MR. CLARK: Okay. He testified that at the specified speed, at, at the posted speeds, all right? He could not meet the five hundred and thirty-one foot requirement by the SHA for sight distances. And he also could not meet the decision, stopping sight dis, decision stopping distance.

CHAIR: Okay. The next question is what are you going to provide by way of testimony that either amplifies or contradicts or otherwise provides some type of insight into

that testimony?

MR. CLARK: Okay. We, we have his, we have his testimony.

CHAIR: Right. So, what are you saying, what are you saying about his testimony?

MR. CLARK: I'm saying it's incorrect.

CHAIR: Okay. How is it incorrect?

MR. CLARK: Or, not incorrect, I'm saying that he test, that, I'm, I'm restating the fact.

CHAIR: Are you, hold on, just to clear, clarify. Are you just saying Mr. Collagero testified to this, I agree with what he said? Is that, is in essence what I'm hearing?

MR. CLARK: Yes, and that he cannot meet the requirements.

CHAIR: Okay. Well, we obviously do not need testimony on that point.

MR. HOLZER: No, that's all it is.

CHAIR: Because it's in the record, it is what it is.

MR. HOLZER: Exactly.

CHAIR: Mr. Schmidt, I realize you are frustrated. It is okay, we understand what's going on and Mr., Dr. Clark has, whatever he wants to say about it, we've obviously identified where that was going and we have no need to go further with that point. It is what it is. Thank you. Mr. Holzer?

MR. HOLZER: Okay. So, you disagree, no, that's what you do. You're just saying, as I understand it, that he testified that he could not meet the State Highway requirements, correct?

MR. CLARK: Correct.

MR. HOLZER: Okay. So, you're not challenging what he said or any math analysis, --

CHAIR: Hold on. Again, again, this point we don't, it's, if it's in the, if it's in the record --

MR. HOLZER: I'll withdraw it, I'll withdraw the question.

CHAIR: I know. Just by way of illustration, here's what I'm understanding your testimony to be. We open the transcript, you're in essence taking a yellow highlighter saying this testimony, look at this.

MR. CLARK: Yes, sir.

CHAIR: Which is what Mr. Holzer will do in his closing memo.

MR. CLARK: Yes, sir.

CHAIR: Which is why we do not, please sit up straight too.

MR. CLARK: Oh, I'm sorry.

CHAIR: Thank you. Which we do not need to have testimony from you as to pointing out where in the transcript it may or may not speak to the issues of which you want to

raise to us. Mr. Holzer certainly will be pointing that out in a closing memo.

MR. HOLZER: Exactly.

CHAIR: On argument. So, you don't need to put that into the record. It is what it is.

MR. HOLZER: Right, thank you.

CHAIR: Sure.

MR. HOLZER: Are there any other aspects of Mr. Collagero's testimony that you either want to point out using a yellow underline, as Mr. Garber said, or disagree with?

MR. SCHMIDT: Objection. I mean, --

CHAIR: Hold on, Mr. Schmidt, hold on.

MR. SCHMIDT: -- I'm sorry --

MR. HOLZER: Well, I'm tired of --

CHAIR: Hold, everyone. Everyone hold on. There's an objection. We're doing this the proper way. Mr. Schmidt is standing up, he has an objection. What is the basis for your objection?

MR. SCHMIDT: Mr. Garber, as I understood your comments thirty seconds ago, you indicated to the witness that, and to Mr. Holzer, that it was not necessary for Mr. Holzer to ask this questions, question this witness about the points that he agreed or disagreed with Mr. Collagero on. As Mr. Holzer and no doubt I will point out by line and verse and page the sections of the testimony that we think are germane, where we

agree, where we disagree. I thought you explained that. The very next question we get is where else --

MR. HOLZER: (inaudible).

CHAIR: What?

MR. HOLZER: I'm bleeding. I hit my hand and I'm bleeding. I'd like to stop a second and go wash it off.

CHAIR: Okay.

MR. HOLZER: I was dripping all over my --

CHAIR: All right, all right.

MR. HOLZER: Can I take a one minute break?

CHAIR: We'll have, we'll have a five minute break to attend to this issue. And then we'll circle back to where we are. Do you need to go to the bathroom to rinse off --

MR. HOLZER: Yes, yes.

CHAIR: It's fine. We'll take, whatever you need --

MR. HOLZER: One minute.

CHAIR: Okay.

MR. HOLZER: I got a band aid, I'll put it on.

CHAIR: One minute break, we won't even leave, we'll stay right here.

MR. HOLZER: All right, thank you.

(RECORDING PAUSED – 02:28:41 PM)

(ON RECORD – 02:31: 56 PM)

MR. HOLZER: I apologize for screaming.

CHAIR: Nothing to apologize for.

MS. DOPKIN: Ready?

CHAIR: Yes, all right. We're, we're, yes, I see that. We are back on the record. Mr. Schmidt had objected. I understand the basis of the objection was it is the exact same type of question that was just objected to and sustained by the Board. Mr. Holzer, do you have any response to that?

MR. HOLZER: I didn't even hear it and I don't, I'll withdraw the question if that makes it easier.

CHAIR: Okay. In short, we don't need him to identify what he thinks we should, our attention should be drawn to because that, you'll be doing the same thing on, in your closing memo for your client.

MR. HOLZER: If I'm competent enough to do that.

CHAIR: I'm assuming, I've already assumed that to be the case.

MR. HOLZER: All right. All right. Let's, let's see if we can get through some more. Mr. Clark, in terms of any comments you'd like to make in regard to Mr. Collagero, and please sit up.

CHAIR: Thank you.

MR. HOLZER: Is there anything else, I, I'm sorry if I misunderstand the Board's ruling, but are there any other comments that you would like to point out that you disagree with Mr. Collagero, if that's, if I'm overstepping my bounds, let me know.

CHAIR: Well, you, I already know where Mr. Schmidt would be going with that question. He's not an expert to be able to, hold on. He's not an expert so is there something that he thinks factually was incorrect as part of his calculations or as part of his analysis that is different than what Mr. Collagero may have applied based on his experience and living within the area, or something to that effect.

MR. HOLZER: Okay.

CHAIR: Obviously, that would be fair ground. But if he's to critique Mr. Collagero's work, that is, you didn't apply the right formula, you didn't take into account the following things --

MR. HOLZER: Yeah, he's not an expert.

CHAIR: Right, that's where that runs afoul, that part of it. So, to steal what I'm sure to be Mr. Schmidt's thunder on that, let's confine it to factual matters that Dr. Clark would have some familiarity with.

MR. HOLZER: Gotcha. Are there any other comments relative to the traffic analysis, ab, absent your being a traffic expert, that you would like to do, persistent to Mr. Garber's clarification? Do you understand?

MR. CLARK: Yeah, I do.

CHAIR: Okay.

MR. CLARK: With trepidation. All right. When, when I test, when, when, I'm trying, I'm trying, I'm trying to, we

had, oh, that's what it was, it was at a preliminary motion, okay. But we had submitted maps, photographs and a statistical report generated by the Baltimore County Police Department --

CHAIR: I believe that was submitted into evidence.

MR. CLARK: Yes, it was.

CHAIR: It was used in cross examination of Mr. Collagero.

MR. CLARK: Yes, okay. So, so, so we submitted that and we had forty-one accidents.

CHAIR: Hold on. Are you going to be arguing about what was set forth within that document, which again, would be subject, what Mr. Holzer will be doing --

MR. CLARK: No, no, --

CHAIR: Or what, where are you going with this?

MR. CLARK: The only, the only thing, the only way we can, I can say is to say it.

CHAIR: Okay.

MR. CLARK: And Mr. Collagero, all right, now we had specified Mark, or Hartley Mill to Mount Vista Court. Mr. Collagero instead analyzed the, didn't even analyze, commented on thirty-one reports between Hutschenreuter Road and Mount, or Vista View Court, which was, which was apples and oranges.

CHAIR: In other words, the report that you, correct me if I'm wrong that this is what you're saying, the report that was submitted on behalf of Protestants spoke to a

different boundary than what Mr. Collagero did and, therefore, the two, if you compare them side to side, you're now talking about the same set of data from which --

MR. CLARK: Correct.

CHAIR: -- you can extrapolate whatever conclusions and analysis and everything?

MR. CLARK: Correct. Plus, plus we used a primary source of data. The, the Baltimore County Police reports, he testified he used some secondary source of data from some website.

CHAIR: Okay. So, with respect to this testimony, again, this is more of an argument that should be reserved for Mr. Holzer.

MR. CLARK: Yeah, okay.

CHAIR: On that point. I understand that there is a different, it'll be, there are some complications, we'll just put it like that.

MR. CLARK: Yeah.

CHAIR: To compare the two because you're talking about different roads and boundaries. Outside of that, is there anything else you wished to bring up then?

MR. CLARK: Yes, we, we did, we did pull all thirty-one written police reports.

CHAIR: Okay.

MR. HOLZER: Okay. Do you, in regard to that, you're

not proposing to discuss those at this point, are you?

MR. CLARK: No.

MR. HOLZER: Okay.

CHAIR: That was an emphatic no.

MR. HOLZER: Are there any, is there any other testimony presented by the Petitioners that you wanted to address under the conditions that the Board --

MR. CLARK: No, I, I, I, I, I think Mr. Garber is, you know, is, would, would say that the, that anything else I have to say would be covered in the, the, --

CHAIR: Would the argument reserved --

MR. CLARK: -- memo of law, right.

CHAIR: -- for Mr. Holzer. Okay.

MR. HOLZER: Is there any analysis of the, of Blue Iris videos that you choose to address now or can we do that at some other time, in some other way?

MR. CLARK: I, I, I, I think, this goes to the density of, of something, you know? All those Blue Iris videos are all showing --

CHAIR: And I'm lost here because I don't know what you mean by Blue Iris videos.

MR. CLARK: Oh, I, I'm sorry. That's when I set up the security camera at, at Ms. Foxworthy's to, to, to document --

CHAIR: The comings and goings of the vehicles.

MR. CLARK: Right, right.

CHAIR: Okay.

MR. CLARK: And, and, and that, and that just merely shows, is a record of the traffic that is introduced by these events. I don't, I think that probably fits in the memo of law.

CHAIR: Well, it would be, yes, I would, I would think that that would be something appropriate for the memo.

MR. HOLZER: Okay.

CHAIR: It's understood that these events had, you know, anywhere, whatever the numbers were, I'm not going to represent them because I don't recall that specific testimony.

MR. CLARK: Yeah, no, no.

CHAIR: But it was a greater volume than other days when there were not, when they don't have these festivals and events.

MR. CLARK: Well, and, and, and also what happens to southbound and northbound traffic that aren't going (inaudible).

CHAIR: Okay.

MR. HOLZER: In terms of Mr. Motsco's testimony, do you have anything that within the parameters of what the Board's outlined that you can address?

MR. CLARK: I think I do.

MR. HOLZER: Okay.

MR. CLARK: Okay.

MR. HOLZER: Could you articulate the first, I assume the first one?

MR. CLARK: Yeah. Mr. Motsco said he was unaware of any other proposed uses for the property. We have a, a draft that he provided to us in September and I --

CHAIR: September of ’18?

MR. CLARK: -- yeah, ’17, ’17, ’17.

CHAIR: Seventeen.

MR. CLARK: Seventeen, sorry, thank you.

MR. HOLZER: That Mr. Motsco provided.

MR. CLARK: Provided on, on, on the, on the 17th, or in July --

CHAIR: September 2017.

MR. CLARK: Thank you. And it, the endorsement does not say for a house of worship it says for a community center.

CHAIR: Okay. Do we have that document?

MR. HOLZER: And where is that document? Do we have it?

MR. CLARK: I think you’re being handed it.

CHAIR: And if we could show Mr. Schmidt first?

MR. HOLZER: Certainly.

CHAIR: And any copies to the Board.

MR. CLARK: Can I explain what --

CHAIR: Not yet.

MR. HOLZER: No, no.

CHAIR: Not yet.

MR. CLARK: Okay. I'm trying to save time.

CHAIR: I, no, I appreciate that. But we have to do this in a particular order so we don't get ourselves into trouble with other things. Okay, this is sixty-three, is that right, Mr. McComas?

MR. MCCOMAS: Yeah, it's going to be sixty-three, it's A through, call the first page sixty-three.

CHAIR: A?

MR. CLARK: A, yeah, then B, C, D, E, F, G. So, A through G.

CHAIR: All right. Mr. Schmidt, I see you have that in front of you. Dr. Clark, can you please identify what Protestant's Exhibit 63-A through G is supposed to be?

MR. CLARK: I need to see it, that's what I was saying.

CHAIR: You do not have a copy?

MR. CLARK: I do not.

MR. HOLZER: I didn't provide --

CHAIR: Here's an extra copy.

MR. SCHMIDT: This has been marked as sixty-three?

CHAIR: Sixty-three A through G.

MR. CLARK: Okay, all right.

MR. HOLZER: Now, before you go, answer that

question, is there another document that can explain what's on sixty-three?

MR. CLARK: We do have a, a copy that was submitted of this exact same drawing, okay? That was submitted at a later date in April of 2018, I believe, by Mr. Archia (phonetic), in support of his sign permit.

MR. HOLZER: Okay.

CHAIR: This will be sixty-four.

MR. HOLZER: I hope I gave you (inaudible) I think I did.

CHAIR: It's a one page document, correct?

MR. CLARK: Thank you, sir.

MR. HOLZER: That's correct.

CHAIR: Mr. Schmidt, I see you've had the opportunity to review it. So, Dr. Clark, Petitioner's, or Protestant's Exhibit 64, can you please identify what that is?

MR. CLARK: Sixty-four?

CHAIR: Yes.

MR. CLARK: This is a copy of the site plan submitted by Mr. Archia to the County when he applied for his sign permit.

CHAIR: Okay and what is it on sixty-four that you want to bring to our attention?

MR. CLARK: Well, sixty, all right, --

MR. HOLZER: I think --

MR. CLARK: I need to go back to sixty-three.

MR. HOLZER: -- with due respect, can he start with sixty-three?

CHAIR: I apologize.

MR. HOLZER: He hadn't done that.

CHAIR: Correct, sorry. Back to sixty-three.

MR. CLARK: All right. All right. Sixty-three is actually a series of pages showing a photo micrograph of the endorsement in the upper right hand corner.

CHAIR: Okay.

MR. CLARK: All right? Now, I'm sorry about the resolution and I think we have a better blowup of sixty-four. Mary, do we? And I apologize, but that's, I, I had, as you can see, I had to use a high power microscope to, to be able to read the endorsement, but basic, what the, what the endorsement said, req, requests, doesn't request a house of worship, it requests a community center for educational activities. And that is exactly the same document they provided to the County in support of their sign permit. So, Mr. Motsco knew that there were other, other proposed uses for this property.

MR. HOLZER: Before you make the objection, could I at least --

MR. SCHMIDT: I don't even know what it is. I don't even know what this is. I can't even read it.

CHAIR: All right, hold on, hold on, hold on,

everyone, okay. Mr. Schmidt, I understand 63-A through G you have an objection. But he, he just said --

MR. SCHMIDT: Mr. Garber, if, I believe, I believe this is Mr. Clark's microscope.

CHAIR: Yes, that's what his testimony was.

MR. SCHMIDT: And he, he apparently is enlarging this document. Since he has the document, wouldn't the best evidence rule, why doesn't he give us this document?

CHAIR: Hold on, hold on, sir. Hold on, sir.

MR. HOLZER: You already have it.

CHAIR: Hold on, sir.

MR. SCHMIDT: I mean, I, I can't, I don't even know what this is saying. I can't read this.

CHAIR: Look, Mr. Schmidt, Mr. Schmidt? We have the same copy as you. That's all I can tell you is that we have the same copy as you. It is as legible to us as it is to you, as to Mr. Holzer, as to Dr. Clark. Dr. Clark, I'm taking from the gesturing that's going on, sixty-four would be an eight and a half by eleven print, or copy, of the plan that's shown on 63-A, is that --

MR. HOLZER: That's correct. And I'm being interrupted before I even can complete it because this document, which I only have one page of, is a reflection of, of, of what is marked as Protestant's Exhibit 37, already in the evidence.

CHAIR: Okay.

MR. HOLZER: And it's a blowup --

CHAIR: Well, hold on. Let's, let's get that testimony from Dr. Clark.

MR. HOLZER: No, I, no, because he's making objections. I have a right to, to explain. He interrupted before I even got the third document in.

CHAIR: Hold on. Let's hit the reset button here. Here's my understanding of where we're at. Mr. Schmidt was, I heard him audibly complaining that he could not make heads or tails as to what was going on with sixty-three and sixty-four. I understand you have an explanation for that, but I understand there's one person probably in this courtroom who even has that explanation that we can get on the witness stand to say what that explanation is. Dr. Clark. He can probably tell us as to what's going on and we can clear this up and have it on the record and have it come from the witness.

MR. HOLZER: Sounds good to me.

CHAIR: Right. So, let's do that.

MR. HOLZER: So, I cannot give the Board this copy.

CHAIR: Hold on. May I have what, what you have there? Have you shown Mr. Schmidt first?

MR. HOLZER: No, because I interrupted.

CHAIR: Go show Mr. Schmidt, go show, okay. Fine. Go show, Mr. Schmidt.

MR. SCHMIDT: Mr., I was answering Mr. Garber's questions.

MR. HOLZER: Yeah, you were.

CHAIR: So, what has been labeled as Protestant's, Protestant's Exhibit 38.

MR. HOLZER: Thirty-seven and thirty-eight, that's correct.

CHAIR: Okay.

MR. MCCOMAS: It's thirty-eight.

MR. HOLZER: Yeah, is what --

CHAIR: Okay. Are they the same document?

MR. HOLZER: Yes.

MR. CLARK: Yes, sir.

CHAIR: Okay.

MR. HOLZER: Yes.

CHAIR: So, Mr. Schmidt, --

MR. SCHMIDT: Then why are we reintroducing them again?

CHAIR: -- hold on, everyone, hold on. Everybody. I'm asking counsel, Dr. Clark, just hold on one second. One at a time. Mr. Schmidt, do you have Protestant's Exhibit 38? Do you need a copy?

MR. SCHMIDT: If you have a copy that would be wonderful, I may have it somewhere in here, yes, sir. But I, I don't have it right in front of me.

CHAIR: Unfortunately, I dropped my file of exhibits and it's now all scattered so. Here you go. Yeah, why don't you give him the file one.

MR. MCCOMAS: Here's the file one.

MR. SCHMIDT: Thank you, Mr. McComas.

CHAIR: Thank you. All right. Now we all have the same playing field.

MR. SCHMIDT: Okay.

CHAIR: As to where we are. Now we can start proceeding with the questions.

MR. HOLZER: I don't have this, thirty, is it thirty-seven?

CHAIR: Thirty-eight.

MS. DOPKIN: Thirty-eight.

CHAIR: That particular page.

MR. HOLZER: Okay. I don't have more copies of it.

CHAIR: It's, it's already in the record.

MR. HOLZER: Okay.

CHAIR: It's already in the record.

MR. HOLZER: So I don't have to worry about it. So, if I may proceed, I would like to ask the witness, number one, can you identify exhibit number sixty-three and why it's in? Can you identify Exhibit 64 and what it shows? And can you identify what has been marked as thirty-seven, thirty-eight and its relevance to your testimony?

MR. CLARK: I answer yes to all the above.

MR. HOLZER: No, you answer what I asked you.

CHAIR: I understand what, let's, look at, look at sixty-four, please.

MR. CLARK: Yes.

CHAIR: In the upper right hand corner, there is a bunch of writing.

MR. CLARK: Yes.

CHAIR: Okay. Is that what Protestant's Exhibit 38 is?

MR. CLARK: Yes.

CHAIR: All right. Then explain Protestant's Exhibit 63-A, there's a, a plan that's identified in that photograph, correct?

MR. CLARK: Yes.

CHAIR: What is that plan and what is that plan's relationship with sixty-four and thirty-eight, Protestant's Exhibit 38?

MR. CLARK: That, sixty-three --

CHAIR: A.

MR. CLARK: -- A, shows the plan that was distributed at, at the September 2017 meeting.

CHAIR: Okay. Is that what Protestant's Exhibit 64 is?

MR. CLARK: Sixty-four is the exact same plan

submitted to the County in April of 2018 by Mr. Archia in support of his sign permit.

CHAIR: Okay. So, sixty-four may not be what's in sixty-three, correct?

MR. CLARK: It's not the same copy.

CHAIR: That's my question. Then thirty-eight is tied to sixty-four?

MR. CLARK: Yes.

CHAIR: And not necessarily sixty, sixty-three?

MR. CLARK: The, six, the Archia document and the document shown in this are the same, are, are copies of the same document.

CHAIR: I, I, okay.

MR. HOLZER: Yeah.

CHAIR: Mr. Holzer, maybe you could answer this.

MR. HOLZER: Sure.

CHAIR: Where did you get Protestant's Exhibit 38 from?

MR. HOLZER: We got Protestant's Exhibit 38 from the County itself. It was produced and submitted by the Petitioner to the County which shows --

CHAIR: I, I understand that. Which, what, where did, what is the physical document in which, from which it came from? From which it came?

MR. HOLZER: Came from --

CHAIR: Did it come from the Archia signed Petition or did it come from the September 2017 plan?

MR. HOLZER: Yeah, from the Archia Petition.

CHAIR: Okay. So, thirty-eight is tied to sixty-four.

MR. HOLZER: They're all three the same.

CHAIR: I, right, but he's saying that there are differences between sixty-three, the plan that's shown in the photo, and sixty-four.

MR. HOLZER: With all due respect, my client is wrong.

CHAIR: Okay. Mr. Schmidt, --

MR. HOLZER: Because basically --

CHAIR: -- I'm going to grant your objection as to sixty-three on that, or sustain your objection on that. Sixty-four is tied to thirty-eight, thirty-eight is already in evidence. Sixty-four will be received and admitted.

MR. MCCOMAS: So, is sixty-three i.d. only?

CHAIR: Sixty-three i.d. only.

MR. HOLZER: That's fine.

CHAIR: Because they, if they are different, if there's any differences we, it's not fair to Mr. Schmidt to not have that present here in Court. But since thirty-eight is already in evidence --

MR. SCHMIDT: Right, right.

CHAIR: -- and sixty-four is tied to thirty-eight.

MR. HOLZER: That's correct.

CHAIR: Specifically, sixty-four will be received into evidence and that's admitted.

MR. HOLZER: Thank you.

CHAIR: Okay, Mr. Schmidt? Did you get that?

MR. SCHMIDT: Yes, sir.

CHAIR: Sixty-three out, sixty-four in.

MR. SCHMIDT: Yes, sir.

CHAIR: All right.

MR. HOLZER: Now, now as a result of that exercise, what is your purpose for not only introducing sixty-four, but recalling thirty-seven or thirty-eight?

MR. CLARK: The, that Mr. Motsco did not reveal that he knew other purposes for the, he, he stated he didn't know of any other uses for, of any other possible uses for the property.

MR. HOLZER: Other than what?

MR. CLARK: Other than as a house of worship.

MR. HOLZER: Okay. Now, how is that testimony refuted by this, these documents?

MR. CLARK: They show that, that there were, that there was, they document that, I'm trying to figure out how to --

MR. HOLZER: Well, Mr. Clark, --

MR. CLARK: Yeah.

MR. HOLZER: -- let me make it real easy for you.

MR. CLARK: Please.

MR. HOLZER: Okay. Read what is on the, the documents submitted by the Petitioners to the County.

MR. CLARK: Oh, okay, okay, thank you, sir.

CHAIR: Thir, thirty-eight, I believe, is the one that's (inaudible).

MR. CLARK: Yeah.

MR. HOLZER: That's correct.

MR. CLARK: Special exception relief pursuant to Section, Baltimore County zoning regulations, to allow community building owned by non-profit civil improvement association used by its members and guests for recreational, social, educational or cultural activities in an RC-2 zone, and for a church or other building of the religious, of the religious worship.

MR. HOLZER: Okay. Now, was there subsequently something else submitted to the County that excluded the first part of that and only referenced a church or a house of worship?

MR. CLARK: Yes, this, the, the, this zoning app, this special exception application.

MR. HOLZER: Okay and do you know the dates where it was, from when it was originally submitted to when it was

changed to, or not changed, when it was only related to a house of worship? What's the time sequence?

MR. CLARK: Well, I would imagine --

CHAIR: Hold on.

MR. HOLZER: No.

CHAIR: Right.

MR. HOLZER: Don't answer imagine.

MR. CLARK: Okay.

MR. HOLZER: You know or you don't.

CHAIR: How about this, Mr., Mr. Holzer. Mr. Holzer, how about this? The plan that was submitted by Mr. Motsco on day two, I might take a guess, but it was certainly posted up on day one. Is there a difference between what was shown to this Board and what is reflected in sixty-four?

MR. HOLZER: No.

CHAIR: Okay. Is there a difference --

MR. HOLZER: There, there, yes, there's a difference between what was submitted as a Petition for purpose of the use of the property to a, subsequently to a religious house of worship.

CHAIR: So that was, that which accompanied the signed Petition has some difference compared to what was presented to this Board in terms of the ultimate use, is that my understanding?

MR. HOLZER: That's correct.

CHAIR: That would be a matter for argument for purposes of, today we don't, I don't know that Mr. Clark needs to, again, identify where Mr. Motsco is incorrect since it's already --

MR. HOLZER: He doesn't.

CHAIR: -- established in the record but getting the document in, I understand why you wanted to do that. Mr. Schmidt, you're standing, you want to say something.

MR. SCHMIDT: I do. I want to say that none of these documents, except the original site plan, has Mr. Motsco's seal on it. So, I don't know whether, the witness keeps talking about Mr. Motsco. Mr. Motsco may have prepared this plan or it may have been prepared by somebody else at Little & Associations, I don't, we don't know.

CHAIR: Well, it --

MR. SCHMIDT: More to the point, if I can be heard?

CHAIR: Sure, please.

MR. SCHMIDT: Even assuming arguendo that everything that Mr. Clark says is true, the $64,000 question is, so what? An applicant prepares a preliminary plan and subsequently files another plan that has different information on it. This Board has seen redlined plans which have changed from when they were submitted to the County to when they get to, to this Board.

CHAIR: I just saw a redline and green line plan.

MR. SCHMIDT: And, and --

CHAIR: Showing that very point.

MR. SCHMIDT: -- so there are plans that evolve. So, there, there's some big aha moment here that, at some --

CHAIR: Well, okay --

MR. SCHMIDT: -- point in time, Little & Associates prepared --

CHAIR: Mr. Schmidt --

MR. SCHMIDT: -- an unsealed plan, if I may be heard for the record.

CHAIR: I'll, well, hold on. I'll stop you there because this is again argument for purposes of, for the memo --

MR. SCHMIDT: It's not. It's argument as to admissibility, because it's simply got no relevance to this case. So what if this is true?

CHAIR: Okay.

MR. SCHMIDT: How does it bear on the ultimate issue in this case? It does not.

CHAIR: Mr. Schmidt?

MR. SCHMIDT: Yes, sir.

CHAIR: I, you heard me just say to Dr. Clark, this is a matter for argument for purposes of memos. Same thing, you are aware of this argument, you know what they're going to say. This is not something for the first time that we are hearing that they may use it for community center purposes. Mr. Holzer has been saying that repeatedly for several days

now, that that is, in fact, what some of the people on this side of the aisle, they believe is going to happen. That it's not going to be just limited to religious use.

Your argument is, no, it will be limited to religious use. Mr. Ghimire has testified to that and whatever else it is under the sun. That's what the nature of the dispute is. As to whether or not it has any affect whatsoever, whatever was prepared on some day prior to whatever was submitted, or if there have been changes since, as to the affect of the earlier documents to us, I understand your argument. But I mean, again, we're not, this witness is not going to shed any more light on those points. And I've already ruled that he cannot go into any more detail on these points because it's a matter for argument.

MR. SCHMIDT: Well, why are you allowing him to continue to testify about it --

CHAIR: I just said no, I --

MR. SCHMIDT: -- and, and introduce all these exhibits?

CHAIR: Okay. Maybe I, I'm sorry if I've not been clear. We just crossed that Rubicon where I've said this is a matter that's proper for argument.

MR. SCHMIDT: Very well.

CHAIR: Not for testimony.

MR. SCHMIDT: Thank you.

CHAIR: I have agreed with your position in that regard.

MR. SCHMIDT: Okay. Thank you, Mr. Garber. I apologize if I misunderstood the Chair's ruling.

CHAIR: No, I, perhaps I'm not communicating correctly, but I understood what Mr. Holzer was trying to accomplish and he needed to, he felt he needed to get some of the documents in to make that argument for purposes of his memo.

MR. HOLZER: They've already been in and the witness was trying to articulate why, from his perspective.

CHAIR: Yes.

MR. HOLZER: I understand.

CHAIR: We're all, we're all at the same page at the present time. So, we have this --

MR. HOLZER: Yeah, but unfortunately, that isn't the end of the story. The end of the story is there were things that produced the change from that document to the Petition.

CHAIR: Then we --

MR. HOLZER: Which I intend to get one way or the other because it --

CHAIR: Mr. Holzer --

MR. HOLZER: -- shows some --

CHAIR: Mr. Holzer --

MR. HOLZER: -- impropriety.

CHAIR: Mr. Holzer, I'm not, we've not, there's no ruling on that stuff yet.

MR. HOLZER: I know there's not.

CHAIR: Right, so you have the opportunity to try to go down that road and then if it causes an objection, we'll deal with it accordingly. We've all, now on the same page. We've reached a moment of harmony on this issue, let's move forward so we can try to get through this and prevent Dr. Clark from having to do a day three of testimony as best as possible.

MR. HOLZER: Okay.

CHAIR: So, with that in mind, I understand there may be other points you wish to raise but this is where we're at now. We don't need to hear, you know, what we just went through from Dr. Clark because that's a matter for you for argument and purposes of your memo. If there are --

MR. HOLZER: Oh, it's for me for more than just an argument, (inaudible) --

CHAIR: Perhaps. But if, if you have other points you wish to raise, now is the time.

MR. HOLZER: I will, I will, thank you.

CHAIR: Thank you.

MR. HOLZER: Thank you, Mr. Chairman.

CHAIR: Sure thing.

MR. HOLZER: All right. Was, was the testimony of Mr. Motsco, in your opinion, your recommend, your recollection,

did it inform the Board about the National Historic District?

CHAIR: In other words, hold on. Here's how I'm hearing this question. Did Mr. Motsco present information that this is a historic property? There is, obviously, there's already in evidence evid, documentary evidence, that it is, in fact, the barn and the site are on the historic register for the State, from what I recall?

MR. HOLZER: Correct, correct.

CHAIR: That has been presented into evidence, whether it came from Mr. Motsco or elsewhere, I, frankly I don't recall off the top of my head. Why is that being directed to this witness?

MR. HOLZER: Because the question was, does Mr. Motsco indicate to the Board in his analysis, and his drawing of a conclusion, that this was not a problem from the standpoint of historic issue? Did he address National Historic District? The answer is either yes or no. It's a simple question.

MR. CLARK: No, he did not address the, that it is, in fact, in a National, on the National Register as a national historic district. In fact, he said in his endorsement that it was not in a National Historic District.

CHAIR: Okay. We're now, so now we're talking about two different points. I referred to the registry for the State and I specifically referenced the property. You're saying

national historic district.

MR. CLARK: Yes, sir.

CHAIR: So, that is something different than the property.

MR. HOLZER: And he never mentioned it.

CHAIR: Okay, I'm with you now.

MR. HOLZER: Okay. So, the point of the matter is the witness has testified, his recollection, he never mentioned national historic district.

CHAIR: How do you know that this is within the historic district?

MR. CLARK: We have, we have the listing and we have the map.

CHAIR: All right, let's --

MR. HOLZER: Do we need to produce that now? Do we have it?

CHAIR: I would think you will need to produce that.

MR. HOLZER: Well, I just, I'm having problems --

CHAIR: I understand.

MR. HOLZER: -- in understanding how far I can go and how far I can't go.

CHAIR: We'll work through it, but we need to know the basis as to how he, why Dr. Clark thinks that this is in a historic district.

MR. HOLZER: This is already in? Oh, I don't have to

worry, it's already in. Protestant's thirty-nine.

MR. CLARK: Can I see it?

MR. HOLZER: Take a look at it.

CHAIR: Dr. Clark, if there's no question pending --

MR. CLARK: I'm sorry.

MR. HOLZER: I mean, --

CHAIR: Do you need to address further questions with him?

MR. HOLZER: No. It's Protestant's thirty-nine. If the Board takes a look at thirty-nine, it's clearly listed there and yet Mr. Motsco did not include that analysis in his testimony that everything was (inaudible) --

CHAIR: Okay. Well, that's going back to argument.

MR. HOLZER: Yeah, it goes back to the argument.

CHAIR: But you want to elicit the fact that it is within the historic district (inaudible) Protestant's Exhibit 39 supports --

MR. HOLZER: Yes.

CHAIR: -- Mr., or Dr. Clark's testimony?

MR. HOLZER: Exactly.

CHAIR: All right. So we can move on from there.

MR. HOLZER: And I, and I need that to be able to make in the memo --

CHAIR: Yes.

MR. HOLZER: -- the (inaudible) --

CHAIR: Understood, Mr. Holzer, yes.

MR. HOLZER: Okay, thank you.

CHAIR: Just trying to help move that through. So, yes, now we understand.

MR. HOLZER: All right. Mr. Motsco also did not, well, did he testify about the nature of the roadbed and the surrounding area?

MR. SCHMIDT: Mr. Garber, I'm just going to note a continuing objection to the, these questions about Mr. Motsco and what he said.

CHAIR: I would, I would suggest, if, if I can, the appropriate way to ask the question is, is there any testimony you wish to give, sir, about the roadbed and this, don't worry about what Mr. Motsco said or did not say.

MR. HOLZER: All right.

CHAIR: We could avoid the objections, --

MR. HOLZER: I was trying to --

CHAIR: -- because the record would be clear what Mr. Motsco has testified to or not.

MR. HOLZER: Okay, all right. That's the question.

CHAIR: Is there anything you would wish to tell the Board about the roadbed, sir?

MR. CLARK: Yes, sir, there is.

CHAIR: All right. What is it you wish to testify about the roadbed?

MR. CLARK: All right. The, the roadbed has been there for well over two hundred years. It, it has been, in the turn of the century it was called World's End Hill. It has not been changed. World's End Hill was a reference to the fact that the wagons had to stop at the barrier, at, at Mount, at what is now the circle, and get their brakes and hooves checked before they went down the hill, otherwise they wind up off the, off the side. There is, that, that was the --

MR. HOLZER: Well, excuse me.

CHAIR: One second, sir. Mr. Holzer?

MR. HOLZER: Could, could you explain down what hill we're talking about?

MR. CLARK: Oh, down, down, down, down, down the grade from Mount Vista down to the valley floor.

MR. HOLZER: Okay.

MR. CLARK: There is a historic, well, no, there is a, it's actually protected by the Maryland Historic Trust, there is a mile marker from the turnpike days. In fact, it's on the, it's on the, it's, it's on their property in the easement.

CHAIR: I believe that's already in evidence, the photo of the mile marker.

MR. CLARK: Right.

CHAIR: From what I recall.

MR. CLARK: And I think, did, did we put into

evidence the, the, --

CHAIR: I'm sorry, sir, you can't ask him questions.

MR. SCHMIDT: That's already in.

MR. HOLZER: That's all right.

MR. SCHMIDT: I mean, why are --

MR. HOLZER: Just because --

MR. SCHMIDT: -- we introducing exhibits that are already in?

MR. HOLZER: I'm not introducing it. If you would let me finish, I would explain to you that I want to show it to him.

CHAIR: Mr. Schmidt, I understand you're frustrated, please.

MR. HOLZER: He's frustrated?

CHAIR: Please. Let's move this forward. Mr. Holzer, continue.

MR. HOLZER: Protestant's Exhibit 41 was introduced. Are you familiar with it?

MR. CLARK: Yes, I, I took that picture.

MR. HOLZER: And did you just testify that there was a historic mile marker on the property?

MR. CLARK: Yes.

MR. HOLZER: On the road?

MR. CLARK: On the road.

MR. HOLZER: And what, and did you testify any time

prior to this why you think that's significant?

MR. CLARK: It's, yes, it is a relic of the days when it was a turnpike, when it was the Harford/Baltimore Turnpike.

MR. HOLZER: Okay. Now, where is that locate, where is it loc, located?

MR. CLARK: It is located right in the easement for Harford Road on their, on the east side of Harford Road, on their property.

CHAIR: Is it more or less across the street from your driveway?

MR. CLARK: Yes, sir.

CHAIR: I do recall that testimony.

MR. HOLZER: Right.

MR. SCHMIDT: Didn't he, Mr. Garber, I'm just trying to remember, and perhaps I forget, but didn't he testify about this before?

CHAIR: I just said that, the very thing.

MR. SCHMIDT: Well, why are we asking the same question?

CHAIR: I, I'm assuming these are foundational questions --

MR. HOLZER: Right.

CHAIR: -- to set up something else. I'm giving the leeway because I'm assuming they're foundational since that testimony was on November 1st and here we are January 29th,

(inaudible), are we still on the 29th? Has it turned into February yet? All right.

MR. HOLZER: I have no idea.

CHAIR: All right. So, where are we going with this to, to, to take Mr. Schmidt's point one step further, where are we going with this in terms of why, why are we talking about Exhibit 41, which is already into evidence?

MR. SCHMIDT: And came in, I think, through Mr., Mr. Clark's testimony before.

CHAIR: Right, which is how we --

MR. SCHMIDT: I think he was the witness who introduced it.

CHAIR: I, and I seem to have the same recollection, because that's why I recall that it was directly across from his driveway.

MR. SCHMIDT: Right.

CHAIR: So, Mr. Holzer, where are we --

MR. HOLZER: I forgot that two months ago, --

CHAIR: Okay.

MR. HOLZER: -- he introduced it.

CHAIR: Okay. So, --

MR. HOLZER: When I saw that it was marked as exhibit, I wanted him to explain.

CHAIR: It's understood, it's understood, it's understood. Objection is sustained. Mr. Holzer, please move

on.

MR. HOLZER: All right. Now, moving on, do you have any testimony that you would like to introduce that has not been testified before two months ago when you were on the stand, in regard to the Petitioner's association and what you would like to comment on about that?

MR. SCHMIDT: Objection. I have no idea what the question means.

CHAIR: First of all, Mr. Schmidt, stand when you object.

MR. SCHMIDT: I did.

CHAIR: Thank you. Mr. Holzer, I don't understand your question. Where were you, can you say it again, please? And I, I apologize for that.

MR. HOLZER: The NAACB, Inc. has raised issues and Mr. Schmidt did it today, in regard to Mr. Morgan's testimony--

CHAIR: I just didn't understand your question.

MR. HOLZER: Huh?

CHAIR: You can ask the question again, I just didn't understand it.

MR. HOLZER: Oh, oh. Okay. Applying your analysis of the Petitioner's Association, do you have any testimony or comment about where their members live?

MR. SCHMIDT: Objection. I still don't understand the question.

CHAIR: What information do you have regarding where, where Petitioner's Association members live?

MR. CLARK: Yeah, thank you.

CHAIR: What information do you have?

MR. CLARK: Can, can I just testify about what I --

CHAIR: You can testify as to answering the question I just asked.

MR. CLARK: Okay.

CHAIR: What information do you have?

MR. CLARK: Currently, none of them live within five miles. Mr. Clarke has sold his property, he has moved. So, there is no, there is no one in the association, or in the community center, who live within quite a distance of the property.

CHAIR: I need to ask you, because you used the phrase community center, are you referring to the community center on Taylor Road or are you referring to the subject property?

MR. CLARK: I, yeah, okay. I, I'm referring to the subject property.

CHAIR: All right. So, there is nobody, to your knowledge, of any member of Petitioner's organization that lies within five miles of the subject property.

MR. CLARK: An analysis has shown of the sign in sheets, okay? Shows that they are from Parkville, Rosedale,

White Marsh and there's even some from out of state.

CHAIR: Okay. Why, what is it about that fact that you find significant to bring to our attention?

MR. CLARK: Okay. This property, or this, this function does not provide any value to the community, to the locale, provides no benefit to the locale. While at the same time, creates quite a bit of disturbance to the locale. We pay, we are paying the price and we get no benefit.

CHAIR: Okay. So, tie it, if you can, I'm sorry, Mr. Schmidt, you were standing.

MR. SCHMIDT: I just want to say, Judge, Mr. Garber, that Mr. Clark's analysis is the precise analysis which Judge Rita Davidson in the seminal case of *Schultz v. Pritz* held was not the criteria by which a special exception should be adjudged. That is, whether there is any value brought by the special exception to the subject locale. Therefore, Mr. Clark's testimony in this regard has no relevance because it has nothing to do with the issue that this Board, nor the standard that this Board needs apply to the special exception case.

CHAIR: Well, my follow-up question, (inaudible) follow-up question just before you objected, was going to be and still is, how would, tie that, what you just said, whatever information you want to convey to us, to a special exception factor to make that relevant for the Board's consideration?

Can you do that?

MR. CLARK: Yeah, that, that's actually later in the testimony, but I, let --

CHAIR: Well, that's, it would be preferrable if we had that now.

MR. CLARK: Yeah, I'm, I'm trying to find it, sir.

CHAIR: Yes.

MR. CLARK: Okay. 502.1(A), sound and disturbance. The, all the events again sound and disturbance. Creating congestion on roads and alleys, B. Drivers unfamiliar with area. Drivers unfamiliar with hazards on the roads. Inadequate sight lines. Create a potential fire, hazard from fire, panic or other danger. And then, I will be covering detrimental to the environment, natural resources of the site and vicinity, including forests, streams and wetlands.

CHAIR: Okay. Well, let's get into that now because here's what I'm, I understand the concerns you just outlined in 502.1 which, frankly, really is the major part of your testimony --

MR. CLARK: Correct.

CHAIR: -- is what your concerns are, how it, this proposed use impacts, how it impacts you but also how it impacts the general vicinity and that particular to this property as opposed to other properties within a similar zone, or within the zone, okay?

MR. CLARK: Okay.

CHAIR: So, with that in mind, you've identified sound and noise, general welfare, creating congestion, hazards on roads, inadequate sight lines, create potential for fire, panic or danger, but the one you have not yet discussed is the environment, forest, streams, detrimental to those things.

MR. CLARK: Right.

CHAIR: What, let me ask you first, your, do you have any, I mean, any evidence you're going to offer, is it being offered as an expert witness?

MR. CLARK: No.

CHAIR: All right. So, these are all lay opinions or lay testimony that you're about to give. What is it you want to tell us about how you believe the proposed use will be detrimental to the environment, forest, streams, etcetera?

MR. CLARK: I, I wasn't really prepared --

MR. HOLZER: Well, objection. He's not ready.

MR. CLARK: Yeah.

MR. HOLZER: He just testified he wasn't ready to, to do that.

CHAIR: I, I, okay.

MR. CLARK: Yeah.

MR. HOLZER: I think you misunderstood what he said.

CHAIR: No, I, I, I did understand that --

MR. CLARK: Yeah, yeah, I think you did.

CHAIR: -- I'm just confused as to why we're not ready to deal with that. Because we have heard certainly ample evidence, not just from Protestants, but from you about the noise, about the traffic and the potential for danger. Right?

MR. CLARK: Right.

CHAIR: We've seen the videos, we've heard audio, we've heard your testimony, in addition to all the other Protestants who have come in to talk about the potential for noise, the potential for traffic, and the potential dangers. So, we've heard a lot of evidence on these points. The one thing I have not heard yet is anything about the environment. Is there a reason why you're not able to talk about that now? Because I'm trying to understand where all this is going in terms of the 502.1 --

MR. CLARK: I, I know, I know.

CHAIR: -- analysis and what you have in between, if we're, we've covered three of these grounds and there's a fourth ground, why are we not able to get to that at the moment?

MR. CLARK: All right.

CHAIR: What did you expect to offer in terms of testimony?

MR. CLARK: Yeah, no, I, I know, I know, I know.

CHAIR: I'm trying to work with you on this.

MR. CLARK: I, I --

CHAIR: Is there something I'm missing here that you wanted to testify about --

MR. CLARK: No, you're not.

CHAIR: -- that you've not otherwise identified?

MR. CLARK: You're, you're not, you're not. You just, you just caught me off script.

CHAIR: Okay.

MR. CLARK: Okay? That's the only problem.

CHAIR: I apologize for catching you off script, but it seems to me that was a logical next step.

MR. CLARK: Yeah.

CHAIR: Do you need, do you need a minute to compose, to go find whatever documents you need for your testimony?

MR. CLARK: It, it would help.

CHAIR: All right. So, let's do that. We will take five minutes to get that stuff ready and I'm sorry to have to cut it off, but I'm trying to actually get to where we're, where we need to go with this case. We have heard a lot of evidence about the noise, about traffic, about danger. We've received the videos, we've received the photos, we received audio. We've received a bunch of things and I'm assuming you still, you may even have one or more other ex, or excuse me, witnesses who may testify to some or more of these points, not to mention expert witnesses. So, from Dr. Clark, since he has now identified environmental issues that he wishes to give a,

his testimony about, let's get to that so that's in the record.

MR. HOLZER: Fine.

CHAIR: All right? So we'll take five.

(RECORDING PAUSED – 03:16:28 PM)

(ON RECORD – 03:33:12 PM)

CHAIR: Thank you. And we're back on the record and where we last left off, Dr. Clark had identified potential detriment, detriment, excuse me, detrimental effects on the environment, forests and streams, I believe were the three things that he mentioned specifically.

MR. CLARK: Okay.

CHAIR: So, Dr. Clark, the question to you is, what did you mean or what do you want to bring to the Board's attention regarding the potential detrimental effects upon the environment, forests and streams?

MR. CLARK: Actually, okay. I, I will answer that and then there's, but there's more.

CHAIR: Okay.

MR. CLARK: First of all, the, the, all right. You, you know that Petitioner awarded me a Ph.D. in naturism at the last meeting. I am a Maryland Master Naturalist.

CHAIR: Okay.

MR. CLARK: I, I work with professionals in three states in the management of forest health and specifically non-native invasive species.

CHAIR: Non-native invasive species.

MR. CLARK: Invasive species.

CHAIR: I guess that would just be the same as saying invasive species.

MR. CLARK: No, not nec, no, no, not, yeah, no. Yeah, --

CHAIR: Because if it's native, it's non-invasive, since it's already there.

MR. CLARK: Well, well, it can be invasive.

CHAIR: Okay.

MR. CLARK: It forms a (inaudible) culture.

CHAIR: Okay.

MR. CLARK: All right. Non-native are ones that don't fit into the ecosystem. They tend to overrun existing ecosystems and things like that. By way of background, there is an animal called Animal Plant and Health Inspection Service, which controls everything that is imported into the United States, okay?

By further background, there is a thing called red list, where various states, including Maryland, proscribe the sale, transport and, and planting of specific plants. For example, bamboo, okay?

We, you probably have heard about, well, I know you've heard about, well, maybe you haven't heard about the spotted lantern fly, which is a new, which is a new animal that

has come into the country and it is devastating to crops. Turns out, it found its host plant, which is tree of heaven ailanthus. That's the first instance where a non-native invasive invertebrate has found its existing host plant. The tree of heaven is used in a lot of southeast Asian plant, landscapes to, and in fact, the National Parks Service is spending millions of dollars over years controlling the escapees from the embassies in D.C. and getting into Rock Creek Park, okay?

Pennsylvania, ailanthus, tree of heaven, it got, it started at the Japanese Peace Temple in Redding, okay? It has taken over that entire county, all the ridgelines, everything, and it has spread throughout the state. Pennsylvania, because of the spotted lantern fly has started a very, very vicious program of eliminating ailanthus wherever they can find it, okay?

CHAIR: Okay. So, it, I mean, I appreciate the wind up --

MR. CLARK: Right, there, --

CHAIR: So, we're getting now to --

MR. CLARK: -- now, now we're getting to my concerns.

CHAIR: -- the subject property.

MR. CLARK: Right.

CHAIR: Okay.

MR. CLARK: Okay.

CHAIR: So, I understand the framework.

MR. CLARK: Yep.

CHAIR: As to where this is going, but let's now get back to this property.

MR. CLARK: All right. So, so, so, so there are several concerns here. First is that plantings would have to comply with Animal Plant and Health Inspection Service requirements. Which means, anything brought into the country has to be quarantined.

CHAIR: If I can jump in there. In your, leaving aside the issues as to expertise or whatever, to whatever (inaudible) exists here, is it your understanding that there are plantings that are going to be brought in from another country? Let's start with that.

MR. CLARK: Well, you know, they, there have been a number of assertions that it reminds the Petitioner of their homeland and just as at the embassies, it is not unnatural for an owner, from a, from a different land, to want to make it, you know, the Europeans did it, right?

CHAIR: And, --

MR. SCHMIDT: Mr. Garber, I'll stipulate we're not bringing in any plants from any other country, subject to, obviously, any rules that the United States government as it were, there is no intention to bring in some plants from some other country.

CHAIR: Well, let me ask you this, and I'm not saying that this is the direction we're going, you don't have to answer this question, but if there is (inaudible) as we're to move forward and there's a condition, please sit up straight, thank you. And there is a condition that only native plants can be planted on the site, --

MR. CLARK: You got it.

CHAIR: -- that, would that resolve your concern? And again, I'm not suggesting that that is something that's happening or whatever, but I'm just trying to address the particular concern --

MR. CLARK: Absolutely.

CHAIR: -- that you are identifying.

MR. CLARK: Absolutely.

CHAIR: And as to whether or not that is something that could, you know, if it is where this case goes down the line, which I have no idea sitting here today, that could be discussed at another time but that would, that would resolve your concern?

MR. CLARK: Absolutely.

MR. MCCOMAS: Was there a particular, was there a particular species that has you concerned?

MR. CLARK: It, it is, it is any, first of all, there is a list at, at, at the Department of Interior, Department of Interior Invasive Species Council. There is a list of

federally recognized invasive species, non-native invasive species. Both plant and animal, okay? Just to, to make this real, there was a case a couple years ago where up in New York City non-native frogs were being found along the Hudson River in New York. And one cultural ceremony was the release of these frogs in, in, into, into the river, you know? It's a salutation to letting things, free, letting things go or, or, or whatever. But, you know, these things happen. And they have consequences.

CHAIR: Okay. Well, now we've heard from Mr. Schmidt and please let me know if I've gotten this correct. That you are representing that if this were to move forward, you would not, you're, that is Petitioner, would not be importing any type of foreign plants or animals and putting them at this property, correct?

MR. SCHMIDT: Yes. Let me just say for the record that the Petitioner will not be violating any Federal, State or local laws as part of its conduct of any religious program here. So, we're not going to be releasing dangerous frogs, we're not going to be sacrificing children, we're not going to be doing anything that is illegal under any statute, including bringing in material or drugs or anything like that. I mean, we would obviously be compliant, I don't know, I guess you could make a restriction that we would have to obey all laws, but we will, intend to obey all laws.

CHAIR: But this is, that's a different answer to the question I asked. Because I had understood two things from what you said. I understood the we'll comply with all laws part, which is why I didn't follow up on that, but I thought you started off by saying that you'll stipulate that you're, and I may be using the wrong words that's why I'm asking you to clarify, that you would not, the Petitioner would not import any type of plants or animals onto the subject property.

MR. SCHMIDT: Yeah. I'm not a botanist, I'm not an arborist. Planting, I, I would suspect you heard testimony about, from Mr. Collagero and Mr. Motsco about the relocation of the intersection, for example, and the disturbance of that area, as well as the enlargement of the parking lot. I would suspect that Baltimore County, as part of any approval for that in terms of permits, depending on the area involved and whether it's in excess of five thousand square feet, which is typically the trigger to obtain a building, I mean, a grading permit from Baltimore County, that the County may require landscaping of some type, on some part of the property. That's just a very common requirement. I'm not sophisticated to tell you what Jim Herman, who is the County's landscape architect will require in terms of the species of planting --

CHAIR: Can we, can we agree --

MR. SCHMIDT: -- if they are whatever he says they will be, if they are not native, I, I don't know whether

they're native or not.

CHAIR: Can --

MR. SCHMIDT: But that's why I say, we will comply with any laws and not bring, we're not bringing in anything from Nepal to make, that would, that is not allowed to be imported or is contrary to any laws as my clients, we, we have no intention of doing that.

CHAIR: All right.

MR. SCHMIDT: Be willing to agree to that.

CHAIR: Okay. So, what I'm hearing is, and correct me if I'm wrong here, but we can agree that Mr. Herman is not going to order that land, landscaping that includes native plants to Nepal. We agree that he's not going to require --

MR. SCHMIDT: I have no idea what --

CHAIR: Hold on --

MR. SCHMIDT: -- I have no idea what Mr. Herman is going to require.

CHAIR: Mr. Herman is not going to require for landscaping Nepalese plants.

MR. SCHMIDT: I don't think so.

CHAIR: Right.

MR. SCHMIDT: I would agree.

CHAIR: Right. So, starting, starting with that, take it one step further, Mr. Herman could order landscaping that includes native plants only.

MR. SCHMIDT: Yes, sir.

CHAIR: Okay. So, --

MR. SCHMIDT: Well, he, I guess he could arguably, and I don't know enough about native plants, Mr. Garber, --

CHAIR: I, I'm not asking you to specify which native plants.

MR. SCHMIDT: But Mr. Herman, Mr. Herman may say uh, you want, I want you to also plant Japanese cherry trees like they have down in Washington, D.C. as part of your landscaping plan. I don't know if that's a native plant or not a native plant and that would run afoul of Mr. Clark's concerns. All I'm saying is we're not going to do anything that violates customs or anything else in, in terms of, we'll, we'll follow whatever the rules are.

CHAIR: Okay.

MR. SCHMIDT: Mr. Herman will tell us what they are and we'll follow them.

CHAIR: Mr. Holzer, is there anything you want to add or say?

MR. HOLZER: I just want to say, I mean, I think what the Board is looking for is to impose, if they decide to approve this, impose a condition.

CHAIR: I was just following up on the comment made about a stipulation that they will not be planting whatever, and I didn't know the scope of that, and that's why I turned to

Mr. Clark to ask him that question --

MR. HOLZER: Yeah.

CHAIR: -- would that satisfy you?

MR. HOLZER: Right.

CHAIR: Kind of thing, and then I don't know where that leaves us sitting here today because I think I'm more confused now than ever as to whether or not what, if anything, could be planted other than --

MR. HOLZER: My --

CHAIR: -- as long as it doesn't expressly violate local, state or federal law, they won't, they won't plant anything in violation of the law. I don't know what that, where that leaves us.

MR. HOLZER: It leaves you, if the Board decides to approve this project, leaves you with putting in a condition which addresses that issue. Not rely on the fact that the Federal government --

CHAIR: I'm sorry, I'm sorry, to be clear, what I meant is, I didn't know where that left us in terms of the representation made as to what stipulation, if anything there is, other than we won't break the law.

MR. HOLZER: I don't think there is a stipulation, I think what has to happen is the Board, if it's concerned about this, has to apply a condition and we may well address that condition in memorandums or whatever, to further define --

CHAIR: And I'm sorry to make this, belabor this point, my only, the reason why I'm bringing this up is only because it sounded as if what was being proposed would satisfy Dr. Clark, but now I don't know what was being proposed with any type of definitiveness --

MR. HOLZER: Correct.

CHAIR: -- for, to satisfy Dr. Clark. So, at the moment, we're just going to move past that, understanding that Mr., Dr. Clark has reservations as to what may be planted there, whether, you know, done innocently or, you know, whatever the case may be. He has reservations as to, I guess, non-native invasive species being made part of any landscaping plan or just planting in general.

MR. HOLZER: In a memorandum, we'll raise the issue of potential conditions that we would like to see the Board impose and as a result of doing it that way, we will attempt to define an appropriate condition for the Board to impose.

CHAIR: Fair, fair enough. Dr. Clark, you heard all that. Is there anything you wish to add to your testimony, you feel we need to know about your concerns, hold on, over non-native invasive species?

MR. CLARK: Just to add that there is a ready reference for native plants that's put out by the National Parks Service, U.S. Forest Service and the Chesapeake Bay Foundation. And it describes, I don't know, maybe a thousand

species and how they benefit both insects, vertebrates, invertebrates, which is, which for me is, is a major issue, you know? I mean, you saw the picture of our property. I mean, the forest needs all the help it can get and thirty acres is a lot of ground and lawn is a waste.

CHAIR: Okay. So, does that, have you then told us everything you want to tell us for your testimony on that point?

MR. CLARK: On that, on that point, but not done with --

CHAIR: I didn't say you were done.

MR. CLARK: Right, okay. Yep.

CHAIR: I know you're not done. On that point. We can move on. You identified forest and streams as well.

MR. CLARK: Right.

CHAIR: I'm not limiting you to that necessarily, but you have environmental concerns, but you specifically --

MR. CLARK: Yes.

CHAIR: -- mentioned forests and streams.

MR. CLARK: Yes.

CHAIR: What is it you want to tell us about forests and streams?

MR. CLARK: Well, they're, they're at the top of, of, of a hill and bordering them on the east side, there's a drainage that goes directly down into Hartley Mill, which feeds

into the Gunpowder. They have testified that they have no septic and they have no water. And we have affidavits of events held there from attendees that show no sanitation facilities.

CHAIR: Let, let me, I'll stop you there. Assuming that because, again, we're going with what they have put in their Petition, religious institution and use --

MR. CLARK: Okay.

CHAIR: -- at the property.

MR. CLARK: Okay.

CHAIR: So, assuming that fact, would you agree or not that there would be septic and water in place if they were to go forward with religious use as proposed? That they would have running water, they would have septic. I mean, you, you don't believe that they're going to conduct their property with any absence of septic and water, correct?

MR. CLARK: Oh, I do.

CHAIR: You think that they would run their property as a temple without water or septic?

MR. CLARK: Mr. Garber, I don't mean to be argumentative.

CHAIR: No, I'm just, I'm trying to get to the bottom of this to see where we can move on --

MR. CLARK: Right, right. The, the fact is, they have.

CHAIR: Okay. I recognize for fundraisers that has gone on and --

MR. CLARK: No, more than fundraisers.

CHAIR: -- for the, for the events and the fundraisers that have been held there, we don't presently have septic and water. That's been established --

MR. CLARK: Nor port-a-pots.

CHAIR: I, understood. Again, no running water, no septic and understanding they have port-a-potties, that's the way it's been functioning. I understand that. There's been plenty of testimony about that on all sides. Moving on from there, is it your expectation that if this is a religious temple that they would not have running water or septic?

MR. CLARK: That's my concern.

CHAIR: Okay. So, now please sit up straight. So, now that we've expressed your concern, assuming that to be the case, that they would not have running water and they would not have septic --

MR. CLARK: If, stuff flows downhill, flows into the drainage.

CHAIR: Okay. If --

MR. CLARK: And it, and it, and that, and my understanding is that that's a trout stream.

CHAIR: Okay. Now that we've established that if they had septic and water, what concerns would you have?

MR. CLARK: Okay. The other is that the, another is the function of the acreage has changed. And by that, I mean ecological function. It has been, what is termed an old field, which is an old farm turning into a meadow and before that it was a farm. That has a big impact on, on water filtration and also sheet flow. And it is now being maintained as lawn.

CHAIR: If I could jump in there. It was an old farm turned into a meadow.

MR. CLARK: Um hm.

CHAIR: Do you have any information as to when the property was last used as a farm?

MR. CLARK: It was an old field up until they started mowing it in 2017.

CHAIR: Okay. You're using the phrase old field.

MR. CLARK: That, that's a, that's a technical, technical --

CHAIR: I, I, I'm not disputing whether it's a technical term or not.

MR. CLARK: Right, right.

CHAIR: I just need to know what you mean by old field.

MR. CLARK: Right.

CHAIR: How are you, --

MR. CLARK: And, and --

CHAIR: -- what are you, what makes it an old field?

MR. CLARK: Old field is a farm turning into, reverting back into a meadow.

CHAIR: How long does farm re, how long do you need for farm to revert back to meadow?

MR. CLARK: It, it's generally two years.

CHAIR: Okay. So, if it's not being used a farm two years ago, what is, how does that factor into this conversion?

MR. CLARK: Well, it's been it, it, it's, it's been an old field, right?

CHAIR: Okay. So, it can be an old field for a long time?

MR. CLARK: Yes. Well, and then eventually, it's, it's a success, it's a succession.

CHAIR: I realize, it's a progression.

MR. CLARK: Yeah.

CHAIR: Okay. Because here's what I'm hearing from you, and this is where I need you to educate the Board, it's an old field, which is the conversion of farm to meadow.

MR. CLARK: Correct.

CHAIR: That can take about two years.

MR. CLARK: Right.

CHAIR: There's nothing in the record that shows this property has been used as a farm any time at all recently.

MR. CLARK: Right.

CHAIR: And when I say recently, I mean, decades.

MR. CLARK: Right.

CHAIR: So, if it takes two years to convert to meadow, shouldn't it already have converted to meadow before the, before the Petitioner had purchased the property?

MR. CLARK: All right. I have never stepped foot on the property.

CHAIR: Okay.

MR. CLARK: Okay? I mean, I've been there thirty-five years. I've never set foot on it, okay? And so, all, you know, yes, it would have been a working meadow at that point.

CHAIR: Now, the consequence of it, again, based on what we've just established, of it being a meadow today, what effect does that have on, as you just put it, water infiltration and sheet flow?

MR. CLARK: Right. A meadow is very effective in filtering water, okay? It's very impor, that, that's why it is such an important part of, of, of the State Bay initiative and it will slow down the water and reduce the speed of the sheet flow. Plus it helps to avoid channeling the sheet flow.

CHAIR: Okay. What else do you want to tell me about that? Or when I say me, I really mean the Board.

MR. CLARK: That's it for I.

CHAIR: Okay. So, that's meadow, okay, so a meadow is better for these purposes.

MR. CLARK: Yes.

CHAIR: All right. So, Mr. Holzer, I see you standing, sorry.

MR. HOLZER: Yes. I think I have something that bears on that issue that (inaudible).

CHAIR: Bless you, bless you.

MR. SCHMIDT: Excuse me.

MR. HOLZER: If it's okay?

CHAIR: Yes, please.

MR. HOLZER: Okay.

CHAIR: Sorry. I was just trying to cut to the chase as to what he meant by certain terms --

MR. HOLZER: No, I understand.

CHAIR: -- and what the consequence was for this subject property.

MR. HOLZER: I have, I have no problem but --

CHAIR: And I want to make sure he got all of his testimony that he wanted to tell us covered.

MR. CLARK: No, and I appreciate what you're doing, Mr. Garber.

CHAIR: Thank you. Where we at? Sixty-five.

MR. HOLZER: Now, can you identify this photo which has now been marked as Exhibit 65?

MR. CLARK: Yep.

MR. HOLZER: What is it and how do you know what it is?

MR. CLARK: I know it because Joann Foxworthy told me --

CHAIR: Hold on. What is it first?

MR. CLARK: Okay.

CHAIR: Let's start with that.

MR. CLARK: What, what is it? It's, it's Joann Foxworthy's backyard.

CHAIR: And you'll have to just identify for the record because it's been a number of days since we were last here talking about where Ms. Foxworthy's property was in relation to the subject property. So, where is it?

MR. CLARK: It's right across the entrance from the, the subject property.

CHAIR: On Bonaparte?

MR. CLARK: On Bonaparte.

CHAIR: Okay.

MR. CLARK: She is, she is on, she is on the west side of Bonaparte, on Harford Road at Bonaparte Ave.

CHAIR: Is it the corner house?

MR. CLARK: Yes.

CHAIR: At Harford and Bonaparte?

MR. CLARK: Yes, sir.

CHAIR: All right. So, this is her backyard, correct?

MR. CLARK: Correct.

CHAIR: All right. So, we don't see Harford Road or Bonaparte in this photo?

MR. CLARK: Correct.

CHAIR: Right.

MR. CLARK: On, Harford Road is on the other side of the fence.

CHAIR: All right. So, there's a, what appears to be a green area. We'll just call it in the top center of the photo.

MR. CLARK: Um hm.

CHAIR: What, do you know what that shows?

MR. CLARK: The, the light green --

CHAIR: Yes.

MR. CLARK: -- between the trees above the fence is the subject property.

CHAIR: Okay. Now, what is it you want to tell us about this photo?

MR. CLARK: This is how the sheet flow from that property is impacting hers?

MR. SCHMIDT: Objection.

CHAIR: Okay.

MR. SCHMIDT: Objection. The photograph speaks for itself. The con, the conclusion that this is how the sheet flow from the property impacts her house, there is, this man is not an engineer, he's not a storm water management expert, the

testimony has been that Harford Road is crowned and has channels on both sides --

CHAIR: Hold on, hold on, your objection is fine, I understand.

MR. SCHMIDT: Okay. There's --

CHAIR: He's not, he's not, he's not an expert on the subject areas that you think are required for purposes to provide that testimony.

MR. SCHMIDT: To, to make any conclusion as to, he, I guess the photograph speaks for itself. But there can be no conclusion that this witness can give that the drainage from the subject property even comes to the Foxworthy property unless he's done some kind of drainage analysis or have some expert ability or qualification to be able to have done that. And as I say, the testimony has been, and there are photographs, that show that Harford Road is crowned, which, so that water would not flow across Harford Road. And there are channels on both the Foxworthy side along the shoulder and on the subject property side, which even a non-expert would see that water would flow from the subject property into those channels and not over to the Foxworthy property. Where this flow is coming from, whether it's coming from Harford Road, whether it's coming up or down --

CHAIR: Mr. Schmidt --

MR. SCHMIDT: -- is speculative.

CHAIR: -- I understand your objection. Some of the matters you identified may be more appropriate for cross examination if allowed. Mr. Holzer, do you wish to respond to Mr. Schmidt?

MR. HOLZER: Yeah. The simple answer is, we can bring Ms. Foxworthy in and have her testify --

MR. SCHMIDT: Bring her in.

MR. HOLZER: -- as to --

CHAIR: Hold on, Mr. Schmidt.

MR. HOLZER: -- and testify ad nauseum that every time it rains heavy, the water comes from the subject site and goes into her, into her yard.

CHAIR: I do think you're going to need to have Ms. Foxworthy come to testify as to what is going on with this condition as opposed to what Ms. Foxworthy may have conveyed to Dr. Clark. I do think that some of the, there is some leap in assumptions here that may be beyond the scope of what --

MR. HOLZER: Fine.

CHAIR: -- Mr., or Dr. Clark is called for. Excuse me. I will sustain the objection but, Mr. Schmidt, we don't need to go too far afield as to it. I understood your objection. Thank you, Mr. Holzer. Thank you, Mr. Schmidt. Okay. So, leaving aside --

MR. HOLZER: Well, now, I, I want to put on the record here, again, we are being forced to bring in someone to

testify so I appreciate the fact that the Board appreciates by your rulings that we are going to have additional witnesses that need to testify. Thank you.

CHAIR: I understand the consequence of that.

MR. HOLZER: Thank you.

CHAIR: Thank you. All right. So, you've heard the ruling. Is there anything else that you could, you want to bring to our attention with respect to the photo, but recognize you can't go too far afield --

MR. CLARK: No, no, --

CHAIR: -- because it relies on, number one, things that Ms. Foxworthy may have represented but also your conclusions drawn therefrom that are not appropriate for purposes of, it really requires a, an expert witness on those issues. Is there anything else you want to tell us about the photo?

MR. CLARK: You tell me if I'm, if, if I'm over the line.

CHAIR: Oh, I think Mr. Schmidt will tell you. But is there anything else you want to tell us?

MR. CLARK: Yeah, yeah, there is. I understand the road is crowned, okay? That doesn't stop when you have the four or five inch rains that we've been having, all right, now now --

CHAIR: Again, this, since this has to take into

account the curvature of the roads and the water flow and all the other issues that we just discussed, --

MR. CLARK: Right.

CHAIR: -- is there anything else you want to tell us that would help us with this photo today, without Ms. Foxworthy being present?

MR. CLARK: Okay. No, other than as a district manager, I am very, I, I am more knowledgeable than most about sheet flow and how it travels across trails and forest roads and that crowning and ditching aren't the answer to everything.

CHAIR: Very well. So, with respect to the issues with sheet flow or water infiltration, is there anything else you want to bring to our attention?

MR. CLARK: No, no.

CHAIR: Okay. So, what else is it about the environment that you feel are potential detrimental effects that you've not otherwise discussed?

MR. SCHMIDT: Mr. Garber, Mr. Garber, has this been given a number for i.d. only?

CHAIR: Sorry, sixty-five, yes.

MR. MCCOMAS: It's sixty-five, yeah.

MR. SCHMIDT: Thank you.

MR. CLARK: I, I, --

CHAIR: I'm sorry?

MR. HOLZER: I didn't mark it.

CHAIR: Go ahead.

MR. SCHMIDT: I thought you did.

MR. CLARK: I think we're done with that one.

CHAIR: Okay. Are there any other detrimental effects on the environment that you have otherwise identified and not testified about yet?

MR. CLARK: No, I think, I think we're done with this.

CHAIR: Okay. Have we talked about all of your concerns, hold on, --

MR. HOLZER: Objection. I have five more pages of questions for him.

CHAIR: I haven't even finished my question.

MR. HOLZER: It sounded as if you're saying are we finished with --

CHAIR: I'm not saying, I, I'm not saying that he's done with your direct yet.

MR. HOLZER: Oh.

CHAIR: I'm trying to get to the end of the 502.1 factors that we've identified to make sure that we've exhausted whichever things that he wants to say. If he has more to say, I'm sure Dr. Clark will be able to let us know that.

MR. HOLZER: I have more that I need to ask him on the 502.1 conditions.

CHAIR: I'm not limiting you.

MR. HOLZER: Oh, okay. I just didn't understand.

CHAIR: I'm trying to get out of him what he wants to tell us about the environmental stuff. He said, correct me if I'm wrong, he's now done on that.

MR. HOLZER: He's finished, he's finished.

CHAIR: So, do I understand that we've had your testimony on noise, traffic, the danger and the environment? Is there --

MR. CLARK: No.

MR. HOLZER: No.

CHAIR: Okay. We haven't?

MR. CLARK: No, no. You have on the environment.

CHAIR: Okay. I need to figure out --

MR. HOLZER: Could, could I handle my witness, Your Honor.

CHAIR: Well, hold on a second.

MR. HOLZER: In terms of asking questions?

CHAIR: Yes.

MR. HOLZER: Okay.

CHAIR: But hold on one second. When we were here before the break, I specifically identified the following from his testimony. His concerns sounds and noise, creating congestion, hazards on road, inadequate sight lines, I'm, I say four because I'm interpreting that as one and the same. And then crease potential for danger, maybe the hazards go to that

too. And then detrimental to the environment, forest and streams. I asked about the first three and then we've had videos and audio and his testimony and I understood those to be relatively finished. Maybe not completely, but relatively finished. It was the environmental one that I thought okay, we haven't heard anything about that, let's exhaust all the testimony and all the whatever else that wanted to be presented on that point. So, if I'm not, if I'm mistaken as to the completeness as to any given factor, I'm not precluding you from asking questions.

MR. HOLZER: Okay.

CHAIR: I'm just making sure, do I have that correct, what I just, just said?

MR. CLARK: The, the, the, the environment, we are done with the environment.

CHAIR: Okay. So, --

MR. CLARK: I, letter I.

CHAIR: -- and your, and your understanding is we're not done yet as to your testimony as to the noise or sounds?

MR. CLARK: Can I, yeah, I need to explain a little bit.

CHAIR: Go, no, that's, yes, (inaudible). By all means, what have you not told us already with respect to the testimony that, or the evidence that you want to present to this Board on those points?

MR. CLARK: Okay. What, what, what I will do with the 502.1 conditions is these were approved, this is an approved statement by the Gunpowder Falls Watershed Preservation Association, okay? The, the, this is, this is our, --

CHAIR: You're switching hats at the moment.

MR. CLARK: Yeah.

CHAIR: From individual to a representative --

MR. CLARK: Well, and the environment, the environment was too.

CHAIR: Okay. To a, an authorized representative for the association.

MR. CLARK: Yes, yes.

CHAIR: And you'll have to forgive me, Mr. Holzer. Have we presented rule eight paperwork regarding that?

MR. HOLZER: It's in the record.

CHAIR: Again, I'm just, I --

MR. HOLZER: I think.

CHAIR: -- off the top of my head, I, I don't recall.

MR. HOLZER: I think.

MR. SCHMIDT: Mr. Garber, with all due respects and it's been a long hearing, but my recollection is there is no such rule eight material. And as a matter of fact, at least based on my last inspection, there is no entity registered with the State Department of Assessments and Taxation known as the

Gunpowder Falls Association. This is a, an organization that Mr. Clark has created and it's him, essentially, as I understand it. But at least there's nothing when I looked in Assessments and Taxation that this organization even exists.

CHAIR: Okay. I, I understand your objection. Mr. Holzer, you've heard the objection from Mr. Schmidt. While we proceed with Dr. Clark's other testimony, if we could find whatever paperwork there is, you have it there? Okay. So, let's present to Mr. Schmidt and see where that takes us.

MR. HOLZER: Before I do that, I want to see --

CHAIR: Hold on. Protestant's Exhibit 28, apparently --

MR. HOLZER: That's what I wanted to see.

CHAIR: -- Gunpowder Falls Watershed Preservation Association.

MR. HOLZER: Correct.

CHAIR: That's already been received into evidence, is that correct, Mr. McComas?

MR. MCCOMAS: Yes.

CHAIR: That's on the chart?

MR. MCCOMAS: Yes.

CHAIR: This has already been received into evidence.

MR. HOLZER: So, these objections I keep having to respond to --

CHAIR: Hold on.

MR. HOLZER: -- I mean, --

CHAIR: Mr. Holzer, I understand your frustration. But also you have to recognize we're trying to understand where this is going. Dr. Clark has indicated he wants to now present testimony on behalf of the organization, not necessarily him at, limited as an individual. So, we have to switch hats and make sure that we have the right things in place for that to occur. Understanding that this is in evidence.

MR. HOLZER: Since it is in evidence, I don't need to share it with anyone yet, do I?

CHAIR: I, I would agree that since it's in evidence, Mr. Schmidt would already have a copy.

MR. SCHMIDT: That's this?

CHAIR: That is correct.

MR. HOLZER: Yeah.

MR. SCHMIDT: And my, my point is, and I have this, a printout from the State Department of Assessments and Taxation, and so they may have a rule eight. There is no entity, no registered with the State of Maryland called the Gunpowder Falls Watershed Preservation Association.

CHAIR: All right. So, --

MR. SCHMIDT: So, you may have a rule eight that Mr. Clark signed, but it is not an entity, at least --

CHAIR: -- I believe that we will deal with that on cross examination.

MR. SCHMIDT: Okay.

CHAIR: I will let you continue, Mr. Holzer.

MR. HOLZER: Thank you.

CHAIR: Yes.

MR. HOLZER: Do you need, do you need a copy (inaudible).

CHAIR: No, we have that. For the record, I just, that's, all I wanted to make sure those I's and T's were properly crossed and dotted as necessary for, for him to be able to testify on behalf of an organization. As to whatever issues that may exist with respect to the organization's existence or other, as Mr. Schmidt wants to bring up, I'm sure he'll get into that on cross examination. And then we can determine later if there's, what effect, if any, his cross examination has on the testimony.

MR. HOLZER: A lot of community associations, they'll be shocked by hearing that.

CHAIR: I don't know, Mr., Mr. Holzer, I'm telling you I don't know the answer to the question sitting here at the moment. I'm saying, please proceed with your, your examination of Dr. Clark as the representative for the association.

MR. HOLZER: I, I will, I will. Before, I think, because of the Board's questioning that's sort of taken over from what documents I had. I do want to go back to the beginning of the testimony where Mr. Clark testified that, that

no one that lives within five miles. Mr. Clarke at least doesn't. So, I want to get this location of members that signed in at this hearing on the sign in sheets. I want to get that in the record.

CHAIR: The sign in, from listed members? I'm not following where you're going with that.

MR. HOLZER: The testimony was, his testimony was, that we have an analysis of where all the people who signed in on the sign in sheets, which are already in evidence before the Board, where they live and this is, that they don't live within five miles of the subject site.

CHAIR: Mr. Schmidt, do you dispute that, that the members of the organization all live, all live outside five miles of the site?

MR. SCHMIDT: I have no idea whether they do or don't and more importantly, what is the difference?

CHAIR: I, well, --

MR. HOLZER: That's fine.

CHAIR: -- that would be my second question as well. I don't know what the relevance is now that I sit here and think about this. That was a question --

MR. SCHMIDT: Is there some requirement under 502.1 that a congregant live within five miles?

CHAIR: I specifically, hold on, Mr. Schmidt, hold on. I specifically asked this question and we got sidetracked

So, Dr. Clark, what is the relevancy to you as to why these people live outside the five miles? I understood you to say earlier, what benefit is there to the community?

MR. CLARK: Right and --

CHAIR: Now, if you could tie that to any special exception factor, --

MR. CLARK: Yes, I can, okay?

CHAIR: Go ahead.

MR. CLARK: In fact, I can tie it directly to 502, which basically requires me to only be concerned about my community and my locale. Okay? I, it doesn't, I don't have to be concerned about Harford County, I don't have to be concerned about the needs of Parkville, I don't have to be the, be concerned about the needs of any place else. And so, my concerns are that this is, this is my community, my locale and it is being disrupted in a major way where there is no benefit to my locale. It's that simple.

CHAIR: Is there anything else you wish to get out of Dr. Clark on this point?

MR. HOLZER: I want to get in the record the location of where the people are because it is obviously relevant to the impact of the neighborhood, quote. We've heard the Petitioners talk, oh, well, you're beyond the neighborhood or where is the neighborhood? Well, this is relevant to where the Petitioners reside in relationship to their impact on the quote,

neighborhood.

CHAIR: Mr. Schmidt?

MR. SCHMIDT: Mr. Garber, there's a concept obviously of standing and obviously I understand that it is reduced or not as severe, if that's the proper terminology, in an administrative setting such as this. But certainly standing is a proper inquiry to be made to ascertain where people are from, from a standing standpoint and from a witness standpoint. That, that, it's just completely different than what the assertion is here, that people are, that the Petitioner doesn't have people who live here. I mean, that, that's got nothing to do with the special exception criteria.

There, this, this temple could be established, there could be, Mr. Clark may decide to convert to this religion and adopt this as his home temple. There might be others in the community who begin worshipping here and become, and come here because of the, the testimony. There are special exceptions involving corporations or corporate uses, which don't even have individual natural persons who are part of those entities for a, a, a corporate petitioner. So, I mean, the fact that people live here --

CHAIR: Well, if I could summarize it --

MR. SCHMIDT: -- or don't live here, has nothing to do with any subjective issue.

CHAIR: -- if I could summarize your point?

MR. SCHMIDT: Yes, sir.

CHAIR: Your, if you were to start a Catholic church, do you have to build it in the middle of a neighborhood that's predominantly Catholic?

MR. SCHMIDT: Absolutely, you, certainly you do not.

CHAIR: That would be your, that would be your argument, or the way to summarize your argument --

MR. HOLZER: Can I argue?

MR. SCHMIDT: And he went back and I, let me just say this too, Mr. Clark says again that it doesn't bring any benefit to his community. And I again, and you certainly have judged many special exception cases, if you read *Schultz v. Pritz,* that's exactly the point that Judge Davidson, and that's the seminal case in Maryland that says that is not the criteria. Whether this is beneficial to his community or not, and I would argue, I mean, I could argue that it is. But whether it is or not is simply not the criteria that this Board has to apply and his testimony as to that point, therefore, has no relevance.

CHAIR: Mr. Holzer, how do you respond to the *Schultz v. Pritz* argument? Because I will say isn't there some type of, well, it's been called a presumption in the case law, that there, that this use is not permitted by right, but it is understood to be one that would be beneficial to the community and some of these factors have already been taken into account

so that if it, if--

MR. HOLZER: I'm familiar with *Schultz v. Pritz*.

CHAIR: Right. So, --

MR. HOLZER: Been a long time, Mr. Chairman. The reason --

CHAIR: Mr. Holzer, I understand you've been around a long time. Do you wish to respond to that argument?

MR. HOLZER: Yes, yes. The fact of the location of the participants who have, will be using this property relates directly to whether or not, as you heard in prior testimony, people who live in the area know how to avoid the possible accidents, know how to drive Harford Road, know how to worry about where the curves are, etcetera. People who do not live in the community, do not necessarily share that understanding in regard to traffic, the neighborhood, if they're only visiting once a year or if they've never visited there and are going to an event, a, a, a, whatever kind of event it might be.

So, the relevance of people living in other counties, the relevance of people living in the City, the relevance of people living in another country who will be coming to this, whether it's a religious or whether it's an activity type place to play soccer or to play badminton or volleyball, is relevant to the 502 number one criteria. It's that simple. And, and, if it's not simple, if you don't let this in, I want to mark it as a proffer exhibit and I'm going to start marking documents

as proffer exhibits because I want to have a record on this case on appeal.

So, I think it's fairly clear that if you have people that are not familiar with the neighborhood, they may not be familiar with the road system.

CHAIR: Well, I, I, I'm just going to short circuit all this. I mean, at the end of the day, does it really matter this document, and this evidence? Because you certainly can argue, we all know, everybody has heard for days that people are coming outside of, they're either coming from other counties or coming from the City, they're coming from other states, whatever the case may be.

MR. HOLZER: Yeah.

CHAIR: Okay. That's already in the record. Your arguments as to well, these people aren't, don't know where they're going to be going and there's going to be confusion and there's these problems with the roads, all these arguments are still available to you, they don't --

MR. HOLZER: No, but this verifies the discussion. This verifies the analysis that supports that discussion.

CHAIR: There is no analysis of it. We, it's already established that, that you have a bunch of people coming to the site.

MR. HOLZER: But you don't know where, from where.

CHAIR: I, right, this speaks to your point. There's

nothing in the record that says that, you know, I mean, to the contrary. Like, in other words, you're not rebutting other evidence that's already in the record. This evidence also seems to, number one, I imagine what happened here is you have a list of people, you try to find out where they live. So, now it opens the door as to is this accurate information?

MR. HOLZER: All right. Then mark, then deny it, let me offer it as a proffer, proffer, Protestant's proffer number --

MR. MCCOMAS: (inaudible) so is that a summary?

MR. HOLZER: Yes.

MR. MCCOMAS: Is that just taking this and going down?

MR. HOLZER: Yes, yes.

MR. MCCOMAS: So, so, but you don't know if this is the congregation or not?

MR. HOLZER: I don't know what it is or who those people are.

CHAIR: All right.

MR. HOLZER: Nor do you.

CHAIR: I am going to sustain the objection. You may enter for i.d. only. I understand what you want to try to accomplish. I don't think that that's the way to go about doing I think what you want to accomplish and I think your argument is still preserved in any event. And I don't think

this evidence is going to help the Board one way or the other. I also find it to be, from what my recollection is, to be inconsistent with *Schultz v. Pritz*. But yes, we can mark this as sixty-six for purposes of the record.

MR. HOLZER: I would rather not mark it as sixty-six. I would rather mark it as proffer number one.

MR. SCHMIDT: What do you, what do you mean, proffer number one?

CHAIR: We're not changing designations.

MR. SCHMIDT: I've never heard of such a thing.

MR. HOLZER: I'm proffering this document.

CHAIR: Yes, we, but we have that in other, there are other exhibits that are i.d. only.

MR. HOLZER: Okay.

CHAIR: That is, for purposes of the record. So we know what document you're referring to that has not been admitted.

MR. HOLZER: Fine.

CHAIR: It's the same thing.

MR. HOLZER: That's, that's fine.

CHAIR: So, this will be Exhibit 66, which is identification only. It is not in evidence, it is being received for purposes of the record. And again, I don't think that forecloses your argument in any event.

MR. HOLZER: Sixty-six, did you say?

CHAIR: Yes, sixty-six.

MR. HOLZER: Okay.

CHAIR: All right. Next?

MR. HOLZER: Now I'm ready to ask questions.

CHAIR: Fair enough.

MR. HOLZER: Dr. Clark, you created along with others the Gunpowder Falls Watershed Preservation Association, is that correct?

MR. CLARK: Yes, sir.

MR. HOLZER: That, that organization, is it a corporation?

MR. CLARK: No.

MR. HOLZER: Is it reviewed and approved by any, either State or County local government?

MR. CLARK: Yeah, the, the, the, the County office that takes care of civic associations.

MR. HOLZER: Okay and did they place this on their list to get notification, is that the purpose of the County?

MR. CLARK: Yes, yes, yes. And that's where rule eight applies, is, as far as I understand it.

MR. HOLZER: Okay and how many members of the association are participants in the association per se?

MR. CLARK: We have what, a hundred and twenty landowners, which translates into over a hundred and fifty individuals.

MR. HOLZER: Okay.

CHAIR: When you say landowners, is that residential only?

MR. CLARK: Yes, yes.

MR. HOLZER: Okay.

MR. CLARK: And, and I, I will point out that, that in that area, landowners are far and few between because of the lot sizes.

MR. HOLZER: Now, do you, do you have a copy of the resolutions that were prepared and introduced in this case? If you don't, I can give you one.

CHAIR: You're asking does he have a copy of Protestant's Exhibit 28 in front of him?

MR. HOLZER: Yeah.

MR. CLARK: No, I do not.

MR. HOLZER: Okay.

MR. CLARK: I probably do, but I'll say not. Okay, yep.

MR. HOLZER: Now, what are the boundaries of the association, if you can testify?

MR. CLARK: Gunpowder to Gunpowder, okay? North and south.

MR. HOLZER: I'm sorry, when you say Gunpowder to Gunpowder, Gunpowder River?

MR. CLARK: Yes.

MR. HOLZER: Is north of the property?

MR. CLARK: Yes.

MR. HOLZER: Subject property?

MR. CLARK: Yes, and, and Gunpowder River south of the property.

MR. HOLZER: Okay. That's north and south, what about east and west?

MR. CLARK: East it is Belair Road and west it is Glen Arm Road.

MR. HOLZER: Okay. Does that encompass the subject site?

MR. CLARK: Yes, it does.

CHAIR: Wait, doesn't Glen Arm run east/west? I know it hooks.

MR. CLARK: It, yeah, yeah, and so the, so Long Green Pike and out that way.

CHAIR: Right, so isn't there an outer boundary?

MR. CLARK: Well, Long Green Pike out, out to, go past Fork Church, down Baldwin.

CHAIR: Okay.

MR. CLARK: There we go. Sorry.

CHAIR: No, that's okay.

MR. HOLZER: Okay.

CHAIR: And if, I assume this hasn't been asked, what is the purpose of the association?

MR. HOLZER: Well, I'm going to get to that.
CHAIR: Okay.
MR. HOLZER: But I, if I can, --
CHAIR: Sorry, I'll defer to Mr. Holzer.
MR. HOLZER: -- if I can, I would ask did you create an articles or by-laws of procedure for the association?
MR. CLARK: Yes, we did.
MR. HOLZER: And when did you do that?
MR. CLARK: November 2017, somewheres in there.
MR. HOLZER: Okay. When was the association formed, if you know?
MR. CLARK: I guess around that time.
MR. HOLZER: Okay and the document that's, that's marked here as your rule eight, how many pages of that are attached together?
MR. CLARK: I've got a total of three pages.
MR. HOLZER: All right and how did you know how to do a res, resolve under rule eight?
MR. SCHMIDT: Objection. How did he know how to do it? What's the, what's the relevance?
MR. HOLZER: Because you're going to ask him, counsel.
CHAIR: Are you asking if he, hold on, hold on --
MR. SCHMIDT: It's already in the record, Mr. Holzer.
CHAIR: Whoa, everyone, stop.

MR. HOLZER: Because you're going to ask him.

CHAIR: So, everyone, stop. I don't want to hear comments back and forth. We'll get through this. Sir, do you have familiarity with rule eight under the Board of Appeals rules?

MR. CLARK: Yeah.

CHAIR: Okay. How do you have familiarity with it?

MR. CLARK: It was explained to me by people from Kingsville Association.

CHAIR: Okay and did you review it yourself?

MR. CLARK: Yes.

CHAIR: Okay. As a result of reviewing it yourself and hearing the information that you received, what did you do?

MR. CLARK: We did a resolution and we had a, and we had a vote.

MR. HOLZER: Who had a vote? I'm sure counsel will ask that. Who had a vote?

MR. CLARK: Well, we, we, we had, we had a board vote and then we brought it to the membership.

MR. HOLZER: All right. Who's --

MR. SCHMIDT: Mr. Garber, --

CHAIR: Hold on, hold on.

MR. SCHMIDT: I just, just have a question. Isn't this already in evidence?

CHAIR: It is in evidence.

MR. HOLZER: It is in evidence.
CHAIR: It is.
MR. SCHMIDT: Okay.
CHAIR: Twenty-eight.
MR. SCHMIDT: Thank you.
MR. HOLZER: Okay. I just wanted to avoid any cross examination in regard to the technical aspects since we've had that happen before.
CHAIR: You are preempting some cross examination.
MR. HOLZER: Exactly.
CHAIR: In the interest of expediency?
MR. HOLZER: That's exactly what I --
CHAIR: Thank you very much.
MR. HOLZER: Thank you. All right. Now, if, when, in terms of this document, how did you come to the conclusion to make this resolution and what was resolved, number one? And how many votes, because this was asked before, --
CHAIR: Mr. Holzer, you're, you're asking multiple questions now. So, let's ask one at a time. First of all, we, as to what the resolution reads, we can read the resolution.
MR. HOLZER: Yes.
CHAIR: As to how the resolution came to be, I think that's the question you're --
MR. HOLZER: Yes.
CHAIR: -- you were getting at.

MR. HOLZER: How, how did it come to be? And did it follow the by-laws of the organization?

MR. CLARK: Yes, well, yes, it followed the by-laws. But how did it come to be is a big question.

CHAIR: Well, let, we'll start with this. A meeting, you, under your by-laws you're required to have a meeting?

MR. CLARK: Right.

CHAIR: Okay and who was required to be present for the meeting in order to conduct official business?

MR. CLARK: We had a call to the membership and it is five percent, all right?

CHAIR: Okay. So, you need five percent of the membership to appear. Do you, how many board members do you need to appear?

MR. CLARK: All of us appeared, actually.

CHAIR: Well, how many do you have to have appear to take --

MR. CLARK: Okay.

CHAIR: -- official action?

MR. CLARK: Fifty per, fifty percent of the board.

CHAIR: So, you need fifty percent of the board and five percent of the membership and that, does that include the board? The five percent or is it fifty plus five?

MR. CLARK: Yeah, yeah, yeah, it can, yes, sir.

CHAIR: All right. So, with that in mind, when you

take a vote, is it a vote of the membership that's present and also the board?

MR. CLARK: Yes.

CHAIR: Or is it just the board?

MR. CLARK: No, it's member, it, it would be both.

CHAIR: And what is the requirement for official action to pass? That is, do you need a majority or --

MR. CLARK: Majority, simple majority.

CHAIR: -- so, okay. So, fifty plus what basically?

MR. CLARK: Right, right.

CHAIR: All right and that's of those people present and voting?

MR. CLARK: Yes, sir.

CHAIR: As long as it's five percent of the general membership and fifty percent of the board of directors?

MR. CLARK: Yes, sir.

CHAIR: And so, on the, for your meeting that day, was, do I assume there was some type of agenda or something in which this would be discussed?

MR. CLARK: Yes, sir.

CHAIR: Okay. When you were there discussing it, was it understood that there would be a vote?

MR. CLARK: Yes, sir.

CHAIR: And did you, in fact, take that vote?

MR. CLARK: Yes, sir.

CHAIR: And did you take that vote in accordance with the by-laws?

MR. CLARK: Yeah, we did, sir.

CHAIR: And that's how you came to have the result, which is now embodied in, --

MR. CLARK: Thank you, sir, yes.

CHAIR: -- Protestant's Exhibit 28.

MR. HOLZER: That's correct.

CHAIR: All right. Do we have any other questions as to how the resolution came to be?

MR. HOLZER: No, no, as long as you've covered --

CHAIR: All right. So, next?

MR. HOLZER: All right. Now, when the resolution was passed and it authorized in the resolution you and perhaps some others to testify on behalf of the association, is that correct?

MR. CLARK: Yes, sir.

MR. HOLZER: And you are testifying on behalf of the association in regard to the 502.1 conditions, is that correct?

MR. CLARK: Yes, sir.

MR. HOLZER: Okay. I would suggest that you start with condition 502.1, condition A, be detrimental to the health, safety or general welfare of the locality involved.

CHAIR: Mr. Schmidt?

MR. SCHMIDT: Mr. Garber, just from a standpoint of,

of, of repetitive testimony, if the witness offered testimony previously, I think, in his individual capacity, if, if the testimony is being offered now in his capacity as an officer of the Gunpowder Falls Watershed Preservation Association, can we just leave it that the concerns that Mr. Clark has expressed as an individual are those of the association, as opposed to hearing the same thing again and again because he's now wearing a different hat, in effect? I would be willing to proceed in that fashion if it's acceptable to the Board and Mr. Holzer.

CHAIR: Mr. Holzer, is there any problem with proceeding in that manner?

MR. HOLZER: His, his testimony, as I understand it, on behalf of the board is not his personal testimony, it's a compilation of the board's request for him to testify to the Board. So, under the circumstances, I believe anything he says now is on behalf of the association. He's already testified as to some of his personal observations, which I'll get back to because we've been diverted from the outline. So, what he's going to say now is only representative of the board's resolution.

CHAIR: Well, I think what Mr. Schmidt is trying to propose here is whatever extent that it can be incorporated as the same testimony for both, to whatever extent that they may match, let, can we just adopt that into the testimony on behalf of the association and then, if there's inferences that he has

with wearing one hat versus an individual, that we just identify whatever differences there are, because that should be far shorter, presumably, because he has been pretty extensive, I think, to date as to his individual testimony on these issues. And if he has additional ones to offer, so be it. I'm not suggesting that you can't go into that.

MR. HOLZER: With that understanding, that he can go back to his individual testimony that he hadn't gotten to up to this point.

CHAIR: Oh, no, we're, we're talking about two different things. I'm not foreclosing that --

MR. HOLZER: Oh, okay. Okay, fine.

CHAIR: -- I'm just saying, what he has testified to to date has been understood to be as an individual. He's about to present testimony on presumably the same points, there may be some varying --

MR. HOLZER: I'll try to keep it shorter.

CHAIR: -- there may be some variation.

MR. HOLZER: Right.

CHAIR: But for example, if he has complaints about noise, I realize the complaints of the association about noise may be slightly different because the association isn't located across the street from the property.

MR. HOLZER: Right.

CHAIR: But he would have the same issue to raise,

that is, well, we have concerns about noise. That's just by way of example. Or traffic, traffic seems to me to be about (inaudible) because the association would have presumably the same concerns because it's not just limited to the Clark property.

MR. HOLZER: Right.

CHAIR: All right.

MR. HOLZER: With that understanding, I'll, I'll agree that as long as he's permitted to go back to his original testimony, I'm okay with that.

CHAIR: Right, let me just put it like this to make it easier. What differences, what differences in the testimony --

MR. CLARK: Thank you.

CHAIR: -- that you have to offer on behalf of the association compared to you as an individual, as it relates to, we'll start with 502.1(A)?

MR. CLARK: All right. I, I will try --

CHAIR: The difference between --

MR. CLARK: Yeah, that, that's right and I, I will try. Basically I'm going to reference some things and then just, and, and just move on, not introduce --

CHAIR: That's, that's fine. I want to make sure we have it in the record --

MR. CLARK: -- right.

CHAIR: -- whatever it is. I want you to let us know, but I don't want to have to rehash the same thing.

MR. CLARK: Right.

CHAIR: Like we don't want to watch additional videos --

MR. CLARK: No.

CHAIR: -- about the same thing that we just saw, (inaudible).

MR. CLARK: Let me give, let me give you an example.

CHAIR: Yes.

MR. CLARK: Okay. Be detrimental to the health, safety, general welfare of the locality. One, sound and disturbance. Reference David Poehler testimony from day five. Okay? That's what I want to say there.

MR. HOLZER: That's all you want to say?

MR. CLARK: Well, well, but, you know, that, that, that no, no, that's, that's the evidence, you know, that, that's the only evidence reference I would make.

MR. HOLZER: Okay.

CHAIR: So, okay. So, the testimony, obviously Mr. Poehler testified for some period of time from what I recall. He testified to things like music and you could hear talking occasionally and stuff like that. That's the testimony that you're referencing on behalf of the association on top of your testimony --

MR. CLARK: Yes, yes.
CHAIR: -- as an individual?
MR. CLARK: Yes.
MR. HOLZER: We're on board.
CHAIR: All right. So, next, 502.1(B).
MR. HOLZER: No, we still have more under --
CHAIR: I'm sorry. I thought --
MR. HOLZER: -- under health, safety and welfare.
CHAIR: -- I thought that's what he said that that was the (inaudible), I'm sorry.
MR. CLARK: I'm, I'm, I'm going by my outline, I'm sorry.
CHAIR: Go right ahead, sir. My, my fault.
MR. CLARK: And on day four, the, the Mary Clark testimony about the volleyball and the amplified drums.
CHAIR: I recall that.
MR. CLARK: All right. On day five, Joyce Mason, the loud noise and the amplified sound spooked her horses.
CHAIR: Right, and I recall that it spooked her horse but then since then, she got additional horses and so the second event spooked her, the four horses.
MR. CLARK: Yes, sir.
CHAIR: I understand.
MR. CLARK: Okay. We haven't introduced them yet, but under D, --

CHAIR: Well, hold on, we're, if we're moving to another factor --

MR. CLARK: No, no, no, I'm sorry, that's me. I'm misfiring.

CHAIR: Okay.

MR. CLARK: I'm misfiring.

CHAIR: I would, we got to make sure we're sticking--

MR. CLARK: Right, I, I, yeah.

CHAIR: Okay.

MR. CLARK: The, we have, we haven't introduced them yet, but we have all, videos depicting various scenes from various events, not just the, the, the August 29 or July 29, August (inaudible) --

CHAIR: Okay. So, to whatever extent we get to that, --

MR. CLARK: Right.

CHAIR: -- that would speak to some of the issues on behalf of the association?

MR. CLARK: That's right, that's, that's correct.

CHAIR: Okay.

MR. CLARK: Okay.

CHAIR: This is not to be clear, a comment as to what's going on with those videos as of yet, but understood that when that comes up in the future, that's being incorporated back into your association testimony, got it.

MR. CLARK: Yeah, yeah.

CHAIR: Okay, next?

MR. CLARK: All right. A new affidavit, Joann's, Foxworthy's health statement.

MR. HOLZER: Okay.

CHAIR: And this is under, again, A?

MR. CLARK: Right.

MR. HOLZER: This is under A, yeah.

MR. CLARK: This is, this, this, this is about the impact of this use of the way the property has been used on her health.

CHAIR: Is Ms. Foxworthy a member of your organization?

MR. CLARK: Yes, she is.

MR. HOLZER: Do you have it?

MR. CLARK: No, I don't.

CHAIR: Mr. Schmidt, do you have that in front of you?

MR. HOLZER: I gave it to him.

CHAIR: I see you do, okay.

MR. SCHMIDT: This, this affidavit?

CHAIR: Yes.

MR. HOLZER: Yes.

CHAIR: Sixty-seven.

MR. SCHMIDT: I, I have a copy of it, yes, sir.

CHAIR: I just wanted to make sure you were able to review, that's all.

MR. SCHMIDT: I, I'm looking at it now.

CHAIR: Understood. Bless you.

MS. DOPKIN: Bless you.

CHAIR: Mr. Schmidt?

MR. SCHMIDT: Yes, yes, --

CHAIR: Oh, I saw you stand, I thought you were ready --

MR. SCHMIDT: I, I was, no. I mean, I object to the document but it hasn't been offered so I'm --

CHAIR: Okay. Well, I think we're getting to that point.

MR. SCHMIDT: -- not trying to be premature.

CHAIR: So, what is your objection?

MR. SCHMIDT: My objection is, if, if this witness wants to submit this, she can come and testify. I mean, why are we getting an affidavit? I would object to an affidavit as opposed to having the witness come and testify.

Additionally, in terms of the substantive things in the affidavit, if I can summarize them, it, it appears to be that she has serious health problems and I, just not quite sure what that's got, with all due respect, I feel sorry for the lady and her health problems, and I'm not trying to minimize them. But I'm trying to figure out what that's got to do with

the special exception at issue. I, I would tell you I, I am aware of the fact that the witness has a criminal record for driving while intoxicated.

CHAIR: Well, --

MR. SCHMIDT: And I would certainly, if the, if the, based on our Maryland Judiciary Case Search, she was convicted of DWI --

CHAIR: Well, hold on. I don't want to hear that evidence right now.

MR. SCHMIDT: Okay. But I mean, I would cross examine her on whether it was alcohol problem that might be causing these problems as opposed to the special exception.

CHAIR: I under, I understand, I understand your point. Mr. Holzer, do you wish to respond?

MR. HOLZER: No.

CHAIR: Okay. So, --

MR. HOLZER: Oh, I'm sorry. I should.

CHAIR: Proceed.

MR. HOLZER: They're already in evidence.

CHAIR: What is already in evidence? The affidavit is not.

MR. SCHMIDT: The affidavit is?

MR. HOLZER: That one is not.

CHAIR: Right.

MR. HOLZER: The ones I have next are.

CHAIR: All right. Here's my thinking on the affidavit. Number one, I do think it's a concern if there are going to be substantive matters that are in here, when this witness would not be subject to cross examination. But also to the point of, this isn't on behalf of the association, where this is an individual conveying her individual issues on, but it's being submitted via the association. It seems to me that the, and do you have Exhibit 28, just so I can reference it real quick?

MR. MCCOMAS: Yeah.

CHAIR: Bear with me one second.

MR. HOLZER: Sure.

CHAIR: The resolution merely illustrates the opposition, that is understood. And it is understood that there were reasons that, for the opposition that certainly Dr. Clark is here to testify to today. Since he is a live witness and we have heard from other witnesses that are already incorporated, I think the more prudent course of action is to sustain the objection and not have the affidavit come in at this point. That does not limit the other testimony that you have given, just as to, solely as to the affidavit and to be clear, it is not to minimize Ms. Foxworthy's health issues or anything else. The concerns that she has, I assume that she may have these concerns but since it does not meet the requirements, I think, for admission here for this Board in

this case, it, we, better to set it aside for now and try to move on.

MR. SCHMIDT: And certainly, if she wants to testify, that would be appropriate --

CHAIR: She's not precluded.

MR. SCHMIDT: -- sure, and I, I look forward to cross examining her.

CHAIR: She's not precluded from testifying.

MR. HOLZER: Would her cross examination include her driving record?

CHAIR: I'm not making any opinions as to the driving record. There's a reason why I shut that down right away because I didn't want to hear it.

MR. HOLZER: But, yeah, and I didn't want to present the woman if she's going to be cross examined on that kind of irrelevant testimony.

CHAIR: Mr. Holzer, we're, we're not even there yet. So, I understand your concern that you're trying to voice here about it. I, and I don't know where it is with respect to whether or not it's appropriate or not. So, I can't make any type of comments as to whether or not she could or could not be subject to whatever questions that Mr. Schmidt, hold on, would otherwise put to her on cross examination. I'm not, I do not wish to hear anything further about any type of DUI convictions, alcohol use or anything else. She is not here. If

and when she were to show up, if it's appropriate, then we will cross that bridge then. I, we do not need to address it sitting here today.

MR. HOLZER: Well, I don't, I don't know whether I want to put the woman in that position or not, so --

CHAIR: Mr. Holzer, that is fine. And again, what I have said about it stands. We do not need to hear anything further about it so please continue with your --

MR. SCHMIDT: Mr. Garber, can I just say, I, I certainly did not intend any offense of Ms. Foxworthy. I --

CHAIR: It was not taken that way.

MR. SCHMIDT: I bring that up because the affidavit or alleged health issues and there might be many reasons for health issues so that's all I'm going to say.

CHAIR: Okay. Well, just, there's nothing more that needs to be said about it. It was not received that way. I understand that you have cross examination perhaps for her.

MR. SCHMIDT: Sure.

CHAIR: For, on whatever basis, irrespective of whether or not there ever was a record of this or not. So, I would already be inclined to not allow the affidavit in on, because there's substantive matters set forth within and there's already additional evidence for the points to which Dr. Clark wishes to use them for purposes of the association so, therefore, it's also duplicative in that, in that regard, so we

do not need to hear from, I guess, the affidavit on those points, when it's already well established through Dr. Clark's other evidence as to the noise issues.

MR. HOLZER: Again, I, I --

MR. MCCOMAS: (inaudible) i.d. only?

CHAIR: I.d. only.

MR. MCCOMAS: Okay.

MR. HOLZER: Again, even though it's been marked for identification and you precluded it from coming into evidence, I want to make sure that, that the word proffer as to its entrance is on the record, because all of this will end up being an issue.

CHAIR: I am not foreclosing your ability to argue that we made errors in our evidentiary rulings --

MR. HOLZER: I understand.

CHAIR: -- specific to any of the exhibits that we've discussed so far.

MR. HOLZER: I understand.

CHAIR: But particularly now in light of the context of Exhibit 67.

MR. HOLZER: And the only thing that I'm, I'm saying, and not to offend the Board --

CHAIR: It's not, it --

MR. HOLZER: I, I understand.

CHAIR: There's, there's no offense.

MR. HOLZER: I understand. But when, when one is in a subsequent appeal, if that is what's going to happen, the, the Courts understand that you, when you proffer a document in and it didn't end up getting considered by the, I just want them to understand what, --

CHAIR: Right.

MR. HOLZER: -- what it is and that's all.

CHAIR: And so, that's why we include it as i.d. only and it, it is made part of the file, though not admitted, --

MR. HOLZER: Right.

CHAIR: -- therefore, for the purposes of the Board's consideration, we do not consider Exhibit 67.

MR. HOLZER: Right.

CHAIR: Though it should be transmitted with the file should there be future proceedings.

MR. HOLZER: Thank you, Mr. Chairman.

CHAIR: Sure thing.

MR. HOLZER: You have certainly outlined it for the, for subsequent inquiry.

CHAIR: Yes, that is fine.

MR. HOLZER: I appreciate, I appreciate that.

CHAIR: No problem.

MR. HOLZER: All right.

CHAIR: So, we're done with Ms. Foxworthy's affidavit at the moment.

MR. CLARK: Okay. I, I, I would say --
CHAIR: Well, there's nothing --
MR. CLARK: Okay, okay.
CHAIR: -- there's no question pending.
MR. CLARK: (inaudible).
MR. HOLZER: Okay.
CHAIR: (inaudible) Mr. Holzer.
MR. HOLZER: Now, next would be in terms of documentation, Ms. Foxworthy's sound affidavit, Robert Shifflett's sound affidavit and Dave Poehler's sound affidavit. I don't want to go into all of the argument again, but in terms of those documents, I would like to put them in, if, if that's, you're familiar with --
CHAIR: If I'm understanding you correctly, you have two additional affidavits to discuss sound?
MR. HOLZER: Three.
CHAIR: Three, sorry.
MR. HOLZER: Three.
CHAIR: What I heard was Mr. Shifflett, Mr. Poehler?
MR. HOLZER: And Ms. Foxworthy.
CHAIR: We, we already dealt with --
MR. HOLZER: It's a different one.
CHAIR: Oh, we have a different Foxworthy, okay.
MR. HOLZER: Yes.
CHAIR: So, we have a second Foxworthy. Now, Mr.

Poehler has already testified.

MR. HOLZER: Yes.

CHAIR: He, he has been here, he has been cross examined by Mr. Schmidt.

MR. HOLZER: Yes.

CHAIR: And so, do I understand this affidavit to be additional?

MR. HOLZER: No. What I want to make sure of, if these three affidavits were already submitted to this Board in the preliminary motion, okay?

CHAIR: They were not received as substantive evidence but they were made part of the motion.

MR. HOLZER: Exactly. And I want to make sure that they are, in terms of the substantive presentation, not just the motion.

CHAIR: Understood. Mr. Schmidt, anything you wish to add?

MR. SCHMIDT: Yeah, yes, I object. I believe it's a fairly fundamental rule of evidence that if a witness has testified, for example, as Mr. Poehler has, I'm not sure why there would be a need, and I don't think it would be appropriate, to allow that witness who has already offered testimony and been cross examined, to then submit an affidavit. If he wanted to testify about the matters in the aff, that are contained in the affidavit, that witness certainly had an

opportunity to do so and I would have had an opportunity to cross examine him regarding those matters. But to, essentially, backdoor, my choice of words, by allowing him to come in, testify about certain things, be cross examined about those things and I would be restricted to the area of direct examination in my cross examination, and then allow him to submit an affidavit alleging or testifying about additional facts, I think is manifestly improper --

CHAIR: Well, if I, if I can --

MR. SCHMIDT: I've never heard of that even under relaxed rules of evidence.

CHAIR: If I could just jump in on that point. To, only to add, we haven't seen the affidavits, first.

MR. SCHMIDT: As, as have I.

CHAIR: And second, right, and (inaudible). But second, he actually was specifically provided direct and cross examination testimony as to the noise issues that he has, personally had experience with.

MR. SCHMIDT: Yeah, I mean, I was trying to look at my notes as I, as Mr. Holzer was saying this, and I believe he did so it's duplicitous on top of --

CHAIR: He talked about specifically music, music coming at 1:00 a.m. in June or July of 2017 from what I recall.

MR. SCHMIDT: Right.

CHAIR: That's the one thing that stands out. I'm

not suggesting it's limited to that, but I do recall testimony from Mr. Poehler on that very point and then there was questions asked about a rock concert held by another neighbor down, a bit away and he said the music didn't sound like rock music to him and, and he's an aficionado of rock music.

MR. SCHMIDT: Right.

CHAIR: Something to that effect.

MR. HOLZER: The, the point of the matter is, you got it all wrong in terms of the sequence. This, these affidavits were submitted on the first day in the preliminary motion, before he ever had a chance to testify or be cross examined.

MR. SCHMIDT: But they were motions exhibits.

CHAIR: I don't think that that makes a difference. I think what, what the point of it is, is whatever he wanted to say he had the opportunity to say, he's not here, so therefore, we shouldn't take the affidavit as substantive evidence since he's had the ability to testify to the very points, presumably that are contained in the affidavit. Now, we're going to go through the same procedure, as we did with the other Ms. Foxworthy, that is, to allow you to introduce into evidence for i.d. only, recognizing these are proffers as to the documents, correct?

MR. HOLZER: That's correct.

CHAIR: Okay.

MR. HOLZER: So, I have Ms. Fox, Joann Foxworthy.

CHAIR: There's a second one?

MR. HOLZER: The second one is Robert Shifflett.

CHAIR: So, Joann Foxworthy was the one before?

MR. HOLZER: It's a different affidavit.

CHAIR: What, there are two?

MS. DOPKIN: Two separate --

MR. MCCOMAS: Two of them.

CHAIR: There are two separate affidavits from Joann Foxworthy?

MR. HOLZER: Yes.

CHAIR: I thought we were talking about two different Ms. Foxworthy's, that's why I was confused.

MR. HOLZER: No, no, I'm sorry.

CHAIR: No, that was my fault. So, okay, so there's another, right.

MR. HOLZER: And then, well, I can tell you, Mr. Poehler testified about music and sound, so you've already said that Ms. Foxworthy and Mr. Poehler's are, are going to be marked in this three packet material, which is, I think would be safe to mark it, mark the one, the three packet material as one. But Mr. Shifflett --

CHAIR: So, 68-A, A, B and C is how we're going to do this. Foxworthy A, who's come, who's page two?

MR. HOLZER: Page two is Mr. Robert Shifflett.

CHAIR: Mr. Shifflett will be B and then finally Mr.

Poehler would be C.

MR. HOLZER: Yes.

CHAIR: These were affidavits attached to your motion at the start of this entire hearing.

MR. HOLZER: Right. Mr. Shifflett never testified.

CHAIR: I know, that's understood.

MR. HOLZER: Okay.

CHAIR: Right.

MR. HOLZER: Okay.

CHAIR: His name has been brought up, I recall, during the course of the hearing at some point.

MR. HOLZER: Right.

CHAIR: But he has not testified.

MR. HOLZER: Right.

CHAIR: Mr. Schmidt, do you understand that that's how this is being received at the moment?

MR. SCHMIDT: Yes, and you're marking all three for identification purposes only.

CHAIR: Yes, 68-A, B and C marked for identification.

MR. SCHMIDT: Yes, sir.

CHAIR: I think we've already exhausted and covered the grounds as to those points.

MR. SCHMIDT: I believe so, thank, thank you.

CHAIR: So, the same ruling that was provided for the other Foxworthy affidavit will be made part of 68-A, B and C as

well. All right.

MR. SCHMIDT: Thank you. And it's sixty-five?

MR. MCCOMAS: No, sixty-eight.

CHAIR: Sixty-eight.

MR. HOLZER: Sixty-eight.

MR. SCHMIDT: Sixty-eight, I'm sorry, thank you.

CHAIR: Thank you.

MR. SCHMIDT: I didn't think that was right.

CHAIR: All right. Next, Mr. Holzer?

MR. HOLZER: I believe you wanted to under detrimental to health, safety and welfare, Morgan Minor's sound and lighting affidavits. Has Ms., go again, explain who Ms. Morgan is.

MR. CLARK: She can't be here and Morgan Minor lives on Harford Road, about eight-tenths of a mile from the property. And she has complaints about, about the amplified sound and then the way the light, the up lighting at the mansion at night.

CHAIR: Was Ms. Minor here on any day thus far?

MR. CLARK: Yes, she was.

MR. HOLZER: She originally attended, I think, the first couple days and then she travels for employment.

CHAIR: I seem to think that on November 1st she was here because you were referencing things that she printed out from Facebook or wherever else and then --

MR. CLARK: I don't think she was here on November 1st (inaudible).

CHAIR: Okay. I seem to recall you gesturing toward the audience as if she was. I would, I don't know who she is, so.

MR. CLARK: Yeah.

CHAIR: That's why I'm asking this question.

MR. CLARK: Yeah. No, no, she's been here.

CHAIR: But she has been here. But she cannot be here today?

MR. CLARK: And, and tomorrow.

CHAIR: And tomorrow.

MR. CLARK: And then she's leaving for Europe or some, yeah, she's --

CHAIR: Okay.

MR. CLARK: -- one of those people.

CHAIR: So, you're going to submit an affidavit as to specific substantive matters --

MR. HOLZER: Very short.

CHAIR: -- for that, so that will be received in the same manner as the other affidavits. Sixty-nine. Mr. Schmidt, that is your understanding?

MR. SCHMIDT: Yeah.

CHAIR: I assume you have the same objection and which will be sustained.

MR. SCHMIDT: Yes, sir.

CHAIR: So, that will be applicable, sixty-seven, sixty-eight, sixty-nine.

MR. MCCOMAS: Mr. Holzer, do you have many more affidavits like this?

MR. HOLZER: Let me just check.

MR. CLARK: Maybe not today.

CHAIR: Hold on, sir, there's not a question pending.

MR. CLARK: Yeah, yeah, yeah.

MR. HOLZER: Let me just look. Well, there, there are, there are some affidavits that are new, not old affidavits from the motion.

CHAIR: All right. Well, let's do this in the interest of, again, trying my best to figure out what would be expedient. We know generally, obviously, haven't seen them all yet, but where we stand with respect to the affidavits. But with respect to actual testimony that this witness can give today, we could go through the affidavits and deal with that separately, it seems, if it's going to run in the same pattern it has for sixty-seven through sixty-nine. And let's just get to the association testimony as to whatever, what other evidence we can get in the record, that's, you know, while we're here.

MR. HOLZER: Okay.

CHAIR: So, is, would that be okay, Mr. Holzer?

MR. HOLZER: Yes.

CHAIR: If we do that? All right. So, we're all, as far as I know, we're still on A.

MR. CLARK: Right.

CHAIR: 502.1(A). Leave aside all affidavits.

MR. CLARK: Last thing.

CHAIR: Okay.

MR. CLARK: On, on, on A. The value of solitude, which is why we, everybody says they have moved out there.

CHAIR: Yeah, that's why everyone moved out there.

MR. CLARK: Right, you know. And the disturbance of that solitude by, by the use of the site as it has been used, all right, I've told you I'm very big in the wilderness area, all right?

CHAIR: We're talking about your testimony as the association.

MR. CLARK: Yeah, yeah, right. But as, as someone who has been, all right, I received, in 2017, I went down to (inaudible) National Forest, participated in a U.S. Forest Service training on the Wilderness Act of 1964.

CHAIR: Okay.

MR. CLARK: Okay? The only reason this is being brought in, --

CHAIR: Okay.

MR. CLARK: -- is because in 1964, the Congress, in

its wisdom, determined that solitude was a, was, had, had the same importance as minerals, water, air, all the other resources. Now, it only applies to designated wilderness areas, okay? But the point I'm trying to make is that solitude is seen as, as a very important value. A very important resource. And it has been acknowledged as such. I had, we have a copy of the Act for you, okay? Here's my little book.

CHAIR: I see he pulled the book out of his pocket.

MR. CLARK: Like the Constitution.

CHAIR: Yes, thank you.

MR. CLARK: And, you know, and, and so, and it's that, you know, and this goes to what everybody, in --

CHAIR: (inaudible) your wife has, your wife has indicated --

MR. CLARK: Well, the entire board, right, right?

CHAIR: But how does this relate to the association?

MR. CLARK: The association is, is, is very concerned about the loss of solitude.

MR. SCHMIDT: Mr. Garber, just to avoid any objection, is, is this a designated wilderness area?

MR. CLARK: I just said no.

MR. SCHMIDT: It is not?

CHAIR: That, that's how it was received by me. That it was not.

MR. SCHMIDT: Okay.

CHAIR: But he's extrapolating from that as to the value of that factor and how that's incorporated in the general health, welfare --

MR. CLARK: Yeah, yeah, yeah, that's fair.

MR. HOLZER: All right. I have the Wilderness Act here, which --

CHAIR: This will be seventy-one, sir?

MR. MCCOMAS: No, seventy.

CHAIR: Seventy, sorry.

MR. CLARK: And I can --

MR. HOLZER: No, hush.

CHAIR: Hold, hold, hold on, Dr. Clark.

MR. HOLZER: Sorry, I apologize, but.

CHAIR: It's important to listen to your counsel in this regard. There's no question pending.

MR. HOLZER: Thank you. Just wanted to make sure everything was correct.

CHAIR: All right.

MR. HOLZER: And that is number seventy?

MR. MCCOMAS: Yes.

MR. HOLZER: Now, let me ask you this --

MR. CLARK: Can I have a copy?

MR. HOLZER: Pardon?

MR. CLARK: Can I have a copy?

MR. HOLZER: Oh, okay. You can have my copy.

CHAIR: Mr. Schmidt, I assume you don't have an objection to the Wilderness Act itself being admissible? I understand you may have a concern as to its applicability, which I assume you'll reserve for argument and/or cross examination.

MR. SCHMIDT: Yeah, yes, sir, that's correct.

CHAIR: But as to the admission of Exhibit 70, it is a public, well, --

MR. SCHMIDT: Yeah, I mean, I'll be honest with you, my knowledge of the Wilderness Act of 1964 leaves a little bit to be desired, whether this is still good law or not, I don't know, but I'll argue it eventually. Thank you.

MR. HOLZER: Well, that, that's because us old people are familiar with 1964 legislation.

MR. SCHMIDT: I remember it.

MR. HOLZER: You weren't even born yet.

MR. SCHMIDT: I was here.

CHAIR: It will be, it will be admitted. It will be admitted.

MR. HOLZER: Thank you.

CHAIR: Yes.

MR. HOLZER: Thank you.

MR. SCHMIDT: We can argue what it says and its application.

MR. HOLZER: You can, you've already expressed the

parameters for introducing this, is that correct?

MR. CLARK: Right.

MR. HOLZER: You're not saying that it applies to this --

CHAIR: It is not controlling.

MR. CLARK: No, no.

CHAIR: Over the decision making but you are saying that the factor itself is a consideration as part of, again, the 502.1(A) in terms of your health, general welfare --

MR. CLARK: Yeah, that has been recognized --

CHAIR: (inaudible) do you feel that that's fair to consider as a --

MR. CLARK: -- as a, as, as an important part of the human experience.

CHAIR: Understood. That's how at least it is being received by us, that was --

MR. HOLZER: Perhaps that Act should be addressed to this proceeding too maybe.

CHAIR: Either that we're in the wilderness or that we need the solitude?

MR. HOLZER: That we need the solitude.

CHAIR: Or both, yes. All right. So, with that in mind, it sounds then from what I understand, we're done with talking about 502.1(A), because you said this is the last.

MR. HOLZER: No, we're not.

CHAIR: Is that correct or not?

MR. CLARK: I, I, I thought, Carroll, I, I don't know.

CHAIR: All right.

MR. HOLZER: Under 502.A, dealing with sound and disturbance, we are finished.

CHAIR: That, that was what I, I'm sorry if I wasn't clear. That was my understanding.

MR. HOLZER: Yeah, and I'm sorry, but we still have adequate sanitary facilities, etcetera, to, which can affect the health, safety and welfare. So, the question is, do you want to continue to proceed, is there an appropriate time for the Court, or for the Board to stop --

CHAIR: I'm willing to proceed as long as Ms. Dopkin and Mr. McComas are.

MR. HOLZER: Okay.

CHAIR: All right. So, let me back up here because what I'm hearing is, what is to come is adequate sanitary facilities, which we've heard evidence about the lack of septic and water. Yes, Dr. Clark? You need a time out? Okay.

MR. HOLZER: And I would put on the record, we did start at 9:00, which is above, an hour before the normal 10:00 start hearing and it's now 5:00.

CHAIR: Yes.

MR. HOLZER: Just for the record.

CHAIR: No, not a problem. We are going to take a five minute break so Dr. Clark can attend to other activities.

(RECORDING PAUSED – 05:00:06 PM)

(ON RECORD – 05:05:14 PM)

CHAIR: All right.

MR. CLARK: I'm talking about the need to --

CHAIR: Oh, oh, no, that's okay. Yes. All right. We're back on the record. We're resuming with Dr. Clark.

MR. HOLZER: Yes. And we're still under the health, safety and welfare of, of 502.1, conditions.

CHAIR: My idea for today is to get through as much as possible, including get through all of 502.1 factors for the association and for Dr. Clark to the extent we've not already heard whatever it is he wants to say about it.

MR. HOLZER: We're going to be here until 9:00, 10:00.

CHAIR: The, that's not going to be acceptable, whether there's a day three. Because he is one witness, though he has two different roles, most of which are overlapping. We've already had him here on the stand all day for November 1st, whatever amount of time he spent all day today. I'm trying to move this along. We're not, there's no way on earth we can have another three to four hours of direct on Dr. Clark. That can't be the case. This is a special exception case, we've identified what factors are in play. I agree we may not have

exhausted it, I understand that. I'm not saying you can't ask the questions.

MR. HOLZER: I'm going to ask the question, Mr. Chairman, unless you tell me I can't.

CHAIR: But you need to be mindful of this is one witness in a special exception case that is going to be three days that, that seems to be a bit disproportionate.

MR. HOLZER: Your Honor, I, I was concerned about that and I watched and went back and looked at what the developer put on, or the Petitioner put on. And they ended up having to recall a witness who, who after investigation --

CHAIR: Mr. Collagero came back on the stand.

MR. HOLZER: Yes. And, and went through all that again. So, I, I --

CHAIR: And, and Mr. Holzer, just to steal your thunder there. This is not a comment as to how your case is proceeding, that is, I understand you have additional witnesses to present and it may take a couple, you know, some more time with them. I'm not discounting any of that. That is what it is. I'm saying this one witness for three days is a bit much. We need to figure out how to streamline this because we've heard a lot of evidence about, again, noise, traffic, safety concerns, the environmental concerns now, for, individually. Now we're into the association which, again, I recognize there are differences, you have to go through that. So, let's try to

do what we can to get as much out today.

MR. HOLZER: I've been trying to do that in terms of the --

CHAIR: I'm not, this isn't an admonition of you.

MR. HOLZER: Okay.

CHAIR: This is not. This is just me saying let's all get through this because I don't want to, and I'm sure Dr. Clark certainly doesn't, have a third day to testify at, on these factors which we've already heard a lot of testimony.

MR. HOLZER: Your Honor, I, just for the record though, to make, to make sure the Board understands, in terms of some of his testimony, it, it almost relates to a last wit, a last lay witness from the community summarizing what has been going on. And that's, and that's what he's trying to comment on. I mean, if somebody said something and he wants to rebut it for the, for the Protestants, that's what he's trying to do. Not retry the whole case over but --

CHAIR: No, and I understand that. And I'm trying to work with it too and I understand that he's trying to make some comments here and there about certain evidence that he finds important.

MR. HOLZER: Right, right.

CHAIR: And wants to make sure that we are aware of and, you know, --

MR. HOLZER: Exactly, exactly, you nailed it.

CHAIR: Right, it just, the, the concept of where we'll need another third whole day for him is not something that this Board, at least I don't feel personally comfortable with. I can't speak for Ms. Dopkin or Mr. McComas, but again, we have other witnesses still to come and we've had heard, I will, I will classify it as ample evidence as to the specific factors that have been identified to date. If there are additional points to be made, by all means, --

MR. HOLZER: And I, and I just, I, I understand what you're asking.

CHAIR: Right.

MR. HOLZER: One of the problems is that there is documentation, either written documentation or visual documentation, that rebuts some of the testimony of the Petitioners and that has not been brought before the Board. You've heard one testimony from the Petitioners and then you've heard testimony from the community but there hasn't been a rebuttal type of testimony that the community has been able to present.

CHAIR: I understand.

MR. HOLZER: And, and that's why --

CHAIR: We'll, we'll figure that part out. Just, I want to make sure we get all the 502.1 factors into the record and then see what is left over and we'll move on from there. Where we last left off, it was adequate sanitary facilities.

MR. HOLZER: Yes.

CHAIR: You have discussed that there's no septic, no water. We went through as to your, whatever testimony you wanted to provide. If it was operated in the religious manner proposed without septic or without running water and with septic and running water. What is it on behalf of the association you, do you want to address on those points to the extent that there's a difference? If it's the same, it's understood that you're incorporating your prior testimony into it. If it's from the association, there's a difference, that's what I'm asking you to identify.

MR. HOLZER: I, I apologize. I was looking to try to move on and didn't understand --

CHAIR: I was just saying we've had testimony as to if there is the temple to go forward, does he have a concern about the septic and water? He said yes, that they may not have septic and water. I asked him to identify those concerns and bring out that evidence. And then I said, now let's assume that there would be septic and running water, was is your, what are your concerns and what is that evidence? So, we have it covered both with and without as a religious use.

MR. CLARK: Can, can I answer --

CHAIR: And then now I'm asking with respect to the association, what difference in testimony in light of that does, is it, does the association have that's different than

what he has as an individual on those two subsections.

MR. CLARK: Okay. Can, can I, basic, I think we've just got some affidavits to fill, to, to enter in as i.d., however they've been.

CHAIR: Okay.

MR. HOLZER: And that's what I was working on try to keep --

CHAIR: Oh, no, and I understand that. But just so we're clear, for the adequate sanitary facilities, is it the, any additional evidence would consist of the affidavits that have yet to be offered or proffered to the Board?

MR. CLARK: What the affidavits will concern.

CHAIR: Well, I, I, again, understanding that the aff, that Mr. Holzer will present the affidavits --

MR. CLARK: I'm getting tired, so, --

CHAIR: It's okay. He'll present the affidavits.

MR. CLARK: Right.

CHAIR: Let's leave that affidavit stuff aside for the second. Is there any other evidence that you want to present or testimony for the association on the matter of the adequate sanitary facilities?

MR. CLARK: Okay. I would just reference Robert Powell's testimony.

CHAIR: Robert Powell's testimony.

MR. CLARK: Thank you, sir.

CHAIR: Okay. What about Robert Powell's testimony?

MR. CLARK: That the septic, that the septic system has failed, --

CHAIR: The, the existing septic system has failed.

MR. CLARK: Right. Has failed, there is none at the moment and that they were preparing a well, all right? That they had no water.

CHAIR: Okay. Now, the other test, or the other evidence you wish to put forward on this point are consistent with the affidavits?

MR. CLARK: Yes, sir.

CHAIR: All right. So, let's show Mr. Schmidt those. And we'll get back to you in one second.

MR. SCHMIDT: Thank you.

MR. HOLZER: And I'll show you this, and for the record, it's a packet of affidavits.

CHAIR: Seventy-two?

MR. MCCOMAS: It's seventy-one.

CHAIR: Seventy-one, sorry.

MR. HOLZER: It's a packet of affidavits from different people.

MR. CLARK: Do I, don't, I don't really need that, do I?

MR. HOLZER: Yeah, if you need it to, to look at it in case there are any questions.

MR. CLARK: Okay.

CHAIR: All right. So, I reviewed, or gone through the affidavits here and it just, as best as I could tell, going through quickly, it establishes the same points that I don't think there's any dispute. There is no, there is, at present, no functioning septic system and no running water.

MR. HOLZER: And no port-a-potties.

MR. SCHMIDT: Well, they bring --

CHAIR: And no port-a-potties.

MR. SCHMIDT: Well, they, I think the testimony was they had port-a-potties for the fundraising events.

CHAIR: Right. So, but if I were to go to the site right now, --

MR. SCHMIDT: Today, is there a port-a-potty --

CHAIR: Well, hold on, I don't need to know that, in evidence --

MR. SCHMIDT: Oh, there is, there is one there now.

CHAIR: Okay. But be that as it may, there's not running septic and there's not running water.

MR. SCHMIDT: Right.

CHAIR: And your concern is, as you mentioned before, they just had port-a-potties and that would be your concern going forward, if there was no running water and no septic. That testimony is the same for you and the association?

MR. CLARK: Yes, sir. Yes, sir.

CHAIR: All right. So, on that basis, with respect to the affidavits, they'll be treated in the same manner. I also find it duplicative because the evidence which they put forward again, seems to be the same as what's already been established and apparently largely agreed upon on both sides, anyway.

MR. HOLZER: These were, these were affidavits --

CHAIR: I understand with the preliminary motion.

MR. HOLZER: Yeah.

CHAIR: Right.

MR. HOLZER: Gotcha.

CHAIR: Done then. But for purposes of substantive evidence today, it's going to be treated in the same manner as the other affidavits as before.

MR. SCHMIDT: Seventy-one i.d. only.

CHAIR: I.d. only.

MR. SCHMIDT: Thank you.

CHAIR: Yes. Is that it for that subject matter? Okay, does that --

MR. HOLZER: No, it's not. There is a question, did you personally observe something that you needed to testify to on behalf of the association? I mean, I don't want to put words in your mouth.

MR. CLARK: No, no, no, no. I, no, I know and thank you. But you did.

CHAIR: Okay. So, what is it you would like to say on behalf of the association?

MR. CLARK: Yeah, I, dur, dur, during the event July/August 2018, we counted a total of three port-a-pots for over five, over three hundred people a day at any rate, if not five hundred and no service trucks.

MR. SCHMIDT: Just to be consistent, objection. So, so what? Obviously, if we get an occupancy permit, we're going to have to, Mr. Powell testified about all this.

CHAIR: You, I have your, I have your objection on the record. I will say whatever happened in July/August 2018 with three port-a-pots, it's understood that there was no functioning septic system, no running water, it's understood that there were port-a-pots there. The sufficiency of which for the attendees, I believe, is not something to, correct me if I'm wrong here, but you don't have an area of expertise to even say what would be appropriate, what is not appropriate --

MR. CLARK: Other than the fact that I clean privies for a living, no.

CHAIR: Understood. And so, we can move on from there. All right. So, I'll sustain the objection in that, in that respect understanding everything that's been said prior to the testimony on that point.

MR. HOLZER: And this is, are more affidavits so we can get these out of the way.

MR. CLARK: Which affidavits were these?

MR. HOLZER: These are the affidavits --

CHAIR: Well, why don't you identify them for the record?

MR. CLARK: Oh, I'm sorry.

CHAIR: If, I mean, I guess it's coming to you unless Mr. Holzer wants to proffer it to the Board?

MR. HOLZER: No, this is, these are affidav, this is the packet that I just gave the Board regarding port-a-potties.

MR. CLARK: Oh, okay.

CHAIR: Okay. So, these, okay. This speaks to the port-a-potties and the point that you, you just, you just identified.

MR. SCHMIDT: Also talks about Councilman Marks, I believe.

CHAIR: Okay.

MR. SCHMIDT: Which, which I'm sure is, I don't think is appropriate.

CHAIR: Yeah, I don't know why that would be in there anyway. So, --

MR. CLARK: That, that actually goes to a different part of our case, someplace else --

CHAIR: I believe there was already testimony in here regarding various things said by Councilman Marks and Senator Brochin at some fundraiser when the code enforcement was called

and --

MR. CLARK: You got, okay, you got a great memory. Thank you.

CHAIR: Thank you. So, I do recall that there was some testimony in the record regarding that. Having said that, these affidavits will be received in the same manner as was just described for Exhibit 67 through 69 and 71. Because I believe seventy was a different exhibits. Yes, the Wilderness Act. All right.

MR. HOLZER: Now, for, for purposes of what his outline had next, related to the police reports. And I understand at the time this was prepared, we didn't know what the Board's decision was. So, I'm not going to get into that issue. Now, there was a question that the community had, I believe, related to fire.

MR. CLARK: Yes.

MR. HOLZER: And that was an issue under health, safety and welfare, and it could also go under create a potential hazard from fire.

MR. CLARK: Yes, yes.

MR. HOLZER: So, but this is, the Order that I have, the outline --

CHAIR: That's fine, as a topic.

MR. HOLZER: As a topic.

CHAIR: Understood.

MR. HOLZER: So, --

CHAIR: What is it you wish to tell us on behalf of the association as to a concern about fire?

MR. CLARK: We have a video, again, culled from videos that Petitioners, --

CHAIR: Well, before you describe what's on the video.

MR. CLARK: Okay.

CHAIR: Let's express what the concern is.

MR. CLARK: Oh, okay. Unsafe use of fire.

CHAIR: Unsafe use of fire. Okay. All right and I assume then that you have a video that will depict whatever it is that causes you to have that concern?

MR. CLARK: Yes, sir.

CHAIR: When I say you, obviously I'm referring to the association.

MR. CLARK: Yes, sir.

CHAIR: All right. Now, that's going to require a video to be played?

MR. CLARK: Yes, sir.

CHAIR: Mr. Holzer, I'm going to leave it up to you. Do you want to save the videos or start the videos, or just go through in accordance with your outline?

MR. HOLZER: I, I only, for purposes of this, I just need to play the one. And I --

CHAIR: Is, so, let me ask, for the remainder of the factors to be discussed on behalf of the association, are there other videos to be played that have not already been played?

MR. HOLZER: Let me look.

CHAIR: Because it would be my inclination to play videos back to back to back to, if there is more than one.

MR. CLARK: It doesn't look like it.

MR. HOLZER: There, there, there are dash cam photos, photos but no --

MR. CLARK: Yeah, most of them just reference things (inaudible) already shown.

MR. HOLZER: Okay. So, there are no more videos other than this one in, under the 502 criteria, is that correct?

MR. CLARK: It looks like it to me, yes.

MR. HOLZER: Okay, because I want to answer Mr. Garber's question.

CHAIR: So, I understand, or looking at Exhibit 51, there was a video DSC-7045 fire, is that the one?

MR. CLARK: Thank you.

CHAIR: Is that the one?

MR. CLARK: That's the one.

CHAIR: Okay. It is new, as in it has not been previously part of another disc. Therefore, Mr. Schmidt has not had the opportunity to review that video prior to it being

played here. Mr. Schmidt, in light of that, does that cause you any type of reservation as to how, how to proceed today with that video?

MR. SCHMIDT: I mean, obviously I don't have any idea what it is showing, as I haven't seen it --

CHAIR: I'm trying to be consistent with the rule, prior ruling.

MR. SCHMIDT: Yes, sir.

CHAIR: That you should have the opportunity to review videos before they're played to see what objections, if any, you may have.

MR. SCHMIDT: Yeah, and I, I guess the other part of it, I would certainly like to do that, Mr. Garber, if possible. I recognize our time constraints and I want to move it along. I guess the other, I don't know whether it's a question or a comment or how to phrase this but, I think the context of fire in 502.1 is, since the entire concept of a special exception is whether there would be a danger from fire, essentially, going to another property. I mean, because it's the impacts on adjacent properties, not on the subject property, which is the special exception criteria. And this is such a large property, I'm struggling to understand how --

CHAIR: If I could steal your thunder there on that? I have same, some of the same questions that you may have.

MR. SCHMIDT: Yes, sir.

CHAIR: I don't think that we're, we're going to sit here and be able to --

MR. SCHMIDT: Why, why don't we play the video and then I'll object if I want to.

CHAIR: That's kind of where I was going with it.

MR. SCHMIDT: That's fine.

CHAIR: Is the only way to answer some of those questions is to actually the video.

MR. SCHMIDT: Yes, sir.

CHAIR: But I wanted to at least give you the opportunity to view it beforehand if you --

MR. SCHMIDT: I'm, I'm fine with the Board looking at it.

CHAIR: All right.

MR. SCHMIDT: If I object, you can strike it.

CHAIR: You may play the video now.

MR. HOLZER: Okay.

CHAIR: Now, what we are seeing on this video, is that the unsafe use of fire or is this just the introduction part?

MR. CLARK: No, it's, it's pretty much, you know, and then it, it goes on a little bit. But it's, you've, you've got all these flammable garments inside a tent and there is, don't forget, the Bonaparte mansion was rebuilt as a result of a major conflagration that happened on the property. And there

is no ready access for the fire equipment. There are no fire extinguishers aro, avail, around. There is no kind of hosing or any kind of safety, you know, mitigation. There is not a pond to draw water from. There is no running water. So, it is our concern.

MR. HOLZER: The, the comment from Mr. Schmidt related to the effect upon adjacent properties. Now, in terms of if this tent were to go up in flames, --

CHAIR: Well, if I could just jump in there --

MR. SCHMIDT: We're not going to have a tent.

CHAIR: -- because --

MR. HOLZER: Or the building.

CHAIR: Well, we're, we're talking about an event that already happened, that the evidence introduced to date has suggested they're not going to be in a tent to do this again. So, we have to apply it going forward so take it out of the equation of what you see in the video, apply it to whatever you think is going forward for purposes of your question.

MR. HOLZER: Obviously.

CHAIR: Yes.

MR. HOLZER: Obviously. If he can ask (inaudible) I can at least suggest that the use in a religious institution, such as we just saw there, and I assume that was an action in terms of a religious connotation. At least that's what it looked like to me, if you're in a building and the building

catches fire, the question is whether or not that fire could spread, the embers could spread and so forth. So, I don't think the issue of fire, it can be excluded because this is thirty acres. I, I think the real question is whether or not in this religious connotation flames being carried around, such as you saw on the video, can potentially create a fire problem.

CHAIR: Um hm.

MR. HOLZER: And I, that's why I think the video is relative and the testimony I, I'll let, Mr. Clark go into what they, what he's concerned about. But it seems to me that's the relevance of the question related to fire on --

CHAIR: And I understood Dr. Clark's testimony to have concerns about the safety and mitigation and there's no pond to draw water in, there's no running water, there are no fire extinguishers, how would the fire, if there were to be one, how would that be extinguished or would it just burn and then would the embers or other such things, then spread to other neighboring properties?

MR. CLARK: Well, and in fact, --

MR. HOLZER: Could, could I respond to that?

CHAIR: Well, that's what I understand his testimony to be.

MR. CLARK: Okay --

CHAIR: Hold on one second, sir.

MR. HOLZER: Mr. Powell did testify that they will

have future tents on the property. So, and that's their testimony, that's their evidence, so their witness, his testimony, that there will be future tents. So, one cannot preclude the fact that, in addition to the structure itself --

CHAIR: All right.

MR. HOLZER: -- there may be additional tents. Where they are, I don't know.

CHAIR: I, we're not going to get into whether there will be tents or not because the issue is the same, I guess, from his perspective. But thank you for the clarification. The record will speak for the, itself. If there will be, if there's a suggestion that there's a potential for tents to be in the future, I understand correctly what I had said earlier.

MR. HOLZER: Yes.

CHAIR: But I understand his testimony, that is Dr. Clark's testimony, to be about what do you do in the event of fire, basically.

MR. HOLZER: Correct.

CHAIR: Mr. Schmidt, you're standing. I assume that you have something to say about this.

MR. SCHMIDT: Ob, obviously at such time as the building becomes habitable to the extent that it is rehabilitated and as Mr. Powell testified, and even since his testimony, they've made further efforts to obtain County approval of a functioning septic system and drill a well and so

on and so forth. So, when they drill a well, and like many other churches and temples, I suspect they will have fire extinguishers in the building. So, the --

CHAIR: Well, let's let, well, well, we'll stop there only because I understand where you're going with this. But if you have something you want to bring up on cross examination, or if you have a stipulation or if you're proffering something to the Board, I mean, that's, what I'm hearing is not an objection, that's how I interpreted it by you standing. Is that fair?

MR. SCHMIDT: I, I had, I don't have any objection to the video per se. It shows what it shows. My objection, Mr. Garber, is that the, the testimony is, is just strains the credibility of any person to consider it, that I just think it's inflammatory and I don't mean to use the word as a double entendre.

CHAIR: I understand.

MR. SCHMIDT: But I mean, Christian churches have, during a Christmas season candles in their building as part of their religious worship. That, in my church, which is a Christian church, we light candles, candles.

CHAIR: I understand.

MR. SCHMIDT: And to suggest that what you see here on a thirty acre property is a fire danger to other properties is just so unbelievable that such an assertion would be made

that I think it doesn't have any probative value.

CHAIR: I, I understand. It, it will be received for the evidence of which, what it is. You have the ability to cross examine and make whatever arguments down the line. It will be admitted. So, Mr. Holzer?

MR. HOLZER: Thank you. I have --

MR. MCCOMAS: Mr. Holzer, let me just ask a question.

MR. HOLZER: Yes.

MR. MCCOMAS: He said it was a new video and so I'm sort of a little nervous because I have like CD's and thumb drives here. So, is that new video, is that --

CHAIR: Oh, thank you, Mr. McComas.

MR. MCCOMAS: -- has that been admitted into evidence and any other new videos that are on the list that have, have--

MR. HOLZER: Could the witness answer that? How did you put that --

MR. CLARK: They, they, they, they have not been admitted yet.

MR. MCCOMAS: Do we have them, is what I --

CHAIR: Yeah, we do not is what I'm hearing. There are other new videos that have been identified on fifty-one.

MR. HOLZER: Yeah.

MS. DOPKIN: And played.

CHAIR: And right, they, they --

MR. MCCOMAS: And they've been played too

(inaudible).

CHAIR: Some of them have been played, the second list, for example. To which Mr. Schmidt had no objection previously to that either. So, my suggestion is, because I don't think we're going to, is it your intent to play any and all new videos that are identified today?

MR. CLARK: No, and we have evidence copies of, of DVD's for, of the new --

CHAIR: Are we, have we exhausted all potential new videos to be played as in connection with your testimony?

MR. HOLZER: Is that only related to 502, but there's other portions of testimony that we got to (inaudible) --

CHAIR: Well, in other words, I don't want to receive it piecemeal.

MR. HOLZER: I understand.

CHAIR: Right, okay. It should be one copy of whatever videos are, are to be in evidence.

MR. HOLZER: Why don't, why don't we --

MR. MCCOMAS: The new ones probably, right?

MR. HOLZER: Why don't we --

CHAIR: (inaudible).

MR. MCCOMAS: The new, the new ones.

MR. HOLZER: The new, we're talking about only new ones.

CHAIR: Well, and the ones previously ruled to be

admissible.

MR. HOLZER: Yes.

CHAIR: If it was previously ruled to be inadmissible, obviously that's a different matter. But --

MR. CLARK: Can, can I help?

CHAIR: -- so hold on, so my take is this, because it sounds as if you're going to have a second tape, or second phase of playing certain videos, or that's what you intend.

MR. HOLZER: Yes.

CHAIR: All right. Mr. Schmidt has not seen those new videos. Do you have a copy for Mr. Schmidt sitting here today?

MR. CLARK: Yes.

MR. HOLZER: I could, yes, and I could also offer it to the Board so you can mark it for identification.

CHAIR: I, I think that that's fine. Okay, why don't we do that? But I at least want Mr. Schmidt to have a copy if there are additional videos to be played.

MR. SCHMIDT: Just, do we have a container for this (inaudible)?

MR. HOLZER: No, I, I don't, we don't.

MR. MCCOMAS: And these would only be the new videos as opposed --

MR. HOLZER: Yes, yes.

MR. MCCOMAS: (inaudible).

CHAIR: I see Dr. Clark wants to tell me something.
MR. CLARK: Thank you, sir.
CHAIR: No problem.
MR. CLARK: All the videos that have appendix disc new.
CHAIR: I figured that they are on here.
MR. CLARK: That they are on there.
CHAIR: Yes.
MR. CLARK: Yes, sir.
CHAIR: All right.
MR. MCCOMAS: And (inaudible).
MR. CLARK: Right.
MR. MCCOMAS: What's that exhibit there (inaudible)?
MR. CLARK: No, it's the video control sheet, whatever it was.
CHAIR: Fifty-one. Video control sheet is fifty-one. All right. So, we're done with the fire --
MR. HOLZER: Yes.
CHAIR: -- evidence you wished to put in the record. Oh, no, we have a still photo, of course.
MR. HOLZER: Yeah.
CHAIR: All right. Seventy-three is, well, seventy-four. Seventy-four --
MR. MCCOMAS: No, no, the DVD is seventy-three.
CHAIR: -- is the photos, are the photos now.

MR. HOLZER: Okay and these, these are seventy-four. I think that's (inaudible).

CHAIR: And that is A or, two pages.

MR. CLARK: Right.

CHAIR: For that.

MR. CLARK: Now, --

CHAIR: Hold on, Dr. Clark. Is there any further testimony that you need about seventy-four, page one or two?

MR. HOLZER: Yes, if I could ask Mr. Clark. Mr. Clark, how did seventy-four, the pictures, come from this video, number one. And then secondly, what comment do you have in regard to what the picture shows.

MR. CLARK: Okay.

CHAIR: I should ask this. Mr. Schmidt, do you have any objection to Exhibit 74?

MR. SCHMIDT: No, no. And it speaks for itself.

CHAIR: It is admitted.

MR. HOLZER: Thank you.

CHAIR: So, to the extent that that helps you with your examination, --

MR. HOLZER: Okay.

CHAIR: What is it you want to tell us about the photos though that --

MR. CLARK: Well, they're screen shots from, from, from --

CHAIR: We understood where it came from.

MR. SCHMIDT: Got it, got it.

MR. CLARK: Right, right, right, right.

CHAIR: We've now seen the video.

MR. CLARK: Right.

CHAIR: But is there anything substantive that you want to tell us that you've not already told us about the fire issue that --

MR. CLARK: Yes, yeah. It is not uncommon, especially in this day and age, for fire brands and embers to go from one property to another. Mr. Poehler's property, Mr. Poehler's building is what, two hundred fifty feet from --

CHAIR: Well, we're not, you can't ask questions.

MR. HOLZER: I'm not going to answer.

MR. CLARK: No, no, no, but, you know, --

CHAIR: No, the record will speak for itself as to its dis, the possible estimate of distance.

MR. CLARK: Right, right, right, but, but, but it is, it is, and then it's directly across the street from my home. And so, yes, it is, the whole issue is, is of concern.

CHAIR: All right. And that was understood from your testimony.

MR. CLARK: Right.

CHAIR: Is there anything else further?

MR. CLARK: No, no, no.

CHAIR: Okay. So, the next factor?

MR. HOLZER: For the record, Mr. Poehler did testify as to how far --

CHAIR: Yes, he did.

MR. HOLZER: -- the subject building was from his house.

CHAIR: To the property line.

MR. HOLZER: Exactly.

CHAIR: Not to the subject house, but it was to the property line.

MR. HOLZER: To the property line.

CHAIR: And then, I believe, there may be some testimony, or maybe it's on one of the plans, the distance from the house to the property line.

MR. HOLZER: Yes.

CHAIR: So, --

MR. HOLZER: So it can be calculated.

CHAIR: Yes.

MR. HOLZER: Okay. Are there any additional hazards, and I think we've already sort of --

MR. CLARK: No, we haven't.

MR. HOLZER: -- covered this.

MR. CLARK: No, no we haven't.

MR. HOLZER: Okay. Well, let me just, what is your comment for the association relative to added hazards by

drivers unfamiliar with the, with the road?

MR. SCHMIDT: Objection. Asked and answered.

MR. CLARK: No, it hasn't.

CHAIR: Well, I, I will say this. I understand where you're going with it, however, as to the association, there has not been testimony on this point. So, your earlier testimony about the hazards, which you've gone into detail about the curve and that, you know, some other things here and there, and you know, just the, whatever accidents and whatnot, do you have anything to add that's different for the association --

MR. CLARK: I certainly do.

CHAIR: -- compared to what you said as an individual?

MR. CLARK: I certainly do.

CHAIR: Okay. As the association, what is it you wish to add to the record or otherwise, you know, put into the record --

MR. CLARK: Right, I, I, I certainly do.

CHAIR: Okay. What is that?

MR. CLARK: Okay. I told you we pulled the police reports, the accident reports.

CHAIR: Which are, which are in evidence.

MR. CLARK: Which, no, the, the accident reports are not in evidence.

CHAIR: The individual accident reports are not in

evidence, okay.

MR. CLARK: All right? And we have one that is of particular interest to the, to, to this Board and this case.

CHAIR: Okay.

MR. CLARK: If we can, I don't have it in front of me, so I --

CHAIR: I understand you were, you are requesting that from Mr. Holzer.

MR. HOLZER: I'm getting it.

CHAIR: Yes.

MR. HOLZER: I hope this is what you're referring to. I think it is.

CHAIR: This is seventy-five, right?

MR. CLARK: Um hm.

MR. HOLZER: Is that correct, seventy-five?

CHAIR: All right. So, we are looking at State of Maryland Motor Vehicle Crash Report, one, two, three pages. Looks like a crash date of September 25th, 2017. I see Mr. Schmidt has a copy and is reviewing it.

MR. HOLZER: Now, --

MR. CLARK: Well, has, has it been admitted yet?

CHAIR: It's not been admitted yet. We're still working through it.

MR. HOLZER: Yeah.

CHAIR: Your question?

MR. HOLZER: My, my question is going to be, can you just briefly indicate what was on the narrative of the police report in so far as traffic --

CHAIR: Just to move that forward, we can actually read the narrative.

MR. CLARK: Thank you.

CHAIR: If need be, but let me ask Mr. Schmidt. Do you have any objection to this, to --

MR. SCHMIDT: I just think it's preju, yes, sir, I think it's prejudicial. I mean, it's a government record, so I don't doubt its authentication. But it's just nothing but prejudicial and designed to be inflammatory. It's the same thing as all folks from Nepali who were at the concert are criminals. It's the same, same deal.

CHAIR: Well, I think that's radically different from that. That was a bit of an extreme example. This is --

MR. SCHMIDT: They're all bad drivers too, apparently.

CHAIR: I, well, I haven't heard that being argued as to this.

MR. SCHMIDT: Well, that's the inference --

CHAIR: Hold on.

MR. SCHMIDT: -- Mr. Garber.

CHAIR: Hold on, I don't, Mr. Schmidt, I understand it's been a long day. We don't need to have comments like that

on the record right now.

MR. SCHMIDT: Well, what, what else is it, then what else is it, is it produced for?

CHAIR: Mr. Schmidt, Mr. Schmidt, there has been a bunch of evidence that's been put in the record about the traffic and about accidents and whatnot. So, I had understood, and Mr. Holzer and Dr. Clark can correct me if I'm wrong, but you're introducing this because it concerns an accident that occurred out in front of the property, right?

MR. CLARK: And it indicates an added hazard.

CHAIR: So, --

MR. CLARK: And, and we have a photograph of another event, we have a photograph that's already been introduced.

MR. HOLZER: Deal with this first.

MR. CLARK: Okay.

MR. HOLZER: What, as briefly as you can, what is the point in, in terms of what have you singled out --

MR. CLARK: Well, this, this is, this is a police report of, of an accident. Somebody who was visiting the, they call it mosque, had, was, was driving on the wrong side of the road and had an accident and they said, and they advised the police officer that where they're from, in their words, in the officer's words, they drive on the left side of the roadway. This goes to people out of country, out of region, --

CHAIR: Well, so I'll just stop you there.

MR. CLARK: Okay, okay.

MR. SCHMIDT: Which is exactly what I said, Mr. Garber.

CHAIR: That is, that is definitely an objectionable --

MR. SCHMIDT: Precisely.

CHAIR: -- I realize it may be stated within the narrative itself.

MR. CLARK: Okay.

CHAIR: But this person obviously drove from Nottingham and didn't drive the other side of the, wrong side of the lane of travel from Nottingham up here, to the point of collision. So, what, for whatever went on --

MR. CLARK: Okay.

CHAIR: -- it speaks to it, it speaks for itself.

MR. CLARK: I gotcha.

CHAIR: It is not at all being received for, to suggest --

MR. CLARK: Okay.

CHAIR: -- that people from Nepal are going to drive on the other side of the road or that people not familiar with the area will drive on the other side of the road. It is merely being received for one purpose, and that is, there was an accident that happened at the property, at the subject locations, through which we've had numerous and long testimony

and documents received as to sight distances and traffic and accidents --

MR. CLARK: Okay.

CHAIR: -- and whatever else. That is it. It is not being received for any other purpose.

MR. HOLZER: What time of the morning was it, does it say on there?

MR. CLARK: Eight fifty-one.

MR. HOLZER: So, it was during the day, is that correct?

MR. CLARK: Correct.

MR. HOLZER: Okay, fine. That's exhibit number seventy-five. Previously, you just mentioned there was something at night. Protestant's Exhibit 35, do you recall what that was?

MR. CLARK: Yes.

MR. HOLZER: And what was it?

MR. CLARK: It was people exiting from a, an event held up there at night in September of '17. And this is the picture.

MR. HOLZER: There's a couple pictures if I'm not mistaken.

MR. CLARK: Yeah, yeah, yeah. Yeah, I --

MR. HOLZER: And what does, do the pictures depict without editorializing?

MR. CLARK: People, people on, heading south in the northbound lane.

MR. HOLZER: Okay.

MR. SCHMIDT: On Harford Road?

MR. CLARK: Um hm.

CHAIR: All right.

MR. SCHMIDT: Can I see the photograph, Mr. Garber?

CHAIR: The photos, I believe, are already in evidence.

MR. SCHMIDT: I understand, I just don't have them in front of me.

CHAIR: Yeah. And just so I'm clear, --

MR. SCHMIDT: Is this someone --

CHAIR: -- just, go ahead.

MR. SCHMIDT: Is this, this is someone turn, turning out of the --

MR. CLARK: Um hm.

MR. SCHMIDT: -- Nep, Bonaparte property?

MR. CLARK: Um hm.

MR. HOLZER: Objection.

MR. SCHMIDT: Well, if they were going southbound --

MR. HOLZER: (inaudible).

CHAIR: Hold on, hold on, hold on, hold on, hold on. Mr. Schmidt had a question as to what it represents. It's the same question I have. What is the relationship between Exhibit

35 and Exhibit 75, that's the question.

MR. HOLZER: They're different events, that's clear.

CHAIR: No, obviously it's not clear, because I didn't understand it one way or the other.

MR. CLARK: Okay.

MR. HOLZER: This is at night, that was at eight some in the morning.

CHAIR: Okay.

MR. HOLZER: That's why I asked the question, what time was the first police report.

CHAIR: Okay. Then perhaps I missed that point. I don't know why you were showing him thirty-five in relation, following seventy-five. So, if that could be made clear, that may resolve what Mr. Schmidt has a question about and what I have a question about. What is the relevance of, and again, thirty-five following seventy-five? Just to show that there is another example of someone being on the wrong side of --

MR. HOLZER: Another example of an accident which has occurred at the site.

MR. SCHMIDT: It's not an accident. It's someone who's turning left coming out of a roadway and in order to turn left --

CHAIR: It's okay, Mr. Schmidt.

MR. SCHMIDT: -- you have to cross a --

CHAIR: Mr. Schmidt, it will be --

MR. SCHMIDT: -- a travel lane of traffic to get to the southbound lane.

CHAIR: Mr. Schmidt, the way I, it's already in evidence. We're not going to go sit here and argue as to what it shows or doesn't show. It shows what it shows.

MR. HOLZER: Yeah.

CHAIR: Everyone has their own interpretation of it. To the extent it has whatever relevance to any of this other stuff, you guys will certainly argue that in your, in your briefs to us.

MR. HOLZER: Absolutely.

CHAIR: And we don't need to sit here and resolve today why this person was in whatever position the car is in on that particular night, whether it be seventy-five or thirty-five, it is what it is.

MR. HOLZER: The value to the Protestants of submitting photographs or video or documents is to establish that the witness who is testifying to these kinds of things, riding on the wrong side of the road, crossing the yellow line, it's not just his testimony or the other witnesses' testimony, it's verification of what they're testifying to.

CHAIR: Oh, no, I, --

MR. HOLZER: That's the purpose I'm putting --

CHAIR: -- I'm not, I'm not arguing that, I --

MR. HOLZER: Okay.

CHAIR: -- I understand why you're offering it into evidence.

MR. HOLZER: Yeah, okay.

CHAIR: I'm just trying to understand the logic of one following the other. I had it confused because I thought you were saying it's from the same event.

MR. HOLZER: No, I apologize, that was my fault because --

CHAIR: And I was wrong so, and I will correct the record. It was my understanding at the time, so we can move on from there to get to the next exhibit.

MR. HOLZER: Yeah, yeah. I thought, never mind.

CHAIR: That's fine.

MR. HOLZER: You know what I thought.

CHAIR: I, I do.

MR. HOLZER: Yes, we are now finished with 502.1(A).

CHAIR: And part of B.

MR. HOLZER: You could say that, but we haven't really started B yet.

CHAIR: Well, all right. Well, okay. Let's go into B, or whatever, what's next on your outline? Sorry.

MR. HOLZER: Okay. B is tend to create congestions in roads, streets or alleys therein. Mr. Clark?

MR. CLARK: Yes, sir.

MR. HOLZER: Is your mind focused on that part --

MR. CLARK: Well, I'm starting to fade but, yeah.

CHAIR: Well, so I'm going to make it, we'll make it clear and make it quick. What evidence do you have that we wish to, you know, put into the record, tell the Board, about the association's concerns with respect to traffic congestion that are different than ones you already expressed individually?

MR. CLARK: Okay. Dave Poehler, in his testimony, he talked about --

CHAIR: Without referencing other testimony, that is, if you look at this --

MR. CLARK: Okay. Yeah, I can (inaudible).

CHAIR: -- whatever, I, it's understood --

MR. CLARK: Right, yeah, got it, got it.

CHAIR: -- that Mr. Poehler's testimony on those points, in fact, there are lots of witnesses who testified to traffic congestion --

MR. CLARK: Got it, got it.

CHAIR: -- on these points.

MR. CLARK: All right. Then, --

CHAIR: That is well documented in this case.

MR. CLARK: -- another police report.

MR. HOLZER: Okay. Is that related to another accident?

MR. CLARK: Yes, it is.

MR. HOLZER: All right.

MR. CLARK: And it relates to --

MR. HOLZER: Well, --

CHAIR: Wait, before we go down this road.

MR. CLARK: Sorry, sorry, yeah, I'm sorry.

CHAIR: So, we have a police report. Let's have this established for the record ahead of time for Mr. Schmidt's satisfaction. Where did this accident occur? If you need reference to it, that's fine, but before you say anything further about the accident, let's establish its connection to the --

MR. CLARK: I'm, I'm really losing it.

CHAIR: -- particular factor.

MR. CLARK: I'm really losing my stamina.

CHAIR: That's okay, I understand.

MR. HOLZER: Here it is. It, the witness doesn't need to articulate it, because it's right on the police report.

CHAIR: If he needs the police report for that, that's fine. So, this is seventy-six. So, at Harford Road and Hartley Mill Road.

MR. CLARK: Um hm.

CHAIR: Okay. On November 6th, 2017. Recognizing that Hartley Mill Road, I seem to recall there is testimony about this, but you can probably better let me know now, how far is it from the subject property again? I seem to recall it

may or may not have been --

MR. CLARK: Three-quarters of a mile.

CHAIR: It was not on the map that was shown, the aerial map.

MR. CLARK: No, no, it was.

CHAIR: It was?

MR. CLARK: But it, Hartley Mill defined the southernmost point of the road segment that I asked for the, the police, County police report statistics.

CHAIR: Got you, okay. Mr. Holzer?

MR. HOLZER: Yes. You, did you obtain this police report?

MR. CLARK: Yes.

MR. HOLZER: And for purposes of your association's testifying under B, tend to create congestion in roads, streets or alleys there, therein, what was their position in regard to this?

MR. CLARK: Just that it speaks to the, the, the hazards of deer, of, of wildlife and livestock and the stuff that you usually encounter on a rural road.

CHAIR: Mr. Schmidt, any objection to seventy-six?

MR. SCHMIDT: No, sir.

CHAIR: It is, it will be received, it's admitted and it speaks for itself.

MR. HOLZER: Okay. In other aspects of the road,

congestion in the roads, etcetera, you have already shown, I believe, the videos for road walker, cyclist, I don't recall whether it was farm vehicle but --

MR. CLARK: No, we didn't have anything for, but, but that is our concern.

CHAIR: There is testimony in the record from, I believe, I want to say Ms. Mason, regarding farm equipment.

MR. CLARK: Right.

CHAIR: She, I know personally has to go between two different properties to go attend to some farm type of --

MR. CLARK: Right.

CHAIR: -- activity and it has been in the record from others about the potential for farm equipment to be on Harford Road in and around the vicinity of the stretch from Glen Arm/Mount Vista all the way down to Hartley Mill Road.

MR. HOLZER: In regard to Protestant's exhibit number seventeen, which as Mary's dash cam photo, that was already in as Exhibit 17 and I don't see any reason why we need to go over that again. It's before the Board.

MR. CLARK: Right.

CHAIR: There, I want to say, if I remember correctly, fifteen through nineteen was received for i.d. only at the time.

MR. HOLZER: Well, if that's the case, then I have the --

CHAIR: Is that not the case? Apparently the master list says it was admitted, so my recollection is off.

MR. MCCOMAS: Seventeen and nineteen were the only ones that were i.d. only.

CHAIR: Oh, so seve --

MR. HOLZER: So, seventeen is this document right here.

CHAIR: Right, okay.

MR. HOLZER: I would move to admit that.

CHAIR: Please show Mr. Schmidt before --

MR. SCHMIDT: What is it, please? I don't, I'm sorry, I don't remember what seventeen is.

CHAIR: Here's what, here's, here's my, here's my recollection as to why that was i.d. only at the time. Is that Ms. Mason was testifying and provided some testimony regarding it.

MR. HOLZER: Mary, was testimony --

CHAIR: I, this is my recollection.

MR. HOLZER: Okay.

CHAIR: And that we needed someone to authenticate whatever was depicted in there, and it wasn't Ms. Clark's, I think Ms. Clark had already testified, or Dr. Clark, excuse me. Had already testified and Ms. Mason was reviewing that particular photo but she was not present in the car and could not provide details as what was going on, other than what maybe

Dr. Clark or someone else had told her. So, that --

MR. HOLZER: If that's the case --

CHAIR: -- that's my recollection.

MR. CLARK: I think that's right.

CHAIR: The record will speak for itself.

MR. HOLZER: Yeah.

CHAIR: But that's, you, that was the reason why you withdrew it at the time to say okay, we'll talk to the person who either took the photo or otherwise authenticated. Mr. Schmidt, do you have any problem with Exhibit 17?

MR. SCHMIDT: I assume, Mr., Mr. Clark took this?

MR. CLARK: No, it was Mary. It was Mary.

MR. SCHMIDT: Your wife?

MR. CLARK: Yeah.

MR. HOLZER: It was Mary, she took it from her dash camera.

MR. SCHMIDT: Okay.

MR. HOLZER: She's here.

MR. SCHMIDT: I mean, what, what is it, --

CHAIR: Do you have any objection to, to it?

MR. SCHMIDT: No, I mean, what, what is it? I mean, just in terms of probative value, what is it?

CHAIR: Okay.

MR. SCHMIDT: What is it supposed to be showing?

CHAIR: It's a fair, Mr. Schmidt, Mr. Schmidt --

MR. SCHMIDT: I mean, somebody is going around (inaudible).

CHAIR: -- it's a fair question. It's a fair question, I understand. What is the probative value of Exhibit 17? What is it you're trying to show us?

MR. CLARK: Showing you one, the tight clearances and how there is no shoulder for when, for when things happen.

CHAIR: Similar to the video we saw already.

MR. CLARK: Yeah.

CHAIR: Similar to the other photos that we've introduced earlier with the, with the pedestrian, whatnot, correct?

MR. CLARK: Yeah, yeah, yeah.

CHAIR: Okay.

MR. SCHMIDT: I mean, my question about these, these, these are common events all over Baltimore County.

CHAIR: Mr., Mr. Schmidt, isn't that your argument (inaudible) --

MR. SCHMIDT: But it, it goes to the, it goes to the admissibility of this document. I mean, we keep getting documents that have nothing to do with Nepali.

CHAIR: Okay.

MR. SCHMIDT: I mean, guess what? People on narrow roads pull around police vehicles.

CHAIR: All right, I understand.

MR. SCHMIDT: What's that go to do with this special exception?

CHAIR: I understand.

MR. SCHMIDT: And it's common --

MR. HOLZER: Because it's on this road, it's on the road.

MR. SCHMIDT: -- and it's on, but it's on, as this witness has said, it happens on every rural road.

CHAIR: Okay. I understand that. It'll be admitted.

MR. HOLZER: Thank you.

CHAIR: Next.

MR. MCCOMAS: So, we'll strike the i.d. only --

MR. HOLZER: Yes, thank you.

CHAIR: Seventeen is admitted.

MR. HOLZER: Thank you. Do you need it? Do you need it?

MR. SCHMIDT: Do you need it? I mean, I have it, I didn't bring it with me.

MR. HOLZER: Yeah, I need it. Thanks. That's okay. All right. Let me try to get through some more. We've already seen earlier today the line cross, the yellow line crossing by trucks, so I don't think we need to replay that in your testimony.

CHAIR: Your testimony about the tractor trailers would be the same for the association --

MR. CLARK: It's the same.
CHAIR: -- as it would be individually?
MR. CLARK: It's the same.
MR. HOLZER: Right.
CHAIR: And he says yes.
MR. HOLZER: Inadequate sight lines and use of unpermitted entrance. Do you want to address that for the association and it related to the Collagero's statistics and Mr. Zeller's position?
CHAIR: And to be clear, we want to know what difference there is. If it's the same problem, there is no difference, when I say that --
MR. CLARK: Right, no, no, no, with Collagero there, there, there isn't, okay?
CHAIR: Okay.
MR. CLARK: Now, I believe the Zeller e-mails were not --
CHAIR: Zeller e-mails have been admitted.
MR. CLARK: Okay.
CHAIR: Fifty-three?
MR. CLARK: Where, where he says the County should not be doing this and --
CHAIR: Yes.
MR. CLARK: -- our position is, okay.
CHAIR: Yeah, it's forty-three and fifty-three, thank

you. Yes. So, it has been admitted.

MR. CLARK: Thank you.

MR. HOLZER: We got it.

CHAIR: Yes. Is that the extent of the association's testimony on that point?

MR. CLARK: Yes, it is.

CHAIR: All right. So, we're done with that factor, or that part of that factor.

MR. HOLZER: Number C.

CHAIR: Okay.

MR. HOLZER: Create a potential hazard from fire, panic or other danger.

CHAIR: Is there, we've heard the testimony about the fire, right?

MR. CLARK: Right.

CHAIR: Is there anything else from the association as to that factor?

MR. CLARK: Yeah, I think I already said it in there.

CHAIR: Right.

MR. CLARK: But, no water access.

CHAIR: We, we've already covered that.

MR. CLARK: Right. And the Motsco drawing shows there, there, there is at present no equipment access turnaround. I don't know if I already said that or not.

CHAIR: No equipment turnaround.

MR. SCHMIDT: He did. The, the witness already said all these things.

CHAIR: Oh, okay, I get it now.

MR. SCHMIDT: He just said it about an hour ago.

CHAIR: Mr. Schmidt, I understand.

MR. SCHMIDT: Asked and answered.

CHAIR: Thank you. It's already taken me, it took me a minute or two to figure that out. The testimony is already in the record anyway on the point.

MR. HOLZER: Mr. Motsco's testimony about the turnaround, his, it, what we're asking for is his comment, the witness' comment, about that testimony.

CHAIR: No, I think, again, we're getting back to the point of him using the highlighter on Motsco's testimony which is really a matter for you on argument as opposed to his --

MR. HOLZER: Oh, okay.

CHAIR: -- commenting as to --

MR. CLARK: Yeah.

MR. HOLZER: If that's so --

CHAIR: -- oh, Board, please look at this because you're going to do the same thing.

MR. HOLZER: I understand.

CHAIR: Right. So it is not, it's not a question as to admissibility on that point, it's already in the record and you're going to say hey, by the way, Board, look at this.

MR. HOLZER: Gotcha. No, I, you're correct.

CHAIR: Yes.

MR. HOLZER: Disregard for life safety codes.

MR. CLARK: Okay.

CHAIR: I'll say this, I hear life safety codes and I start thinking expert witness. So, do you have something that you want to, you want to add? I'm not going to limit it to just that, but that's what I'm starting to think in my head. So, what is it that you wish to say about that particular matter?

MR. CLARK: Well, --

MR. HOLZER: From a lay perspective.

MR. CLARK: -- from, yeah, from a lay perspective and from a, from a behavioral ins, perspective, I'm really losing it.

CHAIR: That's okay. We're trying to get through it.

MR. CLARK: Yeah, I know, I know, thank you. And I know Petitioner is going to say we're talking code enforcement, okay? But let me just say it and then we'll deal with the aftermath.

CHAIR: Well, hold on. Have you already testified about this individually?

MR. CLARK: No, I have not.

CHAIR: Okay. So, on behalf of the association, you have something you wish to say about life safety codes.

MR. CLARK: Right.

CHAIR: What are you referring to by life safety codes?

MR. CLARK: All right. For example, the, when the, in, in their videos of the building use, being used, all right? With several hundred people, the exterior doors open inward --

CHAIR: Okay. So, these are, when we say code violations, we're talking fire code and things along those lines, correct?

MR. CLARK: Yes, yes, --

CHAIR: Because you were talking about, you're talking about occupancy, hold on, Mr. Schmidt. Ingress, egress, those type of issues.

MR. CLARK: Yeah, yeah, yeah.

CHAIR: Do you have familiarity with the fire code?

MR. CLARK: Some.

CHAIR: Do you have familiarity with the building code?

MR. CLARK: Little.

CHAIR: So, when we talk about some familiarity, please let us know what that is for the record.

MR. CLARK: Okay. I, I have had fire inspections in, in my building, okay?

MR. SCHMIDT: Your home?

MR. CLARK: My, in my home, in my shop. And I also

am a Pennsylvania Wildland Firefighter.

CHAIR: Okay. So, as I understand it, does, does that complete the --

MR. CLARK: Yeah, yeah.

CHAIR: Okay. So, if you're going to give opinions as to what the code requires, whether under the building code, fire code or any other code, what I'm hearing is you don't have the expertise to do that.

MR. CLARK: Okay.

CHAIR: All right? Mr. Holzer, did you hear that?

MR. HOLZER: Yeah.

CHAIR: Okay. Anything further on that point?

MR. HOLZER: Yeah, I'm going to proffer what he would have been able to testify.

CHAIR: Oh, okay. Again, and I'm, we're willing to accept lay opinions, but if he's going to give opinions as to the ingress and egress is, I guess, too small or there's only, you know, a, a finite amount of spots for these number of people and there's a violation of the code, I don't think he can get to that point.

MR. HOLZER: I'm not, I'm not doing that.

CHAIR: Okay. Go ahead, sir.

MR. HOLZER: His testimony would have been with photograph showing that, at the present time, when they were using the property, exterior doors opened inward. I'm not

saying that's right or wrong, but they opened inward and the Board can draw its on conclusion or I can tell you what the code requirements are. There's no panic bar on the front door. There is no emergency lighting in the building. They have used extension cords, multiple cords chained together, running out front windows to the tent fifty feet away, running, and running over the driveway where cars drive. Now, that can be presented either in a photograph or I can just, I can just proffer that that would have been his testimony and we don't have to go any further.

CHAIR: Yeah, but to then draw the conclusion that that presents a potential danger requires an expert witness, I would think.

MR. HOLZER: No, it does not. I disagree with the Chairman. It's a person who's test, who's proffering this information. If you choose, don't require an expert, I don't believe that that's necessary for this Board to have testimony on that basis, as long as it's brought to your attention. You don't need an expert on everything.

CHAIR: I agree with you. But, but as to its consequence, that is, number one, that it is violate, it, it violates a code, which --

MR. HOLZER: I'm not saying it violates a code.

CHAIR: No, but you're (inaudible) which we would need someone to say here's how it violates the code.

MR. HOLZER: No.

CHAIR: Okay.

MR. HOLZER: You can do it, you can accept my proffer.

CHAIR: Okay.

MR. HOLZER: And say these are the physical findings of what's there. They can be --

CHAIR: So, those are two different things. That is, we have photographs in the record that show the following conditions, right? That's what you want to argue. As to its con, as to the consequence of those conditions, that's where the breakdown is. So, yes, you would have the ability to say, hey, by the way, look at Petitioner's Exhibit, I will just say, 10 whatever, and then there's no panic bar on the door, right?

MR. HOLZER: That's what I just did.

CHAIR: I understand that. But to do it through this witness, how, how are you going to do it through this witness, number one? And number two, explain then the consequence of that.

MR. HOLZER: I'm not.

CHAIR: Okay.

MR. HOLZER: I'm, I'm just telling you physically what's there and if you don't want to draw the conclusion that it is or is not a code violation, that's up to the Board. I, I, I do not have to --

CHAIR: Mr. Holzer, --

MR. HOLZER: -- present an expert on everything.

CHAIR: -- I, I'm not, I'm not arguing with you.

MR. HOLZER: Okay.

CHAIR: Have you shown Mr. Schmidt the photos?

MR. HOLZER: No.

CHAIR: Have you shown Mr. Schmidt the photos?

MR. HOLZER: No.

CHAIR: Well, you say if you want to proffer it in, one way or another, you have to show him the photos anyway.

MR. HOLZER: I'm, I'm proffering in those, that would have been his testimony if he would have been permitted.

CHAIR: Okay.

MR. HOLZER: That's it.

CHAIR: So, so leaving aside that, if there are photos to accompany that, if, maybe there, there would be an agreement as to the photos, then that helps solve part of the problem, if nothing else.

MR. HOLZER: I don't care --

CHAIR: Okay.

MR. HOLZER: -- whether or not there is a photo. I'm saying, that's the testimony of the witness and if he can be cross examined on it, if he is, he can be asked, do you have a photograph and he can produce it on cross examination.

CHAIR: Okay. We can move on.

MR. SCHMIDT: So, Mr. Garber, do I understand that this proffer that has been made is not being received by the Board as evidence?

CHAIR: It is not substantive evi, it's not being received as evidence, you are correct.

MR. SCHMIDT: Thank you.

CHAIR: No, again, --

MR. SCHMIDT: It's object, I would just note that I would have objections above and beyond those that have been identified as to why it's, as to why it is objectionable. But if it's not being received as evidence, I don't know that I need to state them.

CHAIR: Well, please, please state them for the record, just so we have completeness --

MR. SCHMIDT: First of all --

CHAIR: -- because I want to make sure I understand.

MR. SCHMIDT: -- I agree with, I agree with what you said about whether, about the, about an expert being required to do this. Obviously, this is a discussion about a proposed, a past alleged code violation, which we're not here on a code violation case.

CHAIR: Agreed.

MR. SCHMIDT: You've, you've said that.

CHAIR: Right.

MR. SCHMIDT: So, what happened? Obviously, the

testimony has been that the, my clients acquired this property, it's in the condition that it is because it was last used as a single family dwelling. They are in the midst of converting it for use as a temple. There's ongoing work that needs to be done, a septic system, other building improvements to bring it into compliance to be used as a temple, as opposed to a single family dwelling. So, the mere fact that at one time it was in a condition which was maybe, you know, as a single family dwelling and the requirements for that at that time, do not necessarily, are the same for a temple. So, all those reasons --

CHAIR: Even if it's like that, even if it's like that today, the whole point of it is, --

MR. SCHMIDT: They could, they could be changing it. They got to bring it up to code, they got to get a septic system, they got to have fire extinguishers in it, all the other things that are required for a building to be used in this nature. And the mere fact that at some point one year ago, two years ago, three years ago, fifty years ago, the building was not compliant with the 2019 International Building Code or fire code, doesn't have anything to do with the special exception.

CHAIR: Okay.

MR. SCHMIDT: In addition to that, I would say this. In the case, in the reported Court of Special Appeals decision

of *Hayfields*, and this goes to many of the objections that we are hearing, the Protestants in that case alleged that there were adverse impacts when converting a farm to a golf course. And they offered testimony about the adverse impacts as they related to this property and that's what many of the things that Mr. Clark is talking about. That this is dangerous to this property, that the fire might light the tents on fire, that these building codes would be unsafe to the people on the property who would be visiting the property. And the Court of Special Appeals said that the test in Baltimore County under 502.1 is whether there are detrimental impacts on adjacent properties.

CHAIR: Mr. Schmidt, --

MR. SCHMIDT: Not the subject property.

CHAIR: Mr. Schmidt, this is really just for the purposes of establishing the record. As to the objections you have --

MR. SCHMIDT: You've asked me for what my argument is and the basis that this argument, that this testimony --

CHAIR: I, hold on, no, no, no.

MR. SCHMIDT: -- is in relevant, please let me just finish.

CHAIR: No, I'm going to stop you there.

MR. SCHMIDT: I'll be very quick.

CHAIR: I'm going to stop you there. I'm going to

stop you there only because I asked you to identify your objections --

MR. SCHMIDT: And I'm identifying them, Mr. Garber.

CHAIR: -- just so you've (inaudible) and I understand that. But now you're getting into argument.

MR. SCHMIDT: I'm not. I'm saying that the, the, the, the basis of the objection is that the testimony is irrelevant as a matter of law because it does not go to the special exception criteria test.

CHAIR: Okay.

MR. SCHMIDT: And I'm explaining why.

CHAIR: That's why I'm saying, that could have taken ten seconds. But Mr. Holzer, can we move onto the next, since we've already had the proffer, we've already heard the proffer of the objections as well, --

MR. HOLZER: I, I don't want to argue the, the argument that he just presented.

CHAIR: Yes.

MR. HOLZER: I just want to say that the relevance of some of this evidence, or some of this, these, these proffers, relate to what the Board, if you choose to grant this special exception, it relates to conditions that you could impose. Or the simple reason that up till now, the County officials have not required them to do what the State Highway Administration said etcetera. Now, that doesn't mean that they won't, as the,

as they develop the case, as they develop the project, they will address many of these issues. But the point is, they, these concerns should be listed as a potential condition to your approval because we know from history that they haven't paid attention to other requirements of the County. And that's all I wanted to say.

MR. SCHMIDT: And I, and I want to say for the record, that there is no evidence that anywhere, that there has been a violation case brought against my clients, which has been sustained --

CHAIR: Mr. Schmidt, --

MR. SCHMIDT: -- that they have been in violation.

CHAIR: Mr. Schmidt, stop, stop.

MR. SCHMIDT: This constant, let me finish, Mr. Garber.

CHAIR: No, I'm not going to let you finish. We're, no, we're done.

MR. SCHMIDT: I'm entitled to respond to counsel's comments.

CHAIR: No, you're not. No, you're not. Because we're not getting into an argument. You've well, you know for, for certain how this Board has treated any issue when it comes to code enforcement. That is, any argument that comes to code enforcement has been ruled in your favor. So, we do not need to hear further that these are matters for code enforcement or

whatever. If he wants to argue those are conditions, that'll be in his brief. That is it.

MR. HOLZER: Thank you.

CHAIR: Next.

MR. HOLZER: All right, let's see.

CHAIR: Let's try to work through all 502.1 factors for the association.

MR. HOLZER: I, I am.

CHAIR: So we can then, yeah, that's, that's my goal here, for --

MR. HOLZER: To adjourn after we get through all these.

CHAIR: After we, we get through that.

MR. HOLZER: And that's my goal also.

CHAIR: Right.

MR. HOLZER: To help you get through that --

CHAIR: Right.

MR. HOLZER: -- as quickly as possible. Well, we've already dealt with open fire, that's no longer relevant. One of the issues related to overcrowding of building. Is there anything that you want to say in regard to that?

MR. CLARK: Yes, I think we have some pictures.

CHAIR: You're going to have to explain how it's different from association, from the prior testimony.

MR. CLARK: Yeah, right. This is one example of, I,

I'm trying, ask me a question --

CHAIR: No, it's okay.

MR. CLARK: Ask, no, ask me the question again.

CHAIR: Oh, I'm sorry. So, please explain how whatever testimony you're going to give about overcrowding for the association is different than that of what you've already provided for as an individual.

MR. CLARK: Okay. This photograph --

CHAIR: That we're about to see.

MR. CLARK: -- that we're about to see, will show use of the building prior to July 1 where it looks like there are fifty to a hundred people crowding into the room.

CHAIR: Okay. So, this sounds to me we're on the same footing as where we just were.

MR. CLARK: I, --

CHAIR: So, with that in mind, I will wait to see what the photo shows. Show it to Mr. Schmidt. But it does sound like we're walking into the same --

MR. HOLZER: I agree.

CHAIR: -- room, so to speak, as the one before. As to whether or not fifty to a hundred people, whatever the number would be, --

MR. CLARK: Right.

CHAIR: -- is appropriate for occupancy for that building, you know, again, the comments I just had about the

last issue --

MR. CLARK: Right.

CHAIR: -- would be applicable it sounds like.

MR. CLARK: It, it, but this also goes to how it is currently being used.

CHAIR: Under, understood. Mr. Schmidt, after looking at the photos, let me know when you're ready.

MR. HOLZER: Do you need the pictures?

MR. CLARK: I probably do.

CHAIR: Seventy-seven, correct?

MR. MCCOMAS: Yes.

MR. SCHMIDT: Mr. Garber, the first page appears to be --

CHAIR: Hold on. I, I assume you're objecting.

MR. SCHMIDT: Yes. The first page appears to be outside, at least there are trees in the background and one can see grass. So, I don't even think that's taken from inside. The second picture is of a little girl. I'm not quite sure what that's all about. The third picture is one, two, three, four people standing outside and six people standing inside near a doorway. Is it alleged that that's the violation of the, of some code?

MR. HOLZER: Go to the next page.

CHAIR: Hold on. No back and forth.

MR. SCHMIDT: And the final picture is a room full of

people and is there an allegation that that's illegal, to have a room full of people?

CHAIR: That's why we're here, to figure this out.

MR. SCHMIDT: And it's, and if it is, it's a code violation matter.

CHAIR: You heard what I had to say prior to receiving the photos --

MR. SCHMIDT: So, I object.

CHAIR: Dr. Clark, looking at these photos, the condition that you were describing of overcrowding, I would have to say Mr. Schmidt is correct for inside the building, the only one I see out of the four is the last one that would depict a crowd. As to whether it's over, is another matter, but a crowd inside the building. Is that accurate, basically these four photos?

MR. CLARK: Yes.

CHAIR: Okay. So, with respect to that photo, is it your contention from the association that somehow the amount of people inside the building violates some code?

MR. CLARK: No.

MR. HOLZER: No.

CHAIR: Okay. Then what is it you want to tell me about that picture?

MR. CLARK: Well, it's just that it's a potential hazard from fire, panic or other danger.

CHAIR: Okay.

MR. CLARK: Now, now, can, can I also say, Mr. Garber?

CHAIR: Go ahead.

MR. CLARK: This was one of, I would have had the entire video of this, but this was one of the ones that was removed.

CHAIR: I, I don't know what you mean by removed, all, what I'm trying to get at is --

MR. CLARK: No, that was, that was deleted from the Facebook page.

CHAIR: Okay. So, --

MR. CLARK: From the Facebook account.

CHAIR: -- looking at the photo though --

MR. CLARK: Right.

CHAIR: -- the, the one at issue, that is the last page of that --

MR. CLARK: Right.

CHAIR: -- of seventy-seven --

MR. CLARK: Right.

MR. HOLZER: Could I ask a question?

CHAIR: Oh, yeah, sorry, Mr. Holzer. I'm, I'm going to let Mr. Holzer take, do this questioning here.

MR. HOLZER: Mr. Clark?

MR. CLARK: Sir?

MR. HOLZER: If previously the Petitioners testified that they were not using the building, is that part of your recollection?

MR. CLARK: Yes.

MR. SCHMIDT: Objection.

CHAIR: Hold on, Mr. Schmidt.

MR. SCHMIDT: Objection.

CHAIR: Your objection, let me take a guess, is based on the fact that this is not a code violation or code enforcement matter.

MR. SCHMIDT: Yes, yes, sir.

MR. HOLZER: I'm not trying to show you it's a code violation.

CHAIR: I will say this. I, the question you asked made me think that that may be the road we're going down too. I can't say that it's unreasonable for Mr. Schmidt to have come to that idea. So, if you could try to steer away from that, thank you. So, sustain the objection to the extent that it could have been.

MR. HOLZER: Okay. In terms of their testimony, did anyone from the Petitioners testify that they were not using the building?

MR. SCHMIDT: Objection.

MR. HOLZER: That's different --

MR. SCHMIDT: Objection.

MR. HOLZER: -- from a code violation.

CHAIR: Okay. Here's what I'm thinking on this. Number one, there is certainly testimony in the record that this property has been used for fundraisers and other events. If it, this is to be tied to any ALJ Order or anything else, that is obviously a matter that is not in front of us at the moment. Right? So, I understood this photo to be overcrowding, to go to the overcrowding issue. I still have yet to hear anything that relates to why this would be considered overcrowding or whatever the case may be. Everything seems to tie back to a code, a potential code problem.

MR. HOLZER: I'm, I'm tired of hearing code violation. So, mark that as a proffer and I don't want to discuss anymore. Just mark it as a proffer, whatever the next exhibit is, and we'll go from there.

MR. MCCOMAS: Seventy-seven.

CHAIR: Seventy-seven.

MR. SCHMIDT: Thank you.

MR. HOLZER: Thank you.

CHAIR: Therefore, the objection will be sustained and we can go on.

MR. HOLZER: Thank you. I, I'm trying to get through this.

CHAIR: Nobody's saying you're not, Mr. Holzer.

MR. HOLZER: I'm going to, I'm going to stop at this point.

CHAIR: I'm not going to stop at this point. We are going to get through the 502.1 factors as much as we can.

MR. HOLZER: I'm finished with the 502.1 factors. I will --

CHAIR: So, we're not going to hear testimony from Dr. Clark about the 502.1 factors on direct testimony tomorrow, assuming we're here tomorrow, is that your understanding?

MR. HOLZER: It's my understanding, okay. Go for it. Sit there until 9:00. Thank you.

CHAIR: Okay. We're not going to sit here till 9:00. I'm trying to move this case forward.

MR. HOLZER: I, I, at this point, for the record, I'm being pressured into, it is now quarter after six --

CHAIR: Pressured? All right.

MR. HOLZER: And I've been, this Board never sits that late but I understand --

CHAIR: No, it's to give you the opportunity to try to develop the record.

MR. HOLZER: I understand.

CHAIR: And I'm trying to get through it as expeditiously as possible.

MR. HOLZER: I understand, Mr. Chairman. But at this point, at this hour, the witness is having difficulty even

concentrating, I'm feeling very pushed in order to be able to get into the next issue that we could take up tomorrow.

CHAIR: Okay.

MR. HOLZER: And, and, and the last part is inconsistent with the property zoning classifications and there are documents that we want to deal with that particular issue.

CHAIR: I, I will put this plain and simple. Dr. Clark has been on the stand as an individual and now for the association over the course of two full days of testimony in this matter, November 1st and all of today. We started at 9:00 a.m., it is 6:20 now. We are still hearing from Dr. Clark. His testimony is not done. This is a special exception case, there are ten factors. For whatever reason, we keep having to move this case. When we asked, how many more days do we need? We were told two more days for Protestants, one more day for rebuttal. We are now going to bleed into the rebuttal day without question with Protestant's witnesses if we have to complete Dr., Dr. Clark's direct testimony alone and cross examination tomorrow because I'm assuming, since I see Mr. Jakubiak waiting patiently all day here today, that he may be taking the stand at some point in this case.

MR. HOLZER: Right.

CHAIR: So, let's assume that, because I know tomorrow is going to be a much shorter day, much shorter day than today in any event, that we don't get through Mr. Jakubiak

in full tomorrow, assuming he takes the stand tomorrow. That means on February 5th, the rebuttal day, we are now doing still your case. I don't know what you have after that and I'm not asking you to identify that. But to the extent that we say, you say that you are pressured, we asked you to identify what will it take, this is when we were told we are operating within the confines of it, and I am really trying to get through Dr. Clark's testimony so that he has a full opportunity to get everything that he wants to tell us on behalf of himself and on behalf of the association out in the record.

MR. HOLZER: I understand.

CHAIR: I'm not trying to limit anyone in any way, shape or form. But at the same time, I'm trying to operate under the confines that you previously, and I don't want to say you, counsel has previously identified for this Board in terms of the time requirements needed for each case.

MR. HOLZER: And I didn't understand when I gave that time frame as to the extent that objections on almost everything that any witness wants to put on would be made and we would bog down in showing the videos and so forth. And it, and because of that, because of the, the length of time, the questions have been objected to constantly and so forth, I, I took the delay that the Board had to create, obviously, and tried to minimize the amount of testimony that we had to present through videos and so forth. And I've tried to cut all

that down.

CHAIR: No one is pointing the finger at you, Mr. Holzer, saying that you did something wrong, to be clear.

MR. HOLZER: I'm not saying you said I did something wrong, I'm saying the circumstances of how long it's taken to get through testimony because of the legitimate objections, cross examine, and so forth, I, I, I have not been able to move this case as normally I would if I'm in a way of getting it through quickly. Or at least getting it through completely. So, that's all I'm saying. But I also am getting the feeling that I still have more to cover regardless of the 502.1 criteria that we're going to have to get into.

CHAIR: Yes.

MR. HOLZER: And we're not going to be able to get into it tonight, I don't believe.

CHAIR: We are not getting into it tonight.

MR. HOLZER: And if that's the case, I suggest that the last portion of the inconsistent with property zoning classification, I've got four or, I've got four, three documents to get in, but they're going to go through the same thing we've already gone through. Objections, argument, etcetera.

MR. SCHMIDT: I don't, I don't even know what that --

CHAIR: Well, hold on, let's not comment.

MR. SCHMIDT: I don't know what they are.

CHAIR: I understand your trepidation in that regard, right? You touch a stove once, you don't want to get it burned the second time, right?

MR. HOLZER: Exactly.

CHAIR: I understand that. The, as far as I know, the rulings have been consistent from here. If it's a matter that goes to a code issue or an expert issue, obviously there are going to be more problems. If it's a matter that certainly Dr. Clark can testify to, whether on behalf of the association or individually, there haven't been objections or the objections have been overruled and you've been able to proceed.

MR. HOLZER: I understand.

CHAIR: So, I mean, I think it's pretty, you have a pretty good idea of what we need or what we're looking for in terms of in the exhibits and the testimony to enable Dr. Clark and the Protestants to put forward their case.

MR. HOLZER: Right.

CHAIR: I'm just suggesting, since it's now been two full days that we've done Dr. Clark, realizing the objections have bogged us down, to just consider that when we come to, to points such as talking about panic bars and what not. You can expect these objections from Mr. Schmidt and you have a pretty good idea of where we stand on it. I understand we've now come up with a process by which you proffer those kind of things. We could then bypass some of that back and forth. And I'm not

looking to, you know, take, make sure that you can't get evidence in here or anything. You simply present what it is.

MR. HOLZER: Right.

CHAIR: But you know where we stand on those particular matters.

MR. HOLZER: I do.

CHAIR: Right.

MR. HOLZER: And I've tried to comply with them.

CHAIR: Right, so I'm just suggesting for tomorrow, I understand there were additional matters to go into. You know where we're going to be. So, if there's a question as to what you think Mr. Schmidt may object to, my suggestion would be to try to resolve those matters to the extent you can prior to the start of tomorrow's hearing.

MR. HOLZER: I can, there's no way I can do that. It's now 6:30.

CHAIR: I don't mean --

MR. HOLZER: I mean, I'll do it with myself.

CHAIR: -- literally now. Yes.

MR. HOLZER: I, I can't negotiate with Mr. Schmidt.

CHAIR: No, but if tomorrow you show him the exhibits that you intend to introduce that perhaps there's an agreement that there's no objection then you've just advanced this case substantially.

MR. HOLZER: I've been trying to do that.

CHAIR: All right.

MR. HOLZER: But I'll, I'll take your, your comments.

CHAIR: And it's really, I want to get this, to get this through and, again, to make sure that whatever Dr. Clark feels needs to be in the record is in the record.

MR. HOLZER: Right.

CHAIR: So, let's try to move through it. Is there anything else further for today?

MR. HOLZER: Well, yes. I, Mary, Mary Clark wants to know, can we have until February 5th to compile, compile the Baltimore County letters that have been discussed, that we're supposed to put together?

CHAIR: What letters?

MR. HOLZER: The packet that are the proffer letters.

CHAIR: Oh. You're going to have to refresh my recollection. You don't have to do it by tomorrow morning, if that helps the matter. We'll deal with that, whatever that will be tomorrow in terms of where we stand with that.

MR. HOLZER: Okay.

CHAIR: I understand sitting here today with the time we have today, the time we start tomorrow, it gives you limited opportunity so I will not require it by tomorrow because it's plain as day to me that we're going to be here on February 5th still receiving evidence anyway.

MR. HOLZER: Yes.

CHAIR: On the Protestant's case. So, with that in mind, we will, Mr. Schmidt, anything further for today?

MR. SCHMIDT: No, sir.

CHAIR: Mr. Holzer, anything further for today?

MR. HOLZER: No.

MR. CLARK: Oh, thank God.

MR. HOLZER: I will try to make this last bit that we would have done today very quick tomorrow.

CHAIR: And I, and I appreciate your efforts in already streamlining it down and calling the matter --

MR. HOLZER: Thank you.

CHAIR: -- to make it more appropriate.

MR. HOLZER: Thank you.

CHAIR: So, I'll see everyone tomorrow at 9:00 a.m.

MR. HOLZER: Yes.

CHAIR: Well, I shouldn't say everyone. Those of you attending tomorrow, I'll see you at 9:00 a.m., unless the County government is closed or on delay. If it's on delay, we will go by that schedule.

MR. HOLZER: We talked to Sunny at the, at the Board and she said you can get online to see.

CHAIR: Yes.

MR. HOLZER: And we would open whenever the County opens.

CHAIR: Right. So, if it's a two hour delay, we'll

see you at 11:00.

MR. HOLZER: Exactly.

CHAIR: By way of example.

MR. HOLZER: Thank you, thank you.

CHAIR: Thank you, all. Thank you, Dr. Clark.

MR. CLARK: Thank you very much.

CHAIR: And by the way, you are still under oath.

MR. CLARK: Thank you for ending it. Yeah, yeah, I know. Thank you.

CHAIR: So, you cannot talk about your testimony.

MR. CLARK: Thank you for ending it because I'm really losing it.

CHAIR: Yes.

(OFF THE RECORD - 06:24:18 PM)

CERTIFICATE OF TRANSCRIBER

I hereby certify that the hearing in the matter of Nepali American Cultural Center, case number 18-122-X and CBA-19-004, heard before the Board of Appeals of Baltimore County, January 29, 2019 were recorded by means of audiotape.

I further certify that, to the best of my knowledge and belief, page numbers 1 through 393 constitute a complete and accurate transcript of the proceedings as transcribed by me.

I further certify that I am neither a relative to nor an employee of any attorney or party herein, and that I have no interest in the outcome of this case.

In witness thereof, I have affixed my signature this 30th day of November, 2020.

Christine R. Leary

Transcriber

IN THE MATTER OF:

NEPALI AMERICAN CULTURAL CENTER

CASE NUMBER: 18-122-X and CBA-19-004

Hearing Date: January 29, 2019

Pursuant to Notice, the above-entitled hearing was held before the Board of Appeals for Baltimore County at the Jefferson Building, Second Floor, Suite 203, 105 West Chesapeake Avenue, Towson, Maryland 21204.

PANEL PRESIDING:

JASON S. GARBER, CHAIR

WILLIAM A. MCCOMAS, BOARD

DEBORAH C. DOPKIN, BOARD

PRESENT ON BEHALF OF THE PARTIES:

LAWRENCE E. SCHMIDT, ESQUIRE
Counsel for Petitioners

J. CARROLL HOLZER, ESQUIRE
Counsel for Protestants

Christine R. Leary

Direct exam of DeWitt Clark by Mr. Holzer	163

(ON RECORD – 09:09:06 AM)

CHAIR: I'm sorry, everyone, please be seated.

MS. DOPKIN: Ready?

CHAIR: Yeah. All right. All right. So, all right, everybody. We are back here today in the matter of Nepali American Cultural Center of Maryland, 12231 Harford Road, case number 2018-122-X. I believe we're on day eight, having last been here November 29th. First thing I'm going to do, or we're going to do up here, is discuss the Motion to admit Protestant's Exhibits, well, what had been labeled as 23, 24 in the Motion but in the record and as corrected, 22 and 23. So, we'll start with that. Now, I don't need to hear anything further. We've already had a ruling on this. The parties have both submitted, there's a written Motion, followed by the written Response and then a reply by Protestants.

So, it will, I will say we got into this back and forth in large part because I believe at the outset, Protestant's counsel showed Mr. Ghimire, who was a witness on the stand, the proposed exhibits prior to Mr. Schmidt's review and prior to the Board's review.

It is abundantly clear, and this is not trying to point fingers at Mr. Holzer in terms of he did something intentionally wrong or whatever, but by way of course, this is what has caused us to have this Motion and have to respond here today.

So, Mr. Ghimire was asked some questions about it before Mr. Schmidt had the opportunity to review. Now that we've had the opportunity to review and read the transcript as well as to what, the events of that day, I will state the following.

First of all, County Board Rule of Evidence 7-A states, any evidence which would be admissible under the general rules of evidence applicable in judicial proceedings in the State of Maryland, shall be admissible in hearings before the County Board of Appeals. Proceedings before the Board being administrative in nature, the Board will not be bound by the technical rules of evidence, but will apply such rules to the end that needful and proper evidence shall be most conveniently, inexpensively and speedily produced while preserving the substantial rights of the parties.

The, and I'm not going word for word here, but the Board reserves the right as a matter of policy to provide for the exclusion of immaterial or unduly repetitious evidence and the number of witnesses may, well, we don't need that.

Okay. So, let me start with there seems to be some bit of misunderstanding as to the prior ruling. The prior ruling was not solely premised upon why it was being directed at Mr. Ghimire. That is the first hurdle of that analysis. Why are we tendering this over to Mr. Ghimire?

Mr. Ghimire at first started answering questions as

if he had some knowledge as to what went on but then denied having any role whatsoever, whether he or the organization, that's Petitioner, had any role in sponsorship, leadership, management or any other type of role in connection with the event at issue. In fact, questions by me, he denied specifically having any type of role.

So, that's not the threshold or, excuse me, that's the threshold matter for why that witness but that's not dispositive of the matter. So, even assuming by, from what Mr. Holzer has submitted, that Ghimire Homes, Homes is Mr. Ghimire's company, that does not make the police reports admissible, even accepting that as a fact.

There is a relevance issue that is any evidence that has tendency to make existence of any fact that is of consequence to the determination of action more probable or less probable than it would be without the evidence. Evidence is material if it tends to establish a proposition that is of legal significance to the litigation.

Additionally, Rule 5-403 states that even if relevant, evidence can be excluded if its probative value is substantially outweighed by the danger of unfair prejudice. Evidence may also be excluded on the basis of confusion of issues, being misleading to the fact finder, cause an undue delay or waste of time.

So, the question I asked then was specifically

directed to Mr. Ghimire. It does not resolve the other matters of the relevance materiality and whether or not its probative value is at issue with the sub, danger of substantial prejudice that could be caused by admission of those police reports.

So, what are we here to decide? We are here to decide the special exception factors. We are here to decide if this proposed use at this proposed site is in some way, I guess, worse off at this location than it would be at any other RC-2 zone location, particularly under *Schultz v. Pritz*, the Board must assess whether there are facts and circumstances that show the particular use proposed at the particular location would have any adverse effects above and beyond those inherently associated with the special exception use, irrespective of its location within the zone.

Therefore, the best case scenario for Protestants in this regard, is that this property somehow would cause the same result that happened out on an off site event, would occur on this property but not at other properties with an RC-2 zone, which is not at all why it's being proffered. It's being proffered because there's an allegation that it may cause some type of risk to the general welfare or safety because you can't, as I understood it, trust the organizers of that event, some of whom are members of Petitioner's organization to safely run their operations.

Of course, that's an absurd proposition to suggest

that somehow this property will be different, whatever events will unfold at this property will be different as to any other RC-2 zone property. In fact, the only way to look at what is being proffered is here is an example of someone who appears or may be Nepali and we can expect this type of behavior to occur at the site because the people who will be using the site are Nepali.

That is how I understand what's going on and I gave Mr. Holzer the benefit of the doubt that that is not his intent for knowing him longer than I have others, you know, in this room for example.

So, I will give Mr. Holzer the benefit of the doubt that that was not his intent, but that is, unfortunately, how it is being received. That it could be only ever used for, frankly, an offensive proposition to paint one group of people with one brush when all we have is a, what appears to be a fist fight between several people and some other altercation, some other disturbance. I'm not going to hold that against Petitioner in any way, shape or form. Moreover, the proposition or the thought of even having to engage in this consideration of where this falls within the line, shows to me, or illustrates the absurdity of using this, these reports in this case particularly.

So, I categorically reject and deny the Motion and the evidence. I understand it is there for identification

only, for purposes of any appeal. But I want to make it abundantly clear, this evidence cannot be used in any way, shape or form in this matter. It speaks to none of the issues that the Board has to consider or analyze. It has nothing to do factually with anything that's at issue or somehow sheds light on any matter here.

And even if there was arguable relevance and materiality, Rule 5-403 dictates that it not be admitted. So, I hope this, without any clarification, further clarification needed, ends and resolves this issue as to the admissibility of Pet, Protestant's Exhibits 22 and 23. Ms. Dopkin?

MS. DOPKIN: I concur.

CHAIR: Mr. McComas?

MR. MCCOMAS: I concur as well.

CHAIR: With that in mind, are the parties ready to proceed further or do you need a couple minutes to collect yourselves to then assemble whatever you think is coming next?

MR. SCHMIDT: I'm ready to move forward.

MR. HOLZER: I'd like to have a few moments, if I could, five minutes, or ten, ten minutes.

CHAIR: Okay. Before we go there, I'm just going to do a couple housekeeping things for purposes of today's hearing. Remember, that when we come back, we are on the record here and things are being recorded. As I cautioned in hearings past, please have your cell phones off. Please, to

the best of your ability, and I know this particularly applies to you people here on Protestants' side, try to avoid sitting in the back row, just so that's able to be used as ingress and egress from the other side so people don't have to come around the front. I realize if it gets too crowded, there's only so much we can do. So, there's that.

Also, keep in mind this is a courtroom and we will have everyone act accordingly. There's to be no talking amongst yourselves, nodding in agreement, high fives, nodding your heads in approval or mouthing answers or anything to, to that extent. There's to be no reaction to testimony either.

Finally, as it relates to the inclement weather policy, because we are getting snow today, and I understand that for today and tomorrow's hearings, there have been phone calls that have already been made to the Board. If the Baltimore County government offices are closed, all hearings are cancelled and rescheduled at the earliest possible date. If there's a delay, we will be on delay. So, if you in, are intending to be here tomorrow at 9:00 a.m. and you think there's the possibility we may be closed, you need to check the Baltimore County government website or otherwise find that information to determine when we are open. All right. With that in mind, I'll give you five minutes?

MR. HOLZER: Could I make a request before that? Number one, I would, I understand that it, that based on your

denial of the Motion and the agreement of both members of the Board other than yourself, was that deliberated prior to today?

CHAIR: Absolutely not.

MR. HOLZER: Okay. So, there's that, that encompassed the deliberation when you asked each party for, whether they agreed or didn't agree and they had no advance ruling of what you were going to rule?

CHAIR: They had no idea how I was, well, I would say, except for Ms. Dopkin would have an idea because she was part of the Board when we actually did this originally. Mr. McComas may be familiar because of the transcripts, but outside of that, no. This was not discussed in any way, shape or form with either Ms. Dopkin or Mr. McComas as to the, whatever I said in terms of the Motion, how it was decided or anything else.

MR. HOLZER: And, --

CHAIR: I just, I, I would say the only thing was to make sure that they had copies of everything, that was it, and that was right before we came in here today.

MR. HOLZER: Thank you. We have a new member of the Board, Mr. McComas, is sitting here in front of us. He has not been introduced, he has not been identified as having read all of the other material and I would like that on the record as to what's going on in terms of the Board membership --

CHAIR: I will --

MR. HOLZER: -- and whether or not Ms. Murphy is no longer going to participate, etcetera --

CHAIR: Fair point. I will say this. Ms. Murphy is slowly getting back to work. She is unable to sit as a member for this panel. So, you can expect going forward it will be Ms. Dopkin, Mr. McComas and myself.

MR. HOLZER: All right.

CHAIR: Mr. McComas has been provided with the materials. I can't speak to anything else he's done with the materials. I'm not going to ask him to say anything with the materials, but I expect that he will be, have some, some familiarity by virtue of the fact that he is a Board member and he had access to the materials. So, I am assuming that he is up to speed and ready to go. I'm not going to ask him questions or put him on the spot as to his command over anything in the record.

MR. HOLZER: So, at this point the record does not indicate one way or the other whether he's read any of the transcripts from the prior seven hearings?

CHAIR: I'm not going to do that.

MR. HOLZER: Okay, thank you.

CHAIR: Sure thing.

MR. HOLZER: We can take a break if that's your pleasure.

MR. SCHMIDT: Just one other question, I'm sorry.

There was another Motion that was recently filed by Mr. Holzer.

CHAIR: Thank you for bringing that up.

MR. SCHMIDT: And I just wanted to know if we were going to address that today.

CHAIR: I understood, and correct me if I'm wrong, that you have not submitted a response as of yet, --

MR. SCHMIDT: I have not. I am prepared to discuss it but I, I would want to present a written response so it's in the file.

CHAIR: And, and I apologize. Yes, that is correct. We have not received a written response from you and I don't think by time it was even due as of yet.

MR. SCHMIDT: That's correct.

CHAIR: So, we are not going to be ruling on that today, we're going to give you the opportunity to file a written response and then have Mr. Holzer, give him some opportunity, to the best as possible, to reply. Now, keeping in mind our schedule, which is we have tomorrow and I want to say it's February 5th and February 13th is the backup date and also has to be the last date for any possible evidence if we're not completed before then.

MR. SCHMIDT: Right.

CHAIR: In light of the fact that we are trying to get then memos in and an opinion out the door before April 30th. So, with that in mind, I don't know when your response would be

due. I'm assuming it's not due by tomorrow, so that would tell me that February 5th would be the date that that would be addressed.

MR. SCHMIDT: And let me just say, Mr. Garber, because of the time I'm not going to be using my full eighteen days or fifteen days in mailing. I'll have something filed, I would anticipate, the very beginning of the week. I'll, I'll send a copy to Mr. Holzer so that you all have it quickly. I'm happy to do that to try to move and, and keep, be mindful of the schedule.

CHAIR: I appreciate that and I think that's best. Mr. Holzer, I also have a recollection that there has been some discussion, perhaps, or maybe I'm wrong on this point. That there may be, had, had been some discussion as to the effect of Petitioner's Exhibit 34? Is that not your recollection?

MR. HOLZER: Petitioner's Exhibit 34, is the, that the Motion that we're talking about?

CHAIR: The second Motion, --

MR. HOLZER: Yes.

CHAIR: -- the one regarding the --

MR. HOLZER: What about it?

CHAIR: -- its purported clarification from Judge Beverungen on the ALJ Order, right? To the best of your recollection, that has not been addressed in, by this Board?

MR. HOLZER: No. As I said in, in the, the Motion, I

took an appeal from that, even though, and we were within the thirty days in terms of --

CHAIR: This isn't a question about that.

MR. HOLZER: Oh.

CHAIR: The question is, we, there's nothing in the record presently on that point?

MR. HOLZER: That's exactly right.

CHAIR: Okay.

MR. HOLZER: You're exactly right.

CHAIR: That's where I'm at.

MR. HOLZER: That's why I waited to file the Motion.

CHAIR: Okay. So, you heard from Mr. Schmidt.

MR. HOLZER: Yes.

CHAIR: Obviously, I'm going to try to give you some window to res, to reply if you feel the need to reply.

MR. HOLZER: Sure.

CHAIR: But other than that, we'll just take a brief five minute break.

MR. SCHMIDT: Sure.

CHAIR: And then we'll get to the testimony because we do have a lot to get through today as best as we possibly can because of the condensed schedule, so.

MR. HOLZER: Sure.

CHAIR: All right, thank you.

MR. HOLZER: Thank you.

MR. SCHMIDT: Thank you, sir.

MR. MCCOMAS: If you guys, if you guys can also just confirm, I have Protestant, we're on the, the next exhibit would be forty-eight and on the Petitioner the next exhibit would be thirty-five is what I have.

MR. HOLZER: Forty-eight, okay.

MR. MCCOMAS: Forty-eight and thirty-five.

(RECORDING PAUSED - 09:25:34 AM)

(ON RECORD – 09:35:57 AM)

CHAIR: Please be seated. Are we back on the record? Okay. I understand a question has arisen about sign in sheets, Mr. Holzer?

MR. HOLZER: Yes.

CHAIR: So, I'll address that. As I understand it, you have asked Ms. Cannington for a sign in sheet, or asked about the presence of a sign in sheet --

MR. HOLZER: That's correct.

CHAIR: -- today and in conjunction with any other days that have passed. It is my understanding that as per Board practice in every other case, we do not provide sign in sheets unless there is a specific need to do so or reason to do so that's identified in advance. Moreover, it is the common practice of this Board to have, the parties usually provide their own sign in sheets to indicate who is here or whatever. And then there's always the question about are they admissible,

or even admissible in the case as it is. We usually just as a courtesy accept them into the record, or at least as part of the file. But in, it doesn't speak to any particular issue. So, with that in mind, would you or would you not like a sign in sheet?

MR. HOLZER: Well, the first six days we had sign in sheets here and both parties signed in.

CHAIR: I don't know that, I assume that to be the case, I'll take your word for it.

MR. HOLZER: Well, I'm sure everybody signed in on both sides, including over, over at the County Council.

CHAIR: I don't know that to be a fact. If it --

MR. HOLZER: Well, but that's been the practice of this Board for years and years is to have a sign in sheet, at least --

CHAIR: I would disagree with, with that respectfully. And I say that because I don't, we don't ever leave sign in sheets out on the tables for parties to sign. Usually, there are, the parties themselves have sign in sheets. If there are sign in sheets, I understand that also it tends to be that counsel retains some of the sign in sheets, because the Board doesn't receive them, the Board will receive them in evidence or at the conclusion of a hearing if there are any.

MR. HOLZER: I have sign in sheets from January 7, January 17th, it looks like January, anyway --

CHAIR: It couldn't be January 17, it must be July maybe?

MR. HOLZER: Maybe it was Jul, July. In any event, I've got all the copies of sign in sheets, which we got from the Board.

CHAIR: Okay. Mr. Schmidt, you have anything you want to say on this point?

MR. SCHMIDT: I have no position either way, to be, quite honestly.

CHAIR: Mr. Holzer, is it your intent to put that in the record, the sign in sheets?

MR. HOLZER: I can.

CHAIR: I'm asking, what do you want to do? I, I'm really asking what is it do you want?

MR. HOLZER: Well, I, I just want to understand why things, I understand why there were no sign in sheets at the last hearing, because there was no evidence to be taken.

CHAIR: There wasn't, correct.

MR. HOLZER: And there were a number of people that came, a number of people that didn't come. But we have, had a history of, of sign in sheets on both sides, both parties, throughout the whole hearing and I was shocked to see that there was no sign in sheet for today.

CHAIR: I, you are telling me things that I would have no knowledge of because it is my understanding there's no

sign in sheets that are left on the tables for, for the parties, it's up to the, the parties get their people who are present to sign in but whatever it is you want to do with the sign in sheet, if you want one today, we can certainly have one today and if that makes it better, you want to put that into the record, we can do that.

MR. HOLZER: Okay.

CHAIR: But we're, I'm going to defer to Ms. Cannington at all times.

MR. HOLZER: That's fine.

CHAIR: On that, on that issue.

MR. HOLZER: I would too. She's been around a long time, so.

CHAIR: She is excellent at her job and I'm going to just listen to her.

MR. HOLZER: I'm going to proffer that the prior sign in sheets for all the earlier days were obtained by us from the Board's office and I can introduce these, if you'd like, but I don't see where it's necessary. I'm just proffering that all the sign in sheets were obtained and kept by this Board and if you'd like, I can show you.

CHAIR: I will, I mean, again, I'm, I'm not disputing anything you're saying about this. I'm, if the purpose of it is to say that you've had a number of people on behalf of the community here present for these hearings, I think --

MR. HOLZER: No, no, no.

CHAIR: -- we can certainly --

MR. HOLZER: It's, it's not, what I --

CHAIR: -- visually we are well aware of how well attended these hearings have been.

MR. HOLZER: No, I want, I want these in the record now.

CHAIR: Okay, then that's fine.

MR. HOLZER: And the reason that I want them in the record is because there was testimony about them in regard to the Motion and the, and the evidence that was submitted in, in regard to the activities offsite that caused eleven police cruisers to have to appear. The Motion that you just ruled on, and so these documents, as collective, would be --

CHAIR: Are you ready, Mr. McComas?

MR. MCCOMAS: Yeah, well, act, actually, I'm looking at Protestant's sign in sheet, exhibit number one. And it's, something has already been, has already been entered. I don't know whether that is what you're going to give to me or not or whether that's something else.

CHAIR: Oh, no, this is, I think this is just from the --

MR. MCCOMAS: Well, it says here, I'm looking at the description, Protestant's sign in sheet. So,

CHAIR: Well, this was probably from either the

hearing below or (inaudible) board meeting for them.

MR. MCCOMAS: Is that what it is? All right.

CHAIR: Yeah, this is all from below.

MR. MCCOMAS: All right.

CHAIR: This is the ALJ.

MR. MCCOMAS: All right. So, (inaudible) not the same.

MR. HOLZER: I understand that these are copies of what was in the Board's --

CHAIR: And I understand. Mr. Schmidt, do you have any, any --

MR. HOLZER: -- I cannot intro, I cannot introduce them today because there is writing on them.

CHAIR: It's for the --

MR. HOLZER: Could I make copies and have them submitted?

CHAIR: I'm just asking if he has any objection.

MR. SCHMIDT: Just, objection to the sign in sheets?

CHAIR: Right.

MR. SCHMIDT: No, sir.

CHAIR: Okay. So, when you're ready to submit the actual copies, if it's tomorrow, so be it.

MR. HOLZER: I would, I would offer them as Protestant's forty-nine, is it --

MR. MCCOMAS: Forty-eight.

MR. HOLZER: Forty-eight, okay.

CHAIR: Do you want to give them then to Ms. Cannington for copying so you can receive them back today so that there's not a question?

MR. HOLZER: Yes, that would be perfect.

CHAIR: Can I see that?

MR. HOLZER: That would be perfect.

MR. SCHMIDT: And Mr. Holzer, that's the sign in sheets from everyone, both sides?

MR. HOLZER: Yes, yes.

MR. SCHMIDT: That, that, I mean, if I just reflects who's here.

CHAIR: Well, do you want --

MR. HOLZER: Actually, --

CHAIR: -- let's do, here's what we're going to do. We're going to, I, can we, let's just get to the evidence today. Here's what we're going to do. At a break, Mr. Schmidt, please review the files to make sure you're satisfied.

MR. SCHMIDT: Okay.

CHAIR: When that is done, hold on, at a break, not now.

MR. HOLZER: Well, citizens and Petitioners.

CHAIR: And then, once that's done, you give them to Ms. Cannington for copying, we'll put it formally into the record. This issue is resolved. So, this way we can just move

on, we don't have to spend our time worrying about sign in sheets. So, --

MR. HOLZER: Okay, will do.

CHAIR: Next, so we're in the middle of Protestant's case, we've heard from Dr. Mary Clark, we've heard from Joyce Mason, Dave Poehler, Kris Ghimire, as an adverse witness, and we last left off with Dr. Dewey Clark.

MR. HOLZER: That's correct.

CHAIR: And that's where we're at.

MR. HOLZER: That's correct. But before Dr. Clark goes back on the stand, I've got a one other live witness today, has a document from King, Greater Kingsville Civic Association I just want to put in.

CHAIR: Well, we're actually in the middle of Dr. Clark's testimony, so Mr. Schmidt, this is an irregularity in presentation, do you have any objections?

MR. SCHMIDT: No, if there is someone who can only be here today and Mr. Holzer wants to put him on.

MR. HOLZER: Yeah.

MR. SCHMIDT: I'm, I'm find with that.

CHAIR: As long as you have no objection, we can do that.

MR. SCHMIDT: Sure.

MR. HOLZER: All right. Where did my stuff go? What I'm handing to counsel is the Greater Kingsville Civic

Association Rule 8 with the vote attached. And I'm giving you the original and three copies.

CHAIR: So, for, for the record, because we were starting to identify the sign in sheets, this will be Exhibit 48, not the sign in sheets.

MR. HOLZER: Oh.

CHAIR: I'm just clarifying it for the record.

MR. HOLZER: Gotcha, okay. Okay. So change, right.

CHAIR: So, and this is from the Greater Kingsville?

MR. HOLZER: Yes, the original, originally I had introduced the fact that I was representing them.

CHAIR: Yes.

MR. HOLZER: And we didn't have the Rule 8.

CHAIR: Right.

MR. HOLZER: So, now that's what Rule 8 is and --

CHAIR: Well, just, what's the formal name again? Greater Kingsville?

MR. HOLZER: Great, yes, Greater Kingsville Civil Association.

CHAIR: Civic Association, Inc.

MR. HOLZER: Yep.

CHAIR: Okay. Any objection, Mr. Schmidt?

MR. SCHMIDT: Mr. Garber, can you, can you just give me a minute or can I defer on that? I just want to look at Rule 8 and look at the document and see if it comports with

Rule 8. If it does, I have no objection. But I just haven't seen it, so I don't know what it is.

CHAIR: No problem.

MR. MCCOMAS: I've got a question for him. So, so I've got two originals, we have two references for me to put exhibit numbers on there, are there any differences here?

MR. HOLZER: I'm, I'm sorry. Look at the sign, look at who signed, it should be ink, both of them.

CHAIR: Dorothy (inaudible).

MR. HOLZER: This is the original.

CHAIR: I can't read the name.

MR. MCCOMAS: So you have two originals?

MR. HOLZER: Right.

MR. MCCOMAS: So you're going to submit --

MR. HOLZER: Well, I don't, I'll take one back if it's okay.

MR. MCCOMAS: All right. I'm just going to, I'm just going to cross this off. That's what I've already marked here.

MR. HOLZER: Oh, okay.

MR. MCCOMAS: So, what I'll do is, just so we don't--

MR. HOLZER: Yeah, I wanted to make sure.

MR. MCCOMAS: Because (inaudible).

MR. HOLZER: Gotcha, thank you.

MR. MCCOMAS: (inaudible).

CHAIR: Here. Take my copy, that's fine. So, to, to

move on further from this, Mr. Schmidt, at a break, I'll let you, let me know your opinions as to where you stand on it. Exhibit 48 will be conditionally admitted pending Mr. Schmidt's review and any objections. Therefore, I'm, this way we can move forward.

MR. HOLZER: Yes.

CHAIR: So, it'll be conditionally admitted on that basis and Mr. Schmidt will inform us after he's had time to review Rule 8 and the paperwork.

MR. HOLZER: Fine.

CHAIR: Okay?

MR. HOLZER: Mr. Morgan?

MR. MORGAN: Yes, good morning.

CHAIR: Good morning. Does everybody have their cell phones off? Okay.

MS. DOPKIN: All right. Don't sit down quite yet. Do you swear and affirm under the penalties of perjury that the testimony you are about to give is true and correct to the best of your knowledge and belief?

MR. MORGAN: I do.

MS. DOPKIN: Would you state your name and address for the record, spelling your last name?

MR. MORGAN: Bruce Morgan, M-O-R-G-A-N, and I'm on 3 Longknoll Road, that's in Kingsville, Maryland 21087.

CHAIR: 21807.

MR. MORGAN: 21087.
CHAIR: 21087.
MR. MORGAN: Yes.
CHAIR: And you said Longknoll Way?
MR. MORGAN: Long, Longknoll Way.
CHAIR: K-N-O-L-L?
MR. MORGAN: Yeah, Longknoll, one word, --
CHAIR: Oh, okay, that's one word.
MR. MORGAN: Yeah, Longknoll, one word, Way.
CHAIR: Thank you. And he's been sworn.
MR. HOLZER: Mr. Morgan, Mr. Morgan, how long have you lived at that property?
MR. MORGAN: Two years.
MR. HOLZER: Okay and how far away from the proposed site is that property?
MR. MORGAN: As the crow flies, maybe three miles.
MR. HOLZER: Okay and do you have any neighbors that are involved in this case?
MR. MORGAN: Yes, Dr. Clarke lives, I think, like four doors down from me.
MR. HOLZER: Okay. Now, how did you get involved in this particular case when you live three or four miles away?
MR. MORGAN: Originally, --
CHAIR: I should, real quick, he did point to a gentleman who's sitting on Petitioner's side of the room, I

believe he identified he was Dr. Clarke.

MR. MORGAN: Yes, I believe it's Dr. Clarke, yes.

CHAIR: Okay. Sorry, Mr. Holzer, to cut you off, but I do want to get that into the record, that he's pointing to a gentleman who he's identified as his neighbor.

MR. HOLZER: Thanks. No problem. How did you get involved in this particular, as an interested party, in this particular issue since you --

MR. MORGAN: I got a, I got a letter about a year ago, I believe it was, that this newly formed GFWPA was holding a meeting to discuss the Bonaparte situation. I, I went primarily because I had just moved into the area, I didn't know anything about what was going on and I had actually been to that, I actually did work at that property probably twenty-five years ago. So, I went out of curiosity.

MR. HOLZER: What kind of work do you do now?

MR. MORGAN: Termite and pest control.

MR. HOLZER: And you had actually visited the site before?

MR. MORGAN: They had asked me to examine the site at one point in time, it had been a long time ago.

MR. HOLZER: Okay. I mean, can, can you sort of give a ballpark figure of how long ago that was?

MR. MORGAN: Probably, at least twenty-five years ago.

MR. HOLZER: Okay and certainly if that, that wasn't under the current ownership of the property?

MR. MORGAN: No, no.

MR. HOLZER: Okay. So, --

MR. MORGAN: I don't remember who the owner was at the time, but it was, somebody was there.

MR. HOLZER: Okay. How long have you lived in the area of Kingsville, Baltimore County?

MR. MORGAN: Two years.

MR. HOLZER: Okay.

MR. MORGAN: Two years. I moved there from, from Perry Hall.

MR. HOLZER: Okay. So, you, you were, when you were in Perry Hall, were you familiar with the site? Obviously, you went there for one occasion but are you familiar with the road system?

MR. MORGAN: With the roads, in traveling there, I drive about thirty-five, forty thousand miles a year in my business and that's all in the, in the general metropolitan area so I've been up and past that property many, many times.

MR. HOLZER: Okay. Now, as a result of going to the, the first meeting to find out what was going on, what happened then?

MR. MORGAN: Well, I, I had listened to statements from members of this newly formed group and was concerned about

their issues relating to noise and traffic and so forth that had been put on the local community there. And, you know, I was, I was concerned because I felt that, that if this type of activity were permitted there, in a, a rural, agricultural, residential property, that it could happen anywhere in Baltimore County.

CHAIR: If I, I'm sorry, Mr. Schmidt?

MR. SCHMIDT: Yeah, I, I'm, I would, I held off making any statement, Mr. Garber, because I was trying to figure out --

CHAIR: Well, hold on, is this an objection?

MR. SCHMIDT: It is an objection. And I would object to, to the witness' testimony.

CHAIR: Well, I, I get that. What's the reason?

MR. SCHMIDT: Well, first of all, I don't think there's any standing that this witness has living three miles away from the property, that that is such a distance that he just seems to be a matter, a member of the general public and, as you know, there must be a showing that there is some standing, normally guided by proximity and I know this Board has had recent cases on that issue. So, I'm not going to lecture you on that.

Above and beyond that, I, I kept waiting to hear where we were going with this and I think the remarks that he started his last answer with is he's concerned about traffic

and the impact from a standpoint of, the impact on rural areas. If he's not a land planner or someone with ex, traffic engineer, it would seem to me that he would, I was waiting to see if he was going to be qualified as an expert witness and apparently he is not.

So, based on the fact that this is a member of the public who lives three miles away, I would object.

CHAIR: Okay. You can save yourself. As you well know, Mr. Schmidt, the concept of standing here in an administrative level is broad, is actually an interested party and that is a broader topic than standing if we were in District or Circuit Court, or Circuit Court, excuse me. And Mr. Morgan has testified that he travels up and down Harford Road.

One of the issues raised in this case is the traffic issues. He, as someone who apparently has testified already, that he commutes with some regularity up and down Harford Road and is familiar with the property and drives past the property, certainly he could provide testimony as to whatever Mr. Holzer is going to elicit out of him and then the Board can receive it for whatever weight that is due.

He's not being received as an expert so with, if something comes up that would be an expert opinion, obviously feel free to object. This is not a ruling as to any future testimony. I did have one question, sir, though.

MR. MORGAN: Yes, sir.

CHAIR: So, let me (inaudible) direct objection it is overruled. The question I have for you is your concerned because of this type of activity permitted there in a rural, agricultural property, it can happen anywhere in Baltimore County, is what I understood your testimony to be. What did you mean by this type of activity?

MR. MORGAN: What the members had told me regarding the large groups that were there, the noise, long term over courses of days. That disrupted the quiet, tranquil nature of their area. As well as the, as well as the traffic issues on Harford Road, which we travel, we travel frequently. I travel it going home almost every day, my family who, my kids who live in Perry Hall come up couple, several times a week, they come up that way. So, I have a concern about that.

CHAIR: So, you said it's the, the, I'm, the, what I'm trying to get at is to what you meant by this type of activity. And just so I have it correct, you're saying your understanding is the large groups where there's noise and it takes place over, over days and that you're concerned about the traffic on Harford Road. That's the activity that you're referring to?

MR. MORGAN: Yes, sir.

CHAIR: Okay. Mr. Holzer, back to you.

MR. HOLZER: Yes, thank you. Mr. Morgan, have you

attended other hear, days of the hearing on this case?

MR. MORGAN: Yes.

MR. HOLZER: Okay.

MR. MORGAN: Yes.

MR. HOLZER: Did you hear anyone else testify who lived further away?

MR. MORGAN: Ms. Twining who lives at the end of Sharon Road is, is actually a little bit less from Bonaparte as the crow flies than she's, she's actually a little bit further away as the crow flies than my house is on Longknoll Way. And then Mrs. Barton --

CHAIR: And if I can just jump in? We already, I've already made a ruling --

MR. HOLZER: I know, but I'm making a record, Your Honor.

CHAIR: Well, --

MR. HOLZER: I need a record on rulings on objections in this case because --

CHAIR: So, --

MR. HOLZER: -- it's now gone way beyond what the normal process has been, as you know, because of so many days. I want this record clear and I want this witness clear in case he ends up being a witness or an appellant in this case.

CHAIR: Right, let's, --

MR. HOLZER: I need to establish that.

CHAIR: -- let's not go too far afield because I've already said --

MR. HOLZER: I won't.

CHAIR: -- he can testify as an interested party.

MR. HOLZER: I understand.

CHAIR: And Ms. Twining testified as an interested party, I get that. And I understand if your testimony is that Ms. Twining lives further away, that's certainly a matter you can raise in an argument to us on these points. I mean, the record will establish their distance from the property site. I'm just requesting that we don't go too far down this road.

MR. HOLZER: I won't.

CHAIR: That we've already ruled in, frankly, your favor.

MR. HOLZER: I understand.

CHAIR: Okay.

MR. HOLZER: I'm not oblivious to the fact that every once in a while I win one, so. What about Marcy Barton who lived ten miles away? Did you hear her testify?

MR. MORGAN: I, I did.

MR. HOLZER: Okay. So, and that was for the Petitioner's case?

MR. MORGAN: That's correct.

MR. HOLZER: So, under the circumstances, you, did you feel it was appropriate for you to be able to come and

share with your, your thoughts with the Board?

MR. MORGAN: Yes.

MR. HOLZER: Okay.

MR. MORGAN: Yes.

MR. HOLZER: Let's get over that now. Have you, well, we've already covered, you've attended a number of hearings, you've heard some of the testimony on both sides, is that correct?

MR. MORGAN: Yes.

MR. HOLZER: Okay. What is, what are your concerns in terms of the approval of this property for a, a community type center, a recreational facility area, and a religious facility?

MR. MORGAN: That it could, that a rolling --

MR. SCHMIDT: Objection to the extent that the first two are not proposed.

MR. HOLZER: Well, we'll get to that.

CHAIR: I, I will have to sustain the objection because what Petitioner has argued is it's solely for religious use. There is an argument to be made, I understand, on your side that maybe it's not just confined to that. But your question as asked is argumentative and it is inconsistent with what Petitioner says it is.

MR. HOLZER: Okay, fine.

CHAIR: If he has an understanding, you can ask about

the, that understanding or whatever else you want to get into but as your question as phrased, I'll sustain the objection.

MR. HOLZER: I'll limit it to a rel, as a religious facility with accompanying activities.

MR. MORGAN: If I might answer this way. The, the activities that have occurred to date at the property, my concern would be that those types of activities might be permitted as a precedent, sending a precedent, that those types of activities might be permitted in other parts of the County. I'm particularly concerned because my brand new house, my dream home of a lifetime, that I just built in Longfield Estates, backs up to Langenfelder Mansion, Rockwood. And it's for sale right now and I would be horrified if this were going on there, since it's a similar type property. I know Mr., Dr. Clarke, I think probably would not be happy if this activity were occurring at Langenfel, at Langenfelder.

MR. SCHMIDT: Objection. I mean, how's he know what Dr. Clarke would think of another project not at this property?

CHAIR: He, he doesn't know, unless you had a specific conversation. He's just putting himself in his shoes that he should have the same concern. That's how it's being received by the Board.

MR. SCHMIDT: Okay.

CHAIR: It's not being received as substantive evidence that Dr. Clarke, in fact, would have the same

concerns.

MR. SCHMIDT: I'm sorry, I don't mean to make this any longer.

CHAIR: It's okay. So, overruled. You may continue.

MR. HOLZER: Did you --

MR. MORGAN: If I might --

MR. HOLZER: -- do you have a document in regard to Mr. Clarke --

MR. MORGAN: Well, if I might? Dr. Clarke wrote a letter, a nice letter but he, he talked about he enjoys --

CHAIR: Why don't we, if you're going to talk about the letter, do you have the letter with you?

MR. MORGAN: It's, it's, it's in evidence.

MR. HOLZER: Yes.

CHAIR: It's already in evidence?

MR. MORGAN: But I, I have it here. I just --

CHAIR: Hold on, hold on, before you do. Mr. Schmidt has to follow along to know what you're referring to.

MR. MORGAN: I apologize, in the effort, --

CHAIR: Hold on, sir, just wait one second. Just wait till --

MR. HOLZER: Would the Board like your copies now or not?

CHAIR: Is this in the record already?

MR. HOLZER: That's what he said.

CHAIR: Okay.

MR. HOLZER: I don't have the exhibit number that it is.

CHAIR: Is it, all right. We'll just assume that it is not in the record only because you're hanging it up here. If it is in the record already, it is what it is. How's that?

MR. HOLZER: Well, he said it's in the record. That's his testimony.

MR. SCHMIDT: Well, can he, can he tell us what exhibit number it is? I've got a list of the exhibits, I'm sure --

MR. HOLZER: Oh, I'm sorry, it is not in the record. I was just advised it was not in the record.

MR. MORGAN: Okay.

MR. MCCOMAS: So, this is Exhibit 49.

CHAIR: Okay, this is Exhibit 49, yes.

MR. HOLZER: Could you, --

MR. MORGAN: If I could --

CHAIR: Hold on, before you start.

MR. MORGAN: Okay.

CHAIR: Let Mr. Schmidt have the --

MR. MORGAN: Okay.

CHAIR: -- opportunity to review --

MR. MORGAN: Okay.

CHAIR: -- before we start with any question and

answer. We don't want to get ourselves in a situation where we have to go through another Motion as to any admissibility issues. So, let's give Mr. Schmidt a minute.

MR. HOLZER: Yeah.

MR. MCCOMAS: Can I, can I have a little more help? Because I don't see who, who's the letter from and --

CHAIR: We're giving it just one second.

MR. HOLZER: Yeah, these, this document, Mr. Morgan, does not have a signature.

CHAIR: Hold on, Mr. Holzer, just wait one second till Mr. Schmidt's done. I promise you'll get the opportunity to ask him these questions. Mr. Schmidt, have you had the opportunity to review?

MR. SCHMIDT: Yes, sir.

CHAIR: Okay. Let's identify this then for the record first.

MR. HOLZER: Yes, I'm trying --

CHAIR: Mr. Morgan, the letter that you just handed up to the Board and Mr. Schmidt, what is this letter?

MR. MORGAN: I believe it's a letter from Dr. Clarke talk, talking about the, where he has lived, talking about their intentions with the property --

CHAIR: Well, if I can, before you go further. There's handwriting in the upper right hand corner. Do you see that?

MR. MORGAN: Yes.

CHAIR: Do you know what that handwriting --

MR. MORGAN: I, I, I do not.

CHAIR: Okay. Mr. Holzer, can you shed light on the handwriting in the upper right hand corner?

MR. HOLZER: No, I can't see it either on, on this attachment. If I could have a second?

CHAIR: Yes.

MR. HOLZER: No, I, I cannot find anything other than the document itself appears to be written by the person the witness says it is written by because he gives his address and his daughter's name and so forth. And I think the only purpose of this letter was to relate to the nature of his enjoyment of his home.

CHAIR: Okay and so do I understand then that the proffer for this letter is basically Dr. Clarke expresses his enjoyment of his home in his location and it ties into the testimony that was just provided by Mr. Morgan --

MR. HOLZER: Correct.

CHAIR: -- as to hey, we also have this big property behind us, what would happen if this were to be developed in a similar fashion.

MR. HOLZER: Well, he just, he doesn't go that far. He just simply says he enjoys the rural nature, tranquil nature, enjoys seeing deer or geese from my deck to the pond,

take my grandson, so that's all it is.

CHAIR: Okay. Mr. Schmidt, any objection to the admissibility?

MR. SCHMIDT: No, sir.

CHAIR: Okay. So admitted.

MR. HOLZER: Thank you and that's exhibit number forty-nine.

CHAIR: Right.

MR. SCHMIDT: Can I, can I ask one question? You asked about the writing on the page.

CHAIR: Yes.

MR. SCHMIDT: And there's, there's a, a, a black out, it looks like, or some, that's my --

MR. MORGAN: I tried to address that --

CHAIR: Hold on, sir, he's got a question for me.

MR. SCHMIDT: -- my copy. I don't know, does the Board's copy have this --

CHAIR: Yes.

MR. SCHMIDT: -- second paragraph and then written above that is, and maybe the witness could address what that is, if the witness did that.

CHAIR: Well, hold on, we're going in order. Mr. Holzer, you have questions and then if it's not asked to your satisfaction during the course of direct --

MR. SCHMIDT: Yes, sir.

CHAIR: -- you may certainly ask it in cross. Mr. Holzer?

MR. HOLZER: Mr. Morgan, you heard counsel's --

MR. MORGAN: I, I can, --

MR. HOLZER: -- could you tell us how --

MR. MORGAN: -- I can address that, yeah. In my effort to, I had used an orange, this is the original, original copy.

CHAIR: Let's do this, can you show Mr. Schmidt the original copy? Maybe that resolves the situation entirely and we can all move on. Thank you, Mr. Morgan.

MR. SCHMIDT: And you just wrote above the orange place --

MR. MORGAN: Yeah, when, when I highlighted it, it didn't copy well and it blacked it out.

MR. SCHMIDT: Got it, no problem.

MR. MORGAN: So, I wrote, I wrote the text above it.

CHAIR: Mr. Schmidt's curiosity is satisfied.

MR. SCHMIDT: I'm fine.

CHAIR: It's admitted, we're all good on that.

MR. MORGAN: Okay, good.

CHAIR: Okay. So, back to you, Mr. Holzer.

MR. HOLZER: All right. What, if, if you could just repeat your position in regard to the tranquility of the neighborhood --

MR. MORGAN: It's a very quiet, very tranquil neighborhood that I'm sure, you know, that Dr. Clarke enjoys just as much as we do. And the whole point of it was that should that type of activity occur at Langenfelder, which is similar, I think, to Bonaparte, it's a big old mansion with the property around it, I think that I would be horrified by it. I think Dr. Clarke would not be real happy about it either since he, he obviously has stated that he enjoys the tranquil, quiet nature and away from the crowds and noise.

MR. HOLZER: Okay. You've testified already to your involvement in regard to traffic and, and we're referring to traffic on Har, Harford Road in the vicinity of the subject site and the circular roundabout that, that takes place above it and, and subsequent, the neighborhood. Which, could you talk about that a little bit? And you're not a traffic expert?

MR. MORGAN: I'm not a traffic expert, no.

MR. HOLZER: Okay.

MR. MORGAN: But in traveling that over a period of, of forty years, being in the business that I'm in, I have come upon numerous accidents at that location.

CHAIR: Hold on. What do you mean by that location?

MR. MORGAN: At, at the, at the location of the entrance to Bonaparte.

CHAIR: So, you're saying at --

MR. MORGAN: Right at the curve.

CHAIR: At the entrance to the subject property, you have encountered a number of accidents?

MR. MORGAN: Yes, sir. Between --

CHAIR: Over forty years?

MR. MORGAN: Over a forty year period of traveling that, that road.

CHAIR: Sorry, sorry, Mr. Holzer.

MR. HOLZER: Okay.

MR. MORGAN: And, and an, and an occasion where I actually came upon an overturned vehicle at that, at that location. The, and again, I'm not being a traffic expert but, rounding that curve at forty miles an hour, which is reasonable, you're only four seconds from the entrance to that property. And, you know, my fear is that with my kids coming with me, my kids coming up and down, that these events where you'll have cars entering that property, particularly cars that may be backed up onto Harford Road, there's not going to be enough time to, at forty miles an hour, I don't know how someone is going to stop in time if cars are literally stopped on Harford Road trying to enter that property.

I also had an experience on, I believe it was on, on September 14th. If you don't mind I just want to refer to the, yeah, on September 14th of this past year, I was traveling south from the circle and when I got to the entrance of Bonaparte, car, a car two cars ahead sort of started to slow, hesitated,

put the brakes on, which we, almost as if they didn't, weren't sure that that was where they wanted to go. And we're all traveling at, you know, from the circle, we're up, up to thirty-five, forty miles an hour now. The, the car then started to proceed, a car came around the corner on the northbound direction, which only gave this person a certain amount of time, so rather than try to make it, they, they came to an abrupt stop halfway in the southbound lane, halfway in the northbound lane and fortunately, we had enough following distance that we were all able to stop in time and avert a collision. But it was, it, it was scary, it was frightening to say the least.

So, that's my concern about the road there is that, and this, this was not on a day when there was an event, where there were, you know, where there may have been a lot of traffic going in and out of the site. This was a, a single vehicle trying to turn left into the property.

MR. HOLZER: Okay. Have you experienced anything else of an unusual nature on, on the site, at that intersection of the entrance way and, and the road?

MR. MORGAN: I, I noticed yesterday on the way home that there's now a, a bumper or some piece of an automobile that wasn't there before that's laying in the ditch just above the driveway entrance to Bona, to Bonaparte on their side. So, there's, there's --

CHAIR: And you say just above, heading in what direction, it's on your side?

MR. MORGAN: I'm heading, I'm heading north. The Bonaparte entry is to my right.

CHAIR: Right.

MR. MORGAN: I've passed the, I'm, I'm just past the driveway to the entry to Bonaparte and laying in the ditch there is a, a bumper or bumper cover or something that's, that's, I --

CHAIR: Do you know where the driveway is after the Bonaparte driveway?

MR. MORGAN: Do I know whose driveway?

CHAIR: No, no. Do you know it, do you know that there is a driveway some distance past --

MR. MORGAN: Yes, this is in between Palmer's, this is in between Dave Palmer's driveway and the Bonaparte driveway.

CHAIR: Thank you, that's what I was trying to clarify.

MR. MORGAN: Yes, yeah. Yeah, it's, it's in the ditch right, just north of the driveway.

CHAIR: It's in between two driveways?

MR. MORGAN: Yeah, there's, there's two entrances but there's no ravine in between. There must be a pipe or something there, but then there's a ditch to the north of the

northern entrance and it, and it's, the material was laying in the, which is fairly new, I don't know, in the last day or two.

MR. HOLZER: Okay. Is there anything else you would like to address in regard to the traffic or the nature of the road, etcetera?

MR. MORGAN: Just that it, you know, in my experience in driving and, again, I'm not a traffic expert but in my experience of driving the, the metropolitan area, that, that is without a doubt to me, one of the most dangerous sections of roadway anywhere and I, I don't remember any other place where I've seen as many cut, just happened upon as many collisions as I've seen at that location.

MR. HOLZER: And you said you, I think you said you testified that you drive about thirty-five thousand miles per year?

MR. MORGAN: Thirty-five thousand plus, yes.

MR. HOLZER: Wow.

CHAIR: I believe the testimony is thirty-five to forty thousand.

MR. HOLZER: Okay and is that, is your traveling experience all over Baltimore County?

MR. MORGAN: Over the entire Baltimore metropolitan area, all the surrounding counties and that, yes.

MR. HOLZER: Okay, all right. I just wanted to put it in perspective what, how you drew your conclusion that this

was a dangerous area. Okay. As a result of your taking the position that you have, have you received any responses or feedback from the other side that were directed to you?

MR. MORGAN: Well, I, I, I received responses from, from folks that I believe were in favor. I don't know when you say the other side, I, I --

MR. HOLZER: That's what I meant.

MR. MORGAN: Okay.

MR. HOLZER: People who were supporting the request, the Petitioners.

MR. MORGAN: I, I had, on Nextdoor, and I had posted some opinions on Nextdoor, and I got a response from Hindu Buddha Temple, which I believe was representative of the, the, the, the establishment group itself. I think that, that, that particular site got pulled down and because they had to be individuals. I think you, you have to be a named, you, you have to have a name, a Bruce Morgan can do it but I think a group, Nextdoor doesn't want a group, they want individuals to, to do it but back the, back then there was a response to me--

CHAIR: Are you reading something, sir?

MR. MORGAN: I have copies.

CHAIR: Then please show Mr. Schmidt before you start reading.

MR. HOLZER: Okay, I'll get them.

CHAIR: And before you pickup your testimony, let Mr.

Schmidt have the opportunity to review.

MR. MORGAN: Yes, um hm.

CHAIR: Are there additional copies for the Board?

MR. MORGAN: There, there are.

CHAIR: We will mark this as fifty for identification at the moment. Does that work for you?

VOICE: (inaudible).

CHAIR: So, we've been handed, just for the record, three pages, the first page being stapled to the other two and folded in half, which, well, we'll have that identified in a second.

MR. HOLZER: Yes.

CHAIR: Mr. Schmidt, before, I already see you shaking your head. Let's identify it for the record what it is and then if you have an objection, you certainly can insert your objection. Mr. Morgan, the limited question at the moment is, what is, what was just handed up to the Board and to Mr. Schmidt?

MR. MORGAN: They're, they're excerpts from Nextdoor Kingsville.

CHAIR: Okay.

MR. MORGAN: These are postings from --

CHAIR: Page one, is that you (inaudible)?

MR. MORGAN: The, the one on top?

CHAIR: Yes.

MR. MORGAN: Is from me.

CHAIR: To whom?

MR. MORGAN: To Kris.

CHAIR: And do you know who Kris is?

MR. MORGAN: I, I, I don't know if it's Kris Ghimire or whether there, I believe there's another Kris that's also--

CHAIR: Very well. Page two, which is a full page,--

MR. MORGAN: Yes, sir.

CHAIR: -- my copy has orange highlight, Mr. Schmidt, does yours?

MR. SCHMIDT: Yes, sir.

CHAIR: Okay. What is page two?

MR. MORGAN: Page two is a post from the Hindu Buddha Temple. It's also from Nextdoor Kingsville.

CHAIR: Okay. So, it's different, it's not a response to your first one on page one, it's a different response, correct?

MR. MORGAN: It, it is a different res, it's not the same response.

CHAIR: Right, it's not the same, right, back and forth, it's a different --

MR. MORGAN: It, it is, it, it's in the same, it was in the same threat, it was in the same conversation on Nextdoor, yes.

CHAIR: Okay, I got it now. And then what is page

three?

MR. MORGAN: Page three, oh, that was just a map that showed the Bonaparte site, it showed Ida Twining's house and my house.

CHAIR: So, I mean, correct me if I'm wrong, page three, does that, is that associated with pages one and two in Exhibit 50?

MR. MORGAN: Only in, in the respect that I, I, if I might, it was in respect to in answering this --

CHAIR: Okay, we can stop there.

MR. MORGAN: Okay.

CHAIR: It does relate to, to the (inaudible) --

MR. MORGAN: I, I believe so.

CHAIR: Okay. Mr. Schmidt?

MR. SCHMIDT: Mr., Mr., Mr. Garber, I, I don't know what this is trying to prove or assert as it relates to the question that the Board is going to answer, which is whether the special exception should be granted. I, I understand this is an administrative body and you're not bound by the rules of evidence. We, we don't even know who, he said, I mean, we don't even know who wrote the, the one thing.

CHAIR: Well, I guess if you just tell me what your objections are.

MR. SCHMIDT: Hindu, Hindu Buddha Temple, is that my, is that alleged to be my client? I mean, that's not the name

of my client. There's no --

CHAIR: Let's stop there. What are, what are your specific objections? That is, we don't know who the author is?

MR. SCHMIDT: There's, there's no, there's no foundation for this document in terms of who, other than Mr. Morgan acknowledging that he wrote the stapled page, we don't even know who wrote the page below it. It's not signed, it's not signed by the Nepali Cultural Center, it says Hindu Buddha Temple. There's no, he's indicated in his response that there are a couple of Kris' and he doesn't know which one it is. So, I would generally say there's no foundation for the document, number one.

Secondly, I don't think the document has any relevance to it. It's, as I've read it, it doesn't talk about the impacts of the temple on the surrounding locale but it's some sniping back and forth as to whether people should do that --

CHAIR: Yeah, well, we, without the characterization, you're objecting on the basis of lack of foundation and relevance.

MR. SCHMIDT: And relevance, yes, sir.

CHAIR: Okay. Mr. Holzer, do you wish to respond to the objections?

MR. HOLZER: No.

CHAIR: Okay. I do need to ask a question. What is

this being used for? What is the proffer?

MR. HOLZER: I, I can, if I can be --

CHAIR: Well, I'm asking you for a proffer here as to what this is being used for?

MR. HOLZER: It's being used to show that, that some, the neighbors have been intimidated to some extent or suggested that they not be able to testify before this Board because they either don't live close enough or they have a racial or religious angst in regards to these people. And I think Mr. Morgan is here to testify that he has none of those. He has no racial, no religious objection to them. It's, it's only a land use issue that he's trying to raise and, and participate in.

CHAIR: Okay. Well, let's, how about we, here's where I think this falls. The problem is how you tie this, again, back to the association. I do see, or the Petitioner, excuse me. I do see it says, at least in one part on page two, I am one of the representatives of NACC but we don't know who that is and we don't even know if they actually are. So, leaving that aside, can't you ask your questions independent of this? That is, does he have any --

MR. HOLZER: Yeah, sure.

CHAIR: -- I mean, this way, this way the questions, and there aren't many that would come with the admission of, of Protestant's Exhibit 50 because we don't know who responded or anything to a degree --

MR. HOLZER: Right.

CHAIR: -- we don't even know where they live as well in relation to this.

MR. HOLZER: I can certainly ask him what his concerns are about his ability to testify. It's that simple.

CHAIR: Okay. With that in mind, for the moment, this is not admitted, this is i.d. only. But you can, you may ask your questions.

MR. HOLZER: Mr. Morgan --

MR. SCHMIDT: What number has this been marked as?

CHAIR: Fifty.

MR. SCHMIDT: Fifty, thank you.

CHAIR: It is not in evidence, it is i.d. only.

MR. SCHMIDT: Right.

CHAIR: And again, for those of you who just came in, please make sure your cell phones are off. Sorry, Mr. Holzer, you may continue.

MR. HOLZER: Okay. Mr. Morgan, I mean, I think you brought this as, as some way of being able to introduce your own testimony about your own concerns and what your concerns are related to this, this zoning request. Why don't you just tell the Board what your feelings are in regard to that? We don't need what somebody said that you're a racist or you don't know what you're talking about or you live too far away. Why don't you just address the, your concerns and your feelings

about getting stuff like this?

MR. MORGAN: Well, I, I --

MR. SCHMIDT: Objection. I just don't see the relevance of any of this. If he wants to testify about his concerns about the proj, the project, he can certainly do that. But this is, is this an allegation that he's been intimidated not to testify? Is that what you're saying, Mr. Holzer?

MR. HOLZER: Yeah, (inaudible).

CHAIR: Hold on, hold on. First of all, hold on, everyone. You know, you don't direct questions to Mr. Holzer during the course of the objection.

MR. SCHMIDT: I'm sorry, Mr. Garber, but --

CHAIR: You state your objection. I understand your objection. Mr. Holzer, do you wish to respond to the objection?

MR. HOLZER: Yes. There has been a, a series of intimidations in this case, not only by the applicants or the Petitioners, but responses by this County and they will be introduced or, and if they're not introduced, they will be documented by proffers. And at the end of this case, the Board will have an opportunity to evaluate what's been going on. But in this particular case, I want to limit his testimony just to him personally and why he is able to articulate why he's there. I never objected to the witnesses being brought by the other side.

CHAIR: If I could stop you there on that point?

MR. HOLZER: Yeah.

CHAIR: The mere fact that you didn't object to that happening does not make it less objectionable for Mr. Schmidt as to whether or not --

MR. HOLZER: (inaudible).

CHAIR: -- as to whether or not they are objections that will be sustained, they're, they're all individual factually, you know, dependent matters --

MR. HOLZER: I understand that.

CHAIR: -- so one does not depend on the other, but the fact that you didn't object before, which maybe actually the right call, the right course of action to not have objected because there wasn't a particular point of relevance or materiality for this Board to consider, I understand that, but that does not mean that one is equal to the other in any context or in any way, shape or form. They're not related. So, as to Mr. Morgan, if Mr. Morgan has a particular concern, you've identified the concerns as to what you have with the proposed use. Did you have, I guess the question is, did you have concerns as to your, voicing your opinions as to how this property should be used? Is that fair?

MR. HOLZER: Yes, that's a fair question.

MR. MORGAN: Yes.

CHAIR: Okay. What are those concerns?

MR. MORGAN: Well, I, I think that, maybe intimidation was, is too strong of a point, to a strong of a, of a description. But certainly someone who, like me, who is voicing a valid opinion online in a conversation with people who are in, in support of the project, and then to have someone say well, that I'm not entitled to an opinion, you know, I, I think it is intimidating to, to have that. And have it directed directly at me saying that I'm spreading lies, you know, some inference that I may be racist in some way. I don't like being called a liar, I don't like being called a racist because I'm neither of those.

CHAIR: Okay. Mr. Holzer, does that satisfy then what you're trying to elicit from this witness?

MR. HOLZER: Yes. Were you, in fact, ever called a, one of those names?

CHAIR: Sir, did that preclude you from being here today, being those names? Did you have hesitation in any way, shape or form?

MR. MORGAN: Did I hes, do I hesitate to be here?

CHAIR: Yes.

MR. MORGAN: Did I hesitate to be here?

CHAIR: Does it cause you any hesitation to be here to present your testimony?

MR. MORGAN: I, I, no, because I was determined.

CHAIR: Mr. Holzer?

MR. HOLZER: Is there anything else that you need to testify before the Board that relates to the land use issue only in regard to any of the criteria of 502.1 the zoning, etcetera?

MR. MORGAN: An opinion, an, an opinion that, looking at 502.1 and the, the limitations therein, it seems that the, the, the behavior that has occurred on the property to date seems to be contrary to the welfare and the safety of the people in the area.

MR. SCHMIDT: Objection and move to strike. I don't think he can offer comments and ex, what, what I would consider to be expert opinion as to Section 502.1 of the Baltimore County zoning regulations unless he's qualified as an expert with some special knowledge of the zoning regulations.

CHAIR: I believe that he's testifying as a lay person. I don't think he's being offered as an expert witness testimony. He's offering his interpretation of 502.1. It was never going to be received as expert testimony. Sir, so do I understand your testimony then to be that the behavior, the, to be clear, it was summarized to you by others in virtue of the letter and the, and the meetings you attended --

MR. MORGAN: That's, that's correct.

CHAIR: -- that that behavior as described to you seems inconsistent or contrary to 502, the factors of 502.1 based on your understanding of those factors?

MR. MORGAN: Yes, sir.

MR. HOLZER: Thank you.

CHAIR: Sure.

MR. HOLZER: You have any other --

CHAIR: So, the objection will be overruled and understood that the evidence will be received on the basis that he is a lay witness, not an expert witness, on those factors and the application of the Baltimore County zoning regulations.

MR. HOLZER: Thank you. Is there anything else that you'd like to present to the Board?

MR. MORGAN: I, I, no, no, sir.

MR. HOLZER: No further questions.

CHAIR: Thank you. Mr. Schmidt?

MR. SCHMIDT: Mr. Morgan, are you a neighbor of this property? Would you consider yourself a neighbor of this property?

MR. MORGAN: To the extent that others have felt they were a neighbor, yes.

MR. SCHMIDT: I'm not asking if others feel they're a neighbor.

MR. MORGAN: Yes.

MR. SCHMIDT: Do you feel you're a neighbor of the property?

MR. MORGAN: Yes, yes, yes.

MR. SCHMIDT: How close do you have to be to a

property to be a neighbor in your opinion?

MR. MORGAN: As far away as I am, I believe. I mean, (inaudible) --

MR. SCHMIDT: Okay. So, up, up to three miles would, would be considered a neighbor?

MR. MORGAN: Or, or so. I mean, I, I have to travel past that property as close proximity to my home, yes.

MR. SCHMIDT: Sir, okay. Okay. So, the test of being a neighbor is whether you have to travel close to this property? That's how you determine if you're a neighbor?

MR. HOLZER: Objection.

MR. SCHMIDT: Well, that's what the witness just said.

CHAIR: Hold, hold on one second, hold on. We have an objection. First of all, stand up for your objection so I know that you're objecting. Second, Mr. Schmidt, just wait till the objection comes and you may have an opportunity to respond. Mr., Mr. Holzer?

MR. HOLZER: I just wanted him to have the opportunity to finish the question.

CHAIR: To finish his answer?

MR. HOLZER: Yes, answer to the question.

CHAIR: Okay.

MR. MORGAN: All right, --

CHAIR: Mr. Schmidt, we are jumping on top of one

other. So, Mr. Morgan, please keep clear, let Mr. Schmidt finish his question.

MR. MORGAN: Sure.

CHAIR: Start your answer, Mr. Schmidt, please then start your question when he's finished with his answer. We can all move on. Mr. Schmidt, back to you.

MR. SCHMIDT: I think you said, Mr. Morgan, if I understood it correctly, that you believe you are a neighbor because you drive by here, is that what you said?

MR. MORGAN: Yes. I also said that I feel that I live close enough to be considered a neighbor.

MR. SCHMIDT: Okay, all right. Thank you, sir. You talked about an incident that occurred on September the 14th of 2018 near the subject property.

MR. MORGAN: Yes, sir.

MR. SCHMIDT: And there was a car that stopped suddenly in front of you?

MR. MORGAN: Yes.

MR. SCHMIDT: You drive thirty-five thousand miles a year, is that correct?

MR. MORGAN: Yes.

MR. SCHMIDT: Would you say that, other than this event and the other times that you've driven in 2018, that cars have stopped suddenly in front of you on other occasions?

MR. MORGAN: Yes.

MR. SCHMIDT: Doesn't that pretty much happen to all of us who drive cars almost every day?

MR. MORGAN: I'm sure it does.

MR. SCHMIDT: The car that stopped suddenly, did it turn into this property?

MR. MORGAN: Yes.

MR. SCHMIDT: Okay. Do you know who was driving that car?

MR. MORGAN: I do not.

MR. SCHMIDT: Do you know if it was a member of the group or if it was somebody who was trying to turn around because they were lost or if it was somebody who turned into the wrong driveway? Do you have any idea who that person who was driving that car and where they were going or for what purpose they were --

CHAIR: Well, we're asking multiple questions. But I understand what you're trying to get at. Sir, do you know why that person turned in the driveway?

MR. MORGAN: I do not.

MR. SCHMIDT: Okay. You don't know who that person was?

MR. MORGAN: I do not.

MR. SCHMIDT: Okay. There was no accident that was caused?

MR. MORGAN: No, there was not.

MR. SCHMIDT: Okay, okay. You also testified that, I wrote this down, that you believe it's reasonable on that stretch of road and that stretch of road I'm going to define as the roadway immediately in front of or adjacent nearby the entrance to the Bonaparte, or the Nepali property, to drive forty miles an hour?

MR. MORGAN: Yes, sir, and it's within the speed limit.

MR. SCHMIDT: Well, irrespective of it being within the speed limit, were you here for the testimony of Mr. Collagero?

MR. MORGAN: Yes.

MR. SCHMIDT: Okay. Are, are, are there indeed signs in that proximity which show that there are severe turns in the road, at that proximity?

MR. MORGAN: Yes.

MR. SCHMIDT: And that Mr. Collagero testified that generally people have to slow down to a mucher, much slower speed than the posted speed limit --

MR. MORGAN: Yes.

MR. SCHMIDT: -- because the road is so curve, is --

MR. MORGAN: Yes.

MR. SCHMIDT: -- curved at that location?

MR. MORGAN: Yes.

CHAIR: Hold, hold on, sir. Now you're jumping in on

his question.

MR. MORGAN: Oh, sorry.

CHAIR: Let him, let Mr. Schmidt finish --

MR. MORGAN: I'm sorry.

CHAIR: -- his question.

MR. SCHMIDT: Okay. Would you agree with that?

MR. MORGAN: Yes.

MR. SCHMIDT: Okay. But you think forty miles an hour is reasonable at that location?

MR. MORGAN: Yes.

MR. SCHMIDT: Okay. You said that there were numerous accidents at that location.

MR. MORGAN: That I have seen over the course of years, yes.

MR. SCHMIDT: How many?

MR. MORGAN: I, I don't know.

MR. SCHMIDT: Have you looked at any accident data?

MR. MORGAN: I have not.

MR. SCHMIDT: In, where you live in Kingsville, sir, on Longknoll Way, correct?

MR. MORGAN: Yes.

MR. SCHMIDT: And do you work out of an office?

MR. MORGAN: Yes.

MR. SCHMIDT: And where's your office?

MR. MORGAN: Cockeysville.

MR. SCHMIDT: And when you drive from Longview Way to Cockeysville, do you go in front of the property?

MR. MORGAN: Yes.

MR. SCHMIDT: Is that your commute?

MR. MORGAN: Yes.

MR. SCHMIDT: Okay. So, you drive in front of this property twice a day, once going to work and once coming home from work?

MR. MORGAN: No, no.

MR. SCHMIDT: No?

MR. MORGAN: I, I usually drive four times during the day. I drive in twice and back twice in the course of the day.

MR. SCHMIDT: You go home for lunch or something?

MR. MORGAN: Yeah, sometimes, I always stop at home during the day.

MR. SCHMIDT: Okay. What do you do, sir? Do you still do pest control?

MR. MORGAN: Yes, yes.

MR. SCHMIDT: Okay. Do you drive a passenger vehicle or a?

MR. MORGAN: No, I drive a pickup truck.

MR. SCHMIDT: Okay and who do you work for?

MR. MORGAN: Atlas Exterminate, I own the company.

MR. SCHMIDT: Okay. At, at the time you, you described events occurred, that occurred on the property, on

the Nepali property during your testimony, that you had objection to, I believe, correct?

MR. MORGAN: Yes, yes.

MR. SCHMIDT: At the time of those events, were you aware they were going on?

MR. MORGAN: No.

MR. SCHMIDT: You didn't hear anything?

MR. MORGAN: No.

MR. SCHMIDT: You didn't see any traffic on those days?

MR. MORGAN: No.

MR. SCHMIDT: Okay. So, they didn't personally impact you?

MR. MORGAN: No.

MR. SCHMIDT: At the time they occurred?

MR. MORGAN: No, they did not.

MR. SCHMIDT: Okay. You also, I, I think you said, I just was trying to write it down so I want to make sure I got your testimony correctly. That, that your, your real concern here is the precedent that could be established if this approval was granted, particularly as it relates to the, I'm sorry, I forgot the name, Langfelder?

MR. MORGAN: Langenfelder.

MR. SCHMIDT: Langenfelder property? Okay and the Langenfelder property, can you tell the Board a little more,

what is the Langenfelder property in terms of how big is it and what's on the property, what improvements?

MR. MORGAN: I, I think it's six or eight acres. There's a large historic mansion there.

MR. SCHMIDT: Is it occupied at the present time?

MR. MORGAN: It's for sale, it's unoccupied and for sale right now.

MR. SCHMIDT: Okay and how has it been used?

MR. MORGAN: As a single family residence.

MR. SCHMIDT: Okay. Do you know what the zoning of that property is?

MR. MORGAN: I think it's RC-7, I, I think.

MR. SCHMIDT: You think.

MR. MORGAN: I think it's RC-7.

MR. SCHMIDT: Okay. Is there, to the best you know, any type of religious building that's proposed on that property?

MR. MORGAN: No, I am not aware of that.

MR. SCHMIDT: Okay. So, your concern is that that property could also be developed as a religious building, a church or a temple or a synagogue or some religious type of activity if this property obtains similar approval?

MR. MORGAN: I, I, if I could? I think that if this were approved --

MR. SCHMIDT: This being the Nepali project?

MR. MORGAN: The Nepali, that that could extend to not just Langenfelder, it could extend to other properties in, in residential areas, yes.

MR. SCHMIDT: Okay. Okay and that would, that would be, since you admittedly are not close enough to hear any activity on the Nepali property, correct?

MR. MORGAN: Right.

MR. SCHMIDT: And in terms of traffic, the impact on you is when you would be driving by as opposed to a backup of traffic from reaching your street, is that fair to say?

MR. MORGAN: No, that's correct, and my family.

MR. SCHMIDT: And your family as well.

MR. MORGAN: My family, which, which travels that area frequently.

MR. SCHMIDT: Okay. All right and since you don't have any direct impacts, if I use, trying to choose my words carefully, of the proposed use (inaudible) three miles away, the concern that you have is more the precedent that could be established for the Langenfelder or other properties?

MR. MORGAN: And, and the traffic.

MR. SCHMIDT: You ever been in any traffic accidents in your years of driving?

MR. HOLZER: Objection. What's the relevance of that?

CHAIR: Please stand up when you object.

MR. HOLZER: I'm sorry. Objection. What's the relevance of that?

CHAIR: Mr. Schmidt? I would have the same question.

MR. SCHMIDT: The, the, the witness made an inference, not an inference, but suggested that because there are, because there have been accidents at this prop, in, in this proximity, that it is, I, I don't, trying to look at his exact words, that it was inherently a dangerous section of road.

CHAIR: He did say it would be a dangerous area, something to that effect.

MR. SCHMIDT: Something to that effect. And I'm just trying to establish whether every place that has accidents is a inherently dangerous place because there are accidents there, which seems to be the basis of his opinion.

CHAIR: Well, it is cross examination. I mean, I don't know how much utility you'll get out of that line of questioning, but it is cross examination. There is a suggestion that he travels thirty-five to forty thousand miles a year, that he is, by way of comparison, compared to other areas, the general Baltimore regional area, in terms of its, as he considered it to be a dangerous area. So, to some extent, I can see the purpose of the question, the relevance of the question being directed to this witness to so, Mr. Schmidt, you may --

MR. SCHMIDT: I'll tell you what, I'll withdraw the question, make it easy.

CHAIR: Well, then we don't have any problem.

MR. SCHMIDT: Mr. Morgan, you also testified about a bumper or a bumper cover that you observed in a ditch near the entrance to the Bonaparte, Nepali property, correct?

MR. MORGAN: Yes.

MR. SCHMIDT: Did you, when you saw that, did you stop and look at it?

MR. MORGAN: No, no.

MR. SCHMIDT: Okay. Do you know what, what it was exactly? Do you know what kind of vehicle it came from?

MR. MORGAN: I do not, it just appears to be a cover, either a bumper cover or a, or a bumper.

MR. SCHMIDT: Okay. Do you have any idea how it got there?

MR. MORGAN: I do not.

MR. SCHMIDT: So, somebody who was disposing, who was disposing of it could have been driving by and thrown it out the window of their vehicle and landed in the ditch is possible?

MR. MORGAN: I guess anything is possible.

MR. HOLZER: Objection.

CHAIR: Hold on, again, stand up when you're objecting, Mr. Holzer.

MR. HOLZER: I'm sorry. I'll withdraw it.

MR. MORGAN: I, I guess anything is possible.

MR. SCHMIDT: But you, you just don't have any idea?

MR. MORGAN: No, I don't.

MR. SCHMIDT: Okay. Fair enough. No other questions.

MR. HOLZER: No questions.

CHAIR: Ms. Dopkin?

MS. DOPKIN: I have one question with regarding to what was identified as Protestant's Exhibit 50, including these Nextdoor posts?

MR. MORGAN: Yes.

MS. DOPKIN: Do you have copies of what you posted that provoked this response?

CHAIR: Page two.

MS. DOPKIN: Because it's clearly in response to something that was previously posted by you. I don't --

MR. MORGAN: I, I do not, I do not have copies of that with me. I do not have copies of that with me. I can retrieve that by going back on to Nextdoor --

MS. DOPKIN: I'd just be curious to know what elicited such a strong response and I think it doesn't, this is out of context otherwise, that's all.

MR. MORGAN: I understand.

CHAIR: Just by way of, purposes of the record, at

this time Exhibit 50 is not in evidence but it sounds as if the witness is going to come up with a full, I guess, printout of the initial post and responses then, in response to your question? Is that the understanding?

MS. DOPKIN: I was --

CHAIR: That's your understanding, he's coming up with that for you?

MS. DOPKIN: He has offered to, yes.

CHAIR: Okay.

MR. SCHMIDT: I mean, I didn't ask any questions about it because it was not accepted into evidence.

CHAIR: It's still, it's still not.

MR. SCHMIDT: But I, I, I mean, I, thank you, Ms. Dopkin. I mean, I would agree that it's incomplete. In addition to being no foundation and relevance, which were the grounds I asserted, it, it appears to be a part of a conversation and not the entire conversation.

CHAIR: I think it's evidence rule one, I want to say 106 or something to that effect, 5-106, lack of completeness of the record. So, be that as it may, we're, it doesn't change what we're, where we're at with that particular exhibit at this time. So, but if Mr. Morgan produces that to Mr. Holzer and Mr. Holzer feels that it is worthwhile to explore, than --

MR. HOLZER: I certainly might.

CHAIR: And so, Mr. Holzer, I mean, we can perhaps

then revisit it another time but as for now, I assume there's no re-direct then?

MR. HOLZER: No re-direct.

CHAIR: All right. Thank you, Mr. Morgan, for your time.

MR. MORGAN: Thank you, thank you.

CHAIR: Mr. Holzer?

MR. HOLZER: Mr. Clark.

CHAIR: Are we ready to, because I see we have a stand here, are, are we going to have any presentation or, or not? Do you need time to set up is really the question to you?

VOICE: Yes.

MR. HOLZER: Do we need time to set up?

VOICE: Yes.

MR. HOLZER: Okay.

CHAIR: All right. So, why don't we take a ten minute break. We'll give you, a ten minute break will be sufficient for you to set up, Mr., or Dr. Clark?

VOICE: My time, yes.

CHAIR: Yeah, right, okay.

VOICE: Thank you, sir.

CHAIR: Ten minutes, Mr. Holzer?

MR. HOLZER: Ten is fine.

CHAIR: Okay.

(RECORDING PAUSED – 10:37:10 AM)

(ON RECORD – 10:37:11 AM)

CHAIR: And then now, during this break, Mr. Holzer, if you can, please show Mr. Schmidt the sign in sheets. Make sure that he's satisfied with whatever they are, then we'll hand it to Ms. Cannington to copy and then we can revisit that issue as well. Does that work for you?

MR. HOLZER: Works for me, sir.

CHAIR: Mr. Schmidt?

MR. SCHMIDT: Yes, sir, thank you.

CHAIR: All right, ten minutes. Thank you, all.

(RECORDING PAUSED – 10:37:34 AM)

(ON RECORD – 10:53:03 AM)

CHAIR: Thank you. And we're back on the record. All right. We have Dr. Dewey Clark back on the stand. Sir, --

MR. HOLZER: You want to finish up with Mr. Schmidt, with Mr. Schmidt?

CHAIR: What's that?

MR. HOLZER: And the documents that he --

CHAIR: I apologize. Thank you, Mr. Holzer, very much.

MR. HOLZER: No problem.

CHAIR: Mr. Schmidt?

MR. SCHMIDT: Mr. Garber and members of the panel, I've looked at the, the documents. I mean, I have no real objection to them coming in. The --

CHAIR: I feel like there's about to be a but coming.

MR. SCHMIDT: Well, there is, there is one but. Twofold, on, on the ones that are from January, I'm sorry, let me find the right ones, I apologize. From the folder marked day two, September 6, 2018, the, the sign in sheets are printed with a bunch of e-mail traffic on the back.

CHAIR: So, you --

MR. SCHMIDT: And I don't know what – -

CHAIR: -- right, so, you would object, you would object to --

MR. SCHMIDT: Yeah, I just --

CHAIR: -- what, whatever is on the back, you just want the sign in sheet, so just copy page one, like the one page rather than the double side?

MR. SCHMIDT: Yeah, yeah, because the back's got a bunch of e-mail traffic in it.

MS. DOPKIN: That would seem to indicate that the parties bring them not (inaudible).

CHAIR: Yes, I would, I would agree with that. Mr. Holzer, I assume you don't have a problem with that, if you want the sign in sheets in, that we just copy the page one, that shows the people who are here as opposed to whatever copies that were used?

MR. HOLZER: It was on recycled paper --

CHAIR: It's quite all right. Yes, and --

MR. HOLZER: We'll, we'll straighten that out.

CHAIR: Okay. We're all good with that?

MR. SCHMIDT: I mean, other than the fact that it shows who was here, I, I'm not sure I know what the purpose is but it's not prejudicial.

CHAIR: Okay. So, let's do this. Dr. Clark, that is, Dr. Mary Clark, I see you have all the files there. Are you going to be handing them forward to us? I'll go run it out to Ms. Cannington so she can make the copies and return the originals before we get started.

MR. HOLZER: Can she address your question?

CHAIR: I had a question? You're, go ahead, Dr. Clarke.

DR. CLARK: Excuse me, Mr. Garber. You asked if I was going to hand these to Ms. Cannington?

CHAIR: You want to hand them to Ms. Cannington, that's fine too.

DR. CLARK: And I, I'll explain to her that there's some duplicates in there.

CHAIR: We will, and we will check, you can, you can explain that. Mr. Schmidt, I assume that's fine by you?

MR. SCHMIDT: Sure.

CHAIR: And then before it's actually formally admitted, if you want to then just review again just to be on the safe side we could do that and then that will reserve it in

its entirety.

DR. CLARK: And these are all the copies that I had received from Ms. Cannington or Tammy.

CHAIR: Okay. Thank you, Dr. Clark.

MR. HOLZER: Thanks.

MR. SCHMIDT: Just, and Mr. Garber, just a couple of other loose ends.

CHAIR: Sure.

MR. SCHMIDT: I had, during the break, and I think you mentioned, obviously, that Mr. McComas is here but I thought it might be appropriate for the record. I looked at the Board's rules of practice and procedure and Rule 1-C says after talking about three members of a panel and a chairperson and I quote, during the course of a hearing if any member of the original panel is unable to continue to serve, the chairman shall appoint a member to fill the vacancy, end of quote. And just for the record, so we're clear, I'm assuming that you have made a determination that Ms. Murphy is unable to continue and thus have appointed Mr. McComas. I just think that ought to be in the record.

CHAIR: I appreciate the clarity for the record. That is an accurate assessment. We also discussed this on November 29th as how to best proceed with this.

MR. SCHMIDT: Right.

CHAIR: And we had scheduled four Board members for

this in the event that Ms. Murphy could not continue in light of circumstances. So, she's not able to, able to be part of the Board so on that basis, yes, that is why Mr. McComas is part of this panel now instead of Ms. Murphy and we will not be shifting back to Ms. Murphy for when she may be fully available to serve.

MR. SCHMIDT: Okay. One other thing, just and we can handle it now or later, I did have an opportunity to take a look at --

CHAIR: Yes, thank you. Rule eight papers?

MR. SCHMIDT: -- ex, exhibit, yeah. And I guess I have, as I read, as I read rule eight, and let me turn to it again in the, in the rules of practice and procedure for the Board of Appeals, it indicates as the very first words in this, in the two paragraphs, first two paragraphs. Before any person shall testify on behalf of, and then it goes on to say what rule eight is, is supposed to be.

CHAIR: Um hm.

MR. SCHMIDT: So, I don't know if, is this coming in to support the testimony of an individual? I mean, that was my understanding what the purpose of this is or is this just a letter or a correspondence that, that the Board would get in the mail from a person or an association and put it in their file? Because, I mean, I know Ms. Shaw, or Ms. Shaw I think was here at one, I don't know if she's still here, but I've

seen her testify for the organization but my understanding, again, is that the purpose of, of a rule eight document is to authenticate --

CHAIR: For the witness on the stand.

MR. SCHMIDT: -- the, essentially, authenticate the witness --

CHAIR: The witness is there, right --

MR. SCHMIDT: And we don't have a witness.

CHAIR: That's a very good point. I was anticipating that at some point those two things would match up and I ask Mr. Holzer then, the rule eight paperwork for Greater Kingsville Civic Improvement Association, I assume you're going to be having a witness testify as to their position on the proposed use?

MR. HOLZER: Well, I certainly can. And Ms. Shaw is not here, not here today. She has been here and attended all the hearings so far. I certainly can have her testify. I thought that, under the circumstances, just having this document introduced would save the Board and counsel and everybody else some time.

CHAIR: If I can, are, basically, are you proposing a stipulation that if the proper representative from Greater Kingsville was present here today and they would be authorized by the Greater Kingsville Civic Improvement Association based on Protestant's Exhibit 48 that that person would testify that

they are opposed to the proposed use?

MR. HOLZER: Yes.

CHAIR: On behalf of the Association? Mr. Schmidt, I'll leave it to you as to whether or not you would accept that proposal or that stipulation, that that person would come in to say that they are opposed.

MR. SCHMIDT: I, I'm sure they would, Mr. Garber. And I'm not trying to lengthen this out. I think my fundamental question is whether this property is within the auspices of the Greater Kingsville Community Association. I do not know if it is or not. Obviously, I've heard it described as being Long Green or Glen Arm and other places, not Kingsville and whether it is within Kingsville, which is part of the rule eight, so I can't --

CHAIR: So, your question is a map as to the boundaries of this association.

MR. SCHMIDT: Yeah.

CHAIR: And it's significance then as to the proposed stipulation and testimony.

MR. SCHMIDT: Yeah, I just, I don't know what the boundaries of Greater Kingsville are.

MR. HOLZER: It is included, but if, I don't want to be the one to have to testify that it is. So, if that is the objection, someone will come in and test --

CHAIR: If I, if I can suggest something?

MR. HOLZER: Sure.

CHAIR: Can you provide a map of the boundaries of the Civic Improvement Association, provide it to Mr. Schmidt to see if he would then be satisfied, precluding then, of course, then someone having to appear unnecessarily to do the same thing.

MR. HOLZER: I certainly can try.

CHAIR: Even if you don't get it done by lunch time, I'm not asking that. I'm saying if you could just do so perhaps, because there are a bunch of people here today, that perhaps someone can make an effort to try to get that map so that we can get that issue resolved and then, therefore, you don't have to worry about having someone come. Because it seems to me if that person would come in to say that Greater Kingsville is opposed, --

MR. HOLZER: That's it, that's what I was trying to (inaudible).

CHAIR: -- and, and if, I think I'm hearing Mr. Schmidt correctly, his only question is, okay, well, what is the basis for them to weigh in on it, the point, that is are, is it within or adjacent or whatever the case may be, what is the relationship of Greater Kingsville Association here to the subject property. So, I think that's a fair question. So, therefore, if you could just work on getting the boundaries to us.

MR. HOLZER: I'll try.

CHAIR: Then we can see if Mr. Schmidt is satisfied and obviously you would still have the ability to call someone if necessary but that's the way to get around that problem.

MR. HOLZER: No problem.

CHAIR: So, would that be satisfactory, Mr. Schmidt?

MR. SCHMIDT: I, yes, sir, I believe, I believe so.

CHAIR: Would that answer your question if there is a map --

MR. SCHMIDT: Certainly, it would, it would answer it as to that. I guess the only thing I would answer, I'm not trying to be difficult, but I'm just looking at the document and apparently this was a vote, and Mr. Holzer might be able to produce minutes or something like that, of the board as opposed to the entire general membership of the organization and I don't know who the board is. And maybe that's something, if there are minutes, as to who was there. That might be appropriate as well.

CHAIR: So, you would like a copy of the meeting minutes and/or identification of who the board is, as part of it?

MR. SCHMIDT: Yes.

CHAIR: Is that what's required under rule eight?

MR. SCHMIDT: Well, it says --

CHAIR: And I don't have rule eight in front of me so

forgive me if I don't have encyclopedic knowledge of it.

MR. SCHMIDT: Yeah, sure. It says the personal shall show that he has accurate knowledge and the number of members in the association and the geographic limits, which I think goes to the geographic limits.

CHAIR: Okay.

MR. SCHMIDT: And then it goes on to say, --

MR. HOLZER: I, I'm going to go ahead and call someone.

CHAIR: Hold, hold, let, hold, hold on. Mr. Holzer, wait one second.

MR. HOLZER: I'm --

CHAIR: Mr. Schmidt is, Mr. Schmidt is articulating what his questions are. And then I promise you you will have the ability to respond.

MR. HOLZER: I don't --

CHAIR: Mr. Schmidt, go ahead.

MR. SCHMIDT: So, I think that goes as to the limits of the association and as I generally rule eight, obviously --

CHAIR: Yeah, I, I recall that now, that yes, there should be an identification of the number of members or the person's knowledge of the number of members.

MR. SCHMIDT: And it, it does not require minutes but it just says that they're authorized to speak and present views of the civil association.

CHAIR: Well, I, I believe that that's what the paperwork does --

MR. SCHMIDT: Yes, sir.

CHAIR: -- identify, even if it's not full in terms of identifying the boundaries and the, and the members.

MR. SCHMIDT: So, I think it's just a question of their geographic limits.

CHAIR: Same, so hearing that, Mr. --

MR. HOLZER: I'm calling a witness.

CHAIR: Okay. Mr. Holzer, again, I'm just trying to figure out a way to, to prevent someone to come in unnecessarily. If you feel it's best for you to call someone, so be it, we can all move on and we get to Mr., or to Dr. Clark's testimony.

MR. HOLZER: I have a, I, I'm sorry.

CHAIR: Yes, to answer your question, Ms. Dopkin, yes.

MR. HOLZER: I have a comment or statement or position that I want to put on the record now.

CHAIR: Okay.

MR. HOLZER: The history of this case is certainly cre, has created certain difficulties. Obviously, a member of this Board for appropriate reasons was not able to sit and continue based on Mr. Garber's testimony or his comments. The last hearing date in which testimony was received was day six,

--

CHAIR: November 1st.

MR. HOLZER: -- November the 1st, and today is day eight, January 29th. That time period is what has called a delay in the continuation of this case. Day seven, in case the record wants to know, was no evidence was taken and just a procedural comments in regard to how we're going to proceed to present the rest of the case.

CHAIR: It was to resolve the objections to --

MR. HOLZER: Yes.

CHAIR: -- to the video --

MR. HOLZER: Right.

CHAIR: -- and to figure out a best way forward for that evidence in light of the volume of evidence.

MR. HOLZER: That's correct, that's correct.

CHAIR: That was at stake. And to also give Mr. Schmidt the opportunity to review it, given these, the substantial volume.

MR. HOLZER: And as a result of that, the Board has indicated this morning that February the 13th will be the last day for any testimony or presentation. I don't know whether it's the last day for any briefs to be filed, but it's certainly the last day for presentation of evi, any evidence.

I object to that limitation in terms of February 13th being the last day on the basis of a violation of Protestant's

due process. It is not our, it was not our fault that it, and I don't really want to use the word fault, because when, when a member of the Board has a problem, that's, and a legitimate problem in this case, then I believe I can understand and so there's no aspersion being cast on the Board.

But I believe it is improper for the Board to limit any further evidence to February 13th --

CHAIR: If I could interject real quick to make it easy for you?

MR. HOLZER: Well, could I just, I can, I can finish --

CHAIR: Because I think it may short circuit some of what's going on. I'm not suggesting that February 13th is an absolute drop dead we're not taking evidence after February 13th. It's an aspirational goal in light of the fact that we have Board members whose terms expire in April. And if we wrap it up by February 13th, it gives us the ability to have the memos put in, the deliberation and ability to write an opinion, have it out before the expiration of that term. Because if that term expires, and there's a new Board member that will be on the, that will take place, there, this panel will again need to appoint yet another new Board member to this panel to review all the evidence.

So, it is in our best interests, to the extent we possibly can, get it to February 13th, at the absolute last,

great. If, by whatever reason that's not feasible, it is, then we will have to figure out additional dates. However, having said that, keep in mind that as the November 29th date, the issue as to Ms. Murphy's participation on this panel, that was an event that arose close in time to that already scheduled date.

MR. HOLZER: Yes, I know.

CHAIR: We did not have dates scheduled after that as of yet, and then when asked of counsel for mutual availability, these were the dates selected as mutually available for counsel. So, this is not a matter of a delay on behalf of the Board beyond just asking everybody when are you guys all available. My suggestion was to just start scheduling it in early January and we all clear our schedules to figure out how to be here as early as possible. Unfortunately, that was not within the cards due to conflicts. So, that's why we're here and that's why the schedule is what it is.

I understand that there has been a, a, a delay. The delay is actually not, in my opinion, related to Ms. Murphy's, the prompted, that prompted Mr. McComas' replacement of Ms. Murphy as much as scheduling among counsel and the, involved in this case. So, I hope you understand that my February 13th admonition earlier is really maybe just a restatement of a, of an aspirational goal, not an absolute deadline. It is not meant to preclude you from putting on your case.

MR. HOLZER: Well, thank you, because that did begin to concern me based upon how long it's been taking just to go through one simple witness this morning and, and as a result of that, we are now heading in to a more difficult presentation, as you, as the Board knows from the last time, when Mr. Clark was on in regard to showing videos, etcetera.

So, I, I just wanted to protect the record. I wanted to protect the record that, that if, in fact, February 13th was, was being called the last day and we hadn't finished our presentation for whatever reason, then I just wanted it on the record because this case, obviously, as the Board can understand, there, the record is going to have to be very clear on what's been going on.

CHAIR: And I should also mention too that we asked the parties as to how many more days were, were necessary to be scheduled for this case. We were told three, three were scheduled but then we scheduled a fourth just in case there was a problem. That if snow, ice, whatever else would go on, would limit one other of those three days, then at least we had a backup plan. What I'm hearing from you today is there's a possibility that your case may extend out another day and perhaps beyond.

MR. HOLZER: Oh, there's no doubt. Not the way, not the way the objections are going so far. But that's all I really wanted to say.

CHAIR: Right.

MR. HOLZER: I wanted to protect the record in, in the event, you've explained the Board's position, which I appreciate and I, I think you're accurate in what you said with regard to the history and how the process evolved.

If I can get off of that, I want to make a preliminary statement in regard to the testimony of Mr. Clark.

CHAIR: Well, please hold on. Keep in mind, Mr. Clark is still under oath. His testimony is still active and so any statement you are about to say you need to be sensitive to the fact that he is a witness who is on the stand.

MR. HOLZER: Yeah.

CHAIR: And, you know, obviously, though I understand --

MR. HOLZER: I'm talking to the Board not to him, in terms of --

CHAIR: Okay.

MR. HOLZER: -- of the merits. At the last hearing, day seven, the Board and Ms. Dopkin asked if we could go back and try to simply, clarify the presentation of various videos because, as you will recall, at least two members will recall, the, there were a lot of questions about where this video was coming from, how it was done, all sorts of, all sorts of questions. So, at the last hearing, I asked the Board if I have permission to address and to talk to Mr. Clark in order to

do the things that the Board wanted us to do.

CHAIR: I recall.

MR. HOLZER: And, and, and I have done that. As a result, and I told Mr. Schmidt this earlier this morning, the, as a result, we have reduced the number of videos. We have also, because the last time we had to put, you may remember the big disc that we had, we had to put that in and then draw up on that disc the video that was going to be two minutes or, or thereabouts in order to find it. And that took time.

CHAIR: Understood.

MR. HOLZER: So, what I have asked Mr. Clark to do is to, is to consolidate the videos that he wants to use in, in his, in his testimony, eliminate the ones that are duplicitous or not necessary at this point and then take those videos off of the CD's and put them on a, what do you call these little things that you stick in?

CHAIR: Thumb drive?

MR. HOLZER: Thumb drive. I have real trouble with computers and stuff. Put them on the thumb drive. On the thumb drive, it will refer to the disc that have already been introduced in terms, that you have knowledge of. So, it's not like we're coming in with anything new. What we're doing is we're taking them off of the big disc, putting them on the thumb drive so it can easily be retrieved and, and shown. And I thought making this statement about the process would assist

the Board and also Mr. Schmidt and also help ease our way through (inaudible).

CHAIR: I appreciate you doing that because yes, I do feel that that is a good foundation to explain what is going on.

MR. HOLZER: Right.

CHAIR: Why we're seeing what we're seeing and, and how this came to be.

MR. HOLZER: Yeah.

CHAIR: Thank you for doing that. Mr. Schmidt, do you under, did you understand what Mr. Holder had to say?

MR. SCHMIDT: Yes, sir.

CHAIR: Okay and I assume that does not cause you any problem?

MR. SCHMIDT: No, sir, not at this point.

CHAIR: Okay. So, Mr. Holzer.

MR. HOLZER: Not at this point, okay. I'm going to ask Mr. Clark in my beginning questions to layout exactly what he did so I don't want it, my testimony being the one that's the basis for this. I --

CHAIR: But your proffer, but you just proffered what he did.

MR. HOLZER: Yeah.

CHAIR: And so, I would just say, since Mr. Schmidt does not have a problem with your proffer, if you ask him

simply, did I summarize that accurately as to the process by which we came up with this thumb drive? That we don't have yet. Then maybe that resolves that entire point, we could just move straight to the substantive aspects.

MR. HOLZER: I'll try, I'll certainly try to do that and looking at him I'm seeing snow coming down on the outside, which it must have just started. Okay. Can I now ask questions on the record?

CHAIR: Yes, yes, well, hold on. We have to do Ms. Dopkin first and then.

MS. DOPKIN: Please stand up, do you swear, up.

MR. CLARK: Sorry.

MS. DOPKIN: And affirm under the penalties of perjury, that the testimony you are about to give is true and correct to the best of your knowledge and belief?

MR. CLARK: I do.

MS. DOPKIN: And just for the record, restate your name, please.

MR. CLARK: DeWitt S. Clark.

MS. DOPKIN: Thank you.

MR. HOLZER: Mr. Clark, you've now heard me make a proffer to the Chairman and the Board as to what you've done since the last hearing date when you were on the stand and we were presenting the beginning part of your testimony, you understand that? Okay. You have to answer yes or no.

MR. CLARK: Yes, yes, I understand what, what you're asking.

MR. HOLZER: Okay. Without regurgitating everything I said, can you simply say in a couple words what we're about to experience based on what I just said.

MR. CLARK: Okay. You kinda sorta got it right.

MR. HOLZER: Okay.

MR. CLARK: Yes, we reduced everything. Some are reduced to screen shots, okay? We have produced a, what I call a video control sheet, which will show each of the videos we're going to show, the length of time, where it is on those discs that, the disc library, okay? And then we have for purposes of authentication, what I called an annotation sheet, which has, I believe it's A through J, which gives the specific URL's from which those videos were drawn.

MR. HOLZER: What are URL's?

MR. CLARK: Resource --

CHAIR: They're basically the, the addresses you type in on a browser --

MR. CLARK: The, the, the web address, yeah.

CHAIR: -- to pull up a website or --

MR. CLARK: Right.

CHAIR: Right.

MR. CLARK: Right. All of them were, were produced by Petitioner and I copied them off of face page, Facebook

pages, that they themselves published.

CHAIR: When you say they themselves, you're saying the Petitioner or members --

MR. CLARK: Petitioner.

CHAIR: -- for the Petitioner, or members, whatever the (inaudible) --

MR. CLARK: I don't know who Ed Nepalese is but he was very active.

CHAIR: All right, so --

MR. CLARK: All right. So, now, now, there, there was, there was another issue that came up.

CHAIR: Okay.

MR. CLARK: Some, particularly those that were on Dr. Clarke's page have been taken down, okay?

CHAIR: Since, we --

MR. CLARK: Since, since, since my November testimony, okay? When I first introduced the videos, okay? They, they are noted in, in the sheets. We had a question about, I'm sorry, were you, were you about to ask something, Mr. Garber?

CHAIR: No, I was about to cough, we're good.

MR. CLARK: We, Mr. Garber had, or Mr., Petitioner had a question about sound on, on, on the videos, okay?

CHAIR: If I could jump in on that, what I recall from the ruling was that the sound of the one fundraising event

was not admissible but the video was. The reasoning for that was the sound would not fairly and accurately represent the sound that would be heard by someone like yourself or your wife because it's the remote, more remote distance and the prior testimony describing the sounds that were heard. So, that as what is played in this Court is not the same as what you would have heard.

MR. CLARK: Okay.

CHAIR: That was the, my understanding and my recollection. So, with that in mind.

MR. CLARK: Can I argue with you?

CHAIR: No. You can tell me, you can tell me what you're about to say. I'm just recapping what I --

MR. CLARK: Right, right.

CHAIR: -- recall from the, from the ruling.

MR. CLARK: As I, as I recall, you also said that there may be other pur, purposes, the, the discussion centered around whether or not we could understand what people were speaking, since they were speaking in their native language. And then you posited correctly, in my view, --

CHAIR: Thank you.

MR. CLARK: -- that, that there may be other, that there may be reasons other than understanding what they're saying to introduce the sound.

CHAIR: Okay. So, yes, I do seem to recall that the

issue was, the ruling as to the sound was limited to whether the sound would be the same as what you would hear from your property. That was what the ruling was based on. If there was a different, and then also the language, but then if there's a different purpose for playing the sound then we could revisit that issue.

MR. CLARK: Okay, thank you, sir.

CHAIR: So, yes, I do think that is accurate. Mr. Holzer, is that your understanding?

MR. HOLZER: Yes.

CHAIR: Mr. Schmidt, was that your understanding?

MR. SCHMIDT: Yes, sir.

CHAIR: As to whether or not you may still have objections, that's not before us. Ms. Dopkin, do you recall it the same way?

MS. DOPKIN: Oh, yes.

CHAIR: So, okay. We're all on the same page.

MR. CLARK: Thank you, sir.

CHAIR: All right. Sorry, Mr. McComas, I know you were not part of that but.

MR. CLARK: Okay. Now, I would also point out, Petitioner questioned whether or not the sound, the, the relative volumes were manipulated, either inadvertently through copying or, or, or, or purposefully, okay? I would point out that they've had three months --

CHAIR: Well, hold on, we'll, I'll stop you there because there's already a ruling on that basis, that is the volume itself, whether manipulated or not, the, --

MR. CLARK: Okay. I, --

CHAIR: -- for the purposes of the sound and whether or not that is fairly and accurately portrayed is what you may hear from your, from your house or anywhere else in the surrounding area --

MR. CLARK: Okay.

CHAIR: -- that's already ruled upon --

MR. CLARK: Thank you.

CHAIR: -- whether it's manipulated or not. So it doesn't make a difference.

MR. CLARK: Thank you.

CHAIR: Right. So, I don't, and again, I don't believe Mr. Schmidt was pointing fingers saying this has been manipulated --

MR. CLARK: No, no, he wasn't.

CHAIR: -- or whatever, but I do recall that as part of the November 29th hearing --

MR. CLARK: Correct.

CHAIR: -- so with that in mind, if you have another reason to play the sound, I'm sure Mr. Holzer will try to elicit that from you and we can work our way through that at that point. I hope this doesn't get us bogged down so does, do

we have an accurate description as to what we're about to hear, what we're about to see?

MR. HOLZER: I want to introduce these documents for you so that you can follow.

MR. CLARK: And I will, I will explain them and –

CHAIR: That's fine. So you're, basically you're giving me a road, or giving us a road map.

MR. CLARK: Yes, sir.

CHAIR: To Mr. Schmidt first, please.

MR. HOLZER: The first thing is the video control sheet that was referred to by the witness.

CHAIR: All right. So, this is fifty-one, is it?

MR. MCCOMAS: Yes.

CHAIR: So, this is Protestant's Exhibit 51.

MR. HOLZER: Yes. Do you need a copy of this?

MR. CLARK: Yeah, I probably ought to have a copy.

CHAIR: And then we're calling, I'm sorry, the, Mr. Holzer?

MS. DOPKIN: Video control sheet.

CHAIR: Thank you. Video control sheet. Thank you, Ms. Dopkin.

MR. HOLZER: I think, I think this is (inaudible) and this was fifty-one?

CHAIR: Fifty-one. And Mr. Schmidt, I see you have a copy?

MR. SCHMIDT: Yes, sir.
CHAIR: Yes, I see. Okay.
MR. CLARK: Uh, --
CHAIR: Well, hold on, before you start.
MR. HOLZER: No, no, no.
CHAIR: No, let me ask this. Out of what's been handed up to me and everyone here, I have Protestant's Exhibit 51. How many of these do we know that we've already heard in evidence?
MR. HOLZER: I'll get that from him. I don't, --
MR. CLARK: I, I can answer it.
MR. HOLZER: No, just, if I may --
CHAIR: There's no question pending to you necessarily yet.
MR. HOLZER: (inaudible) the URL's --
CHAIR: You're going that --
MR. HOLZER: -- so that you have the whole package.
CHAIR: That's fine. Okay.
MR. HOLZER: And then he can articulate where we are.
CHAIR: Thank you.
MR. HOLZER: Do you need a copy?
MR. CLARK: Yes, please.
CHAIR: So, what you're about hand, what you're handing him now is Exhibit 52 and that is the URL addresses?
MR. HOLZER: Of evidence sources provided by

Petitioners.

CHAIR: Sort of, video source, sources of the videos.

MR. HOLZER: Yes, correct. And one, two, three, four, and that is, did you say fifty-two?

CHAIR: Fifty-two. Thank you.

MR. HOLZER: If I could refer you back to fifty-one, Exhibit 51, the date introduced on the right hand side of that sheet, are these the ones that are being shown today? Not shown today, have already been shown?

CHAIR: That would make sense considering the date that's identified.

MR. HOLZER: Yes.

CHAIR: Thank you, Dr. Clark.

MR. HOLZER: It's good that somebody keeps me straight.

MR. SCHMIDT: I'm sorry, can you say that again, Mr. Holzer.

CHAIR: The far right column --

MR. HOLZER: The far right column --

MR. SCHMIDT: The ones that have a date, we've already seen on that date?

MR. HOLZER: Exactly.

MR. SCHMIDT: And what we're going to see is the other one, other, other ones?

MR. HOLZER: Some of them.

MR. SCHMIDT: Some of the other ones.

CHAIR: And I seem to recall for the most part there was, all those were admitted with the, I mean, obviously this is, I'm going to rely on the November 29th ruling and the record there.

MR. HOLZER: Right.

CHAIR: But from what I generally recall, most of those were already admitted to, subject to no objection, other than the sound one that we've already identified here.

MR. HOLZER: Right, right.

CHAIR: That's my recollection and, again, the record will speak for itself.

MR. HOLZER: I think you're correct.

CHAIR: So.

MR. HOLZER: Now, Mr. Clark, confine yourself to Exhibit 52 and tell us, you don't have to walk through every one of them, but tell us what all this A through K means and how it relates to your proposed testimony.

MR. CLARK: Okay. Okay. The, this authenticates where the, the, the files came from.

CHAIR: Um hm.

MR. CLARK: Okay? Some of them may still be there, some of them may not be, still be there.

MR. HOLZER: Take, take B, for example.

MR. CLARK: All right, that was on the --

MR. HOLZER: That, that has a date whereas on, --

MR. CLARK: Oh, okay.

MR. HOLZER: -- on A it does not. Explain that for us.

MR. CLARK: Okay. After the slash, those are notations to me, as I, as I documented things. So that A refers to an open house event.

CHAIR: There's no date identified on fifty-two as to the open house event, fair? Is that a fair way to look at it?

MR. CLARK: Wait a minute, on, on, on, on fif, oh, on fif, yes, yes, yes. Although it will be on the control sheet.

CHAIR: Okay. And then by way of illustration, fifty-two, we have it, this, for number, or letter B, a video from what has identified July 4. Now, the July 4 reference, is that the day that you captured or the day of the post --

MR. CLARK: That will be on the control sheet.

CHAIR: Okay.

MR. CLARK: The, the, the, the, the, after the slashes were simply notes to me as I was accumulating the, the, the videos. So that I knew what they were.

CHAIR: Just to be clear, the dates identified on Exhibit 52 do not reflect the date of the event captured but the day that it was captured by you, as opposed to the date of the event that's depicted within the video? Is that fair?

MR. CLARK: I just zoned out.

CHAIR: That's okay. My, these things happen. The July 4, that references when you captured the video or the event depicted in the video?

MR. CLARK: The event.

CHAIR: Thank you. All right.

MR. CLARK: Thank you, sir. Thank you very much.

CHAIR: And I understand that there's a creation date on fifty-one, but for anyone looking at fifty-two in isolation, we would know that that is the event date --

MR. CLARK: Right, right.

CHAIR: Okay.

MR. CLARK: Right, right. Okay.

MR. HOLZER: Now, is there, keep your, keeping on these two documents alone --

MR. CLARK: Um hm.

MR. HOLZER: -- is there anything else that you need to explain?

MR. CLARK: Yeah, there's, there's, there's, there's several.

MR. HOLZER: Okay.

MR. CLARK: All right.

MR. HOLZER: Could you take the next one and address that?

MR. CLARK: Yeah, the, the files names are in the left hand column.

MR. HOLZER: Of fifty-one?

MR. CLARK: Of fifty-one, thank you, sir.

MR. HOLZER: You got to re, always refer to the fifty-one or fifty-two.

MR. CLARK: Okay, okay. Fifty-one, the file names that, that, that we will be, that we will or have introduced are in column one. In column two is the evidence disc. You remember those A-1, A-2, A-3's?

CHAIR: Yes.

MR. CLARK: All right. Now there are some, I believe it's eight, that I have acquired in the last couple months and those are marked as new.

CHAIR: Well, we'll deal with those separately.

MR. CLARK: That's, yes, thank you, sir. Then in the other, then in the next column is the length of the video, not necessarily the length of what we're going to show, but the length the, of the total length of the video. Creation date is the date the video appeared on those websites or the date I created them from dashcam or my, my, my property or whatever. That's the creation date. Posted by, created by, you see a lot of Clarks there.

CHAIR: No, I, I, I get it. So, fifty-two would correspond to where it says see attached note A, the (inaudible) --

MR. CLARK: Correct.

CHAIR: You would find A on Exhibit 52 and so these two documents work together.

MR. CLARK: Right. And then date copied is the date I copied them on, on, and then the date introduced is the date that we introduced them to this body.

CHAIR: Okay. So, now we have the process by which we come up with Exhibits 51 and 52, correct?

MR. HOLZER: Correct.

CHAIR: Okay.

MR. MCCOMAS: I have a question. So, so if I type in this URL for number A, is that DSC6978 (inaudible) --

MR. CLARK: Oh.

MR. MCCOMAS: -- or is that, is it the digits up here that direct me to the actual --

MR. CLARK: Thank, thank you. Yeah, DSC6978 shows the, the --

CHAIR: Hold on. I think his question is where, what is that designation? What is the significance of it? That designation, the significance of it is there, is Protestant's designation on their system or their computers or, and they're on the disc as to the file name. So it is separate from the source material but that's where they have it stored for the, for the, for the purposes of the exhibit.

MR. MCCOMAS: But is the Facebook file the digits here, the --

CHAIR: The last character for the, for the URL address would be the backslash, before it says open house.

MR. CLARK: Correct. Thank you, sir. Yeah, I was trying, I guess I did too many things on one piece of paper, yeah.

CHAIR: All right.

MR. HOLZER: Now, is there anything else related to Exhibit 51 or 52 to understand the process of your testimony and, as it proceeds? Do we need to know anything else so that we can avoid problems?

MR. CLARK: I don't know.

CHAIR: All right. So, let's do this. Looking at the video list in fifty-one and fifty-two.

MR. CLARK: Um hm.

CHAIR: I'm assuming that some of these are targeting certain aspects of your case, the concerns that you may have. So some, for the sake of argument, I anticipate we'll see some video that would concern your noise issues, that is the complaints that has been, have been raised by several witnesses or Protestants of noise, including your wife, Dr. Clark. But she's already testified in full, that's why I reference her, and plus you would have, you would already be familiar because you live at the same address.

MR. CLARK: Understood.

CHAIR: Some may depict other conditions, such as

traffic, correct? So, if we're going to be playing some of these videos, I would request, to the extent you can, what the video is supposed to target. So, this way we know what the relevance is of the particular video that we're about to watch, or whatever snippet and this way it helps Mr. Schmidt follow along as to what am I watching and why.

MR. CLARK: Mr. Garber, there, there, there will be, on some of them, we will be showing just screen shots and saying this is what this video represents, do we, do we, do we need to show the whole, whole video to enter it into evidence.

CHAIR: Okay. Now, out of all the ones that are listed, have we already ruled upon those other than where I see it says date introduced, have there been specific rulings as to the admissibility of some of these? I have to think the answer is yes.

MR. CLARK: Yeah.

CHAIR: It would be helpful to know which ones, because I don't have my trusty sheet here in front of me, at some point which ones have already been admitted so this way it saves Mr. Schmidt time if he was inclined to object again if it's already been resolved.

MR. HOLZER: Yeah.

CHAIR: But we'll deal with that as it comes up since I don't have that readily in front of me at the moment. Is that satisfactory to you, Mr. Schmidt?

MR. SCHMIDT: Yeah, I mean, I, I don't re, off the top of my head remember which ones were shown and all the specific objections. I'll try to be consistent. I did have one other question if I could ask it, just on these sheets?

CHAIR: Yes.

MR. SCHMIDT: Bef, in the column on Protestant's exhibit number fifty-one, that is the column that is titled posted/created by, there are a number of references which says, which say see attached note and then identify a note. Is --

CHAIR: I'm sorry, I thought that that was clear, that that's what refers to the letters on fifty-two.

MR. SCHMIDT: Ah, that's what that is. I just wanted to make sure that was clear.

CHAIR: Yes.

MR. SCHMIDT: Okay, okay.

CHAIR: And the ones that say Clark, I assume, are the ones that he did with his own dashcam.

MR. SCHMIDT: Okay. Very well.

CHAIR: And that's what I understood from the testimony.

MR. SCHMIDT: Okay. I just wanted to verify that, that that's what that was referring to.

CHAIR: Okay.

MR. SCHMIDT: Okay, thank you.

CHAIR: So, with that in mind, Mr. Holzer?

MR. HOLZER: Mr. Clark, is there anything else that rel, that is going to come up that relates to your testimony and the showing of any of these videos or introduction of any of the, any documents?

MR. CLARK: Well, are, are we talking about, we're talking about testimony going forward from here.

MR. HOLZER: Yeah.

MR. CLARK: Including, --

MR. HOLZER: Yes.

MR. CLARK: -- more than these?

MR. HOLZER: Well, yes. In other words, is, are there any documents that you have that are, you want to introduce that are not listed on fifty-one or fifty-two?

MR. CLARK: Oh, yes.

MR. HOLZER: Okay and as we get to those, we will lay the foundation of where we got them and --

MR. CLARK: Correct.

MR. HOLZER: -- intended purpose of introducing them and that would be separate from what's listed on fifty-one and fifty-two.

MR. CLARK: Right and can, can, if, if I can expand on that?

MR. HOLZER: Go ahead, that's why we're trying to do this now.

MR. CLARK: Right. The evidence that, that I'm going

to be producing today and maybe tomorrow have to do, have nothing to do with zoning enforcement, all right? Nothing.

CHAIR: You mean code enforcement?

MR. CLARK: Code enforcement, yes. Thank you, sir.

CHAIR: Just for clarification for the record.

MR. CLARK: Yeah, I, I, I have three attorneys and you to explain to me that this is not --

CHAIR: This is not a code enforcement hearing.

MR. CLARK: That's right. Everything has to do with land use, with, with pass, with the land use over the last year --

CHAIR: Are you, well, let's do this. Are, it sounds to me like you're about to tell me about prior decisions or something to that effect?

MR. CLARK: No.

CHAIR: Is what you, okay --

MR. CLARK: No, no, no, no, no, no, no. It, it all, it will document how they have been using the property, all right? It will document vor, voracity, all right? It will document basically use and voracity phys, and physical use of the property.

CHAIR: Well, we're, we'll cross those bridges when we get there.

MR. CLARK: Okay.

CHAIR: I understand that you may have, from what I

understand is you're talking about maybe potential evidence to show that what has been testified to may not be fully accurate?

MR. CLARK: Correct.

CHAIR: Or some other characterization, I'll leave that to anybody else to decide, but we're not there yet. Let's just go with what we have here. Please keep in mind we don't need to have repetition on undul, let's just say, repeated instances of the same thing. So, just do your best to streamline whatever you can. I understand that this is already a streamlined version, but if it's to show, again, hey look, there's noise that's going to affect us, we obviously have a good idea from all the witnesses already and some of the other videos already in, so.

MR. CLARK: As painful as it was to hear, --

CHAIR: Yes.

MR. CLARK: -- I took Ms. Dopkin's question to heart.

CHAIR: Yes.

MR. CLARK: Okay? The only reason for including into the record, not to show, but including into the record multiple videos, for example, of volleyball is to show the extent, all right? They're not of the same, you know, that I, I, I showed an exemplar, right? But there are twenty-four dates that I have documentation, all right? I am not going to show twenty-four.

CHAIR: Right.

MR. CLARK: Okay? But it all, you know, the, the, the reason for having the density is simply to document the extent.

CHAIR: All right. Well, let's just start working through this because (inaudible).

MR. CLARK: Right.

CHAIR: But I'm just trying to reiterate the problem of when we had to try to work through on November 29th that I don't want to get bogged down here today then I feel like we're already getting there. So, why don't we just plow forward with what we can to get the evidence that you feel we need for our decision making here. So, Mr. Schmidt, you look like you want to say something?

MR. SCHMIDT: Yeah, I just, Mr. Garber, and I just, do, do you want me to raise any objection as we go along, save it to the end? I mean, I, I want to be consistent, I mean, we talked about videos and you've given us rulings previously and I'm just trying to be consistent. I mean, I'm sure the Board will want to be consistent with its previous rulings and I think I've outlined in great, excruciating detail the basis of my objections. And I don't want to keep going over the same thing. I know Mr. McComas is new to it but --

CHAIR: I'll say this. Your objections are preserved for the record, that the playing of the videos here that you previously objected to and there have been rulings on --

MR. SCHMIDT: Right.

CHAIR: -- you don't need to object again.

MR. SCHMIDT: Okay.

CHAIR: Okay. If you have, if there's another reason for an objection, obviously I'm not going to preclude you from raising an objection that you feel is appropriate, as long as it's not something that previously either had been ruled upon or could have been ruled upon and not been made. For example, we had talked hypothetically about the sound issue. If you have an issue as the sound is being played and it's being used for a different purpose, that has not been ruled upon. Obviously, we couldn't rule across the board without knowing testimony --

MR. SCHMIDT: Sure.

CHAIR: -- the last time around.

MR. SCHMIDT: Sure.

CHAIR: Mr. Holzer, that's what you understand as well?

MR. HOLZER: Yes.

CHAIR: All right. Then let's continue.

MR. SCHMIDT: All right. Thank you.

CHAIR: And, and to be clear, for the record, your objections previously asserted in writing and during the course of that hearing and any other hearing, are preserved for when they, these videos are played here today.

MR. SCHMIDT: Yeah, because we, let me be, honestly, we may see a video that we've seen before and I don't remember every single one that we've seen and whether I objected to it, to be quite honest. I just --

CHAIR: Well, I'm not, I'm assuming we're not playing again the ones that have already been admitted that had already, you know, for example, all the ones dated November 1st, I'm assuming we're not going into them again a second time.

MR. SCHMIDT: And, and I'm hoping the ones that you have ruled that are not admissible, we're not, they're not trying to get those in again too.

CHAIR: Well, again, I'm going to defer to the November 29th hearing and, and the Order or, I know it's not reduced to writing as of yet, but that transcript to determine, so if it, one is played here today and subsequently determined that it was actually objected to and that objection was sustained previously, obviously that will be stricken.

MR. SCHMIDT: Very well. And I don't have to jump up again.

CHAIR: It will be identified for the record, but it would be stricken in terms of its receipt in evidence.

MR. SCHMIDT: Yes, sir. Thank you.

CHAIR: Mr. Holzer?

MR. HOLZER: I have no problem.

CHAIR: Okay.

MR. CLARK: Can I --

MR. HOLZER: All right. Mr. Clark, let me --

MR. CLARK: Can I make one, any, any, if I do introduce something, it's not, it's not intentional, okay?

CHAIR: It's fine, Mr. Clark. Or Dr. Clark, it's understood --

MR. CLARK: And, and, and Mr. Holzer and I haven't had a chance to really talk about this.

CHAIR: We know that there's a lot of stuff so, sometimes mistakes happen. Whatever, we'll figure it out. We'll get to that point and we'll keep moving.

MR. HOLZER: I, I would say for the record again, that because he was on the stand and then there was a long period of time where we had to try to refine and so forth, I did have conversations with him but I don't know what he's going to say. We, we didn't talk about the actual --

CHAIR: Substance.

MR. HOLZER: -- substance, right. Only how to proceed and try to accommodate the Board's --

CHAIR: I assume that to be the case because of, you know, the fact that you're an attorney who's --

MR. HOLZER: Right.

CHAIR: -- representing your client and understands the rules of ethics and professional conduct.

MR. HOLZER: Exactly.

CHAIR: So, that was assumed on my part.

MR. HOLZER: Well, thank you, sir. I appreciate that. And we tried in, in going, setting all this up that you've heard to, so far --

CHAIR: The full scope of the, the nature of the conversations and why we're at where we're at sitting here in this moment.

MR. HOLZER: Right, right.

CHAIR: All right.

MR. HOLZER: Thank you.

CHAIR: With that in mind.

MR. HOLZER: All right. Mr. Clark.

MR. CLARK: Sir.

MR. HOLZER: In, in, in terms of, I believe, of your initial comments, there are some documents that might be new that you want to introduce and could, not videos, but documents, I think. Could you explain what they are --

MR. CLARK: Yes.

MR. HOLZER: -- and, and, and when, when, why you label them new?

MR. CLARK: Okay.

CHAIR: I'm sorry, you said documents.

MR. HOLZER: Documents.

MR. CLARK: We're off videos.

CHAIR: Okay.

MR. HOLZER: We're off of videos.

CHAIR: Okay. Wouldn't it make sense to show whatever documents you intend to introduce, just, as to why he's characterizing them as new, if we don't have them they're going to be new to everybody up here.

MR. HOLZER: Okay.

CHAIR: So, I'm just trying to figure out why we're asking him if --

MR. HOLZER: Because I was going to go through them in, in --

CHAIR: I'm just saying, just get to that.

MR. HOLZER: Yeah.

CHAIR: That would work.

MR. HOLZER: Well, that's where I am.

CHAIR: Okay.

MR. HOLZER: That's where I am.

CHAIR: Okay, I'm sorry.

MR. HOLZER: And, and Mr. Clark, can you explain what new, just explain what new documents you intend to produce for the Board now and then we will pull them out and, and give them to the Board (inaudible) that's a preliminary question.

MR. CLARK: Yeah. What, what I am about to introduce, I was talking about this is not a code enforcement hearing. These documents will represent our efforts to get the County to do something about what was happening at the

property.

CHAIR: Well, let's take it document by document and see where this takes us.

MR. HOLZER: All right.

MR. CLARK: Okay.

MR. HOLZER: Take the first one.

MR. CLARK: All right. Letters to Baltimore County.

MR. HOLZER: All right. Wait a minute, is this the right thing? Is this the right, no, what about this one? Oh, okay. All right. The first document, --

CHAIR: And before you answer, ask any questions and start test --

MR. CLARK: Oh, this ---

MR. HOLZER: Shh, quiet.

CHAIR: Hold on. Mr. Schmidt needs to review.

MR. CLARK: But this isn't it.

MR. HOLZER: Oh, wait a minute. What do you mean it's not it?

MR. CLARK: This is the one with Zeller.

CHAIR: Okay. Why don't we just start with that one then, --

MR. CLARK: Okay, okay, okay.

CHAIR: And then we'll get back to whatever else. So, here's what we'll do. Give Mr. Schmidt a second, Mr. Holzer will pass it out to the Board.

MR. HOLZER: Yes.

CHAIR: Before there's any question or testimony, everyone needs the opportunity to review and then we'll identify what it is for the record and whatever substance that you wish to convey --

MR. CLARK: Okay.

CHAIR: -- subject to --

MR. HOLZER: Sure, and this --

CHAIR: -- normal processing.

MR. HOLZER: -- number would be?

MR. MCCOMAS: Fifty-three.

MR. HOLZER: Fifty-three.

MR. SCHMIDT: So, this is fifty-three?

MR. HOLZER: Yes.

CHAIR: This is fifty-three.

MR. HOLZER: Fifty-three.

CHAIR: All right. So, Dr. Clark, what is Exhibit 53?

MR. CLARK: Fifty-three is an e-mail exchange between myself and Mr. Rich Zeller, who is the head of State Highway Access Permits for State Highway Administration.

CHAIR: Okay.

MR. CLARK: What it shows is that he did not --

CHAIR: Hold on, hold on. Mr. Holzer, do you want to ask a question as to the document?

MR. CLARK: Oh.

MR. HOLZER: I can, I mean, --

CHAIR: Please do.

MR. HOLZER: Okay. This, this document marked fifty-three was dated July of, 5th of 2018?

MR. CLARK: Right.

MR. HOLZER: And it was to you, I assume, from Mr. Zeller?

MR. CLARK: Correct.

MR. HOLZER: You've decided, you, you testified who Mr. Zeller is. Was this in response to an inquiry that you asked Mr. Zeller?

MR. CLARK: There is, if you look on the last page, I say I'm pleading for help, okay?

MR. HOLZER: The last page of the document?

MR. CLARK: Of, of the document, of Exhibit 53. You'll see my, my, my initial request and then on page, at the bottom of page two, Mr. Zeller replies, I'm not trying to avoid this issue, but Baltimore County is in charge of land use issues, not SHA. County has the SHA letter and is aware of our position regarding the entrance on MD-147. If the County has not approved this site for this activity, they, Baltimore County, must prohibit the NACCB, Inc. from having the activity. SHA has no authority to enforce this, okay?

MR. HOLZER: Okay.

MR. CLARK: Then the, at, at the top of page one of fifty-three, so these are in reverse order, right? They're, they're like a typical e-mail thread.

CHAIR: I understand, I understand.

MR. CLARK: Okay? Mr. Clark, it's my understanding that the County has not approved this site for the proposed use, the SHA has not approved the existing entrance for this use. From the SHA perspective, this site should not be operating at all. Will the County be shutting them down?

MR. HOLZER: Okay and that's it?

MR. CLARK: That's it.

MR. HOLZER: Okay and the purpose of showing this to the Board?

MR. CLARK: Is to say that the, it was the County's responsibility to shut this down and that SHA had, their opinion, their finding, was that this should not, their conclusion was that this site should not be being used.

MR. HOLZER: Okay. It says what it says.

MR. CLARK: It says what it says.

MR. HOLZER: Okay. I would move, do I need to move each one of these as we go?

CHAIR: Do you want to establish the record?

MR. HOLZER: Yeah, I, --

CHAIR: I, it's understood that once you're done with it, --

MR. HOLZER: Yes.

CHAIR: -- that you were looking to move these into evidence?

MR. HOLZER: Yes, that's correct. That's correct.

CHAIR: So, so Petitioner's, or Protestant's Exhibit 53, Mr. Schmidt?

MR. SCHMIDT: Objection. Move to strike. The witness started his testimony by saying he was not talking about code enforcement. That's precisely and exactly what this is. It was his efforts to institute a code enforcement activity, not to prohibit an activity which is proposed under the special exception per se, which is the religious use of the property. But to stop an event that occurred in July of 2018. What does this possibly have to do --

CHAIR: Relevance.

MR. SCHMIDT: -- with the ultimate issue in this case?

CHAIR: Relevance, based on the fact that it's, you believe it's code enforcement based, understood.

MR. HOLZER: The relevance is still the fact that their access, their entrance way, in terms of your approving this project still has not been granted by the State Highway Administration.

CHAIR: And that, I believe, is already established by even Mr. Coligaro that it's not, we're not even there yet.

Is that your recollection?

MR. HOLZER: That's correct.

CHAIR: Right.

MR. HOLZER: And to save you some time, it's already in as Exhibit 43.

CHAIR: I was about to say, we've seen this before.

MR. HOLZER: Yes.

CHAIR: I'm sure this is already an exhibit in evidence.

MR. HOLZER: Yes, it's already been introduced in evidence.

CHAIR: So, I mean, on that basis --

MR. SCHMIDT: Well, then why are we introducing it now?

CHAIR: I think he just wanted to establish his back and forth with it.

MR. SCHMIDT: Okay.

CHAIR: As to whether or not, do we need duplicate copies of it? We do not. But the testimony it, he's basically going off this letter and, and showed him the letter or, excuse me, the e-mail chain so this way he'd get the testimony on the record from Dr. Clark.

MR. HOLZER: Mr. Garber, I also want to point out for the record that Mr. McComas is sitting here for the first time and while there are prior days and you will not get into that

material, he is entitled to hear this as his first day of sitting here.

MR. SCHMIDT: No, he's not --

CHAIR: Hold on, hold on, Mr. Schmidt. Let Mr. Holzer finish.

MR. HOLZER: I, I therefore, because of the interruption and through no fault of the parties or the Board, a Board member is not sitting here. We have a new Board member. I believe he's entitled to hear some of this documentation and understand what has been going on or what is going on now. So, I think in fairness that he be permitted to see and hear some of this documentation for himself.

CHAIR: I will say, obviously I'm not Mr. McComas, but I will say that we don't need to review testimony and, and documents that have already been introduced or go over that stuff that's already in the record. And the reason being is, Mr. McComas, I, I understand, has been provided a copy of every transcript and has been provided the exhibits. Mr. McComas has made his own review and has his own understanding at this point. If Mr. McComas feels that he needs further clarification on a particular point, when it's being, when it's raised or even when it's not raised, I'm sure Mr. McComas will speak up and say wait a minute, I have a question, which he's already done here today, at least once or twice.

So, on that basis, I don't believe we do need to

review everything again for him. When I say everything, anything again that's already in the record. If you want to then point to something in the record that you feel is important, certainly you're going to have that opportunity in part with your, with your memo, at the conclusion of the evidence. But also, to the extent that there's other evidence you can say, just like this occurred on whatever other day, you could reference that way, if you feel the need to do so.

So, Mr. Schmidt, with that in mind, is there anything further from you on that point?

MR. SCHMIDT: I just, just want to make it clear. Mr. McComas, unfortunately, finds himself in a very unusual place because --

CHAIR: We all do.

MR. SCHMIDT: Right, but he, in particular, because he's got to now go through transcripts and tape recordings and a long time and I, I would stress very, very strongly he's coming in in the middle of the Protestant's case. The Petitioner has already offered its case, I mean, if there is some inference and I, not, not an inference, but a direct point that Mr. Holzer makes, that he gets to offer evidence again so Mr. McComas can hear it from the horse's mouth, in effect, that's entirely inappropriate unless on rebuttal you want me to re-present my case again.

CHAIR: Mr. Schmidt, you've heard my ruling.

MR. SCHMIDT: Thank you, sir.

CHAIR: I don't believe we need to go over the same thing that we've already done before.

MR. SCHMIDT: Yes, sir.

CHAIR: The evidence is already in the record. Do we need to have Protestant's Exhibit 53 in the record if it's already in the record as forty-three, as it has been identified, which I accept the representation it is what it is, but.

MR. HOLZER: I, I would like it be marked as, since it's been marked and pulled out as fifty-three, that's fine.

CHAIR: All right. Since it's already admitted, I'm going to admit it.

MR. HOLZER: Thank you. All right, next up.

CHAIR: But again, I, please be careful about re-introducing things that are already in the record. And I realize you're, I know you're trying your best, there's a lot of stuff going on, I recognize that.

MR. HOLZER: I know. And I'm trying to keep it simple, not only for the Board but for the record. All right. There is a new document marked from you to Mr. --

CHAIR: Hold on --

MR. HOLZER: I just want to --

CHAIR: -- he, he needs to be the one to identify what the document is. Unless there's a, give it to Mr. Schmidt

first.

MR. HOLZER: No, because I have to have him identify what it is first.

CHAIR: But Mr. Schmidt needs to see it, so please hand it to Mr. Schmidt, whatever copy you have. Please hand it to Mr. Schmidt.

MR. SCHMIDT: Thank you.

MR. HOLZER: Now, that, I don't understand that ruling.

CHAIR: You don't understand how --

MR. HOLZER: No, I don't understand.

CHAIR: Here's how we offer evidence. You have a document you want to introduce into the record, you need to provide it to counsel before you start asking your witness as to what this document is. Mr. Schmidt has the opportunity to review. You now can ask him, what is this document? But Mr. Schmidt needs to see it before you start questioning about it.

MR. HOLZER: Okay. So, from now on --

CHAIR: That's the way this has always been. This has not changed. This is how we got, why we had this motion earlier today that we had to resolve is because you showed the witness first before Mr. Schmidt had the opportunity to object. We are past that point. All we need to do now is hand it to Mr. Schmidt, or ask Dr. Clark then what is the document which is going to be labeled as fifty-four for purposes of i.d., what

is this document? We can't start questioning until Mr. Schmidt has at least the opportunity to take a look at the document you intend to ask about. So, with that in mind, Mr. Holzer, back to you.

MR. HOLZER: I'm waiting for Mr. Schmidt.

MR. SCHMIDT: Oh, I've looked, I've reviewed it, thank you.

MR. HOLZER: Well, you didn't tell me so I didn't know.

CHAIR: Okay, listen. Let's move through this. You've had the opportunity to review it, he's reviewed it. Mr. Holzer, your question to Dr. Clark, please.

MR. HOLZER: What is that document?

MR. CLARK: This is a date stamped letter received by Mr. Jablon's office from me to Mr. Jablon.

MR. HOLZER: May I give it to the Board?

CHAIR: Yes, you should, and to clarify that further, my prior speech, when you give it to Mr. Schmidt, please provide it to the Board too, to the extent that you have the necessary copies, that would be ideal.

MR. HOLZER: I think I gave you five.

CHAIR: This, and this is for purposes of the record, identified as Protestant's Exhibit 54. All right. So, this is a letter then from Dr. Clark, President of Gunpowder Falls Watershed Preservation Association to Mr. Jablon received on

July 11, 2018 and apparently also sent on July 11, 2018, one page document. So, with that in mind, Mr. Holzer, your questions?

MR. HOLZER: My question is, why is this relevant?

MR. CLARK: Actually, it relates to another document that's going to be introduced right after this, I hope, from Vince Gardenia, okay? So, --

CHAIR: Well, let's get that in the record if the two are going to be interrelated, that is if you want to provide that document to Dr. Clark, since he needs both, if he's saying that they're related.

MR. HOLZER: Do you need both?

MR. CLARK: Yeah, yes, yes, please.

CHAIR: Provide the Board two with the copies, so we can --

MR. HOLZER: Oh, I thought I had to give --

CHAIR: I'm sorry. If I was, if I was being unclear, when you provide it to Mr. Schmidt, provide it to the Board at the same time so we at least have the copies before you start asking what is this document and then having testified to it. We realize when you're handing it up it's going to be marked for identification only, then we'll leave it to you to decide whether or not you're moving it into evidence.

MR. HOLZER: Okay.

CHAIR: Is that, we're on the same page on this, on

how this is going to work? All right. You now have the doc, is that the document you were just referencing, sir?

MR. CLARK: I don't have the Gardenia letter.

MR. HOLZER: No, he doesn't have the document.

CHAIR: You don't have it yet.

MR. HOLZER: Because normally I walk up and give it to him and then give it to the Board.

CHAIR: Okay, I, I apologize, I thought he had it. I'm just a step ahead in this regard for once.

MR. HOLZER: And this would be fifty-five.

CHAIR: Fifty-five.

MR. CLARK: No, this is the wrong one.

CHAIR: All right. Let's do this. Dr. Clark, what is it, I assume you, you intend to pro, to introduce into the record there is --

MR. CLARK: Oh, oh, oh, no. It is here, it is here, it is here.

CHAIR: All right.

MR. CLARK: It's on the very last page.

MR. HOLZER: Well, let's start with fifty-four, now that you have the letter to Mr. Jablon.

MR. CLARK: Okay. Fifty-four is the last one?

MR. HOLZER: Fifty-four is the letter to Jablon.

CHAIR: Fifty-four is the one page letter.

MR. CLARK: Thank you, thank you.

CHAIR: Fifty-five is the multi-page, what appears to be an e-mail chain.

MR. CLARK: Okay. This, this, this is a letter that references an Order issued by Arnold Jablon regarding the, no activities on the site, dated July, well, that I received, all right. But a previous Order dated July 1, okay? To NACCB, Inc., okay? And I was notifying him that they are proceeding with this event in defiance of that Order. That Order, you will see on, I don't, Mr. Garber?

CHAIR: Yes.

MR. CLARK: This last page I have no idea why that got stapled there.

CHAIR: Okay.

MR. CLARK: I have no idea why that's there.

CHAIR: Understood. Last page of fifty-five that's been handed up actually appears to be from the video exhibits from what we've already resolved.

MR. CLARK: Yeah.

CHAIR: Okay.

MR. CLARK: I'm not trying to re-introduce again.

CHAIR: They're not, they're not related, understood. No problem.

MR. SCHMIDT: Can we delete the last page?

MR. CLARK: Yes, throw it out, please.

CHAIR: Fifty-five, just tear that off. So, for the

record, page, Exhibit 55, the last page has been tear, torn out of the original that's actually up here in the possession of Mr. McComas, who is handling the exhibits today.

MR. CLARK: All right. So, the last page is an exchange that came out, came out, I, all right. Now, the bottom line is, the last page is, is where Vince Gardenia sends me a copy of the enforcement Order that was sent to Mr. Kris Ghimire, okay?

Now, the way that came about was we were getting nowhere on sanitation issues and all that. And so, I went to Kevin Weis on the first page, who is the chief of the Baltimore division for Maryland Department of the Environment. He then told me that Vince Gardenia is the guy that, that he, he contacted Vince Gardenia and had Vince Gardenia get in touch with me and then finally Vince Gardenia sent me the enforcement Order that VanDomelen had sent. Why did I have to get it from Vince Gardenia? Why wasn't it sent directly to us and to counsel? That, that enforcement Order.

CHAIR: Oh, okay.

MR. CLARK: But, yeah, yeah, I mean, but --

MR. HOLZER: He doesn't answer (inaudible).

MR. CLARK: Okay, I'm sorry.

MR. HOLZER: Okay.

MR. CLARK: I'm sorry.

CHAIR: Moreover, I couldn't answer that question.

MR. HOLZER: So, this, these two documents have no relationship to a code enforcement situation?

MR. CLARK: No.

MR. HOLZER: Okay. Why are you then producing these two documents, fifty-four and fifty-five?

MR. CLARK: To show that we made numbers, a number of efforts to, to, to alert the County that their Orders were being ignored and trying to find out exactly how this process worked.

MR. HOLZER: Okay.

MR. CLARK: And no one, other than Vince Gardenia, no one ever responded to us and I believe that's going to be the subject of the next --

CHAIR: Well, if I, just to help move this along. Understanding that you guys made a, some efforts to reach out to the County to discuss why is this property being used what it is, you know, the way it is, when the Order reads a certain way and you believe that to be inconsistent with the way it's being used, right? Is that --

MR. CLARK: It goes, it goes beyond that.

CHAIR: It goes beyond that.

MR. CLARK: It goes, it goes to denial of right to due process.

CHAIR: Denial of the right of due process.

MR. CLARK: Yes. Willful, willful neglect.

CHAIR: Willful neglect. Okay. I'm intrigued by this.

MR. HOLZER: You'll, you'll find out.

CHAIR: Okay.

MR. HOLZER: The Board will find out.

CHAIR: Okay.

MR. HOLZER: Because as I said earlier, there has been improper activity on the part of the County and this is --

CHAIR: We can be, hold on, Mr. Holzer, we could be completely sympathetic with that position, that is, the County should have done more as it relates to these events and all that. It does not speak at all though to the special exception factors --

MR. HOLZER: I understand that.

CHAIR: But that's why we're here.

MR. HOLZER: But I've been around, Your Honor, and let, let me just say this.

CHAIR: Go ahead.

MR. HOLZER: For the Board. It's time that someone brings to the attention of the Courts or this Board the impropriety of what has been taking place below in terms of activity in regard to enforcing County law, rules and regulations. And if I cannot do it by having this testimony, I will proffer every one of these documents because on review, it becomes clear what has happened in this case. And I'm not

blaming anybody at the Board level but, as you know, I submitted a Motion in regard to a letter ex parte that was done between the --

CHAIR: We (inaudible) --

MR. HOLZER: I know we're not getting into it.

CHAIR: I heard, I know that that is an issue that's still pending in this matter.

MR. HOLZER: I understand and I'm not getting into it now. But this has been going on in this case and it's, it's time that this Board was provided with the documentation of not code enforcement, but what has been taking place. So, that's the relevance of why this has been, been presented.

CHAIR: My response to that and, again, with all, just to summarize this, to move this forward, Dr. Clark, to everybody else who has participated in this, I recognize you have certain frustrations and I realize that you have certain things that you think the County has failed you in your positions, in your opinions.

The big problem is, this Board cannot do much by way of addressing those problems. This is also not a code enforcement hearing. This is a matter of special exception. That is, we have certain factors. As to how any of these events and all this is, you put it, a denial of due process or whatever, however it's characterized, as to how that effects the special exception hearing and those factors, that is our

limited jurisdiction as to what we could do.

We can't tell the County Council, we can't tell Code Enforcement, we can't tell anyone else how they should have treated this back in July, back in August or any other time, because that matter certainly is, one, is not in front of us, but two, we can't compel that. To compel those things, perhaps that's subject to a mandamus action or some other type of action, but it's certainly not one that we can actually remedy sitting here today or any other day, because it's not something that is within our, what the, the matters that we are allowed to review, nor is it in the Petition from Petitioner or the appeal from Protestants that is relating to the Petition.

This is a matter, seems to me, they are using this property inconsistent with the prior Orders, do something about it. They didn't do something about it, we can't change that fact even if I'm completely sympathetic to your plight in terms of hey, why aren't people coming out to do something about this when it's apparent on its face? I'll accept all of that as true, in the end, we can't change that sitting here today.

MR. HOLZER: But you, but you can consider past activity and practice in regard to how you approach the issue of the land use issue, which is do I grant the special exception or do not. That's something that you can listen and you can evaluate the truth, truthfulness of what is being done. That's number one.

Number two, for the record, I've been, been down this road many times. There's something called exhaustion of administrative remedies and although it could be said oh, you got to present this at the Circuit Court, the ruling in a Circuit Court could say it should have been presented at the hearing before the Board of Appeals and that is exactly what I've been through battles for forty-five years doing.

CHAIR: And I, I appreciate, I appreciate what you just said greatly. My suggestion is, is to proffer that so there could be a ruling upon whether or not your administrative remedies have been exhausted by us. This, I know we've done this --

MR. CLARK: Okay.

CHAIR: -- in other cases where --

MR. HOLZER: Yes.

CHAIR: -- I don't want to say the same things, because it definitely wasn't the same type of activity, or even a special exception case, where we have done that. We have made specific rulings, the administrative remedies have been exhausted and therefore it's ripe for the Circuit Court and for the next step on these particular issues.

MR. HOLZER: I, I can accept, I accept that. So, the question is, how do we do that? Do I try to proffer everything right now that's not related to your limitation that you've imposed? Or as we go along and we present various documents,

those documents could be determined to be out of your area of responsibility or however you would want to phrase it. We can mark that exhibit that way and, in effect, at the end, we will be in a position of saying oh, exhibits, you know, one, two, three, four, --

CHAIR: My, my thinking on that is tonight you guys could come up with that list of documents, submit it as a package, of course provide a copy to Mr. Schmidt. This was it will be submitted, you'll have your proffer, it's taken care of, we can move on. Because it's more important to get to the special exception factors. If there's any impact or any issue as it relates to anything you want to raise --

MR. CLARK: Okay.

CHAIR: -- in connection with these documents and this, the matters that Dr. Clark wants to testify about, how it relates to the special exception factors, of course, that's evidence we need to hear it and whatever.

But as to what should we tell the County about what they did or did not do, that is well beyond what we have control over, well beyond what we are allowed to do and if you want to make sure that administrative remedies have been exhausted, my suggestion is, put it into a packet, say here's what we're proffering and then we can move on from there, because we're not going to go through every document if that is the issue to say this is beyond our jurisdiction, or this is

beyond the boundaries of this case. We are here to determine whether or not the special exception factors, the satisfaction of the level of evidence presented on that issue, as to whether or not Petitioners get their use.

MR. HOLZER: I understand. I understood all that.

CHAIR: And whatever conditions, if any, would follow.

MR. HOLZER: I understood all of that. I understood what the Courts require, --

CHAIR: Yeah.

MR. HOLZER: -- I understand what's happened in the past. I also would suggest that there is going to be evidence or testimony or documents related to the voracity or factual correctness of other witnesses or --

CHAIR: That's a different matter.

MR. HOLZER: I know it's a different matter, but I wanted to alert you to the fact that some of the material coming in through the witness is of that nature. So, there is a difference between both of these.

CHAIR: And then if there is a difference with some documents or some evidence compared to others, so be it. We'll go down that road and we'll, I'll see where that takes us. But as to hey, our needs are being ignored by the County, I'm telling everyone here we cannot do anything about that, unfortunately. Even recognizing your frustration with the

whole process with it. And it's, I'm sorry that, if this is the first time you're hearing this. But the fact of the matter is, we are here to talk about a special exception case, special exception factors. If the County did not do what, what you believe that they should have done, we can't change that outcome.

MR. CLARK: I think I got it.

CHAIR: Yeah. And I just want to make that clear, it's not a rejection of what you're saying, it's just an explanation as to why we're here, what we could do. Let's get to that rather than, you know, sit here and go through all this stuff when we realize, in the end, we can't change that.

MR. HOLZER: I, I would like to be able to get these documents identified as a, with a document number.

CHAIR: I didn't say you couldn't. I'm saying tonight, come up with your list of documents for that purpose, that you just, we just went through, put it in as a packet tomorrow with a proffer as to what that evidence is.

Obviously, you've heard, Mr. Schmidt, my inclination on those matters. Obviously, you'll get a copy tomorrow. If there's any comment that needs to be said, will be limited, of course. But we could go through it, this way it's in the record for purposes of identification and for purposes of the tran, any transcript so you can do whatever you feel you need to do as a result of that. Is that --

MR. HOLZER: I understand.

CHAIR: And that's --

MR. HOLZER: Whether that can be done tonight or not is another story. Whether we're going to be here tomorrow with the snow is another story. But I'll try to get that done. If I can't get it done or we don't have the hearing tomorrow, it's going to have to be later.

CHAIR: Well, then, then it would have to be submitted on February 5th, if that's the case, because that's the next, that's the next hearing date. But I'm saying to you, we have a whole bunch of documents, as I understand, we want to go through with this particular issue. By tomorrow, if you want those documents into the record, I would highly recommend you getting them into one packet so we can move forward. I don't want to sit here and delay this case anymore. Let's get to the special exception factors.

MR. HOLZER: Okay.

CHAIR: And this way you have what you need in the record. That's the reason for my now ten minute, maybe more, explanation as to how this has to unfold.

MR. HOLZER: All right.

CHAIR: And again, I want to acknowledge at least, what Dr. Clark had to say in terms of why they're presenting this and what their intent was, but that we can't do anything about it. In, in that respect.

MR. CLARK: I have a question.

CHAIR: Well, you, sir, you're under oath at the moment, so I, you can't ask questions, but.

MR. MCCOMAS: (inaudible) so you're asking him to put together any additional, because we already have fifty-four and fifty-five, so any additional ones, following the similar theme, you're --

CHAIR: Right.

MR. MCCOMAS: -- asking him to put them all together in one packet and say here are all the ones?

CHAIR: Whatever you --

MR. MCCOMAS: Not including (inaudible).

CHAIR: Right, whatever else you intended to put in on that very point, the County is not paying attention and, you know, --

MR. HOLZER: I understand.

CHAIR: -- that they should have done more or whatever the case, here's how the property is being used in this regard and the County ignored our request, State Highway said this, that and the other thing and maybe somebody else weighed in and said wait a minute, hold on, why are they doing that or whatever. All that together, so this way everyone is protected by whatever that follows. But let's get to the special exception factors.

MR. HOLZER: Part of the special exception factors

are the fact that this Board can grant the relief requested with conditions. Now, isn't it appropriate for some of this material to come in? For instance, the State Highway Administration. To, to say the, the entrance is unacceptable to us but that's up to the County to enforce. Well, but that's also a condition that this Board could put on its approval as--

CHAIR: Mr. Holzer, exactly. If you feel that speaks to --

MR. HOLZER: So, how can we get that in?

CHAIR: -- hold on, if you, hold on. If you think that speaks to a specific special exception factor for us to, that we need to weigh, then yes, you may try to put that into evidence and we'll see where that takes us. As to that point, yes, that is a, perhaps a valid argument from your perspective.

MR. HOLZER: Right.

CHAIR: As to how this has to be addressed. It is in evidence. That is SHA is saying hey, wait a minute, we got a problem here or whatever the case may be, perhaps that speaks to whatever factor under 502.1. I'm sure we'll hear from Mr. Schmidt, and as well as yourself, in memos on that point. So, that is not to exclude evidence that's connected to a special exception factor, to the contrary. I want it narrowly tailored to that special exception factor because we can't do anything about why Code Enforcement doesn't go out or why the County doesn't go out to enforce this when they're supposed to.

MR. HOLZER: But see, the problem with what you're suggesting is that if I make a packet of this material that is for purposes of the Circuit Court, potential Circuit Court argument, it's not in front of you, you're not putting it into evidence from which you could draw to make the conclusion that the access has to be by the State and, in other words, --

CHAIR: I'm not limiting you to put in evidence as, on that point.

MR. HOLZER: Than I have to go through --

CHAIR: I'm saying that if you have, if you have, for example, what looks to be fifty-five. Fifty-five, to me, fifty-four, seemed to be complaining about why aren't you guys going out to cite them for code violations, okay?

MR. HOLZER: Right.

CHAIR: That is what I'm referring to by this proffer. When it comes to fifty-three, by way of example, this is saying SHA is saying they shouldn't be using this entrance way for whatever reason, that speaks to the specific special exception factor. This is treated differently than fifty-four and fifty-five.

MR. HOLZER: Correct, correct. That's why --

CHAIR: Right, so there's a difference. I asked you for your discretion in determining that line. These documents speak to special exception factors, these speak to code enforcement matters or the failure to enforce. The failure to

enforce and code enforcement matters are not part of our, what we're reviewing here. If you want to argue to us that the SHA comments here are dispositive or at least aid us in terms of evaluating that factor, yes, this, --

MR. HOLZER: Yeah.

CHAIR: -- can, you can certainly, I'm not going to make a, a ruling saying that that's all admissible sitting here at the moment, because I don't know which each one is.

MR. HOLZER: Okay.

CHAIR: But yes, this would be subject that's appropriate for it, and I asked for your discretion in determining where that line is drawn.

MR. HOLZER: But that's the problem. I, I have to then limit or narrow and, and try to guess what this Board will admit and what you won't admit.

CHAIR: No, no, --

MR. HOLZER: Really.

CHAIR: Again, it's a proffer. You're saying look, these documents speak to code enforcement or lack enf, or lack of enforcement. They're not tied to a special exception factor. If they're tied to a special exception factor, we will work through each document.

MR. HOLZER: Okay.

CHAIR: But I mean, I, if it's going to be like ten document, or ten documents regarding noise, again, much like

the videos, we don't need ten documents.

MR. HOLZER: I understand.

CHAIR: Dr. Clark can testify on the following dates I sent correspondence or had communications with folks in the County about noise because noise was doing x, y, z. That's a different matter than, again, fifty-four and fifty-five which seem to speak to hey, you guys, here's the Order, why aren't you coming out to enforce?

MR. HOLZER: If Your Honor would permit me, then let me take what I know Mr. Clark wants to introduce and just ask him, in his opinion, are these related to a possible condition that the Board would, could impose or is it just frustration as to what took place? Can I do that? Say, and save some time?

CHAIR: I, I would, I would say if you can give guidance to Dr. Clark on that, looking at these documents, that's probably the best way to go about achieving this end goal for us all. This way you have what you need in evidence for special exception factors.

MR. HOLZER: Right.

CHAIR: And you have your record established for purposes of the other stuff that you feel should be admissible but perhaps you need to do something more because of exhaustion of administrative remedies.

MR. HOLZER: Right.

CHAIR: So, this way your record would be protected,

but also it would be streamlining the case and we can get to the heart of the matter, which again, is the special exception factors.

MR. HOLZER: Could, could I ask for the lunch break now so --

CHAIR: Oh, I was going to insist upon it.

MR. HOLZER: It's twenty after twelve.

CHAIR: Yes.

MR. HOLZER: And if, if you can give us an hour.

CHAIR: Yes, an hour is fine.

MR. HOLZER: And, and understanding that I am going to go over, I'll ask very few questions of Mr. Clark, because he's on the stand. I'll talk to Mary and see the list of potential documents that he wanted to introduce now and see if I can decem, separate them.

CHAIR: And correct me if I'm wrong here, but this seems to be incredibly, we're making this incredibly more complicated than it needs to be. We have heard numerous, we've heard testimony from all the witnesses thus far as to their concerns as it relates to the proposed use. You all have documents there that you want to put into evidence that will illustrate, perhaps, or from Dr. Clark's perspective and your perspective, here, this speaks to those particular factors. Separate those from everything else that would otherwise speak to the code enforcement matters. It should be pretty simple

because we already know what the issues are, because we've heard from Dr. Clark, we've heard from Dr. Mary Clark, we've heard from others about the issues.

I already, I think we have a pretty good grasp as to where we are, as to what the complaints are and I'm sure that they're going to be echoed by others. And I'm not restricting you in terms of being able to produce whatever evidence you need, but at the same time, we have to do this in a, a more efficient or have any efficiency in pursuing testimony and evidence from Protestants --

MR. HOLZER: I'll try to do that during the lunch break.

CHAIR: Thank you. So, why don't we do this. What time is it, like, almost 12:30? Why don't we come back at 1:30 so you'll have actually an hour and eight minutes.

MR. HOLZER: Good.

CHAIR: Mr. Schmidt?

MR. SCHMIDT: I'm all in favor of lunch.

CHAIR: Thank you.

(RECORDING PAUSED – 12:20:37 PM)

(ON RECORD – 01:32:08 PM)

CHAIR: All right. We are back on the record, please be seated. Thank you.

MR. HOLZER: Mr., members of the Board, Mr. Chairman, your office was kind enough to make copies of the sign in

sheets. I've provided one to Mr. Schmidt. I would provide the Board one and I'd keep one.

CHAIR: Yes. You have the originals too back.

MR. HOLZER: I, I don't know whether these are the, oh, they gave us the originals here.

CHAIR: Yes.

MR. HOLZER: So, your Board took whatever was in this packet that --

CHAIR: Right, copied it, except, copied the one side because I understand it's on recycled paper. And there was various writing on the, on the other side of it.

MR. HOLZER: Correct.

CHAIR: Of the sign in sheets.

MR. HOLZER: So, I would, so I would offer --

CHAIR: Mr. McComas?

MR. MCCOMAS: Yes, fifty-six.

MR. HOLZER: I'm sorry, fifty-six?

MR. MCCOMAS: Yes, fifty-six.

CHAIR: All right.

MR. HOLZER: Okay and so that is taken care of. And during the lunch break, I tried to save as much time as possible.

CHAIR: I appreciate that.

MR. HOLZER: If I could ask Mr. Clark to step up and ask Mr. Morgan, Bruce Morgan, who previously testified, to step

back. He is a member of Kingsville, he does know the parameters. He was not there at the time the original vote was taken, but he's aware of it. Now, do you want me to put him on in this --

CHAIR: I, I'm going to leave it to you to present your case.

MR. HOLZER: Okay.

CHAIR: I don't, it's up, it seems to me that if there's a stipulation that can be reached about it, then perhaps it resolves the issue. But I, you know, I don't know if that is possible or not based on, I don't know what, whether he, Mr. Morgan is charged --

MR. HOLZER: Yeah.

CHAIR: -- Mr. Morgan is charged with the responsibility under the rule eight papers that have been submitted, that being able to do what is necessary, but Mr. Schmidt?

MR. SCHMIDT: I'm not trying to be difficult.

CHAIR: That's okay.

MR. SCHMIDT: I just don't know what Mr. Morgan is going to say. Again, I assumed that the, that the, well, if he wants to come on and, and testify about the parameters, I have no objection to that. Was he at the meeting or is he authorized to speak or?

MR. HOLZER: He is, he is a member of the board. He

was not there at the time of the original vote. I understand he was there when they reiterated the position, to write the letter to me, to represent them and take that position, so.

CHAIR: I don't think there's a question as to the position taken. I think the question is the map and, and also was it the membership or no? That wasn't really your issue, it was the map?

MR. SCHMIDT: Yeah, I'm, I'm going to have to pull the, the rule.

MR. HOLZER: He's here and I felt since he's here.

CHAIR: I, I know, I appreciate the fact that you're trying to move that forward.

MR. HOLZER: Yeah, right.

MR. SCHMIDT: Sure, why don't we put him on and we'll make quick work of it.

MR. HOLZER: Sure.

CHAIR: All right. So, once again, Dr. Clark, thank you. Just for the sake of, doesn't hurt to be sworn in twice, I suppose.

MS. DOPKIN: Do you swear and affirm under the penalties of perjury, that the testimony you are about to give is true and correct to the best of your knowledge and belief?

MR. MORGAN: I still do.

MS. DOPKIN: Thank you.

MR. MORGAN: Thank you.

CHAIR: And please identify yourself for the record?

MR. MORGAN: Bruce Morgan.

CHAIR: We're recalling Mr. Morgan for a limited purpose. Mr. Holzer, you want to take that?

MR. HOLZER: Well, Mr. Schmidt just asked if, if he could ask the questions. All I wanted to do is to have Mr. Morgan define, he has a map and he also has it on his phone and he can testify to that and then he's welcome to answer any other questions.

CHAIR: Have you shown the map to Mr. Schmidt?

MR. MORGAN: I have not.

CHAIR: Why don't we start with that? And I recognize, oh, you, so it's not just on your phone, you have a printout.

MR. SCHMIDT: Yeah, thank you.

CHAIR: And so, if you have a printout, why don't you send that up this way as well if you have an extra copy.

MR. MORGAN: I'm sorry I don't have enough copies.

CHAIR: That's quite all right, I understand.

MR. MORGAN: We made what we could while we were on lunch.

CHAIR: Thank you, Mr. Morgan, that's quite all right. So, this will be fifty-seven for purposes of identification.

MR. HOLZER: The original document was forty-eight

for i.d.

CHAIR: Right. Okay, so, but for purposes of --

MR. HOLZER: Yeah.

CHAIR: -- the record, the map is coming in as fifty-seven, is that your understanding?

MR. HOLZER: Yes.

CHAIR: Mr. Schmidt?

MR. SCHMIDT: Yes, sir.

CHAIR: Very well.

MR. SCHMIDT: Mr. Morgan, the map that you've given us which is fifty-seven it's two pages and there's a shaded area, correct?

MR. MORGAN: That's correct.

MR. SCHMIDT: And the subject property would be, looks like the map goes along Harford Road sort of below the word Glen Arm and Glen Arm Road. And I think, is it correct, that the sub, subject property is located within the gray area to the right of Harford Road?

MR. MORGAN: That's correct.

MR. SCHMIDT: Okay. So, just so I'm clear, the property if this, if this map is north, south, in terms of the top of the page and the bottom of the page, the property on the other side of the street from the subject property is not within the greater Kingsville area? That's, that's not the gray, that's not grayed, correct?

MR. MORGAN: Well, if, if I could refer to here, refer to the description. There's a, there's a --

MR. SCHMIDT: Right, and it says in the description click here for map.

MR. MORGAN: Yeah, that, and that is the map that comes up.

MR. SCHMIDT: And that's the map that you get when you click?

MR. MORGAN: Yes, sir.

MR. SCHMIDT: And is the gray area the area that the Kingsville, Greater Kingsville Community Association has interest or jurisdiction over?

MR. MORGAN: Yes, yes.

MR. SCHMIDT: Okay. So, again, this, this is sort of at the, this is, this is on, this is within the gray area, but across the street from the subject property's entrance on Harford Road, those houses across the street are not in the greater Kingsville area, that's white, correct?

MR. MORGAN: That, that's correct.

MR. SCHMIDT: Okay.

MR. MORGAN: Yeah.

MR. SCHMIDT: And now the, the community assoc, the greater Kingsville people met and produced a document, exhibit number forty-seven, I believe it is.

MR. HOLZER: Forty-eight.

MR. SCHMIDT: I'm sorry, forty-eight. That indicates that the Greater Kingsville Association opposed, opposes this request, correct?

MR. MORGAN: Yes.

MR. SCHMIDT: Okay. You were not at that meeting, as I understand it?

MR. MORGAN: I was not.

MR. SCHMIDT: Okay. Was that a meeting of the entire membership of the Greater Kingsville Association --

MR. MORGAN: As I understand it, yes.

MR. SCHMIDT: -- or just the board of directors?

MR. MORGAN: Yeah, no, it was the semi-annual September meeting.

MR. SCHMIDT: September of 2018?

MR. MORGAN: Twenty seventeen.

MR. SCHMIDT: Twenty seventeen. Has the association considered the request in any subsequent meeting to the best of your knowledge since 2017, since September 2017?

MR. MORGAN: I, I don't understand the question, what is the question?

MR. SCHMIDT: Have, has the association considered the matter further in view of anything that's happened since September of 2017, to the best of your knowledge?

MR. MORGAN: I think there was some discussion at the general meeting, which was like a month ago.

MR. SCHMIDT: Okay.

MR. MORGAN: There was some discussion. There wasn't any voting or anything.

MR. SCHMIDT: But there was no new vote?

MR. MORGAN: No, no, sir.

MR. SCHMIDT: Okay. Has any representatives of the Petitioner, Nepali, been at any of the meetings when these occurred, if you know?

MR. MORGAN: Only the, only, only that I'm aware of because I wasn't at this meeting, I was only at the, this, this previous meeting like a month or so ago. Dr. Clarke was there and I think Kris, I think Kris Ghimire was there.

MR. SCHMIDT: Ghimire was there at the subsequent meeting, at --

MR. MORGAN: At this most recent meeting like maybe six or eight weeks, six weeks ago maybe.

MR. SCHMIDT: Okay. Do you know if anyone from Nepali had an opportunity to make a presentation at any of the prior meetings?

MR. MORGAN: I, I do not know.

MR. SCHMIDT: You, you don't know one way or the other?

MR. MORGAN: No.

MR. SCHMIDT: Okay.

MR. MORGAN: I, I wasn't, I wasn't in attendance at

the prior meetings.

MR. SCHMIDT: Okay. Do you know how many, do you know how many people there are who are members of the association or how many homes there are?

MR. MORGAN: Approximately, I think I gave that sheet up. But I think it was written in the corner as two hundred and thirteen, I believe. Somebody has that top sheet.

MR. SCHMIDT: Is that, is that, is that individuals or homes? Like a husband and wife, do they count as one or two?

MR. MORGAN: Yeah, that's a single, yes, that's a single membership.

MR. SCHMIDT: Okay. So, it's, so a husband and wife would be two people?

MR. MORGAN: Would, would be a one membership.

MR. SCHMIDT: Oh, it would be one membership?

MR. MORGAN: Yeah.

MR. SCHMIDT: Okay. So, two hundred and thirteen people in this area that's highlighted in gray are actually members of the association?

MR. MORGAN: Yes, yes.

MR. SCHMIDT: Do you know how many, you have any idea how many houses there are in, in this area?

MR. MORGAN: No, I don't.

MR. SCHMIDT: You do not? Okay.

MR. MORGAN: More than two, more than two hundred and thirteen, I would suspect.

MR. SCHMIDT: Yeah, I don't know how, you know, I know it's a rural area, so okay. And do you know when the association took the vote, I understand you weren't there, but do you know from any other way how many people there were at the meeting when the vote was taken?

MR. MORGAN: I do not, I was not in attendance.

MR. SCHMIDT: Okay. So, do you have to have a quorum in order to take a vote such as this?

MR. MORGAN: They're usually, the meetings, as I understand, are, are typically very well attended.

MR. SCHMIDT: Okay. But you don't know about this one?

MR. MORGAN: I, I don't know because I wasn't there.

CHAIR: And if I could jump in --

MR. SCHMIDT: Very well.

CHAIR: -- do you know if you need a quorum of the membership or any type of percentage of the membership or is it just a quorum for the board of directors or how that is --

MR. MORGAN: I know there's a quorum for the board, I do not know because I've never been in attendance at a general meeting where there was a mem, where there was a vote taken.

MR. SCHMIDT: Okay. Do you know how many board members there are?

MR. MORGAN: No, I do not. I think there's twelve of us.

MR. SCHMIDT: Okay and you're a board member at the present time?

MR. MORGAN: Just recently, yes, sir.

MR. SCHMIDT: Okay. When did you come onto the board?

MR. MORGAN: At the last general meeting.

MR. SCHMIDT: Okay. The document, number forty-eight, that Mr. Holzer gave us, actually titles itself on the first page of it board position regarding case number 2018-0122-X, so on and so forth.

CHAIR: Mr. Schmidt, before you go further, do you have that in front of you, sir?

MR. MORGAN: I do not.

MR. SCHMIDT: Okay. I'll show it to you.

CHAIR: Okay.

MR. SCHMIDT: This is the, I'll show you my copy.

CHAIR: Okay.

MR. SCHMIDT: And I'm referring to exhibit number forty-eight. And this is from apparently the October 10th, 2018 meeting of the Greater Kingsville Civic Association?

MR. MORGAN: The more recent one, yes.

MR. SCHMIDT: So, am I correct when I read that to say that this was the position of the board? It says board

position.

MR. MORGAN: This is the first time I've seen this document. I can't speak to this document. It's the first time I've seen it.

MR. SCHMIDT: Okay.

MR. MORGAN: I didn't produce it, I didn't help produce it. I, I don't know about that.

MR. SCHMIDT: You do not know?

MR. MORGAN: I do not know.

MR. SCHMIDT: Okay. Okay. I don't have any further questions.

CHAIR: All right. So, where does that leave us in terms of your position on the admissibility of Exhibit 48?

MR. SCHMIDT: Well, it appears that the property is within the proximity, I guess, it kind of goes to the weight of the document to a certain extent. We don't know whether, I mean, it speaks for itself. And it says the board position and I don't know whether there was a quorum or how that works. And we, we don't know. I don't, Mr. Garber, I'll leave it to your discretion --

CHAIR: In other words, the (inaudible) board position and, and whether the board position is, reflects a membership and board vote or just a board vote is what your question is?

MR. SCHMIDT: And we just don't know because Mr., you

know, to be fair to the witness, he wasn't there and wasn't on the board at the time, so.

CHAIR: So, we need to, so from your perspective we would need to know how the board can act?

MR. SCHMIDT: It might be, you know, I think, so the record is clear and we've got subsequent days so maybe somebody who was there can shed some light on it at a subsequent hearing date. Maybe the Board can, this Board, not Kingsville board --

CHAIR: Thank you.

MR. SCHMIDT: Maybe the Board of Appeals can just defer on that until we see if there's another witness. I would like to know whether it was a vote of the entire membership and how many people were there because I understand that this has caused a split in the community and there may very well have been a sizeable portion of people who are in favor of it, which I think is relevant.

CHAIR: Very well. We'll, Mr. Holzer, we'll just do it that way. If Mr. Schmidt is not ready to stipulate to its admissibility, we may need another person to address the rule eight issue for Protestant's Exhibit 48 to determine its admissibility. I think you've heard the issues that he has and you'll have the appropriate person at the right time for that.

MS. DOPKIN: So, are we trying to clarify one that it was properly adopted according to the by-laws of the organization and how the vote came out for and against?

MR. SCHMIDT: And, and whether, I think too, whether it was the board's vote or whether it was the general membership.

MS. DOPKIN: Or it was a full membership.

CHAIR: But that speaks to the, whether it's adopted properly --

MR. SCHMIDT: Yes, yes, sir.

CHAIR: -- as, because, for example, by way of background, I know, for example, my community association, the board can act for the entire membership.

MR. SCHMIDT: Right.

CHAIR: We don't need to have a big meeting that invites everybody there to then take a vote, the board takes a vote. I don't know if it's that way for this particular association but that is a question that Mr. Schmidt has that Mr. Holzer will find a witness one day that we can address those very issues to figure out where Greater Kingsville stands on it, though it is obviously now stipulated that the property is within --

MR. SCHMIDT: Yes.

CHAIR: -- the bound, proper boundaries here for Greater Kingsville Civic Association. So, we've at least accomplished one check on that list.

MR. SCHMIDT: Yes, sir.

MR. MCCOMAS: So, forty-eight remains i.d. only,

fifty-seven is accepted?

MR. SCHMIDT: Yes, sir, as far as I'm concerned.

CHAIR: Very well.

MR. SCHMIDT: Yes, sir.

MR. HOLZER: You may step down, thank you.

CHAIR: Fifty-seven is admitted, forty-eight is still subject to further testimony and evidence.

MR. HOLZER: And to get to the next level of testimony, Mr. Clark.

MR. SCHMIDT: Mr. Garber, just while Mr. Clark's coming, I was at my office over the lunch break and I got a text from the Bar Association that the Circuit Court is closing at 3:30. I don't know if that affects any other building but I just wanted to tell you that. As I was walking back, the door to come here, so you may --

CHAIR: We go by the Baltimore County --

MR. SCHMIDT: No, I got a text from the --

CHAIR: No, no --

MR. SCHMIDT: -- Baltimore County Bar Association saying that the Circuit Court was closing at 3:30.

CHAIR: Right. So, we go by the County government.

MR. SCHMIDT: Okay.

CHAIR: We'll figure out where that stands at another break in the process here. Anyway, Dr. Clark --

MR. SCHMIDT: I just didn't know if you had heard, I

wanted to --

CHAIR: No, I appreciate that, yes. Thank you.

MR. SCHMIDT: -- give you a heads up, I had heard that.

CHAIR: Yes. Thank you very much. Dr. Clark, you're still under oath, you're still on the stand. You may have a seat.

MR. HOLZER: And I'm going to ask him about exhibit number forty-eight. Mr. Clark, are you a member of the Greater Kingsville Civic Association, Inc.?

MR. CLARK: Yes, I am.

MR. HOLZER: You've seen the site plan or the plan for the area that they encompass and is your house outside of or within that area?

MR. CLARK: It's outside what the map shows but I am still a member.

MR. HOLZER: And how long have you been a member of the Kingsville Civil Association?

MR. CLARK: Ten, fifteen years.

MR. HOLZER: Okay and are you familiar with the vote that was taken by them on April 4th, 2018?

MR. CLARK: No, I was, I was not there for that meeting.

MR. HOLZER: Oh, okay.

MR. CLARK: I was there, I was there for a number of

subsequent, earlier meetings.

MR. HOLZER: Okay.

MR. CLARK: Including the pre, including the 2017 vote.

MR. HOLZER: The 2017 vote, okay. What was, when was the, the 2017 vote?

MR. CLARK: That was at the semi-annual meeting on 2017 it was the full membership.

MR. HOLZER: Full membership?

MR. CLARK: Yep.

MR. HOLZER: Okay

CHAIR: Let me, let me --

MR. CLARK: Now, that doesn't mean full attendance --

CHAIR: -- stop there.

MR. HOLZER: You don't want it --

CHAIR: Only because forty-eight doesn't speak to that vote.

MR. HOLZER: I know.

CHAIR: And I understand your frustration with it, but forty-eight doesn't speak to that vote. Let, the vote was taken in April of '18. You were not there for that vote?

MR. CLARK: No, I was not.

CHAIR: I understand that the, I understand the representation that there has been opposition taken by the association.

MR. HOLZER: I will go to extra lengths to make sure the Board hears everything there is to know about the vote and this document.

CHAIR: Understood. Thank you.

MR. CLARK: At the earlier meetings, --

CHAIR: Hold on.

MR. HOLZER: No.

CHAIR: Sir, there's not a question pending at this point.

MR. HOLZER: No, it's no use wasting time or the Board's time. We will do something to answer all of the questions which will probably take us not tomorrow but more than likely in February. So, the longer this drags on, the more concern I have with the February 13th.

CHAIR: Again, Mr. Holzer, I understand.

MR. HOLZER: I understand, but I'm just explaining.

CHAIR: Protestant's Exhibit 48, again, identifies a vote taken April 4, 2018. Since the whole point of having rule eight paperwork coming forward is tied to that Oct, or that April 4th, 2018 vote, --

MR. HOLZER: Yeah.

CHAIR: -- information from the 2017 vote does not speak to Exhibit 48.

MR. HOLZER: I understand.

CHAIR: Right.

MR. HOLZER: I understand. Now, Mr. Clark, is it true that you met with me during the luncheon break to address the Board's concern about documents which may, which may illustrate some sort of, of inactivity or confusion on the part of the County in its addressing certain letters and e-mails that you brought up --

MR. CLARK: Yes.

MR. HOLZER: -- is that correct?

MR. CLARK: Yes, sir.

MR. HOLZER: We met, that's all we met about?

MR. CLARK: Yes, sir.

MR. HOLZER: All right and in reviewing the outline or the testimony that you had proposed to provide, I, I want to list these as documents that I will have to try to put together for tomorrow sometime. But it appears that a Zeller package also as Protestant forty-three --

MR. CLARK: Are we --

MR. HOLZER: -- don't, just let me read it.

MR. CLARK: Okay.

MR. HOLZER: The Jablon letter of July 11th, the Mohler letter of July the 11th, the Gardenia July 8th letter, the Gardenia July 10th letter, the e-mail to Jablon dated July 10, the Beverungen July 24th document, the Zeller/Jablon June 18 document, the VanDomelen September 12th, 2017 document, those, those documents will be placed in a packet for purpose of

protecting or addressing the exhaustion of administrative remedies as Mr. Garber has requested.

MR. CLARK: Yes, sir.

MR. HOLZER: Correct?

MR. CLARK: Yes, sir.

MR. HOLZER: Okay. In addition to those documents, the Clarke FB of September 17th, 2018, the Ghimire and Clarke FB of 5/1/18, the Ravine and Clarke FB 5/1/18, the White America Next Door document, the Clarke FB September 20th, '18 document, the Kotroco letter to Mohler, I'm striking out anything in regard to the police reports as per your direction.

CHAIR: Thank you.

MR. HOLZER: The Joann affidavit, all will be removed from your testimony before the Board today and will be placed in the packet for the Board to see and I'll submit it tomorrow.

CHAIR: Yes, thank you.

MR. HOLZER: Hopefully, I can submit it tomorrow, okay?

CHAIR: Assuming we're open tomorrow at any point, yes, thank you.

MR. HOLZER: Okay. So, that is my effort --

CHAIR: Thank you very much, Mr. Holzer.

MR. HOLZER: -- to take that material out. Now, that leaves us with going back to his regular testimony under another heading.

CHAIR: Fair enough.

MR. HOLZER: Okay?

CHAIR: Fair enough.

MR. HOLZER: And just so the Board understands, I required the witness to create headings for different parts of his testimony so that it would be organized and --

CHAIR: I appreciate that.

MR. HOLZER: -- and, and we are now going to go into a heading of clarification of facts, which I think will specifically address your concerns about the 502 and the land use issue. Okay? Now, Mr. Clark, let's turn to the clarification of facts and what, where would you like to start? And if there is going to be a written document, tell me. Or if there's going to be a visual presentation, you can tell us that and then we can proceed from there, okay?

MR. CLARK: Okay. There will be, there will be three videos shown.

CHAIR: Okay.

MR. CLARK: Okay? One will be, and they all relate to the way the road is used as it is today, okay? One will be of people using it as a pedestrian, people using it as cyclists and how, how the clearances are so constricted that tractor trailers cross, have to cross the line to make their turns, okay?

MR. HOLZER: Okay.

MR. CLARK: Those, those are the videos.
MR. HOLZER: All right. Do you want to do those now?
MR. CLARK: Why don't we, why, why don't I talk about the other things first?
CHAIR: Wait, hold on. We're just talking about three videos that we may be showing the Board.
MR. CLARK: Right.
CHAIR: And everything, why, why would we be going to another --
MR. HOLZER: Yeah, let's just --
MR. CLARK: Okay, no, no, that's fine. I'm just --
CHAIR: I know, but let's not get like, let's not get lost.
MR. HOLZER: Right.
CHAIR: The testimony has brought us to this point.
MR. CLARK: Yeah, yeah.
CHAIR: It would seem that we have three videos on Exhibit 51, where would I, where are these videos?
MR. CLARK: Okay. I need my video control sheet.
CHAIR: Sorry, do you need a copy?
MR. CLARK: No, I've got one. Thank you, sir. Okay. Let us start with road walker.
CHAIR: Sorry?
MR. CLARK: Road walker, and he is --
CHAIR: Hold on. You have to show us where --

MR. CLARK: Yeah, on, on the video control sheet, sheet two.

MS. DOPKIN: Next to the last one.

CHAIR: Rural road walker from 10/14/18?

MR. CLARK: Yes, right.

CHAIR: All right. Now, you have another one, dash cam E road walker on page one.

MR. CLARK: Yeah, that, that, that's, that's, that's from where the snippet was taken. That's, that's --

CHAIR: Okay.

MR. CLARK: -- my effort to try and --

CHAIR: That's fine. I just, for purposes of the record, they say the same designation. Rural road walker A-4 thirteen seconds 10/14/18 taken by you on page two, Exhibit 51. Is this something that previously, I guess it had to have been made part of the A-4 previously?

MR. CLARK: Yeah, it's not new, right.

CHAIR: All right. So that means Mr. Schmidt would have had the opportunity to review this previously.

MR. SCHMIDT: I think we saw that in the hearing.

CHAIR: I, as, as far as I recall, I don't recall seeing this.

MR. SCHMIDT: Okay.

CHAIR: That is in terms of what has been presented actually during the course of the hearing.

MR. SCHMIDT: Yes, sir.

CHAIR: Recognizing it's on the disc and you've had the opportunity to review it previously. So, with that in mind, we can hit play. All right. Now if we hit stop right here.

MR. CLARK: All right, stop, stop.

CHAIR: Dr. Clark, please identify what we are looking at.

MR. CLARK: Actually, what we are looking at is Harford Road south of the property, just south of the property, above Hutschenreuter Road.

CHAIR: And we're heading north?

MR. CLARK: South.

CHAIR: We're heading south?

MR. CLARK: Right. And you see that black splotch on the right?

CHAIR: Okay.

MR. CLARK: On the shoulder? That, watch, watch him carefully.

CHAIR: Hold on. I need to make sure I understand what this is. You're heading away from the property?

MR. CLARK: Yep.

CHAIR: And this is south of the property --

MR. CLARK: Right.

CHAIR: -- correct?

MR. CLARK: Right.

CHAIR: All right. Now, you said it's before Hutchenreuter Road?

MR. CLARK: Hutchenreuter Road is, is down around that bend.

CHAIR: Okay. So, it's after the bend there?

MR. CLARK: Right. And, and, and this is, and I just pulled out of my driveway, which in the County is called Mark Lane.

CHAIR: Understood, okay.

MR. SCHMIDT: How far away is this from the Bonaparte entrance?

MR. CLARK: The Bonaparte property is right there on the left.

MR. SCHMIDT: Okay.

CHAIR: So you're traveling alongside?

MR. CLARK: Right.

CHAIR: And this is you after you pulled out of your driveway?

MR. CLARK: Correct. Yes, sir.

CHAIR: Okay. So, that gives us a starting point, thank you.

MR. CLARK: Now, now, before she starts it again, all right? Joyce, can you put the cursor on the, the guy on the shoulder, right there, okay?

CHAIR: I understand that's where we keep our focus on.

MR. CLARK: Right, focus there because it goes by fast.

CHAIR: Understood.

MR. CLARK: Okay, go ahead.

VOICE: Play?

MR. CLARK: Yep.

CHAIR: Oh, wow, that was fast.

MR. CLARK: Go back, we missed it. But I, I, what I do is I --

CHAIR: Okay, just start it. Everyone stop talking. Let's just start from here and then see where that takes us.

MR. CLARK: All right.

CHAIR: Thank you. Okay.

MR. CLARK: All right. And anyway, there's a rural road, you know, people use, people use that as, as a walkway. I do have screenshots of it.

CHAIR: It's, it's okay. It's understood that you can find pedestrians along the roadway on the side of the road.

MR. CLARK: Right.

MR. SCHMIDT: Did I miss something or did it --

CHAIR: It, it de-pixilated and then jumped. But, I mean, I, I don't think it's disputed that --

MR. SCHMIDT: People walk on the road.

CHAIR: -- people can, people have the ability to walk along the roadway.

MR. CLARK: And then, and, and then look at --

CHAIR: And people, in fact, do is what I'm hearing from, from Dr. Clark, is that fair to say?

MR. CLARK: Yes, yes.

CHAIR: Okay.

MR. CLARK: And that you can see the guardrail on the shoulder.

CHAIR: Right. So, there's limited space you're saying --

MR. CLARK: Right.

CHAIR: -- between the guardrail and the shoulder.

MR. CLARK: Yes, sir.

CHAIR: The shoulder is striped.

MR. CLARK: Okay.

MR. HOLZER: Excuse me. We have photographs to make it clearer.

CHAIR: Okay. I'll say this, Dr. Clark, in the interest of expediency. If the testimony is going to be that there are occasionally pedestrians, cyclists who are on Harford Road in this stretch, we don't necessarily need to see videos of it. I imagine that the people are doing this. You've seen it, you can probably testify to those points, I'm assuming. That is, you've seen people out walking, you've seen people

cycling, right?

MR. CLARK: Yes, sir.

CHAIR: So, just to avoid the same situation where we had to de-pixilate and then jump and doesn't give an accurate portrayal of what you were trying to show.

MR. CLARK: Um hm.

CHAIR: Is it your testimony that you have seen people walking along Harford Road heading south?

MR. CLARK: Yes, sir.

CHAIR: And that is before Hutschen, Hutschenreuter Road?

MR. CLARK: Yes, sir.

CHAIR: Okay and then heading north?

MR. CLARK: Heading north, I actually walk on Harford Road north. When, when I have my car serviced up there at Carl's Service Station.

CHAIR: Is that, where, where's Carl's?

MR. CLARK: That's up in Fork.

CHAIR: Fork, is that at the light at Fork?

MR. CLARK: Yes, it's at the light.

CHAIR: Okay.

MR. CLARK: And you know, that, that's --

CHAIR: Is that where the post office is?

MR. CLARK: Yes, sir.

CHAIR: Okay.

MR. CLARK: All right and I, you know, I grew up walking four or five miles a day, you know, to go, to get someplace. We didn't have a car. So, for me to walk along that road, it's not a big deal. But I, you know, I'm mindful of the, the, the, the sight problems.

CHAIR: So, you are using these videos to show us the sight problems but also, as you pointed out earlier, the guardrail and the shoulder space?

MR. CLARK: Yes, yes.

CHAIR: Okay. Now, as to cyclists, have you seen people on bicycles going south, starting from your driveway, to Hutchenreuter Road?

MR. CLARK: Yes, sir.

CHAIR: Have you seen them coming north from Hutchenreuter Road up to Mount Vista?

MR. CLARK: Yes, sir.

CHAIR: People heading northbound, okay.

MR. CLARK: Yes, sir. In fact, fairly, there, there's a couple events, you know, these, these fundraiser events where it is used as the route. What, the, I don't want to show a video if I don't have to, --

CHAIR: I'm not suggesting yes or no. I'm just figuring out what you're --

MR. CLARK: Yeah.

CHAIR: -- trying to do. But you have firsthand

knowledge because one, you have done certain things but you've also seen certain things.

MR. CLARK: Yes.

CHAIR: So, even independent of any video, if there's any future issue, we can, your testimony is already in the record on these points.

MR. CLARK: Yes, sir.

CHAIR: So, okay. So, now we have this photo here, which is, just to go through it, which is fifty-eight? Okay, fifty-eight.

MR. HOLZER: Two pages.

CHAIR: Now, fifty-eight shows a still shot, and it shows the beginning, more or less, of the video after you pulled out of your driveway, is that correct?

MR. CLARK: Yes, sir.

CHAIR: And the person who is walking or on the bike and forgive me, I don't have my reading glasses on, --

MR. CLARK: He's walking.

CHAIR: Okay. Who is up on the right, which you previously indicated on the video with the cursor as the same as --

MR. CLARK: Yes, sir.

CHAIR: -- what we saw, just saw on the video?

MR. CLARK: Yes, sir.

CHAIR: I am assuming then page two, had the video

not jumped and de-pixilated, we --

MR. CLARK: Yes, sir.

CHAIR: -- would have seen that very picture. And that gentleman is still the same person as, on page one, also in the video?

MR. CLARK: Yes, sir, and --

CHAIR: This, go ahead.

MR. CLARK: Okay. You will see how we are in the habit, when we come across a pedestrian, we actually cross into the double yellow line.

CHAIR: I don't think you're alone in that, I think that it's --

MR. CLARK: Right, but --

CHAIR: -- a common occurrence for most if they someone on the side of the road, they try to --

MR. CLARK: Yes.

CHAIR: -- give as much space as possible, typically speaking. Speaking of which though, for Exhibit 58, Mr. Schmidt, do you have any objection to the admission of Exhibit 58?

MR. SCHMIDT: No. Mr. Clark, you were driving and this is your car you took this?

MR. CLARK: Yep, that is my 2007 Jeep Liberty.

MR. SCHMIDT: Okay. Okay, do you know this fellow?

MR. CLARK: No.

MR. SCHMIDT: Okay.

MR. CLARK: No, in fact, we have seen homeless people on there, you know, it's, it, you know, it just is.

CHAIR: Okay. So, fifty-eight is admitted.

MR. HOLZER: Thank you.

CHAIR: Sure thing.

MR. HOLZER: Now, now Mr., the Chairman has already indicated about a cyclist. We have a pictures, still pictures of the cyclist. Do you have a video or should I just show --

MR. CLARK: Well, the, the, the, the only reason, the only reason I would show the video is it would, is, is it shows clearly how people have to cross the road to avoid a cyclist, passing a cyc, when they're passing a cyclist.

CHAIR: Well, I'm going to caution everyone there, only that this cyclist video, if I'm reading fifty-one correctly, was taken on December 7th, which is after, of course, the November 29th --

MR. CLARK: Right.

CHAIR: -- day we had the review, the videos and everything, and therefore, Mr. Schmidt has not had the opportunity to see this video --

MR. CLARK: You're absolutely correct, yes.

CHAIR: So, with that in mind, first, let's show Mr. Schmidt the photos.

MR. CLARK: And we do have --

CHAIR: One second, Mr. Clark, there's no question pending.

MR. CLARK: Sorry.

CHAIR: Mr. Schmidt?

MR. SCHMIDT: Yes, sir?

CHAIR: In looking at these photos, do you have any objection to the photos?

MR. SCHMIDT: I do not.

CHAIR: All right. We can admit the photos then, Mr. Holzer.

MR. HOLZER: All right, thank you. Mr. Clark, --

CHAIR: So, as to the video, --

MR. HOLZER: Yeah.

CHAIR: -- Mr. Schmidt, what is your position on the video?

MR. SCHMIDT: I haven't seen it. I mean, if it shows this, is that what you're asking?

CHAIR: Well, I'm asking, do you want to have the opportunity to view the video?

MR. SCHMIDT: Mr. Clark, does the video show this? Is it the same deal that we just had with the guy walking?

CHAIR: Exhibit --

MR. CLARK: Yes, this is a screenshot from the video.

MR. SCHMIDT: Okay.

CHAIR: Fifty-nine is a screen shot from the video.

MR. SCHMIDT: Okay. I don't have, I don't have to see it.

CHAIR: Okay. Mr. Holzer?

MR. HOLZER: I'd like to show it.

MR. SCHMIDT: Oh, okay.

CHAIR: Then, that's why, what I'm hearing is --

MR. SCHMIDT: Then I'll watch it.

CHAIR: -- he's saying go ahead, show it.

MR. HOLZER: Thank you.

MR. SCHMIDT: Yeah, go ahead, show it.

MR. CLARK: Now, yeah, I don't know if you saw how far out a field the van had to go.

MR. SCHMIDT: Well, he wasn't crossing the center line, was he?

CHAIR: Well, hold on. We're not getting to a debate as to what the video is showing.

MR. CLARK: Yeah, he was, yeah.

MR. SCHMIDT: Okay.

MR. CLARK: Joyce, can you slow it down?

VOICE: I'm not sure.

MR. CLARK: Okay. There's the bicyclist, you just passed it.

VOICE: Okay.

CHAIR: I think what he wants you to do is go back a little farther, if you don't mind.

MR. CLARK: Right there, and go back a little bit further from there. Right.

CHAIR: That's good, probably there, right?

MR. CLARK: Yeah.

CHAIR: Okay, let it play.

MR. CLARK: Now, watch him cross, he cross, see how far over the line he was?

CHAIR: Okay.

MR. CLARK: And he's coming back into the line now.

CHAIR: Hold on, that, where we have stopped up there appears to more or less reflect what's fifty-nine anyway.

MR. CLARK: Um hm.

CHAIR: So, as to its interpretation, whatever someone's position is as to that, obviously we can see the photo, we can see the video, as to what it means, I understand because it seems to be there may be a dispute between Mr. Schmidt and, and Dr. Clark on that. We don't need to go into any argument as to --

MR. SCHMIDT: It shows what it shows.

CHAIR: It shows what it shows.

MR. SCHMIDT: Speaks for itself.

CHAIR: Thank you very much. All right. Is there anything more in that video you wish for, to show us?

MR. CLARK: No.

CHAIR: Okay. So, we're done with that video.

MR. HOLZER: Are there any other videos that relate to how the road is actually used and haz, and any hazards?

MR. CLARK: I lost my place.

CHAIR: We did pedestrians and we did cyclists.

MR. CLARK: Oh, oh, oh, oh, yes, there are. I would like to show you how tractor trailers have to, have to cross the double yellow line to make those turns, okay? First --

CHAIR: When you say make the turns, you mean go around the bend?

MR. CLARK: Go around the curves, yes.

CHAIR: Okay.

MR. CLARK: Okay.

CHAIR: So, let's start with fifty-one. Where would that be on fifty-one?

MR. CLARK: All right. Dash cam B low boy, right after cyclist.

CHAIR: Okay. So, this is, it would be on disc A-2. This is something that Mr. Schmidt would have received previously.

MR. CLARK: Correct.

CHAIR: And would have been able to see previously.

MR. HOLZER: And this is sixty? Yeah.

MR. SCHMIDT: Sixty. Mr. McComas, are you labeling these A and B when it's two pages? Or just sixty?

MR. MCCOMAS: I didn't (inaudible).

MR. SCHMIDT: Okay. Just --

CHAIR: Yeah, we just, we're just labeling it --

MR. SCHMIDT: Just calling it sixty? Okay.

CHAIR: We'll identify for the record if there are two pages as we, to the extent that that's needed.

MR. HOLZER: Right, right.

MR. MCCOMAS: My description I'm putting two pages, but I don't have A and B.

CHAIR: So, Exhibit 60 is two photographs, so when discussing them, if you're discussing a distinction between them, you have to specify page one, page two, Exhibit 60.

MR. CLARK: Yes, sir.

CHAIR: All right. So, with that in mind, what is it you want to tell us about Exhibit 60?

MR. CLARK: Sixty shows a, a heavy truck, a tractor trailer carrying heavy equipment and to make that, to make that turn down below they all always have to cross that line.

CHAIR: Correct me if I'm wrong here, in terms of orientation, but are we looking at the, more or less the same, this is after you pull out of your driveway and you're facing, bless you.

MR. SCHMIDT: Excuse me, excuse me.

CHAIR: You're facing south?

MR. CLARK: South and Hutschenreuter, we haven't hit Hutschenreuter yet.

CHAIR: Right, because if you compare page one of Exhibit 58 to page one of Exhibit 60, it looks to be roughly, you can see the similar features --

MR. CLARK: It's almost identical, yes.

CHAIR: Although you are closer in Exhibit 60 than you are in fifty-eight.

MR. CLARK: Yes.

CHAIR: Thank you. Bless you, Mr. Schmidt.

MR. SCHMIDT: Excuse me, I'm sorry.

CHAIR: Mr. Holzer, back to you.

MR. HOLZER: Are we going to show this video now or you want to describe these pictures first?

MR. CLARK: Pictures, page one of Exhibit 58, --

MR. HOLZER: Sixty.

CHAIR: Sixty.

MR. CLARK: -- sixty, page one of, of Exhibit 60 shows a tractor, a low boy carrying a piece of heavy equipment and in order to make that curve down there, he has to cross the double yellow line.

MR. SCHMIDT: And, and I just object in order to make that --

CHAIR: Please stand up if you're, if you're objecting.

MR. SCHMIDT: I'm sorry. In order to make that curve down there. I mean, it shows what it shows.

CHAIR: He, he's providing --

MR. SCHMIDT: He could be asleep, he could be drunk, he could be any number of things.

CHAIR: Mr. Schmidt, it's being received for what it is.

MR. SCHMIDT: Oh, what it shows.

CHAIR: For what it shows.

MR. SCHMIDT: I object to the commentary that this man couldn't make the curve driving this truck unless he crosses the center line.

CHAIR: Let me ask you this, Dr. Clark, have you seen other tractor trailers in this area?

MR. CLARK: That is my testimony.

CHAIR: Okay. So, the other tractor trailers you see in this area, what do you see of them as they come around the curve?

MR. CLARK: They all cut the curve.

CHAIR: And in a similar position, as to where Exhibit 60 --

MR. CLARK: Yes.

CHAIR: -- and the truck is shown?

MR. CLARK: Yes, sir.

CHAIR: On page one and two?

MR. CLARK: Yes, sir.

CHAIR: All right.

MR. SCHMIDT: Mr. Garber, I'm, I'm, I'm sorry. The photographs speak for themselves and I just object to the witness' embellishment, that's all.

CHAIR: And I under, and I understood that, Mr. Schmidt. And I was trying to get an understanding as to why he said what he said. And he has clarified that point. Mr. Holzer?

MR. HOLZER: I don't have anything to say.

CHAIR: Back to you.

MR. HOLZER: Okay. Are we going to show the video?

MR. CLARK: Yes, we should. And it, and, and to clarify, it is my testimony that trucks do that on a regular basis.

CHAIR: Well, you did testify to that slightly earlier but here we are --

MR. CLARK: Thank you, sir, yeah.

CHAIR: -- with the specific photos.

MR. CLARK: This is why we had photos. Oh, cut the sound, cut the sound. Sorry about that.

MR. HOLZER: For some reason there's a glare on it, I can't see anything.

CHAIR: I would agree with that.

MR. HOLZER: Can we turn the lights off?

MR. CLARK: This is coming out of my drive.

CHAIR: There we go.

MR. CLARK: Sorry, I should have made this snippet shorter.

CHAIR: It's quite alright.

MR. CLARK: All right. So, there's Harford Road and my, and Mark Lane.

MR. HOLZER: Did you stop at the stop sign?

MR. CLARK: I do. All right, and you'll start there.

CHAIR: All right. I assume that's what you wanted to show us?

MR. CLARK: Yeah, that's it, that's it, yeah.

CHAIR: Okay.

MR. CLARK: You can kill it, Joyce. Thank you.

MR. HOLZER: All right. Are there any other examples related to the road that we need to address?

MR. CLARK: Yeah, there's a, coming south from the traffic circle, okay? We have dash cam C, truck crossing.

MR. HOLZER: I don't see --

CHAIR: Which was taken October 22nd and it's on disc A-2, Mr. Schmidt therefore would have had the opportunity to have reviewed it in advance.

MR. CLARK: Right.

VOICE: Ready?

MR. CLARK: Yep.

CHAIR: No, hold on. Hold on. There are photographs.

MR. HOLZER: There are photographs.

CHAIR: Mr. Schmidt gets that first.

MR. SCHMIDT: Oh, thank you.

CHAIR: Thank you. Is this sixty-one? All right. Looking at photos sixty-one page one and two, what is it you want to tell us about those?

MR. CLARK: Well, page one I want to tell you that that wasn't supposed to be in there. I don't know why --

CHAIR: Page one is not supposed to be there?

MR. CLARK: Yeah. I don't know why I was concerned about the guy crossing, well, all right, leave it there. Because it shows how people cut to shoulder too.

CHAIR: Okay. So, going to, to page two of Exhibit 61.

MR. CLARK: And there you have the tractor trailer having to cut the curve, to cut the yellow lines there to make his turn. This is, this is the very turn that Mr. Collagero says is, is so dangerous.

CHAIR: Hold on. Again, to identify it, where is this in relation to this --

MR. CLARK: This is --

CHAIR: -- hold on, wait for my question. Where is this in relation to the subject property?

MR. CLARK: The subject property is on the left. It is just south of Bonaparte Ave and Harford Road, which is --

CHAIR: So, this is after the entrance way for the subject property?

MR. CLARK: Going south.

CHAIR: Right. And we should be, if we were to follow this photo along, your property will be up, well past where the tractor trailer is off on the right?

MR. CLARK: Correct, sir.

CHAIR: All right.

MR. CLARK: Thank you.

CHAIR: So, we now we have --

MR. SCHMIDT: This is sixty-one?

CHAIR: This will be sixty-one. So, we have the orientation of the photos.

MR. CLARK: Are, are heading south.

CHAIR: Yeah. No, we got that.

MR. CLARK: Okay. I'm sorry.

CHAIR: Yes, thank you. So, you want to then show us a video that shows --

MR. CLARK: Well, I would also draw your attention to the arrow mark.

CHAIR: Okay.

MR. CLARK: All right? That is --

CHAIR: There's an arrow mark in the top roughly center of the photo.

MR. CLARK: Right.

CHAIR: On page two.

MR. CLARK: Right. That is the, that is the very area that Mr. Collagero was so concerned about.

CHAIR: All right. Coming out of the circle?

MR. CLARK: Yep. I don't know why that's, oh, that's her, that's her computer. Sorry, Joyce. All right and there's Mr. Poehler's house on the left. There's Bonaparte on the right. There's the property entrance on the left. And there he goes.

CHAIR: Okay.

MR. CLARK: I will testify that I have seen --

CHAIR: Hold, there's no question pending. Mr. Schmidt, you have any objection to sixty (inaudible)?

MR. SCHMIDT: Not one bit, no, sir.

CHAIR: Those two are admitted.

MR. HOLZER: Do you have any exhibits of trucks crossing the line at night?

MR. CLARK: No, but I do have, showing what happens when the tractor trailers are going in the opposite direction at night.

MR. HOLZER: Okay and is that a video or just the pictures?

MR. CLARK: I think that's a video.

CHAIR: Okay. Where is that located on fifty-one?

MR. CLARK: That, that is dash cam D, night semi Glen

Arm.

CHAIR: That was taken June 28, 2018, therefore, located on A-2, Mr. Schmidt would have had a copy in advance, or been able to view it in advance.

MR. CLARK: Or do I, do I have a photo of it?

MR. HOLZER: You have, --

MR. CLARK: I, I probably, yes, --

MR. HOLZER: -- I can't, it appears there's only one page.

MR. CLARK: Yeah. Mr. Garber, I'm sorry, I was up real late last night.

CHAIR: That's quite alright, Dr. Clark. You can tell us when you receive the photo whether or not that's the photo you, you think may exist that shows what you're talking about.

MR. CLARK: Yeah.

CHAIR: So, photo, Protestant's Exhibit 62, which is one page photo at nighttime, what does it depict?

MR. CLARK: It depicts going east on Glen Arm Road up towards Harford, okay? And this is how narrow the roads are and at night you can see, you can just barely make it out in, in, in, with the contrast of this photograph. But that's the truck body and then my car is where the car is.

CHAIR: Okay, hold on. At the, where the arrow signs are at the top center of the photo, the, the only, really the

visible portion of the photo, is that Glen Arm or is that Harford?

MR. CLARK: That is Glen Arm.

CHAIR: So, Harford is past this point?

MR. CLARK: Harford is up the hill.

CHAIR: Right.

MR. CLARK: It, it's, yes, yes. About, about a quarter of a mile.

CHAIR: Okay. Mr. Schmidt, anything?

MR. SCHMIDT: No, sir.

CHAIR: Do you wish for this to be admitted?

MR. SCHMIDT: Yes, sir.

CHAIR: All right. Well, that was easy. So admitted.

MR. SCHMIDT: If you can tell what it is, that's fine.

CHAIR: Well, now we have a description as to where it is.

MR. SCHMIDT: Right.

CHAIR: Okay.

MR. SCHMIDT: Half a mile away or so.

MR. CLARK: Quarter mile away.

MR. SCHMIDT: Quarter mile away from Harford?

MR. CLARK: Yes.

CHAIR: Mr. Holzer?

MR. HOLZER: Okay. Do you want to show the video of --

MR. CLARK: Yeah, because, because there's questions about where the truck body is here.

MR. HOLZER: Right, okay.

MR. CLARK: So.

CHAIR: Well, I should ask this, you know, in relation to where the subject property is, I mean, this is, if it's a quarter mile away from Harford Road, therefore, it's an additional amount of distance away from the subject property.

MR. CLARK: Yeah, I, I'd say, as, well, as the crow flies, since that seems to be so popular, it would be half a mile.

CHAIR: Okay.

MR. CLARK: It's, it's in the, it's in the locale.

CHAIR: Okay.

MR. SCHMIDT: It's typical of the locale, of the roads in the locale.

MR. CLARK: Thank you, sir. I appreciate that.

MR. HOLZER: Are we going to show it?

MR. CLARK: Yes.

CHAIR: If you would, if you would like to show it.

MR. HOLZER: Just, go ahead.

MR. CLARK: Now, her, I'm sorry.

CHAIR: It's all right. Are you, are you on Harford

Road there or Glen Arm?

MR. CLARK: No, no, that's Glen Arm. That, the whole clip is Glen Arm.

CHAIR: On approach to Harford?

MR. CLARK: Yes, sir. And, you can, you can end it, Joyce. If you need to see it again, but, you know, the, the idea is is the clearances and all of that, you know.

CHAIR: Understood. Sixty-two has been admitted.

MR. HOLZER: Thank you.

CHAIR: Sure.

MR. CLARK: And, and I would like --

CHAIR: There's no question pending at the moment.

MR. CLARK: Okay.

MR. HOLZER: All right. Are, we're finished with the pictures of, of the road and the vehicles on the road, cyclists and so forth, is that correct? Yes or no?

MR. CLARK: Yes.

CHAIR: Hold on. Thank you. All right.

MR. HOLZER: Okay. Can we go to any testimony in regard to the sight, required sight distances and in terms of Mr. Collagero's testimony? Do you have any comments about that?

MR. CLARK: Yeah, yes, yes, I do. And this is just as someone who knows how to add two plus two.

MR. HOLZER: You're not an ex, traffic expert?

MR. CLARK: No, but I know how to subtract.

MR. HOLZER: Okay. All you knew is know how to add two and two and subtract, is that --

MR. CLARK: And sometimes I get five, but you know,--

MR. HOLZER: Okay, so --

CHAIR: Well, we'll, we'll cross that bridge when we come to it.

MR. HOLZER: All right. So, what is your comment about his testimony?

MR. CLARK: Well, his testimony on day three, he confirmed that both intersection sight distance and decision stopping distance cannot meet SHA requirements, all right? At the required forty-five and fifty miles an hour, okay?

MR. HOLZER: Do you --

CHAIR: With, hold on, with the existing, are you talking about from the existing entrance way?

MR. CLARK: And, and he said, no matter what they do.

MR. SCHMIDT: How, how about if the witness just testifies what he wants to say instead of giving us a description of what he thinks Mr. Collagero and what he thinks everybody else said? The record is what the record is. And he, if he wants to say whatever he, he wants to say but this, it's not even a question and answer, it's a speech and --

CHAIR: So you object?

MR. SCHMIDT: I do. It would be nice if he could

just testify.

CHAIR: Thank you.

MR. HOLZER: Let me go, let, let me rephrase it. Can you testify as to the facts that you're familiar with, having read Mr. Collagero's testimony on day three, and if you know where it was you can point that out, and why it may or may not be correct?

MR. CLARK: Yes. He test, he, he clearly testified--

MR. SCHMIDT: When?

CHAIR: Hold on. Mr. Schmidt, this is not cross examination.

MR. CLARK: On day three. On day three.

CHAIR: He's responding to Mr. Holzer's question. If you have an objection, you know you have to stand for objection and say you have an objection. Right now we're in the middle of Mr. Holzer's question to Dr. Clark. Dr. Clark started his answer so day three, Collagero testimony, go ahead.

MR. CLARK: Okay. He testified that at the specified speed, at, at the posted speeds, all right? He could not meet the five hundred and thirty-one foot requirement by the SHA for sight distances. And he also could not meet the decision, stopping sight dis, decision stopping distance.

CHAIR: Okay. The next question is what are you going to provide by way of testimony that either amplifies or contradicts or otherwise provides some type of insight into

that testimony?

MR. CLARK: Okay. We, we have his, we have his testimony.

CHAIR: Right. So, what are you saying, what are you saying about his testimony?

MR. CLARK: I'm saying it's incorrect.

CHAIR: Okay. How is it incorrect?

MR. CLARK: Or, not incorrect, I'm saying that he test, that, I'm, I'm restating the fact.

CHAIR: Are you, hold on, just to clear, clarify. Are you just saying Mr. Collagero testified to this, I agree with what he said? Is that, is in essence what I'm hearing?

MR. CLARK: Yes, and that he cannot meet the requirements.

CHAIR: Okay. Well, we obviously do not need testimony on that point.

MR. HOLZER: No, that's all it is.

CHAIR: Because it's in the record, it is what it is.

MR. HOLZER: Exactly.

CHAIR: Mr. Schmidt, I realize you are frustrated. It is okay, we understand what's going on and Mr., Dr. Clark has, whatever he wants to say about it, we've obviously identified where that was going and we have no need to go further with that point. It is what it is. Thank you. Mr. Holzer?

MR. HOLZER: Okay. So, you disagree, no, that's what you do. You're just saying, as I understand it, that he testified that he could not meet the State Highway requirements, correct?

MR. CLARK: Correct.

MR. HOLZER: Okay. So, you're not challenging what he said or any math analysis, --

CHAIR: Hold on. Again, again, this point we don't, it's, if it's in the, if it's in the record --

MR. HOLZER: I'll withdraw it, I'll withdraw the question.

CHAIR: I know. Just by way of illustration, here's what I'm understanding your testimony to be. We open the transcript, you're in essence taking a yellow highlighter saying this testimony, look at this.

MR. CLARK: Yes, sir.

CHAIR: Which is what Mr. Holzer will do in his closing memo.

MR. CLARK: Yes, sir.

CHAIR: Which is why we do not, please sit up straight too.

MR. CLARK: Oh, I'm sorry.

CHAIR: Thank you. Which we do not need to have testimony from you as to pointing out where in the transcript it may or may not speak to the issues of which you want to

raise to us. Mr. Holzer certainly will be pointing that out in a closing memo.

MR. HOLZER: Exactly.

CHAIR: On argument. So, you don't need to put that into the record. It is what it is.

MR. HOLZER: Right, thank you.

CHAIR: Sure.

MR. HOLZER: Are there any other aspects of Mr. Collagero's testimony that you either want to point out using a yellow underline, as Mr. Garber said, or disagree with?

MR. SCHMIDT: Objection. I mean, --

CHAIR: Hold on, Mr. Schmidt, hold on.

MR. SCHMIDT: -- I'm sorry --

MR. HOLZER: Well, I'm tired of --

CHAIR: Hold, everyone. Everyone hold on. There's an objection. We're doing this the proper way. Mr. Schmidt is standing up, he has an objection. What is the basis for your objection?

MR. SCHMIDT: Mr. Garber, as I understood your comments thirty seconds ago, you indicated to the witness that, and to Mr. Holzer, that it was not necessary for Mr. Holzer to ask this questions, question this witness about the points that he agreed or disagreed with Mr. Collagero on. As Mr. Holzer and no doubt I will point out by line and verse and page the sections of the testimony that we think are germane, where we

agree, where we disagree. I thought you explained that. The very next question we get is where else --

MR. HOLZER: (inaudible).

CHAIR: What?

MR. HOLZER: I'm bleeding. I hit my hand and I'm bleeding. I'd like to stop a second and go wash it off.

CHAIR: Okay.

MR. HOLZER: I was dripping all over my --

CHAIR: All right, all right.

MR. HOLZER: Can I take a one minute break?

CHAIR: We'll have, we'll have a five minute break to attend to this issue. And then we'll circle back to where we are. Do you need to go to the bathroom to rinse off --

MR. HOLZER: Yes, yes.

CHAIR: It's fine. We'll take, whatever you need --

MR. HOLZER: One minute.

CHAIR: Okay.

MR. HOLZER: I got a band aid, I'll put it on.

CHAIR: One minute break, we won't even leave, we'll stay right here.

MR. HOLZER: All right, thank you.

(RECORDING PAUSED – 02:28:41 PM)

(ON RECORD – 02:31: 56 PM)

MR. HOLZER: I apologize for screaming.

CHAIR: Nothing to apologize for.

MS. DOPKIN: Ready?

CHAIR: Yes, all right. We're, we're, yes, I see that. We are back on the record. Mr. Schmidt had objected. I understand the basis of the objection was it is the exact same type of question that was just objected to and sustained by the Board. Mr. Holzer, do you have any response to that?

MR. HOLZER: I didn't even hear it and I don't, I'll withdraw the question if that makes it easier.

CHAIR: Okay. In short, we don't need him to identify what he thinks we should, our attention should be drawn to because that, you'll be doing the same thing on, in your closing memo for your client.

MR. HOLZER: If I'm competent enough to do that.

CHAIR: I'm assuming, I've already assumed that to be the case.

MR. HOLZER: All right. All right. Let's, let's see if we can get through some more. Mr. Clark, in terms of any comments you'd like to make in regard to Mr. Collagero, and please sit up.

CHAIR: Thank you.

MR. HOLZER: Is there anything else, I, I'm sorry if I misunderstand the Board's ruling, but are there any other comments that you would like to point out that you disagree with Mr. Collagero, if that's, if I'm overstepping my bounds, let me know.

CHAIR: Well, you, I already know where Mr. Schmidt would be going with that question. He's not an expert to be able to, hold on. He's not an expert so is there something that he thinks factually was incorrect as part of his calculations or as part of his analysis that is different than what Mr. Collagero may have applied based on his experience and living within the area, or something to that effect.

MR. HOLZER: Okay.

CHAIR: Obviously, that would be fair ground. But if he's to critique Mr. Collagero's work, that is, you didn't apply the right formula, you didn't take into account the following things --

MR. HOLZER: Yeah, he's not an expert.

CHAIR: Right, that's where that runs afoul, that part of it. So, to steal what I'm sure to be Mr. Schmidt's thunder on that, let's confine it to factual matters that Dr. Clark would have some familiarity with.

MR. HOLZER: Gotcha. Are there any other comments relative to the traffic analysis, ab, absent your being a traffic expert, that you would like to do, persistent to Mr. Garber's clarification? Do you understand?

MR. CLARK: Yeah, I do.

CHAIR: Okay.

MR. CLARK: With trepidation. All right. When, when I test, when, when, I'm trying, I'm trying, I'm trying to, we

had, oh, that's what it was, it was at a preliminary motion, okay. But we had submitted maps, photographs and a statistical report generated by the Baltimore County Police Department --

CHAIR: I believe that was submitted into evidence.

MR. CLARK: Yes, it was.

CHAIR: It was used in cross examination of Mr. Collagero.

MR. CLARK: Yes, okay. So, so, so we submitted that and we had forty-one accidents.

CHAIR: Hold on. Are you going to be arguing about what was set forth within that document, which again, would be subject, what Mr. Holzer will be doing --

MR. CLARK: No, no, --

CHAIR: Or what, where are you going with this?

MR. CLARK: The only, the only thing, the only way we can, I can say is to say it.

CHAIR: Okay.

MR. CLARK: And Mr. Collagero, all right, now we had specified Mark, or Hartley Mill to Mount Vista Court. Mr. Collagero instead analyzed the, didn't even analyze, commented on thirty-one reports between Hutschenreuter Road and Mount, or Vista View Court, which was, which was apples and oranges.

CHAIR: In other words, the report that you, correct me if I'm wrong that this is what you're saying, the report that was submitted on behalf of Protestants spoke to a

different boundary than what Mr. Collagero did and, therefore, the two, if you compare them side to side, you're now talking about the same set of data from which --

MR. CLARK: Correct.

CHAIR: -- you can extrapolate whatever conclusions and analysis and everything?

MR. CLARK: Correct. Plus, plus we used a primary source of data. The, the Baltimore County Police reports, he testified he used some secondary source of data from some website.

CHAIR: Okay. So, with respect to this testimony, again, this is more of an argument that should be reserved for Mr. Holzer.

MR. CLARK: Yeah, okay.

CHAIR: On that point. I understand that there is a different, it'll be, there are some complications, we'll just put it like that.

MR. CLARK: Yeah.

CHAIR: To compare the two because you're talking about different roads and boundaries. Outside of that, is there anything else you wished to bring up then?

MR. CLARK: Yes, we, we did, we did pull all thirty-one written police reports.

CHAIR: Okay.

MR. HOLZER: Okay. Do you, in regard to that, you're

not proposing to discuss those at this point, are you?

MR. CLARK: No.

MR. HOLZER: Okay.

CHAIR: That was an emphatic no.

MR. HOLZER: Are there any, is there any other testimony presented by the Petitioners that you wanted to address under the conditions that the Board --

MR. CLARK: No, I, I, I, I, I think Mr. Garber is, you know, is, would, would say that the, that anything else I have to say would be covered in the, the, --

CHAIR: Would the argument reserved --

MR. CLARK: -- memo of law, right.

CHAIR: -- for Mr. Holzer. Okay.

MR. HOLZER: Is there any analysis of the, of Blue Iris videos that you choose to address now or can we do that at some other time, in some other way?

MR. CLARK: I, I, I, I think, this goes to the density of, of something, you know? All those Blue Iris videos are all showing --

CHAIR: And I'm lost here because I don't know what you mean by Blue Iris videos.

MR. CLARK: Oh, I, I'm sorry. That's when I set up the security camera at, at Ms. Foxworthy's to, to, to document --

CHAIR: The comings and goings of the vehicles.

MR. CLARK: Right, right.

CHAIR: Okay.

MR. CLARK: And, and, and that, and that just merely shows, is a record of the traffic that is introduced by these events. I don't, I think that probably fits in the memo of law.

CHAIR: Well, it would be, yes, I would, I would think that that would be something appropriate for the memo.

MR. HOLZER: Okay.

CHAIR: It's understood that these events had, you know, anywhere, whatever the numbers were, I'm not going to represent them because I don't recall that specific testimony.

MR. CLARK: Yeah, no, no.

CHAIR: But it was a greater volume than other days when there were not, when they don't have these festivals and events.

MR. CLARK: Well, and, and, and also what happens to southbound and northbound traffic that aren't going (inaudible).

CHAIR: Okay.

MR. HOLZER: In terms of Mr. Motsco's testimony, do you have anything that within the parameters of what the Board's outlined that you can address?

MR. CLARK: I think I do.

MR. HOLZER: Okay.

MR. CLARK: Okay.

MR. HOLZER: Could you articulate the first, I assume the first one?

MR. CLARK: Yeah. Mr. Motsco said he was unaware of any other proposed uses for the property. We have a, a draft that he provided to us in September and I --

CHAIR: September of ’18?

MR. CLARK: -- yeah, ’17, ’17, ’17.

CHAIR: Seventeen.

MR. CLARK: Seventeen, sorry, thank you.

MR. HOLZER: That Mr. Motsco provided.

MR. CLARK: Provided on, on, on the, on the 17th, or in July --

CHAIR: September 2017.

MR. CLARK: Thank you. And it, the endorsement does not say for a house of worship it says for a community center.

CHAIR: Okay. Do we have that document?

MR. HOLZER: And where is that document? Do we have it?

MR. CLARK: I think you’re being handed it.

CHAIR: And if we could show Mr. Schmidt first?

MR. HOLZER: Certainly.

CHAIR: And any copies to the Board.

MR. CLARK: Can I explain what --

CHAIR: Not yet.

MR. HOLZER: No, no.

CHAIR: Not yet.

MR. CLARK: Okay. I'm trying to save time.

CHAIR: I, no, I appreciate that. But we have to do this in a particular order so we don't get ourselves into trouble with other things. Okay, this is sixty-three, is that right, Mr. McComas?

MR. MCCOMAS: Yeah, it's going to be sixty-three, it's A through, call the first page sixty-three.

CHAIR: A?

MR. CLARK: A, yeah, then B, C, D, E, F, G. So, A through G.

CHAIR: All right. Mr. Schmidt, I see you have that in front of you. Dr. Clark, can you please identify what Protestant's Exhibit 63-A through G is supposed to be?

MR. CLARK: I need to see it, that's what I was saying.

CHAIR: You do not have a copy?

MR. CLARK: I do not.

MR. HOLZER: I didn't provide --

CHAIR: Here's an extra copy.

MR. SCHMIDT: This has been marked as sixty-three?

CHAIR: Sixty-three A through G.

MR. CLARK: Okay, all right.

MR. HOLZER: Now, before you go, answer that

question, is there another document that can explain what's on sixty-three?

MR. CLARK: We do have a, a copy that was submitted of this exact same drawing, okay? That was submitted at a later date in April of 2018, I believe, by Mr. Archia (phonetic), in support of his sign permit.

MR. HOLZER: Okay.

CHAIR: This will be sixty-four.

MR. HOLZER: I hope I gave you (inaudible) I think I did.

CHAIR: It's a one page document, correct?

MR. CLARK: Thank you, sir.

MR. HOLZER: That's correct.

CHAIR: Mr. Schmidt, I see you've had the opportunity to review it. So, Dr. Clark, Petitioner's, or Protestant's Exhibit 64, can you please identify what that is?

MR. CLARK: Sixty-four?

CHAIR: Yes.

MR. CLARK: This is a copy of the site plan submitted by Mr. Archia to the County when he applied for his sign permit.

CHAIR: Okay and what is it on sixty-four that you want to bring to our attention?

MR. CLARK: Well, sixty, all right, --

MR. HOLZER: I think --

MR. CLARK: I need to go back to sixty-three.

MR. HOLZER: -- with due respect, can he start with sixty-three?

CHAIR: I apologize.

MR. HOLZER: He hadn't done that.

CHAIR: Correct, sorry. Back to sixty-three.

MR. CLARK: All right. All right. Sixty-three is actually a series of pages showing a photo micrograph of the endorsement in the upper right hand corner.

CHAIR: Okay.

MR. CLARK: All right? Now, I'm sorry about the resolution and I think we have a better blowup of sixty-four. Mary, do we? And I apologize, but that's, I, I had, as you can see, I had to use a high power microscope to, to be able to read the endorsement, but basic, what the, what the endorsement said, req, requests, doesn't request a house of worship, it requests a community center for educational activities. And that is exactly the same document they provided to the County in support of their sign permit. So, Mr. Motsco knew that there were other, other proposed uses for this property.

MR. HOLZER: Before you make the objection, could I at least --

MR. SCHMIDT: I don't even know what it is. I don't even know what this is. I can't even read it.

CHAIR: All right, hold on, hold on, hold on,

everyone, okay. Mr. Schmidt, I understand 63-A through G you have an objection. But he, he just said --

MR. SCHMIDT: Mr. Garber, if, I believe, I believe this is Mr. Clark's microscope.

CHAIR: Yes, that's what his testimony was.

MR. SCHMIDT: And he, he apparently is enlarging this document. Since he has the document, wouldn't the best evidence rule, why doesn't he give us this document?

CHAIR: Hold on, hold on, sir. Hold on, sir.

MR. HOLZER: You already have it.

CHAIR: Hold on, sir.

MR. SCHMIDT: I mean, I, I can't, I don't even know what this is saying. I can't read this.

CHAIR: Look, Mr. Schmidt, Mr. Schmidt? We have the same copy as you. That's all I can tell you is that we have the same copy as you. It is as legible to us as it is to you, as to Mr. Holzer, as to Dr. Clark. Dr. Clark, I'm taking from the gesturing that's going on, sixty-four would be an eight and a half by eleven print, or copy, of the plan that's shown on 63-A, is that --

MR. HOLZER: That's correct. And I'm being interrupted before I even can complete it because this document, which I only have one page of, is a reflection of, of, of what is marked as Protestant's Exhibit 37, already in the evidence.

CHAIR: Okay.

MR. HOLZER: And it's a blowup --

CHAIR: Well, hold on. Let's, let's get that testimony from Dr. Clark.

MR. HOLZER: No, I, no, because he's making objections. I have a right to, to explain. He interrupted before I even got the third document in.

CHAIR: Hold on. Let's hit the reset button here. Here's my understanding of where we're at. Mr. Schmidt was, I heard him audibly complaining that he could not make heads or tails as to what was going on with sixty-three and sixty-four. I understand you have an explanation for that, but I understand there's one person probably in this courtroom who even has that explanation that we can get on the witness stand to say what that explanation is. Dr. Clark. He can probably tell us as to what's going on and we can clear this up and have it on the record and have it come from the witness.

MR. HOLZER: Sounds good to me.

CHAIR: Right. So, let's do that.

MR. HOLZER: So, I cannot give the Board this copy.

CHAIR: Hold on. May I have what, what you have there? Have you shown Mr. Schmidt first?

MR. HOLZER: No, because I interrupted.

CHAIR: Go show Mr. Schmidt, go show, okay. Fine. Go show, Mr. Schmidt.

MR. SCHMIDT: Mr., I was answering Mr. Garber's questions.

MR. HOLZER: Yeah, you were.

CHAIR: So, what has been labeled as Protestant's, Protestant's Exhibit 38.

MR. HOLZER: Thirty-seven and thirty-eight, that's correct.

CHAIR: Okay.

MR. MCCOMAS: It's thirty-eight.

MR. HOLZER: Yeah, is what --

CHAIR: Okay. Are they the same document?

MR. HOLZER: Yes.

MR. CLARK: Yes, sir.

CHAIR: Okay.

MR. HOLZER: Yes.

CHAIR: So, Mr. Schmidt, --

MR. SCHMIDT: Then why are we reintroducing them again?

CHAIR: -- hold on, everyone, hold on. Everybody. I'm asking counsel, Dr. Clark, just hold on one second. One at a time. Mr. Schmidt, do you have Protestant's Exhibit 38? Do you need a copy?

MR. SCHMIDT: If you have a copy that would be wonderful, I may have it somewhere in here, yes, sir. But I, I don't have it right in front of me.

CHAIR: Unfortunately, I dropped my file of exhibits and it's now all scattered so. Here you go. Yeah, why don't you give him the file one.

MR. MCCOMAS: Here's the file one.

MR. SCHMIDT: Thank you, Mr. McComas.

CHAIR: Thank you. All right. Now we all have the same playing field.

MR. SCHMIDT: Okay.

CHAIR: As to where we are. Now we can start proceeding with the questions.

MR. HOLZER: I don't have this, thirty, is it thirty-seven?

CHAIR: Thirty-eight.

MS. DOPKIN: Thirty-eight.

CHAIR: That particular page.

MR. HOLZER: Okay. I don't have more copies of it.

CHAIR: It's, it's already in the record.

MR. HOLZER: Okay.

CHAIR: It's already in the record.

MR. HOLZER: So I don't have to worry about it. So, if I may proceed, I would like to ask the witness, number one, can you identify exhibit number sixty-three and why it's in? Can you identify Exhibit 64 and what it shows? And can you identify what has been marked as thirty-seven, thirty-eight and its relevance to your testimony?

MR. CLARK: I answer yes to all the above.

MR. HOLZER: No, you answer what I asked you.

CHAIR: I understand what, let's, look at, look at sixty-four, please.

MR. CLARK: Yes.

CHAIR: In the upper right hand corner, there is a bunch of writing.

MR. CLARK: Yes.

CHAIR: Okay. Is that what Protestant's Exhibit 38 is?

MR. CLARK: Yes.

CHAIR: All right. Then explain Protestant's Exhibit 63-A, there's a, a plan that's identified in that photograph, correct?

MR. CLARK: Yes.

CHAIR: What is that plan and what is that plan's relationship with sixty-four and thirty-eight, Protestant's Exhibit 38?

MR. CLARK: That, sixty-three --

CHAIR: A.

MR. CLARK: -- A, shows the plan that was distributed at, at the September 2017 meeting.

CHAIR: Okay. Is that what Protestant's Exhibit 64 is?

MR. CLARK: Sixty-four is the exact same plan

submitted to the County in April of 2018 by Mr. Archia in support of his sign permit.

CHAIR: Okay. So, sixty-four may not be what's in sixty-three, correct?

MR. CLARK: It's not the same copy.

CHAIR: That's my question. Then thirty-eight is tied to sixty-four?

MR. CLARK: Yes.

CHAIR: And not necessarily sixty, sixty-three?

MR. CLARK: The, six, the Archia document and the document shown in this are the same, are, are copies of the same document.

CHAIR: I, I, okay.

MR. HOLZER: Yeah.

CHAIR: Mr. Holzer, maybe you could answer this.

MR. HOLZER: Sure.

CHAIR: Where did you get Protestant's Exhibit 38 from?

MR. HOLZER: We got Protestant's Exhibit 38 from the County itself. It was produced and submitted by the Petitioner to the County which shows --

CHAIR: I, I understand that. Which, what, where did, what is the physical document in which, from which it came from? From which it came?

MR. HOLZER: Came from --

CHAIR: Did it come from the Archia signed Petition or did it come from the September 2017 plan?

MR. HOLZER: Yeah, from the Archia Petition.

CHAIR: Okay. So, thirty-eight is tied to sixty-four.

MR. HOLZER: They're all three the same.

CHAIR: I, right, but he's saying that there are differences between sixty-three, the plan that's shown in the photo, and sixty-four.

MR. HOLZER: With all due respect, my client is wrong.

CHAIR: Okay. Mr. Schmidt, --

MR. HOLZER: Because basically --

CHAIR: -- I'm going to grant your objection as to sixty-three on that, or sustain your objection on that. Sixty-four is tied to thirty-eight, thirty-eight is already in evidence. Sixty-four will be received and admitted.

MR. MCCOMAS: So, is sixty-three i.d. only?

CHAIR: Sixty-three i.d. only.

MR. HOLZER: That's fine.

CHAIR: Because they, if they are different, if there's any differences we, it's not fair to Mr. Schmidt to not have that present here in Court. But since thirty-eight is already in evidence --

MR. SCHMIDT: Right, right.

CHAIR: -- and sixty-four is tied to thirty-eight.

MR. HOLZER: That's correct.

CHAIR: Specifically, sixty-four will be received into evidence and that's admitted.

MR. HOLZER: Thank you.

CHAIR: Okay, Mr. Schmidt? Did you get that?

MR. SCHMIDT: Yes, sir.

CHAIR: Sixty-three out, sixty-four in.

MR. SCHMIDT: Yes, sir.

CHAIR: All right.

MR. HOLZER: Now, now as a result of that exercise, what is your purpose for not only introducing sixty-four, but recalling thirty-seven or thirty-eight?

MR. CLARK: The, that Mr. Motsco did not reveal that he knew other purposes for the, he, he stated he didn't know of any other uses for, of any other possible uses for the property.

MR. HOLZER: Other than what?

MR. CLARK: Other than as a house of worship.

MR. HOLZER: Okay. Now, how is that testimony refuted by this, these documents?

MR. CLARK: They show that, that there were, that there was, they document that, I'm trying to figure out how to --

MR. HOLZER: Well, Mr. Clark, --

MR. CLARK: Yeah.

MR. HOLZER: -- let me make it real easy for you.

MR. CLARK: Please.

MR. HOLZER: Okay. Read what is on the, the documents submitted by the Petitioners to the County.

MR. CLARK: Oh, okay, okay, thank you, sir.

CHAIR: Thir, thirty-eight, I believe, is the one that's (inaudible).

MR. CLARK: Yeah.

MR. HOLZER: That's correct.

MR. CLARK: Special exception relief pursuant to Section, Baltimore County zoning regulations, to allow community building owned by non-profit civil improvement association used by its members and guests for recreational, social, educational or cultural activities in an RC-2 zone, and for a church or other building of the religious, of the religious worship.

MR. HOLZER: Okay. Now, was there subsequently something else submitted to the County that excluded the first part of that and only referenced a church or a house of worship?

MR. CLARK: Yes, this, the, the, this zoning app, this special exception application.

MR. HOLZER: Okay and do you know the dates where it was, from when it was originally submitted to when it was

changed to, or not changed, when it was only related to a house of worship? What's the time sequence?

MR. CLARK: Well, I would imagine --

CHAIR: Hold on.

MR. HOLZER: No.

CHAIR: Right.

MR. HOLZER: Don't answer imagine.

MR. CLARK: Okay.

MR. HOLZER: You know or you don't.

CHAIR: How about this, Mr., Mr. Holzer. Mr. Holzer, how about this? The plan that was submitted by Mr. Motsco on day two, I might take a guess, but it was certainly posted up on day one. Is there a difference between what was shown to this Board and what is reflected in sixty-four?

MR. HOLZER: No.

CHAIR: Okay. Is there a difference --

MR. HOLZER: There, there, yes, there's a difference between what was submitted as a Petition for purpose of the use of the property to a, subsequently to a religious house of worship.

CHAIR: So that was, that which accompanied the signed Petition has some difference compared to what was presented to this Board in terms of the ultimate use, is that my understanding?

MR. HOLZER: That's correct.

CHAIR: That would be a matter for argument for purposes of, today we don't, I don't know that Mr. Clark needs to, again, identify where Mr. Motsco is incorrect since it's already --

MR. HOLZER: He doesn't.

CHAIR: -- established in the record but getting the document in, I understand why you wanted to do that. Mr. Schmidt, you're standing, you want to say something.

MR. SCHMIDT: I do. I want to say that none of these documents, except the original site plan, has Mr. Motsco's seal on it. So, I don't know whether, the witness keeps talking about Mr. Motsco. Mr. Motsco may have prepared this plan or it may have been prepared by somebody else at Little & Associations, I don't, we don't know.

CHAIR: Well, it --

MR. SCHMIDT: More to the point, if I can be heard?

CHAIR: Sure, please.

MR. SCHMIDT: Even assuming arguendo that everything that Mr. Clark says is true, the $64,000 question is, so what? An applicant prepares a preliminary plan and subsequently files another plan that has different information on it. This Board has seen redlined plans which have changed from when they were submitted to the County to when they get to, to this Board.

CHAIR: I just saw a redline and green line plan.

MR. SCHMIDT: And, and --

CHAIR: Showing that very point.

MR. SCHMIDT: -- so there are plans that evolve. So, there, there's some big aha moment here that, at some --

CHAIR: Well, okay --

MR. SCHMIDT: -- point in time, Little & Associates prepared --

CHAIR: Mr. Schmidt --

MR. SCHMIDT: -- an unsealed plan, if I may be heard for the record.

CHAIR: I'll, well, hold on. I'll stop you there because this is again argument for purposes of, for the memo --

MR. SCHMIDT: It's not. It's argument as to admissibility, because it's simply got no relevance to this case. So what if this is true?

CHAIR: Okay.

MR. SCHMIDT: How does it bear on the ultimate issue in this case? It does not.

CHAIR: Mr. Schmidt?

MR. SCHMIDT: Yes, sir.

CHAIR: I, you heard me just say to Dr. Clark, this is a matter for argument for purposes of memos. Same thing, you are aware of this argument, you know what they're going to say. This is not something for the first time that we are hearing that they may use it for community center purposes. Mr. Holzer has been saying that repeatedly for several days

now, that that is, in fact, what some of the people on this side of the aisle, they believe is going to happen. That it's not going to be just limited to religious use.

Your argument is, no, it will be limited to religious use. Mr. Ghimire has testified to that and whatever else it is under the sun. That's what the nature of the dispute is. As to whether or not it has any affect whatsoever, whatever was prepared on some day prior to whatever was submitted, or if there have been changes since, as to the affect of the earlier documents to us, I understand your argument. But I mean, again, we're not, this witness is not going to shed any more light on those points. And I've already ruled that he cannot go into any more detail on these points because it's a matter for argument.

MR. SCHMIDT: Well, why are you allowing him to continue to testify about it --

CHAIR: I just said no, I --

MR. SCHMIDT: -- and, and introduce all these exhibits?

CHAIR: Okay. Maybe I, I'm sorry if I've not been clear. We just crossed that Rubicon where I've said this is a matter that's proper for argument.

MR. SCHMIDT: Very well.

CHAIR: Not for testimony.

MR. SCHMIDT: Thank you.

CHAIR: I have agreed with your position in that regard.

MR. SCHMIDT: Okay. Thank you, Mr. Garber. I apologize if I misunderstood the Chair's ruling.

CHAIR: No, I, perhaps I'm not communicating correctly, but I understood what Mr. Holzer was trying to accomplish and he needed to, he felt he needed to get some of the documents in to make that argument for purposes of his memo.

MR. HOLZER: They've already been in and the witness was trying to articulate why, from his perspective.

CHAIR: Yes.

MR. HOLZER: I understand.

CHAIR: We're all, we're all at the same page at the present time. So, we have this --

MR. HOLZER: Yeah, but unfortunately, that isn't the end of the story. The end of the story is there were things that produced the change from that document to the Petition.

CHAIR: Then we --

MR. HOLZER: Which I intend to get one way or the other because it --

CHAIR: Mr. Holzer --

MR. HOLZER: -- shows some --

CHAIR: Mr. Holzer --

MR. HOLZER: -- impropriety.

CHAIR: Mr. Holzer, I'm not, we've not, there's no ruling on that stuff yet.

MR. HOLZER: I know there's not.

CHAIR: Right, so you have the opportunity to try to go down that road and then if it causes an objection, we'll deal with it accordingly. We've all, now on the same page. We've reached a moment of harmony on this issue, let's move forward so we can try to get through this and prevent Dr. Clark from having to do a day three of testimony as best as possible.

MR. HOLZER: Okay.

CHAIR: So, with that in mind, I understand there may be other points you wish to raise but this is where we're at now. We don't need to hear, you know, what we just went through from Dr. Clark because that's a matter for you for argument and purposes of your memo. If there are --

MR. HOLZER: Oh, it's for me for more than just an argument, (inaudible) --

CHAIR: Perhaps. But if, if you have other points you wish to raise, now is the time.

MR. HOLZER: I will, I will, thank you.

CHAIR: Thank you.

MR. HOLZER: Thank you, Mr. Chairman.

CHAIR: Sure thing.

MR. HOLZER: All right. Was, was the testimony of Mr. Motsco, in your opinion, your recommend, your recollection,

did it inform the Board about the National Historic District?

CHAIR: In other words, hold on. Here's how I'm hearing this question. Did Mr. Motsco present information that this is a historic property? There is, obviously, there's already in evidence evid, documentary evidence, that it is, in fact, the barn and the site are on the historic register for the State, from what I recall?

MR. HOLZER: Correct, correct.

CHAIR: That has been presented into evidence, whether it came from Mr. Motsco or elsewhere, I, frankly I don't recall off the top of my head. Why is that being directed to this witness?

MR. HOLZER: Because the question was, does Mr. Motsco indicate to the Board in his analysis, and his drawing of a conclusion, that this was not a problem from the standpoint of historic issue? Did he address National Historic District? The answer is either yes or no. It's a simple question.

MR. CLARK: No, he did not address the, that it is, in fact, in a National, on the National Register as a national historic district. In fact, he said in his endorsement that it was not in a National Historic District.

CHAIR: Okay. We're now, so now we're talking about two different points. I referred to the registry for the State and I specifically referenced the property. You're saying

national historic district.

MR. CLARK: Yes, sir.

CHAIR: So, that is something different than the property.

MR. HOLZER: And he never mentioned it.

CHAIR: Okay, I'm with you now.

MR. HOLZER: Okay. So, the point of the matter is the witness has testified, his recollection, he never mentioned national historic district.

CHAIR: How do you know that this is within the historic district?

MR. CLARK: We have, we have the listing and we have the map.

CHAIR: All right, let's --

MR. HOLZER: Do we need to produce that now? Do we have it?

CHAIR: I would think you will need to produce that.

MR. HOLZER: Well, I just, I'm having problems --

CHAIR: I understand.

MR. HOLZER: -- in understanding how far I can go and how far I can't go.

CHAIR: We'll work through it, but we need to know the basis as to how he, why Dr. Clark thinks that this is in a historic district.

MR. HOLZER: This is already in? Oh, I don't have to

worry, it's already in. Protestant's thirty-nine.

MR. CLARK: Can I see it?

MR. HOLZER: Take a look at it.

CHAIR: Dr. Clark, if there's no question pending --

MR. CLARK: I'm sorry.

MR. HOLZER: I mean, --

CHAIR: Do you need to address further questions with him?

MR. HOLZER: No. It's Protestant's thirty-nine. If the Board takes a look at thirty-nine, it's clearly listed there and yet Mr. Motsco did not include that analysis in his testimony that everything was (inaudible) --

CHAIR: Okay. Well, that's going back to argument.

MR. HOLZER: Yeah, it goes back to the argument.

CHAIR: But you want to elicit the fact that it is within the historic district (inaudible) Protestant's Exhibit 39 supports --

MR. HOLZER: Yes.

CHAIR: -- Mr., or Dr. Clark's testimony?

MR. HOLZER: Exactly.

CHAIR: All right. So we can move on from there.

MR. HOLZER: And I, and I need that to be able to make in the memo --

CHAIR: Yes.

MR. HOLZER: -- the (inaudible) --

CHAIR: Understood, Mr. Holzer, yes.

MR. HOLZER: Okay, thank you.

CHAIR: Just trying to help move that through. So, yes, now we understand.

MR. HOLZER: All right. Mr. Motsco also did not, well, did he testify about the nature of the roadbed and the surrounding area?

MR. SCHMIDT: Mr. Garber, I'm just going to note a continuing objection to the, these questions about Mr. Motsco and what he said.

CHAIR: I would, I would suggest, if, if I can, the appropriate way to ask the question is, is there any testimony you wish to give, sir, about the roadbed and this, don't worry about what Mr. Motsco said or did not say.

MR. HOLZER: All right.

CHAIR: We could avoid the objections, --

MR. HOLZER: I was trying to --

CHAIR: -- because the record would be clear what Mr. Motsco has testified to or not.

MR. HOLZER: Okay, all right. That's the question.

CHAIR: Is there anything you would wish to tell the Board about the roadbed, sir?

MR. CLARK: Yes, sir, there is.

CHAIR: All right. What is it you wish to testify about the roadbed?

MR. CLARK: All right. The, the roadbed has been there for well over two hundred years. It, it has been, in the turn of the century it was called World's End Hill. It has not been changed. World's End Hill was a reference to the fact that the wagons had to stop at the barrier, at, at Mount, at what is now the circle, and get their brakes and hooves checked before they went down the hill, otherwise they wind up off the, off the side. There is, that, that was the --

MR. HOLZER: Well, excuse me.

CHAIR: One second, sir. Mr. Holzer?

MR. HOLZER: Could, could you explain down what hill we're talking about?

MR. CLARK: Oh, down, down, down, down, down the grade from Mount Vista down to the valley floor.

MR. HOLZER: Okay.

MR. CLARK: There is a historic, well, no, there is a, it's actually protected by the Maryland Historic Trust, there is a mile marker from the turnpike days. In fact, it's on the, it's on the, it's, it's on their property in the easement.

CHAIR: I believe that's already in evidence, the photo of the mile marker.

MR. CLARK: Right.

CHAIR: From what I recall.

MR. CLARK: And I think, did, did we put into

evidence the, the, --

CHAIR: I'm sorry, sir, you can't ask him questions.

MR. SCHMIDT: That's already in.

MR. HOLZER: That's all right.

MR. SCHMIDT: I mean, why are --

MR. HOLZER: Just because --

MR. SCHMIDT: -- we introducing exhibits that are already in?

MR. HOLZER: I'm not introducing it. If you would let me finish, I would explain to you that I want to show it to him.

CHAIR: Mr. Schmidt, I understand you're frustrated, please.

MR. HOLZER: He's frustrated?

CHAIR: Please. Let's move this forward. Mr. Holzer, continue.

MR. HOLZER: Protestant's Exhibit 41 was introduced. Are you familiar with it?

MR. CLARK: Yes, I, I took that picture.

MR. HOLZER: And did you just testify that there was a historic mile marker on the property?

MR. CLARK: Yes.

MR. HOLZER: On the road?

MR. CLARK: On the road.

MR. HOLZER: And what, and did you testify any time

prior to this why you think that's significant?

MR. CLARK: It's, yes, it is a relic of the days when it was a turnpike, when it was the Harford/Baltimore Turnpike.

MR. HOLZER: Okay. Now, where is that locate, where is it loc, located?

MR. CLARK: It is located right in the easement for Harford Road on their, on the east side of Harford Road, on their property.

CHAIR: Is it more or less across the street from your driveway?

MR. CLARK: Yes, sir.

CHAIR: I do recall that testimony.

MR. HOLZER: Right.

MR. SCHMIDT: Didn't he, Mr. Garber, I'm just trying to remember, and perhaps I forget, but didn't he testify about this before?

CHAIR: I just said that, the very thing.

MR. SCHMIDT: Well, why are we asking the same question?

CHAIR: I, I'm assuming these are foundational questions --

MR. HOLZER: Right.

CHAIR: -- to set up something else. I'm giving the leeway because I'm assuming they're foundational since that testimony was on November 1st and here we are January 29th,

(inaudible), are we still on the 29th? Has it turned into February yet? All right.

MR. HOLZER: I have no idea.

CHAIR: All right. So, where are we going with this to, to, to take Mr. Schmidt's point one step further, where are we going with this in terms of why, why are we talking about Exhibit 41, which is already into evidence?

MR. SCHMIDT: And came in, I think, through Mr., Mr. Clark's testimony before.

CHAIR: Right, which is how we --

MR. SCHMIDT: I think he was the witness who introduced it.

CHAIR: I, and I seem to have the same recollection, because that's why I recall that it was directly across from his driveway.

MR. SCHMIDT: Right.

CHAIR: So, Mr. Holzer, where are we --

MR. HOLZER: I forgot that two months ago, --

CHAIR: Okay.

MR. HOLZER: -- he introduced it.

CHAIR: Okay. So, --

MR. HOLZER: When I saw that it was marked as exhibit, I wanted him to explain.

CHAIR: It's understood, it's understood, it's understood. Objection is sustained. Mr. Holzer, please move

on.

MR. HOLZER: All right. Now, moving on, do you have any testimony that you would like to introduce that has not been testified before two months ago when you were on the stand, in regard to the Petitioner's association and what you would like to comment on about that?

MR. SCHMIDT: Objection. I have no idea what the question means.

CHAIR: First of all, Mr. Schmidt, stand when you object.

MR. SCHMIDT: I did.

CHAIR: Thank you. Mr. Holzer, I don't understand your question. Where were you, can you say it again, please? And I, I apologize for that.

MR. HOLZER: The NAACB, Inc. has raised issues and Mr. Schmidt did it today, in regard to Mr. Morgan's testimony--

CHAIR: I just didn't understand your question.

MR. HOLZER: Huh?

CHAIR: You can ask the question again, I just didn't understand it.

MR. HOLZER: Oh, oh. Okay. Applying your analysis of the Petitioner's Association, do you have any testimony or comment about where their members live?

MR. SCHMIDT: Objection. I still don't understand the question.

CHAIR: What information do you have regarding where, where Petitioner's Association members live?

MR. CLARK: Yeah, thank you.

CHAIR: What information do you have?

MR. CLARK: Can, can I just testify about what I --

CHAIR: You can testify as to answering the question I just asked.

MR. CLARK: Okay.

CHAIR: What information do you have?

MR. CLARK: Currently, none of them live within five miles. Mr. Clarke has sold his property, he has moved. So, there is no, there is no one in the association, or in the community center, who live within quite a distance of the property.

CHAIR: I need to ask you, because you used the phrase community center, are you referring to the community center on Taylor Road or are you referring to the subject property?

MR. CLARK: I, yeah, okay. I, I'm referring to the subject property.

CHAIR: All right. So, there is nobody, to your knowledge, of any member of Petitioner's organization that lies within five miles of the subject property.

MR. CLARK: An analysis has shown of the sign in sheets, okay? Shows that they are from Parkville, Rosedale,

White Marsh and there's even some from out of state.

CHAIR: Okay. Why, what is it about that fact that you find significant to bring to our attention?

MR. CLARK: Okay. This property, or this, this function does not provide any value to the community, to the locale, provides no benefit to the locale. While at the same time, creates quite a bit of disturbance to the locale. We pay, we are paying the price and we get no benefit.

CHAIR: Okay. So, tie it, if you can, I'm sorry, Mr. Schmidt, you were standing.

MR. SCHMIDT: I just want to say, Judge, Mr. Garber, that Mr. Clark's analysis is the precise analysis which Judge Rita Davidson in the seminal case of *Schultz v. Pritz* held was not the criteria by which a special exception should be adjudged. That is, whether there is any value brought by the special exception to the subject locale. Therefore, Mr. Clark's testimony in this regard has no relevance because it has nothing to do with the issue that this Board, nor the standard that this Board needs apply to the special exception case.

CHAIR: Well, my follow-up question, (inaudible) follow-up question just before you objected, was going to be and still is, how would, tie that, what you just said, whatever information you want to convey to us, to a special exception factor to make that relevant for the Board's consideration?

Can you do that?

MR. CLARK: Yeah, that, that's actually later in the testimony, but I, let --

CHAIR: Well, that's, it would be preferrable if we had that now.

MR. CLARK: Yeah, I'm, I'm trying to find it, sir.

CHAIR: Yes.

MR. CLARK: Okay. 502.1(A), sound and disturbance. The, all the events again sound and disturbance. Creating congestion on roads and alleys, B. Drivers unfamiliar with area. Drivers unfamiliar with hazards on the roads. Inadequate sight lines. Create a potential fire, hazard from fire, panic or other danger. And then, I will be covering detrimental to the environment, natural resources of the site and vicinity, including forests, streams and wetlands.

CHAIR: Okay. Well, let's get into that now because here's what I'm, I understand the concerns you just outlined in 502.1 which, frankly, really is the major part of your testimony --

MR. CLARK: Correct.

CHAIR: -- is what your concerns are, how it, this proposed use impacts, how it impacts you but also how it impacts the general vicinity and that particular to this property as opposed to other properties within a similar zone, or within the zone, okay?

MR. CLARK: Okay.

CHAIR: So, with that in mind, you've identified sound and noise, general welfare, creating congestion, hazards on roads, inadequate sight lines, create potential for fire, panic or danger, but the one you have not yet discussed is the environment, forest, streams, detrimental to those things.

MR. CLARK: Right.

CHAIR: What, let me ask you first, your, do you have any, I mean, any evidence you're going to offer, is it being offered as an expert witness?

MR. CLARK: No.

CHAIR: All right. So, these are all lay opinions or lay testimony that you're about to give. What is it you want to tell us about how you believe the proposed use will be detrimental to the environment, forest, streams, etcetera?

MR. CLARK: I, I wasn't really prepared --

MR. HOLZER: Well, objection. He's not ready.

MR. CLARK: Yeah.

MR. HOLZER: He just testified he wasn't ready to, to do that.

CHAIR: I, I, okay.

MR. CLARK: Yeah.

MR. HOLZER: I think you misunderstood what he said.

CHAIR: No, I, I, I did understand that --

MR. CLARK: Yeah, yeah, I think you did.

CHAIR: -- I'm just confused as to why we're not ready to deal with that. Because we have heard certainly ample evidence, not just from Protestants, but from you about the noise, about the traffic and the potential for danger. Right?

MR. CLARK: Right.

CHAIR: We've seen the videos, we've heard audio, we've heard your testimony, in addition to all the other Protestants who have come in to talk about the potential for noise, the potential for traffic, and the potential dangers. So, we've heard a lot of evidence on these points. The one thing I have not heard yet is anything about the environment. Is there a reason why you're not able to talk about that now? Because I'm trying to understand where all this is going in terms of the 502.1 --

MR. CLARK: I, I know, I know.

CHAIR: -- analysis and what you have in between, if we're, we've covered three of these grounds and there's a fourth ground, why are we not able to get to that at the moment?

MR. CLARK: All right.

CHAIR: What did you expect to offer in terms of testimony?

MR. CLARK: Yeah, no, I, I know, I know, I know.

CHAIR: I'm trying to work with you on this.

MR. CLARK: I, I --

CHAIR: Is there something I'm missing here that you wanted to testify about --

MR. CLARK: No, you're not.

CHAIR: -- that you've not otherwise identified?

MR. CLARK: You're, you're not, you're not. You just, you just caught me off script.

CHAIR: Okay.

MR. CLARK: Okay? That's the only problem.

CHAIR: I apologize for catching you off script, but it seems to me that was a logical next step.

MR. CLARK: Yeah.

CHAIR: Do you need, do you need a minute to compose, to go find whatever documents you need for your testimony?

MR. CLARK: It, it would help.

CHAIR: All right. So, let's do that. We will take five minutes to get that stuff ready and I'm sorry to have to cut it off, but I'm trying to actually get to where we're, where we need to go with this case. We have heard a lot of evidence about the noise, about traffic, about danger. We've received the videos, we've received the photos, we received audio. We've received a bunch of things and I'm assuming you still, you may even have one or more other ex, or excuse me, witnesses who may testify to some or more of these points, not to mention expert witnesses. So, from Dr. Clark, since he has now identified environmental issues that he wishes to give a,

his testimony about, let's get to that so that's in the record.

MR. HOLZER: Fine.

CHAIR: All right? So we'll take five.

(RECORDING PAUSED – 03:16:28 PM)

(ON RECORD – 03:33:12 PM)

CHAIR: Thank you. And we're back on the record and where we last left off, Dr. Clark had identified potential detriment, detriment, excuse me, detrimental effects on the environment, forests and streams, I believe were the three things that he mentioned specifically.

MR. CLARK: Okay.

CHAIR: So, Dr. Clark, the question to you is, what did you mean or what do you want to bring to the Board's attention regarding the potential detrimental effects upon the environment, forests and streams?

MR. CLARK: Actually, okay. I, I will answer that and then there's, but there's more.

CHAIR: Okay.

MR. CLARK: First of all, the, the, all right. You, you know that Petitioner awarded me a Ph.D. in naturism at the last meeting. I am a Maryland Master Naturalist.

CHAIR: Okay.

MR. CLARK: I, I work with professionals in three states in the management of forest health and specifically non-native invasive species.

CHAIR: Non-native invasive species.

MR. CLARK: Invasive species.

CHAIR: I guess that would just be the same as saying invasive species.

MR. CLARK: No, not nec, no, no, not, yeah, no. Yeah, --

CHAIR: Because if it's native, it's non-invasive, since it's already there.

MR. CLARK: Well, well, it can be invasive.

CHAIR: Okay.

MR. CLARK: It forms a (inaudible) culture.

CHAIR: Okay.

MR. CLARK: All right. Non-native are ones that don't fit into the ecosystem. They tend to overrun existing ecosystems and things like that. By way of background, there is an animal called Animal Plant and Health Inspection Service, which controls everything that is imported into the United States, okay?

By further background, there is a thing called red list, where various states, including Maryland, proscribe the sale, transport and, and planting of specific plants. For example, bamboo, okay?

We, you probably have heard about, well, I know you've heard about, well, maybe you haven't heard about the spotted lantern fly, which is a new, which is a new animal that

has come into the country and it is devastating to crops. Turns out, it found its host plant, which is tree of heaven ailanthus. That's the first instance where a non-native invasive invertebrate has found its existing host plant. The tree of heaven is used in a lot of southeast Asian plant, landscapes to, and in fact, the National Parks Service is spending millions of dollars over years controlling the escapees from the embassies in D.C. and getting into Rock Creek Park, okay?

Pennsylvania, ailanthus, tree of heaven, it got, it started at the Japanese Peace Temple in Redding, okay? It has taken over that entire county, all the ridgelines, everything, and it has spread throughout the state. Pennsylvania, because of the spotted lantern fly has started a very, very vicious program of eliminating ailanthus wherever they can find it, okay?

CHAIR: Okay. So, it, I mean, I appreciate the wind up --

MR. CLARK: Right, there, --

CHAIR: So, we're getting now to --

MR. CLARK: -- now, now we're getting to my concerns.

CHAIR: -- the subject property.

MR. CLARK: Right.

CHAIR: Okay.

MR. CLARK: Okay.

CHAIR: So, I understand the framework.

MR. CLARK: Yep.

CHAIR: As to where this is going, but let's now get back to this property.

MR. CLARK: All right. So, so, so, so there are several concerns here. First is that plantings would have to comply with Animal Plant and Health Inspection Service requirements. Which means, anything brought into the country has to be quarantined.

CHAIR: If I can jump in there. In your, leaving aside the issues as to expertise or whatever, to whatever (inaudible) exists here, is it your understanding that there are plantings that are going to be brought in from another country? Let's start with that.

MR. CLARK: Well, you know, they, there have been a number of assertions that it reminds the Petitioner of their homeland and just as at the embassies, it is not unnatural for an owner, from a, from a different land, to want to make it, you know, the Europeans did it, right?

CHAIR: And, --

MR. SCHMIDT: Mr. Garber, I'll stipulate we're not bringing in any plants from any other country, subject to, obviously, any rules that the United States government as it were, there is no intention to bring in some plants from some other country.

CHAIR: Well, let me ask you this, and I'm not saying that this is the direction we're going, you don't have to answer this question, but if there is (inaudible) as we're to move forward and there's a condition, please sit up straight, thank you. And there is a condition that only native plants can be planted on the site, --

MR. CLARK: You got it.

CHAIR: -- that, would that resolve your concern? And again, I'm not suggesting that that is something that's happening or whatever, but I'm just trying to address the particular concern --

MR. CLARK: Absolutely.

CHAIR: -- that you are identifying.

MR. CLARK: Absolutely.

CHAIR: And as to whether or not that is something that could, you know, if it is where this case goes down the line, which I have no idea sitting here today, that could be discussed at another time but that would, that would resolve your concern?

MR. CLARK: Absolutely.

MR. MCCOMAS: Was there a particular, was there a particular species that has you concerned?

MR. CLARK: It, it is, it is any, first of all, there is a list at, at, at the Department of Interior, Department of Interior Invasive Species Council. There is a list of

federally recognized invasive species, non-native invasive species. Both plant and animal, okay? Just to, to make this real, there was a case a couple years ago where up in New York City non-native frogs were being found along the Hudson River in New York. And one cultural ceremony was the release of these frogs in, in, into, into the river, you know? It's a salutation to letting things, free, letting things go or, or, or whatever. But, you know, these things happen. And they have consequences.

CHAIR: Okay. Well, now we've heard from Mr. Schmidt and please let me know if I've gotten this correct. That you are representing that if this were to move forward, you would not, you're, that is Petitioner, would not be importing any type of foreign plants or animals and putting them at this property, correct?

MR. SCHMIDT: Yes. Let me just say for the record that the Petitioner will not be violating any Federal, State or local laws as part of its conduct of any religious program here. So, we're not going to be releasing dangerous frogs, we're not going to be sacrificing children, we're not going to be doing anything that is illegal under any statute, including bringing in material or drugs or anything like that. I mean, we would obviously be compliant, I don't know, I guess you could make a restriction that we would have to obey all laws, but we will, intend to obey all laws.

CHAIR: But this is, that's a different answer to the question I asked. Because I had understood two things from what you said. I understood the we'll comply with all laws part, which is why I didn't follow up on that, but I thought you started off by saying that you'll stipulate that you're, and I may be using the wrong words that's why I'm asking you to clarify, that you would not, the Petitioner would not import any type of plants or animals onto the subject property.

MR. SCHMIDT: Yeah. I'm not a botanist, I'm not an arborist. Planting, I, I would suspect you heard testimony about, from Mr. Collagero and Mr. Motsco about the relocation of the intersection, for example, and the disturbance of that area, as well as the enlargement of the parking lot. I would suspect that Baltimore County, as part of any approval for that in terms of permits, depending on the area involved and whether it's in excess of five thousand square feet, which is typically the trigger to obtain a building, I mean, a grading permit from Baltimore County, that the County may require landscaping of some type, on some part of the property. That's just a very common requirement. I'm not sophisticated to tell you what Jim Herman, who is the County's landscape architect will require in terms of the species of planting --

CHAIR: Can we, can we agree --

MR. SCHMIDT: -- if they are whatever he says they will be, if they are not native, I, I don't know whether

they're native or not.

CHAIR: Can --

MR. SCHMIDT: But that's why I say, we will comply with any laws and not bring, we're not bringing in anything from Nepal to make, that would, that is not allowed to be imported or is contrary to any laws as my clients, we, we have no intention of doing that.

CHAIR: All right.

MR. SCHMIDT: Be willing to agree to that.

CHAIR: Okay. So, what I'm hearing is, and correct me if I'm wrong here, but we can agree that Mr. Herman is not going to order that land, landscaping that includes native plants to Nepal. We agree that he's not going to require --

MR. SCHMIDT: I have no idea what --

CHAIR: Hold on --

MR. SCHMIDT: -- I have no idea what Mr. Herman is going to require.

CHAIR: Mr. Herman is not going to require for landscaping Nepalese plants.

MR. SCHMIDT: I don't think so.

CHAIR: Right.

MR. SCHMIDT: I would agree.

CHAIR: Right. So, starting, starting with that, take it one step further, Mr. Herman could order landscaping that includes native plants only.

MR. SCHMIDT: Yes, sir.

CHAIR: Okay. So, --

MR. SCHMIDT: Well, he, I guess he could arguably, and I don't know enough about native plants, Mr. Garber, --

CHAIR: I, I'm not asking you to specify which native plants.

MR. SCHMIDT: But Mr. Herman, Mr. Herman may say uh, you want, I want you to also plant Japanese cherry trees like they have down in Washington, D.C. as part of your landscaping plan. I don't know if that's a native plant or not a native plant and that would run afoul of Mr. Clark's concerns. All I'm saying is we're not going to do anything that violates customs or anything else in, in terms of, we'll, we'll follow whatever the rules are.

CHAIR: Okay.

MR. SCHMIDT: Mr. Herman will tell us what they are and we'll follow them.

CHAIR: Mr. Holzer, is there anything you want to add or say?

MR. HOLZER: I just want to say, I mean, I think what the Board is looking for is to impose, if they decide to approve this, impose a condition.

CHAIR: I was just following up on the comment made about a stipulation that they will not be planting whatever, and I didn't know the scope of that, and that's why I turned to

Mr. Clark to ask him that question --

MR. HOLZER: Yeah.

CHAIR: -- would that satisfy you?

MR. HOLZER: Right.

CHAIR: Kind of thing, and then I don't know where that leaves us sitting here today because I think I'm more confused now than ever as to whether or not what, if anything, could be planted other than --

MR. HOLZER: My --

CHAIR: -- as long as it doesn't expressly violate local, state or federal law, they won't, they won't plant anything in violation of the law. I don't know what that, where that leaves us.

MR. HOLZER: It leaves you, if the Board decides to approve this project, leaves you with putting in a condition which addresses that issue. Not rely on the fact that the Federal government --

CHAIR: I'm sorry, I'm sorry, to be clear, what I meant is, I didn't know where that left us in terms of the representation made as to what stipulation, if anything there is, other than we won't break the law.

MR. HOLZER: I don't think there is a stipulation, I think what has to happen is the Board, if it's concerned about this, has to apply a condition and we may well address that condition in memorandums or whatever, to further define --

CHAIR: And I'm sorry to make this, belabor this point, my only, the reason why I'm bringing this up is only because it sounded as if what was being proposed would satisfy Dr. Clark, but now I don't know what was being proposed with any type of definitiveness --

MR. HOLZER: Correct.

CHAIR: -- for, to satisfy Dr. Clark. So, at the moment, we're just going to move past that, understanding that Mr., Dr. Clark has reservations as to what may be planted there, whether, you know, done innocently or, you know, whatever the case may be. He has reservations as to, I guess, non-native invasive species being made part of any landscaping plan or just planting in general.

MR. HOLZER: In a memorandum, we'll raise the issue of potential conditions that we would like to see the Board impose and as a result of doing it that way, we will attempt to define an appropriate condition for the Board to impose.

CHAIR: Fair, fair enough. Dr. Clark, you heard all that. Is there anything you wish to add to your testimony, you feel we need to know about your concerns, hold on, over non-native invasive species?

MR. CLARK: Just to add that there is a ready reference for native plants that's put out by the National Parks Service, U.S. Forest Service and the Chesapeake Bay Foundation. And it describes, I don't know, maybe a thousand

species and how they benefit both insects, vertebrates, invertebrates, which is, which for me is, is a major issue, you know? I mean, you saw the picture of our property. I mean, the forest needs all the help it can get and thirty acres is a lot of ground and lawn is a waste.

CHAIR: Okay. So, does that, have you then told us everything you want to tell us for your testimony on that point?

MR. CLARK: On that, on that point, but not done with --

CHAIR: I didn't say you were done.

MR. CLARK: Right, okay. Yep.

CHAIR: I know you're not done. On that point. We can move on. You identified forest and streams as well.

MR. CLARK: Right.

CHAIR: I'm not limiting you to that necessarily, but you have environmental concerns, but you specifically --

MR. CLARK: Yes.

CHAIR: -- mentioned forests and streams.

MR. CLARK: Yes.

CHAIR: What is it you want to tell us about forests and streams?

MR. CLARK: Well, they're, they're at the top of, of, of a hill and bordering them on the east side, there's a drainage that goes directly down into Hartley Mill, which feeds

into the Gunpowder. They have testified that they have no septic and they have no water. And we have affidavits of events held there from attendees that show no sanitation facilities.

CHAIR: Let, let me, I'll stop you there. Assuming that because, again, we're going with what they have put in their Petition, religious institution and use --

MR. CLARK: Okay.

CHAIR: -- at the property.

MR. CLARK: Okay.

CHAIR: So, assuming that fact, would you agree or not that there would be septic and water in place if they were to go forward with religious use as proposed? That they would have running water, they would have septic. I mean, you, you don't believe that they're going to conduct their property with any absence of septic and water, correct?

MR. CLARK: Oh, I do.

CHAIR: You think that they would run their property as a temple without water or septic?

MR. CLARK: Mr. Garber, I don't mean to be argumentative.

CHAIR: No, I'm just, I'm trying to get to the bottom of this to see where we can move on --

MR. CLARK: Right, right. The, the fact is, they have.

CHAIR: Okay. I recognize for fundraisers that has gone on and --

MR. CLARK: No, more than fundraisers.

CHAIR: -- for the, for the events and the fundraisers that have been held there, we don't presently have septic and water. That's been established --

MR. CLARK: Nor port-a-pots.

CHAIR: I, understood. Again, no running water, no septic and understanding they have port-a-potties, that's the way it's been functioning. I understand that. There's been plenty of testimony about that on all sides. Moving on from there, is it your expectation that if this is a religious temple that they would not have running water or septic?

MR. CLARK: That's my concern.

CHAIR: Okay. So, now please sit up straight. So, now that we've expressed your concern, assuming that to be the case, that they would not have running water and they would not have septic --

MR. CLARK: If, stuff flows downhill, flows into the drainage.

CHAIR: Okay. If --

MR. CLARK: And it, and it, and that, and my understanding is that that's a trout stream.

CHAIR: Okay. Now that we've established that if they had septic and water, what concerns would you have?

MR. CLARK: Okay. The other is that the, another is the function of the acreage has changed. And by that, I mean ecological function. It has been, what is termed an old field, which is an old farm turning into a meadow and before that it was a farm. That has a big impact on, on water filtration and also sheet flow. And it is now being maintained as lawn.

CHAIR: If I could jump in there. It was an old farm turned into a meadow.

MR. CLARK: Um hm.

CHAIR: Do you have any information as to when the property was last used as a farm?

MR. CLARK: It was an old field up until they started mowing it in 2017.

CHAIR: Okay. You're using the phrase old field.

MR. CLARK: That, that's a, that's a technical, technical --

CHAIR: I, I, I'm not disputing whether it's a technical term or not.

MR. CLARK: Right, right.

CHAIR: I just need to know what you mean by old field.

MR. CLARK: Right.

CHAIR: How are you, --

MR. CLARK: And, and --

CHAIR: -- what are you, what makes it an old field?

MR. CLARK: Old field is a farm turning into, reverting back into a meadow.

CHAIR: How long does farm re, how long do you need for farm to revert back to meadow?

MR. CLARK: It, it's generally two years.

CHAIR: Okay. So, if it's not being used a farm two years ago, what is, how does that factor into this conversion?

MR. CLARK: Well, it's been it, it, it's, it's been an old field, right?

CHAIR: Okay. So, it can be an old field for a long time?

MR. CLARK: Yes. Well, and then eventually, it's, it's a success, it's a succession.

CHAIR: I realize, it's a progression.

MR. CLARK: Yeah.

CHAIR: Okay. Because here's what I'm hearing from you, and this is where I need you to educate the Board, it's an old field, which is the conversion of farm to meadow.

MR. CLARK: Correct.

CHAIR: That can take about two years.

MR. CLARK: Right.

CHAIR: There's nothing in the record that shows this property has been used as a farm any time at all recently.

MR. CLARK: Right.

CHAIR: And when I say recently, I mean, decades.

MR. CLARK: Right.

CHAIR: So, if it takes two years to convert to meadow, shouldn't it already have converted to meadow before the, before the Petitioner had purchased the property?

MR. CLARK: All right. I have never stepped foot on the property.

CHAIR: Okay.

MR. CLARK: Okay? I mean, I've been there thirty-five years. I've never set foot on it, okay? And so, all, you know, yes, it would have been a working meadow at that point.

CHAIR: Now, the consequence of it, again, based on what we've just established, of it being a meadow today, what effect does that have on, as you just put it, water infiltration and sheet flow?

MR. CLARK: Right. A meadow is very effective in filtering water, okay? It's very impor, that, that's why it is such an important part of, of, of the State Bay initiative and it will slow down the water and reduce the speed of the sheet flow. Plus it helps to avoid channeling the sheet flow.

CHAIR: Okay. What else do you want to tell me about that? Or when I say me, I really mean the Board.

MR. CLARK: That's it for I.

CHAIR: Okay. So, that's meadow, okay, so a meadow is better for these purposes.

MR. CLARK: Yes.

CHAIR: All right. So, Mr. Holzer, I see you standing, sorry.

MR. HOLZER: Yes. I think I have something that bears on that issue that (inaudible).

CHAIR: Bless you, bless you.

MR. SCHMIDT: Excuse me.

MR. HOLZER: If it's okay?

CHAIR: Yes, please.

MR. HOLZER: Okay.

CHAIR: Sorry. I was just trying to cut to the chase as to what he meant by certain terms --

MR. HOLZER: No, I understand.

CHAIR: -- and what the consequence was for this subject property.

MR. HOLZER: I have, I have no problem but --

CHAIR: And I want to make sure he got all of his testimony that he wanted to tell us covered.

MR. CLARK: No, and I appreciate what you're doing, Mr. Garber.

CHAIR: Thank you. Where we at? Sixty-five.

MR. HOLZER: Now, can you identify this photo which has now been marked as Exhibit 65?

MR. CLARK: Yep.

MR. HOLZER: What is it and how do you know what it is?

MR. CLARK: I know it because Joann Foxworthy told me --

CHAIR: Hold on. What is it first?

MR. CLARK: Okay.

CHAIR: Let's start with that.

MR. CLARK: What, what is it? It's, it's Joann Foxworthy's backyard.

CHAIR: And you'll have to just identify for the record because it's been a number of days since we were last here talking about where Ms. Foxworthy's property was in relation to the subject property. So, where is it?

MR. CLARK: It's right across the entrance from the, the subject property.

CHAIR: On Bonaparte?

MR. CLARK: On Bonaparte.

CHAIR: Okay.

MR. CLARK: She is, she is on, she is on the west side of Bonaparte, on Harford Road at Bonaparte Ave.

CHAIR: Is it the corner house?

MR. CLARK: Yes.

CHAIR: At Harford and Bonaparte?

MR. CLARK: Yes, sir.

CHAIR: All right. So, this is her backyard, correct?

MR. CLARK: Correct.

CHAIR: All right. So, we don't see Harford Road or Bonaparte in this photo?

MR. CLARK: Correct.

CHAIR: Right.

MR. CLARK: On, Harford Road is on the other side of the fence.

CHAIR: All right. So, there's a, what appears to be a green area. We'll just call it in the top center of the photo.

MR. CLARK: Um hm.

CHAIR: What, do you know what that shows?

MR. CLARK: The, the light green --

CHAIR: Yes.

MR. CLARK: -- between the trees above the fence is the subject property.

CHAIR: Okay. Now, what is it you want to tell us about this photo?

MR. CLARK: This is how the sheet flow from that property is impacting hers?

MR. SCHMIDT: Objection.

CHAIR: Okay.

MR. SCHMIDT: Objection. The photograph speaks for itself. The con, the conclusion that this is how the sheet flow from the property impacts her house, there is, this man is not an engineer, he's not a storm water management expert, the

testimony has been that Harford Road is crowned and has channels on both sides --

CHAIR: Hold on, hold on, your objection is fine, I understand.

MR. SCHMIDT: Okay. There's --

CHAIR: He's not, he's not, he's not an expert on the subject areas that you think are required for purposes to provide that testimony.

MR. SCHMIDT: To, to make any conclusion as to, he, I guess the photograph speaks for itself. But there can be no conclusion that this witness can give that the drainage from the subject property even comes to the Foxworthy property unless he's done some kind of drainage analysis or have some expert ability or qualification to be able to have done that. And as I say, the testimony has been, and there are photographs, that show that Harford Road is crowned, which, so that water would not flow across Harford Road. And there are channels on both the Foxworthy side along the shoulder and on the subject property side, which even a non-expert would see that water would flow from the subject property into those channels and not over to the Foxworthy property. Where this flow is coming from, whether it's coming from Harford Road, whether it's coming up or down --

CHAIR: Mr. Schmidt --

MR. SCHMIDT: -- is speculative.

CHAIR: -- I understand your objection. Some of the matters you identified may be more appropriate for cross examination if allowed. Mr. Holzer, do you wish to respond to Mr. Schmidt?

MR. HOLZER: Yeah. The simple answer is, we can bring Ms. Foxworthy in and have her testify --

MR. SCHMIDT: Bring her in.

MR. HOLZER: -- as to --

CHAIR: Hold on, Mr. Schmidt.

MR. HOLZER: -- and testify ad nauseum that every time it rains heavy, the water comes from the subject site and goes into her, into her yard.

CHAIR: I do think you're going to need to have Ms. Foxworthy come to testify as to what is going on with this condition as opposed to what Ms. Foxworthy may have conveyed to Dr. Clark. I do think that some of the, there is some leap in assumptions here that may be beyond the scope of what --

MR. HOLZER: Fine.

CHAIR: -- Mr., or Dr. Clark is called for. Excuse me. I will sustain the objection but, Mr. Schmidt, we don't need to go too far afield as to it. I understood your objection. Thank you, Mr. Holzer. Thank you, Mr. Schmidt. Okay. So, leaving aside --

MR. HOLZER: Well, now, I, I want to put on the record here, again, we are being forced to bring in someone to

testify so I appreciate the fact that the Board appreciates by your rulings that we are going to have additional witnesses that need to testify. Thank you.

CHAIR: I understand the consequence of that.

MR. HOLZER: Thank you.

CHAIR: Thank you. All right. So, you've heard the ruling. Is there anything else that you could, you want to bring to our attention with respect to the photo, but recognize you can't go too far afield --

MR. CLARK: No, no, --

CHAIR: -- because it relies on, number one, things that Ms. Foxworthy may have represented but also your conclusions drawn therefrom that are not appropriate for purposes of, it really requires a, an expert witness on those issues. Is there anything else you want to tell us about the photo?

MR. CLARK: You tell me if I'm, if, if I'm over the line.

CHAIR: Oh, I think Mr. Schmidt will tell you. But is there anything else you want to tell us?

MR. CLARK: Yeah, yeah, there is. I understand the road is crowned, okay? That doesn't stop when you have the four or five inch rains that we've been having, all right, now now --

CHAIR: Again, this, since this has to take into

account the curvature of the roads and the water flow and all the other issues that we just discussed, --

MR. CLARK: Right.

CHAIR: -- is there anything else you want to tell us that would help us with this photo today, without Ms. Foxworthy being present?

MR. CLARK: Okay. No, other than as a district manager, I am very, I, I am more knowledgeable than most about sheet flow and how it travels across trails and forest roads and that crowning and ditching aren't the answer to everything.

CHAIR: Very well. So, with respect to the issues with sheet flow or water infiltration, is there anything else you want to bring to our attention?

MR. CLARK: No, no.

CHAIR: Okay. So, what else is it about the environment that you feel are potential detrimental effects that you've not otherwise discussed?

MR. SCHMIDT: Mr. Garber, Mr. Garber, has this been given a number for i.d. only?

CHAIR: Sorry, sixty-five, yes.

MR. MCCOMAS: It's sixty-five, yeah.

MR. SCHMIDT: Thank you.

MR. CLARK: I, I, --

CHAIR: I'm sorry?

MR. HOLZER: I didn't mark it.

CHAIR: Go ahead.

MR. SCHMIDT: I thought you did.

MR. CLARK: I think we're done with that one.

CHAIR: Okay. Are there any other detrimental effects on the environment that you have otherwise identified and not testified about yet?

MR. CLARK: No, I think, I think we're done with this.

CHAIR: Okay. Have we talked about all of your concerns, hold on, --

MR. HOLZER: Objection. I have five more pages of questions for him.

CHAIR: I haven't even finished my question.

MR. HOLZER: It sounded as if you're saying are we finished with --

CHAIR: I'm not saying, I, I'm not saying that he's done with your direct yet.

MR. HOLZER: Oh.

CHAIR: I'm trying to get to the end of the 502.1 factors that we've identified to make sure that we've exhausted whichever things that he wants to say. If he has more to say, I'm sure Dr. Clark will be able to let us know that.

MR. HOLZER: I have more that I need to ask him on the 502.1 conditions.

CHAIR: I'm not limiting you.

MR. HOLZER: Oh, okay. I just didn't understand.

CHAIR: I'm trying to get out of him what he wants to tell us about the environmental stuff. He said, correct me if I'm wrong, he's now done on that.

MR. HOLZER: He's finished, he's finished.

CHAIR: So, do I understand that we've had your testimony on noise, traffic, the danger and the environment? Is there --

MR. CLARK: No.

MR. HOLZER: No.

CHAIR: Okay. We haven't?

MR. CLARK: No, no. You have on the environment.

CHAIR: Okay. I need to figure out --

MR. HOLZER: Could, could I handle my witness, Your Honor.

CHAIR: Well, hold on a second.

MR. HOLZER: In terms of asking questions?

CHAIR: Yes.

MR. HOLZER: Okay.

CHAIR: But hold on one second. When we were here before the break, I specifically identified the following from his testimony. His concerns sounds and noise, creating congestion, hazards on road, inadequate sight lines, I'm, I say four because I'm interpreting that as one and the same. And then crease potential for danger, maybe the hazards go to that

too. And then detrimental to the environment, forest and streams. I asked about the first three and then we've had videos and audio and his testimony and I understood those to be relatively finished. Maybe not completely, but relatively finished. It was the environmental one that I thought okay, we haven't heard anything about that, let's exhaust all the testimony and all the whatever else that wanted to be presented on that point. So, if I'm not, if I'm mistaken as to the completeness as to any given factor, I'm not precluding you from asking questions.

MR. HOLZER: Okay.

CHAIR: I'm just making sure, do I have that correct, what I just, just said?

MR. CLARK: The, the, the, the environment, we are done with the environment.

CHAIR: Okay. So, --

MR. CLARK: I, letter I.

CHAIR: -- and your, and your understanding is we're not done yet as to your testimony as to the noise or sounds?

MR. CLARK: Can I, yeah, I need to explain a little bit.

CHAIR: Go, no, that's, yes, (inaudible). By all means, what have you not told us already with respect to the testimony that, or the evidence that you want to present to this Board on those points?

MR. CLARK: Okay. What, what, what I will do with the 502.1 conditions is these were approved, this is an approved statement by the Gunpowder Falls Watershed Preservation Association, okay? The, the, this is, this is our, --

CHAIR: You're switching hats at the moment.

MR. CLARK: Yeah.

CHAIR: From individual to a representative --

MR. CLARK: Well, and the environment, the environment was too.

CHAIR: Okay. To a, an authorized representative for the association.

MR. CLARK: Yes, yes.

CHAIR: And you'll have to forgive me, Mr. Holzer. Have we presented rule eight paperwork regarding that?

MR. HOLZER: It's in the record.

CHAIR: Again, I'm just, I --

MR. HOLZER: I think.

CHAIR: -- off the top of my head, I, I don't recall.

MR. HOLZER: I think.

MR. SCHMIDT: Mr. Garber, with all due respects and it's been a long hearing, but my recollection is there is no such rule eight material. And as a matter of fact, at least based on my last inspection, there is no entity registered with the State Department of Assessments and Taxation known as the

Gunpowder Falls Association. This is a, an organization that Mr. Clark has created and it's him, essentially, as I understand it. But at least there's nothing when I looked in Assessments and Taxation that this organization even exists.

CHAIR: Okay. I, I understand your objection. Mr. Holzer, you've heard the objection from Mr. Schmidt. While we proceed with Dr. Clark's other testimony, if we could find whatever paperwork there is, you have it there? Okay. So, let's present to Mr. Schmidt and see where that takes us.

MR. HOLZER: Before I do that, I want to see --

CHAIR: Hold on. Protestant's Exhibit 28, apparently --

MR. HOLZER: That's what I wanted to see.

CHAIR: -- Gunpowder Falls Watershed Preservation Association.

MR. HOLZER: Correct.

CHAIR: That's already been received into evidence, is that correct, Mr. McComas?

MR. MCCOMAS: Yes.

CHAIR: That's on the chart?

MR. MCCOMAS: Yes.

CHAIR: This has already been received into evidence.

MR. HOLZER: So, these objections I keep having to respond to --

CHAIR: Hold on.

MR. HOLZER: -- I mean, --

CHAIR: Mr. Holzer, I understand your frustration. But also you have to recognize we're trying to understand where this is going. Dr. Clark has indicated he wants to now present testimony on behalf of the organization, not necessarily him at, limited as an individual. So, we have to switch hats and make sure that we have the right things in place for that to occur. Understanding that this is in evidence.

MR. HOLZER: Since it is in evidence, I don't need to share it with anyone yet, do I?

CHAIR: I, I would agree that since it's in evidence, Mr. Schmidt would already have a copy.

MR. SCHMIDT: That's this?

CHAIR: That is correct.

MR. HOLZER: Yeah.

MR. SCHMIDT: And my, my point is, and I have this, a printout from the State Department of Assessments and Taxation, and so they may have a rule eight. There is no entity, no registered with the State of Maryland called the Gunpowder Falls Watershed Preservation Association.

CHAIR: All right. So, --

MR. SCHMIDT: So, you may have a rule eight that Mr. Clark signed, but it is not an entity, at least --

CHAIR: -- I believe that we will deal with that on cross examination.

MR. SCHMIDT: Okay.

CHAIR: I will let you continue, Mr. Holzer.

MR. HOLZER: Thank you.

CHAIR: Yes.

MR. HOLZER: Do you need, do you need a copy (inaudible).

CHAIR: No, we have that. For the record, I just, that's, all I wanted to make sure those I's and T's were properly crossed and dotted as necessary for, for him to be able to testify on behalf of an organization. As to whatever issues that may exist with respect to the organization's existence or other, as Mr. Schmidt wants to bring up, I'm sure he'll get into that on cross examination. And then we can determine later if there's, what effect, if any, his cross examination has on the testimony.

MR. HOLZER: A lot of community associations, they'll be shocked by hearing that.

CHAIR: I don't know, Mr., Mr. Holzer, I'm telling you I don't know the answer to the question sitting here at the moment. I'm saying, please proceed with your, your examination of Dr. Clark as the representative for the association.

MR. HOLZER: I, I will, I will. Before, I think, because of the Board's questioning that's sort of taken over from what documents I had. I do want to go back to the beginning of the testimony where Mr. Clark testified that, that

no one that lives within five miles. Mr. Clarke at least doesn't. So, I want to get this location of members that signed in at this hearing on the sign in sheets. I want to get that in the record.

CHAIR: The sign in, from listed members? I'm not following where you're going with that.

MR. HOLZER: The testimony was, his testimony was, that we have an analysis of where all the people who signed in on the sign in sheets, which are already in evidence before the Board, where they live and this is, that they don't live within five miles of the subject site.

CHAIR: Mr. Schmidt, do you dispute that, that the members of the organization all live, all live outside five miles of the site?

MR. SCHMIDT: I have no idea whether they do or don't and more importantly, what is the difference?

CHAIR: I, well, --

MR. HOLZER: That's fine.

CHAIR: -- that would be my second question as well. I don't know what the relevance is now that I sit here and think about this. That was a question --

MR. SCHMIDT: Is there some requirement under 502.1 that a congregant live within five miles?

CHAIR: I specifically, hold on, Mr. Schmidt, hold on. I specifically asked this question and we got sidetracked

So, Dr. Clark, what is the relevancy to you as to why these people live outside the five miles? I understood you to say earlier, what benefit is there to the community?

MR. CLARK: Right and --

CHAIR: Now, if you could tie that to any special exception factor, --

MR. CLARK: Yes, I can, okay?

CHAIR: Go ahead.

MR. CLARK: In fact, I can tie it directly to 502, which basically requires me to only be concerned about my community and my locale. Okay? I, it doesn't, I don't have to be concerned about Harford County, I don't have to be concerned about the needs of Parkville, I don't have to be the, be concerned about the needs of any place else. And so, my concerns are that this is, this is my community, my locale and it is being disrupted in a major way where there is no benefit to my locale. It's that simple.

CHAIR: Is there anything else you wish to get out of Dr. Clark on this point?

MR. HOLZER: I want to get in the record the location of where the people are because it is obviously relevant to the impact of the neighborhood, quote. We've heard the Petitioners talk, oh, well, you're beyond the neighborhood or where is the neighborhood? Well, this is relevant to where the Petitioners reside in relationship to their impact on the quote,

neighborhood.

CHAIR: Mr. Schmidt?

MR. SCHMIDT: Mr. Garber, there's a concept obviously of standing and obviously I understand that it is reduced or not as severe, if that's the proper terminology, in an administrative setting such as this. But certainly standing is a proper inquiry to be made to ascertain where people are from, from a standing standpoint and from a witness standpoint. That, that, it's just completely different than what the assertion is here, that people are, that the Petitioner doesn't have people who live here. I mean, that, that's got nothing to do with the special exception criteria.

There, this, this temple could be established, there could be, Mr. Clark may decide to convert to this religion and adopt this as his home temple. There might be others in the community who begin worshipping here and become, and come here because of the, the testimony. There are special exceptions involving corporations or corporate uses, which don't even have individual natural persons who are part of those entities for a, a, a corporate petitioner. So, I mean, the fact that people live here --

CHAIR: Well, if I could summarize it --

MR. SCHMIDT: -- or don't live here, has nothing to do with any subjective issue.

CHAIR: -- if I could summarize your point?

MR. SCHMIDT: Yes, sir.

CHAIR: Your, if you were to start a Catholic church, do you have to build it in the middle of a neighborhood that's predominantly Catholic?

MR. SCHMIDT: Absolutely, you, certainly you do not.

CHAIR: That would be your, that would be your argument, or the way to summarize your argument --

MR. HOLZER: Can I argue?

MR. SCHMIDT: And he went back and I, let me just say this too, Mr. Clark says again that it doesn't bring any benefit to his community. And I again, and you certainly have judged many special exception cases, if you read *Schultz v. Pritz,* that's exactly the point that Judge Davidson, and that's the seminal case in Maryland that says that is not the criteria. Whether this is beneficial to his community or not, and I would argue, I mean, I could argue that it is. But whether it is or not is simply not the criteria that this Board has to apply and his testimony as to that point, therefore, has no relevance.

CHAIR: Mr. Holzer, how do you respond to the *Schultz v. Pritz* argument? Because I will say isn't there some type of, well, it's been called a presumption in the case law, that there, that this use is not permitted by right, but it is understood to be one that would be beneficial to the community and some of these factors have already been taken into account

so that if it, if--

MR. HOLZER: I'm familiar with *Schultz v. Pritz*.

CHAIR: Right. So, --

MR. HOLZER: Been a long time, Mr. Chairman. The reason --

CHAIR: Mr. Holzer, I understand you've been around a long time. Do you wish to respond to that argument?

MR. HOLZER: Yes, yes. The fact of the location of the participants who have, will be using this property relates directly to whether or not, as you heard in prior testimony, people who live in the area know how to avoid the possible accidents, know how to drive Harford Road, know how to worry about where the curves are, etcetera. People who do not live in the community, do not necessarily share that understanding in regard to traffic, the neighborhood, if they're only visiting once a year or if they've never visited there and are going to an event, a, a, a, whatever kind of event it might be.

So, the relevance of people living in other counties, the relevance of people living in the City, the relevance of people living in another country who will be coming to this, whether it's a religious or whether it's an activity type place to play soccer or to play badminton or volleyball, is relevant to the 502 number one criteria. It's that simple. And, and, if it's not simple, if you don't let this in, I want to mark it as a proffer exhibit and I'm going to start marking documents

as proffer exhibits because I want to have a record on this case on appeal.

So, I think it's fairly clear that if you have people that are not familiar with the neighborhood, they may not be familiar with the road system.

CHAIR: Well, I, I, I'm just going to short circuit all this. I mean, at the end of the day, does it really matter this document, and this evidence? Because you certainly can argue, we all know, everybody has heard for days that people are coming outside of, they're either coming from other counties or coming from the City, they're coming from other states, whatever the case may be.

MR. HOLZER: Yeah.

CHAIR: Okay. That's already in the record. Your arguments as to well, these people aren't, don't know where they're going to be going and there's going to be confusion and there's these problems with the roads, all these arguments are still available to you, they don't --

MR. HOLZER: No, but this verifies the discussion. This verifies the analysis that supports that discussion.

CHAIR: There is no analysis of it. We, it's already established that, that you have a bunch of people coming to the site.

MR. HOLZER: But you don't know where, from where.

CHAIR: I, right, this speaks to your point. There's

nothing in the record that says that, you know, I mean, to the contrary. Like, in other words, you're not rebutting other evidence that's already in the record. This evidence also seems to, number one, I imagine what happened here is you have a list of people, you try to find out where they live. So, now it opens the door as to is this accurate information?

MR. HOLZER: All right. Then mark, then deny it, let me offer it as a proffer, proffer, Protestant's proffer number --

MR. MCCOMAS: (inaudible) so is that a summary?

MR. HOLZER: Yes.

MR. MCCOMAS: Is that just taking this and going down?

MR. HOLZER: Yes, yes.

MR. MCCOMAS: So, so, but you don't know if this is the congregation or not?

MR. HOLZER: I don't know what it is or who those people are.

CHAIR: All right.

MR. HOLZER: Nor do you.

CHAIR: I am going to sustain the objection. You may enter for i.d. only. I understand what you want to try to accomplish. I don't think that that's the way to go about doing I think what you want to accomplish and I think your argument is still preserved in any event. And I don't think

this evidence is going to help the Board one way or the other. I also find it to be, from what my recollection is, to be inconsistent with *Schultz v. Pritz*. But yes, we can mark this as sixty-six for purposes of the record.

MR. HOLZER: I would rather not mark it as sixty-six. I would rather mark it as proffer number one.

MR. SCHMIDT: What do you, what do you mean, proffer number one?

CHAIR: We're not changing designations.

MR. SCHMIDT: I've never heard of such a thing.

MR. HOLZER: I'm proffering this document.

CHAIR: Yes, we, but we have that in other, there are other exhibits that are i.d. only.

MR. HOLZER: Okay.

CHAIR: That is, for purposes of the record. So we know what document you're referring to that has not been admitted.

MR. HOLZER: Fine.

CHAIR: It's the same thing.

MR. HOLZER: That's, that's fine.

CHAIR: So, this will be Exhibit 66, which is identification only. It is not in evidence, it is being received for purposes of the record. And again, I don't think that forecloses your argument in any event.

MR. HOLZER: Sixty-six, did you say?

CHAIR: Yes, sixty-six.

MR. HOLZER: Okay.

CHAIR: All right. Next?

MR. HOLZER: Now I'm ready to ask questions.

CHAIR: Fair enough.

MR. HOLZER: Dr. Clark, you created along with others the Gunpowder Falls Watershed Preservation Association, is that correct?

MR. CLARK: Yes, sir.

MR. HOLZER: That, that organization, is it a corporation?

MR. CLARK: No.

MR. HOLZER: Is it reviewed and approved by any, either State or County local government?

MR. CLARK: Yeah, the, the, the, the County office that takes care of civic associations.

MR. HOLZER: Okay and did they place this on their list to get notification, is that the purpose of the County?

MR. CLARK: Yes, yes, yes. And that's where rule eight applies, is, as far as I understand it.

MR. HOLZER: Okay and how many members of the association are participants in the association per se?

MR. CLARK: We have what, a hundred and twenty landowners, which translates into over a hundred and fifty individuals.

MR. HOLZER: Okay.

CHAIR: When you say landowners, is that residential only?

MR. CLARK: Yes, yes.

MR. HOLZER: Okay.

MR. CLARK: And, and I, I will point out that, that in that area, landowners are far and few between because of the lot sizes.

MR. HOLZER: Now, do you, do you have a copy of the resolutions that were prepared and introduced in this case? If you don't, I can give you one.

CHAIR: You're asking does he have a copy of Protestant's Exhibit 28 in front of him?

MR. HOLZER: Yeah.

MR. CLARK: No, I do not.

MR. HOLZER: Okay.

MR. CLARK: I probably do, but I'll say not. Okay, yep.

MR. HOLZER: Now, what are the boundaries of the association, if you can testify?

MR. CLARK: Gunpowder to Gunpowder, okay? North and south.

MR. HOLZER: I'm sorry, when you say Gunpowder to Gunpowder, Gunpowder River?

MR. CLARK: Yes.

MR. HOLZER: Is north of the property?

MR. CLARK: Yes.

MR. HOLZER: Subject property?

MR. CLARK: Yes, and, and Gunpowder River south of the property.

MR. HOLZER: Okay. That's north and south, what about east and west?

MR. CLARK: East it is Belair Road and west it is Glen Arm Road.

MR. HOLZER: Okay. Does that encompass the subject site?

MR. CLARK: Yes, it does.

CHAIR: Wait, doesn't Glen Arm run east/west? I know it hooks.

MR. CLARK: It, yeah, yeah, and so the, so Long Green Pike and out that way.

CHAIR: Right, so isn't there an outer boundary?

MR. CLARK: Well, Long Green Pike out, out to, go past Fork Church, down Baldwin.

CHAIR: Okay.

MR. CLARK: There we go. Sorry.

CHAIR: No, that's okay.

MR. HOLZER: Okay.

CHAIR: And if, I assume this hasn't been asked, what is the purpose of the association?

MR. HOLZER: Well, I'm going to get to that.
CHAIR: Okay.
MR. HOLZER: But I, if I can, --
CHAIR: Sorry, I'll defer to Mr. Holzer.
MR. HOLZER: -- if I can, I would ask did you create an articles or by-laws of procedure for the association?
MR. CLARK: Yes, we did.
MR. HOLZER: And when did you do that?
MR. CLARK: November 2017, somewheres in there.
MR. HOLZER: Okay. When was the association formed, if you know?
MR. CLARK: I guess around that time.
MR. HOLZER: Okay and the document that's, that's marked here as your rule eight, how many pages of that are attached together?
MR. CLARK: I've got a total of three pages.
MR. HOLZER: All right and how did you know how to do a res, resolve under rule eight?
MR. SCHMIDT: Objection. How did he know how to do it? What's the, what's the relevance?
MR. HOLZER: Because you're going to ask him, counsel.
CHAIR: Are you asking if he, hold on, hold on --
MR. SCHMIDT: It's already in the record, Mr. Holzer.
CHAIR: Whoa, everyone, stop.

MR. HOLZER: Because you're going to ask him.

CHAIR: So, everyone, stop. I don't want to hear comments back and forth. We'll get through this. Sir, do you have familiarity with rule eight under the Board of Appeals rules?

MR. CLARK: Yeah.

CHAIR: Okay. How do you have familiarity with it?

MR. CLARK: It was explained to me by people from Kingsville Association.

CHAIR: Okay and did you review it yourself?

MR. CLARK: Yes.

CHAIR: Okay. As a result of reviewing it yourself and hearing the information that you received, what did you do?

MR. CLARK: We did a resolution and we had a, and we had a vote.

MR. HOLZER: Who had a vote? I'm sure counsel will ask that. Who had a vote?

MR. CLARK: Well, we, we, we had, we had a board vote and then we brought it to the membership.

MR. HOLZER: All right. Who's --

MR. SCHMIDT: Mr. Garber, --

CHAIR: Hold on, hold on.

MR. SCHMIDT: I just, just have a question. Isn't this already in evidence?

CHAIR: It is in evidence.

MR. HOLZER: It is in evidence.
CHAIR: It is.
MR. SCHMIDT: Okay.
CHAIR: Twenty-eight.
MR. SCHMIDT: Thank you.
MR. HOLZER: Okay. I just wanted to avoid any cross examination in regard to the technical aspects since we've had that happen before.
CHAIR: You are preempting some cross examination.
MR. HOLZER: Exactly.
CHAIR: In the interest of expediency?
MR. HOLZER: That's exactly what I --
CHAIR: Thank you very much.
MR. HOLZER: Thank you. All right. Now, if, when, in terms of this document, how did you come to the conclusion to make this resolution and what was resolved, number one? And how many votes, because this was asked before, --
CHAIR: Mr. Holzer, you're, you're asking multiple questions now. So, let's ask one at a time. First of all, we, as to what the resolution reads, we can read the resolution.
MR. HOLZER: Yes.
CHAIR: As to how the resolution came to be, I think that's the question you're --
MR. HOLZER: Yes.
CHAIR: -- you were getting at.

MR. HOLZER: How, how did it come to be? And did it follow the by-laws of the organization?

MR. CLARK: Yes, well, yes, it followed the by-laws. But how did it come to be is a big question.

CHAIR: Well, let, we'll start with this. A meeting, you, under your by-laws you're required to have a meeting?

MR. CLARK: Right.

CHAIR: Okay and who was required to be present for the meeting in order to conduct official business?

MR. CLARK: We had a call to the membership and it is five percent, all right?

CHAIR: Okay. So, you need five percent of the membership to appear. Do you, how many board members do you need to appear?

MR. CLARK: All of us appeared, actually.

CHAIR: Well, how many do you have to have appear to take --

MR. CLARK: Okay.

CHAIR: -- official action?

MR. CLARK: Fifty per, fifty percent of the board.

CHAIR: So, you need fifty percent of the board and five percent of the membership and that, does that include the board? The five percent or is it fifty plus five?

MR. CLARK: Yeah, yeah, yeah, it can, yes, sir.

CHAIR: All right. So, with that in mind, when you

take a vote, is it a vote of the membership that's present and also the board?

MR. CLARK: Yes.

CHAIR: Or is it just the board?

MR. CLARK: No, it's member, it, it would be both.

CHAIR: And what is the requirement for official action to pass? That is, do you need a majority or --

MR. CLARK: Majority, simple majority.

CHAIR: -- so, okay. So, fifty plus what basically?

MR. CLARK: Right, right.

CHAIR: All right and that's of those people present and voting?

MR. CLARK: Yes, sir.

CHAIR: As long as it's five percent of the general membership and fifty percent of the board of directors?

MR. CLARK: Yes, sir.

CHAIR: And so, on the, for your meeting that day, was, do I assume there was some type of agenda or something in which this would be discussed?

MR. CLARK: Yes, sir.

CHAIR: Okay. When you were there discussing it, was it understood that there would be a vote?

MR. CLARK: Yes, sir.

CHAIR: And did you, in fact, take that vote?

MR. CLARK: Yes, sir.

CHAIR: And did you take that vote in accordance with the by-laws?

MR. CLARK: Yeah, we did, sir.

CHAIR: And that's how you came to have the result, which is now embodied in, --

MR. CLARK: Thank you, sir, yes.

CHAIR: -- Protestant's Exhibit 28.

MR. HOLZER: That's correct.

CHAIR: All right. Do we have any other questions as to how the resolution came to be?

MR. HOLZER: No, no, as long as you've covered --

CHAIR: All right. So, next?

MR. HOLZER: All right. Now, when the resolution was passed and it authorized in the resolution you and perhaps some others to testify on behalf of the association, is that correct?

MR. CLARK: Yes, sir.

MR. HOLZER: And you are testifying on behalf of the association in regard to the 502.1 conditions, is that correct?

MR. CLARK: Yes, sir.

MR. HOLZER: Okay. I would suggest that you start with condition 502.1, condition A, be detrimental to the health, safety or general welfare of the locality involved.

CHAIR: Mr. Schmidt?

MR. SCHMIDT: Mr. Garber, just from a standpoint of,

of, of repetitive testimony, if the witness offered testimony previously, I think, in his individual capacity, if, if the testimony is being offered now in his capacity as an officer of the Gunpowder Falls Watershed Preservation Association, can we just leave it that the concerns that Mr. Clark has expressed as an individual are those of the association, as opposed to hearing the same thing again and again because he's now wearing a different hat, in effect? I would be willing to proceed in that fashion if it's acceptable to the Board and Mr. Holzer.

CHAIR: Mr. Holzer, is there any problem with proceeding in that manner?

MR. HOLZER: His, his testimony, as I understand it, on behalf of the board is not his personal testimony, it's a compilation of the board's request for him to testify to the Board. So, under the circumstances, I believe anything he says now is on behalf of the association. He's already testified as to some of his personal observations, which I'll get back to because we've been diverted from the outline. So, what he's going to say now is only representative of the board's resolution.

CHAIR: Well, I think what Mr. Schmidt is trying to propose here is whatever extent that it can be incorporated as the same testimony for both, to whatever extent that they may match, let, can we just adopt that into the testimony on behalf of the association and then, if there's inferences that he has

with wearing one hat versus an individual, that we just identify whatever differences there are, because that should be far shorter, presumably, because he has been pretty extensive, I think, to date as to his individual testimony on these issues. And if he has additional ones to offer, so be it. I'm not suggesting that you can't go into that.

MR. HOLZER: With that understanding, that he can go back to his individual testimony that he hadn't gotten to up to this point.

CHAIR: Oh, no, we're, we're talking about two different things. I'm not foreclosing that --

MR. HOLZER: Oh, okay. Okay, fine.

CHAIR: -- I'm just saying, what he has testified to to date has been understood to be as an individual. He's about to present testimony on presumably the same points, there may be some varying --

MR. HOLZER: I'll try to keep it shorter.

CHAIR: -- there may be some variation.

MR. HOLZER: Right.

CHAIR: But for example, if he has complaints about noise, I realize the complaints of the association about noise may be slightly different because the association isn't located across the street from the property.

MR. HOLZER: Right.

CHAIR: But he would have the same issue to raise,

that is, well, we have concerns about noise. That's just by way of example. Or traffic, traffic seems to me to be about (inaudible) because the association would have presumably the same concerns because it's not just limited to the Clark property.

MR. HOLZER: Right.

CHAIR: All right.

MR. HOLZER: With that understanding, I'll, I'll agree that as long as he's permitted to go back to his original testimony, I'm okay with that.

CHAIR: Right, let me just put it like this to make it easier. What differences, what differences in the testimony --

MR. CLARK: Thank you.

CHAIR: -- that you have to offer on behalf of the association compared to you as an individual, as it relates to, we'll start with 502.1(A)?

MR. CLARK: All right. I, I will try --

CHAIR: The difference between --

MR. CLARK: Yeah, that, that's right and I, I will try. Basically I'm going to reference some things and then just, and, and just move on, not introduce --

CHAIR: That's, that's fine. I want to make sure we have it in the record --

MR. CLARK: -- right.

CHAIR: -- whatever it is. I want you to let us know, but I don't want to have to rehash the same thing.

MR. CLARK: Right.

CHAIR: Like we don't want to watch additional videos --

MR. CLARK: No.

CHAIR: -- about the same thing that we just saw, (inaudible).

MR. CLARK: Let me give, let me give you an example.

CHAIR: Yes.

MR. CLARK: Okay. Be detrimental to the health, safety, general welfare of the locality. One, sound and disturbance. Reference David Poehler testimony from day five. Okay? That's what I want to say there.

MR. HOLZER: That's all you want to say?

MR. CLARK: Well, well, but, you know, that, that, that no, no, that's, that's the evidence, you know, that, that's the only evidence reference I would make.

MR. HOLZER: Okay.

CHAIR: So, okay. So, the testimony, obviously Mr. Poehler testified for some period of time from what I recall. He testified to things like music and you could hear talking occasionally and stuff like that. That's the testimony that you're referencing on behalf of the association on top of your testimony --

MR. CLARK: Yes, yes.
CHAIR: -- as an individual?
MR. CLARK: Yes.
MR. HOLZER: We're on board.
CHAIR: All right. So, next, 502.1(B).
MR. HOLZER: No, we still have more under --
CHAIR: I'm sorry. I thought --
MR. HOLZER: -- under health, safety and welfare.
CHAIR: -- I thought that's what he said that that was the (inaudible), I'm sorry.
MR. CLARK: I'm, I'm, I'm going by my outline, I'm sorry.
CHAIR: Go right ahead, sir. My, my fault.
MR. CLARK: And on day four, the, the Mary Clark testimony about the volleyball and the amplified drums.
CHAIR: I recall that.
MR. CLARK: All right. On day five, Joyce Mason, the loud noise and the amplified sound spooked her horses.
CHAIR: Right, and I recall that it spooked her horse but then since then, she got additional horses and so the second event spooked her, the four horses.
MR. CLARK: Yes, sir.
CHAIR: I understand.
MR. CLARK: Okay. We haven't introduced them yet, but under D, --

CHAIR: Well, hold on, we're, if we're moving to another factor --

MR. CLARK: No, no, no, I'm sorry, that's me. I'm misfiring.

CHAIR: Okay.

MR. CLARK: I'm misfiring.

CHAIR: I would, we got to make sure we're sticking--

MR. CLARK: Right, I, I, yeah.

CHAIR: Okay.

MR. CLARK: The, we have, we haven't introduced them yet, but we have all, videos depicting various scenes from various events, not just the, the, the August 29 or July 29, August (inaudible) --

CHAIR: Okay. So, to whatever extent we get to that, --

MR. CLARK: Right.

CHAIR: -- that would speak to some of the issues on behalf of the association?

MR. CLARK: That's right, that's, that's correct.

CHAIR: Okay.

MR. CLARK: Okay.

CHAIR: This is not to be clear, a comment as to what's going on with those videos as of yet, but understood that when that comes up in the future, that's being incorporated back into your association testimony, got it.

MR. CLARK: Yeah, yeah.

CHAIR: Okay, next?

MR. CLARK: All right. A new affidavit, Joann's, Foxworthy's health statement.

MR. HOLZER: Okay.

CHAIR: And this is under, again, A?

MR. CLARK: Right.

MR. HOLZER: This is under A, yeah.

MR. CLARK: This is, this, this, this is about the impact of this use of the way the property has been used on her health.

CHAIR: Is Ms. Foxworthy a member of your organization?

MR. CLARK: Yes, she is.

MR. HOLZER: Do you have it?

MR. CLARK: No, I don't.

CHAIR: Mr. Schmidt, do you have that in front of you?

MR. HOLZER: I gave it to him.

CHAIR: I see you do, okay.

MR. SCHMIDT: This, this affidavit?

CHAIR: Yes.

MR. HOLZER: Yes.

CHAIR: Sixty-seven.

MR. SCHMIDT: I, I have a copy of it, yes, sir.

CHAIR: I just wanted to make sure you were able to review, that's all.

MR. SCHMIDT: I, I'm looking at it now.

CHAIR: Understood. Bless you.

MS. DOPKIN: Bless you.

CHAIR: Mr. Schmidt?

MR. SCHMIDT: Yes, yes, --

CHAIR: Oh, I saw you stand, I thought you were ready --

MR. SCHMIDT: I, I was, no. I mean, I object to the document but it hasn't been offered so I'm --

CHAIR: Okay. Well, I think we're getting to that point.

MR. SCHMIDT: -- not trying to be premature.

CHAIR: So, what is your objection?

MR. SCHMIDT: My objection is, if, if this witness wants to submit this, she can come and testify. I mean, why are we getting an affidavit? I would object to an affidavit as opposed to having the witness come and testify.

Additionally, in terms of the substantive things in the affidavit, if I can summarize them, it, it appears to be that she has serious health problems and I, just not quite sure what that's got, with all due respect, I feel sorry for the lady and her health problems, and I'm not trying to minimize them. But I'm trying to figure out what that's got to do with

the special exception at issue. I, I would tell you I, I am aware of the fact that the witness has a criminal record for driving while intoxicated.

CHAIR: Well, --

MR. SCHMIDT: And I would certainly, if the, if the, based on our Maryland Judiciary Case Search, she was convicted of DWI --

CHAIR: Well, hold on. I don't want to hear that evidence right now.

MR. SCHMIDT: Okay. But I mean, I would cross examine her on whether it was alcohol problem that might be causing these problems as opposed to the special exception.

CHAIR: I under, I understand, I understand your point. Mr. Holzer, do you wish to respond?

MR. HOLZER: No.

CHAIR: Okay. So, --

MR. HOLZER: Oh, I'm sorry. I should.

CHAIR: Proceed.

MR. HOLZER: They're already in evidence.

CHAIR: What is already in evidence? The affidavit is not.

MR. SCHMIDT: The affidavit is?

MR. HOLZER: That one is not.

CHAIR: Right.

MR. HOLZER: The ones I have next are.

CHAIR: All right. Here's my thinking on the affidavit. Number one, I do think it's a concern if there are going to be substantive matters that are in here, when this witness would not be subject to cross examination. But also to the point of, this isn't on behalf of the association, where this is an individual conveying her individual issues on, but it's being submitted via the association. It seems to me that the, and do you have Exhibit 28, just so I can reference it real quick?

MR. MCCOMAS: Yeah.

CHAIR: Bear with me one second.

MR. HOLZER: Sure.

CHAIR: The resolution merely illustrates the opposition, that is understood. And it is understood that there were reasons that, for the opposition that certainly Dr. Clark is here to testify to today. Since he is a live witness and we have heard from other witnesses that are already incorporated, I think the more prudent course of action is to sustain the objection and not have the affidavit come in at this point. That does not limit the other testimony that you have given, just as to, solely as to the affidavit and to be clear, it is not to minimize Ms. Foxworthy's health issues or anything else. The concerns that she has, I assume that she may have these concerns but since it does not meet the requirements, I think, for admission here for this Board in

this case, it, we, better to set it aside for now and try to move on.

MR. SCHMIDT: And certainly, if she wants to testify, that would be appropriate --

CHAIR: She's not precluded.

MR. SCHMIDT: -- sure, and I, I look forward to cross examining her.

CHAIR: She's not precluded from testifying.

MR. HOLZER: Would her cross examination include her driving record?

CHAIR: I'm not making any opinions as to the driving record. There's a reason why I shut that down right away because I didn't want to hear it.

MR. HOLZER: But, yeah, and I didn't want to present the woman if she's going to be cross examined on that kind of irrelevant testimony.

CHAIR: Mr. Holzer, we're, we're not even there yet. So, I understand your concern that you're trying to voice here about it. I, and I don't know where it is with respect to whether or not it's appropriate or not. So, I can't make any type of comments as to whether or not she could or could not be subject to whatever questions that Mr. Schmidt, hold on, would otherwise put to her on cross examination. I'm not, I do not wish to hear anything further about any type of DUI convictions, alcohol use or anything else. She is not here. If

and when she were to show up, if it's appropriate, then we will cross that bridge then. I, we do not need to address it sitting here today.

MR. HOLZER: Well, I don't, I don't know whether I want to put the woman in that position or not, so --

CHAIR: Mr. Holzer, that is fine. And again, what I have said about it stands. We do not need to hear anything further about it so please continue with your --

MR. SCHMIDT: Mr. Garber, can I just say, I, I certainly did not intend any offense of Ms. Foxworthy. I --

CHAIR: It was not taken that way.

MR. SCHMIDT: I bring that up because the affidavit or alleged health issues and there might be many reasons for health issues so that's all I'm going to say.

CHAIR: Okay. Well, just, there's nothing more that needs to be said about it. It was not received that way. I understand that you have cross examination perhaps for her.

MR. SCHMIDT: Sure.

CHAIR: For, on whatever basis, irrespective of whether or not there ever was a record of this or not. So, I would already be inclined to not allow the affidavit in on, because there's substantive matters set forth within and there's already additional evidence for the points to which Dr. Clark wishes to use them for purposes of the association so, therefore, it's also duplicative in that, in that regard, so we

do not need to hear from, I guess, the affidavit on those points, when it's already well established through Dr. Clark's other evidence as to the noise issues.

MR. HOLZER: Again, I, I --

MR. MCCOMAS: (inaudible) i.d. only?

CHAIR: I.d. only.

MR. MCCOMAS: Okay.

MR. HOLZER: Again, even though it's been marked for identification and you precluded it from coming into evidence, I want to make sure that, that the word proffer as to its entrance is on the record, because all of this will end up being an issue.

CHAIR: I am not foreclosing your ability to argue that we made errors in our evidentiary rulings --

MR. HOLZER: I understand.

CHAIR: -- specific to any of the exhibits that we've discussed so far.

MR. HOLZER: I understand.

CHAIR: But particularly now in light of the context of Exhibit 67.

MR. HOLZER: And the only thing that I'm, I'm saying, and not to offend the Board --

CHAIR: It's not, it --

MR. HOLZER: I, I understand.

CHAIR: There's, there's no offense.

MR. HOLZER: I understand. But when, when one is in a subsequent appeal, if that is what's going to happen, the, the Courts understand that you, when you proffer a document in and it didn't end up getting considered by the, I just want them to understand what, --

CHAIR: Right.

MR. HOLZER: -- what it is and that's all.

CHAIR: And so, that's why we include it as i.d. only and it, it is made part of the file, though not admitted, --

MR. HOLZER: Right.

CHAIR: -- therefore, for the purposes of the Board's consideration, we do not consider Exhibit 67.

MR. HOLZER: Right.

CHAIR: Though it should be transmitted with the file should there be future proceedings.

MR. HOLZER: Thank you, Mr. Chairman.

CHAIR: Sure thing.

MR. HOLZER: You have certainly outlined it for the, for subsequent inquiry.

CHAIR: Yes, that is fine.

MR. HOLZER: I appreciate, I appreciate that.

CHAIR: No problem.

MR. HOLZER: All right.

CHAIR: So, we're done with Ms. Foxworthy's affidavit at the moment.

MR. CLARK: Okay. I, I, I would say --
CHAIR: Well, there's nothing --
MR. CLARK: Okay, okay.
CHAIR: -- there's no question pending.
MR. CLARK: (inaudible).
MR. HOLZER: Okay.
CHAIR: (inaudible) Mr. Holzer.
MR. HOLZER: Now, next would be in terms of documentation, Ms. Foxworthy's sound affidavit, Robert Shifflett's sound affidavit and Dave Poehler's sound affidavit. I don't want to go into all of the argument again, but in terms of those documents, I would like to put them in, if, if that's, you're familiar with --
CHAIR: If I'm understanding you correctly, you have two additional affidavits to discuss sound?
MR. HOLZER: Three.
CHAIR: Three, sorry.
MR. HOLZER: Three.
CHAIR: What I heard was Mr. Shifflett, Mr. Poehler?
MR. HOLZER: And Ms. Foxworthy.
CHAIR: We, we already dealt with --
MR. HOLZER: It's a different one.
CHAIR: Oh, we have a different Foxworthy, okay.
MR. HOLZER: Yes.
CHAIR: So, we have a second Foxworthy. Now, Mr.

Poehler has already testified.

MR. HOLZER: Yes.

CHAIR: He, he has been here, he has been cross examined by Mr. Schmidt.

MR. HOLZER: Yes.

CHAIR: And so, do I understand this affidavit to be additional?

MR. HOLZER: No. What I want to make sure of, if these three affidavits were already submitted to this Board in the preliminary motion, okay?

CHAIR: They were not received as substantive evidence but they were made part of the motion.

MR. HOLZER: Exactly. And I want to make sure that they are, in terms of the substantive presentation, not just the motion.

CHAIR: Understood. Mr. Schmidt, anything you wish to add?

MR. SCHMIDT: Yeah, yes, I object. I believe it's a fairly fundamental rule of evidence that if a witness has testified, for example, as Mr. Poehler has, I'm not sure why there would be a need, and I don't think it would be appropriate, to allow that witness who has already offered testimony and been cross examined, to then submit an affidavit. If he wanted to testify about the matters in the aff, that are contained in the affidavit, that witness certainly had an

opportunity to do so and I would have had an opportunity to cross examine him regarding those matters. But to, essentially, backdoor, my choice of words, by allowing him to come in, testify about certain things, be cross examined about those things and I would be restricted to the area of direct examination in my cross examination, and then allow him to submit an affidavit alleging or testifying about additional facts, I think is manifestly improper --

CHAIR: Well, if I, if I can --

MR. SCHMIDT: I've never heard of that even under relaxed rules of evidence.

CHAIR: If I could just jump in on that point. To, only to add, we haven't seen the affidavits, first.

MR. SCHMIDT: As, as have I.

CHAIR: And second, right, and (inaudible). But second, he actually was specifically provided direct and cross examination testimony as to the noise issues that he has, personally had experience with.

MR. SCHMIDT: Yeah, I mean, I was trying to look at my notes as I, as Mr. Holzer was saying this, and I believe he did so it's duplicitous on top of --

CHAIR: He talked about specifically music, music coming at 1:00 a.m. in June or July of 2017 from what I recall.

MR. SCHMIDT: Right.

CHAIR: That's the one thing that stands out. I'm

not suggesting it's limited to that, but I do recall testimony from Mr. Poehler on that very point and then there was questions asked about a rock concert held by another neighbor down, a bit away and he said the music didn't sound like rock music to him and, and he's an aficionado of rock music.

MR. SCHMIDT: Right.

CHAIR: Something to that effect.

MR. HOLZER: The, the point of the matter is, you got it all wrong in terms of the sequence. This, these affidavits were submitted on the first day in the preliminary motion, before he ever had a chance to testify or be cross examined.

MR. SCHMIDT: But they were motions exhibits.

CHAIR: I don't think that that makes a difference. I think what, what the point of it is, is whatever he wanted to say he had the opportunity to say, he's not here, so therefore, we shouldn't take the affidavit as substantive evidence since he's had the ability to testify to the very points, presumably that are contained in the affidavit. Now, we're going to go through the same procedure, as we did with the other Ms. Foxworthy, that is, to allow you to introduce into evidence for i.d. only, recognizing these are proffers as to the documents, correct?

MR. HOLZER: That's correct.

CHAIR: Okay.

MR. HOLZER: So, I have Ms. Fox, Joann Foxworthy.

CHAIR: There's a second one?

MR. HOLZER: The second one is Robert Shifflett.

CHAIR: So, Joann Foxworthy was the one before?

MR. HOLZER: It's a different affidavit.

CHAIR: What, there are two?

MS. DOPKIN: Two separate --

MR. MCCOMAS: Two of them.

CHAIR: There are two separate affidavits from Joann Foxworthy?

MR. HOLZER: Yes.

CHAIR: I thought we were talking about two different Ms. Foxworthy's, that's why I was confused.

MR. HOLZER: No, no, I'm sorry.

CHAIR: No, that was my fault. So, okay, so there's another, right.

MR. HOLZER: And then, well, I can tell you, Mr. Poehler testified about music and sound, so you've already said that Ms. Foxworthy and Mr. Poehler's are, are going to be marked in this three packet material, which is, I think would be safe to mark it, mark the one, the three packet material as one. But Mr. Shifflett --

CHAIR: So, 68-A, A, B and C is how we're going to do this. Foxworthy A, who's come, who's page two?

MR. HOLZER: Page two is Mr. Robert Shifflett.

CHAIR: Mr. Shifflett will be B and then finally Mr.

Poehler would be C.

MR. HOLZER: Yes.

CHAIR: These were affidavits attached to your motion at the start of this entire hearing.

MR. HOLZER: Right. Mr. Shifflett never testified.

CHAIR: I know, that's understood.

MR. HOLZER: Okay.

CHAIR: Right.

MR. HOLZER: Okay.

CHAIR: His name has been brought up, I recall, during the course of the hearing at some point.

MR. HOLZER: Right.

CHAIR: But he has not testified.

MR. HOLZER: Right.

CHAIR: Mr. Schmidt, do you understand that that's how this is being received at the moment?

MR. SCHMIDT: Yes, and you're marking all three for identification purposes only.

CHAIR: Yes, 68-A, B and C marked for identification.

MR. SCHMIDT: Yes, sir.

CHAIR: I think we've already exhausted and covered the grounds as to those points.

MR. SCHMIDT: I believe so, thank, thank you.

CHAIR: So, the same ruling that was provided for the other Foxworthy affidavit will be made part of 68-A, B and C as

well. All right.

MR. SCHMIDT: Thank you. And it's sixty-five?

MR. MCCOMAS: No, sixty-eight.

CHAIR: Sixty-eight.

MR. HOLZER: Sixty-eight.

MR. SCHMIDT: Sixty-eight, I'm sorry, thank you.

CHAIR: Thank you.

MR. SCHMIDT: I didn't think that was right.

CHAIR: All right. Next, Mr. Holzer?

MR. HOLZER: I believe you wanted to under detrimental to health, safety and welfare, Morgan Minor's sound and lighting affidavits. Has Ms., go again, explain who Ms. Morgan is.

MR. CLARK: She can't be here and Morgan Minor lives on Harford Road, about eight-tenths of a mile from the property. And she has complaints about, about the amplified sound and then the way the light, the up lighting at the mansion at night.

CHAIR: Was Ms. Minor here on any day thus far?

MR. CLARK: Yes, she was.

MR. HOLZER: She originally attended, I think, the first couple days and then she travels for employment.

CHAIR: I seem to think that on November 1st she was here because you were referencing things that she printed out from Facebook or wherever else and then --

MR. CLARK: I don't think she was here on November 1st (inaudible).

CHAIR: Okay. I seem to recall you gesturing toward the audience as if she was. I would, I don't know who she is, so.

MR. CLARK: Yeah.

CHAIR: That's why I'm asking this question.

MR. CLARK: Yeah. No, no, she's been here.

CHAIR: But she has been here. But she cannot be here today?

MR. CLARK: And, and tomorrow.

CHAIR: And tomorrow.

MR. CLARK: And then she's leaving for Europe or some, yeah, she's --

CHAIR: Okay.

MR. CLARK: -- one of those people.

CHAIR: So, you're going to submit an affidavit as to specific substantive matters --

MR. HOLZER: Very short.

CHAIR: -- for that, so that will be received in the same manner as the other affidavits. Sixty-nine. Mr. Schmidt, that is your understanding?

MR. SCHMIDT: Yeah.

CHAIR: I assume you have the same objection and which will be sustained.

MR. SCHMIDT: Yes, sir.

CHAIR: So, that will be applicable, sixty-seven, sixty-eight, sixty-nine.

MR. MCCOMAS: Mr. Holzer, do you have many more affidavits like this?

MR. HOLZER: Let me just check.

MR. CLARK: Maybe not today.

CHAIR: Hold on, sir, there's not a question pending.

MR. CLARK: Yeah, yeah, yeah.

MR. HOLZER: Let me just look. Well, there, there are, there are some affidavits that are new, not old affidavits from the motion.

CHAIR: All right. Well, let's do this in the interest of, again, trying my best to figure out what would be expedient. We know generally, obviously, haven't seen them all yet, but where we stand with respect to the affidavits. But with respect to actual testimony that this witness can give today, we could go through the affidavits and deal with that separately, it seems, if it's going to run in the same pattern it has for sixty-seven through sixty-nine. And let's just get to the association testimony as to whatever, what other evidence we can get in the record, that's, you know, while we're here.

MR. HOLZER: Okay.

CHAIR: So, is, would that be okay, Mr. Holzer?

MR. HOLZER: Yes.

CHAIR: If we do that? All right. So, we're all, as far as I know, we're still on A.

MR. CLARK: Right.

CHAIR: 502.1(A). Leave aside all affidavits.

MR. CLARK: Last thing.

CHAIR: Okay.

MR. CLARK: On, on, on A. The value of solitude, which is why we, everybody says they have moved out there.

CHAIR: Yeah, that's why everyone moved out there.

MR. CLARK: Right, you know. And the disturbance of that solitude by, by the use of the site as it has been used, all right, I've told you I'm very big in the wilderness area, all right?

CHAIR: We're talking about your testimony as the association.

MR. CLARK: Yeah, yeah, right. But as, as someone who has been, all right, I received, in 2017, I went down to (inaudible) National Forest, participated in a U.S. Forest Service training on the Wilderness Act of 1964.

CHAIR: Okay.

MR. CLARK: Okay? The only reason this is being brought in, --

CHAIR: Okay.

MR. CLARK: -- is because in 1964, the Congress, in

its wisdom, determined that solitude was a, was, had, had the same importance as minerals, water, air, all the other resources. Now, it only applies to designated wilderness areas, okay? But the point I'm trying to make is that solitude is seen as, as a very important value. A very important resource. And it has been acknowledged as such. I had, we have a copy of the Act for you, okay? Here's my little book.

CHAIR: I see he pulled the book out of his pocket.

MR. CLARK: Like the Constitution.

CHAIR: Yes, thank you.

MR. CLARK: And, you know, and, and so, and it's that, you know, and this goes to what everybody, in --

CHAIR: (inaudible) your wife has, your wife has indicated --

MR. CLARK: Well, the entire board, right, right?

CHAIR: But how does this relate to the association?

MR. CLARK: The association is, is, is very concerned about the loss of solitude.

MR. SCHMIDT: Mr. Garber, just to avoid any objection, is, is this a designated wilderness area?

MR. CLARK: I just said no.

MR. SCHMIDT: It is not?

CHAIR: That, that's how it was received by me. That it was not.

MR. SCHMIDT: Okay.

CHAIR: But he's extrapolating from that as to the value of that factor and how that's incorporated in the general health, welfare --

MR. CLARK: Yeah, yeah, yeah, that's fair.

MR. HOLZER: All right. I have the Wilderness Act here, which --

CHAIR: This will be seventy-one, sir?

MR. MCCOMAS: No, seventy.

CHAIR: Seventy, sorry.

MR. CLARK: And I can --

MR. HOLZER: No, hush.

CHAIR: Hold, hold, hold on, Dr. Clark.

MR. HOLZER: Sorry, I apologize, but.

CHAIR: It's important to listen to your counsel in this regard. There's no question pending.

MR. HOLZER: Thank you. Just wanted to make sure everything was correct.

CHAIR: All right.

MR. HOLZER: And that is number seventy?

MR. MCCOMAS: Yes.

MR. HOLZER: Now, let me ask you this --

MR. CLARK: Can I have a copy?

MR. HOLZER: Pardon?

MR. CLARK: Can I have a copy?

MR. HOLZER: Oh, okay. You can have my copy.

CHAIR: Mr. Schmidt, I assume you don't have an objection to the Wilderness Act itself being admissible? I understand you may have a concern as to its applicability, which I assume you'll reserve for argument and/or cross examination.

MR. SCHMIDT: Yeah, yes, sir, that's correct.

CHAIR: But as to the admission of Exhibit 70, it is a public, well, --

MR. SCHMIDT: Yeah, I mean, I'll be honest with you, my knowledge of the Wilderness Act of 1964 leaves a little bit to be desired, whether this is still good law or not, I don't know, but I'll argue it eventually. Thank you.

MR. HOLZER: Well, that, that's because us old people are familiar with 1964 legislation.

MR. SCHMIDT: I remember it.

MR. HOLZER: You weren't even born yet.

MR. SCHMIDT: I was here.

CHAIR: It will be, it will be admitted. It will be admitted.

MR. HOLZER: Thank you.

CHAIR: Yes.

MR. HOLZER: Thank you.

MR. SCHMIDT: We can argue what it says and its application.

MR. HOLZER: You can, you've already expressed the

parameters for introducing this, is that correct?

MR. CLARK: Right.

MR. HOLZER: You're not saying that it applies to this --

CHAIR: It is not controlling.

MR. CLARK: No, no.

CHAIR: Over the decision making but you are saying that the factor itself is a consideration as part of, again, the 502.1(A) in terms of your health, general welfare --

MR. CLARK: Yeah, that has been recognized --

CHAIR: (inaudible) do you feel that that's fair to consider as a --

MR. CLARK: -- as a, as, as an important part of the human experience.

CHAIR: Understood. That's how at least it is being received by us, that was --

MR. HOLZER: Perhaps that Act should be addressed to this proceeding too maybe.

CHAIR: Either that we're in the wilderness or that we need the solitude?

MR. HOLZER: That we need the solitude.

CHAIR: Or both, yes. All right. So, with that in mind, it sounds then from what I understand, we're done with talking about 502.1(A), because you said this is the last.

MR. HOLZER: No, we're not.

CHAIR: Is that correct or not?

MR. CLARK: I, I, I thought, Carroll, I, I don't know.

CHAIR: All right.

MR. HOLZER: Under 502.A, dealing with sound and disturbance, we are finished.

CHAIR: That, that was what I, I'm sorry if I wasn't clear. That was my understanding.

MR. HOLZER: Yeah, and I'm sorry, but we still have adequate sanitary facilities, etcetera, to, which can affect the health, safety and welfare. So, the question is, do you want to continue to proceed, is there an appropriate time for the Court, or for the Board to stop --

CHAIR: I'm willing to proceed as long as Ms. Dopkin and Mr. McComas are.

MR. HOLZER: Okay.

CHAIR: All right. So, let me back up here because what I'm hearing is, what is to come is adequate sanitary facilities, which we've heard evidence about the lack of septic and water. Yes, Dr. Clark? You need a time out? Okay.

MR. HOLZER: And I would put on the record, we did start at 9:00, which is above, an hour before the normal 10:00 start hearing and it's now 5:00.

CHAIR: Yes.

MR. HOLZER: Just for the record.

CHAIR: No, not a problem. We are going to take a five minute break so Dr. Clark can attend to other activities.

(RECORDING PAUSED – 05:00:06 PM)

(ON RECORD – 05:05:14 PM)

CHAIR: All right.

MR. CLARK: I'm talking about the need to --

CHAIR: Oh, oh, no, that's okay. Yes. All right. We're back on the record. We're resuming with Dr. Clark.

MR. HOLZER: Yes. And we're still under the health, safety and welfare of, of 502.1, conditions.

CHAIR: My idea for today is to get through as much as possible, including get through all of 502.1 factors for the association and for Dr. Clark to the extent we've not already heard whatever it is he wants to say about it.

MR. HOLZER: We're going to be here until 9:00, 10:00.

CHAIR: The, that's not going to be acceptable, whether there's a day three. Because he is one witness, though he has two different roles, most of which are overlapping. We've already had him here on the stand all day for November 1st, whatever amount of time he spent all day today. I'm trying to move this along. We're not, there's no way on earth we can have another three to four hours of direct on Dr. Clark. That can't be the case. This is a special exception case, we've identified what factors are in play. I agree we may not have

exhausted it, I understand that. I'm not saying you can't ask the questions.

MR. HOLZER: I'm going to ask the question, Mr. Chairman, unless you tell me I can't.

CHAIR: But you need to be mindful of this is one witness in a special exception case that is going to be three days that, that seems to be a bit disproportionate.

MR. HOLZER: Your Honor, I, I was concerned about that and I watched and went back and looked at what the developer put on, or the Petitioner put on. And they ended up having to recall a witness who, who after investigation --

CHAIR: Mr. Collagero came back on the stand.

MR. HOLZER: Yes. And, and went through all that again. So, I, I --

CHAIR: And, and Mr. Holzer, just to steal your thunder there. This is not a comment as to how your case is proceeding, that is, I understand you have additional witnesses to present and it may take a couple, you know, some more time with them. I'm not discounting any of that. That is what it is. I'm saying this one witness for three days is a bit much. We need to figure out how to streamline this because we've heard a lot of evidence about, again, noise, traffic, safety concerns, the environmental concerns now, for, individually. Now we're into the association which, again, I recognize there are differences, you have to go through that. So, let's try to

do what we can to get as much out today.

MR. HOLZER: I've been trying to do that in terms of the --

CHAIR: I'm not, this isn't an admonition of you.

MR. HOLZER: Okay.

CHAIR: This is not. This is just me saying let's all get through this because I don't want to, and I'm sure Dr. Clark certainly doesn't, have a third day to testify at, on these factors which we've already heard a lot of testimony.

MR. HOLZER: Your Honor, I, just for the record though, to make, to make sure the Board understands, in terms of some of his testimony, it, it almost relates to a last wit, a last lay witness from the community summarizing what has been going on. And that's, and that's what he's trying to comment on. I mean, if somebody said something and he wants to rebut it for the, for the Protestants, that's what he's trying to do. Not retry the whole case over but --

CHAIR: No, and I understand that. And I'm trying to work with it too and I understand that he's trying to make some comments here and there about certain evidence that he finds important.

MR. HOLZER: Right, right.

CHAIR: And wants to make sure that we are aware of and, you know, --

MR. HOLZER: Exactly, exactly, you nailed it.

CHAIR: Right, it just, the, the concept of where we'll need another third whole day for him is not something that this Board, at least I don't feel personally comfortable with. I can't speak for Ms. Dopkin or Mr. McComas, but again, we have other witnesses still to come and we've had heard, I will, I will classify it as ample evidence as to the specific factors that have been identified to date. If there are additional points to be made, by all means, --

MR. HOLZER: And I, and I just, I, I understand what you're asking.

CHAIR: Right.

MR. HOLZER: One of the problems is that there is documentation, either written documentation or visual documentation, that rebuts some of the testimony of the Petitioners and that has not been brought before the Board. You've heard one testimony from the Petitioners and then you've heard testimony from the community but there hasn't been a rebuttal type of testimony that the community has been able to present.

CHAIR: I understand.

MR. HOLZER: And, and that's why --

CHAIR: We'll, we'll figure that part out. Just, I want to make sure we get all the 502.1 factors into the record and then see what is left over and we'll move on from there. Where we last left off, it was adequate sanitary facilities.

MR. HOLZER: Yes.

CHAIR: You have discussed that there's no septic, no water. We went through as to your, whatever testimony you wanted to provide. If it was operated in the religious manner proposed without septic or without running water and with septic and running water. What is it on behalf of the association you, do you want to address on those points to the extent that there's a difference? If it's the same, it's understood that you're incorporating your prior testimony into it. If it's from the association, there's a difference, that's what I'm asking you to identify.

MR. HOLZER: I, I apologize. I was looking to try to move on and didn't understand --

CHAIR: I was just saying we've had testimony as to if there is the temple to go forward, does he have a concern about the septic and water? He said yes, that they may not have septic and water. I asked him to identify those concerns and bring out that evidence. And then I said, now let's assume that there would be septic and running water, was is your, what are your concerns and what is that evidence? So, we have it covered both with and without as a religious use.

MR. CLARK: Can, can I answer --

CHAIR: And then now I'm asking with respect to the association, what difference in testimony in light of that does, is it, does the association have that's different than

what he has as an individual on those two subsections.

MR. CLARK: Okay. Can, can I, basic, I think we've just got some affidavits to fill, to, to enter in as i.d., however they've been.

CHAIR: Okay.

MR. HOLZER: And that's what I was working on try to keep --

CHAIR: Oh, no, and I understand that. But just so we're clear, for the adequate sanitary facilities, is it the, any additional evidence would consist of the affidavits that have yet to be offered or proffered to the Board?

MR. CLARK: What the affidavits will concern.

CHAIR: Well, I, I, again, understanding that the aff, that Mr. Holzer will present the affidavits --

MR. CLARK: I'm getting tired, so, --

CHAIR: It's okay. He'll present the affidavits.

MR. CLARK: Right.

CHAIR: Let's leave that affidavit stuff aside for the second. Is there any other evidence that you want to present or testimony for the association on the matter of the adequate sanitary facilities?

MR. CLARK: Okay. I would just reference Robert Powell's testimony.

CHAIR: Robert Powell's testimony.

MR. CLARK: Thank you, sir.

CHAIR: Okay. What about Robert Powell's testimony?

MR. CLARK: That the septic, that the septic system has failed, --

CHAIR: The, the existing septic system has failed.

MR. CLARK: Right. Has failed, there is none at the moment and that they were preparing a well, all right? That they had no water.

CHAIR: Okay. Now, the other test, or the other evidence you wish to put forward on this point are consistent with the affidavits?

MR. CLARK: Yes, sir.

CHAIR: All right. So, let's show Mr. Schmidt those. And we'll get back to you in one second.

MR. SCHMIDT: Thank you.

MR. HOLZER: And I'll show you this, and for the record, it's a packet of affidavits.

CHAIR: Seventy-two?

MR. MCCOMAS: It's seventy-one.

CHAIR: Seventy-one, sorry.

MR. HOLZER: It's a packet of affidavits from different people.

MR. CLARK: Do I, don't, I don't really need that, do I?

MR. HOLZER: Yeah, if you need it to, to look at it in case there are any questions.

MR. CLARK: Okay.

CHAIR: All right. So, I reviewed, or gone through the affidavits here and it just, as best as I could tell, going through quickly, it establishes the same points that I don't think there's any dispute. There is no, there is, at present, no functioning septic system and no running water.

MR. HOLZER: And no port-a-potties.

MR. SCHMIDT: Well, they bring --

CHAIR: And no port-a-potties.

MR. SCHMIDT: Well, they, I think the testimony was they had port-a-potties for the fundraising events.

CHAIR: Right. So, but if I were to go to the site right now, --

MR. SCHMIDT: Today, is there a port-a-potty --

CHAIR: Well, hold on, I don't need to know that, in evidence --

MR. SCHMIDT: Oh, there is, there is one there now.

CHAIR: Okay. But be that as it may, there's not running septic and there's not running water.

MR. SCHMIDT: Right.

CHAIR: And your concern is, as you mentioned before, they just had port-a-potties and that would be your concern going forward, if there was no running water and no septic. That testimony is the same for you and the association?

MR. CLARK: Yes, sir. Yes, sir.

CHAIR: All right. So, on that basis, with respect to the affidavits, they'll be treated in the same manner. I also find it duplicative because the evidence which they put forward again, seems to be the same as what's already been established and apparently largely agreed upon on both sides, anyway.

MR. HOLZER: These were, these were affidavits --

CHAIR: I understand with the preliminary motion.

MR. HOLZER: Yeah.

CHAIR: Right.

MR. HOLZER: Gotcha.

CHAIR: Done then. But for purposes of substantive evidence today, it's going to be treated in the same manner as the other affidavits as before.

MR. SCHMIDT: Seventy-one i.d. only.

CHAIR: I.d. only.

MR. SCHMIDT: Thank you.

CHAIR: Yes. Is that it for that subject matter? Okay, does that --

MR. HOLZER: No, it's not. There is a question, did you personally observe something that you needed to testify to on behalf of the association? I mean, I don't want to put words in your mouth.

MR. CLARK: No, no, no, no. I, no, I know and thank you. But you did.

CHAIR: Okay. So, what is it you would like to say on behalf of the association?

MR. CLARK: Yeah, I, dur, dur, during the event July/August 2018, we counted a total of three port-a-pots for over five, over three hundred people a day at any rate, if not five hundred and no service trucks.

MR. SCHMIDT: Just to be consistent, objection. So, so what? Obviously, if we get an occupancy permit, we're going to have to, Mr. Powell testified about all this.

CHAIR: You, I have your, I have your objection on the record. I will say whatever happened in July/August 2018 with three port-a-pots, it's understood that there was no functioning septic system, no running water, it's understood that there were port-a-pots there. The sufficiency of which for the attendees, I believe, is not something to, correct me if I'm wrong here, but you don't have an area of expertise to even say what would be appropriate, what is not appropriate --

MR. CLARK: Other than the fact that I clean privies for a living, no.

CHAIR: Understood. And so, we can move on from there. All right. So, I'll sustain the objection in that, in that respect understanding everything that's been said prior to the testimony on that point.

MR. HOLZER: And this is, are more affidavits so we can get these out of the way.

MR. CLARK: Which affidavits were these?

MR. HOLZER: These are the affidavits --

CHAIR: Well, why don't you identify them for the record?

MR. CLARK: Oh, I'm sorry.

CHAIR: If, I mean, I guess it's coming to you unless Mr. Holzer wants to proffer it to the Board?

MR. HOLZER: No, this is, these are affidav, this is the packet that I just gave the Board regarding port-a-potties.

MR. CLARK: Oh, okay.

CHAIR: Okay. So, these, okay. This speaks to the port-a-potties and the point that you, you just, you just identified.

MR. SCHMIDT: Also talks about Councilman Marks, I believe.

CHAIR: Okay.

MR. SCHMIDT: Which, which I'm sure is, I don't think is appropriate.

CHAIR: Yeah, I don't know why that would be in there anyway. So, --

MR. CLARK: That, that actually goes to a different part of our case, someplace else --

CHAIR: I believe there was already testimony in here regarding various things said by Councilman Marks and Senator Brochin at some fundraiser when the code enforcement was called

and --

MR. CLARK: You got, okay, you got a great memory. Thank you.

CHAIR: Thank you. So, I do recall that there was some testimony in the record regarding that. Having said that, these affidavits will be received in the same manner as was just described for Exhibit 67 through 69 and 71. Because I believe seventy was a different exhibits. Yes, the Wilderness Act. All right.

MR. HOLZER: Now, for, for purposes of what his outline had next, related to the police reports. And I understand at the time this was prepared, we didn't know what the Board's decision was. So, I'm not going to get into that issue. Now, there was a question that the community had, I believe, related to fire.

MR. CLARK: Yes.

MR. HOLZER: And that was an issue under health, safety and welfare, and it could also go under create a potential hazard from fire.

MR. CLARK: Yes, yes.

MR. HOLZER: So, but this is, the Order that I have, the outline --

CHAIR: That's fine, as a topic.

MR. HOLZER: As a topic.

CHAIR: Understood.

MR. HOLZER: So, --

CHAIR: What is it you wish to tell us on behalf of the association as to a concern about fire?

MR. CLARK: We have a video, again, culled from videos that Petitioners, --

CHAIR: Well, before you describe what's on the video.

MR. CLARK: Okay.

CHAIR: Let's express what the concern is.

MR. CLARK: Oh, okay. Unsafe use of fire.

CHAIR: Unsafe use of fire. Okay. All right and I assume then that you have a video that will depict whatever it is that causes you to have that concern?

MR. CLARK: Yes, sir.

CHAIR: When I say you, obviously I'm referring to the association.

MR. CLARK: Yes, sir.

CHAIR: All right. Now, that's going to require a video to be played?

MR. CLARK: Yes, sir.

CHAIR: Mr. Holzer, I'm going to leave it up to you. Do you want to save the videos or start the videos, or just go through in accordance with your outline?

MR. HOLZER: I, I only, for purposes of this, I just need to play the one. And I --

CHAIR: Is, so, let me ask, for the remainder of the factors to be discussed on behalf of the association, are there other videos to be played that have not already been played?

MR. HOLZER: Let me look.

CHAIR: Because it would be my inclination to play videos back to back to back to, if there is more than one.

MR. CLARK: It doesn't look like it.

MR. HOLZER: There, there, there are dash cam photos, photos but no --

MR. CLARK: Yeah, most of them just reference things (inaudible) already shown.

MR. HOLZER: Okay. So, there are no more videos other than this one in, under the 502 criteria, is that correct?

MR. CLARK: It looks like it to me, yes.

MR. HOLZER: Okay, because I want to answer Mr. Garber's question.

CHAIR: So, I understand, or looking at Exhibit 51, there was a video DSC-7045 fire, is that the one?

MR. CLARK: Thank you.

CHAIR: Is that the one?

MR. CLARK: That's the one.

CHAIR: Okay. It is new, as in it has not been previously part of another disc. Therefore, Mr. Schmidt has not had the opportunity to review that video prior to it being

played here. Mr. Schmidt, in light of that, does that cause you any type of reservation as to how, how to proceed today with that video?

MR. SCHMIDT: I mean, obviously I don't have any idea what it is showing, as I haven't seen it --

CHAIR: I'm trying to be consistent with the rule, prior ruling.

MR. SCHMIDT: Yes, sir.

CHAIR: That you should have the opportunity to review videos before they're played to see what objections, if any, you may have.

MR. SCHMIDT: Yeah, and I, I guess the other part of it, I would certainly like to do that, Mr. Garber, if possible. I recognize our time constraints and I want to move it along. I guess the other, I don't know whether it's a question or a comment or how to phrase this but, I think the context of fire in 502.1 is, since the entire concept of a special exception is whether there would be a danger from fire, essentially, going to another property. I mean, because it's the impacts on adjacent properties, not on the subject property, which is the special exception criteria. And this is such a large property, I'm struggling to understand how --

CHAIR: If I could steal your thunder there on that? I have same, some of the same questions that you may have.

MR. SCHMIDT: Yes, sir.

CHAIR: I don't think that we're, we're going to sit here and be able to --

MR. SCHMIDT: Why, why don't we play the video and then I'll object if I want to.

CHAIR: That's kind of where I was going with it.

MR. SCHMIDT: That's fine.

CHAIR: Is the only way to answer some of those questions is to actually the video.

MR. SCHMIDT: Yes, sir.

CHAIR: But I wanted to at least give you the opportunity to view it beforehand if you --

MR. SCHMIDT: I'm, I'm fine with the Board looking at it.

CHAIR: All right.

MR. SCHMIDT: If I object, you can strike it.

CHAIR: You may play the video now.

MR. HOLZER: Okay.

CHAIR: Now, what we are seeing on this video, is that the unsafe use of fire or is this just the introduction part?

MR. CLARK: No, it's, it's pretty much, you know, and then it, it goes on a little bit. But it's, you've, you've got all these flammable garments inside a tent and there is, don't forget, the Bonaparte mansion was rebuilt as a result of a major conflagration that happened on the property. And there

is no ready access for the fire equipment. There are no fire extinguishers aro, avail, around. There is no kind of hosing or any kind of safety, you know, mitigation. There is not a pond to draw water from. There is no running water. So, it is our concern.

MR. HOLZER: The, the comment from Mr. Schmidt related to the effect upon adjacent properties. Now, in terms of if this tent were to go up in flames, --

CHAIR: Well, if I could just jump in there --

MR. SCHMIDT: We're not going to have a tent.

CHAIR: -- because --

MR. HOLZER: Or the building.

CHAIR: Well, we're, we're talking about an event that already happened, that the evidence introduced to date has suggested they're not going to be in a tent to do this again. So, we have to apply it going forward so take it out of the equation of what you see in the video, apply it to whatever you think is going forward for purposes of your question.

MR. HOLZER: Obviously.

CHAIR: Yes.

MR. HOLZER: Obviously. If he can ask (inaudible) I can at least suggest that the use in a religious institution, such as we just saw there, and I assume that was an action in terms of a religious connotation. At least that's what it looked like to me, if you're in a building and the building

catches fire, the question is whether or not that fire could spread, the embers could spread and so forth. So, I don't think the issue of fire, it can be excluded because this is thirty acres. I, I think the real question is whether or not in this religious connotation flames being carried around, such as you saw on the video, can potentially create a fire problem.

CHAIR: Um hm.

MR. HOLZER: And I, that's why I think the video is relative and the testimony I, I'll let, Mr. Clark go into what they, what he's concerned about. But it seems to me that's the relevance of the question related to fire on --

CHAIR: And I understood Dr. Clark's testimony to have concerns about the safety and mitigation and there's no pond to draw water in, there's no running water, there are no fire extinguishers, how would the fire, if there were to be one, how would that be extinguished or would it just burn and then would the embers or other such things, then spread to other neighboring properties?

MR. CLARK: Well, and in fact, --

MR. HOLZER: Could, could I respond to that?

CHAIR: Well, that's what I understand his testimony to be.

MR. CLARK: Okay --

CHAIR: Hold on one second, sir.

MR. HOLZER: Mr. Powell did testify that they will

have future tents on the property. So, and that's their testimony, that's their evidence, so their witness, his testimony, that there will be future tents. So, one cannot preclude the fact that, in addition to the structure itself --

CHAIR: All right.

MR. HOLZER: -- there may be additional tents. Where they are, I don't know.

CHAIR: I, we're not going to get into whether there will be tents or not because the issue is the same, I guess, from his perspective. But thank you for the clarification. The record will speak for the, itself. If there will be, if there's a suggestion that there's a potential for tents to be in the future, I understand correctly what I had said earlier.

MR. HOLZER: Yes.

CHAIR: But I understand his testimony, that is Dr. Clark's testimony, to be about what do you do in the event of fire, basically.

MR. HOLZER: Correct.

CHAIR: Mr. Schmidt, you're standing. I assume that you have something to say about this.

MR. SCHMIDT: Ob, obviously at such time as the building becomes habitable to the extent that it is rehabilitated and as Mr. Powell testified, and even since his testimony, they've made further efforts to obtain County approval of a functioning septic system and drill a well and so

on and so forth. So, when they drill a well, and like many other churches and temples, I suspect they will have fire extinguishers in the building. So, the --

CHAIR: Well, let's let, well, well, we'll stop there only because I understand where you're going with this. But if you have something you want to bring up on cross examination, or if you have a stipulation or if you're proffering something to the Board, I mean, that's, what I'm hearing is not an objection, that's how I interpreted it by you standing. Is that fair?

MR. SCHMIDT: I, I had, I don't have any objection to the video per se. It shows what it shows. My objection, Mr. Garber, is that the, the testimony is, is just strains the credibility of any person to consider it, that I just think it's inflammatory and I don't mean to use the word as a double entendre.

CHAIR: I understand.

MR. SCHMIDT: But I mean, Christian churches have, during a Christmas season candles in their building as part of their religious worship. That, in my church, which is a Christian church, we light candles, candles.

CHAIR: I understand.

MR. SCHMIDT: And to suggest that what you see here on a thirty acre property is a fire danger to other properties is just so unbelievable that such an assertion would be made

that I think it doesn't have any probative value.

CHAIR: I, I understand. It, it will be received for the evidence of which, what it is. You have the ability to cross examine and make whatever arguments down the line. It will be admitted. So, Mr. Holzer?

MR. HOLZER: Thank you. I have --

MR. MCCOMAS: Mr. Holzer, let me just ask a question.

MR. HOLZER: Yes.

MR. MCCOMAS: He said it was a new video and so I'm sort of a little nervous because I have like CD's and thumb drives here. So, is that new video, is that --

CHAIR: Oh, thank you, Mr. McComas.

MR. MCCOMAS: -- has that been admitted into evidence and any other new videos that are on the list that have, have--

MR. HOLZER: Could the witness answer that? How did you put that --

MR. CLARK: They, they, they, they have not been admitted yet.

MR. MCCOMAS: Do we have them, is what I --

CHAIR: Yeah, we do not is what I'm hearing. There are other new videos that have been identified on fifty-one.

MR. HOLZER: Yeah.

MS. DOPKIN: And played.

CHAIR: And right, they, they --

MR. MCCOMAS: And they've been played too

(inaudible).

CHAIR: Some of them have been played, the second list, for example. To which Mr. Schmidt had no objection previously to that either. So, my suggestion is, because I don't think we're going to, is it your intent to play any and all new videos that are identified today?

MR. CLARK: No, and we have evidence copies of, of DVD's for, of the new --

CHAIR: Are we, have we exhausted all potential new videos to be played as in connection with your testimony?

MR. HOLZER: Is that only related to 502, but there's other portions of testimony that we got to (inaudible) --

CHAIR: Well, in other words, I don't want to receive it piecemeal.

MR. HOLZER: I understand.

CHAIR: Right, okay. It should be one copy of whatever videos are, are to be in evidence.

MR. HOLZER: Why don't, why don't we --

MR. MCCOMAS: The new ones probably, right?

MR. HOLZER: Why don't we --

CHAIR: (inaudible).

MR. MCCOMAS: The new, the new ones.

MR. HOLZER: The new, we're talking about only new ones.

CHAIR: Well, and the ones previously ruled to be

admissible.

MR. HOLZER: Yes.

CHAIR: If it was previously ruled to be inadmissible, obviously that's a different matter. But --

MR. CLARK: Can, can I help?

CHAIR: -- so hold on, so my take is this, because it sounds as if you're going to have a second tape, or second phase of playing certain videos, or that's what you intend.

MR. HOLZER: Yes.

CHAIR: All right. Mr. Schmidt has not seen those new videos. Do you have a copy for Mr. Schmidt sitting here today?

MR. CLARK: Yes.

MR. HOLZER: I could, yes, and I could also offer it to the Board so you can mark it for identification.

CHAIR: I, I think that that's fine. Okay, why don't we do that? But I at least want Mr. Schmidt to have a copy if there are additional videos to be played.

MR. SCHMIDT: Just, do we have a container for this (inaudible)?

MR. HOLZER: No, I, I don't, we don't.

MR. MCCOMAS: And these would only be the new videos as opposed --

MR. HOLZER: Yes, yes.

MR. MCCOMAS: (inaudible).

CHAIR: I see Dr. Clark wants to tell me something.
MR. CLARK: Thank you, sir.
CHAIR: No problem.
MR. CLARK: All the videos that have appendix disc new.
CHAIR: I figured that they are on here.
MR. CLARK: That they are on there.
CHAIR: Yes.
MR. CLARK: Yes, sir.
CHAIR: All right.
MR. MCCOMAS: And (inaudible).
MR. CLARK: Right.
MR. MCCOMAS: What's that exhibit there (inaudible)?
MR. CLARK: No, it's the video control sheet, whatever it was.
CHAIR: Fifty-one. Video control sheet is fifty-one. All right. So, we're done with the fire --
MR. HOLZER: Yes.
CHAIR: -- evidence you wished to put in the record. Oh, no, we have a still photo, of course.
MR. HOLZER: Yeah.
CHAIR: All right. Seventy-three is, well, seventy-four. Seventy-four --
MR. MCCOMAS: No, no, the DVD is seventy-three.
CHAIR: -- is the photos, are the photos now.

MR. HOLZER: Okay and these, these are seventy-four. I think that's (inaudible).

CHAIR: And that is A or, two pages.

MR. CLARK: Right.

CHAIR: For that.

MR. CLARK: Now, --

CHAIR: Hold on, Dr. Clark. Is there any further testimony that you need about seventy-four, page one or two?

MR. HOLZER: Yes, if I could ask Mr. Clark. Mr. Clark, how did seventy-four, the pictures, come from this video, number one. And then secondly, what comment do you have in regard to what the picture shows.

MR. CLARK: Okay.

CHAIR: I should ask this. Mr. Schmidt, do you have any objection to Exhibit 74?

MR. SCHMIDT: No, no. And it speaks for itself.

CHAIR: It is admitted.

MR. HOLZER: Thank you.

CHAIR: So, to the extent that that helps you with your examination, --

MR. HOLZER: Okay.

CHAIR: What is it you want to tell us about the photos though that --

MR. CLARK: Well, they're screen shots from, from, from --

CHAIR: We understood where it came from.

MR. SCHMIDT: Got it, got it.

MR. CLARK: Right, right, right, right.

CHAIR: We've now seen the video.

MR. CLARK: Right.

CHAIR: But is there anything substantive that you want to tell us that you've not already told us about the fire issue that --

MR. CLARK: Yes, yeah. It is not uncommon, especially in this day and age, for fire brands and embers to go from one property to another. Mr. Poehler's property, Mr. Poehler's building is what, two hundred fifty feet from --

CHAIR: Well, we're not, you can't ask questions.

MR. HOLZER: I'm not going to answer.

MR. CLARK: No, no, no, but, you know, --

CHAIR: No, the record will speak for itself as to its dis, the possible estimate of distance.

MR. CLARK: Right, right, right, but, but, but it is, it is, and then it's directly across the street from my home. And so, yes, it is, the whole issue is, is of concern.

CHAIR: All right. And that was understood from your testimony.

MR. CLARK: Right.

CHAIR: Is there anything else further?

MR. CLARK: No, no, no.

CHAIR: Okay. So, the next factor?

MR. HOLZER: For the record, Mr. Poehler did testify as to how far --

CHAIR: Yes, he did.

MR. HOLZER: -- the subject building was from his house.

CHAIR: To the property line.

MR. HOLZER: Exactly.

CHAIR: Not to the subject house, but it was to the property line.

MR. HOLZER: To the property line.

CHAIR: And then, I believe, there may be some testimony, or maybe it's on one of the plans, the distance from the house to the property line.

MR. HOLZER: Yes.

CHAIR: So, --

MR. HOLZER: So it can be calculated.

CHAIR: Yes.

MR. HOLZER: Okay. Are there any additional hazards, and I think we've already sort of --

MR. CLARK: No, we haven't.

MR. HOLZER: -- covered this.

MR. CLARK: No, no we haven't.

MR. HOLZER: Okay. Well, let me just, what is your comment for the association relative to added hazards by

drivers unfamiliar with the, with the road?

MR. SCHMIDT: Objection. Asked and answered.

MR. CLARK: No, it hasn't.

CHAIR: Well, I, I will say this. I understand where you're going with it, however, as to the association, there has not been testimony on this point. So, your earlier testimony about the hazards, which you've gone into detail about the curve and that, you know, some other things here and there, and you know, just the, whatever accidents and whatnot, do you have anything to add that's different for the association --

MR. CLARK: I certainly do.

CHAIR: -- compared to what you said as an individual?

MR. CLARK: I certainly do.

CHAIR: Okay. As the association, what is it you wish to add to the record or otherwise, you know, put into the record --

MR. CLARK: Right, I, I, I certainly do.

CHAIR: Okay. What is that?

MR. CLARK: Okay. I told you we pulled the police reports, the accident reports.

CHAIR: Which are, which are in evidence.

MR. CLARK: Which, no, the, the accident reports are not in evidence.

CHAIR: The individual accident reports are not in

evidence, okay.

MR. CLARK: All right? And we have one that is of particular interest to the, to, to this Board and this case.

CHAIR: Okay.

MR. CLARK: If we can, I don't have it in front of me, so I --

CHAIR: I understand you were, you are requesting that from Mr. Holzer.

MR. HOLZER: I'm getting it.

CHAIR: Yes.

MR. HOLZER: I hope this is what you're referring to. I think it is.

CHAIR: This is seventy-five, right?

MR. CLARK: Um hm.

MR. HOLZER: Is that correct, seventy-five?

CHAIR: All right. So, we are looking at State of Maryland Motor Vehicle Crash Report, one, two, three pages. Looks like a crash date of September 25th, 2017. I see Mr. Schmidt has a copy and is reviewing it.

MR. HOLZER: Now, --

MR. CLARK: Well, has, has it been admitted yet?

CHAIR: It's not been admitted yet. We're still working through it.

MR. HOLZER: Yeah.

CHAIR: Your question?

MR. HOLZER: My, my question is going to be, can you just briefly indicate what was on the narrative of the police report in so far as traffic --

CHAIR: Just to move that forward, we can actually read the narrative.

MR. CLARK: Thank you.

CHAIR: If need be, but let me ask Mr. Schmidt. Do you have any objection to this, to --

MR. SCHMIDT: I just think it's preju, yes, sir, I think it's prejudicial. I mean, it's a government record, so I don't doubt its authentication. But it's just nothing but prejudicial and designed to be inflammatory. It's the same thing as all folks from Nepali who were at the concert are criminals. It's the same, same deal.

CHAIR: Well, I think that's radically different from that. That was a bit of an extreme example. This is --

MR. SCHMIDT: They're all bad drivers too, apparently.

CHAIR: I, well, I haven't heard that being argued as to this.

MR. SCHMIDT: Well, that's the inference --

CHAIR: Hold on.

MR. SCHMIDT: -- Mr. Garber.

CHAIR: Hold on, I don't, Mr. Schmidt, I understand it's been a long day. We don't need to have comments like that

on the record right now.

MR. SCHMIDT: Well, what, what else is it, then what else is it, is it produced for?

CHAIR: Mr. Schmidt, Mr. Schmidt, there has been a bunch of evidence that's been put in the record about the traffic and about accidents and whatnot. So, I had understood, and Mr. Holzer and Dr. Clark can correct me if I'm wrong, but you're introducing this because it concerns an accident that occurred out in front of the property, right?

MR. CLARK: And it indicates an added hazard.

CHAIR: So, --

MR. CLARK: And, and we have a photograph of another event, we have a photograph that's already been introduced.

MR. HOLZER: Deal with this first.

MR. CLARK: Okay.

MR. HOLZER: What, as briefly as you can, what is the point in, in terms of what have you singled out --

MR. CLARK: Well, this, this is, this is a police report of, of an accident. Somebody who was visiting the, they call it mosque, had, was, was driving on the wrong side of the road and had an accident and they said, and they advised the police officer that where they're from, in their words, in the officer's words, they drive on the left side of the roadway. This goes to people out of country, out of region, --

CHAIR: Well, so I'll just stop you there.

MR. CLARK: Okay, okay.

MR. SCHMIDT: Which is exactly what I said, Mr. Garber.

CHAIR: That is, that is definitely an objectionable --

MR. SCHMIDT: Precisely.

CHAIR: -- I realize it may be stated within the narrative itself.

MR. CLARK: Okay.

CHAIR: But this person obviously drove from Nottingham and didn't drive the other side of the, wrong side of the lane of travel from Nottingham up here, to the point of collision. So, what, for whatever went on --

MR. CLARK: Okay.

CHAIR: -- it speaks to it, it speaks for itself.

MR. CLARK: I gotcha.

CHAIR: It is not at all being received for, to suggest --

MR. CLARK: Okay.

CHAIR: -- that people from Nepal are going to drive on the other side of the road or that people not familiar with the area will drive on the other side of the road. It is merely being received for one purpose, and that is, there was an accident that happened at the property, at the subject locations, through which we've had numerous and long testimony

and documents received as to sight distances and traffic and accidents --

MR. CLARK: Okay.

CHAIR: -- and whatever else. That is it. It is not being received for any other purpose.

MR. HOLZER: What time of the morning was it, does it say on there?

MR. CLARK: Eight fifty-one.

MR. HOLZER: So, it was during the day, is that correct?

MR. CLARK: Correct.

MR. HOLZER: Okay, fine. That's exhibit number seventy-five. Previously, you just mentioned there was something at night. Protestant's Exhibit 35, do you recall what that was?

MR. CLARK: Yes.

MR. HOLZER: And what was it?

MR. CLARK: It was people exiting from a, an event held up there at night in September of '17. And this is the picture.

MR. HOLZER: There's a couple pictures if I'm not mistaken.

MR. CLARK: Yeah, yeah, yeah. Yeah, I --

MR. HOLZER: And what does, do the pictures depict without editorializing?

MR. CLARK: People, people on, heading south in the northbound lane.

MR. HOLZER: Okay.

MR. SCHMIDT: On Harford Road?

MR. CLARK: Um hm.

CHAIR: All right.

MR. SCHMIDT: Can I see the photograph, Mr. Garber?

CHAIR: The photos, I believe, are already in evidence.

MR. SCHMIDT: I understand, I just don't have them in front of me.

CHAIR: Yeah. And just so I'm clear, --

MR. SCHMIDT: Is this someone --

CHAIR: -- just, go ahead.

MR. SCHMIDT: Is this, this is someone turn, turning out of the --

MR. CLARK: Um hm.

MR. SCHMIDT: -- Nep, Bonaparte property?

MR. CLARK: Um hm.

MR. HOLZER: Objection.

MR. SCHMIDT: Well, if they were going southbound --

MR. HOLZER: (inaudible).

CHAIR: Hold on, hold on, hold on, hold on, hold on. Mr. Schmidt had a question as to what it represents. It's the same question I have. What is the relationship between Exhibit

35 and Exhibit 75, that's the question.

MR. HOLZER: They're different events, that's clear.

CHAIR: No, obviously it's not clear, because I didn't understand it one way or the other.

MR. CLARK: Okay.

MR. HOLZER: This is at night, that was at eight some in the morning.

CHAIR: Okay.

MR. HOLZER: That's why I asked the question, what time was the first police report.

CHAIR: Okay. Then perhaps I missed that point. I don't know why you were showing him thirty-five in relation, following seventy-five. So, if that could be made clear, that may resolve what Mr. Schmidt has a question about and what I have a question about. What is the relevance of, and again, thirty-five following seventy-five? Just to show that there is another example of someone being on the wrong side of --

MR. HOLZER: Another example of an accident which has occurred at the site.

MR. SCHMIDT: It's not an accident. It's someone who's turning left coming out of a roadway and in order to turn left --

CHAIR: It's okay, Mr. Schmidt.

MR. SCHMIDT: -- you have to cross a --

CHAIR: Mr. Schmidt, it will be --

MR. SCHMIDT: -- a travel lane of traffic to get to the southbound lane.

CHAIR: Mr. Schmidt, the way I, it's already in evidence. We're not going to go sit here and argue as to what it shows or doesn't show. It shows what it shows.

MR. HOLZER: Yeah.

CHAIR: Everyone has their own interpretation of it. To the extent it has whatever relevance to any of this other stuff, you guys will certainly argue that in your, in your briefs to us.

MR. HOLZER: Absolutely.

CHAIR: And we don't need to sit here and resolve today why this person was in whatever position the car is in on that particular night, whether it be seventy-five or thirty-five, it is what it is.

MR. HOLZER: The value to the Protestants of submitting photographs or video or documents is to establish that the witness who is testifying to these kinds of things, riding on the wrong side of the road, crossing the yellow line, it's not just his testimony or the other witnesses' testimony, it's verification of what they're testifying to.

CHAIR: Oh, no, I, --

MR. HOLZER: That's the purpose I'm putting --

CHAIR: -- I'm not, I'm not arguing that, I --

MR. HOLZER: Okay.

CHAIR: -- I understand why you're offering it into evidence.

MR. HOLZER: Yeah, okay.

CHAIR: I'm just trying to understand the logic of one following the other. I had it confused because I thought you were saying it's from the same event.

MR. HOLZER: No, I apologize, that was my fault because --

CHAIR: And I was wrong so, and I will correct the record. It was my understanding at the time, so we can move on from there to get to the next exhibit.

MR. HOLZER: Yeah, yeah. I thought, never mind.

CHAIR: That's fine.

MR. HOLZER: You know what I thought.

CHAIR: I, I do.

MR. HOLZER: Yes, we are now finished with 502.1(A).

CHAIR: And part of B.

MR. HOLZER: You could say that, but we haven't really started B yet.

CHAIR: Well, all right. Well, okay. Let's go into B, or whatever, what's next on your outline? Sorry.

MR. HOLZER: Okay. B is tend to create congestions in roads, streets or alleys therein. Mr. Clark?

MR. CLARK: Yes, sir.

MR. HOLZER: Is your mind focused on that part --

MR. CLARK: Well, I'm starting to fade but, yeah.

CHAIR: Well, so I'm going to make it, we'll make it clear and make it quick. What evidence do you have that we wish to, you know, put into the record, tell the Board, about the association's concerns with respect to traffic congestion that are different than ones you already expressed individually?

MR. CLARK: Okay. Dave Poehler, in his testimony, he talked about --

CHAIR: Without referencing other testimony, that is, if you look at this --

MR. CLARK: Okay. Yeah, I can (inaudible).

CHAIR: -- whatever, I, it's understood --

MR. CLARK: Right, yeah, got it, got it.

CHAIR: -- that Mr. Poehler's testimony on those points, in fact, there are lots of witnesses who testified to traffic congestion --

MR. CLARK: Got it, got it.

CHAIR: -- on these points.

MR. CLARK: All right. Then, --

CHAIR: That is well documented in this case.

MR. CLARK: -- another police report.

MR. HOLZER: Okay. Is that related to another accident?

MR. CLARK: Yes, it is.

MR. HOLZER: All right.

MR. CLARK: And it relates to --

MR. HOLZER: Well, --

CHAIR: Wait, before we go down this road.

MR. CLARK: Sorry, sorry, yeah, I'm sorry.

CHAIR: So, we have a police report. Let's have this established for the record ahead of time for Mr. Schmidt's satisfaction. Where did this accident occur? If you need reference to it, that's fine, but before you say anything further about the accident, let's establish its connection to the --

MR. CLARK: I'm, I'm really losing it.

CHAIR: -- particular factor.

MR. CLARK: I'm really losing my stamina.

CHAIR: That's okay, I understand.

MR. HOLZER: Here it is. It, the witness doesn't need to articulate it, because it's right on the police report.

CHAIR: If he needs the police report for that, that's fine. So, this is seventy-six. So, at Harford Road and Hartley Mill Road.

MR. CLARK: Um hm.

CHAIR: Okay. On November 6th, 2017. Recognizing that Hartley Mill Road, I seem to recall there is testimony about this, but you can probably better let me know now, how far is it from the subject property again? I seem to recall it

may or may not have been --

MR. CLARK: Three-quarters of a mile.

CHAIR: It was not on the map that was shown, the aerial map.

MR. CLARK: No, no, it was.

CHAIR: It was?

MR. CLARK: But it, Hartley Mill defined the southernmost point of the road segment that I asked for the, the police, County police report statistics.

CHAIR: Got you, okay. Mr. Holzer?

MR. HOLZER: Yes. You, did you obtain this police report?

MR. CLARK: Yes.

MR. HOLZER: And for purposes of your association's testifying under B, tend to create congestion in roads, streets or alleys there, therein, what was their position in regard to this?

MR. CLARK: Just that it speaks to the, the, the hazards of deer, of, of wildlife and livestock and the stuff that you usually encounter on a rural road.

CHAIR: Mr. Schmidt, any objection to seventy-six?

MR. SCHMIDT: No, sir.

CHAIR: It is, it will be received, it's admitted and it speaks for itself.

MR. HOLZER: Okay. In other aspects of the road,

congestion in the roads, etcetera, you have already shown, I believe, the videos for road walker, cyclist, I don't recall whether it was farm vehicle but --

MR. CLARK: No, we didn't have anything for, but, but that is our concern.

CHAIR: There is testimony in the record from, I believe, I want to say Ms. Mason, regarding farm equipment.

MR. CLARK: Right.

CHAIR: She, I know personally has to go between two different properties to go attend to some farm type of --

MR. CLARK: Right.

CHAIR: -- activity and it has been in the record from others about the potential for farm equipment to be on Harford Road in and around the vicinity of the stretch from Glen Arm/Mount Vista all the way down to Hartley Mill Road.

MR. HOLZER: In regard to Protestant's exhibit number seventeen, which as Mary's dash cam photo, that was already in as Exhibit 17 and I don't see any reason why we need to go over that again. It's before the Board.

MR. CLARK: Right.

CHAIR: There, I want to say, if I remember correctly, fifteen through nineteen was received for i.d. only at the time.

MR. HOLZER: Well, if that's the case, then I have the --

CHAIR: Is that not the case? Apparently the master list says it was admitted, so my recollection is off.

MR. MCCOMAS: Seventeen and nineteen were the only ones that were i.d. only.

CHAIR: Oh, so seve --

MR. HOLZER: So, seventeen is this document right here.

CHAIR: Right, okay.

MR. HOLZER: I would move to admit that.

CHAIR: Please show Mr. Schmidt before --

MR. SCHMIDT: What is it, please? I don't, I'm sorry, I don't remember what seventeen is.

CHAIR: Here's what, here's, here's my, here's my recollection as to why that was i.d. only at the time. Is that Ms. Mason was testifying and provided some testimony regarding it.

MR. HOLZER: Mary, was testimony --

CHAIR: I, this is my recollection.

MR. HOLZER: Okay.

CHAIR: And that we needed someone to authenticate whatever was depicted in there, and it wasn't Ms. Clark's, I think Ms. Clark had already testified, or Dr. Clark, excuse me. Had already testified and Ms. Mason was reviewing that particular photo but she was not present in the car and could not provide details as what was going on, other than what maybe

Dr. Clark or someone else had told her. So, that --

MR. HOLZER: If that's the case --

CHAIR: -- that's my recollection.

MR. CLARK: I think that's right.

CHAIR: The record will speak for itself.

MR. HOLZER: Yeah.

CHAIR: But that's, you, that was the reason why you withdrew it at the time to say okay, we'll talk to the person who either took the photo or otherwise authenticated. Mr. Schmidt, do you have any problem with Exhibit 17?

MR. SCHMIDT: I assume, Mr., Mr. Clark took this?

MR. CLARK: No, it was Mary. It was Mary.

MR. SCHMIDT: Your wife?

MR. CLARK: Yeah.

MR. HOLZER: It was Mary, she took it from her dash camera.

MR. SCHMIDT: Okay.

MR. HOLZER: She's here.

MR. SCHMIDT: I mean, what, what is it, --

CHAIR: Do you have any objection to, to it?

MR. SCHMIDT: No, I mean, what, what is it? I mean, just in terms of probative value, what is it?

CHAIR: Okay.

MR. SCHMIDT: What is it supposed to be showing?

CHAIR: It's a fair, Mr. Schmidt, Mr. Schmidt --

MR. SCHMIDT: I mean, somebody is going around (inaudible).

CHAIR: -- it's a fair question. It's a fair question, I understand. What is the probative value of Exhibit 17? What is it you're trying to show us?

MR. CLARK: Showing you one, the tight clearances and how there is no shoulder for when, for when things happen.

CHAIR: Similar to the video we saw already.

MR. CLARK: Yeah.

CHAIR: Similar to the other photos that we've introduced earlier with the, with the pedestrian, whatnot, correct?

MR. CLARK: Yeah, yeah, yeah.

CHAIR: Okay.

MR. SCHMIDT: I mean, my question about these, these, these are common events all over Baltimore County.

CHAIR: Mr., Mr. Schmidt, isn't that your argument (inaudible) --

MR. SCHMIDT: But it, it goes to the, it goes to the admissibility of this document. I mean, we keep getting documents that have nothing to do with Nepali.

CHAIR: Okay.

MR. SCHMIDT: I mean, guess what? People on narrow roads pull around police vehicles.

CHAIR: All right, I understand.

MR. SCHMIDT: What's that go to do with this special exception?

CHAIR: I understand.

MR. SCHMIDT: And it's common --

MR. HOLZER: Because it's on this road, it's on the road.

MR. SCHMIDT: -- and it's on, but it's on, as this witness has said, it happens on every rural road.

CHAIR: Okay. I understand that. It'll be admitted.

MR. HOLZER: Thank you.

CHAIR: Next.

MR. MCCOMAS: So, we'll strike the i.d. only --

MR. HOLZER: Yes, thank you.

CHAIR: Seventeen is admitted.

MR. HOLZER: Thank you. Do you need it? Do you need it?

MR. SCHMIDT: Do you need it? I mean, I have it, I didn't bring it with me.

MR. HOLZER: Yeah, I need it. Thanks. That's okay. All right. Let me try to get through some more. We've already seen earlier today the line cross, the yellow line crossing by trucks, so I don't think we need to replay that in your testimony.

CHAIR: Your testimony about the tractor trailers would be the same for the association --

MR. CLARK: It's the same.
CHAIR: -- as it would be individually?
MR. CLARK: It's the same.
MR. HOLZER: Right.
CHAIR: And he says yes.
MR. HOLZER: Inadequate sight lines and use of unpermitted entrance. Do you want to address that for the association and it related to the Collagero's statistics and Mr. Zeller's position?
CHAIR: And to be clear, we want to know what difference there is. If it's the same problem, there is no difference, when I say that --
MR. CLARK: Right, no, no, no, with Collagero there, there, there isn't, okay?
CHAIR: Okay.
MR. CLARK: Now, I believe the Zeller e-mails were not --
CHAIR: Zeller e-mails have been admitted.
MR. CLARK: Okay.
CHAIR: Fifty-three?
MR. CLARK: Where, where he says the County should not be doing this and --
CHAIR: Yes.
MR. CLARK: -- our position is, okay.
CHAIR: Yeah, it's forty-three and fifty-three, thank

you. Yes. So, it has been admitted.

MR. CLARK: Thank you.

MR. HOLZER: We got it.

CHAIR: Yes. Is that the extent of the association's testimony on that point?

MR. CLARK: Yes, it is.

CHAIR: All right. So, we're done with that factor, or that part of that factor.

MR. HOLZER: Number C.

CHAIR: Okay.

MR. HOLZER: Create a potential hazard from fire, panic or other danger.

CHAIR: Is there, we've heard the testimony about the fire, right?

MR. CLARK: Right.

CHAIR: Is there anything else from the association as to that factor?

MR. CLARK: Yeah, I think I already said it in there.

CHAIR: Right.

MR. CLARK: But, no water access.

CHAIR: We, we've already covered that.

MR. CLARK: Right. And the Motsco drawing shows there, there, there is at present no equipment access turnaround. I don't know if I already said that or not.

CHAIR: No equipment turnaround.

MR. SCHMIDT: He did. The, the witness already said all these things.

CHAIR: Oh, okay, I get it now.

MR. SCHMIDT: He just said it about an hour ago.

CHAIR: Mr. Schmidt, I understand.

MR. SCHMIDT: Asked and answered.

CHAIR: Thank you. It's already taken me, it took me a minute or two to figure that out. The testimony is already in the record anyway on the point.

MR. HOLZER: Mr. Motsco's testimony about the turnaround, his, it, what we're asking for is his comment, the witness' comment, about that testimony.

CHAIR: No, I think, again, we're getting back to the point of him using the highlighter on Motsco's testimony which is really a matter for you on argument as opposed to his --

MR. HOLZER: Oh, okay.

CHAIR: -- commenting as to --

MR. CLARK: Yeah.

MR. HOLZER: If that's so --

CHAIR: -- oh, Board, please look at this because you're going to do the same thing.

MR. HOLZER: I understand.

CHAIR: Right. So it is not, it's not a question as to admissibility on that point, it's already in the record and you're going to say hey, by the way, Board, look at this.

MR. HOLZER: Gotcha. No, I, you're correct.

CHAIR: Yes.

MR. HOLZER: Disregard for life safety codes.

MR. CLARK: Okay.

CHAIR: I'll say this, I hear life safety codes and I start thinking expert witness. So, do you have something that you want to, you want to add? I'm not going to limit it to just that, but that's what I'm starting to think in my head. So, what is it that you wish to say about that particular matter?

MR. CLARK: Well, --

MR. HOLZER: From a lay perspective.

MR. CLARK: -- from, yeah, from a lay perspective and from a, from a behavioral ins, perspective, I'm really losing it.

CHAIR: That's okay. We're trying to get through it.

MR. CLARK: Yeah, I know, I know, thank you. And I know Petitioner is going to say we're talking code enforcement, okay? But let me just say it and then we'll deal with the aftermath.

CHAIR: Well, hold on. Have you already testified about this individually?

MR. CLARK: No, I have not.

CHAIR: Okay. So, on behalf of the association, you have something you wish to say about life safety codes.

MR. CLARK: Right.

CHAIR: What are you referring to by life safety codes?

MR. CLARK: All right. For example, the, when the, in, in their videos of the building use, being used, all right? With several hundred people, the exterior doors open inward --

CHAIR: Okay. So, these are, when we say code violations, we're talking fire code and things along those lines, correct?

MR. CLARK: Yes, yes, --

CHAIR: Because you were talking about, you're talking about occupancy, hold on, Mr. Schmidt. Ingress, egress, those type of issues.

MR. CLARK: Yeah, yeah, yeah.

CHAIR: Do you have familiarity with the fire code?

MR. CLARK: Some.

CHAIR: Do you have familiarity with the building code?

MR. CLARK: Little.

CHAIR: So, when we talk about some familiarity, please let us know what that is for the record.

MR. CLARK: Okay. I, I have had fire inspections in, in my building, okay?

MR. SCHMIDT: Your home?

MR. CLARK: My, in my home, in my shop. And I also

am a Pennsylvania Wildland Firefighter.

CHAIR: Okay. So, as I understand it, does, does that complete the --

MR. CLARK: Yeah, yeah.

CHAIR: Okay. So, if you're going to give opinions as to what the code requires, whether under the building code, fire code or any other code, what I'm hearing is you don't have the expertise to do that.

MR. CLARK: Okay.

CHAIR: All right? Mr. Holzer, did you hear that?

MR. HOLZER: Yeah.

CHAIR: Okay. Anything further on that point?

MR. HOLZER: Yeah, I'm going to proffer what he would have been able to testify.

CHAIR: Oh, okay. Again, and I'm, we're willing to accept lay opinions, but if he's going to give opinions as to the ingress and egress is, I guess, too small or there's only, you know, a, a finite amount of spots for these number of people and there's a violation of the code, I don't think he can get to that point.

MR. HOLZER: I'm not, I'm not doing that.

CHAIR: Okay. Go ahead, sir.

MR. HOLZER: His testimony would have been with photograph showing that, at the present time, when they were using the property, exterior doors opened inward. I'm not

saying that's right or wrong, but they opened inward and the Board can draw its on conclusion or I can tell you what the code requirements are. There's no panic bar on the front door. There is no emergency lighting in the building. They have used extension cords, multiple cords chained together, running out front windows to the tent fifty feet away, running, and running over the driveway where cars drive. Now, that can be presented either in a photograph or I can just, I can just proffer that that would have been his testimony and we don't have to go any further.

CHAIR: Yeah, but to then draw the conclusion that that presents a potential danger requires an expert witness, I would think.

MR. HOLZER: No, it does not. I disagree with the Chairman. It's a person who's test, who's proffering this information. If you choose, don't require an expert, I don't believe that that's necessary for this Board to have testimony on that basis, as long as it's brought to your attention. You don't need an expert on everything.

CHAIR: I agree with you. But, but as to its consequence, that is, number one, that it is violate, it, it violates a code, which --

MR. HOLZER: I'm not saying it violates a code.

CHAIR: No, but you're (inaudible) which we would need someone to say here's how it violates the code.

MR. HOLZER: No.

CHAIR: Okay.

MR. HOLZER: You can do it, you can accept my proffer.

CHAIR: Okay.

MR. HOLZER: And say these are the physical findings of what's there. They can be --

CHAIR: So, those are two different things. That is, we have photographs in the record that show the following conditions, right? That's what you want to argue. As to its con, as to the consequence of those conditions, that's where the breakdown is. So, yes, you would have the ability to say, hey, by the way, look at Petitioner's Exhibit, I will just say, 10 whatever, and then there's no panic bar on the door, right?

MR. HOLZER: That's what I just did.

CHAIR: I understand that. But to do it through this witness, how, how are you going to do it through this witness, number one? And number two, explain then the consequence of that.

MR. HOLZER: I'm not.

CHAIR: Okay.

MR. HOLZER: I'm, I'm just telling you physically what's there and if you don't want to draw the conclusion that it is or is not a code violation, that's up to the Board. I, I, I do not have to --

CHAIR: Mr. Holzer, --

MR. HOLZER: -- present an expert on everything.

CHAIR: -- I, I'm not, I'm not arguing with you.

MR. HOLZER: Okay.

CHAIR: Have you shown Mr. Schmidt the photos?

MR. HOLZER: No.

CHAIR: Have you shown Mr. Schmidt the photos?

MR. HOLZER: No.

CHAIR: Well, you say if you want to proffer it in, one way or another, you have to show him the photos anyway.

MR. HOLZER: I'm, I'm proffering in those, that would have been his testimony if he would have been permitted.

CHAIR: Okay.

MR. HOLZER: That's it.

CHAIR: So, so leaving aside that, if there are photos to accompany that, if, maybe there, there would be an agreement as to the photos, then that helps solve part of the problem, if nothing else.

MR. HOLZER: I don't care --

CHAIR: Okay.

MR. HOLZER: -- whether or not there is a photo. I'm saying, that's the testimony of the witness and if he can be cross examined on it, if he is, he can be asked, do you have a photograph and he can produce it on cross examination.

CHAIR: Okay. We can move on.

MR. SCHMIDT: So, Mr. Garber, do I understand that this proffer that has been made is not being received by the Board as evidence?

CHAIR: It is not substantive evi, it's not being received as evidence, you are correct.

MR. SCHMIDT: Thank you.

CHAIR: No, again, --

MR. SCHMIDT: It's object, I would just note that I would have objections above and beyond those that have been identified as to why it's, as to why it is objectionable. But if it's not being received as evidence, I don't know that I need to state them.

CHAIR: Well, please, please state them for the record, just so we have completeness --

MR. SCHMIDT: First of all --

CHAIR: -- because I want to make sure I understand.

MR. SCHMIDT: -- I agree with, I agree with what you said about whether, about the, about an expert being required to do this. Obviously, this is a discussion about a proposed, a past alleged code violation, which we're not here on a code violation case.

CHAIR: Agreed.

MR. SCHMIDT: You've, you've said that.

CHAIR: Right.

MR. SCHMIDT: So, what happened? Obviously, the

testimony has been that the, my clients acquired this property, it's in the condition that it is because it was last used as a single family dwelling. They are in the midst of converting it for use as a temple. There's ongoing work that needs to be done, a septic system, other building improvements to bring it into compliance to be used as a temple, as opposed to a single family dwelling. So, the mere fact that at one time it was in a condition which was maybe, you know, as a single family dwelling and the requirements for that at that time, do not necessarily, are the same for a temple. So, all those reasons --

CHAIR: Even if it's like that, even if it's like that today, the whole point of it is, --

MR. SCHMIDT: They could, they could be changing it. They got to bring it up to code, they got to get a septic system, they got to have fire extinguishers in it, all the other things that are required for a building to be used in this nature. And the mere fact that at some point one year ago, two years ago, three years ago, fifty years ago, the building was not compliant with the 2019 International Building Code or fire code, doesn't have anything to do with the special exception.

CHAIR: Okay.

MR. SCHMIDT: In addition to that, I would say this. In the case, in the reported Court of Special Appeals decision

of *Hayfields*, and this goes to many of the objections that we are hearing, the Protestants in that case alleged that there were adverse impacts when converting a farm to a golf course. And they offered testimony about the adverse impacts as they related to this property and that's what many of the things that Mr. Clark is talking about. That this is dangerous to this property, that the fire might light the tents on fire, that these building codes would be unsafe to the people on the property who would be visiting the property. And the Court of Special Appeals said that the test in Baltimore County under 502.1 is whether there are detrimental impacts on adjacent properties.

CHAIR: Mr. Schmidt, --

MR. SCHMIDT: Not the subject property.

CHAIR: Mr. Schmidt, this is really just for the purposes of establishing the record. As to the objections you have --

MR. SCHMIDT: You've asked me for what my argument is and the basis that this argument, that this testimony --

CHAIR: I, hold on, no, no, no.

MR. SCHMIDT: -- is in relevant, please let me just finish.

CHAIR: No, I'm going to stop you there.

MR. SCHMIDT: I'll be very quick.

CHAIR: I'm going to stop you there. I'm going to

stop you there only because I asked you to identify your objections --

MR. SCHMIDT: And I'm identifying them, Mr. Garber.

CHAIR: -- just so you've (inaudible) and I understand that. But now you're getting into argument.

MR. SCHMIDT: I'm not. I'm saying that the, the, the, the basis of the objection is that the testimony is irrelevant as a matter of law because it does not go to the special exception criteria test.

CHAIR: Okay.

MR. SCHMIDT: And I'm explaining why.

CHAIR: That's why I'm saying, that could have taken ten seconds. But Mr. Holzer, can we move onto the next, since we've already had the proffer, we've already heard the proffer of the objections as well, --

MR. HOLZER: I, I don't want to argue the, the argument that he just presented.

CHAIR: Yes.

MR. HOLZER: I just want to say that the relevance of some of this evidence, or some of this, these, these proffers, relate to what the Board, if you choose to grant this special exception, it relates to conditions that you could impose. Or the simple reason that up till now, the County officials have not required them to do what the State Highway Administration said etcetera. Now, that doesn't mean that they won't, as the,

as they develop the case, as they develop the project, they will address many of these issues. But the point is, they, these concerns should be listed as a potential condition to your approval because we know from history that they haven't paid attention to other requirements of the County. And that's all I wanted to say.

MR. SCHMIDT: And I, and I want to say for the record, that there is no evidence that anywhere, that there has been a violation case brought against my clients, which has been sustained --

CHAIR: Mr. Schmidt, --

MR. SCHMIDT: -- that they have been in violation.

CHAIR: Mr. Schmidt, stop, stop.

MR. SCHMIDT: This constant, let me finish, Mr. Garber.

CHAIR: No, I'm not going to let you finish. We're, no, we're done.

MR. SCHMIDT: I'm entitled to respond to counsel's comments.

CHAIR: No, you're not. No, you're not. Because we're not getting into an argument. You've well, you know for, for certain how this Board has treated any issue when it comes to code enforcement. That is, any argument that comes to code enforcement has been ruled in your favor. So, we do not need to hear further that these are matters for code enforcement or

whatever. If he wants to argue those are conditions, that'll be in his brief. That is it.

MR. HOLZER: Thank you.

CHAIR: Next.

MR. HOLZER: All right, let's see.

CHAIR: Let's try to work through all 502.1 factors for the association.

MR. HOLZER: I, I am.

CHAIR: So we can then, yeah, that's, that's my goal here, for --

MR. HOLZER: To adjourn after we get through all these.

CHAIR: After we, we get through that.

MR. HOLZER: And that's my goal also.

CHAIR: Right.

MR. HOLZER: To help you get through that --

CHAIR: Right.

MR. HOLZER: -- as quickly as possible. Well, we've already dealt with open fire, that's no longer relevant. One of the issues related to overcrowding of building. Is there anything that you want to say in regard to that?

MR. CLARK: Yes, I think we have some pictures.

CHAIR: You're going to have to explain how it's different from association, from the prior testimony.

MR. CLARK: Yeah, right. This is one example of, I,

I'm trying, ask me a question --

CHAIR: No, it's okay.

MR. CLARK: Ask, no, ask me the question again.

CHAIR: Oh, I'm sorry. So, please explain how whatever testimony you're going to give about overcrowding for the association is different than that of what you've already provided for as an individual.

MR. CLARK: Okay. This photograph --

CHAIR: That we're about to see.

MR. CLARK: -- that we're about to see, will show use of the building prior to July 1 where it looks like there are fifty to a hundred people crowding into the room.

CHAIR: Okay. So, this sounds to me we're on the same footing as where we just were.

MR. CLARK: I, --

CHAIR: So, with that in mind, I will wait to see what the photo shows. Show it to Mr. Schmidt. But it does sound like we're walking into the same --

MR. HOLZER: I agree.

CHAIR: -- room, so to speak, as the one before. As to whether or not fifty to a hundred people, whatever the number would be, --

MR. CLARK: Right.

CHAIR: -- is appropriate for occupancy for that building, you know, again, the comments I just had about the

last issue --

MR. CLARK: Right.

CHAIR: -- would be applicable it sounds like.

MR. CLARK: It, it, but this also goes to how it is currently being used.

CHAIR: Under, understood. Mr. Schmidt, after looking at the photos, let me know when you're ready.

MR. HOLZER: Do you need the pictures?

MR. CLARK: I probably do.

CHAIR: Seventy-seven, correct?

MR. MCCOMAS: Yes.

MR. SCHMIDT: Mr. Garber, the first page appears to be --

CHAIR: Hold on. I, I assume you're objecting.

MR. SCHMIDT: Yes. The first page appears to be outside, at least there are trees in the background and one can see grass. So, I don't even think that's taken from inside. The second picture is of a little girl. I'm not quite sure what that's all about. The third picture is one, two, three, four people standing outside and six people standing inside near a doorway. Is it alleged that that's the violation of the, of some code?

MR. HOLZER: Go to the next page.

CHAIR: Hold on. No back and forth.

MR. SCHMIDT: And the final picture is a room full of

people and is there an allegation that that's illegal, to have a room full of people?

CHAIR: That's why we're here, to figure this out.

MR. SCHMIDT: And it's, and if it is, it's a code violation matter.

CHAIR: You heard what I had to say prior to receiving the photos --

MR. SCHMIDT: So, I object.

CHAIR: Dr. Clark, looking at these photos, the condition that you were describing of overcrowding, I would have to say Mr. Schmidt is correct for inside the building, the only one I see out of the four is the last one that would depict a crowd. As to whether it's over, is another matter, but a crowd inside the building. Is that accurate, basically these four photos?

MR. CLARK: Yes.

CHAIR: Okay. So, with respect to that photo, is it your contention from the association that somehow the amount of people inside the building violates some code?

MR. CLARK: No.

MR. HOLZER: No.

CHAIR: Okay. Then what is it you want to tell me about that picture?

MR. CLARK: Well, it's just that it's a potential hazard from fire, panic or other danger.

CHAIR: Okay.

MR. CLARK: Now, now, can, can I also say, Mr. Garber?

CHAIR: Go ahead.

MR. CLARK: This was one of, I would have had the entire video of this, but this was one of the ones that was removed.

CHAIR: I, I don't know what you mean by removed, all, what I'm trying to get at is --

MR. CLARK: No, that was, that was deleted from the Facebook page.

CHAIR: Okay. So, --

MR. CLARK: From the Facebook account.

CHAIR: -- looking at the photo though --

MR. CLARK: Right.

CHAIR: -- the, the one at issue, that is the last page of that --

MR. CLARK: Right.

CHAIR: -- of seventy-seven --

MR. CLARK: Right.

MR. HOLZER: Could I ask a question?

CHAIR: Oh, yeah, sorry, Mr. Holzer. I'm, I'm going to let Mr. Holzer take, do this questioning here.

MR. HOLZER: Mr. Clark?

MR. CLARK: Sir?

MR. HOLZER: If previously the Petitioners testified that they were not using the building, is that part of your recollection?

MR. CLARK: Yes.

MR. SCHMIDT: Objection.

CHAIR: Hold on, Mr. Schmidt.

MR. SCHMIDT: Objection.

CHAIR: Your objection, let me take a guess, is based on the fact that this is not a code violation or code enforcement matter.

MR. SCHMIDT: Yes, yes, sir.

MR. HOLZER: I'm not trying to show you it's a code violation.

CHAIR: I will say this. I, the question you asked made me think that that may be the road we're going down too. I can't say that it's unreasonable for Mr. Schmidt to have come to that idea. So, if you could try to steer away from that, thank you. So, sustain the objection to the extent that it could have been.

MR. HOLZER: Okay. In terms of their testimony, did anyone from the Petitioners testify that they were not using the building?

MR. SCHMIDT: Objection.

MR. HOLZER: That's different --

MR. SCHMIDT: Objection.

MR. HOLZER: -- from a code violation.

CHAIR: Okay. Here's what I'm thinking on this. Number one, there is certainly testimony in the record that this property has been used for fundraisers and other events. If it, this is to be tied to any ALJ Order or anything else, that is obviously a matter that is not in front of us at the moment. Right? So, I understood this photo to be overcrowding, to go to the overcrowding issue. I still have yet to hear anything that relates to why this would be considered overcrowding or whatever the case may be. Everything seems to tie back to a code, a potential code problem.

MR. HOLZER: I'm, I'm tired of hearing code violation. So, mark that as a proffer and I don't want to discuss anymore. Just mark it as a proffer, whatever the next exhibit is, and we'll go from there.

MR. MCCOMAS: Seventy-seven.

CHAIR: Seventy-seven.

MR. SCHMIDT: Thank you.

MR. HOLZER: Thank you.

CHAIR: Therefore, the objection will be sustained and we can go on.

MR. HOLZER: Thank you. I, I'm trying to get through this.

CHAIR: Nobody's saying you're not, Mr. Holzer.

MR. HOLZER: I'm going to, I'm going to stop at this point.

CHAIR: I'm not going to stop at this point. We are going to get through the 502.1 factors as much as we can.

MR. HOLZER: I'm finished with the 502.1 factors. I will --

CHAIR: So, we're not going to hear testimony from Dr. Clark about the 502.1 factors on direct testimony tomorrow, assuming we're here tomorrow, is that your understanding?

MR. HOLZER: It's my understanding, okay. Go for it. Sit there until 9:00. Thank you.

CHAIR: Okay. We're not going to sit here till 9:00. I'm trying to move this case forward.

MR. HOLZER: I, I, at this point, for the record, I'm being pressured into, it is now quarter after six --

CHAIR: Pressured? All right.

MR. HOLZER: And I've been, this Board never sits that late but I understand --

CHAIR: No, it's to give you the opportunity to try to develop the record.

MR. HOLZER: I understand.

CHAIR: And I'm trying to get through it as expeditiously as possible.

MR. HOLZER: I understand, Mr. Chairman. But at this point, at this hour, the witness is having difficulty even

concentrating, I'm feeling very pushed in order to be able to get into the next issue that we could take up tomorrow.

CHAIR: Okay.

MR. HOLZER: And, and, and the last part is inconsistent with the property zoning classifications and there are documents that we want to deal with that particular issue.

CHAIR: I, I will put this plain and simple. Dr. Clark has been on the stand as an individual and now for the association over the course of two full days of testimony in this matter, November 1st and all of today. We started at 9:00 a.m., it is 6:20 now. We are still hearing from Dr. Clark. His testimony is not done. This is a special exception case, there are ten factors. For whatever reason, we keep having to move this case. When we asked, how many more days do we need? We were told two more days for Protestants, one more day for rebuttal. We are now going to bleed into the rebuttal day without question with Protestant's witnesses if we have to complete Dr., Dr. Clark's direct testimony alone and cross examination tomorrow because I'm assuming, since I see Mr. Jakubiak waiting patiently all day here today, that he may be taking the stand at some point in this case.

MR. HOLZER: Right.

CHAIR: So, let's assume that, because I know tomorrow is going to be a much shorter day, much shorter day than today in any event, that we don't get through Mr. Jakubiak

in full tomorrow, assuming he takes the stand tomorrow. That means on February 5th, the rebuttal day, we are now doing still your case. I don't know what you have after that and I'm not asking you to identify that. But to the extent that we say, you say that you are pressured, we asked you to identify what will it take, this is when we were told we are operating within the confines of it, and I am really trying to get through Dr. Clark's testimony so that he has a full opportunity to get everything that he wants to tell us on behalf of himself and on behalf of the association out in the record.

MR. HOLZER: I understand.

CHAIR: I'm not trying to limit anyone in any way, shape or form. But at the same time, I'm trying to operate under the confines that you previously, and I don't want to say you, counsel has previously identified for this Board in terms of the time requirements needed for each case.

MR. HOLZER: And I didn't understand when I gave that time frame as to the extent that objections on almost everything that any witness wants to put on would be made and we would bog down in showing the videos and so forth. And it, and because of that, because of the, the length of time, the questions have been objected to constantly and so forth, I, I took the delay that the Board had to create, obviously, and tried to minimize the amount of testimony that we had to present through videos and so forth. And I've tried to cut all

that down.

CHAIR: No one is pointing the finger at you, Mr. Holzer, saying that you did something wrong, to be clear.

MR. HOLZER: I'm not saying you said I did something wrong, I'm saying the circumstances of how long it's taken to get through testimony because of the legitimate objections, cross examine, and so forth, I, I, I have not been able to move this case as normally I would if I'm in a way of getting it through quickly. Or at least getting it through completely. So, that's all I'm saying. But I also am getting the feeling that I still have more to cover regardless of the 502.1 criteria that we're going to have to get into.

CHAIR: Yes.

MR. HOLZER: And we're not going to be able to get into it tonight, I don't believe.

CHAIR: We are not getting into it tonight.

MR. HOLZER: And if that's the case, I suggest that the last portion of the inconsistent with property zoning classification, I've got four or, I've got four, three documents to get in, but they're going to go through the same thing we've already gone through. Objections, argument, etcetera.

MR. SCHMIDT: I don't, I don't even know what that --

CHAIR: Well, hold on, let's not comment.

MR. SCHMIDT: I don't know what they are.

CHAIR: I understand your trepidation in that regard, right? You touch a stove once, you don't want to get it burned the second time, right?

MR. HOLZER: Exactly.

CHAIR: I understand that. The, as far as I know, the rulings have been consistent from here. If it's a matter that goes to a code issue or an expert issue, obviously there are going to be more problems. If it's a matter that certainly Dr. Clark can testify to, whether on behalf of the association or individually, there haven't been objections or the objections have been overruled and you've been able to proceed.

MR. HOLZER: I understand.

CHAIR: So, I mean, I think it's pretty, you have a pretty good idea of what we need or what we're looking for in terms of in the exhibits and the testimony to enable Dr. Clark and the Protestants to put forward their case.

MR. HOLZER: Right.

CHAIR: I'm just suggesting, since it's now been two full days that we've done Dr. Clark, realizing the objections have bogged us down, to just consider that when we come to, to points such as talking about panic bars and what not. You can expect these objections from Mr. Schmidt and you have a pretty good idea of where we stand on it. I understand we've now come up with a process by which you proffer those kind of things. We could then bypass some of that back and forth. And I'm not

looking to, you know, take, make sure that you can't get evidence in here or anything. You simply present what it is.

MR. HOLZER: Right.

CHAIR: But you know where we stand on those particular matters.

MR. HOLZER: I do.

CHAIR: Right.

MR. HOLZER: And I've tried to comply with them.

CHAIR: Right, so I'm just suggesting for tomorrow, I understand there were additional matters to go into. You know where we're going to be. So, if there's a question as to what you think Mr. Schmidt may object to, my suggestion would be to try to resolve those matters to the extent you can prior to the start of tomorrow's hearing.

MR. HOLZER: I can, there's no way I can do that. It's now 6:30.

CHAIR: I don't mean --

MR. HOLZER: I mean, I'll do it with myself.

CHAIR: -- literally now. Yes.

MR. HOLZER: I, I can't negotiate with Mr. Schmidt.

CHAIR: No, but if tomorrow you show him the exhibits that you intend to introduce that perhaps there's an agreement that there's no objection then you've just advanced this case substantially.

MR. HOLZER: I've been trying to do that.

CHAIR: All right.

MR. HOLZER: But I'll, I'll take your, your comments.

CHAIR: And it's really, I want to get this, to get this through and, again, to make sure that whatever Dr. Clark feels needs to be in the record is in the record.

MR. HOLZER: Right.

CHAIR: So, let's try to move through it. Is there anything else further for today?

MR. HOLZER: Well, yes. I, Mary, Mary Clark wants to know, can we have until February 5th to compile, compile the Baltimore County letters that have been discussed, that we're supposed to put together?

CHAIR: What letters?

MR. HOLZER: The packet that are the proffer letters.

CHAIR: Oh. You're going to have to refresh my recollection. You don't have to do it by tomorrow morning, if that helps the matter. We'll deal with that, whatever that will be tomorrow in terms of where we stand with that.

MR. HOLZER: Okay.

CHAIR: I understand sitting here today with the time we have today, the time we start tomorrow, it gives you limited opportunity so I will not require it by tomorrow because it's plain as day to me that we're going to be here on February 5th still receiving evidence anyway.

MR. HOLZER: Yes.

CHAIR: On the Protestant's case. So, with that in mind, we will, Mr. Schmidt, anything further for today?

MR. SCHMIDT: No, sir.

CHAIR: Mr. Holzer, anything further for today?

MR. HOLZER: No.

MR. CLARK: Oh, thank God.

MR. HOLZER: I will try to make this last bit that we would have done today very quick tomorrow.

CHAIR: And I, and I appreciate your efforts in already streamlining it down and calling the matter --

MR. HOLZER: Thank you.

CHAIR: -- to make it more appropriate.

MR. HOLZER: Thank you.

CHAIR: So, I'll see everyone tomorrow at 9:00 a.m.

MR. HOLZER: Yes.

CHAIR: Well, I shouldn't say everyone. Those of you attending tomorrow, I'll see you at 9:00 a.m., unless the County government is closed or on delay. If it's on delay, we will go by that schedule.

MR. HOLZER: We talked to Sunny at the, at the Board and she said you can get online to see.

CHAIR: Yes.

MR. HOLZER: And we would open whenever the County opens.

CHAIR: Right. So, if it's a two hour delay, we'll

see you at 11:00.

MR. HOLZER: Exactly.

CHAIR: By way of example.

MR. HOLZER: Thank you, thank you.

CHAIR: Thank you, all. Thank you, Dr. Clark.

MR. CLARK: Thank you very much.

CHAIR: And by the way, you are still under oath.

MR. CLARK: Thank you for ending it. Yeah, yeah, I know. Thank you.

CHAIR: So, you cannot talk about your testimony.

MR. CLARK: Thank you for ending it because I'm really losing it.

CHAIR: Yes.

(OFF THE RECORD - 06:24:18 PM)

CERTIFICATE OF TRANSCRIBER

I hereby certify that the hearing in the matter of Nepali American Cultural Center, case number 18-122-X and CBA-19-004, heard before the Board of Appeals of Baltimore County, January 29, 2019 were recorded by means of audiotape.

I further certify that, to the best of my knowledge and belief, page numbers 1 through 393 constitute a complete and accurate transcript of the proceedings as transcribed by me.

I further certify that I am neither a relative to nor an employee of any attorney or party herein, and that I have no interest in the outcome of this case.

In witness thereof, I have affixed my signature this 30th day of November, 2020.

Christine R. Leary

RECEIVED
DEC 29 2020
BALTIMORE COUNTY
BOARD OF APPEALS

IN THE MATTER OF:

NEPALI AMERICAN CULTURAL CENTER
CASE NUMBER: 18-122-X

Hearing Date: November 29, 2018

Pursuant to Notice, the above-entitled hearing was held before the Board of Appeals for Baltimore County at the Jefferson Building, Second Floor, Suite 203, 105 West Chesapeake Avenue, Towson, Maryland 21204.

PANEL PRESIDING:

JASON S. GARBER, CHAIRMAN

DEBORAH C. DOPKIN, BOARD

PRESENT ON BEHALF OF THE PARTIES:

LAWENCE E. SCHMIDT, ESQUIRE
TIMOTHY M. KOTROCO, ESQUIRE
Counsel for Petitioner

J. CARROLL HOLZER, ESQUIRE
Counsel for Protestant

Christine R. Leary
3129 Hiss Avenue
Baltimore, Maryland 21234

(ON RECORD - 09:13:52 AM)

CHAIR: All right. We are here today for what has been otherwise scheduled as day seven in the Nepali matter, case 18-122-X. I'll just, I imagine what probably sounded like an e-mail of ominous sorts, was distributed earlier in the week to the parties to indicate that we would not be taking evidence today, particularly the testimony. The reason for, you probably have figured out by now, Ms. Murphy is not here. She is not able to it on any cases for the foreseeable future. We're hoping to have her back, maybe January, maybe February, but we don't know. There's still an uncertainty as to what's going on. So, we'll just leave it there. That presents interesting issues for this case because we've already had day, days one through six with Ms. Murphy and now we are sitting here with two Board members and one of whom, Ms. Dopkin, is subject to reappointment on April 30th. So, her term will be up by then. So, we are trying to figure out, in terms of scheduling this case, how to squeeze this in so an opinion can be written before April 30th in the, what I would hope to assume is a rare chance that Ms. Dopkin will not be reappointed. So, we're likely to have to get another Board member for Ms. Murphy, rather than wait and see what occurs. But one thing I wanted to discuss with the parties is what do you guys think as to how you want to proceed. We can proceed with two members or we can proceed by getting a third member in. There is one

Board member, as you may or may not know, that has recused himself from the case and --

MR. SCHMIDT: Who is that?

CHAIR: -- and, what's that?

MR. SCHMIDT: Who was that, Mr. Garber? I'm just trying to remember.

CHAIR: We'll just leave it at one Board member.

MR. SCHMIDT: Okay, I'm sorry.

CHAIR: Because there was a personal contact issue that, not involving him directly, involving a family member. So, that's why he decided it was better for there to not be any connection to this case. Then there is another Board member by practice, who we don't have sit in matters within their, one's jurisdiction to the extent that it can be completed. So, that leaves us with a limited supply of Board members and, two of which, also, are subject to reappointment as well. So, in other words, we have to hustle on this matter. So, we can do that by, again, proceeding with two Board members, or by getting a third Board member and then really condensing the schedule within 2019. Speaking on my behalf, I'm fine either way, frankly, with whatever you, however you want to proceed.

MR. HOLZER: You want to go --

MR. SCHMIDT: Obviously, I didn't know any of this until I just heard it. So, this is without any consideration or reflection and the first thing is I hope Ms. Murphy is okay,

whatever her situation is. So, pass that along to her, if you will. I guess I would say that my initial reaction leaning would be to get a third Board member. And two reasons, which I probably could be talked out of --

CHAIR: You don't need to specify the reasons because --

MR. SCHMIDT: No, I, I'm happy to --

CHAIR: -- if you're more comfortable having the third Board member too for purposes of this case and if Mr. Holzer wants to go in that direction, if he, but if he has a second thought, I mean, that would be what we would like to do.

MR. SCHMIDT: Sure. Well, and I'm, I'm happy to share what my thinking is. It's no big secret. One is, I think there's some language in either the rules of practice and procedure or the code that says if a Board member is unable to complete hearing a case, and I've seen that in other cases, when, even when matters have been remanded, for example, from the Circuit Court or otherwise. I'm trying to remember the specifics but I know I have seen other matters where a Board member read a transcript or read transcripts to kind of bring themselves up to date. So, --

CHAIR: Well, and luckily in this case, as it turns out --

MR. SCHMIDT: We have transcripts.

CHAIR: We happen to have transcripts for at least

the first four days.

MR. SCHMIDT: Right, right.

CHAIR: And we can get the second two transcribed so that that Board member can get up to speed and yes, that's why we thought that a third Board member can be made, I guess, have an informed approach to this case.

MR. SCHMIDT: Right.

CHAIR: For the next time it will be scheduled.

MR. SCHMIDT: Right, and, right, and the other consideration that I was thinking of, Mr. Garber, is, you know, it is not beyond the realm of possibility, because it has happened in other cases, where the Board has issued a two to one decision. And so, I don't know what happens if you have two Board members and it's a one to one decision. I've never seen it, I don't know how it would result but --

CHAIR: I imagine the ALJ opinion may factor into some of that. I don't, I don't know. It's de novo. I'm just thinking this through off the top of my head.

MR. SCHMIDT: Right.

CHAIR: It's de novo, so maybe it doesn't, because I'm just thinking, if you're in Appellate Court and you have a tie, then it's a, then you default to the lower Court decision. But here it's de novo, so maybe that doesn't apply at all. I don't know the answer to your question.

MR. SCHMIDT: Yeah. So, I mean, those are the things

that, at least, sprung to mind immediately, which would lead me to think maybe getting a third member. But I, like I say, if Mr. Holzer has another, has contrary reasons, I, I could very well be persuaded, you know, that's just what I'm thinking of off the top of my head.

MR. HOLZER: As, as Mr. Schmidt said, this came to both of us in this, this instant.

CHAIR: Well, yeah, so, and it came to us by surprise as you can imagine as well.

MR. HOLZER: Sure. I think --

CHAIR: I assume it was not something that was, you know, someone could ever predict or account for in advance.

MR. HOLZER: Right, right. I, I, I do have some thoughts on this. First of all, I don't think it's fair to our clients, either Mr. Schmidt's client or my client, some of whom are here.

CHAIR: Um hm.

MR. HOLZER: But not all. For us to have to make that decision at, at this point. I think it's only fair that we be able to talk --

CHAIR: I will give you time to talk to them today, right now, and I, I appreciate what you're saying in terms of whether to go, proceed with two or three. The reason why we can't wait is for the reasons I've already --

MR. HOLZER: I understand, I understand.

CHAIR: -- already stated. And the preference, certainly from this Board, is to go by normal practice and have three and to avoid the consequence that Mr. Schmidt has already said, plus we have two Board members who are available at some point. Certainly, I can't speak, you know, speak to any specific day, but they have availability to, to come in and then in the event that this is scheduled in the matter and there is a means by which Ms., Ms. Murphy could be here instead, we're back to normal.

MR. HOLZER: Okay.

CHAIR: And that's why I would prefer to give that opportunity, if we can avail ourselves of it.

MR. HOLZER: I'd like to talk to my clients.

CHAIR: Yes.

MR. HOLZER: And I think Mr. Schmidt might want to call his at, at this point. Okay.

CHAIR: So, leaving that aside, --

MR. HOLZER: Okay. Let me, I, I can answer your question.

CHAIR: I know you want to talk to your clients about that, that part of it.

MR. HOLZER: Yeah, no, but I, I will tell you my thoughts.

CHAIR: Um hm.

MR. HOLZER: My thoughts are that I believe we only

need three days, one day to recapture today and one additional day for the rest of my case and then one day for the reply or rebuttal. So, so assuming that that is correct, that we need three days, one to replace today, two, one additional for us and one for him, my, I have a problem also on the December dates that you suggested, I am in Prince George's County.

CHAIR: Well, those are no longer on the table.

MR. HOLZER: Okay. Okay. That's perfect.

CHAIR: Because of the --

MR. HOLZER: I'm available --

CHAIR: -- of the events that caused us to be here today in this manner, --

MR. HOLZER: Okay.

CHAIR: -- we can't do December, no matter what happens at this point.

MR. HOLZER: Thank you.

CHAIR: Because if there's a third Board member coming in, which again, would be the preference here --

MR. HOLZER: Right.

CHAIR: -- that person would need to get up to speed and therefore, go over all the transcripts and all the documents --

MR. HOLZER: Correct.

CHAIR: -- that have been submitted to date, so that way this person has at least some ability to participate in a

meaningful manner as a Board panel member, rather than cold.

MR. HOLZER: I, I'm speaking solely for myself at this point.

BOARD: They could hear the recordings as well?

CHAIR: Yes, they could, or listen to the recordings. That's right.

MR. HOLZER: Yeah, yeah. And, and whatever, whatever documentation we have, that would, that would be appropriate. I don't think that's unusual. I've had, I've had a case like that.

CHAIR: It happens. It, here, --

MR. HOLZER: I've had a case like that.

CHAIR: -- and I'm sorry to keep jumping over you because I'm trying to work through everything as expeditiously as possible.

MR. HOLZER: Yeah.

CHAIR: Here, the only unusual, I'm not saying only unusual, what makes it more unusual is the fact that there's uncertainty as to if and when Ms. Murphy can return.

MR. HOLZER: Right.

CHAIR: To the Board.

MR. HOLZER: So, my, my feeling is this. Personally, I have no objection if it turns out that the two of you have to hear this case. I understand there could be a possible future dilemma, but that's in the future, I don't know. I, obviously,

I don't know your, both your thoughts. But I would be willing in January, to continue the case, with the two of you. On the other hand, if, if you feel uncomfortable with just the two of you and you believe it would be a better practice to have a third Board member, I have no objection to that either. One of the, one of the things that I have personally experienced where this happened in another case, was the fact that the individual who was appointed the third Board member, even though they listened to the, the tape or they reviewed the documentation, it was very unfair to that person to try to have to sit in and, and intellectually encompass all of the stuff that's happened here in six days. It would be different if it was a one day hearing or a two day hearing, but this has been six days of testimony and so, so --

CHAIR: Well, the good news about that is that, again, at least we have the recordings and at least we have transcripts.

MR. HOLZER: Right.

CHAIR: As opposed to someone who is coming in without notes, who just has the file to review. This case is at least better documented for someone --

MR. HOLZER: Yes.

CHAIR: -- to be able to come in and even if, and I recognize what you're referring to, that is, the nature of coming into the middle of a case, leaving aside as a panel

member, even any attorney coming into the middle of a case and taking over some responsibility for it, it, yes, the --

MR. HOLZER: It's difficult.

CHAIR: -- the time to get up to speed, there is some difficulty with that. However, the Board members here, I'm sure, once they get into the flow of things, it won't be a problem.

MR. HOLZER: So, the end result, to make your job a lot easier, I think Mr. Schmidt and I both are in the same position. If you believe it's in the best interest of the Board to have another, an individual appointed at this point to sit in, then I will abide by that decision. I, I don't see where I'm the one that makes the point. I'm just telling you my thoughts.

CHAIR: And that's what, that's why I wanted to hear from both of you, --

MR. HOLZER: Yeah.

CHAIR: -- as to how you wished to proceed.

MR. HOLZER: Yeah.

CHAIR: Because if it was the two of us, we could conceivably start quicker, but the preference here is to have three, I think it makes sense for multiple reasons. Also, there's the potential and hope that Ms. Murphy can rejoin us sooner --

MR. HOLZER: Yes, yes.

CHAIR: -- rather than later and none of this has to become an issue at all.

MR. HOLZER: Right.

CHAIR: The only other thing to bring up in relation to all that is, of course, the back end of it. Which is, I explained, Ms. Dopkin's reappointment.

MR. HOLZER: Yes.

CHAIR: Which means that this case opinion has to be issued and out before April 30th, well, by April 30th.

MR. HOLZER: Well, I have thirteen days in January that I'm available. I'm sure Mr. Schmidt has some --

MR. SCHMIDT: I brought, I brought my calendar as well.

CHAIR: And we'll get Ms. Cannington out here at the conclusion of today so we can start identifying, or at least narrowing down that, now, remember, if we're going to get a third Board member in, now we have to get that person's schedule as well.

MR. HOLZER: Sure.

CHAIR: And then, and now, my, my thought is, you know, with the third Board member, it's actually to schedule four Board member, to schedule Ms. Murphy and the, and the --

MR. HOLZER: Yes.

CHAIR: -- potential new panel member.

MR. HOLZER: As an alternate.

CHAIR: Right. And if Ms. Murphy cannot attend on those days, well, if Ms. Murphy cannot attend on day seven of testimony, that would mean that that, whoever replaces Ms. Murphy will remain with the case.

MR. HOLZER: Right.

CHAIR: Not one person sitting in just for one day. So, --

MR. HOLZER: No, I agree with that. I mean, I, I think the Board has a handle on, on what this personal situation is with Ms. Murphy and I'm certainly not going to object to whatever the Board, in its opinion, feels is appropriate and I don't think Mr. Schmidt is going to object to it either. I think we're, we're along the lines, I, I just would like to talk, if I could have five minutes to talk to my client.

CHAIR: Absolutely. And I'll give you that opportunity.

MR. HOLZER: Okay. But that's my feeling.

CHAIR: But I wanted to bring these matters to your attention first, because I wanted to also urge the importance on getting this scheduled and getting this done, as expeditiously as possible.

MR. HOLZER: Right. No, I, I understand. I don't want to have to file anything in the new process starting in February.

CHAIR: Well, that, that I've already moved on from because --

MR. HOLZER: Right.

CHAIR: -- we have other things that are more --

MR. HOLZER: Right.

CHAIR: -- pressing, unfortunately.

MR. HOLZER: I understand.

CHAIR: That have come up that, that goal may not be achieved. That was more of a wish, I suppose.

MR. HOLZER: Right.

CHAIR: But that's fine. Now, it's more about the other matters.

MR. HOLZER: Yes, yes.

CHAIR: Which require this case to move fast.

MR. HOLZER: I, like I say, I have thirteen dates that I'm available in January.

CHAIR: Okay.

MR. HOLZER: We can pick three of them, I think they should be available.

MR. SCHMIDT: Sure.

MR. HOLZER: And, Larry, I don't know what your thoughts are.

MR. SCHMIDT: Yeah, that's fine. Just a question, Mr. Garber, without --

CHAIR: Yeah.

MR. SCHMIDT: -- certainly don't mean to ask anything inappropriate. But would it be better to have dates later in the month, is there, is, would it be better for Ms. Murphy to possibly, or we just don't know?

CHAIR: I think we, I think we just identify --

MR. SCHMIDT: The dates.

CHAIR: -- the available dates --

MR. SCHMIDT: Okay.

CHAIR: -- for all parties and Board members, so we can start moving this as quickly as possible. It would be, I would love to be able to be in a position to wait to see --

MR. SCHMIDT: What, what --

CHAIR: -- but we don't, but since we --

MR. SCHMIDT: But you can't.

CHAIR: -- don't know, we're running, we would run a big risk.

MR. SCHMIDT: Okay, that's fine.

BOARD: And would you two, coordinate your thirteen with his calendar?

MR. SCHMIDT: Yeah, if you want to bring Ms. Cannington out now, we'll, I can talk to her now.

CHAIR: We will at the conclusion.

BOARD: (inaudible).

MR. SCHMIDT: Oh, okay.

CHAIR: Because we want to address two, two other

matters.

MR. SCHMIDT: Oh, okay.

CHAIR: So, you can be seated, that's all right.

MR. HOLZER: Oh.

CHAIR: Bring this up first. Mr. Holzer filed a Motion, Mr. Schmidt, on Tuesday regarding Protestant's Exhibits 23 and 24. You have the opportunity to respond. I don't know when you think you can have a response by.

MR. SCHMIDT: I, I have had a busy week and I have read his Motion, so I understand it. I can file a response, I mean, typically in Court rules, you know, you have fifteen days to file a response to a Motion. I can certainly do it within that time frame. If you would like something sooner, I'd try to get something to you.

CHAIR: It doesn't need to be sooner.

MR. SCHMIDT: But I would say certainly within fifteen days of when it was filed, I'll have a response.

CHAIR: And the purpose of me raising it again ties into scheduling, because --

MR. SCHMIDT: Sure.

CHAIR: -- if that person, if there's to be another person, needs to be up to speed on the Motion as well.

MR. SCHMIDT: Yeah, so if he, I mean, if he filed it, if it was --

MR. HOLZER: I filed it on Wed, Tuesday.

CHAIR: Tuesday.

MR. SCHMIDT: Tuesday.

MR. HOLZER: Tuesday.

MR. SCHMIDT: I'm just looking at my cal, at the calendar. So, indulgence for a minute. I'm, just want to get my calendar in front of me. So, that was the 27th, so you'd basically be talking --

CHAIR: If I'm not mistaken --

MR. SCHMIDT: -- the 4th, say December 12th.

CHAIR: Okay.

MR. SCHMIDT: I'll, I'll get something filed by December 12th.

CHAIR: I was like, I was going to give you three days for mailing.

MR. SCHMIDT: Oh, that's great. I'll tell you what, I'll have it filed by the 14th, which is Friday.

CHAIR: Yeah.

MR. SCHMIDT: That way --

CHAIR: That's fine.

MR. SCHMIDT: -- you'll have it by the close of the week.

CHAIR: So, Motion response --

MR. SCHMIDT: Will be due on Friday.

CHAIR: December 14th.

MR. SCHMIDT: Yes, sir.

CHAIR: Very well. So, we'll dispose of the Motion one way or another at the next hearing date.

MR. SCHMIDT: Okay.

MR. HOLZER: Sure.

BOARD: Or sooner if it suits you.

CHAIR: Or if, that's right, exactly. Okay. Next, we have the objections to the videos. Now, this is where, this takes me a little longer then we would all hope, because we have to go through some of these things and I have to say, if I look at Protestant's Exhibits 32, excuse me, 31, 32 and 33, which are the indexes for all the videos, it is hard to figure out, or at least match, some of the matters raised in the objections and the response to those exhibits to determine what is in, what is out, what is, remains in dispute, etcetera, etcetera. So, we have to work through that altogether. Do you have copies of Exhibits 31, 32 and 33? I say you do not.

MR. SCHMIDT: I do not, I didn't bring much.

CHAIR: That's fine. Well, we can all work together off whatever copies we need. Mr. Holzer?

MR. HOLZER: I don't know what you're asking about the copies.

CHAIR: Okay. We're --

MR. HOLZER: I have my response and I have his, his objection.

CHAIR: Right. But we, I need to track, certainly,

what will be admitted, what will not be admitted. And I have to figure out how to go about tracking it. These are the three indexes that have been presented of the videos, so I could cross out those that will not, on my copy, and then we can resolve whatever has to be on the exhibit list by, we can attach a sheet to it to say what is in, what is out. I mean, does that make sense to everybody?

BOARD: (inaudible).

MR. SCHMIDT: Sure.

MR. HOLZER: I have, I have video descriptions and why I think they're relevant, or whatever.

CHAIR: Well, those are, that's your, I'm talking about these exhibits, which are in evidence.

MR. HOLZER: Right. I understand.

CHAIR: The videos themselves we have to rule on. So, I intend to take these --

MR. HOLZER: And I'm prepared to answer that.

CHAIR: I intend to take these lists and mark which ones are in, which ones are out and which ones may be remain in dispute, maybe needs more information.

MR. HOLZER: Well, has, has the Board looked at these, including Ms. Murphy? I mean, or has the Board not had a chance to even look at them?

CHAIR: Well, I had the, well, as you can, you know how the practice goes. I can certainly rule on the objections

and I have, we have had seven played here in Court. I have reviewed all the submissions by the parties. Ms. Dopkin, I know, has done the same. We, we obviously see that there is an ability to move forward on some of these objections and, and matters, to resolve them here today so we're not wasting this time the next time out.

MR. HOLZER: I agree. I agree. I don't object to that.

CHAIR: Right.

MR. HOLZER: I just wasn't sure be, in other words, I wasn't sure that's, that's what you were planning to do today. Assuming that you were planning to do that today, I have a list of the disc, the file numbers, 4992 for example, and why I believe it's relevant to the case.

CHAIR: No, and that I understand.

MR. HOLZER: If you care, if you care to hear that.

CHAIR: That you have, yes. So, here's what I propose we do. I propose we get the exhibits, Protestant's thirty-one, thirty-two, thirty-three, since these are the indexes, get you exhibit copies so you can track it as we go along and so you can track it, Mr. Holzer, as we go along. And then we can figure out where, where that leaves us at the end of today and the whole purpose of this exercise is to not waste time the next time out.

MR. HOLZER: I agree because the witness has to know

what he can get into and what he can't, that's --

CHAIR: Well, we would have to resolve this at the start of the next time and that would take up, who knows how long.

MR. HOLZER: Right, no, I agree.

CHAIR: So, Mr. Schmidt, are you prepared on that?

MR. SCHMIDT: Sure.

CHAIR: Okay. I mean, your submission is what it is.

MR. SCHMIDT: Yeah. I'll, I'll, --

CHAIR: And I'm sure you're ready to go with that argument on your submissions.

MR. SCHMIDT: Sure.

CHAIR: All right. So, so I will leave the bench to go get Ms. Cannington so we can get these copied so we can all move along.

MR. SCHMIDT: Okay.

MR. HOLZER: Can I take the time to talk to my clients?

MR. SCHMIDT: You absolutely may. So, we can, we can go on break from the record.

MR. HOLZER: Take a break for ten minutes.

CHAIR: Yeah, go talk, go speak with your clients. If you feel you need to make phone calls, you may go make phone calls.

MR. SCHMIDT: Okay.

CHAIR: Otherwise, I want to make sure we're all on the same page about the objections as to where we're going.

BOARD: And while you're out, if you could (inaudible).

CHAIR: Right, so you have thirteen, if he has seven, that are mutual, those are the seven we can then present to Ms. Cannington.

MR. HOLZER: Sure.

MR. SCHMIDT: Okay.

(RECORDING PAUSED - 09:35:02 AM)

(ON RECORD - 09:54:05 AM)

CHAIR: All right. Thank, thank you for providing your mutual available dates for the month of January, to continue the scheduling of this case. Up now is the passing, our review upon the objections and responses from the parties as to the videos, which I believe are Exhibits 29 and 30. Which, the indexes for which are Exhibits 31, 32 and 33.

MR. HOLZER: Thirty, okay.

CHAIR: Which I've handed copies to counsel so we can all track this together. All right. So, the first thing that's the easiest thing to figure out here are the ones where Mr. Schmidt had no objections.

MR. HOLZER: Okay.

CHAIR: The hard part to that is identifying where on the indexes we can find them and highlight them to say they are

in evidence. So, let's start with that. I note that for disc A-1, I guess it's number 4992.

MR. HOLZER: Yes.

CHAIR: All right. So, if we were to look at Exhibit 31, it would not be reflected on thirty-one. If we were to look at Exhibit 32, it would not be reflected, I guess, at all until, other pages of this, page five perhaps.

MR. HOLZER: 4992.

CHAIR: Yes, if you go to, I guess, it's coded rec center one, R-E-C-C-T-R-1.

MR. HOLZER: Yes.

CHAIR: At the top of page five of Exhibit 32. It has a designation there of DSC-4992. I'm assuming, Mr. Schmidt, when you write disc 4992, that's what you're referring to?

MR. SCHMIDT: Yes. Yes. Just, just to tell you, the, the discs were numbered, the, there were four gold discs--

CHAIR: Yes.

MR. SCHMIDT: -- that were marked in magic marker A-1, A-2, A-3 and A-4.

CHAIR: Which corresponds to Exhibit 33.

MR. SCHMIDT: Right. And when you open, when, when I opened those, then there were certain folders shown.

CHAIR: Right.

MR. SCHMIDT: And so, what I did is, in my letter,

like the first folder was 4992, then the second one was 5005, and then the third one was 5006.

CHAIR: Right, to me, the reference to the word disc, as you write D-I-S-C, would, that would correspond with the page five rec center one is the, since that's the title, DSC_4992? That's what you meant by disc 4992?

MR. SCHMIDT: Yes, yes, sir.

CHAIR: That's, that was my only question. And so, that in turn, that's reflected on Exhibit 33 at the bottom in handwriting. We all agree on that? Thirty, thirty-three for Mr. Schmidt.

MR. HOLZER: Yes.

CHAIR: That's a single page.

MR. HOLZER: Yes.

CHAIR: (inaudible) single page. There you are. Handwriting on the bottom, 4992.

MR. SCHMIDT: Yeah, that's a, that's a, that's A-1.

CHAIR: Disc A-1, right. So, we all agree that that's what we're referring to?

MR. SCHMIDT: Right.

CHAIR: Okay.

MR. SCHMIDT: And I think, as my letter indicates, yeah, okay. Okay, well, you're, you're on, you're on disc A-1, okay.

CHAIR: I am, I am trying to go through it like in

the, in the manner that you presented so disc A-1.

MR. SCHMIDT: Right.

CHAIR: Which you wrote the word disc but it corresponds to DSC_4992.

MR. SCHMIDT: Yes, yes, sir.

CHAIR: So, now we're on the same page. What we have from Mr. Schmidt we can now track from Exhibit 32 and now Exhibit 33. Okay. So, you had an objection to this on the basis, well, you wrote, I technically object to its submission as to relevance, lack of foundation, authenticity. The events depicted are not authenticated. However, I do appreciate it shows the property and building. From that standpoint, it may have some value to the Board. Correct?

MR. SCHMIDT: Yes, sir.

CHAIR: All right. Is there anything you want to add to that?

MR. SCHMIDT: No, I, I think my letter speaks for itself unless the Board needs to hear any clarification.

CHAIR: Could we all agree that's, that's something that the Board has not seen as of yet?

MR. HOLZER: Yes.

CHAIR: That is, we have not played that for everybody (inaudible) --

MR. SCHMIDT: Yes, sir.

MR. HOLZER: Right.

CHAIR: Okay. So, what I propose to do for that is give Mr. Holzer an opportunity to respond to that, that, to that video directly.

MR. HOLZER: Sure.

CHAIR: As to why it should be admitted.

MR. HOLZER: It should be admitted because it shows the door opened to the main building, or the house. It shows events occurring with the door open and people going in and out. It shows people inside carrying brass pots and as a result, the door to the mansion is open. People having religious service in the mansion, Ghimire said no religious worship held inside the mansion, ALJ said no religious activities are to be held inside the mansion. So, it goes to relevance, it goes to impeaching the testimony of one of the witnesses.

CHAIR: And that was one thing in your submission that I was trying to figure out, because you would say that the testimony is contradicted by the video.

MR. HOLZER: Yes.

CHAIR: And without referencing the testimony, so it's, the, for that particular one, 4992, --

MR. HOLZER: Yep.

CHAIR: It's the fact that Mr. Ghimire, you recall, testifying that no religious activity had taken place inside.

MR. HOLZER: And the ALJ said no religious activities

are to be held.

CHAIR: That is a different matter because what the ALJ ordered is not necessarily what's to occur here in this case. But more to the point, it's Mr. Ghimire's testimony.

MR. HOLZER: And it goes to, to test, impeaches credibility.

CHAIR: Okay. Impeachment Mr. Ghimire on no religious activity.

MR. HOLZER: Right.

CHAIR: Okay. Mr. Schmidt, any response to that?

MR. SCHMIDT: Yes. The, they weren't conducting religious activities in the building. I mean, people can go in the building. There were plenty of photos of people all standing around the building and talking but they weren't, that wasn't religious services. So, it doesn't impeach Mr. Ghimire's testimony.

CHAIR: So, would you say, are you characterizing the video as you cannot tell if it's a religious --

MR. SCHMIDT: Yeah.

CHAIR: -- ceremony or not, whether you watched the video, on the video? That is, if someone who is not involved in this case were to watch the video and say, that's a religious ceremony or not.

MR. SCHMIDT: I, I don't, I don't think people could tell. I think --

CHAIR: Because that would be a foundational question.

MR. SCHMIDT: Yes. There's no foundation that that's a religious ceremony. To the contrary, when I looked at it, it looked like four people going on in looking around the building.

CHAIR: Okay. So, I only use this as an example as to how we're going to untangle this web, okay? That's the first one on the list and I use this to illustrate how we're going to untangle this. That sounds like something we're going to have to watch and make a determination on our own as to whether or not that depicts what you're saying.

MR. HOLZER: Okay.

CHAIR: Okay? So, we'll leave that one open.

MR. HOLZER: That's okay. Then, and I'll mark it okay to show --

CHAIR: I'm going to mark it okay, I would say that's still subject to review.

MR. SCHMIDT: Okay, that's 4992?

CHAIR: Right.

MR. SCHMIDT: Okay.

MR. HOLZER: What, so you're not ruling that it's okay to show it?

CHAIR: I'm not making that ruling sitting here at the moment. I'm saying, I needed to know why you think it's

admissible. I need to hear from Mr. Schmidt in more detail in res, in, to reply to you and then now I need to figure out whether or not it shows what we're talking about.

BOARD: (inaudible).

CHAIR: I am. I'm getting to that now. I wanted to go through, illustrate how we're going to, this is how we're going to operate on this. Okay. So, now we know how we're going to approach each one of these that have been identified.

MR. HOLZER: Okay.

CHAIR: But we're going to now fast forward for the time being to eliminate the ones to which there are no objections.

MR. HOLZER: Okay.

CHAIR: So, we go down to disc A-2. Which Mr. Schmidt that's paragraph two of your submission.

MR. SCHMIDT: Yes, sir. Yes, sir. Mr. Garber, I'm going to remain seated if, when I address you, if that's okay?

CHAIR: Absolutely. For, for the purposes of today, that's fine.

MR. SCHMIDT: Okay. I'm just trying to keep these papers in front of me, if that's all right.

CHAIR: No, that's perfectly fine for today. So, disc A-2 has eleven different scenes of dash cam video footage. Do you see what, how that's marked on Exhibit 33 pretty clearly? On Exhibit 32, if someone can help direct me as to

where those eleven items are on, if they're on Exhibit 32 to identify them? Like, for example, one of them is listed as circle to Mount Vista Court. And if you look at page five again, on Exhibit 32, under, again I'm calling it rec center 3, only because that seems to be the title on top, it says circle to Mount Vista Court. I'm assuming those two things are one and the same.

MR. SCHMIDT: Not in my exhibit, I just can't tell you I, I, I agree.

CHAIR: I know, I, I'm awaiting a response from Protestants on that.

MR. SCHMIDT: Yeah.

CHAIR: I recognize you're probably trying to figure out where --

MR. SCHMIDT: The same thing.

CHAIR: Right. Let me ask this, Mr. Clark, would it be easy if we proceeded with another one while you identify where on thirty-two those eleven items may be? Since you're, you are the author of those indexes. Would that make more sense for purposes of today, rather than us --

DR. CLARK: Waiting for me.

CHAIR: I mean, it seems to me like that would make more sense to get that part started. If you could identify where on thirty-two those items are, are indicated.

DR. CLARK: Do we, do we have a copy, can I have the

copy of the, of the disc library? What we actually submitted?

CHAIR: Okay. Is that Exhibit 32 you're looking for?

DR. CLARK: Yeah, yeah, I guess.

CHAIR: Okay. So, here's what I'm going to do. Mr. Schmidt, I'm going to give him my copy of the copy that I just made that has now one indication on it, the blue for 4992. Outside of that, it's the same thing. Mr. Clark, you can take my copy.

DR. CLARK: No, I'm asking about the physical discs.

CHAIR: The physical discs, you want the discs back?

DR. CLARK: Oh, we have, we have a disc packet.

CHAIR: Okay.

DR. CLARK: Thank you.

CHAIR: So, while we are moving on with other things, if you could work on that, that would be great. So, we'll, we'll pass that for now. We'll get back to it. Paragraph three, disc A-3.

MR. HOLZER: I'm sorry, which, A-3?

CHAIR: Sir, we're now, if you take a look at, one second, Mr. Clark. If you take a look at Mr. Schmidt's objections, it's paragraph three.

MR. HOLZER: Yes.

CHAIR: Okay. He says, disc A-3, there are two entries and I'll leave the, the suffix ending there, labeled T-A-N-11-1-5-0-1, they appear to be video taken in July of '18

from a stationary camera and he has no objection.

MR. HOLZER: Yes.

CHAIR: So, are we all on the same page, Mr. Clark?

DR. CLARK: Okay. I, I figured it out.

CHAIR: Well, hold on. Let, we'll, I'll get back to you.

DR. CLARK: Okay.

CHAIR: We're going to just work through this one first now. Disc A-3, so if we go to Exhibit 33, disc A-3, there is no reference to cam and then with the suffix 11-15-0-1. Mr. Schmidt, you agree with that?

MR. SCHMIDT: I do agree with that. I, I can only tell you what was on the disc when I looked at it.

CHAIR: I, I'm, I understand. This is why we need to work through this together. Mr. Holzer, do you see that?

MR. HOLZER: I, I see on thirty-two.

CHAIR: Right, can we agree that that reference is not on Exhibit 33?

MR. HOLZER: Yeah, it's on thirty-two.

CHAIR: Right. But then that means that if A-3, if what is recorded oh, excuse me, it's at the top of page thirty-three. I see. It's out of sequence. So, there are two references to 11-15-01.

MR. HOLZER: Yes.

CHAIR: On Exhibit 33 at the top.

MR. HOLZER: Right.

CHAIR: Those two, there's no objection.

MR. HOLZER: All right.

CHAIR: So, they are admitted. Mr. Schmidt, that's your understanding, right?

MR. SCHMIDT: Yes, sir. That is, just, this, this Exhibit 33.

CHAIR: This is Exhibit 33.

MR. SCHMIDT: I'm sorry.

CHAIR: If you look at the very top.

MR. SCHMIDT: Oh, yes. Yes, sir. Yes, sir. Those are admitted.

CHAIR: Okay, because if you see where the line has been drawn, there's a grouping, A-2, A-3, --

MR. SCHMIDT: Yeah.

CHAIR: -- A-4, A-1 --

MR. SCHMIDT: Yeah, I, I was looking below where A-3 was but I see him at the top of A-3.

CHAIR: I had the same problem initially too.

MR. SCHMIDT: Yes.

CHAIR: A-3 actually has a second section that's at the very top.

MR. SCHMIDT: Yes, and that's the, the two of them that are 11-5-01, 10-16-2018 at 10:31 a.m. and then 10:35 a.m.

CHAIR: Right.

MR. SCHMIDT: Which is when I think they were created because the mov, the video actually has a date of July.

CHAIR: Okay. Well, that's a whole different matter. You have no objection for purposes of its admissibility.

MR. SCHMIDT: Right.

CHAIR: Therefore, they will be admitted.

MR. SCHMIDT: Right.

CHAIR: Everyone on the same page there?

MR. SCHMIDT: Yes, sir.

MR. HOLZER: Yes. 111501 and 4933?

CHAIR: No, we're not on 4933.

BOARD: We're not there yet.

CHAIR: We're on --

MR. SCHMIDT: The two of them that are 115001.

CHAIR: So, let's go to, everyone, hold on, Mr. Clark.

MR. HOLZER: Yeah.

CHAIR: Mr. Holzer, if you take a look at this page, Exhibit 33.

MR. HOLZER: Yep.

CHAIR: And look at the very top, there are three items.

MR. HOLZER: Yes.

CHAIR: Those are the two we're referencing.

MR. HOLZER: Correct.

CHAIR: Those two are admitted.

MR. HOLZER: Yes, okay.

CHAIR: All right. So, we're all on the same page there. Now, Mr. Clark, you wanted to say something?

DR. CLARK: I figured it out.

CHAIR: For?

DR. CLARK: For, for the whole, for that, for whole Exhibit 32.

CHAIR: Okay. Well, --

DR. CLARK: Okay. For everything on thirty-two.

CHAIR: -- hold on, hold on. Now, we're going to go back to disc A-2.

DR. CLARK: Right.

CHAIR: Which is paragraph two of Mr. Schmidt's objections.

MR. SCHMIDT: Okay.

CHAIR: There are eleven different scenes, scenes of dash cam video footage to the extent it depicts the relevant neighborhood, you do not object. But it's not clear as to where these videos were taken. Obviously, for those that were not taken of the subject property, I would have a question as to why they were relevant. But I don't know if they were taken at the subject property either. So, Mr. Holzer?

MR. HOLZER: Let me see what our response to that was.

CHAIR: You just wrote there, there was no objection.

MR. HOLZER: Yeah.

CHAIR: Well, the question has come up as to whether or not they dep, that all eleven depict the area.

MR. HOLZER: Yes, I believe so.

CHAIR: Okay. That was that, that's what you're proffering, that's your representation?

MR. HOLZER: Yes, yes.

CHAIR: Okay.

MR. SCHMIDT: If, if they depict, quote, the area and I'm not sure what the area is, but if, if they depict --

CHAIR: We'll deal with that separately.

MR. SCHMIDT: -- if they depict the area, then, then I don't have an objection to them, as I said. The, obviously, --

CHAIR: I understand --

MR. SCHMIDT: -- the problem is, is it's a video from a dash cam. When I see a street name or I see a building or I see something that I can identify, then I know where it is. But some of them are just of a rural road. I don't know where that is. But assuming they're of this stretch of Harford Road or some reasonable parameters, I don't really have an objection.

CHAIR: But you would agree --

MR. SCHMIDT: I'm going to try to make this easy for

you.

CHAIR: I know. But you would agree though, that we would suffer the same problem. That is, if there was no indication as to what we're seeing, --

MR. SCHMIDT: Yeah, you're going to have a hard time knowing what they are.

CHAIR: -- it, it won't really much matter to the Board, because we can't figure out what it is unless it's identified to us by someone, which I'm assuming, since Mr. Clark is still on the stand, he still may be able to do.

MR. HOLZER: That's correct. He'll, he'll explain.

CHAIR: Okay. So, with that in mind, disc A-2 in its, I guess all eleven dash cam videos would then be admitted.

MR. HOLZER: Okay.

MR. SCHMIDT: Okay.

CHAIR: Okay. Okay. Next, oh, and we're going to need to identify that on Exhibit 32 but we'll, I think we're in the process now that we're rolling a little bit, so we'll wait to the end to identify those in Exhibit 32. Disc 4933, this is paragraph 3-B of Mr. Schmidt's objections. So DSC_4933. That would be on disc A-3, it's at the top of the A-3 second grouping.

MR. SCHMIDT: Right.

CHAIR: On Exhibit 33. Mr. Holzer, do you see that?

MR. HOLZER: Yes.

MR. SCHMIDT: And I don't object to that.

MR. HOLZER: Okay.

CHAIR: No objection, therefore, that's admitted.

MR. HOLZER: Thank you.

CHAIR: All right. Next, just the ones where there are no objections. Disc 6985, July 4th.

MR. HOLZER: Say that again, six --

CHAIR: Sorry, DSC_6985.

MR. HOLZER: Okay.

BOARD: Paragraph 3-E on Mr. Schmidt's --

MR. HOLZER: Yes, I see it.

CHAIR: Sorry, my, my, I color coded which there were objections and no objections, so if I'm moving too fast, just let me know.

MR. SCHMIDT: That's the fourth one down on, under A-3 on Exhibit 33.

CHAIR: Thank you. In the second grouping, right.

MR. SCHMIDT: That's the, apparently it looked like the 4th of July. I don't object to the date.

CHAIR: Yes.

MR. SCHMIDT: Said God Bless America.

CHAIR: I, I, appreciate your, your proffered stipulation and your objections.

MR. SCHMIDT: I wasn't trying to be a smart, wise guy, but I'm happy they --

CHAIR: Obviously we can't receive that as evidence but thank you very much for the, for the offer. All right. Mr. Holzer, you're on the same page?

MR. HOLZER: I got it.

MR. SCHMIDT: Okay. So, that's admitted too.

CHAIR: 6985 is admitted.

MR. SCHMIDT: Okay.

CHAIR: All right. Next. By my color coded copy here, disc A-4, which is paragraph four of Mr. Schmidt's objections, that's page four. Let me know when you're ready, Mr. Holzer.

MR. HOLZER: Um hm. Disc A-4.

CHAIR: Go to para, subparagraph I, which is on page five. Entitled front deck.

MR. HOLZER: Got it.

CHAIR: Okay.

MR. SCHMIDT: Okay and that's on thirty-three, that's from deck, September 10, 8:20 p.m.wave, right?

CHAIR: Now, that is an audio file that we have heard in Court. Does everyone recall that?

MR. SCHMIDT: No, I don't think you've heard that one. That, you, you saw the one that was a stationary camera shot of his front yard and had a lot of audio. This is no pho, this is no picture at all.

CHAIR: I understand that.

MR. SCHMIDT: Yeah.

CHAIR: I had in my notes from the day that we went over seven of these in Court, the audio one was the second one played. It was just audio.

MR. SCHMIDT: Okay.

MR. HOLZER: It was played.

MR. SCHMIDT: Maybe it was played, okay.

CHAIR: Right.

MR. SCHMIDT: All right. I, I missed that.

CHAIR: So, I, I want to make sure we're all on the same page. That was the one that has been played in Court.

MR. HOLZER: Yes.

CHAIR: It is admitted because there's no objection.

MR. HOLZER: Right.

MR. SCHMIDT: Okay. So, that's the from deck --

CHAIR: September 10 --

MR. SCHMIDT: -- one, two, three, fourth one from the bottom.

CHAIR: Right, on disc A-4.

MR. SCHMIDT: Okay. Got it. So, that's admitted.

CHAIR: Right. And that has, that's one that has actually been played in Court.

MR. SCHMIDT: Okay.

CHAIR: Dash cam video Gunpowder Park to circle. I seem to recall that that may, that was actually the first video

played.

MR. SCHMIDT: Yep.

CHAIR: It was identified as being on April 10th, 2018. Does everybody have the same recollection or same understanding?

MR. SCHMIDT: Yeah, and that's admitted too.

MR. HOLZER: And this, this is J?

CHAIR: Yes.

MR. HOLZER: This is J.

CHAIR: Sorry. Mr. Schmidt, there's no objection?

MR. SCHMIDT: No, sir.

CHAIR: So, therefore, that will be admitted. Subparagraph L, rural road walker. Though Mr. Schmidt indicates he's not sure what the point is, he still has no objection, so we'll go with the no objection part of this.

MR. SCHMIDT: Yeah, that one had the road sign for Hutschenreuter Road, so it's in the area, so I don't know what the point of it is, but I don't object to it.

CHAIR: That would be the bottom of the type written, in, on the type written index part of Exhibit 33.

MR. SCHMIDT: Right.

CHAIR: Mr. Holzer, your understanding of that --

MR. HOLZER: Yes, um hm.

CHAIR: -- that is admitted.

MR. HOLZER: Yeah.

CHAIR: Okay. Solitude, I do recall that.

MR. SCHMIDT: Saw them with the crickets.

CHAIR: I, I recall that from your, from your, I guess, you know, from your response here. Yes, that you wrote crickets. I do recall the video and, Mr. Holzer?

MR. HOLZER: Yes?

CHAIR: You recall which one that is?

MR. HOLZER: Yes.

CHAIR: That is admitted.

MR. HOLZER: Okay.

MR. SCHMIDT: All right.

CHAIR: That is the hand written one on Exhibit 33.

MR. SCHMIDT: All right.

MR. HOLZER: Yes.

CHAIR: Okay. So, that takes care of the numbered discs, we're now moving onto the white discs. Page five of Mr. Schmidt's objections.

MR. SCHMIDT: Right.

CHAIR: BIVIDS-1, 2, 3, 4 and 5. These are all videos on what appear to be stationary camera position across the street from the entrance. Now, I understood BIVIDS-1, 2, 3, 4, 5, if you look at Exhibit 32, there are numerous clips. It covers three pages of Exhibit 32. That's what you're referring to, Mr. Schmidt?

MR. SCHMIDT: Yes, yes, sir.

CHAIR: Okay. Mr. Holzer, is that your understand?

MR. HOLZER: Let me just, I'm just looking at thirty-two.

CHAIR: I will note that eleven, or no, excuse me, that's not the right one. Eleven fifteen oh one, the one we first reviewed in A-3 is also on BIVID-5, it's the top one listed on BIVID-5 on Exhibit 32, page three.

MR. HOLZER: Right.

CHAIR: You're following, Mr. Schmidt?

MR. SCHMIDT: Yes, sir, I am.

CHAIR: All right.

MR. HOLZER: They're okay?

CHAIR: Mr. Schmidt, you said no objection?

MR. SCHMIDT: Yes, sir, that's correct.

CHAIR: Okay. So, VID, BIVIDS-1, 2, 3, 4, 5 are admitted. Let me, let me back up. There's no objection to them. We'll talk about something else coming up. So, I'm going to hold on that, whether it's admitted, quite yet. White disc paragraph four, dash cam one, two videos, the first from the deck and the second a dash cam.

MR. SCHMIDT: Yes, and that's the first, yes, yes, sir. And that's, that's on page four of Exhibit 32, under dash cam one.

CHAIR: Got it.

MR. SCHMIDT: The top entry in the top left, right?

CHAIR: Yes. I see that, where that corresponds now.

MR. SCHMIDT: And that's admitted, right?

CHAIR: Ms. Dopkin? Mr. Holzer?

MR. SCHMIDT: It's, it's this, right?

CHAIR: Yes, that's what I have.

MR. SCHMIDT: Up, up in the top corner.

CHAIR: Are you there, Mr. Holzer?

MR. HOLZER: Yes.

CHAIR: Okay. So, those will be admitted.

MR. SCHMIDT: It's up in the top left hand corner, the first entry in the top of the column.

CHAIR: So, page four of Exhibit 32, which are the two videos, they're identifying the two videos at issue. There's no objection, those two are admitted. All right.

BOARD: Thank you.

CHAIR: Now, I wanted to go back to the BIVIDS-1, 2, 3, 4, 5.

MR. HOLZER: I'm, I'm sorry, we're going back to?

CHAIR: Exhibit 32.

MR. HOLZER: Wait a minute, thirty-two.

CHAIR: The first three pages.

MR. HOLZER: Okay.

CHAIR: Which corresponds to Mr. Schmidt's --

BOARD: Five.

CHAIR: -- page five, white disc, paragraph one, in

which he does not object.

MR. HOLZER: Yes.

CHAIR: I don't know, looking at it, how many videos we're talking about here, but it seems to me, I'm going to estimate roughly about sixty to seventy.

MR. SCHMIDT: They're all stationary camera?

DR. CLARK: Yes, yes.

CHAIR: I want to know what is the relevance of the entirety of it, number one. Number two, I want to know is there an issue of duplication for it before there's a ruling. Because if, there are, if there, if all we're watching is the fact that someone is coming to and from, that doesn't help the Board any by itself. If it's a matter of there are videos that show a high volume, which I understand you guys have argued about in this case.

MR. HOLZER: Right.

CHAIR: Or it shows some other type of condition or something you want to bring to the Board's attention, obviously, we would want to know that. But otherwise, if it's just a matter of hey, look, we set up the camera over the course of months and we, here's what this looks like at, you know, particular snippets from every day of the, of like a four month period, I don't know how that really helps the Board as much that as would directing us to the actual evidence to show that there's something at, that supports your case that you've

argued thus far, or something that is yet to come.

MR. HOLZER: Can I check with my client?

CHAIR: Yes, and we, I'll, I'll actually give you time to talk with him so that we can resolve that later. But that is my concern about that, is that there's an issue as to duplication and relevance to seventy of these videos and I'm not suggesting that, you know, that it may not be relevant without knowing more, I just want to know before we have to go, deep dive into seventy videos what does it do for the Board?

MR. HOLZER: I think he can answer it right now.

CHAIR: Okay.

MR. HOLZER: And, so you can keep --

DR. CLARK: Do you want me to answer it directly or should I answer it through counsel?

CHAIR: I, well, since you are a person who is on the stand, I would prefer it goes through counsel.

MR. SCHMIDT: And, and I, yeah, and I would agree, because I may have questions of him if he identifies something that he thinks is relevant.

CHAIR: I'm sure you're going to have those questions anyway. And I, but the, I mean, he's not here to testify.

MR. SCHMIDT: I understand. I'm just trying to get through this, that's all.

CHAIR: And so, right. And I understand you had no objection to those videos but --

MR. SCHMIDT: I mean, they were relevant to the extent that they show the front of the property. So, to the extent, I mean, when I say relevant, they're not relevant, they're --

CHAIR: I, no, I understand what, I understand what you mean.

MR. SCHMIDT: You know, it's not like --

CHAIR: It's like they're showing a Pizza Hut.

MR. SCHMIDT: Yes, like some --

CHAIR: Right, they're showing the property so, therefore, it's tied to this case but --

MR. SCHMIDT: Right.

CHAIR: -- as to the significance, I got --

MR. HOLZER: It, it, it goes to show the, on July 28, 29, the amount of traffic on the Sunday that was going on to the subject site, that's what --

CHAIR: So, each of these videos would represent the high volume that's --

MR. HOLZER: Yes.

CHAIR: -- that you've been arguing about or --

MR. HOLZER: Yes.

CHAIR: -- presenting testimony about as well.

MR. HOLZER: Exactly.

BOARD: And they were all taken on July 28th and 29th?

MR. HOLZER: Yes, that's what he says.

CHAIR: Okay. So, now, so, now we're past perhaps the relevance part in my concern. Now we're into the duplication part of the concern.

MR. HOLZER: Right.

CHAIR: Because to see seventy videos of cars coming and going when we all have agreed, thus far, it seems to me, at least both sides agree, there was an event which had a higher volume then normal.

MR. HOLZER: That's, that's correct.

CHAIR: Right.

MR. HOLZER: And what I would suggest is if they are permitted to be shown, we simply select certain portions to show the Board, that's all. I don't think we have to sit here for seventy, sitting here and watching for two days.

CHAIR: Well, if it's in evidence, I think that then we're going to have to review it. If it's not to be in evidence, obviously, we won't have to review it. If there are ones that you feel are representative, understanding, that there are more, Mr. Schmidt has seen them at least, then obviously that representation can be made during the course of testimony that there are other videos throughout the entire day that show the same pattern, or whatever the case may be, which is, this is what I'm picking up from everyone, what they're speaking about here. But perhaps that might be a better approach then putting all, all in.

MR. HOLZER: That's what I was trying to suggest.

CHAIR: Yes.

MR. HOLZER: Maybe inartfully, in terms of for, for the whole group of pictures, we could show, we could show samples of that and, and conclude or, if the Board wanted to watch them all, okay. But we're only for purposes --

CHAIR: It's not a matter of want, it's a matter of--

MR. HOLZER: Has to.

CHAIR: Well, but also now a matter of getting a third person to do the same thing.

MR. HOLZER: Right, right.

CHAIR: Not saying we're handicapped one way or the other, but it just, looking at seventy videos that seem to show the same thing over and over and over again creates a duplication concern that is not needed to have the entirety in evidence, unless the entirety shows something that is of significance to the Protestant's case that cannot otherwise be depicted in representative samples or in photographs that have already been introduced.

MR. HOLZER: I understand. You also have a witness on the stand that can articulate --

CHAIR: That's a different matter. Because his testimony is going to be able to amplify whatever it is you want to amplify.

MR. HOLZER: Right, right.

CHAIR: I'm just talking solely about these videos.

MR. HOLZER: So, I don't, I'm not sure I understand what you want me to say.

CHAIR: Pick out representative ones, would be my --

BOARD: Can you cull through them --

MR. HOLZER: That's what I was trying to say inartfully that that, I didn't think that you needed to sit for seventy videos as opposed to selected --

BOARD: But will you be able to present selective portions and identify them to coordinate with Exhibit 32?

CHAIR: Thank you.

MR. HOLZER: Yes.

BOARD: When we start taking evidence again?

MR. HOLZER: Yes.

BOARD: As representative and identify what other videos they are representative of, so that --

MR. HOLZER: That is exactly what I would want to do and certainly Mr. Schmidt can, if we're not showing ones that he thinks we should show, he certainly can ask that, so --

CHAIR: Well, he's going to have the ability to cross examine, obviously. He's already indicated he has no objection to the videos by themselves.

MR. HOLZER: Right.

CHAIR: That is, the substance, the content of the videos, does not present an issue for Mr. Schmidt. But again,

rather than, you know, keep going back to the same point of well, here's another car going in, we were trying to figure out a way to streamline that process.

MR. HOLZER: I think I can take care of that. If the Board will allow me to take those seventy or sixty, show illustrative examples and say that there are others that we don't necessarily need to repeat.

BOARD: And that would be helpful --

MR. SCHMIDT: Mr. Holzer, can you tell me which ones you're going to show?

BOARD: Excuse me.

MR. HOLZER: I, yeah, --

CHAIR: Wait, Mr. Schmidt, Ms. Dopkin is speaking.

MR. SCHMIDT: Oh, I'm sorry.

BOARD: It would be helpful where you show an illustrative example to identify which other clips it illustrates.

MR. HOLZER: Exactly, exactly.

BOARD: So that we can identify, that we can either include or exclude those --

MR. HOLZER: Well, you're admitting them all now, but the idea of the Board's --

CHAIR: Well, there's an issue as to the duplicative aspect of it.

BOARD: (inaudible).

MR. HOLZER: I understand.

CHAIR: Right, so that's why I'm reserving on the, on the, on it all being admitted, not saying I wouldn't --

BOARD: All we're saying is Mr. Schmidt does not object, however, we want to make sure that what we are admitting is it --

MR. HOLZER: Members of the Board, that's exactly what a witness does when he goes through --

CHAIR: Mr. Holzer, we're, we're aware of that. We're all just trying to come to the same place and we're all close to that but we want to make sure what we're spelling out. We don't want you, we don't want to hamstring your case, so if you feel that there is some of these videos that have a separate value other than it's the same representation of here's another car going in, then by all means, leave that in.

MR. HOLZER: Okay.

CHAIR: If there are, if it's to be, for the sake of argument, four, there are forty-five videos of cars entering in or exiting, we don't need to see all forty-five, we can, we understand already and it's already been testified to, certainly by the other side as well, that there was an event with a larger number of people on these dates, so to show that cars going in and out, we, we already know that that happens.

MR. HOLZER: I understand.

CHAIR: That's where I'm going to leave it.

MR. HOLZER: And, and, thank you, because what I will do when the witness is testifying to that document or those, those discs, I will have him articulate what he's showing and why, and there are others that could be cross examined --

CHAIR: And that he's, that he had a stationary camera up throughout the day and --

MR. HOLZER: Yeah, right.

BOARD: And if by chance they're hugging cats in there that shouldn't be, then we can eliminate that.

MR. HOLZER: I understand.

BOARD: Thank you.

MR. HOLZER: I understand.

CHAIR: Which was one of the objections you raised.

MR. HOLZER: We will, we will --

MR. SCHMIDT: The hugging cats, I didn't see the relevance in that, yes, sir.

MR. HOLZER: We will call --

CHAIR: We're still waiting to find out.

MR. HOLZER: We will cull through that --

BOARD: Okay.

MR. SCHMIDT: I (inaudible) interested in that one myself.

MR. HOLZER: -- to accommodate the Board.

CHAIR: Well, it's not just to accommodate the Board, it's to accommodate the record too.

MR. HOLZER: Right.

CHAIR: Because that's, that's my primary concern is if the record is clear, that the matters that you want to point out are, were drawn, our attention is drawn to those, those matters.

MR. HOLZER: Right, right.

CHAIR: Not as in --

MR. HOLZER: I can do that.

CHAIR: -- hey, you know, here's yet another car and now we're --

MR. HOLZER: No, I, I think that the, what the Board is asking is something that I would acknowledge as being appropriate, that is, what we're showing is relevant to our, the, the oral testimony of the witness period.

CHAIR: Right. And I do understand Mr. Clark will be providing additional testimony with respect to these videos anyway.

MR. HOLZER: Right, right.

CHAIR: And again, the testimony is a different matter then the videos themselves at the moment.

MR. HOLZER: Yes. As I understand what you're saying, the, right now, you are acknowledging that they can be shown but they're not admitted until you have the opportunity to rule on whether it was relevant or not relevant.

BOARD: Or duplicative.

MR. HOLZER: Or duplicative, yeah, I understand.

CHAIR: Well, I sus, I suspect that they're, they're going to be relevant based on the fact that Mr. Schmidt has not objected on that basis. I assume that they'll be relevant because you've already decided that these are appropriate for this case, although, and if they all depict the site and the activity as proffered, that may, that hurdle may not come up.

MR. HOLZER: Right, gotcha.

CHAIR: It's, to me, it's more of a matter of this seems like we don't need seventy videos to show the same thing. If it's, all seventy shows, and again, seventy is not the actual number, it's just a number I'm picking.

MR. HOLZER: I understand. I understand.

CHAIR: So, that will be reserved upon in terms of its admissibility.

MR. HOLZER: Yes.

CHAIR: You may play them with the representative samples for, with Mr. Clark the next time. I'm assuming he'll authenticate how they came to be and then everything will be fine.

MR. HOLZER: Correct.

CHAIR: Great and in, and one more caveat to everything, on BIVID-5, it lists the matter of suffix 11501, which has already been admitted. Mr. Schmidt, you're on the same page there?

MR. SCHMIDT: Yes, sir.

CHAIR: Thank you.

MR. HOLZER: Got it.

CHAIR: Okay. Sorry that had to be somewhat more complicated then it, then it would first initially appear, but I wanted to make sure that the record is clear in this case and that we are able to do this in an expeditious fashion as best as possible. So, now, we're going to move to the videos that had been played in Court because I'm assuming what remains, and Mr. Schmidt, correct me if I'm wrong, what would remain are matters to which you have an objection.

MR. SCHMIDT: I believe that's correct, yes, sir.

CHAIR: Very well. So, now we'll move on to the ones that have been played in Court, so if we were to go do that, we will mark, bear with me, update my chart here, okay. If we go to Exhibit 33. I have on my list, my Exhibit 33 from the day we were playing all these initially, sorry. Identify which of the seven on Exhibit 33 have already been played. Out of those, five of which have already been admitted into this case. So, let's identify those for the record. Top to bottom, it should be six. We have both 111501's at the, numbers two and three on the typed part, disc A-3, can we agree on that?

MR. HOLZER: Um hm, yes.

CHAIR: Mr. Schmidt, are you looking at the very top?

MR. SCHMIDT: Yeah, the, the, the two, --

CHAIR: Yes, 111501's.

MR. SCHMIDT: Yes, sir, those are admitted.

CHAIR: And they have been played in Court already?

MR. SCHMIDT: Yes, sir, I believe they have.

CHAIR: At least, at least one of them has for sure. But they are both admitted anyway. Circle to Mount Vista Court, I have that down as the second video played but the third media file played, because there was an audio one in between. That's been admitted already, circle to Mount Vista Court.

MR. HOLZER: Yes.

CHAIR: Okay. Moving down the list, go to the bottom or A-4.

MR. SCHMIDT: Solitude.

CHAIR: Well, not that far yet.

MR. SCHMIDT: Okay.

CHAIR: From deck September 10.

MR. SCHMIDT: Yes, sir.

CHAIR: That has been admitted.

MR. HOLZER: Yes.

CHAIR: Gunpowder Park to circle, that has been admitted.

MR. SCHMIDT: Yes, sir.

MR. HOLZER: Yes.

CHAIR: Solitude has been admitted.

MR. SCHMIDT: Yes, sir.

MR. HOLZER: Yes.

CHAIR: All right. So, what does that leave us with? That leaves us with gate open --

MR. HOLZER: What about the rural, what about --

BOARD: Rural road (inaudible).

MR. HOLZER: What about the rural road walker?

BOARD: That was also (inaudible).

MR. SCHMIDT: Yes.

CHAIR: That was admitted but that was not played yet for Court.

BOARD: Yes.

MR. HOLZER: Gotcha.

CHAIR: I'm only talking about the ones that have actually been displayed during the course of testimony already.

MR. HOLZER: Okay, gotcha.

CHAIR: That is admitted though, to answer your question.

MR. HOLZER: Yes.

MR. SCHMIDT: Yes.

CHAIR: So, we have 7016, disc A-3, gate open, 7040 amplification, --

MR. SCHMIDT: Okay. You're saying those, 7016, gate open, which is under A-3, has been played in --

CHAIR: Has been played in Court.

MR. SCHMIDT: -- played in hearing and admitted?
CHAIR: No.
MR. SCHMIDT: Oh, okay.
CHAIR: It has been played in Court.
MR. SCHMIDT: Okay.
CHAIR: Amplification has been played in Court, that's the YouTube video.
MR. SCHMIDT: Amp, amp, --
CHAIR: That's in one directly under gate open.
MR. SCHMIDT: Oh, okay, okay.
CHAIR: That's on disc A-4.
MR. SCHMIDT: Yes, sir.
CHAIR: Mr. Holzer, are you with me yet?
MR. HOLZER: No, I lost --
CHAIR: Okay. So, we go to the middle of, of Exhibit 33.
MR. HOLZER: Right.
CHAIR: Go to the last A-3 entry on the second grouping, that's the gate open, right?
MR. HOLZER: Yes.
CHAIR: Immediately under that is amplification?
MR. HOLZER: Yes.
CHAIR: Those are the two that have been played in Court.
MR. HOLZER: Yes.

CHAIR: There has been no ruling upon whether or not they're admitted.

MR. HOLZER: Right.

CHAIR: Okay. Mr. Schmidt, do you have specific objections to 7016 or 7040?

MR. SCHMIDT: Look at my letter.

CHAIR: 7016, I will say you have on page four at paragraph 3-L. And then you have paragraph four, subparagraph A, disc 7040 and you object to relevance?

MR. SCHMIDT: Yes.

CHAIR: Okay.

MR. SCHMIDT: Yes.

CHAIR: Number one, there are, there is an issue that you raised as to the language of the video, that is, they're in Nepalese. And you had an objection as to a certified transcript, if we were to include that as evidence in this case, that is the words being spoken or sung or whatever the case may be?

MR. SCHMIDT: Yeah, I have, I have no idea what anyone is saying.

CHAIR: No, and that's understood.

MR. SCHMIDT: So, to the extent that at the end of the case, Mr. Holzer is going to submit a memo and provide a trans, --

CHAIR: Right.

MR. SCHMIDT: -- a translation and those people are all saying to the members of the Board of Appeals, please turn this down, I would object. I don't know what they're, I say that tongue in cheek. But I, I don't have any --

CHAIR: No, understood.

MR. SCHMIDT: -- idea what they're saying.

CHAIR: So, Mr. Holzer?

MR. HOLZER: Yeah.

CHAIR: Do you intend that the words or whatever spoken, whatever is being spoken on these videos, are you intending to have that into evidence by itself?

MR. HOLZER: No.

CHAIR: It is merely the depiction of the event in these videos that you are intending to have in evidence?

MR. HOLZER: You can, from this video, you can hear amplified sound and music outside of the tent.

CHAIR: It is the volume to you and the amplification by mechanical means --

MR. HOLZER: Extension cords, door open, video shows inside --

CHAIR: Well, hold on, hold on. The question is far more basic. You don't intend the words to be --

MR. HOLZER: No, no.

CHAIR: -- the evidence.

MR. HOLZER: No.

CHAIR: You intend what's being visually depicted and, by audio, not the words, but the sound --

MR. HOLZER: Right, exactly, the sound, that's exactly right.

CHAIR: Does that resolve your objection?

MR. SCHMIDT: If, if, if he's not going to put the sound, if he's not going to put the sound in.

CHAIR: No, it's not the sound, it's the words themselves.

MR. SCHMIDT: Okay. If he's not going to put the --

CHAIR: The meaning of the words.

MR. SCHMIDT: -- if he, if he's not going to put the spoken, the words in, then that resolves that objection.

MR. HOLZER: Yeah.

CHAIR: You're not going to argue from the words that somehow they have relevance to this case?

MR. HOLZER: No. I don't speak Nepalese.

CHAIR: Right, and nor do you intend to find someone who does to, to provide a translation to this Court?

MR. HOLZER: No, no, I do not.

CHAIR: Is that satisfactory?

MR. SCHMIDT: As to the words, yes.

CHAIR: Okay. What is the next objection to those videos then?

MR. SCHMIDT: Well, I mean, to make this really,

really simple, I, I would say this. We have agreed and acknowledged, as you said this morning, Mr. Garber, that there was a fundraising event out there in the summer of 2017 and the summer of 2018. We acknowledge that. I don't believe that has any relevance to whether this property can be used as a church, as a building for religious worship. It, it was a one time or two time, one time a summer fundraising event. So, I would object to any of the videos as they relate to, to that. I think there's an authenticity issue because most of these, if not all of these, are, I mean, I understand hearsay and I understand that this is an administrative proceeding. But they are, they are videos of a computer screen on a posting on Facebook. So, they're at least double, if not triple, or quadruple hearsay.

CHAIR: Well, hearsay is no longer a problem since the words are not, since at least the words are not being offered.

MR. SCHMIDT: Okay. Well, then I would, I would, then I would argue as to authenticity. Do we even know, do I know what we're seeing? I mean, I, I want to be candid with the Board. Some of these I can see what appears to be the building in the background, others I can't, they're inside a tent. I don't know where that's taken.

CHAIR: And without trying to put too much pressure on you on this point, are you disputing the fact that these

events depicted in those two videos, took place at a particular site during the times identified by Mr. Clark, Mr. Holzer --

MR. SCHMIDT: We do not dispute that there were fundraisers out there in the summer of July of '17 and the summer --

CHAIR: That's not my question. My question is, do you dispute that those videos are not of what they say is depicted of the fundraiser itself?

MR. SCHMIDT: I, I don't know whether they are or not.

CHAIR: Okay. Or --

MR. SCHMIDT: They haven't been authenticated. I do not know.

CHAIR: Okay. Are you disputing whether or not that the videos show the property at issue?

MR. SCHMIDT: Some of the videos clearly show the property at issue.

CHAIR: The, the two at issue I'm talking about right now, 7016 and 7040.

MR. SCHMIDT: I, --

CHAIR: To the extent you can recall and if I'm putting, if it's too much, that is, you don't recall them specifically, it's fine.

MR. SCHMIDT: I don't recall them specifically.

CHAIR: Okay.

MR. SCHMIDT: There, there are some, Mr. Garber, I know you haven't seen these, there are some --

CHAIR: No, I've seen those two, that's why I'm, if it's easier to deal with those two.

MR. SCHMIDT: Okay and I can't remember those two, quite honestly, but --

CHAIR: Okay.

MR. SCHMIDT: -- I mean, quite, there's a lot of, there's a lot of duplication in a lot of these videos.

CHAIR: Yes, that's why we're --

MR. SCHMIDT: A ton of it.

CHAIR: -- trying to work through all this.

MR. SCHMIDT: Right, and, and what it's showing, what they are, what most of them are, and I don't know that Mr. Clark would dispute, it's Facebook, it appears to me to be --

CHAIR: One is a YouTube video.

MR. SCHMIDT: -- Facebook posting or YouTube posting, some type of post, posting on a computer that somebody took a video of. In some of those, you can see the building, which is the subject on the property. So, when you can see the building, I can see that yes, that's the building. That appears to be the building. It's yellowish stone, large structural building, I recognize the building, I've been out to the property. To the extent that they show the property and they have some value there, my primary, my primary objection is

two, now that we're beyond the language. First of all, so what, they had a fundraiser out there. This case isn't about a fundraiser, it's, they're not proposing a community building. They're proposing a church. They haven't operated the property as a church yet. They haven't had religious worship services out there. How they use the property is irrelevant. If it's a, if there's a problem with that, it's a code enforcement matter. If Mr. Clark or his friends and the people out there believe there's a problem, it doesn't have any relevance. The other, the other --

CHAIR: If I could jump in, if I, if I may jump in on that point? I already can anticipate at least one argument from the other side because they have said it thus far. And that is, if you think about the amplification part of it, that is, the noise to reach the Clarks' for example, that is, as I understood, one of the reasons why that video is selected to show that hey, look, look how loud this is. This is what we hear in our house, maybe not to the same degree because they're a bit removed but --

MR. SCHMIDT: I was going to get to that.

CHAIR: Hold on. That they show that. And it was a condition, I seem to recall, that the ALJ had ordered to which they are going to argue that if this matter were to move forward in your favor, that condition should remain in place or some condition to protect their, the, the excessive noises, you

know, the Clarks have argued.

MR. SCHMIDT: And I'm happy to talk about the imposition of such a condition. I'm happy to talk about that, whether that's appropriate or not. But the other, the problem with that, is, is this, Mr. Garber. You can, you can adjust the volume of how you play the video to however loud you want to make it sound but not only, not only that --

CHAIR: Mr. Schmidt, that's cross examination, isn't it?

MR. SCHMIDT: Pardon me?

CHAIR: Wouldn't that be a cross examination matter?

MR. SCHMIDT: No.

CHAIR: As to, as, as --

MR. SCHMIDT: No, because it's, it, --

CHAIR: Hold on. Let me just finish this thought. As I recall, maybe, maybe this will help refresh your recollection, one of these videos shows a series of microphones with musical instruments and stuff like that. So, it's not just the matter of the sound itself. Is the sound representative of what you would have heard on that day within that room --

MR. SCHMIDT: No.

CHAIR: I don't know that part of the question.

MR. SCHMIDT: No, well, it can't be. It can't be.

CHAIR: Hold on. Hold on, Mr. Schmidt, let me

finish. But if they're using this equipment, what would that mean to the Clarks, who are neighbors? That is, does it amplify the noise so that it disrupts their well-being? That's the question that they are raising.

MR. SCHMIDT: Then you --

CHAIR: And I, and I have had this very issue come up in a case that I have tried, whereas it's not representative as to the conditions that occur at that time. That is, are you going to, you're arguing that it's an unfair representation perhaps --

MR. SCHMIDT: Yes.

CHAIR: -- as to the volume --

MR. SCHMIDT: Yes.

CHAIR: -- that you would have heard because it could be adjusted several different ways when you're talking about, number one, on site, number two, on video, number three, on YouTube, and then number four, on your, when you capture that video on, on another video.

MR. SCHMIDT: Precisely, precisely. During all four of those stages, when, when it was recorded, when it was then put on YouTube, when it was then recorded by them, when it was then put on this disc that you have, the video could have been changed, altered, made louder, made softer or whatever. We don't know. And to me, it goes to the admissibility of the document as to whether, or the admissibility of the exhibit as

to whether it is prejudicial and un, and inherently unreliable because it's gone through so many levels of filtering and recording.

CHAIR: I'll let you respond.

MR. SCHMIDT: That how in the world can you possibly tell how loud things were when it's been recorded and re-recorded at least three times?

CHAIR: Mr. Holzer, do you wish to respond?

MR. HOLZER: Thank you. On disc 7016, the video of the fundraiser, --

CHAIR: 7060?

MR. HOLZER: 16.

CHAIR: 16.

MR. HOLZER: 7016.

CHAIR: Okay, sorry.

MR. HOLZER: That you're talking about.

CHAIR: Yes.

MR. HOLZER: Okay. Shows extension cords, it shows the door opened, people coming and, a woman coming in and out. It shows people --

CHAIR: I remember the video.

MR. HOLZER: -- in the kitchen, it, it shows people. Here's the relevance. The door to mansion is open. Ghimire's, Ghimire's --

MR. SCHMIDT: So what?

CHAIR: Hold on. Mr. Schmidt.

MR. SCHMIDT: I'm sorry.

CHAIR: Let Mr. Holzer finish.

MR. HOLZER: Ghimire said that the property gate was open, not the door. So, that's a misrepresentation.

CHAIR: Well, we're not going to get into whether it's a misrepresentation, whatever the case may be.

MR. HOLZER: Okay.

CHAIR: I understand what your argument is as to its relevance, it's for impeachment purposes as to show how it was being used.

MR. HOLZER: Yes.

CHAIR: Whether or not it has anything to do with the code enforcement matter is not really relevant to this case.

MR. HOLZER: And in 7040, 7040, is again a man, a stage with a man speaking and many musicians, six microphones on the stage, drums, etcetera. Everything in this video contradicts Ghimire's testimony. He said one mic for the presenter, no drums, tent closed, not hear amplified sound and music outside the tent. So, that's the relevance to show Mr. Ghimire's testimony should not be believed by this Board.

CHAIR: I, I don't think relevance is as much the question as to whether or not it depicts what it is proffered to depict and that means the audio. That's where Mr. Schmidt is arguing right now.

MR. HOLZER: Yes, yes.

CHAIR: He's not, from what I hear, and correct me if I'm wrong, disputing that these events occurred. It's the matter of the representation to this Court as to how they occurred, or the effect of the events, correct?

MR. SCHMIDT: Yes, sir.

MR. HOLZER: The answer to that is real simple --

CHAIR: So, the relevance is already --

MR. HOLZER: -- even if you didn't have the sound on this video, even if you didn't have the sound on it, it still shows things that, six microphones. You don't have to have the sound to see six microphones.

CHAIR: Okay. Can I stop you there? Can I stop you there?

MR. HOLZER: Yeah.

CHAIR: So, would you agree then to take this, to remove the sound from those videos?

MR. HOLZER: I don't think --

CHAIR: Because that would resolve his objection, but it would also get in the matters that you want, that is, there are multiple microphones. Look at all the electrical equipment and all the other things that you feel are relevant to your case.

MR. HOLZER: No, I, I still think, I still think the sound is relevant to this issue. However, if the Board

precluded the, the sound, there are still relevant points that this video shows.

CHAIR: I'm not, we're past that, I think --

MR. HOLZER: And, and I know you're not arguing that.

CHAIR: -- we're past the, I think the relevance point of it.

MR. HOLZER: Exactly.

CHAIR: It's more the authentication and whether or not the sound depicts, is a fair depiction or a fair representation of how it occurred or it sounded on the day of and at the time of. That's the objection and it's not an unfair objection, I'm just trying to figure out where this falls in the, terms of the, its necessity for your case. It's understood that if there are multiple microphones there, that there is amplification, which as I understand, the point that you want to make.

MR. HOLZER: One of the points in regard to that. The fact that Ghimire said the door to the gate was what was open when it was --

CHAIR: Again, we're only talking sound at the moment.

MR. HOLZER: Okay.

BOARD: So, the question is, do you object to removing the audio portion of the clip?

MR. HOLZER: I would prefer that it not be removed.

I, I would prefer that it not be removed. But it's only part of why it is relevant, why it is relevant, they are relevant.

CHAIR: Okay. Hearing all this through, I think my decision will be as follows. The videos are, well, I will say this. The sound will be excluded. As to the video itself, Mr. Clark is obviously going to have to lay the foundation as to what, I think it's maybe already in the record, but just to reiterate how he came to capture it, where he came to find it, because then the issues as to where it came from and all this other stuff, I understand it's several layers of its capture, its posting and then recapture by Mr. Clark, that would go to the weight of the matter, so pending, you know, further foundation to the extent necessary on your behalf, the video will come in but the audio will not.

MR. HOLZER: Okay and I can object to that if I need to, if I want to later on.

CHAIR: There, well, I think it, I understand you will object to, to that or you will take issue with that ruling.

MR. HOLZER: Correct.

CHAIR: That's fine.

MR. SCHMIDT: Do I, do I understand, Mr. Garber, because we didn't get to, I think, my fundamental objection, which I have indicated in both my letter and today, that I don't see how evidence of what occurred at these fundraising

events, which we acknowledge occurred, I'm not disputing that, that there were events at the property. Mr. Ghimire testified as such. As I understand your ruling, you believe evidence about those events is proper, appropriate and relevant evidence to the issues to be determined by the Board in this case?

CHAIR: Yes.

MR. HOLZER: Yes.

MR. SCHMIDT: Okay. As long, long as that's on the record.

CHAIR: Now, yes, that's fine.

MR. SCHMIDT: Thank you.

CHAIR: As to whether or not there needs to be multiple videos of the events, I assume that there are, there's large duplication here?

MR. SCHMIDT: Incredible duplication.

CHAIR: Right. Once again, I would request that you narrow that down to what you believe is relevant to this Board in light of the positions and arguments you have in this case.

MR. HOLZER: Sure.

CHAIR: So, I don't believe we need to see the same event depicted seventeen different ways or if you have multiple days, as different events or different days of events, I can understand that you would want to perhaps identify those but I also don't need to have, you know, multiple videos from those days unless they show something --

MR. HOLZER: Something different.

CHAIR: Something different and something that you believe --

MR. HOLZER: Of course.

CHAIR: -- is relevant to your defense.

MR. HOLZER: I understand that.

CHAIR: Or this case.

MR. HOLZER: I haven't been practicing law for sixty years to not understand --

CHAIR: This is not a lecture as to that, Mr. Holzer. It's a matter of the unnecessary duplication and trying to narrow down what is needed for the, for these cases.

MR. HOLZER: I understand. I understand.

MR. SCHMIDT: So, you're allowing all the videos depict --

CHAIR: Hold on. We've only ruled on 7016 and 7040. The others, the others have not been played yet for the Court. I'm solely confining this at the moment to those to which, that have been played. I, it, what I've said about other videos, if they intend to rely on them for anything else, we'll have to go through maybe something similar on those, and we can reserve as to that. But I want there to be a culling down of, an elimination of unnecessary duplication of the same event, or the same issues or the same points to be made by Protestants.

MR. SCHMIDT: Okay.

MR. HOLZER: Yeah.

MR. SCHMIDT: Can I, can I just ask a question to kind of --

CHAIR: Go ahead.

MR. SCHMIDT: -- make sure I understand what your ruling is? And I'm just trying to get through this.

CHAIR: It's fine, it's fine.

MR. SCHMIDT: My understanding is that as to the videos that relate to the fundraisers on the property, and I know you've only seen one, and I assume you're going to be consistent in your rulings, that what --

CHAIR: I would hope.

MR. SCHMIDT: -- the Board's position is and what your position is, Mr. Garber, is that you find the video itself to be relevant, you're not going to allow the sound accompanying the videos and you also want, I guess, Mr. Holzer to avoid any unnecessary duplication. But in terms of, in a nutshell, you're going to allow the videos of the fundraisers without the sound and not a lot of duplication. I mean, that's kind of a summary of it all.

BOARD: (inaudible) authentication.

MR. SCHMIDT: Subject to authentication.

BOARD: Correct.

MR. HOLZER: Yeah.

CHAIR: Right.

MR. SCHMIDT: Okay. Then I, I mean, we can get through this because --

CHAIR: And the matter is that --

MR. SCHMIDT: -- that covers a lot of that.

CHAIR: And there are matters, of course, that you will have for obvious cross examination.

MR. SCHMIDT: Sure.

CHAIR: And, yeah, I think that that's the best way to go about handling this. Now, it is not a universal ruling in terms of application throughout all videos because if there is a particular matter that they believe to have relevance that's different then what's depicted in 7040 or 7016, obviously, we may have to revisit some of this discussion so by, for sake of argument, if there are, something is depicted in a video that has not otherwise been viewed, they obviously would like to try to get that in and you may have your opportunity at that time to renew your objections on the same basis for that video in that, in that context.

MR. SCHMIDT: Okay.

MR. HOLZER: Understood.

CHAIR: Okay. Next? That takes care of the, the videos we've seen in Court. Now, when I say videos, I'm not just trying to limit it to videos, any audio as well. So, now, where does that leave us? We have, by my count, one, two, three, four, five, six, seven, eight, nine, ten, eleven,

twelve, thirteen, fourteen, fifteen, sixteen, seventeen, eighteen, nineteen more videos on Exhibit 33 that have not been discussed. So, going back to Mr. Schmidt's response. So, we've already disposed of 1-A, we're now looking at 1-B, 5005, (inaudible) video, Facebook post, one of the fundraisers at the property, date is unknown and that is another important point, sorry, Mr. Schmidt. Mr. Holzer, we'll need to know the dates of the events depicted in the videos, otherwise, if they are not of a relevant time frame, that would become a problem for this Court in terms of its admissibility. So, we need that identified.

MR. HOLZER: Now?

CHAIR: No.

MR. HOLZER: Or at, by the witness before its, before he shows you?

CHAIR: Yes, I'm giving you the --

MR. HOLZER: Yes.

CHAIR: -- opportunity to lay a foundation.

MR. HOLZER: Right.

CHAIR: As necessary. But Mr. Schmidt is correct on that, that you need to at least provide some type of relevant time frame for the videos you intend to put into evidence.

MR. HOLZER: Right, understand. Okay.

CHAIR: So, that's one. We already resolved the language issue. And then Mr. Schmidt raises the issue of

relevance.

MR. SCHMIDT: Which you resolved, right? Where, which, which one are you on right now, Mr. --

CHAIR: 1-B.

MR. SCHMIDT: Yeah.

MR. HOLZER: Wait a minute.

BOARD: (inaudible).

MR. SCHMIDT: Mr. Garber, I, I mean, I think we can make this a lot simpler and that is, --

CHAIR: I want the, I just want the record to be clear, that's my primary motivation.

MR. SCHMIDT: I understand. But what, the way I tried to break it down is, is there are videos of, of what I'm going to call traffic. There are videos from a dash cam and there are videos from the entrance. You've ruled on how those are admittable and what they're not. Okay, that's one part of it. There are videos related to the fundraisers. You've ruled that you believe that admissible without the sound as long as it's going to be authenticated, as long as they show the date, etcetera. Okay, we've got past that, okay? The third issue, it seems to me, is that they're, there are videos not from the site and that's what we ought to be talking about next. And there, there are videos of what appears to be a concert, not at the site. There are videos of priests speaking, not at the site, and I think, can't we take that as a group and just say

are you going to admit them?

BOARD: Are you saying that disc 2005 and disc 5005 and disc 5006 should be treated --

CHAIR: The same as 4992?

MR. SCHMIDT: Yeah, I mean, it's, it's all the same thing.

BOARD: So, it --

MR. SCHMIDT: Except for the cats hugging.

CHAIR: Well, hold on. We, actually we don't know if it's all the same thing, still.

BOARD: Because we haven't seen them.

MR. SCHMIDT: I understand, but can't you just give us --

CHAIR: Hold on, Mr. Schmidt, just be patient a second.

MR. SCHMIDT: We're going to be hear seventy hours going through all this stuff.

CHAIR: I understand. Look, I understand what your objection is as to date, okay? That is still an open question. So, there's still certain foundational elements on some of these videos that can't be resolved here today.

MR. SCHMIDT: Right.

CHAIR: That Mr. Holzer may try to address the next time we're here. So, therefore, there cannot be definitive rulings on some of these matters sitting here today. I'm going

by your list to address your individual objections, as I think you would agree, I should do for purposes of the record since they are your objections rather than leave one of your objections open, rather than dismiss with one hand a whole group of them that are not identified so that, for the sake of argument, that if someone were to have some interest in this case down the line, they would be able to understand what is happening, what is in, what is out and where things stand. And also, for the next time that we're here, where does that leave us with things. That is the purpose of this exercise.

MR. SCHMIDT: And I, and I appreciate that, Mr. Garber, but I mean, that's why I kind of asked, and I think Ms. Dopkin said, and I wrote it down, subject to authentication, which authentication means to me that, that it can be explained, it can be dated, all those, I use the term authentication, without sound. The videos of the fundraiser are admitted without duplication.

CHAIR: I have made a ruling on 7016, 7040. I think it's reasonable to have an expectation that there will be consistency throughout. There may be another purpose, so there is not a definitive ruling on the others if there is another purpose to which they want to use --

MR. SCHMIDT: Okay.

CHAIR: -- that video. And then we will have to resolve that in the time frame that it arises. So if we get

here the next time and they play a video and it has audio to which you object, but they think has a separate relevance then what's already been addressed, then we'll have to address it then. So, I cannot make a definitive ruling on one hand and wave and say all these videos have the same treatment.

MR. SCHMIDT: But you can't make a ruling on any of these until you've seen them or until they're going to be played.

CHAIR: I'm seeing what can be resolved here today so we can narrow what's going to be played.

MR. SCHMIDT: Okay.

BOARD: Or if Mr. Holzer and his client determine they're duplicative and identify other videos as representative of what's on them. Which is, I hope, a possibility for some of them.

CHAIR: That is definitely an objective.

MR. HOLZER: It is a possibility and it does make sense, Ms. Dopkins, because I am going to make sure when we present the testimony of the witness and he starts showing documentation, I don't want to sit here and watch things three and four times either, I want to make sure that what we're, our point is made by the video. So, yes, I will do that. And, and for example, on disc, on 4992, which was one of the first that we took up, if you, if you note there, the relevant video, the first one, should stop at 8.29.

CHAIR: On which, which one? 4992?

MR. HOLZER: The one with the cats, the one with the cats and the priest. That should be --

CHAIR: I understood the cats one was 5006, is that not correct? Or the priest was 4992.

MR. HOLZER: 4992.

CHAIR: And then the final portion of the video is a little girl talking to her parents and then that should be out too, I agree with that.

MR. HOLZER: That's all out. After 8.29, so it's eight minutes and twenty-nine seconds. The rest of that, the video camera wasn't stopped but it should have been.

CHAIR: Okay.

MR. SCHMIDT: So, it's totally irrelevant.

CHAIR: Okay. Well, hold on. We'll work through that. 5006 is the one with the cat, hugging the cat. I know Mr. Schmidt was dying for an explanation on that. I'm assuming it may have been included in error, but I don't know that for a fact.

MR. HOLZER: Was it in error? Stipulated, we'll stipulate it was in error.

CHAIR: So, that will be excluded and that, that's objected to and sustained.

MR. SCHMIDT: Damn, I was hoping you were going to admit that.

CHAIR: It was the linchpin of their closing. I'm guessing. All right. So, that will be removed. And again, there's not a definitive ruling as to these videos, I'm awaiting further foundation work and/or culling of your video list.

MR. HOLZER: Yes. I'll be glad to.

CHAIR: And it would be ideal by the way, for any videos to be played, that is, if you want, that you want to be admissible, to identify the reasons why it would be admissible, to be ready with that the next time, hold on. So, like for example, if you want to play 5005 and 5006 and they are the same basic things, you would need to explain why those two things need to be played. As opposed to just one of the two.

MR. HOLZER: I got it ready to go.

CHAIR: All right. Next? We already covered 5006. I'm sorry, Mr. Schmidt, we're going on two, three, 3-D now, 6978. Another video of fundraiser on property, women dressed in, okay. So, same thing as the above then. We all on the same page?

MR. HOLZER: Yes.

CHAIR: All right. 6985 we've already addressed. 6986, Facebook posts from fundraisers, everyone speaking, okay. Same objections as above. So, same thing would apply to 6986.

MR. HOLZER: Yeah, I'll go through all of them with you.

CHAIR: 6888, same, okay. 6989, same.

MR. HOLZER: Yes.

CHAIR: 6990, (inaudible) six individuals sitting at a table, property, moderated by Mr. Ghimire, that included that deputy, deputy secretary of state who was there on behalf of Governor Hogan. I will say Mr. Schmidt's description of that did peak my interest as to its relevance. So, --

MR. HOLZER: Use, the use of the property as a community center is what the, what the Protestants want to argue. The door to the mansion is open and it contradicts the Ghimire testimony about the door and the gate again. So, it's, it's, it's just, it, it, it's relevant in one respect, it's duplicative in another and I can make sure that we don't do that at the next hearing.

CHAIR: I will say that on 6990, my leaning at the moment is at, it's, I should sustain the objection because the fact that there would be six people in addition to Mr. Ghimire would not indicate to me that it's being used as a community center, it would just, to me that just sounds like a meeting in a, in a building, but --

MR. SCHMIDT: It's, it's not in the building, it's outside.

CHAIR: Outside the, what, I mean, whatever the case may be. My point is, it's not a necessary use as a community center at that point.

MR. HOLZER: I'll show the relevance at the time we go to enter this.

CHAIR: I've explained to you where --

MR. HOLZER: Yeah.

CHAIR: -- what my thought is on this.

MR. HOLZER: And I understand.

CHAIR: When, so when you are deciding what videos you want in, you understand where, --

MR. HOLZER: Yes, --

CHAIR: -- what, what my present thought is.

MR. HOLZER: -- I understand. At first blush, I would be concerned also but there's a reason for it, so. I'll explain that.

CHAIR: Okay. 6994. Same as, same issues as we discussed above.

MR. HOLZER: Yep.

CHAIR: 7010, footage appears to be a concert of some type, date and location not shown. It is not the property, it appears, so Mr. Holzer, you have said that is a Nepal (inaudible) concert in Baltimore on January 20th --

MR. HOLZER: That's handled, that's handled by the Motion I filed.

CHAIR: I was about to say and I wrote that down, that this is, seems to be the subject of your Motion.

MR. HOLZER: Yes, correct.

CHAIR: To which, Mr. Schmidt, you're going to have the chance to respond to that, recognizing that we've already given a ruling as to its admissibility but you would, you're asking that we revisit that ruling.

MR. SCHMIDT: Yeah, I think he's --

MR. HOLZER: No, you, you already said that it was to be marked for identification purposes and not admitted at that time.

CHAIR: We had, --

MR. SCHMIDT: Yeah, you sustained my objection, I believe, correct?

CHAIR: That's what, I, we're on the same page here.

MR. SCHMIDT: Okay.

MR. HOLZER: Okay.

CHAIR: Yeah, that is, we had given a prior ruling on this. You were basically asking us to revisit that ruling and you were explaining it in this, some part, through this description of the video. But in large part, through your Motion, why that decision needs to be revisited.

MR. HOLZER: Right on the money.

CHAIR: Which is why Mr. Schmidt has the opportunity to respond to that, but this is where we are on that point.

MR. HOLZER: Correct.

CHAIR: So, 7010 will be tied to the Motion.

MR. HOLZER: Yes.

CHAIR: So, the disposition of the Motion won't help with that, resolve that. 7016, right? That's the next one. We've already discussed that, 7040, same thing. There's an A, B and C on --

BOARD: And D.

CHAIR: And D, sorry. On Exhibit 33, we have only heard, I guess, what would be A. So, B, C and D have not been ruled upon as of yet. I'm assuming because it's a continuation of the same video or the same subject matter, then it, then, on this I can say, that the ruling should extend to all videos unless there's some specific relevance that is different from what we have already seen and ruled upon.

MR. HOLZER: 7040 the relevance --

CHAIR: No, hold on, Mr. --

MR. HOLZER: Oh, I'm sorry. I thought you were asking me.

CHAIR: No, no. I'm assuming you're going to review and determine if there is separate relevance to what has already been discussed as to 7040. We're not going to rehash those arguments here today because that would be the same ruling unless there's some specific reason why this is to be treated different than 7040-A. Is that your understanding, Mr. Schmidt?

MR. SCHMIDT: Yes, sir.

CHAIR: Very well.

MR. HOLZER: And they're, they're --

CHAIR: 7042, 45, 47, seem to be the same thing.

MR. SCHMIDT: Same thing.

CHAIR: And is that your understanding, Mr. Holzer?

MR. HOLZER: Yes, and there will be, there will be an explanation of why their relevance is --

CHAIR: With the understanding that they have to have separate relevance as opposed to, unless there's a collective relevance, but separate relevance to what's already been discussed.

MR. HOLZER: Yep.

CHAIR: 7057, same video, (inaudible) that's what you wrote. 7010, where is that? Okay. Same concert as --

MR. SCHMIDT: That's the Nep, Nepalese American Idol concert.

CHAIR: Right. So, 7057 will be also treated at the time of the disposition of the Motion?

MR. HOLZER: Yes.

CHAIR: Okay. Mr. Schmidt, is that your understanding?

MR. SCHMIDT: Yes, sir.

CHAIR: Okay. Bear with me, I'm updating this. Okay. Going down to paragraph K on page five, Route 94 dash cam. So, I understand from Mr. Schmidt that the date shows, or the date listed is April 14th of 2020?

MR. SCHMIDT: Yes, sir.

CHAIR: I'm assuming you don't have a future looking camera, so I assume that the date is incorrect. So, we have a date wrong and Route 94, as Mr. Schmidt points out, is in Western Baltimore County.

MR. SCHMIDT: That's how it's, I don't know what, I didn't recognize the road, but it's labeled Route 94.

CHAIR: I, I, that's how I understood your, what you cited. Mr. Holzer?

MR. HOLZER: I see it. I'll look into it. I don't know that it is relevant if it shows a road, except for comparison.

CHAIR: Well, I would have to agree, and again, I will review it.

MR. HOLZER: Yeah.

CHAIR: But I would have to, my leaning here is that Mr. Schmidt is correct on that and the objection should be sustained but I guess we'll have to revisit that, so. Next.

MR. SCHMIDT: You've finished L and M already, right?

CHAIR: Yes, we're now on the white discs.

MR. HOLZER: Okay. Could, if I could, if I could go back to that, just, I found the point.

CHAIR: Which point to what?

MR. HOLZER: The last point about the Route 94.

CHAIR: Well, you indicated it was a contradiction of

Mr. Calagero's testimony.

MR. HOLZER: Yeah, right.

MR. SCHMIDT: About Route 94?

MR. HOLZER: It's a comparison of Harford Road versus Route 94 and Calagero's testimony.

CHAIR: What part of Calagero's testimony?

MR. HOLZER: He did not con, well, he did not look at comparable sites, did not do traffic analysis initially, did not look at accident reports, etcetera. So, I --

CHAIR: I'm not sure that the video would --

MR. HOLZER: I, I'll clarify it.

CHAIR: -- eliminate those arguments. But okay.

MR. HOLZER: If I could, if we go to show it, I'll clarify it.

MR. SCHMIDT: I would still object that it's irrelevant, I believe.

CHAIR: I, again, my leaning is, it may be irrelevant. Your point still can be made without, because the video by itself would not have separate relevance, even with the amplification of your arguments, because you --

MR. HOLZER: I understand what you're saying.

CHAIR: So, that's my suspicion. So, maybe you want to consider that. As to the white discs, we're now on rec center one through fourteen, which you'll have to help me here. Let's see, okay. Relevant because they provide evidence of a

use of the property as community center, recreation center and, of course, health, safety, general welfare, inconsistent with the zoning classifications, regulations. Where are we with that? Is this all fundraiser information?

MR. SCHMIDT: Some, --

CHAIR: You have classified it as --

MR. SCHMIDT: You're talking rec center one through fourteen?

CHAIR: Yes.

MR. SCHMIDT: It's, there, there are some of the fundraisers and then there are videos of priests, I, I compared it, for example, if this was a Catholic church, there are videos of the pope, okay? At least that's what it looks like. There are these men who are, appear to be high priests, who, and they're speaking and they're not on the property. And of course, I can't understand them because they're speaking Nepalese. And there are some of the fund, more of the fundraiser, more of the duplication of the fundraiser.

CHAIR: Okay.

MR. HOLZER: The white discs are, are volleyball incidents.

CHAIR: Okay. Well, Mr. Schmidt has a different identification of rec center one through fourteen. He says that they are from the fundraisers, I'm assuming maybe that includes some volleyball or maybe not, I don't know.

(inaudible) other outside activities. I will say my, --

MR. HOLZER: They're all volleyball.

CHAIR: Okay. Well, we don't need all volleyball, I assume.

MR. HOLZER: I know, but some of them may --

MR. SCHMIDT: Rec center one through fourteen --

CHAIR: Hold on.

MR. SCHMIDT: -- is volleyball? That's what it is?

MR. HOLZER: That's what I'm told, yes.

MR. SCHMIDT: Okay. I'll look at those again, Mr. Garber.

CHAIR: Okay. So, for the moment, I will, you will withdraw the objection with the right to re, you know, right to reissue those objections.

MR. HOLZER: And I'll clarify what they are. But I bel, I'm told they're the volleyball examples.

CHAIR: Okay. So, I will say my instinct, looking at his description of it, absent more to whatever extent those videos are concerning the videos of priests from other areas or other sites or other, other offsite activities, to the extent that exists on some video that someone has witnessed, my instinct would be that those would not be admissible.

MR. HOLZER: I probably can't argue with that.

CHAIR: Right. So, Facebook videos one through fifteen.

MR. SCHMIDT: Same thing, sure.

MR. HOLZER: Oh, I understand. It's the same as the other problem. The video camera wasn't stopped and, therefore, it went into all of those, which I could clarify at the time they're shown.

CHAIR: It would be ideal if we could remove the parts from the videos that are not to be played or relevant or part of evidence because we're going to admit one CD with videos, which we're saying we're going to cut at a certain point.

MR. HOLZER: We will do that.

CHAIR: That would mean, that would make this a lot easier of an exercise.

MR. HOLZER: And I'll get rid of the cats and dogs.

CHAIR: Mr. Schmidt, I assume that works for you.

MR. HOLZER: Cats.

MR. SCHMIDT: I kind of liked looking at the cats.

CHAIR: I'm not disputing that. So, we, maybe we can have a still photo.

MR. HOLZER: If he wants cats, I don't want cats.

BOARD: (inaudible) surgically edited to be non-duplicative and limited to the purpose for which (inaudible).

MR. HOLZER: We have a month to do that based on the Board's ruling that we're now going to have hearings in January so we will make sure that that's correct.

CHAIR: I do believe what Mr. Schmidt has to say in his, in his, in his objections here, that is, the videos should be tied to the property, tied to a specific time frame, tied to traffic conditions in the general area, those are the relevant things. So, anything that is not one of those things, unless there's some separate relevance or separate issue for them, the presumption you, you should take away from this, that the presumption is going to be they are not going to be admissible.

MR. HOLZER: I understand.

BOARD: (inaudible) need to be individually authenticated, so that (inaudible).

MR. HOLZER: We will do that.

CHAIR: Right, right.

MR. HOLZER: Now, one of the, one of the problems, members of the Board, would be that in order to accomplish some of this, as, since November 1st, I have not talked to Mr. Clark at all except for one phone call when I called to talk to Mary.

CHAIR: It, it, it's okay.

MR. HOLZER: Now, I understand, and he answered the phone.

CHAIR: You're going to need to speak with him to go over the video stuff.

MR. HOLZER: Okay.

CHAIR: Mr. Schmidt, I assume that doesn't, that --

MR. SCHMIDT: Mr. Holzer, I, I trust you. I've never

known you to be anything other than ethical and appropriate, so.

MR. HOLZER: Okay. Thank you.

MR. SCHMIDT: It's not a problem. I, the, and let me just say this, if possible, if you create a new video that's like a --

MR. HOLZER: Composite.

MR. SCHMIDT: -- composite or de, or where you've deleted things or whatever.

MR. HOLZER: Yeah, an amended --

MR. SCHMIDT: You can give me a copy of it, I'll look at it and that, that might help.

CHAIR: Oh, I was going to specifically say, that when you do that, please provide it in advance, so we don't have to have a second day of doing this.

MR. SCHMIDT: That way I can take a look at it in advance.

BOARD: (inaudible) condense it down to one video, one disc, it will make the hearing go faster as well.

MR. HOLZER: I'll see if that can be done.

CHAIR: Right.

MR. HOLZER: I'll see if that can be done.

CHAIR: And I hope that this gives you both an idea as to where, we're thinking as to the videos, as to what we're thinking in terms of the evidence, as to where the focus should

be as opposed to other things. As not to try to, you know, give our opinions as to how, you know, what's important to your case. You have to identify that for us but at the same time, all these videos by themselves, if it's of the same fundraiser over and over and over again, it does nothing for Ms. Dopkin or myself. And nor does it help your case, nor does it do anything for you in terms of cross examination because your cross examination as to one would be to all.

MR. SCHMIDT: Yes, sir.

MR. HOLZER: I understand.

CHAIR: So, let's try to streamline this, let's try to, and if you can, my suggestion is, if you get that video footage together as best as possible, sent to Mr. Schmidt, perhaps we can have stipulations as to certain videos and then we can even bypass this entire process the next time, the next go round of it. That would seem to make some sense to me. So, what we have here, we have a number of videos that have been admitted and some audio. We have a number of which certain things have been, certain objections have been sustained, I've indicated some idea of what, where we may be going as to certain other objections and sustained some of them, depending on what Protestants do with those videos. Do you have any questions about anything today in any of the rulings or anything that's occurred?

MR. HOLZER: I have no questions, I just would like

to know what the Board, and I don't have to do it now, I would like to know whether the Board has definitely decided to get a third member. I would like to know as soon as possible --

CHAIR: If I, if I, I'll address that right now. Yes, we, we intend, my intent would be to schedule four Board members for the next hearing. And if Ms. Murphy can be here, then she'll be part of the panel and remain part of the panel. If Ms. Murphy cannot be here, then a new Board member will be appointed to replace Ms. Murphy for the duration of the case.

MR. HOLZER: Will we be permitted to know who that Board member is?

CHAIR: I, well, the, keeping with usual practice, normally you don't find out in advance. So, I'm going to --

MR. HOLZER: I know, but this is not a use, this is not a usual practice.

CHAIR: I'm not sure how that'd be relevant to your case, because I don't think they would be, it would, it, it would present any imposition to not identify --

MR. HOLZER: Well, I'll tell you one, I'll tell you one thing.

CHAIR: You may.

MR. HOLZER: If, if, if it's somebody that's appointed as a third member of the Board or fourth member of the Board and we run into Board members and we start talking to them about this case, that would be --

CHAIR: It's very simple. Don't talk to any Board member about the case, then the issue is resolved.

MR. HOLZER: Well, well, that's why I think it's relevant to, to --

CHAIR: Mr. Holzer, I've known you long enough to know that you don't talk about your cases to Board members, even if they're not on your panel or on your panel or whether you know they're not one way or the other. In other words, if I were to run into you on the street, you wouldn't say, hey, I got this great case in front of the Board of Appeals.

MR. HOLZER: No, but that's exactly, things like that happen.

CHAIR: Right.

MR. HOLZER: Both, both parties and I, frankly, I believe the parties deserve to know who the Board member is out of fairness, that's number one. And, and not because we're going to converse with them or tell them what we think about it, because we know that would be an ex parte and that would be wrong. But if I run into a Board member over at the restaurant and say, man, that seven day hearing, that case is going nuts, you know, it's wasted a lot of time and it could be the member that's sitting there. That would not be good, so.

CHAIR: I would agree, so you avoid all those conversations, the issue is resolved and we'll keep it --

MR. HOLZER: Well, that's hard to avoid.

CHAIR: -- we'll keep, we'll keep with the normal practice, because at the same time, Ms. Murphy may very well be here and then this issue would not be presented.

MR. HOLZER: Okay.

CHAIR: And so, we don't need to worry about that until, until we're here next and we have the dates, the dates have been provided to Ms. Cannington to start working on, to schedule them. I appreciate the parties' willingness to work through some of these issues here today and I, I certainly emphasize and as much as I possibly can, let's try to get some stipulations here as to some of these videos. There seems to me that there is some agreement, some of these videos show the property as to whether or not I understand you have an argument as to the weight that any evidence that comes from them may carry, that's a different matter necessarily then whether or not it should be admissible in the first instance and the duplication part of it, you know, I would seriously, seriously take a look at that considering we also have a ton of photos in this case already, depicting some of the conditions that you have identified as ones of concern for the Clarks, the neighborhood and for others.

MR. HOLZER: Will the new Board member, now that you've made the decision, will the new Board member be provided with all of the material necessary to, to be ready in January?

CHAIR: Absolutely. There's no way that we would go

forward if that person would not have some familiarity with the case, and by that, I mean, been provided with all the materials.

MR. HOLZER: Okay.

CHAIR: Recognizing, of course, having not sat for those other days, you know, I understand your argument from earlier, but they're going to have all the materials. They'll be able to converse with this case, and be able to think independently on their own as to where this case should go from their prospective.

MR. HOLZER: Thank you.

CHAIR: In an educated and informed manner, so with that in mind. Unless there's anything further for today, we'll be hearing from Mr. Schmidt on his response by December 15th. If I can, if I can request of you, if you could get those videos to Mr. Schmidt by the end of the year, if not some day earlier than that, that would be fantastic so that we can resolve that stuff as quick as possible. Not to mention, if you could provide that to the Board at the same time, so that if there's to be a new third member of the Board, that person would have the ability to look at the videos if need be.

MR. HOLZER: I don't, I don't know that I can do that at this point. I mean, we'll try.

CHAIR: Well, we have --

BOARD: (inaudible) distill it down to, as I said,

one disc.

MR. HOLZER: One disc.

BOARD: And you can provide each of us, it gives a lot more flexibility in it.

MR. HOLZER: Sure.

BOARD: (inaudible) preview it.

MR. HOLZER: I understand.

CHAIR: So, I, I understand that it may not be a process that takes a week to finish up, that's why I requested by the end of the year, which gives us at least a month. And I realize even if that's not doable, the sooner the better, rather than the day before or something like that and I realize there's no discovery in this process.

MR. HOLZER: Right.

CHAIR: But otherwise, we'd then have to perhaps add additional time reserved to address these issues again, which I'm trying to avoid to the extent I can avoid it in light of the urgency as to deadlines in this case, which I believe, this case has to be resolved with all testimony and all evidence in and closing memos in by no later ten mid-March.

MR. HOLZER: Oh, I thought you were going to say January.

CHAIR: Well, I'm leaving some leeway because I don't know what's going to happen as of yet.

MR. HOLZER: Right.

CHAIR: And I, nothing has been scheduled.

BOARD: If we learn, if we learn that (inaudible).

MR. HOLZER: Okay. Would it make sense then to ask, instead of for three, three days to ask for four days or something? Would that make any sense at all at this stage?

CHAIR: I, well, I would say you've submitted dates, let's work with what we have, get that scheduled, see where that takes us because if we get here in early January, we knock out a couple days, --

MR. HOLZER: Yeah, it's over, it's over.

CHAIR: Right.

MR. HOLZER: Yeah, I don't have a problem with that. I'm just saying --

CHAIR: Mr. Schmidt?

MR. SCHMIDT: Yes, sir.

CHAIR: That works for you?

MR. SCHMIDT: Yes, sir. I'm here at your pleasure.

CHAIR: You say pleasure. No.

MR. SCHMIDT: I'll be here. Just tell me when to show up.

CHAIR: No problem. Okay. Mr. Holzer, is there anything else?

MR. HOLZER: No, I've got to be at Court of Appeals tomorrow.

CHAIR: Mr. Clark, I think wants, wants your

attention.

DR. CLARK: Yes, I do.

MR. SCHMIDT: I'm going to return your highlighter.

CHAIR: Thank you.

MR. SCHMIDT: Thank you.

CHAIR: Well, this sounds like something that could be discussed, do you guys want --

DR. CLARK: Well, I, but I think it will help you, that's, that's --

CHAIR: Yes, but with the instructions we've given here today --

DR. CLARK: Okay.

CHAIR: -- that issue will be resolved with, you know, that is, here's the source material from what's, you know, whatever it is.

DR. CLARK: Yeah, yeah, that's --

CHAIR: But we're talking about the admissibility of it, that's what we tried to resolve here today in large part. Okay?

MR. HOLZER: Understand.

MR. SCHMIDT: Yes, sir. Thank you, thank you.

CHAIR: Thank you.

MR. SCHMIDT: Thank you.

CHAIR: Thank you, all. Have a great day. We are adjourned.

MR. SCHMIDT: You want to go see Sunny?

MR. HOLZER: Hm?

MR. SCHMIDT: You want to go see --

(OFF THE RECORD - 11:24:14 AM)

CERTIFICATE OF TRANSCRIBER

I hereby certify that the hearing in the matter of Nepali American Cultural Center, case number 18-122-X, heard before the Board of Appeals of Baltimore County, November 29, 2018 were recorded by means of audiotape.

I further certify that, to the best of my knowledge and belief, page numbers 1 through 105 constitute a complete and accurate transcript of the proceedings as transcribed by me.

I further certify that I am neither a relative to nor an employee of any attorney or party herein, and that I have no interest in the outcome of this case.

In witness thereof, I have affixed my signature this 26th day of December, 2018.

(ON RECORD - 09:14:22 AM)

CHAIR: Okay. All right. Sorry about that. We are here again today on day, I got to do math, one, two, three, --

VOICE: Six.

CHAIR: Thank you. Day six of the Nepali matter, case 18-122-X. We, let's first get counsel to introduce themselves for the record.

MR. SCHMIDT: Good morning, Chairman Garber, members of the panel. I'm Lawrence E. Schmidt, with the Law Firm of Smith, Gildea & Schmidt, 600 Washington Avenue, Towson, on, here on behalf of the Petitioner, Nepali.

CHAIR: Thank you.

MR. HOLZER: J. Carroll Holzer, 508 Fairmount Avenue, Towson, Maryland on behalf of the same Protestants that I was for the prior five years.

CHAIR: That's good, okay. All right. Number one, I understand also we have a request about the videographer from Petitioner's side, is that correct?

MR. SCHMIDT: No, not at this point. We were, we were contemplating that but the answer is no.

CHAIR: Okay.

MR. SCHMIDT: We had inquired of Ms. Cannington yesterday or the day before about the Board's procedure, but we've decided not to do that.

CHAIR: Okay. Well, if you change your mind in the

future, the only thing that I thought, when it was brought to my attention, was Mr. Holzer, I, I envisioned was going to play a video.

MR. SCHMIDT: Yes, sir.

CHAIR: Which would have created complication with where to set up the videographer because we obviously would need the center aisle here through the back wall clear for Mr. Holzer's presentation. So, just, if we're going to do that in the future, just to think about the logistics of it, where that would go and how that would be done.

MR. SCHMIDT: Yeah. In part, realizing that Mr. Holzer was going to have a video which we, he delivered a copy to me yesterday.

CHAIR: Thank you.

MR. SCHMIDT: Somewhat eliminated that, was part of our decision process.

CHAIR: Oh, okay. All right.

MR. HOLZER: And I'll for the record, we'll get to introducing the video, the, the disc and so forth, explaining what they are and how they proceed. But they are, they were provided to counsel yesterday, before lunch time.

CHAIR: Great.

MR. HOLZER: Even though he may not have had the chance to look at them. And, and I'm going to have Mr. Clark begin his testimony and when we get to showing this, I'm going

to be very careful about how he, what he introduces, that you understand what you're seeing versus what you're going to also be given and then we can talk about it if you have any questions.

CHAIR: Okay. There was a, I believe that there were supposed to be exhibits to the Board and counsel otherwise too, that have not been delivered yet?

MR. HOLZER: I'm sorry, the what?

CHAIR: Were there certain exhibits that were supposed to be delivered to the Board and counsel?

MR. HOLZER: Well, delivered to the --

CHAIR: Oh, I get you. Okay, yes, sorry. I understand now.

MR. HOLZER: Yeah.

CHAIR: Never mind.

MR. HOLZER: It was, no, the Board is going to get, unfortunately, one copy of all of the disc.

CHAIR: Yes.

MR. HOLZER: Because it's thousands of dollars to make more than that. So, we made one for the, for Mr. Schmidt, one for myself and one for the Board, so.

CHAIR: Okay and I'm guessing that there are also still photos that would show part of that story in any event.

MR. HOLZER: We have still photos, we also have documents and they will be introduced in a sequence.

CHAIR: Right.

MR. HOLZER: And I'll make sure they're, I'll make sure there is testimony about the document before we produce it.

CHAIR: Okay.

MR. HOLZER: Okay.

CHAIR: One other point too, as I'm (inaudible) discussion with counsel or not, or just one or the other, that you need two more days, you estimate, for this case?

MR. HOLZER: I, I can, I can tell you this, just so the Board has an opportunity. We have two more lay witnesses to produce on the 29th, who couldn't make some of these hearing dates that we've had. We will have potentially three experts. Hopefully, we can get through all that on the 29th, but if we can't --

CHAIR: Three experts and two lay witnesses?

MR. HOLZER: But if we can't, --

CHAIR: I've seen the way this case has gone so far.

MR. HOLZER: I, I'm trying --

CHAIR: But I, I appreciate your optimism.

MR. HOLZER: Yes, I'm trying to be --

CHAIR: Yes, I'm on board with it, to be clear.

MR. HOLZER: Okay and if we cannot get all of that and rest our case on the 29th, we will need to go over to another, hopefully just a part of a day. I don't hope, I don't

see where we have to have another full day, but much like Mr. Schmidt did when he wanted to call a person back and he took an extra half a day. So, that's what I would anticipate and then I think Mr. Schmidt wanted a full day for re-direct or rebuttal. So, it really looks like we're looking for two more days.

CHAIR: Okay and, and just as a, to throw an incentive in as to when those days could be scheduled, keep in mind that (inaudible) the County turns to MDAC in February, so that presents its own issues with this case too.

MR. HOLZER: That, that, I'm dealing with that in Cecil County and some other counties and I, I appreciate what you just said because that can be a real pain at the beginning.

CHAIR: And that's why I'm thinking that the sooner those two days are scheduled in terms of close to the last presently scheduled day, that may make it easier for everybody.

MR. HOLZER: The, the problem is, is the Christmas holidays in December.

CHAIR: Oh, I understand.

MR. HOLZER: But I, I agree with you. If we could get this done in January, that would be, by, you know, --

CHAIR: Well, because then think of, think of it like this though, then you have to closing memos, then we have to have deliberation.

MR. HOLZER: Right, right.

CHAIR: And then, --

MR. HOLZER: But is that going to be effected by the new process?

CHAIR: I would think --

MR. HOLZER: Once, once we close the case, I think that the rest of it becomes pretty easy for the Board or, or submitting a memo.

CHAIR: I think that that is a journey that we will all look forward to together. It has not yet experienced in this County as of yet and I'm sure that there will be a lot of false starts along the way.

MR. HOLZER: I've been through the whole process and let me tell you, there, and, well, you know, the Court of Special Appeals is on that now.

CHAIR: Um hm.

MR. HOLZER: And it can create a nightmare with attorneys on both sides, trying to submit their regular doc, documents and pleadings that they normally would and getting, getting problems through the airways.

CHAIR: Yes, so, I just use that as an example as to for scheduling purposes if we could try to figure out a way to get this done close in time to, when I say done, I mean, two extra days, close in time to November 29th date. That would actually probably work out best for everybody in this room.

MR. HOLZER: Okay.

CHAIR: And I realize that is a, you know, a, a specific ask coming out of Thanksgiving, but also then before Christmas or close thereto. The Christmas holiday, that is, the, --

MR. HOLZER: I have received, I have a Court of Appeals argument the day before the 29th and then I have three Court of Special Appeals --

CHAIR: It's okay.

MR. HOLZER: -- in early December.

CHAIR: It's okay. Again, I'm not asking that it be done December 3rd and 4th or something like that. I'm just suggesting that if you can figure out a way to clear your calendars in a close period of time --

MR. HOLZER: Will do.

CHAIR: -- that would be advantageous for everybody.

MR. HOLZER: Yeah.

CHAIR: So, with that all in mind, number one, everyone who's here, please make sure your cell phones are off, so we don't run into those problems as we did last time. Also, when you're handing up exhibits, please make sure counsel reads the exhibits first so that before you present to the witness,--

MR. HOLZER: Sure.

CHAIR: So, that we can hopefully avoid some of the other issues that arose the last time out, so.

MR. HOLZER: Sure.

CHAIR: With that in mind, are we ready to begin?

MR. HOLZER: Yes.

MR. SCHMIDT: Yes, sir.

CHAIR: All right. Mr. Holzer, it's still your case.

MR. HOLZER: Yes. I'd call Dr. Dewey Clark.

BOARD: Mr. Clark, do you, do you swear and affirm under the penalties of perjury, that the testimony you are about to give is true and correct to the best of your knowledge and belief?

DR. CLARK: I do.

BOARD: Would you state your name and address for the record?

DR. CLARK: My name is Dr. DeWitt S. Clark, 12150 Harford Road, Glen Arm, Maryland 21057.

BOARD: Thank you.

MR. HOLZER: Dr. Clark, you can have a seat. And I'd like to ask you to give the Board a little bit of the history of, of, about yourself and also about the, your property at the 12150 Harford Road. How long have you lived there?

DR. CLARK: Thirty-three years.

MR. HOLZER: Okay and could you then go on and explain?

DR. CLARK: Sure. It's the only house my wife and I have ever owned. We built it. My daughter was raised there and she made, she, she went through the local public schools

and was nominated to Princeton by the alumni association. My mother died there. In my free time, I am a Maryland Master Naturalist. I am a district manager for two hundred and forty miles of trail in the Pennsylvania, in, in Pennsylvania, which includes the Appalachian Trail. I am the Club Naturalist for the, for the organization that does those trails. I'm a Pennsylvania wild land firefighter and I work with State foresters and national park service staff in three states in the, in the area of forest health. We manage our property as a natural, native habitat. I think we have a picture of there that will be shown later. But it might, you know, we could do it now. Okay.

MR. HOLZER: Well, let's get through some of this background.

DR. CLARK: Okay. All right. We manage it as a natural, native habitat. It is Chesapeake Bay certified.

CHAIR: Do you have one of those plaques out front that says that?

DR. CLARK: Yeah, yeah, yeah. But it, it's, the full two acres has been turned into a meadow and then a boundary layer around the meadow and as a consequence, we do very well with monarchs, spiders, praying mantis. We have three kinds of woodpeckers, who are, who, who have nested around us. Hawks and eagles. We've counted forty-five species of birds visiting our property over the course of a year. We've seen a return of

black, black rat snakes, box turtles, mammals, everything from chipmunks to fox and I suspect there's a coyote that, that, that comes around our property. My background, my educational background, well, no, and, and then I do want to say, to me this is a house, it's a thing, all right? To my wife, it's her home. My educational background is I have a Ph.D. from University of Virginia, which Mary also has. In fact, she is two years my senior. My, my degree is in policy analysis and evaluation in the area of education. Do you want, --

MR. HOLZER: Yeah, tell us a little bit about your, about your background.

DR. CLARK: Okay.

MR. HOLZER: Where you grew up, etcetera?

DR. CLARK: I grew up in the projects in New York, played with Italians, African-Americans, Puerto Ricans, Irish, Slavs, Native Americans. The noise, chaos and unpredictability of living in that area was, is, is a major driver in my life. I actually had night terrors of being sucked back into the projects until I was thirty-five. Long after I had achieved professional success as a Ph.D. And that was even after we built our home at 12150 Harford Road, all right? You don't know the trauma that those kinds of things produce. Give you an example. Playgrounds were paved, they gave us one or two forty-eight inch culverts on a paved playground as, as a playground, all right? If you, if you got caught on the grass,

your family was fined. Spent most of our time roaming the nearby woods and farmlands. Boy Scouts was a very important part of my socialization. They also provided me access to solitude and peace. I spent much of my time taking trips into the back country. In college, I would routinely get lost in the Adirondacks. I went to, my undergraduate was up in Potsdam and when things just got to stress, I just said, the heck with it and I went and got lost for a couple days. Almost all of my family's vacations involved back, back country trips and national parks. And for us, a vacation is, was spending time with the park professional crew doing trail work. I remember Christmas baskets left on the front porch prior to moving to the projects. That was after my father deserted us. My father flew the hum in World War II with the first air commandos. He committed suicide eighteen years later. My mother took a job as a matron in, in a public school, which served an area that had a sizable population of Jews who escaped the Nazis. This was in the sixties, fifties and sixties. She was the daughter of, of a man of standing. Her father was the superintendent of printing for the paper of record, but she personally had no skills so that's what happened and then we wound up in the projects. I remember listening to her count change at night. I personally started to work at the age of twelve picking currents for a farmer, who picked us up at the post office one mile from the, from the projects and then drove us to his farm.

I worked through, I worked through school selling shoes and giving, giving money to my mother to help make things work. We did not even own a car until I bought a '65 Valiant at the age of twenty-one. Experienced first-hand the advantages of being white and from a fallen but respectful family. I spent more time in the Jewish Community Center then I did in a CYO. I was invited to the parties of my Jewish schoolmates until we got of age where things started to get with dating and all that kind of stuff and then their parents said, well. And then, I did have a community of respectable elders that knew my, that knew my grandfather, who helped me become acquainted with the middle class.

CHAIR: If, if I can, sir?

DR. CLARK: Yeah.

CHAIR: You know, you're, you said you're a master naturalist.

DR. CLARK: Yes, sir, I am.

CHAIR: Okay. What do you mean by that?

DR. CLARK: I'm a Maryland Master Naturalist. I was trained by the Department of Natural Resources Wildlife Heritage Services down in Annapolis. I was directly trained by the staff. That means, I call myself a twelve week wonder, but it's, it's gone beyond that. That, that means that I can serve as, as an interface between volunteer organizations and what professionals need, okay? That means that I do outreach to, to

all sorts of groups, whether it's disadvantaged --

CHAIR: Well, I guess where I'm going with it is --

DR. CLARK: Yeah.

CHAIR: -- what do you mean by naturalist, like how would you define that?

DR. CLARK: Oh, all right. My specialty is forest health and --

CHAIR: Right, and I got that from some of the other things you said.

DR. CLARK: Right, yeah, yeah, yeah. And so, that means that I spend a lot of my time working with the professionals in three different states, the, the, the, the state foresters, identifying areas that are at threat for invasive species or that the forest is sick. Then I help them, I, I recruit volunteers to work with them and then I go onsite and manage them. And it can be anything from pulling out a ailanthus, from killing a, ailanthus, tree of heaven, to creating a new meadow, all right? It's forest, it's, it's, starts as invasive species control.

CHAIR: Um hm.

DR. CLARK: But really, if you just talked about that, people would get real depressed. I, I, I frame it as forest health.

CHAIR: Understood. Mr. Holzer? Oh, --

DR. CLARK: Wait a minute.

BOARD: On that, --

CHAIR: I'm sorry.

BOARD: -- you said it was a twelve week training?

DR. CLARK: Yes, ma'am.

BOARD: And when you complete the training, you are certified in some way?

DR. CLARK: Yes, ma'am. Yes, ma'am.

BOARD: By the State DNR?

DR. CLARK: Yes.

BOARD: Thank you. Do you have that certification?

DR. CLARK: Yeah, I do. I don't have it with me, but yes, ma'am.

BOARD: (inaudible).

DR. CLARK: Yeah, yeah. No, and you combine that with my wife's Master Gardner and you see what we did at the house.

CHAIR: Understood. Mr. Holzer?

MR. HOLZER: Yes. All right. Can we get, get on with why are you in this fight?

DR. CLARK: Yeah. Mary and I moved and stayed here because it met our needs for peace from the chaos of the world. All right? I was very sick for about ten years. Shortly after I got my, got my degree. I was on fifteen milligrams of Prednisone for, for ten years, just to get out of bed. All right? I had not, I had not getting out of bed arthritis.

Mary had to tie my tie. It finally resolved, but it took three years for me to get off the Prednisone. If, I'm sorry about that.

CHAIR: Hold on a second. Just make sure --

DR. CLARK: Yeah, we're trying to keep the computer awake.

CHAIR: Got it. So, that's (inaudible) the computer.

DR. CLARK: Yeah.

CHAIR: Okay. So, I just wanted to make sure that (inaudible).

DR. CLARK: Yeah.

CHAIR: Okay.

DR. CLARK: I'm sorry, I didn't mean to interrupt you.

CHAIR: It, it, it's quite all right. It's quite all right. So, you said, I'm sorry, you were, it took you three years to get off the Prednisone?

DR. CLARK: Yeah. I mean, if you know anything about it, tapering off, I would get down to five milligrams and then I would suddenly flare and then I'd have to go back to fifty and try again. It took three years to get off that stuff. I was in this primarily to protect Mary's home, all right? She's my partner. This means a lot to her. It would be very easy for us to move because to me, it's just a piece of property. But it's her home. Now, I am also motivated by the friends we

have made throughout the process and to carry forward the efforts of those who came before me to protect this rural farmland valley, which is one of the last of its kind in the valley.

MR. HOLZER: Dr. Clark, I, I think this might be the moment where you will begin to refer to various videos and so forth. So, could you pull out the, the pile of CD's that you have?

DR. CLARK: Can I ask Ms., can I ask Dr. Clark to do that?

CHAIR: Will this take a minute or two?

DR. CLARK: Is it okay if I refer to her as Mary?

CHAIR: It's fine by me.

DR. CLARK: Okay.

CHAIR: I would take that up with her.

DR. CLARK: I'd rather ask you.

CHAIR: No, that's fine with me. I think we all can agree who you're referring to.

DR. CLARK: Okay.

CHAIR: So, as long as that's clear for the record, that's really my concern.

MR. HOLZER: Larry, this is what we gave to you yesterday.

MR. SCHMIDT: Okay. Are you going to --

MR. HOLZER: I'm going to explain what each one of

them is.

MR. SCHMIDT: Okay and, and --

MR. HOLZER: I know you didn't, may not have had time to look at them.

CHAIR: Well, if I can, Mr. Holzer, --

MR. HOLZER: Yeah.

CHAIR: -- you're going to explain what each one of them is, keep in mind, the witness is going to have to identify, obviously, the subject matter.

MR. HOLZER: Sure.

CHAIR: Okay.

MR. HOLZER: Yeah, oh, yeah. That's what I wanted him to do.

MR. SCHMIDT: Okay.

MR. HOLZER: Yeah. And there, you're about to hear, that there are videos that, that contain clippets, because I knew the Board didn't want to look at three hours of, of video at a time. So, we have made snip, I'll call them snippets, I don't know whether that's the correct word. But they are no more than thirty seconds to two minutes, showing various things, that's the first part. So, there will be a video that, of those, and then there are videos that are, that are called the library. The library videos are videos, oh, I'm sorry, I'm standing in front of you.

MR. SCHMIDT: That's okay.

MR. HOLZER: The library videos are the documents from which the snippets came.

CHAIR: Okay.

MR. HOLZER: So, --

CHAIR: So, in other words, there was, there were longer clips and then you pulled out sections of the clips?

MR. HOLZER: Yes.

CHAIR: Okay.

MR. HOLZER: Yes.

CHAIR: And, Mr. Schmidt, you have received those videos?

MR. SCHMIDT: Yes, sir.

CHAIR: And, and have you reviewed them?

MR. SCHMIDT: No, sir.

CHAIR: Okay. Did you review the snippets?

MR. SCHMIDT: No, sir.

CHAIR: Okay.

MR. SCHMIDT: I, unfortunately, was in Richmond, Virginia yesterday arguing a case at the 4th Circuit.

CHAIR: It's not a matter of --

MR. SCHMIDT: Got back late and they, I got them, I, I did get them over to my client yesterday when they were delivered in the office, but I haven't personally seen them.

CHAIR: Okay. It's, I guess my thinking was, is if they're snippets pulled out of the longer videos, are we

playing all the snippets and also all the videos?

MR. HOLZER: Oh, of course not.

CHAIR: Okay.

MR. HOLZER: That, that's why, I knew what the Board wanted and, and I knew what my client wanted. He wanted to be able to show snippets of certain things.

CHAIR: Okay.

MR. HOLZER: Of the property, of, of what was going on.

CHAIR: Understood.

MR. HOLZER: And also as a preface, most of the snippets are from the YouTube of the applicant. In other words, they've put material up on line so people could see what was going on.

CHAIR: Understood.

MR. HOLZER: And we have taken pictures of that and that's what will be shown.

CHAIR: Okay.

MR. HOLZER: That's one part. The second part, and lesser amount of snippets, is from the cam, dash cam of Dr. Clark, showing you a little bit of the neighborhood and Harford Road.

CHAIR: Understood.

MR. HOLZER: So, so in that respect, I would imagine that the Board may well want to, in its deliberations, review

the snippet CD's, unless you have a question, or unless Mr. Schmidt says, well, you should see more than that, and then you can go to the library and take a look at from whence they came.

CHAIR: Fair enough. Are you, is that the exhibit in your hands?

MR. HOLZER: Wait a minute. Mr. Schmidt, just so that you know, since you didn't have time, these are the colored, these gold ones.

MR. SCHMIDT: Yes, sir.

MR. HOLZER: Those are the snippets CD's, okay?

MR. SCHMIDT: Okay.

MR. HOLZER: So, you know what to look for when you need to look for them.

CHAIR: Just, and again, I'm just trying to make this clear for the record, you have in one hand the stack of CD's and you have in another hand several sandwich bags, individually, with CD's.

MR. HOLZER: That's correct.

CHAIR: So, the stack of CD's, is that the exhibit that we're going to be handed?

MR. HOLZER: I'm going to hand both of them to you.

CHAIR: Okay. So, --

MR. HOLZER: You get both of them.

CHAIR: -- Ms. Murphy, what would make sense to you in terms of designating for exhibits?

BOARD: However you'd like them labeled as --

MR. HOLZER: It's labeled Protestant's Exhibit, why don't we label the whole packet one number?

BOARD: Okay, sure.

MR. HOLZER: And so, the gold CD's are the snippet CD's.

BOARD: Is that going to be talked about first?

MR. HOLZER: Yes.

BOARD: Okay.

MR. HOLZER: That's all we're going to talk about today. The, the white, the box with the white CD's is the library.

BOARD: All right.

MR. HOLZER: From whence this snippets came.

BOARD: So, I just need two labels?

MR. HOLZER: I only, I only had one, I didn't --

BOARD: No, it's fine, no, no, it's fine. I just, for me though, I don't, I don't need to individually label each CD?

MR. HOLZER: Oh, no, no, no, no.

BOARD: Right. Gold, gold ones are twenty-nine and the larger library is thirty. That was easy.

MR. HOLZER: Okay, that's fine.

BOARD: Okay.

MR. HOLZER: That's fine.

CHAIR: All right.

MR. HOLZER: Let's see, is there anything more that I need to.

DR. CLARK: All right.

MR. HOLZER: Dr. Clark, would you care to elaborate on my analysis?

DR. CLARK: Yes, yes. I, maybe I can make it a little bit, I'm, I'm a researcher, okay? I collect observable data and then I also document them, okay? And I document my sources. So, we have a list of all the URL's from --

MR. HOLZER: What are URL's? Because (inaudible) don't understand that.

DR. CLARK: The, the website.

CHAIR: I understand.

DR. CLARK: Yeah, yeah, yeah, I don't even know what it stands for.

CHAIR: (inaudible) and whatever the address is.

DR. CLARK: Yeah, yeah, yeah, right. I don't even know what it stands for anymore.

CHAIR: You said you have a list?

DR. CLARK: Yes. We have --

CHAIR: Would it make sense to tender that list as an exhibit?

MR. HOLZER: We are going to.

CHAIR: Okay.

MR. HOLZER: That was the next thing I was going to do, before we even get into any of it. Do you have the list?

CHAIR: Yes.

DR. CLARK: I believe Mary does. Okay, may I see it so I can --

CHAIR: Well, first you need to show Mr. Schmidt.

MR. HOLZER: I want to show it --

DR. CLARK: Oh, sorry, sorry.

MR. SCHMIDT: Thank you.

MR. HOLZER: This is --

MR. SCHMIDT: Is this my copy?

MR. HOLZER: Yep.

MR. SCHMIDT: Thank you, sir.

MR. HOLZER: It's your copy and --

CHAIR: And hold on, before, let Mr. Schmidt review it before you --

MR. HOLZER: I, I will.

CHAIR: -- present it to Dr. Clark. Thank you.

MR. SCHMIDT: Okay, I don't know what it is, but okay.

MR. HOLZER: Yeah, that's the same as I. That's why it needs to be explained. Okay?

MR. SCHMIDT: Yes, sir.

MR. HOLZER: Okay. I'm handing forth to the Board and I'm handing one to Dr. Clark and I'm keeping one. Now, Dr.

Clark, could, could you just, it says URL's and movie segment files. What does that mean? And then there's a list.

DR. CLARK: Right.

MR. HOLZER: With dates. Could you tell us what that means?

DR. CLARK: All right. The, the, the first line is the website, okay?

CHAIR: Let me ask, (inaudible), did you create this exhibit?

DR. CLARK: Yes, sir.

CHAIR: And this is Exhibit 31, I believe?

DR. CLARK: Yes, sir.

CHAIR: So, you created Exhibit 31 and the videos that are in the full video library in Exhibit 30, they would correspond to the URL addresses on Exhibit 31?

DR. CLARK: And I have a second document.

CHAIR: Well, is that part of Exhibit 31?

DR. CLARK: Yeah, why don't we do that.

CHAIR: Well, hold on. Is that part of Exhibit 31?

DR. CLARK: No, no, it is not part of this exhibit.

CHAIR: Okay. So, we're going to go one step at a time.

DR. CLARK: Okay.

CHAIR: So, so the URL addresses here would correspond to the video library and the video library would

correspond to these URL addresses in Exhibit 31.

DR. CLARK: Correct.

CHAIR: Okay. So, that's where you would have gotten some of those videos, I understand from Mr. Holzer's proffer earlier, that some came from a dash cam. Is that listed on Exhibit 31?

DR. CLARK: No, it is not.

CHAIR: So, so Exhibit 31 is solely confined to what you were able to access on line?

DR. CLARK: Correct, sir.

CHAIR: All right and Mr. Holzer?

MR. HOLZER: Thank you.

DR. CLARK: There's one more thing I need to explain.

CHAIR: Mr. Holzer, if you ask him --

MR. HOLZER: Please explain.

DR. CLARK: Okay. Under that, under the URL, you will see DSE underscore 6978.

CHAIR: Understood.

DR. CLARK: That is a thirty minute, I'm going to call them segment, all right? And, and that, that was pulled directly from their, their, that website. So, if the, if the, if the website, if that, if that video was less than thirty minutes, it will have a single file listed, okay. If that video went on for three hours, it will have six video files.

CHAIR: It will have multiple DSC prefix files?

DR. CLARK: Correct, and those are in the library.

CHAIR: Understood.

MR. HOLZER: Okay, thank you. Now, --

CHAIR: Mr. Schmidt, have you seen Exhibit 31?

MR. SCHMIDT: Yes, sir, I have.

CHAIR: Okay. On Exhibit 31, do you have any problem with that?

MR. SCHMIDT: No, sir, I do not.

CHAIR: I assume you're going to put that into evidence?

MR. HOLZER: Yes.

CHAIR: So, we can admit Exhibit 31. We're not on twenty-nine or thirty yet.

MR. HOLZER: Right.

CHAIR: But thirty-one, yes.

MR. HOLZER: Now, you have another document that you said you want to further articulate.

DR. CLARK: I do.

MR. HOLZER: What we're seeing, and where is that?

DR. CLARK: I believe Mary has it.

CHAIR: Yeah, Ms. Clark, or Dr. Clark, sorry.

MR. HOLZER: Yeah.

CHAIR: You can't look at him for, to know if that's the right exhibit or not.

MR. HOLZER: Oh, okay. I just want to --

CHAIR: I know it was instinct so, (inaudible) just nevertheless.

MR. HOLZER: Can I ask him questions?

MR. SCHMIDT: Sure, yes, sir, I'm sorry.

MR. HOLZER: Okay, thank you. Now, Dr. Clark, you handed me a, a document called video file contents and then BIVDS number one and number two. Could you explain, first of all, did you do this yourself?

DR. CLARK: I did.

MR. HOLZER: And could you explain --

DR. CLARK: Oh, no, no, I'm sorry, I did not.

MR. HOLZER: What did, who did it?

DR. CLARK: It was the people who did, who created the, who actually imprinted all two hundred and forty DVD's.

MR. HOLZER: Okay.

DR. CLARK: This is the inventory that the provided me.

MR. HOLZER: Okay and they, and you took it to that reducer, or whatever it was, to make all these copies of the CD's?

DR. CLARK: I did.

MR. HOLZER: And then they provided this, this contents list to you?

DR. CLARK: Correct.

MR. HOLZER: Okay. What does it show, what does it

mean?

DR. CLARK: All right. What this, and I'm sorry about the, the, the title. It should say video library contents, okay? This relates directly to the stack of DVD's, the big stack, okay? And I believe I, I put the DVD's in there in order of the contents, okay? But these list, this is the crosswalk where if you want to access, I forget what exhibit number this was.

CHAIR: Thirty-one.

MR. HOLZER: Thirty-one.

DR. CLARK: If you want to access the con, the, the, the files that are shown in thirty-one, you would then use this list to find which DVD they're on.

MR. HOLZER: Could you give us an example?

DR. CLARK: Yeah, let's take 6978.

CHAIR: Hold on, 6978, where would --

DR. CLARK: Yeah, oh, that, that, that would be the first one, the first one under URL.

CHAIR: (inaudible) Exhibit 31?

DR. CLARK: Yeah. If you look on one, two, three, on page four, of the library contents, okay? You will see on --

CHAIR: When you say library contents, you're referring to Exhibit 32?

DR. CLARK: Yes, sir. You would look up, you would see on FBVDS, the second one down is DSC 6978. So, you would

find 6978 on, on the library disc labeled FBVDS three.

CHAIR: Got it.

DR. CLARK: Okay? I'm sorry, I, it would have been better if I did this in Excel so you could do it but, you know, sort of but --

CHAIR: So, (inaudible) would you refer to this Exhibit 32 as more or less a table of contents of the stack of videos?

DR. CLARK: Yes, sir, perfect.

MR. HOLZER: I'd buy that. All right. Now, we have twenty-nine, thirty, thirty-one and thirty-two as, as the understanding of what the CD's are, are going to show. And am I correct in saying that the gold colored videos are the ones that, are in the machine now and you'll be referring to them during the course of your testimony?

DR. CLARK: Yes, sir. I hope.

MR. HOLZER: Okay. The other thing is, did I mislead the Board in any way when I said each clip will probably run between thirty seconds and two or two and a half minutes?

DR. CLARK: Well, you told a mis-tale on this first one.

MR. HOLZER: Okay. All right. Which is the first one we're going to look at?

DR. CLARK: The first one is going, because you can't come out there, we felt it was very important for you to get a

sense of the locality in which we are arguing.

CHAIR: And correct me if I'm wrong, if I'm wrong here, but at least the videos of the events or the dates they're represented on the 31st, did capture events that occurred on those dates, so even irrespective of our ability to visit, we're not going to be able to go see it if we went out there tomorrow.

DR. CLARK: No, no, no, no, no.

CHAIR: Right?

DR. CLARK: That's, that's not what I'm talking about.

CHAIR: Okay.

DR. CLARK: It's going to be a dash cam.

CHAIR: Oh, you're talking about the dash cam?

DR. CLARK: Yes.

CHAIR: Okay. Well, I was referring to the Facebook, okay.

DR. CLARK: I know.

CHAIR: I shouldn't have, sorry.

DR. CLARK: All right. Go ahead.

MR. HOLZER: So, the, so the first video that you are about to show is, relates to something you did yourself?

DR. CLARK: Yes, sir.

MR. HOLZER: Okay and it's not something that you took off of the YouTube or internet?

DR. CLARK: No, sir.

MR. HOLZER: Okay. All right.

DR. CLARK: It, it, it, it --

MR. HOLZER: Is there, is there anything else that you need to explain to the Board and to counsel as to what they are seeing and how they can go about finding it, finding it from their documents that we've produced for them?

DR. CLARK: Well, it will be identified on the silver disc. Oh, or on the, on the gold disc.

MR. HOLZER: Gold disc.

DR. CLARK: And I believe we have an inventory for the gold discs.

MR. HOLZER: Do we have that to give to the Board at this point? And to counsel?

CHAIR: So, if this is of the snippets, it would seem at this, Ms. Murphy, do you think this should be Exhibit 29-A, because it is the index for the snippet videos? You want to make it thirty-three, that's fine by me. Whatever you think is best.

BOARD: Thirty-three works.

MR. HOLZER: This will be thirty-three? Okay. Well, I'm not going to mark it until later.

MR. SCHMIDT: Okay, thank you.

CHAIR: Before you give it to the witness, let Mr. Schmidt review, please.

MR. HOLZER: One, two, three, four. Now, I don't have --

CHAIR: One second, let Mr. Schmidt --

MR. HOLZER: I am.

CHAIR: Sorry, Dr. Clark.

MR. SCHMIDT: I, I've looked at it, thank you.

MR. HOLZER: Thank you. Okay. I don't have a copy but I don't need now, Dr. Clark, explain what Exhibit 33 is?

DR. CLARK: Okay. The simplest way for me to do this was to take a, a screen shot of, of the files on my computer and then identify which disc they are on, these gold discs. You'll see at the bottom A-1's, that's 4992, 5005, 5006, those were already included in the preliminary Motion that was accepted as evidence. They were on USB. I understand you can't access USB's, so they are on, they are on the video. I don't even, on, on the first gold disc. Then you will see --

MR. HOLZER: Just explain it. Are you saying that they were in the first Motion that we filed on the first day?

DR. CLARK: Yes, sir.

MR. HOLZER: Okay. Do you happen to know what exhibit number they were?

DR. CLARK: They were the appendixes. Appendixes 320 or something and.

MR. SCHMIDT: Okay.

MR. HOLZER: Okay. I'll show you what's in an

envelope attached to a blue folder.

DR. CLARK: Yes, sir, 320 and 22.

CHAIR: What, 320 and --

MR. HOLZER: Appendixes 320 and 22.

CHAIR: Okay, thank you.

DR. CLARK: But they were in a USB and you can't access it.

MR. HOLZER: I don't, do, do --

CHAIR: When you say you can't access it, what do you mean by that?

DR. CLARK: We, we, we are told that the, that County employees cannot put a USB drive into the, into a County computer.

CHAIR: Fair enough.

BOARD: (inaudible).

CHAIR: That was the, the Motion.

BOARD: (inaudible).

MR. HOLZER: The first day's Motion.

BOARD: Got it.

MR. HOLZER: Appendixes 320 and 22. I don't know that I need to introduce this unless the Board would like it.

CHAIR: Well, if it, if it corresponds to what Dr. Clark's testimony is, you know, I'm going to leave it to you as whether or not that should be evidence because, keep in mind, the Motion is in evidence but the subsequent appendixes are

only exhibits to the Motion.

MR. HOLZER: To the Motion.

CHAIR: Not substantive evidence of the case.

MR. HOLZER: That's correct, that's correct. Then I'll introduce this and it contains a, whatever.

MR. SCHMIDT: That's number thirty-four?

BOARD: Thirty-four.

MR. HOLZER: Thirty-four.

DR. CLARK: Okay. All right and so, and so then the rest of these are pretty much grouped in presentation order. A-2, which is what we, did I just lie? I did. But all, all the videos, you'll see next, you'll see next to, for example, circle to Mount Vista Court, A-2. That will be on the disc, on the gold disc labeled A-2.

CHAIR: So, each designation that is handwritten on, on Protestant's Exhibit 33, should correspond to a snippet video, Exhibit 29, but then you have each one of those labeled A-1, A-2, A-3, etcetera?

DR. CLARK: Yes, sir.

CHAIR: Okay. Mr. Holzer?

MR. HOLZER: Okay. Now, is there anything else we need to establish, to, to tie all of this information together so that the Board can re, can re-examine it if they desire?

DR. CLARK: I would imagine that there will be some questions, some questions as we go forward, but I tried the

best I can to, to provide crosswalks and documents and all that kind of stuff. But it, it is, it, it's not going to be, you know, it's not as easy, as easy as I would like it to be.

MR. HOLZER: I, I, --

MR. SCHMIDT: Mr. Holzer, can I just ask, --

MR. HOLZER: I was going to, can I --

CHAIR: Well, wait a minute. Let's, let's do it like this. Mr. Holzer was about to say something, you ask your question, then we'll see where that leaves us. You were about to say something?

MR. HOLZER: Yes. I was about, I don't want to prejudice anything, but just so, so that we understand about all this and I thought of this as we were doing it. Suppose, suppose one of the exhibits, or one of the snippets that is being shown is objected to and sustained. I wanted to make sure that the, you know, obviously the whole disc wasn't, wasn't rejected. It was only that video. So, that's why I asked Dr. Clark to create these documents so that if one of the videos is denied in, it can easily be marked out on these exhibits. So that, so that in the future, in a, in an appeal or whatever, the Court will know whether something was denied and they'll know if it wasn't crossed out, they'll know it was admitted.

CHAIR: Mr. Schmidt?

MR. HOLZER: Is that a fair, I'm trying to be fair

for both sides.

MR. SCHMIDT: I think that's fine. I just, just so I understand what we're looking at. I'm sorry. The, so, so we're going to be seeing the snippets, not the library?

DR. CLARK: Correct.

MR. SCHMIDT: Is that correct?

DR. CLARK: Correct.

MR. SCHMIDT: And, and there's four snippet discs, A-1, 2, 3 and 4?

DR. CLARK: Correct.

MR. HOLZER: Yes.

MR. SCHMIDT: Is that, I'm just trying to understand so I know what we're doing.

MR. HOLZER: No, that's fair.

MR. SCHMIDT: And then, we're not going to be looking at the library, which are the white discs?

DR. CLARK: Correct.

MR. SCHMIDT: Okay and just to give us an idea, how, how long are the, are the gold discs? How many, how many minutes of video is that?

DR. CLARK: Okay.

MR. SCHMIDT: Just approximately.

DR. CLARK: No, no, no, no, I mean, and it's going to be kind of scary. Each DVD has approximately two hours, all right? That you are not going to see the whole two hours. But

the, they, they are there so that when it, when, when Mary shows time, time, I, I'm going to have her, I'm going to direct her to time, to, to time stamps to show you specific things. And, you know, even though the video may be twenty minutes long, you're only going to see ten seconds.

CHAIR: A snippet of a snippet?

DR. CLARK: Right. Thank you.

CHAIR: Understood.

MR. SCHMIDT: Okay.

MR. HOLZER: Right.

MR. SCHMIDT: And, and how long is, so this, the snippets are about eight hours of video?

DR. CLARK: Right.

MR. SCHMIDT: And the library is?

DR. CLARK: Two, two hours times thirty.

MR. SCHMIDT: Two hours? Okay, so that's sixty hours?

DR. CLARK: Yes.

MR. SCHMIDT: Okay.

CHAIR: But I understand that some of those are matters taken from, is it, Petitioner's Facebook page?

DR. CLARK: Well, yeah, a Facebook endorsed by the Petitioner, yes.

CHAIR: Facebook page endorsed by the Petitioner, okay?

DR. CLARK: Yes.

CHAIR: We'll figure out what that means later.

DR. CLARK: Yeah.

MR. SCHMIDT: Mr. Garber, I was, I was just going to suggest, because it's such a volume of information, and because I haven't seen it, even if I looked at it yesterday, I couldn't have reviewed sixty hours' worth of videos from yesterday till today. Maybe what I'll, what I'll do with Mr. Holzer's permission is try to review these between now and the next hearing and then tell you what objections I have, since everything is being offered into evidence. I mean, because it's just so much.

MR. HOLZER: Well, they can all be marked for identification.

MR. SCHMIDT: Yeah, no, that, that's fine, but I'm just saying. I'm, it's going to be very difficult, I don't, I mean, it just sounds like a lot of material.

CHAIR: No, I, I, I'm sympathetic to your position on that and I understand that there is a lot and your concerns that you raise, Mr. Holzer, --

MR. HOLZER: Right.

CHAIR: -- about if there's an objection what to do on that point. Does seem, it seems like a fair way to at least try to approach this, whereas --

MR. HOLZER: You mean, not proceed today?

CHAIR: No, no, no, no.

MR. SCHMIDT: No, you can show as much as you want, but any objections I make, I will let you know what they are next time.

MR. HOLZER: Oh, that's perfectly fine.

CHAIR: Rather than have the objection be raised contemporaneous with the showing of the video, I mean, this does seem to be a, a way to try to accommodate those interests.

MR. HOLZER: I have no, no objection to that. I understand what the, what Mr. Schmidt is suggesting. I know he was in Federal Court yesterday, so I know he (inaudible) had the opportunity to look at these when I delivered them. And as a matter of fact, I haven't looked at the library myself, so.

CHAIR: I would suggest that between now and the next hearing then, that you, you submit in writing to Mr. Holzer and to the Board your objections, not wait till November 29th.

MR. HOLZER: Right.

CHAIR: But you submit in writing, preferably, I would say, it's better to do, I mean, at least, you know, if you can do it closer in time to --

MR. SCHMIDT: Sure.

CHAIR: -- today.

MR. HOLZER: I'm leaving tonight for two weeks.

CHAIR: Well, his objections. Right, they're, those are his objections.

MR. HOLZER: Right.

CHAIR: But I mean, rather than wait till November 27th or 28th --

MR. HOLZER: Right.

CHAIR: -- so that they're out there in advance, they can be identified by Mr. Holzer to address the next time, if need be, and specifically, just to be clear, this solely relates to the videos themselves, not to Dr. Clark's testimony necessarily. So, if you have a problem with the testimony, that's a, that's a different matter.

MR. SCHMIDT: Yes, sir, I understand.

CHAIR: Okay. We all on the same page?

MR. HOLZER: Not only on the same page, I think that was a wise approach to the problem. I think both counsel are, are agree, in agreement to this. I don't have any problem with it.

CHAIR: Do you think you could have your written objections to any videos to Mr. Holzer and to the Board by, can we say, November 15th? That's two weeks from today.

MR. SCHMIDT: Yes, yes, sir. I'll make --

CHAIR: And you're gone for two weeks, I know, so you may not get a look at it till the, if I do math correctly --

MR. HOLZER: Twentieth.

CHAIR: Twentieth, thank you. So, you may not get to look at it till the 20th, but if you have any response that you

feel that should be submitted to the Board in writing in advance of the 29th, that would be much appreciated too. Because I don't want to waste the 29th sitting here arguing about objections to the extent possible.

MR. SCHMIDT: Yeah.

MR. HOLZER: Right.

MR. SCHMIDT: When, Mr. Holzer, when are you coming back? I'll have it to you on your desk by the time you get back. Are you coming back the 20th?

MR. HOLZER: Monday the 20th.

MR. SCHMIDT: Monday, okay.

MR. HOLZER: I think that's the 20th.

CHAIR: Nineteenth.

MR. HOLZER: Nineteenth? Monday the 19th.

CHAIR: Monday the 19th is fine.

MR. SCHMIDT: I'll, I'll have the objections to him by the 19th.

CHAIR: And to the Board.

MR. SCHMIDT: And to the Board.

CHAIR: And, and why don't we do this, just to be, if you have a response to any of the objections, why don't you have it to the Board by Monday, the 26th, giving you one week to get that, I realize Thanksgiving falls between.

MR. HOLZER: Right.

CHAIR: But we have to have it before the 29th because

I don't want to waste two hours on the 29th trying to sort through objections to the extent that there are any or whatever the case may be.

MR. SCHMIDT: Thank you. Thank you, Mr. Garber.

CHAIR: I mean, and, because I understand there is a lot of stuff to this, not all of it is going to be shown here today and I do appreciate Mr. Holzer getting the disc to you in advance and I realize the short, the inability to be able to, even if your schedule was clear, to be able to get through everything for today. So, thank you all, so.

MR. HOLZER: So, the, Mr. Schmidt's will be filed, given to me by the 19th of --

MR. SCHMIDT: And the Board's, and I'll give a, the copy to the Board.

MR. HOLZER: And, and then --

CHAIR: You're exchanging object, your objections to him, that Mr. Schmidt's to Mr. Holzer the 19th, your response on the 26th and then we come in here on the 29th and, you know, we'll try to resolve everything as expeditiously as possible.

MR. HOLZER: I think that's a fair procedure.

CHAIR: Yeah. So, but again, Mr. Schmidt, this solely is limited to the videos, to the extent possible, okay?

MR. SCHMIDT: Yes, sir. Thank you.

MR. HOLZER: And I think, Dr. Clark, are we ready to show one of the first videos?

DR. CLARK: I, well, I, I don't know if this is a good time to clar, to, to, to make clear how some of these were created?

MR. HOLZER: Yes, please.

DR. CLARK: Okay.

MR. HOLZER: That's what I'm trying to get through.

DR. CLARK: Okay. All right. There are basically three categories, four categories. First, are the, the videos that, and these, and these are the ones that were put up on the Facebook pages, okay?

MR. HOLZER: The applicant's --

DR. CLARK: The applicant's Facebook --

MR. HOLZER: Okay.

DR. CLARK: Well, or someone associated with the applicants.

MR. HOLZER: Okay.

DR. CLARK: (inaudible) Nepalese is the, is the one.

CHAIR: We'll have to figure that part out --

DR. CLARK: Right, right. But they were on the Facebook page and what I did is set up my camera in front of the computer screen and then copied the thirty minute segment. I'm going to call those thirty minute things, segments.

CHAIR: So, you didn't grab the video directly to your computer, you recorded it through another device just simply by watching it?

DR. CLARK: Correct.

CHAIR: I, you, you, on YouTube, you cannot do that.

CHAIR: No, I understand.

DR. CLARK: All right. So, and, and the reason for the thirty minute segments, it's an FDC ruling, anything over thirty minutes is a video camera, anything under thirty minutes is a camera. I have a Nikon, all right? So, there we go. Then there is another class of videos that were taken from my dash cam.

CHAIR: Well, if I can, if I can maybe make this even simpler than that. If we're playing one disc and one disc contains, for the sake of argument, you know, Facebook snippets, identify how you came to record that snippet disc and then when we play the next disc, offer how that came to be recorded --

DR. CLARK: Okay, okay.

CHAIR: -- or, however, --

DR. CLARK: Got it.

CHAIR: -- captured for that disc.

DR. CLARK: Got it.

MR. HOLZER: That makes sense.

CHAIR: Because otherwise, it's just going to get lost.

MR. HOLZER: Yeah.

DR. CLARK: Okay. All right.

MR. HOLZER: Do you understand what the (inaudible)?

DR. CLARK: I understand what the Board wants.

MR. HOLZER: Okay, okay. Now, are we ready to show the dash cam photos that you took, or the videos that you took?

DR. CLARK: Right.

MR. HOLZER: Okay.

DR. CLARK: Now, the --

MR. HOLZER: Go ahead.

CHAIR: Go ahead.

DR. CLARK: Okay. This first one is about seven and a half minutes in length, okay? It is, it was taken, shot by me, back in April, I believe, and it is a drive up from Gunpowder Park up to Mount Vista Circle.

CHAIR: Well, before you offer what it is, make sure that everything corresponds, I guess, first. That is, put the video on, he'll be able to recognize it.

MR. HOLZER: Okay.

CHAIR: And then explain what we're about to see, --

DR. CLARK: All right and this, this --

CHAIR: -- rather than have a description and then if the video doesn't match, then we got to start it all over.

DR. CLARK: Okay.

MR. HOLZER: Yeah.

DR. CLARK: This video is labeled, it's on disc A-4, okay? Towards the bottom, and it's Gunpowder Park to Circle.

CHAIR: Okay. So, Gunpowder Park to Circle is the first video we'll see, which on Protestant's Exhibit 33 is on the bottom, roughly about four lines up from the bottom, in type, not print.

BOARD: Do you need more light, Mr. Holzer?

MR. HOLZER: No, I don't think so.

CHAIR: Mr. Schmidt, do you understand where we are?

MR. SCHMIDT: Yes, sir.

CHAIR: Okay.

MR. SCHMIDT: This is disc A-4, the gold disc.

MR. HOLZER: As long as the Board can see it.

CHAIR: Yes, and the, the fourth one up from the bottom.

MR. SCHMIDT: Yes.

CHAIR: That's typed.

DR. CLARK: Now, I'm going to ask Mary to stop at a couple minute markers, but what you will see, the, the purpose of this video is since you can't come out and see the valley in which we live, it is intended to show you the locality in which we are discussing, of which we are discussing.

CHAIR: Understood.

DR. CLARK: I will ask Mary to stop at a couple time stamps to show specific things, all right? And she's got, she actually has those in front of her.

CHAIR: Okay.

MR. SCHMIDT: And Mr. Garber, just, --

CHAIR: Yes.

MR. SCHMIDT: -- is, is the witness going to be testifying while this is going on or we just going to watch the video?

CHAIR: I understood that he will identify what the video is when it, at the start, and then at the end he'll present his, his testimony (inaudible), right?

MR. HOLZER: Yes.

CHAIR: He's not going to narrate through?

MR. HOLZER: No.

MR. SCHMIDT: Okay.

MR. HOLZER: He doesn't have to.

DR. CLARK: But we, but, but I would like to stop at specific time stamps.

CHAIR: I understood that you were going to, you were going to have specific stops and present testimony at the stop times.

MR. SCHMIDT: Okay.

MR. HOLZER: Yes.

CHAIR: And then the video will restart for whatever to follow, is that, Mr. Schmidt, you understand that?

MR. SCHMIDT: Yes, sir, thank you.

CHAIR: All right.

DR. CLARK: And I think I can promise this will be

the longest video you see.

CHAIR: Oh, well, let's not go down that road quite yet. All right. Dr. Clark, when you're ready? I'm sorry, Dr. Mary Clark, when you're ready.

MR. HOLZER: She says please just call her Mary.

CHAIR: Thank you.

MR. HOLZER: Go ahead.

DR. CLARK: Get a little closer, Mary. A little bit closer. Right there. That's the fifty mile an hour stop sign that Mr. Calagero, who drives up this road several times a week, denied existed. Okay. Stop. This is Sharon Drive. The location from which I shot the photo that's called iconic view and if you look straight ahead a little bit to the right, you can, you can see the pinnacle and the property, okay? Go ahead, Mary. And, and by the way, Mr. Motsco testified you could not see this property from Harford Road.

MR. SCHMIDT: Objection. He didn't say that.

DR. CLARK: Yes, he did.

CHAIR: Well, the record will reflect what was said. We can proceed. We're not arguing with counsel. Thank you.

DR. CLARK: Yes, sir. And there, there you see it very specifically up there, the yellow dot in the ridge, okay? Go ahead, Mary. All right. Can you stop here a second, Mary? Well, that's good. The, the, it blanks because the dash cam takes three minute clips and then I had to stitch them

together. Okay? But you can see from this that it is a pinnacle that, that it reflects right down the valley. You can see the hills that make the valley on either side. Okay, go ahead. Go a little bit closer, Mary, up to the house. Okay, right there. That's Hartley Mill. That is the point from which I requested the Baltimore County police report on accidents. A little bit closer, right there. That's Hutschenreuter Road. The point at which Mr. Calagero started his accident analysis. Go forward. That is Mark Lane, which is our property entrance. That is the point at which Mr. Calagero identified the iconic view as having been taken from, okay?

CHAIR: You mean, the drive off to the left?

DR. CLARK: Yes, the drive off to the left. That, that, that used to be called Mark Lane and on a lot of maps it still is. But, it, it, it reverted. The right of way reverted, okay? Go ahead. I don't see it yet. We're looking for, oh, where is it. What minute marker are you on? It should be at 6:59, you got few more, few more seconds, four more seconds, I see it. Right there, right there, off on the right and we have a better picture of this, but there is a historic mile marker for the turnpike, two hundred year old turnpike, that marks ten miles to Baltimore. That's on the MHT list. Mr., Mr. Motsco failed to identify that. That is on the subject property and it will cause them problems if they want

to do any kind of road work. Okay? Go ahead. Here's the curve. Stop here. On the left is Ms. Foxworthy's house, that is Bonaparte Ave, on the right is the entrance to the subject property. Also, just above to the right, you can see the barn, which was of so much interest last week, okay? That is Mr. Poehler's barn. Go ahead. And this is the traffic circle. And it should end pretty soon, yep, okay. What I would like --

CHAIR: Hold on one second, Dr. Clark.

DR. CLARK: Yes, sir. Yes, sir.

MR. HOLZER: Is that the end?

DR. CLARK: That should be the end, yes, sir.

MR. HOLZER: Okay.

CHAIR: And so, would that be Mount Vista Road?

DR. CLARK: No, that's Glen Arm going down.

CHAIR: Glen Arm going down, sorry. Mount Vista is on the other side, right?

DR. CLARK: Mount Vista is the other side, yes, sir.

CHAIR: Okay.

MR. HOLZER: Now, what was the purpose of showing that, I mean, is there anything you want to say now? Because Mr. Schmidt is going to be able to ask you questions.

DR. CLARK: Sure.

MR. HOLZER: As a result of seeing that. What is your point on showing that?

DR. CLARK: My point in showing that is primarily

that the Board understands that this is an RC-2 valley. It is, it is farmed, it does not have a lot of development and it is a unique locality. I would also like to the Board to, to, to, and the, one of the exhibits of the aerial views also exemplifies it, that the subject property sits at the highest point of land and that all sound is directed down what is basically a box valley. That, I have another video that I just shot yesterday and it wasn't provided to Mr. Schmidt, that maybe we can introduce but it's very short dash cam that was taken yesterday to show that from April till October, or from October till April --

CHAIR: Well, if, well, if you're going to describe the video --

DR. CLARK: Okay.

CHAIR: -- I mean, you can describe what you did personally, but don't describe the video.

DR. CLARK: Okay. But, can, can I say, can I say this?

CHAIR: I gave you advice.

DR. CLARK: Right, okay. If I get smacked, I get smacked.

MR. SCHMIDT: Can we just have Mr. Holzer ask him a question?

CHAIR: That's fair.

MR. HOLZER: That's fair. Okay. In terms of, I, I

don't want you to show a new video.

DR. CLARK: No.

MR. HOLZER: If Mr. Schmidt hadn't been provided, so let's just get away from that. And in terms of having seen the video, starting where you started and ending at the circle, what is your definition of the locality or the community?

DR. CLARK: That valley is my locality.

MR. HOLZER: Okay.

DR. CLARK: Well, no, --

MR. HOLZER: And where does it start and where does it stop?

DR. CLARK: Basically, from when you come up out of the park to, to Mount Vista Circle.

CHAIR: When you say park, Gunpowder Park?

DR. CLARK: Yeah, Gunpowder Park.

MR. HOLZER: Okay.

CHAIR: And, and goes to the circle?

DR. CLARK: Yes, sir.

MR. HOLZER: Is there, in your mind, the area that's north of the circle, is that part of your community or part of your locality?

DR. CLARK: I would include it as a locality but it is a different community, that is RC-5, it is more of a hamlet, suburban residential as defined, or rural residential as defined by, by, by the codes. They have --

MR. HOLZER: You mean by, defined by the zones?

DR. CLARK: Zones, yes.

MR. HOLZER: Okay.

DR. CLARK: Thank you, sir.

MR. HOLZER: All right.

DR. CLARK: They have, it includes a post office, gas stations, garages, which you did not see in what I consider my community, my locality. There are, there are much, almost call them McMansions along Mount Vista and then more modest new homes up on Harford Road, above the circle, going into Fork.

MR. HOLZER: In terms of the video that you just showed, I mean, we obviously saw some vehicles coming in an opposite direction. How is this, how is this road actually used up there, in, in other words, can you articulate a little more?

DR. CLARK: Yeah, yeah, yeah. Well, as you saw, there's a lot of farms, on either side of the road. There's a lot of farm vehicle traffic. There, there are pedestrians who actually walk on the shoulder. I walk on that shoulder, believe it or not. When I've had to take my car up to Fork, I walked down the road. Bicyclists use it. Then you run, you know, then there are hazards.

MR. HOLZER: What type of hazards?

DR. CLARK: Well, you have, when Mr. Dachico owned it and I guess he was renting it out, the, the pasture out, but we

would routinely have bulls come down to our property. One got pretty familiar with my '71 Dart.

MR. SCHMIDT: I'm sorry, I didn't hear?

DR. CLARK: Bulls.

MR. HOLZER: B-U-L-L-S.

MR. SCHMIDT: Bulls, I'm sorry.

DR. CLARK: Bulls, bulls, yeah.

MR. SCHMIDT: I didn't understand what he said.

DR. CLARK: Yeah, yeah.

MR. SCHMIDT: I thought he said bowls, I'm sorry.

CHAIR: I thought that at first too but that didn't, right.

MR. SCHMIDT: I'm sorry. I just didn't know what that was.

DR. CLARK: It's my, it's, it's my New York accent.

CHAIR: Got it. Okay. So, bulls, one, come down to your property with your '71 Dart.

DR. CLARK: Right, you know.

CHAIR: And then you were describing other hazards.

DR. CLARK: Right, and, and, and then you, and then you have deer, you have the hay wagons going up the road slowly, you have hay bales falling off. On our, on our easement area, we have pulled out mufflers, we have pulled out tires, we have pulled out all sorts of stuff that's not being dumped there, it just falls off of people's stuff. And so,

there are all these hazards that are associated with a rural road that is used for many different purposes.

MR. HOLZER: All right. Let's move on --

CHAIR: And if I, if I could ask, when was the video taken?

DR. CLARK: Yes, sir. That was taken, I believe, Mary, can you go back, the, go back --

MR. SCHMIDT: April the 10th, April the 10th.

DR. CLARK: Thank you, sir.

MR. SCHMIDT: It had up in the corner.

DR. CLARK: Thank you, sir.

MR. SCHMIDT: If that's correct.

CHAIR: And you personally took the video?

DR. CLARK: Yes, I did.

BOARD: Dr. Clark, is there anything on Exhibits 33, 32 or 31 that would identify the dates on each of these videos (inaudible)?

DR. CLARK: Now, I think you got me.

BOARD: That would be helpful.

DR. CLARK: Yeah, I know. What, what I can tell you, and I apologize for that, --

BOARD: Is it identified on each of the videos as it is here?

DR. CLARK: Yes, it will be.

BOARD: That's fine.

DR. CLARK: And, and then I should explain to you that within each video, if you, and I know this is geeky, but if you look at the file properties, yeah, you know what I, yeah, okay, thank you. I'm sorry.

CHAIR: It would be ideal, yeah, if we could match a date to the videos. I realize you may be not in a position to do that today, but perhaps that could be supplemented for the future.

BOARD: Or as you testify, if you could start out with the date that you create it.

DR. CLARK: Yeah, yeah.

BOARD: That would be helpful.

DR. CLARK: With, with the, with the gold disc, not a problem. With, and I believe --

CHAIR: Let's start with that, and we will see where that takes us.

DR. CLARK: Okay.

CHAIR: Because we're, I think, Ms. Dopkin's question was about when you're describing the videos and giving testimony about the videos, --

DR. CLARK: Right, yeah.

CHAIR: -- understanding it's only going to come from the snippets on the gold discs, that if you could somehow correspond some date so we understand what time of year and what we're looking at, that would be ideal. Sorry, Mr. Holzer.

MR. HOLZER: Sure. No. As a matter of fact, aren't some of the videos that you will show, actually were identified by the event that you were filming?

DR. CLARK: Yes.

MR. HOLZER: Okay. So, we'll get to that. We'll just be cognizant, be aware of that the Board is interested in --

DR. CLARK: Yes.

MR. HOLZER: -- prefacing what we're going to see with the date. Now, Mr. Dave Poehler testified, and I think you, you want to address some points that, that came up as a result of his testimony.

CHAIR: Is this on video?

MR. HOLZER: No, I don't think so.

DR. CLARK: No.

CHAIR: So, we can use the lights again?

MR. HOLZER: Yes. Actually, I, the Board could leave that light on, I mean, if you're going to turn these off, that's okay, we could leave your lights on so you can write or see.

CHAIR: Well, if it's not concerning a video, we mine as well just have the lights on. I'm sorry, Dr. Clark, do you remember the question?

DR. CLARK: Yeah, I do. Yeah, I just wanted to cover some, some things that were left un, that, that were ambiguous

last week in terms of Mr. Poehler's testimony. Regarding the variance, an attorney of known repute, repute owned the Bonaparte tract at the time Mr. Poehler applied for the variance, Mr. Dachico. In fact, I took a picture of the zoning sign, so I could see what Mr. Poehler wanted. Mr. Dachico knew better than most how to oppose Mr. Poehler and if he found the request objectionable, as Mr. Schmidt made clear, the attorney chose not to oppose this. If the current owners are unhappy, that's just the way it is. At least it was there when they purchased the property. As opposing counsel knows, such variances become permanent. This is why we're working so hard to make our case. This request will permanently change our, the character of our rural, RC-2 locality.

MR. HOLZER: Now, I, I know your wife Mary testified as to, as to music, I think. Do you have any comment or anything that you'd like to show in regard to that?

DR. CLARK: Yeah, we have a sound file from September 10th, 2017, of music coming off the property at night. Now, bear in mind, you know, we, we are maybe, well, we're about, well, we, we, we adjoin the property but anyway, she has a sound file music that I believe she took from her cell phone and then we, and then I also have photographs of car leaving, of cars leaving at night on 9/10/17.

MR. HOLZER: All right. Well, what exhibit are we going to next?

DR. CLARK: I believe the sound file. It will be, oh, it will be, it is on this --

CHAIR: Protestant's Exhibit 33.

DR. CLARK: Okay. It is just above Gunpowder Park. It's from, it, it is titled from deck, September 10th, 8:20 p.m. and then we have some photographs to accompany that.

MR. HOLZER: Well, let's do the sound first and then I'll do the photos.

MR. SCHMIDT: And Mr. Garber, I, I know I'm reserving my objections but I think, and I'm certainly not a tech person, but I would expect that, unlike videos, which we all know how to take pictures and operate video cameras and the videos show what they are. I would expect that, I would anticipate that the levels of sound or what you might be able to hear, may very well be able to be manipulated more easily depending on exactly what's going on and I'm not sure how this was done or if these folks are expert witnesses or any of that. So, I, I know I'm going to make my objections --

CHAIR: Well, Mr. Schmidt, no, I think it's appropriate to make, if you have an objection to the audio file.

MR. SCHMIDT: Yeah.

CHAIR: I think it's appropriate to do so now. I understand what you're saying is, it may not accurately represent the conditions, you know, as reflected on September

10th of 2017.

MR. SCHMIDT: Right.

CHAIR: Because, obviously, we're in a different environment, number one. But number two, you don't know how the file came to be and all that. But you're going to have that chance for cross examination.

MR. SCHMIDT: Right.

CHAIR: On that point. But recognizing (inaudible) than what was there.

MR. SCHMIDT: Yeah. I would, I would object because I just think the production of a picture or video I can understand that lay people can do that. I would not agree that sound, recordation of a sound, is the same kind of animal. So, I would object for that basis.

CHAIR: Mr. Holzer?

MR. HOLZER: This document, sound file, was entered into before the Administrative Law Judge.

CHAIR: Well, okay, well, leaving that part aside, I think it, we haven't heard it yet.

MR. HOLZER: Right.

CHAIR: But I will say that, obviously, that would go, you know, some of these issues would go certainly to the weight that we give the recording, which we have not yet heard.

MR. HOLZER: Right.

CHAIR: As to what, there's a question as to

authenticity or, or, you know, something, the authentication of this exhibit. Dr. Mary Clark, who apparently was the one who recorded it on her cell phone, is available if need be.

MR. SCHMIDT: She's already testified as well and didn't introduce it at that time.

CHAIR: Understood and that, we'll leave that to Mr. Holzer to figure out how he wants to deal with that issue.

MR. HOLZER: I just want to show the thing, if it's going to be --

CHAIR: Understood.

MR. HOLZER: -- stricken, it will be stricken.

CHAIR: I, I, --

MR. HOLZER: If it's going to be admitted, it's going to be admitted.

CHAIR: -- well, as of right now, I think Mr. Schmidt said that he had questions when it came to the authentication aspect of it, so we're not quite towards admission yet, but as to the condition objection, that would go to the weight.

MR. HOLZER: Dr. Clark, where did this come from in terms of your preparation for this hearing?

DR. CLARK: Okay. As I said, this came from Mary's cell phone from our deck. I am going to say that no files had been manipulated. I will swear to that.

MR. HOLZER: Well, you've already sworn to tell the truth, so let's, let's (inaudible) all that kind of stuff and

let's just get on --

CHAIR: Did you take the audio file from your wife's cell phone --

DR. CLARK: Yes, sir.

CHAIR: -- and then put it onto the disc?

DR. CLARK: Yes, yes.

MR. HOLZER: And it's listed on Exhibit 33, is it, I think it's thirty-three?

DR. CLARK: Yeah, yeah.

MR. HOLZER: And where is it listed?

DR. CLARK: It is the fourth one up from (inaudible), September 10th, 8:20 p.m.

CHAIR: Were you out with your wife on September 10th, two thousand, is it seventeen?

DR. CLARK: We were coming home, I believe.

CHAIR: Is it 2010, 2017?

DR. CLARK: Yeah, yeah, September 10th.

CHAIR: Two thousand seventeen.

DR. CLARK: Yes, that's 2017, thank you.

CHAIR: Okay and were you out on the deck when that was being recorded?

DR. CLARK: I can't remember.

CHAIR: Very well. Mr. Holzer?

MR. HOLZER: All right. Can we show it?

DR. CLARK: Hear it?

MR. HOLZER: Yeah, hear it?

CHAIR: I understand what your objections are.

MR. SCHMIDT: Yeah, I mean, I've made my objections so I, I think the ruling is up to the Board.

(AUDIO PLAYS)

DR. CLARK: That's probably enough (inaudible).

MR. HOLZER: Now, the witness, can you turn it off?

DR. CLARK: That's enough, okay.

CHAIR: I believe she's (inaudible).

DR. CLARK: I took my glasses off, so. There we go.

CHAIR: It's okay, take your time. It's not the end of the world here. We'll get it stopped.

MR. SCHMIDT: It speaks for itself.

CHAIR: Thank you, yes.

DR. CLARK: Can I talk over it?

CHAIR: Let's do this. Why don't we just take a brief recess and then we'll figure out where that, where we are, take five minutes.

MR. HOLZER: Okay.

DR. CLARK: Okay.

MR. SCHMIDT: Yes, sir.

MR. HOLZER: That's fine.

CHAIR: Okay. Thank you.

MR. SCHMIDT: Thank you.

(RECORDING PAUSED - 10:40:40 AM)

(ON RECORD - 11:05:46 AM)

MR. SCHMIDT: Thank you.

CHAIR: And once again, please make sure your cell phones are off from the break and Mr. Holzer, we had just heard the audio file.

MR. HOLZER: Yes.

CHAIR: I believe, Mr. Schmidt, you had said it, it represents what it represents or something to that effect. So, where is, where are we at now?

MR. HOLZER: I'm just ready to ask the next question.

CHAIR: Okay. You, Mr. Schmidt, is that your understanding then too?

MR. SCHMIDT: Yes, sir.

CHAIR: Okay, thanks.

MR. HOLZER: I mean, I understood he was going to object in writing or what, if that's what he, and I was going to respond to it and so I figured to get through this before the Board --

CHAIR: I was just reminding everybody where we were.

MR. HOLZER: Oh, okay.

CHAIR: And then we turned, and then we had to get the sound off.

MR. HOLZER: Right.

CHAIR: So, --

MR. HOLZER: We got that done.

CHAIR: I mean, we're all in agreement that that's where we were?

MR. HOLZER: Okay.

MR. SCHMIDT: Yeah, and I'll just, I'm sorry, Mr. Garber, I'll follow up with any objection. I, I, having listened to that, I don't know that I have any objection but.

CHAIR: Understood.

MR. SCHMIDT: Okay.

CHAIR: Okay, Mr. Holzer?

MR. HOLZER: Sure. Now, on September the 10th of 2017 when the sound was just played, that, before the break, are you on that date with me?

DR. CLARK: Yeah, I have a couple comments.

MR. HOLZER: Well, let me just ask you a question. You said that you were coming home and was it dark outside?

DR. CLARK: Um hm.

MR. HOLZER: Okay and --

DR. CLARK: Yes.

MR. HOLZER: -- when you got home --

CHAIR: Thank you.

MR. HOLZER: -- and the, the video, which had the sound going on that we just heard, what, what, if anything, did you do as a result of hearing what was heard?

DR. CLARK: Okay. First, I'm glad we all do agree that it is what it is, okay? The significance of that and the

photos I'm going to show are not about the noise level, obviously. What it goes to is the claim expressed last week that Mr. Poehler could not have heard music at night from the subject property. And Mr. Poehler is a lot closer to where that sound came from then we did and I think that this is a far more parsimonious explanation than an undocumented party at a house a half a mile away from Mr. Poehler.

CHAIR: And just to be clear for the record, Mr. Holzer, your question referencing video with audio, there was obviously no video, it was just the audio file.

MR. HOLZER: Yes, that's right.

CHAIR: Just for purposes of the record so they know that there's not a video that was on display with (inaudible).

MR. HOLZER: Right, that's, that is correct.

DR. CLARK: And then subsequent to that, I went up to the subject property and took some photographs of cars leaving.

CHAIR: On the same day?

DR. CLARK: Same night.

CHAIR: Or you mean, okay.

MR. HOLZER: And what time was that about?

DR. CLARK: Around 8:30, 8:40.

MR. HOLZER: Okay and had anyone testified that there were no events after 7:00 or 8:00 at night?

DR. CLARK: Yeah, I, I think Mr. Ghimire did.

MR. HOLZER: Okay and you, there's a series of three

photographs which you stapled together and I'll give one to Mr. Schmidt --

CHAIR: Prior to giving it to --

MR. HOLZER: Yes, yes.

CHAIR: -- Dr. Clark, for Mr. Schmidt to review.

MR. HOLZER: One, two, three, and I'm giving four to the Board.

CHAIR: Thank you.

MR. HOLZER: Four packs.

CHAIR: What number is this? Mr. Schmidt, I can hear you up here.

MR. SCHMIDT: I'm sorry.

MR. HOLZER: We're marking this as Protestant's thirty-five?

BOARD: 35-A, B and C?

MR. HOLZER: A, B and C. Make it easy. Now, are you, you okay, Mr. Schmidt?

MR. SCHMIDT: Yes, sir.

MR. HOLZER: Okay. Now, Dr. Clark, what is 35-A? Did you take this picture?

DR. CLARK: I did take these pictures.

MR. HOLZER: And did you take them the night of September 10th, 2017 after 8:30 or 8:40?

DR. CLARK: I did.

MR. HOLZER: Okay. Obviously, it looks like the

picture depicts that it was dark?

DR. CLARK: Correct.

MR. HOLZER: Okay. What does 35-A depict?

DR. CLARK: A couple things actually.

MR. HOLZER: Well, please tell us.

DR. CLARK: It, it, it is depicting one of the cars leaving subject property at that time of night and you can even see what side of the road he's on.

MR. HOLZER: What do you mean, what side of the road he's on?

DR. CLARK: He's heading south and he's in the north bound lane.

MR. HOLZER: I mean, what, what direction is he going?

DR. CLARK: He's going south.

CHAIR: I think it would be helpful if you could identify where you were taking the photos.

DR. CLARK: Oh, I was taking the photos from the corner of Bonaparte and Harford.

CHAIR: And which direction were you facing?

DR. CLARK: Well, in this one, I was, well, okay. Yes, I was facing east.

MR. HOLZER: Okay and so, are you alleging that that vehicle that was shown in the picture was on the wrong side of the road?

DR. CLARK: The picture shows what the picture shows.

MR. HOLZER: I understand that, but tell me. What, in your opinion, being there as the person taking the picture, was he on the right side or the wrong side of the road?

DR. CLARK: He was on the wrong side of the road.

MR. HOLZER: All right. Now, that was some sort of dark vehicle. 35-B, are you still standing in the same place?

DR. CLARK: I am.

MR. HOLZER: And where did the silver car come from?

DR. CLARK: From the subject property.

MR. HOLZER: And where is he headed?

DR. CLARK: Looks like he's trying to head south.

MR. HOLZER: Is he on the right or wrong side of the road?

DR. CLARK: I would have to say he's not on the correct side of the road.

MR. HOLZER: All right and Exhibit C is another photograph of a red car?

DR. CLARK: Correct.

MR. HOLZER: What, is that the entrance to the subject site?

DR. CLARK: That, yes. That was the entrance as it was configured at the time.

MR. HOLZER: Okay.

DR. CLARK: And you can see another car coming down

in the middle of the photograph, you can see his headlights.

MR. HOLZER: Those yellow-ish lights that are at the rear of, well, it's between the two poles that are depicted, that are seen?

DR. CLARK: Correct.

MR. HOLZER: Okay.

DR. CLARK: And you can see that there is no gate.

MR. HOLZER: At the time this was taken, there was no gate?

DR. CLARK: Right.

MR. HOLZER: Now, I would also like to add that as a district manager of trails, I have keys to a number of forest gates. They are closely guarded. We know the temptation of especially younger people when they have access to a property that they think is their own, that they will go up there without telling anybody in leadership.

CHAIR: I'm confused. What, what, --

DR. CLARK: Well, it's not unusual for young people to access --

CHAIR: No, I understand that. How does that relate to 35-C?

DR. CLARK: Well, because Mr. Ghimire testified that this could not have happened.

CHAIR: What's this?

DR. CLARK: The, the night time event with music and

I'm just saying well, you know, it's hard for, it, it's hard to control access. You don't know what people are, you, you don't know what you don't know.

MR. SCHMIDT: Mr. Garber, I'm just going to object. This, this is so speculative, talking about what young people might do and, and I just don't think it, I think it's too speculative and not credible testimony.

CHAIR: Mr. Holzer, would you, could you please stand, could you please stand when you're addressing us?

MR. HOLZER: I don't want to argue the issue. The pictures show what they show, the testimony, previous testimony, was that they didn't, they're not there at night after seven or eight o'clock, they were, they've got three cars going the wrong way, or two cars going the wrong way on the road, period, that's it. I don't want to go any further. So, don't say anything else, wait till I answer, ask you a question then we can get through this and I withdraw whatever was objected to.

CHAIR: That resolves that, okay.

MR. HOLZER: Thank you. Now, you were here the whole time, Dr. Clark, and you heard testimony from Mr. Callagero, is that not right?

DR. CLARK: No, that is right.

MR. HOLZER: Okay, that is right. Now, did you develop certain responses that you wanted to present to the

Board about his testimony?

DR. CLARK: I did.

MR. HOLZER: All right. Let, let's try to make this simple and quick, so just, just listen to my question and we'll get through this. In regard to Mr. Calagero's testimony, he testified, did he not, that he thought Harford Road was forty-five miles per hour, south of the site?

DR. CLARK: Yes.

MR. HOLZER: Okay and did you, well, we've already seen a vid, your video that was first shown showing the fifty mile an hour sign, is that right?

DR. CLARK: Correct.

MR. HOLZER: All right. Just for the record, so that I have, have it documented in terms of paper in the file, I think that's, is that four or --

BOARD: Three. Oh, four, never mind.

MR. HOLZER: Okay and this is thirty-six. Did you take this picture?

DR. CLARK: I did.

CHAIR: Hold on. (inaudible) photos.

BOARD: 36-A, B and C?

MR. HOLZER: Yes.

CHAIR: You said this picture.

MR. HOLZER: I'm sorry.

CHAIR: Thank you.

MR. HOLZER: I'm sorry, because I only thought that I had one there.

CHAIR: Mr. Schmidt, you've seen them?

DR. CLARK: Actually, this first one --

CHAIR: One second, sir, sir.

MR. SCHMIDT: I'm sorry. Just, I want to make sure, these are the black and white photographs of the speed limit sign?

MR. HOLZER: Yes.

MR. SCHMIDT: Yes.

CHAIR: The third photo I have is color.

MR. HOLZER: Yeah, there is a color picture.

MR. SCHMIDT: I only have two.

MR. HOLZER: Here.

MR. SCHMIDT: Oh, okay.

CHAIR: So, 35-C is the color photo, the first two, A and B, are black and white photos?

wo, A and B, are black and white photos?

MR. SCHMIDT: Yes, sir.

CHAIR: Okay.

MR. SCHMIDT: No objection.

CHAIR: Sorry. Mr. Holzer?

MR. HOLZER: Okay. Is there a date on that photograph, since I don't have a copy now?

DR. CLARK: Yes, and I misidentified it.

CHAIR: You can give it back.

DR. CLARK: Okay. I misidentified it. The first one is taken from, from, from Google View, okay?

MR. HOLZER: Okay.

DR. CLARK: It is dated August 2013. With that sign in the photograph.

MR. HOLZER: Okay.

CHAIR: With the speed limit sign on the --

DR. CLARK: Yes.

CHAIR: Isn't, and correct me if I'm wrong here, is this photo already in evidence?

BOARD: I was going to say that.

MR. HOLZER: It may, it may well be. I, I just have a list here.

MR. SCHMIDT: I think it is and I think Mr. Calagero, when he came back said that he had misspoken and it was, indeed was fifty.

MR. HOLZER: That's, he did say that. He corrected his, his prior testimony.

MR. SCHMIDT: Yeah.

MR. HOLZER: After he was told.

CHAIR: And it's understood, just to be clear for the record, when Mr. Holzer asked about south, he meant south of the site, heading north bound, there is a sign that is fifty miles per hour, which is depicted in 36-A, as well as the video

that we've seen this morning and perhaps is already in the same photo or a similar photo was already in evidence.

MR. HOLZER: Yes.

BOARD: 7-A is the, is 36-A.

MR. HOLZER: Right.

CHAIR: Protestant's?

BOARD: Protestant's. And Protestant's 7-B is the colored fifty miles an hour sign.

MR. HOLZER: Right.

BOARD: But we do not have Protestant's 36-B, so, put it in again.

MR. HOLZER: I don't have any more copies.

BOARD: No, no, no, I'm saying, --

MR. HOLZER: Oh, oh.

BOARD: -- in other words, let's just make another copy, we'll just mark it as we mark it --

MR. HOLZER: The, I think the point of the matter, this was prepared before Mr. Calagero came back and changed this opinion as to fifty miles, that's what --

CHAIR: Understood. Mr. Schmidt has already said he had no objection.

MR. HOLZER: Yeah.

CHAIR: So, those photos can be admitted.

MR. HOLZER: That's fine. All right. Do you have any other comments related to Mr. Calagero's testimony in, as

it related to traffic or entrance to the facility, etcetera?

DR. CLARK: Well, first, I, I would say that in relationship to the sign, Mr. Calagero testified that he drove that road several times a week and yet he did not know the speed limit.

MR. HOLZER: Okay. Continue.

DR. CLARK: All right. There was an exhibit, one of his road plans, I forget whether it was 6-A, B, you know, what, whatever those, those drawings were.

CHAIR: Well, we're going to need to identify that.

DR. CLARK: Yeah.

CHAIR: If this is going to be the substantive part of your testimony here.

DR. CLARK: Do we have, do we have his plans available?

BOARD: I mean, they're all in here. You have to, you'd have to look at it. I don't know which ones you want.

DR. CLARK: Thank you.

MR. HOLZER: I don't want to mess up the Board's, yeah, this, let me ask it another way. Is there, why don't you just say what you believe Mr. Calagero took a picture or showed or testified and tell him, tell the Board why he was wrong.

DR. CLARK: Well, --

MR. HOLZER: Or why you believe he was wrong.

DR. CLARK: -- if you remember, in the, in the video,

I stopped, I, I asked Mary to stop at Mark Lane and I said this is where Mr. Calagero identified a shot of the subject property incorrectly as being taken from Mark Lane when, in fact, it was taken from Sharon Drive.

MR. HOLZER: Okay. All right. Keep going.

DR. CLARK: All right. Initially, he failed to do a traffic count. Then he never did a traffic count during the event.

MR. HOLZER: Excuse me, during what event?

DR. CLARK: Oh, during the, the event from July 29 to August 3rd, July 28th to August 3rd.

MR. HOLZER: Of what year?

DR. CLARK: Of 2018.

MR. HOLZER: Okay.

DR. CLARK: All right.

MR. HOLZER: What else?

DR. CLARK: He failed to account for the weather during his traffic count. As you remember, October was a pretty rainy month. As a professional, I was really struck by, his first professional opinion was that the original entrance was safe and the proposed new entrance was less safe. And then when it became expedient, he testified to the opposite.

MR. SCHMIDT: Objection. I mean, I certainly have no problem with Mr. Clark testifying about his own personal knowledge. He, he's not a traffic engineer and this is just

like legal argument as to the, that Mr. Holzer can certainly make in his closing memorandum about the failures of the, if he was a traffic engineer and he took issue with his methodology, then that would be appropriate but Mr., he, Mr. Clark says as a professional, as a professional what, naturalist? That qualifies him to, to be able to render opinions on how the traffic study was done?

CHAIR: Okay, I understand the objection.

MR. HOLZER: I believe the witness, even though he's a lay witness, is entitled to testify as to evidence that was presented by a traffic expert or a land planner or any other expert that you choose to call. I mean, he can certainly opine what he believes is incorrect or evasive or whatever. So, I think it's an appropriate comment, not, should not be stricken.

CHAIR: I, I'm going to say, I do understand what Mr. Schmidt is talking about. I mean, there is some argument embedded within the testimony that is here's how I find that Mr. Calagero was not credible, right? And, you know, in terms of, well, he didn't do any traffic counts, he didn't do this, he didn't do that, he changed his opinion on it.

MR. HOLZER: Right.

CHAIR: And, and we know, Mr. Holzer, that you're going to be covering a lot of that ground in your closing memo no matter what happens from this. I, if there's a particular point, by all means, you can elicit it from Dr. Clark but

otherwise, I'll say that, you know, I've given him a bunch of leeway on it so far.

MR. HOLZER: Yes, you have.

CHAIR: So, I guess let's try to move on from there as best as possible, unless there's something specific to raise.

MR. HOLZER: Okay.

CHAIR: About Mr. Calagero's testimony and what Dr. Clark can provide an opinion upon.

MR. HOLZER: Sure. Okay, thank you. So, Dr. Clark, you disagree with many things that Mr. Calagero testified to about the site and about the road situation?

DR. CLARK: Yeah, and I would point out, Mr. Garber, that I have verbal comprehension and reading comprehensial, comprehension at the Ph.D. level.

CHAIR: Dr. Clark, no one here is questioning your, your abilities in this regard, no one is questioning anything about your area of expertise, your education, your background or anything like that. Mr. Calagero is a traffic expert --

DR. CLARK: I understand.

CHAIR: -- (inaudible) from the Board. I understand that you have, you differ in opinion with him as to certain points. If you're saying well, he didn't do a traffic count at first, the question of whether one should be done, you can't give an opinion on.

DR. CLARK: No, I cannot.

CHAIR: Right. We were certainly here to, to witness, obviously, the same testimony you were. Mr. Holzer is going to be presenting arguments in his closing memo regarding Mr. Calagero's testimony, any type of faults that he finds with Mr. Calagero's testimony and any changes of testimony by Mr. Calagero during the course of the two times he was on the stand here in during, over the several days of this hearing.

MR. HOLZER: Right.

CHAIR: So, nobody is here questioning your ability to be able to do that.

DR. CLARK: I think Mr. Schmidt did when he dismissed me as a Ph.D. master naturalist.

CHAIR: Okay. We can move on from there. We can move on from there.

DR. CLARK: Okay.

MR. HOLZER: All right. And specifically, in his inclusion of his report for, for police, or for accident report, did he utilize a strip or a portion of Harford Road that you believe was, was not appropriate?

DR. CLARK: Yes, he, he included, as you recall, I pointed out where he started at Hutschenreuter and then he went up to Mount Vista Court. The section from the traffic circle to Mount Vista Court is a straight, flat road and, of course, the accident rate there is going to be much reduced.

CHAIR: Where?

DR. CLARK: We have a video.

CHAIR: Right, you said the, the accident rate there, where --

DR. CLARK: The Mount Vista Road, the --

CHAIR: North of there?

DR. CLARK: No, yeah, from traffic circle to Mount Vista you wouldn't expect any accidents in there.

CHAIR: Isn't the traffic circle at Mount Vista?

DR. CLARK: No, Mount Vista Court, I'm sorry, sir.

CHAIR: Okay.

DR. CLARK: Mount, yeah, yeah, it gets, and we do have a video of that.

MR. HOLZER: Did you, did take a video, is there a video? How long is it?

DR. CLARK: I don't think it's very long, I mean, it's a short stretch of road.

MR. HOLZER: Okay.

DR. CLARK: It's a half a mile.

MR. HOLZER: And how, did you take it through your vehicle?

DR. CLARK: Dash cam.

MR. HOLZER: Dash cam again?

DR. CLARK: Again. I, I, I created it.

MR. HOLZER: Okay. Can we show it?

BOARD: Can you identify it?

DR. CLARK: Oh, yes, ma'am. It should be, I think we're going to the fourth one from the top, Circle to Mount Vista Court, A-2?

CHAIR: And what date was this taken?

MR. HOLZER: October 22nd.

CHAIR: Well, that's the date that's on the computer file so that could be when it was uploaded, we don't know.

MR. HOLZER: Oh.

DR. CLARK: Yeah, no, I agree with you. I, I'm, --

CHAIR: If you do not know the answer to that sitting here today, I'm sure you could provide it at a subsequent time.

DR. CLARK: I guess I better mark, I guess I better write that down.

CHAIR: Well, we need to know what we're looking at and what it is.

DR. CLARK: Yeah, I, I know. I'll just, all right.

BOARD: Does it show on the clip itself?

DR. CLARK: Yeah, I think it does. I think it, I think the date stamp is on there. Thank you. Upper left hand corner.

CHAIR: Oh, it is 10/22/18.

DR. CLARK: And that's Mount Vista Court.

MR. HOLZER: Okay. That's the end?

DR. CLARK: That's the end.

MR. HOLZER: Now, do you believe that that, fact that he included that flat stretch we've just seen, change his analysis or his opinion in regard to the accident rate?

MR. SCHMIDT: Objection. How, how can this witness know if that change --

CHAIR: Please stand.

MR. SCHMIDT: I'm sorry, I apologize. How could the witness know if that changed Mr. Calagero's analysis? He would have to get into the mind of Mr. Calagero to, to answer that question.

MR. HOLZER: The simple answer to that is he doesn't have to get into Calagero's mind. What he's saying is that the flatness of the road where the, where he believes there are less accidents wouldn't automatically change the analysis of the, of the traffic count or the accident count. It's that simple.

CHAIR: I think if you worded your question differently, you probably could avoid the objection.

MR. HOLZER: Maybe so.

CHAIR: Well, because as, as asked, I have to sustain it, I believe, but I believe you can ask the question in another way that you can get what you need out of it.

MR. HOLZER: That's all right. Thank you. No, I'm not going to ask it.

DR. CLARK: I --

CHAIR: There's no question pending, sir.

DR. CLARK: Thank you.

MR. HOLZER: I'm trying to avoid repetition of, of, of your comments, of your testimony. You've already testified that Mr. Calagero did not attend any of the special events that took place, is that correct?

DR. CLARK: I believe that's what he testified.

MR. HOLZER: Right, okay. Is there, is there any relevance to August 29th evidence that, in regard to the traffic count?

DR. CLARK: Yes.

CHAIR: Two thousand eighteen?

MR. HOLZER: Yes.

DR. CLARK: Yes.

MR. SCHMIDT: I'm sorry, I didn't hear what you said, Mr. Garber?

CHAIR: I was just clarifying the year for the record, that it was 2018.

MR. SCHMIDT: Twenty eighteen, I'm sorry.

MR. HOLZER: Twenty eighteen, yeah.

MR. SCHMIDT: I just didn't hear you, I apologize.

CHAIR: That's all right.

MR. HOLZER: What is the relevance, do you have any evidence or video of, of that?

DR. CLARK: Yeah. We have, we have, we do have a

video or what, back up. The, the barbecue at Joann's house, at Ms. Foxworthy's house.

CHAIR: Thank you.

DR. CLARK: That we held on July 29th, the Sunday.

CHAIR: I'm sorry, the question was about August 29th.

DR. CLARK: No, sorry.

CHAIR: No, I understand.

DR. CLARK: Yeah.

CHAIR: I just want to make sure that we're on the same page, about the same thing before we go down some road.

DR. CLARK: Correct, right.

MR. HOLZER: Right.

CHAIR: So, are we talking about August 29th or we talking about July 29th?

DR. CLARK: August 29th.

CHAIR: Okay.

DR. CLARK: I apologize.

CHAIR: It's quite all right.

DR. CLARK: But the, we had a barbecue up there and I have a security system, which also has motion sensitive cameras and so we brought that up there and placed it on her fence facing east subject entrance. And this particular clip shows the traffic, not even of, of, of, of anything going on with, with their property, although there are people pulling in and out, you will see how much traffic is going there, is using

Harford Road on a Sunday.

MR. HOLZER: And how long is this video?

DR. CLARK: I don't think it's very long.

CHAIR: Can you please identify it on Protestant's Exhibit 33?

DR. CLARK: Yes, yes, yes. I believe it's cam 115001, which would be at the top.

CHAIR: The second line down?

DR. CLARK: No, third line.

CHAIR: Third line down.

DR. CLARK: 001, yeah.

CHAIR: Thank you.

DR. CLARK: A-3.

CHAIR: When the video pulls up, can you just confirm that that is the video (inaudible).

DR. CLARK: Yeah, that, that's, that's not it.

CHAIR: Right, no, I, this is the conclusion of the last video.

DR. CLARK: Right, thank you.

CHAIR: So, before you go into anything else, just please confirm it's the same video.

DR. CLARK: Can, can I, can I help her? Mary, click on the, click on, no, right next to where you were, there you go, all right, you got there.

CHAIR: And that's 115001?

DR. CLARK: Yep, second one down.

CHAIR: And this is what you're referring to, right?

DR. CLARK: Yeah, well, it was.

CHAIR: Okay. The date stamp says July 28th of 2018.

MR. SCHMIDT: And, and (inaudible) Saturday --

DR. CLARK: Yeah, that, that is --

MR. SCHMIDT: -- and I think the witness said, he was testifying about a Sunday.

DR. CLARK: Right, but, so apparently I was wrong. That's good enough, Mary.

MR. HOLZER: No, don't turn it off yet.

DR. CLARK: Okay.

MR. HOLZER: I want to try to save some time. While you are looking at that, I know this is out of order of your presentation, but the sign, the two signs that are on the center island of the entrance way, explain the signage issue now instead of waiting for later.

DR. CLARK: Correct, I got, I got it.

MR. HOLZER: Since it's there, everybody can see it.

DR. CLARK: I got it.

MR. HOLZER: What's the sign, is that an appropriate sign under Baltimore County Code requirements?

DR. CLARK: No, it is not.

MR. HOLZER: And explain what happened.

DR. CLARK: Can we have Mr. Arcias' (phonetic) permit

application? And the code enforcement order? Can we, can I, can we have that now?

MR. HOLZER: Okay. If we can find it. Well, this is the code enforcement.

DR. CLARK: I also need the --

MR. HOLZER: Where's the sign --

DR. CLARK: Mary would know that.

MR. HOLZER: Okay. Sign file. Okay. I'm just trying to save the Board some time.

CHAIR: No, it's okay.

MR. HOLZER: If, if, while this thing is up, and then it can understand what is going on.

CHAIR: Well, we have, we have the photos of the sign that were put in earlier.

MR. SCHMIDT: Right.

MR. HOLZER: Right.

MR. SCHMIDT: And the sign has been removed.

CHAIR: The sign has been removed and there was testimony about how that came to be and what the problems were, I think, from Mr. Ghimire.

MR. HOLZER: All right. Well, we want the documents to show what, what, --

CHAIR: Right.

BOARD: Mr. Holzer, one more three?

MR. HOLZER: What's that?

BOARD: One more?

MR. HOLZER: Oh.

BOARD: Thank you.

MR. HOLZER: I don't have --

CHAIR: And this is thirty-seven, Protestant's thirty-seven?

BOARD: Thirty-seven.

MR. HOLZER: Did you have any problem (inaudible)?

MR. SCHMIDT: Just as to relevance, but I'm sure I'll be overruled so.

CHAIR: All right. Hold on, before we go any further. Let the Board take a look to rule on the objection. And you heard the objection from Mr. Schmidt. What is your response?

MR. HOLZER: The response is, it's what took place, it's appropriate it's not here for determining whether it's a code violation or not, it's here to determine whether, whatever Baltimore County rules and regulations are or whatever the applicant is told, it doesn't seem to make any difference, they go ahead and do whatever they want anyway and then subsequent, subsequently they had to be, it had to be reversed and the sign taken down.

CHAIR: Have we, have we not established that already on, with the (inaudible) examination of Mr. Ghimire, that the sign had to be taken down because it was not in compliance with

the Baltimore County zoning regulations?

MR. HOLZER: Yeah, I, he, he said that, but we don't have the witness, Mr. Clark being able to explain. This is a consistent thing. I mean, you've heard code violation the first day and I understand --

CHAIR: Mr. Holzer?

MR. HOLZER: -- the Board, could I put it on the record, sir?

CHAIR: I'm just, my question was solely limited to, is the evidence that you want to put in, that is, that the sign was not in compliance and I understand your argument --

MR. HOLZER: Yes.

CHAIR: -- and I understand what your argument will be down the road.

MR. HOLZER: Okay.

CHAIR: As to the nature of the sign being up and why and --

MR. HOLZER: I don't recall whether, when, on cross examination of Mr. Ghimire, whether or not we had the actual code violation and we had the actual picture of what the sign was supposed to be, which was one sign. So, I don't know, I don't recall that going in as a document and if it did, then there's no harm in putting this in over the objection. It just simply, it's a packet that shows everything that related to the sign while it was up on the, up on the wall.

CHAIR: I think you need to lay a foundation as to why this witness would be appropriate for that purpose. Not saying you can't get it in, just a matter of this witness and the foundation through this witness for whatever purpose you believe it has relevance to.

MR. HOLZER: That, that's, I couldn't do that until everybody had ruled on the motion to accept it but I, now I can. Dr. Clark, explain why this is relevant, why you're putting it in and what is the purpose of your --

DR. CLARK: I would point your attention to the third page, the picture that was submitted to the County.

MR. HOLZER: All right.

DR. CLARK: Their, their promise was a single panel sign meeting code requirements. What you see up there is not what, is what they promised the County.

CHAIR: I got to, got to jump in here again. This is ground I believe we have already covered, that is, that, I believe Mr. Ghimire testified that it was confusion on their part and you may have an argument as to whether it's confusion or, or what the intent is. But it was confusion from their part as to why they had the double faced sign instead of a single face sign and that the single face sign was what was required by the County. And it's just why the double faced sign then came down and they put up a new sign.

MR. HOLZER: It wasn't, he testified, but Mary

testified, as I remember, that it had to do with height, not square footage.

CHAIR: I believe it was both in terms of the height and also the double face.

MR. HOLZER: But that's not, that's not in my notes.

CHAIR: Okay.

MR. HOLZER: But if it is, if I missed it, okay. But the, I don't know why we're arguing. If it already came in, then what's the prejudice against this document coming in?

CHAIR: Well, number one, how is this witness authenticating anything or providing anything further with this?

MR. HOLZER: Because he went to the County and got the documentation.

CHAIR: That's the question I've asked you to, to lay some foundation that --

MR. HOLZER: I'm sorry, I, I, I apologize. I apologize. Did you go to the County and get the documentation that's the subject of this exhibit?

DR. CLARK: Yes, sir.

MR. HOLZER: Okay and you received this information directly from the County?

DR. CLARK: Yes, sir.

MR. HOLZER: You made copies of it for the Board and for counsel?

DR. CLARK: Yes, sir.

MR. HOLZER: I would offer it.

CHAIR: Mr. Schmidt, do you have anything you would like to say?

MR. SCHMIDT: I just, I just don't know what the relevance is to the special exception, Mr. Garber, and, and I'll --

MR. HOLZER: It's, the --

CHAIR: Mr. Holzer, wait, let Mr. Schmidt finish, please.

MR. SCHMIDT: If I could, if I could just finish? And, and I, you know, I resent and my clients resent this implication that my client doesn't pay any attention to what the County says and Mr. Holzer's speaking objection. It's not, it's not appropriate.

CHAIR: Mr. Schmidt, you, your, your objection is relevance, right, correct?

MR. SCHMIDT: It is.

CHAIR: Okay. Mr. Holzer, do you wish to address that?

MR. HOLZER: Yes. As we've said all along, if there are certain rules that developers have to comply with, whether it be a violation, code violations, etcetera, I understand this Board doesn't decide code violations. I understand that. But code violations are relevant as to the motive and as to the

intent and the potential future of conditions that this Board may apply. And so, you know, it's all, I, I remember back in the old days, oh, just do what you want to do and then ask for forgiveness. That's a history that I've learned over thirty years of doing this. So, okay, just do what you want to do. The point of the matter that that history doesn't address is upon who does enforcement of this Board's Order if it decides to grant the, the special exception? Who enforces it? I know People's Counsel has gone to all sorts of lengths to try to get this Board's conditions complied with and I've experienced that. So, as part of the factor of the Board deciding if you'd grant it, to attach conditions seems to me it's the responsibility of this Board to make sure that you are satisfied that your conditions will be enforced and accepted and applied, not make, not say, we put the conditions on, let the community go out and enforce it and that happens. So, that's why I think, I understand, I'm overwhelming the Board with documentation but I've been there, I've done that and the Board has to understand that if you grant this special exception, that you can't look to the community to enforce your Orders.

CHAIR: Okay. Mr. Holzer, --

MR. HOLZER: I'm sorry, I apologize.

CHAIR: That's okay.

MR. HOLZER: I withdraw, but I, I just am

frustrating.

CHAIR: Are you withdrawing? Because then, then it's not in evidence.

MR. HOLZER: No, I'm not, no, I'm not going to withdraw it. I stand on what I say.

MR. SCHMIDT: Mr. Garber, I'd just like --

CHAIR: You seem to want to address that point.

MR. SCHMIDT: -- just, just, if I could just briefly be heard? First of all, this Board obviously is not the Division of Code Enforcement. If there is a violation, that is the agency of County government that will enforce any violation and as you have no doubt seen after five and a half days, if my clients sneeze the wrong way during the operation of this property, they will be reported by Mr., by Dr. Clark or one of the other Protestants to the community. So, Mr. Holzer's premise that it's up to you to make sure your conditions are enforced is, in my opinion, legally incorrect. That's not the responsibility of this Board. But more to the point, the entire inference of this, I mean, the reality is, the neighbors complain because traffic backs up and people can't see the entrance. So, my clients go out and get a sign and because of the way the intersection is laid out, they get a side --

CHAIR: Let's --

MR. SCHMIDT: -- let me finish, let me finish if I may, sir.

CHAIR: We're not going to get into why the sign was there or anything like that.

MR. SCHMIDT: You gave Mr. Holzer an opportunity, Mr. Garber.

CHAIR: Hold on, Mr. Schmidt. He was explaining why it was relevant. You explain to me why it's not relevant, not as, as to the intent or whatever the, why they're putting the sign up or not, in response to whatever is being alleged. So, just address the point about it being irrelevant or, you know, whether it should be admitted, that's all I'm asking.

MR. SCHMIDT: Mr. Garber, you allowed Mr. Holzer to go on and on about the justification of the admission of this document and the relevance of this document was because my clients are unreliable and would not be, and would not be abiding by any conditions that you would impose. That's what I just heard Mr. Holzer say in about a five minute speaking objection as to why the document is relevant. I think I'm entitled to rebut that or at least address it, sir. If you're telling me I'm not, I will sit down.

CHAIR: I'm telling you, you're allowed to address it as terms, in terms of the relevance, not as to why the sign is up or was not up, or whatever the case may be, because that's evidence that you're trying to argue on.

MR. SCHMIDT: I'm not trying, I'm doing nothing more than trying to address and respond to Mr. Holzer's argument.

CHAIR: Oh, please continue.

MR. SCHMIDT: It is not relevant as it relates to the special exception and there is no relevance in the Board enforcing its own conditions that it may impose and I take umbrage to the suggestion that my clients are operating illegally. First of all, it's not relevant to this proceeding, but even the inference of that, I take umbrage to and it's not factually correct. Thank you, sir.

CHAIR: Thank you. It'll be admitted because it was part of the testimony from Mr. Ghimire and sheds light as to the facts testified to by Mr. Ghimire previously. But obviously, the weight of it will, as to the special exception factors, we're not sure where that's going to go. Thank you.

MR. HOLZER: Right, I understand.

DR. CLARK: Mr. Garber?

MR. HOLZER: No.

CHAIR: Dr. Clark, there's no question pending.

DR. CLARK: No, I got to go.

CHAIR: You got to go?

DR. CLARK: I got to go.

CHAIR: You mean, all right, are we going to take a break?

MR. HOLZER: A restroom.

CHAIR: That's what I figured. He wasn't talking about leaving for the day.

MR. HOLZER: No.

CHAIR: I'm sure he was prepared to be here for a bit.

MR. HOLZER: Yes.

CHAIR: So, yeah, why don't we take a ten minute break then. And then we will be back at twelve, I guess.

(RECORDING PAUSED - 11:48:45 PM)

(ON RECORD - 12:01:51 PM)

CHAIR: And we're back. All right. Dr. Clark is on the stand.

MR. HOLZER: Yes. Dr. Clark, let's go to Mr. Motsco, do you remember who he was?

DR. CLARK: Yeah, but there were, we, we got distracted by the sign on the Calagero, so.

MR. HOLZER: I, I understand.

DR. CLARK: Okay.

MR. HOLZER: Let's go to Mr. Motsco.

DR. CLARK: Okay.

MR. HOLZER: Okay? Who was he?

DR. CLARK: I believe he was their land planner.

MR. HOLZER: Okay and did, when we look at the previous exhibit, yes, I just, whichever (inaudible). When one looks at the packet that was accepted, we had the code enforcement correction page one, we had the sign use permit page two, we had a drawing of a proposed sign on three and then

on the next to last, there was a, an exhibit as part of the application from Little & Associates, Inc., is that correct?

DR. CLARK: Yes.

MR. HOLZER: All right and this was submitted as part of the signed documents that you requested?

DR. CLARK: That is what I received from the County as included in his application package.

MR. HOLZER: Okay and it's very difficult to read what is in the upper right hand corner of that document, is that not true?

DR. CLARK: Correct, that I have 20/15, 15/20 vision and I can't really see it.

MR. HOLZER: Right, it's very, it's very small. If I show you this, --

MR. SCHMIDT: Just as a reminder, since we came back from break, if you have your cell phones on, please turn them off.

MR. HOLZER: I'm going to hand you, after Mr. Schmidt has a chance to look at it, of a blow-up of that document. Did you, well, I won't ask you any questions until he has a chance.

MR. SCHMIDT: Okay. I reviewed it. Thank you, Mr. Holzer.

MR. HOLZER: Okay. That document that was submitted to the County, in the County file for the permit, was an original drawing of the proposal as I, as I see it, is that

correct?

DR. CLARK: Yes.

MR. HOLZER: Okay and when one looks at the zoning request on this document, it says special exception relief pursuant to code section to allow a community building owned by a non-profit, civic or improvement association and used by its members and guests for recreational, social, educational or cultural activities, some, in the RC-2 zone, semi-colon, and for a church or other building for religious worship?

DR. CLARK: Correct.

MR. HOLZER: Okay. Let me ask you, do you, did, did Mr. Motsco, according to your understanding of his testimony here, introduce a, a photograph or testify about what was inside of the building, do you remember?

DR. CLARK: Yeah, I think there was a picture, and he said he went there and he saw a hundred and fifty chairs or so.

MR. HOLZER: Okay.

DR. CLARK: And I think we have a photo of that.

MR. HOLZER: Yes, we do. (inaudible). Oh, okay. It was already submitted, Larry, as 9-L, Petitioner's Exhibit 9-L.

MR. SCHMIDT: Yes, I believe that's the one.

MR. HOLZER: Right.

MR. SCHMIDT: And I think he counted eighty-six chairs, or something like that.

MR. HOLZER: Right.

MR. SCHMIDT: And the one that's submitted as an exhibit is in color?

MR. SCHMIDT: Yes, sir, that's correct.

MR. HOLZER: Yes, and this is just a black and white.

CHAIR: I just noted that that's a black and white photo, there's one in color, (inaudible).

BOARD: Is there an objection to thirty-eight?

MR. SCHMIDT: Yes.

BOARD: Objection --

MR. SCHMIDT: It hasn't been offered, I don't believe, but.

MR. HOLZER: Well, I offered, offered it.

MR. SCHMIDT: I don't think it has any relevance. I, I'm not, I noted, I, I noted that the language is all highlighted and --

CHAIR: The language is highlighted?

MR. HOLZER: That was only on my copy, not on the Board's.

MR. SCHMIDT: Oh, okay. I assumed you got something that looked like this.

CHAIR: No.

MR. HOLZER: No.

CHAIR: My copy is now highlighted because that's the section that he read.

MR. SCHMIDT: Okay. Mine, mine was red underlined as

it was handed to me.

BOARD: The exhibit doesn't have highlights.

MR. HOLZER: Right.

MR. SCHMIDT: Okay.

CHAIR: And, and neither does the copy provided by the Board, except for I literally just highlighted it when Mr. Holzer was reading.

MR. SCHMIDT: Okay.

MR. HOLZER: And I gave him my copy.

BOARD: And (inaudible).

CHAIR: Yes. Yes, Exhibit 38 is actually --

BOARD: It's a blow-up of thirty-seven.

MR. SCHMIDT: Yes, sir. Yes, ma'am, it is. It is, it is, and I still object to it.

BOARD: Okay.

MR. SCHMIDT: I don't think it's relevant, it's taken out of context, I can explain if you want, but I object.

CHAIR: All right. Well, it's going to be received because it's already part of Exhibit 37, it just makes it visible and legible, you know, for the Board to look at to the extent it has whatever weight connected to why we're here. That's a matter that I guess we'll talk about at another time.

MR. SCHMIDT: Okay and let me just say for the record, if I can, Mr. Garber, so it's clear for any subsequent proceedings, that the reason that I did not, oh, I think I did

object to thirty-seven, but I would have also identified the same objection to thirty-seven that I made as to Exhibit 38, but I, as I think everyone agreed, I could not read Exhibit 37 to make that objection at the time.

CHAIR: Mr. Schmidt, and, and to make that clear for the record, yes, I interpreted your objection to thirty-eight as also incorporating that to thirty-seven.

MR. SCHMIDT: Yes, sir. Thank, thank you.

CHAIR: Yes.

MR. HOLZER: Is there any, from your laymen's per, perception and position, what relevance does the picture of the hundred and fifty chairs or so from Mr. Motsco's testimony and introduction by the developer, Petitioner, what do you have to comment on that?

DR. CLARK: Well, it looks to me like Mr. Motsco knew of other planned uses for the site. And again, I'm going, I'm going to say as a professional researcher, I was struck by his lack of intellectual curiosity --

MR. SCHMIDT: Objection. I, I, Mr. Garber, this is, this is, I'm, I'm sorry, sir, but this is totally inappropriate that, same objection as to Mr. Calagero and commenting on something that other professional did.

CHAIR: Mr. Holzer?

MR. HOLZER: I don't have any reaction.

CHAIR: (inaudible).

MR. HOLZER: I'm sorry, I have no reaction.

CHAIR: So, that's, okay. The objection is sustained.

MR. HOLZER: Okay.

DR. CLARK: Okay.

MR. HOLZER: Any other issue in regard to that point before we go into another topic?

DR. CLARK: Okay. Still Mr. Motsco?

MR. HOLZER: Yes.

DR. CLARK: Okay. He, he failed to inform his clients of several historic facts and monuments related to the development of that property.

MR. HOLZER: Okay and how do you know that?

DR. CLARK: Because I, I looked up the national historic district of Long Green, I pulled down the map that is registered with the Department of the Interior identifying and, and I specifically printed a section of that map. And then I also obtained, downloaded the Maryland Historic Trust document that states the Long Green historic district is, in fact, a historic district.

MR. HOLZER: All right. Let me do this.

DR. CLARK: And I believe we have a better picture of that mile marker that I pointed out.

MR. HOLZER: Well, we'll get to that in a second.

DR. CLARK: Okay.

MR. HOLZER: And do you have any objection to (inaudible)?

MR. SCHMIDT: No, I don't have any objection to the exhibit. I, I do object to he's saying, him saying Mr. Motsco failed to inform his client. How does he know what Mr. Motsco told my client. If he would just testify as to what he found, it would make it easier.

MR. HOLZER: I'll move to strike it.

CHAIR: Well, I, I'd actually, think a bit, the objection is appropriate. I don't think he can critique Mr. Motsco in terms of what he said or did not say without knowledge of everything that went on in terms of the communications but Mr., or excuse me, Dr. Clark can say is what he did in terms of his research.

MR. SCHMIDT: Sure.

CHAIR: On, as to the historic aspects that I believe we're about to get into. And to the extent that there's any difference between that and what Mr. Motsco has previously presented, I'm sure Mr. Holzer will be pointing that out to us at another day, another time.

MR. SCHMIDT: Okay.

MR. HOLZER: Thank you.

CHAIR: So, yes, so objection is sustained, Mr. Schmidt.

MR. SCHMIDT: Thank you.

MR. HOLZER: So, so you got this as a result of your, just your testimony, you, you obtained this which shows that the Long Green Valley historic district is where it is?

DR. CLARK: Yes.

MR. HOLZER: Okay. I'd offer that as the next exhibit.

CHAIR: And no objection, so it's admitted.

MR. HOLZER: Thank you. Before I show the witness the next exhibit, Mr. Schmidt can take a look at it. Okay?

MR. SCHMIDT: Yes, sir. I mean, I don't know what it is, obviously, it's the side of a road, but, I mean, --

MR. HOLZER: Yeah, it's already been shown on the video when, when he, Dr. Clark stopped the video and said there's a marker.

CHAIR: And I'm sure he's about to --

MR. HOLZER: Yes.

CHAIR: -- identify, Dr. Clark, Protestant's Exhibit 40, what is, can you identify what's in, what's in Protestant's Exhibit 40?

DR. CLARK: Yeah, and I think we have a better picture of it.

CHAIR: But even still.

DR. CLARK: But, but --

CHAIR: We're talking about Exhibit 40.

DR. CLARK: -- it, it, it is, it, it is a mile marker

that was put there at least a hundred and fifty years ago identif, when it was the Baltimore Harford Turnpike. That roadbed is a historic roadbed. There, it, there is a monument marker down in the park. But this particular marker is right across from my house and it marks ten miles to Baltimore.

CHAIR: Okay.

DR. CLARK: It's been there, you know, forever.

CHAIR: Okay and did you take that photograph?

DR. CLARK: I did and it's on the Maryland Historic Trust inventory.

CHAIR: You mean, the marker is, not the photograph?

DR. CLARK: Yes, yes.

CHAIR: And then, does this fairly and accurately depict the, what is depicted in, I guess, Exhibit 40 at the time you viewed it?

DR. CLARK: Yes, sir.

CHAIR: Any objection, Mr. Schmidt?

MR. SCHMIDT: No, sir.

CHAIR: Okay. So admitted. Now, we were also presented a second photograph now, Protestant's Exhibit 41.

MR. SCHMIDT: And no objection to that either.

CHAIR: No? Okay, very well. No objection to Exhibit 41. That is, that is also admitted.

DR. CLARK: I get mine before they get theirs.

MR. HOLZER: I can't, can't imagine you have an

objection to (inaudible) --

MR. SCHMIDT: No, just like to know where this is.

DR. CLARK: This is in --

CHAIR: Hold on one second, sir. One second, sir. So, we're now looking at Protestant's Exhibit 42. First thing, can you please identify what's in Exhibit 42?

DR. CLARK: Exhibit 42 shows a State of Maryland State Roads Commission historic marker identifying the Baltimore and Harford Turnpike Company. It is taken, this is, this is at, I'm trying, this is in the Gunpowder Falls Park, on Harford Road, it's, it's right at, there's a, used to be an old park ranger building on the right and it's at, it's in that area.

CHAIR: Okay and does this fairly and accurately depict what you viewed on the day of the photograph?

DR. CLARK: Yes, sir.

CHAIR: And, okay. Do you know when you took the photo? Approximately?

DR. CLARK: It would have been, geez, that, that would probably be in the spring from the trees, because I didn't take it recently.

MR. HOLZER: Twenty eighteen?

DR. CLARK: Yes, 2018.

MR. HOLZER: Okay.

DR. CLARK: Do you need me to give that specifically?

CHAIR: Mr., Mr. Schmidt, any objection?

MR. SCHMIDT: I, I'm not trying, I just don't know what the relevance, I mean, this was taken in the park and I even think he described the locale as from the park to the property, so it's apparently outside the locale. I mean, I mean, it doesn't, I, I don't know what the significance of it is in this case, but I don't have any, it shows what it shows and it is where it is, so, I'll defer to the Board.

CHAIR: And, and it's understood that it relates back to the testimony regarding the mile marker that's on the subject property referencing Baltimore and Harford Turnpike.

MR. SCHMIDT: I, yeah, I get, yes, sir, but I don't, I don't know what the significance of that is either, but I guess we'll, we'll find out.

CHAIR: Fair enough. It'll be admitted.

MR. HOLZER: Okay, thank you.

DR. CLARK: I also believe we --

CHAIR: Sir, there's no question pending.

MR. HOLZER: How long do you want to go because I'm getting into another area now?

CHAIR: How long do you think that will be? As best as you can --

BOARD: Before you answer that, I have a question, Dr. Clark.

DR. CLARK: Yes, ma'am.

BOARD: Would you go to Exhibit 37 with the site plan (inaudible).

DR. CLARK: Is that, is that, or do you want the whole, the, are we talking about --

BOARD: The site plan, which is the first page, Exhibit 37.

DR. CLARK: Okay, I'm, --

BOARD: (inaudible).

DR. CLARK: Yeah, yeah. I, I guess, oh, no, I've got it. I'm sorry. Yep.

BOARD: Is your property, can you locate your property on this for us?

DR. CLARK: I'm sorry?

BOARD: Could you locate your property on this?

DR. CLARK: Yep, yep, yep.

BOARD: Because I can't read it.

CHAIR: Can you, can you --

DR. CLARK: Yeah.

CHAIR: -- actually take your pen --

BOARD: Mark it.

CHAIR: -- and mark the property and put your initials above it? Thank you, Mr. Holzer.

DR. CLARK: He's going to give me a red pen.

VOICE: No, no, this is the exhibit copy, use this.

CHAIR: Right, using the witness copy is not going to

help as much.

DR. CLARK: All right.

BOARD: After you do that, would you similarly mark on here the approximate location of the mile marker you're talking about?

DR. CLARK: Yes, ma'am.

BOARD: Since you said it was opposite your property?

DR. CLARK: Yep. Okay, I --

CHAIR: Show Mr. Schmidt before you start testifying.

MR. SCHMIDT: Just, just want to --

MR. HOLZER: Are you finished?

DR. CLARK: Yes, I believe so.

MR. HOLZER: It's hard to read this but.

DR. CLARK: I can tell by the --

MR. SCHMIDT: Okay, so he's --

CHAIR: Hold on, hold on, Dr. Clark.

MR. SCHMIDT: He's, he's this one?

MR. HOLZER: Yeah.

MR. SCHMIDT: Okay. Okay.

MR. HOLZER: Do you want to make sure?

MR. SCHMIDT: Yeah, no, that's fine. I was just, no, that's fine. That's good, thank you.

CHAIR: Mr. Schmidt, you saw that?

MR. SCHMIDT: Yes, sir.

CHAIR: Okay.

BOARD: That was my question.

MR. HOLZER: And let me just put on the record, it's hard to read, but he has identified as his house on the opposite side of the road from the subject site and there's a, a red dot with MM, mile marker, it's very hard to read but it, it's very small, but that. And I have one question for you. Did you testify during the video that the mile marker is on the subject site?

DR. CLARK: Correct.

MR. HOLZER: And I believe you said something about changing the road in that area could be a problem?

DR. CLARK: Yes, sir.

MR. HOLZER: Okay. That's all, I just wanted to clarify it. Members of the Board, I'm looking at the rest of the presentation. It'll be more videos at, in the second half and depending on how far we get through it, there could be one or two more, more difficult issues. If you catch my drift.

CHAIR: Fair enough.

MR. HOLZER: So, I don't know whether this is appropriate time to take a lunch break or what you would like to do.

CHAIR: Is it at all possible to try to resolve any difficult issues that you anticipate during the course of the break?

DR. CLARK: No.

CHAIR: You don't, that is, you do not think that they will be resolved during the course of a break?

MR. HOLZER: No, they will not.

CHAIR: Very well. My intent today would be to try to get through all of Dr. Clark's testimony.

MR. HOLZER: We would like to do that.

CHAIR: And cross examination to the extent we can possibly do that. So, please, I guess everyone, keep that in mind, because we don't want this to drag into another day, you know, to the extent that can be avoided.

MR. HOLZER: I agree. That's why I intend to use the lunch break to try to narrow down some areas.

CHAIR: Yes, and we do appreciate that. With that in mind then, if now is the appropriate time to break, is what I'm hearing, --

MR. HOLZER: Yes.

CHAIR: -- Mr. Schmidt, Mr. Holzer?

BOARD: (inaudible).

CHAIR: I should ask that, does anybody else have a hard stop today?

MR. SCHMIDT: No, sir.

CHAIR: Hard stop time.

MR. HOLZER: Oh.

CHAIR: That is, you're not getting on a plane at like 7:00 or something?

MR. HOLZER: No, but the faster I can get out of here the better.

CHAIR: I think Mr. Schmidt will agree to that.

MR. SCHMIDT: No, I, I, I agree and I have no hard time, I'll stay here as long as you would like to stay here.

CHAIR: Okay. Dr. Clark, same?

DR. CLARK: I'm at your convenience.

CHAIR: All right. Well, with that in mind, how long do you think for lunch, an hour?

MR. HOLZER: Yes.

CHAIR: Or do you think we can come back at like 1:15, which is fifty minutes?

MR. HOLZER: One fifteen is fine.

MR. SCHMIDT: I'll be here when you tell me to be here.

CHAIR: And, okay, that's what I'm asking you, would that be sufficient for you?

MR. SCHMIDT: Sure, yes, sir.

CHAIR: To actually get lunch and do what we need to do?

MR. SCHMIDT: Yes, sir.

CHAIR: Check in with other things, or whatever?

MR. SCHMIDT: Yes, sir, that's fine. Thank you.

CHAIR: Yeah, okay.

MR. HOLZER: Okay.

CHAIR: Very well.

BOARD: Last instruction, you can't talk to the witness.

MR. HOLZER: I won't.

BOARD: Oh, no, not you, but the witness can't also talk.

DR. CLARK: I understand.

BOARD: To anyone else, okay, thanks. Perfect.

CHAIR: Right. Off the record.

(RECORDING PAUSED - 12:23:23 PM)

(ON RECORD - 01:29:20 PM)

CHAIR: Just so counsel knows, during the break, Mr. Clark asked me if it was okay to be either on that side of the Board of Appeals (inaudible) because his wife is in here. I said, you can be in there, you just can't talk about your testimony or anything to do with this case.

MR. HOLZER: Right.

CHAIR: You know, and that's pretty much where the conversation ended. But just so everybody knows that that --

MR. HOLZER: I stopped in and --

CHAIR: Right.

MR. HOLZER: -- we were not, they were not communicating.

CHAIR: Right, and I, not thinking that they would, but just that there was a conversation.

BOARD: (inaudible).

MR. HOLZER: Pardon?

BOARD: They're not communicating, they've been married thirty-three years.

MR. HOLZER: Gee, I should have just automatically made notice of that fact, right?

CHAIR: But anyway, I just wanted to bring it to everyone's attention, but that was the conversation.

MR. HOLZER: Okay. I'm ready.

CHAIR: All right.

MR. HOLZER: Okay. We're back on the record, I will tell the Board that I have gone through an outline that I had and I've gone from page six to nine.

CHAIR: Oh.

MR. HOLZER: I hope that helps as far as the time. However, --

CHAIR: Well, it's your case and I figured you'll know what's best.

MR. HOLZER: One more, one more question before I move to page nine. Mr. Clark, in terms of another document that you wanted to put in in the record, there was, in regard to the, the State Highway Administration, there was, you had communications with State Highway Administration that you got a response back from them, did you not?

DR. CLARK: Yes, I did.

MR. HOLZER: Do you recall when that was?

DR. CLARK: I'd have to see the e-mail, but it's the one that was referenced last week.

MR. HOLZER: Was it in, was it in 2018?

DR. CLARK: Yes, it was.

MR. HOLZER: It was recent, okay. And before I ask you any questions about it, I hand it to the Board. Let Mr. Schmidt take a look at it.

DR. CLARK: Can I look at it now?

MR. HOLZER: Yeah. Well, you can have it, you can't look at it.

CHAIR: Well, hold on, right. Mr. Schmidt, did you have a chance to review?

MR. SCHMIDT: I've, yes, sir. Yes, sir.

CHAIR: Thank you.

MR. SCHMIDT: I've seen it.

CHAIR: Thank you. And if I'm not mistaken, this is forty-three, Protestant's forty-three?

BOARD: It is, yes.

MR. HOLZER: Forty-three. Is it okay to --

CHAIR: Yes.

MR. HOLZER: -- ask questions now?

CHAIR: Yes.

MR. HOLZER: Okay. Mr. Clark, obviously, from this Exhibit 43, you had contacted the State Highway Administration?

DR. CLARK: I had contacted Mr. Rich Zeller, who is the branch chief for State Highway access permits.

MR. HOLZER: Okay.

CHAIR: And were you, is your e-mail address historictimekeeper@gmail.com --

DR. CLARK: Yes, sir, it is.

CHAIR: Hold on, wait until I finish my question. Your e-mail address is historictimekeepers@gmail.com?

DR. CLARK: Yes, sir.

CHAIR: Okay.

MR. HOLZER: And is it appropriate that on July 2nd, 2018 you wrote to him at, which is on this, on this page at the bottom?

DR. CLARK: Um hm.

MR. HOLZER: Just briefly, and I mean briefly, explain what you were seeking and what response you got.

DR. CLARK: I had previously met with Mr. Zeller and there's an affidavit in the preliminary motion to that extent. About what the appropriate use was for the access at 12231 Harford Road. At that time, he told me that it was not, it, it was, it was not appropriate to be using it as a commercial access and that is how he classified it and then I wrote him the letter below, giving him specific references to testimony and, and, and all of that, in the, in the ALJ. And then he wrote back the note above. It is my understanding that the

County has not approved this site for the proposed use temple. The SHA has not approved the existing entrance for this use. From the SHA perspective, this should not be operating at all. Will the County be shutting them down?

CHAIR: Just by way of a quick correction, the sentence from the SHA perspective, this site should not be approved --

DR. CLARK: Oh, thank you.

CHAIR: Will the County be shutting them down?

DR. CLARK: Thank you.

MR. HOLZER: And the date of that response was July 5th?

DR. CLARK: Yes, sir.

MR. HOLZER: Of 2018?

DR. CLARK: Yes, sir.

MR. HOLZER: Did you make any follow-up to this in terms of whether or not there's been a final --

DR. CLARK: No, but what I did do is I, I forwarded this to Mr. Mohler, Mr. Jablon, various people asking them what are you going to do? Got no response.

MR. HOLZER: Okay and then ultimately you sat here during the hearing and heard the testimony of, of where conceptually the State Highway Administration has suggested an alternate route?

DR. CLARK: Okay.

MR. HOLZER: Just answer my question.

DR. CLARK: Yes.

MR. HOLZER: Okay and, and so, when was the last time you got a confirmation from State Highway?

DR. CLARK: Monday before this one.

MR. HOLZER: October 22nd, is that --

DR. CLARK: Yeah, yeah.

MR. HOLZER: Okay. Okay. Do you have anything else that you need to add to what we've established there?

DR. CLARK: Well, yeah, I, what, the, the 22nd contact, October 22nd contact, --

MR. HOLZER: Right.

DR. CLARK: -- was a phone call asking Mr. Zeller where this stood.

MR. HOLZER: Okay.

DR. CLARK: He told me no application had been submitted and he told --

MR. SCHMIDT: Objection. Hear, objection, hearsay.

MR. HOLZER: Well, hearsay is permitted here where it's an agency --

CHAIR: It is and I think it's also consistent with what Mr. Calagero said.

MR. HOLZER: Yeah.

CHAIR: That there was no application that has been submitted as of yet anyway.

MR. SCHMIDT: Okay.

DR. CLARK: Yeah, and that no site plans had been submitted.

MR. HOLZER: Okay. All right. That's going to be all for page six. So, we're moving on and I want to direct your attention to the, the land use portion of our, of our presentation, okay? Because --

DR. CLARK: Oh, we're up to page six, yeah.

MR. HOLZER: -- because it seems to me that this Board would like to see something in terms of the video that is, that is germane to the question. So, let's go to the first video. Could you explain what they will be seeing in that video?

DR. CLARK: Well, I'm probably going to be surprised too. I think it's a video involving volleyball or, actually what I would prefer to do is go to the video called Solitude.

MR. HOLZER: No.

DR. CLARK: Okay.

MR. HOLZER: You're going to do what I ask.

DR. CLARK: Okay.

MR. HOLZER: You're going to go to that video, explain what it is and when it was taken, if you know.

DR. CLARK: I don't even, I'm, I'm not even clear which one we're going to.

CHAIR: All right. Well, just take a moment to

regroup. Which, which video are we going to play? And Mr. Holzer, you can take a minute with your clients, that's fine.

MR. HOLZER: Yeah. I want to go to the first one. Okay. Just go to the first one so we can get this show on the road.

DR. CLARK: Okay. If you referenced it by the, by this paper, by, by this cheat sheet.

MR. HOLZER: Yes.

DR. CLARK: Then I would be able to --

CHAIR: Protestant's Exhibit 33.

DR. CLARK: -- yeah, which, which video is it on thirty-three? Oh, well.

MR. HOLZER: She's going down to it now. Solitude.

DR. CLARK: Oh, Solitude, okay. So, we are going to do Solitude.

MR. HOLZER: What is that video going to show?

CHAIR: Hold on one second, please. Just if I can,--

MR. HOLZER: Oh, I'm sorry.

CHAIR: -- because we keep referencing Solitude. It was --

BOARD: It was handwritten (inaudible).

CHAIR: -- hand, thank you, yes, on the bottom of Protestant's Exhibit 33, there's a handwritten note that says Solitude A-4.

DR. CLARK: Okay.

CHAIR: Is that what we're referring to?

DR. CLARK: Yes, sir.

CHAIR: Okay and seeing this, does that match it?

DR. CLARK: Yes, sir.

CHAIR: Okay. So, the video matches the description.

DR. CLARK: Yes, sir.

MR. HOLZER: And who took this?

DR. CLARK: I did, but.

MR. HOLZER: All right. I want you to lay the foundation.

DR. CLARK: All right. Can Mary pause it?

MR. SCHMIDT: (inaudible).

DR. CLARK: What this is, is a video with sound taken from my porch pointing east to Harford Road and subject property.

CHAIR: When was the video taken?

DR. CLARK: Mary would have to go back to the file, but it, it would, it would have been in the spring.

CHAIR: So, we'll just say spring of 2018 (inaudible)?

DR. CLARK: Correct, sir. This was taken with, with, with a Nikon D7, D750 and a mounted microphone, okay? Do I need to describe what they will hear on the video?

CHAIR: No.

DR. CLARK: No.

CHAIR: You do not need to describe what we will hear.

MR. HOLZER: Just --

CHAIR: Right now, this is you sitting outside the back of your, looking at the back of your house?

DR. CLARK: Yes, sir.

MR. SCHMIDT: Can I just ask what time of the day this was taken, if he knows, if, if you know? You don't know?

DR. CLARK: I can, I can provide that.

MR. SCHMIDT: Okay, that's okay.

CHAIR: No, that's fine. You can try to get that information?

MR. HOLZER: Yes.

CHAIR: All right. Why don't we play the video?

(VIDEO PLAYS)

DR. CLARK: That's probably enough.

MR. HOLZER: Go, go ahead, ex, explain.

DR. CLARK: Okay. There are, some of the, I, I have, over the course, now I lost my place, of, what page are we on?

MR. HOLZER: Nine.

DR. CLARK: Nine, nine. Well, there were forty-two separate instances of this between, actually between May, May 20th and June 20th of --

CHAIR: What do you mean by this?

DR. CLARK: By, instances of these kind, of these

kinds of recordings, okay?

CHAIR: You have forty-two different recordings between May of this year and --

DR. CLARK: April and into June, okay?

CHAIR: And this is one of the forty-two or --

DR. CLARK: This is one of the forty-two.

CHAIR: All right. So, between April and June of this year, you did forty-two recordings.

DR. CLARK: Right.

CHAIR: And this video we just saw with the audio, was one of the forty-two?

DR. CLARK: Correct. And what it, and what it document --

CHAIR: One second.

MR. SCHMIDT: And I just wanted to, just, are they all part of the library?

DR. CLARK: Yes, sir.

MR. SCHMIDT: Okay.

DR. CLARK: Yes, sir.

MR. SCHMIDT: Thank, thank you.

CHAIR: Go ahead, Mr. Clark.

DR. CLARK: What, what they document are when, are the fact that they were using the volleyball court during those times. Also, I think Mr. Schmidt was confused about how to characterize my wife's testimony. As you can see, there is, it

is very quiet there and the cars do, in fact, sound like waves breaking on the surf. It is not two million cars going up there a year, sounding like 95. There has been testimony and, and, and, and also there have been assertions in various media that they were not using that as a regular volleyball court.

CHAIR: They were not using the court as a regular volleyball court?

DR. CLARK: Right, right, for, for regular volley, but, as I said, I have forty-two instances. Now, I, can I explain one thing, Carroll?

MR. HOLZER: Sure.

DR. CLARK: Okay.

CHAIR: Hold on. Respond to a question, don't ask your attorney (inaudible). Mr. Holzer, if you have a question you would like to ask Dr. Clark, please do.

MR. HOLZER: Please explain.

DR. CLARK: Okay. Very early on, we realized that this could not be a he said/she said kind of case. So, given my background as a researcher and given that we had decided this cannot be a he said/she said, we started documenting things very early on. And that explains why our video evidence is so extensive. All right? We weren't going to play around with this.

MR. HOLZER: Okay.

MR. SCHMIDT: Mr. Holzer, can, while that's up, can I

ask one, just one, or one or two questions?

MR. HOLZER: Yeah, sure. Sure.

MR. SCHMIDT: Thank you. Mr. Clark, I've just, this was taken from your yard?

DR. CLARK: It was taken from my deck, yes, sir.

MR. SCHMIDT: And there was a, there was a car that drove by that was kind of in the, --

DR. CLARK: Right.

MR. SCHMIDT: Okay. So, those trees that we're looking at, that's in your yard?

DR. CLARK: Correct.

MR. SCHMIDT: And then Harford Road is on the other side of those trees?

DR. CLARK: Correct.

MR. SCHMIDT: Okay. I just wasn't clear if, if, if that car was on the subject property or on Harford Road.

DR. CLARK: No.

CHAIR: Just to be clear, what we are face, what we are looking at, the Petitioner's property would be on the other side of those trees?

DR. CLARK: Yes, sir.

CHAIR: Okay.

MR. SCHMIDT: Well, you get to Harford Road and then the Petitioner's property.

CHAIR: Yes, and then, right. That, that part is

understood. Just, because before I thought we were actually in the back of his house facing away. I understand we are facing, actually facing the property.

DR. CLARK: Yes, my, my, my backyard faces the property.

CHAIR: Understood. Okay, that's why I was turned around.

MR. SCHMIDT: And just one other, and, and there was, there was volleyball going on?

DR. CLARK: Yes, sir.

MR. SCHMIDT: Okay.

DR. CLARK: And, and that's the shouting you heard and there, and there are others where you hear the ball and all, and there are some where it sounds like they're right in our backyard.

CHAIR: Mr. Holzer?

MR. HOLZER: I'm sorry, I was, I was --

CHAIR: Oh, no, no, no, I'm saying --

MR. HOLZER: She said that the, that the volume was turned down from before and she wanted to replay it showing what the volume was at a normal volume.

CHAIR: I, I think we got a sense of what was going on.

MR. HOLZER: You could hear the volleyball?

CHAIR: Yeah.

MR. HOLZER: Okay.

CHAIR: Well, whatever noises were captured.

MR. HOLZER: Whatever, right.

CHAIR: I heard it.

MR. HOLZER: Okay.

CHAIR: I'm not going to speak for everybody up here, but I heard various noises on the recording.

MR. HOLZER: Yeah, that's fine.

BOARD: I heard birds chirping.

MR. HOLZER: I (inaudible) the other one.

BOARD: That's all I heard.

MR. SCHMIDT: That's kind of what I, that's kind of what I heard.

BOARD: Well, why don't we --

CHAIR: You want to play it again?

BOARD: Five or ten seconds?

MR. HOLZER: Yeah, just a little bit.

DR. CLARK: Yeah, it, it's, it's in the first thirty seconds that you can, that it really comes up. That's, I think that's plenty.

MR. HOLZER: That's enough. Is that enough?

CHAIR: Ms. Dopkin?

BOARD: Fine, thank you.

MR. HOLZER: Thank you.

DR. CLARK: Now, can I --

CHAIR: There's no question pending, sir.

DR. CLARK: Okay, okay, all right.

MR. SCHMIDT: Okay. So, just from an exhibit, that's, is that forty-four? Are we marking that as an exhibit or what?

CHAIR: I'm still under the impression that this is among the snippets in Exhibit 29.

MR. SCHMIDT: Okay.

CHAIR: But I'm marking it on, how I'm cataloguing it is on Protestant's Exhibit 33, the order in which they're being played.

MR. SCHMIDT: Okay, thank you. I just --

CHAIR: That being the fourth video part of the presentation.

BOARD: (inaudible).

MR. SCHMIDT: That's fine. I just wanted to make sure we weren't marking it as its own exhibit, that's, I was just trying to keep track.

MR. HOLZER: Did you ever find a document in which there was a discussion by the applicant of the barn, use of the barn?

DR. CLARK: Yes, we did.

MR. HOLZER: And how did you find that document?

DR. CLARK: That was on a Facebook page.

MR. HOLZER: A Facebook of who?

DR. CLARK: I believe Mr. Carky.

MR. HOLZER: Okay.

CHAIR: So, the barn we're referring to is the barn on the subject property, not, not Mr. Poehler's barn?

MR. HOLZER: Yes. No, no, the barn on the subject, subject property.

CHAIR: Mr. Schmidt, let me know when you're ready to proceed.

MR. SCHMIDT: Okay.

MR. HOLZER: Okay. I handed it to the witness.

CHAIR: Well, wait a second. Mr. Schmidt's not done yet.

MR. SCHMIDT: I, I've read it.

CHAIR: Okay. Are you ready to, are we ready to proceed then, Mr. Holzer?

MR. HOLZER: Yes, yes.

CHAIR: This is exhibit what, forty-four?

MR. HOLZER: On Exhibit 44, you have a copy of it, Dr. Clark?

DR. CLARK: Yes, I do.

MR. HOLZER: All right. How was this taken?

DR. CLARK: It's a screen shot.

MR. HOLZER: And of what?

DR. CLARK: Of a particular page on Mr. Carky's Facebook page. You can just barely make out www.facebook and

then Shayam Carky and, on the upper side.

MR. HOLZER: And does it indicate when it was posted, in case the Board wants to know that?

DR. CLARK: I can't read it on this.

CHAIR: Yeah, I mean, we have a date on here --

MR. HOLZER: It's under, it's May something underneath Shayam Carky.

CHAIR: Oh.

MR. HOLZER: If you see it. May 10th or May 19th, I can't --

CHAIR: Yeah, it's really faint.

DR. CLARK: Okay, yeah.

MR. SCHMIDT: What Shayam Carky are you, --

DR. CLARK: Well, you can see pictures of him off to the left. It's his Facebook page. The, the Mr. Carky who is, who is connected with this --

CHAIR: One second. Mr. Schmidt, if you look at the thumbnail photo in the center, top center of the page.

MR. SCHMIDT: Yes, sir.

CHAIR: And then it says the name Shayam Carky after that. And then immediately after that, in really faint writing, there, there's a, additional information, one of which appears to be a date that is admittedly hard for me to make out, but I think I do see something that says five something or other.

MR. SCHMIDT: It, it's --

MR. HOLZER: May 10th or May 9th, I can't tell which.

MR. SCHMIDT: On the copy, on the copy that I have, I, I, I don't even see that but.

CHAIR: Underneath the name?

MR. SCHMIDT: Can I approach?

CHAIR: Yeah.

MR. SCHMIDT: Maybe you can show me where you're pointing.

CHAIR: Right here. But again, I can, maybe Mr. Holzer can. Can, Mr. Holzer, can you please point out for Mr. Schmidt?

MR. HOLZER: Right here.

MR. SCHMIDT: Oh.

MR. HOLZER: I, I thought it was either May 10th or May 19th.

MR. SCHMIDT: See, my copy doesn't show that.

MR. HOLZER: You're welcome, that one doesn't show it either. I'll give you mine.

CHAIR: Mr. Schmidt, you, looking at Mr. Holzer's copy, can you make out the date?

MR. SCHMIDT: It looks like it says to me May the 19th. But I, I don't see --

CHAIR: Is there a year?

MR. SCHMIDT: -- I don't even see a year.

MR. HOLZER: Twenty seventeen, I think.

CHAIR: Well, we're going to have to figure that part out later. But all it says is May 19?

MR. HOLZER: Correct.

CHAIR: That's what you're representing?

MR. HOLZER: Yes.

CHAIR: That was posted and Mr. Schmidt, you agree, it says at least May 19th?

MR. SCHMIDT: It says May, it looks like it says May the 19th. I don't see a year on either --

CHAIR: Why don't we do this? Can, do you have the exhibit copy? Can you see it?

BOARD: No.

CHAIR: Mr. Holzer, if your copy is better than the exhibit copy, I would recommend putting your copy in as the exhibit copy, as exhibit copy so that that's preserved in the record. Because I can, I can tell you the exhibit copy is incredibly faint as well.

MR. HOLZER: If you think this is better, you're welcome to it.

CHAIR: That is definitely better.

BOARD: (inaudible).

CHAIR: So, we are replacing the originally tendered forty-four version with the one that clearly shows the date of May 19th.

MR. HOLZER: That's fine with me. And if we could move on. What was the purpose of your taking this off of Mr. Carky's Facebook page?

DR. CLARK: Well, it, it describes future plans.

MR. HOLZER: And, and particular reference to the barn, which I started all this with.

DR. CLARK: Right.

MR. HOLZER: What is the potential proposal and where do you find it on this document?

DR. CLARK: Well, if, if you look, I'm sorry, I should have waited. If you wait, if you look half way down, the, the long section that's highlighted, it reads, barn is huge and may accommodate up to a thousand people. However, all the wooden walls are rotten and the whole structure may need to be rebuilt. May be a good project for a large auditorium hall, community center and what not for 2022. We started discussing the possibility of building a home for the elderly just like the Indian community is building one next to the Sheba Vishnu Temple. It goes on and describes later on other recreation center type activities, such as a 5K run and all that kind of stuff.

CHAIR: Dr. Clark, when did you take this screen shot?

DR. CLARK: It would have been in 2017.

CHAIR: And who is Morgan?

DR. CLARK: She is the one that we, that was there when I took, when we took it, we were using her account.

MR. HOLZER: And she will be testifying probably the next time.

DR. CLARK: May I? No?

MR. HOLZER: No.

CHAIR: No question is pending, sir.

MR. HOLZER: Does the Board have any more questions?

MR. SCHMIDT: If this is being offered, I'm, I'm going to object and just for the record, we don't know when this is, apparently May 19th. We don't know what year it is, I, I think it's just highly prejudicial. Dr. Carky, who is the author of these comments, apparently, isn't the Petitioner in this case. It's the owner of the property, Nepali Community Center. Whenever these comments were made, may have been one man's vision of what he would like to see on the property, but that's not the Petitioner. The Petitioner is the Nepali Community, Baltimore Community Cultural Center and it's just so highly, I mean, we're requesting what we're requesting in the Petition for Special Exception and has been described in the site plan that we submitted. There's no plan shown for a change to the barn, there's no elderly housing. I mean, this, it, it's just, the purpose of this is to just, it's so prejudicial I think it outweighs any probative value. It's just for the purpose of trying to infer that we're going to do

something that we're not proposing.

MR. HOLZER: Oh, that's, that --

CHAIR: Mr. Holzer?

MR. HOLZER: -- certainly isn't what it's for. It's to show that they have multiple opportunities to talk to their members. Mr. Carky is a board member, he is a participant, he's been here, he's testified on behalf of the, of the organization and yes, this is exactly what I was referring to earlier this morning in terms of there have multiple proposals that using thirty acres as opposed to 2.2 And do they, do they want to do it now? Maybe not. They don't show it on the site plan now, but it is a potential and it is prejudicial to the community not to have the Board be aware of what potential could be down the line because if you do want to grant a special exception, and you do want to attach conditions, you might be able to use these facts in order to form a conclusion or form a reason why you are attaching condition to the, to the approval. So, it is entirely relevant and it's, you know, there's no way that the applicant can just come up and say, oh, this is all we're going to do and then not have information relative to what their plans may be or will be or are without going into the evidence before the Board, that's, that's my position.

CHAIR: Okay.

MR. SCHMIDT: Mr., Mr. Garber, first of all, Dr.

Carky has not testified in this case. I think Mr. Holzer is wrong about that.

MR. HOLZER: Well, Mr. Carky did, I don't know --

MR. SCHMIDT: Not testified in this proceeding, he's not testified before the Board of Appeals. In any event, I mean, this is a, this is a group, you, you've heard that this is the Nepalese community, when I say that, I don't mean the corporate structure, but it's the people of Nepalese heritage who live in the greater Baltimore area who may be using this temple at some point in time to worship. There, you've also heard that there's as many as ten thousand people in the Nepalese community in the greater Baltimore area. I, I'm sure there are one or ten or hundred or however many there are who would love to have a huge facility here and who might express that on their Facebook page. But that's not what's being proposed. And the, the inference here, the continued inference, it's not, it's not even an inference, is that my clients are not going to do what they're proposing to do, they're going to do something else, there's no evidence of that other than these, these allegations and it's just so speculative, it's just prejudicial and it doesn't have any probative value. Quite honestly, who cares what one member of the congregation would like to do if he had the authority to do that? Moreover, this Board can impose conditions and restrictions on the grant of any relief and I said before, I

think I argued a couple days ago in a prior hearing, that if the Board indicates that the proposal will be as be shown on the site plan and if there's an amendment to that, the Petitioner would be required to file, the typical process would be a Petition for Special Hearing to amend a prior site plan, it's done frequently as shopping centers may add a new wing, a new store, I mean, it could be anything. That's just an example. Then that's acceptable to the Petitioner. But for this witness and this ongoing inference of oh, they're not going to do what they're saying, they're going to say they do, they're going to build an elderly housing facility, it's just, first of all, it's wrong and secondly, it's prejudicial and I don't think this is reliable evidence. So, with that, I'll be quiet.

CHAIR: Is there any last response from you, Mr. Holzer, proponent of the evidence?

MR. HOLZER: A nice response. Mr. Carky is a founding board member, one of the largest donors --

CHAIR: Is that in evidence as of yet?

MR. HOLZER: Pardon?

CHAIR: Is that in evidence as of yet?

MR. HOLZER: No, not yet. But it is with some of their documentation, I think. It, and it, look, --

CHAIR: Here's where we're at. I, Mr. Schmidt's point about how this ties back to the organization is a fair

one. I understand what you're trying to do, I think for now, it'll just be received but not admitted as of yet. You can still continue with your foundation to show that it should be something that maybe does tie back to the community organization, but if this is as understood, one person's viewpoint, that becomes a bit more attenuated to the matter at hand.

MR. HOLZER: He happens to be the corporate charter signer.

CHAIR: We're, it's not in evidence yet.

MR. HOLZER: All, all right.

CHAIR: You can put --

MR. HOLZER: You're going to be, you're going to be discovering a lot of future evidence in the next couple of cases.

CHAIR: That's fine, but it needs to be in evidence--

MR. HOLZER: Then just mark it for identification.

CHAIR: -- unless you're going to proffer the fact that that's what you're going to do.

MR. HOLZER: Yes.

CHAIR: Is put that in evidence, correct?

MR. HOLZER: I'm going to put --

CHAIR: So, then once that's put in evidence, we can revisit the ruling to see if it should be admitted.

MR. HOLZER: Fine.

CHAIR: All right. So, it's identification only at the moment.

MR. HOLZER: The corporate charter is already in.

CHAIR: The corporate charter is in but we, but it, again, Ms. Murphy?

MR. HOLZER: It's the signatory, it's his e-mail.

CHAIR: Mr. Holzer.

MR. HOLZER: I, I'm sorry. If, if, if delay is the purpose of (inaudible) --

CHAIR: Ms. Murphy, I think it's around, it was day one, I believe, or day two. (inaudible).

MR. SCHMIDT: What are you looking for? I got --

CHAIR: The charter.

MR. HOLZER: I believe it was the motion.

CHAIR: Oh, well, the motion is not substantive evidence.

MR. HOLZER: I understand that.

CHAIR: Right, so that's not in evidence then at this point so that you're going to have to put that in evidence.

BOARD: Oh, wait, Petitioner's five.

CHAIR: Petitioner's five.

MR. SCHMIDT: Petitioner's number five is articles of incorporation in Nepali, I believe.

CHAIR: Okay. It does identify Mr. Shayam Carky as, (inaudible), as trustee of the corporation.

MR. SCHMIDT: Right. Doesn't, doesn't --

CHAIR: So, as to whether or not this --

MR. SCHMIDT: -- change my objection. He's a member of the organization.

CHAIR: I understand. And I also understand this was done May 19th, 2017 on the heels of the purchase of the property and everything else, so we're going to admit it and give it the weight that it's due.

MR. HOLZER: Fine, thank you. The, --

MR. SCHMIDT: So, it is in evidence, okay.

CHAIR: It is now in evidence.

MR. SCHMIDT: Okay, thank you.

CHAIR: Because now there's more of a connection to the organization at issue.

MR. HOLZER: And we'll be doing that (inaudible). Dr. Clark, was there discovered any other information from, from Nepal in regard to the property?

DR. CLARK: I think so.

MR. HOLZER: All right. I'm going to show counsel.

MR. SCHMIDT: Thank you.

MR. HOLZER: Um hm. I've always given you one too many, but.

BOARD: (inaudible).

DR. CLARK: Mr. Holzer, may I have a copy?

MR. HOLZER: Oh, I'm sorry.

CHAIR: No, hold on, before you give it to, before you give him a copy, I want Mr. Schmidt to be able to review it. Protestant's Exhibit 45.

MR. SCHMIDT: It, isn't it forty-six? Forty-five was the Facebook post, isn't it? Or am I --

BOARD: Forty-four was the Facebook post.

CHAIR: I have forty-four as the Facebook post and then forty-five is what was just handed.

MR. SCHMIDT: You are correct, I'm sorry. You're correct, I'm sorry. I wrote it down twice.

BOARD: No? Okay.

MR. SCHMIDT: I apologize.

BOARD: No, we're good.

MR. SCHMIDT: Okay. So, forty-five is this second Facebook post?

MR. HOLZER: Yes.

CHAIR: Mr. Schmidt, whenever you're ready.

MR. SCHMIDT: Okay. I, I've read it.

CHAIR: Okay. Mr. Holzer?

MR. HOLZER: Thank you. Mr. Clark, --

MR. SCHMIDT: I'm sorry, my second page is cut, cut off. I don't know if I just got a bad page or --

MR. HOLZER: I don't have anything on the second page either.

MR. SCHMIDT: Okay.

MR. HOLZER: I think it's just the first page. Mr. Clark, can you tell us how this was produced, when it was produced and whether you were the one that produced it?

DR. CLARK: Yeah, at the bottom of the page is the date stamp, 7/22/2018, okay?

MR. HOLZER: Wait a minute, I'm sorry.

DR. CLARK: At the bottom right hand corner, sorry.

MR. HOLZER: I got it. I see it, okay.

DR. CLARK: 1:46 p.m.

MR. HOLZER: Okay.

DR. CLARK: Again, it's a screen shot and it's from Sanazar Hamranasar (phonetic), I think that's, I'm saying that correctly.

MR. HOLZER: Was he, Shayam Carky's name mentioned?

DR. CLARK: Yes, it is. It says at the top that Mr. Hamranasar, Ham, Hamrosansar, there we go, Hamrosansar was with, shared a post with Shayam Carky and forty-seven others.

MR. HOLZER: Okay.

CHAIR: Sir, I'm sorry, could you please sit down? Thank you.

MR. HOLZER: And what was this posting in, in relationship, or, or ref, in reference to, would be a better way to say it?

DR. CLARK: It was advertising the event to be held from July 28th to August 3rd.

MR. HOLZER: Of what year?

DR. CLARK: Of 2018.

MR. HOLZER: Okay. Without reading the whole thing and I believe both, both the Board and, and counsel have had a chance to read it, what would you like to just highlight, if you will, in regard to what is in the document?

DR. CLARK: Basically, it's, it's the, what do you call the, it's the program of events. Basically, it's the, it's the program of what's going to be conducted at this event. I also think we have a, a cover page showing that Mr. Ham, Hamrosansar is, resides in Katmandu.

MR. HOLZER: Okay.

DR. CLARK: No, I, I don't, I, I, I may be wrong on that, but we, you know, there, there's, but that, that, he's not, he may not be the one.

MR. HOLZER: Okay. Go ahead. What, what are your points?

DR. CLARK: Well, it, it just, you know, they're saying it's going to be music, there's going to be educational activities, there's going to be prayer, you know, it's, it's the program of events.

MR. HOLZER: Well, the bottom three paragraphs starting with Kayla Seatra (phonetic), --

DR. CLARK: Yep.

MR. HOLZER: -- talk about prayers, part of, I would

assume, recitation of verses from sacred books and discourses, discourses --

DR. CLARK: Right.

MR. HOLZER: -- on them. Is, to your recollection, or to your knowledge, was the ALJ's decision in regard to holding religious events and also his subsequent letter from Mr. Kotroco, did that, did those prohibit religious activities until the special exception was approved?

MR. SCHMIDT: Objection.

CHAIR: Please stand.

MR. SCHMIDT: I'm sorry, objection.

CHAIR: What is he basis for the objection?

MR. SCHMIDT: I don't know what the relevance is of, I'm trying to understand how testimony about a fundraiser, which we would acknowledge we had on the property in the summer of 2018, assist this Board in deciding whether a special exception should be granted.

CHAIR: Mr. Holzer?

MR. HOLZER: Very simple. The Administrative Law Judge said in his decision, until the special exception is granted, that there shall be no religious activity. To further enhance that argument, he wrote at the bottom of a letter prepared by Mr. Kotroco, which has been offered as Exhibit 34 by the Petitioners, said that there shall be no religious activity on the site and as a result of that, this shows,

again, not our burden, but it shows again, that they are disregarding what was done by the Administrative Law Judge, how he was, what, what he did and we're still here presenting material that shows that they don't seem to care what limitations are imposed on them. And it's not just for that this time. This goes further. This shows you that, that there is a broader presentation of, of, of what they're planning to do on the site. So, you know, again, it's the same thing as the previous exhibit, it just goes for the same purpose as that.

MR. SCHMIDT: And again, Mr. Holzer misrepresents what the letter said. If one reads, first of all, we're not here on a violation case, no matter what happened before, doesn't matter. This Board is conducting a de novo hearing as to the proposed special exception. What Judge Beverungen's letter says is not that they can't have religious activity from the site --

CHAIR: Why don't you, why don't you read that into the record so it's clear for the record?

MR. SCHMIDT: It says, the owners are free to gather on their property for so long as no religious activities are occurring within the subject building and all other permit requirements, if any, are satisfied. If this is the case, referring to what Mr. Kotroco said about having a fundraiser here, there is no violation of my Order. This owner should be

treated no differently than any other citizen who wishes to host a party, a picnic, or any other social event on their property. That's why they wrote to Judge Beverungen to determine if they could have a fundraising event. My client, in fact, I do not speak Nepalese, I don't know if any members of the panel do, but the word, if I pronounce this correctly, Mr. Ghimire, mahaparan, mahaparan (phonetic) in Nepalese means a fundraiser and that's what they conducted or a religious fundraiser. A fundraiser for the religion. We admit we had a fundraiser there. What that has to do with this case, I still am struggling to figure out but there are multiple reasons why this is improper.

CHAIR: Have you stated all those reasons why it's improper?

MR. SCHMIDT: I believe I've covered the majority of them. Thank you.

MR. HOLZER: I'm not going to respond.

CHAIR: Okay. Well, I will say this. I, I do think there's a problem here because it's not complete, page, it refers to a page two of three, it does look like, assuming page three may be just the tail end of the post, it doesn't have anything substantive on it. Page two appears to have been cut off and so I don't know that it's complete, but even still, I would say that in terms of its relevance, that in, was there music there and all this other stuff, those are issues that

have been in this case. I don't see a reason on that basis to hold this out from evidence. Mr. Holzer, if you could get page two, that would be ideal, so it would be complete. Until then, we will reserve judgment as to whether or not it should be admitted.

MR. HOLZER: Thank you.

MR. SCHMIDT: Mr. Garber, I misunderstood when you asked my, me the question about whether that was all the reasons. I objected to the question that was asked of the witness. I did not hear a motion for this to be admitted, but --

CHAIR: I was under the impression that's what you were objecting to, so I apologize if I got that wrong.

MR. SCHMIDT: With all due respect, you did. I was objecting to the question to this witness. I would agree with all the reasons that you've identified and, and in addition to everything that's been stated, either by you or me, I do not know who the gentleman is who is identified as creating this post. The witness indicates that he believes he lives, I believe, overseas, which makes it more irrelevant, in my view, that, how is it that, that a Facebook post of someone who is not even in this country has relevant, relevance.

CHAIR: Well, if I can address that point? We can move off the relevance point, because it's, it would be clearly relevant by content that, that we have seen so far because it

does discuss the program and it does touch on the testimony that everybody has already testified about. That there was a fundraiser, the activities that went on during the course of that fundraiser, all those things are already in the record. This is yet another example of a description as to what's to occur and the events and what not. I understand that there may be problems in terms of authentication, there may be problems in terms of completeness, to which you've already alluded to, to which I've already stated, so as for now, I'm not going to deny it, but I will say if you could find page two, at least for completeness, completeness, we can actually have a better chance at being able to fully review whether or not it should be admitted. As to the question posed, I do forget what that was at this point.

MR. HOLZER: Whatever it was, I withdraw it.

CHAIR: Fair enough. So, then that objection is resolved.

MR. HOLZER: Okay. Let me see. Can we go to the video and there's a video here, and Dr. Clark, tell us, we're going to go to a video that I have captioned as drums. Can you articulate what that, what we will see or how it was created and what is on it?

DR. CLARK: Okay.

MR. HOLZER: Without going into a long --

DR. CLARK: We are moving into the videos that were

collected from the YouTube pages. And this particular clippet is from DSC-7047, I'm sorry the battle of the crosswalks, and it shows the various drums, the, the fact that they were microphoned.

CHAIR: On Protestant's Exhibit 33, it's DSC dash, underscore, that is, 7047 drum with a capital S?

DR. CLARK: Right, A-4, it will be --

CHAIR: On, on disc A-4?

DR. CLARK: Correct.

CHAIR: And that's about, I'm going to say, seven up from the bottom that's typed?

DR. CLARK: Right.

MR. HOLZER: Okay. Are we prepared to start it? Mary? Start it.

DR. CLARK: All right. Can you stop there, Mary, a second? All right. Now, now --

CHAIR: Just turn down the audio a bunch there.

DR. CLARK: Yeah.

CHAIR: So, we can actually understand.

DR. CLARK: What you can see on this, it is the Facebook page, Facebook page belonging to N. Nepalese, and that it was posted on July 26.

MR. HOLZER: What year?

DR. CLARK: Of 2018, sorry.

CHAIR: Okay. So, let's start with this. Who, was

it you that made this recording?

DR. CLARK: What I did, yes, it was me. And what I did is I took my camera and put it in front of the computer screen and recorded this off the computer screen. And I think, I don't, I think you can see part of my shop off to the left there, I don't, I don't know what that is.

MR. HOLZER: For the record, it also shows 20, July 28, not 26.

DR. CLARK: Oh, July 28, okay. I'm reading from quite a distance away.

CHAIR: All right. Are we all ready?

MR. HOLZER: Okay. Well, excuse me, before we start, can you put it on the same volume that your previous --

CHAIR: Turn, turn it down, please, because I could not, when I first heard that, it was just, it was too much to it. Let's see where this takes us, if this works or not.

MR. HOLZER: Okay.

DR. CLARK: All right. Well, wait a minute, stop right there. Can we stop a second? You see over in the right hand corner?

CHAIR: Yes.

DR. CLARK: All right. The drums and the microphone?

CHAIR: Okay.

DR. CLARK: Okay, that's it. Thank you.

CHAIR: Is that the, I'm sorry, is that the purpose

of you showing the video or do you want to hear the video too?

DR. CLARK: Well, you, you probably want to hear it.

CHAIR: Okay.

MR. HOLZER: Go ahead.

DR. CLARK: Oh, yeah. Mary, that's probably good enough. Okay.

MR. HOLZER: Now, I want to ask you a question because one of the previous witnesses was asked a question by Ms. Murphy in regard to was this inside or was it in the tent. Which was it, can you tell?

DR. CLARK: Comes to the definition of inside, doesn't it? I see grass on the, on the floor, I, I see, I see dirt on the floor, I see the sides of the tent open. Whether or not you want to make the case that inside the tent means inside or not, I don't think that meets any definition in the vernacular for inside.

MR. HOLZER: The, the, the picture that you've shown up to date looks as if there are no walls to the tent.

DR. CLARK: No, there, they, there were, if, if you look at other videos, you can see that they are, in fact, a lot of them are vinyl panels, clear vinyl panels. But then you will also notice in other videos where a number of them are opened up.

MR. HOLZER: Okay.

CHAIR: I need to ask you a pretty basic question

here. How do you know that this, what is depicted on this Facebook page, ties back to Petitioner and the property?

DR. CLARK: Yeah, because there are plenty of pictures of the building.

CHAIR: On this video?

DR. CLARK: In, in, in, in, on, on, on the video from, on the entire video from which this was collected, yes.

CHAIR: When you say the entire video that was collected, is that within the video library?

DR. CLARK: Yes, sir. All right. Now, Mary, maybe, maybe we can, can you just move the scroller and maybe we can see? Just move the, just move the, keep, just move it along. Just keep moving it. It may not be on this one, but keep going. Now, that wasn't what I selected this one for. But I, I, I don't think Petitioners would deny that this is that.

MR. HOLZER: Is this, is there another video somewhere else that would show the relationship with the mansion or the home?

DR. CLARK: There are plenty.

MR. HOLZER: Well, maybe next time we could show those if you can't pull them out right now.

DR. CLARK: No, I can --

CHAIR: Hold on, Mr., Dr. Clark, I do think that that is a, that would be ideal to do because I anticipate without that connection, I can easily foresee some arguments the next

time around.

MR. HOLZER: Sure. So, the next time, at the next hearing, for a single purpose, you will show that tent with that event and its relationship with the mansion or the house, whatever you propose to call it.

DR. CLARK: Yes, sir.

CHAIR: Because I notice on the Facebook page from which the video was taken, it appeared, at least from up here and my lack of familiarity with the language, but it appeared to be certainly in a foreign language, perhaps Nepalese language. So, by English, you wouldn't be able to tell that that is this property. So, that's the connection we need to make between these, between the video --

DR. CLARK: That's fair enough.

CHAIR: Right.

MR. HOLZER: Do you want to make it now? Can you make it? The, Mary said she can make the connection now.

CHAIR: Well, that's, let's do this. At the break, set that up. But we can keep pushing through until, until then.

MR. HOLZER: Sure, sure. It's 2:30, we'd like to get through the direct at least.

CHAIR: That's what I'm thinking. That's why I set that up on the, at the break, (inaudible) better.

MR. HOLZER: Yes, okay. Can you do that, Mary?

Okay. Then let's get back to where, where we were going and the next one, video would be gate versus door, does that?

DR. CLARK: Yeah, yeah, yeah.

MR. HOLZER: You have that?

DR. CLARK: If, if you recall, last week there was testimony that the gate referred to the door of the temple.

MR. HOLZER: Okay.

DR. CLARK: And that's what was meant by the gate will be closed, will be, will be open.

MR. HOLZER: Open.

DR. CLARK: At one, --

MR. HOLZER: At a certain --

DR. CLARK: -- at a certain time.

MR. HOLZER: Yeah.

DR. CLARK: Yeah.

MR. HOLZER: Okay and I don't know whether the Board recalls that testimony or not, but, the Chairman is shaking his head, so let's not go any further (inaudible).

DR. CLARK: Yep.

MR. HOLZER: Let's then look at the video in relationship to the gate versus the door issue.

CHAIR: And on that, on Protestant's Exhibit 33, there is a video entitled DSC_7016, gate open MP4 on disc A-3, is that the one we're referring to as best as you can recall?

MR. HOLZER: Yes, I think that's the one I'm asking

about.

MR. SCHMIDT: It's 7014?

CHAIR: 16.

MR. SCHMIDT: 16, thank you.

CHAIR: DSC_7016 gate open.MP4 on disc A-3.

MR. HOLZER: Can you get it?

CHAIR: Technology is (inaudible).

MR. HOLZER: Yes, it is.

CHAIR: All right, let's, hold on. Since we have this situation going on at the moment, let us take a break now then.

MR. HOLZER: Sure.

CHAIR: This way we can solve whatever problem is going on with the video we're about to play and also cue up the one that would tie the video that was just played to Petitioner and the subject property.

MR. HOLZER: Mary, can you do that?

DR. CLARK: May, may I, do technical --

CHAIR: No, Dr. Clark, there's no, there's no question pending at the moment.

MR. HOLZER: No.

DR. CLARK: No, okay.

(RECORDING PAUSED - 02:29:52 PM)

(ON RECORD - 02:54:55 PM)

CHAIR: This looks different than before. So, I

assume you have something worked out.

MR. HOLZER: Well, we, we finally fixed the machine. It got hung up and, and now we have hopefully what you asked for at the end of the last, before the break.

MR. SCHMIDT: I haven't been asked, but in the interest of trying to move the hearing along, I talked to my clients during the break and they believe that the video was, was of the fundraiser at their property.

CHAIR: Thank you for that because that --

MR. SCHMIDT: Yeah, it, it appears, it appears to be so. With that being said, they also indicated to me that the sound of the video is, sounds like it was increasingly turned up.

CHAIR: I'm going to let you deal with that separately because you're going to have the ability to go review the videos, submit objections and then, of course, --

MR. SCHMIDT: Yeah.

CHAIR: -- on rebuttal, call whatever witnesses you feel you need to address the video stuff.

MR. SCHMIDT: Okay. Well, the only thing I would say about that, Mr. Garber, I'll do it however you would like, but we noticed that it was on volume eighty-six, I think, of zero to a hundred, that you can turn it, they believe the sound is closer, if you would play it at say twenty. I don't know if you want to hear that again but I can deal with that later.

CHAIR: So, if I could --

MR. SCHMIDT: But I'm, I'm willing to agree that that appears to be the Nepali, one of the events at the Nepali fundraiser, several of the people who are here today, I asked them if anyone was there that day and did that look like what it was and they told me yes.

CHAIR: All right. That, I do appreciate that. That does save us substantial time, I anticipate. Mr. Holzer, I assume that's acceptable to you, what has been --

MR. HOLZER: We're still going to show the ones that you asked.

CHAIR: I understand that.

MR. SCHMIDT: And can I do one other housekeeping item? We had sent to the Board the transcripts of the prior days hearings electronically, but I got delivered to me during the break the written transcripts from days one through four. So, here they are.

CHAIR: Okay.

MR. SCHMIDT: If I could give them to Ms. Murphy, you had asked for them.

CHAIR: Yeah, well, what I'm going to do, literally, right now, is I'm going to go just dump them in the back there so they --

BOARD: That's our copies?

MR. SCHMIDT: Yes, yes, ma'am, it is.

BOARD: Okay.

MR. SCHMIDT: And here's another, --

BOARD: Oh, wait, Mr. Garber, there's one more.

MR. SCHMIDT: That's, I think, that's either day one and two and this is three and four, or the other way around.

CHAIR: You know, I haven't been to the gym in a week or two, so this is good.

BOARD: Do you need me to get the door?

CHAIR: No, I got it. Thanks, though.

BOARD: Do you want to pause the record while --

(RECORDING PAUSED - 02:57:20 PM)

(ON RECORD - 02:57:38 PM)

CHAIR: We're good.

MR. SCHMIDT: Ms. Dopkin, are you back, and just so the record is clear. Mr. Garber, you should also have those electronically. I think they were previously sent.

CHAIR: Okay. I just knew that when I picked up this file today, it seemed awfully light compared to what I would have expected had the paper copies been in there.

MR. SCHMIDT: Yes.

CHAIR: Which is why I made sure to remind myself to bring it up. And so, thank you very much, Mr. Schmidt, for all that.

MR. SCHMIDT: Yes.

CHAIR: All right. Mr. Holzer?

MR. HOLZER: Yes, thank you.

CHAIR: I believe we're now to you and with the, I mean, Mr. Schmidt, is it fair to call that a stipulation, that the video that we had seen appears to depict the fundraiser in 2018?

MR. SCHMIDT: Yes, sir. Yes, sir.

CHAIR: I mean, whether it's, whether what date, July 28th or August 3rd, whatever it said on the, I think it was July 28th according to the video, okay.

MR. HOLZER: Dr. Clark, what, what is this next snippet going to show us?

DR. CLARK: Well, it's going to show us more of the event but what is particularly of note here on this very shot, is I believe there was testimony that the volleyball was a soft court, which implies grass or dirt. As you can see, it is, in fact, a hard court.

CHAIR: Let me stop you here real quick before we start this video. Where is it on Protestant's Exhibit 33?

DR. CLARK: It's in the lower left corner going diagonally.

CHAIR: No, no, in the, in the, in your index.

DR. CLARK: Oh, I'm sorry.

CHAIR: So, we can mark it. Is this, this isn't the gate open one, correct?

MR. HOLZER: I think it is.

DR. CLARK: I think it's, yeah, 7016, I think, I believe it is.

CHAIR: That's what this is, okay.

DR. CLARK: I believe it is.

CHAIR: Okay. Just so we know and then once it starts, if you find that it's not that one, by all means, let us know.

DR. CLARK: Yes.

CHAIR: I see that says --

DR. CLARK: All right. So, you see the volleyball court.

CHAIR: Thank you.

DR. CLARK: You, you should also note the embankment, all right? That point, that reflects the sound directly across to my property.

CHAIR: Okay.

DR. CLARK: Okay? Let's fire it up.

(AUDIO PLAYS)

DR. CLARK: Can you stop it there, Mary? And pause it, Mary? Can you pause it? All right. You, you, you get the differential sound levels between the speaker and the amplified sound coming outside the tent.

CHAIR: I, you're going to have to say it again.

DR. CLARK: Yeah, I'm, I'm sorry.

CHAIR: Sorry.

DR. CLARK: All right. You, you have the differential there between the speaker, the narrator, and the sound coming outside, coming out from the tent, the amplified sound coming out. So, that gives you a good sense of what's going on, okay.

MR. HOLZER: And the photograph that we're looking at or the portion of the video that we're looking at right now, the tent was, was placed across the driveway from the main building, is that correct?

DR. CLARK: Yes, sir, that's what it looks like to me.

MR. HOLZER: Okay. Is there any more on this particular that you need to testify to?

DR. CLARK: Yes. What this, this goes to the issue of whether the gate meant the gate at the front or, as Mr. Ghimire testified, the gate was the door to the temple. And in this, you will see that the, that, that the, that the building is open and, in fact, there's a tour --

MR. HOLZER: How, how do we, how do I see that?

DR. CLARK: Well, it's later on down the road here. Mary's going to have to screen, fast forward to it.

MR. HOLZER: Can you do that now?

CHAIR: And forgive me --

DR. CLARK: Yeah, that sounds about, that looks like about right, Mary.

CHAIR: If I can --

DR. CLARK: Mary, you passed it. You had it and then you went past it. Right there, right there. That's plenty, Mary. Mary, that's plenty.

MR. HOLZER: That's enough.

CHAIR: Okay.

MR. HOLZER: All right.

CHAIR: And if I can, where did you get the video from?

DR. CLARK: Again, this was in video 76, 7016, it would have been from one of the E. Nepalese streams, which if we do a crosswalk and if I can find that paper --

CHAIR: All right. Let me, page two of Protestant's Exhibit 31 in reference to DSC_7016, right?

DR. CLARK: Yes, sir.

CHAIR: The second grouping from the bottom, on page two of Exhibit, Protestant's Exhibit 31.

DR. CLARK: Oh, oh, we're on the URL's, yes. It will be on that. I'm sorry. I've got things all over the place here. Oh, got it, got it. Yes, sir. It would be the, it would be the second --

CHAIR: I used the word grouping.

DR. CLARK: -- segment.

CHAIR: Yeah.

DR. CLARK: Of, of that video.

CHAIR: Right.

DR. CLARK: And that references the exact Facebook page that you can get to.

CHAIR: So, second segment of the second grouping from the bottom of page two, Protestant's Exhibit 31, is the DSC dash, or underscore, 7016, gate open on disc A-3?

DR. CLARK: Yes, sir.

CHAIR: Next question.

MR. HOLZER: All right. Are you familiar with, are you familiar with Mr. Beverungen's letter marked Exhibit 34, Petitioner's Exhibit 34?

DR. CLARK: Yes, familiar.

MR. HOLZER: Are you familiar with the second paragraph?

DR. CLARK: I'd be more familiar if I could see it.

CHAIR: That's a, that's a fair request.

MR. HOLZER: Don't, don't tear anything or mess my papers up, but take a look at that.

CHAIR: Well, have you shown Mr. Schmidt?

MR. HOLZER: He already just read it, he's got it.

MR. SCHMIDT: (inaudible).

MR. HOLZER: Yep, he just read what was in there.

CHAIR: Thank you.

DR. CLARK: Okay. You're talking in the bold?

MR. HOLZER: Yes, that was what --

DR. CLARK: I understand the owners are proposing to host a gathering on the property July 29th through August 3rd. I understand the Code Enforcement Bureau contends that the gathering would violate the terms and conditions of my January 22, 2018 Order granting special exception relief. I respectfully disagree and would note those conditions as envisioned by BCZR, Section 50, 502.2 relates solely to the operations of a building for religious worship, which was the relief granted for the special exception case.

MR. HOLZER: What about the next paragraph?

DR. CLARK: Oh, all right. The owners are free to gather on their property so long as no religious activities are occurring within the subject property and all other permit requirements, if any --

MR. SCHMIDT: That's not what it says.

CHAIR: Hold on, hold on. Mr. Schmidt, if you have an objection --

MR. HOLZER: Read it as --

CHAIR: Hold on, everyone.

MR. SCHMIDT: But if he's --

CHAIR: Mr. Schmidt, if you have an objection, stand up. Let me know what the objection is.

MR. SCHMIDT: Mr. Clark, it doesn't say within the subject --

CHAIR: Hold on, it's not a question, this is not,

just, you tell me, you're saying he's not reading --

MR. SCHMIDT: Objection. The witness is not reading the text of this document.

CHAIR: Thank you. All right. We can stop there. Mr. Clark?

DR. CLARK: Okay.

MR. HOLZER: Read it.

CHAIR: Please start that again.

DR. CLARK: Yes. The owners are free to gather on their property so long as no religious activities are occurring within the subject building and all other permit requirements, if any, are satisfied. If this is the case, there is no violation of my owner, Order. The, the owner should be treated no differently than any other citizen who wishes to host a party, picnic or other social event on their property.

MR. HOLZER: Okay. Now, my question is, from the, from your viewing the video that we just saw, what is your comment, relative to the interior, or use of the interior of the building?

DR. CLARK: Looks like people are in it --

MR. SCHMIDT: Objection.

CHAIR: Hold on. Mr. Schmidt, please stand up.

MR. SCHMIDT: I'll withdraw the objection.

CHAIR: Okay. No need to stand up. Mr. Clark, or Dr. Clark, you may answer.

DR. CLARK: It doesn't matter, it doesn't matter. Looks like people are using it.

MR. HOLZER: Okay. People, let me ask you this, people are inside. Do you know what they're doing inside?

DR. CLARK: Not really.

MR. HOLZER: Okay. Was, in, in terms of your prior discussion about gate versus door, now that we've seen that, explain what you think was wrong with the prior testimony of the applicant.

DR. CLARK: Yeah, --

MR. SCHMIDT: Objection. If he can understand the question as to what was wrong with the prior testimony of the applicant.

MR. HOLZER: What does he believe is wrong.

CHAIR: First of all, do you understand the testimony that's being referenced in the question?

DR. CLARK: Yes, sir, I do.

CHAIR: And I understand that you have a different opinion, based on the question and your immediate answer, is that correct?

DR. CLARK: Yes, sir, I do.

CHAIR: What is it within the video that tells you that the, your recollection of the testimony is incorrect when you see the video?

DR. CLARK: My recollection is that last week, Mr.

Ghimire made a point, made a very specific point, that the gate referred to in one of the e-mails was the gate to the temple, not the gate of the property. This video shows that the temple is open, so even if he was saying the gate was the gate to the temple, it just seems to contradict that.

CHAIR: Okay.

MR. HOLZER: Okay. Are there any more issues in regard to this, so we can move on to the next video?

DR. CLARK: I think we can move on.

MR. HOLZER: Okay. As I understand it, the disc has to be changed and that'll take a second.

CHAIR: Do we have other questions we can ask him in the interim?

MR. HOLZER: She can get it done before I --

CHAIR: Fair enough.

MR. HOLZER: And now, could you tell us what, what numbers and so forth are we going to be looking at?

DR. CLARK: I need to see it. Okay. Mary, --

CHAIR: Hold that.

DR. CLARK: Okay. DSC_7040-A, DSC_7040, yep, that will be A-4. I feel like I'm calling bingo.

CHAIR: Well, I need to point out that there are four videos --

DR. CLARK: Yeah, the, the third, the third one --

CHAIR: Hold on, hold on. Protestant's Exhibit 33

are four, pre, prefix of DSC_7040.

DR. CLARK: Okay, that, that, hm.

CHAIR: Do you know by looking at the, at the picture that's on the screen, --

DR. CLARK: Can, can, can I, can I see, can you go back to the file, Mary? Yes, thank you. I'm sorry.

CHAIR: That's okay. We just need to make sure it's clear for the record.

DR. CLARK: Can I go, can I approach the screen and read the file information?

CHAIR: Yes.

DR. CLARK: I think this is going to be the one that demonstrates the amplification of sound.

MR. HOLZER: All right and could you give --

CHAIR: So, once again, when we start, if you can, if it's not that one, can you please let us know?

DR. CLARK: I will, sir.

CHAIR: Thank you. Sorry, Mr. Holzer.

MR. HOLZER: No, I just wanted to make sure you were satisfied that we had the right identification.

CHAIR: Right, well, it's also for, really for the record.

MR. HOLZER: Yes.

CHAIR: So, it can be tracked by everybody.

MR. HOLZER: Could you explain what this, what this

is supposed to be showing?

DR. CLARK: It's supposed to be showing how the amplifiers were used and all the mics that were there.

MR. HOLZER: Again, this was not something you created, but was what?

DR. CLARK: This was on YouTube, 7040, 7040, oh, I hate this system.

CHAIR: I have it on DSC_7040 on page two.

DR. CLARK: Yes, yes, yes, yes, yes. I see it. Third URL down ending in 9890, it'll be the last video segment.

(AUDIO PLAYS)

DR. CLARK: That's enough, Mary. Okay. So, what you, again, what you can detect off of that is the background noise versus the amplification. You know, the, the, the, the relative differences between the two sound levels is pretty significant, all right? So, it's not like the whole thing was boosted.

MR. HOLZER: Is there anything else that this video depicts --

DR. CLARK: It shows, it shows the sophisticated micing, I believe Mr. Ghimire testified there was one mic. And you can see that all of the musicians have mics in front of them. So, --

MR. HOLZER: When you say that, what, I, I see the one gentleman on the right hand side --

CHAIR: Mr. Holzer?

MR. HOLZER: I can't --

CHAIR: I understand but that should come from the witness.

MR. HOLZER: Okay. I just want, point out where the microphones that you can identify are for me.

DR. CLARK: Okay. There is a man sitting on the right who has a mic in front, a mic in front of his mouth so that his voice is amplified. You, you can see and, you can see a mic, can, can I approach the screen?

CHAIR: Dr. Clark, why don't you go up to the screen and point out all the mic, microphones that --

DR. CLARK: Thank, thank, thank, yeah. Thank you.

CHAIR: -- you see.

BOARD: Here's a pointer.

CHAIR: I mean, sitting here, I think I can identify, but it would be better if you go up and point out --

DR. CLARK: Right, right.

CHAIR: -- which you say are microphones.

DR. CLARK: Microphone, microphone, microphone, microphone, I don't know what that is.

CHAIR: Okay. So, we are pointing to four microphones and starting from the right side of the photo in front of the second right figure, one in front of his, that gentleman's mouth, another one to the, starting, starting from

the right, to the left of that one, just slightly below and, you know, the fourth one being just slightly above to the left of the person, the third one who is below the other three.

MR. HOLZER: That's correct. Thank you. Is there anything else that one needs to point out on this, on this video before we leave it?

DR. CLARK: Yeah, I guess.

MR. HOLZER: Because I see some things.

DR. CLARK: Down here you see the second kind of drum, the smaller drum and then here you see the tambourine and there's a microphone right here, going to the drum.

CHAIR: So, on the right side center of the photo, you, where you point out the drums, there's a microphone adjacent to those drums.

MR. HOLZER: Is that the end of your testimony in regard to this video?

DR. CLARK: I mean, people are having a good time, you know.

MR. HOLZER: Anything else you want to testify to about the video?

DR. CLARK: No, no.

MR. HOLZER: Okay. Let's move on. Let's, that, that was the amplification.

CHAIR: And for recordkeeping, I had that down as the seventh video played at the eighth (inaudible).

MR. HOLZER: Okay. Which one is next? This? Okay. In the prior testimony, you heard that there, from the applicant, you heard that there was a cultural center on Taylor Avenue, is that correct?

DR. CLARK: Yes, sir.

MR. HOLZER: All right. Did you take a look at that? Do you have any information in regard to that?

DR. CLARK: Yes, sir, we do.

MR. SCHMIDT: Objection. I believe, Chairman Garber, that you ruled that you were not going to be hearing testimony about sites other than this property. I believe, that was, there was, there was an objection that I made before and if we're going to discuss the Nepali Cultural Center on Taylor Avenue, I don't believe that's appropriate. Thank you.

CHAIR: Mr. Holzer?

MR. HOLZER: Of course it's appropriate because they suggested in their testimony that all cultural events would be held at the cultural center and the religious events held on the subject site. That is the direct testimony that they gave last hearing. That sounded to me like we ought to know for sure whether that was correct or not. So, we, I sent the witness to Taylor Avenue to take a look at what they were proposing to be their cultural center.

CHAIR: Now, before you get into the substance of what's to follow, so I understand that this witness went over

to the Taylor site and I anticipate that there's going to be some type of evidence presented as to activities at that site?

MR. HOLZER: No.

CHAIR: Okay.

MR. HOLZER: Just, just the site itself.

CHAIR: That it's a, I'm sorry, its existence?

MR. HOLZER: Existence and photographs and we have conducted, we have checked with the County and we know some of the, (inaudible) dimensions or some of the --

CHAIR: Okay. Overruled. You may, you may continue.

MR. HOLZER: Thank you, thank you. Dr. Clark, did, did you visit the subject site or did someone else visit the subject site?

CHAIR: Let's identify the subject site. Is the subject site --

MR. SCHMIDT: Is the subject site the --

CHAIR: Mr., Mr. Schmidt? We've been calling the property --

MR. HOLZER: 2906 Taylor Avenue.

MR. SCHMIDT: Oh, okay, that's the subject site.

CHAIR: Okay.

MR. HOLZER: That's the --

CHAIR: The community site previously identified as 2906 Taylor Avenue?

MR. HOLZER: Yes.

CHAIR: Okay.

MR. SCHMIDT: Mr. Garber, just note a continuing objection to this line.

CHAIR: Yes, will do.

MR. SCHMIDT: Thank you.

MR. HOLZER: I asked the question, do you have an answer?

DR. CLARK: I visited the subject site yesterday as a matter of fact.

MR. HOLZER: Okay.

CHAIR: I just want to, again, be careful using the phrase subject site, that's how we've been referring to the property on Harford Road.

DR. CLARK: The, the prop, right.

MR. HOLZER: The Taylor Avenue property.

DR. CLARK: The Taylor, I visited the Taylor Avenue property yesterday.

MR. HOLZER: That was referred to in the testimony of the applicants at the last hearing date?

DR. CLARK: Yes, sir.

MR. HOLZER: Okay and did you take any photographs?

DR. CLARK: I did not.

MR. HOLZER: Who did?

DR. CLARK: Mary.

MR. HOLZER: Did she accompany you?

DR. CLARK: No.

MR. HOLZER: Okay. She went on a separate occasion?

DR. CLARK: She went on a separate occasion.

MR. HOLZER: Okay.

MR. SCHMIDT: Well, then I'm going to object if this witness did not take these photographs, for reasons of authenticity. We're going to play this game.

CHAIR: Well, Mr. Schmidt, you are certainly aware that there are other ways photos can be authenticated. You don't necessarily need the person who took the photos. If Mr. Holzer does it by one of those other methods, that still could be properly authenticated. So, we're going to wait on your objection pending to see what Mr. Holzer does in terms of his questioning.

MR. SCHMIDT: Thank you, sir.

MR. HOLZER: And I think there may be more than one way of doing it but. I am going to, for now, since all these are stapled together, I recognize that he's objected to the photograph, but I'm going to leave that attached to the other documents, just so that if it ultimately comes in, I don't have, you don't have extra exhibits.

CHAIR: Whatever you think is best, Mr. Holzer.

MR. HOLZER: Okay.

CHAIR: Just give Mr. Schmidt the opportunity to review them prior to giving it to the witness.

MR. HOLZER: And I'm going to leave this here, upside down.

MR. SCHMIDT: What exhibit number is this, Ms. Murphy?

BOARD: Forty-six.

MR. SCHMIDT: Thank you.

MR. HOLZER: Are you finished?

CHAIR: Mr. Schmidt, you've reviewed forty-six?

MR. SCHMIDT: Oh, have I looked at the picture, yes. I had objected to it already and I thought you overruled my objection.

CHAIR: Okay. We were waiting for you to review before he starts with the witness.

MR. SCHMIDT: Oh, I apologize. I have reviewed, yes.

CHAIR: Thank you.

MR. HOLZER: Now, you can now look at this exhibit.

DR. CLARK: Okay.

MR. HOLZER: First of all, the covered photograph on page one, you actually visited the site, did you not?

DR. CLARK: Yes, I drove past it, yes.

MR. HOLZER: Did you see this building that's depicted on page one?

DR. CLARK: I did.

MR. HOLZER: Did you read the sign?

DR. CLARK: I did.

CHAIR: What did the sign say?

DR. CLARK: Community Center, I forget exactly, but a Community Center.

MR. HOLZER: Okay and the second page, could you refer to that? What is that and how did you obtain it?

DR. CLARK: This was taken off of Zillow and it shows the, the building, when it was for sale, well, shortly after, on Taylor Ave.

MR. HOLZER: Okay and what about page three?

DR. CLARK: Page three shows it, the, the square footage of the lot.

MR. HOLZER: On the left hand side?

DR. CLARK: Right, of the lot.

MR. HOLZER: Okay.

DR. CLARK: And then down below, it gives the dimensions of the floors.

CHAIR: My page three, it seems to be cut off. I don't have full (inaudible).

MR. HOLZER: Cut, cut off where?

CHAIR: No. Yeah, this is the exact same way mine appears but --

BOARD: (inaudible).

CHAIR: Right, nor does the square footage show.

DR. CLARK: Oh, the, the square footage shows of the lot, shows up, well, yeah, no, that's cut off, you're right.

MR. HOLZER: Okay.

CHAIR: Well, be that as it may, let's do this. So, sir, you drove, you visited the site by driving past what's depicted in 46-A, correct, the photograph?

DR. CLARK: Correct. I, well, no, I didn't take the photograph.

CHAIR: I didn't ask you if you took the photograph. You've driven by, you've driven by that building, correct?

DR. CLARK: Yes, sir.

CHAIR: When you drove by the building, you, let me ask, do you recognize the sign out front of the building?

DR. CLARK: Yes, I do.

CHAIR: And when you drove past, was that sign out front of the building?

DR. CLARK: Yes.

CHAIR: Okay. So, does the, what's depicted in 46-A fairly and accurately depict the building as you observed it when you drove past?

DR. CLARK: Yes, it does.

MR. HOLZER: Okay. Can I proceed?

CHAIR: Yes.

MR. HOLZER: Okay. Also, on, on page, I've lost, page three.

DR. CLARK: Yep.

MR. HOLZER: It also says that nine parking spots are

provided for the property, is that correct?

DR. CLARK: That is correct.

CHAIR: I'm going to, we, I don't think we can go down that road at the moment because, again, it's cut off. The nine --

MR. HOLZER: It's on there.

CHAIR: I, I see it says nine and it says the word parking spot the next line. I can't say that I know that those two run together.

MR. HOLZER: Oh, I can. Mr. Chairman, it's a comma after alarm system, then it's nine parking spots period. There's no doubt that that's what it is. You, you --

CHAIR: I am under the impression that this page is not complete. Page three is, what appears to me, to not be complete.

MR. HOLZER: All right. What I'll plan to do, this is, we will get at the next hearing a copy, a full copy of page three, to satisfy the Board. But I will tell you as a proffer that it's nine parking spaces.

CHAIR: There well may be nine parking spaces, but the problem is when it appears to be cut off and I don't have all the information in front of me to make a determination one way or the other, you could very well be correct.

MR. HOLZER: I am correct. I'm sorry, I mean, I don't be, I don't want to be rude.

CHAIR: It's, Mr. Holzer, it's okay.

MR. HOLZER: But the real --

CHAIR: Mr. Holzer, it's okay. You're going to provide it, you know, next time to show us to satisfaction that it's a complete page, that's a different matter. I've already noted my problem with it in the sense of its completeness. We already have 46-A established so it's B and C if, if C is part of B, looks like two pages, correct?

MR. HOLZER: And I'm going to get more for you. The occupancy permit is for twenty-three people and I will get the documentation for that, even though that's not on page two.

CHAIR: Very well.

MR. HOLZER: We'll get that from the County. Okay. And oh, I'm sorry, did you say that the square footage, you didn't accept at this point?

CHAIR: Well, there is no square footage identified on page three, which Dr. Clark even acknowledged.

MR. HOLZER: Okay. Then I'll also get you documentation that it's two thousand two hundred and fifty square foot. So, I'll present all that at the subsequent hearing.

CHAIR: Very well. So, as for now, we can admit 46-A, but we cannot B and C at the moment. So, they will be held in identification. Mr. Schmidt, I understand you have a continuing line of objection, one way or another, as to those

questions?

MR. SCHMIDT: Yes, sir, that's correct.

MR. HOLZER: He opened the door to the cultural center so.

CHAIR: Mr. Holzer? I'm not --

MR. HOLZER: I'm entitled --

CHAIR: We were, we've already resolved that.

MR. HOLZER: I, I know, but, I know, but I understand that, that it's 3:30 and we're not even half way through this testimony so, I, I apologize, but the Board, because of --

CHAIR: That's okay.

MR. HOLZER: -- these interplays, this Board is not going to be able to finish, I don't even think I'm going to finish the, the direct today.

CHAIR: It is what it is. And it's okay. You know what? If it takes longer, it takes longer.

MR. HOLZER: Okay.

CHAIR: But the fact of the matter is, we're trying to get through this.

MR. HOLZER: Right.

CHAIR: So, let's, we'll try to keep going as much as we can.

MR. HOLZER: Okay. Mindful that I have to drive a thousand miles starting this evening. I know that's off the record. Okay. Now, let me go back. There is a portion of

your testimony that deals with NACCB Inc., is that correct?

DR. CLARK: Yes, sir.

MR. HOLZER: All right. I want to, I want to direct your attention to the Nepali American Cultural Center and what your comments are in regard to the articles of incorporation and various statements that may have been made, or were made by the leadership.

DR. CLARK: Yes, sir.

MR. HOLZER: Okay. Setting that up as the area of questioning now, is there anything you need to testify to in regard to the articles of incorporation since, since they are already in the record, as I believe it to be?

DR. CLARK: I would like a copy.

MR. HOLZER: All right.

CHAIR: Petitioner's Exhibit 5.

MR. HOLZER: I don't know whether, (inaudible).

CHAIR: You want us to give the exhibit copy for purposes of the testimony?

MR. HOLZER: Yeah, number five? Thank you.

DR. CLARK: And do I give it back to you or can I give it directly?

MR. HOLZER: Please be quiet.

CHAIR: Yeah, Dr. Clark, if you're handed an exhibit, we need the exhibit back.

MR. HOLZER: Okay. It's marked as the Petitioner's

exhibit number five. I hand this to you and please you're your comments related to that document alone and what your response to it is. You may begin.

DR. CLARK: Yeah, first of all, I would like to point out that the name of the organization is Nepali American Cultural Center. Their purpose, which Mr. Ghimire could not remember last week, is to promote religious, educational, social and cultural aspects of Hinduism. To participate and coordinate in activities with other institutions with like-minded objectives. To promote peace and harmony among all members of the corporations.

CHAIR: Dr. Clark, we can read that document.

DR. CLARK: Okay.

CHAIR: Yeah.

DR. CLARK: Okay.

CHAIR: You want to tell us something about the articles of incorporation though?

DR. CLARK: Well, just that that is what they, what they incorporated as and it has listed on it who the primary members are, the, the primary, the board of trustees are, or, or were at the time. And that's about it.

CHAIR: If you don't mind handing me the exhibit then --

DR. CLARK: Oh, oh, yeah, yeah, can I --

CHAIR: Is there something else you wanted to bring

up?

DR. CLARK: No, no, no.

CHAIR: Okay, thank you.

MR. HOLZER: And then, are there statements that have been made by the leadership, either on their Facebook or postings of things that you wanted to bring to the Board's attention?

DR. CLARK: Yes, there were.

MR. HOLZER: Okay and do you, okay.

CHAIR: Thank you.

MR. HOLZER: No, you can't see it until Mr. Schmidt has had an opportunity.

CHAIR: Mr. Schmidt, you ready?

MR. SCHMIDT: Yeah, I've, I've reviewed it, yes.

CHAIR: Okay. Mr. Holzer, whenever you're ready.

MR. HOLZER: What, if any, purpose did you have in providing this document, I'm sorry, and I forgot what number it was marked?

CHAIR: Forty-seven.

MR. HOLZER: Forty-seven, thank you.

MR. SCHMIDT: Objection. There's no foundation for this and I particularly say that because it's, it's not been established that this is the website of my client and my client would, in fact, dispute that this is their website.

MR. HOLZER: Okay. Well, let me go back and just

ask, now that the witness can, can finally see it --

CHAIR: So, if I may, I'll sustain the objection for now so you can lay your foundation.

MR. HOLZER: Yes. Thanks. How did you get this document and, just how did you get it first?

DR. CLARK: Yeah, this was provided to me by Ms. Minor.

MR. HOLZER: Okay and she'll be testifying at the next hearing, is that correct?

DR. CLARK: Correct.

MR. HOLZER: Okay and do you know where she got it?

DR. CLARK: Well, I know it's a screen shot. I know she went to NACC Baltimore.org.

MR. SCHMIDT: Objection.

MR. HOLZER: How can you tell --

MR. SCHMIDT: Just objection, I mean, --

CHAIR: I'm with you. Mr. Schmidt, --

MR. SCHMIDT: -- this witness can't authenticate this.

CHAIR: Mr. Schmidt, I believe he's still trying to lay the foundation. We're not at the point of even remotely close to being admitted or substantive testimony on it. I understood these questions to be foundation.

MR. HOLZER: That's correct. And I'm looking at the document that's marked as forty-seven and it says

www.naccbaltimore.org. Do you recognize that --

DR. CLARK: URL? Yes.

MR. HOLZER: Yes.

DR. CLARK: I do.

MR. HOLZER: What is it?

DR. CLARK: Well, as you can see, the symbol in the center, in the upper center of the page.

MR. HOLZER: Yes?

DR. CLARK: Is the same symbol you have seen or will see on other promotional videos. I don't know if we can recognize any of the people in the photo who have, or whether or not they have been attending these hearings.

CHAIR: Well, okay, so, here's where we're at, what I'm hearing thus far with the questions. This is a document provided by Ms. Miner, who will be testifying the next time around. She entered, as best as we can tell, www.NACCbaltimore.org. There seems to be a question as to whether or not this is or not the website of Petitioner. We're still not at the point of connecting it to Petitioner.

MR. HOLZER: I don't understand. And apparently, for the record, they are denying that this is their website.

CHAIR: And I don't believe the question is a matter of denial as much as foundational for purposes of evidence, what evidence is there to show that this is, in fact, Petitioner's website, that is, this speaks for Petitioner.

MR. HOLZER: That's what Mr. Schmidt said was that this is not their website or not their document. And I just want that on the record so that when we do come in with Ms. Miner, we will be able to make the connection and show that that is a misrepresentation.

MR. SCHMIDT: I'll make it very clear for you, Mr. Holzer. It's not their document.

CHAIR: Thank you.

MR. HOLZER: Thank you.

CHAIR: Okay.

MR. HOLZER: Okay.

CHAIR: So, I'm going to sustain the objection for now, with the right, of course, for you to be able to come back so that Mr., Dr. Clark will be back on the stand again the next time we're here. So, perhaps after that foundation is laid, we can get back into the content of Exhibit 47.

MR. HOLZER: That's fine. I think we need about three more days, not two more days, after this.

CHAIR: Mr. Holzer, if that's what you need for your case, then that's what you need for your case.

MR. HOLZER: And it's going to be all presented.

CHAIR: Okay. All right. Mr. Clark, Dr. Clark, there, there have been various numbers in regard to events and people that either have there or have potential to be as part of this institution or whatever. Do you have any comment in

regard to that?

DR. CLARK: I've seen numbers from ten thousand to twenty thousand.

MR. HOLZER: Okay.

DR. CLARK: And I believe in one of Mr. Carky's posts, he says twenty thousand members living in Baltimore.

MR. HOLZER: Okay. Do we have any documentation that you obtained to show that?

DR. CLARK: I think we do.

MR. HOLZER: Pardon?

DR. CLARK: I think we do.

MR. HOLZER: Okay. Well, this is already marked as Protestant's Exhibit 25. You should have it. No, I'm not going to give it to you now.

CHAIR: Well, wait a minute, hold on.

MR. HOLZER: It's Protestant's Exhibit 25.

CHAIR: Let's make sure that was admitted before anything else.

BOARD: Facebook page of Mr. Carky?

DR. CLARK: Yes.

MR. HOLZER: Yes.

BOARD: 12/21/17?

MR. HOLZER: Yes.

DR. CLARK: Um hm.

CHAIR: Is that admitted? Okay.

MR. HOLZER: Yep.

CHAIR: And, Mr. Schmidt, do you have that in front of you?

MR. SCHMIDT: I don't, I don't know that I, I don't know that I do.

MR. HOLZER: Here.

MR. SCHMIDT: If you have a copy, Mr. Holzer, I --

MR. HOLZER: Well, not for you to keep but you're free to look at it.

MR. SCHMIDT: Certainly. I will return it, I'll give you my watch if you would like it as collateral. Oh, I remember this one.

MR. HOLZER: Right.

CHAIR: Okay.

MR. HOLZER: Okay?

MR. SCHMIDT: Yes, sir.

MR. HOLZER: Thanks.

MR. SCHMIDT: Is there a question?

MR. HOLZER: Yeah.

MR. SCHMIDT: Oh, okay.

MR. HOLZER: Are you okay?

MR. SCHMIDT: I've seen it, yes, sir.

MR. HOLZER: Okay. I show you what has been marked previously as Protestant's twenty-five. I believe there is probably only one or two points that you need to make out of

that.

DR. CLARK: Yes, sir.

MR. HOLZER: What are they, please?

DR. CLARK: Mr. Carky states that there are fifteen thousand Nepali, people from Nepali origin in Baltimore. The growth of the, of the population Nepalis in Baltimore has been phenomenal in the last decade. What was barely a thousand a decade ago, it has mushroomed to fifteen thousand.

MR. HOLZER: Okay. Is there any other area in terms of his, look at the bottom of the page.

DR. CLARK: Yeah, I see it. At, at the, the second, the second paragraph from the bottom, initiate all programs and services like health camps, yoga, interfaith collaboration in the area, soup kitchen and contribute to the overall well-being of the neighborhood.

MR. HOLZER: Okay. Thank you. And this is the same Shayman Carky that some of the previous exhibits related to, is that correct?

DR. CLARK: Yes, he's on the board of trustees.

MR. HOLZER: All right. Are there any other documents that you're aware of that related to the proposed number of the congregation or the people that could be attending the subject site?

DR. CLARK: Well, there has, has been testimony that there are a hundred and fifty people who would worship there.

And then there has also been testimony that a thousand people are members of the cultural center. And so, I guess, I wonder what the other eight hundred and fifty are getting out of that membership and how they prevent a thousand people from showing up at once.

MR. HOLZER: You only have the question, you don't have an answer, do you?

DR. CLARK: No.

MR. HOLZER: Okay. So, there is a, is there a potential for either all the Nepalese in, in the Baltimore County area of fifteen thousand to want to attend one of the religious ceremonies or one of the festivals or is there also the potential for eight hundred and fifty persons who are members to want to attend to an event?

MR. SCHMIDT: Objection.

CHAIR: Basis?

MR. SCHMIDT: It's so speculative and I mean, how can this, how can this witness even begin to formulate testimony on this? The question asks for such a speculative answer, I guess there's, anything is possible. I'll stipulate that anything in the world is possible here. This just, Mr. Garber, continues to go along the line of the witness, at least in my view, would like to offer legal argument as to why this case should be denied as opposed to what I understood him to be, to be a fact witness and talk about the factors which impact him as a

resident.

CHAIR: Mr. Holzer?

MR. SCHMIDT: And we just continue to go down this road.

MR. HOLZER: I'll ask it in another way. Are you worried that the potential number of fifteen thousand people or eight hundred and fifty people that have been designated or, or indicated by the applicant here, are you worried that they all may want to attend at various points or different points?

MR. SCHMIDT: And objection. There's still no foundation for that.

CHAIR: I think the concern is the number of people to be on the property and his concern as to the effects of that upon he and the other Dr. Clark.

DR. CLARK: My response to, to this whole last interchange is that they, they claim a membership of a thousand, all right? When you're a member of an organization, you, that, that gives you entitlement to use the resources of that organization, whether it's a YMCA, --

CHAIR: You don't have to identify other organizations. (inaudible).

DR. CLARK: Yeah, but, but, okay, okay, okay. And so, I, yes, to me, it's perfectly reasonable to, to, to wonder how they will control a thousand people from using the property at one time and that does not, and, and, and that, and that

precludes the whole thing of having three to five hundred people a day for a week for an event.

MR. SCHMIDT: Just, just objection. For the record, and the testimony, there's no foundation because the testimony was not a thousand people as members, it was there could be donors, including people from all over the world, could be a thousand. So, there's no foundation for this. Mr., Dr. Clark heard --

CHAIR: Mr. Schmidt, the evidence --

MR. SCHMIDT: -- heard what he wanted to hear and then he's basing it on something that's not in the record.

CHAIR: Mr. Schmidt, I, the evidence is being issued for what it is, and that is, how do you, what do you do in the event that there is a surge of people at the property. So, again, it'll go to the weight. So, objection overruled on that basis.

MR. SCHMIDT: Thank you.

MR. HOLZER: Mr. Chairman, I think it's, it's about ten minutes of four. I've got another, at least, a day's worth of testimony here.

DR. CLARK: Oh, God.

CHAIR: Okay.

MR. HOLZER: I, I believe, this is my own belief, that I'm going to need all that time that, on the 29th, to finish with this witness, to get the documentation necessary to

allow the Board to consider whether to permit entry into the record or to deny it.

CHAIR: I would suggest, yes, lining up the foundational questions in advance --

MR. HOLZER: Yes.

CHAIR: -- of the next hearing to fast, you know, make this a more efficient --

MR. HOLZER: And I also think --

CHAIR: -- proceeding.

MR. HOLZER: Excuse me. I also think that because of the number of, of objections or confusion or the questions over documents and so forth, that maybe Mr. Schmidt would be better served if the rest of this presentation was delayed so that he would have until the 29th of November to look at the disc, look at the information, so that we could move a lot faster than we've been able to move today.

CHAIR: If I can offer a suggestion as to that? Number one, we already have the agreement in place as to how to handle the videos in terms of objections and everything in, that was offered before in the hopes that we can resolve some of these issues ahead of time, recognizing that Dr. Clark would likely still be called as a witness on the 29th.

MR. HOLZER: Yes, oh, definitely.

CHAIR: Even post, even post objections.

MR. HOLZER: Yes.

CHAIR: So, leaving that part aside, how about, I know you're going to be going away for a two week period time, is there a way that you can come to a stipulation as to the, the authentication of certain exhibits, photographs, videos, anything else, and then perhaps we can avoid, --

MR. HOLZER: I could do that when I get back on the, I'm getting back on the 19th, but the 20th really will be the first day --

CHAIR: And that's fine. I would strongly recommend it, because that would make this proceeding move faster.

MR. HOLZER: Well, he's going to have the opportunity to look at all the videos, to look at the documentation that is, that is on those documents. I have a feeling this afternoon, since the last break, that really what we're doing is we are wasting a lot of time. As you said, I am supposed to leave tonight on vacation for two weeks and I don't know where we're going, but I hate to keep wasting time like we're wasting over these objections and so forth. So, as a matter of personal request, I would like to be able to end soon as opposed to going into five, six or seven o'clock at night.

CHAIR: That's fine. I would just suggest that we get through as much as we possibly can today, just so there's less to do next time.

MR. HOLZER: I understand.

CHAIR: And I would suggest also, with respect to the

objections that have been made by Mr. Schmidt and those, and maybe you picked up on this with ones being overruled and ones being sustained and my explanations for anything in between, what in particular I'm looking for is something that ties a particular exhibit to the organization or the particular witness and I know Dr. Clark, while he has done certainly a lot of work in this regard, there's only a, a certain amount of information --

MR. HOLZER: There are doubts.

CHAIR: -- he may be able to provide.

MR. HOLZER: Yes.

CHAIR: And then perhaps those foundations could be laid through other witnesses or the, the preferred way is to find out what stipulations there may be among counsel to further that exercise so that we don't have to waste as much time as you, but with respect to objections and then me trying to hear out everybody on their objections and then coming to some ruling.

MR. HOLZER: I, I agree.

CHAIR: And so, there are, and I'll direct it to Dr. Clark too, because I know that Dr. Clark did all this work. So, it's a matter of trying to figure out for the sake of argument, I will use by way of example, we'll take Protestant's Exhibit 47, now how do we know that this page is, in fact, the same organization as Petitioner? There should be some

copyright or something, other information on the bottom of the website that may indicate who is the owner of that website. There may be some other piece of literature out there that identifies a website for the organization. Those are the, that's the missing gap here between the documentation and whether or not it could be used in evidence. You know, when it comes to critiquing the Petitioner's evidence, some of these arguments are best reserved for Mr. Holzer, who has done this, you know, certainly more, more than enough and certainly, you know, has a well, well documented career doing it all. So, some of this is better served coming from Mr. Holzer as opposed to a critique perhaps of Mr. Calagero. Now, so, that just gives you all an explanation --

MR. HOLZER: Yes.

CHAIR: -- as to --

MR. HOLZER: Yes.

CHAIR: -- where we are and what to do with these ex, these objections going forward and how we can resolve them, or at least minimize them in advance of the next hearing day.

MR. HOLZER: Yes, and, and because of your presentation the other day, we have been able to make that connection on some of the documents --

CHAIR: Yes.

MR. HOLZER: -- that were not admitted. So, I believe that is a wise position and it would certainly save us

a lot of time and save the Board the, the, the, the time.

CHAIR: It's really --

MR. HOLZER: I, I just think we're, we're really, I mean, I understand Mr. Schmidt's position. He's going to object to whatever he can object to and I would do the same thing. But we really do need to, to try to get through this and I, when I get back, I'd be glad to try to, not all, but some stipulations.

CHAIR: I recognize not everything is going to be resolved, however, but when it comes to things like photographs and the videos, that's a good example of it.

MR. HOLZER: Yes.

CHAIR: That is, is this the property? As long as that's the property, then okay.

MR. HOLZER: Yes.

CHAIR: Then auth, you know, authentication does not become a problem for the Board.

MR. HOLZER: Right.

CHAIR: And then there may be other objections that maybe can't be resolved, but then we'll deal with that accordingly. Mr. Schmidt, you want to say something too?

MR. SCHMIDT: Yes, sir. Mr. Garber and members of the Board, I, I certainly am not objecting just for objection's sake. I'm objecting to items that I believe are improper in this case. I'm trying to protect the record of this case, not

only in the event of any appeal or not only, obviously, for your consideration but any other proceedings that might ever result as, as a result or springing out of this case so my objections are not to delay this. To the contrary, I think my behavior has reflected that I stipulated to the one video and no one even asked me to stipulate it, just to get through that. If Mr. Holzer wants to provide to me any of the documents that he intends on offering, I will be more than, give them to me today, he's got a stack of folders over there, and I'll look at them and tell him which ones I would agree to and which ones I wouldn't. I'll leave that up to him. I certainly can't require it and you can't require it.

CHAIR: Exactly.

MR. SCHMIDT: But the fact of the matter is, I mean, I've gotten seventy some hours of video about twenty-four hours ago.

CHAIR: And, and again, --

MR. SCHMIDT: And it's just, --

CHAIR: On that point, you'll have your ability to, to, to --

MR. SCHMIDT: I will.

CHAIR: -- review that, you know, before the November 29th date.

MR. SCHMIDT: I absolutely will. But this --

CHAIR: That's why we structured the objections and

everything the way we did, so you would have that ability to do so and, and be able to respond in a reasonable time frame.

MR. SCHMIDT: But I, I just merely wanted to address at least the inference that I was delaying this proceeding and objecting for objects sake only or for reasons of delay. Nothing would please me more than to conclude this case as quickly as possible.

CHAIR: Thank you, Mr. Schmidt. All right.

MR. HOLZER: I think he's, I, I wasn't trying to, to do that. I was just recognizing how this afternoon has gone. I, I was just recognizing how this afternoon has gone.

CHAIR: And I appreciate that. So, I think I, we've said our piece in terms of you have an, everyone here has a better idea of what the problems have been slowing it down and how to resolve them in advance of the next day so that we are not falling into the same traps, so to speak, and again, to whatever degree the parties can come to a stipulation as to authentication or even just the admissibility to --

MR. HOLZER: Yes.

CHAIR: -- of the evidence, that would be fantastic. I realize that Mr. Holzer is under no obligation to provide anything else. The videos are, to me, a different matter, because it's hard for Mr. Schmidt in real time to be seeing something for the first time as it's being narrated and that's why I appreciate the fact that you delivered those in advance.

MR. HOLZER: Right. And, unfortunately, when I got, I got them yesterday in the morning --

CHAIR: It's okay, Mr. Holzer, it's quite all right.

MR. HOLZER: No, I understand, but I, I, and I knew Mr. Schmidt was in Federal Court yesterday aft, yesterday so I didn't expect him to, to be able to look at all of it, or even part of it. So, that's another reason why I'm saying, he'll now have a month, literally, twenty-nine, twenty-eight days, to do it and when I get back --

CHAIR: Technically he has to the 19th, but yes.

MR. HOLZER: Yes, yes. I'm going to, and I'll be glad to share with him what I can. There are a couple things that I really can't.

CHAIR: And that's understandable.

MR. HOLZER: And I understand.

CHAIR: Yeah.

MR. HOLZER: So, we'll have to debate over those on the 29th. Now, I would say this. If Your Honor, if, if, we are getting close to finishing today, I would have Dewey Clark finish up and like I say, I think it's going to take a substantial, at, at least all morning now, to get through his last part of his testimony. If we can start at 9:00, we finish at around noon, then cross examination is going to take whatever cross examination is going to take. I will have available, Ms. Morgan, who was involved, as you heard her name

mentioned, taking the photo, and so forth --

CHAIR: It was the Facebook page.

MR. HOLZER: Yeah, yes.

CHAIR: I recognized that it belonged to somebody named Morgan.

MR. HOLZER: I will have her, she has a number of exhibits that she's also got. I don't know whether she's gotten them off the internet or whether she's taking pictures or whatever but --

CHAIR: And consistent with today, she can provide the internet addresses to whatever --

MR. HOLZER: Yes.

CHAIR: -- videos that she has captured that are publicly available?

MR. HOLZER: Yes.

CHAIR: We're going to need to have that so there's not a question as to where did this come from.

MR. HOLZER: I have a great paralegal back here who's taking --

CHAIR: Congratulations on your new career.

MR. HOLZER: -- whose taking, who is, who is taking copious notes on, on what you've just suggested and I'm sure she'll follow up in the next two weeks while I'm gone and do it, and pulling that together.

CHAIR: And again, just my recommendations as to this

are just merely to streamline this process --

MR. HOLZER: Yeah.

CHAIR: -- in terms of where we are and how to get about moving on and getting through Dr. Clark and other witnesses.

MR. HOLZER: And I, I will get an e-mail from Mr. Schmidt, I know, before I go, get in the front door of my office today saying tell me when any experts are, are going to be there so he can have his. I would say this. I cannot now see any experts being presented on the 29th. I think we're going to be lucky to get through his testimony and Ms. Miner's testimony. Then the next day that we come up with, would be the expert's day. I will say this. Having been around doing this stuff for a long time, I think the three experts that we could present will not be lengthy experts. They will be probably no more than forty-five minutes. I don't know how long the cross will take but, in any event, I, what I'm trying to say --

CHAIR: You're not projecting full days for the experts?

MR. HOLZER: Exactly.

CHAIR: Right. For each expert.

MR. HOLZER: Exactly.

CHAIR: I understand.

MR. HOLZER: I don't think the, the three experts

will take all day, either direct or cross examination.

CHAIR: All right. So, let's do this. Let's, one, let's close one loop. Sir, who, who is Ms. Miner, what is her first name?

DR. CLARK: Morgan.

CHAIR: And that's what I figured. But, so that takes care of one issue.

MR. HOLZER: Yes.

CHAIR: The second issue, yes, why don't the both of you send dates to Ms. Cannington to let us know your availability and, again, I urge that we try to get all testimony done before the end of this calendar year. So, that we won't run into other problems that are going to be arising come February.

MR. HOLZER: I've been there and done that in Cecil County and it's a nightmare when it first starts.

CHAIR: Yes, and right now this case is lining up to be within the nightmare zone. So, we're trying to avoid that as best as we can.

MR. HOLZER: Now, I do think that as long as the, as long as the testimony has concluded, if there, if it needs to be a time for the memorandum to be submitted and, and the new law has taken, or new act has taken the place, sending a memo via that route is really not that bad. It's trying to tie all the other documents and exhibits and, and the testimony and

things like that together that's terrible.

CHAIR: It's, in the event that somebody wishes to pursue additional relief beyond this Board, maybe in light of this Board, that's where I'm envisioning that playing out and that's why I feel that to the extent that we can figure out a way to fast track the remainder of the testimony and get it done by the end of this calendar year as best as we can, then I think that that might be the more prudent course of action.

MR. HOLZER: Yes.

CHAIR: And again, I realize, perhaps calendars don't permit that but let's try to, let's try to achieve that so we can also have as expeditious of a process as we possibly can still yet achieve.

MR. HOLZER: I can tell Mr. Schmidt that he doesn't want to have to deal with this online stuff either, because it's a nightmare. I just talked to the, to Mr. Zimmerman's secretary. They're also worried about it in terms of, of how to do it and what to do and the cost and the problems that it'll relate to. So, I, I think those are words of wisdom.

CHAIR: Right. So, to the extent I would say if you estimate that there's another full day with, with Dr. Clark and Ms. Miner, then another full day with up to three experts.

MR. HOLZER: Yes.

CHAIR: And then you are under the impression that may conclude your case, right?

MR. HOLZER: Yes.

CHAIR: And then we'll have rebuttal. It sounds like we're going to need a minimum of three days.

MR. HOLZER: I think so.

CHAIR: Mr. Schmidt, would you agree with that assessment?

MR. SCHMIDT: That's what it sounds like, yes, sir.

CHAIR: So, if you can, three days then, you know, --

BOARD: (inaudible).

CHAIR: That's a good question. So, I guess it would be two additional days beyond the 29th. Because if the 29th is the rest of Dr. Clark, basically Ms. Dopkin does better math than I do.

MR. HOLZER: Yes.

CHAIR: Is where I'm going with this. Ms. Miner and then the next yet to be scheduled day would be experts and then the day after that presumably will be your rebuttal day and hopefully maybe the conclusion of evidence.

MR. HOLZER: Yes.

CHAIR: But again, whatever your cases need.

MR. HOLZER: No, I think, I, I think --

CHAIR: So, it's, but just to be on the safe side, why don't you set it up for three days?

MR. HOLZER: Right.

CHAIR: And again, I will urge before the calendar

year expires.

MR. HOLZER: Yes. Can I plead personal privilege and ask that I be permitted to go to Florida now?

CHAIR: Are we --

MR. HOLZER: It's after 4:00.

CHAIR: All right. So, with that in mind, if you feel it is the appropriate breaking spot.

MR. HOLZER: Yes.

CHAIR: And appropriate spot to get on I-95, yes, that's fine, motion granted.

MR. HOLZER: Thank you very much, members of the Board.

CHAIR: Again, keep in mind your deadline for responding to written objections of the 26th.

MR. HOLZER: Twenty-sixth, got it.

CHAIR: And Mr. Schmidt, you're already aware of the 19th.

MR. SCHMIDT: Yes, sir.

CHAIR: All right.

MR. HOLZER: Thank you.

CHAIR: Thank you all very much today and everyone have a great day.

MR. HOLZER: Thank you.

DR. CLARK: Can I, --

MR. SCHMIDT: Thank you.

DR. CLARK: -- can I talk to my wife in the meantime?

CHAIR: Not about this case.

DR. CLARK: Yes, sir.

CHAIR: I know it's going to be weird for a month. And Thanksgiving is going to be very awkward (inaudible). However, you are still under oath.

DR. CLARK: We will play by the rules, sir.

CHAIR: I appreciate that.

(OFF THE RECORD - 04:06:10 PM)

CERTIFICATE OF TRANSCRIBER

I hereby certify that the hearing in the matter of Nepali American Cultural Center, case number 18-122-X, heard before the Board of Appeals of Baltimore County, November 1, 2018 were recorded by means of audiotape.

I further certify that, to the best of my knowledge and belief, page numbers 1 through 212 constitute a complete and accurate transcript of the proceedings as transcribed by me.

I further certify that I am neither a relative to nor an employee of any attorney or party herein, and that I have no interest in the outcome of this case.

In witness thereof, I have affixed my signature this 19th day of December, 2018.

Christine R. Leary

(ON RECORD - 09:13:13 AM)

CHAIR: All right. Hello, everyone. We are here today for day five of the Nepali case, case number 2018-0122-X. We are in the middle of Protestant's case. Just by way of some housekeeping things. The people in the back row, I guess, you guys are fine for now but I understand, I mean, this side has been packed. People have been cutting across the front here during the course of testimony. So, if this side becomes packed again today, I might ask you to move forward a row, so that we can leave the backrow open for people to come and go. But as for now, since there's only two people on this side, it doesn't seem to be a problem. And for those people on this side, if you could somehow squeeze in through the aisles back there, that'd be fantastic, if you need to leave. Other than that, I wonder, is there anything else we need to address preliminarily?

MR. SCHMIDT: I don't believe so, no, sir.

CHAIR: All right. I understand today there's, I'm putting this on the record for CourtSmart. We do not have a court reporter. The court reporter was provided by Petitioner and I understand Petitioner gave Protestant the option of, of retaining the same court reporter, but obviously we're being recorded by CourtSmart anyway.

MR. SCHMIDT: That, that's correct, Mr. Garber.

CHAIR: And we have a, I understand, a presentation

today?

MR. HOLZER: Yes.

VOICE: Yes.

CHAIR: All right. So, by way of a road map for today, how many witnesses do you think you might get through today?

MR. HOLZER: Well, I had planned for one, two, three, four, five, six, seven. But I'm not sure.

CHAIR: I assume, the first four were before lunch and five, six, seven were after?

MR. HOLZER: I was, I was --

CHAIR: Given the break in your cadence there?

MR. HOLZER: There would be no, no experts presented today.

CHAIR: Not today? Okay. Do I understand that you'll, you may have some the next time?

MR. HOLZER: Oh, definitely. We, we have about, well, the next hearing would be November 1st, which would be next week. I would anticipate there may --

CHAIR: That's right.

MR. HOLZER: -- yeah, I would anticipate that there may be a couple experts testifying then, as well as, as some other witnesses.

CHAIR: And that would conclude Protestant's case?

MR. HOLZER: No.

CHAIR: Okay. Could always hope.

MR. HOLZER: I have, I have some other things that I need to present on the last day.

CHAIR: Okay, no problem.

MR. HOLZER: The prob, the prob, one of the problems, Mr. Chairman and members of the Board, is that there's a lot of people involved and, you know, and trying to get them all together, some are at work and they couldn't show up today, etcetera, etcetera, so.

CHAIR: No, I understand. We do what we can.

MR. HOLZER: I would say we've only had a half a day's hearing so far for our case.

CHAIR: I mean, this isn't about, this isn't a commentary about Protestant's case.

MR. HOLZER: Okay.

CHAIR: It's just a, we're just trying to have this done in as expedient as a matter as possible on all sides, so.

MR. HOLZER: And I, I previously had told the Board that on November 29th, I could possibly be at the Court of Appeals arguing a case. Turns out that I'll be there on the 28th, so I'll be able to be here on the 29th. Imparting a lot of Court of Appeals wisdom to the Board.

CHAIR: Well, at the present moment, I am scheduled for jury duty on the 29th. I will have to make that request to have that moved. I'm just waiting to see the outcome of your

request.

MR. HOLZER: Oh, okay.

CHAIR: To figure that part out.

MR. HOLZER: Yeah. Well, that's, if you'd like to take that day off too, that would be fine and just move it till December some time, but.

CHAIR: I think we were just going to get through the schedule as best as we can.

MR. HOLZER: Right.

CHAIR: Since everyone has already pre-cleared those dates, so the Circuit Court will just have to wait, for me that is.

MR. HOLZER: The Circuit Court can wait, the Court of Appeals won't wait.

CHAIR: They, they, all right. So, with that in mind, Mr. Holzer?

MR. HOLZER: Yes.

CHAIR: Would you like to call your next witness?

MR. HOLZER: Yes, I would. Joyce Mason.

CHAIR: Oh, and I should ask one more question, to the extent you can assess it today or for anyone here, does anyone have a hard stop time that they're aware of at the moment?

BOARD: Do you swear and affirm under the penalties of perjury, that the testimony you are about to give is true

and correct to the best of your knowledge and belief?

MS. MASON: Yes.

BOARD: Would you state your name and address for the record, please spell your last name?

MS. MASON: Joyce Mason, 11813 Harford Road, Glen Arm, Maryland 21057.

BOARD: And your last name is M-A-S-O-N?

MS. MASON: Correct.

BOARD: Okay and I should ask, if anybody has a cell phone, should turn it off.

CHAIR: Thank you. Yes, if you have a cell phone, please make sure they're off. There have been several occasions where they've gone off in the middle of testimony and it is very distracting to the parties and to the panel. And it is also, depending on how loud it is, picked up by CourtSmart, so keep that in mind. I'm sorry, you said your address was 11?

MS. MASON: 813.

CHAIR: 13, thank you. Harford Road.

MS. MASON: Correct.

MR. HOLZER: Mr. Chairman, I apologize, I should have put this up beforehand. I just wanted her to be able to show the Board where she lives and some of the other (inaudible).

CHAIR: That's great, thank you. No problem.

MR. HOLZER: If I'm not mistaken, was this entered earlier?

VOICE: I believe it was.

CHAIR: Well, wait a minute. On the, Mr. Schmidt, does that look familiar to you?

MR. SCHMIDT: Well, there's a --

CHAIR: Because we have something similar to it, I don't know if that --

MR. SCHMIDT: Yeah, I, I want to say there's something similar and I also noticed Protestant's fourteen is an aerial photo. That was from the last hearing date. And then Petitioner's number two was an aerial. I'm not sure, Mr. Garber, whether they're the same exact one or something similar.

CHAIR: So, hold on before you start. You in the backrow, sir, I'm going to have to ask you to move up because in case people come, just so we won't be faced with this situation (inaudible). If people are going to be coming in after things have started, I appreciate it. Thank you very much. Sorry to ask you to move, but it just seems to be the most efficient way for this to unfold. Thank you, all. Sorry, Mr. Holzer.

MR. HOLZER: What is the next Protestant's number? I'll mark this.

BOARD: Fifteen.

MR. HOLZER: In case there's a, fifteen?

BOARD: Fifteen.

MR. HOLZER: Could you possibly go up to this, what is marked as Protestant's fifteen? Just show the Board, and, and stand over on this side, show the Board what, where your house is in relationship to the subject site?

MS. MASON: Okay. My house is right here. This is my driveway.

CHAIR: Could we mark that with a red pen?

MR. HOLZER: Yes.

CHAIR: Do you have your red pen there, Mr. Holzer? And if you don't mind, ma'am, could you please put your initials above what you're marking?

MS. MASON: Certainly.

MR. HOLZER: Right it out there in the field so you can see it better.

MS. MASON: Okay.

CHAIR: Thank you.

MS. MASON: Okay.

MR. HOLZER: All right, thank you.

CHAIR: Mr. Schmidt, did you see that?

MR. SCHMIDT: Yes. Thank you.

MR. HOLZER: And, Ms. Mason, how long have you lived there?

MS. MASON: I've lived there for thirty years.

MR. HOLZER: All right and during the course of those thirty years, what have you been doing in terms of the

neighborhood, if anything, or, you know, your relationship or were you there when the previous attorney lived there?

MS. MASON: Yes, yes.

MR. HOLZER: Okay.

CHAIR: When you say lived there?

MR. HOLZER: Lived on the subject site. And were you, how long were you there while he was living there?

MS. MASON: Well, I believe that he was there up until the property went into foreclosure, so probably twenty years.

MR. HOLZER: Okay and during that course of time, was the property just used as a single family home?

MS. MASON: Yes, it was.

MR. HOLZER: All right. Did you ever visit the site while he was living there?

MS. MASON: No, I had not the opportunity.

MR. HOLZER: Okay. Have you ever had the opportunity to go onto the site?

MS. MASON: When it was, when it was put up for sale, I did go up there and just look at it because it was always an iconic staple in the neighborhood.

MR. HOLZER: Okay, okay. How, do you know how far it is from your house to the entrance of the facility or the subject site?

MS. MASON: Yes, 1.3 miles.

MR. HOLZER: Okay and have you been following the request of the applicant to, to utilize this property in a different way from that of a single family house?

MS. MASON: Yes.

MR. HOLZER: Okay. How long have you been aware of what's been going on?

MS. MASON: Since last, probably last fall.

MR. HOLZER: Okay. As a result of this request, that the applicant has, has submitted, do you have any concerns as a, a neighbor about what they're asking for?

MS. MASON: Yes. My concern is about the increased traffic burden and, and my personal, and my neighbors' safety on Harford Road. Harford Road is a rural two lane road with no shoulder and many blind curves. The Bonaparte property is located on a section of that, of Harford Road with blind curves and makes this a hazardous area. My husband and I have heard of many and seen many acc, traffic accidents on Harford Road. Just north of where we live, which is the intersection of Harford Road and Hartley Mill Road and south of our, our home by the drainage culvert there in front of 11737, near our home. And some of these were fatal accidents.

MR. HOLZER: Now, how do you know that?

MS. MASON: Well, one of them, it probably happened about five years ago. It was about quarter to twelve and I was just getting ready to go to bed and I was getting ready to

close the blinds on our kitchen windows and I heard this big loud boom and looked out the window and it, the vehicle literally exploded. It hit that culvert bridge and it exploded. And I, I did find out that the young lady was in a pick-up truck and she was, she died right on the scene.

MR. HOLZER: Have you had any occasions where helicopters or medivac helicopters have visited the site and could you explain where now that we know you're 1.3 miles south of the subject site?

MS. MASON: Yes, a meta, medivac helicopter landed in my neighbor's field twice. One time it was for an accident that was right in front of our home. I don't know exactly what happened but the car flipped over and the, I know that medivac landed in the field where I used to live at 11939 Harford Road, at least three times and I was told by the neighbors that it landed at the Redeemer School on Mount Vista Road two times.

MR. HOLZER: Okay. Where did you previously live? Was it any further away from the subject site or closer to it?

MS. MASON: It was closer.

MR. HOLZER: Where, and --

MS. MASON: Three houses closer. Before we moved to our home.

MR. HOLZER: Okay.

MS. MASON: And it is this property here.

MR. HOLZER: And the address of that, do you know

what it is?

MS. MASON: Yes, 11939.

MR. HOLZER: Would you like her to put her initials next to that?

CHAIR: Since she's pointing to it on the exhibit, yes, please.

MR. HOLZER: Okay.

CHAIR: And if you don't mind, now, since we have two of those markings, can you draw a number one and number two next to it?

MS. MASON: Certainly.

CHAIR: Draw a number two next to the one you just did and a number one to the first one. Thank you.

MS. MASON: Um hm.

MR. HOLZER: Thank you.

MS. MASON: Um hm.

MR. HOLZER: You can have your seat. Are you, are you familiar with the Baltimore County zoning regulations and Code 502.1?

MS. MASON: Yes.

MR. HOLZER: And how did you become familiar with that?

MS. MASON: By researching and looking at what would affect our, our neighborhood.

MR. HOLZER: Okay. All right and you don't have to

refer to the specifics or the language, but as a result of knowing what the 502.1 criteria is, how do you, let me put it another way. What is the impact of the proposed use on the subject site in relationship to 502.1 criteria?

MR. SCHMIDT: Objection. Mr. Garber, I know I made this objection before and I believe you overruled my objection. I just note a continuing objection. I would say in this case that the question that's been asked in this case, I think is even more inappropriate to the extent that the question was not about impacts on her property but as I understand it, just generally the area and I think as she's not an expert witness, she could not render an opinion. But I know your ruling. I just wanted to put that on the record.

CHAIR: Well, so, as asked, I can understand why you raise the objection again. Mr. Holzer, do you have a response?

MR. HOLZER: Yeah. She can certainly, doesn't have to testify as an expert or a zoning expert, but she can certainly testify as to the impact on her property and/or the surrounding community.

CHAIR: Okay. Well, I mean, it's understood that she is not an expert --

MR. HOLZER: Of course.

CHAIR: -- in Baltimore County zoning regulations, not an expert in the 502.1 factors. She has read them, reviewed them and has an understanding of them and she's about

to present testimony as to the, as to her lay opinions as to the impact upon her property and/or the surrounding sites, therefore, it would (inaudible) under that basis.

MR. HOLZER: Thank you.

MS. MASON: Well, my concern it's detrimental to the health, safety and general welfare of the locality involved and it's about the increased traffic burden and the safety on all who live and have to travel Harford Road. I was personally involved in an accident on Harford Road on September 14th when we were --

MR. HOLZER: Of what year?

MS. MASON: Of this year.

MR. HOLZER: Okay.

MS. MASON: I'm still suffering consequences from that accident. When we were traveling south from our home at 11813 Harford Road and we got to the seven sisters turns, which are just south of us --

CHAIR: Mr. Holzer, is it appropriate to ask if she has representation in relation to that matter?

MR. HOLZER: What do you mean represent, you mean an attorney?

CHAIR: If she has an attorney representing her in the accident case?

MR. HOLZER: I don't see why that's relevant.

CHAIR: Well, if she's going to be going into what

happened during the course of the accident and she has an attorney representing her for the accident, perhaps for your case, the mere fact that there was an accident in a particular location would be sufficient without going into the details, if she has an attorney for the accident.

MR. HOLZER: All right. Do you have an attorney?

MS. MASON: Yes.

MR. HOLZER: Okay. I, I understand what your question is, Chair, Mr. Chairman. The point of the matter is, she would like to express what, what she, what took place and I don't see where that's going to conflict or cause any problem with her attorney or her other case.

CHAIR: Okay. If, well, as long as you, well, with that in mind, I guess you can proceed. But I would just proceed with caution on that point.

MR. HOLZER: Thank you.

MS. MASON: Okay. As we were going through the seven sisters turns, which are those turns that are south, just south of us, we got to about the fourth curve and in front of Mr. Maurice Brown's house, which he lives at 10910 Harford Road, and as we crested that curve, there was a silver SUV in our lane coming at us. He had crossed the double yellow line on the blind curve, and as we turned he was there. And on the right of us was the guard rail. My husband was driving, on the right of us was the guard rail, there was really no place to go

and my husband, in that split second, kind of turned the face of the, the, the front of the car just a little bit so that the gentleman didn't hit us head on, he hit the side of the car and then got caught on our rear wheel and then I really don't know what happened and he, he was flipped over at that point because the airbags went off.

MR. HOLZER: Okay. Do you have any pictures of that?

MS. MASON: Yes, I do. This is what happened to our car. Do you need the rest of them?

MR. HOLZER: There's one, two, three, four copies here.

MS. MASON: Just one picture?

MR. HOLZER: Yes, just one picture.

MS. MASON: Okay. And this is what happened --

MR. HOLZER: Wait, wait a second.

CHAIR: There's no question pending at the moment. So, this is sixteen?

BOARD: Sixteen.

MR. HOLZER: This is sixteen. Now, this is a photo of your car?

MS. MASON: Correct.

MR. HOLZER: Okay and what direction are we facing? Are we looking south or are we looking north?

MS. MASON: We are looking south.

MR. SCHMIDT: Okay and, and as you said, the car hit

you on the side and, and did that cause you to run into the guard rail?

MS. MASON: It, it flipped us around and then we ended up against the guard rail in this con, in this position.

MR. HOLZER: Okay and that happened on what date?

MS. MASON: Friday, September 14th, 2018.

MR. HOLZER: I would mark this as, move in as sixteen then.

CHAIR: Mr. Schmidt?

MR. SCHMIDT: Just a, if I can just ask, this is south of your house?

MS. MASON: Correct.

MR. SCHMIDT: And your property is south of the Nepali site, correct?

MS. MASON: Correct.

MR. SCHMIDT: So, your driveway is 1.3 miles south of Nepali, correct?

MS. MASON: Correct.

MR. SCHMIDT: How much further south --

MR. HOLZER: Objection.

MR. SCHMIDT: -- is, is this? I'm just trying to understand where this is.

MR. HOLZER: Come on. Well, you can cross examination, that's what it's for.

MR. SCHMIDT: Well, then I'll, I'll object for the

record, because if it's so far away then it doesn't have any relevance, it's, we know it's at least 1.3 miles away and apparently more than that.

CHAIR: All right. Well, I think it will be received and understood that --

MR. SCHMIDT: Okay.

CHAIR: It'll carry whatever necessary weight and you can always cross examine on that point and I think that all Mr. Schmidt was trying to do is just get to the bottom of that point for expediency sake.

MR. HOLZER: I understand. I didn't object to the first part of it.

CHAIR: Yeah.

MR. HOLZER: Thank you. Now, what, what else has occurred in terms of, of your concern on the impact of the proposed extra traffic being on here because of the application?

MS. MASON: Well, on October 18th at 8:54 a.m., the dashcam that Dr. Mary Clarke's, captured in her car, that, and I have pictures of that also, that a broken down dump truck, I mean, a broken down car, excuse me, had, the car had broken down just south of the first curve as you're traveling north to the Bonaparte property, that area of the road is only about a three foot shoulder, so there was not enough shoulder for the car to pull out of the travel lane and I do have a picture of

that. The police car was behind the broken down car and when the dump truck was going north, it had, it had to cross the double yellow line to get past the two cars that were just south of the blind curve. What you don't see in this photo is that, that there is a south bound car coming toward the dump truck but it's obscured, obscured by the dump truck. Fortunately, in this instance, it didn't result in an accident but this is another example of how dangerous the blind curves on Harford Road are.

MR. HOLZER: Now, let me ask you this, --

CHAIR: This is seventeen?

BOARD: Seventeen.

CHAIR: Thank you.

MR. HOLZER: We are looking south --

MS. MASON: North.

MR. HOLZER: I'm sorry, north, towards the subject site?

MS. MASON: Correct.

MR. HOLZER: Okay and the police car is sitting on the shoulder and there's a vehicle in front of it, is that correct?

MS. MASON: Correct.

MR. HOLZER: Okay. The dump truck went across the yellow line going north?

MS. MASON: Correct.

MR. HOLZER: Okay. Towards the subject site that we're talking about?

MS. MASON: Correct. And there also is a car in front of the dump truck coming south, but you can't see it in the picture.

MR. HOLZER: Okay and, and this was taken from Mary's car?

MS. MASON: Yes, Dr. Mary Clarke's car.

MR. HOLZER: Okay and --

MR. SCHMIDT: I'm sorry.

CHAIR: (inaudible).

MR. SCHMIDT: Object, I'm just going to object.

CHAIR: You can't answer the question.

MR. SCHMIDT: Did, did she take the picture?

CHAIR: No.

MR. SCHMIDT: Was she present when the picture was taken?

CHAIR: I think that question has not been established yet.

MR. HOLZER: Were you present when --

MS. MASON: No, I was not.

MR. SCHMIDT: Well, then I'm going to object. How can she say there was a car south bound if she wasn't there?

CHAIR: I'll sustain that.

MR. HOLZER: Okay. The picture speaks for itself the

way it is.

MR. SCHMIDT: And there's no car coming south bound, right?

CHAIR: Mr. Schmidt, we don't need to --

MR. SCHMIDT: Okay, I'm sorry.

CHAIR: -- make comments as to the picture. We all can see what it is.

MR. HOLZER: What, what concerns, again, related, as I asked you before, to the 502.1 criteria, what concerns do you have as to how it impacts your property or your health, safety and welfare in the community?

MS. MASON: Well, 502.1(B) says tends to create congestion on roads, streets and alleyways therein. Over the years, the traffic on Harford Road has increased dramatically. It's a two lane rural roadway, which has many farms. With those farms, comes farm equipment, tractors, combines, bailers, hay wagons and such being moved from farm to farm. Many of these farmers tend to, to farm fields that are not located in the direct vicinity of their farm. I know that the Snyder family, just south of our property, cut and bail hay off of the Hutschenreuter Road property and they move hay equipment up and down Harford Road in front of my house. As a matter of fact, I saw Bob Snyder just the other day passing by my house as I was, he was going north and I, he, I was turning into my driveway and he had the tractor with his wide hay wagon that took up the

whole lane, attached to his tractor. I know this because I buy hay from him on a regular basis.

MR. HOLZER: Have you had any personal experiences with farm equipment on the prop, on Harford Road?

MS. MASON: Yes, I have. I, I've, we, our bottom field is separate from our top field by a stream and so to get to it to mow, you have to go out onto Harford Road and go into the gate and then coming out of the, our bottom property, if I'm coming back to my driveway, I have to go onto Harford Road, which I go into the south bound lane to travel with the flow of traffic. Well, on one occasion I, and I put my blinkers on, on the tractor and it has a slow moving triangle, and on one occasion, I was, I mean it's, it's about five, maybe about seventy-five to eighty feet that I have to travel and I put my arm out to turn left and just as I was getting ready to turn, a car zoomed around me and we almost collided. So, now when I go to do that, I have to actually physically turn around to make sure nobody is going to whiz by me as I'm signaling to make the left hand turn. And it's just very dangerous.

MR. HOLZER: It, did you, did you, were you here when the traffic expert for the applicant testified? Were you here when, when that --

MS. MASON: Yes.

MR. HOLZER: Okay. He testified that there were no problems on Harford Road in terms of the volume of traffic or

in regard to the speed. Do you have a thought in regard to those comments that he made?

MS. MASON: Well, yeah, I mean, the, the speed in front of our home, going south, of course, is forty-five and going north is fifty. And people do speed along there. They, they, it's, it's, that road is ill suited for increase in traffic mainly because of the, the nature of the road. It has farm traffic on that roadway that, you know, as I pointed out, it's just really not, it's very ill suited for, for the increase in traffic.

MR. HOLZER: Okay, okay. Do you have any concerns about your, or quiet enjoyment of your property?

MS. MASON: Yes. During the event that NACCB Incorporated held in the middle of the summer of 2017, I, I don't know the exact dates of that because, but we could hear very loud talking over an amplification system most of the day at our home. I have hor, I have a horse and, well, I had one horse at the time, I have four now. And it was very unsettling to my thirty-three year old horse. He was spooked at the loud noise and was just running around, just really strangely.

MR. HOLZER: Okay.

MS. MASON: And it did scare him.

MR. HOLZER: I'm not sure whether horses are covered by 502.1, to be honest with you. Did you, did you have any personal experience in regard to any noise emanating from the

subject site?

MS. MASON: Well, yes, because I'm out there with them, so that's why I knew that there was loud talking and, again, during this fundraiser that NACCB Incorporated held on July 28th through August 3rd of this year, 2018, we could hear loud talking again and again, it was unsettling to my four horses. I mean, if the, if my horses get spooked at this loud talking, I cannot, you know, the wildlife can certainly be impacted by all the noise and could run into the road and cause more chaos on Harford Road.

CHAIR: So, did you say there were two occasions where you heard that?

MS. MASON: Yes. It was last, summer of 2017, and I don't know the exact date. It was in the middle of the summer and then again, this year in 2018, July 28th through the 3rd, it was off and on.

CHAIR: Okay. Thank you.

MS. MASON: You're welcome.

MR. HOLZER: And in talking about your own reasons for moving to this site, I understand you had lived at two different places on, along Harford Road. Why did you move to this area to begin with?

MS. MASON: Well, in 1979, I had the opportunity to move to this valley at, and to live at 11939 Harford Road and I was thrilled. I would have a place to put my horses and enjoy

the tranquility of that area because it's just so, so quiet. I've lived there for nine years and my husband and I, when we bought our home, our current home at 11813, which is just three houses south of 11939, and I love leaving there. I love the peacefulness of the rural area, enjoy watching the native wildlife and this is a, just an overhead valley picture similar to that one up there.

MR. HOLZER: Is that the same thing or --

MS. MASON: I believe it is.

MR. HOLZER: If it is, then there's no need to introduce it.

MS. MASON: Okay.

MR. HOLZER: Let me just --

CHAIR: Well, I would say that since we don't have copies for ourselves here at the panel --

MR. HOLZER: Oh, okay, I'm sorry.

CHAIR: -- if you want to make that 15-A or, Ms. Murphy, what would you like?

BOARD: We could just use that as, the big one is fifteen, if you want, I mean, --

CHAIR: Right, and then just hand us individual --

BOARD: Sure, we could use those.

CHAIR: Mr. Schmidt?

MR. SCHMIDT: Is it the same photo?

MR. HOLZER: No, it's not.

CHAIR: Oh.

BOARD: Oh.

MS. MASON: It's similar.

BOARD: Eighteen.

CHAIR: Scratch everything I just said.

MR. HOLZER: Now, could you describe --

CHAIR: Thank you.

MR. HOLZER: -- describe this picture?

MS. MASON: This picture is a picture of the valley that shows the valley from the subject property down past Sharon Drive, just showing the, the, how nice, how wooded and how quiet and tranquil the valley is.

MR. HOLZER: Now, I'm looking at it and if I look to the far left of the picture, if I'm holding it vertically with Glen Arm Road vertically, the curve and the subject site is to the left in the middle of the picture, is that right?

MS. MASON: That is correct.

MR. HOLZER: And then Harford Road would, would begin going south and it would go past Hartley Mill Road, it would go past Sharon Drive, etcetera, right?

MS. MASON: Correct, yes.

MR. HOLZER: Okay and so, the purpose of this picture that you wanted to show the Board is to show what?

MS. MASON: The, the tranquility of the valley. That it's, it's a RC-2 valley that, with farms and farmland and

single family homes.

MR. HOLZER: Okay. Okay.

MR. SCHMIDT: Ms. Murphy, what number is this?

MR. HOLZER: Eighteen.

BOARD: This is the same thing.

CHAIR: Yes.

MR. HOLZER: Is it really?

BOARD: If you turn it, yeah, if you turn it sidewise, it's exactly the same photo.

MR. HOLZER: Well, this color showed much more brown than that picture did, that's --

CHAIR: One was during the summer and fall --

MR. HOLZER: Yeah, yeah. Well, if it is, it's still eighteen.

BOARD: It's still fif, you want to make it a --

MR. HOLZER: No, make it 15-A or B?

CHAIR: Why don't we just leave it as is? At eighteen, this way we won't confuse the record and --

MR. HOLZER: Okay.

CHAIR: -- and it has to be, we'll just acknowledge the fact that it appears that Exhibit 15 and 18 look to be the same. We'll leave it at that.

MR. HOLZER: Okay, thank you.

CHAIR: How's that?

MR. HOLZER: Let's move on. Now, have you

experienced in the last year or two, have you experienced any events at the subject site that you care to share your experience with the Board?

MS. MASON: Just the noise and, and the increased traffic. We can hear, we can just hear the, the talking. We don't so much hear the music, but we hear the talking, the loud talking. It has to be over an amplification system because we're 1.3 miles away.

MR. HOLZER: Okay and, when these events were, were held, do you know how many events have been held there on the site?

MS. MASON: We heard just the two.

MR. HOLZER: Um hm.

MS. MASON: But we travel up to Bel Air so we go by the site and we see the traffic going in and going out. You know, we see the cars parked there so we know that there's quite a few, we've, I've heard through the testimony that sometimes there's three, sometimes they say there's five, not quite sure. (inaudible) next door, different --

CHAIR: Well, let's --

MR. HOLZER: Okay.

CHAIR: -- not go down that road.

MR. HOLZER: So, but you've heard two?

MS. MASON: Yes, I heard two.

MR. HOLZER: Okay.

MS. MASON: Myself, personally.

MR. HOLZER: All right. Is there anything else that you'd like to share with the Board before I stop asking you questions?

MS. MASON: Well, I grew up in Baltimore County in, in an area that's one mile away from Bethlehem Steel. Noise, congestion, that makes the serenity of this valley important to me. These concerns are not mine alone. Many of my neighbors living in this valley have similar concerns. This is one of the last rural valleys in Baltimore County. The residents there have worked hard to maintain the RC-2 rural nature of this valley. You know, we enjoy looking at the valley and we enjoy looking at the scenes of the valley. We have an iconic view of the subject property and I can show that. And we want future generations to be able to have this same opportunity that we have. We can see the, the subject property, the home.

MR. HOLZER: Okay. Is this --

MS. MASON: It's an iconic view of the, the --

MR. HOLZER: Where is your home in relationship to the bottom part of this picture?

MS. MASON: Okay. My home is --

CHAIR: Which picture are we looking at?

MR. HOLZER: I'm, I'm going to, I just want her to, to identify it.

MS. MASON: Okay. My home is further down Harford

Road, but as you're driving, we drive frequently --

MR. HOLZER: I think they've seen that before.

MS. MASON: -- you can see the property.

MR. HOLZER: All right.

MS. MASON: I think Mr. --

MR. HOLZER: I'm, I'm sorry, wait a minute.

CHAIR: Yeah, one second. There's no question pending.

MR. SCHMIDT: I just would like, if we can, before we admit this photograph, to have an idea of where this picture was taken and whether this witness took it. I think that's appropriate.

MR. HOLZER: I can proffer that she did not take it, someone else took it.

CHAIR: Well, hold on. Mr. Schmidt, so far, as I recall, nothing has been admitted into evidence as of yet. Mr. Holzer has yet to, yet to do that.

MR. HOLZER: Right.

CHAIR: As to your, if you have an objection to it, you can get to that if need be, you can get to some matters on cross examination but I'm sure Mr. Holzer is going to lay a foundation --

MR. HOLZER: Right.

CHAIR: -- as to the photograph before he offers it into evidence.

MR. HOLZER: Yes.

CHAIR: Thank you.

MR. HOLZER: Did you, did you take this picture?

MS. MASON: No, I did not.

MR. HOLZER: Do you know who did?

MS. MASON: I believe that Mr. Dewey Clark took this picture.

MR. HOLZER: Okay and he's going to be a witness later on in another, either today or another day?

MS. MASON: Yes.

MR. HOLZER: Okay and you, when, when one sees, looks at this picture, the building at the top of the ridge line or the, the tree line, is that the subject site?

MS. MASON: Yes.

MR. HOLZER: The subject property?

MS. MASON: Yes, it is.

MR. HOLZER: Okay and the road that proceeds from the bottom of the picture in a north, northern direction, that's Harford Road, is that correct?

MS. MASON: Yes.

MR. HOLZER: Okay. Now, you were in the process of showing where your property is in relationship to this picture. Can you do that?

MS. MASON: Well, you can't visibly, visibly see my property, it's down further. Like, it would be like right in

this area.

MR. HOLZER: I'm sorry --

MS. MASON: Behind the trees.

MR. HOLZER: I'm sorry. The witness put her finger somewhere to the right of the last telephone pole. Would you want to mark this, mark the picture with where --

CHAIR: You want to use the red pen?

MR. HOLZER: Yes.

BOARD: (inaudible).

MS. MASON: Okay.

CHAIR: Mr. Schmidt, you following along here?

MR. SCHMIDT: Yes, sir.

MS. MASON: I mean, you can't --

MR. HOLZER: You cannot see your home.

CHAIR: Understood that you can't see your home on the photo.

MS. MASON: No, you cannot.

CHAIR: But you can locate the general vicinity of where your home is in relation to what's depicted in the photo?

MS. MASON: Correct.

MR. HOLZER: Can you put your initials next to the X? And I'll show it to Mr. Schmidt.

MR. SCHMIDT: Okay, thank you. Do, do I understand, I'm sorry, Mr. Holzer, but do I understand this picture is taken further away from the Nepali property than where the

witness lives?

MR. HOLZER: That's correct.

MR. SCHMIDT: Okay. So, this is further south of the Nepali property, okay.

CHAIR: It's beyond 1.3 miles then.

MR. SCHMIDT: Okay.

CHAIR: That would be my understanding.

MR. HOLZER: It was apparently taken, and I'll proffer this for now, it was taken from Sharon Drive, right here. Sharon Drive and Harford Road. So, it was taken south of both of her homes and south of the entrance way to the subject site. And I'm sorry, we offered this as nineteen?

BOARD: As nineteen.

CHAIR: Do you have any objection to Exhibit 19?

MR. SCHMIDT: Well, I guess, I, I do have some questions of the photographer as to if that photographer was standing on the ground or whether the photographer is elevated.

MR. HOLZER: I proffer you'll get your chance to cross examine.

CHAIR: Right, but for purposes of this (inaudible).

MR. SCHMIDT: But for the purpose of putting it in right now, I mean, I, I would technically object because the photographer hasn't taken that and established a foundation for it.

CHAIR: You don't need the photographer to, for the

auth, to authenticate the photo. She's familiar with the --

MR. SCHMIDT: Well, assuming that's what it looks like, assuming that, that there's no unusual lens that was used or anything. I just don't know, Mr. Garber, and that's why the witness --

CHAIR: Well, no, okay.

MR. SCHMIDT: -- the witness who has taken the photograph I can't ask. So, I, I have no idea and this witness doesn't know either.

CHAIR: Mr. Holzer, do you wish to --

MR. HOLZER: Mark it for identification.

CHAIR: Okay.

MR. HOLZER: And it'll be, you'll have plenty opportunity, days.

BOARD: So, none of these exhibits are in so far, fifteen through nineteen?

MR. HOLZER: Yeah.

BOARD: Okay. Just to let you know.

MR. HOLZER: Yeah.

BOARD: All right.

MR. HOLZER: Actually, I think there are some other ones that are not.

BOARD: Just to let you know, that's where we are.

MR. HOLZER: I'm laying the foundation.

BOARD: Oh, okay.

MR. HOLZER: Well, just for parenthesis purposes, I believe the applicant put in a picture similar to that. Whether it shows the, the building as clearly as this one or not, so I'm not going to worry --

CHAIR: I recall a similar photo.

MR. HOLZER: I'm not going to worry about it right now. Do you have anything else to, to testify to before the Board before I let you go?

MS. MASON: Yes. The proposed use of this property does have a greater impact on the community than other RC-2 zoned rural areas due to the unique terrain of the area, which includes many peaks and valleys, blind curves and agricultural activities. In my opinion, this does not meet the standard for a special exception. If the past is a prelude to the future, the past practices of NACCB Incorporated shows that they will continue to be bad neighbors in the future. Thank you.

MR. HOLZER: No further wit, no further questions. Your witness.

CHAIR: Mr. Schmidt?

MR. SCHMIDT: Ma'am, the last sentence that you read, who wrote that?

MS. MASON: I did.

MR. SCHMIDT: You did? With the assistance of anyone?

MS. MASON: No.

MR. SCHMIDT: Okay. So, that's your --

MS. MASON: A grammar, grammar review.

MR. SCHMIDT: Okay. That's your work product?

MS. MASON: This is my work product.

MR. SCHMIDT: Okay. You have a copy of Section 502.1 in front of you?

MS. MASON: Yes, I do.

MR. SCHMIDT: Okay. Can you tell me where in that section the word noise appears?

MS. MASON: It is detrimental to the health, safety and general welfare of the locality involved.

MR. SCHMIDT: Ma'am, let me ask you the question.

MR. HOLZER: Objection. Let her finish her answer.

CHAIR: Hold on. Let her finish her answer.

MR. SCHMIDT: Okay. Go ahead, ma'am. Be detrimental to the health, safety and general welfare of the locality involved.

MS. MASON: Yes.

MR. SCHMIDT: Okay.

CHAIR: Was that the complete, is that --

MS. MASON: No, that is not my complete answer.

MR. SCHMIDT: Yes, ma'am.

CHAIR: Please, please go, please go on.

MS. MASON: The noise interferes with the health of my family.

MR. SCHMIDT: Okay. Let's try this again. I'm going to ask you to answer the question that I ask, if I can. You're familiar with the word noise, N-O-I-S-E, correct?

MS. MASON: Yes, sir.

MR. SCHMIDT: Okay. Where does that word appear in 502.1?

MS. MASON: That word does not appear as N-O-I-S-E in 502.1.

MR. SCHMIDT: Thank you, ma'am. And now, your property is 1.3 miles south of the subject property, right?

MS. MASON: Yes.

MR. SCHMIDT: Is that as the crow flies or is that as one drives Harford Road?

MS. MASON: That is as one drives Harford Road.

MR. SCHMIDT: Okay. Do you know how far the property is, your property is from the (inaudible) as the crow flies, if you know? Do you know?

MS. MASON: No, I don't.

MR. SCHMIDT: You do not know. Okay. I noticed on exhibit number sixteen, which is the vehicle, which is the photograph of your vehicle. Do you have a copy of that?

MS. MASON: Yes.

MR. SCHMIDT: Okay. Let me ask you a question about that, if I can, ma'am. Let me know when you have it, you have it in front of you?

MS. MASON: Yes.

MR. SCHMIDT: Okay. Behind, overtop the roof of your vehicle is a road sign that appears to indicate that there is a, a turn, is that right?

MS. MASON: Yes.

MR. SCHMIDT: Okay. You referred to a series of turns south of your property as the seven sisters turns?

MS. MASON: Correct.

MR. SCHMIDT: Is that a sign for one of the seven sisters turns?

MS. MASON: Yes.

MR. SCHMIDT: Okay and that, those, those turns are also in the valley, are they not?

MS. MASON: They are in the Long Green Valley, yes.

MR. SCHMIDT: Okay and, and within the area that you've described as your valley or the valley that you're concerned would be adversely impacted by the Nepali project, is that correct?

MS. MASON: Correct.

MR. SCHMIDT: Okay and there are a series of seven turns in that location, is that correct?

MS. MASON: Yes.

MR. SCHMIDT: Is this the first one as one would go south that we're looking at in the distance or are there already turns as one would look south in the photograph?

MS. MASON: The turn that this sign indicates is about the fifth turn.

MR. SCHMIDT: Okay. Okay. Now, this accident, how far south of your property did this occur?

MS. MASON: I don't know exactly how far south of my property, but it's 3.3 miles, well, it would be two miles then. Because it's 3.3 miles south on Harford Road from the subject property, so it makes it two miles from my home.

MR. SCHMIDT: Okay. So, this accident occurred 3.3 miles south of the Nepali property?

MS. MASON: Correct.

MR. SCHMIDT: Okay. Ma'am, what do you anticipate the increase to be in the volume of traffic which would be generated by the Nepali facility?

MS. MASON: I'm not a traffic expert. I'm just a lay person and I just know that there, that they had said in their post on Facebook that they had anywhere from three hundred to five hundred people attend their festival fundraiser event.

MR. SCHMIDT: Okay and you indicated, I think you indicated, that over in, in the calendar year 2017, there was one event that you were aware of that you could hear?

MS. MASON: Yes.

MR. SCHMIDT: And in the calendar year 2018, there was also one event that you could hear?

MS. MASON: Yes.

MR. SCHMIDT: Okay. Did those events cause traffic congestion in front of your home?

MS. MASON: Well, I didn't, I didn't go out and watch the traffic. I don't know if it was traffic events. All I noted was the noise.

MR. SCHMIDT: Okay. So, you didn't note any increase in the volume of traffic in front of your home? There wasn't stop and go traffic in front of your home on the days of this events in 2017 or 2018 that you noticed, that you took any pictures of, that you called the police to complain about why is Harford Road a gridlock or anything like that?

MS. MASON: No.

MR. SCHMIDT: Okay, all right. The impact of those events, as far as you're concerned, was the noise, which unsettled you and unsettled your horses?

MS. MASON: Correct.

MR. SCHMIDT: Okay. Was that amplified noise?

MS. MASON: I would say yes. I don't know, I don't have proof of an amplification system.

MR. SCHMIDT: Well, did it sound like it? Did it sound like a microphone?

MS. MASON: Yes. For me to hear at 1.3 miles by the roadway, I would say yes.

MR. SCHMIDT: Yeah, I, I mean, I don't know that anybody could scream without amplification and be heard on your

property 1.3 miles away, do you, do you think that to be the case?

MS. MASON: I don't think that's the case.

MR. SCHMIDT: Okay. So, there had to be some kind of amplification, is that correct?

MS. MASON: Yes.

MR. SCHMIDT: So, if there was no amplification of any noise on the Nepali property, would that alleviate your concerns as it relates to noise?

MS. MASON: In this instance, yes.

MR. SCHMIDT: Well, how about in any instance?

MS. MASON: I can't answer for any instance because I don't know what other instances there would be.

MR. SCHMIDT: Well, let me say this. If the Board of Appeals chose to enter a restriction as the Administrative Law Judge did in this case, which prohibited the amplification of sound out, on the Nepali property, outside the building, would that then alleviate your concern?

MS. MASON: Well, I believe they did and we had amplification in 2018.

MR. SCHMIDT: I understand that, ma'am. And apparently, I guess, one could argue or say that the, that that restriction, for whatever reason, was not being followed. But again, if you could answer my question, I would appreciate it. I'm not trying to trick you, but I would like an answer to the

question that I'm asking and that is, if there was no amplification of outdoor sound, be it music, voices, whatever it might be on the Nepali property, would that alleviate your concern as it relates to noise?

MS. MASON: I believe it would alleviate the concern for noise, for voices. I don't know about music.

MR. SCHMIDT: Okay. Okay. Yeah, so, so someone playing, strumming, for example, an acoustic guitar, you might be able to hear that?

MS. MASON: I don't know.

MR. SCHMIDT: Even if it was, you don't know, but it would alleviate your concerns as to people talking or singing or anything like that because, obviously, you can't hear that a mile and, 1.3 miles away without amplification?

MS. MASON: I wouldn't think so.

MR. SCHMIDT: Okay. Okay. Well, and you never heard it without amplification? The noise that you've heard --

MS. MASON: That I'm aware of.

MR. SCHMIDT: -- is amplified voices, is that correct?

MS. MASON: That I'm aware of.

MR. SCHMIDT: Okay. Well, you're the one that heard it. Nobody else would be aware of it.

MS. MASON: But I can hear it, but I don't know if, what type of amplification, if there was any or not.

MR. SCHMIDT: You can't tell if a voice is being amplified by a microphone or some type of equipment like that?

MS. MASON: We could just hear a voice, we could just hear people talking.

MR. SCHMIDT: Okay. Maybe it was God, who knows (inaudible).

MR. HOLZER: Objection. I mean, that's a little far --

CHAIR: Mr. Schmidt, please, --

MR. SCHMIDT: Okay.

CHAIR: Mr. Schmidt, please stick to your questions. Sustained.

MR. SCHMIDT: Have you ever heard of any noise from the Beachmont facility?

MS. MASON: No.

MR. SCHMIDT: The Christian Redeemer facility, you know what the property that I'm talking about?

MS. MASON: Yes, over on Mount Vista Road.

MR. SCHMIDT: Right, how far are you from that, if you know?

MS. MASON: I don't know.

MR. SCHMIDT: Okay. Are you familiar with that operation at all?

MS. MASON: No, I drive by when I need to use Mount Vista Road. I have never been at that location.

MR. SCHMIDT: Never been inside that facility?

MS. MASON: No.

MR. SCHMIDT: And you've been to this property, I think, you said one time, correct?

MS. MASON: Yes, when it was for sale.

MR. SCHMIDT: Okay. Are there any plans that the Nepali congregation has to change the exterior of the subject building, if you know?

MS. MASON: I don't know.

MR. SCHMIDT: Okay. Well, if that building was to, were to, would be, were to remain the same in term of its, terms of its appearance, would that alleviate any concern that you would have in terms of a visual impact?

MS. MASON: I would guess it, I, that, no, I wouldn't, that wouldn't bother me, no.

MR. SCHMIDT: So, so if it chooses a temple, or if it chooses a house, if it continues to look the same to the eye, in for example, the photograph number --

CHAIR: Nineteen?

MR. SCHMIDT: -- I believe it's nineteen, then the visual impact, or the visual effect would be the same, would it not?

MS. MASON: If, I believe it would be.

MR. SCHMIDT: Okay. You have any idea how much traffic goes up and down Harford Road on an annual basis?

MS. MASON: Oh, a lot. I don't know quantities or anything, but all I know is a lot.

MR. SCHMIDT: Okay. Do, were you here for Mr. Callagero (phonetic), the traffic engineer's testimony?

MS. MASON: Yes.

MR. SCHMIDT: Do you recall what he said the volume of traffic was on an annual basis?

MS. MASON: I don't know the annual, I think the, it was six thousand cars a day in that area of the subject property, somewhere around six thousand or sixty-five hundred cars a day.

MR. SCHMIDT: Okay. But I don't, that's not in front of my home, that's in front of the subject property.

MR. SCHMIDT: Okay. Okay. Board's indulgence. No other questions, thank you.

MR. HOLZER: Thank you. Ms. Mason, the Administrative Law Judge imposed that there would be no outside amplification. Are you aware of that?

MS. MASON: Yes.

MR. HOLZER: Okay and as a result of that, if there was outside amplification so that you could, so that you could hear people talking from the site, would that be a violation of the condition that he imposed?

MS. MASON: Yes.

MR. HOLZER: Okay.

MS. MASON: I would believe it would.

MR. HOLZER: Now, suppose this Board imposes that same condition, there will be no outside amplification and a year from now there is outside amplification. Would you like that?

MS. MASON: Absolutely not.

MR. HOLZER: So, there is a concern relative to the applicant not, not adhering to the conditions of any decision of either the Administrative Law Judge or the Board of Appeals, is that correct?

MS. MASON: Yes.

MR. SCHMIDT: Objection. It's turning into a violation case and that's not why we're here.

CHAIR: I think the question was, do you have a concern that they will not follow any restriction imposed by the Board of Appeals, is really where he was going with that.

MR. HOLZER: Right, right.

CHAIR: That, that's correct?

MR. HOLZER: Yes.

CHAIR: All right.

MS. MASON: Yes, based on their past behavior, I would believe that the future behavior would be the same, my opinion.

MR. HOLZER: Okay. As Mr. Schmidt asked you about the, the building, if nothing changed about the building, would

that, would you be satisfied with that, okay? In the special exception hearing before this Board, the building and its surrounding acc, accomplishes about 2.2 acres. But they've asked for thirty acres in terms of, of the special exception. Do you have any concern that there could be expansion of that build, the particular house that they're talking about to some other building?

MR. SCHMIDT: Objection. And Mr. Garber, I mean, this --

MR. HOLZER: You opened the door.

CHAIR: Hold on. Hold on.

MR. SCHMIDT: No, I didn't.

CHAIR: One at a time. Mr. Schmidt?

MR. SCHMIDT: If I can be heard on my objection?

CHAIR: Yes. Mr. Schmidt?

MR. SCHMIDT: Okay. This, if the Board approves this special exception, assuming arguendo, the Board would do so, would it, it would improve, it would approve it in accordance with the site plan which had been submitted. And if there was to be a change to that site plan, it would be required that the applicant come in and get that approval and get that expansion or whatever it might be approved, approved. So, we're not asking for additional, we're, we're asking for approval of the use of the property as it's shown on the site plan. The site plan is what the Board --

CHAIR: Is what's in front of us.

MR. SCHMIDT: -- would approve and what, not fifty years from now if they decide to build a new building or something like that. And the neighbor, and if that's, if, if, not that Nepali couldn't come back and do that, but if they did, just like in countless other zoning cases, they would be required to come in and amend the site plan. I know Ms. Dopkin has probably represented people who's done that herself, as, as you may have done too. So, it's a, it's, it's not a relevant question.

MR. HOLZER: It is a relevant question because client after client, neighbor after neighbor, is told the same thing and once they get the special exception for 2.2 acres or thirty acres, development in the future comes back and these people, the Protestants, the neighbors, the people who are not, you know, are not involved in making money or not involved in these events, are forced to come in here again. That is a legitimate concern of anyone who lives in the neighborhood. Do you understand --

CHAIR: Hold on, hold on (inaudible).

MR. HOLZER: I'm sorry.

CHAIR: We still have to work this part out before we get to the next question. So, just to seize upon what your last point was, wouldn't that be the same concern if it's restricted to 2.2 acres or thirty? As they choose to expand,

you would be here one way or the other, whether it's granted on the thirty or granted on 2.2.

MR. HOLZER: Makes it a lot easier if it's granted on thirty. You don't have to come back to go beyond the 2.2. And, and, and the conditions of 502.1 would apply again, which would be different than, than what's happening now. I've had these cases.

CHAIR: Um hm.

MR. HOLZER: People are, are sitting there looking at 2.2 and then they're concerned about, well, what happens if there's an enlargement, so my --

CHAIR: So, if I can?

MR. HOLZER: Yeah.

CHAIR: So, your question is, are you concerned about the potential for expansion?

MR. HOLZER: Yes. Simple as that.

CHAIR: I think that that, overruled on that, as to that question.

MS. MASON: Yes, I am concerned. The, the organization is called Nepali American Cultural Center. That could be a lot of things and they could expand and build many different things. They could build a chur, I mean, build a school, they could build buildings for activities. There could be many things there.

MR. HOLZER: Okay. Thank you. I have no further

questions.

CHAIR: Thank you.

MR. SCHMIDT: Nothing further.

CHAIR: Thank you very much.

MS. MASON: Thank you.

BOARD: Ma'am, before you step down --

CHAIR: Oh, I apologize.

BOARD: -- I have just one question. You indicated you were in an accident on September 14th and that there was also a condition because of a broken down vehicle on October 18th?

MS. MASON: Yes.

BOARD: Do you know if there was any activity at the subject property on either of those days?

MS. MASON: No, I don't know.

BOARD: Okay, thank you.

CHAIR: Thank you.

MS. MASON: Thank you.

CHAIR: And we have extra copies of your photos so.

MS. MASON: Pardon?

CHAIR: You, you have extra copies of these?

MS. MASON: Yes, thank you.

MR. HOLZER: Okay.

CHAIR: Thank you.

MR. HOLZER: Mr. Poehler?

BOARD: Do you swear and affirm under the penalties of perjury, that the testimony you are about to give is true and correct to the best of your knowledge and belief?

MR. POEHLER: I do, yes.

BOARD: Please state your name and address for the record and spell your last name?

MR. POEHLER: Dave Poehler, P-O-E-H-L-E-R. I live at 12241 Harford Road, Glen Arm, Maryland 21057.

CHAIR: Please keep your voice up when you, when you testify. You may have a seat.

MR. HOLZER: Thank you. Mr. Poehler --

CHAIR: Sorry. Whoever has the cell phone on, please turn it off. I mean, I've asked this several times throughout every day. Thank you.

MR. HOLZER: Mr. Poehler, you've seen Protestant's exhibit up here. I don't know whether this would be of any assistance to you as to locate your, your home, but could you take a look at it?

MR. POEHLER: Actually, my home is --

CHAIR: Sir, if you're answering the question, you have to keep your voice up so the microphone catches what you're testifying to.

MR. POEHLER: My home is actually just north of the subject property.

CHAIR: Is it depicted on Petitioner's, Protestant's

Exhibit 15?

MR. POEHLER: Very, very top.

MR. HOLZER: Okay. Could you use the red pen to put an X where it is and put your initials next to it?

MR. SCHMIDT: And it's Mr. Poehler?

MR. POEHLER: Poehler.

MR. HOLZER: Mr. Poehler, David Poehler.

MR. SCHMIDT: Okay.

MR. HOLZER: And you can have, you can have a seat. Now, Mr. Poehler, so, you live at this property with your wife?

MR. POEHLER: I do.

MR. HOLZER: Okay and that's at 12241 Harford Road?

MR. POEHLER: Yes, it is.

MR. HOLZER: Is the entrance to your property and it wouldn't show on this exhibit, but would the entrance to your property be the next entrance above the entrance to the subject site?

MR. POEHLER: It is approximately two hundred feet north of their entrance.

MR. HOLZER: Okay. In terms of your wife, will she be testifying today?

MR. POEHLER: She will not be.

MR. HOLZER: And why not?

MR. POEHLER: She can't handle this case.

MR. HOLZER: Okay. In what respect?

MR. POEHLER: She's emotion, emotionally distraught about all this.

MR. HOLZER: Okay. So, you're testifying, in effect, on, for her as well as for yourself?

MR. POEHLER: Yes.

MR. HOLZER: Okay. You, I know you've been here a couple times. I don't know whether you were here at the last hearing when the applicant is proposing to move their entrance from where it is now, further north?

MR. POEHLER: I've been here for every hearing.

MR. HOLZER: Okay and so, how close will the new entrance, if it's approved, how close to your entrance will that be now?

MR. POEHLER: From what I understand, they proposed to move it seventy feet north, which would be seventy feet closer to my driveway.

MR. HOLZER: Okay. Okay and how is, does your property adjoin the applicant's property?

MR. POEHLER: As far as I understand, my property is the only residential property that actually butts their property. Behind us is farmland and to the east side of their property is Harford Road.

MR. HOLZER: Okay, okay. And how long have you lived there, if I haven't asked that?

MR. POEHLER: Five years.

MR. HOLZER: Okay and why did you acquire that property?

MR. POEHLER: To, to make a long story short, I've had my fair share of shortcomings and I was actually born in a house at 8310 Harford Road, which is approximately seven to ten miles south of where I live today.

MR. HOLZER: Uh huh.

MR. POEHLER: And it was always a dream to actually move up into Glen Arm. Glen Arm, the valley, Long Green Valley, was always just a dream, I always wanted to live there. And I never thought that it would be possible for me to move where I actually live today.

MR. HOLZER: How many acres do you have, if you know?

MR. POEHLER: We have five acres.

MR. HOLZER: Five acres?

MR. POEHLER: Yes.

MR. HOLZER: And is there just a home on the property?

MR. POEHLER: It's, it's a single family residence, yes.

MR. HOLZER: Okay. You just testified that you had been here at every hearing, is that correct?

MR. POEHLER: Yes.

MR. HOLZER: Did you also attend the Administrative Law Judge hearing?

MR. POEHLER: I did.

MR. HOLZER: All right. Did you testify there?

MR. POEHLER: I did not, my wife did.

MR. HOLZER: Oh, okay. Okay. What are your, what are your concerns in regard to the request that the applicant has submitted, that we've been testifying to for four or five days now?

MR. POEHLER: One of my largest concerns is, is traffic.

MR. HOLZER: Okay.

MR. POEHLER: I am not a traffic expert, but I live there, so I'm involved in it every single day. I know exactly how the traffic runs up and down my road. People come out of that circle, they're not hitting their break, they're on the gas.

MR. HOLZER: You mean, the circle that's north of your --

MR. POEHLER: At Mount Vista and Harford Road.

MR. HOLZER: Okay. Well, why don't you just tell the Board what you've experienced and what your concerns are, based on your living there?

MR. POEHLER: My, like I said, one of my largest concerns is, is the traffic in general. And then with the added traffic from this site, last year they had their first event, I believe, in June of 2017. I had approximately twelve

vehicles come into my driveway and use my front yard to turn around on looking for this site. It's a very large concern, is traffic.

MR. HOLZER: Okay. In addition to that, I mean, what else, at, living where you do, north of the curves, have you experienced any accidents, any problems --

MR. POEHLER: Several, several.

MR. HOLZER: And explain, if you could.

MR. POEHLER: I mean, just living at the property and living along Harford Road, you're going to experience accidents and high traffic, you're just, it's, it's almost a way of life there.

MR. HOLZER: Okay. Okay. The, in addition to your concerns about the traffic and you've heard the traffic experts for the applicant?

MR. POEHLER: Um hm.

MR. HOLZER: Talk about the numbers of accidents and where they were and, and, and the volumes. Do you have any comment on that kind of testimony --

CHAIR: Hold on (inaudible). Sir, sir? Could you walk through the back row and if the gentlemen, if you, the two of you in the back row, would you mind moving forward one row? We're trying to leave that open as much as possible to allow people to ingress and egress on to the other side of the room, rather than having them come around to counsel's table? Either

to the front and back of it? Thank you. Appreciate it from all of you and all your cooperation. Sorry, Mr. Holzer, to cut you off.

MR. HOLZER: That's all right. I'm not sure where I was.

CHAIR: Yes, I'm sorry.

MR. HOLZER: Before I went into the next, well, let me, let me try to remember. The, are there any specific events related to traffic that you personally were involved in or aware of or, or experienced?

MR. POEHLER: I know at one of their events, we had had a cookout and you cannot not experience the traffic impact from my location of where I live. You just, I mean, I'm, I don't feel that I should be responsible to have to worry about taking car counts of how many cars are coming up and down my driveway, their driveway.

MR. HOLZER: Okay.

MR. POEHLER: But it, it's, it happens a lot.

MR. HOLZER: Okay. Do you think moving the entrance way closer to your driveway will assist, particularly if they have signage or something like --

MR. POEHLER: I don't believe it's going to make any difference at all. It's a dangerous stretch of Harford Road period, in my opinion.

MR. HOLZER: Um hm.

MR. POEHLER: When people leave my driveway, family and friends, I tell them, when they get out on Harford Road, you better floor it.

MR. HOLZER: Floor it?

MR. POEHLER: Floor it. Get up to speed because people fly up and down, the turns doesn't slow them down.

MR. HOLZER: You mean, the, the curves that are right south of the entrance to the, of the applicant?

MR. POEHLER: North and south.

MR. HOLZER: So, I mean, we heard the traffic engineer say oh, everybody doesn't go fifty miles an hour around those turns.

MR. POEHLER: He doesn't live there.

MR. HOLZER: Okay. Have you experienced the speed of that, that kind of speed?

MR. POEHLER: I, I have, I have. Like I said, people, where I live is just north of the property so when people come out of the Mount Vista circle, my wife and I sit on our front porch a lot and just watch the traffic. They come flying out of that, which is a downhill crest and then they're hard on the break right before that turn. So, they're either sliding, skidding, beeping horns.

MR. HOLZER: Okay, okay. Let's go from the, the traffic aspect to, do you have any, have you experienced any noise issues?

MR. POEHLER: Very much so.

MR. HOLZER: Okay. Let me ask you this. When you're sitting, or in your house, or sitting on your porch and you look south, can you see the, the home and the area around the home?

MR. POEHLER: I can, looking from my driveway --

MR. SCHMIDT: Excuse me.

MR. POEHLER: Bless you. Looking from my driveway, looking south, I look basically right into the front of their property.

MR. HOLZER: Okay. So, you can, you can see, to some extent, what's going on on their property?

MR. POEHLER: I can.

MR. HOLZER: Without getting off of your property?

MR. POEHLER: Absolutely.

CHAIR: If I can jump in real quick. What part of the property, if you're standing at the end of your driveway and you're looking south, what part of their property can you see?

MR. POEHLER: Of their property?

CHAIR: Of the property at issue, the, the site?

MR. POEHLER: The, there is a circle driveway right in front of the main entrance. I can see that.

CHAIR: Anything else?

MR. POEHLER: The driveway leading up to that circle.

CHAIR: Okay. On your property, hold on, one second.

MR. HOLZER: I'm sorry, I apologize.

CHAIR: That's okay. We're done? All right. So, on your property, what else can you see from, what else of their property can you see from your property if you were at your house, outside your house?

MR. POEHLER: The grass plot on the right side of their driveway where they do a lot of car parking. I can see all of that ground.

CHAIR: Okay and if you were in your backyard, I'm assuming you have a backyard?

MR. POEHLER: Yes.

CHAIR: Because you have five acres?

MR. POEHLER: Yes.

CHAIR: I'm assuming that from your backyard, you'd be able to see part of their property?

MR. POEHLER: I can.

CHAIR: And what part of the property can you see?

MR. POEHLER: Same.

CHAIR: The grass area?

MR. POEHLER: Yes.

CHAIR: Okay. Can you see the temple at all?

MR. POEHLER: I can.

CHAIR: Okay. From what location on your property can you see the temple?

MR. POEHLER: The, my side yard, front yard, back yard.

CHAIR: From all sides?

MR. POEHLER: From --

CHAIR: You can see the temple?

MR. POEHLER: Yeah, so if I'm facing my house and I look to my right, so that would be my, my driveway comes up the side of my house.

CHAIR: The, the side closest to the subject property?

MR. POEHLER: To the, yes. I can see basically their front yard.

CHAIR: When you say their front yard, I need to know what you mean by that.

MR. POEHLER: Their driveway, their front door, the--

CHAIR: At the temple?

MR. POEHLER: At the temple.

CHAIR: Okay. Sorry.

MR. HOLZER: That's okay, fine. Do you have a picture that you could show the Board what you can see?

CHAIR: Mr. Holzer?

MR. HOLZER: Yes?

CHAIR: If I can, we can start with this. Petitioner's Exhibit 9-E and D. Mr. Schmidt?

MR. SCHMIDT: Yes, sir?

CHAIR: Have you seen these?

MR. SCHMIDT: Yes, sir, I think I put them into evidence.

CHAIR: Well, I know you've seen these, they're your exhibits.

MR. SCHMIDT: So, I have seen them.

CHAIR: So, (inaudible).

MR. SCHMIDT: And I, actually, truth be told, I think --

BOARD: You don't, you don't want to talk, sir. There's (inaudible) no question.

CHAIR: You think there's another?

MR. SCHMIDT: Well, I think. I thought there was one. In FF, it's viewing towards the area where the driveway would be relocated and I was just trying to see if you could see Mr. Poehler's --

CHAIR: Oh, yes. There was one you could see that, the building through, I do recall that.

MR. SCHMIDT: -- house or farm. I thought, I thought there was one that looked --

CHAIR: I recall the same testimony.

MR. SCHMIDT: I'm having, yeah, I'm having a hard time finding it, but I thought there might be one that showed that.

CHAIR: Mr. Holzer, may I? Here we go. Which

picture is that, FF?

MR. SCHMIDT: F, yeah.

CHAIR: Okay. So, I can trouble you to take a look at Petitioner's Exhibit 9-B, D and FF. So, we'll start with FF because that's the one in front of you.

BOARD: Let me give you exhibit copies (inaudible).

MR. SCHMIDT: Is that the same, just, I just want to make, is that the same thing that you were showing me?

CHAIR: Yes.

MR. SCHMIDT: Mr. Holzer, are you looking at Petitioner's exhibits?

MR. HOLZER: I wasn't over there so I have no clue what you were looking at.

MR. SCHMIDT: Okay, okay.

CHAIR: Petitioner's Exhibit 9.

MR. HOLZER: Yes.

CHAIR: B, D and FF.

MR. HOLZER: B.

CHAIR: Right.

MR. HOLZER: Okay.

CHAIR: B and D show a driveway just north of the site property.

MR. HOLZER: All right. Can I ask the question now?

CHAIR: Yes, sorry.

MR. HOLZER: Okay. Looking at nine, Exhibit,

Petitioner's nine, photograph B, can you identify your driveway?

MR. POEHLER: Yes, yes.

MR. HOLZER: He just pointed to the last left turn or left sign --

CHAIR: By the roads, a yellow road sign, there's a driveway.

MR. HOLZER: Yes.

CHAIR: That, that is your driveway, sir?

MR. POEHLER: Yes, it is.

MR. HOLZER: Yes.

CHAIR: Thank you and then the same thing on, on D?

MR. HOLZER: Same thing on D, that's exactly right.

CHAIR: Okay and if turn to FF.

MR. HOLZER: FF. FF, do you know what this is a picture of?

CHAIR: There's been some testimony that through the clearing, within the trees, that's in roughly the right center of the photo, that there's a building there?

MR. POEHLER: I can, not make out what that is, actually.

CHAIR: Okay. Well, let me ask you, when you're looking at picture FF, does that, do you have any, does that look familiar to you in any way, shape or form?

MR. POEHLER: It could be my other neighbor's house.

CHAIR: Okay, okay.

MR. POEHLER: To the, to the left of me. I'm not --

CHAIR: Okay.

MR. POEHLER: My house sits way back off of Harford Road.

CHAIR: Okay. So, that may be a whole different --

MR. HOLZER: Yes.

CHAIR: -- your other neighbor?

MR. POEHLER: Yes.

CHAIR: Okay.

MR. HOLZER: All right.

CHAIR: Okay, hold on. Someone's cell phone just went off. We're going to take a recess here. Everyone, please take a look at your cell phones during the course of this recess and turn your phones off. Okay? We're going to do a recess.

MR. HOLZER: Thank you.

(RECORDING PAUSED - 10:28:33 AM)

(ON RECORD - 10:56:07 AM)

CHAIR: Okay. So, when we last left, someone's cell phone had been ringing and I said we're taking a recess. We have been here for five days. I realize some people arrived and, after I gave my, I guess, cautions this morning. In the future, counsel, please tell everybody who appears on your side in advance to have their cell phones shut off. It is

distracting, it interrupts the witnesses and it interrupts counsel and the Board also feels that it is improper because this is a courtroom. There is a matter of decorum that needs to be observed at all times and it is inappropriate to have your cell phones on and audible. So, that's one. Two, we're going to leave as best as we can the backrow over there open so that people can ingress and egress through there. That means, we go in and out through the back row from this side of the room, so this way no one has to cross in front or behind counsel table and get in front. Another point. When we do objections, please stand with your objection, state your objection. This way we're not going to have people talking over one another, over one another, nor will we have people going back and forth with one another with lengthy explanations and other things that they want to bring up. Just state what the objection is, we can move on from there. That, I think I covered it all. Oh, yes, thank you. Another thing is, people who are in the front, I can hear your conversations sometimes up here. If I can hear your conversations up here, it's being recorded by CourtSmart and odds are, it's actually jumping over the testimony of the witness. So, it could very well make it into a transcript, things that you want to be held private with your counsel. So, please keep that in mind as well. It should not, we should not be having conversations during the course of testimony. Thank you. And with that in mind, we can proceed

with this witness. Thank you, Mr. Poehler, for your patience. And Mr. Holzer, I believe you were in the middle of a question?

MR. HOLZER: Thank you. I believe we were trying, the Chairman was trying to find out exactly what Mr. Poehler could, could see from his property and we looked at a couple of exhibits, Petitioner's exhibits.

CHAIR: And we established that it is his driveway in, in, in Petitioner's Exhibit 9-B and D, that is to the right of the subject property driveway.

MR. HOLZER: Correct. Pull out your pictures. Okay, I need all of them. I mean, I need all of the copies that you have.

MR. SCHMIDT: Thank you, Mr. Holzer.

MR. HOLZER: Uh huh. I'll take the black and white on.

CHAIR: Thank you.

MR. HOLZER: Now, Mr. Poehler, I marked, haven't marked yet, but can you identify this picture?

MR. POEHLER: I can, yes.

MR. HOLZER: Were you present when it was taken?

MR. POEHLER: I was.

MR. HOLZER: And did you take the picture?

MR. POEHLER: I did not take the picture.

MR. HOLZER: Who took it?

MR. POEHLER: I believe Mr. Clark.

MR. HOLZER: Okay. Now, could you tell us where you and he were standing and what we see on this picture? I see vehicles.

MR. POEHLER: That is basically standing in my front yard looking through a tree line into the adjacent property.

MR. HOLZER: Okay. So, would, so does this, can you see more than just these vehicles?

MR. POEHLER: I can. As I walk along my property, that's obviously just standing in one location on my property, but there's several different areas in my location.

MR. HOLZER: Okay. Are these vehicles parked on the grass or are they moving on a driveway or something?

MR. POEHLER: They are parked off the side of the driveway.

MR. HOLZER: Okay and I would offer this as the next --

BOARD: Twenty.

MR. HOLZER: Twenty? Now, --

CHAIR: Mr. Schmidt?

MR. SCHMIDT: I would object because I would like, I, I have no problem if it's marked for identification, I would like to ask Mr. Clark --

MR. HOLZER: They're all marked for identification.

CHAIR: Mr. Holzer, we wait.

MR. HOLZER: I'm sorry, but they, it's --

CHAIR: Are you not moving this into evidence at this time?

MR. HOLZER: I'm marking it for identification, so when the, --

MR. SCHMIDT: Oh.

MR. HOLZER: -- when the photographer gets here --

CHAIR: I apologize. But you don't need the photographer, there was a, I would say I was confused just like Mr. Schmidt there, as to whether or not you were offering it into evidence. That's fine. Thank you, Mr. Schmidt. Thank you, Mr. Holzer, you may continue.

MR. HOLZER: Thank you. Thank you. Now, I show you what has, what you've handed to me. Can you describe what this picture is?

MR. POEHLER: I believe this is a drone shot.

MR. HOLZER: Right.

MR. POEHLER: Just south east of the property and just to the north in the center, you can see the roof of my barn.

MR. HOLZER: Okay and where is your house, can we see it?

MR. POEHLER: My house? You can see the roof of my house, which is right to the left of my barn.

MR. HOLZER: All right, I, I will --

CHAIR: Can you please use your red pen?

MR. HOLZER: -- have him mark it with a red pen. Well, let me, this is my copy so whatever the, --

CHAIR: So, yeah, please mark your house, but also your barn since you pointed out two structures. We get, why don't you right H and B next to each respectively.

MR. HOLZER: All right. He has, he has done that in red and --

CHAIR: Make sure, Mr. Schmidt.

MR. SCHMIDT: I understand.

MR. HOLZER: You know --

MR. SCHMIDT: Right here, yes, sir.

MR. HOLZER: Yep.

CHAIR: Thank you.

MR. HOLZER: And I would, now, from, from your house and your barn, can you see these cars, cars parked in this grass area?

MR. POEHLER: Not every single one of them, but many of them.

MR. HOLZER: Right. In other words, you can see that car. Could you see up to where the tent is on the right hand side?

MR. POEHLER: Yes, I can.

MR. HOLZER: And can you see, what, do you know what this is, this green rectangle?

MR. POEHLER: I believe that to be a tennis court,

volleyball court.

MR. HOLZER: Okay and can you see the house, which would, where would the house be?

MR. POEHLER: Off of this picture, it's right in front of this white tent.

CHAIR: The temple?

MR. POEHLER: The temple.

CHAIR: Referring to, the house, temple?

MR. POEHLER: The house, house, temple.

CHAIR: Yeah, well, he, we have him identify his house on that photo. You used the word house, that's why I'm trying to distinguish --

MR. HOLZER: I'm sorry, I'm sorry. Yeah, I was asking about where is the subject site's home.

CHAIR: Thank you.

MR. POEHLER: Right in front of this white tent.

MR. HOLZER: Okay.

MR. POEHLER: Which is off the picture.

MR. HOLZER: Okay and you can see that from your house?

MR. POEHLER: I can see the front porch of it, yes.

MR. HOLZER: The front porch, okay and I would offer that as the next exhibit, which is --

BOARD: Twenty-one.

MR. HOLZER: Twenty-one.

CHAIR: Exhibit, for identification only.

MR. HOLZER: For identification only. Now, Mr. Poehler, at the beginning of your testimony, you said your wife had testified before and, and she's not going to testify now. Could you just start, briefly explain why?

MR. POEHLER: She gets too upset with the whole matter, that she feels that our side is not being heard. She doesn't believe that it's being fair and she's, she's highly concerned of our property value. She just gets too upset.

MR. HOLZER: Okay. Has she attended any of the hearings here at the, before the Board?

MR. POEHLER: Not, not these hearings, no.

MR. HOLZER: Okay. Now, you, you were, I think you had started to talk about noise emanating from the property. Could you tell us, give us examples of, of what you mean by that and how it's impacted you, your property?

MR. POEHLER: Well, my first interaction with the noise was, I believe, on June 3rd, I think it was. I actually had just came home from a concert, ironically, in Bristow, Virginia, which is several hours away from Baltimore. It was late at night, 1:00 in the morning, and they still had concert music, I mean, they have a, I love music, they had a heck of a sound system over there. So, when I'm pulling in my driveway, 12:30, quarter to one at night, I'm still hearing music.

MR. HOLZER: Was that music amplified or just normal

--

MR. POEHLER: Definitely amplified.

CHAIR: Let, let, make sure he finishes his question before you start answering.

MR. HOLZER: Okay. I started to say, was it amplified or was it just normal, with instruments outside of the house?

MR. POEHLER: It was definitely amplified.

MR. HOLZER: Okay, okay. Okay. Any other issue, any other incidents that affected you?

MR. POEHLER: I mean, just the noise and the traffic.

MR. HOLZER: Okay.

MR. POEHLER: On that instance.

MR. HOLZER: Okay.

BOARD: What was that date?

MR. POEHLER: That was June 3rd.

BOARD: Of what year?

MR. POEHLER: Twenty seventeen.

MR. HOLZER: Have there been any other events where you've been able to hear noise?

CHAIR: Guys, I can hear you over here, so please, sorry, Mr. Holzer. Have, have there been any other occasions where you heard noise?

MR. HOLZER: Yes.

MR. POEHLER: There has been. There's been several

occasions where it's been extremely noisy. They've had large gatherings, some call it picnics. I don't know the exact dates of them because I, I really honestly didn't know that I was going to have to keep track of all these dates and times.

MR. HOLZER: Okay.

MR. POEHLER: But, like I said, I live there, so.

MR. HOLZER: When, when you first heard of, that, that someone had purchased the property and, and was interested in submitting an application, did you do anything about that?

MR. POEHLER: Well, I know that when the house went into foreclosure and was on the market for sale, obviously, I was interested in what was going to happen with the property. So, we actually got a real estate agent and went over and walked through the property. And then all of a sudden, I don't know exactly what had happened, but it went off the market and then we heard that it was sold.

MR. HOLZER: Okay.

MR. POEHLER: And I, I don't know the exact date of it, like I said, I'm not sure why I would have to keep track of all these specific dates.

MR. HOLZER: Right.

MR. POEHLER: But I drove over onto the property and introduced myself to a group of individuals who I, at that time, understood had purchased the property, as a friendly neighbor. Hi, I'm Dave, my wife and I live next door, if

there's anything that we can do to help, I was under the impression that maybe it was just a family and they had friends over to help clean up the property and observe, I, I don't know, I, maybe fifty or so people, a dozen or so were trying to cut down a tree and I actually offered my assistance to come over and help them to safely cut down a tree with my chain saw, as they were not using a chain saw.

MR. HOLZER: Um hm.

MR. POEHLER: And I never heard anything from anyone for anything after that.

MR. HOLZER: So, did they, so they never responded to your offers?

MR. POEHLER: No one has ever reached out to me for anything, for any reason.

MR. HOLZER: Do you find that unusual or do you find that, what is your feeling?

MR. POEHLER: I'm a man that, of honor, I mean, I'm a friendly neighbor. I'm there to help people if they need help, that's the first thing I did. I was excited that someone had purchased the property and I'm the type of neighbor that would go over with my tractors and my equipment and I'll help them do anything. I'll build them a fence, I'll cut down trees, I would do that. But I got no response out of anyone.

MR. HOLZER: Okay. Have you been satisfied the way that the events have occurred since then?

MR. POEHLER: Not at all.

MR. HOLZER: And can you explain?

MR. POEHLER: It, it's very hard to explain because it's such an emotional issue for me. It has turned into that. That, that I just can't believe that any neighbor could move in and, and not reach out to their other neighbors and, and I can tell you that five years ago, I would not have purchased the property if I'd have known that there was some type of a temple or commercial venue being built there or, or there. It wouldn't have been an option for me. I, I moved to that area for the peace and quiet.

MR. HOLZER: In addition to the traffic and the noise, are there, do you have any other concerns in regard to what's going on over there?

MR. POEHLER: I'm definitely concerned with my well and my septic. My well is not a very strong well at all.

MR. HOLZER: Where is your well located relative to their property line?

MR. POEHLER: To their property line? I would have to say probably maybe two hundred feet, two hundred and fifty feet, maybe, somewhere in there.

MR. HOLZER: Okay and, and what is your specific concerns about your well? Why do you think it's going to get contaminated?

MR. POEHLER: Large gatherings. I mean, I, I have

parties of forty people, I run out of water. So, I understand neighbors are going to have friends and relatives and family or whatever gatherings, twenty, thirty, fifty people, but hundreds of people? It's a large difference.

MR. HOLZER: Okay. Well, but pollution, and pollution, well, explain that. I don't understand why you were concerned about pollution to your well.

MR. POEHLER: Well, with vehicles, I mean, one or two vehicles is one thing, but when you take twenty, thirty, fifty vehicles and park them on a grass lawn parking lot, there's got to be runoff. Where's that runoff going to go? And that portion of their property, where they're proposing to put this parking lot, the runoff comes my direction.

MR. HOLZER: Okay. When you say parking lot, are, you mean the paved parking lot or the grass area?

MR. POEHLER: Both.

MR. HOLZER: Okay. All right. Any other concerns?

MR. POEHLER: Financially, I don't know if that's relevant or not, but this is my retirement, this property is my retirement plan. I'm a hard working blue collar, I don't have a retirement plan. My property is my retirement plan. Since this all has been going on, everyone can see if you drive Harford Road how many houses have already been up for sale. The previous five, four years, there were no houses, people wanted to move there, not get out. People are moving out of

our neighborhood.

MR. HOLZER: The --

MR. SCHMIDT: I would just object and move to strike. I don't think he can offer testimony about property values unless it relates to his own property, I believe, is the rule, unless he's an expert witness and there's no foundation for a conclusion --

CHAIR: Okay.

MR. SCHMIDT: -- that a bunch of people have moved out of Harford, off of Harford Road because of this project.

CHAIR: And, well, Mr. Holzer, your response?

MR. HOLZER: My response is, he can say what he wants, --

CHAIR: Please stand up.

MR. HOLZER: -- he's not an expert.

CHAIR: Please stand up for your response.

MR. HOLZER: Oh, I'm sorry. He can say what he wants, he's not an expert. He's, and, and any property owner can testify that the, the impact on their property. So, he's, that's what he was doing and then he, then he enlarged it by saying a lot of houses are for sale. But I'm going to ask him a follow-up question.

CHAIR: The objection is overruled and it's understood that he's not an expert, not testifying about anything specific as to property values and, I believe, his

testimony included a period of time well before the subject property was actually purchased anyway. So, with that in mind, Mr. Holzer, please proceed.

MR. HOLZER: Thank you. Can you, can you express, give us some reasons why you think it's going to impact your property values?

MR. POEHLER: I mean, first and foremost, traffic and noise would be my biggest concern of who would want to live next to all this traffic and noise?

MR. HOLZER: Okay. In, in, in terms of what about the events are being held? Since you can see what's going on over there, do you think that's a negative for the potential resale of your property?

MR. POEHLER: I, I believe that could be definitely impact.

MR. HOLZER: Okay. Okay. I have no further questions.

CHAIR: Thank you. Mr. Schmidt, cross examination?

MR. SCHMIDT: Thank you. Mr. Poehler, could you give us your full name, please?

MR. POEHLER: Full name?

MR. SCHMIDT: Yes, sir.

MR. POEHLER: Clarence David Poehler.

MR. SCHMIDT: Okay. Thank you, sir. And sir, what kind of work do you do?

MR. POEHLER: I'm a contractor.

MR. SCHMIDT: Okay. I, you've offered some testimony about your well. Do you know how deep your well is?

MR. POEHLER: Two hundred and twenty feet.

MR. SCHMIDT: And do you know what your well yield is in terms of gallon per minute?

MR. POEHLER: It's less than a gallon.

MR. SCHMIDT: Okay. Did you drill that well or did the prior owner drill it?

MR. POEHLER: Prior owner drilled it.

MR. SCHMIDT: Have you, have you done any testing of that well since you've been the owner of the property or prior to your ownership of the property?

MR. POEHLER: Yes.

MR. SCHMIDT: Okay and when was that done?

MR. POEHLER: That was done, I don't have the exact date, but it was right before we purchased the property.

MR. SCHMIDT: And what was the purpose of that testing?

MR. POEHLER: To do a well yield.

MR. SCHMIDT: Okay. Do, do you have any other, other than a concern, do you have any type of substantive study or data or analysis that you've done that would lead you to believe that your well would be polluted from any activity on the Nepali property? Is there anything anybody's told you that

your well is subject to pollution because of Nep, the Nepali use?

MR. POEHLER: Not in specific to them.

MR. SCHMIDT: Okay.

MR. POEHLER: But just in general, wells can get polluted.

MR. SCHMIDT: Okay.

MR. POEHLER: It has happened in the past.

MR. SCHMIDT: Sure, and your well is two hundred and fifty feet from your property line?

MR. POEHLER: No. From, yes, from their property line, our property line.

MR. SCHMIDT: From the common property line?

MR. POEHLER: Yes.

MR. SCHMIDT: And then, and then the location of the proposed Nepali well would be another several hundred feet from the property line, correct?

MR. POEHLER: I'm not sure where they're going to drill.

MR. SCHMIDT: Okay. You don't know where they're going to drill, you weren't here for that testimony?

MR. POEHLER: I was.

MR. SCHMIDT: Okay. Okay. You also indicated that you have parties of more than forty people on your, at your property and I think you indicated that you run out of water at

that time, is that correct?

MR. POEHLER: Yes.

MR. SCHMIDT: How often do you have parties of more than forty people?

MR. POEHLER: That's only been one time in the five years, and that's, was a housewarming party.

MR. SCHMIDT: Okay. So, five years ago you had a party and you ran out of water?

MR. POEHLER: Yes.

MR. SCHMIDT: Have you run out of water any other time since then?

MR. POEHLER: One time.

MR. SCHMIDT: And what were the circumstances there?

MR. POEHLER: Trying to fill a hot tub, actually.

MR. SCHMIDT: Okay, okay. Okay. You indicated that there were people who were coming down your driveway in 2017, and you had to get them to turn around because they had, I believe you said, mistaken your driveway for the entrance to the Nepali property, is that right?

MR. POEHLER: Yes.

MR. SCHMIDT: Did you, did you actually talk to those people and --

MR. POEHLER: A few.

MR. SCHMIDT: Okay and they had gone into the wrong driveway?

MR. POEHLER: Yes.

MR. SCHMIDT: Okay. Now, that was in 2017, in June of 2017, I believe you said?

MR. POEHLER: I believe it was.

MR. SCHMIDT: Okay. At that time, did the Nepali property have a sign in the front by their driveway advertising where their property was located?

MR. POEHLER: Not a sign, but they had balloons.

MR. SCHMIDT: Okay. So, just like party, regular kids party balloons, type of thing?

MR. POEHLER: Yes.

MR. SCHMIDT: Okay. But there was no sign at that time indicating where the Nepali property was located, correct?

MR. POEHLER: Yes.

MR. SCHMIDT: In 2017?

MR. POEHLER: Yes.

MR. SCHMIDT: Okay. Now, there did come a time, did there not, sir, when they put a sign up on, in the island between the two access drives on the Nepali property, correct?

MR. POEHLER: Yes, they have.

MR. SCHMIDT: Okay and that, that sign is there now, is that correct?

MR. POEHLER: It is.

MR. SCHMIDT: Do you know how long that sign has been there?

MR. POEHLER: I don't know the exact date.

MR. SCHMIDT: Has it been at least a year, if you know?

MR. POEHLER: I don't believe it's been a year yet.

MR. SCHMIDT: Has it been since, say, the spring of this year being 2018?

MR. POEHLER: I would say --

CHAIR: Let him finish.

MR. POEHLER: I would say spring.

MR. SCHMIDT: Okay. So, it was there this summer, correct?

MR. POEHLER: Yes.

MR. SCHMIDT: Okay. Now, they had another event this summer that you've testified about, correct?

MR. POEHLER: Yes.

MR. SCHMIDT: Did anyone come down your driveway in 2018?

MR. POEHLER: They did.

MR. SCHMIDT: How many people?

MR. POEHLER: I did not get a count because I actually put a chain across my driveway to keep them out.

MR. SCHMIDT: Okay. So, did people drive around the chain to get down your driveway?

MR. POEHLER: They did not, they would just use it as a turn around.

MR. SCHMIDT: Oh, okay. So, all right, so people had, apparently, did you see the, where those vehicles went?

MR. POEHLER: I did, some, not all.

MR. SCHMIDT: Okay. Where were you during, when this was going on?

MR. POEHLER: In my driveway and on my property.

MR. SCHMIDT: Okay. Okay and how many vehicles turned around in your property, do you know?

MR. POEHLER: That I witnessed, at least a half a dozen.

MR. SCHMIDT: Okay. Over a period of how many days?

MR. POEHLER: That was probably over that week that they had that large event.

MR. SCHMIDT: Okay. So, you had about six vehicles over a week's time that pulled into your driveway apparently could, didn't see the sign, correct?

MR. POEHLER: I would imagine.

MR. SCHMIDT: Okay. Is the sign still there?

MR. POEHLER: It is.

MR. SCHMIDT: Okay. Has it been relocated?

MR. POEHLER: It has, actually.

MR. SCHMIDT: Okay. Do you know why?

MR. POEHLER: I believe that it was a permit violation.

MR. SCHMIDT: Okay. Were you, did you make a

complaint to the County about the sign?

MR. POEHLER: I personally did not.

MR. SCHMIDT: Okay. Do you know who did?

MR. POEHLER: I don't.

MR. SCHMIDT: Okay. Do you know if any of your neighbors did?

MR. POEHLER: I'm not sure, but I would think so.

MR. SCHMIDT: Okay. Wouldn't the sign be helpful to folks find, finding the property?

MR. POEHLER: I believe the sign would be helpful.

MR. SCHMIDT: Do you know a lady named Patty Thorne?

MR. POEHLER: I do.

MR. SCHMIDT: And do, who is she, if you know?

MR. POEHLER: She was a lady that was at one of our meetings.

MR. SCHMIDT: Okay.

MR. POEHLER: That's only, I know her name, I don't know her personally.

MR. SCHMIDT: Okay. Do you know where she lives?

MR. POEHLER: I believe she lives back Hutschenreuter Road.

MR. SCHMIDT: Okay and how far is that, is that on the other side of the Nepali property from where you live?

MR. POEHLER: It is.

MR. SCHMIDT: In other words, the Nepali property is

between you and her house?

MR. POEHLER: I believe so.

MR. SCHMIDT: So, if you were looking at where she lives, you would live across, you would look, again, assuming there was no topography issue or no trees or anything like that, you would look towards the Nepali property, across the Nepali property to look towards Hutschenreuter Road where she would live? Am I describing that correctly?

MR. POEHLER: I, I believe so. I'm not sure where, I know she lives on Hutschenreuter Road, I don't know where.

MR. SCHMIDT: Okay. Are you familiar with the fact that she has a, a rock concert, a concert featuring rock bands at her house on a regular basis?

MR. POEHLER: I am not aware of that.

MR. SCHMIDT: Okay. Have you ever heard any concert music or rock music coming from her property?

MR. POEHLER: I have not.

MR. SCHMIDT: Okay. Is it possible when you heard music at 12:30 at night that it was not coming from the Nepali property but coming from a property in that direction?

MR. POEHLER: It was --

MR. SCHMIDT: Is it possible?

MR. POEHLER: I guess it's possible.

MR. SCHMIDT: Okay and the music that you heard on that 12:30, was, sounded like a rock and roll band?

MR. POEHLER: Definitely was not a rock and roll band.

MR. SCHMIDT: Oh, okay. Well, I thought that's what you had testified before?

MR. POEHLER: I went to a concert.

MR. SCHMIDT: Okay.

MR. POEHLER: That was a rock and roll concert.

MR. SCHMIDT: Okay. Maybe I misunderstood. Okay, but it was music?

MR. POEHLER: That I had heard?

MR. SCHMIDT: Yes, coming from --

MR. POEHLER: Yes, it was.

MR. SCHMIDT: Okay. What type of music was it, do you know?

MR. POEHLER: Not music that I am familiar with.

MR. SCHMIDT: Okay. Okay. How many buildings are there on your property?

MR. POEHLER: There are three buildings.

MR. SCHMIDT: Okay. You have your house, correct?

MR. POEHLER: Yes.

MR. SCHMIDT: And you also have a shed, correct?

MR. POEHLER: I do.

MR. SCHMIDT: And you also have a garage, correct?

MR. POEHLER: A barn.

MR. SCHMIDT: A barn, okay. And do you use those

buildings in association with your contractor's business?

MR. POEHLER: I do.

MR. SCHMIDT: Okay.

MR. POEHLER: Storage.

MR. SCHMIDT: Okay. So, you operate, at least store, your contracting equipment or contractor's equipment on your property?

MR. POEHLER: Hand, hand tools.

MR. SCHMIDT: Okay. Do you store, do you do any snow plowing during the winter?

MR. POEHLER: I do.

MR. SCHMIDT: Do you store your snow plowing equipment on your property?

MR. POEHLER: It's attached to my truck.

MR. SCHMIDT: Okay. So, that type of, I wouldn't call that a hand tool because it's, goes on the front of a truck, right? You have, you have to answer because of the --

MR. POEHLER: Yes.

MR. SCHMIDT: Okay, okay. How long have you operated, or how long have you had your contractor's business?

MR. POEHLER: Fifteen years.

MR. SCHMIDT: Okay and I guess when you moved here in what, 2013?

MR. POEHLER: Thirteen.

MR. SCHMIDT: You had your contractor's business at

that time?

MR. POEHLER: I did.

MR. SCHMIDT: Okay. Do you have a, if, what's the name of your contractor's business?

MR. POEHLER: Poehler Enterprises.

MR. SCHMIDT: Okay. If I googled Poehler Enterprises, where, what, what would the address be that it would tell me?

MR. POEHLER: Would be my address.

MR. SCHMIDT: Your, your, be your house, okay. Okay. Okay. And the, the contractor's equipment that you indicate you store here, do you keep that in your house, the shed, or the barn or some of those or all of them or what?

MR. POEHLER: The shed.

MR. SCHMIDT: In the shed?

MR. POEHLER: Yes.

MR. SCHMIDT: How about in the barn?

MR. POEHLER: A little bit.

MR. SCHMIDT: Okay. I believe, let me show you a photograph, and I think I've got enough pictures, and hopefully this shows, shows this, and I'm going to mark, let me, I'm sorry. I believe this would be marked as Petitioner's exhibit number thirty-one, as I believe what I'm on, Ms. Murphy.

BOARD: Yes, sir.

MR. SCHMIDT: Which is, I'll just give a copy to Mr.

Holzer. And I've got three copies. I'll give you the fourth copy, but let me give it to the witness, if I can. Mr. Poehler, to be fair to you, this is a photograph that's taken from a County website, as you can see at the bottom, there's a seal of Baltimore County and it says My Neighborhood map. And I would represent to you that this, in the dark black line, is the outline of the Nepali property.

MR. POEHLER: Yes.

MR. SCHMIDT: Does that look correct to you from, based on your familiarity with the area?

MR. POEHLER: Yes, yes.

MR. SCHMIDT: Is any of your property shown on this, on this photograph?

MR. POEHLER: It is.

MR. SCHMIDT: Okay.

MR. POEHLER: It is --

MR. SCHMIDT: On the right hand side?

MR. POEHLER: On the right hand side.

MR. SCHMIDT: Okay. Now, there's a pink line and the pink letters RC-5 in the top right hand corner of this photograph, is that correct?

MR. POEHLER: Yes.

MR. SCHMIDT: And there appears to be that that pink line below the RC-5 would be on Harford Road?

MR. POEHLER: Yes.

MR. SCHMIDT: Okay and then there's a driveway leading vertically from the top of the page towards the bottom of the page, is that your driveway?

MR. POEHLER: Yes, yes, it is.

MR. SCHMIDT: Okay. Now, you can see in that, as one would come in your driveway, that there would be a building sort of on your left hand side and it appears a building on the right hand side of the driveway, is that right?

MR. POEHLER: That is right.

MR. SCHMIDT: Okay. So, what's the building on the left side?

MR. POEHLER: My house.

MR. SCHMIDT: Okay and what's the building on the right side?

MR. POEHLER: The barn.

MR. SCHMIDT: Okay. Is the shed shown in this photograph? It might not be, I don't know.

MR. POEHLER: It does not look like it is.

MR. SCHMIDT: Okay and the barn, the barn, the house was there when you bought the property?

MR. POEHLER: Yes.

MR. SCHMIDT: The shed was there when you bought the property?

MR. POEHLER: Yes.

MR. SCHMIDT: The barn you built?

MR. POEHLER: Yes.

MR. SCHMIDT: Okay and this is a photograph, and the barn is shown --

MR. POEHLER: Yes.

MR. SCHMIDT: -- on this photograph? So, the barn is actually between your, between your house and the Nepali property?

MR. POEHLER: Yes, it is.

MR. SCHMIDT: Okay. So, does the barn, in any way, shield your view of the Nepali property from your house or your porch or anything?

MR. POEHLER: Depending on where I'm standing.

MR. SCHMIDT: It could, okay.

MR. POEHLER: It could.

MR. SCHMIDT: All right. I would offer this as Petitioner's exhibit number thirty.

BOARD: Thirty-one.

CHAIR: Thirty-one.

MR. SCHMIDT: I'm sorry, thirty-one, I apologize. Thank you, Ms. Murphy. Mr. Poehler, you, you required a zoning variance, did you not, in order to construct that barn?

MR. POEHLER: I did.

MR. SCHMIDT: Okay and you filed a zoning variance with Baltimore County, is that correct?

MR. POEHLER: I did.

MR. SCHMIDT: And you obtained a zoning variance from the County to allow you to construct your barn?

MR. POEHLER: I did.

MR. SCHMIDT: And do you know what that variance was for, what zoning regulation you were getting a variance from?

MR. POEHLER: The, I, I believe it was for a height restriction and --

MR. SCHMIDT: Okay, with the, I'm sorry, go ahead.

MR. POEHLER: And that the building was being built in my side property, not my back property.

MR. SCHMIDT: Right, and that would be in the side property facing the Nepali property?

MR. POEHLER: Yes.

MR. SCHMIDT: Closest to the Nepali property? Okay. And you, I believe, and unfortunately, I will make other copies, Ms. Murphy, but I only have a single copy. But I believe, sir, that you, the variance you obtained from the County was what's called an administrative variance, is that correct? If you know what I'm talking about.

MR. POEHLER: Not, yeah, I'm --

MR. SCHMIDT: If you don't know, that's, that's fine.

MR. POEHLER: Yeah, I'm not sure.

MR. SCHMIDT: Okay. You didn't have a public hearing?

MR. POEHLER: No one contested it, from what I

understand.

MR. SCHMIDT: So, it was, it was approved without the necessity of going to a hearing like this?

MR. POEHLER: Yes.

MR. SCHMIDT: Okay and Mr. Poehler --

MR. HOLZER: I object to everything from here on in.

MR. SCHMIDT: Okay. Mr. Poehler, --

MR. HOLZER: There's a --

CHAIR: Hold on, hold on. First of all, stand up, so I know you're objecting. Thank you.

MR. HOLZER: I'm sorry. I'm objecting to all this. We're not trying this case and this witness in terms of zoning violations or, you know, this particular case had code violations and yet I was precluded --

CHAIR: Hold on.

MR. HOLZER: -- and yet I was precluded from dealing with that.

CHAIR: I understand your, I understand your objection.

MR. HOLZER: Okay.

CHAIR: Mr. Schmidt, what is your response?

MR. SCHMIDT: I'm not presenting this evidence for any type of code violation and I'm not trying to retry Mr. Poehler's zoning variance case in any manner. I believe these photographs were submitted by Mr. Poehler in support of his

variance request and show his property and show where his improvements are located. I believe they would be helpful and have some probative value to the Board to actually show where the improvements on his property are, since he's testified that he can see much of the Nepali use, including the cars and the building and so on and so forth, so I think it certainly has probative evidence in that regard.

CHAIR: On that basis, overrule the objection.

MR. HOLZER: I would --

CHAIR: You want to speak to something?

MR. HOLZER: -- I would, yes, I would want to say something. If it only relates to that, then there's no reason to go into the zoning violation, the discussions of the hearing, whatever. If that's all he was showing, all of the ex, testimony and questions before are irrelevant.

CHAIR: Well, we, that time has passed.

MR. HOLZER: I understand that. But I'm trying to stop it from this point on.

CHAIR: So, well, here --

MR. SCHMIDT: I, I was only --

CHAIR: So, wait, hold on, here's what we're doing. I'm overruling the objection for now, not, I understand there may be some questions (inaudible) run too far afield.

MR. SCHMIDT: All right.

CHAIR: But I'm, as on this question, I'm overruling

it. You may go ask questions as to what you've, you've stated.

MR. HOLZER: It's a, these photographs are only for the purpose of him being able to describe what he can see of the subject site and what his property looks like.

CHAIR: That's --

MR. HOLZER: That limited --

CHAIR: That's what I understand is on the floor at this time. If he goes too far afield, you certainly may object again.

MR. HOLZER: I will.

CHAIR: And then we could revisit the issue if we have to.

MR. SCHMIDT: Okay.

CHAIR: Thank you.

MR. SCHMIDT: Mr. Poehler, I'm going to show you three different photographs, and then I'll give them to the Board and, again, I apologize to the Board, but I didn't know--

CHAIR: Have you shown Mr. Holzer?

MR. SCHMIDT: I've shown them to Mr. Holzer.

MR. HOLZER: He's shown them to me, but he has not given me a copy.

CHAIR: Understood.

MR. SCHMIDT: And I will get a copy during --

CHAIR: Gentlemen, we've established Mr. Holzer has seen them. Mr. Schmidt will provide copies. You may ask the

witness.

MR. SCHMIDT: Thank you. Mr., Mr. Poehler, I'm going to give you three photographs and I'll ask that you look at those. And when you're done looking at them, let me know, and then I'll ask you a question.

MR. POEHLER: I'm done.

MR. SCHMIDT: Okay. Mr. Poehler, have you ever seen these photographs before?

MR. POEHLER: Absolutely.

MR. SCHMIDT: Okay. Do you know who took these photographs?

MR. POEHLER: I did.

MR. SCHMIDT: Okay. Do you know when these photographs were taken?

MR. POEHLER: I don't know the exact date. I could figure it out.

MR. SCHMIDT: Okay. For what purpose were these photographs taken?

MR. POEHLER: For the permit for the building.

MR. SCHMIDT: Okay. When you were seeking a zoning variance for the building?

MR. POEHLER: Yes.

MR. SCHMIDT: Okay and I would just represent to the Board, that these were taken, that I obtained these from the file when you got your zoning variance at the County. Okay.

The, the first one, and I'm --

CHAIR: Hold on. This is Pet, this is now Petitioner's Exhibit 32, so if you're going to go one, two, three, or A, B, C, delineate which photo you're about to refer to.

MR. SCHMIDT: Yes, sir. I'm, I'm going to mark this, if I may, as Pet --

CHAIR: Well, hold on. Ms. Murphy can put the sticker on and then we can figure out how we do (inaudible).

MR. SCHMIDT: Ms. Murphy, I would ask you mark that as Petitioner's Exhibit 32-A.

BOARD: Okay.

CHAIR: Thank you.

BOARD: There we go.

MR. SCHMIDT: Okay. Now, this one on 32-A, I'm going to hold it like this, if I can, just so the Board can see it and I'll let Mr. Holzer see it. I want to hide it from Mr. Holzer. And, Mr. Poeh, Mr. Poehler, this, this is just indicating photograph one of three, or 32-A, so we know what we're looking at, okay? Now, there's some writing on this photograph, is there not?

MR. POEHLER: There is.

MR. SCHMIDT: Do you know, I'm going to start at the top, do you know, did you write the language, is that your handwriting across the top of the page?

MR. POEHLER: It does not look like my handwriting, no.

MR. SCHMIDT: Okay. So, you may not have written that, it may have been written by somebody at the County or whatever, but it's not yours?

MR. POEHLER: Um hm.

MR. SCHMIDT: Okay. They're then on the sides and in the picture is some writing in, appears to be like a black marker.

MR. POEHLER: Yes.

MR. SCHMIDT: Is that your writing?

MR. POEHLER: It does not look like it.

MR. SCHMIDT: Okay and then there are some typed writing across the bottom. Was that yours that you put as an explanation of this photograph?

MR. POEHLER: It looks like we did, yes.

MR. SCHMIDT: Okay. All right. So, since you did not write the top or the black marker, but you did do the bottom, I'm trying to read that upside down. Can you read what the, it says across the bottom, that you did type?

MR. POEHLER: East facing view depicting proposed site of garage in side yard with surrounding property, area not in neighbor's view from any angle.

MR. SCHMIDT: Okay. So, you indicated that this area of this photograph was not in your neighbor's view?

MR. POEHLER: Yes.

MR. SCHMIDT: Who were your neighbors who you were referring to?

MR. POEHLER: I was actually referring to the neighbors to my left.

MR. SCHMIDT: Not the Nepali people?

MR. POEHLER: Not at the time.

MR. SCHMIDT: Okay. Well, the, not the peop, not the neigh, when you use the word neighbors, that was not referring to the Nepali property?

MR. POEHLER: Yes, no.

MR. SCHMIDT: Well, you got to say yes or no. It was not referring --

CHAIR: I understood what he said, but it was referring to your neighbors on the opposite side of your property, correct?

MR. POEHLER: Correct.

CHAIR: Thank you.

MR. SCHMIDT: Well, isn't, isn't the, isn't the garage between your house and the Nepali property line?

MR. POEHLER: It is.

MR. SCHMIDT: So, isn't the closest property line to where the garage is, the Nepali property line?

MR. POEHLER: It is.

MR. SCHMIDT: So, when you were referring to

neighbors, you were not referring to the closest neighbors from a distance wise, but from the neighbors on the other side of your house, is that right?

MR. POEHLER: Yes.

MR. SCHMIDT: Okay, okay. Fair enough. That's what you were referring to. Okay. All right. I'm going to next refer you to paragraph, I'm sorry, not paragraph, photograph number thirty, let me have this marked --

CHAIR: 32-B?

MR. SCHMIDT: Now, this one, I'm assuming, just for the sake of expediency, that the language across the top of the page and the black magic marker is not yours? But the typed language is?

MR. POEHLER: Yes.

MR. SCHMIDT: Okay. Now, this photograph, can you tell us what this is?

MR. POEHLER: That is proposed site of where the building would be.

MR. SCHMIDT: Okay and the, and the foliage which is in the back, this appears to be taken in the winter time because the grass is pretty --

MR. POEHLER: Yes.

MR. SCHMIDT: And the, looks like the, there's no green, it's just bushes. Is that the property line between you and Nepali?

MR. POEHLER: It is.

MR. SCHMIDT: Okay and through that foliage, you're able to see the Nepali property?

MR. POEHLER: If you walk, facing this picture, if you walk to the right and look across, then you can see the property.

MR. SCHMIDT: But to the right would be towards Harford Road, correct, towards the front of the property?

MR. POEHLER: Yes, towards, yes.

MR. SCHMIDT: The Nepali Temple is actually well back to the left, is it not?

MR. POEHLER: Actually, the Nepali Temple is straight there.

MR. SCHMIDT: Okay.

CHAIR: Wait, hold on. Describe that, where is straight --

MR. SCHMIDT: Straight there being --

CHAIR: What was it, what was it, what would you call the object in the left center, thank you, there?

MR. POEHLER: Wood pile.

CHAIR: So, from the wood pile, if you drew a line straight back to the trees and --

MR. SCHMIDT: That's --

MR. POEHLER: Yes.

CHAIR: -- and in between the trees and the center of

the photo is where you say the Nepali, well, the, the house that sits at the subject property, where that house is?

MR. POEHLER: Yes.

MR. SCHMIDT: Okay. Okay and then there's a, appears to be a large snow plow?

MR. POEHLER: Yes.

MR. SCHMIDT: That's the snow plow that goes on the front of your truck?

MR. POEHLER: It's an old one.

MR. SCHMIDT: Okay. Or at that time, that's the one you had?

MR. POEHLER: It was, yes.

MR. SCHMIDT: Okay. Ms. Murphy, how about the last one? I'd ask you to mark it 33-A.

BOARD: 32-C, right.

MR. SCHMIDT: 32-C, just got the wrong number. Okay. Same drill, Mr. Poehler, if I can. Again, the handwritten comments and the black language and this in, this is a view of what?

MR. POEHLER: This is a view of the front yard in front of the barn.

MR. SCHMIDT: Okay and that's your house on the left hand side?

MR. POEHLER: It is.

MR. SCHMIDT: Okay and I assume that's your white, it

looks like, is it a van or a --

MR. POEHLER: It is, yes.

MR. SCHMIDT: That's your, that's your construction--

MR. POEHLER: That was my work truck.

MR. SCHMIDT: At the time?

MR. POEHLER: At the time.

MR. SCHMIDT: Okay and then there's a, is there a dumpster?

MR. POEHLER: That was a dumpster, yes.

MR. SCHMIDT: Is that still there?

MR. POEHLER: It is not, no.

MR. SCHMIDT: Okay and then the location of the garage, which is sort of in your side yard, you said.

MR. POEHLER: Yes.

MR. SCHMIDT: That's why you needed the variance, between the house and the Nepali property.

MR. POEHLER: Yes.

MR. SCHMIDT: And then the shed is in the, kind of behind that?

MR. POEHLER: Yes.

MR. SCHMIDT: Okay, very well. And again, some of the tree line and vegetation, particularly on the right side of the photograph, would be towards the Nepali property?

MR. POEHLER: Yes.

MR. SCHMIDT: Okay. I would offer these three

photographs as the Exhibits 32-A through C.

CHAIR: Thank you. So admitted, 32-A through C.

MR. SCHMIDT: And you also, okay, as, as a, again, and I'll have to make a copy of this as well, but I'll show it to Mr. Holzer first. In connection with your variance request, do you recall submitting a statement, not just the photographs, but an actual statement indicating why you believe the granting of the variance was appropriate?

MR. HOLZER: Objection.

CHAIR: Before you answer.

MR. HOLZER: Objection. We said it was only for the purposes of locating what's on his property, what he could see. He's got a document here that goes to the variance case and so forth, and I object.

CHAIR: Mr. Schmidt?

MR. SCHMIDT: I would just proffer to the Board, his affidavit indicates, in part, quote, granting the relief of the area ordinance would not impact public safety or the welfare of the community and based on the curvature of the street, the area placement of the structure will not be noticeable to the community. And that's what is relevant within this affidavit. If you want to strike the rest of it, you may, but this witness has testified that he can see Nepali, he can see the building, he can see all these improvements on the Nepali property, yet his affidavit indicates that you cannot see his proposed garage

from the community, that's what it says.

MR. HOLZER: Objection. It's totally irrelevant.

MR. SCHMIDT: It's an inconsistent statement, I believe, on behalf of the witness and it's proper for cross examination.

CHAIR: Overruled. You may proceed.

MR. SCHMIDT: Okay and I'll ask Ms. Murphy to mark this.

BOARD: Petitioner's thirty-three.

MR. SCHMIDT: You've already, my thunder has been stolen, Mr. Poehler. I'm going to, in fact, direct you to the one, two, three, four, fifth sentence, which I just read. And you indicated in this affidavit that the area placement of the structure, being the garage, would not be noticeable to the community.

MR. POEHLER: Um hm.

MR. SCHMIDT: Now, I assume, unlike when you said before, that the neighbors you were referring to were the neighbors on the other side of the house, the community would include everybody in the community, is that correct?

MR. POEHLER: That's correct.

MR. SCHMIDT: So, you believed your garage was not going to be noticeable to anybody?

MR. POEHLER: I did.

MR. SCHMIDT: Okay. Okay. I would offer that as the

next exhibit. We'll save the rest --

MR. HOLZER: Objection.

MR. SCHMIDT: -- we'll save the rest for argument.

CHAIR: Overruled. It will be so received.

MR. SCHMIDT: Okay. Board's indulgence for just a second, Mr. Garber. I may be done. And just to be, just to be clear, Mr. Poehler, you can see from your property, from I guess, portions of your property, do, the, the actual Nepali building, the, the house?

MR. POEHLER: I, I can.

MR. SCHMIDT: Okay. Can you see that all year round or just when the leaves are off the trees or is it visible all the time?

MR. POEHLER: Obviously, more when the leaves are off, but certain positions I can see the front of the building.

MR. SCHMIDT: Okay. Do you have any pictures of that that you've taken?

MR. POEHLER: I do not.

MR. SCHMIDT: You do not?

MR. POEHLER: No.

MR. SCHMIDT: Okay.

MR. POEHLER: My, I have an I-Phone, that's the only camera I own.

MR. SCHMIDT: Okay.

MR. POEHLER: It doesn't take very good distance

pictures.

MR. SCHMIDT: How close are you to the, to the Beachmont and the Redeemer property? Say as the crow flies.

MR. HOLZER: Objection. This goes way beyond, objection, this goes way beyond direct examination. I didn't ask him anything about, about the other properties north and what's going on there.

CHAIR: Mr. Schmidt?

MR. SCHMIDT: I mean, the witness has testified, not only about the impacts on his property, as a matter of fact, I objected when he attempted to offer testimony about the impacts on the community and so, I think I'm asking about other properties in the community and I think that's certainly fair cross examination.

CHAIR: I'd have to agree. So, yes, overruled. You may proceed.

MR. SCHMIDT: Are you, how far are you, I guess, as the crow flies, flies, if you know, Mr. Poehler, from the Beachmont and the Redeemer property? If you know. If you don't know, that's, that's fine too.

MR. POEHLER: A thousand, two thousand feet.

MR. SCHMIDT: Okay. Okay. Two thousand feet, so that'd be something less than a half a mile?

MR. POEHLER: It could be under that.

MR. SCHMIDT: Okay.

MR. POEHLER: As the crow flies.

MR. SCHMIDT: Do you ever hear any activity over on the Beachmont property?

MR. POEHLER: Very little bit of soccer games.

MR. SCHMIDT: Okay. So, you can hear sport, I guess, people cheering, yelling at the kids?

MR. POEHLER: A, a little bit.

MR. SCHMIDT: Okay. Other than that, do you hear, have you ever heard anything else over there?

MR. POEHLER: I have not.

MR. SCHMIDT: Okay. No other, no music coming from that direction?

MR. POEHLER: No music.

MR. SCHMIDT: Okay. No loud speaker with voices on it?

MR. POEHLER: No.

MR. SCHMIDT: Okay. Just sounds of sporting, what sounds like sporting events?

MR. POEHLER: Yes.

MR. SCHMIDT: Okay and I understand that the problem, chiefly, with the Nepali property was the, and I know the prior witness, was the event in the summer of 2017 and the event in the summer of 2018?

MR. POEHLER: Yes.

MR. SCHMIDT: Okay, okay. Are people at the Nepali

property mostly, in an average week, how often do you hear people over in the Nepali property? Not, I'm not talking about those large events which you've testified, but just this week, last week, how, did you hear anything going on over at Nepali property?

MR. POEHLER: I saw activity.

MR. SCHMIDT: Okay. What kind of activity?

MR. POEHLER: Vehicles up and down the driveway.

MR. SCHMIDT: Okay. People going in and out?

MR. POEHLER: Yes.

MR. SCHMIDT: Okay. But did you hear anything, any kind of yelling or screaming or any of that?

MR. POEHLER: A little bit of talking. I, the sound travels very easily between our two properties. We're on the same plane.

MR. SCHMIDT: Okay. Conversations?

MR. POEHLER: Yes.

MR. SCHMIDT: Okay. You've been on the Nepali property one time, I think you said?

MR. POEHLER: I have.

MR. SCHMIDT: Strike that. You might have said more, you went up there when it was for sale, I think you said?

MR. POEHLER: I did.

MR. SCHMIDT: And then you went up to introduce yourself at least another occasion?

MR. POEHLER: I did.

MR. SCHMIDT: When you went up there for sale, what was the condition of the, of the building?

MR. POEHLER: It was a little distressed.

MR. SCHMIDT: Why so?

MR. POEHLER: It had been abandoned apparently.

MR. SCHMIDT: Okay. Was it, appear to be vandalized?

MR. POEHLER: It did have a little bit of vandalism, yes.

MR. SCHMIDT: Graffiti on it?

MR. POEHLER: A little bit.

MR. SCHMIDT: Okay. Do you know who did that?

MR. POEHLER: I have no idea.

MR. SCHMIDT: Okay. As a neighbor, you didn't see any people going in and out there doing that?

MR. POEHLER: No.

MR. SCHMIDT: Okay. Okay. Thank you, sir. That would be all.

CHAIR: Mr. Holzer, re-direct?

MR. HOLZER: The, what was the date of the variance hearing or variance that you asked for?

MR. POEHLER: I don't know the exact date.

MR. HOLZER: Okay. Let me ask it another way. Was the subject property, the applicant's property, was that in existence at the time or was it vacant?

MR. POEHLER: It, no, it was, someone was living there.

MR. HOLZER: Okay. What --

MR. POEHLER: As far as I know.

MR. HOLZER: Who was living there, do you know?

MR. POEHLER: I believe his name is Dachico?

MR. HOLZER: Oh.

MR. POEHLER: Robert Dachico.

MR. HOLZER: So, he was an attorney in Baltimore County, was he not?

MR. POEHLER: That's what I had heard.

MR. HOLZER: Okay. So, when you went to get the variance and the pictures that you've identified, there wasn't, there was a single family, private owner living on the property that is now the subject of this hearing?

MR. POEHLER: Yes.

MR. HOLZER: Okay.

MR. SCHMIDT: And I'd be happy to proffer, Mr. Holzer, --

CHAIR: Hold on, Mr. Schmidt.

MR. SCHMIDT: I just would say, I would be happy to advise the Board and Mr. Holzer that the date of the variance was January of 2014, before the Nepali folks bought the property. Happy to proffer that.

CHAIR: Do you see a problem with that?

MR. HOLZER: No.

CHAIR: Okay.

MR. HOLZER: No. No problem with the proffer and no problem with the fact that the witness answered that it was Mr. Dachico living there and not Nepalis.

CHAIR: Yes.

MR. HOLZER: Okay. I have no further questions.

CHAIR: Thank you. Thank you, sir, for your time. Mr. Holzer.

MR. HOLZER: Yep. I'd call Mr. Ghimire as an adverse witness.

CHAIR: And if I may ask, Mr. Holzer, to the best you can assess this, do you know how long your direct of Mr. Ghimire may be?

MR. HOLZER: Yes, hours.

CHAIR: Okay. So, we'll just have to find a natural breaking point.

MR. HOLZER: I would, I would think if he was sworn in, if you wanted to break for lunch, it's ten minutes of twelve, we could be back --

CHAIR: I (inaudible) we should push as far as we can.

MR. HOLZER: Okay, I'm ready to push.

CHAIR: And then, I mean, we're going to have to split up his testimony anyway so, let's do that.

MR. HOLZER: I'm ready to push.

BOARD: Do you swear and affirm under the penalties of perjury, that the testimony you're about to give is true and correct to the best of your knowledge and belief?

MR. GHIMIRE: I do.

BOARD: And would you once again for us, state your name and address for the record?

MR. GHIMIRE: Kris Ghimire, 5048 Springhouse Circle, Rosedale, Maryland 21237.

CHAIR: Please spell your first and last name.

MR. GHIMIRE: First name spelled K-R-I-S, last name spelled Ghimire, G-H-I-M-I-R-E.

CHAIR: Thank you. And, Mr. Holzer, I'm going to leave it to your discretion as to when you think a natural breaking point is in your direct.

MR. HOLZER: Okay.

CHAIR: And, and perhaps even if we get through direct, then maybe that would be the natural breaking point. But I'll leave it to you. Thank you, sir.

MR. HOLZER: Okay. Mr. Ghimire, you had previously testified, isn't that correct?

MR. GHIMIRE: Yes, I did.

MR. HOLZER: And you testified on behalf of the applicant in this particular case as to the request for a special, special exception?

MR. GHIMIRE: That's correct.

MR. HOLZER: Okay and I, I can't remember, you are a business man, are you not?

MR. GHIMIRE: I am.

MR. HOLZER: And what is your office address?

MR. GHIMIRE: 8030 Belair Road, Nottingham, Maryland 21236.

MR. HOLZER: Okay and, and what is your business?

MR. GHIMIRE: Real estate.

MR. HOLZER: Real estate, okay. When you were before the Administrative Law Judge, I believe you testified you were not particularly devout, maybe going to religious, church or synagogue or, or whatever your religion calls for, is that correct?

MR. GHIMIRE: My wife is Catholic and I am Hindu and we both, we practice both religion. I go to church on Sunday with my wife and my three kids.

MR. HOLZER: Okay.

MR. GHIMIRE: (inaudible) and I would like to go to temple more often, but we don't have a temple yet.

MR. HOLZER: Okay.

MR. GHIMIRE: So, that's (inaudible).

MR. HOLZER: Okay. Now, when did you get involved in, in this idea of acquiring the property for a cultural center and/or a temple?

MR. GHIMIRE: I've been working to serve the community as long as I, I've been here in the United States, since 1998. I've been president of Baltimore Association of Nepalis in America, I have work in many different of, platforms helping the community, helping, helping the young community settle in this country. At all different level of, not only just building a temple but, you know, trying to help the community in any way possible. This conversation probably started a long time ago, but it started to take roots back in 2016.

MR. HOLZER: And in 2016, is that when you became aware that this property was on the market?

MR. GHIMIRE: That's correct.

MR. HOLZER: Okay. Had it been on the market before that 2016?

MR. GHIMIRE: I can't recall. That's the, that's the time I saw it, the multiple listing, it may have been in the market for a few days and we jump on it right away.

MR. HOLZER: Okay. Now, have you acquired the property or is it just under contract?

MR. GHIMIRE: What do you mean?

MR. HOLZER: Do you own the property or is it --

MR. GHIMIRE: As of right now?

MR. HOLZER: -- just under contract?

CHAIR: Sir, let him finish his question before you

start answering. Thank you.

MR. HOLZER: Okay.

MR. GHIMIRE: As of now?

MR. HOLZER: Yes.

MR. GHIMIRE: It's been owned by us, yes.

MR. HOLZER: Okay. So, the, the, the transfer of the title has taken place and you now are the owners of the site?

MR. GHIMIRE: The Nepali Community Center is, yes.

MR. HOLZER: Yeah, okay. And, and what is the name of your organization again?

MR. GHIMIRE: Nepali American Cultural Center of Baltimore.

MR. HOLZER: Okay. Is that how, were they create, was that created under Articles of Incorporation?

MR. GHIMIRE: Yes, and it was, a copy was provided to you and the Board, I believe.

MR. HOLZER: Yes, yes, I believe that it was. And what are the three purposes of your organization? I just want some introductory questions and then I'll get to something else.

MR. GHIMIRE: What's the three purposes?

MR. HOLZER: What, what are the, yeah, are, are they listed in the Articles of Incorporation, what the purpose --

MR. GHIMIRE: I don't have article in front of me. So, I can't, I don't want to give you the misinformation. But

I can tell you from, from my heart.

MR. HOLZER: Yeah.

MR. GHIMIRE: That the primary single goal of our organization, is to create a Hindu temple where my family and all of our members' family go to that temple and pray.

MR. HOLZER: Okay.

MR. GHIMIRE: That's primary and the objective, yes.

MR. HOLZER: And, and how many members of the organization are there in existence right now?

MR. GHIMIRE: How many, you'd have to --

MR. HOLZER: How many members, and if it were Christian it would be called a congregation, if it was Hebrew, it would be called something else, what, what is your congregation?

MR. GHIMIRE: Unfortunately, we don't have a temple yet. So, we don't have a congregation. We don't have a functioning, operational temple yet.

MR. HOLZER: Okay.

MR. GHIMIRE: So, all we have is donors.

MR. HOLZER: Okay. So, you have, do you have eight hundred and fifty members that are not donors or, or are they all donors?

MR. GHIMIRE: They're all donors.

MR. HOLZER: Okay.

MR. GHIMIRE: And we have donors from people who

wanted to save, I mean, preserve the culture, help us establish a first Hindu temple, they might be donor from my home country in Nepal and could be my parents, could be anybody.

MR. HOLZER: Okay.

MR. GHIMIRE: Yeah.

MR. HOLZER: Okay. So, that, eight hundred and fifty doesn't necessarily mean --

MR. GHIMIRE: Not a congregat --

MR. HOLZER: That those are people that, in a congregation, that are coming, right?

MR. GHIMIRE: That's correct, yeah.

MR. HOLZER: Okay. Now, you've, you've hosted a number of different events, both on the site and elsewhere, to try to encourage this get together and, and promote this opportunity?

MR. GHIMIRE: As I stated in my first hearing in the, when it was approved and, and my first testimony, trying to raise, you know, half a million dollar to buy a property and another half a million dollar to renovate and, and bring people together, it needs a lot of fundraise, just not one fundraiser.

MR. HOLZER: Right.

MR. GHIMIRE: And not just one event, and not at a bad location. And we hosted events outside of the temple location and, and we do that pretty often, yes.

MR. HOLZER: Could, could you tell me how many events

you've actually hosted on site?

MR. GHIMIRE: I can, I don't have the numbers yet, but could be three or four fundraisers.

MR. HOLZER: Okay and were these the summer of, of 2017 and the summer of 2018, were they fundraisers or were they religious get togethers or could you just describe in your own words what, what they were?

MR. GHIMIRE: The, the ultimate goal was fundraising.

MR. HOLZER: I, so there was no religious activity taking place at the time?

MR. GHIMIRE: I wouldn't say it's a normal congregation where you go pray, it was more of a person of religious stature coming and asking for donation to build a temple.

MR. HOLZER: Okay. Was there music and, at any of these events, as you've heard from the witnesses' testimony?

MR. GHIMIRE: So, part of the prayer involves the music, not the rock concert, it's just, you know, a person playing a flute and I didn't hear anybody saying they heard somebody playing flute, so.

MR. HOLZER: Well, they heard someone speaking on what had to be a microphone or amplification system. Did you have the amplification systems there for these events?

MR. GHIMIRE: We had a little microphone for the speaker inside the tent that you saw in the picture, that was

enclosed.

MR. HOLZER: The white tent?

MR. GHIMIRE: That's correct.

MR. HOLZER: Okay and you never had it outside of the tent? In other words, just out in the open?

MR. GHIMIRE: No, not this year. The first event we had in 2017, I believe, was a holy festival. We did have, did have music and I can, I can tell you and I can, nothing took place after 7:00 or 8:00, nothing took place at 1:00.

MR. HOLZER: So, you disagree with the last witness who said he heard you at 1:30?

MR. GHIMIRE: Absolutely, absolutely. No, there was nobody, nobody there at 1:00 in the morning.

MR. HOLZER: All right. Were, were you, were you there when, were you there when, during all of these events, as the chairman or as the --

MR. GHIMIRE: Yeah, I'm not a chairman, I'm just a volunteer. And we all work as a volunteer.

MR. HOLZER: Right.

MR. GHIMIRE: We're donating time, just like I'm donating today.

MR. HOLZER: Right.

MR. GHIMIRE: I'm not gaining anything, I'm not, there's, there's no monetary (inaudible) I don't get paid. I do for the love of my community and for my children and, and

it's, and I can tell you (inaudible) probably not. Then I would have to quit my job.

MR. HOLZER: Okay.

MR. GHIMIRE: Or my business, but I (inaudible).

MR. HOLZER: Did you sponsor an event in January of 2829, on January 28th, 29th of 2018 at St. Joseph's Catholic Church?

MR. GHIMIRE: Did I sponsor an event?

MR. HOLZER: Well, did you host, host it?

MR. GHIMIRE: (inaudible)?

MR. HOLZER: Yes.

MR. GHIMIRE: All the time. Not only one time, just hosted --

MR. HOLZER: At St. Joseph's Catholic Church?

MR. GHIMIRE: Yes, I did.

MR. HOLZER: Okay.

MR. GHIMIRE: I, I may have but I have, I could say just recently last week, I, I sponsored another event for, for Catholic church, yes.

MR. HOLZER: Okay. At that, at that time, were the Baltimore County police called as a result of activity that was going on at the site?

MR. SCHMIDT: At, at the Catholic church?

CHAIR: Mr. Schmidt?

MR. SCHMIDT: I'm sorry. Objection. I don't

understand the question.

CHAIR: Okay. Mr. Holzer, can you please specify, or provide more specificity in your question?

MR. HOLZER: I sure can.

CHAIR: Thank you.

MR. HOLZER: At January 28th, 2018 at 22.39 hours, police were called to an, to the event that you were sponsoring.

MR. GHIMIRE: So, you're talking about --

MR. SCHMIDT: Objection.

MR. GHIMIRE: Yeah.

BOARD: Wait a minute.

CHAIR: Hold on, hold on, sir.

MR. SCHMIDT: Objection.

CHAIR: Hold on.

MR. SCHMIDT: Objection. I still am not clear, Mr. Garber, as to where this event occurred, if it occurred at the subject property or if it occurred somewhere else. If it occurred somewhere else, --

CHAIR: I understand there's an objection.

MR. SCHMIDT: -- then I would object, because I don't believe it has any relevance.

CHAIR: Mr. Holzer, do you have a response?

MR. HOLZER: Yes.

CHAIR: Okay.

MR. HOLZER: I'm tired of --

MR. GHIMIRE: And --

CHAIR: Sir, there's no question at the moment.

MR. SCHMIDT: You can't --

MR. HOLZER: I'm tired of these irrelevant objections when, in fact, he knows darn well that they had an event at St. Joseph's Church and it was, it was under his guidance and it ended up with a police report for an aggravated fact, people were arrested, and I want to get into that.

CHAIR: Okay, Mr. Holzer, his question, or I understand the objection is he, the, which location did this occur at? Just to make it clear for the record, why don't we just identify that for Mr. Ghimire, all right? On January 28, 2018 at around 10:39 p.m. the Baltimore County police appeared at what location?

MR. HOLZER: I'm going to do it even better.

CHAIR: No doubt.

MR. HOLZER: I'm going to give him the police report.

CHAIR: That's fine.

MR. HOLZER: Maybe they haven't seen it. Have you seen the police report?

CHAIR: So, before you do that, we have to mark it.

MR. HOLZER: There's the original.

BOARD: Twenty-two?

MR. HOLZER: Twenty-two.

MR. SCHMIDT: Okay.

CHAIR: Thank you.

MR. HOLZER: And I would address the witness to look at the first page and Mr. Schmidt, Baltimore County Police Department Police Report, location 8416-8420 Belair Road and it was second page, assault second degree --

CHAIR: Well, hold, hold on. Let's just take it one step at a time if I may. Page one, you're referring to, is page two of the exhibit?

MR. GHIMIRE: Yes.

CHAIR: Okay and an incident that occurred at 8416/8420 Belair Road on January 28th, 2018 at approximately 10:00 at night, correct?

MR. HOLZER: That's correct.

CHAIR: Okay. Now, what do you want to ask him?

MR. HOLZER: You didn't go to the next, the offense was assault second degree, simple, on police, parking lot of the church.

CHAIR: Mr. Schmidt?

MR. SCHMIDT: I, I'm going to object to all this. What relevance this possibly has for a Petition for Special Exception at an, at a different property. I mean, I know there is some latitude given in an administrative quasi-judicial hearing, and we're not in a formal Court of law, but this is a quasi-judicial hearing and I, I've never seen this before. I

knew nothing about it, but it appears that there was a fight, a fist fight, between a couple people at, at this Catholic church, at another property. And what that has to do with --

CHAIR: Okay, I understand.

MR. SCHMIDT: -- whether the special exception should be granted.

CHAIR: I understand.

MR. SCHMIDT: I object.

CHAIR: Mr. Holzer, your response?

MR. HOLZER: My response is, the police report relates to his event that was being held there, which he says that he had on the 28th, 29th. The police report, if Your Honor permits it to go in, it starts off as a police officer responded to St. John, St. Joseph Catholic Church for a fight.

CHAIR: Okay.

MR. HOLZER: Upon arrival --

CHAIR: So, let's just, hold on, Mr. Holzer.

MR. HOLZER: I mean, it's his, it's these folks --

CHAIR: Let's take it back a second because prior to that, the objection was, at what location did this occur.

MR. HOLZER: And we know.

CHAIR: At 8614/8620 Belair Road is the St. Joseph's Catholic Church. Mr. Schmidt, did you understand that?

MR. SCHMIDT: I understand it to be at --

CHAIR: Okay. So, hold on, we're going to go --

MR. SCHMIDT: -- the St. Joseph's Catholic Church.

CHAIR: -- we're going to work through this. The second point now is the objection presently raised, which is, what relevance does it have? You're indicating the relevance is, look, there's a sponsored event, this gentleman was in charge of and there was this fight, correct?

MR. HOLZER: That's correct. And he also said that he held events offsite and this was the offsite event.

CHAIR: Okay. We're going to overrule the objection at the moment and then see where this goes.

MR. HOLZER: Thank you.

CHAIR: Thank you very much. You may proceed.

MR. HOLZER: Thank you.

MR. SCHMIDT: Mr. Garber, may I be heard for just a second, please?

CHAIR: Go ahead.

MR. SCHMIDT: Thank you. I would draw the Board's attention to the very first page of this document, which says at the very top line, at the very top, DMV events in association with Everest Entertainment presents live in concert.

CHAIR: Okay.

MR. SCHMIDT: I do not believe that says the Nepali Cultural Center of Kris Ghimire or anything like that, so how we get this connection that this is an event, I mean, this is

so irrelevant and, quite honestly, --

MR. HOLZER: Oh, come on.

CHAIR: Guys, listen, counsel, --

MR. HOLZER: I'm really getting aggravated.

CHAIR: -- here's what we're going to do. I understand the objection, I've made my ruling. It's overruled for now. I anticipate he's going to get into it and/or you'll get into it in cross.

MR. HOLZER: Thank you.

CHAIR: So, you may proceed.

MR. HOLZER: Thank you. Now, you hired, you rented the hall at the church for your event of your folks, right?

MR. GHIMIRE: I'm so glad you asked me this question, asked this question. I can't, I've been waiting here to answer this and wanted to clarify for the Board, for the members of the community, member for the Nepali community, how false this information is, how targeted it is.

CHAIR: I'm sorry, how?

MR. GHIMIRE: How targeted. Just like an Italian person holds a concert in Glen Arm and something happens. You can't blame the whole Italian population for that, that's, that that incident. So, the Nepali --

CHAIR: Hold on, if I can. Whoever is back there making noises or laughing or whatever the case may be, that's not appropriate.

MR. GHIMIRE: I think, I feel it's very insulted by this, this, this question and this report. Nowhere in this charge that I'm involved. I feel very personal about this. You're charging me for something that I was, when you said, when you asked me --

MR. HOLZER: Are we just going to let him just talk?

CHAIR: Yes, he is answering the question. Wait till he's finished.

MR. GHIMIRE: Yeah, and, and this is a personal charge and I take it personally. I want to answer in full, give me, give me a few minute, allow me a few minute to answer this question.

CHAIR: Well, I, --

MR. HOLZER: I object.

CHAIR: -- you have to, you have to answer the question that is asked. If that is your answer, you're offended by it, you're insulted by it, it's not fair to your community, I understand your answer. Do you wish to go on with your answer in response to his question?

MR. GHIMIRE: Yes, yes, I do. So, when initially asked me to do sponsor the events, I was misled. He didn't told me this, he asked me without showing this, this pictures. So, yes, I sponsored, not this event, I may have sponsored some Nepali event that took place there but when I say, yes, I sponsor events that took place and hosted by St. Cath, St.

Joseph Church, that's where my two kids go to school. I just recently, last week, we offer a prayer, we did offering for Catholic (inaudible), we were the main sponsor. So, that's what I answer, very excitedly, saying yes. That's what I sponsor, the St. Catholics. But where is my name here?

CHAIR: Okay. Sir, you don't get to ask the question.

MR. GHIMIRE: Yeah.

CHAIR: Mr. Holzer, you, your next question, please.

MR. HOLZER: After the St. Joseph event in which eleven Baltimore County police cars were called to the event, is there another place where your members or your group would go to meet? And I would suggest Mt. Everest restaurant.

MR. GHIMIRE: So, when you say a group, you're saying - -

MR. HOLZER: I'm not talking, I'm talking --

MR. GHIMIRE: What group? Define that.

CHAIR: Well, hold on, again. I'm going to make this abundantly clear as best as I possibly can. He's going to ask a question, then you're going to have to answer. When you're answering, please don't ask another question.

MR. HOLZER: I won't.

CHAIR: So, one at a time. What is your question to Mr. Ghimire?

MR. HOLZER: After the event that was held at the

church and the police arrive and arrested a number of people, did they go, did your members or people that are associated with your organization, go to Mt. Everest Restaurant?

MR. GHIMIRE: I did not go and I don't know. I can't, I didn't track our people that I know.

MR. HOLZER: Okay.

MR. GHIMIRE: That's not my job.

MR. HOLZER: Who, who owns, what type of restaurant is Mt. Everest Restaurant?

MR. GHIMIRE: It's a Nepali cuisine authentic restaurant.

MR. HOLZER: Okay.

MR. SCHMIDT: Objection. Now, if we're going to, and I'll just --

CHAIR: Go ahead.

MR. SCHMIDT: -- I just want to object for the record.

CHAIR: Mr. Schmidt, go ahead.

MR. SCHMIDT: And make a continuing line of objection. If Mr. Holzer and his clients wish to insult the Nepali community and make this all about --

CHAIR: Mr. Schmidt, --

MR. SCHMIDT: -- etcetera, then they may do so.

CHAIR: -- what is your objection?

MR. SCHMIDT: And my objection is, Mr. Garber, that

it's totally irrelevant and inappropriate.

CHAIR: Mr. Holzer, first of all, I have to say, I'm not clear as to whether or not Mr. Ghimire, what role he played in connection to this. Was it individually, was it on behalf of the organization or what was his exact role? I know that we've referred to it as sponsor.

MR. HOLZER: Yes, yes.

CHAIR: But it is not clear to this Board as to what that means.

MR. HOLZER: He rented the hall.

CHAIR: Him personally?

MR. HOLZER: That's what I understand.

MR. GHIMIRE: That's false.

CHAIR: Hold on. There's not a question pending, sir.

MR. HOLZER: Okay.

CHAIR: Mr. Holzer, so that part, I think, --

MR. HOLZER: I'm answering --

CHAIR: -- would help resolve some of these issues.

MR. HOLZER: All right. Subsequent, well, the answer to, to resolving the issues is simply read the police report and you can see, as, as I was trying to get to, they were called to this event, there were Asian males, one was beating the other, etcetera --

CHAIR: Mr. Holzer, I'm going to make this, I'm going

to make this clear. Mr. Ghimire, what was your role in connection to the event that is Protestant's Exhibit 22?

MR. GHIMIRE: None, zero.

CHAIR: Were you the sponsor of this event?

MR. GHIMIRE: No.

CHAIR: Did you have any type of role as, in leadership, management or whatever of this event?

MR. GHIMIRE: No.

CHAIR: Did the Nepali community, that is, the --

MR. GHIMIRE: Nepali Cultural Center --

CHAIR: -- sir, that is the organization that is Petitioner in this case, have any role with sponsoring this event?

MR. GHIMIRE: No.

CHAIR: Did they have any other role when it came to the leadership or management or, or otherwise for this event?

MR. GHIMIRE: Absolutely not.

CHAIR: Okay. So, what exactly is your role or affiliation with this event that is Protestant's Exhibit 22?

MR. GHIMIRE: Nothing that I know of.

CHAIR: Okay. Mr. Holzer, with that in mind, did you want to follow up now as to figure out what his relationship is or if any? I know you said read the report, but right now, the report is not in evidence, so we need to figure out what bearing this has for this particular witness.

MR. HOLZER: Well, maybe this particular witness didn't then follow the church incident back to the restaurant, in which there was another battle, another fight, with Baltimore County police cars arriving, eleven cars, plus ambulances, plus the fact that involved in the, in the incident was a large knife. Now, if you want me to, if, if you want me to try to connect his event, I can just simply tell you that these were all individuals in the first case, they were all individuals in terms of police reported Asian males. There were people that wanted, and their names was, arrested was Mr. Sarki, was arrested --

CHAIR: What, I got, I got to stop you there, because what does that have to do with the Nepali community organization that is the Petitioner in this case, or Mr. Ghimire, the individual witness on the stand? Whether in his individual capacity or on behalf of the Nepali community? That's the point we're trying to tie this police report to this witness.

MR. HOLZER: Correct. And these, this police report shows that the individuals that attended that, the individuals that went back to St. Joe, back to the Mt. Everest restaurant, all acted in a way that should not have occurred and, as a result, police were called. Now, if he wants to say, oh, I didn't go there, I can't say that he was there because I didn't, I didn't attend the event. But these --

CHAIR: I believe Mr. Ghimire did just testify that he was not at, certainly at the Mt. Everest part of this. As to the introductory part at St. Joseph's Church, I don't know what's been established about that as of yet.

MR. HOLZER: Well, maybe, maybe we can show you, to your satisfaction, when he marketed this event on Facebook.

CHAIR: Again, I'm still mystified as to how he is tied to the event to which leads to --

MR. HOLZER: The organization marketed the event to raise money at the church.

CHAIR: Do you have questions on that basis for this witness?

MR. HOLZER: No.

CHAIR: Okay. Then, as for now, I'm going to have to sustain the objection from Mr. Schmidt as to this report.

MR. HOLZER: Okay. You may sustain the objection, we will come back to that. But for now, I'm going to proffer this report, that's marked as Protestant's twenty-two. I'm going to proffer what was in it and what, what was said, which I'm entitled to do.

CHAIR: I think, I, I would say this, we already heard what's in the report, to some, to some degree. I've sustained the objection. If you are going to have that report in, it needs to connect to this witness and what I've understood from you is it can't connect to this witness right

now. If you want to ask him about a Facebook post or something that shows his sponsorship, whether individually or on behalf of the community, that would be the next phase.

MR. HOLZER: I'm saying, I am going to proffer what's in both reports.

CHAIR: I think --

MR. HOLZER: I'm entitled to proffer for the record what's in both reports, even though you're not accepting them yet.

CHAIR: You have introduced this into evidence for identification, the documents itself. You don't need to any more proffer, it's already part of the record as something that is, an objection has been sustained upon. We can move on.

MR. HOLZER: All right. Is it more, what is twenty-two and what is the restaurant marked as?

BOARD: We, we haven't had it yet, we, you haven't given it to us yet.

MR. HOLZER: I'll have to give it to you.

CHAIR: Gentlemen, please keep your comments to yourselves about it.

BOARD: And if the people behind Mr. Kotroco and Mr. Schmidt could not make references to the witness while he's on the stand, any gestures, any good job, none of that, that would be helpful, because he's under oath.

MR. HOLZER: Now, for purposes of the record, you

have denied, at this point, these two documents, Protestant's Exhibit 22 and 23 and I am proffering that the documents are submitted at this point as part of two proffers related to the police reports, related to Baltimore County, related to the Nepalis.

CHAIR: But that, but, but the point we're missing here is the connection between the reports --

MR. HOLZER: I understand.

CHAIR: -- and the Petitioner, or this individual witness.

MR. HOLZER: I understand.

CHAIR: They cannot be admitted and, therefore, any, and they are already marked for identification. I don't believe we need a proffer to what went on during the course of these events --

MR. HOLZER: I, I'm not trying --

CHAIR: -- if they're, hold on, in the reports without that bridge being connected.

MR. HOLZER: I understood that. I'm just saying, I am, instead of me trying to read it in the proffer, I'm saying that you ruled that they are marked for identification in, in, in the Board's --

CHAIR: They are.

MR. HOLZER: They are. So, I don't have to read them.

CHAIR: That's correct.

MR. HOLZER: That's what I was trying to say.

CHAIR: That is correct.

MR. HOLZER: Okay. All right. Now, Mr. Ghimire, you made some personal comments during the course of this, these presentations. Do you believe the Gunpowder Falls Watershed Preservation Association, you think they're racist?

MR. SCHMIDT: Objection.

MR. GHIMIRE: Can I get a glass of water before I answer that question?

CHAIR: No, there's a question pending at the moment, hold on a second. And there's an objection pending. So, stand up, please. What is your objection?

MR. SCHMIDT: Objection, Mr. Garber. I don't believe that Mr. Ghimire's opinion as to whether the Gunpowder Falls Community Association, if I've stated the name correctly, and if I haven't, I apologize. And the question is, if Mr. Ghimire believes they're racist and with all due respect, Mr. Garmer, Garber, I do not see how that would solicit any relevant testimony to the question of whether the special exception should be granted in this case.

CHAIR: Mr. Holzer?

MR. SCHMIDT: So, I believe there's no relevance.

CHAIR: Your response? Stand up, please.

MR. HOLZER: I just, I just want to know whether he

believes that my clients, all the people that are sitting here, are racists and are against the Nepalese.

CHAIR: Well, I will --

MR. HOLZER: That's not relevant?

CHAIR: You are given leeway at the moment, but you are not going to go too far afield because it does go to motive, or bias, or other such things that are commonly asked for any witness in any case in any Court. So, whether or not, you know, I understand you may have an objection as to its relevance, but I'm going to overrule your objection. Mr. Holzer, you may ask your question at, but again, we're not going to be going too far afield here.

MR. HOLZER: I, --

MR. SCHMIDT: Mr., Mr., if I can, Mr. Garber, can I ask that the Chair identify, since the nature of the Chair's overruling my objection was that it goes to the potential bias of the witness. Could the, could the Chair explain for the record in this case, what, what bias the witness would have towards that organization and how that would relate, even if there was bias towards that organization, to the Petition for Special Exception?

CHAIR: Sure. So, it, by way of example, if this witness is under that belief, I'm assuming that there would be reasons for that belief. Those reasons may call into credibility some of the testimony by others.

MR. SCHMIDT: Thank you, Mr. Garber.

CHAIR: Thank you. Mr. Holzer?

MR. HOLZER: Yeah, I'm not trying to be offensive, really, Mr. Ghimire.

MR. GHIMIRE: Yes.

MR. HOLZER: I really just want to know whether your organization believes that they are being unfairly treated in Baltimore County.

MR. GHIMIRE: Can I get a glass of water or something before I answer that?

MR. KOTROCO: May he have some of that, or do you want me to go out in the hall and get him a glass?

MR. GHIMIRE: Thank you. My, my throat is getting dry. And I will answer the question right after.

CHAIR: Yes, thank you.

MR. GHIMIRE: Thank you, sir. Can you, excuse me.

CHAIR: I believe the last question was from Mr. Holzer saying do you believe that the Petitioner is being unfairly treated by Baltimore County?

MR. HOLZER: Yes.

MR. SCHMIDT: No, that's not, I think the question was, --

CHAIR: There were two questions, so that's fine.

MR. SCHMIDT: -- with all due respect, I think the question was, does he believe that the organization, the

Gunpowder, and I don't have the name off the top of my head --

CHAIR: It's okay, Mr. Schmidt, we'll just have him ask another --

MR. SCHMIDT: -- is racist?

CHAIR: We'll, we'll, all questions just prior to that will be stricken.

MR. HOLZER: All right.

CHAIR: Mr. Holzer, ask your question and that'll resolve this situation.

MR. HOLZER: Do you believe that your organization has been unfairly treated by either the neighbors or by Baltimore County?

MR. GHIMIRE: Somewhat.

MR. HOLZER: And could you explain?

MR. GHIMIRE: Yes. There is many example, but let me go with one. We had event on Sunday, the, the July event that you keep referring to and many witness have done that.

CHAIR: Is this 2018?

MR. GHIMIRE: Two thousand eighteen.

CHAIR: Thank you.

MR. GHIMIRE: When we had, it was a Sunday. We had just a few people starting to gather for the fundraiser, then Baltimore Public Health Department got called, called on us. So he came back, came there and happens that Senator Jim Brochin was there, David Marks stopped by later on and she was

there, she, she said Mr., Mr. Clark called, complained and said she had to come, --

MR. HOLZER: Who said that, I'm sorry? I couldn't hear, understand you.

MR. GHIMIRE: Okay.

MR. HOLZER: Who said something to you?

CHAIR: Who made the phone, right, who told you this, that Mr. Clark called (inaudible)?

MR. GHIMIRE: The lady from Baltimore Health Department, which I have her card, I can provide that. I, not at this moment, I didn't know I was going to ask this question. And Mr. Clark made a call, she came and she said she had to come and Senator Brochin confronted, if I had a fundraiser at my house, I'm running for office right now, would you come to my house? And she had a no good answer. And after a few discussion, a few phone calls with her supervisor, she said, I'm sorry, we have to come because the complaint was made. And at that moment, I felt like, look, I'm a citizen of this country, citizen of this County. I pay a lot of taxes. I felt like I was targeted.

MR. HOLZER: Okay.

MR. GHIMIRE: Yes, I was, I felt like I was targeted and, and that's another incident where one of the members is right here, a witness, again, health department came. That was last year, 2017. I don't know who made that call and the, the

County official says, you guys cooking here something? And my, he's raising his hand right there, he calls me from the --

CHAIR: No, hold on, hold on.

MR. SCHMIDT: You can't raise your hands (inaudible).

MR. GHIMIRE: I'm sorry.

CHAIR: This, oh, my. Guys, everyone here, you cannot give any type of clue, gesture, sound and it goes for both sides of this room, as to anything any witness is on the stand for. It is up to the witness to recall what they recall. If they get it right, so be it. If they get it wrong, so be it. You have counsel here who's going to be able to cross examine or otherwise question them to let them know whatever they think is right or wrong about whatever they just said. So, please, nobody mention anything, say anything, gesture about anything or do anything other than sit there and listen during the course of testimony. Or else, the next option will be we clear the room of every witness here and anybody who wants to attend this hearing, it'll become a counsel only party. Thank you. That is the last, that is literally going to be the last warning I'm giving about this.

MR. GHIMIRE: Sorry about that.

CHAIR: No, it's okay.

MR. GHIMIRE: May, may I continue with my answer?

MR. HOLZER: Sure, sure.

MR. GHIMIRE: So, one of the member calls me on the

phone and said it's a County official and asking me that we are cooking food over here, (inaudible) are you? He said no, we're just cutting the grass and I, you know, he handed the phone over to me and I said, why are you here? I mean, why is the, I felt like we've been targeted and harassed for things that we haven't done. So, that was the second incident. About the community, I had a conversation with Mr. Clark a few times on the phone. He seemed very nice in the beginning. We had few conversation. He even offered to meet, I, I said okay. Right after that, he hosted a meeting. I can't remember the location, that was right in Long Green Valley and, and he had the police present over there and he specifically told me, I'm not invited or anybody from the Nepali community is not invited to this particular meeting. At that point, I felt like I had been, you know, not only disinvited but I felt excluded from the, from the, from the, from the issue that we are supposed to work together to solve. And all I hear is, we have not invited the neighbors, we had open house, we had two and fifty people show up for the open house. So, yes, that's my answer.

MR. HOLZER: Okay. So, was, was one of the things that precipitated your holding these, these events and having various County employees show up, were you ever cited for code violations? And I don't mean you personally, I mean the organization?

MR. GHIMIRE: They decided for code violations saying

no more, you know, --

MR. HOLZER: No more?

MR. GHIMIRE: -- building, but when went back to the County at, we met with Mr. Jablon, was I think director of the zoning, in that department, and he said, look, I mean, this is just a warning. I mean, I'm, there's nothing I'm enforcing or taking action against. We explain our side of the story and we were given that opportunity to explain what took place.

MR. HOLZER: Okay. So, there, there were no code violations issued or there were but they were not enforced?

MR. GHIMIRE: We got a warning letter, that's what I can, you know.

MR. HOLZER: Warning letter. And, and what was that for?

MR. GHIMIRE: It said no, no building, no improvement and no activities, that's what it said.

MR. HOLZER: No act, no activities, meaning no events being held there, right?

MR. GHIMIRE: No, no, I think what he said, I, I don't have the document in front of me, so I don't want to kind of give you the mis, you know, the wrong information.

MR. HOLZER: Right.

MR. GHIMIRE: I think more towards like no, you know, practice of religion, since it's not approved for, at that time was before the first hearing, I think.

MR. HOLZER: Okay. Okay. Thank you. Now, have any of your folks in your organizations complained about white America?

MR. GHIMIRE: Not that I know of.

MR. HOLZER: Maybe you can know who this, this is.

MR. SCHMIDT: I, I, Mr. Garber, I'm going to object and I've just, I just, --

CHAIR: Yes?

MR. SCHMIDT: Again, I, I believe we are here on a Petition for Special Exception related to a land use and zoning issue and, quite honestly, sir, this hearing is getting completely out of hand. And I say this with all respect to you and to the panel members, but this is not an appropriate manner in which this hearing should be conducted. These personal assaults and personal, inflammatory comments about both sides, or either sides, have no place in this hearing in my opinion. You are here, and I mean this most respectfully, Mr. Garber, to conduct a hearing about a proposed land use and that's what the charge of this Board is. And I understand that the Board gives a lot of latitude to allow evidence in these hearings. I was on this Board and served in the 1980's and I understand the long history of that, of that philosophy and the rule. But this is entirely inappropriate. It is, it is, it is --

CHAIR: Okay. I understand, I understand --

MR. SCHMIDT: -- gone, let me finish, sir, if I may.

CHAIR: Mr. Schmidt, hold on --

MR. SCHMIDT: I have the floor, I believe.

CHAIR: -- hold on, Mr. Schmidt. I understand your objection. You feel the evidence that's about to come is inappropriate and irrelevant and whatever other things that you've just mentioned. I understand what you have to say about it, I don't need a speech about it. Is there anything else, any other legal basis as to why you have an objection?

MR. SCHMIDT: No, sir.

CHAIR: Okay. Mr. Holzer, do you have a response? I don't even know what we're, what we're talking about at the moment because it's not in front of the Board. So, Mr. Holzer, what is your response?

MR. HOLZER: My response is, Your Honor, that, that as Mr. Schmidt said, bias, racism, religion, has no bearing in this case. And we agree with that. But we have been charged with, members, as you just heard, that there is a bias from the witness who said that he was constantly interrupted or had, had County employees coming to the, their events, who were checking up. The reason for that was, that there were certain limitations that were clear, that were liming their, their use until this Board made a decision, limiting their use to the, to the enjoyment of the property. Those have been violated as if they never occurred. It's like a code violation warning --

CHAIR: This is not a code violation hearing.

MR. HOLZER: That's, I understand, Your Honor. And that's exactly what you made at the very beginning.

CHAIR: Yes.

MR. HOLZER: It is not a code violation hearing, but this goes to show that there is bias in the, in the part of what has been going on. And number two, whether or not that the, that the occupants of this facility will con, will comply with your terms and conditions that may be imposed if you decide to grant this.

CHAIR: Okay. Now, --

MR. HOLZER: And that, and that, one more sentence.

CHAIR: Go ahead.

MR. HOLZER: And that, and that is, really goes to the crux of this, because they haven't shown that they're willing to obey whatever decision, zoning decision, is made.

CHAIR: What does that have to do with the exhibit that you are about to use with Mr. Ghimire?

MR. HOLZER: Well, because this exhibit that I'm about to use, he's saying we're biased against, against them.

MR. GHIMIRE: I didn't say that.

CHAIR: No, hold on. Just, Mr. Ghimire, there's not a question pending.

MR. GHIMIRE: Sorry.

MR. HOLZER: It simply says, I do not think there is much freedom left in this country, this --

CHAIR: Wait, is that from Mr. Ghimire?

MR. HOLZER: Huh?

CHAIR: Is that from Mr. Ghimire?

MR. HOLZER: It's from one of his member's e-mail.

CHAIR: Okay. Is that from Mr. Ghimire?

MR. HOLZER: No, it's from one of his members.

CHAIR: Is it from the community, is it from the Nepali community organization?

MR. HOLZER: I don't know, is it?

CHAIR: Well, hold on, no, no. We're, this is --

MR. HOLZER: I was going to ask him to identify this.

CHAIR: I, well, we're going to get into that in a second. So, do I understand what you were offering here is an e-mail --

MR. HOLZER: Yes, yes.

CHAIR: -- from who to, from who to whom?

MR. HOLZER: That's what I was going to ask him. I can't, I don't know the names of these people. (inaudible).

CHAIR: Is it on behalf of the organization?

MR. HOLZER: I don't know, that's what I was going to ask him.

CHAIR: Here's what we're going to do. We're going to take a break, we're going to break for lunch. I'm hoping that this is going to reset emotions in the room, but also try and call everyone here to streamline what's going on here and,

and focus on the main points as to why we're here. So, please, consider that both sides of the counsel table here.

MR. HOLZER: All right.

CHAIR: We will break, what time is it now? Twelve thirty.

MR. HOLZER: Twelve thirty.

CHAIR: Okay. So, we are going to be back here at 1:30.

MR. HOLZER: Okay.

CHAIR: Thank you.

(RECORDING PAUSED - 12:32:22 PM)

(ON RECORD - 01:36:13 PM)

CHAIR: Okay. Before we get started, I'm going to ask that everyone who's not counsel or not seated at the table, and Mr. Clark, you can stay, everyone else, please, step outside for a couple minutes.

BOARD: You can stay.

CHAIR: Yeah, you can stay. Because you're at the table, Mr. Clark has been at the table.

VOICE: Do we need to take our purse?

CHAIR: No, no, no, this is literally a couple minutes.

VOICE: Okay.

MR. HOLZER: I, I do have something that I hope you don't take offense at. But it's, it's very cool in here

between Mr. Schmidt and I, so could you turn the heat up a little bit?

BOARD: (inaudible).

CHAIR: Yes. But anyway, so I, I wanted you guys all here, Mr. Ghimire, because you've been the primary representative on behalf of your organization, Mr. and Mrs. Clark, you guys have been the primary representatives you're your side, but also counsel. So, I'm going to say this to counsel particularly. You guys are representatives, this is a Court. You guys need to remember you're showing something to people who don't normally come in front of this Board or into courtrooms. We expect the decorum and we expect this to be run professionally and I know that this is more informal than others, and I know that there's some familiarity between everybody here and you guys normally appear in front of us and have appeared together, on opposing sides, regularly. But this is the message we are sending to both communities. That is, you know, this is how things go, that we yell at one another, that we scream at one another, that we call each other names or we say ridiculous things to one another and that's not the case, and that's not the way this Court should be run. I personally do not try to ever engage in stuff like that. I can't say I'm always perfect and I know that we all have our moments to where we all achieve, should achieve to do better. Let's try to keep that in mind for the second half of this.

Now, also, when it comes to people again gesturing, making comments and all that other stuff, I am at my end with this, Mr. Clark, this applies to you too. I understand and have seen you act in a certain way where you are trying to engage with Mr. Holzer, it's, I'm sure, distracting to Mr. Holzer, what's that?

VOICE: I apologize.

CHAIR: Thank you. But it's also distracting to the Board and distracting to the witness and not just Mr. Ghimire who happens to be sitting there, but also from your side, people in the back nodding in approval, raising their hands and those kinds of things are wholly inappropriate for a courtroom, especially when they're trying to communicate something to the witness who is on the stand. So, I hope that we can do better this time around in the second half. Now, we know that there are going to be questions asked that you may not like and that you may not like. We deal with them with objections, not with indignation, not with yelling, not with anything else. We deal with it with objections. And we'll resolve it, we will work through it, we will get through this, but the fact is, we are wasting time by getting into these petty squabbles about this kind of stuff. And I realize there are some questions presently that may be offensive to some people, but at the same time, we have to work through it. We can't make rulings on things that we don't know what is about to come. Even if we

have a suspicion as to what may come, we don't know what's to come and we, that needs to be introduced into the record, so that there's a basis for any ruling that may follow, no matter what, whether it's to be in evidence, not in evidence, whatever the case may be, we have to establish something on the record. So, if you have an objection to something, that's fine. And if you have an objection to something, that's fine. Thank you. Mr. Clark, would you mind inviting everyone back in, please? Thank you. Anything else we (inaudible).

VOICE: Do I have time to (inaudible)?

CHAIR: You, yes, but you can invite everyone back in. Thank you. And I'm sorry, Ms. Clark, I'm sorry, Mr. Ghimire, that you had to be part of it, but you are parties to this case. All right. Other than Mr. Clark, who had, (inaudible) run a personal errand --

MR. HOLZER: I'm ready.

CHAIR: -- is everyone here? (inaudible) can tell? Can everyone make sure their cell phones are off? Okay. Can everyone make sure, those people who are sitting here, can you make sure your cell phones are off, please? And we, do you wish to start before Mr. Clark comes back?

VOICE: Yes, go ahead.

MR. HOLZER: I can.

CHAIR: Okay.

MR. HOLZER: I can. Right?

VOICE: Yes.

MR. HOLZER: Are we ready?

CHAIR: We are ready.

MR. HOLZER: Okay. Mr. Ghimire, did you, you've been here just about every day or if not every day, is that correct?

MR. GHIMIRE: That's correct.

MR. HOLZER: Okay and did you hear Mary when she testified about the volleyball noise and what was going on?

MR. GHIMIRE: Yes, I was here.

MR. HOLZER: All right and did, were you aware that, well, let me, let me just show you this. And I only have one color picture, so I'm going to get that to the Board.

MR. SCHMIDT: Thank you.

MR. HOLZER: But I'm going to show you this so it's easier. Is this familiar to you as a July of 2017 volleyball tournament that was held?

MR. GHIMIRE: This is the, the fundraiser, 2017, as I can recall, Dr., Mrs. Clark, Dr. Clark, she was referring to the event this year, this, this summer and that's what thing I got.

MR. HOLZER: Okay. There's, there's a black and white copy here. I'm going to submit this to the, to the Board.

CHAIR: And that's exhibit number?

BOARD: Twenty-four.

CHAIR: Twenty-four.

MR. HOLZER: And here are the photo, here's the extra for the Board. I didn't have, I didn't have (inaudible). So, this was twenty-four. So, if, if you notice on there, even though this was 2017, have you had a volleyball tournament in 2018?

MR. GHIMIRE: There was part of the fundraiser, it was a fun festival.

MR. HOLZER: Right.

MR. GHIMIRE: Where like the family came and play.

MR. HOLZER: Right.

MR. GHIMIRE: And not in 2018. I think what she was referring to, I think that they kind of coincide with the, the tournament that was going in DC, if you're referring to Facebook posts. So, I can't tell you exactly what she was referring to, but from the date she was referring, that's the time the tournaments was taking place in DC, which was actual tournament, not like the picnic style fundraiser that we had in 2017.

MR. HOLZER: Are you saying that this volleyball tournament was not at the subject site?

MR. GHIMIRE: It was in 2017, not in 2018.

MR. HOLZER: Right, okay and you see there, could you tell us where these, I see these teams, Belmont A, Belmont B, Columbia, is that Columbia, Maryland team?

MR. GHIMIRE: That's correct.

MR. HOLZER: What is number eight, where is that team from?

MR. GHIMIRE: Number eight.

MR. HOLZER: Top of the right hand column.

MR. GHIMIRE: That's, I think that's from Harrisburg.

MR. HOLZER: Pennsylvania?

MR. GHIMIRE: That's correct.

MR. HOLZER: What about the old dragon team, which is seven?

MR. GHIMIRE: I have no idea what that is.

MR. HOLZER: What about the other one, bistro team from Pennsylvania?

MR. GHIMIRE: That's from the Harrisburg area.

MR. HOLZER: Okay and the last two, and the last one, I guess, it's --

MR. GHIMIRE: That's, that's a Baltimore, you know, Baltimore group.

MR. HOLZER: Okay. So, you're saying that while this occurred on 2017, a fun day, summer fun festival, held at the site, that there was no volleyball tournament held in 2018?

MR. GHIMIRE: That's correct.

MR. HOLZER: Okay. As, as someone who, you're the resident agent, are you not, of the organization?

MR. GHIMIRE: Yes, I am.

MR. HOLZER: Okay. As someone who is, is so instrumental in making sure that this project gets going and so forth, how, how do you intend to handle growth of your, of, of this institution, the cultural center, the religions center, how do you propose to handle growth in, in respect to those activities that you're having?

MR. GHIMIRE: Growth in our community, as general?

MR. HOLZER: Yeah. Let me, let me just say, in any, in any other church, synagogue or so forth, there's always an effort to encourage more people to come and worship. In your case, I'm sure there is an effort to have people come and learn about your cultural, practice their religion and so forth, so as you encourage the, the number of people to grow and, and join your activities, how do you propose to handle that?

MR. GHIMIRE: It's like with any migrant community of people coming from different country, as you can see, the sources, a temple, synagogue, as the community grows, they build different churches, they add more churches and temple (inaudible) that demand. So, in Nepali community situation, within last two years, not only we started a temple in Glen Arm, that's a community center that was built which I used to be president of ten years ago right here on Taylor Avenue. You can check it out, Baltimore Association of Nepalis in America.

CHAIR: I'm sorry, what was that?

MR. GHIMIRE: Baltimore Association of Nepalis in

America. It was just, I think within a year, year and a half and there's also another temple for people from the City, in the City, that's also, that's (inaudible) few years ago, but has actually started taking roots last year. It's called Pashupati Temple.

MR. HOLZER: And where is that located?

MR. GHIMIRE: That's, it's by the golf course right in the City, so I can't tell you the road, the name of the road, but if you google Pashupati Temple.

BOARD: How do you spell that?

CHAIR: Yeah, thank you.

MR. GHIMIRE: P-A, don't hold me to it, sorry, P-A-S-H-U-P-A-T-I, Temple.

CHAIR: Pashupati Temple.

MR. GHIMIRE: Pashupati Temple, yes.

MR. HOLZER: Now, is that in a home or is that in a, in a religious institution, I mean --

MR. GHIMIRE: It's a small, it's a very, very small temple.

MR. HOLZER: In a home?

MR. GHIMIRE: It's a temple, it's a small temple.

MR. HOLZER: When you say --

MR. GHIMIRE: But I'm not, you know, I'm not a part of operation or anything, so I just know that it started there, so.

MR. HOLZER: All right and I think somewhere in your, your advertising or whatever, there's about fifteen thousand Nepalese in, in Baltimore, is that right, correct statement?

MR. GHIMIRE: If you ask the official data from Maryland, I think they have less than a few thousand, but unofficial data, I will say close to ten thousand in whole metro Baltimore area, that may include Columbia, Towson, Catonsville, Perry Hall but this temple would be more a focus of Perry, people who live in Perry Hall.

MR. HOLZER: People that, how, approximately how many people that would live within a ten mile an hour, a ten mile radius of, of this (inaudible)?

MR. GHIMIRE: I don't have exact data.

MR. HOLZER: Okay.

MR. GHIMIRE: Could be five hundred families, but not everybody go to temple, just like not everybody go to church, you know, that would be --

MR. HOLZER: I understand, I understand. In, is, I noticed that in some of your literature and, and online material, you emphasize it's a cultural center and, and put aside the religious worship that you've testified in direct examination. What is going to attract people to come to this building so that they can enjoy, quote, cultural activities?

MR. GHIMIRE: So, just a little bit of debate in our community, so should it be a community center, temple, the,

what we decided, we wanted it to be temple, so we had a temple. People who wanted to have a community center, they open a community center right on Taylor Avenue. So, I think that answer your question.

MR. HOLZER: Okay. So, so, the cultural, now what would take place at the one on Taylor Avenue in Baltimore County that would not take place on subject site?

MR. GHIMIRE: Yeah, our hope is not, they're not going to be a duplication, so you know, temple would be place of prayer, so temple would have some strict guidelines to follow. For example, you know, you can't have a, you know, parties with serving, meeting alcohol and reception and all that stuff. If you wanted to have a reception, you would go to the community center. If you wanted to invite a, you know, maybe a County official, a politician, have a, a, some kind of talk show, we'll go to community center, not at the temple. So, temple would be more stricter and adhere to the temple rules.

MR. HOLZER: So, so the subject site then will be more stricter and, and in terms of the religious activity, is that what you're saying?

MR. GHIMIRE: That's correct, yeah.

MR. HOLZER: Okay. Now, how does one control what's taking place there? Who, who's responsible, are you personally responsible to tell people yes you can come in or no you can't?

Is there a key that, that will permit these folks to come in? Just explain a little bit.

MR. GHIMIRE: So, once we have the, you know, the approval, hopefully the approval, and we have, you know, the building ready for use, we get our (inaudible) permit, parking lot and everything, so we'll have a management team and a board of trustee and other mechanism that, that, that's set up, that board of trustee can supervise and see what the operation team does, the management team does, so we'll have a whole, you know, professional people managing it. Obviously on a volunteer basis.

MR. HOLZER: So, they won't be living there?

MR. GHIMIRE: No, we have no plan for anybody to live there.

MR. HOLZER: Okay.

MR. GHIMIRE: Yeah.

MR. HOLZER: So, are you doing anything now to control access? In other words, can anybody just drive up and go into your entrance way or is it, is there a key lock or something like that?

MR. GHIMIRE: We have a gate and we have a combo box. Only a few, few members have access to that log box.

MR. HOLZER: Okay.

MR. GHIMIRE: So, they go there on the weekend and sometimes some other time too, but it's, it's restricted, yeah.

MR. HOLZER: Well, like the volleyball players, do they, do they have access to go up there whenever they want to play volleyball?

MR. GHIMIRE: Some of our active member actually love playing volleyball. I used to be a volleyball player and not the player, but I used to play volleyball so we, you know, enjoy playing volleyball but I haven't played there recently.

MR. HOLZER: But my, my question really was how do, how do you or someone control the volleyball folks that want to come in and play? I mean, suppose some of them want to come in and play at 6:00 in the morning, or they want to play at 10:00 or 11:00 at night? How, how, what controls do you have in place?

MR. GHIMIRE: I mean, first, there's no light, it's not lighted. So, you can't really play 8:00 at night, that's, you know.

MR. HOLZER: Well, now you can't.

MR. GHIMIRE: Yeah.

MR. HOLZER: In the summer you could play at 9:00.

MR. GHIMIRE: Summer you could, summer you could.

MR. HOLZER: Right.

MR. GHIMIRE: Yeah.

MR. HOLZER: So, what are, what controls do you have that will, you know, sort of control the volleyball playing and the potential noise on, on the site, anything?

MR. GHIMIRE: So, once we get going, once it's operational, that the focus would not be fundraiser, trying to get donation from people, trying to get people there to see the place and, you know, solicit a donation. Once we get started, we will be solely focusing on operation, like the daily activity, the normal activities. That's our hope and, and we'll, we'll, we are very, we are already in process with developing a set of rules and they will be, they will be enforce, absolutely. I mean, --

MR. HOLZER: And, and, and when, when will you have those rules?

MR. GHIMIRE: As soon as we, before we go operational, it's, you know, I'm in real estate, I'm in the business. I don't want somebody going there and getting hurt. When I'm not there, one of the management team is not there. I mean, this is (inaudible). So, I'm worried about that too. As, as much as the neighbors are.

MR. HOLZER: Sure, sure.

MR. GHIMIRE: So, yeah, there will be a set of rules, that has to be followed, not only by the members, but anybody who goes there.

MR. HOLZER: Now, as I recall your test, direct testimony the first day of the hearing, you testified that there may be folks that will come up to the site and, and go in for purposes of religious prayer or whatever. And, and how

will that work? I mean, is there going to be somebody at the gate saying, yes, you can come in but no you can't? Or --

MR. GHIMIRE: Just like the previous (inaudible), we'll have, even, even more stricter hours where we can have somebody attending, (inaudible) who would be, it doesn't need to be in, in the temple. People can go and pray but we'll have a, one or two priests will be available to help, help with the prayer.

MR. HOLZER: Okay. So, the person that wants to come to offer prayers or seek solace of, of whatever is going on in their life, will they have to call the site to make sure somebody is there to let them in or to help them in their worship?

MR. GHIMIRE: (inaudible), yes, but just for the regular prayer, I wouldn't, I wouldn't think so. If they're (inaudible) the hours, they can come in and pray and go.

MR. HOLZER: Okay. There, I thought in your direct testimony, and correct me if I'm wrong, that you said that one of the, one of the buildings on the site was going to house a, a priest or a caretaker. Has that changed?

MR. GHIMIRE: That hasn't changed. I mean, look, not at the temple but the in-law suite that we have, you know, not attached to the house, it's a separate house, that may be used as a, if we have a full-time priest, he may be living in there. But we don't know that, that yet.

MR. HOLZER: You don't, you don't have one lined up or proposed, like --

MR. GHIMIRE: No, no.

MR. HOLZER: Okay. Are there priests in the, in the Taylor Avenue or not?

MR. GHIMIRE: That's a community center, that's not a temple.

MR. HOLZER: Right. What about the one in the City? Is there a priest at --

MR. GHIMIRE: There are multiple of them.

MR. HOLZER: Okay. All right. Now, is, is it true that, that there are folks overseas that are supporting and sponsoring and are interested in this particular site, helping do some --

MR. GHIMIRE: Interested in terms of what?

MR. HOLZER: Con, paying money, contributing money, attending, having their families attend? I mean, will it be, let's say someone's in Nepal and they say oh, well, we'd like to visit Baltimore to watch the Orioles and the Ravens and, by the way, we'd like to go to this facility, the cultural center. Are there people from overseas that would want to do that?

MR. GHIMIRE: If my friend and relative be coming all the way from Nepal to see me, you think I'm not going to take them to temple that I worked so hard to build?

MR. HOLZER: Okay.

MR. GHIMIRE: Of course.

MR. HOLZER: All right. The events, I noticed on the volleyball that, as you said, there were people from Pennsylvania that came down and, and participated in that. Is this a regional type facility? In other words, could people from Pennsylvania, New Jersey, the eastern shore of Maryland, West Virginia, could, would, would this be an attraction for them or are you holding yourself out to be an attraction for them?

MR. GHIMIRE: It was a one-time fundraiser in 2017 when we had people from, and that I personally know this, this fellow from that team who used to live in Baltimore. When he heard that we building a temple, he just came to support, you know, he just brought, brought whole restaurant crew and that was his team. So, if you called it a team, a, people who work in the kitchen and waiters, that was just, that's the name of the restaurant that the team, that it's named after.

MR. HOLZER: Well, no, the, the more interesting question would be there, would there be volleyball tournaments there? In other words, there's a difference between some of your participants coming and playing volleyball and having an organized event like that, like you say occurred in DC.

MR. GHIMIRE: It will not be like Beachmont. That I can, it's not regular athletic sporting events, tournaments, none of those. The one that happened in DC, what happened

actually inside a basketball gymnasium and they invited a lot of players, they had prize money and all this stuff. And the Baltimore team happened to be participating in that on the same week that Mrs. Mary was, Mrs. Clark was referring.

MR. HOLZER: Okay.

MR. GHIMIRE: And I don't know if that's, you know, had any connection.

MR. HOLZER: Who is Mr. Carky (phonetic)?

MR. GHIMIRE: Dr. Carky is a good friend of mine.

MR. HOLZER: Right.

MR. GHIMIRE: One of the first few people to come to America.

MR. HOLZER: Is he any off, hold any official capacity in your organization?

MR. GHIMIRE: In Nepali Community Center?

MR. HOLZER: Yes, um hm.

MR. GHIMIRE: He is one of the biggest donor or one of the, you know, --

MR. HOLZER: And he testified during the first day, I think, first or second day.

MR. GHIMIRE: I don't think he did.

MR. HOLZER: He didn't? Oh, I thought he had testified. Okay. This is something that he put on Facebook and can you --

CHAIR: Show Mr. Schmidt.

MR. HOLZER: Whoops, sorry. Can you take a look at this and --

CHAIR: Please let's have it marked before.

BOARD: Twenty-five.

MR. HOLZER: They're all marked twenty-five. When you've had a chance to look at it, I'll ask you the next question.

MR. GHIMIRE: Do I have to read the whole thing, or just --

MR. HOLZER: No, no. Are you familiar with this Face --

MR. GHIMIRE: Pretty much, yes.

MR. HOLZER: Okay. So, in, in, in there, and I want to see whether you agree or you disagree, he talks about the excitement in paragraph two, that there are fifteen thousand Nepali people from Nepali in Baltimore and it's grown phenomenally in the last decade. Is that something you agree with?

MR. GHIMIRE: On his first line it says, these are my personal views, don't reflect official position of NACC.

MR. HOLZER: I know.

MR. GHIMIRE: And I --

MR. HOLZER: I'm just asking whether you, whether you have those same opinions or not.

MR. GHIMIRE: I don't necessarily know fifteen

thousand, but it's closer to ten thousand, I think. But I don't think it makes any difference.

MR. HOLZER: Okay. No, maybe not. Five thousand people, okay. And after, in his next to the last paragraph, he says, he wants to init, and apparently he's a big con, contributor to you as you just testified, initiate programs and services like health camps, yoga, interfaith collaboration, soup kitchen and contribute to the overall well-being of the neighborhood. Are those still your object, or, I don't want to use the word objections, objectives.

CHAIR: Objectives, yes.

MR. HOLZER: Right, I'm stumbling over myself.

MR. GHIMIRE: No, as I say, I mean, we haven't discussed some of the activity may take place, that's related to temple and solely related to practice of religion, not necessarily community, community related activity. I think the distinction comes where we have a community center now, we didn't have it, you know, eighteen month ago. So, some of the activity would be taken at the community center, not at, right now if you look it up, there's a health camp going on on, right now, at that community center.

MR. HOLZER: I'm sorry, it's what?

MR. GHIMIRE: It's a health camp.

MR. HOLZER: Okay.

MR. GHIMIRE: Taking place, it's in collaboration

with Nepali group and another, a rotary club. So, that's taking place right at this, right at the location in Taylor Avenue.

MR. HOLZER: So, there would be no need for --

MR. GHIMIRE: That's correct.

MR. HOLZER: -- health camps?

MR. GHIMIRE: That's correct, yeah.

MR. HOLZER: Yoga?

MR. GHIMIRE: So, in speaking about the Nepali community need, not necessarily speaking about the need of the temple.

MR. HOLZER: Okay.

MR. GHIMIRE: So, I think at the larger picture, what the community needs in terms of like the services, doesn't necessarily, this temple is responsible for providing every type of services, so that's --

MR. HOLZER: So, if, if, if someone, a Nepali, lives in Parkville or Perry Hall, would they be, would they be attracted more towards the one here in Towson or would they be people that you would encourage to come out to, to your facility, or your --

MR. GHIMIRE: No, again, two separate goals. If they're going to pray and they're going to, you know, attend a religious services, they would go to our temple. If they have a health camp, if they have community activities, awareness

program, any of those, they would go to community center, that's what they're designed for.

MR. HOLZER: Let me, let me just use your imagination for a minute and, and what you perceive as, as an objective. Let's, let's say this is approved and you get it fixed up in the next six months or a year, to the point where it's supposed to be, to be, you know, well, water, etcetera, all that stuff we've, we've talked about. Let's say two years from now, do you see yourself having the, these special events for fundraising, for activities where, where you would draw people in just for the purpose of either contributing or, or playing volleyball or doing whatever else you can do on thirty acres of property up there?

MR. GHIMIRE: Yeah, I don't anticipate a fundraiser of the magnitude we had, had this summer or last summer, because we only need it to get that seed money that we needed and now we have that, it's just operational and our goal is to just the regular prayer, people come, donate, offer money and that will be sufficient to, to run the operation, to, the upkeep, the clean-up and all this, because the mortgage is paid off, if it's, you know, built, now the legal cost paid up, and --

MR. HOLZER: Well, I'm sure that's a lot, isn't it?

MR. GHIMIRE: Then we wouldn't have to have this big fundraiser, yes.

MR. HOLZER: Okay. Did we have this as twenty-five? Do you have any objection, Mr. Schmidt?

MR. SCHMIDT: This?

CHAIR: Exhibit 25.

BOARD: Twenty-five.

MR. SCHMIDT: No objection.

MR. HOLZER: Okay, thank you.

CHAIR: So admitted.

MR. HOLZER: Yes. One of the, as, as you can tell, one of the concerns of some of the citizen, protestants, neighbors, is that there would be microphones or sound system on the outside that the neighbors can hear. And, and one of the, I think one of the ALJ conditions was that there not be outside speaker systems. Do you remember that? Am I right, do you recall?

MR. GHIMIRE: I think they said, no amplification.

MR. HOLZER: No amplification, okay. So, after, after, if this is approved and all your work is done, is there any reason why you need amplification of either speaking on the outside of the temple or music on the outside of the temple being amplified?

MR. GHIMIRE: If the building is ready to be used and we start using the main hall inside, then there's no reason to be outside.

MR. HOLZER: Okay. So, you would not object to any

more than you did before the Administrative Law Judge, but you would not object to that same kind of, of condition being opposed by the Board if they decide to approve this?

MR. GHIMIRE: No.

MR. HOLZER: Okay. Would there be outside cooking as part of your cultural expressions of, of prayer or of celebration? Would there be that kind of --

MR. GHIMIRE: We're blessed with a lot of Nepalese running restaurants in the surrounding areas. When we just put up one Facebook post, we have a six or seven restaurant volunteer, volunteering to bring food from their licensed sources. So, we have been very fortunate and it's --

MR. HOLZER: But, but it was, but that food was brought outside of the building for people to consume outside, is that going to continue or would all food related eating, celebrating, be inside the building, that's what I'm trying to find out.

MR. GHIMIRE: Summertime, it could be maybe, the kids might, may run around outside and eat. I can't just simply say they can't eat outside.

MR. HOLZER: I'm just, no, I'm just trying to find out what, what to anticipate.

MR. GHIMIRE: Yeah.

MR. HOLZER: Will you still need tents on the site once the building is fixed up the way you like it?

MR. GHIMIRE: No.

MR. HOLZER: Okay. So, there would be no, no tents being imposed during the summer or winter months, usually you don't put a tent up in the winter time.

MR. GHIMIRE: No.

MR. HOLZER: But in the summer for any of these special events?

MR. GHIMIRE: That was an expensive tent by the way.

MR. HOLZER: Did you get Loane Brothers? Never mind. That was another case of mine on Joppa Road that Loane Brothers had lots of tents all over the place. Okay. Let's see. Mr. Powell, who was your sanitarian, when he testified, he said that he was told that he could expect or con, consider that there would be four outdoor festivals outside each year. Was, was he right on a temporary basis but wrong on a, on a long term basis or is that still something he would --

MR. GHIMIRE: I think he's, I think he's right on the, you know, overall, you know, --

MR. HOLZER: So, you're still, so you're still going to have at least four outdoor festivals on this site?

MR. GHIMIRE: They wouldn't be totally outdoor anymore because we're going to have a space inside.

MR. HOLZER: I understand.

MR. GHIMIRE: But there would be people, it's, it's a culture in Nepal that people, you know, enjoy outdoor and a lot

of temples, it's hard to describe, but you go to temples in Nepal, they have people stand around outside and, you know, (inaudible) can be found outside of temple on the regular ground.

MR. HOLZER: Okay. But that's, I'm not trying to criticize it or not criticize it or do, I'm just trying to establish that, that the Board, the neighborhood, can anticipate that at least four times a year, there may be outside activities of some sort, am I right?

MR. GHIMIRE: A little different from what, what has been done in last two years, yeah, because we --

MR. HOLZER: How, how different?

MR. GHIMIRE: Different in a way that we had no working bathroom inside the main building, we had no, the hallway to use for a microphone or a, a, you know, sitting chair, (inaudible) beside the normal, you know, prayer. So, most of the activity will be inside the building but the kids, we might have a bouncy for kids to, you know, jump around while the parents are, you know, doing prayers. Yeah, so, it would be a more, kind of a different structure, yeah.

MR. HOLZER: Okay. Let's see. I think you may have already said this when, in your direct, but from your standpoint, even though you're asking for the special exception to apply to thirty acres, you are, you have no projection now to build a, let me, let me take it easy, a, a school there?

MR. GHIMIRE: No.

MR. HOLZER: Would a school be an appropriate thing for you all to, to have, to enjoy in one of these, one of these locations or do the Nepalese religious institution even have schools, I'm not, I don't know.

MR. GHIMIRE: Yeah, just to kind of clarify things for the Board and for you and for everybody, I don't think I have seen any Hindu temple that holds a school like the Catholic do, like my kids go to Catholic school and I know how it is run.

MR. HOLZER: Okay.

MR. GHIMIRE: So, --

MR. HOLZER: So, that's not something that is, would be normal to your religious background?

MR. GHIMIRE: No.

MR. HOLZER: In terms of, of a new building that could be built on the site, I understand that's not on the site plan now, but in the event that everyone really enjoys this site, would there be a potential for a, a larger building to either house food, you know, events such as, instead of going to a restaurant, you could have something there? And let me just say this, I'm an Episcopalian and I grew up with my parents having events at, at the parish house all the time and so would that be something that, in, in your culture, in your religion, that you could foresee?

MR. GHIMIRE: No, not at this time.

MR. HOLZER: I, I understand not at this time, but is it something that you could foresee not in this time, in the future?

MR. GHIMIRE: I foresee a couple of entrepreneur already, I see and been talking to, they, building some kind of Martin West, Martin East kind of things on Belair Road, Perry Hall area, where people can have parties, you know, reception into their liking and, and, and the set up that, that fits their requirement.

MR. HOLZER: Okay.

MR. GHIMIRE: I don't see that's happening at the temple and I (inaudible) honestly, I, you know, I would be first person to oppose that, you know, and (inaudible).

MR. HOLZER: Call me if you need to, okay. Kidding, kidding. You didn't like that question, that comment? I'm trying to liven it up or lighten, loosen it up a little bit. Okay. Let me see if, what else I. Do you, you, you were here when Mary Clark testified about the solitude that she could hear and the cars going by and, and on, on Harford Road and then the sound of volleyball and the amplified sound of music. Do you disagree with her, that that didn't happen or she's not telling the truth?

MR. GHIMIRE: I'm not, I wouldn't say she's not telling the truth. But when I pull from Harford Road getting

into the temple, I can hardly hear anything that, that's happening at the, even at the (inaudible) or at the temple. I mean, kids play basketball there, you know, just, you know, pick a basketball, the sound of basketball she was referring to when (inaudible). I don't know, I don't know, I can't tell you what she heard and, you know.

MR. HOLZER: Okay. Mr. Chairman, we have a disc and on this disc are multiple short videos of different events, okay? I believe these, what, what we would like to show at this point are probably ten or twenty seconds at all. Now, they're all, everything that you're going to hear through this cross examination and through any testimony of any of the other folks, including Mr. Clark, are all in this document, this disc and, and he can play them on either photographs or whatever. So, I'm going to offer this so that, and on the disc, he has it broken down as the exhibit that's being shown to this witness and then they're all itemized. They're not run consecutively and you can't understand what is what, they're all labeled.

CHAIR: It would make sense then that for each video clip, they are different exhibits, so we know how to cross reference it in the record.

MR. HOLZER: Yes. The easiest way to do that, would be to mark the disc as an exhibit and then mark, and mark --

CHAIR: The individuals.

MR. HOLZER: -- the individual --

CHAIR: Clips.

MR. HOLZER: -- they're all done that way, so that--

CHAIR: Does that work for you?

BOARD: Yep.

MR. HOLZER: And let me just say this, so, before we get into any, any problems. If, for instance, there is an objection to one of the videos, that can be identified by the label, is that correct, (inaudible)? And the record will know which one was accepted by the Board and which one, if any, was not accepted by the Board and so, it's all organized in a way that the record should be in perfect shape when it gets to you and goes beyond.

CHAIR: So, just to be clear, are we labeling it one number, A, B, C, D, E, F, G, different numbers, how, how are we going to do that for purposes of identifying which clip is at issue with any particular testimony?

MR. HOLZER: The disc will be Protestant's exhibit, whichever the next number is.

BOARD: Twenty-six.

MR. HOLZER: Twenty-six?

BOARD: Twenty-six.

MR. HOLZER: And Mr. Clark, they're all labeled up there, A, B, C, D, E, F, as you can see on the board.

CHAIR: Well, I can't see, but I, I'll assume that's correct. All right.

MR. HOLZER: All right. So, I just wanted --

CHAIR: Mr. Schmidt?

MR. HOLZER: -- I just wanted to do that, well, before I hand it to Mr. Schmidt.

CHAIR: Do you have anything you want to add?

MR. HOLZER: Do you have anything you want to ask before I present it?

MR. SCHMIDT: I guess I would ask if, I know the clip that we showed at one of the prior hearings did not have any sound to it, as I recall, does, do these clips have sound to them?

MR. HOLZER: Most of them do not because I told him what the Board will accept. He, the witness will be testifying to a, to an exhibit, one of the exhibits, that's silent and the witness will be test, like we would normally do if you were showing it.

CHAIR: Um hm.

MR. HOLZER: However, there could be, there could be an exhibit that's produced for purpose of sound. There will be no commentary about it, but for instance, if it's sound, if it shows you what the sound sounds like on a particular event, you will be able to hear that.

CHAIR: Are we just taking it on a case by case basis?

MR. SCHMIDT: I guess, will I be given an opportunity

to have this material? I assume Mr. Clark, or someone of Mr. Holzer's clients, produced this and if I have questions about when it was produced, how it was produced or so on and so forth, obviously, I, I can't ask Mr. Ghimire, I suspect, because he didn't produce it and I would expect that he may not know the answer. So, is there going to be an opportunity, I'm, I guess I'm somewhat confused as to why it's coming in during Mr. Ghimire's testimony, but if, am I going to have an opportunity to question whoever made this about when they did it, where they were and how they did it and those kinds of things?

MR. HOLZER: Can I answer that?

CHAIR: Please.

MR. HOLZER: I anticipated that, okay? If I give him this document, this disc now, he can watch it for whatever amount of time he wants to watch it, okay? And it will show what it shows. On top of that, he previously summonsed Mr. Clark, in other words, he wanted to have in anticipation so he knew what the (inaudible). He'll have it.

CHAIR: Is that a representation of Mr. Clark is the one who made these videos?

MR. HOLZER: Yes, yes.

CHAIR: Does that answer your question?

MR. SCHMIDT: I guess I can, I mean, as you recall, Mr. Clark hired Mr. Biser (phonetic), who was here last time,

who moved to quash my subpoena and I withdrew it rather than to get into a lot of debate about that subpoena.

CHAIR: Um hm.

MR. SCHMIDT: So, I do not, today, have Mr. Clark under subpoena. I suspect that I could issue a subpoena for him at a future date if it's necessary.

MR. HOLZER: Well, Larry, --

CHAIR: Well, one second, one second. I understand that Mr. Clark has still yet to be called as a witness, but he is going to be called as a witness.

MR. SCHMIDT: I, I don't, I don't know that.

CHAIR: Well, that, thus far, that's what's been represented, as is, whether or not that comes true, I think certainly you would have the ability to subpoena Mr. Clark for the same, the same type of basis as Mr. Ghimire is apparently testifying here today, with or without subpoena, so you'll have that same ability.

MR. HOLZER: Could I just make a comment?

CHAIR: Please.

MR. HOLZER: Larry, Mr. Schmidt.

CHAIR: Thank you.

MR. HOLZER: Okay. If I don't use this today, I, you'll not know what Dewey is going to say.

CHAIR: Mr. Clark.

MR. HOLZER: Mr. Clark, until he says it. If you

permit me to use it today, you will have everything on it that presumably he's going to testify to that, as far as showing.

CHAIR: I think Mr. Schmidt's concern is, is he going to have the ability to cross examine Mr. Clark as to the creation of those videos?

MR. HOLZER: Of course (inaudible). You don't want to do it, you don't want to do it.

CHAIR: No, Mr. Holzer --

MR. SCHMIDT: I'm, I'm not objecting. I asked a question, that's all.

CHAIR: If I can, all Mr., all Mr. Schmidt is asking is for the opportunity to cross examine Mr. Clark as to the creation of the videos. It doesn't have to be right now, he's saying at some point.

MR. HOLZER: Of course. I've already said.

MR. SCHMIDT: Okay.

MR. HOLZER: As a, as a practitioner before this Board, as an officer of the Court, he's going to be called.

CHAIR: Okay. Mr. Schmidt, is that satisfactory to you?

MR. SCHMIDT: Yes, sir.

CHAIR: Okay. Then we can go on. You may play the videos.

MR. HOLZER: I will show these to you first.

CHAIR: Thank you. Mr. Clark, we can't take anything

from you, thank you.

MR. HOLZER: I'm sorry.

CHAIR: All right.

MR. HOLZER: If you have too many, I'll take one back.

BOARD: (inaudible).

CHAIR: This is now twenty-six.

BOARD: (inaudible) ask Mr. Clark to control himself. Yesterday (inaudible) inappropriate. Very distracting to us.

MR. HOLZER: He was asking can we turn the lights down so that you can see it easier.

CHAIR: Right, but it's more appropriate to be directed to you, that's all.

MR. HOLZER: Yeah.

CHAIR: Yes.

MR. HOLZER: Now, Mr., Mr. Ghimire, I think he's going to show two videos of the volleyball issue that was testified to by his wife, Mary.

CHAIR: Well, let's, before we make a representation, let's have him see the video, see if he can identify it first.

MR. HOLZER: Okay, all right. Well, you know, with all due respect to the Board, if I'm going to have, continue to have this kind of problem in terms of the presentation, I'll just present it, I, I don't need to have him look at this and I don't need to have the Board look at it right now. I'll just

wait until, till Mr. Clark is ready to go and we'll, and we'll put it then.

CHAIR: Mr. Holzer, it's your case. If you want to how it to Mr. Ghimire, it's fine. The problem is, you're telling him what's on the video before he can identify what's on the video, that's all. If you show him the video and he can identify what it is, that would be the better option for the record. Thank you.

MR. HOLZER: I'm going to withdraw it. Turn it off, turn it off. I'm not showing it. We'll show it later.

CHAIR: It's for i.d. only.

BOARD: Yeah.

MR. HOLZER: In, when, when you all were at the Administrative Law Judge's level and he said that you were not supposed to use the building, is that correct? Do you remember that as a condition, that you're not supposed to use the building?

MR. GHIMIRE: Supposed to use the building? Not supposed to use the building as a place of worship.

MR. HOLZER: Yes, yes.

MR. GHIMIRE: Yeah.

MR. HOLZER: Okay and have you used the building like for the July 28th to August 3rd event when you said to the folks that were coming, the doors will open after 1:00?

MR. GHIMIRE: No, that's maybe reference to taking a

look at the building inside, how we have improve but that's not what meant by open the door to the temple.

MR. HOLZER: Okay.

MR. GHIMIRE: Again, I don't know what you're referring to.

MR. HOLZER: All right. I'm going to show you this document, which I believe is on your website. Is that --

MR. GHIMIRE: That's not ours, by the way.

CHAIR: Can you please have it marked so we know which document we're talking about?

MR. HOLZER: Well, it's the, it's July 28th, August 3, to your, to your Hindu Buddha Temple at 12231 Harford Road, so note, the door of the temple will remain closed before 1:00 p.m.

MR. GHIMIRE: So, to our confession, English is second language so a lot of people want to say door, they meant gate, I mean, the front gate. So, that's what they mean. So, it's not a door to the temple but the front gate, that's what it mean, means. So, that's clearly, they're talking about the gate, not the door. And --

MR. HOLZER: Who produced this document?

MR. GHIMIRE: You can see the name here, this lady, I think she is, I don't personally know her but I have seen her.

MR. HOLZER: Does she hold any office or a membership??

MR. GHIMIRE: No.

MR. HOLZER: Well, then how come she was advertising this event?

MR. GHIMIRE: As you can see, she's just sharing the event with her own commentary. I mean, anybody can, you know, post what they want to post on Facebook.

MR. HOLZER: Okay. Well, someone had to have told her that the door of the temple will remain closed before 1:00 p.m. Somebody in your group must have told her that, since you're in charge of the (inaudible)?

MR. GHIMIRE: I think I just said that, it's a gate, she meant, gate of the temple. And event for the July, for this, we've been talking for the last six days, was held outside, why would be the gate, door to the temple be open, I mean, that has no relation to what we're trying to do on that, that fundraiser. Fundraiser was held outside and that was, the temple didn't have to be open, you know, it was, it was a tent outside as you saw in the picture to the Board and everybody.

MR. HOLZER: But it was, but it was not supposed to be, the temple was not supposed to be used and if, and if the English language is, is clear on this, that meant it would, was going to be used.

MR. GHIMIRE: No, I mean, it's the gate she's talking about and --

MR. HOLZER: Well, you don't even know the woman.

You just said, you don't even know who she is, how do you know what she was talking about?

MR. GHIMIRE: I have seen her.

MR. HOLZER: Huh?

MR. GHIMIRE: I didn't know her as a board member, she's, you know, part of the operation and management, she's one of the person who came, participated.

MR. HOLZER: All right. Do you --

BOARD: Is there any objection to twenty-seven?

MR. HOLZER: Pardon?

BOARD: Is this twenty-seven, Protestant's twenty-seven?

MR. HOLZER: Yeah. Any objection?

BOARD: Any objection?

CHAIR: Mr. Schmidt?

MR. SCHMIDT: No objection.

BOARD: Okay, twenty-seven.

CHAIR: So admitted.

BOARD: How do I identify it? Facebook, Facebook entry?

MR. HOLZER: Yes. I, --

BOARD: And I don't know the lady's name.

MR. HOLZER: I couldn't, he'd have to read what, what her name is, I can't read it.

BOARD: Sir, do you, is her name on there?

MR. HOLZER: Yes, it is.

MR. GHIMIRE: It has like, it's not her real name, it has some kind of a nickname. It says (inaudible), that literally means motherland and so, that's not her name. See, it just, so you can make out of, whatever you want to make it out of.

BOARD: Well, what, what's her name (inaudible)?

MR. GHIMIRE: I, I don't know her name.

BOARD: Oh, you don't know her name?

MR. GHIMIRE: Yeah, I don't know her name. I don't know her name.

BOARD: I'm just going to put Facebook entry.

MR. HOLZER: That's fine.

BOARD: Is there a date on this?

MR. HOLZER: Yes.

BOARD: Oh, August 1st.

MR. HOLZER: Yes.

BOARD: Okay, 2018, is that right?

MR. HOLZER: Yes.

CHAIR: Yes.

BOARD: Okay, thank you.

MR. HOLZER: Yeah. And I couldn't translate the rest of what was on there either, so. If, if it meant that the gate wasn't opening until 1:00, why were there people driving through it onto the property before 1:00?

MR. GHIMIRE: Why? Are you asking me if there were people before 1:00?

MR. HOLZER: No, I'm suggesting to you that there were people that were driving through the gate before 1:00 so to me, that verifies the fact that when she says that the, the, when she says the door of the temple will remain closed, that's exactly what she meant.

MR. GHIMIRE: So, there may have been volunteer who supposed to be there an hour or two hours before to set everything up. You can't just have people come, start coming at 1:00 and start setting up the place at 1:00.

MR. HOLZER: Right, so the gate was, in fact, open before 1:00?

MR. GHIMIRE: No, may have open and close, you know, this was just telling public what time to come, that's basically what the message is.

MR. HOLZER: How was the gate secured back, back then?

MR. GHIMIRE: This is just this year, I think she's talking about.

MR. HOLZER: Yeah, right.

MR. GHIMIRE: Yeah, at that time, we already had a gate.

MR. HOLZER: Was it, did it have to be open or closed or locked or what?

MR. GHIMIRE: Yeah, it would have to be open.

MR. HOLZER: Okay. All right. Yeah, I'm sorry, since I withdrew, could I have the disc back? I want the disc back, please.

CHAIR: Well, I mean, you have it in for identification at the moment.

MR. HOLZER: I didn't, I didn't, I didn't, I did not offer it for identification only. I just offered it because I assumed we were going to go ahead, but I would like to request it back.

CHAIR: Are you withdrawing that exhibit?

MR. HOLZER: Now, yes, yes.

CHAIR: Assuming that (inaudible) you will withdraw it?

MR. HOLZER: Yes, yes.

CHAIR: Mr. Schmidt, how do you feel about that? I mean, here's what, here's what, what I see, is if he withdraws it now, I think it's only fair that you provide it to Mr. Schmidt in advance then the next time, so we don't have to sit here for another thirty minutes to figure out what's on the video and how we're going to approach it. I mean, is that --

MR. HOLZER: Maybe I would do that if I was treated fairly too. I'll, I'll agree to do that.

CHAIR: Mr. Schmidt, would that be acceptable to you?

MR. SCHMIDT: That's fine. I, I haven't said hardly

anything this afternoon.

CHAIR: I know, but nevertheless.

MR. HOLZER: Then give me, give me the disc back.

CHAIR: Nevertheless.

BOARD: Can we leave this as an exhibit because I've already marked it --

MR. HOLZER: No, I'm withdrawing it. I'm withdrawing the whole thing.

MR. SCHMIDT: If I'm directed to give it back, I'll, I'll do whatever the Board tells me to do.

CHAIR: As of right now, it is not in evidence. And if he is going to withdraw it from any, from the record at this time, that means it's still not here.

MR. HOLZER: Yep.

CHAIR: I would say that's fine. I have written on my copy that I thought was going to be mine.

MR. HOLZER: I'll make sure it's yours when we come back.

CHAIR: But it only says Nepali with the case number and Protestant videos.

MR. HOLZER: I'll make sure you get it when you, when it comes back in.

CHAIR: Thank you. And, yeah, just strike it, I guess.

BOARD: Withdrawn.

CHAIR: Yeah, withdrawn, right. And then, and then please, I would say, if you could provide a copy to Mr. Schmidt the day before, the, the day you intend to show them.

MR. HOLZER: I will. More than likely will probably present it next, next week, next Thursday, so I'll try to get it to him on Wednesday.

CHAIR: And --

MR. HOLZER: I will get it to him.

CHAIR: -- but with sufficient time so he can, so he can view it and, therefore, that would resolve all the problems that we have with this video that I'm aware of at the moment.

MR. HOLZER: I hope so.

CHAIR: I hope so too.

MR. SCHMIDT: I just have one, one question and I don't, I don't pretend to be much on tech, is this an MP3 or a DVD? Maybe Mr. Clark can --

MR. HOLZER: I can't even open, I can't even open my own computer.

CHAIR: Let's figure this out after today.

MR. SCHMIDT: Okay.

CHAIR: Just keep moving with today.

MR. HOLZER: Yes.

MR. SCHMIDT: Thank you.

CHAIR: That's a fair question, but we're not going to be able to solve all tech issues (inaudible).

MR. HOLZER: Thank, thank you. I don't know.

CHAIR: Fair point. Okay.

MR. HOLZER: Did, you recall your, your land planner engineer, Mr. Motsco (phonetic)?

MR. GHIMIRE: Yes, I do.

MR. HOLZER: Okay. Had you talked to him before his testimony?

MR. GHIMIRE: Did I talk to him before testimony?

MR. HOLZER: Yeah, um hm.

MR. GHIMIRE: Not right before testimony, but we've been coming (inaudible).

MR. HOLZER: Yeah, right, right. Did he ever ask you for any information about what took place at the festivals and how many people attended or so forth and did you tell him?

MR. GHIMIRE: Yeah, we had few discussion, yes.

MR. HOLZER: So, you told him how many people showed up and, and, and what to ex, what --

MR. GHIMIRE: I can't tell, I did not exact number (inaudible) had a couple meetings at Tim's office, at Mr. Schmidt office --

CHAIR: Who?

MR. HOLZER: Mr. Kotroco's office.

CHAIR: Thank you.

MR. GHIMIRE: Yeah. Before the first hearing and before the, this hearing, about how we, you know, (inaudible)--

MR. HOLZER: Do you know, do you know why Mr. Motsco did not visit the property during those days of the, of the special events?

MR. GHIMIRE: I don't think it was, you know, invited or required, any of (inaudible) fundraiser. If he was going to give us money, then I would have invited him.

MR. HOLZER: I was just asking whether or not he had the opportunity then to observe what took place at these festivals and obviously he did not. Okay. Mr. Calagero (phonetic), he was your traffic expert. Did he talk to you about the access and the State Highway permit that was necessary?

MR. GHIMIRE: Did he talk to me or did he talk to the State?

MR. HOLZER: No, talk to you?

MR. GHIMIRE: Yes.

MR. HOLZER: You told him, you told him that, did, well, let me rephrase it. What did you tell him you wanted to use the current entrance in, as it existed, is that what your request was as someone --

MR. GHIMIRE: We would have prefer that but, you know, after discussing with Mr. Calagero, he said we have to go with whatever the State Highway feels safe for the public and for us and we have, we have to go by their recommendation, that's what --

MR. HOLZER: So, the State, to your knowledge, the State Highway felt that that was not an appropriate entrance to use for the purposes that you intended to use, is that correct?

MR. GHIMIRE: Can you, can you repeat that question again?

MR. HOLZER: Yeah, since the, since the entrance and exit was only for purposes of a single family home, when you proposed to use it for an institutional use, the State Highway had a different perspective on whether or not it was safe or not, did they not?

MR. GHIMIRE: If they had to review the plan, that's my understanding.

MR. HOLZER: Yeah, well, and, and as a result of their reviewing the plan, they felt that it was not safe for the purpose that you intended to use the entrance and exit and that it should be relocated, correct?

MR. GHIMIRE: I don't think they said it's unsafe. They said it would be, they would be recommending that whatever they're recommending in the, in the plan. That has to be done to be, is a more proper way to exit out and come in, yeah.

MR. HOLZER: So, you allowed at least two functions to occur there during the summer, using an entrance and exit that, that at least the State Highway Administration felt was not appropriate?

MR. SCHMIDT: Objection. I, I don't think there's

any evidence in this case that the State Highway Administration, I guess Mr. Holzer used the words felt the entrance and exit was inappropriate. Certainly, they made a recommendation to Mr. Calagero as he described it, that before the special exception should be granted, or could be granted, there should be improvements to the intersection. But to characterize that as a position of the State Highway Administration and, and the inference that the intersection is now unsafe and the Petitioner deliberately employed, utilized an unsafe intersection is unfair.

CHAIR: Mr. Holzer?

MR. HOLZER: Well, this document is already --

CHAIR: Which document, please?

MR. HOLZER: The one I'm about to show.

CHAIR: Right. I, I meant for the record though, because you were saying this document.

MR. HOLZER: I'm going to tell you exact, it's already in evidence.

CHAIR: Okay.

MR. HOLZER: If you look at the preliminary Motion which was admitted on the first day, it would be appendix eleven. Since the witness does not have that document, I'm going to show him.

CHAIR: Can you show Mr. Schmidt first?

MR. HOLZER: Well, it's the same, it's the same

thing. You can look and see appendix eleven. It is what it is.

CHAIR: Mr. Schmidt, do you have that?

MR. SCHMIDT: Yeah. Just one clarification. I know the, there was a Motion submitted. Do I understand that, that that means that all the attachments have been accepted as evidence in this case?

CHAIR: It, well, it's part of the Motion.

MR. HOLZER: Yeah, yeah.

MR. SCHMIDT: Okay.

MR. HOLZER: And looking at this document dated July 5th, 2018 from Richard Zeller of the State Highway Administration, he says, the State Highway has not approved the existing entrance from the State Highway perspective, this site should not be operating at all. Will the County be shutting them down?

BOARD: What page are you on?

MR. HOLZER: App eleven.

BOARD: I don't have app eleven.

CHAIR: It is one, two, three, four, five pages in Exhibit 11. Five pages in. Department e-mail, the subject line follow up at the top --

MR. HOLZER: You got it?

CHAIR: -- date of July 5th, 2018 with an e-mail chain, the specific one you're referencing is an e-mail on July

5th, 2018 from Mr. Zeller to Mr. Clark.

MR. HOLZER: Yes. So, at least in the opinion of the State Highway Administration, Mr. Zeller, you should not be using that entrance at all.

MR. SCHMIDT: Objection. If I can be heard?

CHAIR: Yes, please.

MR. SCHMIDT: If, if you look at, at the bottom, I mean, I, I don't know what Mr. Zeller and Mr. Clark meant and, obviously, I, Mr. Zeller is not here to testify. But at the very bottom of the page, it says, this concerns the use of a single property residence as a commercial and, and I don't, I don't even know what a commercial is. And then, so I don't, and I don't, by the way, that, that came from HTI gmail, historic timekeepers. I don't, I don't know who that is but, in, in any event, and then he replies, I don't know, I don't know how you can, what you can, I guess, I don't know that you can, what, I'm sorry, I don't mean to stumble, but I --

CHAIR: That's okay.

MR. SCHMIDT: -- there's a question that seems to have an inference of what is this of, or an interpretation of what this is saying, that I don't know is clear from the body of the document. So, I'm just going to object because I don't know, unless the witness can understand what this means, I certainly cannot.

CHAIR: I mean, Mr. Holzer, I do see a problem in the

sense that this is a communication between Mr. Clark and Mr. Zeller.

MR. HOLZER: Correct.

CHAIR: Which does not include Mr. Ghimire, and so, as to whether or not they had any, any information about --

MR. HOLZER: That's appropriate.

CHAIR: -- what, what the SHA had said.

MR. HOLZER: Yeah, I'll ask him.

CHAIR: Okay. Why don't you ask him that and see where that takes us.

MR. HOLZER: Okay. Did you know that the State Highway Administration said what it said at the top of this e-mail?

MR. GHIMIRE: No, we didn't get any, any letters from the State Highway, we didn't get any, any e-mail from the State Highway telling us not to use it. It looks like it's from Mr. Clark and Mr. Zeller talking to each other. No, I haven't, this is the first time I'm seeing it.

MR. HOLZER: Now, that you've seen it, would you be reluctant to utilize that entrance in terms of any of your festivals or anything else like that again?

MR. GHIMIRE: No.

MR. HOLZER: You would not be reluctant?

MR. GHIMIRE: We, as of right now, we're using it as a private property to have a private fundraiser and what

information was fed, fed to Mr. Zeller from Mr. Clark, or anybody else, he didn't hear, maybe at this moment, didn't hear from what I had to say, what the festival or fundraiser was about. So, did he have the information from both side to come to whatever question he's asking? And, and they ended up approving the (inaudible).

MR. HOLZER: Let me suggest, let me suggest that now that you've seen it, would you be a little concerned about inviting people to the subject site using the existing entrance way?

MR. GHIMIRE: No, we, we talked to County official.

MR. HOLZER: Yeah, I know.

MR. GHIMIRE: We talked to councilman, everybody. We didn't have this fundraiser in secrecy. Everybody knew about it.

MR. HOLZER: What does the councilman have to do with knowing whether an entrance way is, is safe or not? How does a councilman know whether it's safe or not?

MR. GHIMIRE: As a public official overseeing the area and district, I think it is appropriate to inform them what's taking place and --

MR. HOLZER: Okay.

MR. GHIMIRE: -- and we, inform, you know, all the (inaudible) parties that supposed to be notified.

MR. HOLZER: Did you know anything at all about the

number of accidents or the, the road curvatures that are in front of your property before you bought the property?

MR. GHIMIRE: Yeah, I drive on Harford Road all the time, I do real estate for a living, I sell quite a bit of homes in Perry Hall and the surrounding areas. I go to Bordy Winery there and I've been buying their merchandise for many, many years.

MR. HOLZER: And you didn't understand that there is a potential problem with the entrance way and it's safety and with the curvature of Harford Road?

MR. SCHMIDT: Objection and I would just say, Mr. Colagero testified that he believed that the entrance --

MR. HOLZER: I'll withdraw the question.

MR. SCHMIDT: -- was safe as it is.

MR. HOLZER: I'll withdraw the question.

CHAIR: He withdraws his question. Thank you.

MR. HOLZER: Did you undertake any traffic problems, any traffic examination of Harford Road which relates not only to the road but to the speed, but to the entrance way at all, did you undertake any study of that before you acquired the property?

MR. GHIMIRE: Not before we acquired the property.

MR. HOLZER: Okay. Would, would that be something that you normally, as an expert dealing with real estate, that you would normally do if you had a prospective buyer looking at

a piece of property?

MR. GHIMIRE: Traffic studies and traffic counts, they take time, you know, they, you, I think that would be one thing to consider, that you'll do detail analysis as you get into --

MR. HOLZER: After you buy the property?

MR. GHIMIRE: A lot of times, I think, yeah.

MR. HOLZER: Okay. Did you know anything about the water and septic problems before you acquired the property?

MR. GHIMIRE: I got quite a few friends live in Kingsville and sold property in Kingsville, (inaudible) aware of, you know, being in a private septic and water, you know, --

MR. HOLZER: No, but did you know that there, that the well needed to be replaced? That the septic system needed to be replaced?

MR. GHIMIRE: We assume that it has to be replaced, I mean, it wasn't being used and there was no water, running water in the usable toilets so we assume the worst.

MR. HOLZER: Okay. Before you acquired the property?

MR. GHIMIRE: Yes.

MR. HOLZER: The, insofar as the State Highway access, isn't it true that the Administrative Law Judge said that one of the conditions was, was that you need the approved access?

MR. GHIMIRE: Yes, that's, yeah.

MR. HOLZER: And that still hasn't happened, has it? Has that been approved yet?

MR. GHIMIRE: I think you got the same letter that I saw last week, so.

MR. HOLZER: Re, remind me, what did that say?

MR. GHIMIRE: The letter, that conceptually the design has been approved.

MR. HOLZER: But the permit hasn't been issued yet, correct?

MR. GHIMIRE: (inaudible), yeah.

MR. HOLZER: Right.

MR. GHIMIRE: And I, I don't know the technical terms of, technical step that, that leads to that point.

MR. HOLZER: Okay.

MR. GHIMIRE: So, I would, I would leave the engineer to answer that question.

MR. HOLZER: Okay. Is it fair to say that all of the, for all of the events that have occurred, whether it's 2017, 2018, high access, highway that you have gotten no permits at all for this project?

MR. GHIMIRE: What do you mean by no permits?

MR. HOLZER: I mean, no permits. Well, have, it, maybe there is an exception. Was there a permit issued for your sign?

MR. GHIMIRE: Yes, and --

MR. HOLZER: Was it, when the sign was put up, was it in violation of the, of the permit and you were required to take it down and put up another one?

MR. GHIMIRE: I'm glad you asking this question so I can clarify.

MR. HOLZER: Good.

MR. GHIMIRE: My, our engineers, sorry, I don't mean to point, our engineer who working on the side, went to the County office, showed them the plat of the area and we're going to put the sign right here, they pointed to the, the island, the entrance. And they said okay, that's fine. And we put the sign there and, until somebody made a complaint and they came back and said, somebody made a complaint so we have to measure from the, from the street to, to make sure it's not above six feet from the ground. That was right before the second hearing, I think. And we rushed to make that adjustment and satisfy what they were asking for. And not, we meant to not follow their permit or, you know, the requirement but was, that's what we were told to do and that's what we did and, but I guess what they said was, wasn't complying with their own specification, but.

MR. HOLZER: In other words, you applied for it, you ended up putting up a, two signs or a two faced sign, they ended up coming out and citing you for a code violation and required you to change that to a one sign, is that correct?

MR. GHIMIRE: That's not correct.

MR. HOLZER: What did they do?

MR. GHIMIRE: The, the, the, the, what they said was, the height from the ground to the sign has to be, I can't, it has to be less than six foot or something like that. So, that was the issue with them, not having a two sign.

MR. HOLZER: The height has to be five feet, it has sizes three by five --

MR. GHIMIRE: There you go, thank you.

MR. HOLZER: -- and fifteen, total fifteen square feet, right? And that's what your first sign that you put up violated that figure?

MR. GHIMIRE: Yeah, again, they showed them the plat and they said this is where we're going to put this, you know, sign and they okayed that. Until a complaint was made and they came and measured from the ground to the top and now, I guess, the specification for the, you know, the, I think there was a confusion (inaudible), we thought the height was supposed to start from where the sign were mounted but their definition of height was from, all the way from the road. So, that, that, that was the confusion.

MR. HOLZER: But, but wasn't it also not just the height, but it was also whether you had two signs and whether the one sign was the, was the correct square footage?

MR. GHIMIRE: My understanding was the height, so,

you know, I could be wrong but my understanding was height.

MR. HOLZER: How, how many signs do you have up there now?

MR. GHIMIRE: It's one sign since you, we had to bring it down to the road, you know, it doesn't look as nice as used to look, but, you know.

MR. HOLZER: It doesn't look like the one that you first put up?

MR. GHIMIRE: Yeah.

MR. HOLZER: Gotcha.

MR. GHIMIRE: As, as, --

MR. HOLZER: Gotcha. And who was responsible for dealing with your signs? Who --

MR. GHIMIRE: We have, we have a team for like, for instant, I handle legal side. I have, we have engineers and a team who handles the legal, engineering, front (inaudible). We have people who good with fundraiser, they handle fundraisers, so we have --

MR. HOLZER: Was that Mr. Motsco that, that got in wrong?

MR. GHIMIRE: No, it wasn't Mr. Motsco. He, he, he didn't have to be involved with the sign, it was our internal engineers.

MR. HOLZER: Oh, you have internal engineer?

MR. GHIMIRE: Our member who happened to be engineer,

who know technical details, just for the sign, you didn't have to go out to hire engineer and pay them money.

MR. HOLZER: I got it. So, it was somebody internally that --

MR. GHIMIRE: Went to the County, got a permit and, and --

MR. HOLZER: Gotcha, gotcha. If, in regard to the sanitation issue, if I, because I'm trying to get through this and hopefully I, I'm almost there. When, at the ALJ, and I think at the first day here, you testified the plumbing was destroyed, the septic could not be found and there was no running water, is that right, when you first saw the property?

MR. GHIMIRE: I believe so, yes.

MR. HOLZER: Okay and how, how many people since 2017 have used this property and, and then I'll ask you what facilities have you produced for each one of those. But let me just say, if you could, if you know how many people showed up in your special events and how many people play volleyball and how many people were actually working on the, on the site, how many people would you say have been on the property since 2017 through 2018?

MR. SCHMIDT: I, I'm just going to object. I don't see the relevance to, and I just will say this, and I'll try to keep it brief, Mr. Garber. Obviously, the special exception was granted by Judge Beverungen, but the tenure of Mr. Holzer's

questions and, and this line of questioning seems to suggest that until the septic system is done, the State Highway access permit is, is done, that the property owner cannot come on his own property for almost any purpose. Those, those restrictions relate to the use of the property as a temple, the special exception. There, there is no prohibition for people coming onto the property today. If they want to come on, they can't come onto the property and worship at the temple until, until the conditions specified in Judge Beverungen's Order are satisfied and I understand that. But the testimony of the witness has been is they've had fundraisers, they've had volleyball games, that's not worshipping at the temple. And so, all these questions about, well, you had people come in and out and you had people use the access and it's unsafe and it's in violation of the State Highway, it isn't. I mean, they, they can come onto their own property.

CHAIR: Mr. Holzer, would you like to respond?

MR. HOLZER: If, if the Board doesn't care about the health, safety and welfare of the people using the site and the neighbors in regard to what efforts were done to take care of the plumbing or use porta potties or whatever, then I'm not going to ask any more questions. I, I, I don't really care.

CHAIR: Mr. Holzer, I will say with respect to the question that you asked, you asked a, we'll just say, call it a compound question with four or five questions in a row.

MR. HOLZER: Okay.

CHAIR: That was the first part. I know that wasn't raised so I was confused as to which question we were going with for this witness. Number two, the matter of this, whether the Board cares or not as to what happened or not, we're trying to figure out this case, the special exception factors, and I understand what your purpose of, your last question, or this last series of questions, what they are aimed to. There has been some testimony presented already in the record as to how they treated some of the larger events. I understand that, perhaps, you're not remembering as to what that testimony was. If you want to explore that, I understand that. But, I mean, let's try to work through this rather than --

MR. HOLZER: Well, I, I, I, I respect what the Board is really saying here and the reality is if you have requirements of the County or the State that have to be met for the health, safety and welfare of not only the neighbors, but the project itself, then under those circumstances, the failure to comply with that, tells is, is evidence in terms of the 502.1 criteria, as to whether or not the Board's decision and future conditions, if you decide to grant this, are going to be effective, or are going to be ignored by these people. So, it goes to the voracity, it goes to the motivation, it goes to all of those things.

CHAIR: Again, I'm not saying you can't ask the

questions, but first, the series of questions you asked, pick, (inaudible) one of them. The second part of it is, --

MR. HOLZER: I ask compound questions, I'm sorry.

CHAIR: I understand.

MR. HOLZER: Yeah, I apologize.

CHAIR: Mr. Schmidt's objection was that there is a suggestion that they can't somehow use the property in any way shape or form. That may be an opinion that you hold that if we cannot really, through this witness, identify what this witness' understanding of it, at least, not as of yet, as to how they could use their property. If you wish to explore that, by all means, go ahead.

MR. HOLZER: I appreciate the Board's ruling. No, I'm not going to explore it because I have something else that is going to --

CHAIR: Okay.

MR. HOLZER: -- address that issue and it's not going to be for today.

CHAIR: Okay.

MR. HOLZER: Have you gotten any permits for, to do any plumbing, any electrical work inside the house, inside the house?

MR. GHIMIRE: I think the whole reason we're here for hearing, we get the, the exception approved, then we move on to the building part of, you know, occupancy permit and all those

things.

MR. HOLZER: So, --

MR. GHIMIRE: We, we are doing the whole exercise to be compliant with every law out there in Baltimore County.

MR. HOLZER: So, there's been no work done on the inside at all of that building?

MR. GHIMIRE: It has been, I mean, it's been cleaned up from what you saw from the beginning.

MR. HOLZER: Right.

MR. GHIMIRE: And we couldn't just leave the house in that condition and --

MR. HOLZER: Has any electrical work been done in there?

MR. GHIMIRE: Not new electrical but I think what's, you know, has been fixed up is what was already there, so.

MR. HOLZER: Okay. Any plumbing done in there?

MR. GHIMIRE: There's no water, can't do plumbing.

MR. HOLZER: Well, you can get it ready to be, have water. I'm just asking you, what, you keep saying and other witnesses have said, that there are workers that are going in there to work and, on the house. Now, is it only to remove dirt or debris or is it to do construction work of some sort? Is it to prepare one of the rooms for the temple area? Is it to prepare one room for the kitchen area? What, that's all I'm asking, it's not a tough question.

MR. GHIMIRE: Maintenance, painting, clean up, that's what's we, we have done. Primarily last year when we acquired the property, not, not this year. Most of the work was done last year.

MR. HOLZER: What about the kitchen? Have, have you done any work in the kitchen?

MR. GHIMIRE: No.

MR. HOLZER: New, new cabinets, new fur, new furniture, nothing?

MR. GHIMIRE: No, it's just the kitchen in there with the cabinet and countertop that we have no plan on using.

MR. HOLZER: Okay. That, that'll be torn out?

MR. GHIMIRE: I don't know that, but it's, we have no plan of using it.

MR. HOLZER: Oh, well, that's what I thought you meant, that you have no plan on using it.

MR. GHIMIRE: Doesn't mean that we have to remove it.

MR. HOLZER: Okay. No plan on using the furniture that's in there or no plan to use the kitchen, which one?

MR. GHIMIRE: I thought I said cabinet, not, that's no furniture in the kitchen.

MR. HOLZER: Cabinet.

MR. GHIMIRE: Cabinets, yeah.

MR. HOLZER: No plan to use the cabinet, no plan to use the kitchen, those are two different questions.

MR. GHIMIRE: No plan to use any of those for the purpose of cooking and eating there, but cabinet, if I store a plastic plate in there, I can't just come and say you were using kitchen.

MR. HOLZER: Did you use, what type of lighting did you use for the July 4th event of this year? Did you have lighting in, in the building?

MR. GHIMIRE: There's always been lighting in the building. There was light to begin with.

MR. HOLZER: So, there's, so you're using the existing electrical wires, if you, if you --

MR. GHIMIRE: That's, that's correct. We have the, we had a little spotlight outside but, you know, there's always been electric in the building, when we bought the building.

MR. HOLZER: Okay. I thought I asked you about electrical work but what you're saying is, you didn't need to have electrical work done because there is existing lighting in the building itself?

MR. GHIMIRE: I'm not, we had another gentleman from our group was handling the clean-up, maintenance and painting so he would know more detail of what took place. That was not one of my area that I oversaw but what I can tell you in summary is that we did clean up, paint, we changed the carpet because the carpet was dirty, all the graffiti on the wall, we had to, it took many, many weeks to remove them and repaint

them and refinish them. So, that's, --

MR. HOLZER: So, you really can't testify that new electrical work was not done since you don't know?

MR. GHIMIRE: I don't know the detail of it, yeah.

MR. HOLZER: Right. So, he, whoever was doing this, could have rewired the house to make it suitable for your use?

MR. GHIMIRE: As far as I know, he hasn't rewired the house. I mean, he added the spotlight outside that I know of.

MR. HOLZER: Okay. So, he added that, how did he have to run that from the electrical box inside the house?

MR. GHIMIRE: There is actually was a big (inaudible) and the previous guy I think did a, you know, he ran the light even line all the way to the street, some of them are functioning and some of them are not. So, he was able to use some of the line that was already out there underground. Again, --

MR. HOLZER: Did you, go ahead, I'm sorry.

MR. GHIMIRE: Yeah, again, I, I don't know all the details. I wasn't there every day to oversee that.

MR. HOLZER: Did you use extension cords to be able to supply electricity to the events outside of the house?

MR. GHIMIRE: That's correct.

MR. HOLZER: And what were, what was the purpose of using those? I mean, what, what did you need to use the electrical extensions for?

MR. GHIMIRE: Electric fans, lighting inside the tent, it was a microphone for the speaker, and those things.

MR. HOLZER: Okay. If I could have a minute, I think I'm. I have no further questions.

CHAIR: Okay.

MR. HOLZER: Thank you very much.

CHAIR: Mr. Schmidt, would you like to take a break now or would you, do you think you might be quick with Mr. Ghimire?

MR. SCHMIDT: I'll leave it up to the Board. I've got many ten or fifteen minutes of questions.

CHAIR: All right. Why don't we push through and see if that could complete Mr. Ghimire.

MR. HOLZER: That's fine.

MR. SCHMIDT: Very well. Mr. Ghimire, do you have Protestant's exhibit number twenty-five in front of you? That's the Facebook posting from Dr. Carky.

MR. GHIMIRE: Yes, I do.

MR. SCHMIDT: Okay. Let me draw your attention to the second to the last, well, let me, strike that. Let me start by saying, Dr. Carky indicates in the very second line of his Facebook posting, that the comments in that Facebook posting were his own personal views and don't reflect the official position of the Nepali American Community Center, correct?

MR. GHIMIRE: That's correct.

MR. SCHMIDT: So, this was his own comments, correct?

MR. GHIMIRE: That's correct.

MR. SCHMIDT: And Mr. Holzer had you read parts of the paragraph, not the last sentence, but the paragraph immediately above that, where he highlighted specifically in that first line that he thought you should initiate programs and services like health camps, yoga, interfaith collaboration. I think Mr. Holzer stopped there, but the next words are, in the area, correct?

MR. GHIMIRE: That's correct.

MR. SCHMIDT: So, that would include in the Baltimore area, which could include the cultural center over on Taylor Avenue, correct?

MR. GHIMIRE: Community center, yes.

MR. SCHMIDT: Yeah, and in the next line, doesn't Dr. Carky further indicate that we must be responsible citizens and good neighbors?

MR. GHIMIRE: That's correct.

MR. SCHMIDT: And you agree with that?

MR. GHIMIRE: I agree with that.

MR. SCHMIDT: Okay. All right. Now, as I understand it, Mr. Ghimire, you, when I say you, I mean, the OLC, your, the organization of which you're a volunteer. You purchased the property in December of 2016, correct?

MR. GHIMIRE: Yeah, around that, yes.

MR. SCHMIDT: Okay. So, you've owned it for almost two years, coming up on two years in, in a couple months, correct?

MR. GHIMIRE: That's correct.

MR. SCHMIDT: Okay and you have not operated a temple out there to this point in time, correct?

MR. GHIMIRE: No.

MR. SCHMIDT: Okay. The building has not been open at this point, since you've owned it, for the purposes of having religious services there, is that correct?

MR. GHIMIRE: That's, that's correct.

MR. SCHMIDT: And in fact, since the period of time that you've owned it, you haven't had running water and other, I'm not even going to call them amenities, but necessities which would be required to have the building operational, is that correct?

MR. GHIMIRE: There's no heat, no water and no running toilets.

MR. SCHMIDT: Okay. So, it has, so the property has not been used at this point as a building for religious worship, correct?

MR. GHIMIRE: That's correct.

MR. SCHMIDT: And you're familiar that in order to use it for that purpose, you would need to obtain a special

exception, as you obtained from Judge Beverungen and now, obviously, before the Board of Appeals, correct?

MR. GHIMIRE: That's correct.

MR. SCHMIDT: Okay. Now, you have had some use of the property, corr, isn't that correct?

MR. GHIMIRE: That's correct.

MR. SCHMIDT: Specifically in June of 2017, you had an, an event on the property, correct?

MR. GHIMIRE: That's correct.

MR. SCHMIDT: And that was in the nature of a fundraising activity, I, I might have said June of 2017, July of 2017, I believe is when it was, is that correct?

MR. GHIMIRE: Yes, July (inaudible), yes.

MR. SCHMIDT: Okay. You had a multi-day event in which was a fundraising event, correct?

MR. GHIMIRE: That's correct.

MR. SCHMIDT: And part of that, people were out on the property, they were playing volleyball, I mean, that, on, on the, on the volleyball court that you have and were generally on the property for the purpose of visiting the property and hopefully, from your, from your organization's perspective, being willing to donate, correct?

MR. GHIMIRE: That's correct.

MR. SCHMIDT: Were you ever advised by anybody that you couldn't do that, you couldn't use your property to

entertain people?

MR. GHIMIRE: We were told otherwise when we went to County and they say, this is your private property, you want to have a private fundraiser.

MR. SCHMIDT: Okay.

MR. GHIMIRE: Meet with your members, that's, that's fine.

MR. SCHMIDT: You, okay, you, you heard Mr. Poehler testify this morning, correct?

MR. GHIMIRE: Yes.

MR. SCHMIDT: Now, you didn't know him when he bought his property?

MR. GHIMIRE: No, I did not know him.

MR. SCHMIDT: Okay. So, you weren't invited to his housewarming event at his house, correct?

MR. GHIMIRE: No.

MR. SCHMIDT: Okay. You don't know if he needed or required any special permits to have forty people to come over to his house?

MR. GHIMIRE: I have no idea.

MR. SCHMIDT: Okay. But you, as far as you were concerned, you didn't need any special approval to have people come to this property as long as it wasn't for the purpose of operating the temple inside the building, correct?

MR. GHIMIRE: That's correct.

MR. SCHMIDT: Okay. Now, after that time, is, is it fair to say, Mr., Mr. Ghimire, that the activities of your organization and, and the members of your organization have been, have been closely scrutinized by members of the community and your neighbors?

MR. GHIMIRE: I would think so.

MR. SCHMIDT: And they've been looking at everything you do and if there's any, and, and to the best of your knowledge, have called Baltimore County on multiple occasions complaining about things that have occurred on the property, is that a fair statement?

MR. GHIMIRE: It's a very fair statement.

MR. SCHMIDT: Okay. Now, before you, you, you've had a second event on the property in 2018, correct?

MR. GHIMIRE: Yes.

MR. SCHMIDT: We've heard about that as well and we've heard about the alleged impacts of that event on the community. You've been here for all that testimony?

MR. GHIMIRE: That is correct.

MR. SCHMIDT: Okay. Prior to 2018, in view of all of the, the inquiries and complaints that have been made by the community, did you, did you make any efforts through your attorney, Mr. Kotroco, to verify whether you could have the event on the property in 20, in Jul, late July, August of 2018?

MR. GHIMIRE: We did. Not only we did that, we went

as far as one of the event, we even got a permit, an outdoor permit, to have an event.

MR. SCHMIDT: A gathering permit?

MR. GHIMIRE: Gathering permit.

MR. SCHMIDT: Okay.

MR. GHIMIRE: And after that, we were told, we didn't need one because it's just a fundraiser.

MR. SCHMIDT: Okay.

MR. GHIMIRE: It's your private property.

MR. SCHMIDT: I'd like to mark this as the next exhibit, if I can. I'm going to show you a copy of a letter, of a letter on the letterhead of Timothy M. Kotroco dated July the 2nd, 2018. Are you familiar with that letter, Mr. Ghimire?

MR. GHIMIRE: Yes, I am.

MR. SCHMIDT: And was that letter written with your permission and at your instruction?

MR. GHIMIRE: Yes.

MR. SCHMIDT: Okay. Now, that letter was written to the Administrative Law Judge, Mr. Beverungen, was it not?

MR. GHIMIRE: Yes.

MR. SCHMIDT: And it was asking him if having a gathering on the property in 2018, July of 2018, would be considered a violation of his Order. And he was the one that entered the Order with the restrictions, did he not?

MR. GHIMIRE: Yes.

MR. SCHMIDT: Okay and, and without reading that, that letter indicates, does it not, that it would be, it would not be a violation of his Order for you to have a gathering on the property, correct?

MR. GHIMIRE: That's correct.

MR. SCHMIDT: Okay. So, just like any other property owner might have people come to their property, you've had people come to this property, at least on those two occasions, in the summer of 2017 and the summer of 2018, is that correct?

MR. GHIMIRE: That's correct.

MR. SCHMIDT: Okay. Now, insofar as Mr. Beverungen's restrictions, there are certain restrictions that he required before you could use the building as a building for religious worship or a temple, is that right?

MR. GHIMIRE: That's correct.

MR. SCHMIDT: You're familiar with those restrictions?

MR. GHIMIRE: Generally, yes.

MR. SCHMIDT: Okay. One of them is that you have to get a well and septic system approved by the Department of Environmental Protection in Baltimore County. Are you agreeable to that?

MR. GHIMIRE: Yes.

MR. SCHMIDT: Before you operate the, the property as a temple, you'll get the required permits from Department of

Environmental Protection?

MR. GHIMIRE: Absolutely.

MR. SCHMIDT: Okay. Are you also agreeable that you will get a State Highway Administration access permit before you use the property as a temple?

MR. GHIMIRE: Yes, will do.

MR. SCHMIDT: Okay. There's a further restriction that says that any special events at the property will be limited to the hours of 10:00 a.m. to 10:00 p.m. Are you agreeable to that restriction?

MR. GHIMIRE: Yes, we are.

MR. SCHMIDT: Are you also agreeable that there cannot be any outdoor amplification of music or sound on the property?

MR. GHIMIRE: Yes.

MR. SCHMIDT: Okay.

CHAIR: And just by way of, for the record, the letter of Mr. Kotroco and attached materials, that's Petitioner's Exhibit 39.

MR. SCHMIDT: Yes, it is. And I would move that, please, Mr. Garber.

BOARD: Thirty-four.

CHAIR: Oh, thirty-four? Sorry, did I not read that correctly?

BOARD: Thirty-four.

MR. HOLZER: Thirty-four?

BOARD: Should be thirty-four.

CHAIR: Sorry, thirty-four. My bad.

MR. SCHMIDT: Now, one of the other re --

CHAIR: One second. Are you moving it for admission, Mr. Holzer?

MR. SCHMIDT: Yeah.

MR. HOLZER: I have an objection to it that I'll be prepared to discuss next week.

CHAIR: Oh, are you, well, I mean, that puts us in a very interesting position here today.

MR. HOLZER: It, it certainly does because I was prepared to --

CHAIR: Can you please stand up?

MR. HOLZER: I was prepared to introduce this next week.

MR. SCHMIDT: Well, then, --

MR. HOLZER: With, with certain Motions.

CHAIR: Okay. So, then what would be the problem here today if we're --

MR. HOLZER: Because I'm not ready to, because I haven't rewritten it yet. Go ahead and let it in.

CHAIR: Well, that's, I don't know, --

MR. HOLZER: Go ahead, let it in.

CHAIR: I'm processing this. You intend to --

MR. HOLZER: I have no objection to this letter.

CHAIR: Oh, then, fine. It's, Petitioner's Exhibit 34 is admitted.

MR. HOLZER: At this time.

MR. SCHMIDT: Thank you, Mr. Garber.

CHAIR: At this time.

MR. HOLZER: Yes. Everybody else can say at this time, so I'm saying no objection at this time.

CHAIR: I don't know what would cause us to revisit the decision of its admissibility.

MR. HOLZER: I will present that next week.

CHAIR: Well, I guess we'll just have to have that cliffhanger out there.

MR. HOLZER: Unless you want to mark it for identification only.

CHAIR: I, I believe that Mr. Schmidt is looking to have this moved into evidence.

MR. SCHMIDT: Mr. Garber, at this time, I am requesting that this be ad, admitted into evidence in this case.

CHAIR: It is admitted.

MR. HOLZER: Good.

CHAIR: And if we, and I don't know what's coming next that would cause it to be revisited, if it would be revisited, but we'll just have to leave that for November 1st.

MR. HOLZER: Thank you.

CHAIR: Thank you.

MR. HOLZER: Thank you.

CHAIR: All right.

MR. SCHMIDT: Now, Mr. Ghimire, just con, returning back to some of the restrictions that Mr. Beverungen imposed. He also required that there be a landscape and lighting plan for the site. Are you agreeable to that restriction as well?

MR. GHIMIRE: Yes.

MR. SCHMIDT: And I think you testified last time that you don't really intend on adding any outdoor lighting on to the property, that there might be some security lighting, porch lights and outdoor lights as there are now, but you're not proposing to light up the property?

MR. GHIMIRE: No.

MR. SCHMIDT: Okay. I think I covered the environmental issues. You're agreeable to any requirements of Department of Environmental Protection, correct?

MR. GHIMIRE: Yes.

MR. SCHMIDT: Okay. Now, you're also required to have a sign and as I understand it, you did put a sign on the property after Judge Beverungen's decision, the sign out front, correct?

MR. GHIMIRE: That's correct.

MR. SCHMIDT: And as one would enter the property

from Harford Road, there is a landscaped island, is there not, between the two macadam or asphalt access drives, correct?

MR. GHIMIRE: That's correct.

MR. SCHMIDT: And that sits up above, in terms of topography of grade, where the bed of Harford Road is, is that correct?

MR. GHIMIRE: That's, that's correct.

MR. SCHMIDT: And that's where you installed the sign, correct?

MR. GHIMIRE: That's correct.

MR. SCHMIDT: And then you were ordered, that was originally, the location of that was originally, at least, orally approved by somebody at Baltimore County, is that correct?

MR. GHIMIRE: Yeah, we literally took the (inaudible) to them so there would be no confusion and pointed out here.

MR. SCHMIDT: That's, on the landscape island?

MR. GHIMIRE: Yeah, yeah.

MR. SCHMIDT: And that's where it's shown, I think, in Petitioner's Exhibit 9-A and 9-B, the photographs which show that double faced sign, correct?

MR. GHIMIRE: That's correct.

MR. SCHMIDT: And somebody complained about that and said it was too high, among other things, that it was too high, that it was higher, more than, greater than five feet above the

bed of Harford Road, correct?

MR. GHIMIRE: That's correct.

MR. SCHMIDT: So, you've had to relocate it?

MR. GHIMIRE: Yes.

MR. SCHMIDT: Okay, thank you. I believe you said you only have one volleyball court, isn't that correct?

MR. GHIMIRE: There's one volleyball court.

MR. SCHMIDT: Okay and --

MR. GHIMIRE: Kids use it as a volleyball, basketball, not tennis right now, but you know, it's just a one small court, yes.

MR. SCHMIDT: Okay and that's that one, I don't know what they'd call it, I'm not a tennis player, but the hard surface, like they play the U.S. Open on as opposed to grass --

MR. GHIMIRE: Yeah, it's a soft surface, yeah, yeah.

MR. SCHMIDT: Okay and, and that's where all the volleyball games or basketball games would occur?

MR. GHIMIRE: That's correct.

MR. SCHMIDT: Okay. Let me ask you, in terms of the music that's related to your religious surface, services and religious functions that might occur here, can you tell us what musical instruments would be utilized as part of any religious service that would be inside the temple? What typically, I know in, just by way of, I know you say you go to a Catholic church, I go to a Methodist church, I think every church that

I've ever been to, at least of the Christian denomination, has an organ and a piano. Do you have an organ and a piano in a Hindu church?

MR. GHIMIRE: It, it's, it's called harmonium, it's like, like a piano.

MR. SCHMIDT: Okay.

MR. GHIMIRE: So, it's, it's like piano, yes.

MR. SCHMIDT: Okay.

MR. GHIMIRE: That's what --

MR. SCHMIDT: So, you would have that?

MR. GHIMIRE: Yes.

MR. SCHMIDT: That'd be inside the building?

MR. GHIMIRE: That would be inside the building, yes.

MR. SCHMIDT: Okay. Other, other than that, are there drums, brass instruments, woodwinds, anything like that?

MR. GHIMIRE: No drums, yeah.

MR. SCHMIDT: Okay. Have you ever had any drums on the property?

MR. GHIMIRE: No.

MR. SCHMIDT: Okay. I think you mentioned that someone may have been playing the flute or an instrument of that nature during one of the two events that you've had there?

MR. GHIMIRE: Flute and this, they call it tavala, like they play with the hand, not like a stick, so a small, it looks like a drum but it's like a tiny little instrument. I'm

not a musically talented person so I can't describe the instrument.

CHAIR: Can you spell that, please?

MR. GHIMIRE: Tavala?

CHAIR: Yeah.

MR. GHIMIRE: T-A-V-A-L-A.

MR. SCHMIDT: Okay.

CHAIR: T-A-V-A-L-A.

MR. GHIMIRE: Yeah.

CHAIR: Which is, as you described, and if I have the description wrong, please correct me.

MR. GHIMIRE: That's correct.

CHAIR: Sort of as an appearance, like a drum but is not a drum?

MR. GHIMIRE: Yeah, a drum I would imagine like you, you know, --

CHAIR: You use drum sticks.

MR. GHIMIRE: -- drum like, sound like a drum, right? A tavala is small, like you play with your, with your hands, that's --

MR. SCHMIDT: Do you know what bongos are? I'm probably dating myself. Do you know what the instrument bongos are?

CHAIR: That's what I thought of.

MR. GHIMIRE: Yeah.

MR. SCHMIDT: Do you know what that is?

MR. GHIMIRE: Vaguely, yes.

MR. SCHMIDT: Okay. It's two, maybe the size of coffee cans with a --

MR. GHIMIRE: Yes, something similar to that, yeah.

MR. SCHMIDT: Okay. Is that what it's like?

MR. GHIMIRE: Yeah, that's something similar to that.

CHAIR: Thank you.

MR. SCHMIDT: Okay.

MR. GHIMIRE: Yeah. And just to clarify, that's not a, you know, not like a Catholic mass, that usually there's a choir and, and, and the, and the pastor comes by. In the Hindu ceremony, doesn't have to have that musical component to it unless that's a special occasion.

MR. SCHMIDT: Okay.

CHAIR: So under Hindu religion, you don't need music to accompany the service outside a special occasion?

MR. GHIMIRE: That's correct.

CHAIR: What special occasions would come with music?

MR. GHIMIRE: Like if there's a group of, we call it bhajan.

CHAIR: You call it?

MR. GHIMIRE: Bhajan, like B-H-A-J-A-N, so that's a group of people praying together and chanting some songs with or without instrument. That would take, you know, maybe ten,

fifteen minute.

MR. SCHMIDT: But this would all be part of the, of the religious ceremony within the building?

MR. GHIMIRE: Yes, that, that's, that's within the building, with, yeah, that's.

MR. SCHMIDT: Okay.

CHAIR: I'm sorry. I just want to clarify the point of --

MR. SCHMIDT: Yes, sir.

CHAIR: -- the, which occasions come with music? So, just to keep this all hopefully straight. Which occasions, if any, would you, the property be used for religious purposes with music that is outdoors, if any?

MR. GHIMIRE: None, it's all --

CHAIR: There will be none?

MR. GHIMIRE: Yeah, none, all indoor.

CHAIR: Anytime that there will be music, it'll be as part of the religious service indoors and only on special occasions?

MR. GHIMIRE: That's correct.

CHAIR: How frequent would the special occasions occur?

MR. GHIMIRE: It's a, it's a family have a, a rice feeding ceremony, if they request, you know, a choir to sing, you know, that's up to the family.

CHAIR: So, what I'm, what I'm hearing is it's by request, not just, because you said done by the family.

MR. GHIMIRE: Yeah.

CHAIR: But also for the bhajan, did I say that correctly?

MR. GHIMIRE: Yeah, yeah.

CHAIR: It's up to them to determine their musical needs for part of their praying?

MR. GHIMIRE: If they, yeah, yes.

CHAIR: Okay. So, it would be by request and the accompanying, would be as part of the religious ceremony?

MR. GHIMIRE: That's correct. And it's not a professional singers, a group of dedicated singers, it's just anybody, I could sing bhazan and the next person can sing bhazan or anybody, it's just, it's a prayer in, in a kind of melody, you know.

CHAIR: And you don't need, for the sake of argument here, just to tie this loop together, you won't need any amplification --

MR. GHIMIRE: Not for bhazan, yeah.

CHAIR: Well, let me finish the question. Any amplification of any singing or musical instruments as part of that?

MR. GHIMIRE: No.

CHAIR: That's correct?

MR. GHIMIRE: That's correct.

BOARD: Outside or inside?

MR. GHIMIRE: For the bhazan and singing, you don't need amplification. Whether it's inside or outside.

CHAIR: Sorry, Mr. Schmidt.

MR. SCHMIDT: Certainly.

BOARD: The Protestants testified that they heard a drum hooked up to an amplification system. Did you have that at some point during one of these gatherings?

MR. GHIMIRE: We, we had a person playing flute and person playing a tavala. I, I, my opinion, I think that the speaker might be, might have a little bit louder voice then what those guys are playing because they were just, it was just a background person. When he was intermission, he would just, you know, they would just play a little transition music or something. So, it wasn't, you know, they were drumming or playing guitar, no drum, you know.

CHAIR: Are you recalling specifically the events from July of '17 and '18 into August?

MR. GHIMIRE: The last, the most recent event that is.

CHAIR: And so, do I understand your testimony correctly, that you thought the speaker would have been louder than the instruments?

MR. GHIMIRE: Yeah, the person who was speaking, yes,

would (inaudible).

BOARD: But they were playing this drum instrument and the flute?

MR. GHIMIRE: Yeah, that was all inside the tent, yeah.

BOARD: Okay. But, but was, were they hooked up to amplification systems, those instruments?

MR. GHIMIRE: I think we had a little (inaudible) that was designed to plug the mic in and yeah, the instrument may have been plugged in. We didn't really go out and hire a, a professional DJ because of the, you know, the financial, you know, cost of it. So, we had very, kind of homemade, you know, smallest speaker and like one that was used to save money, actually, so.

BOARD: But Judge Beverungen's decision indicated there's no amplification or sound outdoors. So, how does that jive with his Order?

MR. SCHMIDT: Well, it was inside the tent --

BOARD: Wait a minute, wait a minute.

MR. HOLZER: Objection.

BOARD: Let the witness testify. Let the witness testify. Go ahead.

MR. GHIMIRE: So, that's one of the reason why we wanted to get a, get this big tent that has cover all around it. It was, it was pretty, it was just not a regular tent, a

tent that would, that, that had like going in and out, it has built in fans and they even built a stage for us inside.

BOARD: Did, so, did you think this outdoor tent that you rented was going to keep the amplification of sound inside the tent?

MR. GHIMIRE: Yes.

BOARD: Okay and did you then believe you were in compliance with the Order?

MR. GHIMIRE: Yes.

BOARD: Because it was not outside?

MR. GHIMIRE: Yeah.

BOARD: Yes?

MR. GHIMIRE: Yes.

BOARD: Okay. That's all right. I just wanted to understand that, okay. I'm sorry, you were in the middle of a question, so we interrupted you, Mr. Schmidt.

MR. SCHMIDT: That's okay, it's your prerogative to do so. And just one final thing, I'm going to, I'm, I'm mispronounced the name, Gamiro Matrobomi (phonetic) means my motherland, my motherland, is that correct?

MR. GHIMIRE: Yes.

MR. SCHMIDT: Okay. So, that's not an individual?

MR. GHIMIRE: She, she could be an individual but that's the name she's using.

MR. SCHMIDT: Oh, okay.

MR. GHIMIRE: Yeah.

MR. SCHMIDT: So, that's like a pseudonym that she is using?

MR. GHIMIRE: Yeah.

MR. SCHMIDT: Possibly?

CHAIR: Would you know the name if you heard it?

MR. GHIMIRE: I have seen that on Facebook. She may even have, be my Facebook friend, one of five thousand that I have but --

CHAIR: If I were, if I were to hopefully not butcher her name, pronounce it, Satchi, Satchki Manali (phonetic)?

MR. GHIMIRE: That may be it, yes, Satchi Manali. Where did you see that, did you see that --

CHAIR: Because I'm looking at Protestant's Exhibit 27 and on the right side, under team members, is that name with the same photo as the upper left corner.

MR. GHIMIRE: Yeah, that, that, that, that name sounds familiar, I guess.

CHAIR: Mr. Schmidt, did you see what I'm referring to?

MR. SCHMIDT: Yes, sir, I do.

CHAIR: Mr. Holzer, do you see?

MR. SCHMIDT: I'm not sure that's the same person or not.

CHAIR: I don't know.

MR. SCHMIDT: On my copy, it's very difficult to say.

CHAIR: I also note that underneath the name where it says my motherland, there, I guess what appears to be, Nepalese writing and then after that, there's a name, Satchi with and then if you have the address at minalisatchki, I apologize if I'm butchering her name. So, it seems they're all tied together to that.

MR. SCHMIDT: I see.

MR. GHIMIRE: It, it looks like, yes.

MR. SCHMIDT: And, and so during the event in July/August of 2018, she was out there, Ms. whatever the name is.

CHAIR: Take your best guess.

MR. SCHMIDT: She was there, apparently reading, reading stories, is that, do I understand that correct, that that's what she was doing? That--

MR. GHIMIRE: I think so, yeah. She, she was one of the attendant or participant, she was --

MR. SCHMIDT: Okay. Would that have been to the children or, that she would have been reading stories to? If you know, Mr. Ghimire.

MR. GHIMIRE: I don't, do not know.

MR. SCHMIDT: Okay.

MR. GHIMIRE: I don't know.

MR. SCHMIDT: Okay. I don't have any further

questions.

BOARD: Is the volleyball court going to be removed if this gets approved?

MR. GHIMIRE: Volleyball court? We have no plan of removing it. We don't have that in the plan.

BOARD: And would, do you know if whether you would agree to have it removed?

MR. GHIMIRE: It wouldn't matter to me either way. It's not really part of essential, but you know, the temple operation.

CHAIR: I was going to ask that.

BOARD: That was, that was my next question.

CHAIR: Thank you.

BOARD: Is it part of the religious service at all?

MR. GHIMIRE: It was there, we used it, so, that's, that's, that's about it.

BOARD: Okay.

CHAIR: It's not any part, you're not going to use it for any religious purpose, in other words?

MR. GHIMIRE: No.

CHAIR: That's correct?

MR. GHIMIRE: That's correct.

CHAIR: I'm sorry. Mr. Holzer?

MR. HOLZER: I just have one question that I forgot to ask on direct. And I think you've already testified to this

during the first day. I understand there might be weddings that take place at the temple, is that correct?

MR. GHIMIRE: Weddings, meaning the blessing from the priest, not the reception, yes. There are two part in the weddings.

MR. HOLZER: That's what I was, that's what I was going to follow up. I just wanted to make sure that I think you testified that there would be a religious ceremony for the wedding but that any reception would be held off the property somewhere else?

MR. GHIMIRE: That's correct.

MR. HOLZER: Okay. I, nothing further.

CHAIR: And I take it, Mr. Schmidt, you have no follow-up based on that?

MR. SCHMIDT: No, sir.

CHAIR: All right. Thank you, Mr. Ghimire. Yet again, thank you.

MR. GHIMIRE: Thank you.

CHAIR: All right. Mr. Holzer, that leaves us at, let's see, it's 3:38.

MR. HOLZER: We're to almost quarter of four.

CHAIR: So, what, where do we stand in terms of your witnesses?

MR. HOLZER: We have a witness that's going to be all day, so it doesn't make much sense to call him now.

CHAIR: That's fair.

MR. HOLZER: And I'm sure you can understand too. There is only one other witness that I would have at this point and it would be Carol Shaw, who can just testify about rule eight in terms, in terms of the community association. It's going to take, I don't know, ten or fifteen minutes. But I don't have to put it on today, I think we can, she'll be here the next hearing and we can put it on, put it on --

CHAIR: Well, my preference would be to get it done today but I was under the impression we already had that in through Ms. (inaudible) at one point or do I have that incorrect?

MR. HOLZER: That, that's Kingsville Community Association.

CHAIR: That explains why I don't know, right, okay. So, now we have a second association.

MR. HOLZER: Yes.

CHAIR: Have you spoken to Mr. Schmidt about that?

MR. HOLZER: No.

CHAIR: Mr. Schmidt, so, just to be clear, you're proffering (inaudible) calling them to the stand to testify that they have the right certification and everything in place to testify on behalf of the, which association?

MR. HOLZER: Yeah, the name of the association is, what, what do we have there? Gunpowder Falls Watershed --

CHAIR: Gunpowder Falls Watershed.

MR. HOLZER: Protection, Preservation Association.

CHAIR: Preservation Association. And Mr. Schmidt?

MR. SCHMIDT: Yes, sir?

CHAIR: Do you have, well, let me ask Mr. Holzer. Do you have the paperwork for that?

MR. HOLZER: Yes, Ms. Carol Shaw has it.

CHAIR: I'm just trying to see if we have any agreement as to the least, the foundation aspects of this to make this as painless as possible. But, --

MR. SCHMIDT: I, I just, I haven't, I haven't seen it. I don't, I mean, I don't know anything about it.

CHAIR: I know. I'm aware. That's what I'm saying is, let's get the paperwork and see if we have any way to have agreement as --

MR. HOLZER: That's fine.

CHAIR: -- to the foundational parts of it and then we can have the representative take the stand and, and get whatever testimony you need.

MR. HOLZER: All right, yeah.

CHAIR: And if there's any problem with the foundational aspects of it, Mr. Schmidt, I'm sure, will bring it to our attention.

MR. HOLZER: May I can, maybe I can get, get it from her right now?

CHAIR: Yes.

MR. HOLZER: Just want to make sure we have enough copies. Okay.

MR. SCHMIDT: Thank you.

MR. HOLZER: Um hm. And this would be?

BOARD: Twenty-eight.

MR. HOLZER: Protestant's twenty-eight?

BOARD: Yes.

MR. HOLZER: And on the first page, it would be the Gunpowder Falls Watershed Preservation Association resolve and that they are opposed, as you can see, signed by the president and the secretary. The second page is the affidavit signed by the president and secretary. And the third is resolve that as to position and then it lists the individuals who are authorized to testify. So, that, that's basically it.

CHAIR: Okay. Mr. Schmidt, do you have any question about the authentication needed for --

MR. SCHMIDT: And I, Mr. Garber, I'm not trying to be difficult.

CHAIR: No, that's fine.

MR. SCHMIDT: I, I certainly have heard of the Greater Kingsville and they've been around forever. This organization I've never heard of so I just don't --

CHAIR: That's fine.

MR. SCHMIDT: -- know much about it. I'm, I'm

looking at rule eight as we're discussing it and I would assume any objection that I would have, they would probably cure by the next meeting. I don't know if it's in, it indicates it's supposed to be a written affidavit. I don't know that this is actually the appropriate affidavit language, for example, but, you know, it sort of is what it is.

CHAIR: Well, why, why don't I, why don't we do this. We'll take a five minute break.

MR. SCHMIDT: Okay.

CHAIR: You can go through and see if it meets your satisfaction or not.

MR. SCHMIDT: Yes, sir.

CHAIR: And then, we'll see where that takes us and then if need be, do everything you need to do with your representative and --

MR. HOLZER: Today? This afternoon?

CHAIR: Yeah, today. I would like to try to get through that today. It sounds like that's probably going to wind up being the last witness of the day in any event.

MR. HOLZER: Yes.

MR. SCHMIDT: Okay.

CHAIR: So, I'd rather just get that out of the way so we have less to do the next time.

MR. HOLZER: I agree.

CHAIR: And I appreciate that, thank you.

MR. SCHMIDT: Thank you.

CHAIR: All right. So, we're on break for just five --

(RECORDING PAUSED - 03:42:02 PM)

(ON RECORD - 03:55:53 PM)

CHAIR: Thank you. So, where do we stand with respect to Protestant's Exhibit 28?

MR. SCHMIDT: Mr. Garber, I reviewed the document and I believe it to be compliant with rule eight. I assume you've gotten duplicate copies, I, I've just gotten a single copy except for one thing and I, and I think Mr. Holzer may be able to cure that between now and, and next time. The rule, as I understand it, does require that the, one of the certifications be under affidavit and I don't see that this is under affidavit. Typically, at least in my experience, oh, I stand corrected. There is an affidavit attached. I missed that page. I, I apologize. So, I don't object to it. Okay. I missed it, I just didn't see it, the bottom of the language.

CHAIR: That's okay.

MR. SCHMIDT: So, --

CHAIR: So, does that mean you have no objection to Pet, --

MR. SCHMIDT: Yes, sir.

CHAIR: -- Protestant's Exhibit 28?

MR. SCHMIDT: Yes, sir. I don't have any objection

to this document.

CHAIR: Understood.

BOARD: Can we just go through the exhibits real quick, that Mr. Holzer tried to put in today? Are you objecting to the aerial photograph?

MR. SCHMIDT: I am not objecting to the aerial photograph.

BOARD: Fifteen is in.

CHAIR: (inaudible) identification earlier.

MR. HOLZER: Yes.

BOARD: Yeah, and then sixteen is the photo by Joyce Mason's car, 9/14/2018. Joyce Mason testified.

CHAIR: She had the car accident herself.

BOARD: Yeah.

CHAIR: Do you know which one I'm referring to?

MR. SCHMIDT: Yes, yes, sir. Yes, ma'am. I'm aware of that and I don't object to it.

BOARD: No objection. Photo of 10/18/2018, the dash cam from Mary Clark. I think you did object.

MR. SCHMIDT: I did object to that because there was testimony that it supposedly shows another car and she didn't take that --

BOARD: No, that's fine, no, no, you don't have to, that's fine.

CHAIR: We're just housekeeping.

BOARD: I just, I'm just marking i.d. only on my list because I know you'll look at --

MR. SCHMIDT: Okay.

MR. HOLZER: It's still for i.d. We'll catch it --

BOARD: For i.d. only. Small, okay, eighteen is the small photo of Protestant's fifteen, well, that's the same thing.

MR. SCHMIDT: Yes, yes, ma'am.

BOARD: It's the same thing.

CHAIR: So admitted.

BOARD: And then nineteen is the photo of the Bonaparte house, right?

MR. SCHMIDT: Right.

BOARD: This was i.d. only?

MR. SCHMIDT: Yes.

BOARD: (inaudible) took the picture.

MR. SCHMIDT: That's correct.

BOARD: Twenty is the photo from Dave Poehler property. I thought this was in because this was from his property?

MR. SCHMIDT: It is in.

BOARD: It is in, okay.

CHAIR: Yes. Admitted, right.

BOARD: And photo, the drone of the site, oh, this was taken by Mr. Clark.

MR. SCHMIDT: It is not in.

BOARD: It is not in. I.d. only.

MR. SCHMIDT: Yes.

BOARD: And then the Baltimore County police reports, twenty-two and twenty-three, were i.d. only.

MR. SCHMIDT: Yes, I, I believe the objection was sustained.

CHAIR: Objection was, were sustained.

BOARD: Okay.

CHAIR: To those.

BOARD: Of those. And twenty-four, the fundraiser flier from July of 2017, twenty-four.

MR. SCHMIDT: Is that the one about the, the volleyball tournament?

BOARD: Volleyball.

MR. HOLZER: Volleyball tournament.

MR. SCHMIDT: I don't have any objection to it.

CHAIR: Okay.

BOARD: All right and then the Facebook entry from Dr. Carky, twenty-five.

MR. SCHMIDT: I don't have any objection to that.

BOARD: Twenty-five is in. Twenty-six was withdrawn.

CHAIR: Withdrawn.

BOARD: Twenty-seven, the Facebook entry dated Aug, August 1st, 2018 by, we don't know who --

CHAIR: Perhaps Sakchi Manali.

BOARD: Perhaps.

MR. SCHMIDT: I don't have any objection to that.

BOARD: Okay and then the Gunpowder Road Falls Watershed, we just talked about is twenty-eight and they're all, and otherwise, so five of those documents were not in, as we noted.

CHAIR: And also, can we just go through real quick the Petitioner's, whatever they (inaudible) today?

MR. SCHMIDT: I think the Petitioner's are all in, I believe.

BOARD: Thirty-one through thirty-four were in.

MR. SCHMIDT: Yes.

BOARD: In evidence.

MR. HOLZER: Thirty-four was over objection.

BOARD: Correct, right. You have an objection that you're going to raise next time.

CHAIR: Right.

BOARD: Right, we talked about that.

MR. SCHMIDT: And I actually brought, Ms. Murphy, during the lunch break, sufficient numbers of copies and left them up there for you.

CHAIR: Yes. We received them.

BOARD: You did, thank you.

MR. SCHMIDT: Yes, ma'am.

BOARD: Perfect, okay.

MR. HOLZER: And I also got copies he gave me.

CHAIR: I assume that.

MR. HOLZER: Just so I'm being nice.

CHAIR: Well, thank you for putting that on the record.

BOARD: All right, we're clear.

CHAIR: All right. So, we're now at Protestant's Exhibit 28, which has been admitted, so you have a witness on that?

MR. HOLZER: No.

CHAIR: Or no, you're good?

MR. HOLZER: No.

CHAIR: Okay. Where does that leave us for today?

MR. HOLZER: Finished, I hope.

MR. SCHMIDT: Well, I thought we were going to have somebody testify? No?

CHAIR: That's, well, that's what I was asking. Or is simply this contain just the opposition and that's enough?

MR. HOLZER: Well, it's enough, I'll have someone identify before they testify whether they're speaking on behalf of themselves or whether they're speaking on behalf of the association.

CHAIR: Understood. Mr. Schmidt, you understand that now?

MR. SCHMIDT: Yes, sir, I do.

CHAIR: Okay. So, you indicated at the top of the day that there may be up to seven witnesses today and while I liked that optimism and we are, that we are a bit short at the moment. Is there anyone else that would be, that would not take too long, that we could put on today?

MR. HOLZER: No, I, no, the witnesses that would go on the next hearing, I think they'll take the whole day.

CHAIR: That means that we still have not reached your experts, if any.

MR. HOLZER: That's correct.

CHAIR: For this case.

MR. HOLZER: That's correct.

CHAIR: Very well. So, that, we'll have to meet yet another day, another time.

MR. HOLZER: Well, we have the 29th.

CHAIR: Right. Okay.

MR. SCHMIDT: Mr. Garber, I just have one question, sir. In view of our schedule, should we talk to Ms. Cannington about any additional days or I would appreciate your direction on that one.

CHAIR: Well, of course, the preference would be to try to do what we can to wrap things up but do it in a manner that the Protestants are able to get their case out and do it in a manner that any rebuttal on your part, it would seem that

the 29th may not be adequate to contain all those things. So, it's probably best to clear at least one more day and see where that takes us.

MR. HOLZER: Yes. I will try to be able to rest on the 29th.

CHAIR: Well, that's kind of what I was envisioning based on what you were just saying.

MR. HOLZER: Right.

CHAIR: So, therefore, any rebuttal, I mean, I'm anticipating you're not going to need multiple days for rebuttal.

MR. SCHMIDT: I think that's correct, sir.

CHAIR: Especially considering that Mr. Ghimire was just on the stand again.

MR. SCHMIDT: Yes, sir.

CHAIR: So, why don't we see about one more day after the 29th?

MR. HOLZER: Yes, that's agreeable.

MR. SCHMIDT: Yes, that's fine, that's fine.

MR. HOLZER: One other thing. Once the case is completed, normally the Board likes to have a memo or something. Is that going to be the case in this situation?

CHAIR: We will be doing closing memos.

MR. HOLZER: Okay and since I'll be away the first two weeks of November and we're having the 29th, I'll be back in

time to write anything we have to write. So, now I'm happy.

CHAIR: Well, you don't, again, so we have the 29th and then we're going to have --

MR. HOLZER: A possible nother day.

CHAIR: A possible nother day so, then, memos wouldn't be due till after that in any event.

MR. HOLZER: Sounds like, right.

CHAIR: But if you choose to work on it ahead of time and have it done and ready to go, we're all in favor of that.

MR. HOLZER: Thank you.

CHAIR: Then unless there's anything else, I will, you know, we will see you all on November 1st.

MR. SCHMIDT: And I look forward to getting the disc next week from Mr. Holzer.

CHAIR: Yes. Indeed. All right. Well, --

MR. HOLZER: Send me an e-mail to remind me. I am so busy, I know you are.

MR. SCHMIDT: I, I will.

CHAIR: Thank you for your cooperation on that and everything else. Until then, we are adjourned. The hearing is done for the --

(OFF THE RECORD - 04:02:59 PM)

CERTIFICATE OF TRANSCRIBER

I hereby certify that the hearing in the matter of Nepali American Cultural Center, case number 18-122-X, heard before the Board of Appeals of Baltimore County, October 23, 2018 were recorded by means of audiotape.

I further certify that, to the best of my knowledge and belief, page numbers 1 through 257 constitute a complete and accurate transcript of the proceedings as transcribed by me.

I further certify that I am neither a relative to nor an employee of any attorney or party herein, and that I have no interest in the outcome of this case.

In witness thereof, I have affixed my signature this 10th day of December, 2018.

P R O C E E D I N G S

MR. GARBER: All right. We are live, and Mr. Schmidt, your case is still up. I should say for the record this is Day 4 of the Nepali American Cultural Center, case number 18-122-X. Mr. Schmidt it is still your case, as you have now rested, I assume. I know that we may have some preliminary matter; I don't know that it can be resolved right now.

MR. SCHMIDT: Yes.

MR. GARBER: It does?

MR. SCHMIDT: Well, it can be.

MR. GARBER: Okay.

MR. SCHMIDT: For the record, good morning. Lawrence E. Schmidt here on behalf of the Nepali Cultural Center of Baltimore, the petitioner in this case, and Timothy Kotroco as well.

MR. HOLZER: J. Carroll Holzer, 508 Fairmount Avenue, Towson, Maryland, on behalf of all the people that I represented on Days 1, 2, and 3.

MR. BISER: And my name is Douglas Biser. I'm from Mudd, Harrison, & Burch, 401 Washington Avenue. I

represent DeWitt Clark. I have filed the objection and motion to quash the subpoena, and I would request that the board take that as a preliminary matter.
Mr. Schmidt and I have talked about it, and we think we have a resolution. And if I might state for the record, Mr. Schmidt has indicated that he's not going to attempt to enforce that subpoena and will withdraw it, but he may request additional subpoenas or matters at a later time; but for now, I think we've got it resolved, if I've stated that correctly.

MR. SCHMIDT: That's correct, I mean without prejudice for us to reissue it. I'm not sure. I know today's hearing, and I've spoken to Mr. Holzer, I'm going to recall one witness today, and whether Mr. Clark testifies and I can get the information via cross-examination may render moot the subpoena. But we have future days scheduled and I can talk to Mr. Biser between now and then about the information that may be voluntarily disclosed or not. But in any event, it's an issue that we can resolve for another day through another subpoena.

MR. GARBER: Let the subpoena be withdrawn without prejudice. Thank you for resolving it.

MR. BISER: Thank you.

MR. GARBER: And I'm assuming there concludes your business here.

MR. BISER: That concludes my role here, yes, it does. Thank you very much.

MR. SCHMIDT: Mr. Biser, you're welcome to stay around.

MR. BISER: Yeah, he's welcoming me to stay, but respectfully I will be leaving. Thank you.

MR. GARBER: Thank you. Yes. And thank you both for talking about it ahead of time.

MR. SCHMIDT: Sure.

MR. GARBER: So I understand, Mr. Schmidt, you are recalling --

MR. SCHMIDT: And before I do --

MR. GARBER: I'm sorry. Go ahead.

MR. SCHMIDT: I had spoken to Mr. Holzer last week or early this week about just what I planned on doing today so he was aware. I did want to offer as

sort of a first matter, and Mr. Holzer has seen this, but I'll give him a another copy and give a copy to the Board. I think we're up to Petitioner's Exhibit No. 25. And if I can approach, Mr. Murphy, I've marked the top one, and there are three copies. You will recall at the last hearing a testimony was offered on behalf of the Petitioner from Rob Powell, who is a sanitarian, and he was the witness who testified about the proposed septic system and well groundwater management issues. I think he indicated during his testimony that percolation tests were planned for the property. They have been done since we have been here, and this is simply a letter from Baltimore County, specifically from Mia Lowry, who's the supervisor of the soil evaluation program in the groundwater management division of environmental protection, which just discusses the results of those percolation tests. And so that's the County document. I wanted to offer that.

MR. GARBER: And the witness that you are recalling -- it's not Mr. Powell.

MR. SCHMIDT: It's not Mr. Powell. This is to

settlement, since he --

MR. GARBER: Understood.

MR. SCHMIDT: -- said during his testimony that the percolation tests were scheduled.

MR. HOLZER: Initially I had no problem with just submitting this; however, when I read the last paragraph, it says, "Attached is a copy of the sole evaluation data for the above lots." I think that should be attached to this too.

MR. SCHMIDT: I'm happy to produce that.

MR. GARBER: I would agree that makes the most sense.

MR. SCHMIDT: I'll tell you, I don't know if I have that with me right now, or at least not all of the copies made.

MR. GARBER: Lunchtime, you think you could get it here?

MR. SCHMIDT: Yeah. I'll call my office during a break if we take a break and see if I can get it and bring it over. And worst case scenario, I'll bring it for the next hearing date.

MR. HOLZER: I'd like to have it before the next hearing date.

MR. SCHMIDT: I'll get it to you as soon as I can.

MR. GARBER: Right. So we're not going to admit it into evidence as of yet. It's identified as Petitioner's Exhibit 25. I understand you're going to try to get it to Mr. Holzer today.

MR. SCHMIDT: Yes. And when we take a break, I'll call my office and see if we can run that down.

MR. GARBER: Okay. And I should have asked this before we started up again. Does anybody have a hard stop time today in particular?

MR. HOLZER: We don't. I think what's going to happen is there's going to be one witness presented again, I'll cross. After that I have about four or five witnesses. There will be some witnesses that we didn't anticipate we had to bring today, so I don't know what time we'll end.

MR. GARBER: I don't have a set time. Well, preferably 3:45, but I can go to probably 4:00.

MR. HOLZER: That might be perfect.

MR. SCHMIDT: Yeah. I have one witness. I do have a lady from the community who, as Mr. Holzer knows, sometimes show up at these hearings and say they would like to testify. So I might ask her.

MR. HOLZER: I never have any objection to anybody testifying --

MR. SCHMIDT: Yeah.

MR. HOLZER: -- in that respect, and I'm sure the same courtesy --

MR. SCHMIDT: We typically -- well, I know we both have had that situation where an individual shows up that we don't know is even coming.

MR. HOLZER: And I would assume he'll extend me the same courtesy.

MR. GARBER: Sure. And with that in mind, I guess the witness you're going recall -- who is it?

MR. SCHMIDT: Mr. Caloggeri from The Traffic Group.

MR. GARBER: Okay. And we're not going to cover all grounds.

MR. SCHMIDT: We are --

MR. GARBER: I'm assuming you're supplementing to what has been previously testified?

MR. SCHMIDT: Yes. And just as a highlight of coming attractions, Mr. Garber -- or "zigzag of coming attractions" I think is the exact phrase, you recall that Mr. Caloggeri testified that he was dealing with the State Highway Administration on an ongoing basis as sort of the final design or the final location of the access point, and that I would submit to you and tell you that's been resolved, and he's going to testify about that. There were also some questions that were asked of Ms. Murphy during the last hearing that he has had an opportunity to review, and he's going to address those as well.

MR. GARBER: Fair enough. As long as we're not covering ground that we've already covered.

MR. HOLZER: Well, he's made a lot of statements last time that may not turn out to be correct, so I intend to cross-examine those now.

MR. GARBER: That's, I mean, is more about the

direct, as in covering new ground.

MR. HOLZER: Yeah. I'm not going to go over --

MR. GARBER: Obviously, your ability is a bit wider in cross-examination to go into things.

MR. HOLZER: Yeah.

MR. GARBER: All right. With that in mind, let's get started.

MR. HOLZER: Could I just say preliminarily, before he testifies, that we have some pictures to show him on cross-examination, but we also have a video to show him. And if the Board is aware of that, we want to be able to have him look at the video and respond.

MR. GARBER: I will say I do not see video equipment. Oh, is that it over there behind --

MR. HOLZER: Yeah.

MR. GARBER: Okay. Very well.

MR. HOLZER: Okay. Thank you.

MR. GARBER: We'll see where this takes us.

MR. SCHMIDT: Mr. Calogerri?

MR. HOLZER: Oh, it's a minute video, so it's not going to --

MR. GARBER: Okay. No problem.

MR. SCHMIDT: Are you going to swear the witness, or does remain under oath?

MR. GARBER: We'll swear the witness.

JOSEPH CALOGGERI,

called for examination, having been first duly sworn to tell the truth, the whole truth, and nothing but the truth, testified as follows:

MS. DOPKIN: State your name and address for the record once again, please.

THE WITNESS: Joseph Caloggeri.

DIRECT EXAMINATION BY MR. SCHMIDT

Q. Mr. Calogerri, you've previously testified in this case, have you not?

A. I have.

Q. And you are a traffic engineer with The Traffic Group; is that correct?

A. Yes.

Q. And just to move this along, you had previously testified, I believe, at some length about the access to and from the subject property from Harford Road,

correct?

A. Correct.

Q. And I believe you testified that you had been in consultation with the State Highway Administration regarding that access, any changes to the present configuration, or any alterations that might be required; is that correct?

A. That is correct.

Q. Have you -- as a result of their ongoing conversations with State Highway Administration, have you reached a resolution as to State Highway's desire as to the configuration and location of the access point?

A. Yes, we have.

Q. Okay. I'm going to show you --

MR. SCHMIDT: And I'll put it on the board. I'll give Mr. Holzer a copy, and I'll also give the Board members a copy. I've preliminarily marked this as Petitioner's Exhibit No. 27.

MR. GARBER: We should be on 26.

MR. SCHMIDT: I thought 20- -- oops. I'm sorry.

MR. GARBER: If you want to leave it --

I mean, does it make sense?

MR. SCHMIDT: That's fine. I've got something else that I've premarked, but I'll just change the numbers. No problem.

MR. GARBER: All right. This is Exhibit 26.

MR. SCHMIDT: Ms. Murphy, I've marked one of them, but then there are two others so each Board member may have one, and obviously we have one on the board.

BY MR. SCHMIDT:

Q. Mr. Calogerri, I don't want to you to repeat your testimony. I know Mr. Garber and members of the panel have heard from you. But if you want to approach the board and tell us what the sort of final configuration the proposed access point is going to look like at this point and why. Just giving us a little --

A. Sure.

Q. -- explanation of that exhibit?

A. Okay. And I'm sorry. Did you send the letter?

Q. Yeah, and I'll give that to you. Do you want that as well?

A. I have it here. I just wanted to make sure it

was submitted before I just --

Q. Yeah, I thought you could discuss the plan --

A. Sure.

Q. -- and then discuss the letter.

A. Okay. So basically the State Highway -- we've been out with the State Highway Administration. You know, we've had communication, back and forth, about the access. So they came back with certain parameters that they wanted us to hit to move the access. So again, we're working with all of the parameters to try to make the access per the State Highway Administration.

So the first concern was to align the access across from Bonapart. So we provided an access to move the access further to the north to meet, well, what I'm just going to call condition one. The next four conditions are based on sight distance and stopping sight distance. So on the plan -- so on the plan there, we have different numbers, we have some different pictures.

So I'll start with the exiting vehicle at its new location. So the State Highway Administration

requested, when exiting, looking to the left, they would like 390 feet, looking south, based on the speed of 35 miles per hour. So we aligned the outbound access so that we have 390 feet of sight distance, looking to the south, based on 35-mile-per-hour northbound speeds.

Q. Mr. Calogerri, when you say "the outbound access," there's the driveway or the access point is actually split, correct?

A. Correct. There's a -- there will be some kind of a median; so exiting traffic will be on the right, inbound traffic would be on the left, similar to what's here today, but it will be a lot smaller and more concise.

Criteria number two -- and again, they're not in any criteria order. It's just how I'm discussing them -- minimum exiting driveway, they would like intersection sight distance 500 feet looking to the north. So again, at this location where we've placed it has 500 feet sight distance looking to the north for a southbound vehicle, and they want that based on a speed of 45 miles per hour, so we accomplished that.

Third, minimum intersection sight distance for the southbound left turn, turning in, looking at oncoming traffic. So again -- so that's the reason for the split in the median. They wanted 285 feet based on 35 miles per hour to be able for the vehicle turning southbound, left in, to be able to see a car approaching. Good?

And then lastly -- lastly, stopping sight distance for the left-turning vehicle, they want the southbound traffic to be able to see at least 360 feet of stopping sight distance based on speeds of 45 miles per hour, to the car turning left.

So based on that criteria, those five criteria, we designed this access, we submitted it to the State Highway Administration. They have reviewed, and I believe their words are: "Grants conceptual approval of the proposed access as depicted on the concept plan."

Q. And they will have to issue an access permit at the end --

A. Right.

Q. -- of the day at some point in time, correct?

A. Right. And the next sentence says, "An access permit will be required to construct the located entrance and all access-related improvements" --

MR. GARBER: If I can jump in, if you're going to read from the letter, I think Mr. Holzer needs to see a copy of that.

THE WITNESS: Sure.

MR. SCHMIDT: And I'm going to submit a copy of that as well. Mr. Calogerri, I've marked as Exhibit Number 27 --

THE WITNESS: And I have one more thing, too, I forgot to mention.

MR. SCHMIDT: Okay.

THE WITNESS: Sorry about that.

BY MR. SCHMIDT:

Q. Okay. Before you do, Exhibit Number 27 I'm showing you is a letter to you dated October 9th, signed by Wendy Wolcott, who's the metropolitan district engineer of District 4 of the State Highway Administration. And is that the letter that you were referring to?

A. Yes, it is.

Q. And does that letter indicate State Highway's approval of the plan, which is Exhibit No. 26 --

MR. SCHMIDT: Correct? 26?

MS. MURPHY: Yes, 26. How would you like it identified?

Q. -- on the board.

MR. SCHMIDT: The letter we'll call -- I'm sorry. The plan we can call the final access design that Mr. Calogerri has testified, and obviously the letter is from State Highway.

BY MR. SCHMIDT:

Q. Mr. Calogerri, so basically this plan, does it not satisfy State Highway insofar as a vehicle exiting the site and looking left and right, and then a vehicle entering the site from both an approaching traffic standpoint and the traffic coming behind that vehicle?

A. Yes, it does.

Q. Okay. And you said you had something else that you wanted to indicate?

A. Yes, I did. So again, to fit all of these

criteria, one of the means we had to utilize -- there's a lot of -- there's a lot of existing pavement at the existing access, so the State Highway Administration has requested us to realign this portion just south --

Q. When you say "this portion" --

A. Just south of the existing access to just south of the end of the property line for Nepali, to move the -- to shift the road slightly to --

For this map it's to the south; for 147 East and West, it's to the east.

-- slightly shift the road about 3 or 4 feet, which shifts the northbound through lane over; it's going to shift the southbound through lane over. It provides the -- this was a difficult maneuver because of the fence and the curve of the road from the property across the street.

MR. GARBER: You say "this." What is --

THE WITNESS: I'm sorry. The sight distance looking to turn left into the site was initially obstructed by the fence on the north side.

MR. GARBER: Which is why they're having you

pull back the road into the property.

THE WITNESS: Correct. So pull back the road slightly into the property, to shift the left turner over a little bit more to give more clearance, to visually be able to see into the site.

BY MR. SCHMIDT:

Q. Mr. Caloggeri, the access point for people leaving the site will then be directly across from Bonapart Avenue; is that correct?

A. That is correct.

Q. There was concern, I think, expressed about headlights of exiting traffic possibly shining into the house across the street, on the property across the street. Would that occur with the shift of that access point?

A. I think, again, this is conceptual in nature, and I don't know if this will be angled anymore when it's finalized. But we did not do any kind of analysis regarding headlights.

Q. Okay. Insofar as your own personal opinion, do you concur with State Highway Administration as to this

design being appropriate for the proposed use?

A. I do.

Q. Do you believe that this would present a safe and appropriate means of access and egress to and from the property?

A. Yes.

MR. GARBER: Do you move to admit Exhibits 26 and 27?

MR. SCHMIDT: Yes, sir.

MR. HOLZER: Is the letter 27?

MR. GARBER: The letter is 27. Any objection?

MR. HOLZER: No.

(Petitioner's Exhibit Numbers 26 and 27 were admitted into evidence.)

MR. GARBER: We've admitted both of them.

BY MR. SCHMIDT:

Q. Mr. Calogerri, anything else about the access that you have not indicated? I just wanted to give you an opportunity.

A. I'd like to discuss the State Highway requirements and the speed, to verify what they have.

The reasons -- I mean, I don't know the reasons why they gave me that information, but we have verified that information.

Q. Right.

MR. GARBER: What information was verified?

THE WITNESS: Speeds.

Q. Yes, and I'm going to get to that.

A. Okay. But this is correct. This is based on our field meeting and the comments presented by the State Highway Administration variables.

Q. Right. And obviously the existing entrance will be modified as shown on that plan?

A. Correct.

Q. So the existing entrance or the existing means of access will no longer be there?

A. Correct.

Q. In other words, this isn't in addition to what's there; it's instead of what's there?

A. Correct. We even offered to maintain the existing inbound as a right-turn lane in, and the State Highway Administration denied that right turn in and

preferred all movements at one access.

MR. GARBER: Does SHA have any right-of-way in terms of the landscaping and whatnot with the amended plan here? On the property at issue, not on other properties.

THE WITNESS: Right. This is all the Nepali Temple right-of-way --

(Court reporter requested clarification.)

THE WITNESS: I'm sorry. All of the frontage property is the Nepali Temple property.

MR. GARBER: Right, there's no requirement as to any landscaping changes there to maintain the sight distances that they have approved?

THE WITNESS: They have asked to, as best as possible, to keep this clear. When I say "this," in the northbound direction on the east side, if there's any shrubbery on the hill, if we could keep that clear, that would be helpful. And again, as previously testified to, along the opposite side of the road.

MR. GARBER: Is that actually marked on

Petitioner's Exhibit 26, the area where they indicate the landscaping shall be kept clear as best as possible?

THE WITNESS: It is not.

MR. GARBER: Are you familiar with, I guess, the area in which they would like the landscaping to be kept in that manner?

THE WITNESS: In my opinion, it would be from around point F or point E on the plan to point C or B even.

MR. GARBER: So in your opinion as an expert, you believe that an area between F and C on the left side of Petitioner's Exhibit 26 should be -- landscaping should be maintained at a certain height or cleared to maintain the site distances?

THE WITNESS: I think it needs to be cleared. I didn't -- we did not measure to see if there was any impeding landscape piece that needed to be removed specifically. But I would agree that, if this area was generally cleared, it could only help the situation.

BY MR. SCHMIDT:

Q. Do they have an existing right-of-way along

there now?

A. It's difficult to see, but it almost looks like it's right close to the edge line of the road; but again, it's based on our plans matching with the others, so ...

MS. DOPKIN: Mr. Calogerri?

THE WITNESS: Yes.

MS. DOPKIN: The area you're talking about clearing would be that which we see in your Photo Number 5 on your plat?

THE WITNESS: No. It would be more Area 1 at their approach.

MS. DOPKIN: On the left side of the photograph?

THE WITNESS: Yes.

MS. DOPKIN: Okay. Thank you.

MR. GARBER: And how far back from the roadway would the landscaping have to be cleared?

THE WITNESS: Well, there's a hill.

MR. GARBER: Right.

THE WITNESS: So it's the road and then the hill, so just the ground would be cleared, cut back.

MR. GARBER: Just the ground?

THE WITNESS: Yes.

MR. GARBER: And no trees?

THE WITNESS: No trees, no.

BY MR. SCHMIDT:

Q. So you wouldn't have to clear any trees, it would just be the ground cover?

A. Right.

Q. Right next to the road?

A. Ground cover, brush, yes.

Q. Ground cover and the brush next to the road?

A. Right.

Q. Okay. Yeah, because the property goes up a pretty substantial grade as it gets into the interior of the property, does it not, Mr. Calogerri?

A. It does, and if you -- I mean, I'm just using this as a straight line. You can visually see up until just north of Point E without that clearing. So it would be somewhere between just north of E to in between E and F, that you just need to trim down the hedges or the weeds or the brush.

Q. That are immediately next to the paving?

A. Yes.

MR. GARBER: But in terms of a standard, though --

THE WITNESS: We're using our sight distance as based on coming through the road, but the State Highway Administration said, you know, it would help if you could just keep this clear.

MR. GARBER: Right. And that's what I'm trying to wrap my head around.

THE WITNESS: Yes.

MR. GARBER: What does that mean? That is, it has to be at a certain height? If you say it just has to be at ground level, that it's just cleared and just grasses?

THE WITNESS: Again, I know it's --

MR. GARBER: Or is there, like, it could go to 2 feet high, and that's when someone has to take care of it? That's what I'm trying to assess.

THE WITNESS: I don't know if we have -- I don't have that information. And we can, as part of the

access permit, discuss that and build that into the access permit. Again, this plan conceptually approved, an access permit is still required to be submitted and to meet all of the requirements.

MR. GARBER: Are you saying that the access permit can address it or they will address that issue?

THE WITNESS: We'll make sure it is addressed.

MR. SCHMIDT: I'm sure they will.

THE WITNESS: The same with on the opposite side of the road.

MR. SCHMIDT: To make sure the sight distance is clear, that's a paramount concern of the State Highway Administration during the issuance of an access permit; is it not, Mr. Calogerri?

THE WITNESS: It is.

MR. GARBER: Right. I just want to make sure that if this goes forward, then there is some standard by which the Nepali American Cultural Center folks, whoever is going to maintain the property, knows what they have do or whatnot.

THE WITNESS: And it could even be the State

Highway Administration since the State Highway Administration is going to maintain their property on the other side of road. They may be able to do our side of the road as well.

BY MR. SCHMIDT:

Q. Mr. Caloggeri, the State Highway, I mean, I would assume -- correct me if I'm wrong -- the State Highway Administration, in granting the access permit, wouldn't it be expected in this case that they would acquire a right-of-way as part of their acquisition of the -- I'm sorry -- part of the access permit, and thereafter, if the State Highway Administration has a right-of-way there, they would maintain it like they maintain any right-of-way that they have anywhere on any state road; isn't that correct?

A. They can, or they could give the Nepali Temple --

Q. Or they could tell Nepali to do it as a condition of the access permit?

A. Correct.

Q. One way or the other, it will be maintained?

A. Correct.

Q. And again, you're not talking about cutting down a lot of the large trees there. You're talking about the brush and weeds and the understory which is right next to the road?

A. Correct.

Q. Is that what they've told you?

A. Yes.

Q. So the mature vegetation which buffers the site is going to remain?

A. Right. And again, based on just visually looking here, you know, it cuts right over on the road.

MR. GARBER: No, I understand.

THE WITNESS: So it may not even be, you know, a mountain; there may be more of a molehill. It's just a requirement just to keep it back so it's not overgrowing onto the shoulder, onto the paved road, to make sure it's cut.

MR. GARBER: Right. The purpose of my question is, because we now have a change as to the access point and the elements that were reported to SHA, obviously

the sight distance becomes -- obviously the sight distance and all of this stuff becomes very important. And then if you look down to the left of the property, with the road being pulled back, it creates the question of, okay, are they requiring some type of clearance -- a visual clearance, a site clearance -- with the existing property? Are they changing anything in that regard?

And that's why, again, the purpose of my questions is to figure out that part of it. And if it's going to be addressed as part of the access permit if this goes forward, then so be it.

MR. SCHMIDT: And I think you've indicated it will be addressed.

THE WITNESS: Right.

BY MR. SCHMIDT:

Q. Mr. Calogerri, in addition to the access and having that plan reviewed and approved by State Highway and their letter which we've submitted into the evidence, since the last hearing, has your office done any additional investigation or studies in terms of the issues related to the proposed use of the properties as

a temple?

A. Yes, we have.

Q. I think it might be easiest, and I'll give you the exhibits as you discussed them. Mr. Calogerri, what actually have you done? And I understand that some of this was as part of the request of the State Highway Administration as well.

A. Just to ensure that we're meeting everything, we conducted a speed study and a volume study, and then we -- so speed, volume, capacity, and then we also further investigated accidents, or crashes.

Q. How did you do that? What did you do?

A. First, for the speed and volume study, we placed tubes along the road, both north and south of the access, in areas where we believe it would be proper to obtain speeds.

Q. And where is that? If you can show us maybe on the plan.

A. The pictures I don't believe are in there, but I do have pictures that I can pull out of my bag, if need be. And generally, for southbound traffic, we have

speed in this general area.

Q. "This general area" being? Describe it.

A. North of the site, north of Bonapart Avenue, I believe south of the driveway.

Q. South of what driveway?

A. South of the first driveway to the north.

Q. The neighbor's driveway?

A. The neighbor's driveway.

Q. Okay.

A. And coming in the northbound direction, probably in the area around D and E on this map, coming around the turn -- the speeds coming around the turns.

MR. SCHMIDT: Okay. Now, I believe you prepared a report or some charts and a summary of this, which I'm going to mark as Petitioner's Exhibit Number 28.

(Petitioner's Exhibit Number 28 was marked for purposes of identification.)

And I'll give a copy to you, Mr. Calogerri, and to the Board. And Ms. Murphy, there's three copies. Mr. Calogerri, do you have copy?

THE WITNESS: I do.

BY MR. SCHMIDT:

Q. Why don't you just tell us what this is and what it indicates in terms of the speed?

A. So what I provided, and I sent an email to the State Highway Administration on Tuesday, October 9th, sharing the results of the speed study and confirming the information that they had requested with respect to the minimum requirements for design of our access.

Q. Now, the speed study was done or the tubes were out there from when to when?

A. So the tubes were out there from September 26th; I believe in the northbound direction, it was until October 2nd, and the southbound direction, I believe it went to October 3rd. We had a failure is why we don't have the exact data for both directions.

Q. What do you mean by that?

A. Something must have happened to the tube and the equipment where, at northbound, it stopped collecting data on 10/2 around 1:00.

Q. Okay.

A. So it just stopped collecting data. But coming

southbound, the data was collected until 9/3 at approximately 9:00 in the morning when all of the equipment was picked up. So there was data that was not obtained for whatever reason.

Q. So you had full data from September 26th to October 2nd?

A. Correct.

Q. And then additional data on the one until the next day, the 3rd?

A. Correct.

Q. What did the data show? Tell us what you found out.

A. So there's numerous ways to present it, so I'll try and do the best I can. So in the northbound -- in the northbound direction -- I'm on page 7, if you're following along.

MR. GARBER: Are you talking about the page number on the top right corner of the --

THE WITNESS: The top right corner. There's going to be two page 7s, but this is page 7 of a title called Maryland 147 Northbound, South of Bonapart

Avenue, Baltimore County, Maryland; and the title is on the left-hand side.

BY MR. SCHMIDT:

Q. So this is for vehicles going northbound?

A. Vehicles going northbound, coming out of the turn or around the curve, coming out of the turn.

Q. Okay.

A. So there's four different measurements for percentile speed. Now, percentile speed is based on how many cars are traveling at the speed or below from a percent. So what the State Highway Administration typically uses as a guide is the 85th percentile speed. That means 85 percent and less -- 85 percent of the people driving this road are traveling less than 31 miles per hour, coming around the turn at that point.

Q. Now, there was testimony last time, or cross-examination about the speed limit being 50 miles an hour at that point.

A. Yes, and I apologize. And I hate being corrected, but I stand corrected. The speed limit is 50 miles per hour in the northbound direction; it is

45 miles per hour in the southbound direction. I confirmed with State Highway that when I was with the State Highway Administration in the early '90s, it was -- the speed limits were always the same in both directions, and they said that is no longer the case.

So State Highway Administration did say that speed limit in the northbound direction is 50 miles per hour. The sign is north of Long Green Pike and south of Shannon Drive. The speed limit in the southbound direction is 45 miles per hour. I do show it on our plan that's been already submitted, and it's located just south of the roundabout.

Q. But then there are recommended lesser speeds at the curve, correct?

A. Correct. We've testified to that.

Q. To what's recommended, even though the limit is posted --

A. Correct.

Q. -- elsewhere?

A. And that the recommended speeds are 30 in both directions.

So going back to page 7, the 85th percentile speed was determined to be 31 miles per hour; the 95th percentile speed is 34 miles per hour. So that means 95 percent of the data of all of the vehicles that we've collected for speed, which was -- we've collected 16,390 vehicles over that time, that 95 percent of the cars at that point were traveling 35 miles per hour or below.

Q. 34 miles per hour.

A. 34 miles per hour or below. And in page 1, not page 1, but the first page of this.

Q. The email?

A. The email, we were requested to make sure it worked -- make sure the sight distance worked for 35 miles per hour, which confirmed that that was a good guideline.

Q. Okay.

A. So we can go from there, we can go to the very last page in this document, and this is southbound. This is extra day that we were able to capture or extra half day or so which we measured 16,965 cars during this time.

MR. GARBER: I'm sorry. How many?

THE WITNESS: 16,965 cars during this time. The 85th percentile speed was 38 miles per hour; the 95th percentile speed was 39 miles per hour. And again, that means 95 percent of the cars at this point were traveling 39 miles per hour or less. The State Highway Administration recommended for us to conduct our study -- or to prepare the design based on speeds of 45 miles per hour, so it was clearly below in that guideline. We confirmed that guideline.

BY MR. SCHMIDT:

Q. Your email, the cover email that's on the top, Mr. Calogerri -- and I don't want to have you repeat testimony that you offered last time, but you talked about -- well, again, that would be sort of the four different criteria that you had discussed before. Am I correct?

A. That is correct.

Q. In other words, State Highway was requesting this information based on, or for a vehicle exiting, looking left and right, and then vehicles going

southbound either turning in or vehicles having to stop or slow down for a vehicle turning in?

A. That is correct.

Q. And that's the data that they requested?

A. Correct.

Q. Does this confirm, Mr. Caloggeri, the opinion you previously gave to the Board, that notwithstanding what the posted speed limit might be here, that the traffic follows much closer the recommended speeds --

A. Yes.

Q. -- within coming out of those curves, both north and south?

MR. GARBER: Wait for his question.

THE WITNESS: Okay. Sorry.

Yes, it does.

MR SCHMIDT: I would offer that as the next exhibit. I think that's Exhibit 28.

MR. GARBER: Mr. Holzer?

MR. HOLZER: I'm sorry. I'm just trying to figure out where -- oh, yeah, I had it marked. It's okay.

MR. GARBER: So admitted.

(Petitioner's Exhibit Number 28 was admitted into evidence.)

BY MR. SCHMIDT:

Q. So that's as to speed, Mr. Calogerri, correct?

A. Correct.

Q. I think you also indicated that, per the request of State Highway, too, they requested information in terms of capacity. And Ms. Murphy also, I think, asked some questions about that at the last hearing, correct?

A. Yeah, it was more here. The State Highway Administration was not concerned fully with capacity. They were satisfied, based on their request to me and based on the data that was provided to them. So this was more using the data that we collected.

Q. Through the same study?

A. Through the same speed study. We used those traffic volumes to provide information on capacity.

Q. And I think the question that was put to you, Mr. Calogerri, was how could the Board make a determination of whether the proposal would cause

congestion in the roads, streets, or alleys without traffic counts being done. Have you conducted traffic counts?

A. Yes, we have.

Q. And Exhibit Number 29 -- is that the summary report that you've prepared in terms of traffic counts and potential congestion issues?

A. Yes, it is.

Q. Okay. The Board can read it, but if you could maybe go through it and tell them what the summary and conclusions are?

A. Sure. So if we go to pages 3 and 4, this is the --

MR. GARBER: Wait a minute, sir. When you say pages 3 and 4 --

THE WITNESS: Oh, I'm sorry.

MR. GARBER: -- are you talking about pages 3 and 4 of the exhibit, and those are the same -- there are markings on them, but those are basically the same? Are they the same documents or the same template you used for Exhibit 28, and then you adapted it for the study --

THE WITNESS: Yes, it is.
MR. GARBER: -- traffic study?
THE WITNESS: Yes, it is.
MR. GARBER: And they're just marked page 1 and 2 on the top of the two pages you're referring to?
THE WITNESS: That is correct.
MR. GARBER: Sorry, Mr. Schmidt.
MR SCHMIDT: That's fine. I appreciate the clarification, Mr. Garber.
THE WITNESS: We utilized the data from the machine count that was placed north of the site access. We had the tubes extended across the road, so we captured both northbound and southbound traffic at this location. And these are hourly counts, started at the beginning of the hour to the end of an hour. And again, we captured one, two, three -- two, three, four -- six full days of data plus the majority of a seventh day, and we utilized this data to prepare capacity analyses.
And what I instructed my engineers to do was to review what they would consider the worst-case condition to determine the volume-to-capacity in these locations.

Now I'm on Exhibit 1, which was the first page of the document presented to you.

BY MR. SCHMIDT:

Q. Page Number 1, and it's labeled at the bottom right-hand corner of Exhibit 1: Results of Highway Segment Capacity Analysis.

A. Correct.

So for the weekday morning peak hour -- and I'm looking at the very top -- on the 27th of September, between 7:00 and 8:00 a.m., was the highest volumes.

Q. It was the highest single hour during the entire six days?

A. During the morning, peak hours.

Q. During the morning, okay.

A. And actually it is the highest of all four days of all the peak hours.

MR. GARBER: I'm sorry. Just so I understand, is this looking northbound, southbound, or how does that --

THE WITNESS: Northbound and southbound.

MR. GARBER: And southbound.

THE WITNESS: I'm sorry. I know it's ...

MR. GARBER: So the combined volume between 7:00 and 8:00 a.m. on September 27, 2018, would be -- is that the 468 number?

THE WITNESS: In the northbound -- I'm sorry. The southbound direction, all traffic is flowing. The heaviest amount of traffic is flowing southbound. On Thursday, the 27th, we have 468 vehicles traveling southbound at that point.

MR. GARBER: So 468 are going south?

THE WITNESS: Correct.

MR. GARBER: Okay.

THE WITNESS: And the roadway itself, based on national statistics, can carry a capacity of 1,700 vehicles per hour.

BY MR. SCHMIDT:

Q. How is that based, Mr. Calogerri?

A. It's just based on the national statistics, and it's produced by the highway capacity -- through the Highway Capacity Manual.

Q. Is that based on the character of the road?

A. Oh, yes.

Q. The size of the road? Tell us what that's based on.

A. So below is the input data and the analysis. So we have a -- we utilized a lane width of 9 feet with zero shoulders; a Class 2 highway, which is described in this, in the document itself; a rolling type of terrain using an 88 percent peak hour factor.

MR. GARBER: What does that mean?

THE WITNESS: Meaning that -- that for the peak 15 minutes, there's a higher amount of volume, more than likely, traveling in that 15 minutes than the rest of the hour -- so instead of the 468 evenly distributed between four peaks.

MR. GARBER: They're concentrated over a 15-minute period?

THE WITNESS: 88 -- the percentage, yes.

MR. GARBER: Right.

THE WITNESS: So there's an additional 12 percent, which is your -- up top, your volume with a peak hour adjustment of 532.

BY MR. SCHMIDT:

Q. And that's sort of taking into account a worst-case scenario that, even during the peak hour of all those six days, you're adding another 12 percent traffic --

A. Right.

Q. -- to that hour because it might be concentrated within one 15 segment?

A. That is correct.

MR. GARBER: Just to clarify for my manual. Thank you, Mr. Schmidt. That was good.

MR. SCHMIDT: I thought so.

MR. GARBER: Just to add to that, you're adding 12 percent for a worst-case scenario, and that's how you come up with the 532 number?

THE WITNESS: Correct.

MR. GARBER: Okay. So the 468 is the actual?

THE WITNESS: Correct.

MR. GARBER: And then 532 is the worst-case scenario?

THE WITNESS: Adjusted, correct.

MR. GARBER: And we heard about capacity.

Did you have a question about capacity, Ms. Dopkin?

MS. DOPKIN: No. He explained my question.

I would ask you to keep your voice up.

THE WITNESS: Oh, I'm sorry.

MR. GARBER: And the -- capacity ratio is obviously -- well, I shouldn't say "obviously." Is that the 468 to the 1700, or was it the 532?

THE WITNESS: I believe it was the 532, if you want me to grab my calculator, but I think that's the proper number.

BY MR. SCHMIDT:

Q. So the road, again, Mr. Calogerri, just so we can all make sense and understand this: So in the worst peak hour during the workweek, Monday to Friday, which is Wednesday from 7:00 a.m. to 8:00 a.m. in the morning, and further indicating that you've increased that volume by 12 percent because it may have higher traffic during those 15-minute segments, the Harford Road at that location is operating at 31 percent of its capacity?

A. That is correct.
Q. At the present time?
A. Correct.
MR. GARBER: Would this capacity also, I should ask -- is that the capacity during the course of that hour?
WITNESS: Yes.
MR. GARBER: So according to whatever other source of information you had, the 1700 number reflects the amount of traffic the road could have maintained during that same time period?
THE WITNESS: That is correct.
BY MR. SCHMIDT:
Q. And actually the capacity is the same all the time, is it not? 1700 trips?
A. That is correct.
Q. And that's based on, I think you've indicated --
MR. GARBER: Good point.
Q. -- for example, the data and the characteristics which are listed below --
A. Correct.

Q. -- the type of road and how wide it is and what the grade is and how many lanes there are and all those kinds of things in which you determine what the capacity is?

A. That's correct. And we used the speed of 45 miles an hour. The lower speed, the lower the capacity; so instead of using the higher 50-mile-an-hour, which would increase the capacity, we kept it at the lower 45 miles per hour to try to present to you a conservative -- what we would believe would be a conservative-type analysis.

MR. GARBER: So even if you were to take a step back to the recommended 35, it would still come in well under capacity -- the volume, that is?

THE WITNESS: Correct. And capacity is more related to volume towards capacity, not necessarily speed.

MR. GARBER: Well, you said you based it on the 45. I assume you took it back to 35, and we have lesser capacity when there's lesser speeds, it would still fit within those guidelines --

THE WITNESS: Correct.

MR. GARBER: -- or within those parameters?

THE WITNESS: Correct.

BY MR. SCHMIDT:

Q. Not to beat a dead horse on that, but I think the rest of those columns are somewhat self-explanatory. So your weekday p.m. peak hour was on October 1st from 5:00 to 6:00, and doing the same analysis with again the 15-minute segments and the 1700 vehicles capacity in the p.m. during the weekday, the road is currently operating at 26 percent of capacity?

A. Correct.

Q. And in the weekend, the Saturday peak again and the Sunday peak is even less -- it's 16 percent and 21 percent respectively of capacity?

A. That is correct.

Q. And that's the same analysis and the same capacity standards, etc., Mr. Calogerri?

A. That is correct. That is for the roadway segment.

Q. Okay. Now, you're familiar and I know you

testified in the prior case about the expected number of trips here based on what your client has advised and also the ASHCO standards for churches and so on and so forth. With the addition of the church anticipating traffic, will the road be over capacity?

A. No, it would not.

Q. Will there be any congestion caused by the proposed use in the roads, streets, or alleys in this vicinity?

A. No, there will not.

MR. GARBER: If I could jump in real quick again just to clarify. I'm sorry to slow this down.

MR. SCHMIDT: No, you're okay.

MR. GARBER: But I want to make sure I understand it. The 468 number -- do I understand that's the southbound traffic?

THE WITNESS: In this case, yes, 468 is the southbound traffic.

MR. SCHMIDT: And that was the worst case; that was the worst movement.

MR. GARBER: Right.

MR. SCHMIDT: During the weekday.

MR. GARBER: Okay. So my question relates to the recommended 35 means nothing then because that's not at issue with this --

THE WITNESS: Correct.

MR. GARBER -- in this Exhibit 29?

THE WITNESS: Correct.

MR. GARBER: Okay. I just wanted to clarify.

BY MR. SCHMIDT:

Q. Mr. Calogerri, anything else insofar as that exhibit? I know all of the supporting data is attached, but is there anything else that you wanted to draw the Board's attention to, other than essentially the conclusions, which you've described?

A. No.

MR. SCHMIDT: I would offer that, then, as Exhibit No. 29.

THE WITNESS: There is another exhibit.

MR. SCHMIDT: Okay.

MR. GARBER: Let's deal with Exhibit 29 first.

THE WITNESS: No, no, in with -- there's another

exhibit I want to discuss in this document.

MR. GARBER: Within the exhibit.

MR. SCHMIDT: Oh, okay.

THE WITNESS: Within the document.

BY MR. SCHMIDT:

Q. I'm sorry. Mr. Calogerri, please do. I didn't mean to cut you off.

A. So the next page is what we call Exhibit 2. So we took this --

MR. GARBER: Wait a minute. Page 2 of Exhibit 29 you have entitled Exhibit 2?

THE WITNESS: Yes.

MR. GARBER: Thank you.

MR. SCHMIDT: And that's labeled -- I'm finally getting it, Mr. Garber, to make sure we've identified these. It's labeled Results of Intersection Capacity Analysis.

THE WITNESS: That is correct.

BY MR. SCHMIDT:

Q. And what is that, Mr. Calogerri?

A. So now we looked at the intersection itself.

Q. When you say "the intersection," what intersection?

A. The intersection of Bonapart Avenue plus the site access.

Q. Okay. As realigned here?

A. Correct. So what we did, just to try to provide some more capacity and analysis data for this intersection, we utilized the Maryland State Highway Administration's critical lane volume methodology to determine the capacity at the intersection of Maryland 147 at Bonapart Avenue and the site access.

MR. GARBER: Proposed site access.

THE WITNESS: Proposed site access.

MR. GARBER: And that's SHA critical lane methodology?

A. Critical lane volume --

MR. GARBER: Volume.

THE WITNESS: -- methodology. And at the top of the page, it's listed "CLV Methodology."

BY MR. SCHMIDT:

Q. What is the CLV, if you can describe that for

us?

A. It's just basically a calculation to determine the capacity of an intersection, and it helps the SHA and for us to determine if additional lanes are needed, turning lanes, so on and so forth, and it measures the amount of volume in the existing lanes to provide a critical lane volume, plus some grades. So the way to try to describe the critical volume, if we're looking at -- you review each leg of the intersection.

So fictitiously, if I have a thousand cars in a single lane traveling northbound and if I have 400 southbound left-turners and if they're both on a single lane, the critical volume would be 1,400. And the overall intersection -- the way the State Highway looks at the intersection -- anything above 1,450 is just below capacity, and they would consider that a failure. 1,600 is a failure, and anything above 1,600 is failure. That's just based on their methods, their calculations.

Q. So that's purely a mathematical calculation?

A. Yes.

Q. How many cars are going in one direction, and coming the other way are turning in front of them essentially?

A. Correct. And the same with the side streets.

Q. In terms of in this case, how many would be coming out of the access versus how many would be coming out of Bonapart Avenue?

A. That is correct.

MR. GARBER: And your example was not literal. That is, the numbers are not the SHA numbers; they were just examples that you were giving?

THE WITNESS: Those were just examples. But I have the actual numbers that I'm presenting -- there's not a page number, but it's the third page from the rear of Exhibit 20- --

MR. SCHMIDT: -9?

THE WITNESS: -- -9.

MR. SCHMIDT: And that's labeled Critical Lane Volume (CLV) Methodology for MSHA, which is Maryland State Highway Administration.

THE WITNESS: That is correct.

MR. GARBER: I think I have it as page 16 on the exhibit.

MR. SCHMIDT: Okay.

THE WITNESS: So we reviewed the evening peak hour and the Saturday peak hour. I believe our, you know, I believe a fair number of an average-day peak-hour left turns coming into and out of the site, we have a projected five right turns in. During the weekday p.m., we've projected five left turns in; coming outbound, we had five left turns out; outbound, five right turns out. And then we've projected the same amount along Bonapart Avenue.

That yielded a critical lane volume for the entire intersection of 407. Level of service A goes up to a critical lane volume of 1,000. Therefore their -- I mean and failure is at 1,450, so there is plenty of available capacity at this location during the evening peak hour to accommodate more turning maneuvers and more through volume.

MR. GARBER: Let's slow this down.

THE WITNESS: Okay.

MR. GARBER: Just speaking for myself --

Sure.

MR. GARBER: -- I'm assuming my colleagues here fully understand it. So you have five right turns. You estimated or projected five right turns in and five left turns in during the evening peak hour and Saturday peak hour?

THE WITNESS: During evening peak hour only.

MR. GARBER: During the evening peak hour only. What about the Saturday peak hours?

THE WITNESS: So for Saturday, assuming a -- we've heard a lot about festivals and, you know, maybe some special events, so for peak hour -- and again, what we did is we looked at the highest peak hour, which was on a Saturday, 12:00 to 1:00.

MR. GARBER: Wait. When you say "the highest peak hour" --

THE WITNESS: On a Saturday.

MR. GARBER: -- are you referring to the property at issue, that that's the estimated projection or estimate or projection?

THE WITNESS: The peak hour of the road.

MR. GARBER: Would be 12:00 to 1:00 for use of -- is the proposed use, which would include festival and event?

THE WITNESS: Let me start over to make sure we understand each other --

MR. GARBER: Right.

THE WITNESS: -- because I think we're not.

MR. GARBER: I agree with you.

THE WITNESS: Okay. So what I looked at was a Saturday peak. The peak on Exhibit 1 was Saturday between 12:00 and 1:00.

BY MR. SCHMIDT:

Q. That's the actual volume on the road?

A. Correct.

Q. That's when Harford Road's most busy on Saturday?

A. Correct.

Q. Okay.

A. So utilizing that --

MR. GARBER: That number?

THE WITNESS: Yeah. I added 50 left turns in, 50 right turns in, 50 left turns out, and 50 right turns out -- those are my numbers. Those are not numbers presented to me; I made those assumptions. But the point is to show you that, with a hundred trips coming in and a hundred trips coming out along Harford Road on a weekend, we still have a CLV of 400; so there's plenty of available capacity.

Again, level of service A go up to 1,000, and failure is at 1,450, and it's not a 1:1 ratio. And again, it's volume, the capacity is based on the direction of the traffic, and if it's critical or not.

BY MR. SCHMIDT:

Q. So what you did, Mr. Calogerri, is you took the highest volume of actual traffic or the hour of the highest volume of traffic on Harford Road on a weekend, which was Saturday between -- I think you said between 12:00 and 1:00?

A. We did it on a Saturday. Sunday may be a little bit higher, but again, there's plenty of available capacity.

Q. Okay. And then you assumed 50 vehicles coming in, turning right; 50 coming in, turning left; 50 going out, turning right; and 50 going out, turning left?

A. That is correct.

Q. And that's vehicles; that's not people. Right?

A. That's correct. That's vehicles.

Q. So depending on how many people are in a vehicle in terms of number of persons, but that's just a -- just a vehicle?

A. Correct.

Q. And just during that hour?

A. Correct.

Q. So if it was spread out over the day -- well, that would be the worst hour that you've identified in terms of that hour, on Saturday from 12:00 to 1:00, correct?

A. Correct.

Q. Okay.

MR. GARBER: So this is just straight line addition.

THE WITNESS: Yes.

MR. GARBER: So if you took the 240 and you added for the sake of argument, even if somehow, some way, 400 people showed up during the course of that peak hour --

MR. SCHMIDT: Well, 400 cars.

MR. GARBER: Yeah, sorry.

THE WITNESS: Yes.

MR. GARBER: 400 vehicles show up --

MR. SCHMIDT: It would be 1,600 people if they all had 4 people in them.

MR. GARBER: -- during -- you would still be well within the level of service for an A.

THE WITNESS: Yes. So we took it one more step further to the more complicated calculations.

MR. GARBER: We're not at the complicated part yet?

THE WITNESS: No. So utilizing the same numbers from the critical lane volume methodology that we just described, the vehicles turning in and out during the weekend -- during the weekday evening and the weekend, and we're back to Exhibit 2 on the bottom portion.

MR. GARBER: Page 2?

THE WITNESS: Page 2, Exhibit 2 of Exhibit 29. These are measurements of delay. So the measurements of delay are calculated in two different locations. They're calculated for the whole intersection, but we're presenting the level of delay per vehicle --

BY MR. SCHMIDT:

Q. So this is just -- I'm sorry, Mr. Calogerri, but this is another methodology, looking at the same thing?

A. Correct. This is the Highway Capacity Manual Unsignalized Intersection Methodology for a Stop Sign.

Q. Okay. And State Highway uses the critical lane, the CLV?

A. They use both.

Q. Okay, they use both. So the CLV turned out to be the level of service A, and A as it's shown on the top of page 2, Exhibit 2.

But this is a separate or a different methodology that State Highway also uses, which is called the Unsignalized Intersection Methodology?

A. That is correct.

MR. GARBER: If I can, when is the action of measuring different things -- when does SHA prefer to use one over the other, in what situations?

THE WITNESS: They use both.

MR. GARBER: They use both.

THE WITNESS: The majority of the time.

MR. GARBER: So they're just basically approaching it from two methodologies to figure out, more or less, confirmation of --

THE WITNESS: Well, one is a measure of capacity, the simple calculation: how many cars are on the road and where they're turning and going.

The unsignalized looks into the operations and how long it may take a vehicle to enter a roadway, and it's an overall measurement of the average delay per vehicle per second.

MR. GARBER: You said "to enter the roadway." Do I understand, then, that that is the traffic coming out of Bonapart or the traffic coming out of the proposed site?

THE WITNESS: That is correct.

MR. GARBER: Now I understand why there is a need for both.

THE WITNESS: Correct. During the weekday evening peak hour, when the volumes are heavier on the road and we have only ten vehicles coming out, we have projected a delay at 14 seconds per vehicle. And that was, you know, like a school grade; it's level of service B. A being best, B, C, D, E, and F starts to get into more congestion, more delays.

Now turning left in, there was only a delay of 8.1 seconds.

MR. GARBER: You're saying westbound.

THE WITNESS: I think my engineer --

MR. GARBER: It's supposed to be southbound.

THE WITNESS: Correct.

MR. GARBER: Right. So southbound --

THE WITNESS: He's looking at it based on the --

MR. GARBER: No, I understand the orientation of the -- right. I understand. There's been confusion throughout this case about that.

THE WITNESS: Correct.

MR. GARBER: But that's actually southbound Maryland 147, left turn, Harford Road, left turn.

THE WITNESS: Correct.

MR. GARBER: And there's only an 8 second, 8.1 second delay for the southbound traffic, but a 14-second delay for the northbound turning?

THE WITNESS: Correct.

BY MR. SCHMIDT:

Q. And both of those are turning left. Somebody coming out, turning left; and somebody turning, coming out -- turning in and turning left?

A. Turning -- the first one is coming out, all left- and right-turn movement.

Q. Oh, okay.

A. And the second one is the left turn, turning left in.

Q. Oh, okay.

A. So then we go to Saturday again with the projections.

Q. Same number of vehicles?

A. No. Well, same number of vehicles as before, so

now we have 50 --

Q. 50.

A. -- 50 lefts in, 50 right turns in; 100 cars coming out of the site, 50 left and 50 right. And as you can see, as the volumes are decreased during the Saturday peak hour, even with more turns coming in, the delay, you know, drops for the cars leaving the site. So it's at 13.3 in the range. The delay for the left turn is now 8.3 seconds.

So again, we would consider this, you know, a very good intersection that works from a capacity and operational operation.

MR. GARBER: I believe Mr. Schmidt just answered this question, but just to confirm: Where it says northbound site access approach, you are referring to left-hand turns out of the site?

THE WITNESS: And right-hand turns out of the site.

MR. GARBER: And right-hand turns out of the site.

THE WITNESS: We only have a single lane

according to our drawing, so it's both -- it's both maneuvers.

MR. GARBER: So it wouldn't be different delays maybe, whether they're making a left or right?

THE WITNESS: Well, this is the total approach delay.

MR. GARBER: Delay? When you say "approach delay," what do you mean?

THE WITNESS: The approach of the movement of the -- for ease of just discussing, the north is upwards on the map. So at the site access people are traveling northbound --

MR. GARBER: Right.

THE WITNESS: So the northbound approach has a delay of 14 and 13.3 seconds -- the approach delay for all vehicles coming in.

BY MR. SCHMIDT:

Q. Because it's a single lane?

A. Correct.

Q. So the people who are coming out of the site are in one line?

A. Right.

Q. And this is the delay that they would experience based on cars turning -- 50 turning left, 50 turning right?

A. Correct.

Q. So whatever that mixture is. And Mr. Caloggeri, I think you testified before you would expect most traffic to turn right?

A. Well, we have 50/50 just to try to --

Q. But you did 50/50 as a...

A. We try to be conservative. Again, based on how the calculations are performed, it could be for a CLV basis, if we had 50 left turns coming out of the site, it would pretty much be the same. It's just the volume on the road, of 147, during these times is not substantial enough to create significant changes to this analysis.

MR. GARBER: And on your page 2, where it says LOS/delay, the LOS is the level of service; northbound site access approaches are B; and the westbound Harford Road left turns are A's?

THE WITNESS: Right.

MR. GARBER: Outbound -- sorry. Harford Road left turns are A's?

THE WITNESS: Correct.

BY MR. SCHMIDT:

Q. Mr. Calogerri, anything else in terms of Exhibit 29? And obviously all of the pages that are attached are the data which are supporting those conclusions that you've testified about?

A. That is correct.

Q. Okay. Anything else?

A. Not on that exhibit.

MR. SCHMIDT: And I would offer, if I have it, Exhibit 29.

MR. HOLZER: No objection.

MR. GARBER: It wasn't previously admitted and now is.

MR. SCHMIDT: And now is.

(Protestant's Exhibit Number 29 was admitted into evidence.)

BY MR. SCHMIDT:

Q. Okay. I think, Mr. Calogerri, you did one other analysis as well; is that correct?

A. That is correct.

Q. And what was that all about?

A. Crashes. At the -- one of our last hearings, an exhibit was presented to us from the opposition, which stated the number of crashes, and then questions were asked of me for -- you know, to describe the exhibit or discuss the exhibit.

Q. And as I recall that was -- well, it speaks for itself. But it was a stretch of Harford Road and didn't have a detail as to where along that stretch of Harford Road the accidents that were summarized actually occurred, correct?

A. That is correct.

Q. I've marked as Exhibit Number 30 your summary, and if you could just tell us what you're showing here.

A. So Exhibit 30 Exhibit 3, Results of Highway Crash Summary. We obtained crashes, and the source we're using is Data.gov, and I presented the source below on Exhibit 3. So we obtained between

Hutschenreuter Road and Vista View Court a section of 1.1 miles. It should be Mount Vista Road.

MR. GARBER: Mount Vista?

THE WITNESS: Mount Vista and Glen Arm. Hold on. I'm sorry.

MR. GARBER: I'm going to say that this is of little good to know the crash between Hutschenreuter Road and Mount Vista Road or Vista View Court if that's what's applicable, without knowing where at least one of those roads come in at. Is there a map that we can actually see what that means for purposes of this case?

THE WITNESS: I can approximate on this plan.

MR. GARBER: Well, we have other exhibits that you can use.

MR. SCHMIDT: I'll tell you what. Let's -- I think what the exhibit -- let me get the exhibit number, but I think probably -- it's probably Exhibit 1 or 2. Let me get the exhibit list, Ms. Murphy. The aerial photo is Exhibit Number 2 --

MR. HOLZER: I'm not --

MR. SCHMIDT: -- and I think that's fairly

broad-ranging.

MR. GARBER: Mr. Holzer?

MR. HOLZER: I'm just trying to -- did someone say Hutschenreuter and Vista View was the wrong --

MR. GARBER: We're trying to assess whether it's supposed to be Mount Vista or Vista View. But it doesn't make any difference at the moment unless we know where the other road --

MR. HOLZER: Exactly. I just didn't want --

THE WITNESS: I said Vista View Court, and I apologize. I thought it went Mount Vista Road and maybe pulled some information, so if I could --

MR. SCHMIDT: For the record, I'm going to put Petitioner's Exhibit Number 2 on the board, tack that up.

MS. MURPHY: And Exhibit 3 does have -- I don't know how to say the first road.

MR. GARBER: Anyone? Hutschenreuter?

(Attendees responded "Hutschenreuter.")

MR. GARBER: Hutschenreutuer it is. So we can come to consensus. Thank you all.

MR. HOLZER: The question is where do the statistics come from, not whether we settle where Hutschenreuter is.

MR. GARBER: Well, first we need to know where this is or what this is referring to, and then we can get to the statistical part.

BY MR. SCHMIDT:

Q. Mr. Calogerri, I've put on the board Exhibit Number 2, and again, I think we'll call this north and south. I know it's been referred to different ways. Can you show to the north of the property or the northeast of the property where Vista View Court intersects Harford Road?

A. So the property on Exhibit 2 --

Q. 2.

A. -- is designated in purple. So about 800 feet to the north of the property line would be the intersection of the roundabout with Mount Vista Road and Glen Arm Road, and then about another thousand feet to the north is Vista View Court.

Q. So can you actually point to the intersection of

Vista View and Harford Road?

A. (Witness complied.)

Q. Okay. So that's the north side of where the accident data is from.

How about to the south?

A. South of the property about another 800 feet, 500 feet.

MR. GARBER: And I will note that, thank you to Ms. Murphy and Ms. Dopkin, on Exhibit 3 it does show both where Hutschenreuter Road and goes as far as Vista View Court.

MR. SCHMIDT: And they're both shown on Exhibit 2.

MR. GARBER: And they're both shown on Exhibit 2, and it is depicted on Exhibit 3.

Mr. Holzer, do you understand that?

MR. HOLZER: I understand it's now from Hutschenreuter Road to Vista View, which is passed around.

MR. SCHMIDT: Yes.

THE WITNESS: Correct.

MR. SCHMIDT: And the roads are also, Mr. Garber, they're labeled on Exhibit 2 as well.

MR. GARBER: Yes.

MR. SCHMIDT: The actual name of the road is printed on there.

MR. HOLZER: And is the 1.1 miles correct?

THE WITNESS: Yes.

BY MR. SCHMIDT:

Q. So that's a stretch of Harford Road that's a little over a mile?

A. Yes.

Q. All right. So now that we know where the accidents occurred in terms of the entire stretch, Mr. Calogerri, let me direction your attention back to Exhibit Number 30, and tell us, if you can explain, what the data is that's being shown there?

A. So the next four pages -- or the last four pages, what we -- going to Data.gov and pulling the actual physical accident data, we pulled years 2015, 2016, 2017, and the first quarter of 2018.

MR. GARBER: I assume that the second quarter is

not available --

THE WITNESS: Correct.

MR. GARBER: -- for 2018.

THE WITNESS: Correct, when we printed this, probably back in September, I would imagine.

So when we review accident data or try to obtain accident data, we go by obviously state, county route -- which is Route 147 -- and then we designate mile points.

MR. GARBER: One second.

THE WITNESS: So the mile log number, starting at -- I'm sorry. I missed when you guys were pronouncing the name correctly -- Hutschenreuter Road?

MR. GARBER: Hutschenreuter.

THE WITNESS: -- from H Road at -- was designated at log mile 7.5, and pulling data for, I guess, all four years to data point 8.62.

MR. GARBER: And that's how you came up with the 1.1 miles?

THE WITNESS: Yes.

BY MR. SCHMIDT:

Q. Now, these charts show the events in white, a light blue, and then a navy blue?

A. Correct.

Q. Is there some significance as to the shading?

A. There is. So the ones in the dark blue are in the area of Bonapart or occurred within the area of Bonapart Avenue or north and south around where the turns would be located.

Q. And that actually referenced road name shows Bonapart Avenue; is that correct?

A. That is correct. That is correct.

So then what we did on Exhibit 3 is we --

MR. GARBER: Exhibit 30, which is labeled.

THE WITNESS: Exhibit 30 Exhibit 3.

So on Exhibit 30 Exhibit 3, we listed the number of crashes in the area of Bonapart Avenue within 1,000 feet, so about 500 feet in each direction.

BY MR. SCHMIDT:

Q. So for example, of the twelve crashes, and let's just take 2015, Mr. Calogerri, the twelve reported accidents that occurred in that stretch, in that

1.1 mile stretch of highway that occurred in 2015, there were two of them at the proximity of this particular property? And when I say that, I mean Bonapart and the access drive?

A. That is correct.

Q. And other ones -- the other ten occurred obviously within that stretch of roadway, but not right here -- not in front of the access permit?

A. That is correct.

Q. Do you know just in terms of as a percentage or the numbers, do you have a sense of what the volumes of the roads? I mean, you have twelve crashes in 2015. How many cars were going up and down Harford Road in 2015?

A. Well, if we backtrack to Exhibit 29, Exhibit 29 on -- and, again, we'll use my high-rounded numbers. If you want to use low-rounded numbers, we can do that as well. For example, on Friday we have 5800 vehicles, so if we would project 5800 vehicles per day, per 365 days year, I think we're probably in the range of 2 million, I believe, that trips are -- about 2 million vehicles

that are traveling around this site in which we had two accidents in 2015, two in 2016, four in 2017, and two in the first quarter of 2018.

Q. As a traffic engineer, how would you characterize that? Is it an accident-prone intersection?

A. I would not consider this an accident-prone intersection. I would more review this as vehicles are traveling too fast for conditions. You know, we've shown in our previous, you know, exhibits that the majority of the people are traveling at near or close to the recommended speeds. In the southbound direction, though, they're traveling a little bit higher than the recommended speed of 30 miles per hour. They're more in the 38, 39 range. And these could be vehicles, outliers missing the turn, head-on collisions. But again, I would prevail that to higher speeds, in my opinion. But I don't have all the data to back that up.

MR. GARBER: The movement code associated with the four pages at issue in Exhibit 30 --

THE WITNESS: Yes.

MR. GARBER: So it refers to slowing or stopping, moving at constant speed, etc.

THE WITNESS: Correct.

MR. GARBER: Do you know how that data -- how that information is gathered?

THE WITNESS: So all of the these are entered in by a local authority. It could be the county police, it could be the state police. This is all the data that's obtained through Data.gov. My understanding is that the opposition obtained their data from -- I don't have it with me -- I do have it with me. I believe it was obtained from Baltimore County.

BY MR. SCHMIDT:

Q. This is the summary position that the opposition presented, correct?

A. Correct.

MR. SCHMIDT: Which I think is Exhibit --

MS. MURPHY: 10?

MR. SCHMIDT: Exhibit 10, yeah, which actually Ms. Murphy labeled in the exhibit list as Traffic Crashes, Baltimore County Police.

THE WITNESS: Correct. So this data was obtained from the local police. Again, this was obtained from Data.gov. There could be some overlap, there could be -- unfortunately, there's not a real good national database to capture every accident that may or may not have occurred here.

MR. SCHMIDT: And, of course, these are reported accidents as well.

THE WITNESS: Correct.

BY MR. SCHMIDT:

Q. Mr. Calogerri, the report also shows, just for example, it shows the time of the accident, correct?

A. Correct.

Q. So like, just on the first page, for example, in the 2015 crashes, the two of them that occurred here, one occurred at :26 minutes. It appears to be after midnight on Sunday morning or Saturday night, correct?

A. Yes, correct.

Q. Then the other one occurred at 11:37 on Friday night?

A. That is correct.

Q. And there's no indication on here of whether there was impaired driving or drunk driving or any of those kinds of issues that may have contributed to the accidents or may not have contributed to the accidents?

A. Correct. And those may be in the more full-scale detailed police reports there are multiple pages with notes. I believe they were going to charge per page or per accident if we were to obtain them through the county.

Q. Okay.

A. And what's important in these exhibits is, if we look at the crashes on from 2015 and 2017, the numerous ones at the intersection or close to the intersection of Glen Arm -- I'm sorry -- Harford Road at Glen Arm Road and Mount Vista Road -- and that's part of the reason why they installed a roundabout, due to that location.

So if there are accidents that will occur at the roundabout, they should be of lesser volumes, probably more property damage only than personal injury. So I know that's one of the reasons why the State Highway Administration made that change, just to help out with

the numerous accidents that were occurring at that location.

Q. And when you say "that change," installing the traffic circle?

A. Correct.

Q. Roundabout?

A. Correct.

Q. Anything else on that exhibit, Mr. Calogerri? Any other point?

A. No.

MR SCHMIDT: I would offer that as Petitioner's Exhibit No. 30, Mr. Garber.

MR. HOLZER: No objection.

MR. GARBER: So admitted.

(Petitioner's Exhibit Number 30 was admitted into evidence.)

MR. SCHMIDT: That's all the questions I have of Mr. Calogerri.

MR. GARBER: Mr. Holzer, would you like a couple of minutes?

MR. HOLZER: I certainly would since I've just

seen all these documents for the first time. Thank you.

MR. GARBER: What would you need?

MR. HOLZER: 10 or 15 minutes.

MR. GARBER: So why don't we make it 11:00. Will that --

MR. HOLZER: That will be fine.

MR. GARBER: Okay.

MR. HOLZER: Oh, can we set up the video?

MR. GARBER: Actually, I would prefer that you do that now as well.

(Whereupon, a discussion was held off the record.)

(Whereupon, there was a brief recess, 10:49 a.m. - 11:10 a.m.)

MR. GARBER: Please be seated.

All right. Was that sufficient time to get situated with the video that's to come? Madam Court Reporter, are you fine?

THE COURT REPORTER: Yes, sir.

MR. GARBER: Everything's good? We're all set up? Okay.

Mr. Holzer, you have floor for cross-examination.

MR. HOLZER: Thank you.

CROSS-EXAMINATION BY MR. HOLZER

Q. Mr. Calogerri, why didn't you do this analysis in your original direct testimony during the earlier testimony that was provided in your direct?

A. I didn't believe it was necessary to do so earlier due to the -- its being outside of the development area.

Q. I understood that until you were questioned by Board Member Murphy, in which she asked you some significant 502.1 criteria which you couldn't address; is that correct?

A. I believe I addressed it. Maybe not to -- I addressed it, but not to someone's liking.

Q. Well, I don't even think it was to her liking. I think it wasn't there. So now this testimony this morning has been as a result of your taking, since the last hearing date, which was --

MR. CLARK: The 11th.

MR. HOLZER: No, today's the 11th.

MS. MURPHY: September 12th.

BY MR. HOLZER:

Q. -- September 12th. So you've had basically one month to prepare this testimony; is that correct?

A. Yes.

Q. And you've given me 15 minutes to review it and be ready to cross-examine you; is that correct?

A. Yes.

MR. HOLZER: Okay. So I'm going to ask the Board for some consideration as a result of me being handed all these documents as they were presented during the course.

MR. GARBER: I will say yes, of course, there is some leeway granted.

MR. HOLZER: Thank you.

MR. GARBER: But, I mean, in the normal -- in any type of any other hearing, sometimes this does occur with regularity here; that is we get extra reports or during the course of the hearing we have to adapt on the fly.

MR. HOLZER: Understood.
MR. GARBER: But yes, there is a lot of information contained in these exhibits.
MR. HOLZER: I've been doing this far too long.
MR. SCHMIDT: And I don't even know who Mr. Holzer's witnesses are going to be, so we all --
MR. HOLZER: I know. You know, that's part of the fun of this hearing.
MR. SCHMIDT: Trial by ambush, we call it.
MR. GARBER: Okay. We can --
MR. HOLZER: So now that I've had my speech, let me ask my question.
MR. GARBER: Well, let's pause for one second. I believe that we have something else here.
MR SCHMIDT: Yeah. Mr. Holzer --
MR. HOLZER: Right.
MR. SCHMIDT: -- I just had the attachment to the Deprom letter with the --
MR. GARBER: This is 25. This is the attachments.
MR. SCHMIDT: -- The attachment we were

referring to.

Do you want me to make that another exhibit or A and B? Or how do you want to do it, Ms. Murphy?

MR. HOLZER: Why don't just leave it the same and just attach it --

MR. GARBER: Attach it?

MR. HOLZER: -- to what's already marked?

MR. GARBER: That's fine.

MR. HOLZER: That's acceptable to me.

MS. MURPHY: That's a good suggestion.

MR. GARBER: It's not in evidence yet until this comes in anyway, so that's fine.

MR. HOLZER: Correct.

MR. SCHMIDT: Just for the record, I asked my office to call Ms. Lowery, who signed the letter, and asked her to email the attachments. And my paralegal said she got this email from Ms. Lowery, and this is the attachment to the letter -- four copies of it.

MR. GARBER: Thank you, Mr. Schmidt.

MR. HOLZER: And I have no objection.

MR. SCHMIDT: I gave Mr. Holzer a copy of it.

MR. GARBER: Exhibit 25 will be admitted.

And I paused it in the event you need it for the course of this examination. So you may continue.

(Protestant's Exhibit Number 25 was admitted into evidence.)

MR. HOLZER: I can't use it because it's not related to this witness, and they didn't present any other witnesses except for September 12th, and today's October 11th.

MR. GARBER: Okay. So on with your cross-examination. I'm sorry.

BY MR. HOLZER:

Q. Now, is it fair to say that, in none of your analysis to date, was any growth factor considered? In other words, based upon your testimony, everything that's been presented in these exhibits this morning, all relate to current traffic counts or past traffic counts, etc.; is that right?

A. Current traffic counts plus pursued [sic] growth from the site.

Q. Presumed --

A. Presumed growth.
Q. From the south?
A. Site.
Q. Oh, from the site.
A. From the site.
Q. How did you arrive at the growth from the site?
A. Based on my understanding of the operations.
Q. Which are in terms of traffic?
A. Correct, which was what I previously testified to.
Q. Okay.
A. So I assumed 20 trips, which I believed would be on a higher side during the evening peak hour between 5:00 and 6:00, and assumed that would be coming from 50 percent north and 50 percent south.
Q. So 20 trips daily, Monday through Sunday?
A. I assumed, for purposes of this analysis, between the evening peak hour, which we determined was 5:00 to 6:00 p.m. on October 1st. I assumed 20 trips, 10 inbound and 10 outbound.
Q. Okay. And was that for every day, Monday

through Sunday?

A. It can be.

Q. When you say "it can be" --

A. I mean, well --

Q. -- is that what your --

MR. GARBER: One at a time, please.

Mr. Holzer --

BY MR. HOLZER:

Q. Is that what your client told you insofar as the amount of traffic?

A. I'm going to go back to my previous letter. I'm not sure which exhibit. It's the letter prepared by me January 10, 2018.

MR. GARBER: I'm sorry?

THE WITNESS: I'm going to refer to the previous letter, January 10, 2018. I don't see the exhibit number. Do we have the exhibit number?

MS. MURPHY: No.

BY MR. HOLZER:

Q. Did we already talk about that last time?

A. I thought we did, yeah.

Q. Yes, and I remember that that's what you said in terms of that letter.

A. If you're going to refer to it, I just want to make sure they have it. That's all.

Q. Well, my question is does that letter reflect what you were told about the amount of traffic, the amount of the visitors that would be on the site?

A. Based on our understanding of this temple, there will be less than 20 people coming to the temple on weekdays and less than 100 people coming on weekends.

MR. GARBER: If I can, Protestant's Exhibit 8 you're referring to, a letter dated January 10, 2018?

THE WITNESS: Yes.

MR. SCHMIDT: That's correct.

MS. MURPHY: That was the Protestant's exhibit.

MR. GARBER: Yes.

MR SCHMIDT: It was. I think it came in through Mr. Holzer's cross-examination.

THE WITNESS: That's why I'm familiar with it.

MS. MURPHY: That's why I couldn't find it.

BY MR. HOLZER:

Q. And was there anything in that document that accounted for festivals, etc., get-togethers, fundraisers, or whatever?

A. No.

Q. Have you done anything since that time to determine more accurately the amount of traffic that will flow into this site if it's approved?

A. No.

Q. So then I can fairly say that as a result the amount of extra traffic that would be generated by perhaps five or seven events per year, which could include fundraisers, which could include religious festivals -- none of that was counted in your calculation?

A. Correct. And I believe we talked about this numerous times, that the majority of the time, we don't anticipate -- we don't review those types of extraordinary conditions.

Q. Yes, you're right. You absolutely did say that. And I said to you, "Well, you don't count, like Christmas services for Christians" --

A. Correct.

Q. -- "and you don't count Jewish high holidays. You don't count that in your traffic analysis," correct?

A. Yes.

Q. Okay. So we're on the same page there?

A. Correct.

Q. I'm going to have to work backwards because --

A. Sure.

Q. -- you've provided so much material.

In looking at Petitioner's 30, first of all, you used the Data.gov. Now, does that have traffic analysis from all over the country?

A. It has data from all over the country.

Q. Right.

A. That's my understanding.

Q. Right. And you are familiar that we introduced the Baltimore County Police Crash Unit report; is that correct?

A. That is correct.

Q. And they differ.

A. Correct.

Q. These differ?

A. Correct.

Q. Which was the more favorable to the Protestants? The Baltimore County Police Crash Unit report or the report that you got from Data.gov?

A. What I can tell you is the data that was produced by the Protestant is very limited, where it does not give details of the exact location. This crash --

Q. But it does exceed -- it does exceed the numbers that you found here; is that correct?

A. I don't know where the accidents occurred, whereas my data gets down to the exact mile point of the location.

Q. I understand. But you didn't answer my question. My question simply was does the Baltimore County police report show more accidents in what they describe as their area versus what Data.gov shows?

MR. GARBER: Out of fairness, would it make sense to show him that exhibit so he can compare the two?

MR SCHMIDT: I think he's got it.

MR. HOLZER: He's got it.

MR. GARBER: Do you have it in front of you?

MR. HOLZER: He's in better shape than I am. I don't have them.

THE WITNESS: Yes.

In 2016 -- yes. In 2016 we show 4, you show 11.

BY MR. HOLZER:

Q. Okay.

A. In 2017 you show 23, we show 13. And 2018 year-to-date you show 7. 2018, quarter one, we show 8.

Q. Okay.

MR. GARBER: And if I can, just by way of reference, that is Protestant's Exhibit 10 for the record.

MR. HOLZER: Protestant's 10 for the record.

BY MR. HOLZER:

Q. Now that we've -- I'm sorry. I didn't ask you a question yet.

A. I was -- well, you were asking me about accidents, and --

Q. I was just asking you for the numbers.

A. -- you were asking me about --

MR. GARBER: Please one at a time.

Q. I just asked you for the numbers, and you've given the numbers.

MR. GARBER: Mr. Calogerri, there's no question pending at the moment.

THE WITNESS: Sorry.

BY MR. HOLZER:

Q. Now, let me go into your Exhibit 30. And I appreciate the fact that you highlighted the Bonapart Avenue accidents in the darker blue, and if you look at 2015, there were only two single-vehicle accidents, correct?

A. Correct.

Q. And that was right at the Bonapart Avenue, which we've been talking about all day, right?

A. One was designated as at the intersection of Bonapart, and one was 250 feet north of Bonapart.

Q. And it was on a -- one was on a Sunday, and one was on a Friday?

A. Yes.

Q. Okay. Two -- 2016 again, we have just two accidents in this limited area of analysis. And those occurred -- one was on a wet highway or wet road, and one was on a dry road, and they were both -- well, the first one was a sideswipe. Two vehicles sideswiped each other; is that right?

A. Yes.

Q. Moving to 2017, according to your calculations and your figures, there are four accidents at that intersection or at that area?

A. Yes.

MR. GARBER: Hold on one second, please.

MR. SCHMIDT: Please turn off the phone.

MR. GARBER: I need to remind everybody please turn off the phones. This is a court. Thank you.

MR. HOLZER: Thank you.

BY MR. HOLZER:

Q. So in 2017, when your clients started using the Bonapart property, we go from two to four in that 2017 era; is that right?

A. I don't know when they started using the property.

Q. You don't know that?

A. I do not know that.

Q. Okay. Let's look at the five accidents. The first accident --

A. Four accidents.

Q. I'm sorry. The four accidents that are in dark blue: Head-on collision on a dry day apparently. Does your analysis show what, if anything, occurred in that head-on accident?

A. No, except that it was a head-on accident that occurred on Saturday at 1838, which is 10:30 in the evening.

Q. Right.

MR. GARBER: 6:30.

Q. 12 from 18, as an old military person.

A. Excuse me. 6:30 on a Saturday evening, 40 feet south of the intersection.

Q. So that's closer to where the entrance of the property was located at the time?

A. Again, it depends on where the person takes the measurement, but I would assume yes.

Q. Yeah. The second -- what you have here is the third accident was a rear-ender on dry conditions, right?

A. Correct.

Q. Fourth, Number 4, another head-on in dry conditions, correct?

A. Correct.

Q. Does it say where that was in terms of the Bonapart Avenue intersection?

A. It does. 0.1 mile south at 9:00 a.m. on Monday, the 25th.

Q. So on a Monday morning at 9:00 in the morning, there was a head-on accident. Would that be right where the access to your client's property is?

A. No. It's 500 feet south.

MR. GARBER: What is 500 feet south?

THE WITNESS: The accident, according to this document, or according to how it was coded, it's 0.1 mile south, which 0.1 mile is 528 feet.

MR. GARBER: I was just clarifying your use of the word "that."

MR. HOLZER: Yeah.

THE WITNESS: The what word?

MR. GARBER: Your use of the word "that" -- what you were referring.

THE WITNESS: So 528 feet south is actually.

BY MR. HOLZER:

Q. Would you point it out on your exhibit marked 26?

A. It would approximately be in 26, in the G to H area.

Q. Right on the curve, coming from the south to the north, before you would get completely around it, to your property?

A. Right.

Q. That you're referring. Okay.

There was only one accident, a single vehicle on a snowy day apparently; is that right?

A. Yes.

Q. It does appear that there are more head-on

accidents during 2017 than any other year and also closer to the entrance that we've been discussing of your client, correct?

A. There was one head-on in 2016, two head-ons in 2017, and one head-on in 2018.

Q. Okay. And in 2018 where was that head-on?

A. 250 feet south of Bonapart Avenue.

Q. Which put that where? Half of where you pointed before?

A. Correct. That would be around -- let's call it Point D, in the general area of Point D of Exhibit 26.

Q. Exhibit 26, yeah.

A. Exhibit 26.

Q. Yeah.

MR. GARBER: I do know that it's not coded as a "head-on." It's coded as "opposite direction both LT."

BY MR. HOLZER:

Q. What does that mean?

A. My guess would be without detail would be two vehicles may both be turning left. Again, I'm taking a guess where -- I mean, it almost -- it's hard to --

because this isn't 200 -- maybe a vehicle turning left here, but a vehicle turning left here. It could be a vehicle turning left here and vehicle turning left here.

But again, it's coded as 250 feet away from the intersection, which brings us down here.

Q. Right.

A. So it's very limited information to determine.

Q. The statistics for the Data at dot gov -- how current is that? I mean, does it cover yesterday, or does it only cover the beginning of the month, or do you know?

A. I'm not a hundred percent sure.

MR. GARBER: I think it was established on Direct that it's at least by quarter and that the second quarter was not available at the time of printing.

THE WITNESS: I said that previously, but I don't know if it's -- how recent. It could be today.

MR. HOLZER: Right.

THE WITNESS: I don't know if today it's up to date.

MR. HOLZER: Right.

MR. GARBER: Just to clarify what had been said before.

MR. HOLZER: Right. Thank you.

THE WITNESS: Sorry.

MR. HOLZER: I'm working backwards.

MR. GARBER: That's quite all right.

BY MR. HOLZER:

Q. Let's look at Petitioner's 29, which is your capacity.

A. Yes.

Q. I understand the analysis that you've gone through on direct and with the Board. When you look at the bottom of Exhibit 1 and put data in the analysis, is that -- are those just standard things, like the shoulder width, the highway class, the terrain, etc.? Are those universal figures that you've just pulled out of a manual and plugged into this analysis?

A. Based on the characteristics of this road, yes.

Q. Now, this road -- this characteristic is rolling. When you look at 500 feet or 600 feet south of Bonapart Road and 600 feet north of it, would you call

that, what is shown on your Exhibit 26, would you call that "normal" or "standard" road?

A. I mean, I believe it is a normal standard road.

Q. You don't think that, understand the circumstances of Harford Road as a whole, that this sharp right turn and sharp left turn is not unusual for Harford Road or unusual in another way? It's certainly not a rolling road. It has a distinct characteristic, does it not?

MR. SCHMIDT: Just objection to the extent that he said "Harford Road," which is Maryland Route 147, which goes miles and miles, so I don't know what the comparison is.

MR. GARBER: Also on Exhibit 26, Mr. Holzer was referring to the first, that if you're heading northbound, that would be on the left side of Exhibit 26, and then the "second bend," as he put it, would be on the right side of it. And that's what I understood him referencing Harford Road for, not obviously stretches north or south of those points.

MR. HOLZER: Exactly.

BY MR. HOLZER:

Q. In other words, I mean, we don't have to be a lawyer to understand that this is an unusual curvature of the road, and to classify that as "rolling," may not be descriptive of what that area is on Petitioner's 26.

A. I'm not sure what you're using as the definition of "rolling."

Q. I'm not sure because it's your use of it.

A. Okay.

Q. You used "rolling."

A. Correct.

Q. Does that mean vertical? Does that mean back and forth? Sideways? What does "rolling" mean, and how can you -- how can you do an analysis of this site as a general rolling road?

A. Generally speaking, I would not consider this more of a two-lane highway type of road, where it's straight for numerous miles, can travel at high speeds, where you're not expecting to have access points and driveways and things of that nature.

This type of road does have some rolling

terrain, vertical differences, horizontal changes, access points, low shoulders -- which really doesn't affect the rolling portion it. But it is -- I believe people are expecting to see this type of road, especially to the south. There are -- I know there's a 35-mile-per-hour section south of this, you know, significantly, with some significant turns and curves.

MR. GARBER: Well, Mr. Calogerri, we were just -- we were just narrowing the focus of the Harford Road to the stretch that's on Petitioner's Exhibit 26.

THE WITNESS: Okay.

MR. GARBER: So if it goes to 35 at some other point beyond what's depicted in Exhibit 26, that didn't factor into Exhibit -- well, what has been Exhibit 29, but Exhibit 1 on 29, correct?

THE WITNESS: But what I'm saying is the road is characterized, basically north and south, as a rolling road. You don't -- a lot of times you don't take a snippet of a 10-mile stretch of road and say, you know -- we could have 10-mile stretch of road and say, okay, this 500 feet acts as an interstate highway that

you can travel 60 miles an hour. You're ana lysing the entire section. So we designated the -- we designated Harford Road as a "rolling road."

MR. GARBER: So that's not a subjective term; that's something that you took from some source?

THE WITNESS: From the Highway Capacity Manual.

MR. GARBER: And to the best of your ability, you've matched what you believe the road was to a definition?

THE WITNESS: Correct, and I don't have those definitions handy.

BY MR. HOLZER:

Q. Yeah. No, the chairman has articulated it better than I have. In other words, what you've done is you've taken a generality in terms of a quote, "rolling road," and you've made certain assumptions based on that analysis; and yet this case is focused on whether this entrance and this section of the road shown on Petitioner's 26 has a negative impact on the health, safety, and welfare of the community. So all of your calculations in these figures of capacity and so forth

may not be correct when it comes to just this section of the road.

MR SCHMIDT: Just objection as to the speech. I mean, it's argument. It's not a -- there's not a question yet.

MR. HOLZER: I let you ask leading questions so we could get through this, so at least let me ask one or two leading questions.

MR. GARBER: Well, you're on cross-examination, so you actually have more of an ability.

MR. HOLZER: I understand.

MR. GARBER: Madam Court Reporter, could you please repeat back that question?

THE COURT REPORTER: Yes.

MR. GARBER: Thank you.

MR. HOLZER: Instead of doing that, Your Honor, let me -- I'll just ask another question.

MR. GARBER: You don't need to do that, then, Madam Court Reporter. Mr. Holzer has indicated he will move on.

MR. HOLZER: Yeah, you don't have to find it.

MR. GARBER: Thank you, Madam Court Reporter.

So Mr. Holzer, you're going to move on from that particular question.

MR. HOLZER: Yes.

BY MR. HOLZER:

Q. So would you agree with me, as a reasonable person and an expert, that this is a unique section of the road in this area -- the right and left turn, sharp, with proposed or suggested lower speed limit, and with the situation of where the entrance to the subject property is located? Isn't that unique?

A. Unique how?

Q. Unique in that you have two sharp right turns and a sharp left turn; unique that it's hilly, extremely hilly; unique that you have a single-family house that enters near where the Bonapart Road is. And that provides you, as a traffic engineer, a very difficult analysis from which you've produced Petitioner's 26, because the State Highway asked you to. It's real simple.

A. I mean, but again, unique as to --

Q. The road.

A. There's other sections similar to this along Harford Road itself; there's other places that have similarities. So again, I'm not sure what you're driving at with the term "unique." This is -- this is not an atypical section. These are -- you know, it's a area where it's signed, it's in area where these signs are used across the state of Maryland to designate turns in the road. And it's an area where, like you said, we designed it in accordance with the State Highway Administration recommendations, who are in control of this road, and we've designed it to those standards.

Q. Okay. In terms of your capacity analysis, have you ever been on the site when your client is having an event there which exceeds what they told you about the 20 trips per day?

A. No.

Q. So you've never seen a festival going on, you've never seen a religious get-together going on, you've never seen a fundraiser on the property going on?

A. No.

Q. So all of your analysis and testimony today is based on documentation of the State Highway Administration, etc., but including your traffic counts when you went out and put down the tubes?

A. Repeat one more time because you used the word "et cetera." I don't know what you mean by "et cetera."

Q. Everything that you are testifying to in these exhibits, in these documents, relate to general public documents as to capacity, as to turning movements, as to those aspects that you've talked about except for your information relative to your tubes that were placed to get the traffic counts. That's something that you've done over and above obtaining documentation from State Highway Administration?

A. The only items we've obtained from the State Highway Administration were the parameters to design the access. So we did the data collection, the trip generation, the trip distribution with these documents, and capacity analyses, the crash history, the speed study.

Q. That was all done by you in terms of your

obtaining the documentation, or was it documentation in regard to the average daily trips? Was it the critical end? You used state documentation and/or Baltimore County, as well, documentation, did you not, to create your opinion?

A. No.

Q. Okay. So all of your opinion is based on your putting down the two tubes which gathered information?

A. Which opinion?

Q. Your opinion that everything was okay for you to approve the --

A. I didn't approve anything.

Q. I didn't say you did.

MR. GARBER: Hold on. Let's do this one a time. Mr. Holzer, you're referring to Petitioner's Exhibit 26, correct?

MR. HOLZER: Yes.

MR. GARBER: Okay. So your opinion as to Exhibit 26, that this is satisfactory for purposes of -- let me ask this -- I don't want to put words in anyone's mouth.

What is your -- with respect to Petitioner's 26, what is it that you are trying to illustrate or give an opinion about?

THE WITNESS: Well, I mean, my opinion is the State Highway Administration approved this concept plan.

MR. GARBER: Right.

THE WITNESS: So it's the State Highway's decision to determine if this is an acceptable access. They gave us the parameters to design the access; we designed the access to those parameters; we provided it to them; they provided the approval letter, which was -- Exhibit 27?

MR. GARBER: Well, here's what it is: The point of it is there's nothing that the SHA did that you disagree with that says, "No, this makes it unsafe," correct?

THE WITNESS: Correct. And then I -- then I used my data to confirm their parameters.

MR. HOLZER: I'm fine. He hasn't answered the question, and I'll ask it later in another way.

MR. GARBER: Okay.

BY MR. HOLZER:

Q. Insofar as the capacity analysis that you did, was that based solely on the tubes that your company put down to count the amount of traffic going up and down 147?

A. Yes.

Q. You used nothing else from which to then analyze that amount of traffic compared to what's acceptable, or did you?

A. Repeat, please. You're saying "to acceptable." Acceptable to what?

Q. You did say that the calculations, the traffic counts, were consistent with something that was okay or acceptable based upon --

A. There's plenty of -- I said there was plenty of capacity based on the conditions today.

Q. How do you know that?

A. In the worst case we're at 31 percent capacity. That's how I know that.

Q. Because you utilized State Highway or transportation analyses of what would be acceptable for

Harford Road, correct?

A. I used the Highway Capacity Manual to determine --

Q. Yes. Who puts that out? Who puts that out?

A. It's a national guideline. It's a national; it's not the State Highway Administration.

Q. Okay. So in order for you to fit these figures of 532 volume on the Wednesday a.m. peak hour, you came up with by using your tubes to count the cars, and then you compared that with what the federal -- or the national analysis says is acceptable?

A. Correct.

Q. Yeah, okay. So would it change your analysis if, for instance, you hadn't used the "rolling road" definition, but you had used some other definition --

A. No.

Q. -- such as "extremely left and right turns"?

MR. GARBER: One at a time, please.

THE WITNESS: He paused for 8 long seconds.

MR. GARBER: I understand.

THE WITNESS: No.

BY MR. HOLZER:

Q. You wouldn't change your mind?

A. No. There is still plenty of capacity available on this roadway.

Q. Why did all of a sudden the State Highway -- and you touched on this in your direct -- why did all of a sudden the State Highway Administration decide, because of the number of accidents on this road, that they needed to put a roundabout in?

A. That's the State Highway's call, not my call.

Q. But you're a traffic expert. You sure can tell me what you think.

A. Okay. So my opinion is that you had an intersection that was not what perfectly aligned.

MR. GARBER: Hold on. Now we need to discuss what intersection you're referring to.

THE WITNESS: I'm sorry. The intersection of 147 at Glen Arm and Mount Vista Road.

BY MR. HOLZER:

Q. Right.

A. It's my understanding that the State Highway

Administration conducted studies in 2009. I do not have that information, so I can only give you my insights as to what I believe, and it does not have any bearing since the State Highway Administration did not share all the details. However, I would imagine that -- we have produced, based on our accidents, a lot of accidents at that location. I do not know the accident history at the intersection of 147, Glen Arm, and Mount Vista.

But again, if they did a three-year study, it would have been from 2006 to 2009. Looking at traffic volumes, the skew of the intersection, it may have warranted a traffic signal, but they decided, based on the accidents, to install a roundabout.

Q. Okay. And based on the accidents, would they have analyzed the accidents further south on Harford Road?

A. I don't know that.

Q. Isn't it true that the State Highway Administration would not let anybody get that information?

A. I don't know.

MR. GARBER: Which information?
MR. HOLZER: The information that he just said he couldn't get.
MR. GARBER: The accident?
MR. HOLZER: Yes.
MR. GARBER: South of where the roundabout is.
MR. HOLZER: No. The reason why they put a roundabout in versus --
MR. GARBER: Their decision-making as to why they did the roundabout at the Glen Arm-Mount Vista-Harford Road location.
MR. HOLZER: Correct.
You don't have to say anything.
THE WITNESS: Okay.
MR. HOLZER: It's already been addressed on that point. I'm trying to get through these documents as quickly as I can.
BY MR. HOLZER:
Q. The speeds -- I appreciate your being candid about the speed on 147 in the northbound direction. I kept asking you last time "isn't it 50 miles," and you

said no, you felt it was what? 45?

A. Again, 45 based on the old --

Q. Right.

A. -- I guess the old parameter, that it's supposed to be the same in both directions.

Q. Right. Now, in the year 2016, Baltimore County put out a highway location reference for all intersections, and I was just having fun, reading through this the other day. And on page 153 the speed limit on the northbound is 50 miles per hour, which is exactly what you've now acknowledged, right?

A. (Witness indicates.)

Q. So somebody coming northbound on Harford Road could hit this first turn on the left-hand side of Exhibit 1, could hit that going 50 miles per hour, right?

A. Good luck to them.

Q. I'm sorry?

A. Good luck to them.

Q. Okay. You think good luck to them, but they could do it, couldn't they?

A. The data shows they're not doing it.

Q. Okay. That's your final answer?

MR. SCHMIDT: Well, that's the only question you asked, so he --

MR. HOLZER: No.

MR. SCHMIDT: -- he might have another --

MR. HOLZER: We haven't started our case, you understand.

THE WITNESS: Right. I'm going off of -- again, I think we talked about Exhibit 28.

MR. GARBER: Exhibit 28. That's right.

THE WITNESS: Page 7, the first page 7, titled Maryland 147 Northbound, South of Bonapart Avenue --

MR. GARBER: The one designated as page 7. It's actually page 8 of Exhibit 29.

THE WITNESS: Yes.

MR. GARBER: Maryland 147 Northbound, South of Bonapart Avenue.

I mean, is the ultimate question: Can anyone take that turn going 50 or above?

MR. HOLZER: No.

MR. GARBER: The data would reflect that, at least within the time frame recorded, whether someone did or did not, right?

MR. HOLZER: Yeah. The time frame that they recorded it, which was, I think, five or six days at a certain time frame, indicate that they average 34 miles -- or 31 miles an hour up there. But that doesn't say for the rest of the year, for the other 51 weeks. People driving that road going north could see 50 miles an hour and take that turn.

THE WITNESS: So based on the data we collected for 16,390 vehicles over a one-week time period.

MR. HOLZER: Right.

THE WITNESS: And let me say this as an aside. When the State Highway Administration or other people conduct these types of speed studies, they look at a hundred cars. We looked at 16,390 vehicles in the northbound direction in which we had one car traveling on a daily basis between 46 and 50 miles per hour.

BY MR. HOLZER:

Q. Where did that car come from, and who was it?

A. Mario Andretti.

(Attendees laugh.)

MR. GARBER: All right. Let's --

BY MR. HOLZER:

Q. You just made my point.

A. Okay. And again, when the State Highway Administration designs its roads, they're designing it for the normal driver. There are people who can drive aggressively, yes, but today, consistently, there's 16,389 people out of 16,390 who are traveling it at 46 miles per hour or less --

Q. What about --

A. -- which is a very good percentage.

Q. I'm sorry. What about your clients? They have people from different jurisdictions, different states, maybe even different countries. Do you think that that's fair to them, to suggest that oh, because all the locals know not to drive 50 miles an hour up that road, that they're supposed to know that?

A. These are --

MR. SCHMIDT: Objection. That's not relevant to

the case. Who knows where the people of the 16,000 cars, whether they are from here or not.

Mr. Caloggeri doesn't --

MR. GARBER: I will say this --

MR. SCHMIDT: It says "speculative."

MR. GARBER: -- I would agree. The question is, as I recall was "Is it fair to them?"

MR. HOLZER: Yes.

MR. GARBER: The road is signed as it's signed, and the fairness of it is not really part of this case. But if you're asking could someone not pay attention to the signs, pay attention to the signs, not realize or recognize the conditions of the roadway, of course, anything is possible.

MR. HOLZER: That's true. I accept that answer.

THE WITNESS: Can I further answer, please?

MR. GARBER: The question is --

MR. HOLZER: I'll ask him another question.

MR. GARBER: That's fine.

BY MR. HOLZER:

Q. The speed limit going south --

MR. GARBER: If Mr. Schmidt wants to ask you a question about that, Mr. Schmidt will. Mr. Holzer has another question now.

THE WITNESS: Okay.

BY MR. HOLZER

Q. The speed limit is 45 miles an hour, right?

A. Correct.

Q. Going south. So that's what it also -- the state, Baltimore County presentation says that, and this was available before the last hearing.

Now, let me go back to -- is it fair to say that a lot of assumptions go into your ultimate conclusion about whether this road is safe or not safe or safe under certain conditions?

A. Professional engineering judgments.

Q. So is that another way of saying assumptions?

A. Professional engineering judgment based on the -- based on national guidelines.

Q. Okay. Exhibit 28 -- you said that it was from Thursday, September 26th to Thursday, October 2nd or maybe the 3rd, right?

A. Correct.

Q. Do you know whether your client had any festivals during that time frame?

A. I do not.

Q. Well, you were out there, so if they would have had a festival, you would have seen it, would you not? Because you were on site?

A. The way these are conducted, we have our technicians place the tubes out on the road at the very beginning and then pick them up at the very end.

Q. So you weren't out there at any time between these two dates of the 26th and the 2nd?

A. I drove through maybe once or twice. My technician drove there more than once to check the conditions, that the tubes were still on the ground.

Q. And then the tube had a problem on October 3rd?

A. I believe. Again, I don't know the exact problem, but something happened on October 2nd that stopped that count short.

Q. And the only thing that I wanted to ask you is the 95th percentile speed, that can also be a legitimate

percentile that you would consider, right?

A. Typically the State Highway Administration considers the --

Q. 85.

A. -- 85th percentile speeds.

Q. Right.

A. And that goes into that they're assuming that 15 percent of the people may be driving at higher speeds, so they look at the 85th percentile.

I brought into the 95 percentile because 95 percent of the people are driving below the recommended speeds of the State Highway Administration requested for the design.

Q. So even the State Highway Administration knows that they posted this speed limit for 50 miles going north and 45 going south, and yet they realize that there is a percentage of 15 percent of people that are going to exceed that?

MR SCHMIDT: Objection. It's not -- the 15 percent is exceeding the 34 and the 31 percent [sic], not the speed limit.

MR. GARBER: I understood Mr. Holzer's question is the State Highway Administration looks at the 85th percentile, whatever the speed limit is on whatever road.

MR. HOLZER: Right.

MR. GARBER: And then calculates the 95th percent because -- not because there are people, in fact, doing it, but there is an estimated number built into the percentages.

MR. SCHMIDT: No. But what I'm saying, Mr. Garber -- and I just want to make sure I understand Mr. Holzer's question -- the 85th is based on the speed that he measured, not the speed limit. As I understood Mr. Holzer's question, he was saying that 15 percent are going faster than the speed limit. It's 15 percent are going --

MR. GARBER: I see.

MR. SCHMIDT: -- faster than the limit or the actual speed that Mr. Calogerri -- maybe the witness can clarify.

MR. GARBER: Yes, and that's what I was going to

suggest.

Mr. Calogerri, can you please shed light as to what it means by the 85th percentile speed. Is it measured by the speed limit or by the actual speeds recorded?

THE WITNESS: The actual speeds recorded.

MR. SCHMIDT: So in the one case it's 15 percent are going faster than 31, and 15 percent are going faster than 34 miles per hour.

THE WITNESS: 15 percent were going faster than 31, and 5 percent were going faster than 34.

MR. SCHMIDT: That's northbound.

THE WITNESS: That's correct.

BY MR. HOLZER:

Q. How can you say that? Because 15 --

A. The data says it.

Q. -- 15 percent are -- oh, you're saying that 15 percent exceed 31?

A. Yes.

MR. SCHMIDT: And 5 percent exceed 34.

Q. And so 5 percent --

MR. GARBER: I think we're on the same page now.

MR. HOLZER: Yeah.

MR. SCHMIDT: It's not the speed limit; it's the speed; it's the recorded.

MR. HOLZER: I knew it was not the speed limit.

MR. GARBER: Thank you for that clarification.

MR. HOLZER: Yeah, I knew it was not the speed limit, but I was trying to calculate how many people could be going the speed limit, which was 50 miles per hour.

BY MR. HOLZER:

Q. So in those percentages, some people could be going 50 miles per hour around those turns and they're not violating any law and they're simply not the majority of people, correct?

A. Yeah.

Q. Yeah. Okay. I have a bunch of questions, but I don't need them now.

Now, as far as -- let's go back to 126 and 127.

MR. GARBER: Well, Petitioner's 26 -- Exhibits 26 and 27.

Q. 26 and 27. You -- this document -- this letter from MDT is nothing more than a letter that says what you've proposed on Exhibit 26 is we will consider it in granting an access permit; is that right?

A. (As read): The SHA grants as depicted on the concept plans.

Q. I see that in the second paragraph, but it then says: An access permit will be required to construct this relocated entrance and all access-related improvements taking place within MDOT State Highway Administration right-of-way on Maryland 147. That means they are going to analyze this again before making a final approvement and issuing an access permit, correct?

A. No.

Q. No?

A. You said "analyze." They are going to -- if the concept plan is approved and we're going to design it accordingly and submit it to the State Highway Administration for them to review the construction documents, and then when they're comfortable with the design, the final design, that's when we apply for our

access permit.

Q. Okay. So in other words, all this says is conceptually what you've drawn up there looks okay to us, but we have a lot of things to go through, and you have a lot to show before we actually issue the access permit, right?

A. We have to show the construction documents.

Q. What about -- it says: All must be followed when preparing the above plan submitted, including but not limited to -- and then it lists four different documents. Doesn't that mean that you're going to have to comply with State Highway standards, policies, and specs?

A. To get an access permit, yes.

Q. Yeah. Okay. So this is not a done deal within that respect until the access permit is issued, correct?

A. What is not a done deal?

Q. The fact that you're going to have this entranceway moved, the fact that the sight distances are confirmed, the fact that the vegetation has to be taken down, and the fact that there has to be a modification

of 147 in terms of changing or moving the width and the location of the road?

A. The facts are the State Highway Administration has conceptually approved this drawing, and then we need to prepare the construction documents for them to approve for us to construct this access.

Q. Okay. Well, in -- I'm just trying to find my notes where you testified at the very beginning there was the new access plan, which is marked on the board as 26, with the location of a new entrance across from Bonapart. And you said that there were four considerations that were involved in the sight distance. You have 390 feet looking south at 35 miles per hour, right?

A. Yes.

Q. And you had 500 feet looking north at 45 miles per hour?

A. Yes.

Q. And so if you're using 35 miles per hour and 45 miles per hour instead of 50 miles per hour and 45 miles per hour, how is that consistent with the State

Highway Administration requirements? It's fudged.

A. No, it's based on prevailing speeds, and we produced the speeds to document that.

Q. Oh, so you're saying that they grant you a waiver --

A. No.

Q. -- or an exemption because they are using prevailing speeds and not the actual speed limit?

A. No. We do not -- we do not need a waiver or any kind of specific permit. We need an access permit, and it was designed towards the 85th percentile speeds.

Q. I know what you designed.

A. Excuse me. It was not designed -- it was designed to the speeds recommended by the State Highway Administration for this specific access for this specific stretch of road.

Q. For this specific access and this specific road, they said you don't have to use the standard of the 50 mile an hour and the 45, you can go 35 and 45?

MR. SCHMIDT: Just objection. It's assuming that that's the standard. Other than that, that's what

the question --

MR. GARBER: I think that it is an -- question. The real question is what is the standard? That is, should you be applying the speed limit, or should you be applying the prevailing speed limits as Mr. Caloggeri said --

MR. HOLZER: I didn't want to ask that question.

MR. GARBER: -- and the source for that.

MR. HOLZER: I didn't want to ask that question because in the future that may be a relevant issue for someplace else.

MR. GARBER: Maybe so, but that is basically what you're --

MR. HOLZER: That's what I'm saying.

MR. GARBER: Okay. Is there a question then pending?

MR. HOLZER: No.

MR. GARBER: Okay.

MR. SCHMIDT: There will be a question on redirect, then.

MR. HOLZER: Well, that's okay if you want to

ask it. Let me see if I have anything else.

BY MR. HOLZER:

Q. As I understand my notes, which were hastily done while I was trying to listen to you, you said that existing pavement has to be shifted 3 or 4 feet. Did I listen to you?

A. That's fair.

Q. Would you show me again?

A. Sure.

Q. I was trying to write down some thrilling cross-examination questions, so I didn't get a chance for you to show me that?

A. So Exhibit 26 --

MR. GARBER: Exhibit 26.

A. I'm pointing in the area of the existing access, today's access. There's -- we'll call it "excessive pavement" between the right shoulder and the existing monumental median. The State Highway would like us to utilize that area as part of the new roadway and shifting the roadway towards what I'm going to call the "east side" --

Q. Okay.

A. -- as we depicted on our plan.

Q. So you don't have to pave new road? You just use the concrete that's there?

A. No. That's all part of the access permit with the construction documents that we will be providing to make sure all of this is going to be shifted properly, probably going to be called what's a "milling overlay," where the existing pavement markings will have to be removed by what's called "milling the road," where they take the top coat of the road. That's where lay people, you'll see when you're driving on the road and you hit all these little bumps in the road. That will be repaved once it's -- it will be reconstructed, repaved with new strivec.

Q. And who's doing that? Who's paying for that?

A. It should be the developer, as part of the access permit process.

Q. Now, what's happening, if you know, with this old access and old entrance and the circle there? Is that going to be eliminated, or is it going to be left

there? Or what's happening?

A. I do not know. My assumption is that the access will be curb and guttered, so it will be eliminated through by curb, but I don't know if there's going to be landscaping or anything else that's going to be placed there. I don't think we've hit that level yet.

Q. My question is would your clients be able to use the existing road and get out onto Harford Road?

A. No.

Q. Why do you say no?

A. It will be closed. It will physically closed.

Q. How? With what?

A. Curb and gutter.

Q. Fence or --

A. Curb and gutter.

MR. GARBER: Hold on. Hold on. Hold on.

THE WITNESS: Sorry.

MR. GARBER: What was your answer?

THE WITNESS: Curb and gutter.

MR. GARBER: Curb and gutter?

THE WITNESS: And gutter. Well, that's what

they call it. When you build an access, typically the State Highway Administration requires you to build the curb and the gutter for storm water management purposes, build the curb to help designate the road. So curb and gutter would physically close that access off.

BY MR. HOLZER:

Q. Okay. Is there a curb and gutter anywhere else in this exhibit --

MR. GARBER: 26.

Q. 26?

MR. GARBER: Which picture, sir?

THE WITNESS: I'm pointing at Picture 3. Picture 3, as you're -- 3 is --

BY MR. HOLZER:

Q. Where is that?

A. -- located --

Q. Way up here? Talk about what's curb -- is there any curb and gutter along this area?

A. To my knowledge, no.

MR. GARBER: Could you specify which area?

MR. HOLZER: I would say from -- I don't know.

There's nothing here -- from 285 to 360.

THE WITNESS: It's all part of the access permit documents. The SHA is either going to or not going to require curb and gutter or any other access improvements or access design, access construction. And if it's not curb and gutter, then the next would be to remove, physically remove that portion of the road and replace it with landscaping or what have you.

BY MR. HOLZER:

Q. And then according to this exhibit also, the same exhibit, the dark blue lines would be a change in the existing roadway to create the new intersection?

A. That would be correct.

Q. And will all of that be part of what is submitted to the State Highway Administration?

MR. GARBER: All of what?

Q. All of the new location of the entrance way and a closing, if you will, of the old entranceway?

A. I'm almost positive it's either going to be all SHA and Baltimore County review or partial, but I believe SHA would review the entirety of it. But this

is also part of the site plan itself, so the county would be reviewing it as well.

Q. So Baltimore County would be reviewing the site plan, showing this new entranceway?

A. Yes.

Q. And State Highway -- they would have to review it.

A. They would review it as well. That's what I said. The SHA -- I just don't know how far back jurisdiction would allow SHA to go.

Q. Right.

A. So the county would pick up wherever they can't.

Q. Never mind. I was going to ask you about the pill, but I don't need to do that.

Based upon your conversations with the State Highway Administration, then, and your obtaining the -- proposing this new location, does that mean that the State Highway Administration believes the existing driveway is unsafe for a commercial entrance?

A. Do they believe that? I don't know that.

Q. Unsafe for a commercial entrance?

A. I do not know that.

Q. Well, if they're not letting you use it, couldn't you believe that they felt that that was improper or unsafe?

A. It could be that they may want it more safe. It doesn't mean the access is unsafe.

Q. Because you had testified that that access was safe.

A. I did.

Q. But now you've proposed that it's more safe? Is that what this new entrance is?

A. We have increased the sight lines, but it doesn't mean the first access is unsafe.

Q. Okay. But the first access wouldn't have gotten an access permit, would it?

A. In accordance with SHA, no. That's why they asked me to redesign it.

Q. Right. Once this plan is approved, if it's approved, would this access permit be for a -- would it be classified as a commercial access?

A. I don't know the specific classification. I

don't even know if they call it a specific classification. All I know is --

Q. I thought we went over that before. I'm sorry.

MR. GARBER: One at the time, please.

A. Yeah, I'm not a hundred percent sure how the SHA would designate this type of access. We're constructing the access per conditions outlined to us, but again, I'm not sure how --

Q. Well, I'd like to ask, when you get an access permit, does it say on the access permit whether it's residential or whether it's commercial?

A. I usually don't do that, so I don't know.

Q. What you mean you usually don't do that?

A. It's somebody else. It's usually the civil engineer who prepares those documents to obtain the access permit. I'm not trying to be coy. I just don't know what's on the permit.

Q. Okay.

A. I mean, I could tell you it's not --

Q. So it still could be a commercial access permit? You're not saying it can't be?

A. Correct.

Q. Okay. Gotcha.

MR. HOLZER: I'm trying to eliminate a lot of questions.

MR. GARBER: It's quite all right. It's quite all right.

BY MR. HOLZER:

Q. Is this a standard traffic count apparatus that you used on Harford Road?

A. Absolutely, yes.

Q. They've been used before or they have a history of being used?

A. Absolutely.

Q. And did you ever find out why the one, two -- what caused the trouble?

MR. GARBER: Is that no, sir?

THE WITNESS: That is a no. I do not know. I have no idea.

BY MR. HOLZER:

Q. You don't take them up or you don't place them or you don't take them up?

A. Correct.

Q. Someone else in your firm does that?

A. Correct. And sometimes it's when they pull the data, the data's missing. There could have been something happened with the tube. It could be the machine. I don't know, but the data stopped collecting at that point.

Q. Okay. Now, there is going to be a festival coming up this month, and I was wondering are you planning to send -- to set up any traffic counters to monitor the traffic during this multi-day event?

A. I have not been requested to do so.

Q. Other than appearing today, would you be requested to be at this multi-event that's being proposed or that's coming up shortly in October to observe the traffic situation?

A. I have not been asked at this event nor the others.

Q. Okay.

MR. HOLZER: All right. I think I have no further questions.

MR. CLARK: Did you want to do the video?
MR. HOLZER: Oh, I'm sorry. Yes. I apologize.
MR. GARBER: I want to ask, just for the record here, what is the video that's about to be shown?
MR. HOLZER: It's a one-minute video taken by Mr. Clark, who will then verify in his testimony what it was, so we're just using it to ask a question of the witness.
MR. GARBER: Are you intending to put that into evidence?
MR. HOLZER: Yeah.
MR. GARBER: So we'll mark it for now. We're going to need a CD obviously with the video. Oh, you have. Look at that.
MR. HOLZER: Seven of them.
MR. GARBER: This will be Protestant's Exhibit 13.
MR. HOLZER: Mr. Clark, can you charge up the battery?
MR. CLARK: Yes.
MR. SCHMIDT: If I can, I'm going to stand over

here where I can see.

MR. GARBER: No, no, no. That's totally fine.

Madam Court Reporter, is this setup working for you?

MR. HOLZER: There's nothing on it, Mr. Chairman, so there's nothing for her to take.

MR. GARBER: Mr. Calogerri, could you please watch the video then, which is Exhibit 13?

MR. CLARK: Can everybody up there see it?

MR. GARBER: Yes.

(Video recording played; not reported.)

MR. CLARK: --

Mr. GARBER: What he said was he thinks that's the end of the clip.

Okay.

MR. CLARK: It's just where I edited it out.

MR. HOLZER: And I have a question.

MR. CLARK: Just, I leave this up?

MR. HOLZER: No. Oh, yeah, you can leave it there fore now.

MR. GARBER: Leave it there for now. That's

fine.

BY MR. HOLZER:

Q. Does that change your opinion, Mr. Calogerri, in regard to any of your testimony?

A. No.

Q. Okay. Thanks.

MR. HOLZER: No further questions.

MR. CLARK: Can I take it down?

MR. HOLZER: Yes.

MR. GARBER: Well, before you take it down, if you're going to be using it later today, maybe it's best to leave it in place.

MR. HOLZER: No, we won't use it today.

MR. CLARK: I'll wait until we adjourn.

MR. GARBER: That's fine.

(Whereupon, Mr. Clark exited the proceeding.)

MR. GARBER: Mr. Schmidt, I'm assuming you may have a question or two?

MR. SCHMIDT: Not many, but I'll leave it up to you.

MR. GARBER: No, I'm leaving it up to you.

MR. SCHMIDT: We can finish.

RE-DIRECT EXAMINATION BY MR. SCHMIDT

Q. Mr. Caloggeri, what did you see in the video?

A. Well, I saw one vehicle leaving the site, going to the right side of the road, stopping, and making a safe maneuver out. I saw a vehicle who -- which cannot be identified as a local, a resident, someone going to the temple, turning in, getting confused, coming around where there was enough room for that vehicle to go around the existing median, coming to a full stop, and accessing Maryland 147 safely.

And that goes to show me that, you know, people can today turn in and out of that existing driveway safely. There's plenty of sight distance for that person to do based on their video they presented.

Q. Mr. Holzer asked you about accident crash data and suggested that the number of crashes increased at this location after the Petitioner acquired the site. If you can take a look at your Exhibit No. 30, which is the crash data, what were the dates of the four

accidents that occurred in 2017?

A. The first accident was January 28th.

Q. Right.

A. The second, March 2nd; the third, September 25th; and the fourth, December 13th.

Q. So if the Petitioner had acquired the site let's say on April 27th of 2017, two of the accidents would have acquired before their -- happened before their acquisition and two would have were acquired -- or occurred after, correct?

A. Correct.

Q. Let me also ask, if I can just, just about the speed going northbound because I just want to make sure the record is clear.

The exhibit that you presented and the testimony that you presented is that the 85th percentile of traffic going northbound was 31 miles an hour, correct?

A. Correct.

Q. So that means 85 percent of the traffic is going 31 miles an hour or less at that location, going northbound?

A. That is correct.

Q. And in terms of 95 percent, 95 percent of the vehicles are going 34 miles an hour or less at that location, correct?

A. That is correct.

Q. So 5 percent are going greater than 34 miles an hour, correct?

A. That is correct.

Q. And I think you also indicated -- I just want to make sure -- that there was one vehicle that was going 46 miles an hour or faster that was recorded of the 16,000-and-some-odd vehicles, correct?

A. Correct. One vehicle between 46 and 50.

Q. So of the 16,000 vehicles that you recorded, there was one car going faster than 46 miles an hour?

A. Correct.

Q. And you indicated you drove out there that week; is that right?

A. I did.

Q. Were you the car?

(All laughed.)

A. I was not.

Q. You had also indicated you don't know why and the State Highway Administration has not disclosed why they constructed the roundabout at the intersection of Mount Vista, Glen Arm, and Harford Road, correct?

A. Correct.

Q. But you surmised, as a traffic engineer, that it was -- it could possibly be due to the accident -- number of accidents at that location, correct?

A. Correct.

Q. Or it could be due to the fact that the intersection was not aligned -- when I say it was not a cross intersection, but the alignment was separate or the cross streets were different?

MR. GARBER: The angles were different.

BY MR. SCHMIDT:

Q. Were different, correct?

A. The angles were skewed.

Q. In your opinion, was it a capacity-related issue?

MR. HOLZER: Objection. How can he do all that

dialogue and then ask you what your opinion is.

MR. GARBER: I will say this: When you were asking the questions, I was wondering how he could give any answers to it.

MR. HOLZER: Right.

MR. GARBER: I would have the same opinion here, but you asked those questions. You opened the door for them to be answered by him. I would say that this question is on par with that, but I'm not going to give you too much leeway into it.

MR. SCHMIDT: That's the only question I asked him: If he thinks they put that in there because it was a capacity problem.

THE WITNESS: I would venture to guess that it was more accidents and operations than capacity.

MR. SCHMIDT: I don't have any other questions, Mr. Caloggeri.

MR. HOLZER: No questions.

MR. GARBER: Mr. Caloggeri, thank you very much for the second time.

MS. DOPKIN: I have a question. I'm sorry.

MR. GARBER: I stand corrected.

DIRECT EXAMINATION BY MS. DOPKIN

Q. I would ask you about your Exhibit 26.

A. Yes.

Q. Photographs Number 3 and 5?

A. Yes.

Q. And they show the -- what you have referred to as the recommended speed limit of 30 miles an hour?

A. The advisory speed, yes.

Q. Now, is that an enforceable speed limit?

A. No, it isn't.

Q. Does it effectively reduce the posted limit? Meaning, what's the significance?

A. Well, the speed limits are regulatory, and they are usually between a point A and a point B, and there are numerous potential conditions in between point A and point B where you're not saying, in this case, hey, the speed limit is 45, but now it's 30, and now, once you go through these two turns, it's back up to 45, and then there's a hill, so now it's 40 again, and now it's 50.

So what they do is they put these warning signs,

and all these signs are national -- nationally designed, and they're -- you know, you see these signs here, and you see them in Boston and California. So you have the warning sign and the advisory speed to tell you at this point we're advising you to slow down to this speed because that's the safe speed.

Q. And if I'm going over that speed, would I get a ticket?

A. No, you would not.

Q. Thank you. And then I have one other question. Mr. Holzer asked you a lot about the rolling designation you've characterized Harford Road as. Are there other designations in the highway manual?

A. Yes.

Q. What are they, for example?

A. I would really have to look. I mean, there's rolling terrain, there's mountainous terrain, so if we were designing something in Western Maryland, that would be probably a different design. My guess would be Route 50, if you're approaching -- if you're going across the Eastern Shore to the bridge, where you have

regular flat terrain for long stretches of miles, that would be another one. So something -- those different types of characteristics.

And again, they really don't try to get into the well, this small portion of road is rolling. We were looking -- our company looked at this as generally speaking Harford Road is of a rolling-type road.

MS. DOPKIN: Thank you. That was all.

MR. GARBER: Any questions based on those?

MR. SCHMIDT: No.

MR. HOLZER: No.

MR. GARBER: Okay. Mr. Caloggeri, this time you are excused.

THE WITNESS: Thank you.

MR. GARBER: Thank you very much again for your testimony.

Mr. Schmidt, you have another witness.

MR. SCHMIDT: Yes, it's a lady from the neighborhood who asked me to testify.

Do you want to testify now? Or it's up to the Court.

MR. GARBER: I would prefer to go forward.
THE WITNESS: Yes.
MR. GARBER: And apparently so would the witness.
MR. SCHMIDT: That's fine.

MARCIA BARTON,

called for examination, having been first duly sworn to tell the truth, the whole truth, and nothing but the truth, testified as follows:

MS. DOPKIN: State your name and address for the record and spell your last name.
THE WITNESS: Marcia Barton. Address is 11909 Woodberry Place, 21087, Kingsville.
MR. GARBER: 21807.
THE WITNESS: 087.
MR. GARBER: And how is Woodberry spelled?
THE WITNESS: W-O-O-D-B-E-R-R-Y.
MR. GARBER: Thank you.

DIRECT EXAMINATION BY MR. SCHMIDT

Q. Ms. Barton, where is Woodberry Place in relationship to this property?

A. Oh, I would say between 8 and 10 miles away.

MR. GARBER: If I can, is that to the north, south, east, west?

THE WITNESS: It would be to the east of where we're talking about.

BY MR. SCHMIDT:

Q. Ma'am, I really haven't spoken to you prior to you showing up here today, so with Mr. Holzer's permission, I'm just going to -- are you a member of any civic association or community group, or are you here on your own?

A. I'm here on my own. I did attend a Greater Kingsville Association meeting in September based on a bulletin I received through the Kingsville -- I think it's called The Bull, the newsletter that discussed the challenges that were being faced over the temple.

Q. Okay.

A. I found some of those challenges to not -- not be quite fair to what the temple people are trying to accomplish. So I went to the Kingsville Association -- or the Kingsville Civic Committee to hear what they had

to say. What I discovered there was a lot of misinformation that was taken as fact by members of that civic association.

For an example, one of the ladies of the Board there stated that there was going to be 20,000 people attending the festivals. I asked her outright, "Where did you get that figure?" And she can couldn't quite answer me. I also asked them had they done independent research before taking the recommendation of another community group whose name I cannot remember right now who recommended against the temple being able to have its worship and its festivals, and they did not have a clear answer for me on that.

I grew up in Kingsville, and I know the roads, I know the people, I know the community. And it seemed to me some of the objections were not only because they were misinformed but seemed to not take into account existing things that are already accepted by our community.

And I'd like to say, as an example, Saint Stephen's church on Bradshaw Road. Bradshaw is

just a two-lane road two lane, about the same, let's say, capacity as Harford Road. When they have their carnivals, the place is packed, there's lots of noise, there's Ferris wheels, there's all kinds of things going on for several days during that season. But in addition to that, because there's a school there, any given day from 3:00 p.m. on or in the mornings, both sides of Bradshaw Road are backed up with parents either dropping off or picking up their children.

And so considering what the objections were to the temple traffic and the temple noise, I thought it sounded like there would be a lot less than Saint Stephen's currently has and the people in the community right next to Saint Stephen's have to put up with.

Q. And Saint Stephen's is a Christian church?

A. Yes, Catholic church. It's very close to me. That's why I used that example, because I use Bradshaw Road a lot. But I have also observed there are lots of, like -- especially at this time of year -- harvest festivals and carnivals and things still going on. And

yes, there's a little bit more traffic during those times than normal, but nothing that I think would -- I don't believe the temple's attendees would exceed anything that you've already experienced during holidays or festivities.

The other objection that I heard was the amount of noise. And again, since they're not having hard rock bands; they're not, to my knowledge, having Ferris wheels and tilt-a-whirls that it's --

And the property sets so far back, there is a large -- I looked at the Google map, so I saw what the terrain looked like. There are large shrubs lining the road that do -- would mitigate some of that noise to houses across the street on Harford Road.

So I find some of these objections to be, well, less Christian-minded than I would expect from this community. This is a place of worship. That's what this country was built on -- was freedom of worship, and I fully support the Nepali Temple and its community, and I hope it is successful in being able to carry out its business.

Q. This occurred when you said the information that information that you obtained at a meeting of the Kingsville Improvement Association or --

A. It's the Greater Kingsville Civic Association, GKCA.

Q. If you know, do you know what date that was?

A. That was -- I have it on my cell phone. I want to say it was around the 19th.

Q. Okay. Was there a vote taken at that meeting?

A. No.

Q. Whether to support the request or not to support the request?

A. Not that I know of there was no vote, and I was there for the whole meeting.

Q. You were there for the entire meeting?

A. Yes.

Q. Was there anybody there from the Nepali Community Center to present their view or to explain what they were proposing?

A. Yes. When the lady on the Board said that there were going to be 20,000 people and I asked her where she

got that number, I then asked one of the gentlemen that are sitting behind you, I said, "Could you please clarify that for the audience?" and he did so.

Q. What did he say?

A. He said that they expected around 300 people for the festivals, not 20,000. He also clarified some other facts as the conversation went on. There were a number of the members there. I don't know how many. I would say at least six or seven.

Q. Okay. Thank you, ma'am. Anything else that you wanted to say?

A. No.

MR. GARBER: Mr. Holzer?

MR. HOLZER: No questions.

THE WITNESS: Thank you.

(Attendees applaud.)

MR. GARBER: Thank you very much, ma'am.

You guys, please hold your applause.

All right, Mr. Schmidt?

MR. SCHMIDT: That would be the Petitioner's case, subject to rebuttal.

MR. GARBER: Do you rest?

MR. SCHMIDT: Yes.

MR. GARBER: Mr. Holzer, your case will begin, but I would anticipate that you would rather do lunch.

And Madam Court Reporter, if you need a break, now would be a good time as well.

Mr. Holzer, what do you think you're going to be looking to do this afternoon?

MR. HOLZER: Getting as many witnesses on as I can.

MR. SCHMIDT: Off the record.

(Whereupon, a discussion was held off the record.)

(Whereupon, there was a recess for lunch, 12:41 p.m. - 1:53 p.m.)

MR. GARBER: Please be seated. We are back for the afternoon session in the Nepali matter, Case 18-122, and I believe we're at Mr. Holzer.

MR. HOLZER: Yes. I have five people lined up as witnesses today, and I hope that's going to take us to your cutoff time frame. If it doesn't, I don't have

anybody else ready to go today.

MR. GARBER: Do you know any jokes?

MR. HOLZER: I could do a dance.

MR. GARBER: As it was just brought to my attention, I forgot, you did reserve on your opening, and I don't know if you want to do that now.

MR. HOLZER: No, I don't think so.

MR. GARBER: And that's fine.

MS. DOPKIN: We just wanted to bring it to your attention.

MR. HOLZER: That's great because, honestly, I didn't remember reserving on it. Can I do it at the end?

MR. GARBER: Sure. We'll try something new. All right. If you're ready to go?

MR. HOLZER: Yes.

MR. GARBER: Okay.

MR. HOLZER: Yes. As I said, I have four or five ready-to-go witnesses. None of them are experts, per se; they're not going to have to qualify. So they're neighbors, witnesses etc., so I hope that takes

to the end whatever you're --

MR. GARBER: Right. And I seem to recall there may be some community people. And I don't know if anyone here is testifying on behalf of the community association or for the civic association. There was, of course, the letter introducing them --

MR. HOLZER: The Kingsville letter.

MR. GARBER: -- previously.

MR. HOLZER: Yes.

MR. GARBER: So at least there was one. That's okay.

MR. HOLZER: Right.

MR. GARBER: Mr. Schmidt, do you agree with that?

MR. SCHMIDT: Yes. About the letter being introduced?

MR. GARBER: Yes.

MR. SCHMIDT: Yes, I recall.

MR. GARBER: That matter's already taken care of, okay. All right. With that in mind --

MR. HOLZER: Okay. I would call Mary Clark.

MARY CLARK,

called for examination, having been first duly sworn to tell the truth, the whole truth, and nothing but the truth, testified as follows:

MS. DOPKIN: All right. Would you please state your full name and address for the record, and spell your last name, please.

THE WITNESS: My name is Mary Clark, C-L-A-R-K, and my address is 12150 Harford Road, Glen Arm, Maryland.

MS. DOPKIN: You can sit down.

THE WITNESS: Thank you.

DIRECT EXAMINATION BY MR. HOLZER

Q. Ms. Clark, I don't know whether this is the best document to use, but it's up there. It's Petitioner's Exhibit No. 2. Is there any way you could identify it on this document where exactly your home is just so that they can see it?

MR. GARBER: If we're going to be doing that, Ms. Clark, you're going to have to vocalize as best as you can what you're pointing to or otherwise mark on an

exhibit what you're pointing so that it is recorded in the record.

THE WITNESS: Yes, sir, I will.

MR. GARBER: Okay.

THE WITNESS: I'm identifying my home on this exhibit right here, directly across from the Bonapart property, and we could put a mark here to clarify that for the record.

MR. GARBER: Mr. Schmidt?

MR. SCHMIDT: If she wants to put her initials there, that's okay with me.

MR. HOLZER: I've got red pen.

MR. GARBER: So you've marked on Petitioner's Exhibit 2 where your house is located --

THE WITNESS: Yes.

MR. GARBER: -- relative to the property.

THE WITNESS: With a red MC. Is that okay?

MR. HOLZER: Yes.

THE WITNESS: Mr. Schmidt, is that okay?

MR. HOLZER: Is that okay?

MR. SCHMIDT: (Indicates.)

MR. GARBER: Yes.

MR. HOLZER. Thank you.

BY MR. HOLZER:

Q. Ms. Clark, about how long have you lived there?

A. We've lived in the home for 33 years.

MR. GARBER: You said "we."

THE WITNESS: I'm sorry. My husband, Dewey, and I have lived in our home for 33 years.

BY MR. HOLZER:

Q. And have you raised your family there in those 33 years?

A. Yes. We raised a daughter there, and it's also where my mother-in-law died, so it is our home in the truest sense of the word.

Q. Have you attended all of the hearings or most of the hearings that we've had before the Board?

A. Yes, I have.

Q. And did you attend the ALJ, or Administrative Law Judge hearing?

A. Yes, I have.

Q. You're familiar with what is being requested

then?

A. That is correct.

Q. What concerns, if any, do you have that you can express to the Board?

A. I have some concerns I would like to express to the Board if I may.

MR. GARBER: Yes.

THE WITNESS: My concerns related to the NACCB Inc's, use of the property at 12231 Harford Road are twofold. First, I have a concern about my right to solitude and quiet enjoyment of my property in a rural RC 2 zone; and second is a concern about personal safety and the increased traffic on Harford Road. These concerns are not mine alone. More than 150 neighbors living in the Long Green-Haystack Valley community also share these concerns. This is one of the last rural valleys in Baltimore County.

MR. GARBER: One second. I believe there is a correction from Mr. Holzer.

MR. HOLZER: Yeah. I was letting her introduce herself at this point.

MR. GARBER: I thought you were trying to interject something.

MR. HOLZER: No, no.

MR. GARBER: I apologize.

BY MR. HOLZER:

Q. I'll ask the next question, though, since I think you've covered your overall concern in terms of -- well, not being specific. Why don't you elaborate on your first concern, which you said was your right to solitude and quiet enjoyment. Could you explain what you mean by that and what events have occurred that have affected your ability?

A. Well, like many of my Glen Arm neighbors, I grew up in a location far different from the Long Green-Haystack Valley. I was raised in a high-density congested noisy area of Baltimore City. My backyard was surrounded by a chain-link fence, and we only had a tiny patch of grass. And the noise from the neighbors, yelling and screaming, was frequent and upsetting both outside the house and inside through the thin walls connecting the houses.

This is a major reason why my husband and I moved to Glen Arm -- to enjoy the quiet solitude of this rural area and to transform our property into a native wildlife habitat.

Q. Could I interrupt and ask you: How many acres do you have consisted of that you've marked on the --

A. It is slightly larger than a 2-acre parcel.

Q. Okay. And do you know how far your home is in terms of feet or yards from Harford Road?

A. Probably our home is less than a hundred feet from Harford Road, give or take.

Q. Okay. I'm sorry to interrupt you. I just wanted to place where -- what you're talking about in terms of --

A. Certainly.

Q. Go ahead. You can carry on.

A. The NACCB's disregard for the neighbors' solitude and quiet enjoyment of their property is especially troublesome since both Mr. Ghimere and Mr. Kharke both have claimed the importance for solitude. For example, in his January 17, 2018, ALJ

testimony, Mr. Ghimire described the importance of solitude at the Bonapart property as an important feature for their group. He stated that when they saw this property sitting on top of this hill with 30 acres, not having anybody in near proximity, "We thought this was the perfect location."

So I asked myself, Where is the due diligence? Did he not look at the land plat or drive around the neighborhood to see that there are many neighbors in proximity to the Bonapart property?

And another example of this disregard, in his early 2018 letter to Fork United Methodist Church, Mr. Kharke, who lives, according to his statement, 5 miles from the Bonapart property, described the rural Kingsville community in which he lives. He cited the tranquil nature of that area, and he described it as a nature resort, away from noise and crowds. He stated that tranquility was very important to him in his home.

But let me assure you, quiet solitude is vitally important to those neighbors who do, in fact, live in close proximity to the Bonapart property.

Q. Are there any examples of problems that have occurred along that line that you can recite to the Board?

A. I do have several. For many months now, residents in this Long Green-Haystack Valley have been unable to enjoy the quiet solitude that we highly value. Large multi-day events conducted by the NACCB on the Bonapart property have produced very loud, amplified sound and music. The level of sound and music is such that, even with our windows closed, the noise is highly disturbing.

For example, at the recent fundraiser held by NACCB from July 28th to August 3rd, the amplified sound of drumming was so loud that we had to abandon our home and stay with friends out of town for several days. I don't understand how the NACCB members can say they are being good neighbors yet they have continued to hold large multi-day events with amplified sound and music. As we know, this prohibition on amplified sound and music was explicitly stated in ALJ Beverungen's 2018 ruling.

And I'm going to relate a particularly painful experience which occurred this past spring. My 90-year-old father was dying in a local hospice center. I would come home each day after visiting with him, expecting a peaceful place at my home to relax and reflect. Far from being able to relax in quiet solitude, the extremely loud noises from almost nightly volleyball tournaments shattered the peacefulness of my home.

One would think that people playing volleyball is not a terribly noisy event. Quite the contrary. The constant percussive screaming and yelling -- and I'm going to repeat that for emphasis because it's very disturbing to me: Constant percussive screaming and yelling coming from the NACCB's volleyball court was destroying my peace and solitude. As I've illustrated, our home is just across the street from the volleyball court, and the noise is horrific.

On the afternoon that my father died, we came home to mourn his passing. I could not even grieve for my father in peace, as the screaming and yelling from

the volleyball court lasted until dark. I will always carry that painful memory with me -- that I could not grieve for my father in peace in my own home on the day he died.

And another example, on many Sunday mornings as early as 8:15 a.m., I have been awakened by that same percussive screaming and yelling from volleyball tournaments. It sounds as though they are playing volleyball not far outside our bedroom window, and other neighbors can also hear the screaming of volleyball players. I did not choose to live next door to a recreation field, a ball field, or a playground.

Why should my neighbors and I have to give up the quiet enjoyment of our property when we live in an RC 2-zoned area of the county. Unlike the previous witness, we don't live 8 to 10 miles away; we live right across the street. Unlike the previous witness who lives near Saint Stephen's church in an RC 5 zone, we live in an RC 2 zone. And unlike Saint Stephen's, which was founded in 1850 as a church and in 1930 a school, the NACCB began its activities in 2017.

Q. Let me interrupt for a second and ask you a question. You said you've lived there about 33 years; is that correct?

A. Yes.

Q. During those 33 years up until 2017, how was the property across the street from you utilized?

A. As a single-family residence.

Q. And in your 33 years of living there, did noise emanate from that property in the same way that it's emanating that you've just referred to?

A. It did not.

MR. SCHMIDT: Objection. That's not the legal criteria.

MR. HOLZER: Of course it is. It's 502.1. It is the legal criteria: The impact on adjacent property owners.

MR. GARBER: I'll allow it.

MR. HOLZER: Thank you.

THE WITNESS: It did not.

BY MR. HOLZER:

Q. Okay. Do you have a second concern now that

you've addressed the noise concern?

A. Yes.

Q. What is that?

A. My second concern relates to the increased traffic on Harford Road. As we've heard, this is a narrow two-lane road with blind curves and no shoulder. The Bonapart property is located right in the middle of one of the most treacherous sections of road in Baltimore County. We, my husband and I, have heard, witnessed, and assisted with many traffic accidents that have occurred on these curves, as have our neighbors. The loss of life, the number of serious injuries, and the property damage have been substantial over those decades.

I personally was in one of those accidents -- involved in one of those accidents years ago when a vehicle crossed the center line at the blind curve just south of the Bonapart property. I could not steer out of the way of the oncoming vehicle because there is no shoulder; there is only a guardrail. Fortunately, my daughter and I were not injured in the crash nor was the

driver of the other vehicle, but the memory of that impact still haunts me. Just this Sunday morning at rush hour, a vehicle crashed right into the hillside before the blind curve, heading north. Maybe the driver could have been trying to avoid hitting a deer. I don't know, but with the increased commuter traffic on Harford Road near the Bonapart property, the traffic situation is getting worse every day.

Millions of dollars, as we've heard discussed earlier, were spent on a roundabout to help address some of the traffic issues in this area. But continuing to allow large multi-day events at the Bonapart property with an excess of 200 vehicles and 300 people is absolutely beyond belief. Not only does this increased traffic burden endanger the area residents, it imperils the attendees at these events as well as our first responders.

Q. Do you have an example of a fundraiser that you would like to address?

A. I do.

Q. Okay.

A. At the recent July 28th-August 3rd fundraiser on the Bonapart property, I personally saw numerous vehicles leaving the property while failing to stop before pulling out onto Harford Road. Some of their attendees missed the entrance going northbound and actually backed up on Harford Road, just barely missed avoiding a collision with vehicles heading northbound. Other attendees had to pull out nearly to the center line before making a turn due to the limited sight distance. This road is extremely dangerous in this area and ill-suited to an increase in traffic, particularly by those attempting to enter and leave the Bonapart property located so near this blind curve.

At a previous hearing one of the NACCB witnesses and local resident Ida Twining testified that, even after decades, she even often misses her turn on this section of the road.

This rural two-lane road serves a range of vehicles -- commuter traffic, tractor-trailers, bicycles, farm equipment -- so not all of the accidents are caused by dangerous driving and high speed. We have

a serious deer problem, as do many other areas in Baltimore County, so that's a source of accidents. There is also slow farm equipment traveling up and down Harford Road serving the farms, and occasional livestock escapes their fences and wanders onto the road. And then there are the traffic accidents and incidents that never get reported, such as vehicles that run off the road and into a ditch, and then reenter the road.

I guess what I would also like to point out, which is very disturbing, are the changing quote/unquote "facts" reported by the NACCB members during the course of these hearings. For example, at the ALJ hearing Mr. Ghimire testified that there would be three major festivals each year. Then at the Board of Appeals Day 1 hearing, you heard him state that there could be five major festivals per year. The number of people the attending these festivals also has changed over the course of these hearings.

In a July 2017 Facebook post, Mr. Ghimire wrote that over 1,000 attendees from across the state line came to be part of this grand festival over two days.

That's 500 people per day. "We had volleyball" -- his quote continues on Facebook: "We had volleyball teams from New York, Pennsylvania, Columbia, and Baltimore and event participants from New Jersey, Virginia, and many other states.

But then at the last hearing, we heard Mr. Powell, their sanitarian, testify that NACCB members told him a maximum of 200 people per day would attend a festival, and that's on which he based his calculations for his work on the septic system and well.

Q. Could you --

A. As far as outdoor --

MR. GARBER: One second.

Q. I was just going to say --

A. I'm sorry.

Q. Could you testify as to what you understand in regard to what takes place inside the building and what takes place outside the building?

A. Yes.

Q. Okay.

A. As far as the outdoor activities, again, I'm

referring back the ALJ testimony. Mr. Ghimire testified that once the building is completed, all the activity will take place inside the building. He stated that at festivals the microphone will be stationed inside the building. Then at the last hearing Mr. Powell stated in his water usage summaries that festivals will be held outside in front of the mansion.

So I ask what are the local residents to believe regarding festivals -- how many, how often; weddings -- how many, how many attendees waiting outside for the married couple and their family to leave; how many attendees at festivals. What about the amplification of sound and music? Is it any wonder that the local community is extremely concerned about this use, this land use, of an RC 2-zoned rural property? And no one has yet to address the potential for their membership growth and potential for increased use of the property over time.

Q. What do you mean about the increased use of the property?

A. We don't know. There might be more members,

more activities, more weddings.

Q. What about acreage? Right now they're only using around 2 to 3 acres of the 30. What are you concerned about in that respect?

A. That there might be expanded facilities to house more members and more festivals and other particular ceremonies that would be held on the property.

Q. All right. I'm sorry I interrupted you again. Could you continue?

A. Yes. So despite what NACCB witnesses have testified in regards to the conditions in Section 502.1, I believe that there is ample and clear evidence that allowing this special exception will affect and already has affected these following criteria: A, it has been detrimental to the health, safety, and general welfare of the locality; B, it has created congestion on this rural two-lane state highway; C, it has created a potential hazard from fire, panic, or other danger; G [sic], it has been inconsistent with the purposes of the property's zoning classifications; H, it has been inconsistent with impermeable surface and vegetative

provisions; and I, it has been detrimental to the environment and natural resources of the site and vicinity.

Q. Well, you've already testified so far insofar as A and B. Do you have any testimony related to the other aspects that you just quoted?

A. I do. For example, hazard from fire or panic might result from excess crowds and difficulty of emergency vehicles to access the property or parts of the property. Holding many large noisy multi-day events in an RC 2-zoned area is inconsistent for the purpose of this zoning classification. Runoff from the property's impermeable surface has already caused erosion issues for the neighbors. And finally continued use of this 100-plus-year-old single-family property as a commercial/institutional venue will adversely affect the surrounding natural environment.

I also want to state that, even after the disturbances that NACCB, Inc., created in August of 2017 -- and they were alerted to neighbor concerns about the nuisance they created -- not one person from NACCB

came around to apologize to adjacent neighbors or offer to remedy the situation, as would any good neighbor who made a mistake. And the large events and the traffic and the noise have only grown worse during the past year.

Q. What final comments do you have to address to the Board?

A. I would ask the Board the following question, if I may. First, why should the Long Green-Haystack Valley community, particularly those living within a mile and a half of the Bonapart property, be subjected to the adverse impacts of this commercial/institutional venue; second, how many times per year will I have to abandon my home due to loud amplified music and sound from large outdoor festivals and other gatherings? What about the rights -- my rights as a landowner in this locality, who chose to live in this area and who preserved it as a quiet rural community? Why should we give up the right to solitude and quiet enjoyment in our own homes?

An analysis, for example, of the Petitioner's attendees from the ALG hearing and from the previous

Board of Appeals hearings shows not one NACCB member lives closer than 5 miles from the property, and that was is stated by Mr. Kharke and his host on Facebook. And even their own quote/unquote "local witnesses" from a previous hearing, Ida Twining and Daniel Monogue, live outside a one and a half-mile radius.

In my humble opinion, this use does not meet the standard for a special exception. There is a wealth of empirical evidence to support that conclusion. Thank you for your time.

MR. HOLZER: Your witness.

CROSS-EXAMINATION BY MR. SCHMIDT

Q. Ms. Clark, I've noticed your testimony was generally you reading a statement that I assume you or someone prepared?

A. I prepared that statement, sir.

Q. Did anyone else assist you with the preparation of that statement?

A. I had a few people review it, but there were almost no changes; for example, I shared it with Mr. Holzer.

Q. Anyone else?

A. I had a couple of people proofread it just for some typos.

Q. Your husband?

A. He actually did not see my final statement.

Q. Okay. Let me start with the traffic first. I think you described someone who has lived there 33 years. I assume the traffic has grown over the years?

A. It has.

Q. You were here for Mr. Caloggeri's testimony, were you not?

A. Yes, sir.

Q. I believe he testified that there were over 2 million trips on Harford Road in that area per year, based on his traffic counts, if you would extrapolate them?

A. I heard that testimony.

Q. Would that surprise you, or is that consistent with your observations as a resident?

A. That would not.

Q. That's a commuter route for in the morning and evening. What direction are most people going? Where are most people going, if you know?

A. In the morning they head south, and in the evening they head north.

Q. So they're going from Harford County or the northern areas of Baltimore County, towards Baltimore City, and then going home in the evening; is that --

A. Toward the city. Where they end up, they might be in Towson or many other locales.

Q. And you also described that there are tractor-trailers that use that road?

A. Some.

Q. Is there any prohibition on vehicle weight on Harford Road that you know of?

A. I do not know.

Q. But you have seen 18-wheel tractor-trailers go up and down the road; is that right?

A. Not only have I seen them go up and down the road, I have seen them cross the double yellow line because the curves are so sharp that they cannot

sometimes accommodate themselves in their own lane.

Q. Okay. But there's no limitation on -- in other words, a lot of smaller roads have limitations on truck traffic on them, that they prohibit a weight limit. That's apparently not the case here; is that right?

A. I'm not a traffic expert. I do not know.

Q. Well, you know, you've lived out here for 33 years. How often do you see tractor-trailers go up and down that road? Once a year? Once a day? Once a month, would you say?

A. I don't know. A couple -- maybe once a week or less.

Q. And there's no signs out there that you're aware of that are prohibiting or limiting truck traffic; is that right?

A. I don't know of any.

Q. On the day -- you described an event at the property from -- I think you said July 28th of this year, I believe, to August 3rd; is that correct?

A. Yes.

Q. Tell me a little bit about that event. How many

people were on the property? Do you know?

A. I was not on the property, so I really don't know.

Q. You don't know. Do you have any idea of was it the same level of noise or volume of traffic each day, or was one day busier than the other, if you know?

A. It could have been toward the latter part of that event that there was increased noise and traffic. That's when we had to abandon our home, because the noise kept getting louder and louder. So at the end of the event, with our windows closed, the loud, amplified drumming was unbearable. We had to leave.

Q. Was somebody playing the drums?

A. Yes, sir.

Q. Okay. Somebody was playing the drums. I guess it was all six days of the festival somebody was playing drums on the property?

A. It sounded like it. And the noise kept getting louder and louder.

Q. So on August 3rd the noise was so loud you had to leave your home?

A. We left on August 2nd. I couldn't stand it.

Q. Were there any traffic accidents over that period of time?

A. I don't know.

Q. Well, you live, ma'am, across the street.

MR. HOLZER: Objection. She already testified that she left her home, so how could she have an answer to that question?

MR. SCHMIDT: Well, she left her home, Mr. Holzer, for the last part of the event.

BY MR. SCHMIDT:

Q. My question would be: During the first portion of the event, were there any traffic accidents near the access that you're aware of?

A. I don't know.

Q. Okay. You don't know whether there were or weren't?

A. I don't know if there were.

Q. Did you see any?

A. I did not witness any accident scene specifically. I did witness a number of near misses

that could have been horrific accidents.

Q. Up at the access point?

A. Yes, sir.

Q. What were you doing up there?

A. We were having a cookout at one of our neighbor's properties.

Q. Is that the property that's right across the street from the access point?

A. It is.

Q. Did you have to cancel that because of the noise coming from the Nepali property, or were you able to have a cookout?

A. No. We held it.

Q. How many people were at the cookout?

A. Half a dozen or more.

Q. Were you-all making any noise?

A. We were speaking.

Q. Nothing else?

A. No.

Q. Let me ask you: How does the 2.1 million -- 2.1, not million. Excuse me -- 2.1 million

automobiles and tractor-trailers going up and down Harford Road impact the solitude of your property, or does it?

THE WITNESS: I have a question for you, Mr. Schmidt.

MR. SCHMIDT: You can't ask me questions, ma'am. You have to answer mine.

MR. GARBER: Mr. Schmidt is correct.

THE WITNESS: Okay. I beg your pardon.

MR. GARBER: You're here to answer his questions at the moment.

BY MR. SCHMIDT:

Q. You've acknowledged that there's over 2 million cars on a commuter route with tractor-trailers and farm vehicles going up and down that commuter route on an annual basis, and that's increased over the years. Has that impacted the tranquility and solitude in terms of the use of your property?

A. Very seldomly. It's like this. I grew up --

Q. Ma'am, I'm not asking --

MR. HOLZER: Objection. Let her finish.

Q. I'm not asking you --

MR. GARBER: Hold on, hold on, hold on.

Q. I'm not asking you to --

MR. GARBER: Hold on, hold on, hold on. Everybody hold on.

Ma'am?

THE WITNESS: I would like to respond to Mr. Schmidt's question, please.

MR. GARBER: Please give your answer.

THE WITNESS: Thank you.

To me -- I know this might not make a lot of sense to other people -- but what we hear from the traffic where our house is located is a gentle swish on the road. And to me, growing up in the city, this was a challenge for me initially to live in a rural area, and I came to love it. And that gentle swish -- it's like if you go to the beach and you hear the ocean at night as you're falling asleep, it's a noise, but it's a relaxing, calming, comforting noise, so the gentle swish of the traffic is what I hear. And yes, there is an occasional emergency vehicle or something, but to me the

noise from the traffic is fairly minimal, and that's what we hear. That's what I hear.

BY MR. SCHMIDT:

Q. Have you ever been to Ocean City, Maryland?

A. I have.

Q. Have you vacationed there before?

A. As a child.

Q. Are you comparing the noise that the ocean makes to the traffic noise that goes up and down close to the highway in Ocean City, Maryland? Is it the same thing as that? Is that what you're telling us?

A. I am comparing what I feel and how I perceive a calming noise of the gentle waves at the ocean to the swishing of traffic on Harford Road. And I mentioned earlier that that might not make a lot of sense to some people, but that's what I -- how I perceive it.

Q. Okay. So you perceive the noise from tractor-trailers, farm equipment, and over 2 million vehicles going up and down Harford Road to be akin or similar to, I think you said, a swish similar to the noise of water and relaxing?

MR. HOLZER: Objection.
THE WITNESS: I --
MR. HOLZER: She's already testified to that three times now.
MR. GARBER: I believe it is repetitive, but it's also cross-examination.
MR. SCHMIDT: Thank you.
MR. GARBER: So we'll --
THE WITNESS: But what I hear -- excuse me. I'm sorry.
MR. GARBER: Go ahead.
THE WITNESS: What I believe I stated was the normal noise of the cars on the road is what I hear as a gentle calming swish, from our property. And yes, there's the occasional ambulance or fire equipment with a siren or a police car or the occasional tractor-trailer, but for the vast majority of what I hear on the road, it is that calming gentle swish of the traffic.
BY MR. SCHMIDT:
Q. Do you -- would you expect that any of the folks

who are going to come to worship at the subject property would arrive by tractor-trailer?

A. I do not know what type of vehicle they would be driving.

Q. Okay. Well, assuming that they came in an automobile, wouldn't that further contribute to the calming swish of traffic by having some more cars producing the calming swish of traffic noise at this location?

A. That is not my concern. It's the increased traffic that may impact the accident rate on Harford Road if there are -- as one of the NACCB members said, there were 500 people at two-day -- per day at a two-day festival. And so my concern is not that noise. My concern is the volume and the turning and the stopping and people coming.

You heard the testimony I just gave, the quote that "people are coming from out of state." And people encountering that particular intersection, that access point, from out of state is -- we've seen the behavior, and it is not an easy place to navigate around those

blind curves. So it is the --

Q. Well, let me -- oh, I'm sorry.

A. So it is the volume of traffic of those events.

Q. So the noise from the traffic is good and calming, but it's increased traffic volume which concerns you? Is that what I'm hearing?

A. My primary concern is the increased traffic volume for this single-family residence in an RC 2 zone.

Q. Has there been any accidents as a result of the Napali's use of the property that you're aware of?

A. I do not know. I would like to testify was that I saw dangerous behavior in the egress and ingress of that property that almost resulted in accidents.

Q. And that's when you were up at the barbeque?

A. Correct.

Q. Okay. Any other occasion that you've been up there, watching traffic go in and out of the site, or just that one occasion?

A. There are some times when I'm driving up and down Harford Road in my daily activities that I have observed behavior for ingress and egress of the site

that was not particularly safe.

Q. Like what?

A. People entering the wrong side of the island, people stopping and backing up.

Q. Do you know who those people are? Do you know if they're --

A. They're entering the property through the gates. I don't know who they are.

Q. You don't know whether they're members of the congregation or not?

A. They're entering the property through the gates. I don't know who they are.

Q. You had mentioned also about your concerns about environmental degradation or impacts, but is Nepali proposing any new construction activities on the property? Is the house going to be enlarged? Torn down? Replaced? The building that's on the property?

A. That I don't know, but what I do have --

Q. You don't know?

A. -- to introduce is a photo of cars parked on the grass. And to me --

Q. Ma'am, if you could just be responsive to my question, please.

MR. HOLZER: I think she is being responsive, Mr. Schmidt.

Q. And that is if you're aware of improvements to the property there?

A. I said I do not know.

Q. You don't know. Okay. That's a fair answer. I was just asking you that question. Thank you.

How far is your house from Harford Road?

A. I said it's about a hundred feet maybe.

Q. Okay. About a hundred feet from Harford. How far is your house from the building that's on the Nepali property?

A. That I don't know, but I do remember -- I believe it was Mr. Motsco testifying that our house -- he measured it -- was about 300 or so feet from the tennis court -- volleyball court.

Q. How many volleyball courts are there, if you know?

A. Perhaps one.

Q. Do they play volleyball anywhere else, to your knowledge, on the property?

A. I don't know.

Q. You've described these volleyball tournaments. If you know, was there use of any other portion of the property for the volleyball other than the volleyball court, or was there just one game going on?

A. It was an extended period of volleyball playing, such as a tournament. I do not know if there were other games on other parts of the property. And I did include in the statement from one of the members about the multiple places, multiple states from which the volleyball teams came, so to me that seems like a tournament.

Q. But you don't know if they had multiple games going on or just one?

A. What I heard was loud percussive screeching and screaming and yelling which was constant. If it was one game or more games, I heard horrific noise, and that was extremely upsetting to me in my -- to disturb my quiet enjoyment and solitude on my property.

I played volleyball for a number of years, and I played it inside a gymnasium, and I never in my life heard such screaming and screeching and yelling from a volleyball court.

MR. GARBER: Ms. Clark, it will go a lot quicker if you just answer his question. I understand what your answer was there. His question was asking you about whether you knew if there was a tournament -- if I recall correctly -- whether there was a tournament or not.

If the answer is you don't know if there was a tournament but you have other, you know, other reasons to believe that the game was an extended game or whatever the case may be, that's something different.

THE WITNESS: I don't know how -- I'm not going to define "tournament." It just was a lot of volleyball playing and extremely loud noises, I have testified, and over an extended period of time, night after night after night.

BY MR. SCHMIDT:

Q. When you say "night," is the volleyball court a

lighted court, if you know?

A. They usually stop when it gets dark. So I do not know about lights, but I know that around dark the noise would stop.

Q. So you don't know if the court's lighted or not?

A. I do not. I -- excuse me.

Q. You mentioned the accident that happened with your young daughter. How long ago was that? Do you know when that was? What year?

A. It was about 20 years ago.

Q. Are you familiar with the Christian Redeemer and the Beachmont property that's not far away?

A. I have driven by it.

Q. Your familiarity is -- after living there for 33 years, your familiarity is that you have driven by it. Have you ever been on it?

A. Yes.

Q. How many times?

A. A handful.

Q. Would you say that's in the same neighborhood as this property? Same general neighborhood?

A. It's in the vicinity, but I know the zoning is different.

Q. Zoning aside, geographically, would you call it in the same neighborhood?

MR. HOLZER: Objection. She just answered the questions.

MR. SCHMIDT: No, that's the problem.

MR. GARBER: Mr. Schmidt.

MR. SCHMIDT: She doesn't answer the questions.

MR. GARBER: Mr. Schmidt.

I think he's actually correct. I don't think that she actually answered the question that was asked; she answered about the zoning and if she -- in her mind that means it's a different neighborhood or the same neighborhood or factors into that calculation, it's a different matter.

MR. HOLZER: Fine. Well, then let her explain what she means by that.

MR. GARBER: Ma'am, do you consider the Christian Redeemer Beachmont property to be the same neighborhood in which you live?

THE WITNESS: No.
MR. GARBER: And why is that?
THE WITNESS: It's a different zone.
MR. GARBER: Different zone as in --
THE WITNESS: Zoning.
MR. GARBER: -- the zoning classification?
THE WITNESS: Yes. Correct.
BY MR. SCHMIDT:
Q. So the neighborhood, in your opinion, is defined by the zoning classification of the property?
A. That's one of the criteria.
Q. What are the other criteria?
A. The existing farms, the working farms in the area; the historic value of the valley in terms of the people who settled it in the 1800s.
Q. How does that -- I'm not trying to be difficult, ma'am. I'm just trying to get an understanding of how you determine what I would call the neighborhood that's impacted by the proposed Nepali use. And do I understand that your determination of the neighborhood is based on who settled the property back in the 1800s?

MR. HOLZER: Objection. She testified --

Q. Is that your criteria?

MR. HOLZER: Objection. I'm sorry to be keep asking -- objection, but he's misplacing her words for her. The answer is very simple: She said the neighborhood --

MR. GARBER: Mr. Holzer --

MR. HOLZER: -- could be defined by the zoning.

MR. GARBER: Mr. Holzer, that was part of the answer; there was other criteria. Two of the things that have been mentioned were farms and she did mention who settled the property in the 1800s, and I believe Mr. Schmidt is following up on that. Her list may not be complete. Maybe there is more to be asked about, which obviously you would have that on redirect.

Mr. Schmidt.

BY MR. SCHMIDT:

Q. What I'm trying to understand, Ms. Clark -- I'm not trying to trick -- but I'm just trying to find out what you would consider the neighborhood to be in which the Nepali property is located. And as I understand it,

your answer is that the Beachmont and Christian Redeemer property, which I think we can agree -- how far is Christian Redeemer from you? And Beachmont, how far is that property? As the crow flies, how far is it from you?

A. I really don't have an accurate answer. It's probably about a 10-minute drive.

Q. Okay. Well, let me -- let's take a look at Petitioner's Exhibit No. 2 because you put your initials on here. This is your property here, correct?

A. That is correct.

Q. And the entrance to the Nepali property is right here, correct? There's Bonapart Avenue? It's opposite of Bonapart Avenue; is that right?

A. That is correct.

Q. How long does it take you -- you've driven these roads for 33 years or better, correct?

A. Yes.

Q. How long does it take you to get from your property up to the access at Bonapart if you drive it? How long does it take you to make that drive?

A. It depends on how fast I'm driving.

Q. Well, let's say on an average day, when you drive these roads, how long does it take you to get from here to there?

A. A couple of minutes.

Q. And do you know where the Beachmont property is?

A. Yes.

Q. Can you show us, if you see it? Or do you recognize it on this map?

A. The Beachmont property is over on this side, and the Redeemer property is over on that side.

MR. GARBER: So the Beachmont property is to the right of the Redeemer property?

THE WITNESS: Yes, sir.

MR. SCHMIDT: As shown on Exhibit No. 2.

BY MR. SCHMIDT:

Q. And that takes you 10 minutes to drive up there?

A. 10 or 15, give or take.

Q. And you don't know how far away that is as the crow flies from your property?

A. I have not measured it.

Q. Have you ever been impacted by any of the activities that are occurring on either of those properties?

A. No.

Q. You've never been impacted by any of the traffic that's produced on those properties?

A. No.

Q. They have a school over there, right?

A. I believe they do.

Q. They have a camp over there, don't they?

A. The Beachmont has a camp.

Q. They have a corn maze that brings a lot of people, particularly this time of year, that you can actually see in the photograph, right?

A. Correct.

Q. You've never heard any noise from that? Never been bothered by anything over there?

A. No, because one of the things that I've seen from the aerial shots is that a lot of that property lies in a bowl, as opposed to the pinnacle on which the Bonapart mansion sits. And I believe that perhaps the

fact that the Beachmont camp and also the Redeemer school, being in that low-lying topographical area, mitigates the noise, so we do not hear anything from either the school or the camp.

Q. And another distinction between the Nepali property and that property is that's a Christian-based religious use, is it not?

MR. HOLZER: Objection.

THE WITNESS: That's one of some differences.

MR. HOLZER: Objection. It's pretty obvious what that question is.

MR. GARBER: Technically it's argumentative, but it's also a fair question without argument.

THE WITNESS: I will state for the record --

MR. SCHMIDT: I didn't ask any questions, ma'am.

MR. GARBER: There is no question pending.

THE WITNESS: I beg your pardon.

MR. GARBER: That's okay.

BY MR. SCHMIDT:

Q. How long has the Nepali Community Center owned the property?

A. I believe sometime in early 2017, according to what I've heard here at the hearings.

Q. How many festivals have they had or events have they had since that time that you're aware of?

A. I can't be sure, but probably more than half a dozen or so.

Q. Can you tell us when they were?

A. I don't have that off the top of my head. I'm sorry.

Q. Can you tell us how long they lasted?

A. I think some lasted two days, which is what Mr. Ghimire testified to, for an event in the summer of '17; and then we had the more recent July 28th to August 3rd event. I don't keep track of how long each of the events are. I don't mark that on my calendar.

MR. SCHMIDT: Just a moment. Thank you, ma'am. I don't have any other questions.

MR. GARBER: Mr. Holzer, do you have any redirect for Ms. Clark?

MR. HOLZER: Yes.

MR. GARBER: Okay.

REDIRECT EXAMINATION BY MR. HOLZER

Q. Do you know whether or not Beachmont is incorporated as a rec center and not a church?

A. The Beachmont property, I believe, is incorporated as a recreation center.

Q. Do you know whether or not -- well, so you know it's incorporated as a rec center?

A. I believe so.

Q. When you were being asked about communities, in terms of your analysis of what a community is, you said the zoning is something --

MR. GARBER: Mr. Holzer, I think it was actually "neighborhood."

MR. HOLZER: Oh, neighborhood? I'm sorry.

MR. GARBER: Just so we don't confuse the term.

BY MR. HOLZER:

Q. When you talked about neighborhood, you talked about a different -- that zoning was one of the bases that you used to determine whether it was in or out of the neighborhood, correct?

A. Yes.

Q. In terms of your analysis of your neighborhood, can you explain why the neighborhood that you live in is not the same as the one further up?

A. In my view, there's the zoning difference between RC 2 and RC 5.

Q. Right.

A. And I'm obviously not a land use expert.

Q. Right.

A. From my understanding, that makes it different. And I also would state that a very long time ago, we were approached by a member of the Beachmont camp when they were looking for their expansion and going through their process. We refused to sign that letter because we did not support that expansion. And more recently we have opposed and filed paperwork with Baltimore County regarding the corn maze and the rules of the zoning matter that they are not in compliance with anymore. So we have actually opposed the expansion of activities regarding that Beachmont Christian camp.

Q. In terms -- well, needless to say, you're not a zoning expert, are you?

A. No, sir.

Q. Are you even familiar with land use issues in Baltimore County?

A. No, sir.

Q. So you're basically a lay person who is being asked technically to define what a "community" or a "neighborhood" is, correct?

A. I'm a lay person. That's correct.

Q. Did you do your best to try to separate the difference between Beachmont and your neighborhood or your home?

A. Yes.

Q. In addition to the zoning, is there anything else that distinguishes the Beachmont area neighborhood from your neighborhood?

A. In addition to the zoning?

Q. Yeah.

A. I think the topography is different, and as I said earlier, that seems to play a factor in the fact that whatever noise is being generated by -- for example, the camp is not something we hear.

Q. Now, insofar as volleyball and the shouts that you defined, how long does this in a normal week -- how long does playing a volleyball -- is it just, like, one night a week, or is every Saturday or Sunday? Just tell us what that means.

A. At certain times of the year, it was every night. It was every night, starting at about, say, 5:30, 6:00 until whenever it got dark, and that's, you know -- as the summer progresses, that gets longer and longer. And many Sundays, Sunday after Sunday, 8:15 in the morning, 8:30 in the morning they were playing volleyball. The same loud percussive screeching and screaming and yelling.

Q. Okay. And how many months or days or whatever did this go on? I mean, did it start in 2017, or did it just start in 2018? Do you know?

A. I know that it was there in 2018. I'd have to -- I can't really recall about 2017. But it was many, many days; many, many evenings; many, many Sundays.

Q. Did Mr. Kharke state anything in a statement

about the tournaments? Do you have any documentation from him -- what he called it?

A. Only that they had volleyball teams from New York, Pennsylvania, Columbia, and, of course, Baltimore and even participants from New Jersey, Virginia, and from many other states.

Q. Okay. So did he use the word "tournament"?

A. Not in this particular post.

Q. Okay. Do you recall any other statement where he indicated they were tournaments?

A. There might have been, but I cannot recall offhand.

Q. Now, you just testified on direct that the administrative law judge prohibited outside amplification; is that right?

A. That was what we received in the mail -- was ALJ Beverungen's decision after that hearing, and there were particular criteria for the special exception, and that was one of the criteria.

Q. Okay. Now, since that time, since the administrative law judge's decision, where you saw that

as one of the conditions, has there been outside amplification since that time?

MR. SCHMIDT: Objection. And Mr. Garber, my objection is based on several things. First of all, this is not a zoning violation appeal or appeal of any zoning violation case. Secondly, as the witness has testified, she's not an expert in zoning, and whether Judge Beverungen's decision is binding in view of the appeal or whether it's not binding or how the Bureau of Code Enforcement may view that in view of the appeal of Judge Beverungen's decision, which is obviously going to be superceded by whatever decision this Board makes or also enter into it. I don't believe she's qualified to answer that question, so I object for those bases.

MR. HOLZER: And he's wrong, and the reason that he's wrong is that he did not take an appeal of the conditions. They didn't take an appeal of ALJ at all. We did. Therefore, the conditions -- he didn't cross-appeal; therefore those conditions are still in existence and the Board is bound by those conditions.

You certainly can add more, but as far as the

conditions that were imposed, I've got case law that will end up in a memorandum to you. But I'm saying for right now, I think she's entitled to say what I ask her.

MR. GARBER: Mr. Schmidt?

MR. SCHMIDT: I think this Board is going to make its determination and its findings of fact, not based on the testimony before ALG Beverungen, but the testimony here before you. And obviously you're going to impose, assuming you grant the relief, whatever condition or conditions or no conditions. This is obviously a de novo hearing, and the underlying basis of this is the grant of the underlying special exception, and this Board is going to decide that issue obviously is a threshold issue, and then make a determination.

So with all due respect, Mr. Holzer, you're wrong.

MR. HOLZER: No, he is wrong.

MR. GARBER: It's okay.

MR. HOLZER: And I'm going to --

MR. GARBER: It's okay.

MR. HOLZER: We've got the law on our side; I've

got case law on our side.

MR. GARBER: We'll hear more about that.

As to this question, I do think it's relevant to the special exception factors. And we have already discussed noise, and I believe that this is just following up on those issues. I do not take it as a matter of did it violate Judge Beverungen's ALJ order regarding the conditions itself. I think it's just a matter of framing it for the purposes of, you know, the noise levels that she had heard since that occurred.

MR. SCHMIDT: Okay.

MR. HOLZER: Yes.

MR. SCHMIDT: Well, then I would also object because it's beyond the scope of cross-examination.

MR. GARBER: I believe she has testified several times over the course of direct and on cross about the large percussive noises coming from the property, and I believe that this is following up on that, so proceed.

MR. HOLZER: Thank you.

BY MR. HOLZER:

Q. The question was --

MR. SCHMIDT: Mr. Garber, I'm not going to tell you you're wrong.

MR. GARBER: No problem.

MR. HOLZER: I have no trouble telling him he's wrong (indicated Mr. Schmidt.)

MR. GARBER: Okay.

BY MR. HOLZER:

Q. The question was since the ALJ's decision, have there been amplification of sounds such as music or speaking coming from the site?

A. Yes. As I testified, during the most recent July 28th to August 3rd event, the noise -- the amplified sound of music and noise was so loud that we had to abandon our home.

MR. GARBER: If I can jump in here, when you say "amplified," what are you referring to? Are you saying from electronic equipment?

THE WITNESS: Yes, sir.

MR. GARBER: Okay.

BY MR. HOLZER:

Q. Now, you were asked a bunch of questions by

Mr. Schmidt in which he sort of implied that, well, you didn't really know or you had to say, "I don't know what's going on in the subject property." Do you recall some of those questions?

A. Yes.

Q. Have you ever trespassed since the Petitioner acquired the property? Have you ever trespassed onto his property to do anything in terms of finding out where the volleyball court is, finding out the status of the home, whatever? Have you ever done that?

A. I have not.

Q. So that explains why you don't know exactly where the volleyball court is from the standpoint of its physical location or how many there are; is that right?

A. Only to the extent that there have been the exhibits that their expert witnesses have shown, so that's what I'm trying to recall -- are those exhibits that have been presented to the Board.

Q. Okay. Now in the cross-examination, you started to --

MR. GARBER: Have you shown Mr. Schmidt that?

MR. HOLZER: No, I haven't. I just want to have her to see it first.

BY MR. HOLZER:

Q. You started to pull out a photograph in response to one of the questions that he asked you; is that right? And this is the one that you did?

A. It is.

Q. Do you have another?

THE WITNESS: Did you take the folder?

MR. HOLZER: No, I didn't take the folder.

(Photograph is handed to Mr. Schmidt.)

BY MR. HOLZER:

Q. Now, can you identify this picture? You did not take it, did you?

A. I did not.

Q. This was taken by someone else --

A. Yes.

Q. -- that will testify later?

A. There -- there was a drone pilot that was taking drone footage of the event because we were advised to collect evidence, and the drone pilot had specific

coordinates that ensured that his vehicle did not cross the line between the neighbor property and the Petitioner's property.

Q. Now, this picture --

MR. GARBER: We need to mark that because it hasn't been marked.

MS. MURPHY: This is Protestant's 4, right, that was marked for ID only? Is that the same photo?

MR. HOLZER: No, it's a different photo.

MR. GARBER: And Mr. Schmidt, you do have a copy of it in front of you?

MR. SCHMIDT: Am I looking at the one you're showing her?

MR. HOLZER: Yeah.

MR. SCHMIDT: It's the same thing?

MR. HOLZER: It's all the same thing.

MR. SCHMIDT: Okay.

MR. GARBER: So this is Protestant's 14?

(Protestant's Exhibit Number 14 was marked for identification purposes.)

MR. HOLZER: Yes, this is a new one.

MS. MURPHY: Okay. This is ID only.

MR. HOLZER: Okay. I know a lot of them are only ID because I have a witness that will come who later has to identify where they were taken.

MR. SCHMIDT: So I'm sorry. So this is Protestant's Exhibit Number 14?

MS. MURPHY: 14.

BY MR. HOLZER:

Q. Now, why did you pull this picture out in response to one of Mr. Schmidt's questions?

A. I was referring to the 502 --

Q. Yes?

A. -- criteria. And the specific criteria that was concerning to me was the Criteria I, the "be detrimental to the environment and natural resources of the site and vicinity."

MR. SCHMIDT: Now, I'm going to object, and I'm going to move to strike. And I'm going to move to strike not only that answer, but also the other answers that she gave previously in direct as to 502.1. I asked this witness a series of questions, and Mr. Holzer

objected.

And the witness said, "I'm not a zoning expert."

So since she's not a zoning expert, she can testify as a fact witness. But I don't believe she can render the opinions that she just rendered regarding a specific provision of Section 502.1 that she just rendered.

And that she also rendered during direct examination, where she actually went down 502.1 and opined as to whether that section was met or not met, particularly when she then said on cross-examination, "I'm not a zoning expert, so I can't answer your questions, Mr. Schmidt."

MR. GARBER: I will say that we are not receiving the evidence as coming from a zoning expert. It's understood that all Ms. Clark is doing is reading the regulation and doing the best that she can to try to figure out does this mean that this is being -- that one particular part is being violated or not from her perspective, and it's only being received as a lay opinion; that is it.

So with that in mind, you may proceed.

MR. HOLZER: Thank you.

BY MR. HOLZER:

Q. And you can -- the reason that you wanted to show Protestant's Exhibit 14 is what?

A. I was concerned that having so many cars parked on the grass would be damaging to the environment. Cars leak fluids. And so I spend a lot of my time volunteering in the wilderness and working as a volunteer with the Baltimore County, Maryland Master Gardener Program, and this is something that is important to me.

Q. Okay. So it was for -- never mind.

MR. GARBER: Did you say you were a master gardener?

THE WITNESS: Yes, sir.

MR. HOLZER: Let me make sure --

MR. GARBER: While you're doing that, I'm going to jump in really quick.

Do you know when this picture was taken, or can you ballpark it?

THE WITNESS: Probably around July 28th or so, 2018.

MR. SCHMIDT: Has this been admitted?

MR. HOLZER: No, it's for identification. It will be admitted later with another witness.

MR. GARBER: So you said July --

THE WITNESS: 28th.

MR. GARBER: Thank you.

THE WITNESS: 29th, somewhere in that vicinity, if that's helpful.

MR. GARBER: Understood.

MR. HOLZER: I have no further questions.

RECROSS-EXAMINATION BY MR. SCHMIDT:

Q. Ma'am, you indicate that this photograph, Protestant's 14, was taken sometime around the end of July of this year, correct?

A. Yes.

Q. Is your house visible on this photograph?

A. My property is visible.

Q. Okay. And can you tell us where it is?

THE WITNESS: How should I best do that for the

transcriptionist?

MR. GARBER: That's a good question. Can you take your copy there? Mr. Holzer, do you have your trusty red pen available?

MR. HOLZER: Yes, sir, I do.

MS. DOPKIN: We have a pen.

MR. GARBER: We can offer this up if that works better. If you believe that your property is on Protestant's 14 --

And Mr. Schmidt, you're okay with her marking that off of Protestant's Exhibit 14?

MR. SCHMIDT: It's okay with me.

MR. GARBER: Do you want to hand her the actual one?

MS. MURPHY: Sure. This is the actual one.

MR. HOLZER: Yeah, because this one's mine.

MR. GARBER: And once she marks it, obviously hand it to Mr. Schmidt so he's --

MR. HOLZER: This is probably easier to use my pen because it's sharper.

MR. GARBER: That's fine.

THE WITNESS: (Witness complied.)

MR. HOLZER: Can you encircle that area?

Is that what you want, to encircle the area?

MR. GARBER: I think just at least indicate where her property is as depicted on Exhibit 14 as best as possible, recognizing they're probably estimates. But show Mr. Schmidt what has been marked on that exhibit, please.

BY MR. SCHMIDT:

Q. Ma'am, your property is where this red X is?

A. In that general vicinity, I believe.

MR. HOLZER: Mr. Schmidt, that's why I asked would you prefer her to outline where she thinks the property is --

MR. SCHMIDT: If that's where she thinks her property is, that's fine. She's lived there for 33 years.

MR. HOLZER: And you've said that 33,000 times already. Thank you.

MR. SCHMIDT: I just want to make sure it's in the record.

MR. GARBER: Mission accomplished.
MR. HOLZER: Okay. She's marked; he's looked at it.
MR. GARBER: And so 14 is only for ID at the moment.
MR. HOLZER: Yes.
MR. GARBER: It is not admitted at the moment.
BY MR. SCHMIDT:
Q. I think you said that your house is about a hundred feet from Harford Road?
MR. HOLZER: Objection. This has already been testified.
MR. SCHMIDT: I'll withdraw the question.
(Cross-talk)
MR. GARBER: Hold on, hold on.
MR. SCHMIDT: I'll withdraw the question.
MR. HOLZER: Good.
MR. SCHMIDT: I'll withdraw the question.
MR. GARBER: Thank you.
BY MR. SCHMIDT:
Q. Ms. Clark, as I understand it, you said that you

personally have filed a complaint against the activities or regarding the activities up at Redeemer and Beachmont, with Baltimore County?

A. No, that's not what I said.

Q. Oh, I'm sorry. What did you say?

A. I said that there is -- there was a complaint filed with Baltimore County by a group of the -- some local residents --

Q. Right.

A. -- in regard to violation of the zoning regulations that were set up for the corn maze which is related to Beachmont.

Q. Is that the same group of neighbors who are opposing the Nepali property? Are they opponents of the Nepali property as well, if you know?

A. Yes, they are.

Q. And when was that complaint filed?

A. Probably a couple of months ago.

Q. How long has the corn maze been there?

A. I'm not sure, but this is the first indication that we've had that they have violated the zoning

guidelines that were set forth.

Q. Okay. Well, hasn't the corn maze been there for a number of years?

A. Yes, but this is the first notification that we have received that they have violated the zoning regulations that I believe Mr. Kotroko will recall those.

THE WITNESS: Those were your regulations that have been violated. I'm sorry. I didn't mean to talk to you.

MR. SCHMIDT: That's okay.

BY MR. SCHMIDT:

Q. What notification did you get? In other words, did the county send a notification out to the neighbors and say, "Hey, we think there might be a violation on the Beachmont property because of the corn maze. If you-all want to make a complaint about it, please do so." Is that what happened? Is that what I'm understanding?

You said you got notification --

A. No.

Q. -- some type of notification that there was activity on the Beachmont property that was not in accordance with the zoning restrictions that were imposed in Mr. Kotroko's case; is that --

A. No. One of our members did some research and found out that their filings with the county were not --

Q. Okay.

A. -- in accord with the zoning regulations that Mr. Kotroko had laid out.

Q. Who did that? Who was that, if you know?

A. I can't remember which one of our people went to the county and did that research.

Q. So you don't know who did that, and your testimony about a notification is there was no notification, per se?

A. Well, I received a notification based on the person's research with the county.

Q. Okay. Also, I thought I heard you say on direct that the volleyball activity had been described by Nepali as a tournament?

A. No, I described it as a tournament.

Q. Oh, okay. So the folks at Nepali never said they were having a tournament there? You --

A. I don't know --

Q. -- that's what your description --

A. -- what they've said in their various posts.

Q. But you've never seen it described by them as a tournament?

MR. GARBER: One at a time. Let Mr. Schmidt finish his question.

BY MR. SCHMIDT:

Q. You've never seen in anything that they have published or issued, anything saying "We're having a volleyball tournament on the property"?

A. I would have to go back and look at various documents. I don't know for sure.

Q. Well, ma'am, I'm assuming you took great care in preparing your remarks here today. If there had been such use of that word by Nepali in saying that they were conducting a volleyball tournament on the property, you certainly would have brought that to the attention of this Board. So are you saying you don't know whether

they ever described it as a tournament? You don't know that?

MR. GARBER: Mr. Holzer?

MR. HOLZER: I'm going to object.

MR. GARBER: Go ahead.

MR. HOLZER: We have direct, we have response, I have redirect, now we're doing it again. And he's beating on her on something that is inappropriate to this hearing. I object to this whole line of questions. I object to his cross-examination in addition to what is normally prescribed.

MR. GARBER: I will say that you did bring it up on redirect; that is the frequency of volleyball and what was going on and when it was going on.

MR. HOLZER: Right, I did do that.

MR. GARBER: So with that in mind, Mr. Schmidt, you may proceed.

BY MR. SCHMIDT:

Q. My question, ma'am -- let me just try to get through this. I had understood you to say on your direct examination, when Mr. Holzer was asking you

questions, that Nepali had held out, the representatives of the Petitioner had made public statements, either through social media or whatever, that they were having volleyball tournaments on the property. I understood you to say that.

A. What I said --

Q. Then during your redirect -- let me finish.

A. I'm sorry.

Q. Then during your redirect, you said, "No, it doesn't say anything in Dr. Ghimire's remarks about tournaments. That was my description."

So I followed that up by saying, "To the best of your knowledge, has anyone at Nepali ever said that they are having volleyball tournaments on the property?"

A. Well, they have not stated that in my documentation specifically. The description that I have in front of me from a Facebook post from Mr. Ghimire, the description to me of teams from New York, Pennsylvania, Columbia, Baltimore, etc., many states -- to me, as a former volleyball player, that's not a game; to me that's a tournament.

Q. Okay.

A. And there may have been, and I would have to go back and look to see if the word "tournament" was used in any of their discussion. To me the point is not whether it's a tournament or a game or a match or a scrimmage or whatever. It's the loud percussive constant day-after-day-after-day noise that is disturbing my peace and quiet solitude and enjoyment of my property. What we call it is not important.

Q. So let me ask you this, ma'am: If I bought the Bonapart property and decided to play volleyball every day with a group of my friends, wouldn't the impact be the same, whether it was a church or whether it was a private residence? Isn't -- what does volleyball have to do with the church, with people going there to practice religion?

A. I can't comment on what it has to do with church.

Q. Okay.

A. I just know that the constant percussive screaming and yelling disturbs my peace and quiet

solitude. When this property, Mr. Schmidt, was a single-family residence, they played tennis up there. And on occasion, on a Sunday afternoon, you would hear a tennis ball bounce. Quite frankly, they weren't very good because the ball didn't bounce for very long before they had to restart the game. Just recollection, I'm sorry.

MR. GARBER: It's quite all right. That's quite all right.

THE WITNESS: But that was not disturbing. It was screaming and screeching and yelling at 8:15 on a Sunday morning.

MR. SCHMIDT: Okay. I don't have any other questions. Thank you.

MR. HOLZER: I have no further questions.

MR. GARBER: Ms. Dopkin?

DIRECT EXAMINATION BY MS. DOPKIN

Q. I have one question, and it's really not particular to you. Are you part of an association? You said you got notice about the corn maze being in violation. Was that through an organization?

A. No, ma'am. It was through the research that one of my --

Q. So it was just one of your neighbors?

A. That is correct.

Q. All right. So here is my next question. We've heard testimony, and you've been here through the hearing. We've heard a lot about the traffic condition of Harford Road. You've lived there a long time. We already heard that the state raised the speed limit from 45 to 50 for northbound traffic at some point in the past several years?

Has anyone in the community or you that you're aware of ever contacted the county or the state about lowering the speed limit? It's a dangerous curve. We've heard it from Mr. Holzer numerous times and from you just this past few minutes. Has anyone in the community made any effort to have the state take any traffic-calming safety speed-reduction measures? because that's a condition that appears to be an existing one, not a new one?

A. I do know that they have -- the State Highway

has continued to improve the surface of the road.

Q. That wasn't my question. My question was have you or are you aware of any members of the community going to any government agency to reduce the speed or implement any traffic-calming measures along this part of the road?

A. All I can say is that I was an active participant in meeting with the State Highway Administration representatives when they were planning the traffic circle and seeking community input. Other than that I have no knowledge.

Q. And was any of that community input directed to reducing the speed limit or putting in other safety measures?

A. I think they did address community concerns and had reflectors and rumble strips in the area to try to reduce the speeds.

Q. But not in this particular --

A. Well, in that very vicinity of the Bonapart property.

Q. The testimony we heard did not indicate that

there were rumble strips along that part of the road?

A. That was in the past. The road has been repaved, and I don't believe they're there anymore, or maybe they're -- I just -- that was in the past.

Q. So they're not there now?

A. I don't believe they are.

Q. Thank you. That was my questions.

MR. SCHMIDT. I just have a question, in view of Ms. Dopkin's question.

MS. MURPHY: -- in view of hers. Go ahead.

CROSS-EXAMINATION BY MR. SCHMIDT

Q. Do I understand that at one time there were rumble strips or other improvements to the road designed to reduce the speed on Harford Road? Is that what I heard you say?

A. In a specific area around the curves.

Q. Around the curves or the curves that are north of the access or south or both or if you remember, ma'am?

A. I believe both.

Q. Do you know when that was?

A. I don't recall.

Q. Do you know how long they've -- they are not there now, correct?

A. I don't believe they're there now.

Q. Well, you drive the road every day. You would know if you drive over a rumble strip. Is there a rumble strip on Harford Road in that area now? I assume you drive the road every day?

A. I don't believe there is.

Q. Okay. You don't believe there is?

A. That's my best answer.

Q. Do you have any idea of when that was removed?

MR. GARBER: I think she's already answered.

THE WITNESS: I do not know.

MR. SCHMIDT: You don't know. You don't know. Okay.

DIRECT EXAMINATION BY MS. MURPHY

Q. A question about the amplification that you heard. You said there was outside amplification?

A. Yes, because it was clear that there was -- the level of the amplification was such that it was very

loud, and had it been inside a building, we would have not heard what we heard.

Q. Okay. So are you saying that you heard music connected to an amplification machine outside --

A. Yes.

Q. -- that would project sound?

A. Yes.

Q. Okay. So what specifically did you hear?

A. Drumming and people's voices over an amplification system.

Q. So somebody using a microphone and talking?

A. That is correct.

Q. Do you know what they were saying? Do you have any idea? Could you make out the words?

A. I could not make out the words. It might not have been -- it might have been a language other than English.

Q. Was this one time, or did this occur more than once?

A. More than once.

Q. When did you hear this? Do you remember the

dates that you heard this?

A. Well, most recently it was July 28th -- in conjunction with that July 28th through early August festival.

Q. Was that the fundraiser, or was that a festival?

A. It's been advertised as different things. Fundraiser was probably used by the -- by the Petitioners.

Q. Any other music besides drumming?

A. There might have vocal music, people singing over a microphone.

Q. Are you sure about that, or are you guessing?

A. I said there might have been. I do specifically remember the drumming and the people speaking over a microphone.

Q. And how many hours did that occur on that -- during that festival period?

A. It was quite a few hours during the day.

Q. So that was the only time you remember they used the amplification, did you say? Or did you say there was another time?

A. I know specifically that one, and I believe that there were some other incidents. We happened to be away when there was a large, very loud festival held in 2017, but I had heard --

Q. Wait a minute. You weren't there? You weren't home?

A. No, but I read the complaints that were filed with the Baltimore County zoning.

Q. Okay. Well, I want to know about your personal observations. So the one you remember was this?

A. That's the one I remember most recently.

Q. Okay. And you can't remember any, then, that you personally observed in 2017?

A. There might have been some, but I can't put a finger on a date. I know that this has just been a lot, I'm sorry I can't be more specific.

Q. No, I just wanted to clarify what you -- thank you.

MR. GARBER: Any follow-up for anyone?

CROSS-EXAMINATION BY MR. SCHMIDT

Q. Just in terms of the drumming, do you know what

a bass drum is?

A. I do.

Q. Was it a bass drum? Was it a snare drum? Was it a drum set? Do you know?

A. I don't know what the instrument was that was used, but it was a low-pitched, loud, rapid drumming.

Q. Like somebody with sticks or somebody with a mallet or could you tell?

A. I couldn't tell. I don't know what instrument was used.

Q. Okay. And you don't --

A. Which type of drum instrument was used.

Q. And you believe the amplification to be outside because it was loud as opposed to inside where the windows might have been open or something like that?

A. It had to be outside, given the volume that we heard.

MR. SCHMIDT: Thank you. I don't have any other questions.

MR. GARBER: All right. Are we good?

MR. HOLZER: I have no questions.

MR. GARBER: Thank you, Ms. Clark, for your time.

In terms of time, do you have --

MS. MURPHY: 20 seconds.

MR. GARBER: Do you have a quick witness?

MR. HOLZER: No. You could say that was a quick witness.

MR. GARBER: Oh, we have a different understanding of what the word "quick" means, I suppose.

MR. HOLZER: Like I say, I have the folks here, but I know they're all going to be of significant length.

MR. GARBER: Right. If you can't be done within 40 minutes, I don't want to have someone start and then -- that seems to makes the most sense to me.

Mr. Schmidt, how do you feel about that?

MR. SCHMIDT: I'm at your pleasure, Mr. Garber. Whatever you want to do.

MR. HOLZER: I can say that the next hearing date we would have these folks and some additional folks and some visual demonstrations, including sound.

MR. GARBER: Okay.

MS DOPKIN: Visual demonstrations.

MR. GARBER: What about any --

MR. HOLZER: Well, we're going to show you what went on. If you need to understand that, I'm going show you what went on through video, sound, documentation, and aerial view.

MR. GARBER: Do you intend to have any experts the next time around?

MR. HOLZER: I don't believes, unless maybe there's one.

MR. GARBER: That is from the next day, not as to your case --

MR. HOLZER: Oh, there is going to be --

MR. GARBER: But will you have any for the next day?

MR. HOLZER: There will be a slew of experts.

MR. GARBER: Right, but on the next day --

MR. HOLZER: There's going to be another motion filed by me that is going to take the Board some time.

MR. GARBER: Looking forward to it, but are you

going to have any experts the next time? For the next day do you intend to have any experts?

MR. HOLZER: No.

MR. SCHMIDT: Mr. Holzer, I'm only asking because obviously I would have my expert witness here. If you would tell me just the area.

MR. HOLZER: I said no.

MR. SCHMIDT: But you don't have any experts for next week?

MR. HOLZER: Not for next week.

MR. SCHMIDT: Fine. I'm not going to bring Mr. Caloggeri back to sit here, that's all.

MR. GARBER: Understood.

MR. HOLZER: Don't bring him back.

MR GARBER: So with that in mind, is there any other matters to discuss today?

MR. HOLZER: No.

MR. GARBER: So the next time we're going to be meeting at 9:00 here --

MR. SCHMIDT: Mr. Garber, I just want to ask one thing.

MR. GARBER: Yes.

MR. SCHMIDT: I know we have, I believe, three more days scheduled.

MR. GARBER: Yes, three more days.

MR. SCHMIDT: Maybe I'll talk to Mr. Holzer about it just to see whether --

MR. HOLZER: We're going to take all three.

MR. SCHMIDT: We can go off the record. Let's go off the record.

(Whereupon, a discussion was held off the record.)

MR. GARBER: Hold on. We're going off the record. This will conclude Day Four of the Nepali case, and we will reconvene on Day Five, which is October 23rd. Thank you all.

(The proceedings were adjourned at 3:23 p.m.)

CERTIFICATE OF NOTARY PUBLIC/REPORTER

State of Maryland

County of Howard, to wit:

I, Sue Harrison, a Notary Public in and for the State of Maryland, County of Howard, do hereby certify that the within-named witness personally appeared before me and, after having been duly sworn by me, was examined by Counsel.

I further certify that I am not an employee of Counsel nor related to Counsel or the parties in any way and have no interest in the outcome of this proceeding.

I further certify this transcript of testimony was prepared accurately by me to the best of my ability, knowledge, and belief.

As witness my hand and Notarial Seal this 29th day of October, 2018.

Sue Harrison

Sue Harrison, Notary Public

My commission expires 03/25/2020.

PROCEEDINGS

MR. GARBER: We are back here Day Three in the Nepali American Cultural Center case, 18-122-X. This is Day 3, Mr. Caloggero is still on the stand in the witness box. We are back in the Board of Appeals room today. I see that seating is supposed to be fine. There is no need to have people wait out in the hallway and rotate in. Obviously, much like I have said to begin each day, this is a courtroom, please make sure your phones are turned off or certainly silent. And please no comments or anything else, but the attorneys and the witness and the Board, of course, and Madam the Court Reporter, if you need anything as well.

And we are recording on Court Smart and court reporter today. Court Smart is on. I understand, Mr. Schmidt, the Court Reporter is here for your case. Now, Days 1 and 2 are universal. Day Three, you have a Court Reporter. Court Smart is on for the purposes of maybe jumping over to Mr. Holzer's case, so we have consistent day recorded.

MR. SCHMIDT: Yes, sir. For the record Lawrence E. Schmidt and Timothy Kotroco on behalf of the Nepali American Cultural Center of Baltimore. We have a Court Reporter today. We, I think, have gotten a transcript from the first day and I believe forwarded it to the Board. I don't believe the transcript from the second day is produced yet, but we'll get that to you as well as this one. And I think our next hearing date, Mr. Holzer and I can talk about arrangements for a Court Reporter then whether we need one.

MR. HOLZER: In October. That next hearing date is October 11th.

MR. GARBER: End of today, I am still waiting to find out what goes on during course of depositions in advance to see how necessary it is for my participation on that day, whether I can have someone cover for me. I anticipate I will have someone cover for me, but don't tell the other in attorneys in that case.

MR. HOLZER: Mr. Chairman, when I

introduced the Greater Kingsville Civic Association letter last time, it was not signed. I now have the signed copy. And I just talked to Mr. Schmidt, provided him a copy. Could I submit these to you now?

MR. GARBER: Sure. Are we doing this as a substitution or addition?

MR. HOLZER: Addition.

MR. GARBER: So, whatever Exhibit Number One was, the unsigned --

MR. HOLZER: Yes.

MR. GARBER: We are going to make this --

MR. HOLZER: A.

MR. GARBER: Exactly.

MR. HOLZER: Here's the original signed.

MS. MURPHY: I already have one. Thank you for handing, I think you handed it to us. This is what I have.

MR. GARBER: Yes, well, I'll introduce it. I will say I have not seen this.

Mr. Schmidt, you have no objection to this exhibit which is dated September 3, 2018. Dorothy

Foos, President of the Greater Kingsville Civic Association.

MR. SCHMIDT: Yes.

MR. HOLZER: I thought I did.

MR. SCHMIDT: Mr. Holzer did give me a copy, yes.

MR. GARBER: Also this is Exhibit 6.

(Petitioner's Exhibit Number 6 was marked.)

MR. GARBER: I believe you mentioned something about it last night, it was not handed forwarded. You did mention that.

MR. HOLZER: Yes, I did.

MR. GARBER: Just so you know you are not going crazy.

MR. HOLZER: Yes, sir. I am not sure of that all the time. Thank you, Members of the Board.

THE COURT: All right, so are we on cross examination now.

MR. SCHMIDT: I was still not finished with Mr. Caloggero. I had a little more with him.

MR. GARBER: I guess I was optimistic, okay.

CONTINUED DIRECT EXAMINATION

BY MR. SCHMIDT:

Q. Mr. Caloggero, not to be repetitive but so this some makes sense, I think the last portion of your testimony the last time we were here related to your examination of the sight distance issue when one would exit or enter the Nepali property, is that correct?

A. That is correct.

Q. And you had prepared four different exhibits which were labeled and were mounted on the board as 15-A, 15-B, 15-C, I'm sorry, 16-A and 16-B; 15-A&B and 16-A&B?

A. That's correct.

Q. 15-A&B, I think, depicted conditions with the existing entrance which goes out on to Harford Road from the property?

A. Correct.

Q. And then 16-A&B showed sight distances with a

potential alternative which would be the construction of a separate access point, is that correct?

A. That's correct plus some additional the measurements based on existing as well.

Q. Right. I'm just giving a broad brush of what this showed. I believe we indicated at the last hearing at least one of the photos on these exhibits, particularly 16-A&B, which goes those two exhibits have photographs on them was actually mislabeled and was not correct, is that right?

A. On 16-A, correct.

Q. Okay. I'm going to show you and I'll give to Mr. Holzer a couple of photographs. I understand these photographs you had taken some time ago depicting conditions at the site entrance, correct?

A. That is correct.

Q. Okay. And it was these photographs that were to be placed on your plan and were not; is that correct?

A. That is correct.

Q. So, I have given them collectively to

Mr. Holzer and the Board members. If you could just approach the plan and we can label those perhaps 17-ABC&D, Ms. Murphy, if that's okay, and please explain to the Board what those are showing and what is erroneous on 16-A, so the record is clear as to what you are in essence replacing?

A. So on Exhibit 16-A, the bottom right, we had a picture that was labeled winter photo without ground coverage in the Maryland State Highway Administration right of way, looking for proposed exit. It was brought to our attention that that was the existing exit. So what we did or what I did was I had photos taken, I believe the dates were, they are not labeled here, from July 16th and 17. So, I wanted to introduce these as ABC&D.

So, the first two photos were taken from the 16th at the existing access.

MR. GARBER: So, 17-A&B being July 16th?

THE WITNESS: Yes. 17 A and B.

MR. GARBER: July 16th at the existing access.

THE WITNESS: I believe that was the correct date. We were at a field meeting and during the field meeting I took these pictures. And then while driving home from a different meeting, I take this route occasionally home, I noticed there was some removal of the brush or weeds. And so I stopped and took a picture of the existing access. And then the last picture, which is 17-D, is a picture of what is labeled as, I guess, an alternative access, the one that's shown on the plans of the approximate area looking northbound. So this last picture should technically replace the one.

MR. GARBER: On 16-A.

THE WITNESS: On 16-A as, you know, a potential view or the view from leaving the site at the alternative access.

MR. SCHMIDT: Thank you, Mr. Caloggero. I would offer those as Exhibit 17 A through D with the witness' explanation.

MR. GARBER: Mr. Holzer.

MR. HOLZER: No objection.

MR. GARBER: Admitted.

(Petitioner's Exhibit Numbers 17-A through D were marked.)

Q. Mr. Caloggero, just a couple of other things and other exhibits. You have referred to the State Highway Administration right of way that adjoins Harford Road in this area, correct?

A. Correct.

Q. But insofar as the State Highway ownership of property, I'm going to show you an exhibit, let me get the colorized one for Ms. Murphy, I think it was taken off of the County GIS system, which we referred to. I'd mark that as Exhibit 18. That depicts the ownership of the property that's outlined in blue, is that correct?

A. Yes.

Q. Okay. And that's the property, is it not, Mr. Caloggero, that's immediately adjacent to the intersection of Harford Road and Bonapart on what would be the northeast side of that intersection, correct?

A. Correct.

Q. Okay, and that property is actually owned by the Maryland State Highway Administration, correct?

A. Yes.

MR. GARBER: So, in our exhibits we have color for some of us, Ms. Murphy does, she has the color copy, which parts are we talking about on this exhibit? I mean, I can identify it visually, but for the record can you please describe where it is on Exhibit 18?

THE WITNESS: Sure. The property in question is in the northeast quadrant of the intersection of Harford Road and Bonapart Avenue described as 1.77 acres and it's basically triangular.

MR. GARBER: I was going to say, it looks like a shark fin almost. I'll say that, a shark fin.

THE WITNESS: Upside down shark fin.

MR. GARBER: Right. Okay. You may proceed.

Q. You indicated the State Highway obviously could clear the brush and trees when you had your

sight distance testimony?

A. Yes.

MR. SCHMIDT: Exhibit 18.

MR. GARBER: Mr. Holzer.

MR. HOLZER: I just wanted to make sure. Could I see the color?

MR. SCHMIDT: Sorry, I didn't have enough copies of it. It's the triangular.

MR. HOLZER: The shark fin did it.

MS. MURPHY: No objection.

MR. GARBER: No objection.

(Petitioner's Exhibit Number 18 was marked.)

MR. SCHMIDT: Mr. Garber and members of the Board, I know you get the file in this case that comes up from the Administrative Law Judge and that generally the Board in evaluating the case considers that the record of the case and exhibits and information in that part is part of the record of this case is the way I understand it.

MR. GARBER: I mean it's de novo, right?

MR. SCHMIDT: It is.

MR. GARBER: I wouldn't necessarily make that assumption. It's in the case file. If you think it needs to be evidence in this case, you probably need to do something about that.

MR. SCHMIDT: Then I am going to.

MR. GARBER: You all agree with that?

MS. MURPHY: Yes.

MR. GARBER: Unanimous on that.

MR. SCHMIDT: Let me go off the record.

(An off the record discussion took place.)

MR. SCHMIDT: On the record again.

MR. GARBER: When you say off the record, understand maybe you want your Court Reporter to be on the record because maybe it's not necessary. We are also doing Court Smart. So keep in mind, when you say off the record, is it something directed to the Court Reporter or the entire case?

MR. SCHMIDT: For the entire case when I say that.

MR. GARBER: I just want to make sure

that's clear.

MR. SCHMIDT: Yes. Back on the record.

MR. GARBER: This is Exhibit 3 below.

MR. SCHMIDT: Yes. And it's actually I believe two similarly looking exhibits, Mr. Garber, with a series of photographs and sort of a key to the photograph. I believe they are in the Board's file.

MR. GARBER: Like I said, I saw Exhibit 3 that looks just like that; you say there are other photos with it?

MR. SCHMIDT: Yes, I believe so. I'll have Mr. Caloggero identify them. So, it's Exhibit 3 and 10, I believe.

MR. GARBER: There is an Exhibit 11 that resembles it.

MR. SCHMIDT: I am going to put these in as a separate exhibit here.

MR. GARBER: Three.

MR. HOLZER: 10 and 11.

MR. GARBER: Mr. Holzer, if need be, you needed to take a look at the file to help with that,

we can arrange that during the break.

MR. GARBER: In this document I have nine photographs.

MR. SCHMIDT: In the one being handed forward. I guess we'll get an explanation from Mr. Schmidt.

MR. SCHMIDT: Yes. Let me offer this, Mr. Holzer, and I'll give it to Ms. Murphy, give a copy to Mr. Caloggero. Ms. Murphy, I will give you another one when Mr. Caloggero finishes with this.

MR. GARBER: I am going to object to Mr. Caloggero testifying about these unless he was the one that introduced them blow. It may well have been another witness below that introduced these, not him. I don't know because I wasn't there. But I want to make sure when he's looking at these, he's in the proper position to be able to affirm all these pictures.

MR. GARBER: Leaving aside the front page, someone can authenticate the other pictures other than the one who took the photos.

MR. HOLZER: That's right, he was the one who testified or introduced them or not. That's the key.

MR. GARBER: Mr. Schmidt.

MR. SCHMIDT: I'll certainly ask Mr. Caloggero, I was also not there below.

MR. HOLZER: Right.

MR. SCHMIDT: Mr. Kotroco told me he believed Mr. Caloggero introduced these, but if not, I believe he has knowledge of the area and can testify about them and I'll establish that in my examination.

MR. GARBER: So, we are not worry about admissibility at the moment recognizing of course when it's revisited, you may have another argument.

MR. SCHMIDT: Mr. Caloggero, obviously, have testified you have been out to this site in this area on numerous occasions.

MR. GARBER: Objection, testified he's been out there twice.

MR. SCHMIDT: How many times have you driven up and down this road in the course of your

lifetime, Mr. Caloggero?

THE WITNESS: I have been south here numerous many times, visited the site numerous times.

MR. HOLZER: I'll ask you that when I get a chance.

MR. SCHMIDT: Mr. Caloggero, this exhibit which I am going to refer to I believe as Exhibit 19 although I haven't introduced it.

MR. GARBER: For identification purposes only it's Exhibit 19.

Q. If you could tell us, Mr. Caloggero, generally, the first page that appears to be labeled Baltimore County, my neighborhood, which is the county GIS, that indeed is where that is from.

A. Yes, that's my understanding.

Q. And what is that showing if I can ask you in relationship to the photos that follow?

A. This is showing just a plain base map of Harford Road and the surrounding Nepali property and there is labels on here which my understanding relates to the numbers on the first sheet relates to the

pictures and the direction that the pictures were taken.

MR. HOLZER: No, I am going to object to this because, obviously, he's just saying something he didn't do.

MR. GARBER: Once again, I am going to sustain the objection. I believe there should be a foundational question as to what the numbers, let me back up. The unannotated version he can testify to. He recognizes that as a county GIS printout. As to the labelling, that is a question for Mr. Holzer, I will sustain. Mr. Schmidt you can ask a question which perhaps resolves the issue.

Q. Mr. Caloggero, let me draw your attention, if I can, let me do it this way, to the second page of the exhibit. Can you identify based on your experience and knowledge of this road system what that photograph is depicting if you know.

A. Yes, I don't have a wonderful colored picture, but it looks like it's northbound Harford Road to south of Napali temple property. It looks as if the

house or temple can be seen from the roadway on the top of the hill.

Q. Okay. If I could ask you, Mr. Caloggero, can you turn to the first page of the exhibit, is there any relationship between the numeral one in the lower left hand corner in terms of its location on Harford Road, if you know, and the location from where this photograph was taken?

A. Yes, that would be the approximate location of the photograph.

Q. Does this photograph fairly and accurately, based on your knowledge of the roads conditions, depict what one would see as location number one as depicted in photograph number one?

A. Yes.

Q. Is that accurate to the best of your knowledge?

A. Yes.

Q. Do you know if you took these pictures?

A. I do not believe I took these pictures.

Q. Let me turn if I can to number two. What I

would like to ask you, Mr. Caloggero, again, is that, if you could testify if you are aware and if you know where on Harford Road would that photograph have been taken based on your knowledge and your site visits to the property and to the neighborhood?

A. Yes. This picture number two is in the area that is shown on the first page of picture number two. It is just south of the first right hand turn before the entrance.

Q. And there is a sign in picture number two, is there not?

A. Yes.

Q. And could you tell us the nature of the sign and what it's disclosing?

A. Yes, I have testified to the signs before. This is the reverse turn side with the revisory speed of 30 miles per hour and below that is the notification that there is a street that should be within the curve itself or the turn itself of Bonapart Avenue.

Q. What is a reverse turn sign or reverse turn

when you use that, what does that mean?

A. The reverse turn means 90-degree turn signs which the state highway recommends turns that are taken at 30 miles an hour. Again, that's what the 30 miles per hour speed plate is underneath that sign and it tells the drivers ahead to be expecting a turn to the right and a turn to the left.

Q. Let me go on to photograph number three, if we can go through the same exercise, can you tell us where that was taken, if you know, and remark on any features shown on the photograph, particularly the signage?

A. These are traffic of chevrons. These are just a little bit further north than taken in number two. C, the chevrons from picture two as you approach the curve and three shows the chevrons as well. Three is taken after 2 and 4 is after the first right hand turn before the access. This picture shows the guard rail and two chevrons which assist the driver in making the turn to the right.

Q. There is what appears to be a storm drain in

the road in the lower right of the photograph?

A. That's correct.

Q. When does the State Highway Administration use these chevrons as opposed to other signage? Is there any particular criteria from a traffic engineering standpoint?

A. They would particularly use these signs in conjunction with sharp turns, use these again to assist the driver in making the right hand turn.

Q. Okay.

A. Usually, a lot of times, I don't want to say all the time, they are accompanied by the warning sign and the chevrons.

Q. The warning sign in that case is the reverse turn sign?

A. Right.

Q. If I can, Mr. Caloggero, just to move this along, if you could go through the remaining photographs as well and just comment on their location and any remarkable features of the photograph or anything that relates particularly to the sight

distance?

A. Exhibit 4 is still traveling northbound where the driver would have completed the first turn and facing or approaches the access as well as Bonapart Avenue. Five is a little bit further and, again, it faces northbound, again, the access is to the right of Bonapart Avenue is to the left. At this point you can start to see the reverse turn heading to the north.

Q. Would that be where the chevrons are to the left of the photographs?

A. Correct. In this picture you can start to see the two chevrons located in this picture.

Q. Number six, although dark, it looks like it's taken from Harford Road looking up the driveway?

MR. GARBER: The property at issue that driveway?

THE WITNESS: Going into the property. Seven is a continuation of the driveway. Eight looks like a continuation of the driveway and nine is a continuation of the driveway facing the temple or looking at the temple.

MR. GARBER: Is that it for Exhibit 19 then?

MR. SCHMIDT: It is.

MR. GARBER: Mr. Holzer.

MR. HOLZER: I object on the basis you already heard. It wasn't his introduction. He's reading someone else documentation. Even if he is familiar with driving up and down the road, I don't think it's appropriate for him to introduce something below that he did not create or was not part of the his presentation.

MR. GARBER: Mr. Caloggero, if you look through Exhibit 19, you went through to it's 1 through 9, you did not put the numbers on the first page of Exhibit 19.

THE WITNESS: That's correct.

MR. GARBER: After viewing the photos you agree it's generally correct. If you would label it you would label it approximately the same location in the photo.

THE WITNESS: Now, photo 7 and 8 to be fair

I am not assure percent sure because I'm not visualizing any features that I recognize first off the bat, but the other ones that you recognize.

MR. GARBER: With that in mind, we'll admit the photos in Exhibit 19. As to the GIS printout, the first page, it is I think helpful to the Board to know where the photos came from, at least the ones on the approach, certainly, the ones into the site. We've already had other photos that came in that they actually look, if not the same, to be substantially similar. So, for that record I think we'll admit it understanding, of course, the limitations on the first page. It's only an estimate and his reasonable agreement with it based on the photographs.

MR. SCHMIDT: Thank you. And I'll give Ms. Murphy the 4th copy of that.

MR. SCHMIDT: Again these photographs show what they show. We are in an administrative hearing.

(Petitioner's Exhibit Number 19 was admitted.)

MR. GARBER: As I understand the purpose of

Exhibit 19 is also to show the road signs on the approach L. There's been much testimony and also the maps and other exhibits relating to it.

BY MR. SCHMIDT:

Q. Thank you. What I would ask Ms. Murphy to mark as Petitioner's Exhibit 20, Mr. Caloggero, is the same drill. And again, the purpose of these, Mr. Caloggero, not to belabor the point, because we have had other photographs submitted, but your testimony has talked about road signage and the different in road signage based on the nature and the character of the road. I would ask you to comment, if you will, on the nature of these photographs which are marked in Exhibit 20 as numbers 10 through 15.

A. You want me to go through them one by one again?

Q. Yes, sir, if you will. To be fair, you did not prepare this exhibit either.

A. No.

MR. GARBER: Mr. Holzer, you have a copy?

MR. HOLZER: Yes, sir, I do.

A. Number ten is a picture leaving the site approaching the existing access point towards Harford Road.

Number 11 looks like it was taken on the left side of the access of the median points of the access, taken from the left side looking northbound, where we can see the three chevrons and further up, further north on the road, there is another warning sign.

Picture 12 looks like it was taken in the same location of picture 11 and that was looking towards the left or towards the south showing two chevrons and another warning sign directing traffic towards the left.

Q. Is there anything, I also understand there is a difference between the chevrons and the arrows, but is there any distinction from a traffic engineering standpoint as to why the state highway would put chevrons as opposed to an arrow?

A. Chevrons help define the actual curve itself. I believe the other pictures, if saying to turn, to

really turn if you haven't yet. That's actually, it looks like the picture right at the corner itself. So there, as you can see on 13 and from my recollection from years and years ago from working with the State Highway Administration, I believe this is the proper way the turn is marked with the chevrons and then you can have the arrow signs.

So, 13 again is in the southbound direction just south of the site access on Bonapart Avenue. Showing two chevrons, the arrow sign to the left and the third chevron.

Picture 14 is, again, southbound Harford Road, but now we are located north of the site access on Bonapart. This shows the three chevrons directing traffic towards the right.

And 15 is just a little bit further south of that picture and it's just, again, north of Bonapart Avenue in the southbound direction, you can see one chevron, it actually shows a light post here. There's an arrow pointing towards the street light.

Q. Mr. Caloggero, in Exhibit 10 I think there was

a question about this at a prior hearing date which shows the driveway and the landscaped island that's in the middle of the driveway.

A. Yes.

Q. If this was retained as shown on Exhibits 15-A and 15-B, can you describe where people would enter the property and where people would leave the property in relationship to the landscape island?

A. On picture ten facing the access point, facing Harford Road, traffic would exit towards the right and would enter to the left, and as necessary paving markings could be installed to help drivers with this maneuver coming down the hill and we can also add additional signs.

MR. GARBER: That's use of the existing?

MR. SCHMIDT: Yes, that's shown on 15-A and 15-B in terms of sight distances. I would offer that as Exhibit 20.

MR. HOLZER: Same objection.

MR. GARBER: Same basis, it will be overruled understanding, of course, whatever

limitations there may be, you can ask in cross examination.

MR. HOLZER: I'm sure I'll be given plenty of latitude.

MR. GARBER: And the Board sees it for what it is. Thank you.

(Petitioner's Exhibit Number 20 was admitted.)

Q. These road conditions, I think you testified, Mr. Caloggero, just to make sure, these road conditions limit the speed in proximity of the entrance to the Nepali property, do they not?

A. They do, yes.

Q. I think you testified last time that you believe the safe speed in terms of these turns both north and south of the site would be 30 miles an hour?

A. Not only do I believe that, but there is the opinion of the Maryland State Highway Administration based on their signage and their warnings signs that they have posted. So, I'm just agreeing with what the State Highway Administration has posted and installed

on this part of the road.

Q. Harford Road is a state highway, correct?

A. Correct.

Q. And who has jurisdiction over a state highway, what agency?

A. The Maryland State Highway agency.

Q. What means of approval in terms of the access would be required here, if any?

A. We would have to work with District Four, whose in charge of Baltimore and Harford County and their Access Management Division, go through the access permits, approval process and the State Highway Administration at that level would approve any access and improvements necessary.

Q. Now, including whether it would be the alternatives shown on your Exhibits 15 or 16 with the existing means of access or the proposed changes you described last time?

A. That's correct.

MR. SCHMIDT: Okay. I have no other questions of Mr. Caloggero.

MR. GARBER: Mr. Holzer, when you are ready.

MR. HOLZER: Thank you.

CROSS EXAMINATION

BY MR. HOLZER:

Q. If I may come over and with Exhibits Numbers 19 and 20, the photographs you just described, do you have them in front of you?

A. Yes, these.

MR. SCHMIDT: Ms. Murphy, do you have all the copies you need?

MS. MURPHY: I just need 20.

THE WITNESS: Are they color? I didn't know what quality.

MR. GARBER: Same quality as the ones I have been reviewing.

MR. HOLZER: I'll get you a copy.

MR. GARBER: Like when movies were first being colorized, skin shouldn't be blue like that. That's how it's supposed to look.

Q. Let's take picture number one, okay, and that

was Number 19. Do you know where, exactly where this picture was taken?

A. Exactly to the point, no, I do not.

Q. If I were to tell you it was taken from Sharon Drive, would you -- Well, let me back up, before I put you on the spot, do you use Harford Road to get to your home?

A. Occasionally, yes.

Q. Where do you live?

A. Forest Hill, Harford County.

Q. So, occasionally, you would use Harford Road. How many times a week would you use Harford Road?

A. I used it this morning. Per week or?

Q. Per week.

A. Maybe once a week or a couple times a month.

Q. Driving south or driving north?

A. Yes.

Q. Which way?

A. Yes.

Q. Both ways?

A. Yes.

Q. Okay. So when you testified about the highway sign going north and south, you opined that you would be afraid to go the posted speed limit and you would slow down in your direct testimony the other day?

A. Could you repeat the question?

Q. The other day, second day, when you testified, you opined that even though the posted speed limit going south and going north, you would slow down more because you didn't think you could take it at this posted speed limit, take the turn?

A. That's correct.

Q. Okay. So that is based upon your subjective analysis of having utilized the road both once a week going north and south, right? I mean you are experienced, so you feel safe in reducing your speed below the posted speed limit?

A. It's also based on my review of the site in this part of the case.

Q. Sure. Now when, have you ever seen in your trip once a week for how many weeks, how many years?

A. I have been up there 20 years.

Q. Twenty years. Okay. Have you ever seen anybody, while you are using the road, take that turn too fast?

A. Define too fast.

Q. The posted speed limit.

A. I would not have any recollection of how fast someone drives on that road making those turns.

Q. Okay. Suppose, well, let me ask you this. Since your testimony was subjective in terms that you would slow down and not go the posted speed limit, what about someone from New York trying to get to the site for the first time, would they rely on the posted speed limit or would they slam on their brakes because they didn't know what was coming?

A. Well, as a driver of the road, they are supposed to follow all necessary warning signs and there are warning signs located north and south of the site telling them what to watch out for. So as a driver, this is what you are supposed to do.

Q. That's what you are supposed to do, but as a traffic expert you know people speed all the time on

the beltway, on the back roads, in Towson, 30 miles an hour, isn't that true that public doesn't necessary always comply with the posted speed limit?

A. Always?

Q. No, I said does not always follow the posted speed limit.

A. Of course.

Q. Let's get back. So don't you agree then that your opinion really was a subjective one based on your personal experience?

A. It's also based on the Maryland State Highway's opinion on how the road should be driven.

Q. You think that they should reduce the speed limit and be posted less than what it is?

A. That's not my call.

Q. Since we are being subjective about your opinion, if you had the State Highway position, would you have a reduction of the posted speed limit?

A. You typically do not on these types of roads do not reduce speed limits for this short section of the road typically. What you would do is you is sign

it properly, that's why it's called advisory speed to tell the people the safe speed to take these turns.

Q. But again, it's advisory. Do people always take the State Highway advice as to the speed limit? You have already answered no, right?

A. Correct.

Q. Let's go back to photo Number One?

MR. GARBER: In Exhibit 19?

Q. Yes. Where I was diverted from. Do you know whether or not this picture was taken from Sharon Drive?

A. I do not.

Q. Okay. So if someone were to later testify that that photo was not taken from where you proposed, would you be upset?

A. I don't know what difference it makes. It's just a picture looking north bound in a general direction from along Harford Road.

Q. I appreciate your bringing that up. This is a photograph, you have testified it shows the mansion at the top of the hill, right?

A. Yes.

Q. There was a witness who testified before you that said you couldn't see the mansion from Harford Road.

MR. SCHMIDT: Objection, that's not what the witness said.

MR. HOLZER: We'll check the record.

MR. GARBER: I have recollection that there were spots where it could be glimpsed but generally that it could not be seen. Something along those lines, that's my recollection.

MR. HOLZER: Thank you.

Q. Let me go to photograph Number Two in that same exhibit where you talked about the reverse --

(Mr. Schmidt sneezed several times.)

MR. SCHMIDT: Excuse me.

MR. HOLZER: Bless you.

MR. SCHMIDT: I am allergic to your question, excuse me.

MR. GARBER: Everyone ready?

MR. SCHMIDT: Yes, I'm okay now.

Q. Number two, this says a reverse turn sign is cautionary, it's not a requirement. If a police officer was sitting there, they wouldn't be cited if they went faster than that, right?

A. That's correct.

Q. Okay. So someone who is used to this road may well be going 35 or 40 miles an hour going north, correct, and not violate the law?

A. Oh, not violate, correct.

Q. Have you ever gone over 40 miles an hour?

A. In my life, yes.

Q. In your life, yes. Thank you for answering that truthfully. The reality is most people --

A. I didn't say here though.

Q. I'm sorry?

A. I didn't say here. I can't testify to what I drove here. I am simply watching the road and obeying the signs.

Q. I understand because I went up there for the very first time and I was scared to death of this turn. Interestingly enough though, it alerts you as

to Bonapart Street coming in from the left, right, comes in from the left further up the road?

A. It does come in from the left. The picture is somewhat blurry, I can't tell if there is a slit there.

Q. No, but I think it shows you Bonapart doesn't come in from the right, it comes in from the left.

A. Correct. And a lot of times with these signs they will add a little black line showing where the streets are.

Q. I think there is a little black line if you look to the left of it.

A. My picture is blurry.

Q. Okay. So it does not warn you of the entrance to this site, does it?

A. No, that's correct.

Q. Yes, it just tells you Bonapart is coming in from the left. So, if I was driving up Harford Road for the first time, I know now I'm supposed to go down to the 30 and I know now that there is a road coming in from the left when I get further up around the

turn, right?

A. Correct.

Q. I don't know anything about the entrance way to this site?

A. Correct. That could also be part of the Maryland State Highway Administration recommendation in the area.

Q. I'm sure they are going to have some recommendations. Let's go to Number Three, merely, I didn't know for my life and I have been driving forever it seems, I didn't know they were called chevrons; I just thought they were arrow signs?

A. Okay.

Q. Okay. So an arrow sign tells us now the road is going to the right?

A. Right.

Q. Then we get to Number Four. This is the first photograph in this package that shows you all of a sudden there is an entrance coming in off the right, right?

A. Correct.

Q. And that's the entrance to the site? And then when you get up a little closer --

MR. GARBER: Is that a question?

MR. HOLZER: Yes, he answered.

MR. GARBER: I didn't hear the answer. Is that the entrance to the site?

THE WITNESS: That is the entrance to the site, yes.

Q. And then Five shows the entrance to the site. And then Six and so forth are really just what the property looks like, right?

A. Correct and --

Q. Okay. I don't want to miss anything here.

MR. GARBER: You were saying something, sir?

THE WITNESS: I was going to mention, you know, this used to be a single family home, and a lot of times the Maryland State Highway Administration won't mark on those types of signs a line signifying a street when it's a single family home. As you keep going northbound there's also other driveways coming

on to Harford Road that are not signified by any of these signs.

MR. GARBER: By use of the word "this project", you are referring to the house on the site at issue?

THE WITNESS: Correct.

MR. GARBER: I use that for distinction because Photographs Five through on sometimes have a single family house or structure and that's not what you are referring to.

THE WITNESS: Right.

Q. So, from the State Highway standpoint and traffic engineering standpoint, what was okay for a single family home in this particular area of Baltimore County was this entranceway satisfied that, any concerns that the State Highway Administration had, right?

A. I can't answer for the State Highway Administration.

Q. Well, from your standpoint, these people, the property has been used in a single family home for

years and years and years and years?

A. Correct.

Q. So now all of a sudden, what is your client's use of the property classified by the State Highway? Commercial, is it not?

A. I don't know how they are classifying this property.

Q. What do you he mean you don't know?

A. I don't know how the State Highway Administration is classifying this property. You asked me what the Maryland State Highway Administration would do. I am not Maryland State Highway Administration.

Q. So, if you don't know, then why are they putting your clients through this extensive analysis of what is safe, because for 40, 50, 60 years, it wasn't even worth or bothersome to the Highway Administration. Now they are talking about having to give you an access permit, am I right?

A. In my opinion when use of a property is changed and increase in use has changed, the Maryland

State Highway Administration has every right to request an access permit and review the site based on that increase.

Q. Exactly.

A. Right.

Q. So now, it's become a commercial, if you are not able to say it, maybe we'll get it somewhere else, now it's a commercial access and they treat that differently than a single family private owner?

A. I would not call this a commercial access but would call it more than residential. Typically, in ITE, we would identify this as it would be potentially a church, a religious institution but not a commercial access.

Q. They are not putting WalMart in the there but that's not the point. Commercial has a different classification or distinction from a single family home on the State Highway analysis?

A. Again, I wouldn't consider this commercial.

MR. GARBER: Let me jump in here. Just so I understood your testimony, there are different

classifications for State Highway Administration, residential use, commercial use and institutional use?

THE WITNESS: When you are developing trips and such, you base it on the use of the site and this instance, in my opinion, it would be a church or institutional type of use.

MR. GARBER: Do you know if SHA distinguishes between commercial and institutional use?

THE WITNESS: Yes, they have been asking questions about what is the use of this property.

MR. HOLZER: We'll get to that.

MR. GARBER: Okay.

Q. Now, let's look at Exhibit 20. Again, as you have acknowledged, this was not created by you?

A. Yes.

Q. Okay. And you didn't put these red numbers on it from 13 or from 10 to 15.

A. That's correct.

Q. You didn't do that?

A. I did not.

Q. So looking at Number Ten, picture Number Ten, currently, today, did potential use of this access shown here does not prohibit using the left exit point or entrance point from a car exiting on the left side of the circle and making a left turn and going south?

A. Correct, it is not physically prohibited.

Q. Right. And when you, where is the first one? You said under here where, I don't want to make you get up.

A. That's all right.

Q. The first one where you did the sight distance?

MR. GARBER: You want to use the binder clips to help use it to scroll.

MR. HOLZER: I'm going to let the experts handle it.

MR. GARBER: Let the tall people do it, relative to me.

MR. HOLZER: Let's put this one down here. It makes it much easier.

MR. GARBER: Mr. Holzer, make sure you turn

towards me.

MR. HOLZER: I will. I have never been accused of anybody not being able to hear me.

Q. Petitioner's Exhibits Number 15 was the first exhibit that you showed us the other day when we had the hearing. And you measured the sight distance from the right hand side of the circle to the location of 365 feet, right?

A. Correct.

Q. Okay. Now, if there is no prohibition now while the property is being used, okay, if you located this same car on the left side, which I just showed you on this picture Number Ten, you would have less than 365 feet of sight distance, right? Am I correct?

A. If I located the car to the left of the median.

Q. Yes.

A. So what you are saying would be correct.

Q. Right where the B is, if that B were turned into a vehicle and you measured that to the 365, what would we end up? Can we do it. Could you do it now?

A. I could, but that's not how you are supposed to drive the road.

Q. I understand that's not how you are supposed to drive the road, but that's how people exit, we have evidence from people we'll show. Measure from B to 365. What does that amount to in terms of the sight distance?

A. Actually, I don't know if I can physically measure because, and let me say why.

Q. Do you need a ruler?

A. No, but let me explain. Because A is a location where you come out. I understand if people are driving it incorrectly, then we need to do a better job to make sure they drive at the correct point.

I did not come out here to visually check the actual sight line to see if there is any other obstructions with this curb in the location of approximate stop to be able to see that far. So, just to be fair, I didn't go out there and make the measurements that you wanted me to do one of two of

these dimensions.

Q. I understand.

A. If you want me to do a straight line, I can do that.

Q. Yes, please do.

MR. SCHMIDT: Do you need to scale, Mr. Caloggero?

THE WITNESS: No.

MR. GARBER: You are using Exhibit 15?

MR. HOLZER: Fifteen. The very first one that they introduced.

MR. SCHMIDT: I think it's 15-A.

MR. HOLZER: Or A, yes.

THE WITNESS: I'm going to have to pause for a moment, if you don't mind.

Q. I'll see if I mind, if you give me the answer.

A. I'll say it's 70 feet short.

MR. GARBER: Seventy feet short?

A. Approximately. Again, the scale is not matching to --

MR. GARBER: The ruler you are using.

THE WITNESS: So maybe 300 feet approximately.

Q. Okay. So the record is if it were to, on Exhibit 15-A, if it were measured from the B location on the left side of the circle to the 365 marker, approximately 70 feet short of the 365 feet sight distance.

A. Correct.

Q. Also at the same time you have been to the site, I'm going to ask you more about that later.

A. Sure.

Q. But you have been to the site, exited the site, is that correct?

A. That's correct.

Q. The house directly across the street, have you been there in the evening?

A. I have not.

Q. Okay. So, there are some concerns about lights, but you haven't experienced that?

A. That is correct.

Q. Okay. And you do agree that as of today,

there are no prohibitions about how one exits, left or right?

A. The rules of the road say you are supposed to exit it to the right.

Q. Okay. I will show the Board pictures of where that is supposed to be, but not done.

A. That's existing non proposed.

Q. Right. Now, 11, I don't have any questions because you have already introduced that.

Number 12, if you look at that, this would be the physical location of, if we go back to 15-A and we go back to the car being located at B, basically, this is what that car would see, this picture Number 12, wouldn't it?

A. If a car were to be there, yes, approximately.

Q. And as a matter of fact, if a car were to be there, what does the State talk about in terms of how far out into a road or where that car has to be in order to look to the left? Do you understand the question?

A. Yes. We keep going back to a place where they

are not supposed to be turning from, so I'm not exactly sure what your point is.

Q. Did you take a picture of the right hand side of the circle where you have shown on 15-A to illustrate what the left turn would look like if you were coming out the right hand side and looked to the left? I haven't seen it.

A. I don't know if I have a picture of that or not. If I do, it's on my phone and I can always introduce it with a specific date on it.

Q. You haven't done it so far.

A. No, because I believe my aerial drawings signify what is actually out there with the existing egress.

Q. I understand. But you have also introduced these pictures and you are standing behind them even if though you didn't create them, and Number 12 really does show, if you are sitting on the left-hand side, what your sight distance is.

A. I am not showing that on Exhibit 12. I don't measure sight distance from an improper location. We

need to do a better job of telling them which side turns. Although the rules of the road state you are supposed to go the right.

Q. I understand that. You said that twice.

MR. SCHMIDT: Because you have asked him twice.

MR. HOLZER: Exactly. I thought it would be more.

MR. SCHMIDT: I am not shy.

Q. Now, look at Number 13. Number 13 is a successive picture to Number 12, is it not? Right?

A. Taken from a different location.

Q. Yes.

A. Yes.

Q. What location was that taken from?

MR. GARBER: When you say that, you are talking Exhibit 13?

MR. HOLZER: Yes.

A. It looks like it's taken from the driver's eye travelling the road.

Q. Yes, I agree with you. In other words, 12

shows a vehicle sitting there after one would pull out left or right and got to that point, 13 is what he would still see.

A. I still don't agree with what you said on 12, but 13 is what is in the road travelling towards the turn to the left heading south.

Q. Yes, yes. Even if you are pulled out, whether to the left or the right hand side of the circle, okay, even if you have done it correctly, according to you, then this is still what you would see when you looked at 12 and saw that vehicle sitting there?

MR. GARBER: Exhibit 13 is what you would see.

MR. HOLZER: Yes. That's what Number 12 sees when he gets to 13, right?

MR. GARBER: Thank you.

THE WITNESS: 12 is taken from a completely different angle, but 13 is taken, again, from my opinion, the driver's eye of the vehicle approaching that left hand turn.

Q. We hear you.

A. Okay.
Q. Going to Number 14, now, I am coming south --
A. Right.
Q. -- before the entrance to the facility, right?
A. Correct.
Q. And when I look at this picture, I see the entrance right after the third arrow and I'm coming down that direction and I'm looking so that I can him make a left turn into it, okay?
A. Okay.
Q. And I cannot see anything past the street sign, the stop sign and the bushes that are on the property across the street from the entrance, right? So, I can't see what's coming north?
A. That's correct.
Q. Okay. Is there any proposal to require that lady that owns the property to cut those trees down or take the fence down?
A. No, and if you recall, I testified to that earlier on Exhibit 16-B and I can run through that again to show exactly what you stated where depending

on the turn where someone would turn into the site, where the sight distance would be prohibited, if you are looking southbound and wanted to turn left into the site and we proffered the best location for a vehicle to turn left into the site without impacting the neighbor's driveway.

Q. So what you are saying is that this is improper site distance to make a left turn as it exists now.

A. I didn't say that.

MR. SCHMIDT: Objection. I withdraw.

Q. It's okay then?

A. Yes, sir. May I approach?

Q. We'll come back to that.

A. You are asking me a question, I want to point to the graphs I made.

Q. Go ahead, show me.

A. So today, vehicle one --

MR. HOLZER: I want the Board to see it.

MR. GARBER: What exhibit are you referring to?

THE WITNESS: Exhibit 16-C, I apologize for blocking everyone's view, but as you are coming southbound, as you state, and you come towards or past the what I'm going to call just a median or the monumental entrance, vehicle one is here just in the approximate area of the separation, that vehicle can see about 345 feet to a vehicle coming around the turn, which is plenty of time for that vehicle to turn left and it is not impacted at all by it the guard rail or the neighbor's fence.

So, the State Highway Administration asked, what happens if we move the access further to the north, and as you move the access, so potentially move the access further to the north, then where we have cars, orange car two and aqua blue car three --

Q. Right.

A. -- that is obstructed by this turn and the fence, you can only see 200 feet. That's why we have made a recommendation to maintain the existing access because it gives the safest location for a car to turn in based on the sight distance from the south.

MR. GARBER: So the existing access should be maintained because of the sight distance.

THE WITNESS: That's correct.

MR. GARBER: That's what you proposed.

THE WITNESS: That's what we proposed.

Q. So the exit would be moved to the new location and the exit would be left where it is?

A. Yes or no, again, all depends on the State Highway Administration but we have shown it can work from the existing access where it has worked for as many years as this house has been in place and then we showed a proposal if the State Highway would like to increase some sight distance that an exit could occur approximately 70 or 80 feet to the north where we can increase the sight distances to go to turn out, yes.

MR. GARBER: So if you were one would say given the artist's choice so to speak by the State Highway Administration to keep the existing or use the proposed alternative, is there one that you favor over the other?

THE WITNESS: A, they both work. B, this

exit does increase the sight distance.

MR. GARBER: You say this exit.

THE WITNESS: I'm sorry, the proposed exit would increase the sight distance looking left and right. But again, the first one is still safe, the second one is increased.

MR. GARBER: Your preference would be to split the entrance from the exit and have separate access points for both.

THE WITNESS: That increases the sight distance for outcome.

MR. GARBER: Is that correct?

THE WITNESS: Definitely.

MR. HOLZER: I have a question as to that, but not yet.

MR. GARBER: Sorry.

Q. Now, these are the pictures you introduced today?

A. Yes.

Q. And Number 15 is still a blind left turn. That's what you just finished testifying.

MR. SCHMIDT: Objection, that's not what he said.

A. Picture 15 is taken from a driver's view driving southbound on Harford Road north of Bonapart Avenue. I was testifying to potential access points and locations.

Q. Why are you putting these photographs in if they in effect are showing exactly opposite of what you are proposing?

A. This is what we are proposing. These are the photographs we are proposing. This picture like I signified before shows the chevron.

Q. Right?

A. It shows the access to Bonapart Avenue and it shows an overhead light.

Q. Right.

A. It doesn't show where you turn left into the site or the sight distance where you turn left into the site.

Q. In this picture 15, if your car is sitting down here by the telephone pole on the right hand

side, you've got better sight distance if you turn left?

A. Absolutely.

Q. That's what you said, right?

A. (Indicating.)

MR. GARBER: Did he answer?

THE WITNESS: Yes.

MR. GARBER: He was nodding his head.

Q. Let me make sure I don't have questions about the other documents. This Exhibit Number 18 with shark's fin, I love that one --

A. That's a new term.

Q. Why are we interested in that? What was your purpose in showing that? I wasn't sure what the purpose of showing it is. Is that where you are going to cut down trees or bushes or the State will?

A. May I approach again?

Q. Sure.

A. What we reviewed previously and what I have testified to previously is here, we have identified what I'm going to call the right of way.

MS. MURPHY: Which exhibit is that?

THE WITNESS: I'm sorry, 16-A, so, 16-A in that quadrant.

MR. GARBER: Looking at the same parcel on 16-A.

THE WITNESS: Correct. Typically, this orange line surrounding the property, which I guess is blue on the colored sheet of the colored exhibit --

MR. SCHMIDT: Eighteen.

THE WITNESS: Eighteen, that is what I am going to consider the road right of way, the right of way of the road zoned by the Maryland 145 and that's the area depicting that brush or weeds could be removed to not only increase the sight distance from our site but for all of Bonapart Avenue.

MR. GARBER: You are pointing to the green section of 16.

THE WITNESS: The green section between the road bed and the property line. This is showing that not only outside of what I'm considering the road right of way, beyond that, this parcel is also State

Highway Administration property.

MR. GARBER: Beyond?

THE WITNESS: Beyond the orange line in the shark fin. I love that term now, the shark fin. The shark fin is also State Highway Administration property. We have been identifying on the southbound side on the west side, that that area between the road and the property line is State Highway right of way and just found out this is also State Highway right of way in between.

Q. Perfect.

A. Did that help?

Q. A lot. Now, I ask you to go back to the sight distance example that you had which said you wanted to exit on the new exit, but you could still use the left side to enter.

A. Yes.

Q. Let's get back to that. Okay. Now, if one were to remove this green area that you've just described to the Board, would that not allow you to make a left turn better on the new exit and, let me,

you can answer all this together.

A. Okay.

Q. And if the State Highway Administration would permit you to make sure that they even encroached on to that property for purposes of creating sight distance, couldn't you actually move the entrance from where you are proposing it now on the existing site, couldn't you move and provide better sight distance to make both the exit and the entrance at that location?

MR. GARBER: At the proposed location, proposed exit location.

MR. HOLZER: Exactly.

A. So, there's two different things we need to review here for safety purposes. The vehicles approaching, the vehicle southbound approaching the stopped vehicle turning left in. So as cars are coming southbound from the roundabout down, we want to be able to give them sight distance as they are approaching the stopped vehicle turning left. But also, we also want to make sure these vehicles can see further enough ahead so they are not cutting somebody

off when they are turning left.

So, one has a sight distance of 345 feet --

MR. GARBER: To which point?

THE WITNESS: To the first vehicle coming around the turn, so the first visual sight distance --

MR. GARBER: Going northbound.

THE WITNESS: Southbound looking at the first northbound car coming up, but as you approach in the access between 1 and 2, vehicle two is showing about 190 feet --

MR. GARBER: To?

THE WITNESS: -- to a northbound vehicle due to the fence on the property.

MR. SCHMIDT: When you said the fence in the property, where?

THE WITNESS: Across the street to the neighbor's property on Bonapart Avenue, so we are in between. So could we locate, could we move an access between cars 1 and 2, whereas we see further down, I haven't looked at that in its entirety, but that would be the location somewhere between 1 and 2. One

provides very good inbound sight distance looking left, two does not, so we have to locate it somewhere in between. Now, I don't know how far in between but it should approach vehicle one in that view.

Q. What about at three?

A. At three, it's 190 feet. So, again, we are obstructed by the curb, the curb as well as the fence, neighbor's fence across the street, obstructing inbound sight distance.

Q. This is a very difficult site for even a traffic expert like yourself to be able to plot where to put an entrance and exit, is it not?

A. No, because A, existing works and B, we have moved one outbound exit to increase the sight distance.

Q. Okay.

A. And again, I want to be clear when you say sight distance, whether we have one car, 20 or 100 cars coming out of a location, if it's deemed safe per sight distance, then it's safe. Just because we are adding cars to that movement doesn't make it unsafe.

It's still the same sight distance, still the same maneuver, but now just adding more cars to it, that's all.

Q. And more drivers?

A. Correct, but it's still safe, still a safe access.

Q. That's your opinion?

A. That's my expert opinion.

Q. That's your expert opinion --

A. Yes.

Q. -- you think it's still safe?

A. Yes.

Q. And you even think that the existing entrance and exit is still safe?

A. I do, yes.

Q. All right. One of the questions apparently has been raised by your testimony that if someone is coming north, okay, coming around the turn --

A. North.

Q. -- coming around the turn?

MR. GARBER: Wait, wait, sounds like you

are talking about different directions. You are pounding south. He's pointing the opposite direction, north.

MR. HOLZER: I'm sorry.

MR. GARBER: It's almost counter intuitive but --

Q. Okay. If someone is coming north from this left hand corner of 16-B, okay, and it's going to turn into the entrance, is there a stopping distance for somebody following them? Is there any kind of distance required for a follower of the vehicle that's going to turn into the site?

A. May I look?

Q. Sure.

A. Typically, we use stopping sight distance but someone should be able to make that maneuver.

Q. I probably used the wrong term, but decision distance?

A. Decision sight distance.

Q. Yes.

A. Utilizing, I'm trying to answer your question,

I hope I'm going to try to answer it. If I'm not, please, as you do, ask me again. So stopping sight distance for someone traveling we'll say 40 miles per hour is 305 feet?

MR. GARBER: From what point to what point?

THE WITNESS: Well, from the point of decision where you are going to be required to stop, you need about 305 feet traveling 45 miles an hour to hit your brakes and stop.

MR. GARBER: So, if you were to see a car stopped and ready to turn into the site, that vehicle heading northbound but into the site, you would need 305 feet stopping sight distance as another vehicle traveling northbound approaching the site.

THE WITNESS: That's why I'm trying to understand the question so I can answer it properly. So that car is going to be turning the right into the site, I'm not sure.

Q. Let me make it easier. Suppose there were four cars, going the same way, going north, coming around the turn, all trying to make a right turn to

get into a site, to a religious ceremony, to a festival, to a funds raiser, whatever, there is a fifth car coming, what is the site distance or stopping distance for that person coming around this turn? Okay, you've got three or four cars coming out to make a right turn for an event.

A. You are saying if the cars are stopped in the middle of the road --

Q. If they are stopped in their lane of traffic northbound, what is the sight distance that one comes around this turn and then suddenly sees cars trying to get in?

A. So I give you three numbers, okay. At 30 miles an hour which is the advisory speed, it's 200 feet for a car to stop; at 35 miles per hour, it's 250 feet and at 40, it's 305 feet.

MR. GARBER: I'm sorry.

Q. Perfect?

A. If cars are stopped in the road which turning to the right. I see this as a what I would consider if, no matter what we do in the future, it's going to

be a free right turn, there's going to be no reason for a vehicle to stop, you know, quote, stop in the road as they traverse up the hill.

Q. Well, there may be a reason, pedestrian may be walking there, there may be somebody standing there taking tickets to get in, there may be somebody there that has broken down. I mean, there are a lot of different potential options. I just want to know having personally driven this road, if I came around this turn at appropriate speed, posted speed, and I saw vehicles trying to get into here for an event, okay, how much time would I have to stop? Is it relatively short sight distance time?

A. I think it's fine.

MR. GARBER: Just to make sure I got the numbers correct, you said 30 miles an hour you need 200 feet.

THE WITNESS: Stopping sight distance.

MR. GARBER: And at 35, 250.

THE WITNESS: Correct.

MR. GARBER: And at 40, 305.

THE WITNESS: And at 45, it's 360.

Q. What about 50 miles an hour? That's what is posted, I think.

A. It's posted 45. So, 45 is 360.

Q. And what about 50 miles per hour, which is five above the posted?

A. 425.

Q. How much?

A. 425 feet.

MR. GARBER: Which book are you referring to?

THE WITNESS: AASHTO, Policy of Geometric Designs of Highways and Streets, 2011, 68th edition. I think I introduced it last time.

MR. GARBER: Yes.

Q. If you moved the existing entrance 70 feet north, 70 feet up to where one of your alternatives was, up that way --

A. The entrance.

Q. Yes, the entrance, would that provide a better safety situation for the vehicles to stop?

A. It decreases the safety for the left turns in.

Q. But not for the ones going north, not for the ones that --

A. In my opinion it doesn't make the access safer, unless we can make other modifications to the north side of the road, which I am not the recommending. I don't want to touch anyone on the north, I don't want to touch anyone else's property besides State Highway Administration's.

Q. So you are not going on to an adjacent property owner to try to enter?

A. Correct. Correct. I just want to make sure it's clear, as we slide the access north, the inbound access north, it does increase this distance from a north bound vehicle turning around the curb to see that vehicle turning into the site.

Q. Right.

A. But the more we push it makes it more difficult for the left turner coming in, because they can't see that vehicle coming northbound 345 feet, that shrinks.

Q. Does Bonapart Avenue have the same problem with sight distance?

A. In my opinion, Bonapart Avenue is significantly worse than we are showing today. If we are going to get into Bonapart Avenue exiting this site, I wouldn't want to exit Bonapart Avenue. I would prefer to utilize anything on the opposite side or on the east side of the road. When you exit Bonapart Avenue, you've got to physically turn your head, you know, and I am sure everyone will testify here, about 180 degrees looking backwards and up the hill. And the pictures I introduced show all the brush obstructing their sight distance. They are going to have even worse conditions coming down the hill turning right into their site into that existing access site.

Q. Right. So the State Highway Administration and the County has allowed a dangerous entrance and exit for Bonapart Avenue for years, right?

A. I mean, I don't know what, but I think, I don't think, I think our access is safer than theirs.

I can't make that determination. I didn't look a hundred percent to see what decision making process the State or the County had on Bonapart Avenue.

Q. So your access you believe is safe, safer than we have now?

MR. GARBER: Which access are you referring to?

Q. The existing access, actually this proposed access is safer than the existing access?

A. When leaving the site, it increases the sight distance, yes.

Q. So, that's why the someone suggested that you come up with an alternative exit site, exit access?

A. Yes, I believe the State Highway Administration asked for alternative access.

Q. Right?

A. We did and I came up with that access.

Q. Right. Now, if one moves the entrance access, you have already given your opinion, to that same location, as alternative --

A. Correct.

Q. -- that they propose, the sight distance looking south from the exit is better.

A. Correct.

Q. The problem you have is the sight distance to enter it at that same location is worse from southbound traffic being able to see?

A. It's worse from, looking at Exhibit 16-B, worse from looking at vehicle three, which can only see about 190 feet to turn.

MR. GARBER: So if you use the proposed exit as also the entrance, it's worse because it's depicted as new car three on Exhibit 16-B and only 190 feet of sight distance.

THE WITNESS: Correct. And I believe as I testified to earlier, I want to be sure I get it right, I believe I testified to earlier that 200 feet to turn left.

MR. GARBER: It is what it is.

THE WITNESS: Okay.

MR. GARBER: But I want to be clear if you used the proposed exit as also the entrance, you don't

favor that because there is less sight distance for that vehicle going southbound.

THE WITNESS: Correct. Vehicle one has approximately 345 feet.

MR. GARBER: I got that.

THE WITNESS: So, it would be reduced by 155 feet. We are losing 155 feet of sight distance coming around the turn.

MR. GARBER: You were asked questions about Bonapart.

THE WITNESS: Yes.

MR. GARBER: How the existing conditions you feel that the existing access point on the property in issue is better than that on Bonapart, correct?

THE WITNESS: I believe so yes.

MR. GARBER: How does it change with the proposed, if it changes, maintaining the entrance but splitting the exit?

THE WITNESS: Well, sight distance on Bonapart is sight distance on Bonapart. It doesn't

change vehicles turning into and out of Bonapart based on what we do with our access, when you are pulling into Bonapart or pulling out of Bonapart, it's still the same, it's not changing the access or moving.

MR. GARBER: Their case is going to remain static.

THE WITNESS: Correct.

Q. While you are standing up there, do you disagree that Harford Road going north, the speed limit is 50 miles an hour?

A. I have it as 45 miles an hour based on --

Q. I guess I'll have to show you this.

A. I saw those pictures but I also have a picture southbound, I saw it again this morning.

Q. That's southbound where?

A. Southbound here north of the site is 45 miles an hour and the last I checked, I saw 45 miles per hour coming northbound, but it was a significant distance away.

Q. I'm going to show you the photograph, Harford Road shows 50 miles an hour speed limit.

MR. GARBER: Wait a minute, let Mr. Schmidt take a look.

MR. HOLZER: This is a Google exhibit.

MR. GARBER: Show Mr. Schmidt first.

MR. SCHMIDT: Mr. Holzer, just as you objected my photographs not taken by, unless this witness could identify where this road is, this could be in Parkville, Harford County, it could be anywhere.

MR. HOLZER: I'll have it identified.

MR. GARBER: Let's see where it takes us.

MR. HOLZER: I'll show you the photograph.

MR. GARBER: We need to mark for identification purposes.

MR. HOLZER: Mark for identification purposes whichever --

MS. MURPHY: Seven.

MR. HOLZER: Seven A, B and C.

(Protestant's Exhibits 7-A, B and C were marked for identification.)

Q. Well, I'll show you three pictures and Mr. DeWitt Clark, who will be testifying, I will mark

them for identification.

MR. GARBER: Mr. Caloggero, you may have a seat. If Mr. Caloggero recognizes it, so be it.

Q. This is a Harford Road photograph showing 50 miles an hour.

A. Can I ask --

Q. Well, we'll just take them one at a time?

A. I would like to. Okay. So this is a Google image of a street view?

MR. GARBER: Looking at 7-A.

THE WITNESS: Looking at 7-A, it's a Google image not a photograph taken by anybody. It's a Google image and I can't tell you the date or time that this photo was taken.

Q. Do you know where that is?

A. They don't enter times, so I can't tell.

MR. GARBER: The most important question is what Mr. Schmidt just said. Do you recognize the location depicted in 7-A?

Q. You travel this once a week. You certainly must remember what time the speed limit is.

A. I identified it as 45 miles an hour.

Q. Even though it says 50?

MR. GARBER: The photo shows what it shows, do you recognize that location?

THE WITNESS: No, I do not. It's a picture, again, I would like to know the date that this picture was taken.

MR. GARBER: It wouldn't make a difference if you didn't recognize the location.

THE WITNESS: True but if you are introducing testimony of 50 miles and pulling it from a Google map, Google map has identified the date when the picture was taken.

MR. GARBER: Mr. Caloggero, so what will happen here, if you can't identify that location, I assume Mr. Holzer will call a witness who will give testimony as to the location of it.

MR. HOLZER: Your Honor, 11424 Harford Road, Glen Arm, Maryland, Google, Inc., street view, 2013.

THE WITNESS: 2013.

Q. Yes. It is what it is.

A. 2013.

Q. Okay, take a look at this picture.

MR. GARBER: Is that 7-B.

MR. HOLZER: Seven-B.

A. That could be anywhere, but yes.

Q. Seven-C says 50 miles an hour down on that sign right there.

MR. GARBER: Do you recognize the location in 7-C, sir?

A. I am trying to.

Q. Take a look at the post office on the left-hand side.

A. Yeah, yeah, I don't know the numbers. Can I ask, is that the turn to the right?

Q. Yes.

A. But again, there is no date on these pictures, my field investigation showed 45 miles an hour and 45 miles an hour southbound.

MR. HOLZER: Okay.

MR. GARBER: They are received for

identification purposes at the moment.

MR. SCHMIDT: I would object. The witness has said he can't identify it. Identification only.

MR. HOLZER: It's the same problem I had earlier in this hearing when he was testifying about things he hadn't done.

MR. GARBER: He testified that he recognized the location, the critical difference between the two.

Q. Okay. All right. I would ask you this question just for purposes of letting you understand that my clients seem to think that it would be good to use the proposed exit for ingress and egress; would you object to that?

MR. SCHMIDT: Objection. Objection.

MR. GARBER: Why?

MR. HOLZER: I am trying to help settle the case.

MR. GARBER: Mr. Schmidt.

MR. SCHMIDT: He's asking the witness if he would object to what Mr. Holzer's clients think. Is

that what he's asking?

MR. GARBER: What I understand the question to be was can you have it be where the proposed exit can serve as the entrance and exit, would you have a problem that were to be used in that manner.

MR. SCHMIDT: He has asked and answered that 20 times where he said the existing exit/entrance was safe but he was asked by State Highway Administration to show another exit had point and that's safe too?

MR. GARBER: He's asking can you use the proposed exit and also the entrance. Close the existing one entirely, relocate the exit down to proposed exit. Is that what you are asking?

A. Again, I am going to pump this question. It's up to the State Highway Administration because I gave them all of this information.

Q. Right.

A. And my opinion again, 190 feet is not enough sight distance to turn left into the site.

Q. Would you object to the citizens supporting

your request for the proposed exit and also supporting the request that the existing entranceway be closed and the new proposed exit be used as ingress and egress, would you propose that with the State Highway Administration, if they went to them and said, oh, we'd love to have that, that solves that problem?

A. I don't know if it solves the southbound left turn problem unless the fence gets removed. I am not going to recommend to my clients to do something unsafe, but if, hypothetical if, if that fence was removed and I can visually see, and I am going to get up and point, if vehicle three on Exhibit 16-B can see through the fence to a northbound vehicle coming around the turn an appropriate distance the State Highway Administration believes is acceptable, then I would agree and recommend that as well. Again, I don't want to take people's property or the neighbor's fence. But it's an obstruction.

Q. I understand. But suppose we are as a community trying to get to a more reasonable and safe entrance and exit, would that be something, I mean, it

would be up to the lady who owns the fence and the trees and whatever to consider it, but if she were to consider it, would that be something that you could then support?

A. If the fence is removed, yes.

Q. The whole fence, part of the fence or what?

A. As long as I can visually see a certain distance that's safe and the State Highway Administration agrees that that left turn distance is safe, then yes.

Q. Do you know, is there any mechanism for the citizens to be able to provide input with the State Highway Administration if they felt it would be appropriate to raise that issue? In your experience with the State Highway Administration, would they respond to citizens' suggestions or would they not, to your knowledge?

A. I mean, would they respond? Yes, and it would depend on the type of situation we are talking about. If the State Highway is not going, in my opinion, if I put on my State Highway hat, I'm not going to approve

something the citizens would like if it makes it unsafe or not safe. If the change, if the citizens come in for this case, I have been involved in cases where someone says, if we cut down all the branches from the neighbor's property so we can see 300 feet, and you approach the neighbor and the neighbor agrees that has happened in the past, yes.

Q. You wouldn't be adverse to having citizen input to the State Highway Administration while you are proposing these various alternatives?

A. It's not my call, it's the State Highway's call. I thought you asked if I thought the State would accept. I think the State would accept, but I think something else has to be brought on the table.

Q. My real question is would you oppose the citizens going to the State Highway Administration to try to resolve this issue to be safer than what it is?

A. It's not my call. It's the State Highway's call. If the citizens want to approach the State Highway Administration, I can't stop them. I can't stop you guys from opposing, so I mean, I can't oppose

--

Q. In your experience would the State listen?

A. The State's first job is to make it safe.

Q. I understand that, sir. So is the community's desire to make it safe.

A. That's where we are and that's why again, unless physical existing conditions change south of Bonapart Avenue, I cannot recommend an inbound north of the existing inbound location.

MR. GARBER: You cannot propose the entrance being moved to the proposed exit for that reason?

THE WITNESS: Correct.

MR. GARBER: Because you believe it is less safe.

THE WITNESS: Correct.

MR. GARBER: Or even unsafe.

THE WITNESS: Yes, I believe it's less than.

MR. GARBER: Now, is there another way to go about doing that if the State Highway

Administration, for example, were to change, not saying this would occur, but if they were to change signage and change even if that means mandatory lesser speed limit.

THE WITNESS: Typically the State Highway Administration does not change speed limits. Drivers are going to drive what they tend to feel most comfortable. We have talked about that today. The State Highway Administration's typical position is they are not going to reduce the 45 or 50 miles an hour speed limit to 30 unless there is a reason for it. They don't want to make all the drivers of the area drive it. They are going to drive 50 anyway. It will make it unsafe.

MR. GARBER: The speed limit is also geared to the type of use of the road, correct?

THE WITNESS: Correct.

MR. GARBER: They have designated Harford, I don't know if you are aware what they have designated Harford Road as.

THE WITNESS: I don't have that.

Q. Thank you. Let's turn to another area now. What is the difference between AASHTO and FHA minimal requirements, if you could define that?

A. Well, AASHTO is the guide. It's the reasonable state national guidelines and the State probably has their own minimum guidelines as well.

Q. So there could be two different standards?

A. Yes, because the AASHTO is a guide, AASHTO is a guide. The State Highway can adopt standards or their own guidelines. We have to be careful with the guidelines versus regulations.

Q. Or minimum requirements?

A. Yes, lot of times there are many conditions in there. A lot of times it's based on the conditions of the road and so on and so forth.

Q. I'm sorry, I asked you this question before and you apparently don't believe, well let me ask you. How does the State Highway classify the entrance here as commercial or residential or whatever?

MR. SCHMIDT: Objection, asked and answered. We have been through this. He said it's

institutional.

MR. GARBER: I understood that his opinion was an institutional. Sir, you are basing that on the AASHTO guidelines or --

THE WITNESS: The use of the property.

MR. GARBER: I believe the question was what does the State consider --

MR. HOLZER: Exactly.

MR. GARBER: -- if you know?

THE WITNESS: I do not know what the State considers that.

Q. In your testimony, do you believe that your plan meets State Highway minimum requirements?

MR. SCHMIDT: Objection. For what? Minimum requirements for what?

MR. GARBER: Hold on a second.

MR. SCHMIDT: I just am trying to figure out if it meets the State Highway minimum requirements.

MR. HOLZER: Exactly.

MR. GARBER: Does the existing access --

MR. HOLZER: Yes.

MR. GARBER: -- meet the State Highway minimum requirements?

MR. HOLZER: Yes.

THE WITNESS: State Highway will determine that as part of the access permit process.

MR. GARBER: Does the proposed exit meet the State Highway minimum requirements.

THE WITNESS: Again, I'll let the State Highway Administration answer that as part of their access to the property.

Q. That's the question. So, all of your testimony and all of the plan is basically contingent upon what the State Highway Administration does when it determines an access permit, right?

A. Yes, and I believe we have, we have said that.

Q. Right.

A. And we are providing recommendations based on AASHTO standards which State Highway Administration using.

MR. GARBER: SHA uses AASHTO, you said.

THE WITNESS: Yes.

Q. AASHTO requirements may not be as restrictive as State Highway minimum requirements, correct?

A. It may or may not be. Again, we have to rely upon the State Highway Administration.

Q. Right, right.

A. And I'm providing testimony as to what I believe is safe and unsafe based on my expert opinion and AASHTO.

Q. But we really don't know until the State Highway Administration issues the access permit, if they do, we don't know where the entrance and the exit will be?

A. Correct.

Q. Okay. Is there a difference between, let me put it this way, is it or is not AASHTO more useful for projects using roads that are not State highway?

A. AASHTO is a national guide for state highway transportation. So, I mean, it's used nationwide by all the state highways.

Q. I understand that, but my question is, isn't

it more useful on using the AASHTO requirements for road that are not state highways?

A. For not state highways.

Q. That are not state highway?

A. Is that even in this case? We are a state highway.

Q. That's correct.

A. I guess I'm misunderstanding the question.

Q. All right. Would you use AASHTO requirements on an interstate?

A. Yes.

Q. Okay.

A. You used AASHTO on interstates and local roads. It varies all the way. They have all kind of different standards and all types of roads, all types of speeds.

Q. Whose requirements prevail between AASHTO and either the Federal government or the State government?

A. Depends on the agency who owns the road.

Q. State Highway Administration, if AASHTO says one thing and they say another, who prevails?

A. You are asking me to testify as to how SHA would review the access and I'm going let them do that as part of their process. I am giving them all my background information and all my detailed information on sight distance and expertise. They are the ones who have to make that decision.

Let me answer this way. Have they used AASHTO in the past to make decisions, absolutely yes, they have used AASHTO to make decisions.

Q. That's not my question. My question was given AASHTO and State Highway requirements, which one, if they conflict, which one would prevail?

A. That's the State Highway's call.

Q. That's all I needed you to say before.

A. I did say it.

Q. When you were first retained as a traffic engineer by your client, did you ever tell them there was an issue in regard to the access of the entrance? Did you ever tell them that there was going to be this involvement with State Highway permit?

A. Yes, yes, they would need an access permit for

the change of use with the State Highway Administration.

Q. Okay. Did you give them any advice as to how they could utilize the property pending the issuance of the State Highway?

A. No, I did not.

Q. Did you, in terms of your trip generation analysis, did you question them at all about the use of the property once it became useable again?

MR. SCHMIDT: Objection. I don't even, once the property became useable? I don't know what that means.

Q. All right, well, you know, let's do this. How many times have you actually been on the property and give me their dates, approximate dates, you don't have to tell me the hour and day, but approximate?

A. I know I was there in December, probably January before, I believe the hearing was in January, so I believe I was there in December, I believe I was there in January, I guarantee I was there in July, I drove past the site this morning.

Q. I just asked you when you were on the property to inspect?

A. On the property?

Q. The parking, the building?

A. I was with you at one time on the property. When I met with State Highway, I walked the property, I walked it with the team. Can we say five, maybe five times I was on the property.

Q. December, January, July of 2018?

A. I think 1/15 and February and July.

Q. December of 2017.

A. Yes, I was retained in --

Q. January of 2018?

A. Yes.

Q. And when else?

A. Probably in July.

Q. July, 2018?

A. And sometime in between February and July, so four or five times.

Q. Okay.

A. You are saying physically --

Q. On the property?

A. -- be on the gates.

Q. Exactly.

A. Yes.

Q. I know you are driving by?

A. Yes.

Q. Now, at those, one, two, three, four times, were you there when anybody else was there on the property other than the person you were meeting?

A. No.

Q. You were not there at when any of the potential festivals or gatherings or get-togethers?

A. I would not. They are all team meetings.

Q. Okay. So when you estimated or tried to provide information to the State Highway Administration about the use of the property, you basically took what the client had given you as to the use, is that correct?

A. That's correct.

Q. Okay. So, you had no independent analysis of how the property was going to be used?

A. That is correct.

Q. Okay.

A. Meaning I did not go out to another similar type facility.

Q. Right. In other words, you didn't look for other properties, you didn't do anything like that and I'll show you --

MR. GARBER: Mr. Holzer, just out of curiosity the as to where are we in your cross examination?

MR. HOLZER: About a third of the way through. We can take a quick break.

MR. GARBER: That's what I was going to say. Is there an appropriate time that we can take a break in your questioning here?

MR. HOLZER: Any time you would.

MR. GARBER: Would that be it.

MR. HOLZER: That's fine.

MR. GARBER: Why don't we take ten minutes break?

MR. HOLZER: Fine.

MR. GARBER: We can come back and resume questioning.

MR. HOLZER: Thank you.

(A recess was taken from 11:07 AM to 11:30 AM.)

MR. GARBER: So you are wrapping up your cross examination?

MR. HOLZER: For lunch.

MR. GARBER: Fair enough.

MS. MURPHY: Did you condense those questions?

MR. HOLZER: Oh yes. I have really narrowed it down. You want to quit around five?

MR. GARBER: Actually, I am ready to go to nine tonight, but I assume many other people in the room aren't. I'm sorry for the Court Reporter.

Q. All right, we are back on the record. Do you, from your testimony right before we took the break, it appears that the State Highway Administration is what it is and does what it does and you are not going to inject yourself into their activity related to this

request. But do you know what the State Highway Administration requirements are for this property? In other words, is there something set out that you can refer me to that says, on this property and this road in this area, this is what you have to do or we have to consider?

A. That's a lot there. First, I'm already injected into that process through my communication and sharing information, sight distance, proposed access location, different alternatives, answering their questions. And it's at this point in time where I'm waiting for them to get back to me to say, we agree, we disagree, this is what we think, let's meet to discuss, let's have a field meeting, anything of the sort to help them make a decision. But right now, in my opinion I believe they have most of the information needed to make a decision unless they request more.

Q. Do you have any idea how long their decision would take?

A. I believe we started our communication with

them early winter and they still don't have a determination yet. But we have been providing data back and forth. I'm really hoping to get something back from them in the next two weeks. I think two weeks is appropriate based on where we are.

MR. GARBER: Mr. Holzer asked you a question. Do you know what the SHA requirements are from this property. I don't believe I heard the answer.

THE WITNESS: I do not know what their specific requirements are for this property.

MR. SCHMIDT: Just to be clear, I think the witness said they are going to require an access permit, issue an access permit. I don't know if that's what you meant.

MR. GARBER: The way I understood the question is relative to AASHTO, that is, are there different requirements, if so, what would those requirements be, understanding there's been plenty about the access permit and all the other stuff.

MR. SCHMIDT: They are saying they get an

access permit.

THE WITNESS: If I could interject in here. They look at each individual property on its own merits. What they may require here may be different than what they require down the road due to the conditions of the specific location. So it's not a one size fits all. They have to review the entire case and so forth for this property.

Q. Well, is part of your responsibility to tell them how this property is to be used?

A. Yes.

Q. Okay. And the information, what information, well, strike that. Let me do something else first.

On January 10th, 2018, you wrote a letter to Mr. Kotroco in regard to this project, I guess. Can you take a look at that and see if that's a letter and your signature?

MR. GARBER: Can we have that for identification purposes?

MR. HOLZER: Sure, how many do you want?

MS. MURPHY: Four.

MR. GARBER: This is Number 8.

THE WITNESS: Yes, I wrote this letter and it is for this property.

Q. And this letter was dated January 10th. Was that before the Administrative Law Judge hearing?

A. Either are before or day of, yes. I believe it was the day before.

Q. Now, in regard to this letter, have you supplemented this letter to the State, did this letter go to the State Highway Administration?

A. Yes, it did.

Q. Okay. So, it went to the State Highway Administration as part of your responsibilities to tell them what was going to happen here?

A. Correct.

Q. Have you supplemented this letter with any other details about the issue of what is going to happen here, how it's going to be used?

A. Yes.

Q. Do you have those letters? What have you done, is it a letter or is it testimony?

A. An e-mail.

Q. Huh?

A. E-mail.

Q. Do you have the e-mail that I can see?

A. I have the e-mails, yes, they are all in my laptop.

Q. I'm specifically interested --

A. I can tell you what I sent to them.

Q. Okay. I'm specifically interested in whether or not you explained any more in those e-mails about how the property was going to be used?

A. So, I explained to them the details in this letter.

Q. Yes, I'm going to ask you that.

A. So, I explained in the details of this letter and then they asked how does this compare to the ITE, the Institution of Transportation Engineers Trip Generation Manual.

Q. Okay.

A. I told them it did not because this is a different type of use than a typical church use. We

have been through that before; if you need me to re-explain, I can.

Q. Okay.

A. But they still requested that I provide information and that's when I did just a trip generation based on the first floor square footage of the existing building I believe of 3500 square feet and told them that's what it would generate in the morning and evening peak the hours based on the national statistics of a church.

Q. Could you product that e-mail for me now, is that easy, and then you can make copies of it later?

A. I don't have a printer.

Q. If it's on the laptop, you can let me look at it for now and I can tell you whether we need to print it out or not. Mr. Schmidt, you want to jump in?

MR. SCHMIDT: I don't know the context of what Mr. Caloggero may have in his e-mails and I don't know what, certainly things the State Highway may not be privileged as to the client.

Mr. Holzer, I don't know how long you are

going, maybe we can look at it and try to print it at lunch time.

MR. GARBER: I was going to say if it's in the computer, automatically seems to me that's something that can be resolved in the lunch break.

MR. HOLZER: Then I can't ask the question I want to ask him without the answer being known.

MR. GARBER: How long will it take for you to pull up the e-mails?

THE WITNESS: Not long, quickly.

MR. HOLZER: See, that's why I would like to pull it up on his, whatever, and then we can look at it and then it can be printed off if it's relative to my questions. I don't want to waste time.

MR. SCHMIDT: He's not referring, I mean, this isn't a discovery hearing or a deposition of the witness and he's explained what he's done and how he did it. I just, I'll be honest with you, it's somewhat, I don't know, I think it's, I mean, if the witness had it in front of him and he was referring to it, certainly, Mr. Holzer could get to it. But he

doesn't and he's not and if Mr. Holzer wants to go through a fishing expedition and look through the man's e-mail and open his computer, I just think it's improper. He's not relying on it during his testimony. If it was there in front of him and he had a bunch of e-mails, then could see that would be proper.

MR. HOLZER: This is absolutely ridiculous. I am asking this witness --

MR. SCHMIDT: I agree.

MR. HOLZER: -- expert witness, questions in regard to what he did with the State Highway Administration. Do you understand that that's a relative and very important aspect since the State Highway hasn't even reacted yet. Okay? I want to know whether he provided them all the information that he is supposed to provide them.

THE WITNESS: Yes, I did.

MR. GARBER: Mr. Caloggero.

MR. HOLZER: One of those, as he's now said, is that he followed up with this January 10th

letter with an e-mail to the State and I think it's relevant as to what he provided to the State that goes along with forming his opinion, period.

MR. GARBER: If I were to play devil's advocate on that, I would say I understand the relevance part of the question. That's not a question. I understand the materiality. That's not in question. What Mr. Schmidt said though leads to the manner of production. It's not an exhibit, he's not relying on it for purposes of his testimony. How then to get to it from his e-mails becomes a real issue for this case because it can't compel production without the accompanying of a subpoena.

MR. HOLZER: I can do that for October, if that's what they want.

MR. GARBER: Mr. Schmidt, seems like an easy way to resolve the issue, but I'll leave it up to you.

MR. SCHMIDT: Let me --

MR. GARBER: And from what I hear, the resolution of that issue would be necessary for the

next line of questioning.

MR. HOLZER: Yes, well, related to this letter.

MR. GARBER: Let's do this --

MR. SCHMIDT: I'll tell you what, can I have just a second to talk to Mr. Kotroco?

MR. GARBER: Sure.

(Petitioner's counsel engaged in an off the record discussion.)

MR. SCHMIDT: Mr. Holzer, to get through this, I am going to give you this, ask the witness to identify it and see if that answers the question.

MR. HOLZER: No, not where I am going.

MR. SCHMIDT: I have a copy of the e-mail. I'm just going to proffer, if I can.

MR. GARBER: Mr. Holzer, Mr. Schmidt.

MR. SCHMIDT: I'll ask Mr. Caloggero if you want.

MR. HOLZER: Give it to me, I'll ask it.

MR. GARBER: Let's mark that for identification purposes. This is now Exhibit 9.

MR. HOLZER: It is not Protestant's 9. I am not introducing this document.

MR. SCHMIDT: I'll offer this as Petitioner's exhibit whatever my next exhibit is. I don't care.

MR. GARBER: We can't do that now and if you are not going to identify it, you can't use it now.

MR. HOLZER: It's irrelevant, what he's produced.

MS. MURPHY: If it doesn't help you --

MR. HOLZER: It's irrelevant. It's not the e-mail that I referred to.

MR. GARBER: Okay. So, we are not resolved on that issue as to what to do with the computer is what I am hearing, Mr. Holzer?

MR. HOLZER: We are resolving it. I'll defer asking this line of questioning until we come back from lunch.

MR. GARBER: Here's where we are. We have e-mails over here that potentially could be what he's

referring to. But right now we can't show it to him because you don't want to make it an exhibit in your case and we are not in Mr. Schmidt's case, well, we are not in his direct or redirect testimony for purposes of introducing that exhibit. We can't tell if that's the e-mail he was referring to.

MR. HOLZER: I can tell you it was not the e-mail he was referring to. It does not have the e-mail that he already admitted that he provided to the State.

MR. GARBER: That's not evidence. That has to come from him. He has to say yes or no to that question. That's the problem we are having now.

MR. HOLZER: Fine. Mark it for whatever you want.

MS. MURPHY: Whatever you want.

MR. GARBER: Protestant's 9.

(Protestant's Exhibit Number 9 was marked for identification.)

Q. Sir, is this the document that you referred me to that you sent to the State Highway Administration?

A. If this is, just trying to keep up with all the questions. This is the information I just stated about the State Highway asking for trip generation information based on ITE and I utilized the 3500 square feet and developed trips based on 3500 square feet, yes.

MR. GARBER: The answer is yes.

Q. Did you provide any other e-mails to them relative to the use of this property.

A. To the --

Q. Use of the subject property?

A. This plus the 10th, January 10th letter.

Q. So, those are the only two documents that have indicated the intended use of the subject property from you?

A. Correct.

Q. And presumably then, that is all the State Highway Administration understands about this use of the property?

A. Correct.

Q. Okay. Fine?

MR. GARBER: So are we moving that into evidence.

MR. HOLZER: Yes. Move them. Perfect.

MR. GARBER: Mr. Schmidt, do you have an objection?

MR. SCHMIDT: I don't have any objection. Ms. Murphy, I have some other copies, but not with the floor plan.

MS. MURPHY: We can make a copy of perhaps this one.

MR. SCHMIDT: It has two pages of correspondence and an attachment.

MS. MURPHY: Yes.

MR. GARBER: And the floor plan is already in to evidence anyway.

MR. SCHMIDT: It's already in. If you'd like copies of the two pages of e-mails, I have more of them.

MR. GARBER: The actual exhibit will have the floor plan. The ones that you have to give to the Board at this time do not have the floor plans, but

the floor plans are already into evidence.

MR. SCHMIDT: Right.

MR. GARBER: We can all move on now.

MR. HOLZER: Like I said.

MR. GARBER: Protestant's Exhibit 9 is admitted.

MR. HOLZER: What about Protestant's Exhibit 8, is it admitted?

MS. MURPHY: The letter?

MR. HOLZER: The January letter.

MR. SCHMIDT: I have no objection to it.

MR. GARBER: Thank you, Mr. Holzer.

(Protestant's Exhibit Numbers 8 and 9 were admitted into evidence)

Q. Let's take a quick look at paragraph three in front of you. What you indicated to the State Highway Administration through both of these exhibits, 8 and 9, is that there will be less than 20 people coming to the temple on weekdays, less than a hundred coming on weekends. The temple does not have a leader, worshipper, so will arrive at different times during

the weekdays, et cetera. That's all the State Highway knows about the proposed use of this site?

MR. SCHMIDT: Objection. I mean, that's all they know from this document they may or may not know.

MR. HOLZER: Objection overruled.

MR. GARBER: Thank you for that, but they are not here anyway. So for purposes of what State Highway knows is different than what he communicated.

MR. HOLZER: Right what State Highway knows is whatever he communicated to them.

MR. SCHMIDT: How do you know that?

MR. GARBER: I would sustain the objection on what I just said. What he communicated to them is one thing, what they know and we don't know what if anything else they did, their state of knowledge, do not know sitting here today. We do not know. We do know what he communicated to them though.

MR. HOLZER: We do know what he communicated to them. All that he communicated to them was this letter, January 10th.

MR. GARBER: Right. And so, the question is are you aware of any other information they may have other than what you gave to them?

MR. HOLZER: Not what they may have. They have no more information than what he provided.

MR. SCHMIDT: Objection, how do you know that? They might have gotten information from your client, Mr. Holzer. I don't know whether they did or not.

MR. GARBER: The objection is sustained on that basis.

MR. HOLZER: Next question.

MR. GARBER: Move on.

Q. If you had to tell the Board today how they are using the proposed property, would you limit your answer to what is in this Exhibit Number 8, the third paragraph.

MR. SCHMIDT: Objection. I mean, we have had testimony from the Petitioner as to what the proposed use is. What, Mr. Caloggero is certainly not the best evidence. What is the purpose of this

question?

MR. HOLZER: The purpose of the question is --

MR. GARBER: Hold on. Hold on. What is your question again?

MR. HOLZER: The question is, is all that you have provided them was what is in paragraph three as to the, now that he has been involved in this case since before January, does he stand by that description of the use of the property to the State Highway Administration?

MR. GARBER: Do you understand the question, sir?

THE WITNESS: I do.

Q. He understands the question?

A. Can I answer the question?

Q. Yes.

A. Okay, so, typically, when we send information to the Maryland State Highway Administration on trip generation, it's based on typical days, based on your average day during the week, based on your average day

during the weekend. When we look at other, and I testified this the last time I was here, you know, looking at special events and other things, that's not going to be in this letter as to there's an event on Saturday which may generate more people. The State Highway Administration looks at typically the average day per year, 365 days a year, 52 Saturdays, 52 Sundays, so on and so forth. They are not looking at the highest most intense use of the property to determine the trips, to determine the road improvements and access. They are looking at the average typical day per year, which is what we gave them. It's going to be the regular use of the property in which they use this to determine information. And then again with the, you are just referring to this letter at this time?

Q. Yes.

MR. GARBER: Exhibit 8.

A. So, based on the regular use of this facility, correct.

MR. GARBER: In other words, if you are

communicating to the SHA today about the use of the property you communicate the exact same information as reflected in Exhibit 8.

THE WITNESS: Absolutely.

Q. You would not tell them they have 8 or 10 festivals per year in which more than 20 people would show up, that maybe a couple hundred people would show up, multiple uses of the property, you wouldn't tell them that, right?

MR. SCHMIDT: Objection, it's assuming all kind of facts not in evidence. It's a misrepresentation of what the witness has said.

MR. HOLZER: Look, this case hasn't even started yet because the Protestants haven't had --

MR. GARBER: Day three.

MR. HOLZER: Protestants haven't had a chance to put on evidence that they have gathered. So, to presume that once you have heard these three days, that's it, the Protestants can just blindly complain.

MR. GARBER: I assure you that's not the

way we approach that.

MR. HOLZER: I understand, but that's the efforts to limit questioning of the applicants's witnesses because there is relevance and I will be able to establish there's relevance contrary to what is being said.

MR. GARBER: Okay.

MR. HOLZER: That's what I am trying to lay the foundation for.

MR. GARBER: Start again, Mr. Schmidt, when you say the facts being assumed are not in evidence, I need you to be more detailed. Start your question again.

MR. SCHMIDT: When he says 8 to 10 festivals, it is not what the people said, when he said it's being used for other purposes.

MR. GARBER: Luckily, we have Court Reporter and Court Smart today. So we can resolve that one way or the other once we get the transcripts. If Mr. Holzer wants to ask the him questions about 8 or 10 festivals, if that's not what the record said

previously, so be it.

MR. HOLZER: It said it below before the Administrative Law Officer. And you know, I'm just asking him again, is that his understanding. I am entitled to ask him what his understanding is.

MR. GARBER: So the materiality of what he has to say may very well hinge on what the actual testimony was earlier. If it's incongruous to what was being asked earlier. That goes to the weight of the evidence received.

Mr. Holzer, ask your question.

Q. Do you know how many festivals there are, how many gatherings in which more than 20 people show up, which the purpose of those people coming there, do you have any knowledge of any of that?

A. I do not know specifically, no, I do not.

Q. So as a result, you couldn't say that you conveyed that information to anyone else at the State Highway Administration?

A. I did not convey that information to the State Highway Administration because they typically do not

review that type of material with trip generation and trip distribution of a site. So when, for instance, when we look at a, for instance, a WalMart or a shopping center, they don't ask us to look at black Friday, they don't ask us to look at the conditions of Christmas or major shopping events; they want to know if the typical day-to-day traffic can be accommodated. Same with the single family home. The single family home is going to generate on average 10 trips per day. But if you have a birthday party and 20 adults arrive and leave, that's going to exceed the ten trips per day. You don't study what may happen on a special occasion. The State Highway Administration wants to know on a typical day what happens so we can adjust for it. I provide that information.

Q. You already when you testified about the Ravens stadium, I understood that.

A. Yes.

Q. Your answer is repetitive to that question asked the day before.

MR. SCHMIDT: That's because the questions

are repetitive.

MR. GARBER: We can move on at this point, Mr. Holzer.

Q. When you did your traffic analysis, did you do, did you look to determine whether the accident rate or any accidents had occurred on Harford Road?

A. I did not.

Q. Huh?

A. I did not.

Q. And why didn't you, do you know?

A. It wasn't requested by either Baltimore County or the State Highway Administration.

Q. Okay. So it wasn't requested. Could it be requested in the future?

A. If the State Highway Administration or the, I believe it would be the State at this point, if they requested it, but again, the State has all that information, so we would be asking the State to provide such information.

Q. All right. I'll show you what has been produced. Are you familiar with the Table One traffic

crashes?

MR. GARBER: Hold on. This is Protestants Exhibit 10 for identification purposes.

(Protestant's Exhibit Number 10 was marked for identification.)

MR. GARBER: Sorry. Are you familiar with Table One?

Q. Yes, which is the first page of this document and selected Harford Road between Hartley Mill Road and Glen Arm Road as the area in which it encompasses?

A. This is the first time I am seeing this.

Q. I know.

MR. GARBER: First time you are seeing Exhibit 10 or the first time you have seen the table on Exhibit 10?

THE WITNESS: First time I have seen Table One on Exhibit 10.

Q. As you said, you don't care about traffic accidents?

A. I didn't say I didn't care.

Q. Well, you didn't bother to check.

A. Please don't put words in my mouth.

Q. But you didn't check?

A. I typically do what the agency requires because maybe they know.

Q. The fact that Baltimore County or the State Highway Administration may know something, you didn't feel it relevant to know when you formed your opinion as to how dangerous this area is?

A. Well, again, I have reviewed the area and based on the conditions that I'm set to review, I have determined that the access points are safe for people entering and exiting this property.

Q. Okay. But for whatever reason in the year 2016, 11 total accidents were reported by Baltimore County Police, 23 in 2017, 7 in 2018, for a total of 41; do you have any reason to doubt that?

A. I could not, well, since there is typically accident reports much more detailed than the number of accidents, these don't give any type of description as to the location, as to the extent of the accident, whether they were driver error, whether they were

excessive speeds, whether they were on wet pavements, snowy conditions, whether they were drinking and driving. There are numerous reports that would accompany the 41 the accidents which you are not providing and I do not have.

Q. Well, if I were representing these people who have to come in there every week, have to come in there when they have special events and so forth and I'm the traffic expert, I sure as heck would like to tell all these citizens, look, there have been 41 accidents here, a lot of them what is shown here between Hartley Mill Road and Mount Vista Road, that's smack in the middle of where these people are going to be required to go on the weekends, on Saturdays, Sundays, during the week to a festival. Don't you think that's relevant as a traffic expert?

A. May I answer?

Q. Sure, go ahead.

A. Again, the information you provided is extremely general?

MR. GARBER: Talking about Exhibit 10.

THE WITNESS: I am going to make a point. So, all 41 of these accidents could potentially be at the intersection of Harford Road and Glen Arm Road in which the State Highway Administration the just constructed a traffic control by putting in a roundabout. That was just recently constructed and maybe they did that based on this accident history. The instance they did a study on this corridor most recently and determined that a roundabout was necessary just north of this site, I would hope they would have pulled more detailed information. Maybe that's why they didn't ask me for it because they already had it.

Q. They may not have asked you, but why didn't you tell your clients?

A. I determined the access is safe based on the use of this property.

Q. And you are absolutely right about this document, Exhibit Number 10. It only says there were hit and run accident s, personal injury accidents, property damage accidents. So, yes, you are right, I

would sure want to go and get the police report and find out not only where it occurred but how bad it was, whether there are any deaths, whether there were any personal injuries. You are right.

A. Was there a question?

MR. GARBER: Mr. Caloggero.

THE WITNESS: I'm sorry.

Q. The question is you didn't bother to inform your clients as to the potential problems and why they needed to be determined.

MR. SCHMIDT: Objection. I mean, I'm just tired of these questions where Mr. Holzer testifies and asks a question, puts a question mark at the end of his testimony.

MR. HOLZER: We are going to get our case going.

MR. SCHMIDT: As to what he told his client, come on.

MR. GARBER: What is your question to this witness?

MR. HOLZER: Let me go back to my script.

MR. SCHMIDT: Change your script, Mr. Holzer.

MR. HOLZER: Mr. Schmidt, I don't criticize you, so let's stop doing that.

MR. GARBER: Let's do this. Take a step back here, take a deep breath, we have been here before, not literally in this case, but proceedings enough, especially the two of you.

MR. SCHMIDT: It's all part of the fun.

MR. GARBER: I know. So, the for the purposes of the record, if nothing else.

MR. HOLZER: I promise to be good.

MR. GARBER: Thank you.

MR. SCHMIDT: I do too.

MR. GARBER: Thank you.

THE WITNESS: I don't. I'm kidding. I'm sorry.

Q. All right. I'm trying to get away from the State Highway Administration for a moment. You testified that you didn't compare any other Hindu Buddhist temples in terms of understanding the use so

that you could apply the use of those facilities to this site, is that correct?

A. I took direct testimony or direct information from my clients as to their operation.

Q. Right, okay. So you didn't confirm any of what you believe they told you about how they are going to operate in the future?

A. I believe I just answered that. What they told me is how I came up with this decision.

Q. Yes. Right. Do you know how our design speed is determined? How are design speeds determined?

A. I thought you were say our.

Q. How are, A R E, how are design speeds determined?

A. In general?

Q. Yes.

A. In general, design speeds are determined based on the proposed use of the road or future use of the road determined by the government agency or which ever agencies is ever constructing, designing or building a road.

Q. And the design speeds set on the subject site on Harford Road were set for purposes of residential use such as this property being used for a home and the relative use along the area of Joppa Road, Harford Road?

A. I can't answer that.

Q. You don't know?

A. I wouldn't know that. I wouldn't know how the design speeds were determined for Harford Road.

Q. My question is really more precise than that. The question is we know the design speeds were set for Harford Road when this property was used as a Residential One Owner property. But in your opinion does it change when you introduce, I don't care to call it a commercial or institutional use or whatever, but a use that is not similar to a private residence, such as the proposed use?

A. If you are stating the design speeds of Harford Road, it's not going to change.

Q. Okay.

A. The design speed is based on the road and the

intent of the road not one property on the road. They are two different animals.

Q. Would it be different if south to this site you had commercial shopping centers, for instance, would the design speed change if you had a Wal-Mart?

A. Again, that's all based on the State Highway Administration criteria. The design change is already designed. It's designed and constructed. So, the design is speed has already been predetermined.

Q. The change of the use of the properties along the way would not affect the design speed for that road, even if things changed?

A. Unless they are going to change the entire road itself, if they are going to upgrade the road for certain things, again, it's the State Highway Administration.

Q. I'll give you an example, I go across Joppa Road all the time.

A. Yes.

Q. In 1800, Joppa Road was a cow path. Then it was the paved, it didn't have four shopping centers on

either side of the road. Obviously, at some time the design speed of Joppa Road where it's changed from farm land to commercial caused a change in the speed limit, right?

A. Speed limit and design speed are entirely different objects. They are completely different animals. One is not based on the other.

Q. Okay, what about speed limits?

A. That's politically driven. They are not based on, the design speeds are determined and they are regulatory. Design speeds are regulatory. I'm sorry, excuse me, speed limits are regulatory. Design speeds are the design aspects on how to construct the road.

Q. I understand that.

A. So this road has been constructed for many, many, many years, so the design speed is not going to change unless the design in its entirety changes.

Q. That's Joppa Road going from a single lane, one lane road to what it is now?

A. We are on Harford Road.

MR. GARBER: He's using the example.

THE WITNESS: I'm go trying to stick to here. The design speed is not going to change because of development. The design speed is already established as the roads are designed.

MR. GARBER: He's making the illustration, you were there in the 1800's apparently.

MR. HOLZER: I have been accused of that, Mr. Chairman.

MR. GARBER: It was the one way road at some point, now it's not a one way road. The design had changed. And so likening, that how he's using that as illustration.

THE WITNESS: May I try to answer that with the way I believe your question is.

MR. HOLZER: Yes.

A. If this road were to ever change to a three lane or four lane highway, then the State Highway Administration would determine the proper design speed for such an increase.

Q. Right.

A. Design speed is not changing because this

property is here is going to be a different use. The design speed is the overall length of the road from predetermined point A south to point B north. So just because we are adding property which is going to add an increase of trips does not increase the design speed in the road.

Q. So, it will increase the number of trips of that are previously there?

A. Yes. Right.

Q. And that type of use as well.

A. Correct.

Q. I mean, it is a different use than it was used use before?

A. That's correct.

MR. GARBER: I know he's halting, but wait for his question to finish.

THE WITNESS: Certainly.

Q. Did you do any studies, horizontal or vertical measurements, site survey or drawings to confirm the sight distance you have come up with?

A. Items, yes, all the items I have been

testifying to.

Q. What's that?

A. Yes, all the exhibits we have prepared and have been testifying to.

Q. Okay. That's it. I mean, there are no other studies other than what was needed to accomplish these exhibits?

A. That plus the information contained in the January 10th letter, which was more --

Q. Right.

A. -- visual and foot measured --

Q. Okay.

A. -- versus more design related aspects.

Q. Did you do any drawings or survey about the hill at the bend; in other words any elevations?

A. Again, just what was already prepared and presented.

Q. And those were, you were required to come up with elevations in order to prepare that?

A. That's the Plaintiff profile.

Q. Right, the bottom.

A. Those were all presented here and to the State Highway Administration.

MR. HOLZER: I'm trying to cut the questions down.

MR. GARBER: That's okay.

Q. Were you here on day one of the hearing when Mr. Comery testified?

A. Yes.

Q. Did you hear him try to compare Harford Road at this site with Saint Joseph's Catholic Church on Belair Road?

A. I don't recall.

Q. But you were here?

A. I was physically present, yes.

Q. Yes. Okay. Do you believe that this site is comparable to Saint Joe's Catholic Church on Belair Road?

A. I'm not familiar with.

Q. So, you go up and down Harford Road but you don't go up and down Belair Road?

A. You are asking me about a specific property

use. I don't know. I can tell you about Saint Ignatius in Forest Hill.

Q. Let me just ask you, so that's your church?

A. That's the church I drive by everyday.

Q. Belair Road, have you ever driven down Belair Road from the area of Saint Joe's Catholic Church?

A. Is that inside or outside the beltway. I have driven numerous times up and down the Belair Road. I don't know the church. I apologize.

Q. Based on your personal observation, do you think Belair Road at that location, and I can show you a map that I have here, is comparable, equivalent to, compares well to this area of Harford Road?

MR. SCHMIDT: Objection. Clearly beyond the special exception test as to whether that's in the neighborhood.

MR. GARBER: If he doesn't know where it is --

MR. SCHMIDT: I don't know how he can answer it.

MR. GARBER: Special exception, pump the

brakes on that for a moment. If he doesn't know where it is, it would be difficult for him to say how it compares.

MR. HOLZER: I will show him.

MR. GARBER: I figured you would.

MR. HOLZER: You know Belair Road.

MR. SCHMIDT: I do, but I don't drive up and down.

MR. HOLZER: Do you want to mark this first?

MR. GARBER: Protestants Exhibit 11. Just so you are aware, you still have 8 and 10 as ID only.

MR. HOLZER: Well, I can still wait to call.

MR. GARBER: Just so you know those are still open.

MR. HOLZER: Appreciate that.

(Protestant's Exhibit Number 11 was marked for identification.)

Q. This is marked as Protestant's Exhibit 11. It's a larger blowup of Belair Road running from

Timahoe Court up to Plumer Avenue. This is the church area that was referred to up to Necker Avenue in this section. Now, do you think that this picture depicts from a traffic engineering standpoint and a traffic expert who's providing testimony as to the relative nature, does this depict accurately or compare accurately with what you have just shown up on Petitioner's Exhibit 16-B?

MR. SCHMIDT: Objection. I can't imagine what the relevance of this could possibly be. I don't believe that this would be considered within the locale from a special exceptions standpoint, which is what we are ultimately here on, I don't believe this property is within the locale to be impacted and if he is going to show him a picture of a church or road system outside of the locale, I just can't, I don't know what the relevance, I don't have any idea what the relevance could possibly be.

MR. HOLZER: Maybe I should have objected to Mr. Comery's testimony because that's exactly what he testified to. He testified to this information.

He compared it.

MR. GARBER: Can you compare what is depicted on Protestant's Exhibit 11 as Mr. Holzer said, Saint Joseph's Catholic Church on Belair Road, to the proposed use of the subject site?

THE WITNESS: The proposed use? I'm just trying to figure out where I am in terms of Belair Road.

MR. GARBER: Can you compare? That's the first question.

THE WITNESS: What am I comparing?

Q. You are comparing the traffic and the road access to this particular church which he referred to on day one in his testimony to this Petitioner's Exhibit showing your proposed site and the road system. Can you compare those two.

MR. SCHMIDT: I just note a continuing objection to this entire line of question. I don't know what the relevance could possibly be.

MR. GARBER: I don't even think we are even at your objection yet. He has to be able to compare

it in the first instance to then be able to come up with the answer to the second question which goes to the special exception issue you are raising. Let's see if he can compare it.

MR. SCHMIDT: But even if can compare it, my objection is whether he can compare it or not, with all due respect, what does a comparison of traffic on Belair Road not in this locale, how does him comparing this traffic, assuming he can do it at this location with the subject property, assist you all as the finders of fact in determining whether the special exception should be granted?

MR. GARBER: I also await that answer too. I don't know that either. All I know is right now we are trying to figure out can he compare it and if he can, what does it mean?

MR. SCHMIDT: Are we opening the door for Mr. Holzer to show us pictures of every church in Baltimore County and ask Mr. Caloggero to please compare Timonium United Methodist Church, which is where I worship, or whether Mr. Kotroco goes to church

or the synagogues where the Board members may go to church. I mean, what is the relevance of any of this?

MR. GARBER: Mr. Holzer, do you wish to respond?

MR. HOLZER: Of course. Of course. His witness, Mr. Comery, testified to this Court that there was a church on Belair Road that was this church that I am showing that was okay, was permitted and, therefore, this proposed site that he was encouraging you to approve was permissible. That's what it was.

MR. SCHMIDT: No, that's --

MR. HOLZER: I am just trying to show, let the Board understand what he was comparing is not apples and apples, it was apples and oranges. This is an orange, that was an apple. That's all I need him to say.

MR. GARBER: Let's take it one step at a time. Mr. Caloggero, can you make a comparison between these two sites?

THE WITNESS: I think we talked about this before, if this where we are going, if this is Saint

Joe's, I am assuming the Catholic Church, this use is not a Catholic Church use --

MR. GARBER: The one at issue is not a Catholic Church use in this case.

THE WITNESS: Right. And this looks in my opinion --

MR. GARBER: Protestants Exhibit 11?

THE WITNESS: Saint Joe's, I can't tell if Saint Joe's is operating a school. I can tell you it looks like on this map it has a traffic signal, three points of ingress and egress, outbound has three lanes outbound and signalized intersection. Parking, parking is substantial. It looks like it has a cemetery, you know, in the rear of the site. This just looks like a huge Catholic Church with lots of parishioners. To me it looks like a school as well.

Q. From a traffic road, from a road standpoint, is this consistent with the proposal that your client has on Harford Road?

MR. SCHMIDT: Again, I just note a continuing line of objection.

MR. GARBER: That's fine.

MR. SCHMIDT: Thank you.

A. I'm still not sure how you want me to compare. What are you asking me to compare specifically?

Q. You are a traffic expert?

A. From a traffic perspective, Belair Road has four lanes. There's not any additional turn lanes along Belair Road for entering and exiting traffic. It looks like there is a traffic signal; I don't know the operations of the traffic signal. There is a, it looks like inbound only and then it looks like another form of an access south of the site. Again, with over like 200 plus parking spaces.

Q. Tell me about the road. Belair Road is, you said, four lanes?

A. Yes.

Q. Is it straight?

A. Yes.

Q. Is it level?

A. I don't know in this area.

Q. You don't know from looking at this photo

whether or not --

A. I do not.

Q. Are there any hills that are comparable?

A. There are no --

MR. GARBER: Let him finish his question.

Q. Are there any hills on this area of Belair Road that are consistent with the hills shown on 16-B?

A. From this map I cannot tell because there are no contours.

MR. HOLZER: Thanks a lot.

MR. GARBER: So are we moving 11?

MR. HOLZER: I am moving.

MR. SCHMIDT: I object. I still don't know what the relevance is. I just don't know what the possible relevance is.

(There was a pause in the proceedings.)

MR. GARBER: It will be admitted. I understand you object.

MR. SCHMIDT: Thank you. As long as it's noted for the record.

(Protestant's Exhibit Number 11

was admitted into evidence.)

MR. HOLZER: Mr. Chairman, it's 12:30. If you would want to take a break for lunch now, I will go through the rest of my questions and see if I can cut them down. They may be repetitive.

MR. GARBER: I'm always in favor of that. Mr. Schmidt, how do you feel about that?

MR. SCHMIDT: That's fine. I'll leave it to the discretion of the Board. I am fine.

MR. GARBER: Mr. Caloggero, do you have any conflicts.

THE WITNESS: No calls.

MR. GARBER: Mr. Schmidt, would you be ready to go with any other witnesses you have here today?

MR. SCHMIDT: My one witness is here. I would anticipate that is the Petitioner's case.

MR. GARBER: Mr. Holzer, are you ready to commence the start of your case today if necessary?

MR. HOLZER: Yes, I'm going to try to put a few witnesses on that, hopefully, will be short or

will be witnesses that I anticipate calling for cross examination.

MR. GARBER: Okay.

MR. HOLZER: Yes.

MR. SCHMIDT: When did you want us back?

MR. GARBER: I'm going to say 45 minutes. Let's try to keep it to that. We'll make it 1:15, which technically gives you 48 minutes, I believe. So, 1:15 we'll be back here, and again, we are going to get through as much of this as possible today as we can.

MR. SCHMIDT: Thank you.

MR. HOLZER: Thank you.

(A recess for the noon hour was taken at 12:26 PM until 1:13 PM.)

MS. MURPHY: On the record.

MR. GARBER: Mr. Holzer.

MR. HOLZER: Ready. All right. I can say to the Board lunch was very well spent because I have excised quite a few questions.

Q. Sir, have you done any traffic counts of

vehicles entering and leaving the property at any of the festivals or the events, fund raisers, things like that?

A. No, I have not.

Q. Okay. And I believe you have already testified that you have not observed how vehicles enter and leave at any of these high volume events?

A. That is correct.

Q. Okay. Did you bother to take any or look at the traffic counts for Harford Road in the area of the property?

A. No, I did not.

Q. Did you bother to look at any traffic counts that were created by the State in terms of the circle that's north of the property?

A. No, I did not.

Q. Okay. See, I finished that. Not quite. Almost. Sorry, one more thing. Is the State Highway minimum standard for 50 miles per hour, is it 425 feet?

A. Is what?

Q. Is the minimum standard?

A. Minimum standard what?

Q. Stopping distance?

A. For?

Q. For 50 miles per hour, 425 feet?

A. May I check my manual?

Q. Sure, absolutely.

MR. GARBER: Are you asking him about the earlier testimony?

MR. HOLZER: Yes.

THE WITNESS: Stopping site distance for 50 miles per hour, 425 feet.

Q. Thank you. Then I'm going to show you some State Highway --

MR. GARBER: This is Protestant's 12 for ID.

Q. I show you, are you familiar with -- this is entitled Access Management Division Plan Submission List. Is this what you are talking about the process that you have to go through with the State Highway Administration to get the access permit?

A. I am not familiar with this document, Access Division Plan Submission Check List.

Q. Yes.

A. So, I am not familiar with this document. Typically, the civil engineers as part of the site plan submission or as part of an access permit submission file the actual application and they may be more familiar with this documentation.

Q. But this really deals with issues related to traffic, does it not?

A. It's a check list.

Q. Yeah, right. So what you are saying is that this is not something you would take and go down to State Highway and have this filled out or acknowledged in some way?

A. I do not.

Q. Okay.

A. I have not.

Q. Okay. And Protestant's Exhibit 12, if you have never had to deal with this before, then you don't know how long it would take to work its way

through this project?

A. I don't even know if this is our check list or if it's a State Highway check list.

Q. State Highway check list?

A. I don't know if we would fill it out or they would fill it out because I looked on page two --

Q. Right.

A. -- traffic impact study required, not required, submitted, that's something I would check out not required all the time and they would say whether it would be required or not.

Q. Trying to get away without?

A. Yes.

Q. I understand.

A. I would think this would be on them. That's my guess.

Q. You don't know, you gave an estimate about two weeks before you got the answer on the order, at least the State got back to you on the access permit. So, there could be more involved than just coming back to you for more information if this has to be filled out.

A. Yes. This looks like it came from Prince George's County.

Q. Well, the State's using it?

A. I mean, I'm saying the job number up top is Prince George's County, we are in another district. I don't know if it's something Baltimore and Harford County uses for their submissions or they have their own separate submission.

Q. Well, it's marked as Protestant's 12 and you said you don't have to deal with this, so therefore, I will put it aside.

MS. MURPHY: So, ID only?

MR. HOLZER: No, I want it marked for exhibit, he recognizes it.

MR. SCHMIDT: I don't think he does.

MS. MURPHY: He said he wasn't familiar with the document. I'm not sure.

MR. HOLZER: We'll, leave it for ID.

MR. GARBER: Pretty much how I understood it too.

MR. HOLZER: Yes.

Q. The measurements that you put on your Exhibits 15 and 16, the group of them, from the proposed driveway, would you agree or disagree that the distance to the south is 355 feet? You might want to get up and take a look at what your --

A. This one, exhibit?

Q. Whichever exhibit answers the question?

MR. GARBER: He asked about the proposed drive.

MR. HOLZER: No, no, distance measured to the south, I'm sorry, you are right. I apologize.

MR. GARBER: That's good.

Q. From the proposed driveway.

A. From the proposed driveway.

Q. I think we are using the wrong words. First, I'm asking from the existing driveway.

A. Existing driveway.

Q. Yes.

A. A?

Q. Yes?

A. Here we have it marked 365 feet.

Q. Okay.

A. And in the letter that I submitted January 10th, I believe I added that 355 and that was a field measurement that I took with the wheel with my car parked, walking it off and sight lining it.

Q. So when I say 355, that's what you measured?

A. That's what I measured and this is the actual planned drawing with the car and using the survey.

Q. Okay. Now, at 30 miles an hour speed limit with advisory --

A. Yes.

Q. -- would it be 200 feet?

A. Would what be 200 feet?

Q. The proposed driveway or existing driveway to sight distance?

A. Sight distance required for 30 miles an hour is 335 feet.

Q. 331 feet?

A. 335.

Q. Okay, so you agree with that figure?

A. For 30 miles per hour, yes.

Q. Then at 45 miles an hour southbound on 147, would this be 496 feet?

MR. GARBER: Just for the record 147 being? Harford Road.

MR. HOLZER: Yes.

MR. GARBER: So the record is clear, that's what the reference is.

MR. SCHMIDT: Mr. Holzer, are you asking what the stopping distance is? Is that what the question was?

MR. HOLZER: Yes.

MR. SCHMIDT: I think he's answered this a couple of times.

THE WITNESS: We went through this whole testimony.

Q. Was it 496 feet? Intersection distance is the stopping distance 360 feet.

A. Stopping?

MR. GARBER: Not stopping sight distance, stopping distance.

Q. Stopping sight distance, 360.

A. For 45 miles per hour is 360 feet, yes.

Q. Right. What about in 50 miles per hour stopping sight distance?

MR. GARBER: 425. We just had that question five minutes ago.

MR. SCHMIDT: We keep asking the same question. I'm sorry, Mr. Holzer, but I think he's answered these questions.

MR. GARBER: Go on.

Q. Then do you agree with this statement? Neither the intersection sight distance nor the stopping sight distance value is met for the 45 miles per hour southbound of 147 and 50 miles per hour northbound for that speed for the speed limit, would you agree with that statement?

MR. SCHMIDT: I'm going to object. I don't know what the statement is. I guess if he can understand that.

MR. GARBER: Number one, I think he can answer the question. I don't know what the objection is. Whether he can answer the question as in

literally or not, it's up to him. But there is no objection unless you have another ground, reason for that.

MR. SCHMIDT: I guess he's asking him a question about some statement. I think it would be fair to lay some foundation where the statement came from, who said it or whatever it is.

MR. GARBER: It's cross examination. He is an expert witness. He can certainly give an opinion about the statement, whether it's somebody from the field or my seven-year old kid.

MR. HOLZER: That's about my level.

THE WITNESS: Can I ask you to break it up? I believe you are asking for two different items in that question.

Q. I am. On 50 miles per hour northbound on 147 SSD, what is that?

A. Stopping sight distance.

Q. Stopping sight distance is 425 feet. ISD, what is that?

A. Intersection sight distance.

Q. Is 551 feet. Do you agree with that or not?

A. Are we talking for this sight access?

Q. Yes.

A. I don't believe those speeds are correct. I don't believe 50 miles per hour northbound is the correct speed northbound, I still believe it's 45. The pictures shown to me --

Q. Let's not belabor the point. If it was 50 miles per hour, if it was, okay, would it be 425 and 551?

A. Not at this location because you can't make that turn at 50 miles per hour.

MR. GARBER: Saying that turn, which turn?

THE WITNESS: Northbound right hand turn where the State Highway says it should be 30 miles per hour, you cannot take that at 50 miles per hour.

Q. That's subjective.

A. State Highway recommends 30 miles per hour based on proper speeds and proper studies.

Q. I'd like to get this through. If it was 50 miles an hour and if somebody chose to go 50 miles an

hour in violation of what you are saying, common sense, whatever, if it was 551 feet, would that not meet the minimum State Highway requirements?

MR. SCHMIDT: Objection and I'd like to be heard if I can, Mr. Garber.

MR. GARBER: Of course.

MR. SMITH: We can ask the witness what about if somebody is drunk on their phone, blind or whatever else their handicap may be, and tries to go up this road. We can go on and on with all kinds of scenarios. But as the witness has testified, neither he as a traffic engineer nor State Highway as a regulatory agency, engineers and bases it's conclusions on people acting illegally and scenarios which are highly unlikely to occur. So, to ask these questions with these scenarios about people doing these things, when this witness says he thinks it's physically not possible, is akin to asking him can we cut the access through the trees and have it right next to the turn and what happens if somebody is driving 90 miles per hour and we can go on and on. To

me this provides no probative evidence which would assist the Board in making a decision in this case. I think the question is so speculative even for an expert witness it has no value. I object to the line of questioning.

MR. GARBER: We have testimony that the road can be 45 at that location, it can be 50 at that location. Even if it's 45, somehow, it's not something that's uncommon and people may have attempted that and that may explain the signage in that area as to why they recommend or advise the speed limit should be 30. So the hypothetical being that someone's driving 50 miles an hour going northbound, the intersection stop distance at 551, the query is is that applicable here?

MR. HOLZER: Does that meet the minimum State Highway standard?

MR. GARBER: Certainly, he can answer that question. Overruled.

A. So does, to repeat the question, what I am hearing --

Q. Well, the Chairman just gave it.

A. No, I want to be sure to get the question right.

Q. My question is --

A. I am going to ask the question, may I ask to answer the question so I understand it?

MR. GARBER: We'll hit the reset button, have him restate it and see where it takes us.

Q. Thank you. My question is going northbound on Maryland 147 Harford Road the SSD is 425 minimum State Highway standard and the ISD, the minimum State Highway standard is 551. Do you agree with that first of all?

MR. GARBER: Let's stop there, we have already had the answer on the stopping site distance of 425 at 50 miles an hour. So the question, if we limit it the intersection stop distance of 551, does he agree with that as the minimum standard.

MR. HOLZER: Correct.

A. For ISD, I have it at 555.

MR. GARBER: So 555.

Q. Okay. So if that were the hypothetical, okay, then is it your position that this intersection does not meet MDOT State Highway sight distance standards.

A. So you are saying if someone happens to make that turn at 50 miles an hour, that is this intersection still --

Q. Is the standard of the State minimum requirement met?

A. At 50 miles per hour, I would say no because stopping sight distance is 425.

Q. Thank you.

MR. GARBER: Could you explain the difference between intersection stopping distance and the stopping sight distance?

THE WITNESS: Absolutely.

MR. GARBER: How does that factor into where we are in the case at the moment?

THE WITNESS: Intersection sight distance is what an exiting vehicle would need to see to make a turn out into travel into the roadway to cross the roadway.

MR. GARBER: Intersection sight distance. So, Mr. Holzer's question, the vehicle going 50 miles per hour, you would need 555 feet of sight distance from the intersection.

THE WITNESS: Correct.

MR. GARBER: Okay and the intersection stopping doesn't apply in this case.

THE WITNESS: Stopping sight, I'm sorry?

MR. GARBER: The intersection stopping sight distance.

THE WITNESS: Intersection stopping, but I disagree on the --

MR. GARBER: That's what I'm trying to get to, where is the disagreement?

THE WITNESS: A, the speed limit is not 50 of miles per hour.

MR. GARBER: Assuming the vehicle is travelling 50 miles an hour.

THE WITNESS: Assuming the vehicle is breaking the law in traveling at excessive speeds in an area that's deemed 30 miles per hour, can that

vehicle maintain the safe turn around that road without braking, of course, because you want it to be maintaining 50, and does that car have enough time to pull out say to turn left to head south before that car can stop? Now, that technically, we talked about this the last time, the stopping sight distance of 425 feet is poor reception, reaction time, wet condition, bald tires. So if the perfect storm happened and someone in a race car makes that turn at 50 miles per hour at the exact same time someone is turning left at the sight, could they impact? Potentially.

Q. That's not the question. The question is does it violate State Highway minimum standards? And it does. You said, yes.

A. You said hypothetically. A lot of it, I mean --

MR. GARBER: Go ahead.

THE WITNESS: If I may, I testified to the speed, the conditions, the actual conditions and what's trying to be asked of me is pretend somebody

can travel 50 miles per hour in an area where the State recommends 30, what can happen? Of course, I have to answer to those conditions. I don't think that's the case in this condition. So, you are asking me to answer something I am not comfortable answering.

MR. GARBER: If that's your answer, that's your answer.

THE WITNESS: I've been trying to --

MR. GARBER: You expressed the fact you are not comfortable answering --

THE WITNESS: I'm sorry, I thought I had.

MR. GARBER: -- Because you feel the vehicle cannot handle the turn at that speed.

THE WITNESS: Yes and I thought I made myself clear by saying the advisory of State Highway are 30 miles per hour. They call it a ball bank and once you take that turn, the measurement goes to a measure that exceeds the safe driving to take a turn. So that's why they put the advisory speeds of 30.

MR. GARBER: Is that --

MR. HOLZER: He answered my question first

when he said, yes, it does not meet the minimum standard.

THE WITNESS: For 50 miles per hour which again I do not believe you can obtain.

MR. GARBER: You follow from that.

THE WITNESS: I have been stating that.

MR. GARBER: Mr. Holzer, ask your question.

MR. HOLZER: The speed limit there is 50 miles an hour. We have proved it, but we'll prove it again. So regardless of that, that's why the question is an appropriate question and his answer is it doesn't meet the State minimum standard?

MR. SCHMIDT: Objection just to Mr. Holzer testifying.

MR. GARBER: Okay. We can move on from this point.

MR. HOLZER: Good, because I think we are cross examined out.

MR. GARBER: See, look at that, worked out well.

MR. SCHMIDT: Is that it?

MR. HOLZER: That's it.

MR. GARBER: Mr. Schmidt.

REDIRECT EXAMINATION

BY MR. SCHMIDT:

Q. Mr. Caloggero, there were questions Mr. Holzer asked you about turning either going north or southbound but turning into Nepali property at the driveway. And I think you described that as a free turn I think was the word I wrote down.

A. Right turn.

Q. The right turn is a free turn. I think he was asking you about that. Can you explain what a free turn is? What do you mean by that?

A. Basically, what I mean what is a free turn is when you make the turn, there is no obstruction to continue forward.

Q. So, people who would be turning into the property you would expect would just continue to drive back into the property?

A. Continue their maneuver off the record.

Q. There's no parking lot --

A. Correct.

Q. -- or gate or any reason for anybody to turn right off of Harford Road and stop in terms of getting, once they are on the driveway?

A. That's correct.

Q. The parking lot as a matter of fact is a fairly substantial distance away into the interior of the property, is it not?

A. That's correct.

Q. You also answered some questions about the design speed and I think the speed limit. Could you just explain to the Board what is the difference between a design speed and a speed limit on a road?

A. The design speed of a road is that of which the road is designed; that's why it's the design speed. So for instance, if we had a road that needed to be designed and the State Highway determined that the design speed is 50, they would go to the guidelines and apply all the 50 miles an hour design speed standards to the road.

Q. When you say design speed standards, does that

mean the grade of the road, pitch of the road, type of building material, all those kinds of things?

A. All that and the safety features on the side of the road.

Q. Compare if you will of that between a speed limit; what is the speed limit?

A. In most cases speed limit is ten miles per hour below the design speed. They typically design for ten miles an hour above. However, a lot of these instances, you know, a lot of these roads have been here for a significant amount of time and the State Highway makes determinations based on their own sights or politically determined based on certain instances.

Q. Okay. You testified back during direct last week that you did examine the capacity of the road system as an issue, the capacity of Harford Road, did you not?

A. From the Baltimore County basic services map.

Q. Right, and you determined that traffic counts were not needed because there were no signalized intersections that would be impacted from a capacity

standpoint, is that correct?

A. That's correct.

Q. In terms of the number of vehicles on this section of Harford Road, is there any concern that you have or analysis that you have done that this road is over-congested or overwhelmed by traffic?

A. No, sir.

Q. I guess just to conclude, so, you have looked at the existing point of intersection or access between Harford Road and the existing what I would call two lane driveway that has an inbound lane and outbound lane and concluded that under the proposal, vehicles can safely enter and exit the property based on sight distance considerations and other safety considerations?

A. Yes.

Q. And you have also at the request of the State Highway Administration submitted and prepared as shown on the documentation on the board, 15-A and B and 16-A and B an alternative to that where an outbound lane is located further to the south, I believe, is that

correct?

A. North.

Q. I'm sorry, north, correct?

A. That's right.

Q. And that's an exit lane only as shown it's on your plan?

A. Correct.

Q. You have testified, I believe, that based on that that would provide an additional measure of sight distance if it were construction and installed and make conditions even better from a traffic engineering standpoint, correct?

A. Yes, that is correct.

Q. And you submitted all those drawings to the State Highway Administration?

A. Yes, I have.

Q. You have talked to the State Highway Administration?

A. Yes, I have.

Q. You advised them of your findings, answered their questions and provided the information that they

requested of you?

A. Yes, I have.

Q. Have they indicated to you at this point in time they require additional information?

MR. GARBER: Mr. Schmidt, I think this has all been covered and well understood that a conversation is ongoing, there is no final decision that is left open, he's submitted everything that they have to date. There doesn't seem to be any issue as to those things to lead to any recross of the same questions we have already the answers to.

MR. SCHMIDT: Then I have no further questions.

MR. HOLZER: I think the Board has questions.

MS. MURPHY: You indicated you didn't do any traffic counts, correct?

THE WITNESS: Correct.

MS. MURPHY: Doesn't this Board need to know the traffic counts in order to weigh the special exception factors in terms of congestion on the road,

regardless what is SHA is requiring and the County is requiring, don't we need to know that?

THE WITNESS: I don't think so. But again, maybe again, when I look at this type of situation and looking at either the proposed day-to-day operations as was told by me or looking at the State Highway Administration trips that they are proposing, we look at a lot of peak hours, the trips are going to be in my opinion more de minimus during the morning and evening peak hours, whereas, we are looking at the safety features of the road versus the volume on the road.

MS. MURPHY: Regardless of what the SHA requires in terms of access and social events, this Court has a different duty in terms of weighing factors in special exceptions cases. Don't we need to know what the traffic counts and the volume of traffic even in special events and limited events, that's what's being proposed here.

THE WITNESS: I don't know if you are telling me you need that.

MS. MURPHY: I am asking you as an expert witness testifying for the Petitioner. You have testified in other cases, you have testified in other cases did you put in evidence of traffic counts and traffic sites.

THE WITNESS: In cases where it may be required.

MS. MURPHY: Required by who? I mean, I don't care about the State Highway. I'm inquiring for this Board and we what need to have to weigh?

THE WITNESS: I don't have the information you are requesting.

MS. MURPHY: How about with the accidents, you didn't do any accident studies?

THE WITNESS: No.

MS. MURPHY: Okay. Also don't we need that information to weigh whether or not there is a danger on the road under the special exceptions factor and the conditions of the road?

THE WITNESS: With my testimony I am presenting to you that it's a safe access.

MS. MURPHY: Well, not the access. I don't care about entering and exiting. This is a different question. This has to do with accidents on that road in front of that. So, congestion on that road and there is another factor which is danger on the road, panic, fire or other dangers. Let's say an accident is a danger, does that weigh on your opinion? Does that weigh in terms of something you need to know to give us an opinion?

THE WITNESS: Typically, volume, typically, when you are looking at the safety aspects of a road, a lot of times volume doesn't come into consideration because the road is either safe or not safe for the conditions that they are supposed to be traveled. So as you are driving say northbound or southbound approaching these turns and the State Highway Administration is advising you to drive this road at 30 miles per hour, a two lane road without passing zone and if you are following the signs and following the speed limits, you are going to navigate this road properly as I have done numerous times, I can't

testify to all the residents there, they more than likely have done that numerous times as well, it doesn't make the road unsafe as long as you are traveling it to the conditions that are out there.

MS. MURPHY: But an accident by definition is somebody who hasn't done that. So, isn't it important for us to know at this locale how many accidents have occurred at the entrance on this stretch of road. Maybe not the ones on Harford Road at the other end, but isn't that something we need to know.

THE WITNESS: Again, I'm going with the design or the actual physical aspects of the road itself. If the conditions are safe --

MS. MURPHY: In a perfect world.

THE WITNESS: In a perfect world if people were to drive it --

MS. MURPHY: But accidents by definition are not --

THE WITNESS: They are called crashes.

MS. MURPHY: Whatever you want to call it,

collisions, crashes, your testimony is your opinion is that doesn't factor into your opinion doesn't change the nature of what you testified to; if you found out there were a hundred accidents right in front of entrance, that wouldn't matter?

THE WITNESS: You are asking me that specifically if there were a hundred accidents at this intersection or 50, whatever the number, there is an extreme high number of incidents right at this location, then, yes, I would have to take that under consideration. That information was not presented under cross, that was something completely different presented under cross.

MS. MURPHY: I realize that. I'm asking a different question.

THE WITNESS: I'm looking at it from the prospective of the road itself.

MS. MURPHY: How many accidents would it take to change your than opinion? Would 20 make a difference, 30 make a difference?

MR. GARBER: Per year, 20, 30 per year?

MS. MURPHY: Exactly, annually.

THE WITNESS: Truly, I am not trying to avoid your question, it's a larger calculation of vehicle miles traveled over a year and new risk calculations, the number of accidents specifically at an intersection.

MS. MURPHY: I realize that. But I'm saying in front of this access point.

THE WITNESS: I can't give you that number because it's a bigger number than three accidents. I have to look at the vehicle miles traveled along this section of the road, the number of vehicles, the number of accidents and make a calculation and then the State compares it to other similar locations that have these types of conditions to determine if this would be a high crash location in which improvements may or may not be needed.

MS. MURPHY: I'm not talking about improvements to the road.

THE WITNESS: The crashes that warrant improvements?

MS. MURPHY: I'm just talking about your opinion in terms of the special exceptions factors, which is the only issue in this case which we have to weigh. In deciding this case, there's nine factors. Regardless of the access point, it's your opinion as I understand it there are no specific number of accidents that would sway you one way or the other? Is that I am what I am hearing?

THE WITNESS: My opinion is the road is safe for the conditions the State Highway Administration --

MS. MURPHY: I know you said that. That's not what my question was.

THE WITNESS: I don't know the number of accidents.

MS. MURPHY: That's what I am asking. If you don't, then you don't. I was curious as to whether you had enough.

MR. GARBER: You indicated that nothing was presented to you on cross. You were presented with Protestant's Exhibit 10 just for ID only, that you

were reported there were 41 accidents between Hartley Mill and Glen Arm Road between January 1st, 2016 and April 1st, 2018. Do you need to see the table again?

THE WITNESS: I have it.

MR. GARBER: Let's assume all 41 accidents occurred in the strip from the, the first bend Is heading northbound to exit the site after the State Highway property. Let's assume that all 41 occurred. And I have no information that's what's going on. Assuming that to be the case, would that change anything in terms of your opinions?

THE WITNESS: I'd have to take a detailed look as to what the contributing factors are for said crashes.

MR. GARBER: You would need to know the details of each accident to make an assessment as to whether or not there is a particular danger in that stretch of roadway.

THE WITNESS: Yes.

MR. GARBER: Would your answer be the same if it was half of that, if it was 20 accidents?

THE WITNESS: Again, yes, the answer is the same. It's very important to understand the characteristics of each accident.

MR. GARBER: If it was half of the 20, down to ten, it would be the same?

THE WITNESS: Again, yes.

MR. GARBER: We can keep dividing in half until we are down to one or some fraction, it would be the same.

THE WITNESS: What most engineers do, they look for patterns. What are the patterns of the accident that are occurring in this area? When I did my routine survey assessment, what did I see? I see in both directions the State Highway Administration has put up the reverse turn signs of 30 miles per hour speed limits, advisory speed in both directions, there's chevron arrow signs in both directions around both sides of the road. There's the turn arrow to help people come around the turn. There is, there was no delineators in the road, the delineators as in the reflectors that help people guide around the turn. I

believe some of those have been the taken out with snow plows or other means. There are also the rumble strips that are in the middle of the road so that as people are navigating the road, if they travel off on to the center line, it's another warning saying, hey, too fast to the right, get back in your lane. There is also a street light above or at the intersection of the access in Napoleon. I think they are trying to highlight that area with lights to try to help people navigate the road.

So, the State highway has in my opinion has been reviewing this area and providing numerous measures. But again, if people are traveling at too fast for the conditions, because the speed limit is 45 miles an hour coming southbound, and I have seen it northbound as well, I know we are disagreeing on that, they don't mix and match the 45 miles an hour speed to 50 miles an hour, they'll keep the whole road at 45 miles an hour, they will modify it. The State Highway is taking all these measures of correctness to either highlight the safety of the area or make sure

it's more safe. But again, if people are traveling it too fast for the conditions, that's hard to correct.

MR. GARBER: To be fair, you don't know when any of these, I am not going to call them traffic control measures, but the signage, rumble strips, you don't know when they were installed.

THE WITNESS: I do not.

MR. GARBER: Ms. Dopkin.

MS. DOPKIN: You mentioned the absence of passing zones and I was wondering based on the topography on the east side of Harford Road and the State Highway Administration, is there the potential to install or that the SHA would require a deceleration lane for entering the property?

THE WITNESS: There's always the possibility.

MS. DOPKIN: Is it physically possible?

THE WITNESS: I don't think one is warranted based on the peak hour turns.

MS. DOPKIN: That's not the question.

THE WITNESS: I'm sorry.

MS. DOPKIN: Is it physically doable? Are the contours such that you could do it?

THE WITNESS: I think the contours would present a challenge.

MS. DOPKIN: A challenge?

THE WITNESS: Significant challenge. The grades are significant on the west. On the east side of the road.

MS. DOPKIN: East side of the road near the entrance. Then coming south where the shark fin is, could there be a bypass lane because the State owns the right of way? Again, are the contours --

THE WITNESS: The State owns the right of way to the north of Bonapart, but they do not to the south. So on the south side, if I may approach --

MS. DOPKIN: But the proposed entrance is north of Bonapart.

THE WITNESS: To provide a pass lane, you have to bring it back in accordingly. This house on the southwest corner, their property is right adjacent to the roadway. A lot of that property would have to

be obtained for any left turn or bypass lanes.

MS. DOPKIN: Thank you.

MR. GARBER: Mr. Holzer, in light of those questions, do you have follow up?

RECROSS EXAMINATION

BY MR. HOLZER:

Q. I have a question based on Mr. Schmidt's questioning in terms of the traffic count. It seems to me that your testimony related to the road and the traffic is not taking into consideration that the State Highway Administration required the circle on north of the subject site, and if the State Highway wanted to amend Harford Road by creating a circle as opposed to a regular intersection, that there must be some traffic issue that caused them to do that.

Now, do you agree with me that there is traffic, a traffic count could possibly be the reason that they ask for a circle or created a circle north of the subject site?

A. They take all factors into consideration when looking at alternative intersection measures. Once

you get to that control measure, in my opinion you would look at a four way stop, a roundabout or a traffic signal.

Q. Okay.

A. And based on whatever State Highway used in their determination, decide that a roundabout was the best solution for that intersection.

Q. That implies to me, although again, I am just a lawyer, not a traffic engineer or expert like you, but that implies to me the fact that there was a significant amount of traffic going north and south on Harford Road which necessitated some remedial action on the part of the cross street, which I can't remember the name of the street that goes across.

A. Glen Arm or Mount Vista.

Q. Yes, where the circle is. So there has to be a reason why the State Highway Administration required that intersection to be changed from a normal intersection to the circular and could not that be the fact that the traffic count has increased on Harford Road substantially?

MR. SCHMIDT: Objection. Just because it's narrative testimony and then putting a question mark again at the end of it. I mean, it's just an improper question, Mr. Garber.

MR. GARBER: Well Mr. Holzer has his own style. The question is fine, that is, in your experience there would be some type of increase in traffic count to necessitate SHA'S decision to necessitate a change, design change in the layout.

THE WITNESS: There could be numerous factors involved. There could have been accidents at that location. They may use that to try to slow down all the speeds to travel southbound, so you are not coming from straight southbound to make a 30 miles per hour turn. It could be the cross street travel increased significantly which causes delays to people trying to cross or make a left turn at the intersection. That could create an issue. So, it doesn't necessarily mean that traffic was increased on Harford Road.

MR. GARBER: So, it could be related to

increase of traffic on Harford Road, but it could be due to other factors or it could be a combination of a whole bunch of factors.

THE WITNESS: Absolutely.

MR. GARBER: So that --

MR. HOLZER: I am happy.

MR. GARBER: Are you done with your questions?

MR. HOLZER: Yes, I only had the one.

MR. SCHMIDT: I have questions in view of the Board's question.

REDIRECT EXAMINATION

BY MR. SCHMIDT:

Q. Mr. Caloggero, we are on the discussion as to why State Highway may have installed the roundabout at the intersection of Harford, Mount Vista and Glen Arm Roads. Could it be that the intersection there was not in alignment in terms of the fact that the intersection was not a 90 degree for each traffic movement?

A. Yes, that could be another factor.

Q. Couldn't that be a driving factor if the roads didn't match, when I say match, lead up to a certain way so they were aligned?

A. Sure.

Q. Mr. Caloggero, I'm going to show you an aerial photograph taken off of the county GIS system.

MR. GARBER: To identify for the record --

MR. SCHMIDT: I am not identifying it.

MR. GARBER: This was Petitioner's Exhibit 21.

MR. SCHMIDT: Yes.

MR. GARBER: There you go.

MR. SCHMIDT: I ask it be marked Exhibit 21 at this point. This is a slightly a little bit of a different scale and doesn't show everything that that one shows.

MR. GARBER: Does it show everything as the earlier one?

MR. SCHMIDT: Maybe that's the easier way to do it. Thank you. Yes, this is actually better.

MR. HOLZER: So are we canning 21?

MR. SMITH: We are canning 21.

MR. HOLZER: Feeding it to the shark, so to speak.

Q. I'm going to show you, I believe, I don't know how many of these you may have, Ms. Murphy, but it's marked Petitioner's Exhibit Number 2, if you want to give one so each Board member has a copy.

Mr. Holster, Petitioner's Exhibit Number 2.

MR. GARBER: Are you asking about the Glen Arm/Mount Vista intersection?

MS. MURPHY: Go ahead, you can ask questions.

MR. SCHMIDT: I'll hold it up so everybody can see it, Board members and Mr. Caloggero.

Q. Mr. Caloggero, I'll refer you to what has been previously accepted into evidence in this case as Petitioner's Exhibit Number 2. Let me ask you, sir, does this show the intersection at the time this picture was taken of Mount Vista, Glen Arm and Harford Roads?

A. Yes, it does.

Q. And was this photograph taken before the roundabout was installed?

A. Yes.

Q. Can you describe the intersection, is it across, 90-degree cross intersection?

A. It's a four legged intersection where Glen Arm Road is coming in at approximately 90-degree angle, Mount Vista looks about 30 or 60 degrees.

Q. Now having seen this, Mr. Caloggero, as a traffic engineer, would the fact that this intersection is configured in this manner be significant justification in your mind to install a roundabout at this location in order to make that intersection more navigable and safe for all the traffic on all the roads?

MR. HOLZER: Objection. Objection. He just finished testifying there can be numerous reasons why he had not done the analysis, he had not done the investigation, and repeatedly, I have been excused of asking the same thing, but repeatedly he said the answer to that, it's an objectionable question to ask

him for his opinion at this stage after those answers.

MR. GARBER: Also, he's already testified that the change in the traffic circle could be due to traffic counts, could be due to any number of factors. You have already asked him, including the fact that the roads align in a perfect or basic cross or T section --

MR. HOLZER: Right.

MR. GARBER: -- or at 90-degree angles on all corners, which that intersection clearly is not 90 degree angles on all corners and that may be the reason why the traffic circle is there. Any further explanation gets into the SHA decision making that we are not here for.

MR. HOLZER: And I am deliberately asking, Mr. Garber, not to comment on why SHA did this. I asked him as a traffic engineer, he's a qualified engineer. I assume he has an opinion he can express an opinion about the design or condition of intersections. And what I asked him is in his opinion, not to get into the mind of the SHA, would

the configuration of this intersection before it was improved in and of itself be a factor that was significant enough that could result in the installation of the roundabout in his opinion.

MR. GARBER: In isolation, the fact that it does not line up with the 90 degree corners --

MR. SCHMIDT: That fact in and of itself drives the need for a roundabout.

MR. HOLZER: Objection.

MS. MURPHY: I am pretty sure he agrees with you.

MR. GARBER: I understood that by implication because he said the SHA may take that as implication or factor and, therefore, he was agreeing with that. Mr. Holzer, you had something to say?

MR. HOLZER: Yes, I object to his testifying at that because he's already said he doesn't understand what they did. He didn't explore it.

MR. GARBER: His question is different.

MR. SCHMIDT: My question is not asking him

to get into the minds of SHA.

MR. GARBER: I will say this, I am not sure where it would be important to hear what his personal opinion is as to whether or not it is, when he's already said or agreed with you it could have been a factor, legitimate factor for them to consider.

MR. SCHMIDT: I think it's important, I think it's relevant that this expert witness testify if it's his opinion, since there has been an inference or speculation as to what the reasons were from SHA and I am sure we can produce evidence maybe as to why these improvements were made, but I think it's a fair question, appropriate question to ask Mr. Caloggero if in his opinion the configuration of this intersection is in and of itself a sufficient basis to install a roundabout.

MR. GARBER: I think we understood that from his testimony.

MR. HOLZER: I'll withdraw my the objection.

MR. GARBER: We can move on.

MR. HOLZER: Let him say that.

MR. GARBER: Mr. Holzer and Mr. Schmidt, we understood that from his earlier testimony as to that being a potential factor as to why the SHA did what it did. We don't need to know what his personal opinion was as if he was to be like the Grand Puba of SHA as to whether or not he's going to determine what you want to put it.

MR. SCHMIDT: Thank you.

Q. Mr. Caloggero, let me move on to something else. You have been out to this site four or five times?

A. Yes.

Q. You drive this road you said approximately once a week, correct?

A. Correct.

Q. Based on your experience with this road, where is the nearest traffic intersection, I'm sorry, traffic red light?

A. There is one to the north at, north, north of the traffic signal.

Q. North of the traffic signal.

A. North of the roundabout, north of the roundabout, is it Fork?

MR. GARBER: Fork Road?

A. Fork and Sunshine, I believe.

MR. GARBER: The next intersection, I believe, is Fork Road.

A. I'd have to look at my map, but I think the one to the south is at North Wind.

Q. How far away, if you know?

A. Significantly south, where the signals in my opinion are not influential to the operation.

Q. The choke points or operation of the signal which would stop traffic eventually leading to congestion or back up, do these traffic signals impact at this point traffic?

A. No.

Q. Have you ever noticed any undue levels of congestion where the vehicles are not moving or stopped which would the affect the flow of traffic in this area?

A. No, it would not.

Q. What time of the day have you driven here?

A. It depends, throughout the day at numerous times. Sometimes you are in platoons of traffic, platoons of may five or 10 cars catch up to each other traverse through the area at a reasonable speed, but that does not create a flow of traffic congestion.

Q. Has there been any evidence, anecdotal or otherwise, that you have reviewed or seen that suggest as there is any type of capacity or congestion issue on this stretch of Harford Road? When I say on this stretch of Harford Road, the section of Harford Road which is shown on Petitioner's Exhibit 15-A?

MR. HOLZER: Objection. It's an improper question because he's already testified he didn't do any analysis of traffic counts.

MR. SCHMIDT: That's my point --

MR. GARBER: I don't think he's talking from that prospective.

MR. SCHMIDT: -- he doesn't need to do traffic counts if he's been up and down the road

hundreds of times.

MR. GARBER: Hold on. Hold on. I agree with what Mr. Schmidt is saying here. Anecdotally, does he feel that the roads are congested since he's someone who travels it on occasion with some frequency but still on occasion, as opposed to doing strict traffic counts in connection with his being a traffic engineer.

MR. HOLZER: Then, Your Honor, the way for the Board to address this testimony, is that if he is using his own personal knowledge of riding up and down, he's in no different situation --

MR. GARBER: It's not expert testimony.

MR. HOLZER: It's not expert testimony.

MR. GARBER: I agree with you. It would be anecdotal. Same thing as anybody on your side that would be getting up to say the same thing. It has nothing to do with being an expert in that regard.

MR. HOLZER: I just wanted the evidence not coming in not as expert testimony.

MR. GARBER: It's not perceived as expert

testimony, it would be received as factual.

MR. HOLZER: Yes, thank you.

MR. SCHMIDT: Mr. Garber, do I understand your ruling that the only way an expert can render an opinion is if he does a traffic count? He's not allowed to render an opinion based on his own personal observations of the circumstances here.

MR. GARBER: Absolutely is, that's a lay opinion in this case.

MR. SCHMIDT: It's a lay opinion?

MR. GARBER: That would be a lay opinion. It is no different than anyone on this side of the aisle, they can come up and say the exact same thing. It adds nothing by way as if coming from an expert witness because it doesn't require any type of studies or anything on his part, his expertise to have his observations conveyed in the testimony.

MR. SCHMIDT: Yes, sir, I understand your ruling.

Q. Mr. Caloggero, as an expert witness, why didn't you do traffic counts here?

A. Because Baltimore County is outside of the, it's outside the transportation zone.

Q. Outside the area?

A. Yes.

MS. MURPHY: What difference does that make?

THE WITNESS: Because the capacity is okay. If it's outside of the area of influence according to the Baltimore County Basic Services Manual. It's in an acceptable traffic shed which means there is available capacity of the roadway.

MS. MURPHY: That's for the purposes of basic services.

THE WITNESS: It's compatible.

MS. MURPHY: That's a different issue. Basic services is a different issue.

THE WITNESS: But it's based on capacity. We can agree to disagree but it's based on capacity.

MR. SCHMIDT: I don't have any further questions of the witness.

MR. HOLZER: No further questions.

MR. GARBER: All right. Mr. Caloggero, congratulations.

THE WITNESS: I am having so much fun.

MR. GARBER: After a week, you are finally done.

THE WITNESS: Thank you.

MR. GARBER: Next up, Mr. Schmidt.

MR. SCHMIDT: Yes, I would call Rob Powell.

MR. GARBER: Do you need a minute or two or are you fine to proceed.

MR. SCHMIDT: I am fine to proceed.

MR. GARBER: Very well. Do we have the witness. Here we go.

MR. SCHMIDT: While he's doing that, can we get the site plan, put it on the board?

JAMES ROBERT POWELL,

a witness of lawful age, being produced on behalf of the Petitioner, having been first duly sworn in accordance with law, was examined and testified as follows:

MS. DOPKIN: Please the state your name and

address for the record, spelling your last name.

THE WITNESS: James Robert Powell, P O W E L L.

MS. DOPKIN: And your address?

THE WITNESS: 421 Rockway Road, Baltimore, Maryland, 21228.

MR. GARBER: Is that home or work address?

THE WITNESS: Both.

MR. GARBER: What company are you with?

THE WITNESS: I am self employed consultant.

MR. GARBER: Okay. I wanted to ask, I don't want to ask your title if you are self employed.

THE WITNESS: Me, myself and I.

DIRECT EXAMINATION

BY MR. SCHMIDT:

Q. Mr. Powell, you indicate you are self employed at the present time, is that correct?

A. Correct.

Q. Previous to your self employment, where did you work?

A. Baltimore County Department of Environment.

Q. How long did you work for the Baltimore County Department of Environment?

A. Thirty-seven years four months and change.

Q. I assume you retired from the County?

A. Yes.

Q. When did you retire from the County?

A. November, 2014.

Q. How many years did you say you worked there?

A. Thirty-seven.

Q. During your 37 years of employment with the County, can you tell us what you did in the Department of Environment? I think you probably predated becoming Department of Environment?

A. Yes, we were the Health Department back in those days. I was up supervisor of the soil evaluation section. I conducted soil tests, supervised employees conducting soil tests for new construction or repair of failing septic systems, reviewed septic plans, et cetera.

Q. Did you do that kind of work in your entire

career in Baltimore County?

A. Yes.

Q. At the end of the day you were the supervisor, the head man in that department within the Environmental Protection?

A. It's a section within a section, being section chief, I guess would be a better term.

Q. How many septic systems proposed or existing would you say you have evaluated over the years?

A. Thousands.

Q. Have you ever been during your course of the employment at Baltimore County, did you ever testify before the Board of Appeals or what was then the Zoning Commissioner Administrative Law Judge about septic issues?

A. I did.

Q. Do you have any type or is there any type of state registration or designation for people who work in septic fields septic systems?

A. There's a Board administered by the Department of Environment called a Licensed Environmental Health

Specialist. It's a licensure that requires renewal every two years along with 20 hours of continuing education credits.

Q. Do you hold that certification presently?

A. I do.

Q. How long have you been an Environmental Specialist, Licensed Environmental Specialist?

A. At least 33 years, 33-35.

Q. I would offer Mr. Powell as a Licensed Environmental Specialist. Obviously, he's going to give testimony of the potential septic system for the use on this property.

MR. GARBER: Just to the slow that down, what is he being offered as expert in?

MR. SCHMIDT: A Licensed Environmental Specialist, I believe it's called, Mr. Powell?

THE WITNESS: Licensed Environmental Health Specialist.

MR. SCHMIDT: Environmental Health Specialist. He's going to render an opinion about the feasibility of a septic system to serve the proposed

use on this property.

MR. GARBER: Okay. I am just, quick question here for me. You said you were the Section Chief because you described as section within a section, so which section.

THE WITNESS: Field supervisor. That would be the official term would have been Sanitarian III in the old days.

MR. GARBER: But you are a Field Supervisor and what was the section?

THE WITNESS: The Soil Evaluation Section.

MR. GARBER: Soil Evaluation Section. That was the level you reached at the time of retirement?

THE WITNESS: Yes.

MR. GARBER: I wanted to make sure I had the right designations. Mr. Holzer, any questions for Mr. Powell?

CROSS EXAMINATION ON QUALIFICATIONS

BY MR. HOLZER:

Q. I had one, but I am not sure I should ask it now. I was going to ask, when I heard 37 years, I was

going to ask you, were you here when I was the County Attorney in 1978, but when I did the calculations --

A. I was.

Q. You were? Okay. Okay. You were in at that time the Health Department and I was the County Attorney?

A. Correct.

Q. And you were doing the same sort of thing?

A. Yes.

Q. Okay. And then subsequently through multiple changes of that Department of the Environment, all that stuff, you still stayed doing the same thing?

A. Correct.

MR. HOLZER: I have had the pleasure of having Mr. Powell as a witness that I had to cross examine years ago throughout those 37 years and I look forward to this, but he's certainly acceptable.

MR. GARBER: Admitted as proffered.

DIRECT EXAMINATION (CONTINUED)

BY MR. SCHMIDT:

Q. Mr. Powell, you have been to this property?

A. I have.

Q. How many times, do you know?

A. Twice.

Q. Okay. Are you familiar with the condition of the property, the soils of the property and the other sort of geographic or topographic features considered as relates to the feasibility of the septic system here?

A. When I conducted the inspection, we walked over the property, evaluated where one of the existing septic systems were, found the well location, the existing well location, and a general recognizance of the topography as well as other conditions.

Q. How about the soils or the soil conditions, is that a factor that you would ultimately consider?

A. We did not conduct any soil evaluation test. We used the USDA Soil Survey Manual to evaluate the soil series. The soils are mapped as a matter series as deep well drained, imposes little or no limitations regarding on site waste soil, waste disposal as a general evaluation.

Q. Okay. Let me ask you, Mr. Powell, just a little bit about the process in this case, the applicant getting approval of a septic system for the property for the use. What would they generally do and I assume that hasn't changed since you left and retired. What steps will they go through in order to get a septic system review and approval?

A. The initial step in a non residential situation would be a water usage report which I was contracted by the Congregation to provide, which I did. I spoke at length with a Board member. We visited the site twice and came up with a letter of usage based on the information provided to me using design guidelines for flows from the Maryland Department of Environment.

Q. Okay. And I am going to show you what is labeled, Ms. Murphy, I am going to have to give you a couple more copies of this, which I will get to you, but I am going to show you a document. You have a scope of it?

A. I do.

Q. Very well. So, I can give you three and I have one as well of a document in fact called a Water Usage Summary. Is this the document you are referring to and prepared?

A. Yes.

MR. SCHMIDT: And I am going to ask it be marked Petitioner's Exhibit 22, I believe it is.

MR. GARBER: Well, we had 21, but you withdrew 21.

MS. MURPHY: You were going to use the aerial but used Number Two.

MR. SCHMIDT: Yes, so it's 21.

MR. GARBER: The aerial was not received in evidence is not for identification. That's why this is 21.

MR. SCHMIDT: That's fine, that's fine.

MR. HOLZER: Could I interject, is there a resume that normally one presents a resume; in this case is there a resume of Mr. Powell?

MR. SCHMIDT: Mr. Powell's credentials are such I didn't think it was needed. He's only been

employed at Baltimore County, so there's not a history of a lot of employment. It's over 30 years.

MR. HOLZER: All right. I just asked the question. I didn't need a long explanation.

MR. SCHMIDT: I am giving you an explanation, long or short.

(Petitioner's Exhibit Number 21 was admitted into evidence.)

MR. GARBER: So we are back to Petitioner's Exhibit 21. Sorry for the interruption.

Q. Mr. Powell, the document I have offered or asked you to identify, is that the Water Usage Summary you prepared?

A. It is.

Q. I don't want you to read it to the Board, I am going too submit it, but generally tell us what that is, how it was prepared, whether it's been submitted and reviewed and accepted or not.

A. First we meet with the property owners and/or developers to establish a pattern of usage, especially in a situation where it's not something standard like

a residence. A residence, MDE, assigns, Maryland Department of Environment, assigns 150 gallons flow per bedroom per day. With a non residential application, each site is different and usage is different and each usage is different so it's inherent before you prepare the report to evaluate what the intended usage is and get to the details, how many people are visiting the site? On what occasions is food being served? Is food being prepared onsite or offsite? Will there be portable facilities for outside functions, are they going to use inside facilities? All that factors into an anticipated sewage flow which is factored into the preparation of the Water Usage Summary.

Q. Did you consider all those factors here?

A. I did.

Q. Kind of breaking it down, did you look at what I would say would be the typical usage say during the week?

A. I broke it down into the actual usage for a weekday, whether it be meetings and/or office staff in

the building versus and also looked at gatherings for high holidays and festivals.

Q. And I think that's noted in your report, is it not?

A. Along with weddings and what wouldn't be proposed and would not be in the building. I looked at, I asked the question specific to the site. I asked for all halls or churches, is there going to be a hall where food is served? The answer to that was no. Is the hall going to be rented out to either outsiders or to be used by members? The answer to that again was no. They told me the hall is specifically for religious purposes. There would not even be seating in the hall. The only time the hall would be used for anything else other than prayer would be for a wedding and the wedding would be, those in attendance would be the priest, the couple and immediate family only. All other functions outside of the wedding, like a reception, would be held in an offsite venue.

Q. How many bathrooms are there in the building,

if you know?

A. One and a half on the first floor and two and a half on the second.

Q. Is there any proposed change to that in terms of number of facilities?

A. To my knowledge, no.

Q. Is there a commercial kitchen in the facility?

A. There is not.

Q. There is a previous residential kitchen, but is the there a difference between a commercial kitchen and residential kitchen?

A. Commercial kitchen is when you have fryers and ovens, Code requires a hood with fire suppression and although I don't know the exact cost, I have been told those figures are well into the five figures. In addition, all the surfaces have to be stainless steel. The appliances must be stainless steel and cleaned. None of the appliances in there are stainless steel. It's residential appliances for a residential kitchen.

Q. Now, you prepared this water use summary report submitted to Baltimore County?

A. Yes.

MR. SCHMIDT: I would offer as the witness has described it as Exhibit 21.

MR. GARBER: Mr. Holzer.

MR. HOLZER: I don't know whether I can approve it or object to it at this point. If he is submitting it, he's submitting it.

MR. GARBER: So admitted.

(Petitioner's Exhibit Number 21 was admitted into evidence.)

Q. And Mr. Powell has that been to the best of your knowledge reviewed by Baltimore County?

A. We met with Mr. Kotroco, myself, Craig Rogers, him members of the groundwater management section of the Baltimore County Department of Environment. We presented our proposal, I explained the proposal and I received word back from Mr. Rogers two weeks later that the proposal was accepted. There was no approval to it, it's accepted because the sewage disposal reserve area will be based on the anticipated flows, peak flows that were outlined in my outside in my

correspondence.

MR. GARBER: So the plan was approved? S.

THE WITNESS: Yes.

MR. GARBER: So, that was communicated by phone or writing?

THE WITNESS: By phone by Mr. Rogers.

Q. You mentioned peak flows. What do you mean when you say that?

A. MDE regulations require that the design of septic system be based on peak sewage flow. The maximum daily flow for any given day of the year and there are guidelines regarding gallons per seat or gallons per person, depending on the type much venue being proposed. But the actual flows are about 60 percent of that. For example, a four bedroom house under MDE designed guidelines has a peek design flow of 600 gallons per day. It's based on two persons per bedroom, 75 gallons per person per day. I would venture to say that nobody has used that much water for a four bedroom house.

Q. Based on that, what is the next step to go

through in order to obtain approval for a septic system.

A. We would have to file for a soil percolation test application, showing the plan depicting the area and number of tests to be conducted. The tests would be conducted by the personnel from the Department of Environment and the decision rendered by the Department of Environment at that time.

Q. They would then, what, approve the location and design of the proposed septic facilities, is that how it works?

A. They would approve it or needed additional tests to move to an additional area, they would do that. There is ample room on the site for additional tests if some reason the test results were not satisfactory.

Q. Okay, I don't know whether you want to use the plan, Mr. Powell, but I understand the perk tests have not yet been conducted, is that correct?

A. To my knowledge as of about three or four days ago.

Q. Okay. Based on your knowledge of the site though and based on your knowledge of the soils, I assume or have you experience with other property in the vicinity of Baltimore County during your 37 years where you have approved septic systems in this area?

A. Each site is different. Each property is site specific. When I was employed by the County, I probably went above and beyond because people would come to me and ask me, what do you think of this, should I buy, what do you think the chances are to pass a soil test. And I would render an opinion based on geology, soils, what I know of the hydrology of the area, topography, all those enter into it and based on what I have seen on site and the mapping of the soils for this property, I feel confident that there will be a true septic area on this property to meet the intended usage.

Q. If the septic system is approved here based on the conclusions you just expressed, will there be any in your view from the operation of that system and a septic system, would there be any impact on other

properties, other septic systems on other properties, other adjacent wells or anything like that?

A. The septic system, given the topography and steep slopes that abut the western part of the cleared area and the eastern part would tell me there couldn't be a septic area within probably two or 300 feet --

MR. GARBER: I'm sorry, cannot be?

THE WITNESS: Cannot be. Those slopes are in excess of 25 percent. MDE regulations prohibit system or septic areas on 25 percent slopes, and furthermore, they required minimum setback of 25 feet from the slopes of the subject area.

Q. And do we have room on this property for a septic system in view of those slopes?

A. Yes.

Q. Plenty of room?

A. Yes.

Q. Okay.

MR. GARBER: You said 150 feet from the property line?

THE WITNESS: About 300.

MR. GARBER: 300 feet. Sorry.

MR. SCHMIDT: I don't have any other questions, Mr. Powell.

MR. GARBER: Just a general, I don't believe you answered the question as to whether or not it will impact adjacent properties, whether septic, well or other.

THE WITNESS: Oh, well, yes. This is an unconfined act which means the wells receive recharge from the rainfall and the surface infiltration within one or two acres area of the well site.

MR. GARBER: I am sorry.

THE WITNESS: Within one or two acres of the well site. It's not a coastal plane well where they are receiving the water from miles off site. The recharge area for this well is basically on its own property.

Q. And that applies to the other properties as well, depending on how the other property are, their wells are like in a confined area.

A. It's also unconfined aquifer, yes.

MS. DOPKIN: Was it also your testimony that the septic system would not affect adjacent property or would?

THE WITNESS: Correct, yes, they would if the system would not.

MR. GARBER: You can say that though we don't have a design or plan at the moment as to where it will be within the set location.

THE WITNESS: Like I said before, they can't be on steep slopes and the steep slopes surround, if I may -- Well, this plan doesn't show the topography, but their steep slope was here.

MR. GARBER: You are showing to the west steep slope.

THE WITNESS: To the west and below the three bedroom tenant house down towards the stream, that's all steep slopes.

MR. GARBER: What about toward the south?

THE WITNESS: The system would not be placed in that location. One, the existing system we believe is there that we are not going to be using.

And it gets in the lower topographic setting, which I am not comfortable placing the septic area.

MR. SCHMIDT: Where do you think it will be, Mr. Rogers?

THE WITNESS: Probably right in here.

MR. GARBER: Why don't you show us and also describe it for the record.

MR. SCHMIDT: If you can describe it on the features on that plan, either distances or in relation to dwellings or buildings.

THE WITNESS: It will be probably several hundred feet below the existing building used for worship just to obtain gravity fall at the lower level, basement level, for no other reasons than that.

MR. GARBER: Several hundred feet to the south of it?

THE WITNESS: Yes, sir.

MR. GARBER: Therefore, I assume then that the one that you think will be put in that location, that will be north of the existing one.

THE WITNESS: Yes, sir.

MR. GARBER: Because you said the existing one was even to the south.

THE WITNESS: The existing one I have been told is down by the barn. I advised the clients that rather than trying to attempt to use a system that is quite old that the County had no records on or property that's been vacant, I was told, four or five years, there is no way to assess its functionality. It would be best just to abandon it and do a whole new system so you know what you have going in rather than guess work.

MR. GARBER: Are there any other features of the property that define the location as to where the septic field could be?

THE WITNESS: There is an existing drilled well in a pit that used to serve the facility somewhere just above the existing, called the existing shed, the old pool house. It's in the pit. It's a drill well in a pit. It's not grouted by the nature of its construction. I recommended the well be abandoned. They were planning on abandoning it anyway

and drill a new well somewhere in the vicinity off to the corner of the building right here.

MR. GARBER: But my question was are there any other environmental features of the property that could confine where the septic field came down?

THE WITNESS: Other than the slopes and the actual regulations say 100 feet off of bodies of water not in the swales, but professional judgment dictates you don't go down to the barn, you stay high.

MR. GARBER: So, it would not be near any streams? What did you say?

THE WITNESS: Streams.

MR. GARBER: Not be near any streams and not be near any slopes.

THE WITNESS: Correct.

MR. GARBER: And just to follow up to something. You were moving kind of quick there. The next step, assuming this goes forward, the next step in terms of well and septic, you would have to go to soil perk test?

THE WITNESS: Yes, sir.

MR. GARBER: So you find the soil perk area and then that test is submitted to the Department of Environment for a decision?

THE WITNESS: Generally, the decision is made on the spot. And what happens then is the client would then hire a well driller to meet with the County on the property to identify a spot where the well could be drilled, the driller files for a permit with the County to drill a well, and then he goes out and drills, and files a completion report when done.

MR. GARBER: What about septic?

THE WITNESS: Septic would not be designed prior to the building permit. At that point in time a design that would be shown on the plan where the building permit would be approved and the clients would then hire a licensed septic contractor to install the system.

MS. DOPKIN: Is there also a requirement for a septic user area?

THE WITNESS: There is the State regulations for new construct or subdivision or land

require a septic reserve area of 10,000 square feet. That's based on the assumption that that's the number for one installation and two repairs.

For a larger non residential property, Baltimore County Department of Environment either code or regulations or policy, I'm not sure which, requires sufficient area for one installation and two repairs, hence, the requirement for water report, water usage summary. So, you can't determine how much area you really need until you find out how much waste you are going to be treating, then ascertain the soil conditions after the perk test and the valuation will be made, is there enough area for one installation and two repairs. If not, they have to go back out and dig it out to establish that area.

MR. GARBER: Sitting here today, there is no way to determine whether or not a septic reserve area, one would be required or feasible.

THE WITNESS: Oh, it's required. It's a non issue.

MR. GARBER: So, I'm trying to get the

terminology. You are talking about installation and repairs, I assume you are referring to the reserve.

THE WITNESS: The reserve.

MR. GARBER: So, as to the location, you can't opine about that sitting here today.

THE WITNESS: Correct.

MS. MURPHY: Is there a location for the septic reserve?

THE WITNESS: Correct. Yes. That would be the septic reserve area to serve both the three bedroom dwelling and the religious center.

MS. MURPHY: Would one septic system serve the sanctuary and the dwelling?

THE WITNESS: In this case, yes.

BY MR. SCHMIDT:

Q. Why is that, Mr. Powell?

A. The existing three bedroom dwelling was served by a metal septic tank that collapsed. I didn't bother to look for the field component. The field component would be located on slopes greater than 25 percent. Just the fact that it had a metal septic

tank tells me that the field system, if it still exists, is probably in very poor condition. Here again, why try and repair something that is old and again, we had no records, we, I'm talking like I'm still working for Baltimore County. The County had no records on, so it was recommended that a whole new system be installed to serve all the functions on the property.

Q. Mr. Powell, I mean, is the area that is available for septic, is that large enough to accommodate the underlying system, the reserve areas, repair areas? I mean, we have, this is a fairly large site, is it not?

A. It is, but I did rough measurements. I would estimate about 70,000 square feet maybe more available to be tested for waste disposal. If for some reason wherever the tests are conducted and there is a problem, they could move around the site. They have flexibility to move.

MR. GARBER: If I can, 70,000 square feet, is that all within the cleared area within the

property site?

THE WITNESS: Yes, basically. Once you get out of the cleared area, there is steeper slopes.

MS. MURPHY: How much area do you need for the septic reserve?

THE WITNESS: Depending on the usage proposed, they may decide to increase it a little or they may decide to keep it at 10,000 and see how the soil tests do. The soil tester deep bores 10,000 square feet may be acceptable for one installation and two future repairs. If there is heavier surface clay layer or some bedrock conditions that limit how deep you can go on the system, then the area would have to be spread out to a larger area.

MS. MURPHY: The 10,000 was for new subdivisions, residential area.

THE WITNESS: Yes.

MS. MURPHY: You are saying this large non residential property, that's the way you are classifying it.

THE WITNESS: Correct.

MR. GARBER: How much do you need for large residential or non residential.

THE WITNESS: It would be the same amount, one for one installation and two future repairs. Here again, it could be ten, 11,000 square feet it may be more depending on the results of the soil tests that's yet to be determined.

MR. GARBER: Going back to the 70,000 square feet available for testing, there is a minimum of 10,000 square feet needed for the system, two questions with that. One, does the 70,000 square feet include the prior septic area?

THE WITNESS: No.

MR. GARBER: So, that's already been being excluded from that rough estimate.

THE WITNESS: (Indicating nodding head up and down.)

MR. SCHMIDT: You have to answer the question.

THE WITNESS: I'm sorry. It takes some getting used to.

MR. GARBER: Thank you, Mr. Schmidt.

THE WITNESS: No, it does not include the original septic system. The sewer line from the mansion, from the building to the system will be intercepted, but that will be intercepted, but that will be removed.

MR. GARBER: The field itself is outside the calculation.

THE WITNESS: Outside that area.

MR. GARBER: And then the minimum 10,000, is that based on the use of the property that's been reported to you, that's how the property will be used?

THE WITNESS: My water usage summary's based on what the clients told me and I have, I had prepared the report and submitted it to the consultant prior to sending out, is this correct, is this accurate? And I was told, yes, and based on that, we submitted this to the County. The area that's required would be based on total flows in this report.

MR. SCHMIDT: Which includes festivals.

THE WITNESS: Which includes the festivals,

yes.

MR. GARBER: The property as maximum use as reported to you has already been accounted for within your summary?

THE WITNESS: Yes.

MR. GARBER: Mr. Holzer, sorry about that. But it helped clarify things for all of us.

MR. HOLZER: You have certainly taken all of my thunder.

CROSS EXAMINATION

BY MR. HOLZER:

Q. If I may, I mean, this is a little confusing. What is this plat that's marked as Petitioner's Exhibit Number 1? This is what you used to opine --

A. No.

Q. -- on your testimony?

A. No, I had a different plan that had topography, general county topography based on area photographs.

Q. And did that assist you in terms of being able.

A. Yes.

Q. Could we see that?

MR. SCHMIDT: Sure, if you have got it, Mr. Powell.

THE WITNESS: Yes. Somewhere.

MR. GARBER: Is that already an exhibit?

THE WITNESS: No.

MR. GARBER: There is an exhibit with topographical lines on it.

MR. SCHMIDT: I pulled one to explain the property, but --

MR. GARBER: If it's already an exhibit, we can reference it and use that.

THE WITNESS: This is October 20th, 2017, date on the plan.

Q. I asked him if the document that he has in his hand has more detail than the Exhibit Number 1 and he said he didn't think so, other than the topography?

MR. SCHMIDT: Mr. Garber, I'm looking at my exhibit list that I have been keeping and I don't see it, but --

MS. DOPKIN: It's on the traffic exhibit.
MR. SCHMIDT: What was it?
MS. DOPKIN: Only topography we have is a partial which is on Mr. Caloggero's.
MR. SCHMIDT: We can use this one.
THE WITNESS: You can look at this.
MR. GARBER: I thought I saw topographical lines on it.
MS. DOPKIN: It's not completed.
MR. GARBER: Sorry for the distraction, Mr. Holzer.
MR. SCHMIDT: I'm happy to mark this because it does show the topography, Mr. Holzer, if you can refer to it. I'm marking it as Petitioner's Exhibit Number 22, I think it would be helpful.
Just for the record, this is the plan dated October 20th, 2017. It's prepared by Little Associates, which is Mr. Motsco's company, and shows I think much of what's on Petitioner's Exhibit 1 except there are topographical lines.
MR. MURPHY: Mr. Holzer, Exhibit 22, do you

have an issue with that?

MR. GARBER: Mr. Holzer. Any issue with Exhibit 22 then?

MR. HOLZER: No.

MR. GARBER: You are fine.

MR. HOLZER: Since I called for it, I don't think I have an objection to it.

MR. GARBER: Thank you.

(Petitioner's Exhibit Number 22 was admitted into evidence.)

BY MR. HOLZER:

Q. All right. Where do we start? For those folks that are, have not been permitted to go on to the property, the neighbors and so forth that have not gone on to the property and you described a lot of different things that are existing and proposed, if there is no objection, I would like for you, now that we have the topography, would you stand up here and tell me where the existing well is and mark it on this Exhibit Number 1 and then where the existing septic area is and just your initials would be fine. I don't

want you to destroy what is on here. But can you do that for me?

A. I have not actually seen the existing septic system. I was told it was down by the barn and that was based on a contractor that had looked at the property. So I can't the attest to that.

Q. Well, let me just say, where is the existing well? And if you could just put your initials where the existing well is and I'll refer to it.

A. It will be approximate.

Q. I understand. I understand. I am not picking at you.

A. (Witness is drawing on the Exhibit 1.) Well pit, is that 12.

Q. Yes, we are together on that. That's all, well never mind, it just says we are old. And for the record, he has marked on Exhibit Number 1 that was up here a square marked well pit with his initials and today's date?

MR. GARBER: Do you need a pointer? Pen works.

Q. Now, you have indicated there is an existing septic system for the toilet facilities, I guess, on the existing building. I know it's not your testimony but what were you advised just so we got a general idea of where the septic drained to?

A. There were clean outs in the sewer line. There were clean out in the line running down from the building towards the direction of the barn.

Q. Okay.

A. Spaced every 150 feet or thereabouts and I was told that the system was in the vicinity, the field component, whatever it was, is in the vicinity of the barn.

Q. Okay, could you just do the same thing or you --

A. I cannot say, it's hearsay on my part.

Q. I don't want to put you in an uncomfortable position?

MR. SCHMIDT: But the barn is shown, Mr. Holzer.

MR. HOLZER: Yes. That's in the general

area of the existing septic.

THE WITNESS: (Indicating nodding head up and down.)

Q. Do you know whether or not that was for a single family home or commercial operation or can you describe what it is that you have been told it was?

A. The original usage was for a residence.

Q. Yes, yes.

A. So, logic dictates the original system was for that use alone.

Q. What would that have been back in the day?

A. Who knows?

Q. You don't know?

A. There are no records on Baltimore County data base that indicates the design of the system much less soil tests results, there is nothing.

Q. Is that because this has historically been a single family residence for years and years even before that kind of stuff was required?

A. I have no knowledge one way or the other.

Q. Okay. When did you first become acquainted

with this site?

A. When I met their consultant, Mr. Rogers, and a member of the Board of the Congregation on this site, June of this year.

Q. June of 2018?

A. June or May of 2018.

Q. And you said you have visited this site personally how many times?

A. Twice.

Q. What were the dates? If you don't know the exact day, approximate time?

A. First time, like I said, May or June, second time was July, probably mid July is my best guess.

Q. July, 2018?

A. Yes.

Q. Was there any activity on this site when you visited or was it just you and the representatives from the applicant?

A. First time I visited the site with Mr. Shara, who is a Board member, it was myself, Chris, Craig Rogers, their consultant, and they had a number of

members of the Congregation working on renovating the damage to the building.

Q. To the main house?

A. Main building, yes?

Q. And then the next time you met there --

A. I was by myself.

Q. You were by yourself?

A. Yes.

Q. You had no opportunity to see any activity from the standpoint of festivals or anything like that in regard to how the property was used when they were having the festival?

A. No, I was not at the festival.

Q. Or any festival?

A. Or any festival on that property.

Q. So we have got where the old well was, we have got where we think the existing septic is. Can you tell me, again, I heard the testimony but I couldn't follow it on this document, where is the new well being proposed?

A. I do not know if I have a location shown or

not. Let's see on this document, no, I do not. I was told that the well location was supposed to be somewhere off of the side of the drive, but I have no, I do not have an exact location on the plan.

Q. Instead of doing it on this new Exhibit 22, can you do it where you put the well, can you tell us, like you had to do it down here, but this is the other existing well.

A. I can't be sure.

Q. Would it be in this general area of the existing well?

A. It would be somewhere off of the drive.

Q. This drive here?

A. That drive, yes.

Q. You are referring to the circular drive.

A. Somewhere, here but I don't know the exact location.

Q. I am not asking for exact location. I have had a, and you said this well, was it almost like a hand dug well? Was it drilled?

A. No.

Q. Was it drilled?

A. It was a drilled well in a pit which means the well was not constructed to current standards by today's standards. New wells today must be drilled and grouted. This well by the construction that I saw, it obviously was not grouted. There was a jet pump in the building indicating they were pooling the water from a shallow, shallow level. It's very possible the well was not sufficiently deep to provide enough sewerage capacity to meet construction standards. I recommended drilling a new well. They had already intended to do that already.

Q. Basically, the well supplied the house over the years and that's all it needed for the residents?

A. It supplied the entire property.

Q. Okay. It supplied the barn, did it go all the way down to the barn?

A. Unlikely.

Q. Did it go to the existing shed, when you say it supplied the entire property?

A. There was a tenant house on the property right

off of the main building, the three bedroom dwelling --

Q. Right?

A. And there were remains of a pool house showing evidence of a bathroom. Given the well's location, it's logical to surmise those wells served three structures. The barn, I would suspect not.

Q. Generally, the existing well which was, let's say, well, let me ask you another way, having just done this on a piece of property I am aware of, we had a hand dug well which served the house and then under the new circumstances, we ended up with a 400-foot deep well; would that be the kind of well that this new well that you are proposing on there site be?

A. The depth of the well is determined largely by what the licensed well driller observes during the drilling process. When they are drilling, well they are using compressed air to blow the rock shavings out of the hole. Any groundwater they hit is coming out of the hole with it. They will look at the depth at which they hit the water and do a rough calculation on

how many gallons a minute the well appears to yield. Based on that they will probably will drill deeper to obtain storage capacity in the bore hole and another day do the yield test. If it passes the yield test, they will approve the well.

Q. Is there any water capacity that's needed for what is being proposed on this the use of this entire property?

A. Once they drill the well, do a completion report, a study will have to be made and it will be evaluated by the Department of Environment to determine is there sufficient capacity. It's combination of storage in the well casing and yield. There is a minimum yield of one gallon per minute recovery. There is also a minimum storage capacity for a two hour period that has to be met.

Q. Okay. Now, will the water that is being produced by this new well, based on what you just testified, will that serve just the house or how will it serve, let's say there is a festival and 200 people come to that and want to drink water from the well, is

that being accounted for or is it not?

A. There will be no food served on site except catered. They bring it on site, they serve, take it out, no food washing, food prep. There is no kitchen use of water for festival. There will be no use of bathrooms; they will use outside portable facilities for the festivals. So the water usage would be whatever they bring to drink, each individual family.

Q. You mean the individual people coming to this to a festival or event would have to bring their own water and wouldn't be calculated in terms of well production?

A. No, they would be bringing their own food or food will be provided along with drinks or snacks.

Q. Okay. We'll get into that. Okay. So this well would produce water for the existing main house, correct?

A. Correct.

Q. And for the two story dwelling right here?

A. Correct.

Q. Where there possibly may be somebody living

there on the property and that would be it from what I understand your notes, the existing shed and pool will be disregarded or be covered over?

A. I don't know what the disposition of the other out buildings will be, but they will not be utilized.

Q. Well, if they are not utilized, they will either be torn down or sitting there empty, right?

A. They won't be utilized, that's all I can tell you.

Q. Is that what was told you?

A. That is what I was told, it will not be utilized.

Q. You are basing everything in regard to your testimony on what you were told by the property owner?

A. If they were to utilize the shed, which is actually the old pool house, they would have to file for a permit to totally rehabilitate the structure, at what point in time the Department of Environment would receive the permit and review the proposal and make a decision regarding the adequacy of the outside facilities.

Q. Right now they have testified they are going to get rid of the pool and maybe the shed next to the pool. But suppose they decide to keep the pool, would they need, you know, to fill a pool, you need water, so would that be also supplied by this same well?

A. Normally not, the reason being the well water from that geologic formation would be rather acidic and corrosive. If they filled the pool, they would burn up the well in the process and the chemicals treating the water would be enough that generally all pools are filled from public water supplies, hydrants by the tank trucks you see running down the road.

Q. All right. We have sort of exhausted where the water is going to go or come from. Then the only other point is you have described the new septic area and septic reserve area. Is that saying the same thing?

A. Sewage disposal reserve area covers it.

Q. Somewhere that's going to be inside of the existing forest, wherever that forest may occur, is that right?

A. It will be in the cleared area, probably several hundred feet below the main building, the exact location I do not know.

Q. Okay. But several hundred feet would be down somewhere in here and I'm describing to the left of the existing building and probably north of the two story dwelling?

A. No, sir.

Q. Well, then show me.

A. It would be in the main area directly below the main building right in here. That would be the prime location if I were to design the layout for the system.

Q. So, for the record, what he has described is it would be to the left or the rear, I guess, of the existing home building and it would be a circular area above the 670 foot plus or minus line that is shown running to the about of the existing building.

MR. GARBER: When you say to the left, that's the west.

THE WITNESS: It's --

MR. HOLZER: It's actually to the southwest.

MR. GARBER: To the southwest.

MR. HOLZER: I could have him mark with a pencil where it is but if that's enough description, that's fine.

MR. GARBER: Just clarifying what you meant by left.

Q. And you are saying that Petitioner's Exhibit Number 22, which contains all of the elevation drawing, why is that relevant, why did you have that in your possession in terms of your testimony or your analysis of this site?

A. That's the information I was provided by the surveyor and it gave a good description and view of the property as far as the existing buildings and topography.

Q. But you didn't have Exhibit Number 1?

A. No, I did not.

Q. So that's all that were given?

A. Correct.

Q. Okay. I was wondering why you utilized that one. I was ad libbing those questions. Now, I have to go back to what my notes were. If you bear with me, I don't want to repeat.

You testified that the soils on the property were deep and well drained?

A. Correct.

Q. What does that mean?

A. That is based on the description provided by the USDA Natural Resource Conservation Service and it's a description of the manner series of soils. That's the main soils in that cleared area is a manor series.

Q. M A N O R?

A. Correct.

Q. Like Manor Road?

A. Correct.

Q. Now, did you review anything from the soil conservation part of Baltimore County to further educate yourself as to the soil?

A. No, sir, I pulled it off the web site for USDA

and RCS actually.

Q. Would soil conservation have any information that could be valuable to understand what the soils are on this property?

A. I used that information just to verify what I suspected as far as the soil conditions on the property and I am very well acquainted with manor soils having had 37 years of work in Baltimore County.

Q. I am sure you are. Describe manor soils in terms of its ability to retain water or not retain water or provide sufficient water in the well? I mean is manor soils go all the way down to three or 400 feet?

A. Manor soils are soils that are derived in place from weathered rock, in this case schist. Schist, S C H I S T, in case I slurred my pronunciation.

Q. We didn't misunderstand.

A. These soils are weathered in place. They are not eluvial, they are found on high topographical grassy settings on ridge lines, side slope shoulders.

They are not eluvial or colluvial. Colluvial means you are in a foot slope. We have a subsidence of soil being washed off of other areas and being deposited. That is not the case. These soils are generally soil surface clays running from two feet thick to four, five sometimes as much as six. The bedrock runs depends on each site. Like I say, each site is very specific.

Q. On this site, this is a unique site, isn't it, in terms of its height, in terms of it sitting very high in the general area of Harford Road?

A. I would not find it unique. I would just observe that it is on a ridge line, situated on a knoll and ridge line heading towards the south or south/southwest.

Q. Okay. Would manor soil be different if it was in the valley?

A. Then it wouldn't be manor soil. Each soil description is based on how it's formed. Is it formed by water deposition in which case it's a drainage swale or flood plane in which case it's colluvial.

Different characteristics. Different concerns. The soils that are on the ridge lines are generally weathered in place, in this area from natural parent bedrock.

Q. You have taught me this before in our past discussions, so I appreciate that. But when that driller starts, he's going to go through manor soil and through bedrock, is he not?

A. He's going to drill into bedrock, yes.

Q. The question is how deep he has to go in that bedrock in order to get the right quantity of water as to provide the service that this property and the people using it need, is that right?

A. He will make that decision on site while he's drilling. And there are a number of factors that come into that decision as to whether he proceeds or not.

Q. In other words, he may end up having to move the well, potential well new site to some place other than what they originally thought, correct?

A. If the site which is approved by the County and the driller is yields a well that is either

suspect or they suspect may not be satisfactory in yield, they will move to another site. Many times when the County meets the well driller on site, they will identify a well area, so if the driller is drilling and he hits what looks to be a low yielding well, he can move into another spot in the preapproved area, give the County a location of fact without stopping drilling operations, call the County and have them out a day later and have them approve another well while the rig sits on site not being used.

Q. Ultimately, it's up to the County to approve not only the site location but also the capacity of the well.

A. Site location comes first.

Q. I understand.

A. Then a completion report. Once they receive the completion report, then the County will evaluate the capacity of the well to serve the intended use.

Q. And that calculation by the County will be based upon what they have been told by you as the potential use?

A. Correct.

Q. Right. Now, you made it a point to say that this application that you marked that has been marked Petitioner's 21 is a non residential application, is that right?

A. When the water usage summary is required, it's generally always for a non residential application.

Q. Correct, correct. So, basically, that means that the way the Environmental Department or you would look at a well if they proposed to just use this house for a single family purpose or whether they proposed to use this property in this house for, I don't know whether I want to say commercial, but it's certainly none residential which means it's different from what was there before, right?

A. Can you rephrase that? There were several questions there I didn't --

Q. I'm sorry, I do that all the time. When the County, because you called this a non residential application, it means that in your mind there is a difference between the usage that existed on the

property, which was purely residential, to a usage that on the property that exceeds or is different from the single family use, right?

A. It's called non residential because that's the way the Baltimore County Department of Environment views the proposal. If it's not residential, it's something else, and then they require additional information to assure the adequacy of the facilities.

Q. Right. Right. So within the Department of Environment, DEPS, whatever you want to call it now, and it changes all the time, they want to make a distinction between the single family use and something that's not a single family use?

A. Baltimore County Department of Environment wants to insure the adequacy of the water supplied. If it were a residential use, the minimum requirement would be one gallon per minute irregardless whether it's one bedroom or ten. That's in-state regulation. When it comes to non residential use, that's when they want additional information to assure adequacy.

Q. So, we can almost be assured that the well

production from the new well will have to exceed one gallon per whatever?

A. I would not be willing to make that statement.

Q. Why not?

A. It depends on how much storage capacity is in the well. It depends on the size of the storage tank inside the building.

Q. How much storage is proposed here? You don't know that, do you?

A. Well hasn't been drilled. Until the well is drilled, it's all a moot point.

Q. So all of these different functions come after the well is actually built and then we'll know what kind of storage tank you will need, you will know how much water is contained in the well itself and then you can figure out whether it's acceptable or not.

A. That would be correct, yes.

Q. That's where DEPS or Department of Environment would come in and say yes or no?

A. Based on the completion report and the yield. Not just the yield but the amount of storage capacity

in the well that they will observe static water level in the well bore hole before initiating the yield test, that being the well driller.

Q. Right. So I think you have certainly answered that question.

Did you, have you in your report, I haven't gotten to your report yet, but the letter of usage, did you define the usage for each building?

A. I did.

Q. You did. So then I'll hold that question until I get to see your report.

Is it okay or permissible or okay is the best way to say, is it okay for the applicant to, at of today, as of yesterday, as of tomorrow, use the toilet facilities in the existing house?

MR. SCHMIDT: I'm going to object to the question. When he says it's okay, you mean from a regulatory standpoint, is it functioning?

MR. GARBER: Can you use it today is what I understood. If you and I were to go there today, could we use it?

MR. SCHMIDT: Can we use it? I thought he meant by a regulatory, does the toilet facility function?

THE WITNESS: To my knowledge, yes.

Q. So did you try it?

A. Didn't have the need to. Should I have --

Q. I didn't get that personal. I'll withdraw that question from the record. Okay.

Is it okay to use the existing well, drinking the water from the existing well, if you can even get it through the pipes?

A. I don't know. That's an unknown.

Q. You didn't try. And I'm not criticizing. You just didn't have reason to determine whether or not the well was functioning?

A. Because we are not, the plan is not to use the well, to abandon it, that really didn't enter into the discussion.

Q. Well, I just wondered, since you were in the Health Department, whether there was any concern that using the existing well with the water that it

produces could be dangerous to the health, safety and welfare to anybody using that property?

A. That determination has not been made.

MR. GARBER: You don't know if the water was treated previously?

THE WITNESS: There appeared to be no treatment devices on the water supply. I think there was a water conditioner in the well pit.

MR. GARBER: Do you know if that was functioning?

THE WITNESS: I don't know.

Q. In your opinion as a health person, is it safe to use water in an abandoned septic system? Is it safe to flush the toilet or use it in an abandoned septic system?

A. The definition of abandoned, according to the County Plumbing Code, is disconnecting from the system to the house or structure it serves. This system has not been disconnected. It's not considered abandoned.

Q. How do you know it's not been disconnected?

A. I didn't crawl down the sewer pipes, if that's

what you are asking.

Q. That's really what I am asking. It's easy to say certain things but harder to pinpoint the fact that you did or didn't check. That's what I am asking?

A. The clean out pipes in the sewer line leading from the main building down to the vicinity of the barns where we suspect the existing field system is located, those pipes were still there and still appear to be functioning. I did not conduct an inspection of the functionality of the system. Here again it's a moot point. It's going to be abandoned, back filled and new system installed.

MR. GARBER: The existing septic is going to be backfilled.

MR. SCHMIDT: I think he testified both the well and existing septic system that's existing are not going to be used, they are going to be discontinued and backfilled. That's why they are going to do a whole new well and septic system.

MR. GARBER: I didn't hear the backfilled

part before. I understood it was not going to be used. I just didn't know what was going to happen next as to the septic system as opposed the well was clear, the septic system, I didn't know.

MS. DOPKIN: Mr. Powell, does the County require that back filling?

THE WITNESS: For septic system and well, yes.

MS. DOPKIN: Thank you.

THE WITNESS: Septic system will be pumped out by a licensed scavenger or subject based hauler and collapsed and filled with cleaner. The well abandonment requires a licensed well driller to remove the cap. Under regulation they can fill the bore hole with rock dust to about 20 feet and the remainder of the backfill of the well casing itself is with cement grout. The pit is immaterial. The concern is the actual well bore hole that intersects the ground water. They want to make sure that it's an abandoned well but not backfilled providing the opportunity for contamination and the backfilling process eliminates

that concern, with respect to the septic system being backfilled.

MR. GARBER: Is there a period of time where that area cannot be used for any purpose, can't be used as part of the new septic field? Is it just to be abandoned and left alone for a period of time.

THE WITNESS: It would be abandoned and backfilled, depending on if they back filled with soil. Obviously, it will settle, but other than that, there's no restriction.

MR. GARBER: Is there a setback for septic field? How far a back from the existing house is it supposed to go?

THE WITNESS: Minimum requirement is 20 feet for septic area or septic component and a hundred feet from the well.

MS. DOPKIN: How far does the septic have to be from each other? Is that the hundred feet?

THE WITNESS: There is no requirement on the same property. It comes to best professional judgment. Obviously, if you are putting in a new

system you don't want to be immediately next to or adjacent to an existing system that's been backfilled. Other than that, I know of no requirement on the same property either in County or State codes

MR. GARBER: I this think Ms. Dopkin's question is the new septic field has to be at least a hundred feet from the new well.

THE WITNESS: Correct.

MS. DOPKIN: And do you know if it will be more than a hundred feet based on the rough areas?

THE WITNESS: It will be.

MS. DOPKIN: Based on where I believe the well is going to be drilled from what I have been told, it will probably be several hundred feet away if not more.

MS. DOPKIN: Do you know how far it will be from any well on any adjoining property?

THE WITNESS: Given that location according to this drawing, probably 400, 355 feet to be sure, probably closer to 400.

BY MR. HOLZER:

Q. Just the question. As a result of your answers dealing with the septic system and so forth and the water, did you advise your clients not to use the old system, either the old well or the old septic reserve area?

A. I have no recommendation one way or the other.

Q. Did you see when you were there the first time, the first site visit, did you see porta pottys on the property? Do you recall?

A. Not that I recall but I wasn't specifically looking for them.

Q. Well, porta pottys are the --

A. I understand what they look like, but I didn't look around all sides of the building to look for the john.

Q. Got you. And you were there to deal with the question of the well and the septic reserve system, right?

A. For the proposed development, yes.

Q. Exactly. So, okay. I have a picture here marked as Four for Identification for Protestants.

And your location of the septic reserve area, the proposed septic reserve area is in this area behind the --

MR. GARBER: One second, Mr. Holzer. People, please keep your voices down. I'm sorry for the interruption.

MR. HOLZER: Not a problem.

Q. Your testimony was that above the 6, 70-foot behind the building somewhere before the existing woods would be this area of the possible septic reserve area, is that right?

A. Approximately.

Q. I want to show you a picture of the one of the events that has occurred on the site. I see, you can look at it if you like, Exhibit 4 ID, you see cars parked on the grass in an area behind here's the existing facility. With the septic reserve area, would it be appropriate to be able to park vehicles on the grass and would that have any impact on the septic reserve area?

A. That's not the septic reserve area.

Q. I understand that isn't. I understand. That's why I explained to you there is the back of the building, there is the tree line, this is where the cars were parked on that particular day. My question is, assuming you find the proper location for septic reserve area, is it advisable or not advisable to allow parking on the grass on top of it?

A. That depends on the physical construction characteristics of the system components and the type of system.

Q. Well, 'splain.

A. 'Splain. If it's a standard deep in-ground system like a deep trench, we don't install dry walls. Baltimore County does not install dry wells or seepage pits any longer. It's deep trench systems.

Q. When you say deep trench, I have just gone through this on a piece of property, can you tell me what that means?

A. Deep trench is slot excavation in the ground two feet wide by a depth to be determined by the results of the soil tests. Perforated pipe is placed,

stone is placed in the trench up to within two feet of the ground surface, perforated pipe is placed on top of that stone, two inches of stone are placed on top of the pipe, geotextile fabric is placed on top of that and then the remaining 14 to 18 some inches is backfilled with clean earth. That replaced the seepage pits.

If there were to be parking over top of a system, you could engineer system components so that would not be an issue but it has to be known in advance. If the system design were a shallow pressure dosing system, shallow being defined as two feet deep, maybe 36 inches or sand mound, no parking would be allowed on top of the system because the soil has a tendency to compact the surface soil clay structure in the first one or two feet that would effect the functioning of the system.

MR. GARBER: If can stop there real quick. The answer is getting longer, getting more confused.

So, parking design can factor in a deep trench system, described as you did, two inches of

rock followed by perforated pipe, followed by more rock followed by geotextile fabric followed by soil on top.

THE WITNESS: Correct.

MR. GARBER: If it's not a deep trench system, you used another term to describe this.

THE WITNESS: Shallow pressured dosed or an above ground system.

MR. GARBER: I think we can figure out what a above ground system and I am sure we are not parking on top of the above ground.

THE WITNESS: Right.

MR. GARBER: So the shallow --

THE WITNESS: Pressure dosed.

MR. GARBER: How is that constructed?

THE WITNESS: Pressure dosed piping designed by consultant, which is what I do in my consulting work now. Piping sizes depending on the design range from an inch and a quarter to the inch and a half lateral Schedule 40 piping.

MR. GARBER: Is that PVC?

THE WITNESS: PVC, holes are drilled at specific intervals on the site. It's not standard pre-made three hole large perforated pipe that one normally sees during septic system installation. It's an engineered system, elevations are shot and pump requirements are ascertained. It's completely pressure dosed system that's a situation where you would not be allowed to park on it.

MR. GARBER: Do you have any idea which system would be used?

THE WITNESS: I doubt very seriously. I would say that 99 percent probability that these pre-engineered systems would not be necessary here. The soil, I expect to be deep and porous.

MR. GARBER: You expect a deep trench system?

THE WITNESS: Yes.

MR. GARBER: I'm sorry, Mr. Holzer.

MR. HOLZER: I would have the same question.

Q. Knowing that in an overflow parking situation,

because only 38 parking spaces are being provided for this site right here, right there, okay, 38, and if you have a hundred cars, they have to park somewhere, so why wouldn't you, as the expert, recommend that they go to the better facility or the one that you could park cars on top of?

MR. SCHMIDT: That's what he said. 99 percent sure it would be a deep trench system.

Q. The deep trench system, is that what you are saying, the one with gravel pipe gravel, that's what you would recommend?

A. Here again, the septic area we referred to, both you and I referred to, is 200 feet behind the dwelling. All this parking is in the front.

Q. I understand that. I said that to you before. I understand that. But there will be, above this area there will be grass planted, okay. And if it's grass, then you can have cars parked whether they are parked by the tennis court which is here or whether they are parked there, the point of the matter is the protection of the system would need to be the deeper

and better of the three that you have talked about?

A. When they file for building permit, the client will be required to provide where the overflow parking will be and the standard Baltimore County Department of Environment comments would be keep the parking out of the subject area if at all possible. If they can't, the system can be engineered and designed to accommodate that.

Q. Now, as the expert that's been retained to do this, I'm asking you directly, now that you have seen this photograph, now that you understand that vehicles are going to be parked somewhere on the grass, would you use that information to advise the County what should be required here?

MR. SCHMIDT: Do you understand the question?

THE WITNESS: I don't understand this question at all.

MR. GARBER: Please rephrase.

Q. You are the expert for the developer, right?

A. Correct.

Q. You have been retained to analyze all this, right?

A. I have been retained to perform the water Usage Summary Report which I have done and I offer advice and consult regarding the waste disposal system.

Q. Do you have any obligation ethically to advise Baltimore County that there may be mark parking on top of the septic area if it's grass?

A. That would violate client privilege, number one. If it were an issue, I would advise the client to do it. Nobody in their right mind is going to drive down the behind the building to park a couple hundred feet from the building and then walk up to use the facility. Let's honest here.

Q. I am being honest. That's an improper answer, because the question is do you or do you not have an ethical responsibility, former County employee, to advise the County Department of the Environment or whomever reviews this that you know that there is potential for car parking on top of the septic reserve

area?

MR. SCHMIDT: Objection. That's just an improper question asking this witness if he has ethical responsibility. What does that have to do with the special exception criteria?

MR. GARBER: I have to agree with Mr. Schmidt. I'll hear you out.

MR. HOLZER: I don't want to say anything other than to say it's okay to come in and preach, but if you are not going to require -- well, I'll tell you the answer, this Board can provide the requirement that that be analyzed by the County as a condition for approving this plan. That's the simple answer.

MR. GARBER: Well, I'm going to follow up on one point that you created. You would expect the Department of Environment would say keep the parking out of the septic area if at all possible.

THE WITNESS: If the parking being proposed was near the septic area, the Department of Environment would say, what are you planning to do for overflow or additional parking. At that time they

would require a fenced off area around the system so nobody could park on it, which has been done before by myself in other capacity in lives gone by, or they would say, if you are going to park over it, we want to see the engineered proposal to make sure the system can accommodate that.

MR. GARBER: Okay, so here I am trying to get to the phrase if at all possible, if there are other areas for parking, then you can possibly apparently avoid having to park on the septic area.

THE WITNESS: Correct.

MR. GARBER: Leaving aside the logistics that you just said, you are not going to park hundreds of feet away from the building facility, leaving that part aside, if it's anticipated any overflow parking to could go in that field, the County would require the engineered proposal to show the system would withstand that type of weight.

THE WITNESS: Correct.

MR. GARBER: Who does that engineered proposal?

THE WITNESS: Either the County or they would require the property owner to hire a consultant or engineer to engineer that proposal.

MR. GARBER: You could be that person.

THE WITNESS: I could be in a person.

MS. DOPKIN: Would civil engineers to that?

THE WITNESS: Normally not. I am not going to go into detail before the Board but there are ways to do it.

MR. HOLZER: Mr. Chairman, the actual reality is if no one tells the County that there may be parking on top of the septic reserve area or on the grass, if no one notifies them of that, then how are they even going to consider that anybody would be parking on the grass. That's something that occurs in this County daily. So, the only way that I can say, if the witness doesn't have the responsibility to tell them is that the Board has to indicate something in its decision, if you are going to approve this, that alerts the County because, frankly, I have been there, done that, seen this and I understand that if the

Board is concerned about that, and I suggest maybe you should be, then I think it's an obligation of the Board to make sure that it gets to the County reviewers, whoever they are. And the only way I see that can be done is if it's a condition if you are inclined to approve it.

THE WITNESS: Is there any obligation on the part of the Petitioner to notify the County of the potential of parking in the area that will contain the septic field once fully identified?

THE WITNESS: I would say yes.

MR. GARBER: Is that recorded on the document somewhere that is part of the permit application or how is that done?

THE WITNESS: That would be part of the site plan that would show the parking area and overflow parking or ancillary additional parking during higher usage events that what you normally would expect to experience during a weekday.

MR. GARBER: Is there a specific space in this project to avoid having parking in the potential

septic areas that you have identified for overflow parking?

THE WITNESS: I don't know that I am qualified to answer this. There is at least two or 300 feet behind the back of the building where the septic system will not be.

MR. SCHMIDT: Mr. Powell, in fact, on the photograph Mr. Holzer showed you, none of the cars were on the grass where the septic field is proposed?

MR. HOLZER: Objection. Objection.

MR. SCHMIDT: Following up on your question. I apologize.

MS. MURPHY: Aren't we still on your cross?

MR. HOLZER: Yes.

MR. SCHMIDT: I apologize.

MR. HOLZER: Is the Board finished your questions?

MR. GARBER: My question to you is how much longer do you think you will be with this witness or when do you think you will be wrapping up?

MR. HOLZER: I'll try and wrap up.

MR. GARBER: Just so we know how far we are going today.

MR. HOLZER: Half hour, 45 minutes.

MR. GARBER: Mr. Schmidt, he has half hour, 45 minutes more to go with this witness.

MR. SCHMIDT: Yes, sir.

MR. GARBER: I am assuming you will have redirect or something perhaps.

MR. SCHMIDT: Very little at this point.

MR. GARBER: Okay. So we are looking at somewhere between 45 minutes, maybe a little more. With that, so why don't we take a break at this time.

MR. HOLZER: Thank you.

MR. GARBER: We'll come back at 4:00 o'clock and we'll finish up with this witness. Thank you.

(A recess was taken from 3:52 PM to 4:03 PM.)

MR. GARBER: All right, everybody. We are going to get started to keep moving. I believe we were getting up close to wrapping up cross

examination.

MR. HOLZER: Yes.

Q. Mr. Powell, I'm looking at your Water Usage Summary and I just want to verify some things with you, so if you can take that out, Petitioner's Exhibit 21. Did your clients come to you before they acquired or purchased this property or after they had already purchased it?

A. I was contacted by Mr. Craig Rogers, who is a consultant for the clients. He asked me would I do the Water Summary Report. And the answer is that I was contacted I believe after they purchased.

Q. So you have already testified that the analysis or the language or the facts that you put in your Water Usage Summary basically came from your discussions with the applicants, is that right?

A. I prepared the initial report based on our discussions. I sent the narrative to Mr. Rogers and Mr. Shara whom I met on the property, and a Board member of Congregation and asked if this information was correct and I was told yes.

Q. I want to get through this quickly for everybody's benefit. In looking at the first page you described the facility, which I have no questions about, other than to say it's known as Bella Vista. Do you have any background on why this sight, whether it has any historical value or not?

A. I have no knowledge.

MR. SCHMIDT: Just objection. I am not calling him as, he's an environmentalist in terms of --

MR. HOLZER: I am asking questions of what he wrote, that's all. It's right there.

MR. GARBER: Okay.

Q. Under the words, the mansion, you have been told by the Congregation that you said or by the representatives that they have 800 to 900 members, correct? That's correct?

A. Which page are we talking about?

Q. Page one under the mansion.

MR. GARBER: Page two of the exhibit.

MR. HOLZER: Yes.

Q. On that same paragraph at the end, you said based on what you have been told, members of the Congregation coming to pray or worship will normally be there anywhere from 10 to 30 minutes. Is that correct? Do you recall them telling you that?

A. Yes, that's correct.

Q. Okay. You are also claiming in here it is anticipated that during the weekdays approximately 10 to 15 people will visit the site for worship, meditation and prayer. That's correct, that's what they told you?

A. Correct.

Q. During the weekend the number of those worshipping would increase to approximately 30 members, that's correct?

A. That's correct.

Q. That's what they told you. Now, going to the next paragraph under the mansion, it says, members may use the prayer room for a wedding ceremony and blessing by the priest, which may take up two hours but the celebration afterwards would take place at

another venue offsite. That's what they told you the use of the property would be?

A. Correct.

Q. And you included that, obviously, in this report. Now, they also said insofar as the tenant dwelling, did you actually go in there and determine there were three bedrooms?

A. Yes.

Q. And it is currently vacant?

A. Oh, yes.

Q. And because of how it looks inside, you could tell it's vacant?

A. It's been vandalized quite badly.

Q. Okay. And this, they are telling you that this building, tenant building, will be used for housing the priest and his wife, right?

A. Correct.

Q. It will not be rented out to any others, correct?

A. Correct.

Q. Yes. When it comes to other out buildings, it

says, no use is currently planned for this. And that's the barn. Do you know whether or not the barn is on some sort of historical or preservation?

A. I have no knowledge of that.

Q. You didn't, in your direction, your purpose, you are not concerned about historical stuff at all, were you?

A. That is not part of the contract with the clients.

Q. Right, okay.

A. That's not my area of expertise.

Q. Okay. They also said there is a swimming pool and a pool house, they are in poor condition and they are not to be used, is that correct?

A. That is correct.

Q. Okay. They told you when you talked about the outside grounds, which I think is important here, it says, there will be three or four outside festivals during any year, festivals to be held outside. Do you mean outside of the building, the main building?

A. Outside of the main building, yes.

Q. Generally in front of the mansion, correct?
A. Correct.
Q. That's what you were advised?
A. Correct.
Q. Okay. You were also advised that there will be no food preparation, warming or cleaning of dishes in the kitchen inside the mansion, is that right?
A. Yes.
Q. Okay. What if they propose to prepare food in the kitchen, would that go against what you were told by them as a condition?
MR. SCHMIDT: Objection.
MR. SCHMIDT: Mr. Holzer, what if this is wrong, then it would be wrong.
Q. I don't like that question. My question is are these limitations conditions or binding on your client in terms of the use of the kitchen?
A. They are not binding but use of the kitchen for serving or warming food would require review and approval by the Health Department who would then have to certify the facility as a food service facility

which then requires extensive renovation to the existing kitchen.

Q. Okay. Have they started renovating the kitchen, by the way?

A. The kitchen doesn't need renovating in my opinion. I was commenting to the young lady here that my wife would love that kitchen. That's why I don't dare bring her on the property, I'd be in deep trouble.

Q. I heard you say that, that's why I asked you the question.

MR. GARBER: You know are on the record twice here, right?

Q. No. So, really, my question to you is if you are presenting to this Board the fact under your summary that that's what you were told and then for them to come back and utilize the kitchen after the Board's made its decision one way or another, would that be fair to the Board from the standpoint of should they attach a condition to the approval that says you can't use the kitchen?

A. Well, I'm not going to tell the Board what they should do, number one.

Q. Good, okay.

A. Okay. Number two, if they were to change their mind and decide they are going to serve food there, that would instigate a review by the Department of Environment and Health Department in Baltimore County which would require additional review regarding flows, projected flows, et cetera, which could effect many things. But they have not done that.

Q. How would the County know, if no one, no neighbor is permitted on the property, they are using the kitchen and nobody reports it to the, nobody reports it to the County; how would this County know?

MR. SCHMIDT: Objection. I mean, these questions are so speculative, Mr. Garber. And Mr. Powell, how about if they put a MacDonald's restaurant behind the building but they don't allow the neighbors to come on the property, wouldn't that change things? That's the nature of these things. We are making a proposal without changing the building.

MR. GARBER: I would say to Mr. Holzer, yes, there's a possibility, put whatever conditions you want on the property, people may violate those conditions, it may never been known. It happens every day in every situation.

MR. HOLZER: Exactly.

MR. GARBER: So your point is should it be a condition or not. I don't know that this witness is going to be able to say in light of your questions whether or not it should be based on the fact that somebody could violate it or not violate it or whether or not it takes a binding representation or any of that other stuff. Those are matters probably toward the end of the case unless you want witnesses to present those points.

MR. HOLZER: I have examples when we present our case where the County has ignored the request. That's all I'll say.

MR. GARBER: You have said that in the past.

MR. HOLZER: Yes.

MR. GARBER: I am looking to forward to hearing your evidence.

MR. HOLZER: I am not sure you are.

MR. GARBER: So the objection is sustained.

BY MR. HOLZER:

Q. I'll go back. To the best of your knowledge, the client, your client has agreed not to have food preparation in the kitchen?

A. Correct.

Q. Otherwise, you would not have put it in your report?

A. Correct. I asked that question specifically.

Q. Okay. Good. You were given certain festivals, outside festivals. You list them here, Holi, H O L I, you have indicated that they suggested that the attendance would be between a hundred and 200 people, right?

A. That's what I was told.

Q. Summer festival is number two, a hundred and 200 people, correct?

A. Correct.

Q. Number three, D A S H I N I, biggest event in the year, mid October, ten day festival, last three days will increase the usage of the mansion by as many as 50 members, is that correct?

A. As many as 50 members coming for prayer or worship in the mansion.

Q. Yes, and last day brings approximately 200 people; you were told 200 people?

A. I was.

Q. The fourth one was Diwali, D I W A L I, I'm not going to ask you a question because that's fairly clear. As to what you were told under 2-B is, again, the mansion, all of the outdoor festivals will not entail usage of either the kitchen or food preparation or clean up, nor will the bathroom facilities, one and a half for the first floor, be used while attending the festival. That's what they told you to put in the report?

A. No, that's what they told my and I put it in the report.

Q. And you included in the report. They didn't

tell you to put it in the report?

A. I asked very specific questions, day by day operations, so I included all that in the report.

Q. Then you concluded what the highest usage is under small 1, 2 and 3?

A. Correct. That's the worst case scenario.

Q. That's the worst case scenario. Now, under six, little six, you added the qualifier, in consideration of the unforeseen possibility of additional meetings and/or staffing arising in the future, the Congregation is proposing or requesting that the design flow of the sewage flow system will be 700 GPD. That's what you were told.

A. That's correct, that was at my suggestion.

Q. That was at your suggestion. And what would be the design flow that would be below 700 GPD? Was there one?

MR. SCHMIDT: 699.

MR. GARBER: Let's keep to the questions and answers best as possible. So, your question is?

Q. The question was very straightforward from his

report. In consideration of the unforeseen possibility of additional meetings or staffing arising in the future, they are proposing the design flow be 700 GPW. So that implies to me as the reader there must have been some lesser design flow in the event that everything as you set forth in the prior page was not overstepped or not increased. You don't understand that question. I'll ask it --

A. My mother as a teacher would qualify it as a run on sentence. Can I say this?

MR. GARBER: Everyone, one at a time. I hear three people talking at once. You asked a question of the witness, you understand the question?

THE WITNESS: All right, let me try to answer it. You tell me if that's not correct. Subsection 5 under 2 says, MDE regulations and I quote, the regulation stipulates a minimal flow from non residential usage of 400 per day. That's the Code.

Q. Yes.

A. Everything below that is really a moot point.

If you exceed that then you have to design for the peak flow that exceeds that.

Q. Right.

A. So the minimum base design flow would be 400 gallons per day. I advised the Congregation if unforeseen circumstances start to happen where you have more meetings on the second floor, I'm talking about meetings, not social functions or parties, it would be advisable to increase the flow now so the system can accommodate it without having to worry about overtaxing the system five or 10 years down the line.

Q. That was really simple to answer, wasn't it?

A. I don't know we'll find out.

Q. So like I asked you, what you are saying is that the normal non residential growth requirement is 400, but you've upped it to 700 based upon things that are not foreseen or additional meetings or staffing. So, would that include growth of the Congregation from what was presented to you to a potential higher number?

A. Growth of the Congregation did not come into that decision, but growth of the Congregation, it would accommodate that considering the minimal usage that the facility will receive.

Q. Well, then what was it if it wasn't the growth of the Congregation, what was it that under your urging they moved it up to 700, what circumstances, what specifics?

A. Hiring additional staff, hiring maybe having additional meetings for the Congregation.

Q. Anything else?

A. To my knowledge, no. And there was nothing else other than what I have just stated that went into that consideration.

Q. Okay. We have already talked about the location of the septic system, so I'm not going to get into that or the age of it or what they desire. It a commitment of your client that you are representing to the County that the swimming pool will be abandoned?

MR. SCHMIDT: If you know, Mr. Powell.

A. I know they have told me that swimming pool

will not be used. That's all I have been told.

Q. That doesn't mean, it might not be used but is it going to be destroyed, leveled or filled in?

A. I have not received such information.

Q. Okay. We talked about the depth of the well and you don't know. When you met with the County and DEPS or Department of the Environment, Mr. Rogers okayed this report by phone?

A. I e-mailed the preliminary report to Mr. Shara and Mr. Rogers and Mr. Rogers I believe e-mailed me and/or called me and told me it was fine. I believe it was an e-mail.

Q. Okay. Okay. Did the County Department of the Environment Protection and Sustainability approve this?

A. I was told by Mr. Rogers it was approved by a telephone call two weeks after it was submitted.

Q. Do we have any documentation of that, and in DEPS who would have been approving it?

A. It would have been the supervisor of the well program and/or the manager of the groundwater. Not

the well program, the septic program. My bad.

Q. So, you really don't know whether it's true or not unless you believe Mr. Rogers, correct?

A. I've dealt with Mr. Rogers professionally for over 20 years. I have never known the man to lie to me, he's straightforward. I trust people who tell me the straight lines and don't BS me.

Q. That's great, I appreciate that.

A. I took his word for it. I believe I had a follow up conversation with the supervisor of the soil evaluation program on the job site. Her name is Mia Lowery, by the way. I verified with her that yes, it was approved.

Q. Mia Lowery?

A. Mia Lowery, L O W E R Y.

Q. She's with the department?

A. She has my old job, Environmental Department, soil evaluation inspection, supervisor.

Q. When you talked to her and confirmed it, did she indicate to you that there was documentation of the approval?

A. I did not ask, she did not say.

Q. Okay. So --

A. I would point out that Groundwater Management Section will not approve a soil percolation application on a non residential property until a water flow analysis has been submitted and approved. That is the checkpoint.

Q. Okay. So what you are saying is if I summoned Ms. Mia Lowery, your old position, if I summons her to come to this hearing, she will confirm that the County on such and such a date has approved the Water Usage Summary you have submitted?

A. Yes.

MR. HOLZER: Thank you. That's what we'll do. No further questions.

MR. GARBER: Mr. Schmidt.

REDIRECT EXAMINATION

BY MR. SCHMIDT:

Q. Mr. Powell, just a couple. I think you mentioned that the minimum distance between a well and a septic system, septic reserve area or sewage

disposal reserve area, I'll try using the right technology, on the property is 100 feet, is that correct?

A. Yes.

Q. Is that a State requirement or County requirements?

A. Both.

Q. Is there a similar requirement as it relates to the distance between a sewage reserve area or sewage disposal reserve area and an adjacent property or property line?

A. Ten feet.

Q. Okay. How about a well on another property line or another sewage disposal area on another property line, is there any such requirement?

A. Sewage disposal area on another property there's no requirement.

Q. So you can have two of them right next to each other on two properties potentially?

A. The well, minimum 100 feet, if it's directly, depending on the situation, if it's directly uphill

from an adjacent well, a greater distance might be required. But we are 300 feet, 355 feet from the nearest potential septic area on the site property line. That will not be an issue.

Q. You are not near an adjacent sewage disposal reserve areas, i.e., septic systems or wells on any of the adjacent properties?

A. That would be correct.

Q. Turning back to your report, your report had a number of comments about the festivals that occur, and I would point out there is a festival at this time which is why some of the ladies here are dressed as they are. But in any event, the numbers that you gave in terms of the 100, 200 people that might be there, is that for the entire festival or is that at any one time?

A. That is for any given, the peak day of the festival, as I was told from the summer festival is what we are talking about?

Q. Right, for example, 100, 200.

A. That would be the day of the festival?

Q. That would be the full day.

A. Right.

Q. There might be a hundred people, 200 people spread out over 10 hours, 12 hours, whatever, as opposed to at one time?

A. Yeah.

Q. Your report indicates that for those events, there would be porta-johnnies or porta-potties brought in, correct?

A. That's what I was told, yes.

Q. Turns to the last page of your report, I just want to make sure I understand it. This is the section you talked about in answering Mr. Holzer with the Roman numerals under subsection two, Roman numeral IV, this is on the last page, your maximum total flow generated by the facility as you computed it would be 360 gallons per day. Am I reading that correctly?

A. That's correct.

Q. And that's broken down between the wedding being there, the staff being there, and then there being a meeting there and that would generate

360 gallons per day?

A. Yes.

Q. Then under Roman numeral V, because this is a non residential, the COMAR, C O M A R, requires that the minimum being 400 gallons per day. So even though the projection was 360 per day based on the numbers of people, you actually had the minimum baseline under the COMAR requirement is 400 gallons per day, is that correct?

A. That's correct.

Q. Under you Roman numeral VI, as I read it, you essentially, basically, from the projected nearly doubled that to engineer it to be 700 gallons per day. Is that correct?

A. That is also correct.

Q. Okay. You haven't actually, I think you indicated, I'm not going to ask you about your personal habits, you didn't attempt to use either the toilet facilities or the spigots or sinks or anything in the dwelling?

A. No, I did not.

Q. Okay. You don't know if they are working or not?

A. I have no idea.

MR. SCHMIDT: Okay. I have no other questions of Mr. Powell.

MR. GARBER: Just to clarify a point here, if you look at the Roman numerals again under B-1 through 6, as I understand it, you have 300 gallons per day assigned for a wedding which would estimate a hundred people attending that wedding, correct, three gallons per person?

THE WITNESS: Yes, sir.

MR. GARBER: Okay. So, I'm just trying to figure out, if they are not going to be use the facilities, that's the understanding reflected within the Roman numerals, then we can go into that calculation, is that correct, the 300 down?

MR. SCHMIDT: Mr. Garber, I think they wouldn't be using the facilities for the festivals is what he's saying.

MR. GARBER: Well, I understand for the

wedding too, is that being accurate?

THE WITNESS: They may be using the facilities for wedding, and it was explained to me that only the family and immediate couple are there in the hall for the actual ceremony. There may be as much as a hundred people on the property.

MS. MURPHY: I'm sorry, one second. I can't hear because you keep talking. It's a mumbling sound. So can you repeat what you are saying?

THE WITNESS: You mean can I remember what I said.

MS. MURPHY: You are also being taped, everything you are saying right now can be recorded. So go ahead.

THE WITNESS: As it was explained to me, the wedding is only attended by the priest, the couple and immediate family. I was told there may be as much as a hundred people on the property, but not necessarily in the hall, I assumed to congratulate the couple when the ceremony is completed. If for no other reason, it's a two to three hour ceremony, long

time standing. But the worse case scenario they would have the opportunity to use the facility. That's why I included it. All of this I had put in there is worse case scenario, keeping in mind the State requires the system flows be calculated use peak flows, not the average normal flow, is probably 60 percent of that.

MR. GARBER: Okay. So I am just trying to get to how you came to the numbers. Going to the staff, 30 gallons per day is based on three staff members?

THE WITNESS: Two staff members, 15 gallons per person per day. MDE guidelines recommend, so I just went with that.

MR. GARBER: Trying to figure out why the staff would be at 15 gallons a day, meeting of the Board of Trustees, 10 people, that's three gallons per day.

THE WITNESS: Well, staff will be there during normal business hours I'm assuming from like 9:00 to 5:00 or 8:00 to 4:00, where a meeting, if it's

anymore than two hours meeting, it's too long.

MR. GARBER: It's because staff would be there longer during the course of the day as opposed to a meeting, wedding or whatever else brings people to the facility.

THE WITNESS: Correct.

MR. GARBER: Then 700 which was trying to accommodate an increase in meetings and an increase in staff, does it also accommodate an increase in maybe the number of attendees for a wedding.

THE WITNESS: It's a really nebulous figure, that's why I added extra to be on the safe side. I don't know if anybody goes to a wedding where somebody is at the church door counting, 100, you can't come in anymore.

MR. GARBER: I am curious how you came to 700 as that number as opposed to, for the sake of argument, 500.

THE WITNESS: Nothing magical. I just decided that that would probably be error on the side of caution.

MR. GARBER: With that in mind, Mr. Holzer, do you have any further questions?

MR. HOLZER: No.

MR. GARBER: Mr. Schmidt?

MR. SCHMIDT: No, we do not.

MR. GARBER: Board members?

MS. MURPHY: We have to analyze special exceptions. Do you have an opinion as to whether or not the new well and much septic will have any effect on the aqua streams.

THE WITNESS: No.

MR. GARBER: Any follow up?

MR. HOLZER: No.

MR. GARBER: I thank you, sir, for your time. Mr. Schmidt?

MR. SCHMIDT: I have no other witnesses for today. I did have two documents just because I wanted to put into evidence as they are related to the public domain and something earlier which was said. I'll give a copy to Mr. Holzer, I think he may have asked about these. But I have a copy of the shark fin

shaped property, just a copy of the deed by which the State Highway Administration acquired it in 2015. I have a copy of the deed, if I can enter that as the next exhibit. That's obviously from the Land Records of Baltimore County.

MR. GABER: 23.

MR. SCHMIDT: I also similarly have a copy of the printout from the State --

MR. GARBER: Sorry, Mr. Schmidt, you are saying.

MR. SCHMIDT: I have a copy of the printout from the State Department of Assessments and Taxation as it relates to the property and reflects the transfer as well. I'll mark them consecutively.

MR. GARBER: 23 and 24. By way of housekeeping to make sure this has been done. 21 and 22, Mr. Holzer, you didn't have objection to those?

MR. HOLZER: No.

MR. GARBER: 23 and 24 you have no objection.

MR. HOLZER: No.

MR. GARBER: 21 through 24 are admitted.

(Petitioner's Exhibit Numbers 21 through 24 were admitted into evidence.)

MR. SCHMIDT: I believe all exhibits One through 24 are admitted on my side. Mr. Holzer has some for identification only, but just to make sure that those are properly admitted. I believe that to be the case.

MR. GARBER: Mr. Holzer, that's your recollection too.

MR. HOLZER: Whatever he had said.

MR. GARBER: With that in mind.

MR. SCHMIDT: I don't have any other witnesses at this time. It may very well be the Petitioner's case. I do want to just reflect on what has occurred here today in case there is anybody I would bring. That's what I anticipated. I didn't bring any other witness. I did for example potentially have Mr. Rogers on call because I knew Mr. Powell was going to refer to his testimony, for

example. I don't know that I will bring him in. He may be rebuttal, if need be.

MR. GARBER: That leaves us in a bit of a pickle. If that's the end of your case today, we can start with Mr. Holzer's case today and maybe get one or two brief witnesses in. Are you done?

MR. SCHMIDT: If you want to do that, that's fine with me.

MR. GARBER: Mr. Holzer, do you think you can squeeze here today?

MR. HOLZER: I can present one witness who's related to the Kingsville Community Association position, would take about five minutes.

MR. GARBER: For purposes of the letter from earlier and whatnot?

MR. HOLZER: Yes.

MR. GARBER: Mr. Schmidt?

MR. BERNSTEIN: That's fine.

MR. GARBER: Well, then do I hear that you are closing your case out?

MR. SCHMIDT: Subject to --

MR. GARBER: Not including rebuttal.
MR. SCHMIDT: Yes.
MR. GARBER: So your direct case is done resting on your direct?
MR. SCHMIDT: Yes.
MR. GARBER: You want to be heard before you call a witness?
MR. HOLZER: I want to be sure it wouldn't be something carried over to the next day, the October date. But if he's finished --
MR. GARBER: That would be my concern here too.
MR. SCHMIDT: If you have a witness you want to bring in, that's fine.
MR. HOLZER: That's not the question. I have a witness I can put on. My question is I want to make sure that you are not reopening your case in October at the next hearing date.
MR. GARBER: On direct.
MR. HOLZER: On direct, right.
MR. GARBER: If you have reservation about

it, now would be the time to voice that.

MR. SCHMIDT: Well, I do have a reservation about it because I was trying to accommodate the Board and use all the time. Then I would ask we recess for the day, given the hour, and I'll close my case either at the beginning of the next hearing or not.

MR. GARBER: Mr. Holzer.

MR. HOLZER: That's acceptable to me.

MR. GARBER: That's where we are at. If there is any problem on the 11th, you will get notification of that. I anticipate knowing the answer to that is myself shortly. Otherwise, I'll see everyone on October 11th.

MR. HOLZER: Yes.

MR. SCHMIDT: Thank you.

MR. GARBER: Thank you.

(The proceedings were adjourned at 4:37 PM.)

CERTIFICATE OF NOTARY PUBLIC/REPORTER

STATE OF MARYLAND

HOWARD COUNTY, to wit:

I, Patricia A. Cirasole, a Notary Public in and for the State of Maryland, do hereby certify that the within-named witness personally appeared before me and, after having been duly sworn by me, was examined by counsel.

I further certify that I am not an employee of counsel nor related to counsel or the parties in any way and have no interest in the outcome of the proceeding.

I further certify that the reading and signing were specifically waived by counsel and the witness.

As witness my hand and Notarial Seal this 3 day of October, 2018.

Patricia A. Cirasole, Notary Public

My Commission expires June 14, 2021.

PROCEEDINGS

MR. GARBER: We are back here Day Three in the Nepali American Cultural Center case, 18-122-X. This is Day 3, Mr. Caloggero is still on the stand in the witness box. We are back in the Board of Appeals room today. I see that seating is supposed to be fine. There is no need to have people wait out in the hallway and rotate in. Obviously, much like I have said to begin each day, this is a courtroom, please make sure your phones are turned off or certainly silent. And please no comments or anything else, but the attorneys and the witness and the Board, of course, and Madam the Court Reporter, if you need anything as well.

And we are recording on Court Smart and court reporter today. Court Smart is on. I understand, Mr. Schmidt, the Court Reporter is here for your case. Now, Days 1 and 2 are universal. Day Three, you have a Court Reporter. Court Smart is on for the purposes of maybe jumping over to Mr. Holzer's case, so we have consistent day recorded.

MR. SCHMIDT: Yes, sir. For the record Lawrence E. Schmidt and Timothy Kotroco on behalf of the Nepali American Cultural Center of Baltimore. We have a Court Reporter today. We, I think, have gotten a transcript from the first day and I believe forwarded it to the Board. I don't believe the transcript from the second day is produced yet, but we'll get that to you as well as this one. And I think our next hearing date, Mr. Holzer and I can talk about arrangements for a Court Reporter then whether we need one.

MR. HOLZER: In October. That next hearing date is October 11th.

MR. GARBER: End of today, I am still waiting to find out what goes on during course of depositions in advance to see how necessary it is for my participation on that day, whether I can have someone cover for me. I anticipate I will have someone cover for me, but don't tell the other in attorneys in that case.

MR. HOLZER: Mr. Chairman, when I

introduced the Greater Kingsville Civic Association letter last time, it was not signed. I now have the signed copy. And I just talked to Mr. Schmidt, provided him a copy. Could I submit these to you now?

MR. GARBER: Sure. Are we doing this as a substitution or addition?

MR. HOLZER: Addition.

MR. GARBER: So, whatever Exhibit Number One was, the unsigned --

MR. HOLZER: Yes.

MR. GARBER: We are going to make this --

MR. HOLZER: A.

MR. GARBER: Exactly.

MR. HOLZER: Here's the original signed.

MS. MURPHY: I already have one. Thank you for handing, I think you handed it to us. This is what I have.

MR. GARBER: Yes, well, I'll introduce it. I will say I have not seen this.

Mr. Schmidt, you have no objection to this exhibit which is dated September 3, 2018. Dorothy

Foos, President of the Greater Kingsville Civic Association.

MR. SCHMIDT: Yes.

MR. HOLZER: I thought I did.

MR. SCHMIDT: Mr. Holzer did give me a copy, yes.

MR. GARBER: Also this is Exhibit 6.

(Petitioner's Exhibit Number 6 was marked.)

MR. GARBER: I believe you mentioned something about it last night, it was not handed forwarded. You did mention that.

MR. HOLZER: Yes, I did.

MR. GARBER: Just so you know you are not going crazy.

MR. HOLZER: Yes, sir. I am not sure of that all the time. Thank you, Members of the Board.

THE COURT: All right, so are we on cross examination now.

MR. SCHMIDT: I was still not finished with Mr. Caloggero. I had a little more with him.

MR. GARBER: I guess I was optimistic, okay.

CONTINUED DIRECT EXAMINATION

BY MR. SCHMIDT:

Q. Mr. Caloggero, not to be repetitive but so this some makes sense, I think the last portion of your testimony the last time we were here related to your examination of the sight distance issue when one would exit or enter the Nepali property, is that correct?

A. That is correct.

Q. And you had prepared four different exhibits which were labeled and were mounted on the board as 15-A, 15-B, 15-C, I'm sorry, 16-A and 16-B; 15-A&B and 16-A&B?

A. That's correct.

Q. 15-A&B, I think, depicted conditions with the existing entrance which goes out on to Harford Road from the property?

A. Correct.

Q. And then 16-A&B showed sight distances with a

potential alternative which would be the construction of a separate access point, is that correct?

A. That's correct plus some additional the measurements based on existing as well.

Q. Right. I'm just giving a broad brush of what this showed. I believe we indicated at the last hearing at least one of the photos on these exhibits, particularly 16-A&B, which goes those two exhibits have photographs on them was actually mislabeled and was not correct, is that right?

A. On 16-A, correct.

Q. Okay. I'm going to show you and I'll give to Mr. Holzer a couple of photographs. I understand these photographs you had taken some time ago depicting conditions at the site entrance, correct?

A. That is correct.

Q. Okay. And it was these photographs that were to be placed on your plan and were not; is that correct?

A. That is correct.

Q. So, I have given them collectively to

Mr. Holzer and the Board members. If you could just approach the plan and we can label those perhaps 17-ABC&D, Ms. Murphy, if that's okay, and please explain to the Board what those are showing and what is erroneous on 16-A, so the record is clear as to what you are in essence replacing?

A. So on Exhibit 16-A, the bottom right, we had a picture that was labeled winter photo without ground coverage in the Maryland State Highway Administration right of way, looking for proposed exit. It was brought to our attention that that was the existing exit. So what we did or what I did was I had photos taken, I believe the dates were, they are not labeled here, from July 16th and 17. So, I wanted to introduce these as ABC&D.

So, the first two photos were taken from the 16th at the existing access.

MR. GARBER: So, 17-A&B being July 16th?

THE WITNESS: Yes. 17 A and B.

MR. GARBER: July 16th at the existing access.

THE WITNESS: I believe that was the correct date. We were at a field meeting and during the field meeting I took these pictures. And then while driving home from a different meeting, I take this route occasionally home, I noticed there was some removal of the brush or weeds. And so I stopped and took a picture of the existing access. And then the last picture, which is 17-D, is a picture of what is labeled as, I guess, an alternative access, the one that's shown on the plans of the approximate area looking northbound. So this last picture should technically replace the one.

MR. GARBER: On 16-A.

THE WITNESS: On 16-A as, you know, a potential view or the view from leaving the site at the alternative access.

MR. SCHMIDT: Thank you, Mr. Caloggero. I would offer those as Exhibit 17 A through D with the witness' explanation.

MR. GARBER: Mr. Holzer.

MR. HOLZER: No objection.

MR. GARBER: Admitted.

(Petitioner's Exhibit Numbers 17-A through D were marked.)

Q. Mr. Caloggero, just a couple of other things and other exhibits. You have referred to the State Highway Administration right of way that adjoins Harford Road in this area, correct?

A. Correct.

Q. But insofar as the State Highway ownership of property, I'm going to show you an exhibit, let me get the colorized one for Ms. Murphy, I think it was taken off of the County GIS system, which we referred to. I'd mark that as Exhibit 18. That depicts the ownership of the property that's outlined in blue, is that correct?

A. Yes.

Q. Okay. And that's the property, is it not, Mr. Caloggero, that's immediately adjacent to the intersection of Harford Road and Bonapart on what would be the northeast side of that intersection, correct?

A. Correct.

Q. Okay, and that property is actually owned by the Maryland State Highway Administration, correct?

A. Yes.

MR. GARBER: So, in our exhibits we have color for some of us, Ms. Murphy does, she has the color copy, which parts are we talking about on this exhibit? I mean, I can identify it visually, but for the record can you please describe where it is on Exhibit 18?

THE WITNESS: Sure. The property in question is in the northeast quadrant of the intersection of Harford Road and Bonapart Avenue described as 1.77 acres and it's basically triangular.

MR. GARBER: I was going to say, it looks like a shark fin almost. I'll say that, a shark fin.

THE WITNESS: Upside down shark fin.

MR. GARBER: Right. Okay. You may proceed.

Q. You indicated the State Highway obviously could clear the brush and trees when you had your

sight distance testimony?

A. Yes.

MR. SCHMIDT: Exhibit 18.

MR. GARBER: Mr. Holzer.

MR. HOLZER: I just wanted to make sure. Could I see the color?

MR. SCHMIDT: Sorry, I didn't have enough copies of it. It's the triangular.

MR. HOLZER: The shark fin did it.

MS. MURPHY: No objection.

MR. GARBER: No objection.

(Petitioner's Exhibit Number 18 was marked.)

MR. SCHMIDT: Mr. Garber and members of the Board, I know you get the file in this case that comes up from the Administrative Law Judge and that generally the Board in evaluating the case considers that the record of the case and exhibits and information in that part is part of the record of this case is the way I understand it.

MR. GARBER: I mean it's de novo, right?

MR. SCHMIDT: It is.

MR. GARBER: I wouldn't necessarily make that assumption. It's in the case file. If you think it needs to be evidence in this case, you probably need to do something about that.

MR. SCHMIDT: Then I am going to.

MR. GARBER: You all agree with that?

MS. MURPHY: Yes.

MR. GARBER: Unanimous on that.

MR. SCHMIDT: Let me go off the record.

(An off the record discussion took place.)

MR. SCHMIDT: On the record again.

MR. GARBER: When you say off the record, understand maybe you want your Court Reporter to be on the record because maybe it's not necessary. We are also doing Court Smart. So keep in mind, when you say off the record, is it something directed to the Court Reporter or the entire case?

MR. SCHMIDT: For the entire case when I say that.

MR. GARBER: I just want to make sure

that's clear.

MR. SCHMIDT: Yes. Back on the record.

MR. GARBER: This is Exhibit 3 below.

MR. SCHMIDT: Yes. And it's actually I believe two similarly looking exhibits, Mr. Garber, with a series of photographs and sort of a key to the photograph. I believe they are in the Board's file.

MR. GARBER: Like I said, I saw Exhibit 3 that looks just like that; you say there are other photos with it?

MR. SCHMIDT: Yes, I believe so. I'll have Mr. Caloggero identify them. So, it's Exhibit 3 and 10, I believe.

MR. GARBER: There is an Exhibit 11 that resembles it.

MR. SCHMIDT: I am going to put these in as a separate exhibit here.

MR. GARBER: Three.

MR. HOLZER: 10 and 11.

MR. GARBER: Mr. Holzer, if need be, you needed to take a look at the file to help with that,

we can arrange that during the break.

MR. GARBER: In this document I have nine photographs.

MR. SCHMIDT: In the one being handed forward. I guess we'll get an explanation from Mr. Schmidt.

MR. SCHMIDT: Yes. Let me offer this, Mr. Holzer, and I'll give it to Ms. Murphy, give a copy to Mr. Caloggero. Ms. Murphy, I will give you another one when Mr. Caloggero finishes with this.

MR. GARBER: I am going to object to Mr. Caloggero testifying about these unless he was the one that introduced them blow. It may well have been another witness below that introduced these, not him. I don't know because I wasn't there. But I want to make sure when he's looking at these, he's in the proper position to be able to affirm all these pictures.

MR. GARBER: Leaving aside the front page, someone can authenticate the other pictures other than the one who took the photos.

MR. HOLZER: That's right, he was the one who testified or introduced them or not. That's the key.

MR. GARBER: Mr. Schmidt.

MR. SCHMIDT: I'll certainly ask Mr. Caloggero, I was also not there below.

MR. HOLZER: Right.

MR. SCHMIDT: Mr. Kotroco told me he believed Mr. Caloggero introduced these, but if not, I believe he has knowledge of the area and can testify about them and I'll establish that in my examination.

MR. GARBER: So, we are not worry about admissibility at the moment recognizing of course when it's revisited, you may have another argument.

MR. SCHMIDT: Mr. Caloggero, obviously, have testified you have been out to this site in this area on numerous occasions.

MR. GARBER: Objection, testified he's been out there twice.

MR. SCHMIDT: How many times have you driven up and down this road in the course of your

lifetime, Mr. Caloggero?

THE WITNESS: I have been south here numerous many times, visited the site numerous times.

MR. HOLZER: I'll ask you that when I get a chance.

MR. SCHMIDT: Mr. Caloggero, this exhibit which I am going to refer to I believe as Exhibit 19 although I haven't introduced it.

MR. GARBER: For identification purposes only it's Exhibit 19.

Q. If you could tell us, Mr. Caloggero, generally, the first page that appears to be labeled Baltimore County, my neighborhood, which is the county GIS, that indeed is where that is from.

A. Yes, that's my understanding.

Q. And what is that showing if I can ask you in relationship to the photos that follow?

A. This is showing just a plain base map of Harford Road and the surrounding Nepali property and there is labels on here which my understanding relates to the numbers on the first sheet relates to the

pictures and the direction that the pictures were taken.

MR. HOLZER: No, I am going to object to this because, obviously, he's just saying something he didn't do.

MR. GARBER: Once again, I am going to sustain the objection. I believe there should be a foundational question as to what the numbers, let me back up. The unannotated version he can testify to. He recognizes that as a county GIS printout. As to the labelling, that is a question for Mr. Holzer, I will sustain. Mr. Schmidt you can ask a question which perhaps resolves the issue.

Q. Mr. Caloggero, let me draw your attention, if I can, let me do it this way, to the second page of the exhibit. Can you identify based on your experience and knowledge of this road system what that photograph is depicting if you know.

A. Yes, I don't have a wonderful colored picture, but it looks like it's northbound Harford Road to south of Napali temple property. It looks as if the

house or temple can be seen from the roadway on the top of the hill.

Q. Okay. If I could ask you, Mr. Caloggero, can you turn to the first page of the exhibit, is there any relationship between the numeral one in the lower left hand corner in terms of its location on Harford Road, if you know, and the location from where this photograph was taken?

A. Yes, that would be the approximate location of the photograph.

Q. Does this photograph fairly and accurately, based on your knowledge of the roads conditions, depict what one would see as location number one as depicted in photograph number one?

A. Yes.

Q. Is that accurate to the best of your knowledge?

A. Yes.

Q. Do you know if you took these pictures?

A. I do not believe I took these pictures.

Q. Let me turn if I can to number two. What I

would like to ask you, Mr. Caloggero, again, is that, if you could testify if you are aware and if you know where on Harford Road would that photograph have been taken based on your knowledge and your site visits to the property and to the neighborhood?

A. Yes. This picture number two is in the area that is shown on the first page of picture number two. It is just south of the first right hand turn before the entrance.

Q. And there is a sign in picture number two, is there not?

A. Yes.

Q. And could you tell us the nature of the sign and what it's disclosing?

A. Yes, I have testified to the signs before. This is the reverse turn side with the revisory speed of 30 miles per hour and below that is the notification that there is a street that should be within the curve itself or the turn itself of Bonapart Avenue.

Q. What is a reverse turn sign or reverse turn

when you use that, what does that mean?

A. The reverse turn means 90-degree turn signs which the state highway recommends turns that are taken at 30 miles an hour. Again, that's what the 30 miles per hour speed plate is underneath that sign and it tells the drivers ahead to be expecting a turn to the right and a turn to the left.

Q. Let me go on to photograph number three, if we can go through the same exercise, can you tell us where that was taken, if you know, and remark on any features shown on the photograph, particularly the signage?

A. These are traffic of chevrons. These are just a little bit further north than taken in number two. C, the chevrons from picture two as you approach the curve and three shows the chevrons as well. Three is taken after 2 and 4 is after the first right hand turn before the access. This picture shows the guard rail and two chevrons which assist the driver in making the turn to the right.

Q. There is what appears to be a storm drain in

the road in the lower right of the photograph?

A. That's correct.

Q. When does the State Highway Administration use these chevrons as opposed to other signage? Is there any particular criteria from a traffic engineering standpoint?

A. They would particularly use these signs in conjunction with sharp turns, use these again to assist the driver in making the right hand turn.

Q. Okay.

A. Usually, a lot of times, I don't want to say all the time, they are accompanied by the warning sign and the chevrons.

Q. The warning sign in that case is the reverse turn sign?

A. Right.

Q. If I can, Mr. Caloggero, just to move this along, if you could go through the remaining photographs as well and just comment on their location and any remarkable features of the photograph or anything that relates particularly to the sight

distance?

A. Exhibit 4 is still traveling northbound where the driver would have completed the first turn and facing or approaches the access as well as Bonapart Avenue. Five is a little bit further and, again, it faces northbound, again, the access is to the right of Bonapart Avenue is to the left. At this point you can start to see the reverse turn heading to the north.

Q. Would that be where the chevrons are to the left of the photographs?

A. Correct. In this picture you can start to see the two chevrons located in this picture.

Q. Number six, although dark, it looks like it's taken from Harford Road looking up the driveway?

MR. GARBER: The property at issue that driveway?

THE WITNESS: Going into the property. Seven is a continuation of the driveway. Eight looks like a continuation of the driveway and nine is a continuation of the driveway facing the temple or looking at the temple.

MR. GARBER: Is that it for Exhibit 19 then?

MR. SCHMIDT: It is.

MR. GARBER: Mr. Holzer.

MR. HOLZER: I object on the basis you already heard. It wasn't his introduction. He's reading someone else documentation. Even if he is familiar with driving up and down the road, I don't think it's appropriate for him to introduce something below that he did not create or was not part of the his presentation.

MR. GARBER: Mr. Caloggero, if you look through Exhibit 19, you went through to it's 1 through 9, you did not put the numbers on the first page of Exhibit 19.

THE WITNESS: That's correct.

MR. GARBER: After viewing the photos you agree it's generally correct. If you would label it you would label it approximately the same location in the photo.

THE WITNESS: Now, photo 7 and 8 to be fair

I am not assure percent sure because I'm not visualizing any features that I recognize first off the bat, but the other ones that you recognize.

MR. GARBER: With that in mind, we'll admit the photos in Exhibit 19. As to the GIS printout, the first page, it is I think helpful to the Board to know where the photos came from, at least the ones on the approach, certainly, the ones into the site. We've already had other photos that came in that they actually look, if not the same, to be substantially similar. So, for that record I think we'll admit it understanding, of course, the limitations on the first page. It's only an estimate and his reasonable agreement with it based on the photographs.

MR. SCHMIDT: Thank you. And I'll give Ms. Murphy the 4th copy of that.

MR. SCHMIDT: Again these photographs show what they show. We are in an administrative hearing.

(Petitioner's Exhibit Number 19 was admitted.)

MR. GARBER: As I understand the purpose of

Exhibit 19 is also to show the road signs on the approach L. There's been much testimony and also the maps and other exhibits relating to it.

BY MR. SCHMIDT:

Q. Thank you. What I would ask Ms. Murphy to mark as Petitioner's Exhibit 20, Mr. Caloggero, is the same drill. And again, the purpose of these, Mr. Caloggero, not to belabor the point, because we have had other photographs submitted, but your testimony has talked about road signage and the different in road signage based on the nature and the character of the road. I would ask you to comment, if you will, on the nature of these photographs which are marked in Exhibit 20 as numbers 10 through 15.

A. You want me to go through them one by one again?

Q. Yes, sir, if you will. To be fair, you did not prepare this exhibit either.

A. No.

MR. GARBER: Mr. Holzer, you have a copy?

MR. HOLZER: Yes, sir, I do.

A. Number ten is a picture leaving the site approaching the existing access point towards Harford Road.

Number 11 looks like it was taken on the left side of the access of the median points of the access, taken from the left side looking northbound, where we can see the three chevrons and further up, further north on the road, there is another warning sign.

Picture 12 looks like it was taken in the same location of picture 11 and that was looking towards the left or towards the south showing two chevrons and another warning sign directing traffic towards the left.

Q. Is there anything, I also understand there is a difference between the chevrons and the arrows, but is there any distinction from a traffic engineering standpoint as to why the state highway would put chevrons as opposed to an arrow?

A. Chevrons help define the actual curve itself. I believe the other pictures, if saying to turn, to

really turn if you haven't yet. That's actually, it looks like the picture right at the corner itself. So there, as you can see on 13 and from my recollection from years and years ago from working with the State Highway Administration, I believe this is the proper way the turn is marked with the chevrons and then you can have the arrow signs.

So, 13 again is in the southbound direction just south of the site access on Bonapart Avenue. Showing two chevrons, the arrow sign to the left and the third chevron.

Picture 14 is, again, southbound Harford Road, but now we are located north of the site access on Bonapart. This shows the three chevrons directing traffic towards the right.

And 15 is just a little bit further south of that picture and it's just, again, north of Bonapart Avenue in the southbound direction, you can see one chevron, it actually shows a light post here. There's an arrow pointing towards the street light.

Q. Mr. Caloggero, in Exhibit 10 I think there was

a question about this at a prior hearing date which shows the driveway and the landscaped island that's in the middle of the driveway.

A. Yes.

Q. If this was retained as shown on Exhibits 15-A and 15-B, can you describe where people would enter the property and where people would leave the property in relationship to the landscape island?

A. On picture ten facing the access point, facing Harford Road, traffic would exit towards the right and would enter to the left, and as necessary paving markings could be installed to help drivers with this maneuver coming down the hill and we can also add additional signs.

MR. GARBER: That's use of the existing?

MR. SCHMIDT: Yes, that's shown on 15-A and 15-B in terms of sight distances. I would offer that as Exhibit 20.

MR. HOLZER: Same objection.

MR. GARBER: Same basis, it will be overruled understanding, of course, whatever

limitations there may be, you can ask in cross examination.

MR. HOLZER: I'm sure I'll be given plenty of latitude.

MR. GARBER: And the Board sees it for what it is. Thank you.

(Petitioner's Exhibit Number 20 was admitted.)

Q. These road conditions, I think you testified, Mr. Caloggero, just to make sure, these road conditions limit the speed in proximity of the entrance to the Nepali property, do they not?

A. They do, yes.

Q. I think you testified last time that you believe the safe speed in terms of these turns both north and south of the site would be 30 miles an hour?

A. Not only do I believe that, but there is the opinion of the Maryland State Highway Administration based on their signage and their warnings signs that they have posted. So, I'm just agreeing with what the State Highway Administration has posted and installed

on this part of the road.

Q. Harford Road is a state highway, correct?

A. Correct.

Q. And who has jurisdiction over a state highway, what agency?

A. The Maryland State Highway agency.

Q. What means of approval in terms of the access would be required here, if any?

A. We would have to work with District Four, whose in charge of Baltimore and Harford County and their Access Management Division, go through the access permits, approval process and the State Highway Administration at that level would approve any access and improvements necessary.

Q. Now, including whether it would be the alternatives shown on your Exhibits 15 or 16 with the existing means of access or the proposed changes you described last time?

A. That's correct.

MR. SCHMIDT: Okay. I have no other questions of Mr. Caloggero.

MR. GARBER: Mr. Holzer, when you are ready.

MR. HOLZER: Thank you.

CROSS EXAMINATION

BY MR. HOLZER:

Q. If I may come over and with Exhibits Numbers 19 and 20, the photographs you just described, do you have them in front of you?

A. Yes, these.

MR. SCHMIDT: Ms. Murphy, do you have all the copies you need?

MS. MURPHY: I just need 20.

THE WITNESS: Are they color? I didn't know what quality.

MR. GARBER: Same quality as the ones I have been reviewing.

MR. HOLZER: I'll get you a copy.

MR. GARBER: Like when movies were first being colorized, skin shouldn't be blue like that. That's how it's supposed to look.

Q. Let's take picture number one, okay, and that

was Number 19. Do you know where, exactly where this picture was taken?

A. Exactly to the point, no, I do not.

Q. If I were to tell you it was taken from Sharon Drive, would you -- Well, let me back up, before I put you on the spot, do you use Harford Road to get to your home?

A. Occasionally, yes.

Q. Where do you live?

A. Forest Hill, Harford County.

Q. So, occasionally, you would use Harford Road. How many times a week would you use Harford Road?

A. I used it this morning. Per week or?

Q. Per week.

A. Maybe once a week or a couple times a month.

Q. Driving south or driving north?

A. Yes.

Q. Which way?

A. Yes.

Q. Both ways?

A. Yes.

Q. Okay. So when you testified about the highway sign going north and south, you opined that you would be afraid to go the posted speed limit and you would slow down in your direct testimony the other day?

A. Could you repeat the question?

Q. The other day, second day, when you testified, you opined that even though the posted speed limit going south and going north, you would slow down more because you didn't think you could take it at this posted speed limit, take the turn?

A. That's correct.

Q. Okay. So that is based upon your subjective analysis of having utilized the road both once a week going north and south, right? I mean you are experienced, so you feel safe in reducing your speed below the posted speed limit?

A. It's also based on my review of the site in this part of the case.

Q. Sure. Now when, have you ever seen in your trip once a week for how many weeks, how many years?

A. I have been up there 20 years.

Q. Twenty years. Okay. Have you ever seen anybody, while you are using the road, take that turn too fast?

A. Define too fast.

Q. The posted speed limit.

A. I would not have any recollection of how fast someone drives on that road making those turns.

Q. Okay. Suppose, well, let me ask you this. Since your testimony was subjective in terms that you would slow down and not go the posted speed limit, what about someone from New York trying to get to the site for the first time, would they rely on the posted speed limit or would they slam on their brakes because they didn't know what was coming?

A. Well, as a driver of the road, they are supposed to follow all necessary warning signs and there are warning signs located north and south of the site telling them what to watch out for. So as a driver, this is what you are supposed to do.

Q. That's what you are supposed to do, but as a traffic expert you know people speed all the time on

the beltway, on the back roads, in Towson, 30 miles an hour, isn't that true that public doesn't necessary always comply with the posted speed limit?

A. Always?

Q. No, I said does not always follow the posted speed limit.

A. Of course.

Q. Let's get back. So don't you agree then that your opinion really was a subjective one based on your personal experience?

A. It's also based on the Maryland State Highway's opinion on how the road should be driven.

Q. You think that they should reduce the speed limit and be posted less than what it is?

A. That's not my call.

Q. Since we are being subjective about your opinion, if you had the State Highway position, would you have a reduction of the posted speed limit?

A. You typically do not on these types of roads do not reduce speed limits for this short section of the road typically. What you would do is you is sign

it properly, that's why it's called advisory speed to tell the people the safe speed to take these turns.

Q. But again, it's advisory. Do people always take the State Highway advice as to the speed limit? You have already answered no, right?

A. Correct.

Q. Let's go back to photo Number One?

MR. GARBER: In Exhibit 19?

Q. Yes. Where I was diverted from. Do you know whether or not this picture was taken from Sharon Drive?

A. I do not.

Q. Okay. So if someone were to later testify that that photo was not taken from where you proposed, would you be upset?

A. I don't know what difference it makes. It's just a picture looking north bound in a general direction from along Harford Road.

Q. I appreciate your bringing that up. This is a photograph, you have testified it shows the mansion at the top of the hill, right?

A. Yes.

Q. There was a witness who testified before you that said you couldn't see the mansion from Harford Road.

MR. SCHMIDT: Objection, that's not what the witness said.

MR. HOLZER: We'll check the record.

MR. GARBER: I have recollection that there were spots where it could be glimpsed but generally that it could not be seen. Something along those lines, that's my recollection.

MR. HOLZER: Thank you.

Q. Let me go to photograph Number Two in that same exhibit where you talked about the reverse --

(Mr. Schmidt sneezed several times.)

MR. SCHMIDT: Excuse me.

MR. HOLZER: Bless you.

MR. SCHMIDT: I am allergic to your question, excuse me.

MR. GARBER: Everyone ready?

MR. SCHMIDT: Yes, I'm okay now.

Q. Number two, this says a reverse turn sign is cautionary, it's not a requirement. If a police officer was sitting there, they wouldn't be cited if they went faster than that, right?

A. That's correct.

Q. Okay. So someone who is used to this road may well be going 35 or 40 miles an hour going north, correct, and not violate the law?

A. Oh, not violate, correct.

Q. Have you ever gone over 40 miles an hour?

A. In my life, yes.

Q. In your life, yes. Thank you for answering that truthfully. The reality is most people --

A. I didn't say here though.

Q. I'm sorry?

A. I didn't say here. I can't testify to what I drove here. I am simply watching the road and obeying the signs.

Q. I understand because I went up there for the very first time and I was scared to death of this turn. Interestingly enough though, it alerts you as

to Bonapart Street coming in from the left, right, comes in from the left further up the road?

A. It does come in from the left. The picture is somewhat blurry, I can't tell if there is a slit there.

Q. No, but I think it shows you Bonapart doesn't come in from the right, it comes in from the left.

A. Correct. And a lot of times with these signs they will add a little black line showing where the streets are.

Q. I think there is a little black line if you look to the left of it.

A. My picture is blurry.

Q. Okay. So it does not warn you of the entrance to this site, does it?

A. No, that's correct.

Q. Yes, it just tells you Bonapart is coming in from the left. So, if I was driving up Harford Road for the first time, I know now I'm supposed to go down to the 30 and I know now that there is a road coming in from the left when I get further up around the

turn, right?

A. Correct.

Q. I don't know anything about the entrance way to this site?

A. Correct. That could also be part of the Maryland State Highway Administration recommendation in the area.

Q. I'm sure they are going to have some recommendations. Let's go to Number Three, merely, I didn't know for my life and I have been driving forever it seems, I didn't know they were called chevrons; I just thought they were arrow signs?

A. Okay.

Q. Okay. So an arrow sign tells us now the road is going to the right?

A. Right.

Q. Then we get to Number Four. This is the first photograph in this package that shows you all of a sudden there is an entrance coming in off the right, right?

A. Correct.

Q. And that's the entrance to the site? And then when you get up a little closer --

MR. GARBER: Is that a question?

MR. HOLZER: Yes, he answered.

MR. GARBER: I didn't hear the answer. Is that the entrance to the site?

THE WITNESS: That is the entrance to the site, yes.

Q. And then Five shows the entrance to the site. And then Six and so forth are really just what the property looks like, right?

A. Correct and --

Q. Okay. I don't want to miss anything here.

MR. GARBER: You were saying something, sir?

THE WITNESS: I was going to mention, you know, this used to be a single family home, and a lot of times the Maryland State Highway Administration won't mark on those types of signs a line signifying a street when it's a single family home. As you keep going northbound there's also other driveways coming

on to Harford Road that are not signified by any of these signs.

MR. GARBER: By use of the word "this project", you are referring to the house on the site at issue?

THE WITNESS: Correct.

MR. GARBER: I use that for distinction because Photographs Five through on sometimes have a single family house or structure and that's not what you are referring to.

THE WITNESS: Right.

Q. So, from the State Highway standpoint and traffic engineering standpoint, what was okay for a single family home in this particular area of Baltimore County was this entranceway satisfied that, any concerns that the State Highway Administration had, right?

A. I can't answer for the State Highway Administration.

Q. Well, from your standpoint, these people, the property has been used in a single family home for

years and years and years and years?

A. Correct.

Q. So now all of a sudden, what is your client's use of the property classified by the State Highway? Commercial, is it not?

A. I don't know how they are classifying this property.

Q. What do you he mean you don't know?

A. I don't know how the State Highway Administration is classifying this property. You asked me what the Maryland State Highway Administration would do. I am not Maryland State Highway Administration.

Q. So, if you don't know, then why are they putting your clients through this extensive analysis of what is safe, because for 40, 50, 60 years, it wasn't even worth or bothersome to the Highway Administration. Now they are talking about having to give you an access permit, am I right?

A. In my opinion when use of a property is changed and increase in use has changed, the Maryland

State Highway Administration has every right to request an access permit and review the site based on that increase.

Q. Exactly.

A. Right.

Q. So now, it's become a commercial, if you are not able to say it, maybe we'll get it somewhere else, now it's a commercial access and they treat that differently than a single family private owner?

A. I would not call this a commercial access but would call it more than residential. Typically, in ITE, we would identify this as it would be potentially a church, a religious institution but not a commercial access.

Q. They are not putting WalMart in the there but that's not the point. Commercial has a different classification or distinction from a single family home on the State Highway analysis?

A. Again, I wouldn't consider this commercial.

MR. GARBER: Let me jump in here. Just so I understood your testimony, there are different

classifications for State Highway Administration, residential use, commercial use and institutional use?

THE WITNESS: When you are developing trips and such, you base it on the use of the site and this instance, in my opinion, it would be a church or institutional type of use.

MR. GARBER: Do you know if SHA distinguishes between commercial and institutional use?

THE WITNESS: Yes, they have been asking questions about what is the use of this property.

MR. HOLZER: We'll get to that.

MR. GARBER: Okay.

Q. Now, let's look at Exhibit 20. Again, as you have acknowledged, this was not created by you?

A. Yes.

Q. Okay. And you didn't put these red numbers on it from 13 or from 10 to 15.

A. That's correct.

Q. You didn't do that?

A. I did not.

Q. So looking at Number Ten, picture Number Ten, currently, today, did potential use of this access shown here does not prohibit using the left exit point or entrance point from a car exiting on the left side of the circle and making a left turn and going south?

A. Correct, it is not physically prohibited.

Q. Right. And when you, where is the first one? You said under here where, I don't want to make you get up.

A. That's all right.

Q. The first one where you did the sight distance?

MR. GARBER: You want to use the binder clips to help use it to scroll.

MR. HOLZER: I'm going to let the experts handle it.

MR. GARBER: Let the tall people do it, relative to me.

MR. HOLZER: Let's put this one down here. It makes it much easier.

MR. GARBER: Mr. Holzer, make sure you turn

towards me.

MR. HOLZER: I will. I have never been accused of anybody not being able to hear me.

Q. Petitioner's Exhibits Number 15 was the first exhibit that you showed us the other day when we had the hearing. And you measured the sight distance from the right hand side of the circle to the location of 365 feet, right?

A. Correct.

Q. Okay. Now, if there is no prohibition now while the property is being used, okay, if you located this same car on the left side, which I just showed you on this picture Number Ten, you would have less than 365 feet of sight distance, right? Am I correct?

A. If I located the car to the left of the median.

Q. Yes.

A. So what you are saying would be correct.

Q. Right where the B is, if that B were turned into a vehicle and you measured that to the 365, what would we end up? Can we do it. Could you do it now?

A. I could, but that's not how you are supposed to drive the road.

Q. I understand that's not how you are supposed to drive the road, but that's how people exit, we have evidence from people we'll show. Measure from B to 365. What does that amount to in terms of the sight distance?

A. Actually, I don't know if I can physically measure because, and let me say why.

Q. Do you need a ruler?

A. No, but let me explain. Because A is a location where you come out. I understand if people are driving it incorrectly, then we need to do a better job to make sure they drive at the correct point.

I did not come out here to visually check the actual sight line to see if there is any other obstructions with this curb in the location of approximate stop to be able to see that far. So, just to be fair, I didn't go out there and make the measurements that you wanted me to do one of two of

these dimensions.

Q. I understand.

A. If you want me to do a straight line, I can do that.

Q. Yes, please do.

MR. SCHMIDT: Do you need to scale, Mr. Caloggero?

THE WITNESS: No.

MR. GARBER: You are using Exhibit 15?

MR. HOLZER: Fifteen. The very first one that they introduced.

MR. SCHMIDT: I think it's 15-A.

MR. HOLZER: Or A, yes.

THE WITNESS: I'm going to have to pause for a moment, if you don't mind.

Q. I'll see if I mind, if you give me the answer.

A. I'll say it's 70 feet short.

MR. GARBER: Seventy feet short?

A. Approximately. Again, the scale is not matching to --

MR. GARBER: The ruler you are using.

THE WITNESS: So maybe 300 feet approximately.

Q. Okay. So the record is if it were to, on Exhibit 15-A, if it were measured from the B location on the left side of the circle to the 365 marker, approximately 70 feet short of the 365 feet sight distance.

A. Correct.

Q. Also at the same time you have been to the site, I'm going to ask you more about that later.

A. Sure.

Q. But you have been to the site, exited the site, is that correct?

A. That's correct.

Q. The house directly across the street, have you been there in the evening?

A. I have not.

Q. Okay. So, there are some concerns about lights, but you haven't experienced that?

A. That is correct.

Q. Okay. And you do agree that as of today,

there are no prohibitions about how one exits, left or right?

A. The rules of the road say you are supposed to exit it to the right.

Q. Okay. I will show the Board pictures of where that is supposed to be, but not done.

A. That's existing non proposed.

Q. Right. Now, 11, I don't have any questions because you have already introduced that.

Number 12, if you look at that, this would be the physical location of, if we go back to 15-A and we go back to the car being located at B, basically, this is what that car would see, this picture Number 12, wouldn't it?

A. If a car were to be there, yes, approximately.

Q. And as a matter of fact, if a car were to be there, what does the State talk about in terms of how far out into a road or where that car has to be in order to look to the left? Do you understand the question?

A. Yes. We keep going back to a place where they

are not supposed to be turning from, so I'm not exactly sure what your point is.

Q. Did you take a picture of the right hand side of the circle where you have shown on 15-A to illustrate what the left turn would look like if you were coming out the right hand side and looked to the left? I haven't seen it.

A. I don't know if I have a picture of that or not. If I do, it's on my phone and I can always introduce it with a specific date on it.

Q. You haven't done it so far.

A. No, because I believe my aerial drawings signify what is actually out there with the existing egress.

Q. I understand. But you have also introduced these pictures and you are standing behind them even if though you didn't create them, and Number 12 really does show, if you are sitting on the left-hand side, what your sight distance is.

A. I am not showing that on Exhibit 12. I don't measure sight distance from an improper location. We

need to do a better job of telling them which side turns. Although the rules of the road state you are supposed to go the right.

Q. I understand that. You said that twice.

MR. SCHMIDT: Because you have asked him twice.

MR. HOLZER: Exactly. I thought it would be more.

MR. SCHMIDT: I am not shy.

Q. Now, look at Number 13. Number 13 is a successive picture to Number 12, is it not? Right?

A. Taken from a different location.

Q. Yes.

A. Yes.

Q. What location was that taken from?

MR. GARBER: When you say that, you are talking Exhibit 13?

MR. HOLZER: Yes.

A. It looks like it's taken from the driver's eye travelling the road.

Q. Yes, I agree with you. In other words, 12

shows a vehicle sitting there after one would pull out left or right and got to that point, 13 is what he would still see.

A. I still don't agree with what you said on 12, but 13 is what is in the road travelling towards the turn to the left heading south.

Q. Yes, yes. Even if you are pulled out, whether to the left or the right hand side of the circle, okay, even if you have done it correctly, according to you, then this is still what you would see when you looked at 12 and saw that vehicle sitting there?

MR. GARBER: Exhibit 13 is what you would see.

MR. HOLZER: Yes. That's what Number 12 sees when he gets to 13, right?

MR. GARBER: Thank you.

THE WITNESS: 12 is taken from a completely different angle, but 13 is taken, again, from my opinion, the driver's eye of the vehicle approaching that left hand turn.

Q. We hear you.

A. Okay.
Q. Going to Number 14, now, I am coming south --
A. Right.
Q. -- before the entrance to the facility, right?
A. Correct.
Q. And when I look at this picture, I see the entrance right after the third arrow and I'm coming down that direction and I'm looking so that I can him make a left turn into it, okay?
A. Okay.
Q. And I cannot see anything past the street sign, the stop sign and the bushes that are on the property across the street from the entrance, right? So, I can't see what's coming north?
A. That's correct.
Q. Okay. Is there any proposal to require that lady that owns the property to cut those trees down or take the fence down?
A. No, and if you recall, I testified to that earlier on Exhibit 16-B and I can run through that again to show exactly what you stated where depending

on the turn where someone would turn into the site, where the sight distance would be prohibited, if you are looking southbound and wanted to turn left into the site and we proffered the best location for a vehicle to turn left into the site without impacting the neighbor's driveway.

Q. So what you are saying is that this is improper site distance to make a left turn as it exists now.

A. I didn't say that.

MR. SCHMIDT: Objection. I withdraw.

Q. It's okay then?

A. Yes, sir. May I approach?

Q. We'll come back to that.

A. You are asking me a question, I want to point to the graphs I made.

Q. Go ahead, show me.

A. So today, vehicle one --

MR. HOLZER: I want the Board to see it.

MR. GARBER: What exhibit are you referring to?

THE WITNESS: Exhibit 16-C, I apologize for blocking everyone's view, but as you are coming southbound, as you state, and you come towards or past the what I'm going to call just a median or the monumental entrance, vehicle one is here just in the approximate area of the separation, that vehicle can see about 345 feet to a vehicle coming around the turn, which is plenty of time for that vehicle to turn left and it is not impacted at all by it the guard rail or the neighbor's fence.

So, the State Highway Administration asked, what happens if we move the access further to the north, and as you move the access, so potentially move the access further to the north, then where we have cars, orange car two and aqua blue car three --

Q. Right.

A. -- that is obstructed by this turn and the fence, you can only see 200 feet. That's why we have made a recommendation to maintain the existing access because it gives the safest location for a car to turn in based on the sight distance from the south.

MR. GARBER: So the existing access should be maintained because of the sight distance.

THE WITNESS: That's correct.

MR. GARBER: That's what you proposed.

THE WITNESS: That's what we proposed.

Q. So the exit would be moved to the new location and the exit would be left where it is?

A. Yes or no, again, all depends on the State Highway Administration but we have shown it can work from the existing access where it has worked for as many years as this house has been in place and then we showed a proposal if the State Highway would like to increase some sight distance that an exit could occur approximately 70 or 80 feet to the north where we can increase the sight distances to go to turn out, yes.

MR. GARBER: So if you were one would say given the artist's choice so to speak by the State Highway Administration to keep the existing or use the proposed alternative, is there one that you favor over the other?

THE WITNESS: A, they both work. B, this

exit does increase the sight distance.

MR. GARBER: You say this exit.

THE WITNESS: I'm sorry, the proposed exit would increase the sight distance looking left and right. But again, the first one is still safe, the second one is increased.

MR. GARBER: Your preference would be to split the entrance from the exit and have separate access points for both.

THE WITNESS: That increases the sight distance for outcome.

MR. GARBER: Is that correct?

THE WITNESS: Definitely.

MR. HOLZER: I have a question as to that, but not yet.

MR. GARBER: Sorry.

Q. Now, these are the pictures you introduced today?

A. Yes.

Q. And Number 15 is still a blind left turn. That's what you just finished testifying.

MR. SCHMIDT: Objection, that's not what he said.

A. Picture 15 is taken from a driver's view driving southbound on Harford Road north of Bonapart Avenue. I was testifying to potential access points and locations.

Q. Why are you putting these photographs in if they in effect are showing exactly opposite of what you are proposing?

A. This is what we are proposing. These are the photographs we are proposing. This picture like I signified before shows the chevron.

Q. Right?

A. It shows the access to Bonapart Avenue and it shows an overhead light.

Q. Right.

A. It doesn't show where you turn left into the site or the sight distance where you turn left into the site.

Q. In this picture 15, if your car is sitting down here by the telephone pole on the right hand

side, you've got better sight distance if you turn left?

A. Absolutely.

Q. That's what you said, right?

A. (Indicating.)

MR. GARBER: Did he answer?

THE WITNESS: Yes.

MR. GARBER: He was nodding his head.

Q. Let me make sure I don't have questions about the other documents. This Exhibit Number 18 with shark's fin, I love that one --

A. That's a new term.

Q. Why are we interested in that? What was your purpose in showing that? I wasn't sure what the purpose of showing it is. Is that where you are going to cut down trees or bushes or the State will?

A. May I approach again?

Q. Sure.

A. What we reviewed previously and what I have testified to previously is here, we have identified what I'm going to call the right of way.

MS. MURPHY: Which exhibit is that?

THE WITNESS: I'm sorry, 16-A, so, 16-A in that quadrant.

MR. GARBER: Looking at the same parcel on 16-A.

THE WITNESS: Correct. Typically, this orange line surrounding the property, which I guess is blue on the colored sheet of the colored exhibit --

MR. SCHMIDT: Eighteen.

THE WITNESS: Eighteen, that is what I am going to consider the road right of way, the right of way of the road zoned by the Maryland 145 and that's the area depicting that brush or weeds could be removed to not only increase the sight distance from our site but for all of Bonapart Avenue.

MR. GARBER: You are pointing to the green section of 16.

THE WITNESS: The green section between the road bed and the property line. This is showing that not only outside of what I'm considering the road right of way, beyond that, this parcel is also State

Highway Administration property.

MR. GARBER: Beyond?

THE WITNESS: Beyond the orange line in the shark fin. I love that term now, the shark fin. The shark fin is also State Highway Administration property. We have been identifying on the southbound side on the west side, that that area between the road and the property line is State Highway right of way and just found out this is also State Highway right of way in between.

Q. Perfect.

A. Did that help?

Q. A lot. Now, I ask you to go back to the sight distance example that you had which said you wanted to exit on the new exit, but you could still use the left side to enter.

A. Yes.

Q. Let's get back to that. Okay. Now, if one were to remove this green area that you've just described to the Board, would that not allow you to make a left turn better on the new exit and, let me,

you can answer all this together.

A. Okay.

Q. And if the State Highway Administration would permit you to make sure that they even encroached on to that property for purposes of creating sight distance, couldn't you actually move the entrance from where you are proposing it now on the existing site, couldn't you move and provide better sight distance to make both the exit and the entrance at that location?

MR. GARBER: At the proposed location, proposed exit location.

MR. HOLZER: Exactly.

A. So, there's two different things we need to review here for safety purposes. The vehicles approaching, the vehicle southbound approaching the stopped vehicle turning left in. So as cars are coming southbound from the roundabout down, we want to be able to give them sight distance as they are approaching the stopped vehicle turning left. But also, we also want to make sure these vehicles can see further enough ahead so they are not cutting somebody

off when they are turning left.

So, one has a sight distance of 345 feet --

MR. GARBER: To which point?

THE WITNESS: To the first vehicle coming around the turn, so the first visual sight distance --

MR. GARBER: Going northbound.

THE WITNESS: Southbound looking at the first northbound car coming up, but as you approach in the access between 1 and 2, vehicle two is showing about 190 feet --

MR. GARBER: To?

THE WITNESS: -- to a northbound vehicle due to the fence on the property.

MR. SCHMIDT: When you said the fence in the property, where?

THE WITNESS: Across the street to the neighbor's property on Bonapart Avenue, so we are in between. So could we locate, could we move an access between cars 1 and 2, whereas we see further down, I haven't looked at that in its entirety, but that would be the location somewhere between 1 and 2. One

provides very good inbound sight distance looking left, two does not, so we have to locate it somewhere in between. Now, I don't know how far in between but it should approach vehicle one in that view.

Q. What about at three?

A. At three, it's 190 feet. So, again, we are obstructed by the curb, the curb as well as the fence, neighbor's fence across the street, obstructing inbound sight distance.

Q. This is a very difficult site for even a traffic expert like yourself to be able to plot where to put an entrance and exit, is it not?

A. No, because A, existing works and B, we have moved one outbound exit to increase the sight distance.

Q. Okay.

A. And again, I want to be clear when you say sight distance, whether we have one car, 20 or 100 cars coming out of a location, if it's deemed safe per sight distance, then it's safe. Just because we are adding cars to that movement doesn't make it unsafe.

It's still the same sight distance, still the same maneuver, but now just adding more cars to it, that's all.

Q. And more drivers?

A. Correct, but it's still safe, still a safe access.

Q. That's your opinion?

A. That's my expert opinion.

Q. That's your expert opinion --

A. Yes.

Q. -- you think it's still safe?

A. Yes.

Q. And you even think that the existing entrance and exit is still safe?

A. I do, yes.

Q. All right. One of the questions apparently has been raised by your testimony that if someone is coming north, okay, coming around the turn --

A. North.

Q. -- coming around the turn?

MR. GARBER: Wait, wait, sounds like you

are talking about different directions. You are pounding south. He's pointing the opposite direction, north.

MR. HOLZER: I'm sorry.

MR. GARBER: It's almost counter intuitive but --

Q. Okay. If someone is coming north from this left hand corner of 16-B, okay, and it's going to turn into the entrance, is there a stopping distance for somebody following them? Is there any kind of distance required for a follower of the vehicle that's going to turn into the site?

A. May I look?

Q. Sure.

A. Typically, we use stopping sight distance but someone should be able to make that maneuver.

Q. I probably used the wrong term, but decision distance?

A. Decision sight distance.

Q. Yes.

A. Utilizing, I'm trying to answer your question,

I hope I'm going to try to answer it. If I'm not, please, as you do, ask me again. So stopping sight distance for someone traveling we'll say 40 miles per hour is 305 feet?

MR. GARBER: From what point to what point?

THE WITNESS: Well, from the point of decision where you are going to be required to stop, you need about 305 feet traveling 45 miles an hour to hit your brakes and stop.

MR. GARBER: So, if you were to see a car stopped and ready to turn into the site, that vehicle heading northbound but into the site, you would need 305 feet stopping sight distance as another vehicle traveling northbound approaching the site.

THE WITNESS: That's why I'm trying to understand the question so I can answer it properly. So that car is going to be turning the right into the site, I'm not sure.

Q. Let me make it easier. Suppose there were four cars, going the same way, going north, coming around the turn, all trying to make a right turn to

get into a site, to a religious ceremony, to a festival, to a funds raiser, whatever, there is a fifth car coming, what is the site distance or stopping distance for that person coming around this turn? Okay, you've got three or four cars coming out to make a right turn for an event.

A. You are saying if the cars are stopped in the middle of the road --

Q. If they are stopped in their lane of traffic northbound, what is the sight distance that one comes around this turn and then suddenly sees cars trying to get in?

A. So I give you three numbers, okay. At 30 miles an hour which is the advisory speed, it's 200 feet for a car to stop; at 35 miles per hour, it's 250 feet and at 40, it's 305 feet.

MR. GARBER: I'm sorry.

Q. Perfect?

A. If cars are stopped in the road which turning to the right. I see this as a what I would consider if, no matter what we do in the future, it's going to

be a free right turn, there's going to be no reason for a vehicle to stop, you know, quote, stop in the road as they traverse up the hill.

Q. Well, there may be a reason, pedestrian may be walking there, there may be somebody standing there taking tickets to get in, there may be somebody there that has broken down. I mean, there are a lot of different potential options. I just want to know having personally driven this road, if I came around this turn at appropriate speed, posted speed, and I saw vehicles trying to get into here for an event, okay, how much time would I have to stop? Is it relatively short sight distance time?

A. I think it's fine.

MR. GARBER: Just to make sure I got the numbers correct, you said 30 miles an hour you need 200 feet.

THE WITNESS: Stopping sight distance.

MR. GARBER: And at 35, 250.

THE WITNESS: Correct.

MR. GARBER: And at 40, 305.

THE WITNESS: And at 45, it's 360.

Q. What about 50 miles an hour? That's what is posted, I think.

A. It's posted 45. So, 45 is 360.

Q. And what about 50 miles per hour, which is five above the posted?

A. 425.

Q. How much?

A. 425 feet.

MR. GARBER: Which book are you referring to?

THE WITNESS: AASHTO, Policy of Geometric Designs of Highways and Streets, 2011, 68th edition. I think I introduced it last time.

MR. GARBER: Yes.

Q. If you moved the existing entrance 70 feet north, 70 feet up to where one of your alternatives was, up that way --

A. The entrance.

Q. Yes, the entrance, would that provide a better safety situation for the vehicles to stop?

A. It decreases the safety for the left turns in.

Q. But not for the ones going north, not for the ones that --

A. In my opinion it doesn't make the access safer, unless we can make other modifications to the north side of the road, which I am not the recommending. I don't want to touch anyone on the north, I don't want to touch anyone else's property besides State Highway Administration's.
