES OF PERJURY THAT THE AFOREGOING IS TRUE AND CORRECT UPON MY PERSONAL KNOWLEDGE.

AFFIDAVIT OF Dewey Clark

I, Dewey Clark do hereby make oath in due form of law and state as follows:

1. I am over 18 years of age and competent to testify in this matter.

2. On May 3, 2018 I observed the following:

   Tom Kneeshaw and I visited Mr. Richard Zeller, State Highway Administration (SHA) Highway Access and Permits, at his office located at 320 West Warren Road, Hunt Valley, MD. The topic of discussion was the status of NACCB, Inc.'s progress in applying for a highway access permit for the property located at 12231 Harford Road, Glen Arm, MD.

   Mr. Zeller informed us that NACCB, Inc. had not yet responded to the November XXX, 2017 letter from District Engineer Wendy Wolcott detailing the requirements that needed to be met for an SHA State Highway Access permit.

   Mr. Zeller seemed dismayed at the NACCB, Inc.'s use of the property given they lacked this State Highway Access permit. He was surprised to learn the volume of use was much greater than he had been led to believe.

   When Mr. Zeller explained that NACCB, Inc. had been unable to generate a traffic pattern analysis, since NACCB, Inc.'s use would be so unique, we shared with Mr. Zeller a number of area temples that were presented at the ALJ hearing of Jan. 19, 2018 by Mr. Kotroco and Mr. Ghimire.

   Mr. Zeller stated that he needed to discuss this matter with his staff and the District Engineer.

I HEREBY SWEAR AND AFFIRM UNDER THE PENALTIES OF PERJURY THAT THE AFOREGOING IS TRUE AND CORRECT UPON MY PERSONAL KNOWLEDGE.

Mr. Zeller,

Thank you for getting back to me. I do not know if Baltimore County plans to act on the July 29-Aug 3 event. I have included Mr. Jablon (Dept Director County Permits and Zoning) and Robin Clark (Asst. Dir. County Zoning Enforcement) and our attorney, Carroll Holzer.

Mr. Zeller

This is in reference to the matter about which I wrote on June 21 2018. This concerns the use of a single property residence at 12231 Harford Rd. Glen Arm, MD as a commercial without a State Highway Access Permit and their internet advertising for a major fund raiser July 29-Aug 30, 2018.

Ms. Kristen Lewis
Baltimore County Department of
Permits, Approvals and Inspections
County Office Building, Room 109
Towson, Maryland 21204

Dear Ms. Lewis:

Thank you for the opportunity to review the site plan to accompany the petition for special exception, for a proposed church on the property at 12231 Harford Road (MD 147) located on the east side of MD 147 south of Mt. Vista Road in Baltimore County. The Maryland Department of Transportation State Highway Administration (MDOT SHA) has reviewed the submittal listed below and is pleased to respond.

12231 Harford Road
Site Plan Review for Special Exception
Case No. 2018-0122-X
SHA Tracking No. 17APBA030XX
MD 147 (east side) 1000' south of Mt. Vista Road
Mile Post 8.10
Baltimore County

The MDOT SHA requests the opportunity to review a trip generation analysis for this proposed development to determine the extent of road improvements needed to mitigate the traffic impact. This analysis should be sent to the District 4 Office, Ms. Wendy Wolcott, 320 West Warren Road, Hunt Valley, MD 21030 to the attention of Richard Zeller. Please utilize the above SHA tracking number when making this submission.

The MDOT SHA notes that the sight distance at the existing entrance on MD 147 when looking south is inadequate, and therefore recommends that the developer investigate the possibility of constructing a new access along the property frontage on MD 147 to accommodate this new development, where adequate sight distance could be achieved.

Whether a new access will be constructed, or safety improvements to the existing entrance (acceleration/deceleration lanes), an access permit will be required from the Access Management Office to construct the improvements.

If there are any questions, please contact Mr. Richard Zeller at 410-229-2332 or toll free (in Maryland only), 1-866-998-0367 (x2332) or by email at (rzeller@sha.state.md.us).

Sincerely,

Wendy Wolcott, P.L.A.

DID UNLAWFULLY VIOLATE THE FOLLOWING BALTIMORE COUNTY CODES AND/OR REGULATIONS:

County Codes/Regulations	Inspector's Comments
Other Violation(s)	B.C.Z.R- 1A01.2(C) -OPERATING A CHURCH OR BUILDING FOR RELIGOUS WORSHIP IN A RC2 ZONE WITHOUT OBTAING A SPECIAL EXCEPTION. B.C.C- 21-9-104(B)- HOLDING A PUBLIC ENTERTAINMENT OR GATHERING WITHOUT OBTAINING A GATHERING PERMIT. ALL ACTIVITIES MUST CEASE IMMEDIATLEY.

Failure to comply with this correction notice, may result in a $200.00 fine/penalty per day, per violation pursuant to BCC: 1-2-217, 32-3-602 and/or the County sending a contractor to correct the violation(s) at your expense. Call the inspector for more information and details.

COMPLIANCE DATE: 08/04/2017	INSPECTOR ID: 122
	ISSUED DATE: 07/30/2017

IMPORTANT INFORMATION TO THE PERSON'S CHARGED

1. It is important that you read this document carefully, as it charges you with the commission of a crime.
2. If you fail to correct the violations noted by the date dictated, a citation may be issued, and a trial scheduled at which you may be penalized by a fine, imprisonment, or both.
3. If the County is required to bring your property into compliance, all costs and fines shall become a lien and shall be collectible in the manner provided for collection of real estate taxes; or may be collected in the same manner as any civil money judgment or debt collected.
4. A lawyer can give important assistance to you:
   (a) on how to correct the violation(s) in order to avoid trial or
   (b) at trial, if you failed to correct the violation(s) noted. Assistance may be provided to determine whether there are any defenses to the charges against you or any circumstances helpful to you that should be brought to the trial. A lawyer can help you by developing and presenting information, which could effect how you correct the violation(s).
5. A conviction for each violation will subject you to potential fines of $200, $500, $1000 per day per violation, depending on the violation, or 90 days in jail, or both Baltimore County Code section 1-2-217 and 32-3-602.
6. It is your responsibility to obtain any required permit(s) to correct the cited violation(s). All repairs must be in accordance with applicable laws, Code of Baltimore County Regulations, and standards.
7. Upon correction of these violation(s), contact the inspector for re-inspection. If you have any questions contact the inspector promptly.

May 1 at 2:37pm

Thank you friends, thank you so much.

Our friends and supporters of the Hindu Buddha Mandir did it again. It's almost a year now since we bought the Bonaparte property with high hopes of changing the mansion to the temple. As a part of the process, we applied for exception to start worship services. We were expecting it a mere formality.

However, we were surprised to find that some members of the neighborhood were at the hearing to oppose our application citing its potential adverse (?) impact on the water resources and the traffic. We were surprised because there are 5 churches in the area, new houses are still being built and one of the churches had recently made a huge expansion.

Nevertheless, we had retained the services of a highly renowned lawyer, traffic and water resource experts. With their expert testimony and excellent legal arguments, our application, was approved and we started planning for resolving the issues of well, sewer and traffic entrance.

We were elated as we thought, finally we can start our project again. In the meantime, those who were opposed to the idea had a time period (30 days) to appeal the process. We had started preparation to bring the mansion back to shape so we could get certificate of occupancy. We invited our neighbors as a part of "Meet and Greet". More than 200 of them came and expressed their support and were glad that someone was taking care of the old mansion which was falling to pieces and this will put a stop to the site being used by some youths for drinking and doing drugs.

As we met our attorney, we got word that those opposed to our Mandir had appealed the decision and there will be another hearing and if we win this time, it can be appealed again. Thus the process can drag on for a long time; 2-4 years. He also mentioned that in light of the recent similar legal cases, we may need to hire constitutional expert lawyers. This will cost us money; money we had raised for changing the mansion to the Temple.

So naturally, it was a tense and nervous moment. We took time, met many community members, had discussions among us and our group of supporters. We were told that this site is so beautiful and it's so much like the Mandir sites back in Nepal, we need to build the Mandir at this site, no matter how long the legal battle will ensue and no matter how much expensive it will be.

So we planned an informal meeting in my house and more than $150,000 was pledged. Then we had New Year Celebrations at the Mt. Everest Restaurant for our volunteers and supporters as show of thankfulness and gratitude. Originally, we had planned to get a special gathering permit and do it at our temple. But because of the limitation imposed by the Court and we had not completed our renovation, we moved it to an offsite.

A group of 15-20 people went to the site and had a prayer meeting outside the building asking the gods and goddesses for their blessings and forgiveness that we had to move the New Year celebrations to off site. Incidentally, we saw two people at the gate within our property boundaries, checking on us and taking photos. Many of us found it very intimidating. We are exploring responses to such intimidating actions including 24 hour video surveillance, calling police and taking legal actions.

Evening started with a New Year greeting, songs and dances. Local artists joined by specially invited singer and dancer from Nepal performed to the delight of the gathering. Then we gave a brief update and raised funds. To our surprise, we collected more than $200,000.00. This was a symbol of the community's firm determination to have the temple at the same site and it was their way of saying, you go on and no matter what kind of issues, put a legal fight and we will back you up.

We are so glad that the community is resolute and determined to have the temple and will fight the court battle. Because we think that it is no more than prejudice, a barrier placed by a small group of people who don't seem to be not tolerant of any diversity and are using some nonexistent issues as pretexts for protracted legal fight hoping that it will discourage us and we will give up and leave.

AFFIDAVIT OF_Carol N. Shaw

I, Carol N. Shaw do hereby make oath in due form of law and state as follows:

1. I am over 18 years of age and competent to testify in this matter.

2. On May 3, 2018 , I observed the following:

   Dewey Clark, Robin Beers, Tom Kneeshaw and I met with Arnold Jablon, Director of Permits, Applications and Inspections for Baltimore County, Maryland in his office in the County Office Building, located in Suite 105 at 111 W. Chesapeake Avenue, Towson, MD. 21204. Among the topics discussed was the current status of the Nepali American Cultural Center located at 12231 Harford Road, Glen Arm, MD 21057.

   Mr. Jablon told us that the Cease and Desist Order issued through a code enforcement correction notice against the NACC on July 30, 2017 with a compliance date of August 4, 2017 (case # cc1708607) was back in effect since there was an Appeal to the Baltimore County Board of Appeals with regard to the Special Exception granted subsequent to the January 17, 2018 hearing heard by Administrative Law Judge Beverungen.

I HEREBY SWEAR AN AFFIRM UNDER THE PENALTIES OF PERJURY THAT THE AFOREGOING IS TRUE AND CORRECT UPON MY PERSONAL KNOWLEDGE.

Carol N. Shaw 7/12/18

AFFIDAVIT OF Dewey Clark

I, Dewey Clark do hereby make oath in due form of law and state as follows:

1. I am over 18 years of age and competent to testify in this matter.

2. On May 3, 2018, I observed the following:

   Carol Shaw, Robin Beers, Tom Kneeshaw and I met with Arnold Jablon, Director of Baltimore County Permits, Applications, and Inspections at his office located in suite 105 at 111 West Chesapeake Avenue in Towson, Maryland. The topic discussed was the status of NACCB, Inc.'s applications for the property located at 12231 Harford Road, Glen Arm, MD.

   Mr. Jablon informed us that our appeal vacated the Jan. 19, 2018 ALJ decision by Judge Beverungen (Case Number CC 1708607) granting NACCB, Inc. a Special Exception for the property located at 12231 Harford Road, Glen Arm, MD. He emphasized that the Cease and Desist Order of August 4, 2017 was in effect as a result.

I HEREBY SWEAR AND AFFIRM UNDER THE PENALTIES OF PERJURY THAT THE AFOREGOING IS TRUE AND CORRECT UPON MY PERSONAL KNOWLEDGE.

* * * * * * * * * * * *

AFFIDAVIT OF THOMAS A KNEESHAW

I, Thomas A Kneeshaw, do hereby make oath in due form of law and state as follows:

1. I am over 18 years of age and competent to testify in this matter.

2. On May 3, 2018, I observed the following:

   Myself, Dewey Clark, Carol Shaw and Robin Beers attend a meeting with Arnold Jablon, Director of Permits, Applications and Inspection for Baltimore County, at his office at 111 W Chesapeake Ave, Towson, MD 21204. The discussion centered around the NACCB property located at 12231 Harford Rd, Glen Arm, MD 21057.

   Mr. Jablon expressed his opinion that since the ALJ Special Exception decision was under appeal that the previously issued Cease and Desist Order (CC1708607), issued on July 30, 2017, was still in force.

I HEREBY SWEAR AN AFFIRM UNDER THE PENALTIES OF PERJURY THAT THE AFOREGOING IS TRUE AND CORRECT UPON MY PERSONAL KNOWLEDGE.

July 1, 2018

Re: 12231 Harford Road

Mr. Ghimire,

It has come to our attention that there have been advertisements for an event at your property located at 12231 Harford Rd. to be held from July 29 to August 3. There have also been allegations of health code violations, including photos, submitted to us by concerned neighbors.

I am aware of the hearing before the Administrative Law Judge, and notwithstanding the approval Judge Beverungen granted, there has been no compliance with the terms and conditions as set out in that decision. Because these terms have not been met, any event such as that which is being advertised will constitute a violation of that order and a violation of the zoning regulations, as well as possible violations of the health code. If your organization holds this scheduled event, an immediate citation will be issued.

Sincerely,

Lionel van Dommelen, Chief

Bonaparte Mansion in RED, WHITE & BLUE in honor of our Independence Day

We will be celebrating the 4th of July by lighting our building RED, WHITE & BLUE this evening at 8:30 pm. If you have not already made plans please stop by for a few minutes to see our newly renovated building that would illuminate in red, white and blue in the honor of brave men & women who protect us from harm. We would love to have you join us.

God Bless America!

Bonaparte Property - Meet and greet with our new neighbors

Dear neighbors and friends,

We have not had an opportunity to meet all of you in person. We are your new neighbors. We met some of you at our property last year. The Greater Kingsville Civic Association helped us with two of these meetings last fall. This is the only civic organization we knew in the area at that time. We also came to find out about the Gunpowder Falls Watershed Preservation Association led by Mr. Dewey Clark at the hearing. We have then spoken with Mr. Clark a few times via e-mail and phone calls.

We think it is only appropriate to speak with our neighbors directly as some of the misinformation about of our temple (Nepali American Cultural Center) and our future plans are spreading in this and other forums. We have been respectful of people's comments and opinions however some of the comments here are very disheartening and not factual. We have always welcomed an opportunity to discuss some of the concerns raised in this discussion forum and we like to do more so, preferably in person to person. Some of you, we have not met have reached out to us with your love and support, we can't thank you enough. It means the world to us, specially knowing that we're welcome in your neighborhood. We will be a great neighbor and will preserve and protect the area as you would.

The vast majority of our members live only 5 to 10 miles away, right here in Perry Hall. Some of our children go to the same schools and many of us in the area know each other either through a church, local businesses or from workplaces, so we are not strangers. Our temple will be open not only to Hindus and Buddhists but also to people from all faiths or even to people with no religious affiliations to join us in some of our community activities like meditation and yoga. Once we get a chance to speak with you and share our future plans for this site, we are quite sure, you will appreciate our plans for what once a vacant/abandoned mansion soon to become a place of worship.

Knowing this home with a historic importance to our nation, former residence of the US Attorney General and Secretary of the Navy, will be used for a religious purpose instead of other possible commercial usages or even potential developments, the neighbors, we hope, will take comfort in it. We'll separately post how the day to day operations will run once it opens or we can share it with you in person.

We would like to invite you to our "Meeting the Neighbors" event on Sunday, February 25th, at 3 pm. Address is 12231 Harford rd. We have done quite a bit of cleaning up and maintenance of the property and would love to give you a tour. Please come and visit us next Sunday. We look forward to your love and support in the coming days.

Thank you,

Nepali American Cultural Center (NACC)

A.K.A. Hindu Buddha Mandir (Note "Mandir" means a temple)

Dew, I was not living here at the time. In fact, I was only 18. But I'm not disagreeing with your points, nor do I wish for anything other than an amicable outcome. The zoning board made their decision, and as with any other decision of that matter, there is an avenue for you to appeal--which you are doing.

To be clear, I have no dog in this fight. But whatever the outcome of the appeal, you will be neighbors regardless and unless you want tension indefinitely, maybe everyone should just handle this in accordance with the county's process and work together from there.

Thank 1 Thank Ida Thompson, Long Green Valley · 2h ago
Unlike many of these folks here, we live right down Harford Rd from your new place of meditation and community and we welcome you. Contrary to the rumors that are circulating, we haven't heard any loud music and cavorting into the late evening nor have we been any more inconvenienced by traffic jams than we are when Redeemer kids are going to and leaving school or when St. John is having church, school or other functions. We are excited to come up and visit and meet our new neighbors. We will be at your open house and hope to come to future events. This is a simple case of NIMBY.

Thank 9 Thanks Mike Habersack, Long Green Valley · 2h ago
Dew- boards like this tend to devolve into lobbing shots and are all heat with no light. Tom, Morgan, myself were the first locals at the initial meeting in August as were David M and Chris M. The Bonaparte folks and their lawyer were there and focused solely on renovations to the old building and paint. We toured the building and I left wondering how 500+ visitors used the one jon I saw. They wanted to reach out to the community back then and it appears they will be doing that next week. They even discussed signing a covenant with the neighbors that no more than 20 people would be there a ever. A few weeks later, they had an event with more than 200 guests.

Odd timing for a warm and fuzzy open house- they would have been smarter to do it last fall, but now see that there is considerable opposition and are late with any olive branch. After the first meeting, their Facebook went dark (so much for openness) but we have all archived images online prior to going dark that prove they have no intention on staying small. I have their donor list and amounts, and they're not as poor as the GoFundMe they offer for public consumption.

Also- research FB to see who supports whom; follow the money,and you will learn who supports this and who does not. Focus on events, dinners, donors, who is there. We're watching, and the internet never forgets.

Thanked! 3 Thanks Dew Clark, Long Green Valley · 1h ago
Mike,

It is all ok with me. This is America and everyone is entitled to their views until it conflicts with someone else's rights. And that is what the Courts are for. It is a shame someone seems to have removed Kris Ghimirie from the equation. We were really trying to find common ground. To quote Kurt Vonnegut "So it goes".

As do you, we require more than fine words. And the Court will force that issue. Please introduce yourself on the 28th!

1 Thank

Nepali American, Long Green Valley · 42m ago

Dewey,

No one has replaced Kris, we work as a team. And as always we are open to discuss and find common ground. Kris will call you Monday.

Thank Dew Clark, Long Green Valley · Just now New

Good to hear. He has my number.

Dear Friends,

Mark your calendar, July 28- Aug 3 and keep as many days free as posible during the week so that you can join all of your friends to celebrate the Mahapuran Saptah at the Hindu Buddha Mandir campus. You will be mesmerized by the green vista of the 31 acre campus and feel the serenity of the atmosphere.

You will feel proud of what our community has accomplished in preserving the cultural and religious heritage and where we can bring our children to share and learn our heritage.

Friends, all this has been posible only through your generousity, unrelenting hard work of many dedicated volunteers and the trust and confidence you have palced in all of us in making it happen.

So come and join us. Invite your out of state friends and family members to show this jewel of the community to which you have common ownership. It's the Cultural Center and the Mandir of all Baltimore Nepali American Community members and it belongs to all of us. Make sure that you come and sign your name at the Owner's Book. Imagine how your grandhildren will feel 50 years from now when they read your names on the book.

Young lady at the center is my niece Minu (granddaughter of my Thulo Mama and daughter of Sandal) and was very nice to drive Dinesh and his family to our house. I still remember many fun times I had spent with Sandal in Jawalakhel talking about so many interesting stories.

know, the proposed parking is right over the septic system, okay.

JUDGE BEVERUNGEN: Is that a question?

MR. CLARK: That's a statement, you know.

JUDGE BEVERUNGEN: Okay. Well, you need to just ask him a question.

MR. CLARK: Okay. What, is it possible-- thank you Your Honor. Is it possible that that parking spaces are over the existing septic system?

MR. MOTSCO: There--

MR. CLARK: Is it possible?

MR. MOTSCO: There's no record of where the septic--

MR. CLARK: Is it possible?

MR. MOTSCO: Can I finish the statement?

JUDGE BEVERUNGEN: Yeah. Go ahead.

MR. MOTSCO: There's no record of the septic system. And if this Special Exception is granted the Petitioners intend to replace the septic system with a current system and to install a new (inaudible).

MR. CLARK: So, why is that not on the, on the site plan?

MR. MOTSCO: Because that work has not been initiated (inaudible).

MR. CLARK: So, so, in fact, there are other plans

for this site other than the parking lot?

MR. MOTSCO: There's a replacement of a well and septic.

MR. CLARK: There are other, there are other plans for development other than this parking lot?

MR. MOTSCO: Replacing the well and septic for an existing structure (inaudible).

MR. CLARK: Okay. Another question. You testified that there are, there are no ecological or habitat disturbance. Are you qualified to answer that question? Do you have a degree in Forestry?

MR. MOTSCO: I'm qualified to observe (inaudible). (Inaudible) is the area that will be disturbed.

MR. CLARK: Do you, do you, do you, no, but you testified that the, the forest and the other areas will not, will not be impacted. Do you have a degree in Forestry?

MR. MOTSCO: I can (inaudible) the limits of the disturbance (inaudible).

MR. CLARK: That is not what you testified to.

MR. MOTSCO: (Inaudible)--

MR. CLARK: That is not what you testified to.

MR. MOTSCO: We have no proposed impacts (inaudible)--

MR. CLARK: That is not what you testified to. You testified that there was no impact to the forest. Do you

AFFIDAVIT OF THOMAS A KNEESHAW

I, Thomas A Kneeshaw, do hereby make oath in due form of law and state as follows:

1. I am over 18 years of age and competent to testify in this matter.

2. On February 25, 2018, I observed the following:

   I attended a "meet and greet" session sponsored by the NACCB, at their facility located at 12231 Harford Rd, Glen Arm, MD 21057.

   I estimate that there were between 150 and 200 people attending the event.

   I did not see any toilet facilities, "spot-a-pots" or hand washing facilities anywhere on the property.

   Light refreshments were being served in the gazebo on the property.

I HEREBY SWEAR AN AFFIRM UNDER THE PENALTIES OF PERJURY THAT THE AFOREGOING IS TRUE AND CORRECT UPON MY PERSONAL KNOWLEDGE.

AFFIDAVIT OF_Ronald Standiford and Darby Standiford, his wife.

We, Ronald and Darby Standiford do hereby make oath in due form of law and state as follows:

1. We are over 18 years of age and competent to testify in this matter.
2. On a Sunday afternoon in late Spring of 2017, we observed the following:

Four Nepalese persons were walking on the property of Redeemer Presbyterian Church, where we reside at 6415 Mount Vista Road, Kingsville, MD 21087; consisting of an older man and woman, who had come to this county within the month from Nepal and were in Nepalese native dress, along with their son with his wife in Americanized dress. We approached and greeted them. They stated they were originally from Nepal and we understood came to see the Hindu Mandir property. They had driven their car to our place where they were looking for a bathroom. Since we were near the church building, we unlocked the door for them to use the bathroom. Then we said our goodbyes.

WE HEREBY SWEAR AN AFFIRM UNDER THE PENALTIES OF PERJURY THAT THE AFOREGOING IS TRUE AND CORRECT UPON MY PERSONAL KNOWLEDGE.

AFFIDAVIT OF Morgan Miner

I, Morgan Miner do hereby make oath in due form of law and state as follows:

1. I am over 18 years of age and competent to testify in this matter.
2. On February 25, 2018 , I observed the following:

A lack of toilet facilities/port-a-pots available for those attending the open house, along with a lack of hand washing facilities, despite the fact that food was being served at this event. There were also exposed electrical wires and partially chipped up tiles in the upstairs hallways which posed a safety hazard for those in attendance.

Original

IN THE MATTER OF:

PETITIONS FOR SPECIAL EXCEPTION
CASE NO. 2018-0122-X
PROPERTY: 12231 HARFORD ROAD

Hearing Date: January 17, 2018

Pursuant to Notice, the above-entitled hearing was held before the Administrative Law Judge for Baltimore County at the Administrative Law Building, 11101 Gilroy Road, Hunt Valley, Maryland 21031, commencing at 1:20 P.M.

JUDGE BEVERUNGEN, PRECIDING

PRESENT ON BEHALF OF THE PARTIES:

ON BEHALF OF THE APPELLEES/PETITIONERS:

TIMOTHY KOTROCO, ESQUIRE

ON BEHALF OF THE APPELLANT/PROTESTANTS:

DeWITT CLARK, (PRO SE)

Debbie H. Eichner
8101 Bletzer Road
Baltimore, Maryland 21222

MR. KOTROCO: Well, let me clear one thing up. You haven't had any religious services whatsoever at this property, is that right?

MR. GIMORY: None.

MR. KOTROCO: Nothing?

MR. GIMORY: No.

MR. KOTROCO: The buildings not even occupiable at this point? It was freezing cold the other day when I was in there. You don't have heat?

MR. GIMORY: No.

MR. KOTROCO: Because you don't have water?

MR. GIMORY: No water.

MR. KOTROCO: And, and it's a hot water boiler system. So, if you don't have water you don't have heat?

MR. GIMORY: That's correct.

MR. KOTROCO: The water hasn't been connected up yet?

MR. GIMORY: No.

MR. KOTROCO: When you bought the property the neighbors or vandals or somebody went in and they cut all the copper pipes out and stole them all?

MR. GIMORY: (Inaudible)--

MR. KOTROCO: So, you don't have any water?

MR. GIMORY: Yeah. It was in bad shape. Yes.

MR. KOTROCO: In bad shape. I'm going to get

MR. MOTSCO: No.

MR. CLARK: So, they are currently operating a house of worship without the benefit of, of proper permission?

MR. KOTROCO: Objection Your Honor. He's assuming facts not in evidence. As a matter of fact, there's no heat, no water, nobody using that building at this time.

MR. CLARK: Your Honor, he testified that he saw the, he saw the house of worship.

MR. KOTROCO: The area, what's going to be the area that they worship--

JUDGE BEVERUNGEN: Hold on a second. I, I, people aren't going to be yelling back and forth.

MR. CLARK: Right.

JUDGE BEVERUNGEN: We're not going to do that. The witness said, he observed an open two story space that would be used for worship I thought is, is what he said. You now want to ask him if worship is taking place?

MR. CLARK: No. He, I, if it is zoned for worship? If it is currently zoned for worship?

JUDGE BEVERUNGEN: Well, we know that it's because we're here today (inaudible)--

MR. CLARK: That's right. That's, that's my poir Your Honor.

JUDGE BEVERUNGEN: (Inaudible)--

MR. CLARK: Yes sir. Yes sir.

JUDGE BEVERUNGEN: Okay.

MR. CLARK: Now, you, you were in the building, right?

MR. MOTSCO: Yes sir.

MR. CLARK: You, you examined the building head to toe?

MR. MOTSCO: I examined the majority of the rooms (inaudible)--

MR. CLARK: Okay. Do they have adequate toilet facilities for 150 people?

MR. MOTSCO: I do not know. That was not (inaudible)--

MR. CLARK: You do not know that? Okay. Fine.

UNIDENTIFIED SPEAKER: He wouldn't be able to to know that.

Septic

MR. CLARK: When you visited the property, and on your site plan I don't see the location of the septic system. Do you know where the septic system is?

MR. MOTSCO: It will be--

MR. CLARK: No. Do you know where the septic system is now?

MR. MOTSCO: No.

MR. CLARK: No. For all we know the, the prop-- now, I do know, behind the house Your Honor is a wetland. So, I know the septic systems not back there. For all we

know, the proposed parking is right over the septic system, okay.

JUDGE BEVERUNGEN: Is that a question?

MR. CLARK: That's a statement, you know.

JUDGE BEVERUNGEN: Okay. Well, you need to just ask him a question.

MR. CLARK: Okay. What, is it possible-- thank you Your Honor. Is it possible that that parking spaces are over the existing septic system?

MR. MOTSCO: There--

MR. CLARK: Is it possible?

MR. MOTSCO: There's no record of where the septic--

Septic

MR. CLARK: Is it possible?

MR. MOTSCO: Can I finish the statement?

JUDGE BEVERUNGEN: Yeah. Go ahead.

MR. MOTSCO: There's no record of the septic system. And if this Special Exception is granted the Petitioners intend to replace the septic system with a current system and to install a new (inaudible).

MR. CLARK: So, why is that not on the, on the site plan?

MR. MOTSCO: Because that work has not been initiated (inaudible).

MR. CLARK: So, so, in fact, there are other plans

for this site other than the parking lot?

MR. MOTSCO: There's a replacement of a well and septic.

MR. CLARK: There are other, there are other plans for development other than this parking lot?

MR. MOTSCO: Replacing the well and septic for an existing structure (inaudible).

MR. CLARK: Okay. Another question. You testified that there are, there are no ecological or habitat disturbance. Are you qualified to answer that question? Do you have a degree in Forestry?

MR. MOTSCO: I'm qualified to observe (inaudible). (Inaudible) is the area that will be disturbed.

MR. CLARK: Do you, do you, do you, no, but you testified that the, the forest and the other areas will not, will not be impacted. Do you have a degree in Forestry?

MR. MOTSCO: I can (inaudible) the limits of the disturbance (inaudible).

MR. CLARK: That is not what you testified to.

MR. MOTSCO: (Inaudible)--

MR. CLARK: That is not what you testified to.

MR. MOTSCO: We have no proposed impacts (inaudible)--

MR. CLARK: That is not what you testified to. You testified that there was no impact to the forest. Do you

AFFIDAVIT OF Dewey Clark

I, Dewey Clark do hereby make oath in due form of law and state as follows:

1. I am over 18 years of age and competent to testify in this matter.

2. On July 9, 2018 I observed the following:

   On the advice of Mr. Kevin Weis, Chief, Baltimore Division, Maryland Dept. of the Environment I met with Mr. Vincent Gardina, Director, Dept. of Environmental Protection and Sustainability, Baltimore County, located at 111 West Chesapeake Avenue, Towon, MD 21204.

   Mr. Gardina saw me immediately and already had my letters of concern on his desk. We discussed the threat to the degradation to the Gunpowder Watershed and the threat to the community health posed by improper handling of human waste at the single-resident property located at 12231 Harford Road, Glen Arm, MD.

   I informed Mr. Gardina that this property is being used by NACCB, Inc. as a commercial event venue hosting large groups. I showed Mr. Gardina some of our evidence. Our conversation included the testimony provided by NACCB, Inc. at the ALJ hearing before Judge Beverungen on January 19, 2018, which stated the property had no working septic, no potable water, and the plumbing had been stripped out of the building.

   Carol Shaw joined the meeting with Mr. Gardina and me after Mr. Gardina and I had been talking for about 30 minutes.

   Mr. Gardina confirmed that no permits had been issued for well or septic installations.

   On July 10, 2018 Mr. Gardina provided me an email copy of the enforcement order issued by Mr. Van Dommelen to the NACCB, Inc. on July 1, 2018 regarding their use of the property without any of the required permits.

I HEREBY SWEAR AND AFFIRM UNDER THE PENALTIES OF PERJURY THAT THE AFOREGOING IS TRUE AND CORRECT UPON MY PERSONAL KNOWLEDGE.

AFFIDAVIT OF Carol N. Shaw

I, Carol N. Shaw do hereby make oath in due form of law and state as follows:

1. I am over 18 years of age and competent to testify in this matter.

2. On July 9, 2018, I observed the following:

   Dewey Clark and I met with Vincent Gardina, Director, Department of Environmental Protection and Sustainability, Baltimore County, Maryland in his office located at 111 West Chesapeake Avenue, Suite 319, Towson, MD. 21204.

   Dewey Clark and Vince Gardina had been talking for some time before I entered the office. While I was in attendance at the meeting, we discussed with Mr. Gardina some of the testimony provided by NACCB at the Administrative Law Judge hearing before Judge Beverungen on January 19, 2018 including the fact that they admitted they had no working well or septic and that the copper pipes had been taken from the building.

   We informed Mr. Gardina that we could find no evidence of permits issued for a well or septic which Mr. Gardina confirmed.

I HEREBY SWEAR AN AFFIRM UNDER THE PENALTIES OF PERJURY THAT THE AFOREGOING IS TRUE AND CORRECT UPON MY PERSONAL KNOWLEDGE.

Carol N. Shaw 7/17/18

AFFIDAVIT OF Dewey Clark

I, Dewey Clark do hereby make oath in due form of law and state as follows:

1. I am over 18 years of age and competent to testify in this matter.

2. On June 22, 2018 I observed the following:

I met with Philbert Christian and Ms. Donna Kilduff at the office of Baltimore County Health and Human Services, Department of Health, Environmental Health Services, located at 6401 York Road, Baltimore, MD 21212.

The purpose of the meeting was to discuss concerns about the use of the single-residence property located at 12231 Harford Road, Glen Arm, MD as a commercial venue for large groups, without adequate sanitary facilities.

Ms. Kilduff informed me that her office enforces sanitary requirements for the handling of food. She was surprised to learn and seemed dismayed as a professional by the evidence of large crowds at the above property, without any apparent means to handle human waste.

I asked Ms. Kilduff about the record of gathering permits issued for this property and she could recall none. I asked her and subsequently repeated my request in writing, for a record of all gathering permits issued to the owners of the property located at 12231 Harford Road, Glen Arm, MD.

I HEREBY SWEAR AND AFFIRM UNDER THE PENALTIES OF PERJURY THAT THE AFOREGOING IS TRUE AND CORRECT UPON MY PERSONAL KNOWLEDGE.

AFFIDAVIT OF Carol N. Shaw

I, Carol N. Shaw do hereby make oath in due form of law and state as follows:

1. I am over 18 years of age and competent to testify in this matter.

2. On July 16, 2018, I observed the following:

   Dewey Clark and I again went to the Baltimore County Office Building, 111 West Chesapeake Avenue, Towson, MD. 21204 to visit with Matt Gawel, Acting Chief Building Inspector who is located in G-21.

   The purpose of the visit was to determine whether or not any permits had been issued to NACCB for 12231 Harford Road, Glen Arm, MD. 21057. I then met with Matt Gawel to determine permit status.

   After inputting the address into his PC, Matt Gawel showed me where he had located 12231 Harford Road and showed me that the only permit issued in the last 18 months had been for a gate. He stated that his computer records only go back for 18 months and that any permits issued before that would have to be requested from the archive. I told him that the current owner had not even owned the property for 18 months so what was shown on his PC was sufficient.

   I then asked him if I could have a copy of the two-page record for 12231 Harford Road, Glen Arm, MD. 21057 which showed that the only permit issued in the last 18 months was the one for the gate. He said that was possible if I filled out a Freedom of Information Act request form which I did and returned to him. He then provided me with the record.

I HEREBY SWEAR AN AFFIRM UNDER THE PENALTIES OF PERJURY THAT THE AFOREGOING IS TRUE AND CORRECT UPON MY PERSONAL KNOWLEDGE.

AFFIDAVIT OF Dewey Clark

I, Dewey Clark do hereby make oath in due form of law and state as follows:

1. I am over 18 years of age and competent to testify in this matter.
2. On July 16, 2018 I observed the following:

Carol Shaw and I visited the Baltimore County Inspection Department located at 111 West Chesapeake Avenue, Towson, MD 21204.

The purpose of this visit was to determine the status of permits issued to NACCB, Inc. for the property located at 12231 Harford Road, Glen Arm, MD.

Carol Shaw met with Mr. Matt Gawel to determine if any permits had been issued to NACCB, Inc. for the property located at 12231 Harford Road, Glen Arm, MD.

Upon reviewing the record of permits issued to the property in the last 18 months, Mr. Gawel confirmed that no permits had been issued for the property located at 12231 Harford Road, Glen Arm, MD.

Mr. Gawel provided Carol Shaw with a copy of the record for all permits issued to the above property owner in the last 18 months.

I HEREBY SWEAR AND AFFIRM UNDER THE PENALTIES OF PERJURY THAT THE AFOREGOING IS TRUE AND CORRECT UPON MY PERSONAL KNOWLEDGE.

MR. KOTROCO: Okay. And you make it more complicated because you follow the lunar calendar, right?

MR. GIMORY: Yes. Right.

MR. KOTROCO: I got you. So, on those days then, now, are those held inside or outside? Those festivals?

MR. GIMORY: Those festival, they, I mean, it's, it's, it can be, it can be done outside.

MR. KOTROCO: Uh-huh.

MR. GIMORY: Yeah.

MR. KOTROCO: Weather permitting or--

MR. GIMORY: Weather permitting.

MR. KOTROCO: --if it's raining you might go inside?

MR. GIMORY: More like a festival. (Inaudible) could have that (inaudible).

MR. KOTROCO: Well, I guess they're concerned about noise. How much noise do you make at one of these festivals? Is there music?

MR. GIMORY: We could have music. We could, you know, the music could be, the buildings, it's (inaudible). And once it's all done everything is. The microphone (inaudible) will be stationed inside the building. So it, not necessarily the mike will be stationed outside (inaudible).

MR. KOTROCO: Okay.

MR. GIMORY: Outside the (inaudible).

IN RE: PETITION FOR SPECIAL EXCEPTION * BEFORE THE
(12231 Harford Road)
11th Election District * OFFICE OF
5th Council District
Nepali American Cultural Center * ADMINISTRATIVE HEARINGS
Legal Owner

* FOR BALTIMORE COUNTY

Petitioner * Case No. 2018-0122-X

* * * * * * * * * * * *

OPINION AND ORDER

This matter comes before the Office of Administrative Hearings (OAH) for consideration of a Petition for Special Exception filed on behalf of Nepali American Cultural Center, legal owner ("Petitioner"). The Special Exception was filed pursuant to the Baltimore County Zoning Regulations ("B.C.Z.R.") to allow a church or other building for religious worship on property zoned RC-2.

Professional engineers John Motsco and Joe Caloggeri appeared in support of the petition. Timothy M. Kotroco, Esq. represented the Petitioner. Numerous citizens attended the hearing and objected to the request. Substantive Zoning Advisory Committee (ZAC) comments were received from the Department of Planning (DOP), the Bureau of Development Plans Review (DPR), State Highway Administration (SHA) and the Department of Environmental Protection and Sustainability (DEPS). None of the reviewing agencies objected to the request.

The subject property is approximately 30.8 acres and is zoned RC-2. The property is improved with an historic single-family dwelling and several outbuildings. Petitioner purchased the property last year, at which time it was rundown and abandoned. Photographs submitted at the hearing reveal extensive vandalism to the property which occurred both before and after Petitioner purchased the property. Petitioner is in the process of renovating the property, and estimates that

at least 4-5 months of additional restoration work needs to be done before the property can be used by the congregation.

Special Exception

Doug Burgess, an attorney with a law office in the area, testified a special exception use enjoys a presumption that it is in the interest of the general welfare, and therefore, valid. *Schultz v. Pritts*, 291 Md. 1 (1981). The *Schultz* standard was revisited in *Attar v. DMS Tollgate, LLC*, 451 Md. 272 (2017), wherein Maryland's highest court discussed the nature of the evidentiary presumption in special exception cases. The court again emphasized a special exception is properly denied only when there are facts and circumstances showing that the adverse impacts of the use at the particular location in question would be above and beyond those inherently associated with the special exception use.

Mr. Motsco, a professional engineer accepted as an expert, explained the site plan in detail and said he has visited the property on several occasions. He testified the property is approximately 30.8 acres in size and is zoned RC-2. The witness noted the site has mature wooded buffers along all road frontages, and he testified Petitioner is not at this time proposing any new construction on the site. In conclusion, Mr. Motsco opined Petitioner satisfied each of the requirements set forth at B.C.Z.R. §502.1.

Several citizens testified in opposition to the proposal. Though each witness expressed concern with how the project may impact them individually, there were common themes in the testimony. Traffic conditions and roadway safety, and a concern for water wells and private sewage disposal, were the most frequently cited concerns. Many neighbors also complained about several events or gatherings at the site which generated a significant amount of noise. With the exception of the complaints about noise (which will be addressed in a condition included in the

final order), these concerns are inherent in the operation of a church or building for worship located in a rural area. In other words, most uses for which a special exception is required are regarded as "potentially troublesome because of noise, traffic, congestion…." *Montgomery County v. Butler*, 417 Md. 271, 297 (2010).

In rural zones especially roadways are often antiquated and overburdened, and water/sewer services are not provided by the County. Harford Road will be used to access the site, and as a state highway it is under the control and jurisdiction of the State Highway Administration (SHA). As Mr. Caloggeri (a professional engineer accepted as an expert) testified, the SHA, not Baltimore County, will examine the proposed access and determine whether improvements or other measures are necessary to ensure safe ingress/egress from the site.

As noted in the conditions below, Petitioner must obtain approval from Baltimore County for installation of well and septic systems for this property. Ronald Standiford, pastor of the adjacent Redeemer church, noted that the Christian school affiliated with the church has approximately 220 students and the well and septic system are sufficient. According to witnesses in Petitioner's case, far fewer people will visit this site on a daily basis, and thus there is no reason to believe the water supply and sewerage system would not be adequate.

THEREFORE, IT IS ORDERED this **22nd** day of **January, 2018**, by this Administrative Law Judge, that the Petition for Special Exception to allow a church or other building for religious worship on property zoned RC-2, be and is hereby GRANTED.

The relief granted herein shall be subject to the following:

1. Petitioner may apply for necessary permits and/or licenses upon receipt of this Order. However, Petitioner is hereby made aware that proceeding at this time is at its own risk until 30 days from the date hereof, during which time an appeal can be filed by any party. If for whatever reason this Order is reversed, Petitioner would be required to return the subject property to its original condition.

2. Petitioner must submit for approval by Baltimore County landscape and lighting plans for the site.
3. Prior to operating a religious facility at the site Petitioner must install a sign at the Harford Road access point (in compliance with the B.C.Z.R. §450) containing the name of the facility and street address.
4. Prior to issuance of occupancy permits, Petitioner must demonstrate to DEPS that the well and septic system proposed will be sufficient to serve the facility.
5. Prior to issuance of permits Petitioner must comply with the ZAC comment of DEPS, a copy of which is attached hereto and incorporated herein.
6. Prior to issuance of permits Petitioner must obtain from SHA an access permit authorizing ingress and egress from the site via Harford Road.
7. Special events held at the site shall be limited to the hours of 10 a.m. to 10 p.m., and outdoor amplification of music or sound shall not be permitted.

Any appeal of this decision must be made within thirty (30) days of the date of this Order.

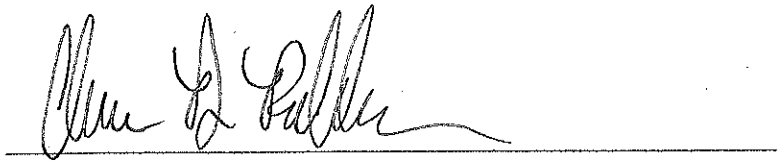
AFFIDAVIT OF CLARENCE D. POEHLER

I, Clarence D. Poehler, do hereby make oath in due form of law and state as follows:

1. I am over 18 years of age and competent to testify in this matter.
2. On June 17th, June 21st and July 4th, 2018, I observed the following:

   While on my property, I heard excessive amplified music and heard crowds of people cheering.

I HEREBY SWEAR AND AFFIRM UNDER THE PENALTIES OF PERJURY THAT THE AFOREGOING IS TRUE AND CORRECT UPON MY PERSONAL KNOWLEDGE.



Appendix 34

they charged you with that responsibility?

MR. GIMORY: That, that is correct. (Inaudible) -- most of them are tasked with this, you know, with this job. So, we were looking around. Couldn't find a suitable property for what we're trying to do. Especially I can't, if I, if I may give you a little bit of background?

MR. KOTROCO: Go ahead.

MR. GIMORY: A temple in Nepal, and, and also in India, (inaudible) is above the hill, like in kind of quiet place. You know, it's like a (inaudible) style. It doesn't really have a lot of seatings. People could come and go and visit and go back. You know, but it's not like you have a mas (inaudible). So, when we saw this property sitting on top of hill with thirty acres, not having any, anybody in near proximity, and we thought this is the perfect location (inaudible) we could, we could find.

MR. KOTROCO: Well, how did you find it? Wer you just driving by one day and saw --

MR. GIMORY: Oh, no. We, you know, (inaudibl on a multiple listing in--

MR. KOTROCO: On your computer in your offic you--

MR. GIMORY: Yeah. In my office.

MR. KOTROCO: Okay. Okay.

MR. GIMORY: And it came on the market. The

we proposing to build any new buildings on the property?

MR. MOTSCO: No.

MR. KOTROCO: And the Applicant is just simply going to use what's there, is that right?

MR. MOTSCO: (Inaudible)--

MR. KOTROCO: No additions or anything of that nature?

MR. MOTSCO: That is correct.

MR. KOTROCO: And the religious activity, the worshiping will occur in the mansion part, which is the forme estate home of the property?

MR. MOTSCO: Yes.

MR. KOTROCO: Okay. If you are able to, if you would, you drew distance lines from the mansion and the othe buildings. I want to go over the buildings that you located o the property. So, can you start with the, with the former homes that I'll call it, the mansion? What are the distances from that to the edges of the property sir?

MR. MOTSCO: The existing house is right here. And in the direction of Harford Road, at the driveway entran it is 650 feet from the property line. And Harford Road to tl west is 340 feet away. And to the rear of the property line, down in the hill is the excess of 1,000 feet. And that's just a stream and a neighbor. And then more to the east, the property is a little oddly shaped there, but it is around 400

feet to the property line.

MR. KOTROCO: So, as far as R.T.A. requirements, Residential Transition Areas, none apply here because of the distances?

MR. MOTSCO: Right. It's well beyond the distances required.

MR. KOTROCO: Okay. How about the other, the other structures on the property? You mentioned the mansion, the former home. What other types of improvements are there on the property?

MR. MOTSCO: What we have, what is (inaudible) on the plan is the, of course the driveway we discussed is, thi is a tennis court, pool, it's a shed, a pool-house. There's an existing caretaker's house. And then there is a, it's marked (inaudible) property.

MR. KOTROCO: Okay. Did you walk the propert and see all that?

MR. MOTSCO: Yes, I have.

MR. KOTROCO: Okay. Aside from the entrance on Harford Road at the northern part of the property there's also an entrance or a former entrance I guess down on the lower part, is that right?

MR. MOTSCO: There is a, there is a, this used driveway that accesses Harford Road. (Inaudible) the plan shows a clearing through the trees, but the driveway snakes

P.O. Box 221
KINGSVILLE, MARYLAND 21087

September 3, 2018

J. Carroll Holzer, Esquire
508 Fairmont Ave
Towson, MD 21286

Dear Mr. Holzer,

The Greater Kingsville Civic Association, Inc. wishes to join the Gunpowder Falls Watershed Preservation Association as Protestants in the matter of Nepali American Cultural Center of Baltimore petition for Special Exception before the Board of Appeals for Baltimore County - Case No.: 2018-122-X.

The GKCA asks that you for represent the Association in this matter.

The Association's Rule 8 forms have been completed.

Sincerely,

Dorothy E. Foos

Mr. Timothy M. Kotroco, Esquire
305 Washington Avenue, Suite 502
Towson, Maryland 21204

RE: Nepali Temple – Harford Road
Baltimore County, Maryland
Our Job No.: 2017-1207

Dear Mr. Kotroco:

As requested, we have prepared a Traffic Engineering Study for the proposed Nepali Temple on the Bonaparte Property located along the east side of Harford Road, just south of Mt. Vista Road/Glen Arm Road, in Baltimore County, Maryland. This property consists of a single family home that will be renovated to create a Nepali Temple with approximately 38 parking spaces. It is our understanding that there will be a caretaker on the grounds of the property.

This development is located north of the designated Urban area based on the 2017 Basic Services Map produced by the Baltimore County Department of Public Works. As such, it is our understanding that there is adequate and available transportation services in this area.

Based on our understanding of this Temple, there will be less than 20 people coming to the Temple on weekdays and less than 100 people coming on weekends. This Temple is much different than other religious venues. Most other venues have a leader or lecturer who will deliver a message during services at an established service time. This Temple will not have a leader or lecturer; therefore worshipers will arrive at different times in the morning, daytime, and evening during the weekday and weekends.

Sight distance measurements were taken at the existing/proposed access point to this site. When looking to the north, there is approximately 420 feet of sight distance and when looking to the south, there is approximately 355 feet of sight distance. Vehicles traveling in both directions have to navigate the access area with many curves and turns and the SHA warning signs are suggesting that drivers travel this portion of the road at 30 mph (the speed limit along Harford Road is 45 mph). The sight distance required for 30 mph is 335 feet which is met in both directions based on the conditions of the road suggested traveling speed. Based on the speed limit of 45 mph, the sight distance required is 500 feet. However, based on 420 and 355 feet of sight distance, the stopping sight distance is good for vehicles traveling around 50 mph and 45 mph respectively which is the minimum requirement for obtaining safe sight distance.

Protestant
CBA Exhibit
8

Therefore, based on these result, it is our opinion that this development can be accommodated on the surrounding area roadway network and meets the standards for approval based on Baltimore County Zoning Regulations.

Sincerely,

Joseph J. Caloggero, P.E., PTOE, PTP
Vice President

Subject: RE: Nepali Temple
Importance: High

Hi Donald,

We reviewed the ITE Trip Generation, but they didn't have trip generation based on parking spaces as we discussed. Therefore, we utilized the Church Land Use Code (560) from the 10th Edition of ITE for 3,500 SF which is the SF of the entire first floor of the Nepali Temple. Please see the attached First Floor Diagram. The "Hall" would be the area of worship which is approximately 1,000 SF and that will not have chairs/pews. Again, this Temple will operate much differently than a typically church...

ITE Trip Generation, 10th Edition	**AM**			**PM**			**SAT**		
			DAILY						
	In	Out	Total	In	Out	Total	In	Out	Total
Church (ksf, ITE-560)									
3,500 sq.ft.	1	0	1	1	1	2			
	6	4	10	24					

I hope this information is helpful... please let me know if you have any questions. Again, I would like to meet with you and Rich in the field to discuss the access because of the challenges of this area... Thanks!

Joe

- ☐ North Arrow
- ☐ Location Map of 1"=2000'
- ☐ Plan dimension of 22" x 34"
- **Scale of Drawing:**
  - ☐ Between 1" = 10' to 1" = 50'
  - ☐ 1" = 30' (preferred)
- ☐ Plans sealed and signed by a Professional Engineer (With PE Certification Note) or Professional Land Surveyor (as their licensing permits). This information must be shown on each sheet.
- ☐ Legend on the plan to indicate all symbols
- ☐ All plan revisions noted in the revision block and plan view, with date and symbol
- ☐ Type of existing roadway:
- ☐ Posted speed limit:
- ☐ Show and label existing and proposed right of way line and easements, include right of way plat numbers. Provide access control data (Right of Way line of Through Highway or Denial of Vehicular Access) if applicable.
- ☐ Show centerline of existing highway
- ☐ Show dimension of property in bearings and distances
- ☐ Show location and dimension of existing and proposed buildings, as indicated on the approved site plan
- ☐ Identify limit of work on plans
- ☐ Show elevations/contours existing and proposed
- ☐ Provide dimensions on all proposed improvements whenever typical section changes
- ☐ Identify lane assignments and widths
- ☐ Show limit of disturbance / top of cut / toe of fill
- ☐ Typical sections provided on plan showing existing and proposed conditions.
- ☐ Show all existing and relocated utility locations
- ☐ Show all existing entrances, public or private streets on adjacent properties and on opposite side of the roadway (this includes medians, crossover location, and median break if applicable)
- ☐ Show all existing & proposed curb and gutter/edge of paving
- ☐ Show all existing and proposed storm drain structures
- ☐ Show all ditches with flow directional arrows
- ☐ Roadside safety grading is 4:1 or flatter for appropriate distance
- ☐ Grading for curb backing is per AASHTO Roadside Design Guidelines
- ☐ Show all traffic signs, signal equipment and street lighting
- ☐ Show all existing and proposed traffic barrier (reference appropriate end treatment)
- ☐ Show all existing and proposed landscaping
- ☐ Show all topography
- ☐ Provide ADA compliant pedestrian ramps and sidewalk (5 FT Minimum Width)
- ☐ Provide pedestrian & ADA mobility during construction
- ☐ Reference appropriate SHA standard numbers on plan
- ☐ Show SHA paving specifications
- ☐ Clearly identify full depth paving, saw cuts, milling, overlays and wedge/leveling on typical sections and plan view
- ☐ Provide shoulder slope transitions

Narrative Information

On 1/28/18 at 2239 hours, I responded to St. Joseph's Church at 8420 Belair Rd. for a call of a fight. The caller advised several persons were fighting at the location. Upon my arrival at 2240 hours (in a marked Baltimore County Police car with activated emergency lights and siren and wearing a Baltimore County Police uniform), several persons pointed me towards the north side of the parking lot. I made my way towards where they were pointing. I observed a male on top of another Asian male (who was lying on his back). The male on top was striking the grounded male with closed fists. The male on top was later identified by a VA driver's license as

Suspect Shree Man Sarki. I ran to the two fighting subjects. I yelled for them to stop. Suspect Sarki continued to strike the grounded male with closed fists. I attempted to pull Suspect Sarki off. This did not work, and I began to punch Suspect Sarki in his sides in an attempt to gain compliance. This was not working. I had my flashlight with me. I struck Suspect Sarki in his right side with the flashlight in an attempt to gain compliance. He continued to roll on top of the grounded male. I yelled several times for him to stop. I was able to pull him away from the grounded male after several strikes. As I pulled him away, Suspect Sarki swung elbows back towards me striking me at least twice in my torso. I did not sustain any injury. As we rolled to my left, I was briefly on my back with Suspect Sarki above me. Suspect Sarki cocked his right arm back as if to strike me, but I was able to strike his left side. I was able to stand myself and stand Suspect Sarki up in an attempt to arrest him for the witnessed assault on the grounded male. Prior to that scuffle, several persons' attention was directed to the fight and they gathered around at the yelling and fighting between the male and the grounded male. Some even began recording with cell phones. After standing up with the male I observed striking the grounded male (who had since fled the area), I was confronted by a crowd closing in on me. I ordered them back, and removed my OC spray container from my belt. No OC spray was deployed. As I was attempting to move the crowd back, Suspect Sarki began to pull away from me in an attempt to flee. I grabbed his collar and was able to hold him. He continued to pull away from my grasp. I pushed him to the ground. I ordered him several times to put his arms behind his back. After several commands, he did so. He was arrested. Again, members of a crowd surrounded me and I ordered them back. Several persons' attention was drawn to Suspect Sarki and me, and again were recording with cell phones. Backup officers from PC8 and PC9 arrived to my location on the parking lot. Suspect Sarki was then taken to a waiting Police car by Cpl. R. Pabon #4550 (BCOPD/PC8). While attempting to disperse the crowd which remained at the parking lot, several Corona beer bottles and liquor bottles were littered across the parking lot. Several persons there laughed when ordered by myself and several other officers to disperse.

Suspect Sarki was transported to PC8 for processing.

The male that I saw being assaulted by Suspect Sarki left the area. This male was not identified. I could only observe that he was an Asian male wearing dark clothing.

Form 253 completed.

BWC footage obtained.

OFC T. Benson #4245 (Forensic Services) responded to PC8 and photographed Suspect Sarki. While talking to Suspect Sarki, He stated that abrasions around his eyes and face were caused by a guy that he tried to get off of his friend. I never struck Suspect Sarki in the head with either a fist or my flashlight. Any blows landed were on his torso. Suspect Sarki was asked if he had pain anywhere in his sides. He said he did not.

Sgt. S. Moroz #4628 (Crash Team) responded to the scene.

Narrative Information

On 1/29/18 at 0059 hours, I was dispatched to the area around 7927 Belair Rd in reference to a possible fight. Upon arrival, a large crowd was present, but no one was advising what had happened. It should be noted that this group of people were of Indian decent and there was a strong language barrier.

We were able to find victim, Budha Tamang, sitting in the parking lot. He was bleeding from his mouth and head. While trying to speak with victim Budha Tamang, he did not know who attacked him and did not want to provide us with any information. Medics arrived and after observing the injuries, they believed that the victim had a broken jaw. The victim and his friends did not want the Police help or the medics help and wanted to drive home to Philadelphia. The medics were able to convince the victim to go to the hospital for his injuries. Victim Budha Tamang still continued to not have any information for us about who attacked him and with what.

Some of the victim's friends advised that they saw the suspect but could not provide any further. They did not want to give us any information about themselves. They advised that they just wanted to go home to Philadelphia.

My view on the Mahapuran By Nepali American Cultural Center (NACC):

(These are my personal views and don't reflect the official position of the NACC)

Nepali Ameriacn Cultural Center (NACC) has made a public announcement that it has decided to hold a Mahapuran Bachan by Pandit Deenbadhu Pokhrel on April 16-22. Pandit Deenbandhu Pokrel is reknowned for his recitation of Mahapauran and raising funds for building Mandir in many cities in the US; Boston, Los Angeles, New York, North Carolina and currently in Melbourne, Australia. He is scheduled to preside over similar programs in Denver and Dallas also in 2018. It has been reported that he was able to raise from $1 million to $1.5 million at different cities. Target for Baltimore has been set at $1.5 million. So these are very exciting times and everyone at the NACC is very excited and jubiliant.

There is very good reason for excitment and optimism. It has been estimated that there are 15,000 Nepali and people of Nepali origin in Baltimore. The growth of population of Nepalis in Baltimore has been phenomenal in the last decade. What was barely a thousand, a decade ago has mushroomed to more than 15,000. This growth can be seen everywhere; number of Nepali restaurants, businesses owned by Nepalis, Nepalis in every profession, and the number of Nepali ownd homes has also increased from less than a hundred a decade ago to more than a thousand now. This growth parrelles the growth in other major cities in the US as well.

Similarly, with the growth in population and upward economic mobility, everyone was feeling a need for a Cultural Center with a place of worship to celebrate traditional religious/cultural festivals, preserve the rich cultural heritage and pass it on to the next generation. This need was felt and was a topic in many gatherings. Then sometime around October last year, a group of young social activists came with the idea of NACC and started raising funds. It was like the dam had burst, in a matter of less than six months almost half a million was raised, a property with more than 30 acres of land and a mansion was purchased, renovations started and a formal porocess to make it a place of worship initiated. So this expected fund will come very handy at the righ time.
Now the question comes what will this fund be used for.

Again, these are my perosnal ideas how this fund should be used and the final decision will be taken by the NACC Board of Trustees. However this will be a good start of the public discussion and for the public to get engaged. Incidentally NACC is one of the few organizations in Baltimore without any ethnic/geographical affiliation and without any tainting of political affiliation. Here all the volunteers are focussed on giving their, time, skills,resources and money to make it happen.

1. NACC being a brand new, not for profit organization and havig no credit history, had to botrrow money to buy the property in the private market and is paying the interest at a rate of 12 percent. So first priority should be to pay the private loan and save a lot in monthly payments.

2. NACC is very sensitive to the voices of the neighborhood as regards to the traffic, and water resources. Like all Nepalis are very good neigbors, NACC needs to be a very good neighbor and do everything to preserve the quality of life of the neighborhood. So the next point of big expense may be to upgrade the roads entering the Mandir and the water and sanitation facilities of the compond.

3. Since NACC has decided to go the formal way of converting the property to the place of worship, it has to fulfill many requirements of the county, like traffic survey, sewage and water resources needs survey. It has retained the services of a law firm, engineering company and other professional contractors. Paying their fees and for the work done by them will be quite a chunk of money which can be taken care of by this money.

4. The mansion and other buildings have been vacant for a long time, They are old buildings. They need to be brought to meet today's safety standards. All public buildings have to meet "The Americans with the Diasabilities Act (ADA)"
.

5. The grounds and the other buildings need to be updated and it takes a lot of money.

6. Instllation of Murtis; All Murtis (totaling approximately $40,000) have been donated and are at different stages of carving in Nepal. Once they arrive, they need to be installed. Platform and pedestals have to be constructed. Permits and materials need to be paid for. Work and design may be volunteered by local professionals and organizations.

All these are very important "must steps" before Mandir can be oficially started. So I am looking forward to this Mahapauran with a lot of interest and expectations. Generous donations by all will go a long way to give concrete shape to the Mandir and make it financially stable. So it's very important for the public to know how th money raised will be spent and it will be very productive to take them into confidence and get them engaged in the process.

After the Mandir is initaited, it will have regualr source of income which can meet routine expenses. Second we need to look beyond Pujas and initiate programs and services like Health Camps, Yoga, Interfaith Collaboration in the area Soup kitchen and contribute to the overall well bing of the neighborhood. We must be responsible citizens and good neighbors. We need to make all these programs and services available to all of our neighbors whether they are nembers of the Temple or not.

n my personal view, there are many more activities we need to do but the first million raised will be well spent in the above areas to initiate the Mandir and make it a very vibrant place with a bright future

Gunpowder Falls Watershed Preservation Association

RESOLVED: That the position of the Gunpowder Falls Watershed Preservation Association at the membership meeting of June 28, 2018 as adopted by the Board of Directors on the zoning matter knows as:

Case No. 2018-0122-X
Bonaparte Property/Proposed Nepali American Cultural Center
(12231 Harford Road)

Is that:

The Gunpowder Falls Watershed Preservation Association (GFWPA) is opposed to changing the use of the 30-acre property located at 12231 Harford Road in Glen Arm, formerly owned by Charles J. Bonaparte, from residential and agricultural use to a more intensive use such as a recreational center, cultural center or house of worship.

AS WITNESS OUR HANDS THIS 28th day of June, 2018.
