To All Bidders

This addendum is hereby made a part of the Proposal and the Special Provisions, and is hereby incorporated into the Contract. Should this addendum conflict with any portion of the Special Provisions, the Proposal, or any prior addenda, this addendum shall supersede and control.

Please note the attached changes, corrections, and/or information in connection with the contract and submit bids and be otherwise governed accordingly.

For Your Information

Additional notes on the Cox Creek DMCF: The contractor may place tracked equipment on the pier, but it must be sitting on crane mats and not the concrete pier. Pipe crossings are to be 4 to 1 slopes with at least 1' of crush & run gravel on top. Contractors are responsible for their own crossings and cannot make their own adjustments to existing pipe crossings belonging to other contractors. The ramp from the pier up to the top of the first dike (+36') at the lower end is 4% grade and about halfway up it is 9% grade. The ramp from the +36'-dike road up to the +60' dike road to the bump out is at 9% grade.

In the Proposal

Revised and attached to be inserted: Delete old page 151, Spurs (GX2) bid sheet and replace with new page 151, Spurs (GX2) bid sheet replacing item 9 – Total Cost For Spur Dredging Channels 1-8, unit of measure lump sum (LS) and quantity of 1 to read Total Cost For GX2.
